Program Offered in Online Format

Master of Arts in Applied Industrial/Organizational Psychology (M.A.)

Format

This program is delivered residentially.

Purpose

The Master of Arts in Applied Industrial/Organizational Psychology is to train graduate level students in the knowledge, skills, and abilities needed for successful practice of organizational psychology principles in industry through rigorous training in research, theory, practical application and biblical integration.

Program Learning Outcomes

The student will be able to:

1. Appraise a job analysis in the context of the talent management process.
2. Evaluate practical organizational issues with a methodology that is informed by the principles and theories derived from industrial and organizational psychology research.
3. Design organizational interventions that are based on the scientist-practitioner model in order to improve organizational structures and processes.
4. Analyze organizational data using statistical applications which are designed for consumption by organizational stakeholders.
5. Evaluate organizational issues through a biblical lens which will inform their actions, strategies and decisions when working with and in organizations.

Program Specific Admissions Procedures

In addition to the General Admission Procedures outlined in this Catalog, applicants to the Master of Arts in Applied Industrial/Organizational Psychology must have:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.);  
2. An undergraduate cumulative GPA of at least 2.5 (on a 4.00 scale). 
3. Official college transcripts must be provided before admission. Mail official college transcripts (sealed, unopened copy).
4. Undergraduate Prerequisites: 12 hours of psychology, which must include general psychology, statistics, research methods, and psychological methods.

Transfer of Credit
Students may transfer up to 18 hours of coursework into the Applied Industrial/Organizational Psychology program. For a transferred course to replace a Liberty University course, the following requirements must be met:

1. The school at which the course was taken must be appropriately accredited.
2. The course credit must be at least three semester hours or five quarter hours.
3. The student must have earned a grade of B- or better in the course.
4. The course must overlap one of Liberty’s courses by at least 80%.

Courses related to psychology and counseling that meet all but the last criterion may be transferred as elective courses. Course work must have been completed within the previous 10 years. Transfer credits will not be accepted for the following courses: PSYC 520.

Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits. Liberty University course work that is more than 10 years old must be repeated.

Graduation Requirements
To graduate, students in the M.A. in Applied Industrial/Organizational Psychology program must:

1. Complete a minimum of 36 credit hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. 3.0 GPA
4. No grades lower than a B- may be applied to the degree.
5. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
6. Liberty course work that is more than ten (10) years old must be repeated. Students are required to repeat the course if it has exceeded the age limit.
7. The degree must be completed within five (5) years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Resident Only
- Applied Industrial/Organizational Psychology (M.A.) (p. 420)

Career Opportunities
- Human Resources Manager
- Industrial-Organizational Psychologist
- Organizational Consultant
- Personnel Analyst
- Research Consultant
- Talent Developer
- Workforce Manager

Courses
PSYC 510 Research Methods and Statistics in Psychology I
3 Credit Hours
Overview of research methodology and statistical techniques for psychological research. Emphasis on the three basic types of research - descriptive, predictive, and experimental. Also, addresses ethics in research. A computer package is used for analysis of data. (Crosslisted with MSPS 500).

Offered: Online

PSYC 515 Research Methods and Statistics in Psychology II
3 Credit Hours
Prerequisites: PSYC 510
This course examines advanced research methodology and statistical techniques for psychological research. This course equips students to design, conduct, and present research using APA formatting guidelines. A computer software package is used for analysis of data. (Crosslisted with MSPS 505)

Offered: Online

PSYC 520 Psychology and Christianity
3 Credit Hours
Exploration of the relationship between psychological science and Christian faith. Topics include philosophical foundations and models of conceptualizing the relationship between the disciplines. (Crosslisted with MSPS 521)

Offered: Online

PSYC 545 Test Construction/Validation
3 Credit Hours
Prerequisites: PSYC 510
Discussion of principles to produce and improve tests and assessments of knowledge, skills, and other psychological constructs. A focus on techniques for evaluating existing measures for reliability and validity evidence and guidelines for the rigorous development of new instruments.

Applied Industrial/Organizational Psychology (M.A.)

- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No more than 2 grades of C may be applied to the degree (includes grades of C+ & C-)
- No grade of D or below may be applied to the degree (includes grades of D+ & D-)
- Liberty University course work that is more than 10 years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

Offered in Online Format

Master of Science in Psychology (M.S.)

Format
This program is delivered residentially.

Purpose
The Master of Science in Psychology is designed to give students the knowledge and skills necessary to use the principles and research of human behavior to solve real world problems. The study of psychology is consistent with and complementary to Liberty University's philosophy of education, where God, the infinite source of all truth, has shown us that truth through Scripture, nature, history and above all, in Christ. This notion provides for the discovery of truth about human behavior through the use of the scientific method. Additionally, pursuit of an M.S. in Psychology in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

All applicable prerequisites must be met

Offered in Online Format

Applied Psychology (M.A.) - Industrial/Organizational Psychology

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.
aligns students with the University’s Mission Statement of encouraging a commitment to the Christian life and all of its virtues, sensitivity to the needs of others, social responsibility and the active communication of the Christian faith that leads others to faith in Jesus Christ as their own personal Savior.

Program Learning Outcomes
The student will be able to:

1. Analyze literature within the discipline of psychological science, including major concepts, theories, methodologies, and empirical findings.
2. Critique and conduct social scientific research.
3. Apply psychological research to practical problems of behavior and mental processes.
4. Evaluate psychological research in the context of biblical thought.

Program Specific Admission Procedures
In addition to the General Admission Procedures outlined in this Catalog, applicants to the Master of Science in Psychology must have:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.).
2. An undergraduate cumulative GPA of at least 3.00 (on a 4.00 scale).
3. Official transcripts must be provided before admission. Mail official college transcripts (sealed, unopened copy).
4. Recommendations: Submit contact information for two recommendations. The recommendations should come from former college professors; however, recommendations from supervisors are acceptable from students who have been out of school for a substantial amount of time.
5. Graduate Record Examination (GRE): The applicant must have minimum scores of 151 on the Verbal portion, 152 on the Quantitative portion, and 3.5 on the analytic writing portion.

Applicants meeting all of the following requirements may be admitted on Academic Caution:

• An undergraduate cumulative GPA of 2.75 to 2.99 (on a 4.00 scale).
• Graduate Record Examination (GRE), with a GRE Verbal score of 149 to 150 and a GRE Quantitative score of 150 to 151.

Prerequisites Requirements
Students must complete 12 credit hours in undergraduate psychology which must include general psychology, statistics, research methods, and one additional psychology course. These courses must be completed prior to enrollment in any graduate PSYC course.

Transfer of Credit
Students may transfer up to 18 hours of coursework into the Psychology program. For a transferred course to replace a Liberty University course, the following requirements must be met:

1. The school at which the course was taken must be appropriately accredited.
2. The course credit must be at least three semester hours or five quarter hours.

3. The student must have earned a grade of B or better in the course.
4. The course must overlap one of Liberty's courses by at least 80%.

Courses related to psychology and counseling that meet all but the last criterion may be transferred in as elective courses. Course work must have been completed within the previous five (5) years. Transfer credits will not be accepted for the following courses: PSYC 520 Psychology and Christianity (3 c.h.) and PSYC 690 Master’s Thesis (3 c.h.).

Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits. Liberty University course work that is more than five (5) years old must be repeated.

Graduation Requirements
To graduate, students in the M.S. in Psychology program must:

1. Complete a minimum of 36 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Have completed their required curriculum with a cumulative GPA of 3.0 or better
4. No grades lower than a B- may be applied to the degree.
5. For information regarding the repeat policy, please refer to "Course Repeat Policy" in the Academic Information and Policies section of this Catalog.
6. Liberty course work that is more than five (5) years old must be repeated. Students are required to repeat the course if it has exceeded the age limit.
7. The degree must be completed within five (5) years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Residential Only

• Evaluation and Assessment Manager
• Program Coordinator/Director
• Research and Data Analyst

Courses

PSYC 510 Research Methods and Statistics in Psychology I

Overview of research methodology and statistical techniques for psychological research. Emphasis on the three basic types of research - descriptive, predictive, and experimental. Also, addresses ethics in research. A computer package is used for analysis of data. (Crosslisted with MSPS 500).

Offered: Online
PSYC 512 Social Psychology 3 Credit Hours
Examination of scientific literature involving individual behavior in relation to social contexts. Topics include attribution, social perception, socialization, attitude formation/change, group dynamics, prosocial behavior, aggression, social influence, and applications. (Crosslisted with MSPS 513)
Offered: Online

PSYC 515 Research Methods and Statistics in Psychology II 3 Credit Hours
Prerequisites: PSYC 510
This course examines advanced research methodology and statistical techniques for psychological research. This course equips students to design, conduct, and present research using APA formatting guidelines. A computer software package is used for analysis of data. (Crosslisted with MSPS 505)
Offered: Online

PSYC 516 Industrial/Organizational Psychology 3 Credit Hours
Exploration of current theory and research in industrial/organizational psychology. Focus on talent acquisition and management, leadership, job attitudes, and organizational development. (Crosslisted with MSPS 526)
Offered: Online

PSYC 520 Psychology and Christianity 3 Credit Hours
Exploration of the relationship between psychological science and Christian faith. Topics include philosophical foundations and models of conceptualizing the relationship between the disciplines. (Crosslisted with MSPS 521)
Offered: Online

PSYC 525 Developmental Psychology 3 Credit Hours
Advanced study of developmental processes across the lifespan. Examination of theories and current research in physical, mental, emotional, and social domains. Special consideration given to varying social situations and cultural contexts. (Crosslisted with MSPS 540)
Offered: Online

PSYC 545 Test Construction/Validation 3 Credit Hours
Prerequisites: PSYC 510
Discussion of principles to produce and improve tests and assessments of knowledge, skills, and other psychological constructs. A focus on techniques for evaluating existing measures for reliability and validity evidence and guidelines for the rigorous development of new instruments.

PSYC 565 Psychology of Learning 3 Credit Hours
Advanced study of associative learning. Special emphasis on instrumental conditioning, motivation, and affect as they relate to the field of developmental psychology. (Crosslisted with MSPS 570)
Offered: Online

PSYC 575 Cognitive Psychology 3 Credit Hours
Discussion of theory and research in cognitive psychology. Topics include attention, memory, language, learning, reasoning, and decision-making. (Crosslisted with MSPS 531)
Offered: Online

PSYC 620 Intervention and Behavior Support 3 Credit Hours
Discussion of traditional and contemporary intervention strategies. Special emphasis on evidence-based practices and application to real-world scenarios. (Crosslisted with MSPS 625)
Offered: Online

PSYC 621 Child Psychology 3 Credit Hours
Prerequisites: PSYC 525
Advanced study of developmental processes from conception until adolescence. Focus on contemporary research in biological, cognitive, and socio-emotional development. (Crosslisted with MSPS 627)
Offered: Online

PSYC 631 Adolescent Psychology 3 Credit Hours
Prerequisites: PSYC 525
Advanced study of developmental processes during adolescence. Focus on contemporary research in biological, cognitive, and socio-emotional development. (Crosslisted with MSPS 637)
Offered: Online

PSYC 635 Adult Psychology 3 Credit Hours
Prerequisites: PSYC 525
Advanced study of developmental processes in adulthood. Focus on contemporary research in various domains, such as work, marriage and family, personality, cognition, and physical change. (Crosslisted with MSPS 647)
Offered: Online

PSYC 636 Geropsychology 3 Credit Hours
Prerequisites: PSYC 525
Review of empirical literature in gerontology. Topics include cognition, personality and adjustment, physical change, social roles, and more. (Crosslisted with MSPS 657)
Offered: Online

PSYC 640 Organizational Behavior and Development 3 Credit Hours
Prerequisites: PSYC 516 or PSYC 716
Discussion of organization theories and organizational change. Consideration also given to group structure and processes. (Crosslisted with MSPS 646)
Offered: Online
PSYC 642 Human Resource Training and Development 3 Credit Hours

**Prerequisites:** PSYC 516

Evaluation of techniques for training and motivating personnel. Focus on design, implementation, and evaluation of training, continuing education, and staff development programs, looking to organizational improvement. (Crosslisted with MSPS 650)

**Offered:** Online

PSYC 644 Organizational Ethics 3 Credit Hours

**Prerequisites:** PSYC 516

Exploration of ethical/legal issues confronted by organizations, and discussion of ethical theories pertaining to decision-making and problem solving in organizations. Special consideration given to how Christian faith informs ethics. (Crosslisted with MSPS 655)

**Offered:** Online

PSYC 645 Developmental Psychopathology 3 Credit Hours

Exploration of developmental pathways, including specific disorders and their contexts, and risk/resilience. Special attention devoted to normal and deviant development, and principles of adaptive functioning. (Crosslisted with MSPS 610)

**Offered:** Online

PSYC 648 Leadership and Motivation 3 Credit Hours

**Prerequisites:** PSYC 516 or PSYC 716

Review of psychological theories of and research on motivation and their application to work. Highlights how leadership relates to motivation, workplace climate and attitudes, and group performance. (Crosslisted with MSPS 658)

**Offered:** Online

PSYC 651 Personnel and Performance Management 3 Credit Hours

**Prerequisites:** PSYC 516 or PSYC 716

Examination of personnel psychology. Topics include workforce planning, recruitment and selection of employees, performance criteria and appraisal, job analysis, job evaluation, and compensation. (Crosslisted with MSPS 660)

**Offered:** Online

PSYC 676 Developmental Neuropsychology 3 Credit Hours

**Prerequisites:** PSYC 525

Exploration of the relationship between brain and behavior across the lifespan. Special emphasis on contemporary research and issues in the field. (Crosslisted with MSPS 580)

**Offered:** Online

PSYC 689 Thesis Proposal and Research 3 Credit Hours

This course will allow a student to work individually with the director of his/her thesis.

**Offered:** Online

PSYC 690 Master’s Thesis 3 Credit Hours

Research on approved topic under direction of thesis committee with chair approval. (Crosslisted with MSPS 691)

**Offered:** Online

### Psychology (M.S.) - Developmental Psychology

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Program Offered in Online Format
School of Communication & Digital Content

Administration
Vice Provost
Founding Dean, School of Behavioral Sciences
Interim Dean, School of Communication & Digital Content
Professor of Counseling and Practical Theology
Kevin Rawls, B.S., M.A.R., M.B.A., Ph.D.
Interim Online Dean, School of Communication & Digital Content
Stuart H. Schwartz, B.A., M.A., M.A., Ph.D.
Associate Dean, School of Communication & Digital Content
Professor of Strategic and Personal Communication

Program Directors
A listing of program directors can be viewed at http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389.

Purpose
The School of Communication & Digital Content, comprising the Departments of Digital Media and Journalism, and Strategic and Personal Communication, offers graduate degrees in order to prepare scholars and practitioners in the execution and theory of the communication field. Degrees include Strategic and Personal Communication: M.A. in Communication, and M.A. in Strategic Communication, M.A. in Promotion & Video Content, M.S. in Social Media Management.

Graduation Requirements
The faculty may change the requirements for the receipt of the degrees listed below, as well as the courses offered, at any time. A student who does not break enrollment will be subject to the graduation requirements of the Catalog at the time of the student’s enrollment.

Breaking Enrollment
For resident students, a break in enrollment occurs when the student fails to enroll in either the Fall or Spring semesters. For online students, a break in enrollment occurs when the student fails to enroll in at least one course during an academic year. The academic year begins with the start of the fall semester and ends with the conclusion of the summer term. Students who break enrollment must apply for readmission and will be subject to the requirements of the Catalog and degree requirements in effect at the time of their readmission.

Department of Strategic & Personal Communication
• Master of Arts in Strategic Communication (M.A.) (p. 439)
• Master of Science in Social Media Management (M.S.) (p. 441)

Courses

STCO 526 Strategic Storytelling 3 Credit Hours
Investigative journalism in the digital age.

STCO 532 Media Technologies & Communication Strategies 3 Credit Hours
This course examines established and emerging media technologies used by various organizations in communicating specific messages to diverse audiences.

STCO 533 Video, Social & Mobile Promotion 3 Credit Hours
This course explores the creation & use of disruptive video-intensive social & mobile integrated marketing strategies.

STCO 534 Strategic Media Analysis 3 Credit Hours
Analysis of the use of sight and sound to affect audiences.

STCO 546 Effective Media Analysis 3 Credit Hours
Using social media platforms to build a competitive advantage. Involves extensive integration and application of social media technologies.

STCO 550 Best Practices: Transforming the Digital Organization 3 Credit Hours
Lead digitally-driven organizations to extraordinary growth in both for-profit & non-profit sectors.

STCO 622 Strategic Organizational Communication 3 Credit Hours
Analysis of theories and practices that assist individuals in success in organizations. Students develop the ability to add value to employing organizations and enhance individual careers.

STCO 638 Video Storytelling 3 Credit Hours
How to create and use affective video narratives to strategically move consumers and other viewers through online digital media.

STCO 639 Transmedia Storytelling 3 Credit Hours
Principles and practice to strategically manage digital interactive and Transmedia organizations.

STCO 648 Setting Social & Interactive Goals 3 Credit Hours
The use of social, mobile and online benchmarking and metrics in maximizing social media strategy and growing a customer/audience base.

STCO 658 Strategic Communication Campaigns for the Digital Age 3 Credit Hours
An exploration of the use of integrated marketing communication for strategic movement of organizations, products and services toward growth.

STCO 670 Challenge Examination 3 Credit Hours
Capstone written challenge.

STCO 681 New Beginnings: Research, Insight, and Application 3 Credit Hours
This course provides the student with a personalized career-oriented framework for successful completion & application of this graduate program.

STCO 690 Thesis Defense 3 Credit Hours
Intended to demonstrate a student’s ability to carry out original research using one of three class research methods: historical-critical (qualitative), descriptive (qualitative and quantitative), or experimental (quantitative). Thesis may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field.

STCO 691 Project 3 Credit Hours
Project may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field. Demonstrates the ability of a student to conduct research and exhibit expertise in communication.

Doctor of Philosophy in Communication (Ph.D.)

Purpose
The Ph.D. in Communication is designed to prepare competent researchers, effective leaders, and skilled practitioners with a biblical worldview who will model high standards and assume leadership roles within various organizations both for-profit and non-profit in the context of the fields of communication. Researchers and practicing leaders in this field are seen as those who assume a role in shaping the future direction of policies, goals, and objectives within a communication setting, whether in academic, corporate or church-affiliated settings.

Program Learning Outcomes
The student will be able to:

1. Create effective communication solutions and applications using qualitative and quantitative tools.
2. Analyze theoretical and applied concepts based upon research and knowledge of communication fields.
3. Conduct original research that adds to the applied knowledge base of communication fields.
4. Integrate communication concepts, solutions and applications with a Christian worldview.

Program Specific Admission Procedures
1. Conferred Master’s degree from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.).
2. Applicants should hold a 3.0 GPA for graduate study.
3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer Credit
Students may transfer up to 15 credit hours of graduate-level courses in communication from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-; and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
In addition to other regulations governing graduation as stated in this Catalog, Ph.D. in Communication graduates must:
1. Complete 60 total hours.
2. A minimum of 45 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty University.
3. A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to degree.
4. 3.0 GPA
5. No grades lower than B- may be applied to the degree.
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within seven years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Total Hours 33

All applicable prerequisites must be met

Graduation Requirements

- Complete 33 hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
• No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
• No grade of D or below may be applied to the degree (includes grades of D+ & D-)
• Degree must be completed within 5 years
• Liberty University course work that is more than 10 years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit
• Submission of Graduation Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format
Master of Arts in Strategic Communication (M.A.)

Purpose
The residential and online Master of Arts in Strategic Communication, a 33-credit-hour program, offers a professional curriculum that emphasizes the principles and practices needed to succeed in the great variety of careers related to growing organizations in the digital communication age. It is designed for all levels of education: for those holding an undergraduate degree who wish to build and/or enhance promotional skills; for continuing education and working adults who wish to pursue a graduate degree with integrated marketing communications at its core; and for those pursuing educational careers who want greater opportunity through courses that link theory and technique. Students are pushed to gain the skills necessary, through hands-on digital and project settings, to enhance their current career or begin a new one.

Program Learning Outcomes
The student will be able to:
1. Critically analyze and apply strategic communication principles and practices based on their knowledge of the literature of the discipline.
2. Formulate and apply a working knowledge of the strategic and integrated marketing communication tools and techniques.
3. Integrate strategic communication principles and professional practices with a Christian Worldview.

Program Specific Admission Procedures
In addition to the general admission requirements, specific admission procedures to the M.A. in Strategic Communication are as follows:
1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. Applicants should hold a 2.5 GPA for undergraduate study. Applicants with a GPA of 2.0 to 2.99 (on a 4.00-point scale) may be considered for enrollment in the program on a Cautionary basis.
3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer Credit
Students may transfer up to 15 credit hours of graduate-level courses in communication from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B; and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
In addition to other regulations governing graduation as stated in this Catalog, M.A. in Strategic Communication graduates must:
• Complete 33 total hours.
• A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
• 3.0 GPA
• No more than two grades of C may be applied to the degree (includes grades of C+ & C-).
• No grades of D or below may be applied to the degree (includes grades of D+ & D-).
• For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
• Degree must be completed within 5 years.
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Program of Study
Delivery Format: Residential and Online
• Strategic Communication (M.A.) (p. 440)

Career Opportunities
• Advertising and Public Relations
• Business Marketing
• Communication Analyst
• Communications Manager/Director
• Corporate Communications
• Public Relations Consulting
• College or University Professor

Courses
STCO 526 Strategic Storytelling 3 Credit Hours
Investigative journalism in the digital age.

STCO 532 Media Technologies & Communication Strategies 3 Credit Hours
This course examines established and emerging media technologies used by various organizations in communicating specific messages to diverse audiences.

STCO 533 Video, Social & Mobile Promotion 3 Credit Hours
This course explores the creation & use of disruptive video-intensive social & mobile integrated marketing strategies.

STCO 534 Strategic Media Analysis 3 Credit Hours
Analysis of the use of sight and sound to affect audiences.
STCO 546 Effective Media Analysis 3 Credit Hours
Using social media platforms to build a competitive advantage. Involves extensive integration and application of social media technologies.

STCO 550 Best Practices: Transforming the Digital Organization 3 Credit Hours
Lead digitally-driven organizations to extraordinary growth in both for-profit & non-profit sectors.
Offered: Resident and Online

STCO 562 Using Emerging Trends in Strategic Communication 3 Credit Hours
Developing the ability to grow organizations through online market-making and strategy. Hands-on experience with radical new digital and interactive tools for achieving relationships and spreading ideas.

STCO 622 Strategic Organizational Communication 3 Credit Hours
Analysis of theories and practices that assist individuals in success in organizations. Students develop the ability to add value to employing organizations and enhance individual careers.

STCO 638 Video Storytelling 3 Credit Hours
How to create and use affective video narratives to strategically move consumers and other viewers through online digital media.
Offered: Online

STCO 639 Transmedia Storytelling 3 Credit Hours
Principles and practice to strategically manage digital interactive and Transmedia organizations.

STCO 648 Setting Social & Interactive Goals 3 Credit Hours
The use of social, mobile and online benchmarking and metrics in maximizing social media strategy and growing a customer/audience base.
Offered: Online

STCO 658 Strategic Communication Campaigns for the Digital Age 3 Credit Hours
An exploration of the use of integrated marketing communication for strategic movement of organizations, products and services toward growth.

STCO 670 Challenge Examination 3 Credit Hours
Capstone written challenge.

STCO 681 New Beginnings: Research, Insight, and Application 3 Credit Hours
This course provides the student with a personalized career-oriented framework for successful completion & application of this graduate program.
Offered: Resident and Online

STCO 690 Thesis Defense 3 Credit Hours
Intended to demonstrate a student's ability to carry out original research using one of three class research methods: historical-critical (qualitative), descriptive (qualitative and quantitative), or experimental (quantitative). Thesis may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field.

STCO 691 Project 3 Credit Hours
Project may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field. Demonstrates the ability of a student to conduct research and exhibit expertise in communication.

Strategic Communication (M.A.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Master of Science in Social Media Management (M.S.)

Purpose
The Master of Science in Social Media Management, a 33-credit-hour program, provides students with strategic social media promotion and management expertise, such that it will provide them with a competitive edge in the employment market-both for-profit and non-profit-and add value to their careers.

Program Learning Outcomes
The student will be able to:

1. Critically analyze and apply social media theory and scholarship based on their knowledge of the literature of the discipline.
2. Formulate and apply a working knowledge of the social media promotion and interactive content toolbox.
3. Integrate social media communication principles and practices with a Christian Worldview.

Program Specific Admission Procedures
1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. Applicants should hold a 2.50 GPA for undergraduate study. Applicants with a GPA of 2.50 to 2.99 (on a 4.00-point scale) may be considered for enrollment in the program on a Cautionary basis.

Transfer Credit
Students may transfer up to 15 credit hours of graduate-level courses in communication from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-; and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
In addition to other regulations governing graduation as stated in this Catalog, M.S. in Social Media Management graduates must:

- Complete 33 total hours.
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
- 3.0 GPA
- No more than two grades of C may be applied to the degree (includes grades of C+ & C-).

Senior Assistant Dean, Residential Programs and Licensure
Professor of Education

Program Directors
A listing of program directors can be viewed at http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389.

Purpose
The School of Education (SOE) is committed to providing the highest quality Christian education based on the principles of God's Word. Our school, by virtue of its commitment to strengthening the mind, body and soul, educates the whole person as God created us. The school offers programs to prepare graduate students for careers in teaching, school administration, and more.

Excellent teachers and school leaders are an invaluable asset to the home, church, community, and nation. The Licensure Programs at Liberty are designed to provide programs of study and pre-service experiences that will foster excellence and stimulate improvements in teaching and leadership practices in Christian, public, and private schools. The programs are designed for teacher candidates and school leaders who are preparing to work in kindergarten, elementary, and middle school, as well as high school and college settings. Those wishing to pursue careers in middle school, or high school teaching may do so in the following areas: biology, business, computer science, English, family and consumer sciences, history/social sciences, and mathematics. Comprehensive licensure may be completed in the following areas: music (vocal or instrumental), theatre, health/physical education, Spanish, special education, and teaching English as a second language.

The following disclaimer pertains to Liberty’s online Education Licensure/Certification programs from the Kentucky Council on Postsecondary Education:

Please be advised that our educator preparation programs are not accredited in Kentucky by the Education Professional Standards Board and are not recognized for initial, additional, or renewal of certification or salary enhancement (rank change) for K-12 educators in Kentucky. For more information, please visit the Education Professional Standards Board’s website at http://www.epsb.ky.gov/.

• Master of Arts in Teaching (M.A.T.) - 45 hours (p. 539)
• Master of Education (M.Ed.) (p. 551)

Courses

EDUC 500 Learning Theory 3 Credit Hours
An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

EDUC 501 Advanced Child Development 3 Credit Hours
An examination of physical, cognitive, spiritual and social/emotional development, and guidance of a young child.

EDUC 504 Historical and Philosophical Foundations of Education 3 Credit Hours
A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 507 Educational Statistics 3 Credit Hours
Prerequisites: EDUC 506 and Background Check Receipt with a score of 5
An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

EDUC 518 Educational Research and Assessment 3 Credit Hours
Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

EDUC 521 Foundations of Exceptionality 3 Credit Hours
Prerequisites: EDUC 500
A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

EDUC 523 Principles of Behavior Management 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 524 Collaborating for Successful Inclusive Classrooms 3 Credit Hours
Prerequisites: EDUC 500
A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.

EDUC 525 Collaborating for Successful Transitions 3 Credit Hours
Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.

EDUC 526 Principles and Practices in Gifted Education 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5 and EDUC 521
Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5 and EDUC 526
This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 528 Communication, Language and Sensory Aspects for Autism 3 Credit Hours
Prerequisites: EDUC 527 and Background Check Receipt with a score of 5
This course provides students with an overview of the components of communication and strategies to increase an individual’s communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.
EDUC 530 Teaching Mathematics 3 Credit Hours

Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

EDUC 531 Teaching the Natural and Social Sciences 3 Credit Hours

Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

EDUC 533 Teaching Writing Across the Curriculum 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.

EDUC 535 Secondary Instructional Procedures 3 Credit Hours

Prerequisites: (EDUC 500 or EDUC 501) and Background Check Clearance with a score of 5

A course in secondary methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

EDUC 536 Sec Instructional Procedures P 1 Credit Hour

Prerequisites: EDUC 500 or EDUC 501 and Background Check Receipt with a score of 5

Micro-teaching will be used as a means of providing an opportunity for students to model and role play appropriate teaching methods and activities in the secondary school. Candidates will be required to observe in secondary classrooms, prepare a lesson, teach the lesson, and evaluate the experience.

EDUC 539 Current Issues in Content Areas 3 Credit Hours

An examination of current content standards in a subject area. Research in the subject area will enhance content knowledge in preparation for content assessment required for teachers.

EDUC 540 Historical Perspectives in Urban Education 3 Credit Hours

An introduction to urban education and contemporary urban life in the United States of America. Candidates will examine educational issues in urban communities and learn strategies for developing partnerships between home, school, and community.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 542 Culturally Responsive Teaching 3 Credit Hours

An introduction to the culturally responsive teaching pedagogy that acknowledges, responds to, and celebrates cultural differences and offers equitable educational access to students from all cultural backgrounds. Students will explore the dynamics of race, class, and culture and how they affect diverse school populations.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 543 Urban Schools and Communities 3 Credit Hours

The social context of urban communities is tied to the success of urban schools. This course will analyze the connection between urban schools and communities and provide strategies for working with families and community stakeholders to advocate for children and improve educational outcomes for students from diverse backgrounds.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 544 Research in Urban Education 3 Credit Hours

An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 547 The Differentiated Classroom 3 Credit Hours

An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 550 Directed Practicum 6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 551 Comparative Educations 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5
EDUC 554 Reading and Language Acquisition 3 Credit Hours

Prerequisites: (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5

A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours

Prerequisites: (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 562 Introduction to Higher Education 3 Credit Hours

This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.

Offered: Online

EDUC 571 Curriculum Fundamentals 3 Credit Hours

An introduction to basic concepts and issues related to curriculum design, development, change and evaluation.

Note: To be taken the semester directly before student teaching or during student teaching.

EDUC 588 Practicum in Education I: External 0 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 591 Student Teaching II: Local 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 592 Student Teaching I: External 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 593 Student Teaching II: External 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 598 Field Experience Practicum 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.

Offered: Online

EDUC 600 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 601 Professional Development in Middle Grades Education 3 Credit Hours

This class will heighten Middle Grade Educators’ understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

Registration Restrictions: Background Check Required.
EDUC 602 Young Adolescents, Schools and Communities 3 Credit Hours
An overview of the characteristics and issues related to transescence and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher’s interaction with middle school students and families.

Registration Restrictions: Background Check Required.

EDUC 603 Comparative Education 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

Offered: Resident

EDUC 604 Foundations of Education 3 Credit Hours
This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

Registration Restrictions: Background check.

EDUC 606 Tests and Measurements 3 Credit Hours
Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)

EDUC 608 Technological Appl in Educ Res 3 Credit Hours
Prerequisites: EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5

EDUC 618 Applications of Educational Research 3 Credit Hours
Prerequisites: EDUC 518 and Background Check Receipt with a score of 5
Principles and techniques in the utilization of research methods to solve problems and answer questions in educational settings. This course requires completion of a major research project, along with demonstration of skills is using technology as a tool in qualitative and quantitative educational research and assessment.

EDUC 620 Organization and Design of Gifted Education Programs 3 Credit Hours
Candidates will examine model programs for gifted students that include organizational strategies for heterogeneous and homogeneous groupings. The study will include programs that are field specific, integrated content, and extracurricular models. Strategies for securing funding for gifted programs will be explored.

EDUC 622 Educational Assessment and Intervention 3 Credit Hours
A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

Registration Restrictions: Background Check Required.

EDUC 623 Principles of Behavior Management 3 Credit Hours
An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

Registration Restrictions: Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours
This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student’s going into the general education classrooms and community settings.

Offered: Online

EDUC 625 Content Instructional Procedures 3 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)
A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours
This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 627 Reading and Research in Gifted Education 3 Credit Hours
Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.
EDUC 628 Communication, Language and Sensory Aspects for Autism  
3 Credit Hours

This course provides students with an overview of the components of communication and strategies to increase an individual’s communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

Registration Restrictions: Background check required.

EDUC 629 Technology and Diversity  
3 Credit Hours

This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

Registration Restrictions: Background Check Receipt.

EDUC 630 Technology Practices for Instructional Improvement  
3 Credit Hours

This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning  
3 Credit Hours

An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of education technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction  
3 Credit Hours

A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning  
3 Credit Hours

This course is designed to assist the education professional in developing a solid foundation in instructional design and current research. The student will develop the skills and knowledge to advance their instructional effectiveness in varied settings through application of technology theory and practice.

EDUC 634 Teaching Science in the Elementary School  
3 Credit Hours

Contemporary methods and research for teaching science to elementary-aged students.

EDUC 635 Teaching Science in the Middle School  
3 Credit Hours

Contemporary methods and research for teaching science to middle school students.

EDUC 636 Teaching Social Studies in the Elementary School  
3 Credit Hours

An analysis of trends and practices of teaching social studies in the elementary school. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very materials and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines. Teaching candidates will be required to prepare these instructional elements focused on the Virginia Standards of Learning.

EDUC 637 Teaching Social Studies in the Middle School  
3 Credit Hours

An analysis of trends and practices of teaching social studies in the middle school, and its contextual relationship to elementary and secondary instruction in social science. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very material and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines.

EDUC 638 Leadership in Educational Technology  
3 Credit Hours

This course will examine the roles of leadership in community, leadership in administration and leadership in the schools from a Christian worldview. This course will provide educators with both the theoretical and the practical considerations for planning and implementing technology, particularly computer applications, in schools. Basic concepts of technology and planning that use systems theory are presented. Emphasis is placed on the importance of the total application of technology as opposed to any individual component, be it hardware, software, facilities, personnel, or finances. This course will form a foundation from which educators will provide leadership and become agents for realizing the powerful potential of technology in their schools.

EDUC 639 Trends and Issues in Educational Technology  
3 Credit Hours

Trends and Issues examines current trends in the research area of educational technology, having students engage literature to understand theoretical underpinnings of the field, current research projects in effect, and future trends as technology in learning evolves as a practice and as a research interest. The course uses foundational concepts of learning in the fields of psychology, sociology and educational research to understand critical implications of the current body of literature.
EDUC 640 School Administration  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of the administration roles in the design, implementation and improvement of the total educational program in private and public schools. Specific areas of study include curriculum and instruction, pupil and staff personnel, student activities, school organization and management.

EDUC 641 Supervision of Instruction  3 Credit Hours

Methods, theories and research applying to supervision at all levels of education: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, supervising principals department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 642 Leadership and Supervision in Education  3 Credit Hours

Methods, theories and research applying to supervision and leadership: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, and department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 643 Contemporary Issues in Educational Policy  3 Credit Hours

This course examines current issues and trends in education. Emphasis will be placed on how policy at the federal, state, and district levels affect the school-level decision-making process.

EDUC 644 School Leadership in Diverse Settings  3 Credit Hours

This course focuses on differences in educational leadership in diverse settings to include: private, charter, and traditional public schools with a focus on urban schools, as well as alternative and online schools.

EDUC 645 Foundations for Educational Leaders  3 Credit Hours

A study in the philosophy, precepts, and principles of education applied to Christian leadership in the educational setting. Emphasis is placed on self-investigation and analysis of leadership skills, strengths, and styles.

EDUC 646 School-Community Relations  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

Concepts and specific techniques in school-community relations involving the development and maintenance of purposeful programs of communication and collaboration between school personnel and the community. Includes appropriate field projects relating theory to practice.

EDUC 647 School Law  3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

EDUC 648 School Finance and Management  3 Credit Hours

Prerequisites: EDUC 641 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.

EDUC 650 Specialists for Reading/Math Programs  3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An investigation of research-based intervention for reading or math programs. The role of the reading or math specialist to the total school program is also examined. Field experience required. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 652 Current Issues in Reading/Math  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of current standards and exploration of controversies related to reading or math programs. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 653 Current Issues in Early Childhood Education  3 Credit Hours

An examination of current standards and exploration of controversies related to early childhood education.

Registration Restrictions: Background Check Receipt.

EDUC 655 Organization and Administration of Pre-Schools  3 Credit Hours

Philosophy, objectives and methods for organizing and operating a kindergarten, nursery school, day-care center and play group for children below six years of age. Also includes the planning of pre-school facilities and the selection of equipment and personnel.
EDUC 656 Teaching Content Area Reading 3 Credit Hours
Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 659 Foundations and Theories of Literacy Instruction 3 Credit Hours
Prerequisites: EDUC 701 or Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
A study of the major theories, models, and components of literacy. Foundational knowledge will be utilized to design effective literacy instruction. Field experience is required.
Offered: Online

EDUC 663 Social and Political Aspects in Higher Education 3 Credit Hours
This survey course introduces students to the major social and political issues and trends facing contemporary higher education in the United States. Students examine, discuss, and debate various perspectives on critical issues at postsecondary campuses.
Offered: Online

EDUC 664 Economics and Finance of Higher Education 3 Credit Hours
This course is an introductory survey of financial and economic issues in higher education. Students will learn about these issues in relation to three primary levels: students and families, institutions, and the postsecondary industry at large.
Offered: Online

EDUC 665 Student Support Services & Retention 3 Credit Hours
This course discusses approaches to optimizing post-secondary student outcomes, particularly in support of critical programs designed to meet students' academic, developmental and economic needs. Topics include orientation programming, academic support, student retention, campus life, academic advising, and career guidance, among others.
Offered: Online

EDUC 666 Teaching Mathematics in the Middle School 3 Credit Hours
This course will explore, develop, and use instructional strategies, technologies, and activities to promote development of attitudes and concepts in mathematics. Emphasis is on mathematical teaching and learning practices anchored in mathematical concepts, diagnostic and assessment methods, and leadership skills.

EDUC 669 Teaching Literacy in the Middle School 3 Credit Hours
This course focuses on promoting the middle level learner's literacy development. Emphasis is placed on current theories, models, and methods of teaching, learning and communicating through the language processes of reading, writing, listening and speaking in the content areas. Students will explore, analyze, and critique research in reading, and the relationship of other disciplines to reading in the context of the middle school.

EDUC 670 Curriculum and Methods for Early Childhood 3 Credit Hours
The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 671 Curriculum Evaluation 3 Credit Hours
A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.

EDUC 672 Curriculum Development (Elementary/Secondary) 3 Credit Hours
A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.

Registration Restrictions: Background Check Required.

EDUC 673 Elementary Curriculum and Methods 3 Credit Hours
An overview of the current issues and trends in the field of elementary teaching and curriculum.

EDUC 675 Elementary Curriculum and Methods 3 Credit Hours
An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 676 Middle Grades Curriculum and Methods 3 Credit Hours
An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 678 Practicum in Education II: External 0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 (may be taken concurrently) or EDUC 625 (may be taken concurrently))
Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check Required.

EDUC 690 Thesis Defense 3 Credit Hours
Prerequisites: EDUC 518 and Background Check Receipt with a score of 5
Research project completed on an educational topic related to the concentration in the master's degree. Credit is not awarded until the thesis has been accepted.
EDUC 695 Directed Research 1-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Offers opportunity and challenge of self-directive, independent study; that is, it develops the individual's ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.

EDUC 696 Current Issues in Education Capstone 3 Credit Hours

Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665

This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.

EDUC 697 Seminar in Education 3-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.

EDUC 698 Directed Practicum 3 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5

A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.

Note: Completed application and approval of Department Chair.

EDUC 699 Internship 3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)

Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.

Doctor of Education (Ed.D.)

Purpose

The Doctor of Education is designed to prepare competent effective leaders and practitioners with a biblical worldview who will model high standards and assume a leadership role in the field of education. Leaders in the field of education are seen as those who assume a facilitating role in accomplishing the goals and objectives of an education system whether it be as a superintendent, principal, curriculum director, instructional supervisor, college instructor, teacher, or university administrator.

Program Learning Outcomes

A graduate of the Doctor of Education (Ed.D.) program:

1. Knows research competencies synthesized with Christian values, moral dimensions, and ethical implications.
   a. Makes broad distinctions between research philosophies and approaches.
   b. Demonstrates an understanding of the practices that inform site-based research by interpreting and designing research.
   c. Interprets how practitioner's carry out inquiry and the issues faced, and can make inferences about research implications.

2. Implements leadership, teaching and learning competencies as a gift from God because teaching/learning is a calling from God.
   a. Integrates skills in speaking, writing, reading, and listening for effective communication in educational settings.
   b. Models citizenship through moral leadership and sensitivity to human needs.
   c. Collaborates with various educational stakeholders in a variety of settings.
   d. Selects appropriate technology and resources to support educational goals.
   e. Utilizes highly effective educational strategies based on individual needs.
   f. Uses a variety of assessment strategies to improve student learning.

3. Believes foundation competencies consistent with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools
   a. Upholds high standards of competence and integrity, exercises sound judgment in the practice of the profession, and participates in activities of professional organizations relevant to their field.

Course Requirements

Ed.D. candidates have the option of completing concentrations in the areas of Educational Law, Educational Leadership or Curriculum and Instruction. General requirements are as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Education Theory Core</td>
<td></td>
<td>6</td>
</tr>
<tr>

</tr>
</tbody>
</table>

¹ The Educational Law Concentration is open to currently enrolled Liberty University School of Law students and Liberty University School of Law alumni only. Please see the School of Law Dual Degree (p. 608) section of this Catalog for more information.

Program Specific Admission Requirements

In addition to the general admission requirements, specific admission procedures for the Ed.D. are listed below. Submit the following items to the Office of Graduate Admissions prior to registering for any
graduate courses. Where noted, forms are available online at: http://www.liberty.edu/apply.

1. **Academic Records.** Applicants must submit an official transcript indicating successful completion of a master's degree program from an institution accredited by an accrediting agency recognized by the U.S. Department of Education. Transcripts should be sent directly to the Office of Graduate Admissions from all schools previously attended.

2. Ed.D. applicants must have a cumulative GPA of 3.00 or above on graduate degree required for entrance to the program.

### Transfer of Credit

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to six hours may be transferred into the Ed.S. program and up to 15 semester hours may be transferred into the Ed.D. program. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous seven (7) years to be eligible for transfer to the Ed.D.

Applicants who have previously completed an Educational Specialist (Ed.S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing in the Ed.D. program. This may include credit for up to 24 hours of actual coursework toward satisfaction of Ed.D. requirements. Where previous courses from an Ed.S. degree are considered for advanced standing in the Ed.D. program, it is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous seven (7) years to be eligible for transfer to the Ed.D.

Applicants who have previously completed an Educational Specialist (Ed.S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing in the Ed.D. program. This may include credit for up to 24 hours of actual coursework toward satisfaction of Ed.D. requirements. Where previous courses from an Ed.S. degree are appropriate, this entails credit for up to half of the actual courses required for the Ed.D.

### Graduation Requirements

In addition to other regulations governing graduation, as stated in the Liberty University catalog, Ed.D. students must meet the following requirements:

1. Complete a minimum of 54 semester hours beyond the master's degree for Ed.D. (including capstone).
2. A minimum of 39 semester hours of coursework must be taken through Liberty.
3. A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree. Applicants who have previously completed an Education Specialist (Ed.S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing (up to 24 hours) in the Ed.D. program.
4. Maintain a 3.00 GPA to remain in the program, with no grade lower than B-.
5. Successful completion of Capstone Project.
6. For information regarding the repeat policy, please refer to "Course Repeat Policy" in the Academic Information and Policies section of this Catalog.
7. All contracts made between the SOE Graduate Committee and the student upon acceptance into the degree program must be satisfied before the degree will be awarded.
8. Degree must be completed within 7 years. There is a limit of 5 years for completion of the Ed.D. for student who were granted 18 hours or more of advanced standing credit from a previously completed Ed.S. or equivalent degree.
9. Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date.

### Time Limits for Degree Completion

The time limit for completing the degree from the date of admission to the program is seven years for the Ed.D. Only in unusual circumstances may the candidate be granted an extension. Granting of an extension of time may result in additional requirements.

There will be a time limit of five years for completion of the Ed.D. for candidates who were granted 18 hours or more of advanced standing from a previously completed Ed.S. or equivalent degree.

Any candidate who does not complete coursework within the permissible time limit, for any reason including discontinued enrollment, must reapply for admission. A candidate may reapply only once, and will be subject to the current standards and curriculum. The SOE Graduate Committee will determine if any previous courses are sufficiently time sensitive and must be repeated. Beginning with the date of readmission, the candidate's time limit for degree completion is determined by the number of hours remaining.

### Dual Degree - Educational Law Concentration

To view the degree completion plan for the Doctor of Education - Educational Law Concentration Dual Degree Program (24 hrs) (Ed.D.), please see the School of Law section in this catalog.

### Programs of Study

**Delivery Format: Online Only**

(Select optional intensives available)

- Curriculum & Instruction (Ed.D.) (p. 469)
- Curriculum & Instruction (Ed.D.) - Elementary Education (p. 471)
- Curriculum & Instruction (Ed.D.) - Middle Grades Education (p. 473)
- Curriculum & Instruction (Ed.D.) - Secondary Education (p. 475)
- Curriculum & Instruction (Ed.D.) - Special Education (p. 478)
- Educational Leadership (Ed.D.) (p. 480)

### Career Opportunities

- Curriculum Specialist
- Elementary Educator
- Gifted-Student Instructor
- Instructional Supervisor
- Middle School Educator
- Researcher
- School Administrator
- Secondary School Educator
- Special Education Instructor
- Teacher
- University Professor
Courses

EDUC 700 Introduction and Orientation to Doctoral Studies 2 Credit Hours
This course orients candidates to the Doctor of Education in the School of Education and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a doctoral candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

Offered: Online

EDUC 701 Advanced Learning Theory and Research 3 Credit Hours
Current findings and research in learning theory are examined, including research about classroom management, learning, motivation, diversity, exceptionalities, assessment, and teaching. Discussion, analysis of cases, examination of personal experiences in schools, cooperative projects, and other activities will also be included.

EDUC 703 Theories of Historical and Social Foundations of Education 3 Credit Hours
Advanced study covering the historical and philosophical principles and theories that have shaped education on a global basis.

EDUC 708 Quantitative/Qualitative Meth 3 Credit Hours
Prerequisites: EDUC 608 and Background Check Receipt with a score of 5

EDUC 710 Orientation to Doctoral Study and Research 2 Credit Hours
This course orients students to the Ph.D. program and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a Ph.D. candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

EDUC 718 Advanced Research and Writing 3 Credit Hours
Prerequisites: EDUC 712 and EDUC 746 and Background Check Clearance with a score of 5 and Background Check Receipt with a score of 5
This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication.

EDUC 721 Issues and Trends in Exceptionality 3 Credit Hours
A research oriented course that focuses on issues and trends that face the discipline of special education. The course utilizes research to analyze and examine through written discussions controversial issues in various areas of exceptionalities.

EDUC 723 Administration and Supervision of Special Education 3 Credit Hours
This course addresses critical knowledge for effective leadership, management, and supervision in special education and disability services. Emphasis is placed on the legal foundations for special education and disability services in the United States.

Offered: Online

EDUC 730 Issues & Trends in Learning Technologies 3 Credit Hours
A study of technology practices as they impact the teaching and learning process in any context. Specifically, this course will examine personal, professional and pedagogical engagement of technology; especially those technologies associated with digitally-based communication, collaboration, engagement, interactivity, problem-solving, as well as current trends and future perspectives.

Offered: Online

EDUC 731 Instructional Design Theory 3 Credit Hours
This course introduces students to instructional design and technology through a Christian perspective. It reviews historical trends and current issues found in learning environments through the field of instructional design. Students will focus on planning instruction to address specific learning problems through instructional design theory.

Offered: Online

EDUC 732 Principles of Human Performance Technology 3 Credit Hours
This course addresses instructional design through human performance technology. It examines the gap between what human performance is occurring within an organization and what human performance should be occurring. Students will learn about human performance technology and identify solutions to address performance gaps within learning environments.

Offered: Online

EDUC 733 Instructional Systems Design 3 Credit Hours
Through the examination of various instructional design models and conceptual underpinnings, this course works to develop advanced instructional design and development skills from a systems thinking perspective. The enhancement of technology leadership proficiencies to effectively lead organizations in applying technology to foster active engagement with other professionals within instructional systems is a significant focus.

Offered: Online

EDUC 734 Implementation and Assessment of Multimedia Learning Tools 3 Credit Hours
This course addresses assessment and evaluation of learning tools in instructional design and technology. It looks at how best to integrate, design, and administer learning tools within the classroom no matter the learning environment. Students will research about multimedia learning tools and identify solutions to address performance gaps within educational settings.

Offered: Online
EDUC 735 Issues and Trends in Curriculum and Instruction 3 Credit Hours
An overview of the current issues and trends in the field of education, specifically targeting the area of teaching and learning.

EDUC 736 Models for Instructional Design and Technology 3 Credit Hours
This course will focus on key learning and performance metrics to inform the selection and application of instructional design models and technologies that best support teaching and learning across multiple learning environments, modalities, and delivery mechanisms.

Offered: Online

EDUC 737 Ethics and Social Responsibility in Technology 3 Credit Hours
This course provides a critical review of the ethics and social responsibility behind the integration of technology into learning systems. Course material will reflect on the nature of technology and how it impacts both the individual and society within learning environments. Students will also analyze the effect of technology on culture through a biblical worldview.

Offered: Online

EDUC 740 Leadership Principles and Ethics 3 Credit Hours
Prerequisites: EDUC 759 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
Candidates are engaged in an analysis of appropriate practices and principles related to leadership by exploring ethical issues and developing a biblical foundation for leadership practices.

EDUC 741 Theories of Educational Leadership 3 Credit Hours
An analysis of education/organizational leadership theories and evidence based practices with application to challenges faced by academic leaders in complex and changing contexts. Emphasis given to significance and relevance for leaders forging relationships and leading academic organizations to successfully fulfill their mission.

EDUC 742 Educational Leadership and Public Relations 3 Credit Hours
An investigation into the issues and practices of developing communication and relationships to enhance support for educational activities within and outside the school.

EDUC 743 Executive Leadership in Curriculum and Instruction 3 Credit Hours
This course addresses the role of district-level leadership in the supervision of instruction as a superintendent or assistant superintendent. Research-based methods will be applied to the development of district-wide processes for the improvement of student achievement through systematic planning, designing, implementing, and evaluating curriculum, instruction and assessment. Attention is given to supervision, evaluations, and professional development of district-level personnel and building-level administrators. Field experience hours are required.

Offered: Online

EDUC 745 Organizational Analysis and Problem Solving 3 Credit Hours
An introduction to the nature and management of educational organizations. Integrates major theoretical perspectives with special focus on applying such theories to both better understand and more effectively resolve organizational problems.

EDUC 746 Conflict Resolution 3 Credit Hours
The effective means of solving conflicts are explored through conceptualizing and practicing interpersonal leadership skills, testing assumptions about other people, taking other people into account by listening and testing the meaning of what they have said.

EDUC 747 Advanced Educational Law 3 Credit Hours
An in-depth study into educational law and how social and cultural changes are directing how our courts act and react. A new global mindset present in our high courts has and will continue to re-direct how our courts view many judicial rulings and from those considerations a new set of legal precedents will emerge impacting how our educational systems are viewed by those courts.

EDUC 748 School District Finance and Organizational Management 3 Credit Hours
Prerequisites: EDUC 743 or (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
This course addresses the role of district-level leadership in system operations, including budget preparation, fiscal management, administration of auxiliary services (food service, transportation, etc.), human resources (salaries, benefits, hiring costs, professional development, etc.) and policy development. Related topics address equity issues, taxation, statutory mandates, facility management, technology infrastructures, and school safety.

Offered: Online

EDUC 750 Survey of Educational Research 3 Credit Hours
Prerequisites: EDUC 700
This course introduces candidates to a range of methods used in educational research. This survey of educational research methods addresses the difference between qualitative and quantitative research and basic versus applied research methods.

Offered: Online

EDUC 754 Teaching the College Student 3 Credit Hours
A study of the nature of the college student from a sociological, cultural, and psychological perspective. Opportunity will be given to analyze, synthesize, and discuss ways to bring about maximum impact, growth and satisfaction.
EDUC 759 College and University Administration 3 Credit Hours
A study of the administrative and organizational aspects of colleges and universities with emphasis on principle organizational components, and contemporary leadership issues.

Registration Restrictions: Background Check Receipt.

EDUC 760 Literature Review in Education Research 2-3 Credit Hours
Prerequisites: EDUC 750
This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

Offered: Online

EDUC 771 Curriculum Theory 3 Credit Hours
Addresses the theoretical constructs of the K-12 curriculum as related to the nature and function of curriculum, the curriculum development process, and curriculum evaluation procedures.

EDUC 782 Historical Perspectives of Higher Education 3 Credit Hours
This course provides a historical foundation of how ideas and practices from the past influence current trends in higher education.

EDUC 783 Economic Impact in Higher Education 3 Credit Hours
This course is an introductory examination of financial, economic, and budgetary issues in higher education. Focusing on postsecondary institutions, students will review the primary political, economic, and social issues influencing higher education finance, examine revenue streams and expenditure patterns, survey tuition and financial aid policies, and assess the budget as an instrument of strategic planning, resource allocation, and fiscal control.

EDUC 784 Assessment & Accreditation 3 Credit Hours
The purpose of this course is to explore assessment programs and research that informs planning and results in measurable improvements for students. The course will also explore how assessment can be used to align programs with the goals and values of the institution, while satisfying accreditation requirements.

EDUC 798 Advanced Research and Writing 3 Credit Hours
This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication. This is the capstone course for the Ed.S. program, and it should be taken as the last course in the program. (Formerly EDUC 718)

Offered: Online

EDUC 799 Internship: District-Level Leadership 3 Credit Hours
Prerequisites: Advanced Gate 3 with a score of 5
Registration Restrictions: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program May be repeated to a maximum of six hours.

