Dean, School of Engineering

Carl Pettiford, B.S., M.S., Ph.D.
Associate Dean, School of Engineering

Program Directors

A listing of program directors can be viewed on the Program Director webpage.

Purpose

The School of Engineering functions with the purpose of teaching Christ-centered men and women with the values, knowledge, and skills critical for impacting engineering and the associated technologies for tomorrow's world. Established in the fall of 2007, the school has the long-term vision of creating and maintaining nationally recognized technology-related degrees, centers, institutes, and initiatives in education, research, training, and missions so that our Christ-centered graduates can have the greatest impact on tomorrow's world.

The school offers degrees that provide students with the skills, knowledge, and understanding of engineering necessary for impacting tomorrow's socio-technological culture.

Programs

- Doctor of Philosophy in Engineering (Ph.D.)
- Master of Science in Engineering (M.S.)
- Master of Science in Engineering Management (M.S.)
