MASTER OF ARTS IN
APPLIED INDUSTRIAL/
ORGANIZATIONAL
PSYCHOLOGY (M.A.)

Format
This program is delivered residentially.

Purpose
The Master of Arts in Applied Industrial/Organizational Psychology is to train graduate level students in the knowledge, skills, and abilities needed for successful practice of organizational psychology principles in industry through rigorous training in research, theory, practical application and biblical integration.

Program Learning Outcomes
The student will be able to:

1. Appraise a job analysis in the context of the talent management process.
2. Evaluate practical organizational issues with a methodology that is informed by the principles and theories derived from industrial and organizational psychology research.
3. Design organizational interventions that are based on the scientist-practitioner model in order to improve organizational structures and processes.
4. Analyze organizational data using statistical applications which are designed for consumption by organizational stakeholders.
5. Evaluate organizational issues through a biblical lens which will inform their actions, strategies and decisions when working with and in organizations.

Program Specific Admissions Procedures
In addition to the General Admission Procedures outlined in this Catalog, applicants to the Master of Arts in Applied Industrial/Organizational Psychology must have:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.).
2. An undergraduate cumulative GPA of at least 2.5 (on a 4.00 scale).
3. Official transcripts must be provided before admission. Mail official college transcripts (sealed, unopened copy).
4. Undergraduate Prerequisites: 12 hours of psychology which must include general psychology, statistics, research methods, and a psychological measurements course.

Transfer of Credit
Students may transfer up to 18 hours of coursework into the Applied Industrial/Organizational Psychology program. For a transferred course to replace a Liberty University course, the following requirements must be met:

1. The school at which the course was taken must be appropriately accredited.
2. The course credit must be at least three semester hours or five quarter hours.
3. The student must have earned a grade of B- or better in the course.
4. The course must overlap one of Liberty’s courses by at least 80%.

Courses

PSYC 510 Research Methods and Statistics in Psychology I 3 Credit Hour(s)
Overview of research methodology and statistical techniques for psychological research. Emphasis on the three basic types of research - descriptive, predictive, and experimental. Also, addresses ethics in research. A computer package is used for analysis of data. (Crosslisted with MSPS 500).