Note: Requires completion of the projects and minimum hours as specified in proposal.

Offered: Online

EDUC 810 Dissertation Planning 1 Credit Hour
Prerequisites: EDUC 760
This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

Offered: Online

EDUC 812 Advanced Educational Statistics 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
This course involves an examination of descriptive statistics and basic inferential statistical techniques. Hypothesis testing, confidence intervals, analysis of variance, correlation techniques and nonparametric statistical methods will be discussed.

EDUC 815 Quantitative Methods of Research 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5 and EDUC 812
This course is designed for those planning to write a dissertation. An examination of quantitative designs for educational research topics will be considered. These are: Developing a research problem, Reviewing the Literature, The Hypothesis, Descriptive Statistics, Sampling and Inferential Statistics, Tools of Research, Validity and Reliability. Experimental Research Designs, Ex Post Facto Research, Correlational Research, Survey Research, Guidelines for Writing a Quantitative Research Proposal, and Interpreting and Reporting Results of Quantitative Research.

EDUC 816 Applied Research 3 Credit Hours
Prerequisites: EDUC 750
The objective of an applied dissertation is to identify a problem of practice in the workplace and generate solutions to improve practice or policy on the issue. This course addresses the methods, skills, and knowledge necessary for completion of an applied research project.

Offered: Online

EDUC 817 Qualitative Methods of Research 3 Credit Hours
This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents. ( Formerly EDUC 717)
EDUC 840 Issues and Trends in Educational Leadership 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
A study of the current issues and trends related to the field of education leadership. Emphasis will be placed on research and analysis of practices related to effectiveness.
Registration Restrictions: Background Check Receipt.

EDUC 845 Policy Analysis 3 Credit Hours
A study of the contemporary educational policy issues. Candidates will be required to assess and evaluate current education policies and implications for education effectiveness.
Registration Restrictions: Background check required and candidacy status.

EDUC 848 Culture and Educational Leadership 3 Credit Hours
This course deals with the complexities of multicultural issues in school systems by exploring the history, philosophy, and goals of multicultural education. Emphasis is given to the role of educational leaders in evaluating cultural issues in the context of a biblical worldview and developing practices that maximize the opportunities of cultural diversity.
Registration Restrictions: Background Check Receipt.

EDUC 850 Literature Review for Applied Research 3 Credit Hours
This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review for applied research. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a capstone project.
Offered: Online

EDUC 860 Literature Review for Advanced Research 2-3 Credit Hours
Prerequisites: EDUC 710 and EDUC 812
This course provides doctoral students with advanced research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

EDUC 871 Investigations in Curriculum Change 3 Credit Hours
Review and evaluation of theories, models, and strategies for change; recognition and use of this knowledge as a practical guide to problem solving.

EDUC 872 Research in Curriculum Design and Development 3 Credit Hours
This course is designed for candidates who have an advanced understanding of research orientation and knowledge in the field of curriculum and instruction. Content and emphasis will focus on the understanding of how people learn, who decides what people learn, and how to determine what is taught in a classroom. Candidates will research curriculum theorists and the impact they have on the field of education. Candidates will also design and develop a curriculum project that both meets a professional need and reflects current issues and trends.

EDUC 880 Applied Research Concepts & Methodology 3 Credit Hours
Prerequisites: EDUC 750 and EDUC 816 and EDUC 850
Review of the doctoral candidates' proposed capstone project concepts and methodology under the supervision of a consultant.
Offered: Online

EDUC 887 Capstone I 5 Credit Hours
Prerequisites: EDUC 880
This course focuses on developing doctoral candidates' capstone project prospectus.
Offered: Online

EDUC 888 Capstone II 5 Credit Hours
Prerequisites: EDUC 887
This course focuses on developing doctoral candidates' capstone project proposal.
Offered: Online

EDUC 889 Capstone III 5 Credit Hours
Prerequisites: EDUC 888
This course focuses on final submission of doctoral candidates' capstone project.
Offered: Online

EDUC 890 Capstone IV 0 Credit Hours
Prerequisites: EDUC 889
This course focuses on final submission of doctoral candidates' capstone project.
Offered: Online

EDUC 895 Advanced Directed Research 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Offers opportunity and challenge for advanced independent research to develop the individual's ability as an independent student and enable the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.
Registration Restrictions: Approval of instructor.

EDUC 897 Advanced Seminar in Education 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
A study of selected topics relevant to current issues in education.
EDUC 915 Advanced Quantitative Methods of Research 3 Credit Hours

Prerequisites: EDUC 812 and EDUC 815 and EDUC 817

This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

EDUC 917 Advanced Qualitative Methods of Research 3 Credit Hours

Prerequisites: EDUC 817 and EDUC 812 and EDUC 815

This course addresses the skills and knowledge necessary for completion of a qualitative dissertation, including research design, data analysis and representation, methods for increasing trustworthiness, and ethical considerations in research with human subjects.

EDUC 919 Professional Writing and Research 3 Credit Hours

Prerequisites: (EDUC 815 and EDUC 812 and EDUC 760) or (EDUC 760 and EDUC 816 and EDUC 817)

This course addresses the skills and knowledge necessary for completion of a doctoral dissertation including research design, data analysis, and writing for publication.

EDUC 960 Dissertation Planning 1 Credit Hour

Prerequisites: EDUC 815 and EDUC 817

This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

EDUC 970 Comprehensive Exam 0 Credit Hours

Prerequisites: (Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and EDUC 701 and (EDUC 919

A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation proposal.

Note: Tuition charged for a one hour course.

Registration Restrictions: Background Check Clearance.

EDUC 980 Research Concepts & Methodology 3 Credit Hours

Prerequisites: EDUC 915 or EDUC 917 or EDUC 919

Required of all candidates in a School of Education doctoral program. Review of the candidates proposed dissertation research concepts and methodology under the supervision of a research consultant.

EDUC 987 Dissertation Prospectus and Research 5 Credit Hours

Prerequisites: EDUC 980

This course focuses on developing the dissertation prospectus.

EDUC 988 Dissertation Proposal & Research 3,5 Credit Hours

Prerequisites: EDUC 980

This course focuses on developing the dissertation proposal.

EDUC 989 Dissertation Writing and Research 3,5 Credit Hours

Prerequisites: EDUC 988

This course focuses on developing the dissertation.

EDUC 990 Dissertation Defense 3 Credit Hours

Prerequisites: EDUC 989

This course focuses on defending the dissertation.

Curriculum & Instruction (Ed.D.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete the coursework for this degree and the additional classes and requirements that are listed in the Notes section of the DCP. Refer to www.liberty.edu/advisingguide

**Capstone**

- EDUC 887 | Capstone I 7 | 5     |
- EDUC 888 | Capstone II 7 | 5     |
- EDUC 889 | Capstone III 7 | 5     |
- EDUC 890 | Capstone IV 8 | 0     |

**Total Hours** 54

1. Intensive format optional
2. Choose any 600-800 level EDUC course not already required by the degree
3. If seeking licensure, students may choose to take 600 level Licensure Option courses; these courses must be approved by the School of Education
4. Cannot be fulfilled by EDUC 798 Advanced Research and Writing (3 c.h.)
5. EDUC 880 Applied Research Concepts & Methodology (3 c.h.) should be the final course before enrolling in Capstone courses
6. Once the student enters the Capstone phase, he/she must maintain continuous enrollment (Fall, Spring, and Summer semesters) until all degree requirements are completed
7. Ed.D. students are allowed to enroll in EDUC 887 Capstone I (5 c.h.), EDUC 888 Capstone II (5 c.h.), and EDUC 889 Capstone III (5 c.h.) a maximum of two times. Extensions for exceptional circumstances must be approved by the School of Education
8. Enrollment in EDUC 890 Capstone IV (0 c.h.) is contingent on School of Education approval

All applicable prerequisites must be met

**Graduation Requirements**

- Complete 54 hours
- A minimum of 39 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of Capstone Project
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

1. Applicants who have previously completed an Educational Specialist (Ed. S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing (up to 24 hours) in the Ed.D. program
2. There is a limit of 5 years for completion of the Ed.D. for students who were granted 18 hours or more of advanced standing credit from a previously completed Ed.S. or equivalent degree

**Program Offered in Online Format**

**Licensure Options**

Must complete additional courses below and all coursework for Ed.D. except Dissertation courses

**Initial Licensure**

</tr>
</tbody>
</table>

Total Hours 54

1. Intensive format optional
2. If seeking licensure, students may choose to take 600 level Licensure Option courses; these courses must be approved by the School of Education
3. A minimum of 20 Doctoral credit hours must be earned prior to enrollment in EDUC 750
4. EDUC 880 Applied Research Concepts & Methodology (3 c.h.) should be the final course before enrolling in Capstone courses
5. Once the student enters the Capstone phase, he/she must maintain continuous enrollment (Fall, Spring, and Summer semesters) until all degree requirements are completed
6. Ed.D. students are allowed to enroll in EDUC 887 Capstone I (5 c.h.), EDUC 888 Capstone II (5 c.h.), and EDUC 889 Capstone III (5 c.h.) a maximum of two times. Extensions for exceptional circumstances must be approved by the School of Education
7. Enrollment in EDUC 890 Capstone IV (0 c.h.) is contingent on School of Education approval

All applicable prerequisites must be met

### Graduation Requirements

- Complete 54 hours
- A minimum of 39 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of Capstone Project
- Degree must be completed within 7 years

#### Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

1. Applicants who have previously completed an Educational Specialist (Ed. S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing (up to 24 hours) in the Ed.D. program
2. Students who have earned an Ed.S. degree through Liberty are permitted to apply up to 27 hours (as applicable) from that degree toward the Ed.D.
3. There is a limit of 5 years for completion of the Ed.D. for students who were granted 18 hours or more of advanced standing credit from a previously completed Ed.S. or equivalent degree

### Program Offered in Online Format

#### Licensure Options

Must complete additional courses below and all coursework for Ed.D. except Capstone courses

1. For doctoral candidates seeking licensure, EDUC 880 Applied Research Concepts & Methodology (3 c.h.) can be substituted for EDUC 798 Advanced Research and Writing (3 c.h.) in order to post Ed.S. degree for licensure application.

#### Initial Licensure

### Curriculum & Instruction (Ed.D.) - Middle Grades Education

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete the coursework for this degree and the additional classes and requirements that are listed in the Notes section of the DCP. Refer to www.liberty.edu/advisingguide.
**Graduation Requirements**

- Complete 54 hours
- A minimum of 39 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of Capstone Project
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

**Program Offered in Online Format**

Total Hours 54

1. Intensive format optional
2. If seeking licensure, students may choose to take 600 level Licensure
   Option courses; these courses must be approved by the School of
   Education
3. A minimum of 20 Doctoral credit hours must be earned prior to
   enrollment in EDUC 750
4. EDUC 880 Applied Research Concepts & Methodology (3 c.h.) should
   be the final course before enrolling in Capstone courses
5. Once the student enters the Capstone phase, he/she must maintain
   continuous enrollment (Fall, Spring, and Summer semesters) until all
   degree requirements are completed

6. Ed.D. students are allowed to enroll in EDUC 887 Capstone I (5 c.h.),
   EDUC 888 Capstone II (5 c.h.), and EDUC 889 Capstone III (5 c.h.) a
   maximum of two times. Extensions for exceptional circumstances
   must be approved by the School of Education
7. Enrollment in EDUC 890 Capstone IV (0 c.h.) is contingent on School
   of Education approval

All applicable prerequisites must be met

Graduation Requirements

- Complete 54 hours
- A minimum of 39 hours must be completed through Liberty
  University, not to include credits from a prior degree earned through
  Liberty
- A maximum of 15 hours of transfer credit, including credit from a
  degree on the same academic level previously earned through Liberty,
  may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of Capstone Project
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed
  within the last semester of a student’s anticipated graduation date

1. Applicants who have previously completed an Educational Specialist
   (Ed. S.) or equivalent degree from an institution accredited by an
   agency recognized by the U.S. Department of Education will be
   considered for advanced standing (up to 24 hours) in the Ed.D.
   program
2. Students who have earned an Ed.S. degree through Liberty are
   permitted to apply up to 27 hours (as applicable) from that degree
   toward the Ed.D.

Program Offered in Online Format

Licensure Options

Must complete additional courses below and all coursework for Ed.D.
except Capstone courses

1. For doctoral candidates seeking licensure, EDUC 880 Applied
   Research Concepts & Methodology (3 c.h.) can be substituted for
   EDUC 798 Advanced Research and Writing (3 c.h.) in order to post
   Ed.S. degree for licensure application.

Curriculum & Instruction (Ed.D.) - Special Education

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete the coursework for this degree and the additional classes and requirements that are listed in the Notes section of the DCP. Refer to www.liberty.edu/advisingguide

Licensure Options

For doctoral candidates seeking licensure, EDUC 880 Applied Research Concepts & Methodology (3 c.h.) should be the final course before enrolling in Capstone courses.

Program Offered in Online Format

Licensure Options

Must complete additional courses below and all coursework for Ed.D. except Capstone courses

1. Intensive format optional
2. Any graduate-level Curriculum course may substitute for EDUC 672 Curriculum Development (Elementary/Secondary) (3 c.h.)
3. Must have initial license and 3 years experience
4. A minimum of 20 Doctoral credit hours must be earned prior to enrollment in EDUC 750.
5. EDUC 880 Applied Research Concepts & Methodology (3 c.h.) should be the final course before enrolling in Capstone courses.
6. Enroll in EDUC 890 Capstone IV (0 c.h.) is contingent on School of Education approval.

Applicants who have previously completed an Educational Specialist (Ed.S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing (up to 24 hours) in the Ed.D. program. Students who have earned an Ed.S. degree through Liberty are permitted to apply up to 27 hours (as applicable) from that degree toward the Ed.D.

There is a limit of 5 years for completion of the Ed.D. for students who were granted 18 hours or more of advanced standing credit from a previously completed Ed.S. or equivalent degree.

For doctoral candidates seeking licensure, EDUC 880 Applied Research Concepts & Methodology (3 c.h.) can be substituted for EDUC 798 Advanced Research and Writing (3 c.h.) in order to post Ed.S. degree for licensure application.

- EDUC 700-800 level elective course ⁵

**Research & Evaluation Courses**

- EDUC 750 Survey of Educational Research ⁶ 3
- EDUC 816 Applied Research 3

**Capstone**

- EDUC 887 Capstone I ⁹ 5
- EDUC 888 Capstone II ⁹ 5
- EDUC 889 Capstone III ⁹ 5
- EDUC 890 Capstone IV ¹⁰ 0

Total Hours 54

¹ Intensive format optional

² For district-level preparation or for GaPSC Tier-II licensure, choose EDUC 699 Internship (A01) (3 c.h.)

³ 600-level courses are K-12 focus and may require field experience

⁴ For district-level preparation or for GaPSC Tier-II licensure, choose 700-level option. For building-level licensure, choose 600-level option.

⁵ Cannot be fulfilled by EDUC 798 Advanced Research and Writing (3 c.h.)

⁶ A minimum of 20 Doctoral credit hours must be earned prior to enrollment in EDUC 750 Survey of Educational Research (3 c.h.)

⁷ EDUC 880 Applied Research Concepts & Methodology (3 c.h.) should be the final course before enrolling in Capstone courses

⁸ Once the student enters the Dissertation phase, he/she must maintain continuous enrollment (Fall, Spring, and Summer semesters) until all degree requirements are completed

⁹ Ed.D. students are allowed to enroll in EDUC 887 Capstone I (5 c.h.), EDUC 888 Capstone II (5 c.h.), and EDUC 889 Capstone III (5 c.h.) a maximum of two times. Extensions for exceptional circumstances must be approved by the School of Education.

¹⁰ Enrollment in EDUC 890 Capstone IV (0 c.h.) is contingent on School of Education approval

All applicable prerequisites must be met

**Graduation Requirements**

• Complete 54 hours

- A minimum of 39 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty

- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty may be applied to the degree

- 3.0 GPA

- No more than a B- may be applied to the degree

- Successful defense of Capstone Project

- Degree must be completed within 7 years

- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

¹ Applicants who have previously completed an Educational Specialist (Ed.S.) or equivalent degree from an institution accredited by an agency recognized by the U.S. Department of Education will be considered for advanced standing (up to 24 hours) in the Ed.D. program

Students who have earned an Ed.S. degree through Liberty are permitted to apply up to 27 hours (as applicable) from that degree toward the Ed.D.
There is a limit of 5 years for completion of the Ed.D. for students who were granted 18 hours or more of advanced standing credit from a previously completed Ed.S. or equivalent degree.

Doctor of Philosophy in Education (Ph.D.)

Purpose

The Doctor of Philosophy in Education is designed to prepare competent effective leaders and researchers with a biblical worldview who will model high standards and assume a leadership role in the field of education. Researchers and leaders in the field of education are seen as those who assume a role in shaping the future direction of policies, goals, and objectives within an educational setting whether it be in K-12, business, or state or federal government.

Program Learning Outcomes

A graduate of the Doctor of Philosophy in Education (Ph.D.) program:

1. **Knows research competencies synthesized with Christian values, moral dimensions, and ethical implications.**
   a. Evaluates education theories for application in both a professional and academic setting.

2. **Implements leadership, teaching and learning competencies as a gift from God because teaching/learning is a calling from God.**
   a. Analyzes pedagogical concepts and approaches based upon research and knowledge of the discipline.
   b. Designs and conduct original research that adds to the knowledge base of the discipline.

3. **Believes foundation competencies consistent with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools.**
   a. Integrates a biblical worldview through decision making within the field of education.

Curriculum and Instruction Concentration:
The student will be able to evaluate the process of designing curriculum and implementing instructional practices.

Organizational Leadership Concentration:
The student will be able to develop integrative approaches to strategic leadership problems utilizing scholarly research.

Program Specific Admissions Requirements

In addition to the general admission requirements, specific admission procedures for the Ph.D. are listed below. Submit the following items to the Office of Graduate Admissions prior to registering for any graduate courses. Where noted, forms are available online at: http://www.liberty.edu/apply.

1. **Academic Records.** Applicants must submit an official transcript indicating successful completion of a master’s degree program from an institution accredited by an accrediting agency recognized by the U.S. Department of Education. Transcripts should be sent directly to the Office of Graduate Admissions from all schools previously attended.

2. **Ph.D. applicants must have a cumulative GPA of 3.00 or above on graduate degree required for entrance to the program.**

Transfer of Credit

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to 15 hours may be transferred into the Ph.D. program. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous seven (7) years to be eligible for transfer to the Ph.D.

Students who have earned an Education Specialist in Curriculum and Instruction degree through Liberty are permitted to apply up to 27 hours (as applicable) from that degree toward the PhD in Education - Curriculum and Instruction.

Graduation Requirements

In addition to other regulations governing graduation, as stated in the Liberty University catalog, Ph.D. candidates must meet the following requirements:

1. Complete 60 hours.
2. A minimum of 45 hours must be completed through Liberty University, not to include from a prior degree earned through Liberty.
3. A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. Maintain a 3.00 GPA.
5. No grades lower than a B- may be applied to the degree.
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Successful defense of dissertation.
8. Degree must be completed within 7 years.
9. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Dissertation
Candidates must adhere to the timeframes noted on their specific DCP for proposal and dissertation completion. Exceeding time limits will result in removal from the Ph.D. program.

Before beginning the dissertation research, the doctoral dissertation committee must approve the research proposal. The dissertation is expected to exhibit scholarship, reflect mastery of technique, and make a distinctive contribution to the field of knowledge in which the candidate has specialized. A faculty committee of two (2) members, comprising a chair and committee member, is responsible for the general supervision of the doctoral dissertation. A formal defense of the dissertation is required for final approval.

Once candidates enter the dissertation phase as noted on their specific DCP, they must maintain continuous enrollment (Fall, Spring, and Summer semesters) until they complete all degree requirements. If they do not, they will break enrollment, and they will be required to apply for readmission if/when they wish to resume the pursuit of their degree. They will have to complete their degree under the Degree Completion Plan (DCP) in effect at the time of their readmission.

Time Limits for Degree Completion
The time limit for completing the degree from the date of admission to the program is seven years for the Ph.D. Only in unusual circumstances may the candidate be granted an extension. Granting of an extension of time will usually result in additional requirements.

There will be a time limit of five years for completion of the Ph.D. for candidates who were granted 18 hours or more of advanced standing from a previously completed Ph.D. or equivalent degree.

Any candidate who does not complete coursework within the permissible time limit, for any reason including discontinued enrollment, must reapply for admission. A candidate may reapply only once, and will be subject to the current standards and curriculum. The SOE Graduate Committee will determine if any previous courses are sufficiently time sensitive and must be repeated. Beginning with the date of readmission, the candidate’s time limit for degree completion is determined by the number of hours remaining.

Programs of Study
Delivery Format: Online Only
- Education (Ph.D.) - Curriculum & Instruction (p. 488)
- Education (Ph.D.) - Educational Law (p. 488)
- Education (Ph.D.) - Instructional Design & Technology (p. 489)
- Education (Ph.D.) - Organizational Leadership (p. 490)
- Education (Ph.D.) - Special Education (p. 490)

Career Opportunities
- K-12 Teacher
- Principal
- Superintendent of School System
- Rehabilitation Facility Director

Courses
EDUC 700 Introduction and Orientation to Doctoral Studies 2 Credit Hours
This course orient candidates to the Doctor of Education in the School of Education and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a doctoral candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

Offered: Online
EDUC 701 Advanced Learning Theory and Research 3 Credit Hours
Current findings and research in learning theory are examined, including research about classroom management, learning, motivation, diversity, exceptionals, assessment, and teaching. Discussion, analysis of cases, examination of personal experiences in schools, cooperative projects, and other activities will also be included.

EDUC 703 Theories of Historical and Social Foundations of Education 3 Credit Hours
Advanced study covering the historical and philosophical principles and theories that have shaped education on a global basis.

EDUC 708 Quantitative/Qualitative Meth 3 Credit Hours
Prerequisites: EDUC 608 and Background Check Receipt with a score of 5

EDUC 710 Orientation to Doctoral Study and Research 2 Credit Hours
This course orients students to the Doctor of Education program and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a Ph.D. candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

EDUC 718 Advanced Research and Writing 3 Credit Hours
Prerequisites: EDUC 712 and EDUC 746 and Background Check Clearance with a score of 5 and Background Check Receipt with a score of 5
This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication.

EDUC 721 Issues and Trends in Exceptionality 3 Credit Hours
A research oriented course that focuses on issues and trends that face the discipline of special education. The course utilizes research to analyze and examine through written discussions controversial issues in various areas of exceptionalities.
EDUC 723 Administration and Supervision of Special Education  
3 Credit Hours

This course addresses critical knowledge for effective leadership, management, and supervision in special education and disability services. Emphasis is placed on the legal foundations for special education and disability services in the United States.

Offered: Online

EDUC 730 Issues & Trends in Learning Technologies  
3 Credit Hours

A study of technology practices as they impact the teaching and learning process in any context. Specifically, this course will examine personal, professional and pedagogical engagement of technology; especially those technologies associated with digitally-based communication, collaboration, engagement, interactivity, problem-solving, as well as current trends and future perspectives.

Offered: Online

EDUC 731 Instructional Design Theory  
3 Credit Hours

This course introduces students to instructional design and technology through a Christian perspective. It reviews historical trends and current issues found in learning environments through the field of instructional design. Students will focus on planning instruction to address specific learning problems through instructional design theory.

Offered: Online

EDUC 732 Principles of Human Performance Technology  
3 Credit Hours

This course addresses instructional design through human performance technology. It examines the gap between what human performance is occurring within an organization and what human performance should be occurring. Students will learn about human performance technology and identify solutions to address performance gaps within learning environments.

Offered: Online

EDUC 733 Instructional Systems Design  
3 Credit Hours

Through the examination of various instructional design models and conceptual underpinnings, this course works to develop advanced instructional design and development skills from a systems thinking perspective. The enhancement of technology leadership proficiencies to effectively lead organizations in applying technology to foster active engagement with other professionals within instructional systems is a significant focus.

Offered: Online

EDUC 734 Implementation and Assessment of Multimedia Learning Tools  
3 Credit Hours

This course addresses assessment and evaluation of learning tools in instructional design and technology. It looks at how best to integrate, design, and administer learning tools within the classroom no matter the learning environment. Students will research about multimedia learning tools and identify solutions to address performance gaps within educational settings.

Offered: Online

EDUC 735 Issues and Trends in Curriculum and Instruction  
3 Credit Hours

An overview of the current issues and trends in the field of education, specifically targeting the area of teaching and learning.

Offered: Online

EDUC 736 Models for Instructional Design and Technology  
3 Credit Hours

This course will focus on key learning and performance metrics to inform the selection and application of instructional design models and technologies that best support teaching and learning across multiple learning environments, modalities, and delivery mechanisms.

Offered: Online

EDUC 737 Ethics and Social Responsibility in Technology  
3 Credit Hours

This course provides a critical review of the ethics and social responsibility behind the integration of technology into learning systems. Course material will reflect on the nature of technology and how it impacts both the individual and society within learning environments. Students will also analyze the effect of technology on culture through a biblical worldview.

Offered: Online

EDUC 740 Leadership Principles and Ethics  
3 Credit Hours

Prerequisites: EDUC 759 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

Candidates are engaged in an analysis of appropriate practices and principles related to leadership by exploring ethical issues and developing a biblical foundation for leadership practices.

EDUC 741 Theories of Educational Leadership  
3 Credit Hours

An analysis of education/organizational leadership theories and evidence based practices with application to challenges faced by academic leaders in complex and changing contexts. Emphasis given to significance and relevance for leaders forging relationships and leading academic organizations to successfully fulfill their mission.

EDUC 742 Educational Leadership and Public Relations  
3 Credit Hours

An investigation into the issues and practices of developing communication and relationships to enhance support for educational activities within and outside the school.

EDUC 743 Executive Leadership in Curriculum and Instruction  
3 Credit Hours

This course addresses the role of district-level leadership in the supervision of instruction as a superintendent or assistant superintendent. Research-based methods will be applied to the development of district-wide processes for the improvement of student achievement through systematic planning, designing, implementing, and evaluating curriculum, instruction and assessment. Attention is given to supervision, evaluations, and professional development of district-level personnel and building-level administrators. Field experience hours are required.

Offered: Online
EDUC 745 Organizational Analysis and Problem Solving 3 Credit Hours
An introduction to the nature and management of educational organizations. Integrates major theoretical perspectives with special focus on applying such theories to both better understand and more effectively resolve organizational problems.

EDUC 746 Conflict Resolution 3 Credit Hours
The effective means of solving conflicts are explored through conceptualizing and practicing interpersonal leadership skills, testing assumptions about other people, taking other people into account by listening and testing the meaning of what they have said.

EDUC 747 Advanced Educational Law 3 Credit Hours
An in-depth study into educational law and how social and cultural changes are directing how our courts act and react. A new global mindset present in our high courts has and will continue to re-direct how our courts view many judicial rulings and from those considerations a new set of legal precedents will emerge impacting how our educational systems are viewed by those courts.

EDUC 748 School District Finance and Organizational Management 3 Credit Hours
Prerequisites: EDUC 743 or (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
This course addresses the role of district-level leadership in system operations, including budget preparation, fiscal management, administration of auxiliary services (food service, transportation, etc.), human resources (salaries, benefits, hiring costs, professional development, etc.) and policy development. Related topics address equity issues, taxation, statutory mandates, facility management, technology infrastructures, and school safety.

Offered: Online

EDUC 750 Survey of Educational Research 3 Credit Hours
Prerequisites: EDUC 700
This course introduces candidates to a range of methods used in educational research. This survey of educational research methods addresses the difference between qualitative and quantitative research and basic versus applied research methods.

Offered: Online

EDUC 759 College and University Administration 3 Credit Hours
A study of the administrative and organizational aspects of colleges and universities with emphasis on principle organizational components, and contemporary leadership issues.

Registration Restrictions: Background Check Receipt.

EDUC 760 Literature Review in Education Research 2-3 Credit Hours
Prerequisites: EDUC 750
This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

Offered: Online

EDUC 771 Curriculum Theory 3 Credit Hours
Addresses the theoretical constructs of the K-12 curriculum as related to the nature and function of curriculum, the curriculum development process, and curriculum evaluation procedures.

EDUC 782 Historical Perspectives of Higher Education 3 Credit Hours
This course provides a historical foundation of how ideas and practices from the past influence current trends in higher education.

EDUC 783 Economic Impact in Higher Education 3 Credit Hours
This course is an introductory examination of financial, economic, and budgetary issues in higher education. Focusing on postsecondary institutions, students will review the primary political, economic, and social issues influencing higher education finance, examine revenue streams and expenditure patterns, survey tuition and financial aid policies, and assess the budget as an instrument of strategic planning, resource allocation, and fiscal control.

EDUC 784 Assessment & Accreditation 3 Credit Hours
The purpose of this course is to explore assessment programs and research that informs planning and results in measurable improvements for students. The course will also explore how assessment can be used to align programs with the goals and values of the institution, while satisfying accreditation requirements.

EDUC 798 Advanced Research and Writing 3 Credit Hours
This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication. This is the capstone course for the Ed.S. program, and it should be taken as the last course in the program. (Formerly EDUC 718)

Offered: Online
EDUC 799 Internship: District-Level Leadership 3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Registration Restrictions: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program May be repeated to a maximum of six hours.

Note: Requires completion of the projects and minimum hours as specified in proposal.

Offered: Online

EDUC 810 Dissertation Planning 1 Credit Hour

Prerequisites: EDUC 760

This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

Offered: Online

EDUC 812 Advanced Educational Statistics 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

This course involves an examination of descriptive statistics and basic inferential statistical techniques. Hypothesis testing, confidence intervals, analysis of variance, correlation techniques and nonparametric statistical methods will be discussed.

EDUC 815 Quantitative Methods of Research 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5 and EDUC 812

This course is designed for those planning to write a dissertation. An examination of quantitative designs for educational research topics will be considered. These are: Developing a research problem, Reviewing the Literature, The Hypothesis, Descriptive Statistics, Sampling and Inferential Statistics, Tools of Research, Validity and Reliability, Experimental Research Designs, Ex Post Facto Research, Correlational Research, Survey Research, Guidelines for Writing a Quantitative Research Proposal, and Interpreting and Reporting Results of Quantitative Research.

EDUC 816 Applied Research 3 Credit Hours

Prerequisites: EDUC 750

The objective of an applied dissertation is to identify a problem of practice in the workplace and generate solutions to improve practice or policy on the issue. This course addresses the methods, skills, and knowledge necessary for completion of an applied research project.

Offered: Online

EDUC 817 Qualitative Methods of Research 3 Credit Hours

This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents. (Formerly EDUC 717)

EDUC 840 Issues and Trends in Educational Leadership 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of the current issues and trends related to the field of education leadership. Emphasis will be placed on research and analysis of practices related to effectiveness.

Registration Restrictions: Background Check Receipt.

EDUC 845 Policy Analysis 3 Credit Hours

A study of the contemporary educational policy issues. Candidates will be required to assess and evaluate current education policies and implications for education effectiveness.

Registration Restrictions: Background check required and candidacy status.

EDUC 848 Culture and Educational Leadership 3 Credit Hours

This course deals with the complexities of multicultural issues in school systems by exploring the history, philosophy, and goals of multicultural education. Emphasis is given to the role of educational leaders in evaluating cultural issues in the context of a biblical worldview and developing practices that maximize the opportunities of cultural diversity.

Registration Restrictions: Background Check Receipt.

EDUC 850 Literature Review for Applied Research 3 Credit Hours

This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review for applied research. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a capstone project.

Offered: Online

EDUC 860 Literature Review for Advanced Research 2-3 Credit Hours

Prerequisites: EDUC 710 and EDUC 812

This course provides doctoral students with advanced research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

EDUC 871 Investigations in Curriculum Change 3 Credit Hours

Review and evaluation of theories, models, and strategies for change; recognition and use of this knowledge as a practical guide to problem solving.

EDUC 872 Research in Curriculum Design and Development 3 Credit Hours

This course is designed for candidates who have an advanced understanding of research orientation and knowledge in the field of curriculum and instruction. Content and emphasis will focus on the understanding of how people learn, who decides what people learn, and how to determine what is taught in a classroom. Candidates will research curriculum theorists and the impact they have on the field of education. Candidates will also design and develop a curriculum project that both meets a professional need and reflects current issues and trends.
EDUC 880 Applied Research Concepts & Methodology 3 Credit Hours

Prerequisites: EDUC 750 and EDUC 816 and EDUC 850

Review of the doctoral candidates’ proposed capstone project concepts and methodology under the supervision of a consultant.

Offered: Online

EDUC 887 Capstone I 5 Credit Hours

Prerequisites: EDUC 880

This course focuses on developing doctoral candidates' capstone project prospectus.

Offered: Online

EDUC 888 Capstone II 5 Credit Hours

Prerequisites: EDUC 887

This course focuses on developing doctoral candidates' capstone project proposal.

Offered: Online

EDUC 889 Capstone III 5 Credit Hours

Prerequisites: EDUC 888

This course focuses on developing doctoral candidates' capstone project.

Offered: Online

EDUC 890 Capstone IV 0 Credit Hours

Prerequisites: EDUC 889

This course focuses on final submission of doctoral candidates' capstone project.

Offered: Online

EDUC 895 Advanced Directed Research 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Offers opportunity and challenge for advanced independent research to develop the individual’s ability as an independent student and enable the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.

Registration Restrictions: Approval of instructor.

EDUC 897 Advanced Seminar in Education 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of selected topics relevant to current issues in education.

EDUC 891 Advanced Quantitative Methods of Research 3 Credit Hours

Prerequisites: EDUC 812 and EDUC 815 and EDUC 817

This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

EDUC 891 Comprehensive Exam 0 Credit Hours

Prerequisites: (Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and EDUC 701 and (EDUC 919)

A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation proposal.

Note: Tuition charged for a one hour course.

Registration Restrictions: Background Check Clearance.

EDUC 898 Research Concepts & Methodology 3 Credit Hours

Prerequisites: EDUC 815 or EDUC 817 or EDUC 819

Required of all candidates in a School of Education doctoral program. Review of the candidates proposed dissertation research concepts and methodology under the supervision of a research consultant.
EDUC 987 Dissertation Prospectus and Research 5 Credit Hours
Prerequisites: EDUC 980
This course focuses on developing the dissertation prospectus.
Offered: Online

EDUC 988 Dissertation Proposal & Research 3,5 Credit Hours
Prerequisites: EDUC 980
This course focuses on developing the dissertation proposal.

EDUC 989 Dissertation Writing and Research 3,5 Credit Hours
Prerequisites: EDUC 988
This course focuses on developing the dissertation.

EDUC 990 Dissertation Defense 3 Credit Hours
Prerequisites: EDUC 989
This course focuses on defending the dissertation.

Education (Ph.D.) - Curriculum & Instruction

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours 60

1 Intensive format optional
2 Once the student enters the dissertation phase, he/she must maintain continuous enrollment (Fall, Spring, and Summer semesters) until all degree requirements are completed
3 Ph.D. students are allowed to enroll in EDUC 987 Dissertation Prospectus and Research (5 c.h.), EDUC 988 Dissertation Proposal & Research (3.5 c.h.), and EDUC 989 Dissertation Writing and Research (3.5 c.h.) only one time. Extensions for exceptional circumstances must be approved by the School of Education.

Graduation Requirements

- Complete 60 hours
- A minimum of 45 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of dissertation
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format
Education (Ph.D.) - Special Education

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours 60
Program Specific Admission Requirements

In addition to the general admission requirements, specific admission procedures for the Ph.D. are listed below. Submit the following items to the Office of Graduate Admissions prior to registering for any graduate courses. Where noted, forms are available online at: http://www.liberty.edu/apply.

1. **Academic Records.** Applicants must submit an official transcript indicating successful completion of a master's degree program from an institution accredited by an accrediting agency recognized by the U.S. Department of Education. Transcripts should be sent directly to the Office of Graduate Admissions from all schools previously attended.

2. Ph.D. applicants must have a cumulative GPA of 3.00 or above on graduate degree required for entrance to the program.

Transfer of Credit

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to 15 hours may be transferred into the Ph.D. program. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous seven (7) years to be eligible for transfer to the Ph.D.

Students who have earned an Education Specialist in Higher Education Administration degree through Liberty are permitted to apply up to 27 hours (as applicable) from that degree toward the PhD in Higher Education Administration.

Graduation Requirements

In addition to other regulations governing graduation, as stated in the Liberty University catalog, Ph.D. candidates must meet the following requirements:

1. Complete 60 hours.
2. A minimum of 45 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
3. A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. Maintain a 3.00 GPA.
5. No grades lower than a B- may be applied to the degree.
6. For information regarding the repeat policy, please refer to "Course Repeat Policy" in the Academic Information and Policies section of this Catalog.
7. Successful defense of dissertation.

All applicable prerequisites must be met

**Graduation Requirements**

- Complete 60 hours
- A minimum of 45 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of dissertation
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

**Program Offered in Online Format**

**Doctor of Philosophy in Higher Education Administration (Ph.D.)**

**Purpose**

The Doctor of Philosophy in Higher Education Administration degree is designed to prepare competent effective leaders and researchers with a biblical worldview who will model high standards and assume a leadership role in the field of education. Researchers and leaders in the field of higher education are seen as those who assume a role in shaping the future direction of the policies, goals, and objectives of an education system whether it be in the college and university, business, or government setting.

**Program Learning Outcomes**

A graduate of the Doctor of Philosophy in Higher Education Administration (Ph.D.) program:

1. Knows research competencies synthesized with Christian values, moral dimensions, and ethical implications.
   a. Evaluate elements of the historical and philosophical influences pertaining to governance, administration, and leadership in institutions of higher education.

2. Implements leadership, teaching and learning competencies as a gift from God because teaching/learning is a calling from God.
   a. Synthesize organizational theories and models to create and lead effective higher education organizations.
   b. Integrate theoretical knowledge with practical skills necessary for advanced career positions in higher education.
   c. Evaluate, interpret and synthesize research in higher education.

   d. Construct original research that contributes meaningfully to the existing body of knowledge.

3. Believes foundation competencies consistent with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools.
   a. Defend a biblical worldview throughout analysis of literature, readings and research in higher education.

   **Program Specific Admission Requirements**

   In addition to the general admission requirements, specific admission procedures for the Ph.D. are listed below. Submit the following items to the Office of Graduate Admissions prior to registering for any graduate courses. Where noted, forms are available online at: http://www.liberty.edu/apply.

1. **Academic Records.** Applicants must submit an official transcript indicating successful completion of a master's degree program from an institution accredited by an accrediting agency recognized by the U.S. Department of Education. Transcripts should be sent directly to the Office of Graduate Admissions from all schools previously attended.

2. Ph.D. applicants must have a cumulative GPA of 3.00 or above on graduate degree required for entrance to the program.

**Transfer of Credit**

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to 15 hours may be transferred into the Ph.D. program. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous seven (7) years to be eligible for transfer to the Ph.D.

Students who have earned an Education Specialist in Higher Education Administration degree through Liberty are permitted to apply up to 27 hours (as applicable) from that degree toward the PhD in Higher Education Administration.

**Graduation Requirements**

In addition to other regulations governing graduation, as stated in the Liberty University catalog, Ph.D. candidates must meet the following requirements:

1. Complete 60 hours.
2. A minimum of 45 hours must be completed through Liberty University, not to include from a prior degree earned through Liberty.
3. A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. Maintain a 3.00 GPA.
5. No grades lower than a B- may be applied to the degree.
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Successful defense of dissertation.
8. Degree must be completed within 7 years.
9. Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date.

Dissertation
Candidates must adhere to the timeframes noted on their specific DCP for proposal and dissertation completion. Exceeding time limits will result in removal from the Ph.D. program.

Before beginning the dissertation research, the doctoral dissertation committee must approve the research proposal. The dissertation is expected to exhibit scholarship, reflect mastery of technique, and make a distinctive contribution to the field of knowledge in which the candidate has specialized. A faculty committee of two (2) members, comprising a chair and a committee member is responsible for the general supervision of the doctoral dissertation. A formal defense of the dissertation is required for final approval.

Once candidates enter the dissertation phase of their degree as noted on their specific DCP, they must maintain continuous enrollment (Fall, Spring, and Summer semesters) until they complete all degree requirements. If they do not, they will break enrollment, and they will be required to apply for readmission if/when they wish to resume the pursuit of their degree. They will have to complete their degree under the Degree Completion Plan (DCP) in effect at the time of their readmission.

Time Limits for Degree Completion
The time limit for completing the degree from the date of admission to the program is seven years for the Ph.D. Only in unusual circumstances may the candidate be granted an extension. Granting of an extension of time will usually result in additional requirements.

There will be a time limit of five years for completion of the Ph.D. for candidates who were granted 18 hours or more of advanced standing from a previously completed Ph.D. or equivalent degree.

Any candidate who does not complete coursework within the permissible time limit, for any reason including discontinued enrollment, must reapply for admission. A candidate may reapply only once, and will be subject to the current standards and curriculum. The SOE Graduate Committee will determine if any previous courses are sufficiently time sensitive and must be repeated. Beginning with the date of readmission, the candidate’s time limit for degree completion is determined by the number of hours remaining.

Programs of Study
Delivery Format: Online Only
- Higher Education Administration (Ph.D.) - Educational Leadership (p. 497)

Career Opportunities
- Clinical, Counseling, or School Psychologist
- Curriculum Specialist
- Educational Consultant
- Post-secondary Education Instructor
- Survey Researcher
- Training and Development Specialist

Courses
EDUC 700 Introduction and Orientation to Doctoral Studies 2 Credit Hours
This course orients candidates to the Doctor of Education in the School of Education and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a doctoral candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

Offered: Online
EDUC 701 Advanced Learning Theory and Research 3 Credit Hours
Current findings and research in learning theory are examined, including research about classroom management, learning, motivation, diversity, exceptionals, assessment, and teaching. Discussion, analysis of cases, examination of personal experiences in schools, cooperative projects, and other activities will also be included.

EDUC 703 Theories of Historical and Social Foundations of Education 3 Credit Hours
Advanced study covering the historical and philosophical principles and theories that have shaped education on a global basis.

EDUC 708 Quantitative/Qualitative Meth 3 Credit Hours
Prerequisites: EDUC 608 and Background Check Receipt with a score of 5

EDUC 710 Orientation to Doctoral Study and Research 2 Credit Hours
This course provides an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication.

EDUC 718 Advanced Research and Writing 3 Credit Hours
Prerequisites: EDUC 712 and EDUC 746 and Background Check Clearance with a score of 5 and Background Check Receipt with a score of 5

EDUC 721 Issues and Trends in Exceptionality 3 Credit Hours
A research oriented course that focuses on issues and trends that face the discipline of special education. The course utilizes research to analyze and examine through written discussions controversial issues in various areas of exceptionalities.
EDUC 723 Administration and Supervision of Special Education 3 Credit Hours

This course addresses critical knowledge for effective leadership, management, and supervision in special education and disability services. Emphasis is placed on the legal foundations for special education and disability services in the United States.

Offered: Online

EDUC 730 Issues & Trends in Learning Technologies 3 Credit Hours

A study of technology practices as they impact the teaching and learning process in any context. Specifically, this course will examine personal, professional and pedagogical engagement of technology; especially those technologies associated with digitally-based communication, collaboration, engagement, interactivity, problem-solving, as well as current trends and future perspectives.

Offered: Online

EDUC 731 Instructional Design Theory 3 Credit Hours

This course introduces students to instructional design and technology through a Christian perspective. It reviews historical trends and current issues found in learning environments through the field of instructional design. Students will focus on planning instruction to address specific learning problems through instructional design theory.

Offered: Online

EDUC 732 Principles of Human Performance Technology 3 Credit Hours

This course addresses instructional design through human performance technology. It examines the gap between what human performance is occurring within an organization and what human performance should be occurring. Students will learn about human performance technology and identify solutions to address performance gaps within learning environments.

Offered: Online

EDUC 733 Instructional Systems Design 3 Credit Hours

Through the examination of various instructional design models and conceptual underpinnings, this course works to develop advanced instructional design and development skills from a systems thinking perspective. The enhancement of technology leadership proficiencies to effectively lead organizations in applying technology to foster active engagement with other professionals within instructional systems is a significant focus.

Offered: Online

EDUC 734 Implementation and Assessment of Multimedia Learning Tools 3 Credit Hours

This course addresses assessment and evaluation of learning tools in instructional design and technology. It looks at how best to integrate, design, and administer learning tools within the classroom no matter the learning environment. Students will research about multimedia learning tools and identify solutions to address performance gaps within educational settings.

Offered: Online

EDUC 735 Issues and Trends in Curriculum and Instruction 3 Credit Hours

An overview of the current issues and trends in the field of education, specifically targeting the area of teaching and learning.

EDUC 736 Models for Instructional Design and Technology 3 Credit Hours

This course will focus on key learning and performance metrics to inform the selection and application of instructional design models and technologies that best support teaching and learning across multiple learning environments, modalities, and delivery mechanisms.

Offered: Online

EDUC 737 Ethics and Social Responsibility in Technology 3 Credit Hours

This course provides a critical review of the ethics and social responsibility behind the integration of technology into learning systems. Course material will reflect on the nature of technology and how it impacts both the individual and society within learning environments. Students will also analyze the effect of technology on culture through a biblical worldview.

Offered: Online

EDUC 740 Leadership Principles and Ethics 3 Credit Hours

Prerequisites: EDUC 759 and (Background Check Clearance with a score of 5 or Background Check International with a score of 5 or Background Check Out of State with a score of 5 or Background Check Virginia with a score of 5)

Candidates are engaged in an analysis of appropriate practices and principles related to leadership by exploring ethical issues and developing a biblical foundation for leadership practices.

EDUC 741 Theories of Educational Leadership 3 Credit Hours

An analysis of education/organizational leadership theories and evidence based practices with application to challenges faced by academic leaders in complex and changing contexts. Emphasis given to significance and relevance for leaders forging relationships and leading academic organizations to successfully fulfill their mission.

EDUC 742 Educational Leadership and Public Relations 3 Credit Hours

An investigation into the issues and practices of developing communication and relationships to enhance support for educational activities within and outside the school.

EDUC 743 Executive Leadership in Curriculum and Instruction 3 Credit Hours

This course addresses the role of district-level leadership in the supervision of instruction as a superintendent or assistant superintendent. Research-based methods will be applied to the development of district-wide processes for the improvement of student achievement through systematic planning, designing, implementing, and evaluating curriculum, instruction and assessment. Attention is given to supervision, evaluations, and professional development of district-level personnel and building-level administrators. Field experience hours are required.

Offered: Online
Doctor of Philosophy in Higher Education Administration (Ph.D.)

EDUC 745 Organizational Analysis and Problem Solving 3 Credit Hours
An introduction to the nature and management of educational organizations. Integrates major theoretical perspectives with special focus on applying such theories to both better understand and more effectively resolve organizational problems.

EDUC 746 Conflict Resolution 3 Credit Hours
The effective means of solving conflicts are explored through conceptualizing and practicing interpersonal leadership skills, testing assumptions about other people, taking other people into account by listening and testing the meaning of what they have said.

EDUC 747 Advanced Educational Law 3 Credit Hours
An in-depth study into educational law and how social and cultural changes are directing how our courts act and react. A new global mindset present in our high courts has and will continue to re-direct how our courts view many judicial rulings and from those considerations a new set of legal precedents will emerge impacting how our educational systems are viewed by those courts.

EDUC 748 School District Finance and Organizational Management 3 Credit Hours
Prerequisites: EDUC 743 or (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
This course addresses the role of district-level leadership in system operations, including budget preparation, fiscal management, administration of auxiliary services (food service, transportation, etc.), human resources (salaries, benefits, hiring costs, professional development, etc.) and policy development. Related topics address equity issues, taxation, statutory mandates, facility management, technology infrastructures, and school safety.
Offered: Online

EDUC 750 Survey of Educational Research 3 Credit Hours
Prerequisites: EDUC 700
This course introduces candidates to a range of methods used in educational research. This survey of educational research methods addresses the difference between qualitative and quantitative research and basic versus applied research methods.
Offered: Online

EDUC 758 Teaching the College Student 3 Credit Hours
A study of the nature of the college student from a sociological, cultural, and psychological perspective. Opportunity will be given to analyze, synthesize, and discuss ways to bring about maximum impact, growth and satisfaction.

EDUC 759 College and University Administration 3 Credit Hours
A study of the administrative and organizational aspects of colleges and universities with emphasis on principle organizational components, and contemporary leadership issues.
Registration Restrictions: Background Check Receipt.
EDUC 760 Literature Review in Education Research 2-3 Credit Hours
Prerequisites: EDUC 750
This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.
Offered: Online

EDUC 771 Curriculum Theory 3 Credit Hours
Addresses the theoretical constructs of the K-12 curriculum as related to the nature and function of curriculum, the curriculum development process, and curriculum evaluation procedures.

EDUC 782 Historical Perspectives of Higher Education 3 Credit Hours
This course provides a historical foundation of how ideas and practices from the past influence current trends in higher education.

EDUC 783 Economic Impact in Higher Education 3 Credit Hours
This course is an introductory examination of financial, economic, and budgetary issues in higher education. Focusing on postsecondary institutions, students will review the primary political, economic, and social issues influencing higher education finance, examine revenue streams and expenditure patterns, survey tuition and financial aid policies, and assess the budget as an instrument of strategic planning, resource allocation, and fiscal control.

EDUC 784 Assessment & Accreditation 3 Credit Hours
The purpose of this course is to explore assessment programs and research that informs planning and results in measurable improvements for students. The course will also explore how assessment can be used to align programs with the goals and values of the institution, while satisfying accreditation requirements.

EDUC 798 Advanced Research and Writing 3 Credit Hours
This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication. This is the capstone course for the Ed.S. program, and it should be taken as the last course in the program. (Formerly EDUC 718)
Offered: Online
EDUC 799 Internship: District-Level Leadership 3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Registration Restrictions: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program. May be repeated to a maximum of six hours.

Note: Requires completion of the projects and minimum hours as specified in proposal.

Offered: Online

EDUC 810 Dissertation Planning 1 Credit Hour

Prerequisites: EDUC 760

This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

Offered: Online

EDUC 812 Advanced Educational Statistics 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

This course involves an examination of descriptive statistics and basic inferential statistical techniques. Hypothesis testing, confidence intervals, analysis of variance, correlation techniques and nonparametric statistical methods will be discussed.

EDUC 815 Quantitative Methods of Research 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5 and EDUC 812

This course is designed for those planning to write a dissertation. An examination of quantitative designs for educational research topics will be considered. These are: Developing a research problem, reviewing the literature, the hypothesis, descriptive statistics, sampling and inferential statistics, tools of research, validity and reliability, experimental research designs, ex post facto research, correlational research, survey research, guidelines for writing a quantitative research proposal, and interpreting and reporting results of quantitative research.

EDUC 816 Applied Research 3 Credit Hours

Prerequisites: EDUC 750

The objective of an applied dissertation is to identify a problem of practice in the workplace and generate solutions to improve practice or policy on the issue. This course addresses the methods, skills, and knowledge necessary for completion of an applied research project.

Offered: Online

EDUC 817 Qualitative Methods of Research 3 Credit Hours

This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents. (Formerly EDUC 717)

EDUC 840 Issues and Trends in Educational Leadership 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of the current issues and trends related to the field of education leadership. Emphasis will be placed on research and analysis of practices related to effectiveness.

Registration Restrictions: Background Check Receipt.

EDUC 845 Policy Analysis 3 Credit Hours

A study of the contemporary educational policy issues. Candidates will be required to assess and evaluate current education policies and implications for education effectiveness.

Registration Restrictions: Background check required and candidacy status.

EDUC 848 Culture and Educational Leadership 3 Credit Hours

This course deals with the complexities of multicultural issues in school systems by exploring the history, philosophy, and goals of multicultural education. Emphasis is given to the role of educational leaders in evaluating cultural issues in the context of a biblical worldview and developing practices that maximize the opportunities of cultural diversity.

Registration Restrictions: Background Check Receipt.

EDUC 850 Literature Review for Applied Research 3 Credit Hours

This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review for applied research. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a capstone project.

Offered: Online

EDUC 860 Literature Review for Advanced Research 2-3 Credit Hours

Prerequisites: EDUC 710 and EDUC 812

This course provides doctoral students with advanced research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

EDUC 871 Investigations in Curriculum Change 3 Credit Hours

Review and evaluation of theories, models, and strategies for change; recognition and use of this knowledge as a practical guide to problem solving.

EDUC 872 Research in Curriculum Design and Development 3 Credit Hours

This course is designed for candidates who have an advanced understanding of research orientation and knowledge in the field of curriculum and instruction. Content and emphasis will focus on the understanding of how people learn, who decides what people learn, and how to determine what is taught in a classroom. Candidates will research curriculum theorists and the impact they have on the field of education. Candidates will also design and develop a curriculum project that both meets a professional need and reflects current issues and trends.
EDUC 880 Applied Research Concepts & Methodology  3 Credit Hours
Prerequisites: EDUC 750 and EDUC 816 and EDUC 850
Review of the doctoral candidates’ proposed capstone project concepts and methodology under the supervision of a consultant.
Offered: Online

EDUC 887 Capstone I  5 Credit Hours
Prerequisites: EDUC 880
This course focuses on developing doctoral candidates’ capstone project prospectus.
Offered: Online

EDUC 888 Capstone II  5 Credit Hours
Prerequisites: EDUC 887
This course focuses on developing doctoral candidates’ capstone project proposal.
Offered: Online

EDUC 889 Capstone III  5 Credit Hours
Prerequisites: EDUC 888
This course focuses on final submission of doctoral candidates’ capstone project.
Offered: Online

EDUC 890 Capstone IV  0 Credit Hours
Prerequisites: EDUC 889
This course focuses on final submission of doctoral candidates’ capstone project.
Offered: Online

EDUC 895 Advanced Directed Research  3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Provides opportunity and challenge for advanced independent research to develop the individual’s ability as an independent student and enable the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.
Registration Restrictions: Approval of instructor.

EDUC 897 Advanced Seminar in Education  3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
A study of selected topics relevant to current issues in education.

EDUC 915 Advanced Quantitative Methods of Research  3 Credit Hours
Prerequisites: EDUC 812 and EDUC 815 and EDUC 817
This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

EDUC 917 Advanced Qualitative Methods of Research  3 Credit Hours
Prerequisites: EDUC 817 and EDUC 812 and EDUC 815
This course addresses the skills and knowledge necessary for completion of a qualitative dissertation, including research design, data analysis and representation, methods for increasing trustworthiness, and ethical considerations in research with human subjects.

EDUC 919 Professional Writing and Research  3 Credit Hours
Prerequisites: (EDUC 815 and EDUC 812 and EDUC 760) or (EDUC 760 and EDUC 816 and EDUC 817)
This course addresses the skills and knowledge necessary for completion of a doctoral dissertation including research design, data analysis, and writing for publication.

EDUC 960 Dissertation Planning  1 Credit Hour
Prerequisites: EDUC 815 and EDUC 817
This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

EDUC 970 Comprehensive Exam  0 Credit Hours
Prerequisites: (Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and EDUC 701 and (EDUC 919
A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation proposal.
Note: Tuition charged for a one hour course.
Registration Restrictions: Background Check Clearance.

EDUC 980 Research Concepts & Methodology  3 Credit Hours
Prerequisites: EDUC 915 or EDUC 917 or EDUC 919
Required of all candidates in a School of Education doctoral program. Review of the candidates proposed dissertation research concepts and methodology under the supervision of a research consultant.
EDUC 987 Dissertation Prospectus and Research 5 Credit Hours
Prerequisites: EDUC 980
This course focuses on developing the dissertation prospectus.
Offered: Online
EDUC 988 Dissertation Proposal & Research 3,5 Credit Hours
Prerequisites: EDUC 980
This course focuses on developing the dissertation proposal.
EDUC 989 Dissertation Writing and Research 3,5 Credit Hours
Prerequisites: EDUC 988
This course focuses on developing the dissertation.
EDUC 990 Dissertation Defense 3 Credit Hours
Prerequisites: EDUC 989
This course focuses on defending the dissertation.

Higher Education Administration
(Ph.D.) - Educational Leadership

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Graduation Requirements**

- Complete 60 hours
- A minimum of 45 hours must be completed through Liberty University, not to include from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than a B- may be applied to the degree
- Successful defense of dissertation
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format

Education Specialist (Ed.S.)

Purpose
The Education Specialist degrees are designed to prepare competent effective leaders with a biblical worldview who will model high standards and assume a leadership role in the field of education. Leaders in the field of education are seen as those who assume a facilitating role in accomplishing the goals and objectives of an education system whether it is as a teacher, superintendent, principal, curriculum director, instructional supervisor, college instructor, or university administrator.

Program Learning Outcomes
A graduate of the Educational Specialist (Ed.S.) program:

1. Knows research competencies synthesized with Christian values, moral dimensions, and ethical implications.
   a. Makes broad distinctions between research philosophies and approaches.
   b. Demonstrates an understanding of the practices that inform site-based research by interpreting and designing research.
c. Interprets how practitioners carry out inquiry and the issues faced, and can make inferences about research implications.

2. Implements leadership, teaching and learning competencies as a gift from God because teaching/learning is a calling from God
   a. Integrates skills in speaking, writing, reading, and listening for effective communication in educational settings.
   b. Models citizenship through moral leadership and sensitivity to human needs.
   c. Collaborates with various educational stakeholders in a variety of settings.
   d. Selects appropriate technology and resources to support educational goals.
   e. Utilizes highly effective educational strategies based on individual needs.
   f. Uses a variety of assessment strategies to improve student learning.

3. Believes foundation competencies consistent with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools
   a. Upholds high standards of competence and integrity, exercises sound judgment in the practice of the profession, and participates in activities of professional organizations relevant to their field.

Requirements
Ed.S. candidates have the option of completing cognates in the areas of Educational Leadership, Educational Law¹ or Curriculum and Instruction. General requirements are as follows:

¹ The Educational Law Cognate is open to currently enrolled Liberty University School of Law students and Liberty University School of Law alumni only. Please see the School of Law Dual Degree section of this Catalog for more information.

Program Specific Admission Requirements
In addition to the general admission procedures, specific admission requirements for the Ed.S. are listed below. The following items must be submitted to the Office of Graduate Admissions prior to registering for any graduate courses. Where noted, forms are available online at www.luonline.com.

1. Academic Records. Applicants must submit an official transcript indicating successful completion of a master’s degree program from an institution accredited by an accrediting agency recognized by the U.S. Department of Education. Transcripts should be sent directly to the Office of Graduate Admissions from all schools previously attended.

2. TOEFL Scores for candidates who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test)

Transfer of Credit
All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to six hours may be transferred into the Ed.S. program. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous 10 years.

Graduation Requirements
In addition to other regulations governing graduation, as stated in the Liberty University Catalog, Ed.S. graduates must:

1. Complete a minimum of 30 semester hours beyond the Master’s degree.
2. Complete a minimum of 24 semester hours through Liberty, not to include credits from a prior degree earned through Liberty.
3. A maximum of six (6) hours of transfer credit may be applied to the degree.
4. Maintain a 3.00 GPA to remain in the program, with no more than one C permitted in program courses (includes grades of C+ & C-). While all course grades are averaged in the GPA, course credit toward degree completion is not granted for a grade of D (or D+/D-) or F.
5. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
6. Certain additional requirements may be necessary depending upon the candidate’s academic background. Any and all contracts made between the SOE Graduate Committee and the candidate at the time of acceptance into the degree program must be satisfied before the degree will be awarded.
7. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Time Limits for Degree Completion
The time limit for completing the degree from the date of admission to the program is five years. Only in unusual circumstances may the candidate be granted an extension. Granting of an extension of time may result in additional requirements.

Any candidate who does not complete coursework within the permissible time limit for any reason, including discontinued enrollment, must reapply for admission. A candidate may reapply only once, and will be subject to the current standards and curriculum if readmitted. The SOE Graduate Committee will determine if any previous courses are sufficiently time sensitive and must be repeated. Beginning with the date of readmission, the candidate’s time limit for degree completion is determined by the number of hours remaining.
Dual Degree - Educational Law Cognate
To view the degree completion plan for the Education Specialist - Educational Law Cognate Dual Degree Program (15 hrs) (Ed.S.), please see the School of Law section in this catalog.

Programs of Study
Delivery Format: Online Only
(Select optional intensives available)

- Curriculum & Instruction (Ed.S.) (p. 506)
- Curriculum & Instruction (Ed.S.) - Elementary Education (p. 508)
- Curriculum & Instruction (Ed.S.) - Middle Grades Education (p. 510)
- Curriculum & Instruction (Ed.S.) - Secondary Education (p. 512)
- Curriculum & Instruction (Ed.S.) - Special Education (p. 514)
- Educational Leadership (Ed.S.) (p. 515)

Career Opportunities
- College administrator
- Curriculum specialist
- Instructional supervisor
- School administrator
- Teacher

Courses
EDUC 500 Learning Theory 3 Credit Hours
An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

EDUC 501 Advanced Child Development 3 Credit Hours
An examination of physical, cognitive, spiritual and social/emotional development, and guidance of a young child.

EDUC 504 Historical and Philosophical Foundations of Education 3 Credit Hours
A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

Registration Restrictions: Background Check Required.
Offered: Online

EDUC 507 Educational Statistics 3 Credit Hours
Prerequisites: EDUC 506 and Background Check Receipt with a score of 5
An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

EDUC 518 Educational Research and Assessment 3 Credit Hours
Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

EDUC 521 Foundations of Exceptionality 3 Credit Hours
Prerequisites: (EDUC 500
A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

EDUC 523 Principles of Behavior Management 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 524 Collaborating for Successful Inclusive Classrooms 3 Credit Hours
Prerequisites: EDUC 500
A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.

EDUC 525 Collaborating for Successful Transitions 3 Credit Hours
Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.

EDUC 526 Principles and Practices in Gifted Education 3 Credit Hours
Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5 and EDUC 521
This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.
**EDUC 528 Communication, Language and Sensory Aspects for Autism**  
**3 Credit Hours**

**Prerequisites:** EDUC 527 and Background Check Receipt with a score of 5

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

**EDUC 530 Teaching Mathematics**  
**3 Credit Hours**

**Prerequisites:** EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

**EDUC 531 Teaching the Natural and Social Sciences**  
**3 Credit Hours**

Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

**EDUC 533 Teaching Writing Across the Curriculum**  
**3 Credit Hours**

**Prerequisites:** Background Check Receipt with a score of 5

This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.

**EDUC 535 Secondary Instructional Procedures**  
**3 Credit Hours**

**Prerequisites:** (EDUC 500 or EDUC 501) and Background Check Clearance with a score of 5

A course in secondary methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

**EDUC 536 Sec Instructional Procedures P**  
**1 Credit Hour**

**Prerequisites:** EDUC 500 or EDUC 501 and Background Check Receipt with a score of 5

Micro-teaching will be used as a means of providing an opportunity for students to model and role play appropriate teaching methods and activities in the secondary school. Candidates will be required to observe in secondary classrooms, prepare a lesson, teach the lesson, and evaluate the experience.

**EDUC 539 Current Issues in Content Areas**  
**3 Credit Hours**

**EDUC 540 Historical Perspectives in Urban Education**  
**3 Credit Hours**

An introduction to urban education and contemporary urban life in the United States of America. Candidates will examine educational issues in urban communities and learn strategies for developing partnerships between home, school, and community.

**Note:** Course offered beginning in Spring 2020.

**EDUC 542 Culturally Responsive Teaching**  
**3 Credit Hours**

An introduction to the culturally responsive teaching pedagogy that acknowledges, responds to, and celebrates cultural differences and offers equitable educational access to students from all cultural backgrounds. Students will explore the dynamics of race, class, and culture and how they affect diverse school populations.

**Note:** Course offered beginning in Spring 2020.

**EDUC 543 Urban Schools and Communities**  
**3 Credit Hours**

The social context of urban communities is tied to the success of urban schools. This course will analyze the connection between urban schools and communities and provide strategies for working with families and community stakeholders to advocate for children and improve educational outcomes for students from diverse backgrounds.

**Note:** Course offered beginning in Spring 2020.

**EDUC 544 Research in Urban Education**  
**3 Credit Hours**

An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.

**Note:** Course offered beginning in Spring 2020.

**Offered:** Online
EDUC 547 The Differentiated Classroom 3 Credit Hours
An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 550 Directed Practicum 6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 551 Comparative Educations 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 554 Reading and Language Acquisition 3 Credit Hours
Prerequisites: (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5
A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.
Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours
Prerequisites: (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5
Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 562 Introduction to Higher Education 3 Credit Hours
This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.
Offered: Online

EDUC 571 Curriculum Fundamentals 3 Credit Hours
An introduction to basic concepts and issues related to curriculum design, development, change and evaluation.
Note: To be taken the semester directly before student teaching or during student teaching.

EDUC 588 Practicum in Education I: External 0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))
Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.
Registration Restrictions: Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 591 Student Teaching II: Local 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.
Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 592 Student Teaching I: External 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 593 Student Teaching II: External 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.
Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 598 Field Experience Practicum 3 Credit Hours
Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.
Offered: Online
EDUC 600 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 601 Professional Development in Middle Grades Education 3 Credit Hours

This class will heighten Middle Grade Educators’ understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

Registration Restrictions: Background Check Required.

EDUC 602 Young Adolescents, Schools and Communities 3 Credit Hours

An overview of the characteristics and issues related to transescence and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher’s interaction with middle school students and families.

Registration Restrictions: Background Check Required.

EDUC 603 Comparative Education 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

Offered: Resident

EDUC 604 Foundations of Education 3 Credit Hours

This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

Registration Restrictions: Background check.

EDUC 606 Tests and Measurements 3 Credit Hours

Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)

EDUC 608 Technological Appl in Educ Res 3 Credit Hours

Prerequisites: EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5

EDUC 618 Applications of Educational Research 3 Credit Hours

Prerequisites: EDUC 518 and Background Check Receipt with a score of 5

Principles and techniques in the utilization of research methods to solve problems and answer questions in educational settings. This course requires completion of a major research project, along with demonstration of skills is using technology as a tool in qualitative and quantitative educational research and assessment.

EDUC 620 Organization and Design of Gifted Education Programs 3 Credit Hours

Candidates will examine model programs for gifted students that include organizational strategies for heterogeneous and homogeneous groupings. The study will include programs that are field specific, integrated content, and extracurricular models. Strategies for securing funding for gifted programs will be explored.

EDUC 621 Educational Assessment for Special Needs 3 Credit Hours

This course examines the processes and strategies for assessing students with special needs.

Registration Restrictions: Background Check.

EDUC 622 Educational Assessment and Intervention 3 Credit Hours

A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

Registration Restrictions: Background Check Required.

EDUC 623 Principles of Behavior Management 3 Credit Hours

An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

Registration Restrictions: Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours

This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student’s going into the general education classrooms and community settings.

Offered: Online
EDUC 625 Content Instructional Procedures  
3 Credit Hours

**Prerequisites:** Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

**Registration Restrictions:** Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment  
3 Credit Hours

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

**Registration Restrictions:** Completed background check.

EDUC 627 Reading and Research in Gifted Education  
3 Credit Hours

Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.

EDUC 628 Communication, Language and Sensory Aspects for Autism  
3 Credit Hours

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

**Registration Restrictions:** Background check required.

EDUC 629 Technology and Diversity  
3 Credit Hours

This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

**Registration Restrictions:** Background Check Receipt.

EDUC 630 Technology Practices for Instructional Improvement  
3 Credit Hours

This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning  
3 Credit Hours

An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of education technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction  
3 Credit Hours

A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning  
3 Credit Hours

This course is designed to assist the education professional in developing a solid foundation in instructional design and current research. The student will develop the skills and knowledge to advance their instructional effectiveness in varied settings through application of technology theory and practice.

EDUC 634 Teaching Science in the Elementary School  
3 Credit Hours

Contemporary methods and research for teaching science to elementary-aged students.

EDUC 635 Teaching Science in the Middle School  
3 Credit Hours

Contemporary methods and research for teaching science to middle school students.

EDUC 636 Teaching Social Studies in the Elementary School  
3 Credit Hours

An analysis of trends and practices of teaching social studies in the elementary school. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very materials and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines. Teaching candidates will be required to prepare these instructional elements focused on the Virginia Standards of Learning.
EDUC 637 Teaching Social Studies in the Middle School  3 Credit Hours

An analysis of trends and practices of teaching social studies in the middle school, and its contextual relationship to elementary and secondary instruction in social science. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very material and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field, and the best integration of other tools and disciplines.

EDUC 638 Leadership in Educational Technology  3 Credit Hours

This course will examine the roles of leadership in community, leadership in administration and leadership in the schools from a Christian worldview. This course will provide educators with both the theoretical and the practical considerations for planning and implementing technology, particularly computer applications, in schools. Basic concepts of technology and planning that use systems theory are presented. Emphasis is placed on the importance of the total application of technology as opposed to any individual component, be it hardware, software, facilities, personnel, or finances. This course will form a foundation from which educators will provide leadership and become agents for realizing the powerful potential of technology in their schools.

EDUC 639 Trends and Issues in Educational Technology  3 Credit Hours

Trends and Issues examines current trends in the research area of educational technology, having students engage literature to understand theoretical underpinnings of the field, current research projects in effect, and future trends as technology in learning evolves as a practice and as a research interest. The course uses foundational concepts of learning in the fields of psychology, sociology and educational research to understand critical implications of the current body of literature.

EDUC 640 School Administration  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of the administration roles in the design, implementation and improvement of the total educational program in private and public schools. Specific areas of study include curriculum and instruction, pupil and staff personnel, student activities, school organization and management.

EDUC 641 Supervision of Instruction  3 Credit Hours

Methods, theories and research applying to supervision at all levels of education: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, supervising principals department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 642 Leadership and Supervision in Education  3 Credit Hours

Methods, theories and research applying to supervision and leadership: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, and department heads; study of supervisory methods current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 643 Contemporary Issues in Educational Policy  3 Credit Hours

This course examines current issues and trends in education. Emphasis will be placed on how policy at the federal, state, and district levels affect the school-level decision-making process.

EDUC 644 School Leadership in Diverse Settings  3 Credit Hours

This course focuses on differences in educational leadership in diverse settings to include: private, charter, and traditional public schools with a focus on urban schools, as well as alternative and online schools.

EDUC 645 Foundations for Educational Leaders  3 Credit Hours

A study in the philosophy, precepts, and principles of education applied to Christian leadership in the educational setting. Emphasis is placed on self-investigation and analysis of leadership skills, strengths, and styles.

EDUC 646 School-Community Relations  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

Concepts and specific techniques in school-community relations involving the development and maintenance of purposeful programs of communication and collaboration between school personnel and the community. Includes appropriate field projects relating theory to practice.

EDUC 647 School Law  3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

EDUC 648 School Finance and Management  3 Credit Hours

Prerequisites: EDUC 641 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.
EDUC 650 Specialists for Reading/Math Programs 3 Credit Hours
Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5
An investigation of research-based intervention for reading or math programs. The role of the reading or math specialist to the total school program is also examined. Field experience required. Program Specialists: To be taken the semester directly before or during internship.
Note: May be repeated for credit.

EDUC 652 Current Issues in Reading/Math 3 Credit Hours
Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
An examination of current standards and exploration of controversies related to reading or math programs. Program Specialists: To be taken the semester directly before or during internship.
Note: May be repeated for credit.

EDUC 653 Current Issues in Early Childhood Education 3 Credit Hours
An examination of current standards and exploration of controversies related to early childhood education.
Registration Restrictions: Background Check Receipt.

EDUC 655 Organization and Administration of Pre-Schools 3 Credit Hours
Philosophy, objectives and methods for organizing and operating a kindergarten, nursery school, day-care center and play group for children below six years of age. Also includes the planning of pre-school facilities and the selection of equipment and personnel.

EDUC 656 Teaching Content Area Reading 3 Credit Hours
Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 659 Foundations and Theories of Literacy Instruction 3 Credit Hours
Prerequisites: EDUC 701 or Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
A study of the major theories, models, and components of literacy. Foundational knowledge will be utilized to design effective literacy instruction. Field experience is required.
Offered: Online

EDUC 663 Social and Political Aspects in Higher Education 3 Credit Hours
This survey course introduces students to the major social and political issues and trends facing contemporary higher education in the United States. Students examine, discuss, and debate various perspectives on critical issues at postsecondary campuses.
Offered: Online

EDUC 664 Economics and Finance of Higher Education 3 Credit Hours
This course is an introductory survey of financial and economic issues in higher education. Students will learn about these issues in relation to three primary levels: students and families, institutions, and the postsecondary industry at large.
Offered: Online

EDUC 665 Student Support Services & Retention 3 Credit Hours
This course discusses approaches to optimizing post-secondary student outcomes, particularly in support of critical programs designed to meet students’ academic, developmental and economic needs. Topics include orientation programming, academic support, student retention, campus life, academic advising, and career guidance, among others.
Offered: Online

EDUC 668 Teaching Mathematics in the Middle School 3 Credit Hours
This course will explore, develop, and use instructional strategies, technologies, and activities to promote development of attitudes and concepts in mathematics. Emphasis is on mathematical teaching and learning practices anchored in mathematical concepts, diagnostic and assessment methods, and leadership skills.

EDUC 669 Teaching Literacy in the Middle School 3 Credit Hours
This course focuses on promoting the middle level learner’s literacy development. Emphasis is placed on current theories, models, and methods of teaching, learning and communicating through the language processes of reading, writing, listening and speaking in the content areas. Students will explore, analyze, and critique research in reading, and the relationship of other disciplines to reading in the context of the middle school.

EDUC 670 Curriculum and Methods for Early Childhood 3 Credit Hours
The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 671 Curriculum Evaluation 3 Credit Hours
A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.
EDUC 672 Curriculum Development (Elementary/Secondary)  
3 Credit Hours
A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.
Registration Restrictions: Background Check Clearance or Receipt.

EDUC 673 Curriculum and Methods for Effective Instruction  
3 Credit Hours
A review of the history of education as it affects the development across schools. Emphasis on characteristics of preadolescents, personalizing curriculum for the K12 student, and strategies for motivating curriculum improvement planning to involve teachers and community.
Registration Restrictions: Background Check Required.

EDUC 675 Elementary Curriculum and Methods  
3 Credit Hours
An overview of the current issues and trends in the field of elementary teaching and curriculum.

EDUC 676 Middle Grades Curriculum and Methods  
3 Credit Hours
An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 688 Practicum in Education II: External  
0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 (may be taken concurrently) or EDUC 625 (may be taken concurrently))
Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.
Registration Restrictions: Background Check.

EDUC 690 Thesis Defense  
3 Credit Hours
Prerequisites: EDUC 518 and Background Check Receipt with a score of 5
Research project completed on an educational topic related to the concentration in the master’s degree. Credit is not awarded until the thesis has been accepted.

EDUC 695 Directed Research  
1-6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Offers opportunity and challenge of self-directive, independent study; that is, it develops the individual's ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.

EDUC 696 Current Issues in Education Capstone  
3 Credit Hours
Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665
This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.

EDUC 697 Seminar in Education  
3-6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.

EDUC 698 Directed Practicum  
3 Credit Hours
Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5
A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.
Note: Completed application and approval of Department Chair.

EDUC 699 Internship  
3 Credit Hours
Prerequisites: Advanced Gate 3 with a score of 5
Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)
Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.

**Curriculum & Instruction (Ed.S.)**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete the coursework for this degree and the additional classes and requirements that are listed in the Notes section of the DCP. Please consult www.liberty.edu/advisingguide or licensure information and requirements.

- Must have initial license and 3 years’ experience

## Curriculum & Instruction (Ed.S.) - Secondary Education

**Important**: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state.

If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete the coursework for this degree and the additional classes and requirements that are listed in the Notes section of the DCP. Please consult www.liberty.edu/advisingguide for licensure information and requirements.

### Education Specialist in Higher Education Administration (Ed.S.)

#### Purpose

The Education Specialist in Higher Education Administration is designed to prepare effective leaders with a biblical worldview who will model high standards and assume a leadership role within the context of Higher Education. Leaders in the field of higher education are seen as those who assume a role in shaping the future direction of the policies, goals, and objectives of an education system.

#### Program Learning Outcomes

The student will be able to:

1. Evaluate elements of the historical and philosophical influences pertaining to governance, administration, and leadership in institutions of higher education.
2. Integrate theoretical knowledge with practical skills necessary for advanced career positions in higher education.
3. Evaluate, interpret and synthesize research in higher education.
4. Defend a biblical worldview throughout analysis of literature, readings, and research in higher education.

#### Program Specific Admission Requirements

In addition to the general admission requirements, specific admission procedures for the Ed.S. are listed below. Submit the following items to the Office of Graduate Admissions prior to registering for any graduate courses. Where noted, forms are available online at: [http://www.liberty.edu/apply](http://www.liberty.edu/apply).

1. **Academic Records.** Applicants must submit an official transcript indicating successful completion of a master's degree program from an institution accredited by an accrediting agency recognized by the U.S. Department of Education. Transcripts should be sent directly to the Office of Graduate Admissions from all schools previously attended.
2. Ed.S. applicants must have a cumulative GPA of 3.00 or above on graduate degree required for entrance to the program.
Transfer of Credit
All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to six hours may be transferred into the Ed.S. program. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous ten years to be eligible for transfer to the Ed.S.

Graduation Requirements
In addition to other regulations governing graduation, as stated in the Liberty University catalog, Ed.S. students must meet the following requirements:

1. Complete 30 hours.
2. A minimum of 24 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
3. A maximum of 6 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. Maintain a 3.00 GPA.
5. No more than one grade of C may be applied to the degree (includes grades of C+ and C-)
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. No grade of D or below may be applied to the degree (includes grades of D+ and D-)
8. Degree must be completed within 5 years.
9. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Online Only
- Higher Education Administration (Ed.S.) (p. 525)

Career Opportunities
- Educator
- Academic Affairs
- College Administrator

Courses
EDUC 500 Learning Theory 3 Credit Hours
An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

EDUC 504 Historical and Philosophical Foundations of Education 3 Credit Hours
A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 507 Educational Statistics 3 Credit Hours
Prerequisites: EDUC 506 and Background Check Receipt with a score of 5
An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

EDUC 518 Educational Research and Assessment 3 Credit Hours
Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

EDUC 521 Foundations of Exceptionality 3 Credit Hours
Prerequisites: (EDUC 500
A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

EDUC 523 Principles of Behavior Managem 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 524 Collaborating for Successful Inclusive Classrooms 3 Credit Hours
Prerequisites: EDUC 500
A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.

EDUC 525 Collaborating for Successful Transitions 3 Credit Hours
Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.
EDUC 526 Principles and Practices in Gifted Education 3 Credit Hours
Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5 and EDUC 521
This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.
Registration Restrictions: Completed background check.

EDUC 528 Communication, Language and Sensory Aspects for Autism 3 Credit Hours
Prerequisites: EDUC 527 and Background Check Receipt with a score of 5
This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

EDUC 530 Teaching Mathematics 3 Credit Hours
Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)
An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

EDUC 531 Teaching the Natural and Social Sciences 3 Credit Hours
Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

EDUC 532 Teaching Writing Across the Curriculum 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.
EDUC 544 Research in Urban Education 3 Credit Hours
An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.
**Note:** Course offered beginning in Spring 2020.

**Offered:** Online

EDUC 547 The Differentiated Classroom 3 Credit Hours
An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.
**Note:** Course offered beginning in Spring 2020.

**Offered:** Online

EDUC 550 Directed Practicum 6 Credit Hours
**Prerequisites:** Background Check Receipt with a score of 5

EDUC 551 Comparative Educations 3 Credit Hours
**Prerequisites:** Background Check Receipt with a score of 5

EDUC 554 Reading and Language Acquisition 3 Credit Hours
**Prerequisites:** (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5

A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.

**Registration Restrictions:** Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours
**Prerequisites:** (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 562 Introduction to Higher Education 3 Credit Hours
This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.

**Offered:** Online

EDUC 571 Curriculum Fundamentals 3 Credit Hours
An introduction to basic concepts and issues related to curriculum design, development, change and evaluation.

**Note:** To be taken the semester directly before student teaching or during student teaching.

EDUC 588 Practicum in Education I: External 0 Credit Hours
**Prerequisites:** Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

**Registration Restrictions:** Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours
**Prerequisites:** Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

**Registration Restrictions:** Employment as a full-time K-12 teacher.

EDUC 591 Student Teaching II: Local 3 Credit Hours
**Prerequisites:** Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

**Registration Restrictions:** Employment as a full-time K-12 teacher.

EDUC 592 Student Teaching I: External 3 Credit Hours
**Prerequisites:** Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

**Registration Restrictions:** Employment as a full-time K-12 teacher.
EDUC 598 Field Experience Practicum 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.

Offered: Online

EDUC 600 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 601 Professional Development in Middle Grades Education 3 Credit Hours

This class will heighten Middle Grade Educators’ understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

Registration Restrictions: Background Check Required.

EDUC 602 Young Adolescents, Schools and Communities 3 Credit Hours

An overview of the characteristics and issues related to transiscence and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher’s interaction with middle school students and families.

Registration Restrictions: Background Check Required.

EDUC 603 Comparative Education 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

Offered: Resident

EDUC 604 Foundations of Education 3 Credit Hours

This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

Registration Restrictions: Background check.

EDUC 606 Tests and Measurements 3 Credit Hours

Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)

EDUC 608 Technological Appl in Educ Res 3 Credit Hours

Prerequisites: EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5

EDUC 618 Applications of Educational Research 3 Credit Hours

Prerequisites: EDUC 518 and Background Check Receipt with a score of 5

Principles and techniques in the utilization of research methods to solve problems and answer questions in educational settings. This course requires completion of a major research project, along with demonstration of skills is using technology as a tool in qualitative and quantitative educational research and assessment.

EDUC 620 Organization and Design of Gifted Education Programs 3 Credit Hours

Candidates will examine model programs for gifted students that include organizational strategies for heterogeneous and homogeneous groupings. The study will include programs that are field specific, integrated content, and extracurricular models. Strategies for securing funding for gifted programs will be explored.

EDUC 621 Educational Assessment for Special Needs 3 Credit Hours

This course examines the processes and strategies for assessing students with special needs.

Registration Restrictions: Background Check.

EDUC 622 Educational Assessment and Intervention 3 Credit Hours

A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

Registration Restrictions: Background Check Required.

EDUC 623 Principles of Behavior Management 3 Credit Hours

An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

Registration Restrictions: Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours

This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student’s going into the general education classrooms and community settings.

Offered: Online
EDUC 625 Content Instructional Procedures 3 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 627 Reading and Research in Gifted Education 3 Credit Hours

Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.

EDUC 628 Communication, Language and Sensory Aspects for Autism 3 Credit Hours

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

Registration Restrictions: Background check required.

EDUC 629 Technology and Diversity 3 Credit Hours

This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

Registration Restrictions: Background Check Receipt.

EDUC 630 Technology Practices for Instructional Improvement 3 Credit Hours

This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning 3 Credit Hours

An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of education technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction 3 Credit Hours

A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning 3 Credit Hours

This course is designed to assist the education professional in developing a solid foundation in instructional design and current research. The student will develop the skills and knowledge to advance their instructional effectiveness in varied settings through application of technology theory and practice.

EDUC 634 Teaching Science in the Elementary School 3 Credit Hours

Contemporary methods and research for teaching science to elementary-aged students.

EDUC 635 Teaching Science in the Middle School 3 Credit Hours

Contemporary methods and research for teaching science to middle school students.

EDUC 636 Teaching Social Studies in the Elementary School 3 Credit Hours

An analysis of trends and practices of teaching social studies in the elementary school. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very materials and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines. Teaching candidates will be required to prepare these instructional elements focused on the Virginia Standards of Learning.
EDUC 637 Teaching Social Studies in the Middle School  3 Credit Hours

An analysis of trends and practices of teaching social studies in the middle school, and its contextual relationship to elementary and secondary instruction in social science. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very material and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines.

EDUC 638 Leadership in Educational Technology  3 Credit Hours

This course will examine the roles of leadership in community, leadership in administration and leadership in the schools from a Christian worldview. This course will provide educators with both the theoretical and the practical considerations for planning and implementing technology, particularly computer applications, in schools. Basic concepts of technology and planning that use systems theory are presented. Emphasis is placed on the importance of the total application of technology as opposed to any individual component, be it hardware, software, facilities, personnel, or finances. This course will form a foundation from which educators will provide leadership and become agents for realizing the powerful potential of technology in their schools.

EDUC 639 Trends and Issues in Educational Technology  3 Credit Hours

Trends and Issues examines current trends in the research area of educational technology, having students engage literature to understand theoretical underpinnings of the field, current research projects in effect, and future trends as technology in learning evolves as a practice and as a research interest. The course uses foundational concepts of learning in the fields of psychology, sociology and educational research to understand critical implications of the current body of literature.

EDUC 640 School Administration  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of the administration roles in the design, implementation and improvement of the total educational program in private and public schools. Specific areas of study include curriculum and instruction, pupil and staff personnel, student activities, school organization and management.

EDUC 641 Supervision of Instruction  3 Credit Hours

Methods, theories and research applying to supervision at all levels of education: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, supervising principals department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 642 Leadership and Supervision in Education  3 Credit Hours

Methods, theories and research applying to supervision and leadership: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, and department heads; study of supervisory methods current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 643 Contemporary Issues in Educational Policy  3 Credit Hours

This course examines current issues and trends in education. Emphasis will be placed on how policy at the federal, state, and district levels affect the school-level decision-making process.

EDUC 644 School Leadership in Diverse Settings  3 Credit Hours

This course focuses on differences in educational leadership in diverse settings to include: private, charter, and traditional public schools with a focus on urban schools, as well as alternative and online schools.

EDUC 645 Foundations for Educational Leaders  3 Credit Hours

A study in the philosophy, precepts, and principles of education applied to Christian leadership in the educational setting. Emphasis is placed on self-investigation and analysis of leadership skills, strengths, and styles.

EDUC 646 School-Community Relations  3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

Concepts and specific techniques in school-community relations involving the development and maintenance of purposeful programs of communication and collaboration between school personnel and the community. Includes appropriate field projects relating theory to practice.

EDUC 647 School Law  3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

EDUC 648 School Finance and Management  3 Credit Hours

Prerequisites: EDUC 641 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.
EDUC 650 Specialists for Reading/Math Programs 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An investigation of research-based intervention for reading or math programs. The role of the reading or math specialist to the total school program is also examined. Field experience required. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 652 Current Issues in Reading/Math 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of current standards and exploration of controversies related to reading or math programs. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 653 Current Issues in Early Childhood Education 3 Credit Hours

An examination of current standards and exploration of controversies related to early childhood education.

Registration Restrictions: Background Check Receipt.

EDUC 655 Organization and Administration of Pre-Schools 3 Credit Hours

Philosophy, objectives and methods for organizing and operating a kindergarten, nursery school, day-care center and play group for children below six years of age. Also includes the planning of pre-school facilities and the selection of equipment and personnel.

EDUC 656 Teaching Content Area Reading 3 Credit Hours

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 659 Foundations and Theories of Literacy Instruction 3 Credit Hours

Prerequisites: EDUC 701 or Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

A study of the major theories, models, and components of literacy. Foundational knowledge will be utilized to design effective literacy instruction. Field experience is required.

Offered: Online

EDUC 663 Social and Political Aspects in Higher Education 3 Credit Hours

This survey course introduces students to the major social and political issues and trends facing contemporary higher education in the United States. Students examine, discuss, and debate various perspectives on critical issues at postsecondary campuses.

Offered: Online

EDUC 664 Economics and Finance of Higher Education 3 Credit Hours

This course is an introductory survey of financial and economic issues in higher education. Students will learn about these issues in relation to three primary levels: students and families, institutions, and the postsecondary industry at large.

Offered: Online

EDUC 665 Student Support Services & Retention 3 Credit Hours

This course discusses approaches to optimizing post-secondary student outcomes, particularly in support of critical programs designed to meet students’ academic, developmental and economic needs. Topics include orientation programming, academic support, student retention, campus life, academic advising, and career guidance, among others.

Offered: Online

EDUC 666 Teaching Mathematics in the Middle School 3 Credit Hours

This course will explore, develop, and use instructional strategies, technologies, and activities to promote development of attitudes and concepts in mathematics. Emphasis is on mathematical teaching and learning practices anchored in mathematical concepts, diagnostic and assessment methods, and leadership skills.

EDUC 667 Teaching Literacy in the Middle School 3 Credit Hours

This course focuses on promoting the middle level learner’s literacy development. Emphasis is placed on current theories, models, and methods of teaching, learning and communicating through the language processes of reading, writing, listening and speaking in the content areas. Students will explore, analyze, and critique research in reading, and the relationship of other disciplines to reading in the context of the middle school.

EDUC 668 Curriculum and Methods for Early Childhood 3 Credit Hours

The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 669 Curriculum Evaluation 3 Credit Hours

A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.
EDUC 672 Curriculum Development (Elementary/Secondary)  
3 Credit Hours  
A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.  
Registration Restrictions: Background Check Clearance or Receipt.  

EDUC 673 Curriculum and Methods for Effective Instruction  
3 Credit Hours  
A review of the history of education as it affects the development across schools. Emphasis on characteristics of preadolescents, personalizing curriculum for the K12 student, and strategies for motivating curriculum improvement planning to involve teachers and community.  
Registration Restrictions: Background Check Required.  

EDUC 675 Elementary Curriculum and Methods  
3 Credit Hours  
An overview of the current issues and trends in the field of elementary teaching and curriculum.  

EDUC 676 Middle Grades Curriculum and Methods  
3 Credit Hours  
An overview of the current issues and trends in the field of middle grades teaching and curriculum.  

EDUC 688 Practicum in Education II: External  
0 Credit Hours  
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 (may be taken concurrently) or EDUC 625 (may be taken concurrently))  
Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.  
Registration Restrictions: Background Check.  

EDUC 690 Thesis Defense  
3 Credit Hours  
Prerequisites: EDUC 518 and Background Check Receipt with a score of 5  
Research project completed on an educational topic related to the concentration in the master’s degree. Credit is not awarded until the thesis has been accepted.  

EDUC 695 Directed Research  
1-6 Credit Hours  
Prerequisites: Background Check Receipt with a score of 5  
Offers opportunity and challenge of self-directive, independent study; that is, it develops the individual’s ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.  

EDUC 696 Current Issues in Education Capstone  
3 Credit Hours  
Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665  
This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.  

EDUC 697 Seminar in Education  
3-6 Credit Hours  
Prerequisites: Background Check Receipt with a score of 5  
Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.  

EDUC 698 Directed Practicum  
3 Credit Hours  
Prerequisites: Background Check Required. (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5  
A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.  
Note: Completed application and approval of Department Chair.  

EDUC 699 Internship  
3 Credit Hours  
Prerequisites: Advanced Gate 3 with a score of 5  
Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)  
Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.  

Higher Education Administration  
(Ed.S.)  
Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.  
This program is a non-licensure program. Refer to www.liberty.edu/advisingguide

Research & Evaluation Courses  
EDUC 745 Organizational Analysis and Problem Solving  
3  
EDUC 798 Advanced Research and Writing  
3  
Elective Courses
A graduate of the Initial Licensure Master of Arts in Teaching program:

Program Learning Outcomes

1. **Knows** Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
   a. Demonstrates a broad base of professional and general knowledge.
   b. Demonstrates knowledge of content in the endorsement area.

2. **Implements** skills as a gift from God, because teaching is a calling from God
   a. Integrates skills in speaking, writing, reading, and listening for effective classroom communication, peer leadership, and professional involvement.
   b. Designs and selects a variety of instructional strategies based on the developmental levels and individual needs of the learner.
   c. Applies knowledge of content areas and curriculum goals to design and supervise appropriate instruction.
   d. Enhances the success of all diverse learners, providing for special needs and diverse backgrounds.

Program Specific Admission Requirements

Programs that Lead to Initial Licensure

In addition to the general admission procedures, specific admission requirements for the **Master of Arts in Teaching (M.A.T.)** program are:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.).
2. GPA of at least a 3.00 on a 4.00 scale (cautionary admission is an option if the candidate has at least a 2.50).
3. TOEFL Scores for candidates who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer of Credit

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to 18 hours may be transferred into the M.A.T. programs. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous ten (10) years.

Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

In addition to other regulations governing graduation as stated in the Liberty University Catalog, M.A.T. candidates must meet the following requirements:

1. Complete a minimum of 36 semester hours for the M.A.T.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Maintain a 3.00 GPA to remain in the program with no more than two C's permitted (includes grades of C+ & C-). While all course grades are
averaged into the GPA, course credit toward degree completion will not be granted for a grade of D (or D+/D-) or F.

4. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.

5. Additional requirements may be necessary depending upon the student’s academic background. All contracts made between the SOE Program Director and the student upon acceptance into the degree program must be satisfied before the degree will be awarded.

6. The M.A.T. must be completed within five years.

7. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Licensure Guidelines

The Educator Preparation Program is designed to meet licensure requirements of the Commonwealth of Virginia in the candidate’s approved specialization. In addition, candidates who complete the Educator Preparation Program are eligible for the Association of Christian Schools International certificate.

The Educator Preparation Program has been officially approved by the Virginia Department of Education and is accredited under NCATE standards through the CAEP Accreditation System. Approved programs include all initial licensure M.A.T. programs in Elementary, Middle, Secondary, or Special Education. Candidates entering the M.A.T. program must indicate their intention to pursue Virginia licensure when they apply for candidacy in the graduate program. Each concentration has licensure requirements beyond the master’s degree. Upon completion of all requirements, the candidate must submit the licensure application and fee to Liberty’s Teacher Licensure Office. Liberty’s Coordinator of Teacher Licensure Records will submit the candidate’s application packet to the Virginia Department of Education.

Graduates who have successfully completed Liberty’s Educator Preparation Program are eligible for a standard Collegiate Professional License from the Virginia Department of Education. Though candidates must pass a background check for entrance into the Liberty University School of Education EPP (Educator Preparation Program), the VDOE (Virginia Department of Education) also makes determinations concerning the eligibility of candidates.

Please see the VDOE website to see the list of questions that will be asked of each applicant.

The Liberty University School of Education utilizes a gate system to ensure the successful progression of its candidates through the EPP (Education Preparation Provider) program. The following gates are described below:

• Gate 1: University Admission and Declaration of Major
• Gate 2: Program Status Check
• Gate 3: Program Admission/Student Teaching Application
• Gate 4: Program Exit/ Licensure Application

Please visit www.liberty.edu/advisingguide for specific requirements at each gate.

Please see the VDOE website to see the list of questions that will be asked of each applicant.

Initial Elementary, Middle, Secondary, and Special Education

The candidate must:

1. Hold a bachelor’s degree in a liberal arts area (or equivalent) from an institution that is accredited by an agency that is recognized by the U.S. Department of Education. Secondary licensure requires a major (or equivalent) in the endorsement area and the successful completion of the Praxis Subject Assessment content exam for the area of endorsement;

2. Successfully complete Liberty’s M.A.T. in Elementary, Middle Grades, Secondary, or Special Education;

3. Obtain passing scores on all tests required for Virginia licensure; and

4. Complete a student teaching experience in the endorsement area.

Time Limit for School Licensure

1. Candidates must have completed all requirements necessary for school licensure within 5 years after completion of the graduate degree;

2. Candidates who have completed Liberty’s M.A.T. and wish to return to Liberty University to complete the student teaching or internship required for licensure will be subject to the same five-year timeframe; and

3. Each case will be evaluated on an individual basis according to transcripts, program changes, time elapsed from completion of coursework, and recent experiences in the field of education.

Licensure in Other States

Candidates who have completed Liberty’s M.A.T. may be eligible for licensure in other states by interstate agreement. Verification that the candidate has completed a state-approved program may be required for reciprocity with other states; therefore, it may be necessary for the candidate to complete the additional requirements listed above for Virginia licensure in order to qualify for reciprocity. Liberty’s Teacher Licensure Office has addresses for the licensing agencies in other states and will assist in completing the appropriate forms. Some states require a state-specific course or test but will grant a provisional license so that the applicant can be employed while completing the additional requirements. It is the candidate’s responsibility to obtain the appropriate forms from other states to submit to LU’s Licensure Office.

For further licensure information e-mail: gate4@liberty.edu; fax (434) 582-2468.

As a condition of Liberty’s Certificate of Approval from the Alabama Commission on Higher Education, the following disclaimer pertains to Liberty’s online programs in Teacher Education:

Teacher Education: State Authorization to provide a program related to the preparation of teachers or other P-12 school/system personnel does not indicate eligibility for an Alabama certificate. Applicants for an Alabama certificate based on reciprocity must meet Alabama’s test requirements and submit a valid, renewable professional educator certificate/license issued by another state at the degree level, grade level, and in the teaching field or area of instructional support for which an Alabama certificate is sought and for which Alabama issues a certificate. Applicants for Alabama certification in an area of administration must also document at least three years of full-time employment as an administrator in a P-12 school system(s). www.alsde.edu.

1 Additional hours may be required for Virginia Licensure

30 hours for the MAT in Secondary Education 5th year option

Note: Candidates seeking licensure as secondary teachers should have completed a bachelor’s degree with a major in the intended endorsement area, or a degree in a related field with courses similar to that required for a bachelor’s degree in the field of study. Any deficiencies in course requirements must be addressed prior to student teaching. See Content Competencies for subject area. In addition, candidates must successfully complete the appropriate Subject Assessment content exam in the area of endorsement prior to student teaching.

Candidates seeking licensure at the middle school level should have completed a bachelor’s degree with a strong background in one or more of the following four subject areas: English, History/Social Science, Mathematics, or Science. Any deficiencies in course requirements must be addressed prior to student teaching. [See Content Competencies for elementary/middle education.] In addition, candidates must successfully complete the appropriate Praxis II middle school content exam in the area(s) of endorsement prior to student teaching.

Programs of Study

Delivery Format: Online Only

(Select optional intensives available)

- Teaching (M.A.T) - Elementary Education (p. 535)
- Teaching (M.A.T) - Middle Grades Education (p. 536)
- Teaching (M.A.T) - Secondary Education (p. 537)
- Teaching (M.A.T) - Special Education [General Curriculum Endorsement] (p. 538)

Career Opportunities

- Elementary Teacher
- Middle School Teacher
- High School Teacher
- Special Education Teacher

Courses

EDUC 500 Learning Theory

3 Credit Hours

An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

EDUC 501 Advanced Child Development

3 Credit Hours

An examination of physical, cognitive, spiritual and social/emotional development, and guidance of a young child.

EDUC 504 Historical and Philosophical Foundations of Education

3 Credit Hours

A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 507 Educational Statistics

3 Credit Hours

Prerequisites: EDUC 506 and Background Check Receipt with a score of 5

An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

EDUC 518 Educational Research and Assessment

3 Credit Hours

Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

EDUC 521 Foundations of Exceptionality

3 Credit Hours

Prerequisites: (EDUC 500)

A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

EDUC 523 Principles of Behavior Management

3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 524 Collaborating for Successful Inclusive Classrooms

3 Credit Hours

Prerequisites: EDUC 500

A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.
EDUC 525 Collaborating for Successful Transitions 3 Credit Hours

**Prerequisites:** EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.

EDUC 526 Principles and Practices in Gifted Education 3 Credit Hours

Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5 and EDUC 521

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

**Registration Restrictions:** Completed background check.

EDUC 528 Communication, Language and Sensory Aspects for Autism 3 Credit Hours

**Prerequisites:** EDUC 527 and Background Check Receipt with a score of 5

This course provides students with an overview of the components of communication and strategies to increase an individual’s communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

EDUC 530 Teaching Mathematics 3 Credit Hours

**Prerequisites:** EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

EDUC 531 Teaching the Natural and Social Sciences 3 Credit Hours

Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

EDUC 532 Teaching Writing Across the Curriculum 3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.

EDUC 535 Secondary Instructional Procedures 3 Credit Hours

**Prerequisites:** (EDUC 500 or EDUC 501) and Background Check Clearance with a score of 5

A course in secondary methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

EDUC 536 Sec Instructional Procedures P 1 Credit Hour

**Prerequisites:** EDUC 500 or EDUC 501 and Background Check Receipt with a score of 5

Micro-teaching will be used as a means of providing an opportunity for students to model and role play appropriate teaching methods and activities in the secondary school. Candidates will be required to observe in secondary classrooms, prepare a lesson, teach the lesson, and evaluate the experience.

EDUC 539 Current Issues in Content Areas 3 Credit Hours

An examination of current content standards in a subject area. Research in the subject area will enhance content knowledge in preparation for content assessment required for teachers.

EDUC 540 Historical Perspectives in Urban Education 3 Credit Hours

An introduction to urban education and contemporary urban life in the United States of America. Candidates will examine educational issues in urban communities and learn strategies for developing partnerships between home, school, and community.

**Note:** Course offered beginning in Spring 2020.

**Offered:** Online
EDUC 542 Culturally Responsive Teaching 3 Credit Hours
An introduction to the culturally responsive teaching pedagogy that acknowledges, responds to, and celebrates cultural differences and offers equitable educational access to students from all cultural backgrounds. Students will explore the dynamics of race, class, and culture and how they affect diverse school populations.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 543 Urban Schools and Communities 3 Credit Hours
The social context of urban communities is tied to the success of urban schools. This course will analyze the connection between urban schools and communities and provide strategies for working with families and community stakeholders to advocate for children and improve educational outcomes for students from diverse backgrounds.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 544 Research in Urban Education 3 Credit Hours
An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 547 The Differentiated Classroom 3 Credit Hours
An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 550 Directed Practicum 6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 551 Comparative Eduations 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 554 Reading and Language Acquisition 3 Credit Hours
Prerequisites: (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5

A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours
Prerequisites: (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 562 Introduction to Higher Education 3 Credit Hours
This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.

Offered: Online

EDUC 571 Curriculum Fundamentals 3 Credit Hours
An introduction to basic concepts and issues related to curriculum design, development, change and evaluation.

Note: To be taken the semester directly before student teaching or during student teaching.

EDUC 588 Practicum in Education I: External 0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 591 Student Teaching II: Local 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.
EDUC 592 Student Teaching I: External 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 593 Student Teaching II: External 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

EDUC 598 Field Experience Practicum 3 Credit Hours
Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.

Offered: Online

EDUC 600 Human Development Across the Lifespan 3 Credit Hours
This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 601 Professional Development in Middle Grades Education 3 Credit Hours
This class will heighten Middle Grade Educators’ understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

Registration Restrictions: Background Check Required.

EDUC 602 Young Adolescents, Schools and Communities 3 Credit Hours
An overview of the characteristics and issues related to transcence and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher’s interaction with middle school students and families.

Registration Restrictions: Background Check Required.

EDUC 603 Comparative Education 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

Offered: Resident

EDUC 604 Foundations of Education 3 Credit Hours
This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

Registration Restrictions: Background check.

EDUC 605 Tests and Measurements 3 Credit Hours
Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)

EDUC 606 Educational Assessment for Special Needs 3 Credit Hours
Prerequisites: EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5
An overview of the processes and strategies for assessing students with special needs.

Registration Restrictions: Background Check Required.

EDUC 607 Educational Assessment and Intervention 3 Credit Hours
A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

Registration Restrictions: Background Check Required.
EDUC 623 Principles of Behavior Management 3 Credit Hours

An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

Registration Restrictions: Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours

This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student's going into the general education classrooms and community settings.

Offered: Online

EDUC 625 Content Instructional Procedures 3 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 627 Reading and Research in Gifted Education 3 Credit Hours

Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.

EDUC 628 Communication, Language and Sensory Aspects for Autism 3 Credit Hours

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

Registration Restrictions: Background check required.

EDUC 629 Technology and Diversity 3 Credit Hours

This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

Registration Restrictions: Background Check Receipt.

EDUC 630 Technology Practices for Instructional Improvement 3 Credit Hours

This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning 3 Credit Hours

An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of educational technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction 3 Credit Hours

A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning 3 Credit Hours

This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional design and current research. The student will develop the skills and knowledge to advance their instructional effectiveness in varied settings through application of technology theory and practice.

EDUC 634 Teaching Science in the Elementary School 3 Credit Hours

Contemporary methods and research for teaching science to elementary-aged students.

EDUC 635 Teaching Science in the Middle School 3 Credit Hours

Contemporary methods and research for teaching science to middle school students.
EDUC 636 Teaching Social Studies in the Elementary School 3 Credit Hours

An analysis of trends and practices of teaching social studies in the elementary school. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very materials and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines. Teaching candidates will be required to prepare these instructional elements focused on the Virginia Standards of Learning.

EDUC 637 Teaching Social Studies in the Middle School 3 Credit Hours

An analysis of trends and practices of teaching social studies in the middle school, and its contextual relationship to elementary and secondary instruction in social science. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very material and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines.

EDUC 638 Leadership in Educational Technology 3 Credit Hours

This course will examine the roles of leadership in community, leadership in administration and leadership in the schools from a Christian worldview. This course will provide educators with both the theoretical and the practical considerations for planning and implementing technology, particularly computer applications, in schools. Basic concepts of technology and planning that use systems theory are presented. Emphasis is placed on the importance of the total application of technology as opposed to any individual component, be it hardware, software, facilities, personnel, or finances. This course will form a foundation from which educators will provide leadership and become agents for realizing the powerful potential of technology in their schools.

EDUC 639 Trends and Issues in Educational Technology 3 Credit Hours

Trends and Issues examines current trends in the research area of educational technology, having students engage literature to understand theoretical underpinnings of the field, current research projects in effect, and future trends as technology in learning evolves as a practice and as a research interest. The course uses foundational concepts of learning in the fields of psychology, sociology and educational research to understand critical implications of the current body of literature.

EDUC 640 School Administration 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of the administration roles in the design, implementation and improvement of the total educational program in private and public schools. Specific areas of study include curriculum and instruction, pupil and staff personnel, student activities, school organization and management.

EDUC 641 Supervision of Instruction 3 Credit Hours

Methods, theories and research applying to supervision at all levels of education: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, supervising principals department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 642 Leadership and Supervision in Education 3 Credit Hours

Methods, theories and research applying to supervision and leadership: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, and department heads; study of supervisory methods current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 643 Contemporary Issues in Educational Policy 3 Credit Hours

This course examines current issues and trends in education. Emphasis will be placed on how policy at the federal, state, and district levels affect the school-level decision-making process.

EDUC 644 School Leadership in Diverse Settings 3 Credit Hours

This course focuses on differences in educational leadership in diverse settings to include: private, charter, and traditional public schools with a focus on urban schools, as well as alternative and online schools.

EDUC 645 Foundations for Educational Leaders 3 Credit Hours

A study in the philosophy, precepts, and principles of education applied to Christian leadership in the educational setting. Emphasis is placed on self-investigation and analysis of leadership skills, strengths, and styles.

EDUC 646 School-Community Relations 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

EDUC 647 School Law 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

</tbody>
</table>
EDUC 670 Curriculum and Methods for Early Childhood  3 Credit Hours
The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 671 Curriculum Evaluation  3 Credit Hours
A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.

EDUC 672 Curriculum Development (Elementary/Secondary)  3 Credit Hours
A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.

Registration Restrictions: Background Check Clearance or Receipt.

EDUC 673 Curriculum and Methods for Effective Instruction  3 Credit Hours
A review of the history of education as it affects the development across schools. Emphasis on characteristics of preadolescents, personalizing curriculum for the K12 student, and strategies for motivating curriculum improvement planning to involve teachers and community.

Registration Restrictions: Background Check Required.

EDUC 675 Elementary Curriculum and Methods  3 Credit Hours
An overview of the current issues and trends in the field of elementary teaching and curriculum.

EDUC 676 Middle Grades Curriculum and Methods  3 Credit Hours
An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 688 Practicum in Education II: External  0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 (may be taken concurrently) or EDUC 625 (may be taken concurrently)).

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 690 Thesis Defense  3 Credit Hours
Prerequisites: EDUC 518 and Background Check Receipt with a score of 5
Research project completed on an educational topic related to the concentration in the master’s degree. Credit is not awarded until the thesis has been accepted.

EDUC 695 Directed Research  1-6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Offers opportunity and challenge of self-directive, independent study; that is, it develops the individual's ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.

EDUC 696 Current Issues in Education Capstone  3 Credit Hours
Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665
This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.

EDUC 697 Seminar in Education  3-6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.

EDUC 698 Directed Practicum  3 Credit Hours
Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5
A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.

Note: Completed application and approval of Department Chair.

EDUC 699 Internship  3 Credit Hours
Prerequisites: Advanced Gate 3 with a score of 5
Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)

Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.

Teaching (M.A.T.) - Elementary Education

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching), content competencies (if applicable), and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.
Graduation Requirements

• Complete 36 hours
• A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
• 3.0 GPA
• No more than two grades of C may be applied to the degree (includes grades of C+ & C−)
• No grade of D or below may be applied to the degree (includes grades of D+ & D−)
• Degree must be completed within 5 years
• Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

Program Offered in Online Format

Teaching (M.A.T.) - Middle Grades Education

Notes
• Competencies must be met prior to student teaching. Please refer to the Elementary/Middle Content Competency Chart
• EDUC 673 Curriculum and Methods for Effective Instruction (3 c.h.) or EDUC 676 Middle Grades Curriculum and Methods (3 c.h.) may be added for Middle School endorsement

All applicable prerequisites must be met
EDUC 571 Curriculum Fundamentals (3 c.h.) may be taken during the student teaching semester.

International candidates seeking a "student visa" to study in residence in the U.S. may use EDUC 571 Curriculum Fundamentals (3 c.h.) and EDUC 590 Student Teaching I: Local (3 c.h.) to count as part of their residency requirement.

EDUC 656 Teaching Content Area Reading (3 c.h.) must be taken in the same semester as EDUC 588 Practicum in Education I: External (0 c.h.).

Background check clearance required (EDUC 588 Practicum in Education I: External (0 c.h.), EDUC 590 Student Teaching I: Local (3 c.h.), EDUC 591 Student Teaching II: Local (3 c.h.), EDUC 592 Student Teaching I: External (3 c.h.), EDUC 593 Student Teaching II: External (3 c.h.), EDUC 625 Content Instructional Procedures (3 c.h.), EDUC 656 Teaching Content Area Reading (3 c.h.), EDUC 688 Practicum in Education II: External (0 c.h.))

Candidates will be assigned either EDUC 590 Student Teaching I: Local (3 c.h.), EDUC 591 Student Teaching II: Local (3 c.h.), EDUC 592 Student Teaching I: External (3 c.h.), or EDUC 593 Student Teaching II: External (3 c.h.). Course and section number will be designated during Gate 3 Application.

EDUC 625 Content Instructional Procedures (3 c.h.) must be taken in the same semester as EDUC 688 Practicum in Education II: External (0 c.h.).

Notes

- Refer to the Middle Grades Education Content Competency Chart. Competencies must be met prior to student teaching.

All applicable prerequisites must be met.

Graduation Requirements

- Complete 36 hours.
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
- 3.0 GPA
- No more than two grades of C may be applied to the degree (includes grades of C+ & C-).
- No grade of D or below may be applied to the degree (includes grades of D+ & D). 
- Degree must be completed within 5 years.
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Candidates will be assigned either EDUC 590 Student Teaching I: Local (3 c.h.), EDUC 591 Student Teaching II: Local (3 c.h.), EDUC 592 Student Teaching I: External (3 c.h.) or EDUC 593 Student Teaching II: External (3 c.h.). Course and section will be designated during Gate 3 Application.

Notes

- Refer to the Content Competency Chart. Competencies must be met prior to student teaching.
- Candidates seeking licensure as 6-12 or K-12 teachers should have completed a bachelor’s degree with a major in the teaching endorsement, or a degree in a related field with courses similar to that required for a bachelor’s degree in the teaching endorsement. Candidates must document a minimum of 30 semester hours of content courses including each of the competencies listed for the endorsement. [See Content Competencies for subject area.] In addition, candidates must successfully complete the appropriate Praxis Subject Assessment in the area of endorsement prior to student teaching.

All applicable prerequisites must be met

Graduation Requirements

- Complete 36 hours
  - A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
  - 3.0 GPA
  - No more than two grades of C may be applied to the degree (includes grades of C+ & C)
  - No grade of D or below may be applied to the degree (includes grades of D+ & D)
  - Degree must be completed within 5 years
  - Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format

Teaching (M.A.T.) - Special Education [General Curriculum Endorsement]

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching), content competencies (if applicable), and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.

Total Hours: 36

1. EDUC 525 Collaborating for Successful Transitions (3 c.h.) must be taken in the same semester as EDSP 688 Practicum in Special Education II: External (0 c.h.)
2. Background check clearance required (EDUC 525 Collaborating for Successful Transitions (3 c.h.), EDUC 530 Teaching Mathematics (3 c.h.), EDUC 554 Reading and Language Acquisition (3 c.h.), EDUC 588 Practicum in Education I: External (0 c.h.), EDUC 590 Student Teaching I: Local (3 c.h.), EDUC 591 Student Teaching II: Local (3 c.h.), EDUC 592 Student Teaching I: External (3 c.h.), EDUC 593 Student Teaching II: External (3 c.h.), EDUC 688 Practicum in Education II: External (0 c.h.))
3. Prerequisite of EDUC 524 Collaborating for Successful Inclusive Classrooms (3 c.h.) and Gate 2 approved
4. EDUC 554 Reading and Language Acquisition (3 c.h.) must be taken in the same semester as EDUC 588 Practicum in Education I: External (0 c.h.)
5. International candidates seeking a “student visa” to study in residence in the U.S. may use EDUC 571 Curriculum Fundamentals (3 c.h.) and EDUC 590 Student Teaching I: Local (3 c.h.) to count as part of their residency requirement
6. EDUC 571 Curriculum Fundamentals (3 c.h.) to be taken the semester directly before or during student teaching
7. Candidates will be assigned either EDUC 590 Student Teaching I: Local (3 c.h.), EDUC 591 Student Teaching II: Local (3 c.h.), EDUC 592 Student Teaching I: External (3 c.h.) or EDUC 593 Student Teaching II: External (3 c.h.). Course and section number will be designated during Gate 3 Application

All applicable prerequisites must be met

Graduation Requirements

- Complete 36 hours
  - A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
A graduate of the Master of Arts in Teaching (45 hours) program:

Program Learning Outcomes

A graduate of the Master of Arts in Teaching (45 hours) program:

1. **Knows** Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
   a. Demonstrates a broad base of professional and general knowledge.
   b. Demonstrates knowledge of content in the endorsement area.

2. **Implements** skills as a gift from God, because teaching is a calling from God
   a. Integrates skills in speaking, writing, reading, and listening for effective classroom communication, peer leadership, and professional involvement.
   b. Designs and selects a variety of instructional strategies based on the developmental levels and individual needs of the learner.
   c. Applies knowledge of content areas and curriculum goals to design and supervise appropriate instruction.
   d. Enhances the success of all diverse learners, providing for special needs and diverse backgrounds.
   e. Manages classroom climate and procedures to motivate students and maximize learning.
   f. Integrates a variety of assessment strategies to improve student learning.
   g. Integrates appropriate technology and resources to support instruction and to facilitate professional development opportunities.
   h. Provides evidence of student learning at the grade level and content appropriate for the endorsement.

3. **Believes** and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity consistent with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools
   a. Models personal integrity and sensitivity to human needs.
   b. Demonstrates behaviors of a reflective practitioner and seeks opportunities for collaboration and professional development.

Program Specific Admission Requirements

In addition to the general admission procedures, specific admission requirements for the Master of Arts in Teaching (M.A.T.) 45-hours program are:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.).
2. GPA of at least a 3.00 on a 4.00 scale (cautionary admission is an option if the candidate has at least a 2.50).
3. TOEFL Scores for candidates who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer of Credit

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to 18 hours may be transferred into the M.A.T. programs. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous ten (10) years.

Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

In addition to other regulations governing graduation as stated in the Liberty University Catalog, M.A.T. (45 hours) candidates must meet the following requirements:

1. Complete a minimum of 45 semester hours for the M.A.T.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Maintain a 3.00 GPA to remain in the program.
4. No more than two grades of C may be applied to the degree (includes grades of C+ & C-).
5. No grade of D or below may be applied to the degree (including grades of D+ & D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Additional requirements may be necessary depending upon the student’s academic background. All contracts made between the SOE Program Director and the student upon acceptance into the degree program must be satisfied before the degree will be awarded.
8. Degree completed within five years.
9. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

**Note:** Candidates seeking licensure as secondary teachers should have completed a bachelor's degree with a major in the intended endorsement area, or a degree in a related field with courses similar to that required for a bachelor's degree in the field of study. Any deficiencies in course requirements must be addressed prior to student teaching. See Content Competencies for subject area. In addition, candidates must successfully complete the appropriate Subject Assessment content exam in the area of endorsement prior to student teaching.

Candidates seeking licensure at the middle school level should have completed a bachelor's degree with a strong background in one or more of the following four subject areas: English, History/Social Science, Mathematics, or Science. Any deficiencies in course requirements must be addressed prior to student teaching. See Content Competencies for elementary/middle education. In addition, candidates must successfully complete the appropriate Praxis II middle school content exam in the area(s) of endorsement prior to student teaching.

Programs of Study

**Delivery Format:** Online Only

- Teaching (M.A.T.) - Elementary Education (45 hrs.) (p. 547)
- Teaching (M.A.T.) - Middle Grades Education (45 hrs.) (p. 548)
- Teaching (M.A.T.) - Secondary Education (45 hrs.) (p. 549)
- Teaching (M.A.T.) - Special Education (45 hrs.) (p. 550)

Career Opportunities

- Elementary Teacher
- Middle School Teacher
- High School Teacher
- Special Education Teacher

Courses

**EDUC 500 Learning Theory** 3 Credit Hours

An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

**EDUC 501 Advanced Child Development** 3 Credit Hours

An examination of physical, cognitive, spiritual and social/emotional development, and guidance of a young child.

**EDUC 504 Historical and Philosophical Foundations of Education** 3 Credit Hours

A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

**EDUC 507 Educational Statistics** 3 Credit Hours

Prerequisites: EDUC 506 and Background Check Receipt with a score of 5

An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

**EDUC 508 Educational Research and Assessment** 3 Credit Hours

Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

**EDUC 521 Foundations of Exceptionality** 3 Credit Hours

Prerequisites: (EDUC 500)

A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

**EDUC 523 Principles of Behavior Management** 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

**EDUC 524 Collaborating for Successful Inclusive Classrooms** 3 Credit Hours

Prerequisites: EDUC 500

A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.
EDUC 525 Collaborating for Successful Transitions 3 Credit Hours

Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.

EDUC 526 Principles and Practices in Gifted Education 3 Credit Hours

Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5 and EDUC 521

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 528 Communication, Language and Sensory Aspects for Autism 3 Credit Hours

Prerequisites: EDUC 527 and Background Check Receipt with a score of 5

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

EDUC 530 Teaching Mathematics 3 Credit Hours

Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

EDUC 531 Teaching the Natural and Social Sciences 3 Credit Hours

Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

EDUC 533 Teaching Writing Across the Curriculum 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.

EDUC 535 Secondary Instructional Procedures 3 Credit Hours

Prerequisites: (EDUC 500 or EDUC 501) and Background Check Clearance with a score of 5

A course in secondary methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

EDUC 536 Sec Instructional Procedures P 1 Credit Hour

Prerequisites: EDUC 500 or EDUC 501 and Background Check Receipt with a score of 5

Micro-teaching will be used as a means of providing an opportunity for students to model and role play appropriate teaching methods and activities in the secondary school. Candidates will be required to observe in secondary classrooms, prepare a lesson, teach the lesson, and evaluate the experience.

EDUC 539 Current Issues in Content Areas 3 Credit Hours

An examination of current content standards in a subject area. Research in the subject area will enhance content knowledge in preparation for content assessment required for teachers.

EDUC 540 Historical Perspectives in Urban Education 3 Credit Hours

An introduction to urban education and contemporary urban life in the United States of America. Candidates will examine educational issues in urban communities and learn strategies for developing partnerships between home, school, and community.

Note: Course offered beginning in Spring 2020.

Offered: Online
EDUC 542 Culturally Responsive Teaching 3 Credit Hours

An introduction to the culturally responsive teaching pedagogy that acknowledges, responds to, and celebrates cultural differences and offers equitable educational access to students from all cultural backgrounds. Students will explore the dynamics of race, class, and culture and how they affect diverse school populations.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 543 Urban Schools and Communities 3 Credit Hours

The social context of urban communities is tied to the success of urban schools. This course will analyze the connection between urban schools and communities and provide strategies for working with families and community stakeholders to advocate for children and improve educational outcomes for students from diverse backgrounds.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 544 Research in Urban Education 3 Credit Hours

An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 547 The Differentiated Classroom 3 Credit Hours

An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.

Note: Course offered beginning in Spring 2020.

Offered: Online

EDUC 550 Directed Practicum 6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 551 Comparative Educations 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 554 Reading and Language Acquisition 3 Credit Hours

Prerequisites: (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5

A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours

Prerequisites: (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 557 Introduction to Higher Education 3 Credit Hours

This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.

Offered: Online

EDUC 558 Practicum in Education I: External 0 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 591 Student Teaching II: Local 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.
EDUC 592 Student Teaching I: External 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 593 Student Teaching II: External 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 598 Field Experience Practicum 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.

Offered: Online

EDUC 600 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 601 Professional Development in Middle Grades Education 3 Credit Hours

This class will heighten Middle Grade Educators’ understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

Registration Restrictions: Background Check Required.

EDUC 602 Young Adolescents, Schools and Communities 3 Credit Hours

An overview of the characteristics and issues related to transence and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher’s interaction with middle school students and families.

Registration Restrictions: Background Check Required.

EDUC 603 Comparative Education 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

Offered: Resident

EDUC 604 Foundations of Education 3 Credit Hours

This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

Registration Restrictions: Background check.

EDUC 606 Tests and Measurements 3 Credit Hours

Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)

EDUC 608 Technological Appl in Educ Res 3 Credit Hours

Prerequisites: EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5

EDUC 618 Applications of Educational Research 3 Credit Hours

Prerequisites: EDUC 518 and Background Check Receipt with a score of 5

Principles and techniques in the utilization of research methods to solve problems and answer questions in educational settings. This course requires completion of a major research project, along with demonstration of skills is using technology as a tool in qualitative and quantitative educational research and assessment.

EDUC 620 Organization and Design of Gifted Education Programs 3 Credit Hours

Candidates will examine model programs for gifted students that include organizational strategies for heterogeneous and homogeneous groupings. The study will include programs that are field specific, integrated content, and extracurricular models. Strategies for securing funding for gifted programs will be explored.

EDUC 621 Educational Assessment for Special Needs 3 Credit Hours

This course examines the processes and strategies for assessing students with special needs.

Registration Restrictions: Background Check.

EDUC 622 Educational Assessment and Intervention 3 Credit Hours

A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

Registration Restrictions: Background Check Required.
EDUC 623 Principles of Behavior Management 3 Credit Hours
An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

Registration Restrictions: Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours
This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student's going into the general education classrooms and community settings.

Offered: Online

EDUC 625 Content Instructional Procedures 3 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)
A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours
This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 627 Reading and Research in Gifted Education 3 Credit Hours
Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.

EDUC 628 Communication, Language and Sensory Aspects for Autism 3 Credit Hours
This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

Registration Restrictions: Background check required.

EDUC 629 Technology and Diversity 3 Credit Hours
This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

Registration Restrictions: Background Check Receipt.

EDUC 630 Technology Practices for Instructional Improvement 3 Credit Hours
This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning 3 Credit Hours
An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of education technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction 3 Credit Hours
A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning 3 Credit Hours
This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

Registration Restrictions: Background Check Required.

EDUC 634 Teaching Science in the Elementary School 3 Credit Hours
Contemporary methods and research for teaching science to elementary-aged students.

EDUC 635 Teaching Science in the Middle School 3 Credit Hours
Contemporary methods and research for teaching science to middle school students.
EDUC 636 Teaching Social Studies in the Elementary School  
3 Credit Hours
An analysis of trends and practices of teaching social studies in the elementary school. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very materials and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines. Teaching candidates will be required to prepare these instructional elements focused on the Virginia Standards of Learning.

EDUC 637 Teaching Social Studies in the Middle School  
3 Credit Hours
An analysis of trends and practices of teaching social studies in the middle school, and its contextual relationship to elementary and secondary instruction in social science. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very material and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines.

EDUC 638 Leadership in Educational Technology  
3 Credit Hours
This course will examine the roles of leadership in community, leadership in administration and leadership in the schools from a Christian worldview. This course will provide educators with both the theoretical and the practical considerations for planning and implementing technology, particularly computer applications, in schools. Basic concepts of technology and planning that use systems theory are presented. Emphasis is placed on the importance of the total application of technology as opposed to any individual component, be it hardware, software, facilities, personnel, or finances. This course will form a foundation from which educators will provide leadership and become agents for realizing the powerful potential of technology in their schools.

EDUC 639 Trends and Issues in Educational Technology  
3 Credit Hours
Trends and Issues examines current trends in the research area of educational technology, having students engage literature to understand theoretical underpinnings of the field, current research projects in effect, and future trends as technology in learning evolves as a practice and as a research interest. The course uses foundational concepts of learning in the fields of psychology, sociology and educational research to understand critical implications of the current body of literature.

EDUC 640 School Administration  
3 Credit Hours
Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
An examination of the administration roles in the design, implementation and improvement of the total educational program in private and public schools. Specific areas of study include curriculum and instruction, pupil and staff personnel, student activities, school organization and management.

EDUC 641 Supervision of Instruction  
3 Credit Hours
Methods, theories and research applying to supervision at all levels of education: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, supervising principals department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 642 Leadership and Supervision in Education  
3 Credit Hours
Methods, theories and research applying to supervision and leadership: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, and department heads; study of supervisory methods current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 643 Contemporary Issues in Educational Policy  
3 Credit Hours
This course examines current issues and trends in education. Emphasis will be placed on how policy at the federal, state, and district levels affect the school-level decision-making process.

EDUC 644 School Leadership in Diverse Settings  
3 Credit Hours
This course focuses on differences in educational leadership in diverse settings to include: private, charter, and traditional public schools with a focus on urban schools, as well as alternative and online schools.

EDUC 645 Foundations for Educational Leaders  
3 Credit Hours
A study in the philosophy, precepts, and principles of education applied to Christian leadership in the educational setting. Emphasis is placed on self-investigation and analysis of leadership skills, strengths, and styles.

EDUC 646 School-Community Relations  
3 Credit Hours
Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5
Concepts and specific techniques in school-community relations involving the development and maintenance of purposeful programs of communication and collaboration between school personnel and the community. Includes appropriate field projects relating theory to practice.

EDUC 647 School Law  
3 Credit Hours
Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5
An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.
EDUC 648 School Finance and Management 3 Credit Hours

Prerequisites: EDUC 641 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.

EDUC 650 Specialists for Reading/Math Programs 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An investigation of research-based intervention for reading or math programs. The role of the reading or math specialist to the total school program is also examined. Field experience required. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 652 Current Issues in Reading/Math 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of current standards and exploration of controversies related to reading or math programs. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 653 Current Issues in Early Childhood Education 3 Credit Hours

An examination of current standards and exploration of controversies related to early childhood education.

Registration Restrictions: Background Check Receipt.

EDUC 655 Organization and Administration of Pre-Schools 3 Credit Hours

Philosophy, objectives and methods for organizing and operating a kindergarten, nursery school, day-care center and play group for children below six years of age. Also includes the planning of pre-school facilities and the selection of equipment and personnel.

EDUC 656 Teaching Content Area Reading 3 Credit Hours

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 659 Foundations and Theories of Literacy Instruction 3 Credit Hours

Prerequisites: EDUC 701 or Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

A study of the major theories, models, and components of literacy. Foundational knowledge will be utilized to design effective literacy instruction. Field experience is required.

Offered: Online

EDUC 663 Social and Political Aspects in Higher Education 3 Credit Hours

This survey course introduces students to the major social and political issues and trends facing contemporary higher education in the United States. Students examine, discuss, and debate various perspectives on critical issues at postsecondary campuses.

Offered: Online

EDUC 664 Economics and Finance of Higher Education 3 Credit Hours

This course is an introductory survey of financial and economic issues in higher education. Students will learn about these issues in relation to three primary levels: students and families, institutions, and the postsecondary industry at large.

Offered: Online

EDUC 665 Student Support Services & Retention 3 Credit Hours

This course discusses approaches to optimizing post-secondary student outcomes, particularly in support of critical programs designed to meet students' academic, developmental and economic needs. Topics include orientation programming, academic support, student retention, campus life, academic advising, and career guidance, among others.

Offered: Online

EDUC 668 Teaching Mathematics in the Middle School 3 Credit Hours

This course will explore, develop, and use instructional strategies, technologies, and activities to promote development of attitudes and concepts in mathematics. Emphasis is on mathematical teaching and learning practices anchored in mathematical concepts, diagnostic and assessment methods, and leadership skills.

EDUC 669 Teaching Literacy in the Middle School 3 Credit Hours

This course focuses on promoting the middle level learner's literacy development. Emphasis is placed on current theories, models, and methods of teaching, learning and communicating through the language processes of reading, writing, listening and speaking in the content areas. Students will explore, analyze, and critique research in reading, and the relationship of other disciplines to reading in the context of the middle school.
EDUC 670 Curriculum and Methods for Early Childhood  
3 Credit Hours

The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 671 Curriculum Evaluation  
3 Credit Hours

A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.

EDUC 672 Curriculum Development (Elementary/Secondary)  
3 Credit Hours

A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.

Registration Restrictions: Background Check Clearance or Receipt.

EDUC 673 Curriculum and Methods for Effective Instruction  
3 Credit Hours

A review of the history of education as it affects the development across schools. Emphasis on characteristics of preadolescents, personalizing curriculum for the K12 student, and strategies for motivating curriculum improvement planning to involve teachers and community.

Registration Restrictions: Background Check Required.

EDUC 675 Elementary Curriculum and Methods  
3 Credit Hours

An overview of the current issues and trends in the field of elementary teaching and curriculum.

EDUC 676 Middle Grades Curriculum and Methods  
3 Credit Hours

An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 688 Practicum in Education II: External  
0 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 (may be taken concurrently) or EDUC 625 (may be taken concurrently))

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 690 Thesis Defense  
3 Credit Hours

Prerequisites: EDUC 518 and Background Check Receipt with a score of 5

Research project completed on an educational topic related to the concentration in the master’s degree. Credit is not awarded until the thesis has been accepted.

EDUC 695 Directed Research  
1-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Offers opportunity and challenge of self-directive, independent study; that is, it develops the individual’s ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.

EDUC 696 Current Issues in Education Capstone  
3 Credit Hours

Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665

This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.

EDUC 697 Seminar in Education  
3-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.

EDUC 698 Directed Practicum  
3 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5

A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.

Note: Completed application and approval of Department Chair.

EDUC 699 Internship  
3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)

Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.

Teaching (M.A.T.) - Elementary Education (45 hrs.)

Available Spring 2020

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching), content competencies (if applicable), and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.
### Graduation Requirements

- Complete 45 hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
- No grade of D or below may be applied to the degree (includes grades of D+ & D-)
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

### Program Offered in Online Format

**Teaching (M.A.T.) - Middle Grades Education (45 hrs.)**

Program Offered in Online Format

Master of Education (M.Ed.)

Purpose

Liberty University strives to produce educators and school leaders who model high academic, moral, and spiritual standards before their peers, and who have dedicated their lives to educational leadership. Concurrent with this goal, the graduate programs offered by the School of Education are designed to prepare candidates for effective leadership in Christian, public, and private schools.

Program Learning Outcomes

A graduate of the Master of Education program:

1. Knows Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
   a. Demonstrates a broad base of professional and general knowledge.
   b. Conceptualizes a broad spectrum of educational precepts, generalizations, practices, dispositions, points of view, and resources.

2. Implements skills as a gift from God, because teaching/leadership is a calling from God
   a. Integrates skills in speaking, writing, reading, and listening for effective classroom communication, peer leadership, and professional involvement.
   b. Designs and selects a variety of instructional strategies based on the developmental levels and individual needs of the learner.
   c. Applies knowledge of content areas and curriculum goals to design and supervise appropriate instruction.
   d. Manages classroom climate and procedures to motivate students and maximize learning.
   e. Integrates a variety of assessment strategies to improve student learning.
   f. Integrates appropriate technology and resources to support instruction and to facilitate professional development opportunities.
   g. Demonstrates competence as a consumer of research findings and other information technology resources.
   h. Demonstrates skill in critical thinking, problem solving, decision making, and interpersonal skills.

3. Believes and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity consistent with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools
   a. Models personal integrity and sensitivity to human needs.
   b. Enhances the success of all diverse learners, providing for special needs and diverse backgrounds.
   c. Demonstrates behaviors of a reflective practitioner and seeks opportunities for collaboration and professional development.
   d. Exerts confident leadership as well as accepts responsibility in the broad field of education.

Program Specific Admission Requirements

M.Ed. in Administration/Supervision, Math Specialist Endorsement, and Reading Specialist Endorsement

Required for Programs that Lead to Licensure:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. GPA of at least a 3.00 on a 4.00 scale (cautionary admission is an option if the candidate has at least a 2.50).
3. TOEFL Scores for candidates who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

The following programs do not lead to licensure:

M.Ed. in Curriculum and Instruction Cognates

M.Ed. in Higher Education Cognates

Educational Leadership and Instructional Design and Technology.

Required for programs that do not lead to licensure:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. GPA of at least a 3.00 on a 4.00 scale (cautionary admission is an option if the candidate has at least a 2.00).
3. TOEFL Scores for candidates who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test)

Transfer of Credit

All graduate transfer credits are subject to the approval of the School of Education (SOE) Graduate Committee. Such courses must carry a grade of at least a B- and be comparable to Liberty University graduate courses. Transfer credit will only be considered from institutions or schools accredited by an accrediting agency recognized by the U.S. Department of Education. With approval, up to 18 hours may be transferred into the M.Ed. programs. It is the responsibility of each applicant to supply official transcripts along with a written request to have credit applied to the degree program. Transfer credits must have been completed within the previous 10 years.
Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

**Graduation Requirements**

1. Complete a minimum of 36 semester hours for M.Ed.;  
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.  
3. Candidates in the licensure programs must maintain a 3.00 GPA to remain in the program with no more than two C's permitted (includes grades of C+ & C-). Candidates in the M.Ed. in Curriculum and Instruction must maintain a 2.50 GPA to remain in the program with no more than two C's permitted (includes grades of C+ and C-).  
4. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.  
5. Additional requirements may be necessary depending upon the candidate's academic background. All contracts made between the Program Director and the candidate upon acceptance into the degree program must be satisfied before the degree will be awarded.  
6. No residence courses are required for the M.Ed. in Curriculum and Instruction.  
7. The M.Ed. must be completed within five years.  
8. Submission of Degree Completion Application must be completed within the last semester of a candidate's anticipated graduation date.

**Licensure Guidelines**

The Licensure Programs are designed to meet requirements of the Commonwealth of Virginia in the candidate's approved specialization. In addition, candidates who complete the Educator Preparation Program may be eligible for the Association of Christian Schools International certificate. The Educator Preparation Program has been officially approved by the Virginia Department of Education and is accredited under NCATE Standards through the CAEP Accreditation System. Approved programs for licensure for support personnel may be earned in the program through Administration/Supervision, Math Specialist Endorsement, and Reading Specialist Endorsement. Candidates entering the Master of Education program must indicate their intention to pursue Virginia licensure when they apply to the graduate program. Each concentration has licensure requirements beyond the master's degree. Upon completion of all requirements, the candidate must submit the licensure application and fee to Liberty's School of Education Licensure Office. Liberty's Coordinator of Licensure Records will submit the candidate's application packet to the Virginia Department of Education. Graduates who have successfully completed Liberty's Educator Preparation Program are eligible for a standard Collegiate Professional License from the Virginia Department of Education. Though candidates must pass a background check for entrance into the Liberty University School of Education EPP (Educator Preparation Program), the VDOE (Virginia Department of Education) also makes determinations concerning the eligibility of candidates.

The Liberty University School of Education utilizes a gate system to ensure the successful progression of its candidates through the EPP (Education Preparation Provider) program. The following gates are described below:

- **Gate 1:** University Admission and Declaration of Major  
- **Gate 2:** Program Status Check  
- **Gate 3:** Program Admission/Student Teaching Application  
- **Gate 4:** Program Exit/ Licensure Application

Please visit www.liberty.edu/advisingguide for specific requirements at each gate.

**Note:** The M.Ed. program in Curriculum and Instruction is not a licensure program. It is meant for individuals who are already licensed, or for those who are not pursuing licensure.

Please see the VDOE website to see the list of questions that will be asked of each applicant.

**Administration and Supervision**

The candidate must:

1. Complete three years of successful classroom teaching in which the teaching in the specialty area was/is an important responsibility. (Work experience form required.);  
2. Successfully complete Liberty's M.Ed. in Administration/Supervision;  
3. Complete an internship as a school principal and  
4. Obtain a passing score on all tests required for Virginia licensure.

**Math Specialist Endorsement or Reading Specialist Endorsement**

The student must:

1. Complete three years of successful classroom teaching in which the teaching in the specialty area was/is an important responsibility. (Work experience form required.); and  
2. Successfully complete Liberty's M.Ed. in Reading Specialist Endorsement or Math Specialist Endorsement, which includes an internship.  
3. Obtain passing scores on all tests required for Virginia licensure.

**Time Limit for School Licensure**

1. Candidates must have completed all requirements necessary for school licensure within 5 years after completion of the graduate degree;  
2. Candidates who have completed Liberty's M.Ed. and wish to return to Liberty University to complete the student teaching or internship required for licensure will be subject to the same five-year timeframe; and  
3. Each case will be evaluated on an individual basis according to transcripts, program changes, time elapsed from completion of coursework, and recent experiences in the field of education.

**Licensure in Other States**

Candidates who have completed Liberty's M.Ed. may be eligible for licensure in other states by interstate agreement. Verification that the candidate has completed a state-approved program may be required for reciprocity with other states; therefore, it may be necessary for the candidate to complete the additional requirements listed above for Virginia licensure in order to qualify for reciprocity. Liberty's School of Education Licensure Office has addresses for the licensing agencies in other states and will assist in completing the appropriate forms. Some states require a state-specific course or test but will grant a provisional license so that the applicant can be employed while completing the additional requirements. It is the candidate's responsibility to obtain the
appropriate forms from other states to submit to Liberty University's Licensure Office.

For further licensure information e-mail: gate4@liberty.edu; fax (434) 582-2468.

**Master of Education (M.Ed.)**

**Curriculum and Instruction Cognates**

*Non-Licensure:*
- Early Childhood Education
- Educational Law – Open to currently enrolled Liberty University School of Law students and Liberty University School of Law alumni only. Please see the School of Law Dual Degree section of this Catalog.
- Educational Technology
- Elementary Education
- English
- General Education
- Gifted Education
- History
- Leadership
- Middle Grades
- Special Education
- Student Services

1 Candidates who complete the Early Childhood Education or Gifted Education program may be eligible for the add-on endorsement. This means that the graduate already possesses a standard state teaching license and the endorsement is added to the initial teaching license.

**Programs of Study**

**Delivery Format: Online Only**
- Curriculum & Instruction (M.Ed.) - Early Childhood Ed. (add-on endorsement) (p. 563)
- Curriculum & Instruction (M.Ed.) - Educational Technology (Non-Licensure) (p. 563)
- Curriculum & Instruction (M.Ed.) - Elementary Education (Non-Licensure) (p. 564)
- Curriculum & Instruction (M.Ed.) - English (Non-Licensure) (p. 564)
- Curriculum & Instruction (M.Ed.) - General Education (Non-Licensure) (p. 565)
- Curriculum & Instruction (M.Ed.) - Gifted Education (add-on endorsement) (p. 565)
- Curriculum & Instruction (M.Ed.) - History (Non-Licensure) (p. 566)
- Curriculum & Instruction (M.Ed.) - Leadership (Non-Licensure) (p. 566)
- Curriculum & Instruction (M.Ed.) - Middle Grades (Non-Licensure) (p. 567)
- Curriculum & Instruction (M.Ed.) - Special Education (Non-Licensure) (p. 567)
- Curriculum & Instruction (M.Ed.) - Student Services (Non-Licensure) (p. 568)
- Curriculum & Instruction (M.Ed.) - Urban Education (Non-Licensure) (p. 568)
- Education (M.Ed.) - Administration & Supervision (p. 561)
- Education (M.Ed.) - Math Specialist Endorsement (p. 561)
- Education (M.Ed.) - Reading Specialist Endorsement (p. 562)
- Higher Education (M.Ed.) - Educational Leadership (p. 569)
- Higher Education (M.Ed.) - Instructional Design & Technology (p. 569)
- Master of Education (M.Ed.) - Curriculum & Instruction Cognates (p. 562)
- Master of Education (M.Ed.) - Higher Education Cognates (p. 569)

**Career Opportunities**
- Administrator
- Assistant Principal
- Course design and administration
- Curriculum Instructor
- Educational research teams
- Principal
- Professor
- Program Specialist
- Teacher
- University admissions

**Courses**

**EDUC 500 Learning Theory**

An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

**EDUC 501 Advanced Child Development**

An examination of physical, cognitive, spiritual and social/emotional development, and guidance of a young child.
EDUC 504 Historical and Philosophical Foundations of Education  
3 Credit Hours

A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 507 Educational Statistics  
3 Credit Hours

Prerequisites: EDUC 506 and Background Check Receipt with a score of 5

An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

EDUC 518 Educational Research and Assessment  
3 Credit Hours

Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

EDUC 521 Foundations of Exceptionality  
3 Credit Hours

Prerequisites: EDUC 500

A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

EDUC 524 Collaborating for Successful Inclusive Classrooms  
3 Credit Hours

Prerequisites: EDUC 500

A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.

EDUC 525 Collaborating for Successful Transitions  
3 Credit Hours

Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.

EDUC 526 Principles and Practices in Gifted Education  
3 Credit Hours

Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment  
3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5 and EDUC 521

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 528 Communication, Language and Sensory Aspects for Autism  
3 Credit Hours

Prerequisites: EDUC 527 and Background Check Receipt with a score of 5

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

EDUC 530 Teaching Mathematics  
3 Credit Hours

Prerequisites: EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

EDUC 531 Teaching the Natural and Social Sciences  
3 Credit Hours

Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

EDUC 533 Teaching Writing Across the Curriculum  
3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.
EDUC 535 Secondary Instructional Procedures 3 Credit Hours
Prerequisites: (EDUC 500 or EDUC 501) and Background Check Clearance with a score of 5
A course in secondary methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

EDUC 536 Sec Instructional Procedures P 1 Credit Hour
Prerequisites: EDUC 500 or EDUC 501 and Background Check Receipt with a score of 5
Micro-teaching will be used as a means of providing an opportunity for students to model and role play appropriate teaching methods and activities in the secondary school. Candidates will be required to observe in secondary classrooms, prepare a lesson, teach the lesson, and evaluate the experience.

EDUC 539 Current Issues in Content Areas 3 Credit Hours
An examination of current content standards in a subject area. Research in the subject area will enhance content knowledge in preparation for content assessment required for teachers.

EDUC 540 Historical Perspectives in Urban Education 3 Credit Hours
An introduction to urban education and contemporary urban life in the United States of America. Candidates will examine educational issues in urban communities and learn strategies for developing partnerships between home, school, and community.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 542 Culturally Responsive Teaching 3 Credit Hours
An introduction to the culturally responsive teaching pedagogy that acknowledges, responds to, and celebrates cultural differences and offers equitable educational access to students from all cultural backgrounds. Students will explore the dynamics of race, class, and culture and how they affect diverse school populations.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 543 Urban Schools and Communities 3 Credit Hours
The social context of urban communities is tied to the success of urban schools. This course will analyze the connection between urban schools and communities and provide strategies for working with families and community stakeholders to advocate for children and improve educational outcomes for students from diverse backgrounds.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 544 Research in Urban Education 3 Credit Hours
An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 547 The Differentiated Classroom 3 Credit Hours
An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 550 Directed Practicum 6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 551 Comparative Educations 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 554 Reading and Language Acquisition 3 Credit Hours
Prerequisites: (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5
A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.
Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours
Prerequisites: (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5
Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 562 Introduction to Higher Education 3 Credit Hours
This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.
Offered: Online
EDUC 571 Curriculum Fundamentals 3 Credit Hours

An introduction to basic concepts and issues related to curriculum design, development, change and evaluation.

Note: To be taken the semester directly before student teaching or during student teaching.

EDUC 588 Practicum in Education I: External 0 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 591 Student Teaching II: Local 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 592 Student Teaching I: External 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 593 Student Teaching II: External 3 Credit Hours

Prerequisites: Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

Registration Restrictions: Employment as a full-time K-12 teacher.

EDUC 598 Field Experience Practicum 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.

Offered: Online

EDUC 600 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 601 Professional Development in Middle Grades Education 3 Credit Hours

This class will heighten Middle Grade Educators’ understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

Registration Restrictions: Background Check Required.

EDUC 602 Young Adolescents, Schools and Communities 3 Credit Hours

An overview of the characteristics and issues related to transcence and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher’s interaction with middle school students and families.

Registration Restrictions: Background Check Required.

EDUC 603 Comparative Education 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

Offered: Resident

EDUC 604 Foundations of Education 3 Credit Hours

This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

Registration Restrictions: Background check.

EDUC 606 Tests and Measurements 3 Credit Hours

Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)
EDUC 608 Technological Appl in Educ Res 3 Credit Hours

**Prerequisites:** EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5

EDUC 618 Applications of Educational Research 3 Credit Hours

**Prerequisites:** EDUC 518 and Background Check Receipt with a score of 5

Principles and techniques in the utilization of research methods to solve problems and answer questions in educational settings. This course requires completion of a major research project, along with demonstration of skills in using technology as a tool in qualitative and quantitative educational research and assessment.

EDUC 620 Organization and Design of Gifted Education Programs 3 Credit Hours

Candidates will examine model programs for gifted students that include organizational strategies for heterogeneous and homogeneous groupings. The study will include programs that are field specific, integrated content, and extracurricular models. Strategies for securing funding for gifted programs will be explored.

EDUC 621 Educational Assessment for Special Needs 3 Credit Hours

This course examines the processes and strategies for assessing students with special needs.

**Registration Restrictions:** Background Check.

EDUC 622 Educational Assessment and Intervention 3 Credit Hours

A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

**Registration Restrictions:** Background Check Required.

EDUC 623 Principles of Behavior Management 3 Credit Hours

An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

**Registration Restrictions:** Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours

This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student's going into the general education classrooms and community settings.

**Offered:** Online

EDUC 625 Content Instructional Procedures 3 Credit Hours

**Prerequisites:** Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

**Registration Restrictions:** Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

**Registration Restrictions:** Completed background check.

EDUC 627 Reading and Research in Gifted Education 3 Credit Hours

Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.

EDUC 628 Communication, Language and Sensory Aspects for Autism 3 Credit Hours

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

**Registration Restrictions:** Background check required.

EDUC 629 Technology and Diversity 3 Credit Hours

This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

**Registration Restrictions:** Background Check Receipt.
EDUC 630 Technology Practices for Instructional Improvement 3 Credit Hours

This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning 3 Credit Hours

An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of education technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction 3 Credit Hours

A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning 3 Credit Hours

This course is designed to assist the education professional in developing a solid foundation in instructional design and current research. The student will develop the skills and knowledge to advance their instructional effectiveness in varied settings through application of technology theory and practice.

EDUC 634 Teaching Science in the Elementary School 3 Credit Hours

Contemporary methods and research for teaching science to elementary-aged students.

EDUC 635 Teaching Science in the Middle School 3 Credit Hours

Contemporary methods and research for teaching science to middle school students.

EDUC 636 Teaching Social Studies in the Elementary School 3 Credit Hours

An analysis of trends and practices of teaching social studies in the elementary school. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very materials and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines. Teaching candidates will be required to prepare these instructional elements focused on the Virginia Standards of Learning.

EDUC 637 Teaching Social Studies in the Middle School 3 Credit Hours

An analysis of trends and practices of teaching social studies in the middle school, and its contextual relationship to elementary and secondary instruction in social science. An emphasis will be made on how to transfer theory into practice through preparation of activities and materials appropriate for the elementary classroom and critical reflection on those very material and approaches. Students will plan instruction considering student-based diversity, instructional demands of the field and the best integration of other tools and disciplines.

EDUC 638 Leadership in Educational Technology 3 Credit Hours

This course will examine the roles of leadership in community, leadership in administration and leadership in the schools from a Christian worldview. This course will provide educators with both the theoretical and the practical considerations for planning and implementing technology, particularly computer applications, in schools. Basic concepts of technology and planning that use systems theory are presented. Emphasis is placed on the importance of the total application of technology as opposed to any individual component, be it hardware, software, facilities, personnel, or finances. This course will form a foundation from which educators will provide leadership and become agents for realizing the powerful potential of technology in their schools.

EDUC 639 Trends and Issues in Educational Technology 3 Credit Hours

Trends and Issues examines current trends in the research area of educational technology, having students engage literature to understand theoretical underpinnings of the field, current research projects in effect, and future trends as technology in learning evolves as a practice and as a research interest. The course uses foundational concepts of learning in the fields of psychology, sociology and educational research to understand critical implications of the current body of literature.

EDUC 640 School Administration 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of the administration roles in the design, implementation and improvement of the total educational program in private and public schools. Specific areas of study include curriculum and instruction, pupil and staff personnel, student activities, school organization and management.

EDUC 641 Supervision of Instruction 3 Credit Hours

Methods, theories and research applying to supervision at all levels of education: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, supervising principals department heads; study of supervisory methods, current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.
EDUC 642 Leadership and Supervision in Education 3 Credit Hours

Methods, theories and research applying to supervision and leadership: analyses made concerning the work of curriculum directors, general supervisors, special supervisors, and department heads; study of supervisory methods current plans for staff utilization and use of instructional materials; and stress on evaluation of educational programs and the effects of supervision.

EDUC 643 Contemporary Issues in Educational Policy 3 Credit Hours

This course examines current issues and trends in education. Emphasis will be placed on how policy at the federal, state, and district levels affect the school-level decision-making process.

EDUC 644 School Leadership in Diverse Settings 3 Credit Hours

This course focuses on differences in educational leadership in diverse settings to include: private, charter, and traditional public schools with a focus on urban schools, as well as alternative and online schools.

EDUC 645 Foundations for Educational Leaders 3 Credit Hours

A study in the philosophy, precepts, and principles of education applied to Christian leadership in the educational setting. Emphasis is placed on self-investigation and analysis of leadership skills, strengths, and styles.

EDUC 646 School-Community Relations 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

Concepts and specific techniques in school-community relations involving the development and maintenance of purposeful programs of communication and collaboration between school personnel and the community. Includes appropriate field projects relating theory to practice.

EDUC 647 School Law 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

EDUC 648 School Finance and Management 3 Credit Hours

Prerequisites: EDUC 641 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.

EDUC 650 Specialists for Reading/Math Programs 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An investigation of research-based intervention for reading or math programs. The role of the reading or math specialist to the total school program is also examined. Field experience required. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 652 Current Issues in Reading/Math 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of current standards and exploration of controversies related to reading or math programs. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 653 Current Issues in Early Childhood Education 3 Credit Hours

An examination of current standards and exploration of controversies related to early childhood education.

Registration Restrictions: Background Check Receipt.

EDUC 655 Organization and Administration of Pre-Schools 3 Credit Hours

Philosophy, objectives and methods for organizing and operating a kindergarten, nursery school, day-care center and play group for children below six years of age. Also includes the planning of pre-school facilities and the selection of equipment and personnel.

EDUC 656 Teaching Content Area Reading 3 Credit Hours

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 659 Foundations and Theories of Literacy Instruction 3 Credit Hours

Prerequisites: EDUC 701 or Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

A study of the major theories, models, and components of literacy. Foundational knowledge will be utilized to design effective literacy instruction. Field experience is required.

Offered: Online
EDUC 663 Social and Political Aspects in Higher Education 3 Credit Hours
This survey course introduces students to the major social and political issues and trends facing contemporary higher education in the United States. Students examine, discuss, and debate various perspectives on critical issues at postsecondary campuses.

Offered: Online

EDUC 664 Economics and Finance of Higher Education 3 Credit Hours
This course is an introductory survey of financial and economic issues in higher education. Students will learn about these issues in relation to three primary levels: students and families, institutions, and the postsecondary industry at large.

Offered: Online

EDUC 665 Student Support Services & Retention 3 Credit Hours
This course discusses approaches to optimizing post-secondary student outcomes, particularly in support of critical programs designed to meet students’ academic, developmental and economic needs. Topics include orientation programming, academic support, student retention, campus life, academic advising, and career guidance, among others.

Offered: Online

EDUC 668 Teaching Mathematics in the Middle School 3 Credit Hours
This course will explore, develop, and use instructional strategies, technologies, and activities to promote development of attitudes and concepts in mathematics. Emphasis is on mathematical teaching and learning practices anchored in mathematical concepts, diagnostic and assessment methods, and leadership skills.

EDUC 669 Teaching Literacy in the Middle School 3 Credit Hours
This course focuses on promoting the middle level learner’s literacy development. Emphasis is placed on current theories, models, and methods of teaching, learning and communicating through the language processes of reading, writing, listening and speaking in the content areas. Students will explore, analyze, and critique research in reading, and the relationship of other disciplines to reading in the context of the middle school.

EDUC 670 Curriculum and Methods for Early Childhood 3 Credit Hours
The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 671 Curriculum Evaluation 3 Credit Hours
A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.

EDUC 672 Curriculum Development (Elementary/Secondary) 3 Credit Hours
A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.

Registration Restrictions: Background Check Clearance or Receipt.

EDUC 673 Curriculum and Methods for Effective Instruction 3 Credit Hours
A review of the history of education as it affects the development across schools. Emphasis on characteristics of preadolescents, personalizing curriculum for the K12 student, and strategies for motivating curriculum improvement planning to involve teachers and community.

Registration Restrictions: Background Check Required.

EDUC 675 Elementary Curriculum and Methods 3 Credit Hours
An overview of the current issues and trends in the field of elementary teaching and curriculum.

EDUC 676 Middle Grades Curriculum and Methods 3 Credit Hours
An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 678 Practicum in Education II: External 0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 (may be taken concurrently) or EDUC 625 (may be taken concurrently))
Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 690 Thesis Defense 3 Credit Hours
Prerequisites: EDUC 518 and Background Check Receipt with a score of 5
Research project completed on an educational topic related to the concentration in the master’s degree. Credit is not awarded until the thesis has been accepted.

EDUC 695 Directed Research 1-6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Offers opportunity and challenge of self-directive, independent study; that is, it develops the individual’s ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.
EDUC 696 Current Issues in Education Capstone 3 Credit Hours

Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665

This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.

EDUC 697 Seminar in Education 3-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.

EDUC 698 Directed Practicum 3 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5

A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.

Note: Completed application and approval of Department Chair.

EDUC 699 Internship 3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)

Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.

Education (M.Ed.) - Administration & Supervision

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including internship), the passing of licensure tests, and a current initial teaching license with the accompanying necessary work experience, the graduate of this program would be eligible for adding the VA state licensure endorsement. Please refer to www.liberty.edu/advisingguide

Note

• No residency required

All applicable prerequisites must be met

Graduation Requirements

• Complete 36 hours
• A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
• 2.5 GPA
• No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
• No grade of D or below may be applied to the degree (includes grades of D+ & D-)
• Degree must be completed within 5 years
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format

Curriculum & Instruction (M.Ed.) - Middle Grades (Non-Licensure)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete one of our state-approved programs. Refer to https://www.liberty.edu/advisingguide.

School of Health Sciences

Administration

Dean, School of Health Sciences
Professor of Public & Community Health

Administrative Dean, School of Health Sciences
Assistant Professor of Public & Community Health

Ashley Tharpe, B.S., M.A., M.P.H., Ed.D., C.H.E.S.
Associate Dean, School of Health Sciences
Associate Professor of Public & Community Health

Program Directors

A listing of program directors can be viewed at http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389.

Purpose

The School of Health Sciences provides students graduate education and skill development opportunities in Biomedical Sciences, Exercise Science, and Public Health with an emphasis on the Christian worldview.

Departments

- Department of Allied Health Professions (p. 578)
- Department of Biology & Chemistry (p. 586)
- Department of Public & Community Health (p. 596)

Programs

- Doctor of Philosophy in Anatomy & Cell Biology (Ph.D.) (p. 587)
- Graduate Certificates (p. 605)
- Master of Arts in Medical Sciences (M.A.) (p. 588)
- Master of Public Health (M.P.H.) (p. 599)
- Master of Science in Biomedical Sciences (M.S.) (p. 593)
- Master of Science in Exercise Science & Wellness (M.S.) (p. 578)
- Master of Science in Human Performance (M.S.) (p. 582)

Faculty

Anderson, Robyn; B.S., M.P.H., M.S., Ph.D.
Title: Professor of Public Health
B.S. - Indiana University of Pennsylvania, M.P.H. - University of Pittsburgh, M.S. - Indiana University of Pennsylvania, Ph.D. - University of Pittsburgh
Andre, Thomas; B.S., M.S., Ph.D.  
*Title: Adjunct Faculty*

B.S. - Georgia Southwestern State University, M.S. - University of North Alabama, Ph.D. - Baylor University

Anning, Jonathan; B.A., M.A., Ph.D.  
*Title: Adjunct Faculty*

B.A. - Central Michigan University, M.A. - Central Michigan University, Ph.D. - University of Toledo

Assaid, Christopher; B.S., M.S., Ph.D.  
*Title: Adjunct Faculty*

B.S. - Roanoke College, M.S. - Virginia Polytechnic Institute and State University, Ph.D. - Virginia Polytechnic Institute and State University

Attin, Oswald; B.S., B.S., M.S., Ph.D.  
*Title: Associate Professor of Public Health*

B.S. - Liberty University, B.S. - Liberty University, M.S. - Trident University International, Ph.D. - Walden University

Barton, David; A.A.S., B.S., M.H.S., Ph.D.  
*Title: Adjunct Faculty*

A.A.S. - Piedmont Virginia Community College, B.S. - Medical University South Carolina, M.Ed. - University of Virginia, M.H.S. - Medical University South Carolina, Ph.D. - University of Virginia

Bazyle, Caleb; B.S., M.A., Ph.D.  
*Title: Adjunct Faculty*

B.S. - Florida State University, M.A. - East Tennessee State University, Ph.D. - East Tennessee State University

Belizaire, Marjorie; B.S., M.S., MD  
*Title: Adjunct Faculty*

B.S. - St. John's University, M.S. - Hofstra University, MD - Meharry Medical College

Blais, Mark; B.A., DPM  
*Title: Professor of Biology*

B.A. - Assumption College, DPM - Rosalind Franklin University of Medicine and Science

Boldrin, Emily; B.S., M.S., Ph.D.  
*Title: Adjunct Faculty*

B.S. - Oklahoma Baptist University, M.S. - Oklahoma State University, Ph.D. - Oklahoma State University

Bosak, Andrew; B.S., M.S., Ph.D.  
*Title: Professor Exercise Science*

B.S. - Western Kentucky University, M.S. - Western Kentucky University, Ph.D. - University of Alabama

Brooks, Kelly; B.S., M.S., Ph.D.  
*Title: Adjunct Faculty*

B.S. - Jacksonville State University, M.S. - Jacksonville State University, Ph.D. - University of Alabama

Brubaker, Eric; B.S., M.S., Ed.D.  
*Title: Associate Professor of Health Professions*

B.S. - Liberty University, M.S. - Emporia State University, Ed.D. - Liberty University

Burch, Sharlee; B.S., M.P.H., Ed.D.  
*Title: Assistant Professor*

B.S. - Western Kentucky University, M.P.H. - Western Kentucky University, Ed.D. - Liberty University

C

Casey, Jason; B.S.E., M.A., Ph.D.  
*Title: Adjunct Faculty*

B.S.E. - University of Alabama, M.A. - University of Alabama, Ph.D. - University of Alabama

Cash, Eric; B.S., M.S., Ed.D.  
*Title: Adjunct Faculty*

B.S. - University of South Carolina, M.S. - Eastern Illinois University, Ed.D. - University of North Carolina at Greensboro

Castillo, Gineska; M.P.H., MD  
*Title: Assistant Professor*

M.P.H. - Florida International University, MD - Universidad Central de Venezuela

Caulfield, Lauren; B.S., M.S.  
*Title: Teaching Fellow*

B.S. - University of Central Florida, M.S. - Liberty University

Cheatham, Mary Ann; B.S., B.S., M.S., Ph.D.  
*Title: Adjunct Faculty*

B.S. - East Texas Baptist University, M.A. - Teacher's College at Columbia University, Ph.D. - University of Houston-Victoria

Chelette, Amber; B.S., M.A., Ph.D.  
*Title: Adjunct Faculty*

B.S. - West Virginia University, M.A. - University of West Virginia, Ph.D. - West Virginia University

Chelette, Amber; B.A., B.S., M.P.H., MD  
*Title: Instructor*

B.A. - University of California Irvine, B.S. - University of California Irvine, M.P.H. - Tulane University, MD - Universidad de Monterrey

D

Daugherty, Chloe; B.S., M.S., DPT  
*Title: Adjunct Faculty*

B.S. - Liberty University, M.S. - Liberty University, DPT - University of Lynchburg

Dexheimer, Joshua; B.A., M.S., Ph.D.  
*Title: Instructor*

B.A. - Point Loma Nazarene University, M.S. - University of Southern California, Ph.D. - Concordia University-Chicago

E

Ejezie, John; B.S., M.P.H., D.Pharm.  
*Title: Adjunct Faculty*

B.S. - Federal University of Technology, M.P.H. - Ohio State University, D.Pharm. - Virginia Commonwealth University

Ejike, Chika; M.P.H., Ed.D., MD  
*Title: Adjunct Faculty*
M.P.H. - Western Kentucky University, Ed.D. - Western Kentucky University, MD - University of Nigeria

F

Ferkel, Rick; B.S., M.Ed., Ph.D.
Title: Adjunct Faculty
B.S. - Bowling Green State University, M.Ed. - Ashland University, Ph.D. - Texas Tech University

Florence, James; B.S., M.A., M.P.H., M.P.H., MTS, DPH
Title: Adjunct Faculty
B.S. - California Baptist University, M.A. - Loma Linda University, M.P.H. - Loma Linda University, M.P.H. - Loma Linda University, MTS - Southern Baptist Seminaries, DPH - Loma Linda University

Fordham, Amber; BSN, M.P.H., DNP
Title: Assistant Professor
BSN - Georgia Southern University-Armstrong, M.P.H. - Georgia Southern University-Armstrong, DNP - University of Tennessee in Memphis

Francis, Joseph; B.S., Ph.D.
Title: Assistant Professor
B.S. - Michigan State University, Ph.D. - Wayne State University

Fry, Nathaniel; B.S., Ph.D.
Title: Adjunct Faculty
B.S. - Liberty University, Ph.D. - East Carolina University

G

Garrett, Sherese; B.S., M.P.H., DPH
Title: Adjunct Faculty
B.S. - Florida State University, M.P.H. - Florida State University, DPH - Florida A&M University

George, Pamela; B.A.S., B.S., M.P.H., Ed.D.
Title: Adjunct Faculty
B.A.S. - Ryerson University, B.S. - University of Toronto, M.P.H. - Loma Linda University, Ed.D. - La Sierra University

Giles, Jonathan; B.S., M.P.H., D
Title: Administrative Dean
B.S. - Liberty University, M.P.H. - Liberty University, D - Nova Southeastern University

Gonzalez, Norma; B.S., M.S., D
Title: Instructor
B.S. - University of Puerto Rico, M.S. - Rosalind Franklin University of Medicine and Science, D - Rutgers University - Newark

Goodrich, Richard; B.S., M.B.A., M.S., D.O.
Title: Adjunct Faculty
B.S. - Indiana University of Pennsylvania, M.B.A. - Liberty University, M.S. - Lake Erie College of Osteopathic Medicine, D.O. - Lake Erie College of Osteopathic Medicine

Graf, Linnayas; A.A., B.S., M.S., Ph.D.
Title: Associate Professor of Public Health
A.A. - Florida State College at Jacksonville, B.S. - Pennsylvania State University, M.S. - Walden University, Ph.D. - Walden University

Granniss, David; B.S., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - The King's College, M.A. - Dallas Baptist University, Ph.D. - Springfield College

Green, Daniel; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Kalamazoo College, M.A. - Western Michigan University, Ph.D. - Bowling Green State University

Griesenbeck, John; B.S., M.H.S., M.P.H., M.S., DPH
Title: Adjunct Faculty
B.S. - University of Louisiana at Monroe, M.H.S. - Colorado State U Global Campus, M.P.H. - University of Massachusetts Amherst, M.S. - Stephen F. Austin State University, DPH - Texas A&M University

Griffioen, Kathleen; B.S., Ph.D.
Title: Adjunct Faculty
B.S. - Liberty University, Ph.D. - George Washington University

Hall, Fred; B.S., M.P.H., M.S., Ed.D.
Title: Assistant Professor
B.S. - Belhaven University, M.P.H. - Jackson State University, M.S. - Jackson State University, Ed.D. - Argosy University-Phoenix

Harley, Linda; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Georgia Institute of Technology, M.S. - Georgia Institute of Technology, Ph.D. - Georgia Institute of Technology

Harris, Jerel; B.S., M.B.A., M.S., DPH
Title: Adjunct Faculty
B.S. - University of Central Oklahoma, M.B.A. - University of Findlay, M.S. - University of Findlay, DPH - Georgia Southern University

Henderson, Catharine; B.S., M.S., Ph.D.
Title: Professor of Nutrition
B.S. - Albright College, M.S. - Pennsylvania State University, Ph.D. - Pennsylvania State University

Hoo, Elizabeth; B.S., M.P.H., Ph.D.
Title: Adjunct Faculty
B.S. - University of Georgia, M.P.H. - Georgia Southern University-Armstrong, Ph.D. - Walden University

Hornsby, Jared; B.S., M.S., Ph.D.
Title: Assistant Professor of Health Professions
B.S. - University of North Alabama, M.S. - University of North Alabama, Ph.D. - University of Alabama

Huang, Yan; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Shanghai University of Traditional Chinese Medicine, M.S. - Brandeis University, Ph.D. - Indiana University

Hubbard, Randall; B.S., B.S., M.Ph., Ph.D., Ph.D.
Title: Professor of Microbiology
B.S. - Iowa State University, B.S. - Iowa State University, M.S. - Iowa State University, Ph.D. - Iowa State University, Ph.D. - Iowa State University

Hughes, Duncan; B.S., M.P.H., MD
Title: Adjunct Faculty
B.S. - Messiah College, M.P.H. - University of Texas Health Science Center at Houston, MD - Uniformed Services University

Huntley, Charlotte; A.A., A.A.S., B.A., M.P.H., Ph.D.
Title: Adjunct Faculty
A.A. - Mississippi Gulf Coast Community College-Jackson, A.A.S. - Mississippi Gulf Coast Community College-Jackson, B.A. - Thomas Edison State University, M.P.H. - Walden University, Ph.D. - Walden University

Hurst, Daniel; B.A., M.Div., M.T., Ph.D.
Title: Adjunct Faculty
B.A. - East Tennessee State University, M.Div. - Southern Baptist Theological Seminary, M.T. - Southern Baptist Theological Seminary, Ph.D. - Duquesne University

Isaacs, Gary; B.S., Ph.D.
Title: Associate Professor of Biology
B.S. - Liberty University, Ph.D. - Cornell University

Kalu, Nnanya; MD, Ph.D.
Title: Adjunct Faculty
MD - University of Nigeria Teaching, Ph.D. - Catholic University of America

Kalu, Ben; M.S., MD
Title: Associate Professor of Biology
M.S. - Catholic University of America, MD - Abia State University

Kim, Jeong-Ho; B.S., M.S., Ph.D.
Title: Associate Professor of Biology/Chemistry
B.S. - Chonnam National University, M.S. - Chonnam National University, Ph.D. - University of Wisconsin Oshkosh College of Letters and Science

Kolars, Thomas; A.S., B.S., M.S., Ph.D.
Title: Adjunct Faculty
A.S. - Austin Peay State University, B.S. - Austin Peay State University, M.S. - Austin Peay State University, Ph.D. - University of Memphis

Kollock, Roger; B.S., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - Gardner-Webb University, M.A. - East Tennessee State University, Ph.D. - Old Dominion University

Law, Colleen; B.A., M.P.H., Ph.D.
Title: Assistant Professor
B.A. - Mount Holyoke College, M.P.H. - University of Michigan-Ann Arbor, Ph.D. - Brandeis University

Lawton, Abigail; B.S., M.S.
Title: Teaching Fellow
B.S. - Liberty University, M.S. - Liberty University

Lazenka, Matthew; B.S., Ph.D.
Title: Professor of Biology & Chemistry
B.S. - East Tennessee State University, Ph.D. - Virginia Commonwealth University

Ledoux, Janine; B.S., M.Ed., DPH
Title: Adjunct Faculty
B.S. - Bridgewater State University, M.Ed. - Bridgewater State University, DPH - Loma Linda University

Lennon, Jeffrey; B.A., M.P.H., M.S., MD, Ph.D.
Title: Professor of Health Sciences
B.A. - The King's College, M.P.H. - University of Alabama at Birmingham, M.S. - University of Alabama at Birmingham, MD - Universidad Centro de Estudios Tecnologicos, Ph.D. - University of Alabama at Birmingham

Linstra, Ralph; B.S., M.Ed., Ed.D.
Title: Dean, School of Health Sciences; Professor of Health Professions
B.S. - The King's College, M.Ed. - University of Massachusetts Amherst, Ed.D. - University of Massachusetts Amherst

Lowes, Jeffrey; B.S., M.S., Ph.D.
Title: Assistant Professor
B.S. - Oklahoma State University, M.S. - Oklahoma State University, Ph.D. - Walden University

Mangrati, Danelis; B.A., M.A., M.H.S., D
Title: Adjunct Faculty
B.A. - St. Cloud State University, M.A. - Liberty University, M.H.S. - St. Joseph's College, D - St. Matthew's University School of Medicine

Marin, Traci; A.A.S., B.S., M.P.H., M.S., Ph.D.
Title: Instructor
A.A.S. - Victor Valley College, B.S. - Loma Linda University, M.P.H. - Loma Linda University, M.S. - University of California Riverside, Ph.D. - University of California Riverside

Masters, Melissa; B.S., M.S., Ph.D.
Title: Assistant Professor
B.S. - University of Nebraska Lincoln, M.S. - University of Nebraska Lincoln, Ph.D. - University of Nebraska Lincoln

McClincock, James; B.S., M.S., Ph.D.
Title: Professor of Biology
B.S. - James Madison University, M.S. - University of Maryland in College Park, Ph.D. - University of Maryland in College Park

Miller, Paul; B.A., Ph.D.
Title: Associate Professor of Biology & Chemistry
B.A. - University of Alabama at Birmingham, Ph.D. - Vanderbilt University

Mitchell, Kimberly; B.S., M.S., Ph.D.
Title: Associate Professor of Biology
B.S. - Liberty University, M.S. - University of Virginia, Ph.D. - University of Virginia

Muvuka, Baraka; B.S., M.P.H., Ph.D.
Title: Instructor
B.S. - Silliman University, M.P.H. - Liberty University, Ph.D. - University of Louisville
N

Napier, Rachaline; B.S., M.P.H., DPH
Title: Adjunct Faculty
B.S. - CUNY City College of New York, M.P.H. - Ohio State University, DPH - Capella University

O

O'Connell, Bethesda; B.S., M.P.H., DPH
Title: Associate Professor
B.S. - East Tennessee State University, M.P.H. - East Tennessee State University, DPH - East Tennessee State University

Oguegbu, Adaeze; B.S., M.S., M.S., Ph.D.
Title: Assistant Professor
B.S. - University of Nigeria, M.S. - University of Nigeria, M.S. - Southern Connecticut State University, Ph.D. - Walden University

Ogunleye, Olushola Olaitan; C.T.G., M.P.H., MD
Title: Adjunct Faculty
C.T.G. - Liberty University, M.P.H. - Liberty University, MD - Ahmadu Bello University

P

Passburg, Crystal; B.S., M.S.
Title: Teaching Fellow
B.S. - Bryan College, M.S. - Liberty University

Peveler, Willard; B.A., B.A., M.S., Ph.D.
Title: Professor of Health Professions
B.A. - Western Kentucky University, M.S. - Western Kentucky University, Ph.D. - University of Alabama

Pickard, Jerry; B.S., M.A.T., Ed.D.
Title: Professor of Athletic Training
B.S. - University of Texas El Paso, M.A.T. - Western New Mexico University, Ed.D. - Sam Houston State University

R

Raner, Gregory; B.S., M.S., Ph.D.
Title: Professor of Biology & Chemistry
B.S. - Lemoyn College, M.S. - Syracuse University, Ph.D. - University of Utah

Redden, Kenneth; B.S., M.A., Ed.D.
Title: Adjunct Faculty
B.S. - Wingate University, M.A. - Radford University, Ed.D. - University of North Carolina at Charlotte

Reed, Donald; B.A., M.A., M.S., M.S., DPH
Title: Adjunct Faculty
B.A. - Concord University, M.A. - Mountain State University, M.S. - Mountain State University, M.S. - Mountain State University, DPH - Capella University

Rhodes, Eric; B.S., PHD
Title: Instructor
B.S. - Ohio University-Athens, PHD - Miami University Oxford

Ruot, Charles; B.S., M.S., Ed.D.
Title: Adjunct Faculty
B.S. - Illinois State University, M.S. - Eastern Illinois University, Ed.D. - University of Kentucky

S

Scheirman, Gerald; M.S., Ph.D.
Title: Adjunct Faculty
M.S. - University of Washington in Seattle, Ph.D. - Pennsylvania State University

Schoffstall, James; B.S., M.S., Ed.D.
Title: Professor of Health Professions
B.S. - Old Dominion University, M.S. - Old Dominion University, Ed.D. - Liberty University

Schultz, Donald; B.S.E., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S.E. - Liberty University, M.Ed. - Slippery Rock University, Ed.D. - University of North Carolina at Greensboro

Sellers, Jeremy; B.S., Ph.D.
Title: Professor of Biology
B.S. - Campbell University, Ph.D. - Wake Forest University

Sheeler, Cameron; B.S., Ph.D.
Title: Associate Professor of Biology
B.S. - University of California Davis, Ph.D. - University of Cincinnati

Shields, Margaret; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Central Washington University, M.S. - Central Washington University, Ph.D. - University of Alabama

Solitro, Abigail; B.S., B.S., Ph.D.
Title: Assistant Professor of Biology
B.S. - Ferris State University, B.S. - Ferris State University, Ph.D. - Van Andel Institute Grad Sch

Stevenson, Lindsey; B.S., Ph.D.
Title: Assistant Professor of Biology
B.S. - Liberty University, Ph.D. - North Carolina State University

T

Tharpe, Ashley; B.S., M.A., M.P.H., Ed.D.
Title: Associate Dean
B.S. - Liberty University, M.A. - Liberty University, M.P.H. - Kaplan University-Online, Ed.D. - Liberty University

Titcomb, David; B.S., M.S., DPT
Title: Associate Professor of Health Professions
B.S. - Old Dominion University, M.S. - Old Dominion University, DPT - University of St. Augustin for Health Sciences

Townsend, Brigitte; B.S., M.S., Ph.D.
Title: Assistant Professor of Biology
B.S. - Liberty University, M.S. - University of Georgia, Ph.D. - University of Illinois at Urbana

V

Vance, James; B.S., M.N.R., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Bluefield College, M.N.R. - Virginia Polytechnic Institute and State University, M.S. - Virginia Polytechnic Institute and State University, Ph.D. - Virginia Polytechnic Institute and State University

W

Waldron, Laura; B.S., MD, MD
Title: Adjunct Faculty
B.S. - Fordham University, M.D. - University of Maryland in College Park, MD

Watkins-Bailey, Shalah; B.S., M.P.H., Ph.D.
Title: Adjunct Faculty
B.S. - Ball State University, M.P.H. - Indiana University-Purdue University, Ph.D. - University of Texas Woman's University

Wheeler, Kelly; B.A., M.P.H., Ph.D.
Title: Assistant Professor
B.A. - University of Houston-Clear Lake, M.P.H. - Walden University, Ph.D. - Walden University

White, Diedri; B.S., M.S., DPH
Title: Instructor
B.S. - Andrews University, M.S. - Rosalind Franklin University of Medicine and Science, DPH - Loma Linda University

Williams, Cynthia; B.S., B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - University of Florida, B.S. - Florida A&M University, M.S. - University of Central Florida, Ph.D. - University of Central Florida

Wise, Dawnne; B.S., M.P.H., Ph.D.
Title: Assistant Professor
B.S. - Ohio State University, M.P.H. - Ohio State University, Ph.D. - Ohio State University

Wood, Kelsey; B.S., DPT
Title: Adjunct Faculty
B.S. - University of Portland, DPT - Creighton University

Wynn, Crystal; B.A.C.C., M.P.H., Ph.D.
Title: Adjunct Faculty
B.A.C.C. - Delaware State University, M.P.H. - University of North Carolina at Chapel Hill, Ph.D. - Walden University

Department of Allied Health Professions

Chair, Department of Allied Health Professions
Professor of Health Professions

Purpose
The Department of Allied Health Professions faculty members are committed to preparing students in three areas: Athletic Training, Exercise Science, and Kinesiology. Each area leads to a Bachelor of Science degree; additionally the department offers a Master of Science degree in Exercise Science. Our objective is to encourage student growth in these disciplines from the Christian worldview in preparation for employment/graduate education as they pursue God's purpose for their lives.

Programs
- Master of Science in Exercise Science & Wellness (M.S.) (p. 578)
- Master of Science in Human Performance (M.S.) (p. 582)

Master of Science in Exercise Science & Wellness (M.S.)

Purpose
The Master of Science in Exercise Science and Wellness is an advanced degree designed to broaden understanding of nutrition, wellness, fitness, and performance in a variety of populations. This program gives students the opportunity to further their knowledge in the core of exercise science and wellness (exercise physiology, fitness assessment and programming, nutrition, statistics, and research methods), while specializing in one of two concentration areas:

1. Fitness and Performance

Program Learning Outcomes
The student will be able to:

1. Evaluate and explain the concepts in all core curricular areas of exercise science and wellness.
2. Synthesize research data utilizing knowledge of the exercise science and wellness literature and other scientific writings.
3. Understand and display ethical choices and professional practices in the exercise science and wellness sectors from a Christian worldview.

Fitness & Performance Concentration
The student will be able to develop programming that will enhance fitness and performance parameters of general, athletic, or occupational performance sectors.

Nutrition & Wellness Concentration
The student will be able to develop wellness programming that will enhance the health and wellness of the general, below averagely fit, and averagely fit populations.

Program Specific Admission Procedures
In addition to the general admission requirements, admission to the Master of Science in Exercise Science and Wellness program requires:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. An undergraduate cumulative GPA of 3.00 or above (on a 4.00 scale)
3. Self-Certification Form (for students in the final term of their bachelor’s degree)
4. Additional admission requirements for International Students. See International Admission section in this catalog.

Students who do not meet the minimum GPA requirement may be admitted on Academic Caution status. Students who have less than an undergraduate 2.50 GPA will not be admitted to the program.
Transfer Credit

Students may transfer up to 15 hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-, and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

1. Satisfactory completion of 33 total hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Students must complete all courses with a 3.00 or higher cumulative grade point average.
4. No more than two grades of “C” may be applied to the degree (includes grades of C+ & C-).
5. No grades of “D” or below may be applied to the degree (includes grades of D+ & D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Liberty University course work that is more than 10 years old may not be applied toward this degree. Students are required to repeat the course if it has exceeded the age limit.
8. Degree must be completed within 5 years.
9. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study

Delivery Format: Residential and Online

- Exercise Science & Wellness (M.S.) - Fitness & Performance (p. 581)
- Exercise Science & Wellness (M.S.) - Nutrition & Wellness (p. 581)

Career Opportunities

- Clinical Exercise Physiologist
- Corporate, University, Commercial, or Resort Fitness Trainer
- Exercise Physiologist
- Health Care Specialist
- Human Performance Specialist
- Nutrition and Exercise Specialist
- Sports Physiologist
- Sports Scientist
- Strength and Conditioning Coach
- Wellness Coach

</table>
| Prerequisites: Physiology/Exercise Physiology with a score of 3 or Exercise Physiology/Equivalent with a score of 3 or EXSC 505
| Advanced study of physiological adaptations to acute and chronic exercise. |
| EXSC 511    | Advanced Exercise Physiology Lab                   | 1            |
| Prerequisites: Exercise Physiology/Equivalent with a score of 3 or Physiology/Exercise Physiology with a score of 3
| Laboratory experience demonstrating acute physiological responses to exercise. |
| EXSC 520    | Statistical Analysis in Exercise Science          | 3            |
| Prerequisites: Statistics or Equivalent with a score of 3 or EXSC 505
| This course targets the development of understanding in statistical methodology as it relates to the field of exercise science. Students will be able to summarize, analyze, and interpret data using descriptive and inferential statistics. |
| EXSC 525    | Research Methods in Exercise Science              | 3            |
| In this course students will be given the opportunity to develop their knowledge of the applied theories behind exercise science research methods. An emphasis will be placed on study design and approval, manuscript format and preparation, application of statistical analysis and data evaluation. |
| EXSC 540    | Advanced Strength Development                      | 3            |
| EXSC 541    | Advanced Speed and Agility                        | 3            |
| Prerequisites: EXSC 540
| This course focuses on the principles of speed and agility development as presented through the M.O.R.R. training system. |
| EXSC 542    | Advanced Conditioning & Recovery                  | 3            |
| Prerequisites: EXSC 540
| This course focuses on the principles of conditioning and recovery as presented through the M.O.R.R. training system. |
| EXSC 545    | Motor Learning and Performance                     | 3            |
| This course includes the philosophy and application of qualitative movement analysis as the foundation for exercise prescription within a standard operating procedure. |
EXSC 550 Advanced Biomechanical Analysis 3 Credit Hours
Prerequisites: Biomchns, physics/equivalent with a score of 3 or EXSC 505
This course involves the application of mechanical principles, quantitative analysis of human movement, and advanced study of biomechanical instrumentation systems. Critical analysis of current research in the field of biomechanics is also emphasized.

EXSC 551 Advanced Biomechanical Analysis Lab 1 Credit Hour
Prerequisites: EXSC 550
In this course the student will apply kinetic and kinematic concepts through the use of biomechanical instrumentation for the advanced study of human movement.

EXSC 560 Graded Exercise Testing and Electrocardiography 3 Credit Hours
Prerequisites: EXSC 510 and EXSC 511
This course provides the framework for the exercise physiologist to develop and apply the academic background for clinical exercise testing. Students will become competent in the physiological and pathophysiological responses of the body during various exercise testing protocols. Guidelines based on ACSM standards will be applied while vital signs are measured and evaluated during exercise testing. Cardiac physiology will be covered through electrocardiographic monitoring and interpretation.

EXSC 610 Exercise and Physical Activity for People with Disabilities 3 Credit Hours
Prerequisites: EXSC 510 and EXSC 635
This course is designed to investigate the background, opportunities, and challenges faced by people with disabilities as related to physical activity. Physical activity program planning, implementation, and evaluation for various impairments will be examined.

EXSC 635 Exercise Prescription for Special Populations: Cardiac and Pulmonary Disorders 3 Credit Hours
Prerequisites: EXSC 510
This course provides the foundational understanding for the pathophysiological processes of various common chronic conditions. A clinical understanding of limitations and special needs will be provided, which allows the exercise scientist to appropriately interact and serve the cardiopulmonary client.

EXSC 637 Exercise Prescription for Special Populations: Chronic Health Conditions 3 Credit Hours
Prerequisites: EXSC 510 and (EXSC 635
This course provides the foundational understanding for the pathophysiological processes of various common chronic conditions. A clinical understanding of limitations and special needs will be provided, which allows the exercise scientist to appropriately interact and serve the clinical client.

EXSC 640 Public Health and Physical Activity 3 Credit Hours
Prerequisites: EXSC 510
This course focuses on the integration of public health and exercise science. The techniques used to measure physical activity, the effects of physical activity on health, and strategies for physical activity promotion will be examined. The scientific findings and applications that led to the emergence of the field of physical activity and public health are also examined.

EXSC 650 Promoting Physical Activity in the Community 3 Credit Hours
Prerequisites: EXSC 640
This course will examine the promotion of physical activity in the community setting. The techniques, theories, and strategies for physical activity promotion will be examined.

EXSC 660 Fitness Assessment and Programming 3 Credit Hours
Prerequisites: EXSC 510
This course is a study of the laboratory and field tests used for assessing physical fitness components as well as principles of exercise prescription. Test results are used in developing individualized exercise prescriptions to improve cardiorespiratory fitness, muscular fitness, body weight and body composition, and flexibility.

EXSC 689 Thesis Proposal and Design 3 Credit Hours
Prerequisites: EXSC 525
This course is designed as a secondary step towards a graduate level thesis; following EXSC 525 - Research Methods in Exercise Science. The student continues with their selected topic of interest and solidifies a research proposal. The process is designed to deepen the comprehension of research methods, expand the knowledge of current evidence based understanding and enhance skills necessary for scholarly writing.

EXSC 690 Thesis Defense 3 Credit Hours
Prerequisites: EXSC 689
The Thesis Defense is the culminating event for the student’s education through the research conducted as a continuation of prior coursework. The research will be the foundation for the written report and oral defense of the selected thesis. A final copy of a publishable manuscript is submitted to a thesis defense committee for review prior to a formal defense by way of presentation and responses to verbal inquiry by the defense committee.

EXSC 699 Internship 1-6 Credit Hours
Prerequisites: EXSC 510 and EXSC 511 and EXSC 520 and EXSC 525 and EXSC 550 and EXSC 551 and HLTH 645
This course involves practical work experience in an approved exercise or fitness-related agency, or similar setting/facility supervised by a qualified professional. Selection of the internship site should coincide with academic track selected and intended career path.

Registration Restrictions: Complete all other Masters of Exercise Science coursework.
### Exercise Science & Wellness (M.S.) - Fitness & Performance

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Program Offered in Resident & Online Format**
Master of Science in Human Performance (M.S.)

Purpose
The Master of Science in Human Performance is an advanced degree designed to broaden understanding of health, wellness, and performance in a variety of client populations. This program gives students the opportunity to further their knowledge in the core of exercise science (exercise physiology, biomechanics, sports nutrition, statistics and research methods), while specializing in one of four cognate areas: human performance, nutrition, clinical, or community physical activity.

Program Learning Outcomes
The student will be able to:

1. Evaluate and explain the concepts in all core curricular areas of exercise science.
2. Interpret scientific information in the area of exercise science.
3. Synthesize research data and scientific writings in the area of exercise science.
4. Develop programming that will enhance health and performance parameters of general, athletic, or clinical populations.
5. The student will be able to evaluate ethical choices and professional practices in exercise science from a Christian worldview.

Course Requirements
The Master of Science in Human Performance is a 35-hour program that offers four cognates: Clinical, Fitness and Wellness, Strength Training and Conditioning, and Nutrition. Students complete 17 core hours in five disciplines: exercise physiology, biomechanics, sports nutrition, statistics and research methods, with labs in exercise physiology and biomechanics. These classes are combined with 12 credit hours in one of the four cognate areas and 6 credit hours of either thesis or internship.

Program Specific Admission Procedures
In addition to the general admission requirements, admission to the Master of Science in Human Performance program requires:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. An undergraduate cumulative GPA of 3.00 or above (on a 4.00 scale)
3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test)
4. Program Undergraduate Class Prerequisites: A class in each of the following subjects must be completed prior to enrolling in most graduate-level exercise science courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EXSC 510</td>
<td>Advanced Exercise Physiology</td>
<td>3</td>
</tr>
<tr>
<td>EXSC 520</td>
<td>Statistical Analysis in Exercise Science</td>
<td>3</td>
</tr>
<tr>
<td>EXSC 550</td>
<td>Advanced Biomechanical Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

This requirement may be met via previously completed undergraduate coursework or by enrolling in the missing courses or EXSC 505 Foundations of Human Performance (3 c.h.) after admission to the program.

1. Students who do not have any or all of the above undergraduate prerequisite classes must enroll in EXSC 505 Foundations of Human Performance (3 c.h.) prior to enrolling in EXSC 510 Advanced Exercise Physiology (3 c.h.), EXSC 520 Statistical Analysis in Exercise Science (3 c.h.) and EXSC 550 Advanced Biomechanical Analysis (3 c.h.).

Transfer Credit
Students may transfer up to 15 graduate credit hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-, and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
1. Satisfactory completion of 35 total hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level. (For this degree program, the maximum is 17 hours.)
3. Students must complete all courses with a 3.00 or higher cumulative grade point average.
4. No more than two grades of “C” may be applied to the degree (includes grades of C+ & C-).
5. No grades of “D” may be applied to the degree (includes grades of D+ & D).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within five years.
8. Liberty University course work that is more than seven years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit.
9. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study

Delivery Format: Residential and Online

• Human Performance (M.S.) - Clinical (p. 584)
• Human Performance (M.S.) - Fitness & Wellness (p. 585)
• Human Performance (M.S.) - Nutrition (p. 585)
• Human Performance (M.S.) - Strength Training & Conditioning (p. 586)

Career Opportunities

• Cognitive Performance Specialist
• Exercise Physiologist
- Exercise Specialist
- Health Statistician
- Sports Performance Coach
- Strength and Conditioning Coach

Courses

**EXSC 505 Foundations of Human Performance** 3 Credit Hours
This entry level graduate course will examine the physiological, biomechanical, measurement and evaluation, and program design theories and principles that are associated with numerous aspects of human performance.

**EXSC 510 Advanced Exercise Physiology** 3 Credit Hours
**Prerequisites:** Physiology/Exercise Physiology with a score of 3 or Exercise Physiology/Equivalent with a score of 3 or EXSC 505
Advanced study of physiological adaptations to acute and chronic exercise.

**EXSC 511 Advanced Exercise Physiology Lab** 1 Credit Hour
**Prerequisites:** Exercise Physiology/Equivalent with a score of 3 or Physiology/Exercise Physiology with a score of 3
Laboratory experience demonstrating acute physiological responses to exercise.

**EXSC 520 Statistical Analysis in Exercise Science** 3 Credit Hours
**Prerequisites:** Statistics or Equivalent with a score of 3 or EXSC 505
This course targets the development of understanding in statistical methodology as it relates to the field of exercise science. Students will be able to summarize, analyze, and interpret data using descriptive and inferential statistics.

**EXSC 525 Research Methods in Exercise Science** 3 Credit Hours
In this course students will be given the opportunity to develop their knowledge of the applied theories behind exercise science research methods. An emphasis will be placed on study design and approval, manuscript format and preparation, application of statistical analysis and data evaluation.

**EXSC 540 Advanced Strength Development** 3 Credit Hours
This course focuses on the principles of strength development as presented through the M.O.R.R. training system.

**EXSC 541 Advanced Speed and Agility** 3 Credit Hours
**Prerequisites:** EXSC 540
This course focuses on the principles of speed and agility development as presented through the M.O.R.R. training system.

**EXSC 542 Advanced Conditioning & Recovery** 3 Credit Hours
**Prerequisites:** EXSC 540
This course focuses on the principles of conditioning and recovery as presented through the M.O.R.R. training system.

**EXSC 545 Motor Learning and Performance** 3 Credit Hours
**Prerequisites:** Biomchncs, physics/equivalent with a score of 3 or EXSC 505
This course includes the philosophy and application of qualitative movement analysis as the foundation for exercise prescription within a standard operating procedure.

**EXSC 550 Advanced Biomechanical Analysis** 3 Credit Hours
**Prerequisites:** EXSC 550
This course involves the application of mechanical principles, quantitative analysis of human movement, and advanced study of biomechanical instrumentation systems. Critical analysis of current research in the field of biomechanics is also emphasized.

**EXSC 551 Advanced Biomechanical Analysis Lab** 1 Credit Hour
**Prerequisites:** EXSC 550
In this course the student will apply kinetic and kinematic concepts through the use of biomechanical instrumentation for the advanced study of human movement.

**EXSC 610 Graded Exercise Testing and Electrocardiotherapy** 3 Credit Hours
**Prerequisites:** EXSC 510 and EXSC 511
This course provides the framework for the exercise physiologist to develop and apply the academic background for clinical exercise testing. Students will become competent in the physiological and pathophysiologic responses of the body during various exercise testing protocols. Guidelines based on ACSM standards will be applied while vital signs are measured and evaluated during exercise testing. Cardiac physiology will be covered through electrocardiographic monitoring and interpretation.

**EXSC 633 Exercise and Physical Activity for People with Disabilities** 3 Credit Hours
**Prerequisites:** EXSC 510 and EXSC 511
This course is designed to investigate the background, opportunities, and challenges faced by people with disabilities as related to physical activity. Physical activity program planning, implementation, and evaluation for various impairments will be examined.

**EXSC 635 Exercise Prescription for Special Populations: Cardiac and Pulmonary Disorders** 3 Credit Hours
**Prerequisites:** EXSC 510
This course provides the foundational understanding for the pathophysiologic processes of various common chronic conditions. A clinical understanding of limitations and special needs will be provided, which allows the exercise scientist to appropriately interact and serve the cardiopulmonary client.
EXSC 637 Exercise Prescription for Special Populations: Chronic Health Conditions 3 Credit Hours

Prerequisites: EXSC 510 and (EXSC 635)

This course provides the foundational understanding for the pathophysiological processes of various common chronic conditions. A clinical understanding of limitations and special needs will be provided, which allows the exercise scientist to appropriately interact and serve the clinical client.

EXSC 640 Public Health and Physical Activity 3 Credit Hours

This course focuses on the integration of public health and exercise science. The techniques used to measure physical activity, the effects of physical activity on health, and strategies for physical activity promotion will be examined. The scientific findings and applications that led to the emergence of the field of physical activity and public health are also examined.

EXSC 650 Promoting Physical Activity in the Community 3 Credit Hours

Prerequisites: EXSC 640

This course will examine the promotion of physical activity in the community setting. The techniques, theories, and strategies for physical activity promotion will be examined.

EXSC 660 Fitness Assessment and Programming 3 Credit Hours

This course is a study of the laboratory and field tests used for assessing physical fitness components as well as principles of exercise prescription. Test results are used in developing individualized exercise prescriptions to improve cardiorespiratory fitness, muscular fitness, body weight and body composition, and flexibility.

EXSC 689 Thesis Proposal and Design 3 Credit Hours

Prerequisites: EXSC 525

This course is designed as a secondary step towards a graduate level thesis; following EXSC 525 - Research Methods in Exercise Science. The student continues with their selected topic of interest and solidifies a research proposal. The process is designed to deepen the comprehension of research methods, expand the knowledge of current evidence based understanding and enhance skills necessary for scholarly writing.

EXSC 690 Thesis Defense 3 Credit Hours

Prerequisites: EXSC 689

The Thesis Defense is the culminating event for the student’s education through the research conducted as a continuation of prior coursework. The research will be the foundation for the written report and oral defense of the selected thesis. A final copy of a publishable manuscript is submitted to a thesis defense committee for review prior to a formal defense by way of presentation and responses to verbal inquiry by the defense committee.

EXSC 699 Internship 1-6 Credit Hours

Prerequisites: EXSC 510 and EXSC 511 and EXSC 520 and EXSC 525 and EXSC 550 and EXSC 551 and HLTH 645

This course involves practical work experience in an approved exercise or fitness-related agency, or similar setting/facility supervised by a qualified professional. Selection of the internship site should coincide with academic track selected and intended career path.

Registration Restrictions: Complete all other Masters of Exercise Science coursework.

Human Performance (M.S.) - Clinical

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

2 Any thesis student who is not ready for enrollment in EXSC 690 Thesis Defense (3 c.h.) after completing EXSC 689 Thesis Proposal and Design (3 c.h.) may be required, as determined by the student’s thesis chair, to repeat EXSC 689 Thesis Proposal and Design (3 c.h.) until deemed ready for enrollment in EXSC 690 Thesis Defense (3 c.h.)

1 Students may take EXSC 699 Internship (1-6 c.h.) instead of EXSC 689 Thesis Proposal and Design (3 c.h.) and EXSC 690 Thesis Defense (3 c.h.)

2 Any thesis student who is not ready for enrollment in EXSC 690 Thesis Defense (3 c.h.) after completing EXSC 689 Thesis Proposal and Design (3 c.h.) may be required, as determined by the student’s thesis chair, to repeat EXSC 689 Thesis Proposal and Design (3 c.h.) until deemed ready for enrollment in EXSC 690 Thesis Defense (3 c.h.)
Program Offered in Resident & Online Format

Human Performance (M.S.) - Strength Training & Conditioning

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

All applicable prerequisites must be met

Graduation Requirements

- Complete 35 hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
- No grade of D or below may be applied to the degree (includes grades of D+ & D-)
- Liberty University course work that is more than 10 years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

Programs

- Doctor of Philosophy in Anatomy & Cell Biology (Ph.D.) (p. 587)
- Master of Arts in Medical Sciences (M.A.) (p. 588)
- Master of Science in Biomedical Sciences (M.S.) (p. 593)
Courses

BIOL 515 Cell Biology  
4 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208 and BIOL 301 and CHEM 301) or (BIOL 200 and BIOL 207 and BIOL 211 and BIOL 212 and BIOL 301 and CHEM 301)

A study of the organization and function of living matter at the cellular level. Special emphasis will be given to the integration of molecular and cellular interactions for the maintenance of life.

BIOL 518 Vertebrate Natural History  
4 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 207 and BIOL 211 and BIOL 212)

A study of the life history of the vertebrates with special emphasis on their taxonomy, life cycles, and ecological relationships. Vertebrates native to central Virginia will receive special attention.

BIOL 595 Special Problems in Biology  
4 Credit Hours

The preparation of a paper based on library, laboratory, and/or field research of a problem selected after consultation with the Biology faculty. Limited to students planning to pursue graduate studies in Biology. Only 4 hours may count toward the Biology major.

Registration Restrictions: Sixteen hours of Biology and consent of instructor and Department Chairman.

BIOL 597 Special Topics in Biology  
3 Credit Hours

Doctor of Philosophy in Anatomy & Cell Biology (Ph.D.)

Purpose

The Doctor of Philosophy in Anatomy and Cell Biology is to prepare men and women to serve as teaching faculty in universities and medical and professional schools.

Program Learning Outcomes

The student will be able to:

1. Create and deliver professional lectures in anatomy & cell biology.
2. Critically evaluate the literature of the discipline and report their findings to a scientific audience.
3. Conduct original research that adds to the knowledge base of the discipline.
4. Defend ethical decisions in biomedicine using the Biblical worldview

Program Specific Admission Procedures

In addition to the General Admission Procedures outlined in this Catalog, applicants to the Doctor of Philosophy in Anatomy and Cell Biology program must have:

1. B.S. or M.S. in biomedical sciences related field from an accredited university. (Degrees in biology, biochemistry, cell biology, molecular biology, biopsychology, etc.)

2. Official college transcript documenting the minimum GPA requirement. Minimum GPA for the program is 3.00.
3. Students must submit one of the following tests with a minimum score (This requirement is waived if student has an M.S. in a biomedical sciences related field.)
   a. MCAT: above or equal to the 60th percentile or Confirmed MS GPA of 3.0 or higher
   b. GRE: above a 300 combined verbal and quantitative or Confirmed MS GPA of 3.0 or higher
4. Three faculty/professional recommendations documenting the ability of the student to pursue doctoral level work submitted electronically.
5. Personal statement describing career goals, prior experience and motivation for pursuing a Ph.D., Christian commitment and origins views. (100-1500 words)
6. Successful candidates are expected to have prior research experience but it is not required.

Transfer Credit

Students may transfer up to 39 hours of graduate course work from an accredited institution. In order to be eligible for transfer, course work must have a minimum grade of B-, and must have been completed in the past 5 years. Non-transferable course are as followed:

<table>

</tr>
</tbody>
</table>

Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

1. Satisfactory completion of 96 hours.
2. A maximum of 39 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
3. 3.00 GPA
4. No grades lower than B- may be applied to the degree.
5. Degree must be completed within 5 years.
6. Students who earn more than two grades of C+/C/C- or more than one grade of D+ or lower will be subject to administrative dismissal from the program.
7. Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date.

Program of Study

Delivery Format: Residential Only

- Anatomy & Cell Biology (Ph.D.) (p. 588)

Career Opportunities

- Anatomy professor
- Biomedical research scientist
- Cadaver dissection instructor for college, graduate, or medical school
• Cellular biologist
• Molecular biologist

Courses

BIOM 700 Anatomy & Cell Biology Seminar 1 Credit Hour
Faculty and students will present and discuss papers from the literature on a topic in anatomy & cell biology. This course is required to be repeated eight times with different faculty and different topics.

Offered: Resident

BIOM 710 Anatomy & Cell Biology Teaching Practicum 1 Credit Hour
Advanced students will develop teaching skills through involvement teaching laboratory or lecture courses. Students may assist faculty in undergraduate, masters or medical school courses. This course is required to be successfully repeated six times but only twice for the same practicum.

Offered: Resident

BIOM 750 Research Rotation 1 Credit Hour
Guided research with a faculty member from the Anatomy & Cell Biology Ph.D. program. Students will learn a variety of experimental techniques and apply them. Students will complete a poster or oral presentation highlighting the results obtained. This course is required to be successfully repeated two - three times with different faculty members.

Offered: Resident

BIOM 889 Dissertation Research 1-9 Credit Hours
Prerequisites: BIOM 750
Students will design and carry out independent research that expands knowledge. May be repeated until successful defense of the dissertation.

Offered: Resident

BIOM 890 Dissertation Defense 1 Credit Hour
Prerequisites: BIOM 889
Students will publicly defend the dissertation research project.

Offered: Resident

Anatomy & Cell Biology (Ph.D.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours 96-97

1 This course must be taken in residence.
2 This course is a 1-credit-hour course that will be required to successfully complete 8 times with different faculty and different topics.
3 This course is a 1-credit-hour course that will be required to successfully complete 6 times but only twice for the same practicum.
4 This course is a 1-credit-hour course that is required to take a minimum of 2-3 times with 2-3 different faculty members.

All applicable prerequisites must be met

Graduation Requirements

• Complete 96 hours
• A minimum of 57 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
• A maximum of 39 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
• 3.0 GPA
• No grades lower than B- may be applied to the degree
• Degree must be completed within 5 years
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Residential Format

Master of Arts in Medical Sciences (M.A.)

Purpose

The Master of Arts in Medical Sciences is a 34-hour graduate level program that serves to improve students’ academic preparedness for admission to medical school and other professional programs as well as provide a broad-based advanced training in the basic medical sciences needed to work in the expanding biotechnology and healthcare industries – this is accomplished by these five cognates; Public Health, Health Informatics, Molecular Medicine, Biopsychology and Business
Management. The program is delivered in the online format which provides flexibility for students of varying backgrounds and experiences. Courses are taught from a biblical worldview and the program includes a required course in biomedical ethics.

Program Learning Outcomes
The student will be able to:

1. Apply scientific knowledge to problem solving in the medical sciences.
2. Synthesize and interpret information from the medical science literature.
3. Defend ethical decisions in biomedicine based on Biblical principles.

Program Specific Admission Procedures
In addition to the General Admission Procedures outlined in this Catalog, applicants to the Master of Arts in Medical Sciences program must have:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.);
2. Official college transcript documenting the minimum GPA requirement and course prerequisites should be submitted. Minimum GPA is 2.75.
   Prerequisite courses include:
   a. two semesters of general biology with lab or two semesters of A&P with lab
   b. two semesters of general chemistry with lab
   c. one semester organic chemistry with residential lab (2 semesters recommended)
3. Accept on caution
   a. For all new online graduate applicants who apply to the M.A. in Medical Sciences program and who do not meet the GPA or test score requirement, a cautionary acceptance can be considered on a case-by-case basis (by the department) for a student who has a GPA between 2.50 – 2.74.

Transfer Credit
Students may transfer up to 15 hours of graduate course work from an accredited institution. In order to be eligible for transfer, course work must have a minimum grade of B-, and must have been completed in the past 10 years. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
1. Satisfactory completion of 34 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. 3.00 GPA
4. No grades lower than B- may be applied to the degree.
5. Degree must be completed within 5 years.
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Online Only
- Medical Sciences (M.A.) - Biopsychology (p. 591)
- Medical Sciences (M.A.) - Business Management (p. 591)
- Medical Sciences (M.A.) - Health Informatics (p. 592)
- Medical Sciences (M.A.) - Molecular Medicine (p. 592)
- Medical Sciences (M.A.) - Public Health (p. 592)

Career Opportunities
- Biomedical scientist (may require Ph.D.)
- Clinical research associate
- College lecturer/instructor
- Genetic counselor (requires additional training)
- Grants officer
- Medical affairs consultant
- Medical liaison
- Medical science specialist
- Medical science writer
- Mental health counselor (requires additional training)
- Program officer
- Research analyst
- Research associate
- Research scientist (may require Ph.D.)

Courses
BIOM 500 Introduction to Biomedical Sciences 3 Credit Hours
This course employs the exploration of the molecular, genetic, biochemical and cellular basis of human oncogenesis, tumor metastasis, cancer detection and therapeutic advances as a comprehensive background for understanding and engaging the field of biomedicine. It provides a solid foundation in the basic biomedical principles that serve as the framework for advancing medical science including genetics, cellular anatomy, metabolism and cell signaling.

Offered: Online

BIOM 503 Human Genetics 3 Credit Hours
Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)
A study of the molecular causes of human disease with an emphasis on the specific gene perturbations that influence human health. Specific modes of genetic assault (e.g. mutations, epigenetic mechanisms, nutritional factors, and viral infections) will be discussed.

BIOM 513 Human Gross Anatomy 5 Credit Hours
This is an intensive course that covers all aspects of human anatomy through lectures, followed by practical application using cadavers. In addition, imaging techniques including CT scans and x-ray radiography are used to introduce the student to the physician's perspective.

Offered: Resident
BIOM 515 Human Physiology  5 Credit Hours

A concentrated, comprehensive course that provides the student with a high level of understanding of the physiological basis of medicine. The essential concepts of mechanisms of body function are presented at various levels of organization, ranging from cellular and molecular to tissue and organ system levels. Emphasis is placed on understanding the integrated regulation of various body processes among the major systems.

Offered: Resident

BIOM 523 Human Gross Anatomy Lecture  4 Credit Hours

This is an intensive course that covers all aspects of human anatomy through lectures. Students will be shown how imaging techniques including CT scans and x-ray radiography are viewed from the physician's perspective. This course precedes BIOM 524 Human Anatomy Cadaver Lab which includes the use of human cadavers. (BIOM 523 and 524 are equivalent to BIOM 513)

Offered: Online

BIOM 524 Human Anatomy Cadaver Lab  1-2 Credit Hours

Prerequisites: BIOM 523

A laboratory study of the structure and function of the human body using a regional approach with emphasis on the detailed osteology, musculature, vasculature, and innervation of each region along with an understanding of the interrelationship between organ systems. This course follows BIOM 523 Human Gross Anatomy Lecture. (BIOM 523 and 524 are equivalent to BIOM 513).

Offered: Online

BIOM 525 Human Physiology Lecture  4 Credit Hours

This is a concentrated, comprehensive course that provides the student with a high level of understanding of the physiological basis of medicine. The essential concepts of physiology and mechanisms of body function are presented at various levels of organization ranging from cellular and molecular to tissue and organ system levels. Emphasis is placed on understanding the integrated regulation of various body processes among the major systems. This course precedes BIOM 526 Human Physiology Lab. (BIOM 525 and 526 are equivalent to BIOM 515).

Offered: Online

BIOM 526 Human Physiology Lab  1 Credit Hour

Prerequisites: BIOM 525

Human physiology is the study of the functions of the body and how it maintains homeostasis. This lab course practically examines systemic functions using human subjects and simulated case studies. It also allows students to independently develop and test hypotheses about homeostatic control mechanisms in health and disease. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive, endocrine systems and the effects of exercise, altitude and depth on these. (BIOM 525 and 526 are equivalent to BIOM 515).

Offered: Online

BIOM 516 Biomedical Ethics  3 Credit Hours

An in-depth ethical analysis and evaluation of present and emerging biomedical technologies in the 21st century. While not ignoring other ethical schools of thought, the focus of this course will be on the Hippocratic and Judeo-Christian traditions with their emphasis on the inherent dignity and worth of humanity as a whole, as well as the individual patient. This ethical foundation will serve as the primary framework for discussing medical decision making and practice.

BIOM 610 Human Neurology and Neuroanatomy  3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

This course will provide an introduction to the structural and functional features of the nervous system. Topics covered will include the gross anatomy of the brain and spinal cord, cellular and molecular neurobiology, sensory and motor systems, the major neurotransmitter systems, and brain regulation of behavior and body physiology.

BIOM 613 Human Gross Anatomy II  3 Credit Hours

Prerequisites: BIOM 513

A continuation of BIOM 513 with additional and more advanced dissections of human cadavers.

Offered: Resident

BIOM 615 Advanced Cell Biology  4 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524)

Advanced study on the structure, function and organization of the cell. Major topics include structure and function of cellular organelles, the cytoskeleton and extracellular matrix; cell signaling; membrane transport; protein targeting, vesicular transport, and cell division.

BIOM 620 Advanced Immunology  3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

A detailed study of the cells and molecules that result from an immune response to disease. The course will include antigen presentation, cytokine networks, vaccines and vaccine development, immunodeficiency diseases, tumor immunity, tolerance, autoimmunity and contemporary topics in immunology.

BIOM 623 Human Developmental Biology  3 Credit Hours

Prerequisites: BIOM 513 and BIOM 515

Advanced study of the major events of normal and abnormal human embryonic development. Major topics include gametogenesis, fertilization, axis formation, molecular pathways involved in tissue formation, and development of organ systems.

Offered: Resident
BIOM 625 Microbial Pathogenesis and Virology 3 Credit Hours

A comprehensive study of the viruses that cause human disease and the basic principles of microbial pathogenesis, including the molecular basis of infectious disease, how microbes establish infections, gain nutrients, cause damage to the host and disease, evade host defense mechanisms. The course will also include case studies.

BIOM 630 Principles of Pathology 3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

This course reviews basic pathology principles including: Inflammation, Infection, Repair, Thrombosis, Hemostasis, Hyperplasia, Hypertrophy, Neoplasia, and Apoptosis. In addition, the pathophysiology of disease applied to various organ systems is covered in depth. Correlations with appropriate laboratory results and physical findings will elucidate the basis for signs and symptoms of various common diseases. Both diagnostic features of diseases and critical thinking skills will be stressed.

BIOM 633 Advanced Histology 4 Credit Hours

Prerequisites: BIOM 513

This course provides a detailed orientation to the structure and organization of cells and tissues. Students will learn a variety of techniques involved in the preparation of histological slides (including use of the microtome, vibratome, and cryostat) and staining specimens. Students will assist undergraduate students in tissue preparation.

**Medical Sciences (M.A.) - Biopsychology**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Program Offered in Online Format

Master of Science in Biomedical Sciences (M.S.)

Purpose

The Master of Science in Biomedical Sciences is a 39-hour graduate-level program that serves primarily as a post-baccalaureate academic enhancement program to improve students' academic record and increase their chances for admission to medical school and other professional programs. The program has two delivery formats: a one-year residential format and a two-year residential format. The one-year program can be completed in 2 semesters (fall, spring) or 3 semesters (summer, fall, spring). Course are taught from a biblical worldview and the program includes a required course in biomedical ethics.

Program Learning Outcomes

The student will be able to:

1. Apply scientific knowledge to problem solving in the biomedical sciences.
2. Synthesize and interpret information from the biomedical science literature.
3. Defend ethical decisions in biomedicine based on biblical principles.

Program Specific Admission Procedures

In addition to the General Admission Procedures outlined in this Catalog, applicants to the Master of Science in Biomedical Sciences program must have:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.);
2. Official college transcript documenting the minimum GPA requirement and course prerequisites should be submitted. Minimum GPA for the one-year program is 2.75 and the minimum GPA for the two-year program is 2.75.

Prerequisite courses include:

- one year of general chemistry with lab
- one year of biology with lab
- one semester organic chemistry with residential lab (2 semesters recommended)
- one semester physics with residential lab (2 semesters recommended)
- At least four of the following courses:
  - one year of Anatomy/Physiology or one semester of Physiology or one semester of Anatomy
  - one semester of Genetics
  - one semester of Microbiology
  - one semester of Cell Biology
  - one semester of Biochemistry
  - one semester of Biostatistics is recommended but not required

3. Accept on caution (Residential)
   - For all new graduate applicants who apply to the 1-year Biomedical Sciences track and who do not meet the GPA, test score or prerequisite requirements, a cautionary acceptance can be considered on a case-by-case basis (by the department) for a student who has a GPA between 2.50-2.74. If accepted, these students will be required to successfully complete BIOM 500 Introduction to Biomedical Sciences (3 c.h.) and receive a minimum grade of B-.
   - For all new graduate applicants who apply to the 2-year Biomedical Sciences track and who do not meet the GPA, test score or prerequisite requirements, a cautionary acceptance can be considered on a case-by-case basis (by the department) for a student who has a GPA between 2.50-2.74. If accepted, these students will be required to successfully complete BIOM 500 Introduction to Biomedical Sciences (3 c.h.) as a prerequisite for BIOM 515 Human Physiology (5 c.h.).

4. Students must submit one of the following tests with a minimum score
   - MCAT - New scoring system (2015 and later): composite score of 490; Old scoring system (prior to 2015): score of 18 for the two-year program. MCAT - New scoring system (2015 and later): composite score of 493; Old scoring system (prior to 2015): score of 20 for the one-year program
   - GRE Verbal 140, Quantitative 145; or
   - DAT – 14.5 average
   - PCAT – 50th percentile or higher

5. Contact information for recommendations (Residential)
   - Applicants to the MS Biomedical Sciences program are required to submit contact information for three (3) recommendations - which may be academic, professional or personal.

6. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Acceptance to the one year M.S. in Biomedical Science track may be granted based on a recommendation from Liberty University’s College of Osteopathic Medicine.

Note: Students intending to apply for admission to Liberty University’s College of Osteopathic Medicine (LUCOM) will need to meet LUCOM’s admission standards.

Transfer Credit

Students may transfer up to 18 hours of graduate course work from an accredited institution. In order to be eligible for transfer, course work must have a minimum grade of B-, and must have been completed in the...
past 10 years. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
1. Satisfactory completion of 39 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level. (For this degree program, the maximum is 19 hours.)
3. 3.00 GPA
4. No grades of C or D (including +/- grades) may be applied to the degree.
5. Students may earn one grade of C+/C/C-, which must be repeated for a grade of B- or higher.
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within 5 years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Program of Study
Delivery Format: Residential Only

Career Opportunities
• College Professor
• Chemical Technician
• Environmental Biologist
• Forensic Biologist
• Medical Technologist

Courses
BIOM 500 Introduction to Biomedical Sciences 3 Credit Hours
This course employs the exploration of the molecular, genetic, biochemical and cellular basis of human oncogenesis, tumor metastasis, cancer detection and therapeutic advances as a comprehensive background for understanding and engaging the field of biomedicine. It provides a solid foundation in the basic biomedical principles that serve as the framework for advancing medical science including genetics, cellular anatomy, metabolism and cell signaling.
Offered: Online

BIOM 503 Human Genetics 3 Credit Hours
Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)
A study of the molecular causes of human disease with an emphasis on the specific gene perturbations that influence human health. Specific modes of genetic assault (e.g. mutations, epigenetic mechanisms, nutritional factors, and viral infections) will be discussed.

BIOM 513 Human Gross Anatomy 5 Credit Hours
This is an intensive course that covers all aspects of human anatomy through lectures, followed by practical application using cadavers. In addition, imaging techniques including CT scans and x-ray radiography are used to introduce the student to the physician’s perspective.
Offered: Resident

BIOM 515 Human Physiology 5 Credit Hours
A concentrated, comprehensive course that provides the student with a high level of understanding of the physiological basis of medicine. The essential concepts of mechanisms of body function are presented at various levels of organization, ranging from cellular and molecular to tissue and organ system levels. Emphasis is placed on understanding the integrated regulation of various body processes among the major systems.
Offered: Resident

BIOM 523 Human Gross Anatomy Lecture 4 Credit Hours
Prerequisites: BIOM 523
This is an intensive course that covers all aspects of human anatomy through lectures. Students will be shown how imaging techniques including CT scans and x-ray radiography are viewed from the physician’s perspective. This course precedes BIOM 524 Human Anatomy Cadaver Lab which includes the use of human cadavers. (BIOM 523 and 524 are equivalent to BIOM 513)
Offered: Online

BIOM 524 Human Anatomy Cadaver Lab 1-2 Credit Hours
Prerequisites: BIOM 523
A laboratory study of the structure and function of the human body using a regional approach with emphasis on the detailed osteology, musculature, vasculature, and innervation of each region along with an understanding of the interrelationship between organ systems. This course follows BIOM 523 Human Gross Anatomy Lecture. (BIOM 523 and 524 are equivalent to BIOM 513).
Offered: Online

BIOM 525 Human Physiology Lecture 4 Credit Hours
This is a concentrated, comprehensive course that provides the student with a high level of understanding of the physiological basis of medicine. The essential concepts of physiology and mechanisms of body function are presented at various levels of organization ranging from cellular and molecular to tissue and organ system levels. Emphasis is placed on understanding the integrated regulation of various body processes among the major systems. This course precedes BIOM 526 Human Physiology Lab. (BIOM 525 and 526 are equivalent to BIOM 515).
Offered: Online
BIOM 526 Human Physiology Lab 1 Credit Hour

**Prerequisites:** BIOM 525

Human physiology is the study of the functions of the body and how it maintains homeostasis. This lab course practically examines systemic functions using human subjects and simulated case studies. It also allows students to independently develop and test hypotheses about homeostatic control mechanisms in health and disease. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive, endocrine systems and the effects of exercise, altitude and depth on these. (BIOM 525 and 526 are equivalent to BIOM 515).

**Offered:** Online

BIOM 600 Biomedical Ethics 3 Credit Hours

An in-depth ethical analysis and evaluation of present and emerging biomedical technologies in the 21st century. While not ignoring other ethical schools of thought, the focus of this course will be on the Hippocratic and Judeo-Christian traditions with their emphasis on the inherent dignity and worth of humanity as a whole, as well as the individual patient. This ethical foundation will serve as the primary framework for discussing medical decision making and practice.

BIOM 610 Human Neurology and Neuroanatomy 3 Credit Hours

**Prerequisites:** (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

This course will provide an introduction to the structural and functional features of the nervous system. Topics covered will include the gross anatomy of the brain and spinal cord, cellular and molecular neurobiology, sensory and motor systems, the major neurotransmitter systems, and brain regulation of behavior and body physiology.

BIOM 613 Human Gross Anatomy II 3 Credit Hours

**Prerequisites:** BIOM 513

A continuation of BIOM 513 with additional and more advanced dissections of human cadavers.

**Offered:** Resident

BIOM 615 Advanced Cell Biology 4 Credit Hours

**Prerequisites:** (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524)

Advanced study on the structure, function and organization of the cell. Major topics include structure and function of cellular organelles, the cytoskeleton and extracellular matrix; cell signaling; membrane transport; protein targeting, vesicular transport, and cell division.

BIOM 620 Advanced Immunology 3 Credit Hours

**Prerequisites:** (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

A detailed study of the cells and molecules that result from an immune response to disease. The course will include antigen presentation, cytokine networks, vaccines and vaccine development, immunodeficiency diseases, tumor immunity, tolerance, autoimmunity and contemporary topics in immunology.

BIOM 623 Human Developmental Biology 3 Credit Hours

**Prerequisites:** BIOM 513 and BIOM 515

Advanced study of the major events of normal and abnormal human embryonic development. Major topics include gametogenesis, fertilization, axis formation, molecular pathways involved in tissue formation, and development of organ systems.

**Offered:** Resident

BIOM 625 Microbial Pathogenesis and Virology 3 Credit Hours

A comprehensive study of the viruses that cause human disease and the basic principles of microbial pathogenesis, including the molecular basis of infectious disease, how microbes establish infections, gain nutrients, cause damage to the host and disease, evade host defense mechanisms. The course will also include case studies.

BIOM 630 Principles of Pathology 3 Credit Hours

**Prerequisites:** (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

This course reviews basic pathology principles including: Inflammation, Infection, Repair, Thrombosis, Hemostasis, Hyperplasia, Hypertrophy, Neoplasia, and Apoptosis. In addition, the pathophysiology of disease applied to various organ systems is covered in depth. Correlations with appropriate laboratory results and physical findings will elucidate the basis for signs and symptoms of various common diseases. Both diagnostic features of diseases and critical thinking skills will be stressed.

BIOM 633 Advanced Histology 4 Credit Hours

**Prerequisites:** BIOM 513

This course provides a detailed orientation to the structure and organization of cells and tissues. Students will learn a variety of techniques involved in the preparation of histological slides (including use of the microtome, vibratome, and cryostat) and staining specimens. Students will assist undergraduate students in tissue preparation.

**Offered:** Resident

**Biomedical Sciences (M.S.)**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

4. Offered in Online format only
5. Course offered as intensive

All applicable prerequisites must be met

Graduation Requirements

- Complete 39 hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No grades lower than B- may be applied to the degree
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

Program Offered in Resident Format

Department of Public & Community Health

Oswald Attin, B.S., M.S.H.S., Ph.D.
Chair, Department of Public & Community Health
Professor of Public & Community Health

Brendan C. Haynie, M.A., Ph.D.
Online Chair, Department of Public & Community Health
Associate Professor of Public & Community Health

Purpose

The Department of Public and Community Health provides an integrated approach to health, offering competency-based and practice-focused preparation for successful careers in public health and healthcare. Through a Christian worldview, students will learn to strategically address the health needs of priority populations from the individual to the global level using a variety of health promotion and education strategies.

The department comprises both undergraduate and graduate degree programs applicable to a variety of practice settings and situations, as well as further education in clinical and professional fields. Students completing the program and meeting the prerequisites will be eligible for professional certification through the National Commission for Health Education Credentialing (CHES).

Programs

- Master of Public Health (M.P.H.) (p. 599)

Courses

HLTH 500 Introduction to Public Health 3 Credit Hours

This course will provide a broad overview of the practice of public health. It is intended for those with a limited exposure to the field or in the need of a refresher of analytical and critical thinking skills prior to beginning a graduate level course of study. The course will specifically address basic algebraic and probability concepts, review the use of peer-reviewed literature, introduce students to literature citation using the AMA style, and provide a framework to approach public health practice.

HLTH 501 Biostatistics 3 Credit Hours

The course prepares the student in the development and application of statistical reasoning and methods in addressing, analyzing and solving problems in public health; healthcare; and biomedical, clinical and population-based research.

HLTH 503 Principles of Epidemiology 3 Credit Hours

This course is a study of human population patterns of disease and injury and the application of this study to the control of health problems.

HLTH 505 Principles of Environmental Health 3 Credit Hours

The course is a study of environmental factors including biological, physical and chemical factors that affect the health of a community.

HLTH 507 Public Health Administration 3 Credit Hours

The course is a study of health policy and management concerns regarding the delivery, quality and cost of healthcare for individuals and populations. It reviews the structure, process and outcomes of health services including costs, financing, organization and accessibility to care.

HLTH 509 Social and Behavioral Theory Applications in Public Health 3 Credit Hours

The course is a study of the behavioral, social and cultural factors related to population health disparities. The student will learn that research in this area contributes to the development and evaluation of public health policies, programs and services that promote and sustain health populations.

HLTH 630 Principles of Community Health  3 Credit Hours
This course provides an overview of public health issues as they relate to community health promotion and disease prevention. Theories and models relevant to community health programming as well as the connections between local, state, and national public health initiatives are presented. Emphasis is placed on acquisition of pertinent public health data to enable practical, applied, community-wide planning and cooperation among varied stakeholders.

HLTH 632 Health Program Planning  3 Credit Hours
This course provides students with an overview of program planning, including methods for assessment, planning models and theories, and intervention strategies. Course content will focus on program planning in community settings.

Prerequisites: HLTH 632

HLTH 633 Health Program Evaluation  3 Credit Hours
This course provides an introduction to quantitative, qualitative, and ethnographic methods of evaluation for health education programming. A variety of health education evaluation topics are included. Students will be introduced to both formative and summative evaluation as well as principles of measurement.

Prerequisites: HLTH 632

HLTH 634 Health Communication and Advocacy  3 Credit Hours
This course examines the principles and practices of effective interpersonal, organizational, and community-based communication to shape attitudes and actions about health and healthcare. Students will explore the use of counseling, public campaigns, social media, and political processes to advocate for health among diverse populations.

Prerequisites: HLTH 632

HLTH 635 Health Agency Management  3 Credit Hours
This course prepares students for employment as Executive Directors, Program Directors and/or House Managers of 501(c) (3) organizations. Topics include but are not limited to fund-raising, staffing, liability, budgeting, human rights issues, service coordination, and emergency preparedness.

Prerequisites: HLTH 634

HLTH 636 Contemporary School Health Issues  3 Credit Hours
This course focuses on classroom and school-related public health issues confronting public and private schools in the 21st century. Solutions will be explored from the Christian worldview using 'salt & light' strategies in the spirit of 1 Peter 3:15.

Prerequisites: HLTH 634

HLTH 637 Perspectives on Healthy Aging  3 Credit Hours
This course presents an analysis of contemporary issues that contribute to health risk factors for aging populations. Students will learn methods and strategies leading to health promotion and disease prevention for the elderly. Spiritual health and cultural issues are also addressed as they relate to aging, death, and dying.

HLTH 640 Principles of Nutrition  3 Credit Hours
This course reviews the basic principles of nutrition, the metabolism of proteins, fats, macro and micro nutrients and the role food choices play in health promotion and disease prevention.

HLTH 642 Food-borne Illness Prevention  3 Credit Hours
This course examines current research and governmental initiatives regarding food safety as well as 'best practices' for food handling in foodservice systems.

HLTH 643 Nutrition and Chronic Disease  3 Credit Hours
Prerequisites: HLTH 640
This course reviews current research on the relationship of genetics, chronic disease and the role of medical nutritional therapy. The class also explores nutrition and the aging process with an emphasis on the interactions of physiological stages and lifestyle choices.

HLTH 644 Diabetes, Obesity and Eating Disorders  3 Credit Hours
Prerequisites: HLTH 640
This course examines the societal, family and psychological influences on eating behaviors, their contribution to the development of Type 2 Diabetes, Anorexia and Bulimia and a review of treatment options.

HLTH 645 Performance Nutrition for the Physically Active  3 Credit Hours
Prerequisites: HLTH 640 or EXSC 510
This course focuses on the role of nutrients and prescriptive diets in rehabilitation services, fitness and sport performance.

HLTH 650 Field Epidemiology  3 Credit Hours
Prerequisites: HLTH 501 and HLTH 503 and HLTH 511
This course presents an overview of the methods used in conducting epidemiologic field investigations, including the collection, analysis, interpretation and reporting of primary source epidemiologic data. Students will learn principles of disease outbreak investigation.

Offered: Resident

HLTH 651 Epidemiologic Research Methods  3 Credit Hours
Prerequisites: HLTH 501 and HLTH 503 and HLTH 511
This course provides advanced knowledge and skills for epidemiologic and public health research investigations. Students will focus on research methods specific to the field of epidemiology, including procedures for protecting human subjects, recruiting, and research question formulation, data collection, and analysis.

Offered: Resident

HLTH 695 Directed Research  1-3 Credit Hours
Master of Public Health (M.P.H.)

Purpose

The Master of Public Health (M.P.H.) program is for individuals wishing to impact the world for Christ through the ministry of health. The degree can enhance the professional preparedness of a recent college graduate or the seasoned professional. Physicians, nurses, health educators, lawyers and social workers are among the many professionals who have benefited by augmenting their knowledge and skill base with an M.P.H. degree.

Program Learning Outcomes

The student will be able to:

1. Determine population health status, needs, and resources using appropriate assessment and analytical methods.
2. Develop, implement, and evaluate effective public health programs and policies to address identified population determinants of health.
3. Demonstrate effective written, oral, and electronic methods of communicating health information and advocating for health with diverse audiences.
4. Develop public health interventions that address disparities and inequalities in health access and health status in the context of culture, race, gender, and economics.
5. Engage community constituencies in collaborative relationships to develop and employ community capacity for health.
6. Describe the scientific basis for public health problems and apply public health solutions to address them.
7. Describe public health philosophy and organization, including infrastructure, funding, delivery, and fiscal and workforce management in the U.S. and globally.
8. Apply principles of public health leadership, including systems thinking, group process, social justice, and ethics.
9. Describe health from the perspective of God’s purposes for humanity in creation, fall, and redemption.

Epidemiology Concentration

The student will be able to identify data needs and evaluate analytic methods for calculating standard epidemiological measures.

Global Health Concentration

The student will be able to apply public health strategies in cross-cultural settings.

Health Promotion Concentration

The student will be able to apply Health Education best practices to public health.

Nutrition Concentration

The student will be able to apply best practices in human nutrition for diverse populations.

Course Requirements

The Master of Public Health is a 42-credit-hour program that offers four concentrations: Epidemiology, Global Health, Health Promotion, and Nutrition. Students complete 18 core hours in five disciplines: biostatistics, epidemiology, environmental health sciences, health policy and management, and social and behavioral sciences. These classes are combined with 24 credit hours in one of four concentrations: Epidemiology, Nutrition, Health Promotion, or Global Health.

Program Specific Admission Procedures

In addition to the general admission requirements, admission to the Master of Public Health program requires:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. An undergraduate cumulative GPA of 2.5 or above (on a 4.00 scale)
3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer Credit

Students may transfer up to 21 graduate credit hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-. and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.
Graduation Requirements

1. Satisfactory completion of 42 total hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Students must complete all courses with a 3.00 or higher cumulative grade point average.
4. No more than two grades of “C” may be applied to the degree (includes grades of C+ & C-).
5. No grades of “D” may be applied to the degree (includes grades of D+ & D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within five years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study

Delivery Format: Residential Only
- Public Health (M.P.H.) - Epidemiology (p. 603)

Delivery Format: Residential and Online
- Public Health (M.P.H.) - Global Health (p. 603)
- Public Health (M.P.H.) - Health Promotion (p. 604)
- Public Health (M.P.H.) - Nutrition (p. 604)

Career Opportunities
- Chronic Disease Epidemiologist
- Clinical Drug Trial Researcher
- Community Health Assessment Coordinator
- Disaster Preparedness Specialist
- Environmental Health Officer
- Food-Borne Outbreak Investigator
- Health Educator
- Health System Analyst
- Hospital Epidemiologist
- Immunization Program Manager
- Infection Control Epidemiologist
- International Health Worker
- Missionary
- Rabies/Infectious Disease Control Officer
- Research Epidemiologist
- School Nutrition and Food Services Specialist

Courses

HLTH 500 Introduction to Public Health 3 Credit Hours
This course will provide a broad overview of the practice of public health. It is intended for those with a limited exposure to the field or in the need of a refresher of analytical and critical thinking skills prior to beginning a graduate level course of study. The course will specifically address basic algebraic and probability concepts, review the use of peer-reviewed literature, introduce students to literature citation using the AMA style, and provide a framework to approach public health practice.

HLTH 501 Biostatistics 3 Credit Hours
The course prepares the student in the development and application of statistical reasoning and methods in addressing, analyzing and solving problems in public health; healthcare; and biomedical, clinical and population-based research.

HLTH 503 Principles of Epidemiology 3 Credit Hours
This course is a study of human population patterns of disease and injury and the application of this study to the control of health problems.

HLTH 505 Principles of Environmental Health 3 Credit Hours
The course is a study of environmental factors including biological, physical and chemical factors that affect the health of a community.

HLTH 507 Public Health Administration 3 Credit Hours
The course is a study of health policy and management concerns regarding the delivery, quality and cost of healthcare for individuals and populations. It reviews the structure, process and outcomes of health services including costs, financing, organization and accessibility to care.

HLTH 509 Social and Behavioral Theory Applications in Public Health 3 Credit Hours
The course is a study of the behavioral, social and cultural factors related to population health disparities. The student will learn that research in this area contributes to the development and evaluation of public health policies, programs and services that promote and sustain health populations.

HLTH 511 Research Methods in Public Health 3 Credit Hours
Prerequisites: HLTH 501
This course prepares students to critically evaluate research protocols in public health. Students must be prepared to design practical research methodologies to evaluate contributing factors of contemporary health issues with measurable goals and objectives.

HLTH 550 Addictive Behaviors and Interventions 3 Credit Hours
This course explores the dynamics of chemical and non-chemical dependency including the psychological, physiological, and spiritual bases of addiction. Intervention modalities will be discussed for various forms of addictions.
HLTH 551 Issues in Public and Community Health 3 Credit Hours
This course reviews the Christian worldview and healthcare choices in the 21st century. Topics may include but are not limited to: genetic testing, eugenics, reproductive control, treating or terminating impaired infants, organ transplantation and euthanasia.

HLTH 552 Chronic Disease Prevention and Management 3 Credit Hours
This course is focused on the leading chronic disease indicators of morbidity and mortality in the United States, including cardiovascular disease, cancer, stroke, diabetes, and chronic obstructive pulmonary disease. Students will study prevention strategies using the ecological framework to examine individual, social, organizational, community, and population levels of prevention. Public health measures to reduce chronic disease will be emphasized.

HLTH 553 Grant Acquisition and Management 3 Credit Hours
This course acquaints students with the ‘soft’ money world of private and public grants, promotes the development of grant writing skills and identifies the practical issues of managing a grant once acquired.

HLTH 554 Medical Terminology en Espanol 3 Credit Hours
This course provides students with medical and health related vocabulary and terminology necessary to communicate with Spanish speakers with limited English proficiency.

HLTH 555 Politics and Health Policy 3 Credit Hours
This course examines the framework and concepts used in public health policy. Processes of formulation, implementation and change will be discussed. Evidence-based decision making will be discussed. The role of politics in relation to health policy will be highlighted.

HLTH 556 Primary Healthcare in Developing Countries 3 Credit Hours
This course provides an overview of public health issues as they relate to health care in developing nations. Students will learn about both primary and secondary level prevention strategies. The course will focus on the various roles of the medical team in practice, including emergency care, communicable disease protection. The course will examine vaccine development.

HLTH 557 Grant Acquisition and Management 3 Credit Hours
This course acquaints students with the ‘soft’ money world of private and public grants, promotes the development of grant writing skills and identifies the practical issues of managing a grant once acquired.

HLTH 558 Medical Terminology en Espanol 3 Credit Hours
This course provides students with medical and health related vocabulary and terminology necessary to communicate with Spanish speakers with limited English proficiency.

HLTH 559 Politics and Health Policy 3 Credit Hours
This course examines the framework and concepts used in public health policy. Processes of formulation, implementation and change will be discussed. Evidence-based decision making will be discussed. The role of politics in relation to health policy will be highlighted.

HLTH 560 MPH Competency Exam 0 Credit Hours
Prerequisites: HLTH 501 and HLTH 503 and HLTH 505 and HLTH 507 and HLTH 509 and HLTH 511 (may be taken concurrently)

The purpose of the Competency Exam is to assess students' substantive and integrative knowledge of the field of Public Health. The exam draws from students' previous studies thereby eliciting the broad and comprehensive knowledge and understanding required in transitioning to practical experiences. The exam is meant to be a bridge between the concepts, theories, and skills presented in program coursework and critical analysis demanded in the field for a successful practicum experience. A department policy for the exam requires departmental review and approval of a faculty panel beyond the single term of enrollment.

Registration Restrictions: HLTH 600 will need to be taken in a single term.

Offered: Resident and Online

HLTH 601 Principles of Community Health 3 Credit Hours
This course provides an overview of public health issues as they relate to community health promotion and disease prevention. Theories and models relevant to community health programming as well as the connections between local, state, and national public health initiatives are presented. Emphasis is placed on acquisition of pertinent public health data to enable practical, applied, community-wide planning and cooperation among varied stakeholders.

HLTH 602 Health Program Planning 3 Credit Hours
This course provides students with an overview of program planning, including methods for assessment, planning models and theories, and intervention strategies. Course content will focus on program planning in community settings.

HLTH 603 Introduction to Global Health 3 Credit Hours
This course introduces the student to global health priorities and the roles of institutional players in resolving the issues. Multiple determinants of health such as economic, environmental, biological and cultural are addressed with an emphasis on the health needs of lesser economically developed nations.

Offered: Resident

HLTH 604 Primary Healthcare in Developing Countries 3 Credit Hours
This course addresses the delivery of essential healthcare to individuals, families and communities in lesser economically developed countries. Emphasis is on the utilization of community healthcare worker schemes and appropriate technology.

HLTH 605 Cultural Aspects of Health Behavior 3 Credit Hours
This course examines cultural perspectives on beliefs and health risk perception in relationship to health behavior. The cultural aspects of healthcare use through ‘healers’ and health systems are also examined.

Offered: Resident

HLTH 606 Sanitation in Developing Countries 3 Credit Hours
This course examines environmental hygiene and health problems related to water supply and sanitation. Low cost methods as well as appropriate technology applied to sanitation are discussed.

HLTH 607 Prevention and Control of Infectious Diseases 3 Credit Hours
This course provides the student with the knowledge base necessary to understand the mechanisms of infectious disease transmission, to select specific preventive methodologies in the control of particular diseases and to communicate the rationale for the various control methods.

HLTH 608 Vaccines and Immunology 3 Credit Hours
Prerequisites: HLTH 625

This course provides an overview of the immune system. The course will cover immune mechanisms believed to be related to vaccine induced disease protection. The course will examine vaccine development.

HLTH 609 Principles of Community Health 3 Credit Hours
This course provides an overview of public health issues as they relate to community health promotion and disease prevention. Theories and models relevant to community health programming as well as the connections between local, state, and national public health initiatives are presented. Emphasis is placed on acquisition of pertinent public health data to enable practical, applied, community-wide planning and cooperation among varied stakeholders.

HLTH 610 Health Program Planning 3 Credit Hours
This course provides students with an overview of program planning, including methods for assessment, planning models and theories, and intervention strategies. Course content will focus on program planning in community settings.
HLTH 633 Health Program Evaluation 3 Credit Hours

Prerequisites: HLTH 632

This course provides an introduction to quantitative, qualitative, and ethnographic methods of evaluation for health education programming. A variety of health education evaluation topics are included. Students will be introduced to both formative and summative evaluation as well as principles of measurement.

HLTH 634 Health Communication and Advocacy 3 Credit Hours

Prerequisites: HLTH 509

This course examines the principles and practices of effective interpersonal, organizational, and community-based communication to shape attitudes and actions about health and healthcare. Students will explore the use of counseling, public campaigns, social media, and political processes to advocate for health among diverse populations.

HLTH 635 Health Agency Management 3 Credit Hours

This course prepares students for employment as Executive Directors, Program Directors and/or House Managers of 501(c) (3) organizations. Topics include but are not limited to fund-raising, staffing, liability, budgeting, human rights issues, service coordination, and emergency preparedness.

HLTH 636 Contemporary School Health Issues 3 Credit Hours

Prerequisites: HLTH 634

This course focuses on classroom and school-related public health issues confronting public and private schools in the 21st century. Solutions will be explored from the Christian worldview using 'salt & light' strategies in the spirit of 1 Peter 3:15.

HLTH 637 Perspectives on Healthy Aging 3 Credit Hours

This course presents an analysis of contemporary issues that contribute to health risk factors for aging populations. Students will learn methods and strategies leading to health promotion and disease prevention for the elderly. Spiritual health and cultural issues are also addressed as they relate to aging, death, and dying.

HLTH 640 Principles of Nutrition 3 Credit Hours

This course reviews the basic principles of nutrition, the metabolism of proteins, fats, macro and micro nutrients and the role food choices play in health promotion and disease prevention.

HLTH 642 Food-borne Illness Prevention 3 Credit Hours

This course examines current research and governmental initiatives regarding food safety as well as 'best practices' for food handling in foodservice systems.

HLTH 643 Nutrition and Chronic Disease 3 Credit Hours

Prerequisites: HLTH 640

This course reviews current research on the relationship of genetics, chronic disease and the role of medical nutritional therapy. The class also explores nutrition and the aging process with an emphasis on the interactions of physiological stages and lifestyle choices.

HLTH 644 Diabetes, Obesity and Eating Disorders 3 Credit Hours

Prerequisites: HLTH 640

This course examines the societal, family and psychological influences on eating behaviors, their contribution to the development of Type 2 Diabetes, Anorexia and Bulimia and a review of treatment options.

HLTH 645 Performance Nutrition for the Physically Active 3 Credit Hours

Prerequisites: HLTH 640 or EXSC 510

This course focuses on the role of nutrients and prescriptive diets in rehabilitation services, fitness and sport performance.

HLTH 650 Field Epidemiology 3 Credit Hours

Prerequisites: HLTH 501 and HLTH 503 and (HLTH 511

This course presents an overview of the methods used in conducting epidemiologic field investigations, including the collection, analysis, interpretation and reporting of primary source epidemiologic data. Students will learn principles of disease outbreak investigation.

Offered: Resident

HLTH 651 Epidemiologic Research Methods 3 Credit Hours

Prerequisites: HLTH 501 and HLTH 503 and HLTH 511

This course provides advanced knowledge and skills for epidemiologic and public health research investigations. Students will focus on research methods specific to the field of epidemiology, including procedures for protecting human subjects, recruiting, and research question formulation, data collection, and analysis.

Offered: Resident

HLTH 695 Directed Research 1-3 Credit Hours

HLTH 698 Practicum 3 Credit Hours

Prerequisites: (HLTH 501 and HLTH 503 and HLTH 505 and HLTH 507 and HLTH 509 and HLTH 511 and HLTH 552 and HLTH 625 and HLTH 642 and HLTH 650 and HLTH 651) or (HLTH 501 and HLTH 503 and HLTH 505 and HLTH 507 and HLTH 509 and HLTH 511 and HLTH 620 and HLTH 622 and HLTH 623 and HLTH 624 and HLTH 625) or (HLTH 501 and HLTH 503 and HLTH 505 and HLTH 507 and HLTH 509 and HLTH 511 and HLTH 630 and HLTH 632 and HLTH 633 and HLTH 634 and HLTH 635) or (HLTH 501 and HLTH 503 and HLTH 505 and HLTH 507 and HLTH 509 and HLTH 511 and HLTH 640 and HLTH 642 and HLTH 643 and HLTH 644 and HLTH 645)

In this experience the student applies knowledge and skills related to public health in a supervised setting.
Public Health (M.P.H.) - Epidemiology

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

All applicable prerequisites must be met

Graduation Requirements

• Complete 42 hours
• A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
• 3.0 GPA
• No more than two grades of C may be applied to the degree (includes grades of C+ & C-)  
• No grade of D or below may be applied to the degree (includes grades of D+ & D-)  
• Degree must be completed within 5 years  
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Resident & Online Format
Graduate Certificates

Three certificates in Health Science corresponding to the current concentration areas in the Master of Public Health degree are available to students wanting to broaden their understanding of an additional concentration area or explore a particular concentration area without obtaining an MPH degree.

Admission Requirements

Please refer to the Admissions Requirements Matrix for Certificates in the Graduate Admissions section of this Catalog.

Certificate Completion Requirements

1. 15 total credit hours corresponding to the concentration areas on the Master of Public Health degree completion plans.
2. All courses must be completed through Liberty University
3. 2.00 GPA
4. No grade of D (includes grades of D+ & D-) may be applied to the certificate.
5. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
6. Certificate must be completed within 3 years.
7. Submission of Certificate Completion Application must be completed within the last semester of a student's anticipated graduation date.

Note: Students who want to apply certificate courses to a graduate degree program will have to abide by the GPA and grade requirements of that degree program.

Programs of Study

Global Health - Graduate Certificate

Important: This certificate plan is effective for those starting in the fall 2019 through summer 2020. This certificate plan will remain in effect for students who do not break enrollment or who do not change certificates.

#### Program Directors

A listing of program directors can be viewed at [http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389](http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389).

### Purpose

Liberty University School of Law exists to equip future leaders in law with a superior legal education in fidelity to the Christian faith expressed through the Holy Scriptures.

- **Equip future leaders in law.** Inspiring students and preparing them to excel and lead in their profession.

### Distinctives

#### An emphasis on mastery of foundational legal subjects and skills.

The objective of the School of Law is to equip and prepare students for success as legal professionals. Thus, there is an expectation by administration and faculty that students devote themselves with particular diligence to the subjects and skills identified as critical to professional excellence.

#### An emphasis on a rigorous and well-rounded intellectual life.

Students are challenged intellectually at Liberty, not only with the technical aspects of law, but with a comprehensive and interdisciplinary approach to education and knowledge rooted in the Christian intellectual tradition. We firmly believe an educated lawyer should be thoroughly acquainted with the great thinkers and shapers of Western civilization and the Western legal tradition. Liberty University School of Law trains students to think analytically, a skill that can be developed properly only through an interdisciplinary approach to analyzing ideas.

#### An emphasis on understanding the significance of constitutional government with a special emphasis on the history and meaning of the United States Constitution and other foundational organic documents.

#### An emphasis on clear and persuasive writing.

Liberty University School of Law requires six lawyering skills courses. Liberty graduates must excel in writing—one of the lawyer’s most powerful skills.

#### An emphasis on influential oral advocacy skills.

A lawyer must be able to communicate effectively using the spoken word whether or not a litigation practice is an ultimate goal. Leaders in the legal profession know how to convincingly communicate with an audience. At Liberty, students focus on advocacy in many contexts and take part in demanding lawyering skills courses designed to develop oral communication skills.

#### An emphasis on teaching/mentoring.

Liberty is a teaching law school. Members of the faculty are expected to display the highest degree of professional proficiency and scholarly research while prioritizing the teaching/mentoring role. Proficiency in teaching students is the Liberty law professor’s first priority.

### Accreditation

Liberty University School of Law is approved by the Council of the Section of Legal Education and Admissions to the Bar of the American Bar Association;

321 North Clark Street
Chicago, IL
60654-7598
(312) 988.6738

The American Bar Association (ABA) approval process is a thorough and careful process intended to ensure that law schools awarded approval meet all of the requirements set by the ABA to ensure a quality legal education.

- **With a superior legal education.** Constructing and implementing an education characterized by excellence.
- **In fidelity to the Christian faith.** Adhering to the perspective that shaped the Western legal tradition.
- **Expressed through the Holy Scriptures.** Pursuing truth in a context of free thought and expression informed by a standard.
Liberty University School of Law opened in August 2004 and completed the required full academic year to be eligible to apply for provisional approval by the ABA. On February 13, 2006, provisional approval was awarded. In March 2009, following the required two-year provisional approval time frame, Liberty applied for full approval. On August 5, 2010, Liberty University School of Law was approved by the ABA.

Liberty University School of Law is one of 205 ABA approved law schools in the United States.

Curriculum Goals

The overarching goal of the faculty in designing and adopting the curriculum is to further the Mission of the School of Law, that is to "equip future leaders in law with a superior legal education in fidelity to the Christian faith expressed through the Holy Scriptures."

The particular goals of the faculty in designing and adopting the curriculum are to:

1. Reflect the fundamental values upon which our legal system is based:
   a. that there is a corpus juris, a body of law, in which courses are related to one another as a logically consistent, comprehensive whole;
   b. that a government of laws is possible only where law reflects the truths that God has revealed to man and to which man is accountable; and
   c. that the preservation of the rule of law requires skillful and committed legal practitioners who are much more than mere technicians.

2. Require courses that develop the body of knowledge, set of skills and professional values in which every lawyer must be grounded.

3. Offer a range of electives that allows students to gain an introduction to various areas of law or to develop particular areas of competence.

4. Prepare leaders for success in the two main phases of their professional lives, the study and practice of law.

5. Prepare students to pass bar examinations in the states of their choice.

Dual Degree Programs

Purpose
Liberty University School of Law exists to equip future leaders in law with a superior legal education in fidelity to the Christian faith expressed through the Holy Scriptures. The dual degree programs with Liberty University prepare students for desired specializations that are natural corollaries to the study of law. This enhances the law graduate's ability to integrate their gifts, skills and interests into an expanding world.

Dual Degree Programs

The following Liberty University degree programs are available for dual enrollment to qualified applicants who are students pursuing the J.D. program at Liberty University School of Law or alumni of the Liberty University School of Law. The master's level programs will recognize, under certain circumstances, advanced standing or will accept select law school courses to meet certain academic requirements. See the section below on Admission Requirements for more information.

College of Arts & Sciences

Department of History
- Master of Arts in History (M.A.)

School of Behavioral Sciences

Department of Counselor Education & Family Studies
- Master of Arts in Human Services Counseling (M.A.) - Children, Families & the Law Cognate

Alton W. & Lois H. Overton Graduate School of Business
- Master of Business Administration (M.B.A.) - 36-hour

Tuomala, Jeffrey; B.S.E., M.L., J.D.
Title: Professor of Law
B.S.E. - Ohio State University, M.L. - George Washington University, J.D. - Capital University

Dual Degree Programs

College of Arts & Sciences

Department of History
- Master of Arts in History (M.A.)

School of Behavioral Sciences

Department of Counselor Education & Family Studies
- Master of Arts in Human Services Counseling (M.A.) - Children, Families & the Law Cognate

Alton W. & Lois H. Overton Graduate School of Business
- Master of Business Administration (M.B.A.) - 36-hour
School of Divinity
• Master of Arts in Religion (M.A.R.) - Law Studies Cognate

• Master of Arts in Public Policy (M.A.P.P.) - Policy Studies Cognate
• Master of Arts in Public Policy (M.A.P.P.) - Public Administration Cognate

School of Law Degree Sequencing
To pursue non-law courses in the dual degree programs during fall and spring semesters requires approval of the School of Law's Registrar and the Associate Dean for Academic Affairs.

A Liberty Law student is able to pursue the non-law courses in a dual degree during Liberty University's winter sessions and summer sessions. First-year law students are not permitted to take non-JD courses. It is the purview of the administration to limit a dual-degree participant's academic load while actively pursuing a J.D. if the current course load hinders the participant's course of study in the J.D. For further questions about the sequencing of a dual degree program see the School of Law's Registrar and the Associate Dean for Academic Affairs.

Admissions Requirements
The dual degree programs are available for enrollment to students pursuing the J.D. program in the Liberty University School of Law or alumni of the Liberty University School of Law. The applicant must apply to and be accepted by the appropriate Liberty University Graduate School entity having met all that school's admission requirements for the non-JD degree. As each department will have a distinct set of admission requirements, consult the School of Law's Registrar for details on specific criteria. The applicant makes application for a particular dual degree through the School of Law's Registrar.

Program Costs
Current Liberty University School of Law students pay a flat fee for fall and spring semester classes. This currently includes non-JD courses taken in one of the dual degree programs up to an 18-hour cap. Taking non-JD courses during a fall and/or spring semester requires approval from the School of Law's Registrar and the Associate Dean for Academic Affairs.

Students enrolled in non-JD courses during the winter and/or summer terms will pay the tuition rate for the non-JD dual degree program as published in the Expenses and Financial Policy section of this Catalog.

Courses taken during the winter and/or summer terms are not covered by the School of Law tuition rate.

Programs of Study

Delivery Format: Online Only
• Curriculum & Instruction (M.Ed.) - Educational Law (Non-Licensure) (p. 609)
• Education (Ed.D.) - Educational Law (p. 610)
• Education Specialist (Ed.S.) - Educational Law (p. 610)
• Human Services Counseling (M.A.) - Children, Families & the Law (p. 610)
• Public Policy (M.A.P.P.) - Campaigns & Elections (p. 227)
• Public Policy (M.A.P.P.) - International Affairs (p. 228)
• Public Policy (M.A.P.P.) - Leadership (p. 229)

• Business Administration (M.B.A.) - 36-hour (p. 127)
• History (M.A.) (p. 197)
• Public Policy (M.A.P.P.) (p. 226)

Additional Information
For more information on program requirements, program learning outcomes, and course descriptions, please see the respective sections of this Catalog for the College of Arts and Sciences, School of Behavioral Sciences, Alton W. and Lois H. Overton Graduate School of Business, School of Divinity, School of Education, or Helms School of Government.

Curriculum & Instruction (M.Ed.) - Educational Law (Non-Licensure)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state-approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete one of our state-approved programs. Refer to www.liberty.edu/advisingguide

Program Offered in Online Format

Juris Doctor (J.D.)

Program Learning Outcomes

The student will be able to:

1. Demonstrate mastery of foundational legal subjects.
2. Demonstrate proficiency in written skills required for legal practice.
3. Demonstrate proficiency in oral advocacy and communication skills required for legal practice.
4. Critically analyze and resolve legal issues.
5. Demonstrate an understanding of the significance of constitutional government, including the U.S. Constitution and other foundational organic documents.
6. Demonstrate professional behavior grounded in the biblical worldview in accordance with accepted legal standards.
7. Critically analyze legal issues from a distinctively Christian worldview.

Specific Admission Requirements

Admission to the Juris Doctor program at Liberty University School of Law is explained under separate cover in the law school's roadbook, which can be requested through law@liberty.edu and is also located online at http://law.liberty.edu.

Graduation Requirements

The faculty may change the requirements for receipt of the Juris Doctor (J.D.) degree, as well as the courses offered, at any time. A student will be subject to the credit hours of course work requirement in force at the time of the student’s enrollment or re-enrollment.

The law school confers the J.D. degree upon its graduates. The J.D. degree has not been conferred on a student until the law school has issued a final transcript marked “Degree Awarded.” Students shall graduate upon satisfying the following requirements, which are not subject to variance or waiver unless otherwise provided in the Academic Policies and Procedures:

1. The successful completion of 90 credit hours of course work, which shall include successful completion of all required courses and satisfaction of the Rigorous Writing Requirements;
2. The maintenance of a cumulative grade point average of at least 2.00; and
3. The completion of six semesters in residence (or equivalent) as a full-time student. For purposes of the Policies and Procedures, “semester” excludes both summer and interterm sessions.
4. The maximum period of time for a full-time law student to complete the requirements for the J.D. degree shall be 84 months.

5. Of the 90 credits required for graduation, no more than 12 credits may be acquired through independent studies, clinics, externships, and co-curricular activities.

6. There shall be no unresolved report of violation of the Academic Honor Code or Personal Code of Honor, no pending conduct review committee proceedings, and no unremedied violation of the Academic Honor Code or Personal Code of Honor.

7. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

LAW 740 Israel Int Law & Policy  1 Credit Hour

LAW 740 - Israel and Middle Eastern International Law and Policy (1 hour)
This course will cover a wide range of topics including the historical and biblical history of Israel leading up to the British Mandate (1920-1948), the Zionist Movement, and the Declaration of Independence in 1948. Students will learn about the foundation of Israel and the history of the United Nations in relationship to Israel, including the history of the land and the 1967 and 1973 conflicts. The course will overview Arab-Israeli conflicts and co-existence. Students will be exposed to the geo-political issues Israel faces with its neighbors and the rest of the world, including the conflicts between radical Islamic factions and the West with specific focus on Israel. This course is Pass/Fail.

Offered: Resident

LAW 741 International Law  3 Credit Hours

LAW 741 - International Law (3 hours) Co-requisite: LAW 531. A survey of public international law, its nature, sources, and application. Addressed are: international agreements, international organizations, states and recognition, nationality and alien rights, territorial and maritime jurisdiction, state responsibility, and international claims including expropriation and the act of state doctrine, the laws of war, and the developing law of human rights.

Offered: Resident

LAW 743 International Human Rights  3 Credit Hours

LAW 743 - International Human Rights (2 hours) Prerequisite: LAW 531. An introduction to complex legal issues in international human rights, including a discussion of the Christian and secular views of the source of individual rights, survey of selected human rights concerns, examination and analysis of international human rights treaties, the role of international and regional human rights systems, non-governmental organizations, international decisions of tribunals and human rights courts, and prevention of human rights violations. Learning method will be through research and seminar-type presentations.

Offered: Resident

LAW 745 International Business Trans  2 Credit Hours

LAW 745 - International Business Transactions (2 hours) A study of selected international legal issues affecting or regulating multinational enterprise, foreign investment, the banking system, trade in goods and services, labor matters, intellectual property, sales transactions, transportation, and trade financing.

Offered: Resident

LAW 747 Immigration Law  2 Credit Hours

LAW 747 - Immigration Law and Policy (2 hours) This course is an overview of immigration law and policy in the United States. Migration policy has long provoked controversy and has become even more contentious in the new era of homeland security since September 11, 2001. Immigration bills in Congress have been the subject of heated debates, particularly in recent years. However, to have a truly informed opinion on the subject, one must understand the history of immigration law in the United States, the statutory framework into which any new legislation must fit, and the legal process used to enforce U.S. immigration law. This course will examine federal immigration law and policy in a variety of its aspects—contemporary and historical, substantive and procedural, statutory and regulatory and constitutional—including the criteria for admission to the United States on a temporary or permanent basis, the grounds and process of deportation, the peculiar constitutional status of foreign nationals, the role of the courts in ensuring the legality of official action, and an introduction to refugee law.

Offered: Resident

LAW 755 Bioethics and the Law  3 Credit Hours

LAW 755 - Bioethics and the Law (3 hours) This course involves the study of law, policy and litigation issues relating to stem cell and cloning research, abortion, reproductive technologies such as in vitro fertilization, and euthanasia. Course material includes case study, legislative and regulatory reviews, the reports of specialized task forces and professional panels and historic analysis. The course will also review litigations and policy developments in these respective areas.

Offered: Resident

LAW 760 Public Policy Lawyering  2 Credit Hours

LAW 760 - Public Policy Lawyering Skills (2 hours) A study of selected law skills involved in the public policy arena, drawn from the following areas: drafting legislation; drafting memoranda in support of legislation; planning and creating legal structures necessary to operate election campaigns, to comply with on-going campaign finance and disclosure laws, and to dissolve campaigns; planning and operating political campaigns and lobbying organizations; and complying with disclosure requirements by organizations that involve themselves in public policy matters.

Offered: Resident

LAW 761 Public Policy Survey  2 Credit Hours

LAW 761 - Public Policy Survey (2 hours) An introduction to public policy that examines the effect of worldview on both the objects and means of creating public policy. The course will use substantive public policy, policy initiatives, bills, legislative history, case law, white papers, and public relation campaigns to provide an understanding of the various methods, tactics, and strategies used in transforming ideas into governing policy and will prepare students to analyze both the substance of public policy and the policy creation process.

</table>
LAW 805 Insurance Law 3 Credit Hours
LAW 805 - Insurance Law (3 hours) A study of the regulation of the insurance business, insurable interest, the insurance contract, the interests protected by contracts of insurance, construction of policies, rights under the policies, subrogation; and processing of claims and suits for insureds, claimants, and insurers.

Offered: Resident

LAW 809 Virginia Legal Aid Survey 1 Credit Hour

LAW 810 Virginia Legal Aid Clinic I 2 Credit Hours

LAW 811 Virginia Legal Aid Clinic II 2 Credit Hours

LAW 812 Complex Litigation 2 Credit Hours

Offered: Resident

LAW 815 Law Office Management 2 Credit Hours
LAW 815 - Law Office Management (2 hours) An introduction to the establishment and management of a law office. It is designed to prepare the student for entry into the private practice of law, including ethical and personal pressures related to private law practice.

Offered: Resident

LAW 821 Mediation 2 Credit Hours
LAW 821 - Mediation (2 hours) Prerequisite: LAW 595. A course on dispute resolution, building on the foundation of Lawyering Skills V, using a mixture of lecture, discussion, role-playing, and analysis of videotape. A lawyer’s primary task is to resolve disputes. Most controversies never reach trial; rather, they are settled by agreement. The ability to negotiate and mediate effectively is crucial for all attorneys.

Offered: Resident

LAW 825 Advanced Trial Advocacy 3 Credit Hours
LAW 825 - Advanced Trial Advocacy (3 hours) Prerequisites: LAW 545, 595. A course building on the foundation of Lawyering Skills V. Develops courtroom skills through simulated trials. Focus is on opening statement, direct and cross-examination, and closing argument.

Offered: Resident

LAW 826 Real Property Litigation 1 Credit Hour
LAW 826 - Real Property Litigation (1 hour) Prerequisites: LAW 515 and 516. The course will undertake a selective examination of real estate disputes for litigation or transactional oriented future attorney-practitioners. The planning of real estate transactions is enhanced with a view toward the pitfalls of litigation in mind. An emphasis will be on the common disputes a practitioner typically handles during their career: disputes related to landlord-tenant, common interest communities, the real estate purchase-sale contract, and foreclosures.

Offered: Resident

LAW 831 Appellate Advocacy 2 Credit Hours
LAW 831 - Appellate Advocacy (2 hours) Prerequisites: LAW 525, 526. An introduction to the mechanics of appellate brief-writing and oral argument by engaging in simulated oral arguments. It is designed to develop clear and persuasive communication skills through written and oral advocacy. (NOTE: This course is offered in the fall semester and is designed for those who are interested in participating in Moot Court.)

Offered: Resident

LAW 832 Advanced Appellate Advocacy 1 Credit Hour
LAW 832 - Advanced Appellate Advocacy (1 hour) Prerequisites: Competed in the 2L/3L Liberty Cup Moot Court Tournament. This course requires research of unique legal issues, preparation of an appellate brief, preparation of at least two oral arguments, and participation in an intercollegiate moot court tournament. Successful completion of the course will be determined by the Moot Court Faculty Advisor based on the student's preparation for the tournament and demonstrated competence in both the written and oral skills. Only two credits for LAW 832 may count toward the credits required for graduation. Course credit is pass/fail.

Offered: Resident

LAW 833 Trial Team 1 Credit Hour
LAW 833 - Trial Team (1 hour) Corequisite: This course is for those students who try out for and are chosen to be on the Trial Team. Team members will engage in an intense study of trial strategy and preparation, direct and cross examination, opening statements and closing arguments, pretrial motions, arguing and opposing objections, and all aspects of trial advocacy. Team members will be chosen to compete in state, regional, and national trial competitions. Only two credits for LAW 833 may count toward the credits required for graduation. Course credit is pass/fail.

Offered: Resident
LAW 851 Constitutional Litigation Clin 2 Credit Hours

LAW 851 - Constitutional Litigation Clinic (2 hours) Prerequisites: Permission of instructor is required and availability is limited. Students will be provided a hands-on experience in Constitutional litigation representing actual clients and preparing and prosecuting a lawsuit at the trial and/or appellate level. Students share responsibility for the management of a case under supervision of a member of the faculty and licensed attorneys and staff with Liberty Counsel. Students will be expected to research, write legal arguments, and engage in critical thinking in order to prosecute a case. Coursework encompasses civil procedure, evidence, substantive law, law office management, ethics, and professional responsibility.

Offered: Resident

LAW 855 Prosecution Clinic 2 Credit Hours

LAW 855 - Prosecution Clinic (2 hours) Prerequisites: Permission from the Bedford Commonwealth Attorney and Associate Dean for Academic Affairs; and Virginia Third-Year Practice Certificate required. Students will work under the direct supervision of a faculty supervisor and the Bedford (Virginia) Commonwealth Attorney's Office and will be involved in all aspects of criminal prosecution. Students will be exposed to the role and responsibilities of a prosecutor while engaging in the hands-on experiences of a working prosecutor. Students will be encouraged to think critically about the prosecutor's role in the criminal justice system. The Clinic will also contain a classroom component where students will cover subject matter that includes: the role of the prosecutor, ethics, plea bargaining, motions and hearings, discovery and examination of witnesses. Students may conduct legal research and writing, write motions and briefs and give oral arguments.

Offered: Resident

LAW 861 Externship 2 Credit Hours

LAW 861 - Externship (2 hours) Prerequisites: Second year standing; approval of the Associate Dean for Academic Affairs. Externs earn academic credit while working part time in government or nonprofit institutions. Externs work under the supervision of qualified and experienced attorneys who provide guidance and training in practical lawyering skills. Classroom component covers topics relating to the legal system, judicial process, and professionalism. Three credit hours are approved only in special circumstances.

Note: The normal externship is for two credit hours.

Offered: Resident

LAW 862 Criminal Law Externship 2 Credit Hours

LAW 862 - Criminal Law Externship (2 to 3 hours) Prerequisites: Qualify for third year practice in Virginia; approval of the Associate Dean for Academic Affairs. Students earn academic credit while working part time with other students in a Commonwealth's Attorney's Office in Virginia under the supervision of an attorney in that office and a Liberty law professor. Students receive guidance and training in lawyering skills, interview and prepare witnesses for trial, and appear in court. Three credit hours are approved only in special circumstances.

Note: The normal externship is for two credit hours.

Offered: Resident

LAW 863 Judicial Clerkship Externship 2 Credit Hours

LAW 863 - Judicial Clerks Externship (2 to 3 hours) Prerequisites: Second year standing; approval of the Associate Dean for Academic Affairs. Students earn academic credit while working part time with other students under the supervision of a judge and his or her staff attorneys and a Liberty law professor. Students receive guidance and training in legal research and writing, write research memoranda, and draft opinions for judges. Three credit hours are approved only in special circumstances.

Note: The normal externship is for two credit hours.

Offered: Resident

LAW 868 Directed Research/Law & Policy 2 Credit Hours

LAW 868 - Directed Research in Law and Policy (2 hours) Prerequisites: Second year standing; approval of the Associate Dean for Academic Affairs. Includes components of an externship, with real-life, legal work generated by the client of a supervising externship attorney, and an independent study, with research and writing covering subject matter comparable to that in other academic activities.

Offered: Resident

LAW 871 Independent Study 1-3 Credit Hours

LAW 871 - Independent Study (1 to 3 hours) Prerequisites: Second year standing; approval of a professor-advisor and the Associate Dean for Academic Affairs; satisfy the requirements in 07.14 of the Academic Policies and Procedures. A supervised research and writing course that covers subject matter comparable to that in other academic activities with minimum faculty guidance. Guidelines are published in the Academic Standards Policies and Procedures.

Offered: Resident

LAW 881 Law Review Candidacy 1 Credit Hour

LAW 881 - Law Review Candidacy (1 hour) Prerequisite: Second year standing; membership is by invitation only based upon the student's demonstration of advanced academic and writing ability and criteria set forth in the Liberty University Law Review Constitution. Participation in law review activities in the fall semester includes writing a note or comment judged to meet the acceptable or publishable standard, editing student written notes and comments, editing articles and other scholarly legal writings, and performing other editorial and staff duties pursuant to the Liberty University Law Review Constitution. P/NP grade.

Offered: Resident

LAW 882 Law Review Junior Staff 1 Credit Hour

LAW 882 - Law Review Junior Staff (1 hour) Prerequisite: Second year standing; satisfactory completion of Law Review Candidacy. Participation in law review activities in the spring semester includes editing student written notes and comments, editing articles and other scholarly legal writings, and performing other editorial and staff duties pursuant to the Liberty University Law Review Constitution. P/NP grade.

Offered: Resident
LAW 883 Law Review Senior Staff I 1 Credit Hour
LAW 883 - Law Review Senior Staff I (1 hour) Prerequisite: Third year standing; satisfactory completion of Law Review Junior Staff. Participation in law review activities includes writing a comment judged to meet the acceptable or publishable standard, editing student written notes and comments, editing articles and other scholarly legal writings, and performing other staff duties pursuant to the Liberty University Law Review Constitution. P/NP grade.
Offered: Resident

LAW 884 Law Review Senior Staff II 1 Credit Hour
LAW 884 - Law Review Senior Staff II (1 hour) Prerequisites: Third year standing; satisfactory completion of Law Review Senior Staff I. Participation in law review activities includes editing student written notes and comments, editing articles and other scholarly legal writings, and performing other staff duties pursuant to the Liberty University Law Review Constitution. P/NP grade.
Offered: Resident

LAW 885 Law Review Editorial Board I 2 Credit Hours
LAW 885 - Law Review Editorial Board I (2 hours) Prerequisites: Third year standing; satisfactory completion of Law Review Junior Staff; elected as a member of the Liberty University Law Review Editorial Board. Participation in law review activities includes managing the law review, participating in the activities of the editorial board, writing a comment judged to meet the acceptable or publishable standard, editing and publishing student written notes and comments, reviewing, selecting, editing, and publishing articles and other scholarly legal writings, and performing other editorial and staff duties pursuant to the Liberty University Law Review Constitution. P/NP grade.
Offered: Resident

LAW 886 Law Review Editorial Board II 2 Credit Hours
LAW 886 - Law Review Editorial Board II (2 hours) Prerequisites: Third year standing; satisfactory completion of Law Review Editorial Board I; membership on the Liberty University Law Review Editorial Board. Participation in law review activities includes managing the law review, participating in the activities of the editorial board, editing and publishing student written notes and comments, reviewing, selecting, editing, and publishing articles and other scholarly legal writings, and performing other editorial and staff duties pursuant to the Liberty University Law Review Constitution. P/NP grade.
Offered: Resident

LAW 901 Advanced Bar Studies 3 Credit Hours
LAW 901 - Advanced Bar Studies (3 hours) Prerequisite: Third year standing. Advanced Bar Studies is a skills development course that provides students with an intensive substantive review of selected legal material routinely tested on the bar examination. The course uses problems and exercises in a bar examination format to familiarize students with techniques for answering bar examination multiple choice questions.
Offered: Resident

LAW 903 Advanced Legal Writing 1 Credit Hour
LAW 903 Advanced Legal Writing (1 hour) Prerequisites: Third year standing. Advanced Legal Writing provides advanced instruction in legal research techniques and hones the writing skills learned in LS I and II. Students will draft a variety of common, legal documents used in litigation and transactional work.
Offered: Resident

LAW 904 Advanced Research & Writing 2 Credit Hours
LAW 904 - Advanced Research and Writing (2 hours) Advanced Research and Writing provides advanced instruction in legal research techniques and hones the writing skills learned in LS I and II. Students will draft a variety of common, legal documents used in litigation and transactional work.
Offered: Resident

Juris Doctor (J.D.)
Changes to this degree are pending for the 2019-2020 academic year. If there are further questions, please reach out to the School of Law.

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Offered in Residential Format

Juris Master in American Legal Studies (J.M.)
Purpose
The Juris Master in American Legal Studies (J.M.) exists to equip non-lawyers with knowledge of fundamental legal norms and principles to increase their effectiveness and intellectual abilities to address issues which have legal components in their respective professional fields.

Program Learning Outcomes
The student will be able to:
2. Evaluate foundational concepts as they relate to United States legal regimes.
3. Integrate a Christian worldview in the context of United States law.
4. Conduct legal research and writing in a United States law context.

Program Specific Admission Requirements
An applicant to the J.M in American Legal Studies must complete the following steps:
1. Complete an application for admission through the Liberty University Online by completing each section. All questions must be answered completely.
2. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
3. A curriculum vitae or résumé must be included in the application.
4. Pay the non-refundable application fee ($50) to Liberty University.
5. Undergraduate GPA of at least a 3.00 on a 4.00 scale
6. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Students who do not meet the minimum GPA requirement may be admitted on Academic Caution status.

Transfer of Credit

Students may transfer up to 15 hours of graduate-level credit from an accredited institution. In order to transfer credit, students must have earned the minimum grade of B-, and courses must have been completed within 10 years of the start date of the student’s program at Liberty University. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

In addition to other regulations governing graduation as stated in this Catalog, Juris Master in American Legal Studies (J.M.) graduates must satisfy the following requirements:

1. The successful completion of 30 credit hours of course work, which shall include successful completion of all required courses and satisfaction of the rigorous writing requirement.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. The maintenance of a cumulative grade point average of at least 3.00.
4. No more than two grades of C may be applied to the degree (includes grades of C+ and C-).
5. No grade of D or below may be applied to the degree (includes grades of D+ and D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within 5 years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

• Mission Organization Leader

Courses

JURI 510 Introduction to Legal Systems and Research 3 Credit Hours

This course is an introduction to legal research; fundamentals of legal writing; and fundamental analysis of treaties, customary law, and other sources of law. This course will provide an overview of current research techniques in the field of legal systems and research. Students will learn and apply professional writing skills in the early research paper drafting process and will incorporate techniques outlined in the course.

JURI 515 Legal Writing and Analysis 3 Credit Hours

Prerequisites: JURI 510

This course will further develop student research methods, research strategies, and statistical analysis skills necessary to both produce and critically analyze research reports and data compilations used in forming legal analysis. Students will further develop and apply professional writing skills in the research paper drafting process and fully incorporate techniques as outlined in this course and the Introduction to Legal Research course.

JURI 520 Constitutional Law 3 Credit Hours

An analysis of the basic principles of constitutional law, including the nature of a written constitution, the covenantal framework of the U.S. Constitution, the Marshall legacy and judicial review, theories of interpretation, and principles of interpretivism. Emphasis is given to the distribution of governmental powers in the federal system; separation of powers; the federal commerce, taxing, and foreign affairs powers; intergovernmental relations; due process; and equal protection.

JURI 525 Health Law Survey 3 Credit Hours

This course provides an overview of the laws related to health care in the United States. Subjects to be covered include the licensing and monitoring of healthcare professionals, the professional-patient relationship and duties to treat, liability that may attach to healthcare professionals and businesses, healthcare financing including public and private sources, fraud and abuse and business aspects of healthcare including anittrust. This course allows students to become conversant with the current complexities of healthcare law and understand emerging trends in this evolving body of law.

Offered: Online

JURI 530 Contracts Law 3 Credit Hours

A study of the history of the development of the common law of contracts and statutory variances from the common law, particularly the Uniform Commercial Code. It focuses on legal theories for enforcing promises or preventing unjust enrichment; and principles controlling the formation, modification, and enforceability of contracts. A study of the legal principles dealing with performance, remedies for nonperformance or threatened nonperformance, excuses for nonperformance, rights of nonparties to enforce contracts, assignment of rights, and delegation of duties.
This course provides an overview of the law and policy that underpin the subject of healthcare bioethics. This is a course that bridges the gap between the moral and ethical aspects of healthcare delivery and the legal constructs that surround them. Topics to be covered include human genetics, cloning, and reproduction, legal issues related to death and dying including medically assisted dying and the regulation of research involving human subjects. This course will allow the student to explore the intersection of the law and policy for these and other bioethical issues.

**Offered:** Online

**JURI 540 Criminal Law**  
3 Credit Hours

An introduction to the general principles, sources, and purpose of criminal law, including the following doctrinal issues that apply to crimes in general: the act requirement, the mens rea requirement, causation, liability for attempted crimes, accomplice liability, defenses, and criminal code interpretation.

**JURI 545 Healthcare Compliance**  
3 Credit Hours

This course provides an overview of the subject of healthcare compliance. Healthcare compliance is the ongoing process of meeting the applicable legal, ethical, and professional standards set by government agencies and third party players. Subjects to be covered include how healthcare organizations can develop and administer effective standards, policies, and procedures to screen and evaluate employees and physicians, communicate and educate on compliance issues, develop monitoring, auditing and internal reporting systems and investigate non-compliance and take appropriate disciplinary and other remedial measures.

**Offered:** Online

**JURI 550 Property Law**  
3 Credit Hours

A study of the fundamental precepts applicable to real and personal property. Aspects of real property covered are possessory estates and interests, as well as joint and concurrent ownership. A study of the rights, duties, and liabilities of landlords and tenants; acquisition, ownership, and transfer of property; rights of possession; donative transactions; issues in the conveyancing system; and governmental regulations.

**JURI 555 Healthcare Fraud and Abuse**  
3 Credit Hours

This course provides an understanding of the laws related to healthcare fraud and abuse in United States. The three major fraud and abuse statutes - the False Claims Act, the Stark Law and the Anti-Kickback Statute - will be covered in detail. This includes identifying the statutory construction of each of these three statutes and seeing how different courts have applied them. Related subjects to be covered include, an overview of Federal and State agencies tasked with eliminating fraud and abuse in the healthcare arena, examples of settled and litigated cases and their impact on the healthcare industry and the history and ongoing evolution of healthcare fraud and abuse enforcement.

**Offered:** Online

**JURI 560 Torts Law**  
3 Credit Hours

A study of intentional torts against persons and property and the privileges thereto. It focuses on the basic principles of negligence and other standards of care. A survey of the remaining issues in negligence including particular duties of landowners, damages, joint and several liability, and defenses. It also deals with products liability, wrongful death, vicarious liability, and nuisance.

**JURI 565 Medical Malpractice Survey**  
3 Credit Hours

This course provides an overview of the laws related to the torts of medical malpractice and other forms of medical negligence. Topics to be covered include the physician-associated factors that may lead to medical negligence, the duty of the physician to treat patients including the initiation and termination of the physician-patient relationship, breach of a duty to the patient, the use of medical experts in proving the case, causation including proximate cause and calculating damages and collecting monetary awards. A discussion of medical malpractice tort reform will also be included.

**Offered:** Online

**JURI 570 American Business Law**  
3 Credit Hours

Introduces the fundamental concepts and legal principles that are applicable to the American legal system, its development and inherent ethical considerations. Discusses the basis and structure of business contracts; the creation and characteristics of agencies, partnerships, limited liability companies and corporations; and the rights and liabilities of agents, partners, directors and shareholders.

**JURI 580 Ethics and Professional Responsibility**  
3 Credit Hours

A study of the authority and duties of lawyers in the practice of their profession as advocates, mediators, and counselors; and of their responsibility to the courts, to the bar, and to their clients, including a study of the various ABA standards of professional conduct.

**JURI 600 Foundations of Law**  
3 Credit Hours

An introduction to the theological and philosophical foundations of law, including the Augustinian concept of antithetical thinking; the Creator/creature distinction; the development of higher/natural law thinking; the basis for the distinction between the judicial and prudential methods of analysis; the origins and jurisdictional boundaries of family, church, and state; the schools of jurisprudence; and the biblical basis for the fundamental principles underlying the several courses that comprise the basic curriculum. An introduction to the historical and political background of the Western legal tradition; the impact of canon law and higher law influences on the development of the common law; the development of the respective jurisdictional bases of family, church, and state; the schools of jurisprudence; and the biblical basis for the fundamental principles underlying the several courses that comprise the basic curriculum. An introduction to the historical and political background of the Western legal tradition; the impact of canon law and higher law influences on the development of the common law; the development of the respective jurisdictional bases of family, church, and state; and historical struggle between them; and the influence of Christian and secular worldviews on the application of American law, with a particular emphasis on the influences of the Founding Fathers and the drafters of the Declaration of Independence and the Constitution. M. students must meet additional legal brief component as described in course syllabus.

**Note:** LL.
JURI 610 Jurisprudence/Legal History 3 Credit Hours

This course is an introduction to the many schools of jurisprudence. Jurisprudence is the study of legal philosophy. An examination of the nature and meaning of the legal past, particularly the Western legal tradition, with a primary focus on the historical relationship between church and state; and the biblical and theological foundations of the Western legal tradition and the English Common Law heritage. Particular emphasis is given to formulating principles of a distinctively Christian jurisprudence and on reading primary materials. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 620 Law and Economics 3 Credit Hours

Law and economics as a jurisprudential theory seeks to apply neoclassic economics concepts to law. Law and economics tends to be both positive (explaining rules in terms of economic concepts) and normative (arguing that legal rules should promote economic efficiency). This course considers a variety of subject areas in order to provide a critique of law and economics from the perspective of the distinct mission of Liberty University School of Law. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

Offered: Online

JURI 630 International Business Law 3 Credit Hours

A study of selected international legal issues affecting or regulating multinational enterprise foreign investment, the banking system, trade in goods and services, labor matters, intellectual property, sales transactions, transportation, and trade financing. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 640 International Public Law 3 Credit Hours

This course focuses on the study of fundamental concepts of international law and its historical origins. It considers the influence of diverse schools of thought in international law, including the post-modern, natural law, and integrative jurisprudence. The course examines the sources of international law, including international treaties, customary international law and general principles of law. It also studies the subjects of international law and international legal personality. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 650 International Trade Law 3 Credit Hours

This course is a study of the international norms and principles that regulate international trade on goods, services and intellectual property. It also focuses on the history of the creation of the World Trade Organization (WTO) and its current functions. It considers the influence of economic doctrines in the creation of norms and principles of international trade law. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 660 International Law and Diplomacy 3 Credit Hours

This course focuses on the study of international treaties, such as the Vienna Convention on Diplomatic Relations. It also analyzes the place of customary international law in the regulation of diplomatic relations. It explores the close interaction and interrelation between international law and diplomacy. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 670 The Law of Armed Conflict 3 Credit Hours

This course is a study of the historical origins and development of norms regarding the law of armed conflicts. The course focuses on the norms of customary international law and the positive law norms, such as the Geneva Conventions and Protocols on the law of war. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 680 International Human Rights Law 3 Credit Hours

This course studies the creation of the international human rights system and its influence in international relations. It highlights the Christian foundations of human rights norms and principles. It specially focuses on the concept of human dignity and the imago Dei (image of God) as the foundation of human rights law. It analyzes international declarations and resolutions of the United Nations General Assembly and the UN Human Rights Council. It shows the importance of the defense of fundamental human rights, such as the right to life, the right to family and the right to religious freedom. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 690 Legal Research and Writing I - Capstone 3 Credit Hours

This course develops the fundamental requirements in writing an LL.M. thesis in the context of international law. The student will select a topic under the supervision of a faculty member. Following the selection of a topic, the student conducts research aimed at narrowing and refining the thesis, and the faculty member provides feedback that assists the student in formulating a research and writing plan. The student prepares and submits a written outline of the research thesis, and the faculty provides substantive feedback. Lastly, the student submits a preliminary draft of the paper.

JURI 695 Legal Research and Writing II - Capstone 3 Credit Hours

Prerequisites: JURI 690

The legal thesis developed in the Capstone Legal Research and Writing I course is further developed. Continued development and refinement of the topic, legal research, and drafts are completed. Final submission of thesis for faculty’s evaluations.

American Legal Studies (J.M.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

A study of the authority and duties of lawyers in the practice of their profession as advocates, mediators, and counselors; and of their responsibility to the courts, to the bar, and to their clients, including a study of the various ABA standards of professional conduct.

JURI 600 Foundations of Law 3 Credit Hours

An introduction to the theological and philosophical foundations of law, including the Augustinian concept of antithetical thinking, the Creator/creature distinction; the development of higher/natural law thinking; the basis for the distinction between the judicial and prudential methods of analysis; the origins and jurisdictional boundaries of family, church, and state; the schools of jurisprudence; and the biblical basis for the fundamental principles underlying the several courses that comprise the basic curriculum. An introduction to the historical and political background of the Western legal tradition; the impact of canon law and higher law influences on the development of the common law; the development of the respective jurisdictional bases of family, church, and state, and historical struggle between them; and the influence of Christian and secular worldviews on the application of American law, with a particular emphasis on the influences of the Founding Fathers and the drafters of the Declaration of Independence and the Constitution. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 610 Jurisprudence/Legal History 3 Credit Hours

This course is an introduction to the many schools of jurisprudence. Jurisprudence is the study of legal philosophy. An examination of the nature and meaning of the legal past, particularly the Western legal tradition, with a primary focus on the historical relationship between church and state; and the biblical and theological foundations of the Western legal tradition and the English Common Law heritage. Particular emphasis is given to formulating principles of a distinctively Christian jurisprudence and on reading primary materials. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 620 Law and Economics 3 Credit Hours

Law and economics as a jurisprudential theory seeks to apply neoclassic economics concepts to law. Law and economics tends to be both positive (explaining rules in terms of economic concepts) and normative (arguing that legal rules should promote economic efficiency). This course considers a variety of subject areas in order to provide a critique of law and economics from the perspective of the distinct mission of Liberty University School of Law. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

Offered: Online

JURI 630 International Business Law 3 Credit Hours

A study of selected international legal issues affecting or regulating multinational enterprise foreign investment, the banking system, trade in goods and services, labor matters, intellectual property, sales transactions, transportation, and trade financing. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.
JURI 640 International Public Law 3 Credit Hours
This course focuses on the study of fundamental concepts of international law and its historical origins. It considers the influence of diverse schools of thought in international law, including the post-modern, natural law, and integrative jurisprudence. The course examines the sources of international law, including international treaties, customary international law and general principles of law. It also studies the subjects of international law and international legal personality. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 650 International Trade Law 3 Credit Hours
This course is a study of the international norms and principles that regulate international trade on goods, services and intellectual property. It also focuses on the history of the creation of the World Trade Organization (WTO) and its current functions. It considers the influence of economic doctrines in the creation of norms and principles of international trade law. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 660 International Law and Diplomacy 3 Credit Hours
This course focuses on the study of international treaties, such as the Vienna Convention on Diplomatic Relations. It also analyzes the place of customary international law in the regulation of diplomatic relations. It explores the close interaction and interrelation between international law and diplomacy. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 670 The Law of Armed Conflict 3 Credit Hours
This course is a study of the historical origins and development of norms regarding the law of armed conflicts. The course focuses on the norms of customary international law and the positive law norms, such as the Geneva Conventions and Protocols on the law of war. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 680 International Human Rights Law 3 Credit Hours
This course studies the creation of the international human rights system and its influence in international relations. It highlights the Christian foundations of human rights norms and principles. It specially focuses on the concept of human dignity and the imago Dei (image of God) as the foundation of human rights law. It analyzes international declarations and resolutions of the United Nations General Assembly and the UN Human Rights Council. It shows the importance of the defense of fundamental human rights, such as the right to life, the right to family and the right to religious freedom. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 690 Legal Research and Writing I - Capstone 3 Credit Hours
This course develops the fundamental requirements in writing an LL.M. thesis in the context of international law. The student will select a topic under the supervision of a faculty member. Following the selection of a topic, the student conducts research aimed at narrowing and refining the thesis, and the faculty member provides feedback that assists the student in formulating a research and writing plan. The student prepares and submits a written outline of the research thesis, and the faculty provides substantive feedback. Lastly, the student submits a preliminary draft of the paper.

JURI 695 Legal Research and Writing II - Capstone 3 Credit Hours
Prerequisites: JURI 690
The legal thesis developed in the Capstone Legal Research and Writing I course is further developed. Continued development and refinement of the topic, legal research, and drafts are completed. Final submission of thesis for faculty's evaluations.

International Legal Studies (J.M.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours 30

All applicable prerequisites must be met

Graduation Requirements

• Complete 30 hours
• A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
• 3.0 GPA
• No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
• No grade of D or below may be applied to the degree (includes grades of D+ & D-)
• Degree must be completed within 5 years
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format

Master of Laws in International Legal Studies (LL.M.)

Purpose

The Master of Laws in International Legal Studies (LL.M.) exists to equip lawyers with relevant knowledge, in the context of the 21st century, to address international legal issues consistent with fundamental principles of justice and the rule of law.

Program Learning Outcomes

The student will be able to:

1. Construct legal analyses using proper interpretations of international legal norms.
2. Evaluate foundational concepts as they relate to international legal regimes.
3. Integrate a Christian worldview into the practice of international law.
4. Produce international legal research and writing analyses of thesis quality.

Program Specific Admission Requirements

For admission to the LL.M. program, an applicant must have a J.D. (Juris Doctor) from an accredited U.S. law school or a first law degree (LL.B. or the equivalent) from a foreign law school.

An applicant must complete the following steps:

1. Complete an application for admission through the Law School Admission Council (LSAC) by completing each section, which includes the Personal Statement. All questions must be answered completely.
2. Subscribe to the LL.M. Document Assembly Service and submit copies of all undergraduate, graduate, and law/professional school transcripts to LSAC. International students must also subscribe to the International Transcript Authentication and Evaluation Service via LSAC.
4. A curriculum vitae or résumé must be included in the application.
5. Pay the non-refundable Document Assembly Service fee ($85) and Law School Report fee ($30) online at LSAC’s website. If subscribing to the International Transcript Authentication and Evaluation Service, pay the $135 fee (LSAC).
6. Students who do not meet the minimum GPA requirement may be admitted on Academic Caution status.

Career Opportunities

• Domestic and Foreign Policy Analyst
• International Legal Practice Specialist
• Political Relations Lawyer

Courses

LAW 501 Foundations of Law 2 Credit Hours

LAW 501 - Foundations of Law I (2 hours) An introduction to the theological and philosophical foundations of law, including the Creator/creature distinction; the development of natural law thinking; the origins and jurisdictional boundaries of family, church and state; and the Biblical basis for the fundamental principles of civil procedure, tort law, criminal law, contract law, and property law which comprise the basic curriculum.

Offered: Resident
LAW 502 Foundations of Law II
LAW 502 - Foundations of Law II (2 hours) Prerequisite: LAW 501. An introduction to the historical and political background of the American legal tradition, including the Biblical principles that form the foundation of America's legal institutions and constitutional system; the influence of Christian and secular worldviews on the application of American law; and the development of the respective jurisdictional bases of family, church, and state.

Offered: Resident

LAW 505 Contracts I
LAW 505 - Contracts I (3 hours) A study of the history of the development of the common law of contracts, and statutory variances from the common law, particularly the Uniform Commercial Code. It focuses on legal theories for enforcing promises or preventing unjust enrichment; and principles controlling the formation, modification, and enforceability of contracts.

Offered: Resident

LAW 506 Contracts II
LAW 506 - Contracts II (3 hours) Prerequisite: LAW 505. A study of the legal principles dealing with performance, remedies for nonperformance or threatened nonperformance, excuses for nonperformance, rights of nonparties to enforce contracts, assignment of rights, and delegation of duties.

Offered: Resident

LAW 507 Torts I
LAW 507 - Torts I (3 hours) A study of intentional torts against persons and property and the privileges thereto. It focuses on the basic principles of negligence and other standards of care.

Offered: Resident

LAW 512 Torts II
LAW 512 - Torts II (2 hours) Prerequisite: LAW 511. A survey of the remaining issues in negligence including particular duties of landowners, damages, joint and several liability, and defenses. It also deals with products liability, wrongful death, vicarious liability, and nuisance.

Offered: Resident

LAW 515 Property I
LAW 515 - Property I (2 hours) A study of the fundamental precepts applicable to real and personal property. Aspects of real property covered are possessory estates and interests, as well as joint and concurrent ownership.

Offered: Resident

LAW 516 Property II
LAW 516 - Property II (3 hours) Prerequisite: LAW 515. A study of the rights, duties, and liabilities of landlords and tenants; acquisition, ownership, and transfer of property; rights of possession; donative transactions; issues in the conveyancing system; and governmental regulations.

Offered: Resident

LAW 520 Legal Methods
LAW 520 - Legal Methods (2 hours)

LAW 521 Civil Procedure I
LAW 521 - Civil Procedure I (3 hours) An introduction to the rules and principles that dictate the process by which civil disputes are resolved by courts. A study of the judicial process and of the relationship between the procedural and substantive law; pleadings; principles of jurisdiction, including jurisdiction over subject matter and persons, and service of process; and an introduction to the allocation of jurisdiction between the state and federal courts and the law to be applied in state courts and federal courts.

Offered: Resident

LAW 522 Civil Procedure II
LAW 522 - Civil Procedure II (2 hours) Prerequisite: LAW 521. A continuation of Civil Procedure I with a focus on pleadings, joinder of parties and claims, discovery, motions, trial, post-trial matters, and the binding effects of adjudications.

Offered: Resident

LAW 525 Lawyering Skills I
LAW 525 - Lawyering Skills I (2 hours) An introduction to the law library and basic legal research; interviewing clients; drafting basic pleadings; fundamentals of legal writing; fundamentals of statutory and case analysis; oral communication skills; drafting an objective memorandum of law.

Offered: Resident

LAW 526 Lawyering Skills II
LAW 526 - Lawyering Skills II (1-3 hours) Prerequisite: LAW 525 A continuation of Lawyering Skills I with an increased level of sophistication in researching, analysis and writing; drafting basic transactional documents; drafting a memorandum of law; oral argument. (Research component of this course to be taught during an intensive week prior to the start of the spring semester.)

Offered: Resident
LAW 531 Constitutional Law I 3 Credit Hours

LAW 531 - Constitutional Law I (3 hours) An analysis of the basic principles of constitutional law, including the nature of a written constitution, the covenantal framework of the U.S. Constitution, the Marshall legacy and judicial review, theories of interpretation, and principles of interpretivism. Emphasis is given to the distribution of governmental powers in the federal system; separation of powers; the federal commerce, taxing, and foreign affairs powers; intergovernmental relations; due process; and equal protection.

Offered: Resident

LAW 532 Constitutional Law II 3 Credit Hours

LAW 532 - Constitutional Law II (3 hours) Prerequisite: LAW 531. A study of the history and development of the first amendment and the body of constitutional law including the doctrines of freedom of speech, press, peaceable assembly, the right to petition the government for the redress of grievances, and the religion clauses.

Offered: Resident

LAW 535 Criminal Law 3 Credit Hours

LAW 535 - Criminal Law (3 hours) An introduction to the general principles, sources, and purpose of criminal law, including the following doctrinal issues that apply to crimes in general: the act requirement, the mens rea requirement, causation, liability for attempted crimes, accomplice liability, defenses, and criminal code interpretation.

Offered: Resident

LAW 541 Criminal Procedure 3 Credit Hours

LAW 541 - Criminal Procedure (3 hours) An introduction to the limitations imposed on law enforcement activities by the Fourth, Fifth, and Sixth Amendments of the U.S. Constitution as applied to the states through the Fourteenth Amendment. The course considers the criminal justice process from investigation through arrest and initial court appearance.

Offered: Resident

LAW 542 Advanced Criminal Procedure 3 Credit Hours

LAW 542 - Advanced Criminal Procedure (3 hours) Prerequisite: LAW 541. This course examines the process of the adjudicatory stages of criminal procedure, beginning with the pre-trial detention and continuing through trial and sentencing. Topics that will be covered in this course include: pre-trial detention, initiating the charging decision, bail and pretrial release, grand jury practice, discovery, the plea, speedy trial rights, right to counsel, trial by jury, the criminal trial, double jeopardy, sentencing, and post-conviction relief. For a student pursuing a career with a concentration in criminal practice, this course is best taken immediately subsequent to Criminal Procedure and prior to a criminal law externship.

Offered: Resident

LAW 545 Evidence 3 Credit Hours

LAW 545 - Evidence (3 hours) An introduction to the law of evidence and the rules and principles governing its admission within the context of the adversarial trial system. Emphasis is placed upon mastering the Federal Rules of Evidence, examination and cross-examination of witnesses, functions of the judge and the jury, and burden of proof. (NOTE: This course is a prerequisite for Virginia Third-Year Practice.)

Offered: Resident

LAW 561 Business Associations 4 Credit Hours

LAW 561 - Business Associations (4 hours) An examination of agency, partnership, and corporation concepts with emphasis on the rights and obligations of partners; and the formation, management, and operation of for-profit and nonprofit corporations.

Offered: Resident

LAW 565 Professional Responsibility 2 Credit Hours

LAW 565 - Professional Responsibility (2 hours) A study of the authority and duties of lawyers in the practice of their profession as advocates, mediators, and counselors; and of their responsibility to the courts, to the bar, and to their clients, including a study of the various ABA standards of professional conduct. (NOTE: This course is a prerequisite for Virginia Third-Year Practice; it must be taken in the spring semester of the student's second year or during an intensive session.)

Offered: Resident

LAW 571 Lawyering Skills III 2 Credit Hours

LAW 571 - Lawyering Skills III (2 hours) Prerequisite: LAW 526. Students continue the pretrial development of a case. A major focus is on drafting and arguing pretrial motions, in particular motions in limine in a civil trial. Students also further develop skills of interviewing and witness preparation, examining witnesses, negotiating settlements and pretrial agreements. The planning portion of the course focuses on drafting documents necessary for the effective establishment and operation of one or more business organizations.

Offered: Resident

LAW 572 Lawyering Skills IV 2 Credit Hours

LAW 572 - Lawyering Skills IV (2 hours) Prerequisite: LAW 571. Students review and then practice the major steps in the pretrial litigation process, including litigation planning, informal fact investigation, legal research, and all facets of discovery. Each student prepares requests for documents, interrogatories, and requests for admissions. Each student also conducts and defends a deposition of one of the parties or witnesses in a case. Students also draft and argue a motion to dismiss in a criminal trial.

Offered: Resident
LAW 575 Wills, Trusts, and Estates 3 Credit Hours

LAW 575 - Wills, Trusts, and Estates (3 hours) A study of the basic devices in gratuitous transfers, including the will and trust; selected problems in class gifts, and will and trust substitutes; and social restrictions upon the power of testation, the formation of property interests, and the trust device.

Offered: Resident

LAW 580 Statutory Interpretation 1 Credit Hour

LAW 581 Jurisprudence 3 Credit Hours

LAW 581 - Jurisprudence (3 hours) An introduction to the many schools of jurisprudence. Jurisprudence is the study of legal philosophy. Particular emphasis is given to formulating principles of a distinctively Christian jurisprudence and on reading primary materials. (NOTE: This course is offered in the spring semester of odd-numbered years.)

Offered: Resident

LAW 582 Law and Economics 2 Credit Hours

LAW 582 - Law and Economics (2 hours) Law and economics as a jurisprudential theory seeks to apply neoclassic economics concepts to the law. Law and economics tends to be both positive (explaining rules in terms of economics concepts) and normative (arguing that legal rules should promote economic efficiency). This course considers a variety of subject areas in order to provide a critique of law and economics from the perspective of the distinct mission of Liberty University School of Law. Possible subject areas for consideration include: property, contracts, constitutional law, human rights, family law, tort law, criminal law, employment law, corporate law, securities regulation, and taxation.

Offered: Resident

LAW 585 Legal History 3 Credit Hours

LAW 585 - Legal History (3 hours) An examination of the nature and meaning of the legal past, particularly the Western legal tradition, with a primary focus on the historical relationship between church and state, and the biblical and theological foundations of the Western legal tradition and the English Common Law heritage. (NOTE: This course is offered in the spring semester of even-numbered years.)

Offered: Resident

LAW 591 Taxation of Individuals 3 Credit Hours

LAW 591 - Taxation of Individuals (3 hours) An introduction to the federal income tax system. Topics include items of inclusion and exclusion from gross income, deductions from gross income, capital gains and losses, basic tax accounting, and the identification of income to the appropriate taxpayer. The course gives consideration to the private attorney's role in administering the tax law and in advising clients on the interaction of the tax law with their businesses, investments, and personal activities. This course must be taken in the fall or spring semester of the student's second year or in the fall semester of the student's third year.

Offered: Resident

LAW 595 Law Skills V - Trial Advocacy 3 Credit Hours

LAW 595 - Lawyering Skills V (3 hours) Prerequisites: LAW 545, 572. The basics of trial advocacy. There is an emphasis on mastering certain litigation and trial tasks; paying attention to detail; and precision in analysis, thought, expression, and communication.

Offered: Resident

LAW 601 Family Law 3 Credit Hours

LAW 601 - Family Law (3 hours) A general introduction to the nature and regulation of family associations. This course focuses on the relationships of husband and wife as well as parent and child. It addresses moral, legal, and biblical issues relating to marriage, divorce, and custody, including international and American developments involving same-sex unions.

Offered: Resident

LAW 605 Children and the Law Seminar 2 Credit Hours

Offered: Resident

LAW 608 Adoption Law 2 Credit Hours

LAW 608 - Adoption Law (2 hours) The course explores fundamental issues in adoption law from both international and domestic perspectives. It will examine on a comparative basis the legal relationship among children and families across continents and in the state. Students will understand the legal framework of adoption laws in states such as Virginia, Florida, Georgia, North Carolina and a few selected states, as well as processes and procedures involving adoptions in general. Students will also learn, on a step-by-step basis, how adoption treaties in private international law are interpreted and applied in U.S. Courts. The course will further examine issues in assisted reproduction using reproductive technology. The learning process will involve practical hands-on approach including problem solving, case law review and analysis of domestic rules and procedures for the recognition of foreign judgments in U.S. courts.

Offered: Resident
LAW 610 Child Abuse and the Law 2 Credit Hours

LAW 610 - Child Abuse and the Law (2 hours) Prerequisites: LAW 535, 541, 545. This is a course designed for students interested in public service and working on behalf of abused children. Students who enroll in this course will have diverse practice interests such as, being a criminal or civil child abuse prosecutor, guardian/attorney ad litem, child protection attorney, or public interest lawyer. The course is designed to provide an overview of the prosecution process in civil and criminal cases involving child abuse and neglect. Students will learn the internal path of both a criminal child abuse case as well as the civil process for protecting children from further abuse or neglect. This course will explore the necessity of working with a multidisciplinary team of professionals in preparing a case for the court process as well as the necessary skills needed to communicate with child victims. The course will require observation of a criminal or civil child abuse case. Ethical responsibilities of prosecution will be addressed.

Offered: Resident

LAW 615 Taxation of Estates and Gifts 3 Credit Hours

LAW 615 - Taxation of Estates and Gifts (3 hours) Prerequisite: LAW 591. An in-depth study of federal taxation of wealth transmission, including estate and gift taxes.

Offered: Resident

LAW 621 Estate Planning 3 Credit Hours

LAW 621 - Estate Planning (3 hours) Prerequisites: LAW 575, 591, 615. An overview of the estate planning process, including considerations entering into the structure and completion of an estate plan. This course includes a discussion of the information-gathering process and the preparation of such estate planning documents as wills, trusts, and durable powers of attorney. It also includes a consideration of the various methods that may be used to reduce estate taxes for the client, both through lifetime and testamentary planning.

Offered: Resident

LAW 630 Accounting/Finance for Lawyers 2 Credit Hours

LAW 630 - Accounting for Lawyers (2 hours) A study of the principles, theory, and practice of accounting, finance, and auditing. The topics include the accounting equation and conceptual framework; recognition principles; inventory and the cost of goods sold; fixed assets and depreciation; liabilities; financial statements and financial analysis; valuation principles and techniques; audit practice; perspectives and the role of the lawyer in the preceding topics. Students who have already taken any accounting course (at the undergraduate or graduate level of three credit hours or more) are not eligible to enroll in this course. This course is offered as an intensive.

Offered: Resident

LAW 632 Financial Planning Survey 2 Credit Hours

LAW 632 - Financial Planning Survey 2 Credit Hours

LAW 635 Secured Transactions 3 Credit Hours

LAW 635 - Accounting for Lawyers (2 hours) A study of the principles, theory, and practice of accounting, finance, and auditing. The topics include the accounting equation and conceptual framework; recognition principles; inventory and the cost of goods sold; fixed assets and depreciation; liabilities; financial statements and financial analysis; valuation principles and techniques; audit practice; perspectives and the role of the lawyer in the preceding topics. Students who have already taken any accounting course (at the undergraduate or graduate level of three credit hours or more) are not eligible to enroll in this course. This course is offered as an intensive.

Offered: Resident

LAW 636 Payment Systems 2 Credit Hours

A study of the Uniform Commercial Code with focus on Articles 3 and 4, and general principles applicable to promissory notes and drafts, and the special rules for bank deposits and collections.

Offered: Resident

LAW 637 Basic Uniform Commercial Code 3 Credit Hours

LAW 637 - Basic Uniform Commercial Code (3 hours) A study of the Uniform Commercial Code with an emphasis on Articles 3, 4, and 9 covering general principles applicable to promissory notes and drafts, bank deposits and collections, and secured transactions.

Offered: Resident

LAW 641 Taxation of Businesses 3 Credit Hours

LAW 641 - Taxation of Businesses (3 hours) Prerequisites: LAW 561, 591. An advanced course in federal income taxation with emphasis on tax laws related to corporations, partnerships, and limited liability companies.

Offered: Resident

LAW 643 Mergers and Acquisitions 2 Credit Hours

LAW 643 - Mergers and Acquisitions (2 hours) Prerequisites: LAW 561. Co-requisite: LAW 641. A study of the process of and the law governing business combinations and acquisitions including mergers, stock purchases, assets sales, and change-of-control transactions. The course will consider primarily the role of state business organization law and federal securities law in determining the structure, mechanics, timing, and price of such transactions.

Offered: Resident

LAW 644 Securities Regulation 3 Credit Hours

LAW 644 - Securities Regulation (3 hours) Prerequisites: LAW 561. A study of the process of and the law governing the issuance, distribution, and trading of securities focusing primarily on the Securities Act of 1933 and the Securities Exchange Act of 1934 and related rules and regulations. Topics include the definition of a ‘security,’ the obligation to register; the registration and disclosure requirements; the exemptions from the registration process; and the insider trading and antifraud provisions.

Offered: Resident
LAW 645 Business Planning 3 Credit Hours

LAW 645 - Business Planning (3 hours) Prerequisites: LAW 561, 591, 641. A general survey of the factors to be considered in the organization, financing, operation, and liquidation of the small business venture, all examined within a choice of business entity frameworks. Proprietorships, partnerships, limited partnerships, limited liability companies, business trusts, close corporations and professional corporations are covered. Particular emphasis is on the practical aspect of the organization, operation, purchase, and sale of a business, and other matters related to the role of a practicing lawyer in business affairs.

Offered: Resident

LAW 648 Law of Nonprofits 2 Credit Hours

LAW 648 - Law of Nonprofits (2 hours) This course includes the study of the state and federal law affecting nonprofit entities, churches and parachurch ministries. Topics covered include formation, exempt purposes, private inurement, board governance, compensation, fundraising and financial regulation, charitable contributions, lobbying, political activity, electioneering, unrelated business income, employment law, church-specific matters, and international law, activities and structure.

Offered: Resident

LAW 651 Real Estate Transactions & Dev 3 Credit Hours

LAW 651 - Real Estate Transactions and Development (3 hours) Prerequisites: LAW 515, 516. A course in the application of real property law, covering deeds, mortgages, leases, land contracts, real estate closings, and financing in the context of simple transactions; and of the development of a shopping plaza or housing complex.

Offered: Resident

LAW 654 Business Planning 3 Credit Hours

Offered: Resident

LAW 655 Bankruptcy 3 Credit Hours

LAW 655 - Bankruptcy (3 hours) Prerequisite: LAW 561. A course covering the history and philosophy of the Bankruptcy Acts and Bankruptcy Rules as interpreted by the United States Supreme Court and the other inferior courts. It includes relief under chapters 7, 11, and 13 of the Bankruptcy Code; complaints; motions; and applications. It deals extensively with the rights and duties of debtors and creditors.

Offered: Resident

LAW 661 Intellectual Property 3 Credit Hours

LAW 661 - Intellectual Property (3 hours) An introduction to the basic principles of the law of copyrights, trademarks, patents, and unfair competition. An overview of the U.S. legal systems that protect creations of the mind: inventions, trade secrets, artistic creations, computer software, brand names, and image/persona, with primary focus on patent, copyright, trademark, and trade secret law. It serves as a basic building block for more advanced intellectual property courses.

Offered: Resident

LAW 662 Intellectual Property Clinic 1 2 Credit Hours

LAW 663 Intellectual Property Clinic 2 2 Credit Hours

LAW 665 Entertainment Law 2 Credit Hours

LAW 665 - Entertainment Law (2 hours) An introduction to the basic legal, business, and financial aspects of the entertainment industry including comparisons and contrasts between the motion picture, television, literary, music, and digital industries. In addition to covering general legal concepts relevant to the entertainment industry, students will achieve an understanding of selected topics and transactions germane to this area of law. Customs and practices within the entertainment industry and various legal scenarios will be examined.

Offered: Resident

International Legal Studies (L.L.M.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Chair, Department of Music Education

Assistant Professor of Music Education and Woodwind

Program Directors
A listing of program directors can be viewed at http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389.

Liberty University School of Music is the seventh largest collegiate level institution in America devoted to training and equipping professional musicians as performers, music educators, worship leaders, ethnomusicologists, artists, film score composers, music publishers, recording engineers and producers, and songwriters. The School of Music is a member of and Accredited by the National Association of Schools of Music (NASM). NASM is recognized by the Council for Higher Education Accreditation as a programmatic accreditation organization for institutions offering degree and non-degree educational programs in music and music-related disciplines.

Mission
The mission of the Liberty University School of Music is to train and equip musicians to be Champions for Christ. The School of Music is a community of God-honoring musicians committed to a culture of manifest core values that include:

• Worship Lifestyle
• Servant Leadership
• Stylistic Diversity
• Academic Inquiry
• Skilled Musicianship
• Artistic and Creative Expression
• Sharing Christ through Music

These core values demonstrate what the music faculty believes a “Champion for Christ Musician” is devoted to in their everyday private and professional life. It is the general consensus of the School of Music faculty that the mission statement and clearly articulated core values conform to and promote the broader university mission to “develop Christ-centered men and women with the values, knowledge, and skills essential to impact the world”.

While the School of Music has only one mission, two distinctly unique and focused tasks emerge. These tasks are accomplished through two organizations within the School of Music structure:

1. The Center for Music Education and Performance – trains and equips passionate musicians as skilled performers, and music education specialists;” and,

2. The Center for Music and Worship – trains and equips highly skilled musicians to serve as worship practitioners and commercial musicians in the evangelical community.

In fulfillment of the School of Music Mission, communication of the Core Values and application of the Focused Tasks and the various entities representing the music unit, it is the aim of the School of Music leadership to graduate students that are thoroughly equipped to assume their role in the market-place. And, that the School of Music provides for these student-musicians comprehensive curricula that is broad enough to encourage collaboration, imagination, diversification, scholarship and practical application. It is important to the leadership of the School of Music that students are equipped to identify their calling (desired career), find gainful employment (a job) and contribute to their chosen vocation(s) for many years to come.

Purpose
The purpose of the Graduate Music Studies Division is to train highly skilled musicians to serve as music and worship practitioners, music educators and ethnomusicologists specifically for and in the evangelical community. These purposes are accomplished through curricula development, student internship and apprenticeships, local church ministry, professional teaching opportunities, publishing and recording, artist development and empirical research.
Programs of Study
Graduate programs offered by the Graduate Music Studies Division prepares students to meet the challenge of their profession with skill, insight, and intentionality.

Programs
- Doctor of Worship Studies (D.W.S.) (p. 634)
- Graduate Certificates (p. 639)
- Master of Arts in Ethnomusicology (M.A.) (p. 640)
- Master of Arts in Music & Worship (M.A.) (p. 643)
- Master of Arts in Music Education (M.A.) (p. 648)
- Master of Arts in Worship Studies (M.A.) (p. 654)

Faculty
The School of Music (SOM) faculty includes full-time and adjunct and/or part time resident and on-line highly skilled professionals. The School of Music faculty adhere to and adopt five personal and professional goals, including a commitment to:

1. Embrace, develop, grow and exemplify a spirit of Christian grace, character, integrity and mercy in all areas of professional and private life. [Spiritual Disciplines]
2. Intellectual discovery, educational enrichment and rigorous pursuit of knowledge for the advancement of their own individual disciplines. [Educational Enrichment]
3. Develop and grow as professional practitioners. [Professional Development]
4. Make honest contribution to local and global communities for the purpose of spreading the gospel and proclaiming the name of Jesus Christ. [Community and Mission]
5. Grow in their understanding of institutional mission, love for one another, vision for the future, and support of Liberty University School of Music. [University Mission]

Additionally, and in an effort to enrich our student’s lives, SOM faculty promise, to the best of their ability, to provide:

1. A quality, world-class education experience. [Quality Education]
2. Opportunity to grow in their aptitude and ability and performance skill in their instrument of choice. [Personal Growth]
3. Opportunity for spiritual, educational, and social transformation and growth sufficient to make meaningful contribution to their culture, discipline and the Kingdom of God. [Contribution to Culture]
4. Opportunity to discover potential through mentoring and discipleship experiences. [Opportunity to Discovery and Creativity]
5. Assistance in finding career placement in their chosen area of music performance, skill set and/or ministry. [Career Placement]

It is the conviction of the School of Music faculty that the manifestation of these qualities in the lives of all resident and on-line music professors is critical to the success of the School of Music. The personal commitment to these ten statements is used as one of several criteria for the annual evaluation of School of Music faculty.

B
Bailey, Kyle; B.S., M.A.
Title: Assistant Professor of Music Theory
B.S. - Liberty University, M.A. - Liberty University

Balentine, Zeb; B.A., M.A., DWS
Title: Adjunct Faculty
B.A. - Central Baptist College, M.A. - Liberty University, DWS - Liberty University

Beavers, Sean; B.M., M.Mus., D.M.
Title: Professor of Graduate & Online Music
B.M. - University of Texas Austin, M.Mus. - Florida State University, D.M. - Florida State University

Benham, John; B.A., M.A., Ed.D.
Title: Adjunct Faculty
B.A. - Northwestern College, M.A. - University of Northern Colorado, Ed.D. - University of Northern Colorado

Brennan, Michael; B.M., M.Mus., D.M.
Title: Associate Professor, Center for Worship
B.M. - California State University Fullerton, M.Mus. - California State University Fullerton, D.M. - Northwestern University

C
Crawley, William; B.M., M.Mus., D.M.A.
Title: Adjunct Faculty
B.M. - Indiana University, M.Mus. - Southwestern Baptist Theological Seminary, D.M.A. - Southern Baptist Theological Seminary

Currie, Keith; B.M.E., B.M., M.Ed., Ed.D.
Title: Adjunct Faculty
B.M.E. - Moody Bible Institute, B.M. - Grace College and Seminary, M.Ed. - Indiana University of Pennsylvania, Ed.D. - Virginia Polytechnic Institute and State University

D
Damon, Betty; B.M., M.Mus., Ed.D., Ed.S.
Title: Associate Professor of Voice

Title: Assistant Professor
B.A. - Welch College, M.A. - Middle Tennessee State University, M.Div. - Luther Rice Seminary and University, D.Min. - Liberty University
Doctor of Worship Studies (D.W.S.)
(Non-Music Degree)

Purpose

The Doctor of Worship Studies is a 45-hour post-graduate, non-music, professional, non-terminal doctorate (commensurate to the Doctor of Ministry) that places emphasis on practical application of worship studies to the ministry. It is primarily targeted to the career minister of music/worship pastor constituent and provides theological, philosophical and practical studies based on the demands of the 21st-century evangelical worship ministry. Built on a graduate degree in music, church music or worship, the DWS provides an option for advanced studies at the professional doctorate level for worship practitioners desiring to expand their skill set to reflect a rapidly changing worship culture. As with all graduate degrees in the School of Music, the end goal is to develop knowledge and expertise to function in a variety of music and worship cultures and contexts within the evangelical community.

Program Learning Outcomes

The student will be able to:

1. Examine the pastoral and worship leader roles in evangelical worship.
2. Synthesize the historical development and relationship of worship to the Christian Church.
3. Evaluate contextual approaches for worship leading.
5. Investigate the pedagogical role of the worship leader in evangelical worship.

Program Specific Admission Requirements

In addition to the general admission procedures, applicants to the Doctor of Worship Studies must meet the following requirements:

1. An earned master’s degree in music or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACS, TRACS, ABHE, etc.). Master degrees qualifying for entrance into the Doctor of Worship Studies degree may include:
   a. Master of Divinity in Worship Studies
   b. Master of Arts in Worship Studies
   c. Master of Arts in Music and Worship
   d. Master of Arts in Worship Leadership
   e. Master of Arts in Ethnomusicology
   f. Master of Arts in Church Music
   g. Master of Music in Church Music
   h. Master of Church Music
   i. Master of Music
   j. Master of Arts in Music
   k. Master of Worship Studies
   l. Master of Arts or Master of Science in Related Degrees

2. Contact information for two recommendations from a pastor and/or college or university professor may be requested as an additional requirement on a case-by-case basis.

3. A graduate GPA of at least 3.00 (on a 4.00 scale).

4. Consideration will be given to those without a master level degree in music or worship [or equivalent] upon completion of an interview with and recommendation from the Program Director of the Doctor of Worship Studies degree.

5. Professional vita showing three years of experience in full-time ministry

6. Applicants must submit a 1000-to-1500-word Statement of Purpose that answers the following questions:
   a. How has your previous education and/or work experience prepared you for doctoral studies at Liberty University?
   b. What is your goal with regard to pursuing doctoral education at Liberty University?
   c. Please describe the character and values you possess that will help you succeed in your desired field.

7. Interview and recommendation from the Doctor of Worship Studies Degree Program Director.

8. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

1 Applicants must finish the equivalent of 45 graduate hours of which at least 9 of these hours must successfully be completed with a minimum of a “B” grade in: WRSP 635 Building a Theology of Worship (3 c.h.), WRSP 510 Biblical Foundations of Worship (3 c.h.), and WRSP 502 History and Philosophy of Worship (3 c.h.).

Transfer Credit

Transfer students will be required to submit transcripts for evaluation as per the normal process established by the University. Students may transfer a maximum of 12 hours of coursework from an accredited institution. In order to be eligible for transfer credit, course work must have a minimum grade of B-, and must have been completed within the past seven (7) years. Credits from a degree on the same academic level previously earned through Liberty University are considered transfer credits.

The following courses are not eligible for transfer credit: WMUS 525 Advanced Contemporary Arranging Techniques for Worship (3 c.h.) and WRSP 890 Thesis Project Defense (3 c.h.).

Graduation Requirements

In addition to the other regulations governing graduation, graduates of the Doctor of Worship Studies program must meet the following requirements:

• Complete 45 hours.
• A minimum of 33 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
• A maximum of 12 hours of transfer credit, including credits from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
• Required 3.00 GPA.
• No more than two grades of C may be applied to the degree (includes grades of C+/C-).
• No grade of D or lower may be applied to the degree (includes grades of D+/D-).
• For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
• Degree must be completed within 7 years.
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Program of Study

Delivery Format: Online Only

• Worship Studies (D.W.S.) - Ethnomusicology (p. 636)
• Worship Studies (D.W.S.) - General (p. 637)
• Worship Studies (D.W.S.) - Leadership (p. 637)
• Worship Studies (D.W.S.) - Pastoral Counseling (p. 638)

Career Opportunities

• Worship Pastor
• Worship Theologian
• Worship Coach or Analysts
• Worship Counselor and Advisor
• Professor of Worship Studies
• Music and Worship Instructor

Courses

WRSP 801 Theological and Historical Developments Influencing Corporate Worship 3 Credit Hours
A study of the dynamic theological, historical and cultural influences on corporate worship in the evangelical community. Application is made to the influence of worship paradigms and practices of the great revival movements on 21st Century corporate worship. Major emphasis is placed on student-based research and inquiry.

WRSP 810 Foundations of Christian Worship 3 Credit Hours
A study of the Biblical, Theological, and Historical foundations for Christian Worship. The Biblical foundations of worship are identified and explored, with attention given to practical integration into the worship practice of 21st Century evangelical culture.

Offered: Online

WRSP 811 Principles of Ethno-doxology 3 Credit Hours
An examination of how different cultures practice worship. Students investigate how worship both influences and is influenced by life as lived within a cultural community or specific ethnic group. Application is made to the role of various art forms (i.e. music, dance, drama, video, visuals, storytelling) have in the proclamation of the gospel and celebration of the Eucharist event.

WRSP 812 Theological and Cultural Contextualization in Worship 3 Credit Hours
This course explores the practical integration of theological foundation with modern culture as it relates to 21st century evangelical worship. Specifically, core beliefs that define evangelicals are identified and examined, and are then applied to worship within a variety of national and international ministry contexts.

Offered: Online

WRSP 820 The Worship Leader 3 Credit Hours
A study of the many and varied roles and relationships of the worship leader. Special emphasis is placed on the relationship between the worship leader and the pastor. Also considered are the relationships between the worship leader and other staff members, singers, instrumentalists, and the congregation. In addition to required reading, significant research within the evangelical community, and application to various worship ministries, students are required to complete 10 projects that integrate learned principles and practical application.

WRSP 835 Theology, Philosophy and Methodology of Worship 3 Credit Hours
This course is a comprehensive study of the purpose and practice of a theology of worship in the Evangelical church community. The study is divided into three parts: 1) cognitive theology that includes the understanding and discovery of a biblical theology of worship and music; 2) personal and professional philosophy derived from the application of theology to worship; and 3) methodology for worship ministry which includes developing a strategy for teaching theology as a worship leader. The class is guided by a series of projects whereby students build a personal theology for private and public worship and then develops a pedagogical paradigm for inclusion of the course material and constructs in a worship curriculum. This course is offered online only.

Offered: Online

WRSP 840 Transitions in Leadership, Music, Worship, and Culture 3 Credit Hours
A study of the current trends and issues related to leadership, music, worship, and culture. Consideration is given to music education standards, technology, and classroom strategies as well as worship models, multi-cultural issues, worship transitions, and worship trends. The course includes research into emerging practices within school districts and universities as well as emerging practices in worship.

WRSP 845 Pastoral Roles of the Worship Leader 3 Credit Hours
This course provides clarification of the various and many pastoral roles of the worship leader in the Evangelical community. Responsibilities worship pastors have to the gospel call and ministry are defined and articulated. Practical application is made through class and small group case studies, interviews, on-location observations, and personal evaluation. Students are required to develop a pedagogical paradigm for inclusion of course materials and constructs in a worship curriculum. This course is offered online only.

Offered: Online
An in-depth look at the person and individual growth, development, and spiritual formation. Extensive testing will form the foundation for this course and the results of the testing will be used to develop a growth profile for the individual student.

**Offered:** Online

WRSP 851 Community, Culture, and Relationship 3 Credit Hours

This is a course that looks at the various responsibilities music educators and worship leaders have in building a community of well-balanced, well-conceived partnerships. Consideration is given to the worship leader’s responsibility to build relationships with various ministries in the church, with those in the community and with other worship pastors. Consideration is also given to the music educator’s responsibility to build community within the school, within the culture, and with other music educators.

**Offered:** Online

WRSP 889 Thesis Project Proposal & Research 3 Credit Hours

Crosslisted with DMIN 889.

**Offered:** Online

WRSP 890 Thesis Project Defense 3 Credit Hours

**Prerequisites:** WRSP 889

**Offered:** Online

WRSP 895 Directed Research in Worship 1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. This course should/can only be used if a student lacks a seminar for graduation and the needed seminar is not offered in their last semester. If approved, the student will work with the instructor in developing a proposal for guided research in a specific area.

**Offered:** Online

WRSP 897 Seminar in Worship Studies 3 Credit Hours

An intensive study in a specific subject of worship studies. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

**Offered:** Online

WRSP 899 Worship Self-Study and Apprenticeship 3 Credit Hours

**Offered:** Online

---

**WRSP 997 Advanced Seminar in Worship Studies** 3 Credit Hours

This course focuses on a study of worship practices in the evangelical community. Student and faculty work together to develop and tailor assignment to each student’s individual preference, professional goals, needs, and objectives. A 30-50 page major paper demonstrating research ability must be completed. This major project must be practical in application to the student’s ministry.

**Offered:** Online

Program Offered in Online Format

Master of Arts in Ethnomusicology (M.A.)
(Online Music Degree)

Purpose
The Master of Arts in Ethnomusicology equips students to work in a diverse global society using the medium of music, including: foundational scholarship (history and theory), skill development (analysis and technology), performance of non-Western music, and practical application through field experience and independent research. The program at Liberty University fits well with the institution’s emphasis on intercultural studies and its stated aim to “contribute to a knowledge and understanding of other cultures.” Music is a universal form of expression in which cultures of the world capture the essence of their worldview, and it is the system of memory in which cultural history and religious belief is recorded. The Master of Arts in Ethnomusicology provides musicians, social scientists, and worship leaders, music educators, ministers of music and church leaders an understanding of ethnic music culture that facilitates the use of indigenous music in cross-cultural communication, ministry, and research.

Program Learning Outcomes
The student will be able to:

1. Synthesize Christian principles into the use of indigenous music in worship, discipleship and evangelism.
2. Analyze non-Western systems of music through the application of ethnomusicological theory and method.
3. Evaluate literature and research of the discipline for application through practical field experience and research.

Course Requirements
The Master of Arts in Ethnomusicology requires the completion of 42 hours of graduate coursework. Students complete their course of study using a blended delivery system of 16-week online courses combined with on campus summer intensives. Students who do not have an undergraduate course in world music must complete ETHM 511 Introduction to Ethnomusicology (3 c.h.) in addition to the 42 hours required.

Program Specific Admission Procedures
In addition to the General Admission Procedures outlined in this Catalog, applicants to our Master of Arts in Ethnomusicology program must have:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.).
2. An undergraduate cumulative GPA of at least 3.00 (on a 4.00 scale). Applicants who do not meet this requirement may be considered for enrollment in the program on a cautionary basis. The cautionary range will begin at a GPA of 2.50 through 2.99.
3. Contact information for one recommendation.
4. Students seeking admission to the program must perform an audition that demonstrates musical proficiency sufficient to meet the requirements of the degree.

5. An interview with the Program Director of MA in Ethnomusicology Degree. During the interview with the Program Director, the student must provide evidence of proficiency in at least one foreign language.
7. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer Credit
Transfer students will be required to submit transcripts for evaluation as per the normal process established by the University. Students may transfer up to 21 hours of coursework from an accredited institution. In addition, transfer students will be required to perform an entrance interview and audition with the Coordinator of Ethnomusicology.

In order to be eligible for transfer, course work must have a minimum grade of B-, and must have been completed within the past 10 years. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
1. Successful completion of all course and thesis requirements (42 semester hours).
2. Students must complete all courses with a 3.00 or higher cumulative GPA.
3. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
4. No more than two (2) grades of C may be applied to the degree (includes grades of C+ & C-).
5. No grade of D may be applied to the degree (includes grades of D+ & D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within seven years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Courses

ETHM 500 Ethnic Music Theory 3 Credit Hours

Prerequisites: ETHM 511 or Music and Culture with a score of 3 or Music in World Cultures with a score of 3

The study of non-Western theories of music, with an emphasis on both existing systems of art and folk music as well as systems without an articulated theory.

ETHM 511 Introduction to Ethnomusicology 3 Credit Hours

The study of traditions, belief systems and practices of world cultures as approached through the comparative study and analysis of the music cultures of contrasting ethnic groups. Specific cultures studied may vary each term.

ETHM 512 Field of Ethnomusicology 3 Credit Hours

The study of various philosophical approaches in the practice of ethnomusicology. Primary emphasis is given to research of the history of the discipline, comparative analysis, and readings of some major contributors in the field of ethnomusicology.

ETHM 513 Anthropology of Music 3 Credit Hours

Explore the anthropological side of ethnomusicology by examining a wide variety of theoretical and ethnographic approaches to music culture analysis.

ETHM 514 Organology 3 Credit Hours

The study of sound instrument classifications and characteristics, their use in Western and non-Western cultures, and the variety of contexts in which instruments are found. Emphasis is also given to recent approaches and uses in the field of organology.

ETHM 515 Music, Orality and Storytelling 3 Credit Hours

The examination of various strategies for using music to break down cultural barriers and build bridges for intercultural relationships, including chronological storytelling in cultures of oral tradition.

ETHM 530 Worship and Culture 3 Credit Hours

A study of worship as observed in biblical examples. Scriptural principles regarding worship are applied to the life of the individual and to individual responsibility in the corporate worship experience. Emphasis is on building a theological orientation for interculturality by understanding the nature of worship as the foundation for building interdependent relationships in the kingdom of God.

ETHM 531 Resources and Materials in Ethnomusicology 3 Credit Hours

Bibliographic research in the field of ethnomusicology. Students will identify, access, evaluate and interpret ethnomusicology resources and materials while performing research of the socio-musical culture of selected ethnic group(s).

ETHM 540 Seminar in Ethnic Music 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 541 Seminar in Ethnic Music: India 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 542 Seminar in Ethnic Music: Native America 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 543 Seminar in Ethnic Music: Africa 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 544 Seminar in Ethnic Music: Latin America 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 545 Seminar in Ethnic Music: Middle East 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 546 Seminar in Ethnic Music: China 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 547 Seminar in Ethnic Music: Southeast Asia 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 548 Seminar in Ethnic Music: Indonesia 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 549 Seminar in Ethnic Music: Eastern Europe 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.
ETHM 560 Ethnic Music Performance 3 Credit Hours

Individual and/or ensemble performance in an ethnic music instrumental or vocal genre. The performance genre will be arranged in cooperation with the Coordinator of Ethnomusicology, who will also approve the instrumental or vocal genre to be studied. A minimum of ten (10) 30-minute lessons, ten (10) 60-minute ensemble rehearsals, or a combination thereof is required for each of the three credits. May be repeated for credit.

ETHM 600 Transcription and Analysis of Non-Western Music 3 Credit Hours

Practice in the generative transcription and theoretical analysis of non-Western music systems, including etic and emic elements, systems of notation, and computer-assisted analysis.

Offered: Online

ETHM 611 Arts in Global Engagement 3 Credit Hours

Students will learn how to become artistic catalysts and so facilitate local community engagement and effective outreach through music and the arts, including: 1) strategies for development of professional and intercultural relationships; 2) systems of pre-engagement and assessment of current issues; 3) contextualization of music in local worldwide contexts; 4) promoting the creation of indigenous songs; 5) promoting the distribution of such songs through appropriate media.

Offered: Online

ETHM 613 Applied Ethnomusicology 3 Credit Hours

The practice of ethnomusicology including: 1) a summary of technology and audio/video recording practices; 2) development of professional and intercultural relationships; 3) contextualization of music in worship, discipleship, and evangelism; 4) promoting the creation of indigenous Christian songs; 5) promoting the distribution of such songs through appropriate media; and, 6) introduction to other areas of applied ethnomusicology.

ETHM 650 Research Methods in Ethnomusicology 3 Credit Hours

Prerequisites: ETHM 531

Introduction to research methodologies in preparation for completion of the capstone project in ethnomusicology.

ETHM 688 Field Experience in Ethnomusicology 3 Credit Hours

Extended field experience in a cross-cultural setting providing for the on-site application and appraisal of skills learned in the classroom. The internship provides a basis for field research for the Master's Thesis or Project. The thesis advisor will be assigned in collaboration between the student and the Coordinator of Ethnomusicology.

ETHM 689 Master's Thesis/Project Proposal and Research 3 Credit Hours

Completion of the Master's Thesis or Project. This course is required each semester following ETHM 688: Field Experience in Ethnomusicology only for students who have not made sufficient progress so as to demonstrate they will be able to complete the thesis or project within the time frame required in ETHM 690: Master's Thesis or Project Defense.

ETHM 690 Master's Thesis/Project Defense 3 Credit Hours

Prerequisites: ETHM 692

The culmination of the degree program in the form of written and/or oral defense of the research thesis or application project. The final document should reflect the ability of the student to integrate the various facets of course preparation to practical research in the field of ethnomusicology or a field project.

Offered: Online

ETHM 692 Graduate Ethnomusicology Comprehensive Exam 0 Credit Hours

The comprehensive exam/defense is a zero credit written and oral examination that serves as a culminating assessment for the MA in Ethnomusicology. The comprehensive exam will be based on courses taken in the MA in Ethnomusicology. The exam is taken as a prerequisite of the Thesis. A Pass/Fail Committee decision for the Comprehensive Exam/Oral Defense will be placed in the student's official file, noted on the DCP Audit, and appear on the student's transcript.

Offered: Online

### Program Offered in Online Format

#### Master of Arts in Music & Worship (M.A.)

**(Resident and Online Music Degree Options)**

#### Purpose

The **Master of Arts in Music and Worship** is a 42-hour graduate vocational degree that equips and trains skilled musicians as worship pastors. It provides students opportunity to study and practice:

1. context-specific biblical and theological competencies in worship;
2. identify and develop music theories and skills through "praxis" experiences;
3. worship theories practical to the local church; and,
4. empirical research that enhance individual leadership roles in music and worship.

Students also receive training in qualitative and quantitative research methods. The end goal is to develop the student's knowledge and expertise to excel in a variety of music and worship cultures and contexts within the evangelical community.

#### Program Learning Outcomes

The student will be able to:

1. Create a worship strategy based on biblical, theological, and philosophical foundations of worship.

2. Synthesize principles of critical contextualization for application to current issues confronting worship leaders in the evangelical tradition.

3. Evaluate literature and research of the discipline for application to the professional practices of worship leaders in the evangelical tradition.

4. Lead a music ensemble using effective rehearsal strategies and advanced conducting competency.

#### Commercial Music Performance Concentration (Resident Students Only)

The student will be able to play an instrument or sing at an advanced skill level in commercial music styles.

#### Conducting Concentration (Resident & Online Students)

The student will be able to lead a music ensemble with advanced conducting competency.

#### Worship Music Studies Concentration (Resident Students Only)

The student will be able to lead worship using appropriate musical techniques and skills.

#### Program Specific Admission Requirements

In addition to the general admission procedures, applicants to the **Master of Arts in Music and Worship** program must meet the following requirements:

1. Completion of an earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education e.g., SACSCOC, TRACS, ABHE, etc.) in one of the following areas: B.A./B.S. in Music Education; Bachelor of Music Education; Bachelor of Music; B.A./B.S. in Worship Studies; B.A./B.S. in Music and Worship; or equivalent in music, music education, or music and worship.

2. An undergraduate cumulative GPA of at least 3.00 (on a 4.00 scale). Applicants who do not meet this requirement may be considered for enrollment in the program on a cautionary basis. The cautionary range will begin at a GPA of 2.5 through 2.99.

3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

#### Transfer Credit

Transfer students will be required to submit transcripts for evaluation as per the normal process established by the University. Students may transfer a maximum of 21 hours of coursework from an accredited institution. In order to be eligible for transfer, course work must have a minimum grade of B-, and must have been completed within the past 10 years. Credits from a degree on the same academic level previously earned through Liberty University are considered transfer credits.

The following courses are not eligible for transfer credit: WMUS 525 Advanced Contemporary Arranging Techniques for Worship (3 c.h.) and WRSP 690 Thesis (3 c.h.).
Graduation Requirements
In addition to the other regulations governing graduation, graduates of the Master of Arts in Music and Worship program must meet the following requirements:
1. Complete 45 hours.
2. A maximum of 50% of the program hours may be transferred if approved an allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Required 3.00 GPA.
4. No more than two (2) grades of C may be applied to the degree (includes grades of C+ and C-).
5. No grade of D may be applied to the degree (includes grades of D+ & D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within 5 years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Residential and Online
• Music & Worship (M.A.) - Worship Music Studies (p. 648)

Delivery Format: Residential Only
• Music & Worship (M.A.) - Commercial Music Performance (p. 646)
• Music & Worship (M.A.) - Conducting (p. 647)

Career Opportunities
• Concert ministry program director
• Contemporary Christian artist
• Director of worship and drama
• Director of worship technology
• Minister of music
• Music and worship evangelist
• Worship leader or pastor

Courses
MUSC 510 Foundations of Music Education 3 Credit Hours
This course provides an overview to the foundational principles, philosophies, and practices in music education. Topics emphasized are: purposes of school music; students as music learners; content and structure of school music programs; and music teacher knowledge and skills. Identification of personal qualities and professional competencies of excellent music teachers will also be discussed.

MUSC 514 Basic Conducting 3 Credit Hours
Basic instruction in conducting techniques for worship leaders in traditional and non-traditional worship settings. Knowledge and skill areas include: posture and hand position, baton usage, foreign and mechanical terms, conducting gestures and patterns, basic score interpretation, and rehearsal management and technique.

Offered: Online

MUSC 515 Graduate Conducting 3 Credit Hours
Prerequisites: MUSC 514 or WRSP 010
Intermediate and advanced instruction in choral and instrumental conducting techniques for music educators. Knowledge and skill areas stressed are a review of conducting gestures and patterns; advanced score interpretation, rehearsal management and technique, special challenges in choral and instrumental contexts.

MUSC 516 Advanced Graduate Conducting 3 Credit Hours
Prerequisites: MUSC 515
This course is a continuation of WMUS 515 OR MUSC 515 and focuses on developing advanced instruction in conducting techniques in traditional and non-traditional settings. Specific attention is given to the role of the conductor in practical contexts, including 21st century evangelical worship, professional orchestral/choral organizations, and elementary, secondary, and collegiate educational systems.

MUSC 522 Introduction to Music Theory 3 Credit Hours
In this course, students learn foundational principles of music theory including: notes, rhythms, intervals, chord construction, and harmonic progressions. Basic arranging and analytical techniques are also explored related to traditional, classical, and popular music styles. This course is designed to prepare students for MUSC 524 or WMUS 524.

Offered: Online

MUSC 524 Analytical Techniques 3 Credit Hours
Prerequisites: MUSC 522
This course is a foundational course for graduate contemporary music theory practices. Systematic and empirical investigations into formal and compositional procedures of selected masterworks from the tonal repertoire. The study includes a thorough investigation of jazz and extended harmonies used in contemporary popular music. Students continue to learn and apply analytical technique to various music styles. Melodic concepts and music form are explored in the literature from historical music periods and compared to present popular music literature and practice. Lectures lead to individual analytical projects. Principles of harmonic function are taught and applied to representative historical and popular music forms.

Registration Restrictions: Students must successfully complete the Graduate Music Theory.
MUSC 525 Advanced Contemporary Arranging Techniques 3 Credit Hours

Prerequisites: MUSC 630

This course is designed to teach and develop advanced skills as an arranger of vocal and instrumental ensembles. Chord chart writing and arranging techniques relevant to the rhythm section (keyboards, bass, guitar, drums, and percussion) and contemporary rhythm idioms will be explained and studied. Students will be expected to demonstrate skill in scoring for pop/rock bands, orchestras, singers, and choirs. A major worship arranging project is required.

MUSC 531 Bibliography and Research in Music Education 3 Credit Hours

Bibliographic research in the field of music education. Students will identify, access, evaluate and interpret music education resources and materials while performing research on music education topics.

MUSC 550 Applied Music 3 Credit Hours

Guitar: Graduate level applied guitar lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Piano: Graduate applied piano lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Voice: Graduate level applied vocal lessons. Instruction includes technical exercises, review of literature, and development of music reading and performance skills in classical and contemporary styles. Woodwinds: Continuation of applied lessons at the graduate level in the woodwind instruments of band and orchestra (Clarinet, Flute, Saxophone, Oboe or Bassoon). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Brass: Continuation of applied lessons at the graduate level in the brass instruments of band and orchestra (Trumpet, Trombone, Tuba, and Horn). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Strings: Continuation of applied lessons at the graduate level in the string instruments of band and orchestra (Violin, Viola, Cello, Bass, Harp). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Percussion: Continuation of applied lessons at the graduate level in the drum set and/or orchestral percussion (Timpani, Snare, Mallet Instruments, and Various Orchestral Percussion). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Conducting: Graduate applied conducting lessons. Instruction includes technical exercises in conducting gestures as well as mentoring in score study and ensemble leadership.

MUSC 560 Ensemble Pedagogy 1 Credit Hour

Prerequisites: MUSC 589

Students study basic rehearsal techniques, synthesize rehearsal methodologies, and apply written and aural theory through large ensemble experience. Students engage in score analysis detailing expected rehearsal problems with appropriate pedagogical solutions.

Registration Restrictions: Consent of instructor.

MUSC 565 Research in Music Education 3 Credit Hours

The purpose of this course is to acquaint students with a variety of research that informs music education in preparation for the final capstone curriculum project or thesis in music education. As part of this course, students expand their understanding of various research methodologies as related to music education. While developing their scholarly writing skills, students learn to critique and apply research techniques.

MUSC 589 Graduate Ensemble 1 Credit Hour

This ensemble is open to all Liberty University graduate students by audition and offers the opportunity to experience and participate in various styles of music. Special attention is given to the preparation and presentations of the Night of Worship (Spring), Christmas on the Boulevard (Fall), and other campus and area events.

Registration Restrictions: Audition or consent of instructor.

MUSC 620 Music in America 3 Credit Hours

Evaluation of various influences contributing to the creation of a unique ‘American’ musical style. Materials are arranged and discussed in a theoretical/historical framework. Diversity of influences investigated include: European, African American, Afro-Cuban, American Indian, Spanish-Mexican, religious, jazz, blues, folk song, popular, and black gospel. Special attention is given to music of the American Colonies and specific musical influences through the 21st century.

MUSC 630 Principles of Music Technology 3 Credit Hours

The study of computer applications in music, including: competencies in the use of notation software, music recording software; sequencing; using loops in live and recording applications; integrating midi and digital audio; capturing, editing, and storing digital audio data; multi and single tracking; VSTs; and sound shaping.

MUSC 640 History and Philosophy of Music Education in America 3 Credit Hours

In this course, students examine the historical and philosophical development of music education in America traced from its roots in biblical times through recent historical events and trends. Also emphasized are the pedagogical movements in and sociological aspects of music education from the early colonial period through the 21st century. Readings and discussions will emphasize specific subjects including: Ancient Greek music philosophy and aesthetics, music in the medieval universities and the quadrivium, the influences of humanism and the Enlightenment, musical aesthetics related to 19th and 20th century thought, and the current discussion related to aesthetic vs. praxial music educational philosophies.

MUSC 660 Music and Media 3 Credit Hours

Registration Restrictions: Consent of instructor.

MUSC 670 Ensemble Pedagogy 1 Credit Hour

Prerequisites: MUSC 650

Registration Restrictions: Consent of instructor.
MUSC 660 Performance Pedagogy & Literature 3 Credit Hours

Students study materials and techniques for teaching beginning and intermediate music students of various ages in class and private lesson settings. Students also explore issues relevant to the advanced performer, such as handling of performance anxiety, physical and psychological well-being, and concerns related to advanced technique. Includes a segment on technological tools. Special attention is given to teaching group lessons at the college level. Provides practical experience under faculty supervision.

MUSC 670 Principles of Curricula and Pedagogy for Music Education 3 Credit Hours

This course helps students engage matters of curricula development and pedagogy through critical evaluation and inquiry. Emphasis is given to curricula and pedagogical models that address practical issues for primary, secondary, and college classrooms.

MUSC 675 Entrepreneurism in Music 3 Credit Hours

Students gain understanding of the individual elements of a business plan, business structures, finance, marketing, management and organizational behavior, and leadership. Students learn entrepreneurial tools particular to the music community, techniques for innovation and creation of new ventures. At the conclusion of the course, students complete a cogent business plan applicable to different endeavors within the community.

MUSC 687 Music Education Curriculum Project 3 Credit Hours

Prerequisites: MUSC 692

This course is designed to provide the student with practical experience in the planning and implementation of a major music education project. This is the completion of the research and curriculum project begun in MUSC 650. In the course, students focus on the development of a site-specific music curriculum, including the philosophical, contextual, and cultural foundations for that curriculum as well as the prospective implementation and assessment of the project. Because the nature of the project is to bring together elements from all previous coursework, it is graded as the Comprehensive Examination for the degree program.

MUSC 689 Masters Thesis Proposal & Research 3 Credit Hours

MUSC 690 Thesis 3 Credit Hours

Prerequisites: MUSC 692

In this course, students complete the Thesis project begun in MUSC 650. The thesis is a comprehensive paper written in a specific music education discipline and selected in consultation between the student and approved faculty. It should illustrate a thorough understanding and mastery of research techniques and demonstrate a level of original discovery suitable for graduate work on the master's level. Students may not enroll in this class until the last semester of graduate work or until all other course requirements for the degree have been successfully completed. (Crosslisted with WRSP 690)

MUSC 691 Lecture Performance Recital 3 Credit Hours

Prerequisites: MUSC 692

This is a faculty supervised, 55-60 minute lecture recital program. The student must demonstrate the ability to conduct or perform appropriate repertoire for 50 percent of the recital. The student must demonstrate the ability to lecture about their selected repertoire for 50 percent of the recital. Preparation of the recital must demonstrate completion of a serious, formal research paper that documents the repertoire selected, historical information about composers and songwriters, and rationale for stylistic representation.

MUSC 692 Graduate Music Comprehensive Exam 0 Credit Hours

The comprehensive exam/defense is a zero credit written and oral examination that serves as a culminating assessment for the MA in Music Education. The comprehensive exam will be based on courses taken in their distinct MA in Education program, online or residential. The exam is taken as a prerequisite to the Thesis, Lecture Performance Recital, or Curriculum Project. A Pass/Fail Committee decision for the Comprehensive Exam/Oral Defense will be placed in the student's official file, noted on the DCP Audit, and appear on the student's transcript.

MUSC 695 Graduate Research in Music 3 Credit Hours

Offered: Resident

MUSC 697 Seminar in Music 1-3 Credit Hours

Music & Worship (M.A.) - Commercial Music Performance

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Total Hours:** 42

1. Students must successfully complete the Graduate Music Theory Assessment or enroll in and successfully complete WMUS 522 Basic Music Theory for the Worship Leader (3 c.h.) as a prerequisite to WMUS 524 Analytical Techniques for the Worship Leader (3 c.h.).

2. Students must successfully complete the Graduate Conducting Assessment or enroll in and successfully complete WMUS 514 Basic Conducting (3 c.h.) as a prerequisite to WMUS 515 Graduate Conducting for the Worship Leader (3 c.h.).

3. Any student who will not be able to complete and defend his/her thesis, ministry project or lecture recital in the course of a single semester may be required to take WRSP 689 Master’s Thesis Proposal and Research (3 c.h.) and repeat the course each semester until deemed ready for enrollment in WMUS 687 Music and Worship Ministry Project (3 c.h.), WMUS 690 Worship Program Recital (3 c.h.) or WRSP 690 Thesis (3 c.h.).

4. Recommended for students in the Conducting Concentration and the Commercial Music Performance Concentration.

---

### Graduation Requirements

- Complete 42 hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
- No grade of D or below may be applied to the degree (includes grades of D+ & D-)
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

Program Offered in Resident & Online Format

Master of Arts in Music Education (M.A.)

(Resident and Online Music Degree Options)

Purpose

The Master of Arts in Music Education is a unique degree offering among colleges and universities, both private and public. The 39-hour graduate degree program is designed to provide four essentials needed for successful development of music education: Foundational Studies (9 hours); Professional Concentration: Music Studies, Conducting, or Performance (18 hours); Music Education Studies (9 hours); and Research (3 hours).

The degree is designed to meet the needs of four distinct groups:

1. Those currently working in the profession as music educators. Many states require that public and private school teachers continue to develop themselves educationally, often toward receiving advanced degrees.
2. Students currently completing their B.M., B.A., or B.S. in Music, B.M. in Music Performance, B.M. in Music with a Teacher Licensure, or B.M. in Music Education, who desire to continue their studies, better preparing them for the job market. The M.A. in Music Education also establishes academic credential for those teaching on the primary, secondary, or college level.
3. Teachers employed in public or private schools looking for educational alternatives that allow them to remain active in their current career. These teachers are often required to fulfill mandates for continuing education for the purpose of remaining current in the discipline, but are concerned about the realities of resigning from their job and relocating to an on-campus program of study.
4. Students desiring to complete a Ph.D. in Music. The M.A. in Music Education allows students who have a B.M., B.S., or B.A. in other music disciplines (performance, worship, commercial music, songwriting, etc.) to be prepared to enter a Ph.D. program for Music Education.

The M.A. in Music Education helps students evaluate historical, philosophical, and methodological issues related to music education through a grid rooted in and formulated by a Christian worldview; and, demonstrates the “mission-centered integration of teaching and research.” Further, this degree program is designed to prepare students as scholars in the field of Music Education.

Concentration Options
Three professional concentration options are available for the MA in Music Education: Music Studies, Conducting, or Performance. The Music Studies Concentration is available for resident and on-line students. This concentration focuses on the broader application of music to the teaching profession.

The Conducting and Performance Concentrations are available for resident graduate students only. Both of these concentrations focus on sharpening musical skills necessary for presentation in applied music classroom situations.

Program Learning Outcomes
The student will be able to:

1. Synthesize Christian worldview with a music education philosophy and methodology.
2. Create strategies for music education through curricular design or research.
3. Evaluate literature of the discipline and theories of music education for application to professional practices in the classroom.
4. Direct a music ensemble using effective rehearsal strategies and advanced conducting competency.
5. Analyze, arrange, and conduct diverse musical styles.
6. Play an instrument or sing at an advanced skill level in solo or ensemble context.

Conducting Concentration
The student will be able to:

1. Lead music ensemble with advanced conducting competency.
2. Teach a music ensemble using effective rehearsal strategies.

Music Studies Concentration
The student will be able to:

1. Analyze and arrange and conduct music in traditional and contemporary styles with the appropriate use of technology.

Performance Concentration
The student will be able to:

1. Play an instrument or sing at an advanced skill level in solo or ensemble context.
2. Teach instrumental or vocal skills in solo or ensemble contexts.

Program Specific Admission Procedures
In addition to the general admission procedures, applicants to the Master of Arts in Music Education must meet the following requirements:

1. Completion of an earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education e.g., SACSCOC, TRACS, ABHE, etc.) in one of the following areas: B.A./B.S./B.M. in Music Education; Bachelor of Music Education; Bachelor of Music; B.A./B.S. in Worship Studies; B.A./B.S. in Music and Worship; or equivalent in music, music education, or music and worship.
2. An undergraduate cumulative GPA of at least 3.00 (on a 4.00 scale). Applicants who do not meet this requirement may be considered for enrollment in the program on a cautionary basis. The cautionary range will begin at a GPA of 2.5 through 2.99.
3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer Credit
Transfer students will be required to submit transcripts for evaluation as per the normal process established by the University. Students may transfer up to 18 hours of coursework from an accredited institution. In order to be eligible for transfer, course work must have a minimum grade of B-, and must have been completed within the past 10 years. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements
1. Successful completion of all course, comprehensive exam and thesis or research project requirements (39 semester hours).
2. Students must complete all courses with a 3.00 or higher cumulative GPA.
3. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
4. No more than two (2) grades of C may be applied to the degree (includes grades of C+ & C-).
5. No grade of D may be applied to the degree (includes grades of D+ & D-).
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Degree must be completed within five years.
8. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Residential and Online

- Music Education (M.A.) - Music Studies (p. 653)
Delivery Format: Residential Only

• Music Education (M.A.) - Conducting (p. 652)
• Music Education (M.A.) - Performance (p. 653)

Career Opportunities

• Collegiate music educator
• Director of community music arts program
• Music education supervisor
• Professional music education consultant
• School music administrator

Courses

MUSC 510 Foundations of Music Education 3 Credit Hours
This course provides an overview to the foundational principles, philosophies, and practices in music education. Topics emphasized are: purposes of school music; students as music learners; content and structure of school music programs; and music teacher knowledge and skills. Identification of personal qualities and professional competencies of excellent music teachers will also be discussed.

MUSC 514 Basic Conducting 3 Credit Hours
Basic instruction in conducting techniques for worship leaders in traditional and non-traditional worship settings. Knowledge and skill areas include: posture and hand position, baton usage, foreign and mechanical terms, conducting gestures and patterns, basic score interpretation, and rehearsal management and technique.

Offered: Online

MUSC 515 Graduate Conducting 3 Credit Hours
Intermediate and advanced instruction in choral and instrumental conducting techniques for music educators. Knowledge and skill areas stressed are a review of conducting gestures and patterns; advanced score interpretation, rehearsal management and technique, special challenges in choral and instrumental contexts.

Prerequisites: MUSC 514 or WRSP 010

MUSC 516 Advanced Graduate Conducting 3 Credit Hours
This course is a continuation of WMUS 515 OR MUSC 515 and focuses on developing advanced instruction in conducting techniques in traditional and non-traditional settings. Specific attention is given to the role of the conductor in practical contexts, including 21st century evangelical worship, professional orchestral/choral organizations, and elementary, secondary, and collegiate educational systems.

Prerequisites: MUSC 515

MUSC 522 Introduction to Music Theory 3 Credit Hours
In this course, students learn foundational principles of music theory including: notes, rhythms, intervals, chord construction, and harmonic progressions. Basic arranging and analytical techniques are also explored related to traditional, classical, and popular music styles. This course is designed to prepare students for MUSC 524 or WMUS 524.

Offered: Online

MUSC 524 Analytical Techniques 3 Credit Hours
Prerequisites: MUSC 522
This course is a foundational course for graduate contemporary music theory practices. Systematic and empirical investigations into formal and compositional procedures of selected masterworks from the tonal repertoire. The study includes a thorough investigation of jazz and extended harmonies used in contemporary popular music. Students continue to learn and apply analytical technique to various music styles. Melodic concepts and music form are explored in the literature from historical music periods and compared to present popular music literature and practice. Lectures lead to individual analytical projects. Principles of harmonic function are taught and applied to representative historical and popular music forms.

Registration Restrictions: Students must successfully complete the Graduate Music Theory.

MUSC 525 Advanced Contemporary Arranging Techniques 3 Credit Hours
Prerequisites: MUSC 630
This course is designed to teach and develop advanced skills as an arranger of vocal and instrumental ensembles. Chord chart writing and arranging techniques relevant to the rhythm section (keyboards, bass, guitar, drums, and percussion) and contemporary rhythm idioms will be explained and studied. Students will be expected to demonstrate skill in scoring for pop/rock bands, orchestras, singers, and choirs. A major worship arranging project is required.

MUSC 531 Bibliography and Research in Music Education 3 Credit Hours
Bibliographic research in the field of music education. Students will identify, access, evaluate and interpret music education resources and materials while performing research on music education topics.
MUSC 550 Applied Music 3 Credit Hours
Guitar: Graduate level applied guitar lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Piano: Graduate applied piano lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Voice: Graduate level applied vocal lessons. Instruction includes technical exercises, review of literature, and development of music reading and performance skills in classical and contemporary styles. Woodwinds: Continuation of applied lessons at the graduate level in the woodwind instruments of band and orchestra (Clarinet, Flute, Saxophone, Oboe or Bassoon). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Brass: Continuation of applied lessons at the graduate level in the brass instruments of band and orchestra (Trumpet, Trombone, Tuba, and Horn). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Strings: Continuation of applied lessons at the graduate level in the string instruments of band and orchestra (Violin, Viola, Cello, Bass, Harp). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Percussion: Continuation of applied lessons at the graduate level in the drum set and/or orchestral percussion (Timpani, Snare, Mallet Instruments, and Various Orchestral Percussion). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Conducting: Graduate applied conducting lessons. Instruction includes technical exercises in conducting gestures as well as mentoring in score study and ensemble leadership.

MUSC 560 Ensemble Pedagogy 1 Credit Hour
Prerequisites: MUSC 589
Students study basic rehearsal techniques, synthesize rehearsal methodologies, and apply written and aural theory through large ensemble experience. Students engage in score analysis detailing expected rehearsal problems with appropriate pedagogical solutions.

Registration Restrictions: Consent of instructor.

MUSC 589 Graduate Ensemble 1 Credit Hour
This ensemble is open to all Liberty University graduate students by audition and offers the opportunity to experience and participate in various styles of music. Special attention is given to the preparation and presentations of the Night of Worship (Spring), Christmas on the Boulevard (Fall), and other campus and area events.

Registration Restrictions: Audition or consent of instructor.

MUSC 562 Music in America 3 Credit Hours
Evaluation of various influences contributing to the creation of a unique 'American' musical style. Materials are arranged and discussed in a theoretical/historical framework. Diversity of influences investigated include: European, African American, Afro-Cuban, American Indian, Spanish-Mexican, religious, jazz, blues, folk song, popular, and black gospel. Special attention is given to music of the American Colonies and specific musical influences through the 21st century.

MUSC 630 Principles of Music Technology 3 Credit Hours
The study of computer applications in music, including: competencies in the use of notation software, music recording software; sequencing; using loops in live and recording applications; integrating midi and digital audio; capturing, editing, and storing digital audio data; multi and single tracking; VSTs; and sound shaping.

MUSC 640 History and Philosophy of Music Education in America 3 Credit Hours
In this course, students examine the historical and philosophical development of music education in America traced from its roots in biblical times through recent historical events and trends. Also emphasized are the pedagogical movements in and sociological aspects of music education from the early colonial period through the 21st century. Readings and discussions will emphasize specific subjects including: Ancient Greek music philosophy and aesthetics, music in the medieval universities and the quadrivium, the influences of humanism and the Enlightenment, musical aesthetics related to 19th and 20th century thought, and the current discussion related to aesthetic vs. praxial music educational philosophies.

MUSC 650 Research in Music Education 3 Credit Hours
The purpose of this course is to acquaint students with a variety of research that informs music education in preparation for the final capstone curriculum project or thesis in music education. As part of this course, students expand their understanding of various research methodologies as related to music education. While developing their scholarly writing skills, students learn to critique and apply research techniques.

MUSC 660 Performance Pedagogy & Literature 3 Credit Hours
Students study materials and techniques for teaching beginning and intermediate music students of various ages in class and private lesson settings. Students also explore issues relevant to the advanced performer, such as handling of performance anxiety, physical and psychological well-being, and concerns related to advanced technique. Includes a segment on technological tools. Special attention is given to teaching group lessons at the college level. Provides practical experience under faculty supervision.

MUSC 670 Principles of Curricula and Pedagogy for Music Education 3 Credit Hours
This course helps students engage matters of curricula development and pedagogy through critical evaluation and inquiry. Emphasis is given to curricula and pedagogical models that address practical issues for primary, secondary, and college classrooms.
MUSC 675 Entrepreneurism in Music 3 Credit Hours

Students gain understanding of the individual elements of a business plan, business structures, finance, marketing, management and organizational behavior, and leadership. Students learn entrepreneurial tools particular to the music community, techniques for innovation and creation of new ventures. At the conclusion of the course, students complete a cogent business plan applicable to different endeavors within the community.

MUSC 687 Music Education Curriculum Project 3 Credit Hours

Prerequisites: MUSC 692

This course is designed to provide the student with practical experience in the planning and implementation of a major music education project. This is the completion of the research and curriculum project begun in MUSC 650. In the course, students focus on the development of a site-specific music curriculum, including the philosophical, contextual, and cultural foundations for that curriculum as well as the prospective implementation and assessment of the project. Because the nature of the project is to bring together elements from all previous coursework, it is graded as the Comprehensive Examination for the degree program.

MUSC 689 Masters Thesis Proposal & Research 3 Credit Hours

Prerequisites: MUSC 692

In this course, students complete the Thesis project begun in MUSC 650. The thesis is a comprehensive paper written in a specific music education discipline and selected in consultation between the student and approved faculty. It should illustrate a thorough understanding and mastery of research techniques and demonstrate a level of original discovery suitable for graduate work on the master’s level. Students may not enroll in this class until the last semester of graduate work or until all other course requirements for the degree have been successfully completed. (Crosslisted with WRSP 690)

MUSC 691 Lecture Performance Recital 3 Credit Hours

Prerequisites: MUSC 692

This is a faculty supervised, 55-60 minute lecture recital program. The student must demonstrate the ability to conduct or perform appropriate repertoire for 50 percent of the recital. The student must demonstrate the ability to lecture about their selected repertoire for 50 percent of the recital. Preparation of the recital must demonstrate completion of a serious, formal research paper that documents the repertoire selected, historical information about composers and songwriters, and rationale for stylistic representation.

MUSC 692 Graduate Music Comprehensive Exam 0 Credit Hours

The comprehensive exam/defense is a zero credit written and oral examination that serves as a culminating assessment for the MA in Music Education. The comprehensive exam will be based on courses taken in their distinct MA in Education program, online or residential. The exam is taken as a prerequisite to the Thesis, Lecture Performance Recital, or Curriculum Project. A Pass/Fail Committee decision for the Comprehensive Exam/Oral Defense will be placed in the student’s official file, noted on the DCP Audit, and appear on the student’s transcript.

MUSC 695 Graduate Research in Music 3 Credit Hours

Offered: Resident

MUSC 697 Seminar in Music 1-3 Credit Hours

Music Education (M.A.) - Conducting

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This program is a non-licensure program. Refer to www.liberty.edu/advisingguide

Total Hours 39
Students must successfully complete the Graduate Music Theory Assessment or enroll in and successfully complete MUSC 522 Introduction to Music Theory (3 c.h.) as a prerequisite to MUSC 524 Analytical Techniques (3 c.h.).

Students must successfully complete the Graduate Conducting Assessment or enroll in and successfully complete MUSC 514 Basic Conducting (3 c.h.) as a prerequisite to MUSC 515 Graduate Conducting (3 c.h.).

Any student who will not be able to complete and defend his/her thesis, curriculum project or lecture recital in the course of a single semester may be required to take MUSC 689 Masters Thesis Proposal & Research (3 c.h.) and repeat the course each semester until deemed ready for enrollment in MUSC 687 Music Education Curriculum Project (3 c.h.), MUSC 690 Thesis (3 c.h.) or MUSC 691 Lecture Performance Recital (3 c.h.).

Recommended for students in the Conducting Concentration or the Performance Concentration

All Applicable prerequisites must be met

Graduation Requirements

- Complete 39 hours
  - A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
  - 3.0 GPA
  - No more than two grades of C may be applied to the degree (includes grades of C+ & C-)
  - No grade of D or below may be applied to the degree (includes grades of D+ & D-)
  - Degree must be completed within 5 years
  - Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Resident Format

Program Offered in Resident Format

Master of Arts in Worship Studies (M.A.)
(Non-Music Degree)

Purpose

The Master of Arts in Worship Studies is a 42-hour non-music graduate program that provides students opportunity to study and practice:

1. context-specific biblical and theological competencies in worship;
2. worship theories practical to the local church; and
3. career-specific principles as applied to leadership, worship techniques, Pastoral counseling or ethnomusicology.

The goal is to develop student knowledge and expertise to excel in a variety of worship cultures and contexts within the evangelical community.

Program Learning Outcomes

The student will be able to:

1. Create a worship strategy based on biblical, theological, and philosophical foundations of worship.
2. Synthesize principles of critical contextualization for application to current issues confronting worship leaders in the evangelical tradition.
3. Evaluate literature and research of the discipline for application to the professional practices of worship leaders in the evangelical tradition.

Program Specific Admission Requirements

In addition to the general admission procedures, applicants to the Master of Arts in Worship Studies program must meet the following requirements:

1. Completion of an earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education e.g., SACS, TRACS, ABHE, etc.
2. An undergraduate cumulative GPA of at least 3.00 (on a 4.00 scale). Applicants with a GPA of 2.00 to 2.99 (on a 4.00 scale) may be considered for admission on Academic Caution.
3. TOEFL Scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test, 80 internet-based test).

Transfer Credit

Transfer students will be required to submit transcripts for evaluation as per the normal process established by the University. Students may transfer a maximum of 21 hours of coursework from an accredited institution. In order to be eligible for transfer, course work must have a
minimum grade of C-, and must have been completed within the past 10 years. Credits from a degree on the same academic level previously earned through Liberty University are considered transfer credits.

**Graduation Requirements**

In addition to the other regulations governing graduation, graduates of the *Master of Arts in Worship Studies* program must meet the following requirements:

1. Complete 42 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. Required 2.00 GPA.
4. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
5. Degree must be completed within 5 years.
6. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

**Programs of Study**

**Delivery Format: Residential and Online**

- Worship Studies (M.A.) - Ethnomusicology (p. 657)
- Worship Studies (M.A.) - Leadership (p. 658)
- Worship Studies (M.A.) - Worship Techniques (p. 659)

**Delivery Format: Online Only**

- Worship Studies (M.A.) - African-American Worship (p. 657)
- Worship Studies (M.A.) - Pastoral Counseling (p. 658)

**Career Opportunities**

- Choir director
- Director of international worship ministries
- Director of worship ministries
- Minister of music
- Missionary
- Professor
- Program director for contemporary worship
- Vocational worship leader
- Worship pastor

**Courses**

**WRSP 501 The Dynamics of Corporate Worship** 3 Credit Hours

This course involves a study of the dynamic influences of personal, biblical, historical, professional, and practical worship to the corporate ministry of the local church. Application is made to the presentation and influence of singing, praying, preaching, evangelism, and the great modern revival movements on corporate worship in the church today. Graduate students complete a personal assessment that relates honest, genuine, unhindered, and biblical worship to their own responsibility to music, prayer, evangelism, preaching, and corporate ministry.

**WRSP 502 History and Philosophy of Worship** 3 Credit Hours

This is a study of the history of worship from the Old Testament, the early church, through the modern period. Emphasis is given to changes in worship practices resulting from the Reformation, the Great Awakenings, revival movements, large evangelistic crusades of the 1940s and 1950s, Jesus Movement, and the Praise and Worship movement.

**WRSP 510 Biblical Foundations of Worship** 3 Credit Hours

A study of the principles of worship as found in the Old and New Testaments. Includes study of the Tabernacle as a model of worship, worship in the lives of biblical characters, and the biblical roots of worship practices developed by the early church.

**WRSP 520 The Role of the Worship Leader** 3 Credit Hours

A study of the many and varied roles and relationships of the worship leader. Special emphasis is placed on the relationship between the worship leader and the pastor. Also considered are the relationships between the worship leader and other staff members, singers/instrumentalists, and the congregation.

**WRSP 530 Principles of Leadership for the Worship Leader** 3 Credit Hours

A study of the characteristics and responsibilities of a good leader as they relate to the worship leader. Planning, organizing, staff development, and decision-making are topics of consideration.

**WRSP 540 Current Issues in Worship** 3 Credit Hours

A study of the current trends and issues related to contemporary worship. Consideration is given to various worship models, worship evangelism, cross-cultural issues, and church worship in transition.

**WRSP 545 Global Worship** 3 Credit Hours

A study of worship as observed in biblical examples. Scriptural principles regarding worship are applied to the life of the individual and to individual responsibility in the corporate worship experience. Emphasis is on building a theological orientation for interculturality by understanding the nature of worship as the foundation for building interdependent relationships in the kingdom of God.

**WRSP 551 Building a Balanced Worship Ministry** 3 Credit Hours

This is a course that looks at the various roles the worship leader holds within the mandates of the overall church mission. Consideration is given to the worship leader’s relationship to the local church education and discipleship programs, missions and evangelism outreach ministries, preaching and teaching ministries, women’s and men’s ministries, children, youth and young adult ministries, and creative arts ministries.

**WRSP 595 Directed Research** 3 Credit Hours
WRSP 631 Spiritual Formation for Leading African American Worship  
3 Credit Hours

This course deals with the Biblical foundations for leading African American worship. Included in the study are practical lessons related to God's mandate for worship, integrity and accountability, calling, worship and spiritual obedience, leadership and authority, relationships and Christian graces, discipleship and stewardship, refreshing the soul, and balance in ministry. Students complete a major research project and design a model for 'praxis worship formation' experiences.

Offered: Online

WRSP 632 Emerging Issues in African American Worship  
3 Credit Hours

This course focuses on the cultural, social, inter-generational, and ecclesiastical issues surrounding worship in the black evangelical church community. Issues surrounding social norms and values, inter-generational relationships, reconciliation and multiculturalism, role of the worship leader and the family and the diverse issues in the worshiping community are investigated. Students complete a major writing project based on collaborative research.

Offered: Online

WRSP 635 Building a Theology of Worship  
3 Credit Hours

This course is a comprehensive study of the purpose and practice of a theology of worship in the local church. The study is divided into two parts: Cognitive theology that includes the understanding and discovery of a biblical theology of worship and music; and, practical application of theology which includes developing a strategy for teaching theology as a worship leader. The class is guided by a series of projects whereby students build a personal theology for private and public worship.

WRSP 641 Team Building in African American Worship  
3 Credit Hours

This course deals with principles for team building in the African American worship tradition. Studies include, but are not limited to: working as a pastor/worship leader team, leading from the 'second seat,' organizational management, conflict resolution, principles for developing people skill and personnel management. Students complete a capstone research project and professional practitioner interview.

Offered: Online

WRSP 645 The Role of the Pastor with the Worship Leader  
3 Credit Hours

This is a study of the relationship between the pastor and minister of music/worship leader in a local church. Clarification of the biblical role a pastor has as 'the worship leader' of his congregation is discussed. Responsibilities pastors and ministers of music/worship leaders have to the gospel ministry are defined and articulated. Leadership models are investigated in the light of team building and staff management. Practical application is made through class and small group case studies, interviews, on-location observations, and personal evaluation.

WRSP 650 Bibliography & Research in Music & Worship  
3 Credit Hours

Introduction to research methodologies in preparation for completion of the capstone project in worship and music studies.

WRSP 671 God's People and the History of African American Worship  
3 Credit Hours

This course documents the history of African-American worship through the black experience. Studies include: Africa and its People, The Middle Passage Period, 1750-1890 (Heritage, Colonization, Slavery and the quest for freedom - How God brought this people to this place in History), 1890-1960 A New Age Part 1, 1960-1990 A New Age Part 2, and, 1990-Present - The Way Forward/A New Millennium. Students develop a timeline tracing the African-American worship experience and participate in a capstone research project.

Offered: Online

WRSP 689 Master's Thesis Proposal and Research  
3 Credit Hours

This course is only for students who have not made sufficient progress so as to demonstrate they will be able to complete the thesis or project within the time frame required in WRSP 690: Master's Thesis/Project Defense.

WRSP 690 Thesis  
3 Credit Hours

Prerequisites: WMUS 692

The thesis is a comprehensive paper written in a specific worship discipline and selected in consultation between the student and approved faculty. It should illustrate a thorough understanding and mastery of research techniques and demonstrate a level of original discovery suitable for graduate work on the master's level. The final document should also reflect the ability of the student to integrate the various facets of course preparation to practical research in the field of music and worship.

Note: Any student who will not be able to complete and defend his/her thesis in the course of a single semester may be required to take WRSP 689 - Thesis Proposal and Research, and repeat the course each semester until deemed ready for enrollment in WRSP 690.

WRSP 695 Directed Research in Worship  
1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of worship.

WRSP 697 Seminar in Worship Studies  
1-3 Credit Hours

This course focuses on advanced worship practice within the evangelical and local church community. Student and faculty will work together to develop and tailor assignments to each student's individual preference, professional goals, and objectives for future practice as a worship leader. A major project illustrating the student's ability to apply learned theory to the practical outcomes of a local church is expected.

WRSP 698 Worship Practicum (Apprenticeship)  
1-3 Credit Hours

WRSP 698 - Worship Practicum (Apprenticeship) (1 to 3 hours)
WRSP 699 Graduate Worship Internship  
3-6 Credit Hours

**Prerequisites:** WMUS 692

Requires 9 - 12 months of supervised experience in an approved worship ministry. Internships are awarded to students receiving an invitation from one of the approved ministries participating in the 'LU Worship Department Graduate Mentoring Program.' The student is to submit a proposal for internship placement one semester in advance and approved by the Chair of the Graduate Program. Special consideration is given to student giftedness, talent, leadership skill and spiritual maturity as related to local ministry needs. At the conclusion of the internship, the student must demonstrate completion of a serious, formal research paper that documents how the internship promoted formational, transformational, relational, missional, and reproducible worship in their own ministry.

**Registration Restrictions:** Completed application to the Coordinator of the Graduate Program.

**Worship Studies (M.A.) - African-American Worship**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Doctor of Nursing Practice (D.N.P.)

Purpose
The purpose of the Liberty University School of Nursing's Doctor of Nursing Practice program is to prepare nurses for advanced nursing practice roles with a commitment to Christian ethical standards to transform healthcare through leadership and clinical practice.

Accreditation
The Doctor of Nursing Practice program at Liberty University is accredited by the Commission on Collegiate Nursing Education:

655 K Street NW
Suite 750
Washington, DC 20001
Program Specific Admission Requirements

Admission to the Doctor of Nursing Practice program is a competitive process. The applicants who meet the admission requirements are not guaranteed acceptance. The program offers a Post-BSN DNP with Family Nurse Practitioner specialization and Post-MSN DNP. The DNP program also offers a Post-MSN DNP Psychiatric Mental Health Nurse Practitioner program and a Post-Graduate Psychiatric Mental Health Nurse Practitioner Certificate program for MSN or doctoral prepared licensed and certified nurse practitioners.

Admission standards for Post - BSN DNP Family Nurse Practitioner include:

1. Complete a Graduate School Application form.
2. Graduate of a nationally accredited school of nursing (National League of Nursing Accrediting Commission) (NLNAC) or the Commission on Collegiate Nursing Education (CCNE).
3. Earned Bachelor of Science Degree in Nursing, or Master of Science in Nursing (for students seeking DNP with Family Nurse Practitioner specialty certification.)
4. Current, unencumbered RN license issued in the Commonwealth of Virginia, or the state of North Carolina, Tennessee or Maryland. Please submit a copy of your RN license to luoverify@liberty.edu.
5. (If applicable) Advanced practice license and associated certification. Advanced practice Licenses must be current and unencumbered and issued in Virginia, or the state of North Carolina, Tennessee or Maryland. A copy of certification must be also provided in addition to license.
6. If past sanction or disciplinary action exists on a professional license, the applicant may be contacted by the Nursing Admissions Review Committee for further explanation.
7. If student has an advanced practice certification: Verification of professional certification as an advanced practice nurse (Nurse Practitioner, Nurse, Clinical Nurse Specialist) Nurse Leaders may hold national certification in Nursing Administration, not required but preferred.
8. GPA 3.0 or above in most current nursing program completed (BSN or MSN).
10. Contact information for three recommendations: Academic-professor, Professional-physician or nurse manager, Personal-pastor, colleague or friend.
11. Curriculum Vitae.
12. One year professional nursing experience prior to enrollment in the practicum course (NURS 730 Family Nurse Practitioner Practicum I (2 c.h.) or NURS 740 Family Nurse Practitioner I (1 c.h.)) for the DNP/ FNP program.
13. Undergraduate statistics course.
14. Undergraduate research methods course.
15. Undergraduate health assessment course.
16. Writing Sample (not to exceed 3000) words – A document discussing introduction and world view, professional experience/ goals, and vision for professional practice including scholarly project.
17. TOEFL if applicable.
18. CPR Certification American Heart Association BLS for Health Care Providers with AED.
19. Interview with nursing faculty (in person, telephone or electronic).
20. Background check, drug and finger print screening.
21. Immunization/Physical Exam Form.
22. Ability to meet Essential Attributes Requirements.

Admission standards for Post - MSN DNP include:

1. Complete a Graduate School Admission Application form.
2. Official transcript for MSN degree from a nationally accredited school of nursing: (National League of Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE).
3. Earned Master of Science Degree in Nursing, specialty in an advanced practice role-Family Nurse Practitioner or Clinical Nurse Specialist, or Nurse Leader.
4. Current, unencumbered RN license issued in the Commonwealth of Virginia, or the state of North Carolina, Tennessee or Maryland. Please submit a copy of your RN license to luoverify@liberty.edu.
5. Current, unencumbered APRN Nurse Practitioner license issued in the Commonwealth of Virginia, or the state of North Carolina, Tennessee or Maryland. Please submit a copy of your APRN license to luoverify@liberty.edu.
6. If a past sanction or disciplinary action exists on a professional license, the applicant may be contacted by the Nursing Admissions Review Committee for further explanation.
7. Verification of professional certification as an advanced practice nurse (Nurse Practitioner, Nurse, Clinical Nurse Specialist) Nurse Leaders may hold national certification in Nursing Administration, not required but preferred.
8. GPA 3.0 or above in all previous graduate course work.
9. Writing Sample (not to exceed 3000) words – A document discussing introduction world view, professional experience goals and vision for personal practice including scholarly project.
10. Verification of practicum hours from graduate program director.
11. TOEFL if applicable.
12. CPR Certification American Heart Association BLS for Health Care Providers with AED.
13. Background, drug and finger print screening.
15. Ability to meet Essential Attributes Requirements.

Note: All students enrolled in both pathways must also hold current American Heart Association CPR certification, and complete a background check, physical examination and immunizations, OSHA training and HIPPA training and/or other requirements as designed by specific practicum sites.

Fast Track

Admission criteria for Fast Track Post - MSN DNP include:

1. Graduate School Application (waive fee).
2. Graduate from the Liberty University MSN program within the past one year.
3. Writing Sample.
4. Supplemental admission requirements – maintain compliance in CastleBranch.

Program Learning Outcomes

The student will be able to:
1. Integrate nursing science, theory research and scholarship into advanced nursing practice.
2. Design effective health care environments to improve quality, cost-effectiveness and outcomes.
3. Apply evidence and clinical scholarship to support clinical/systems decision making, policy and advocacy.
4. Utilize information systems and technology to support decision-making and improve outcomes.
5. Extend knowledge of clinical prevention, population health, and policy through application of evidence and collaboration with stakeholders and professionals.
6. Apply evidence-based advanced clinical decision-making and culturally competent care to individuals, families and populations.
7. Integrate the Christian World view into the delivery of care of diverse populations.

Admission standards for Post - MSN DNP Psychiatric Mental Health Nurse Practitioner Program include:

1. Complete a Graduate School Admission Application form.
2. Graduate of a nationally accredited school of nursing (National League of Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE).
3. Earned Master of Science Degree in Nursing with specialty as nurse practitioner: population foci such as family, pediatrics, acute, and adult/geriatrics.
4. Current, unencumbered RN license issued in the Commonwealth of Virginia, or the state of Tennessee or Maryland. Please submit a copy of you RN license to luoverify@liberty.edu.
5. Current, unencumbered APRN Nurse Practitioner license issued in the Commonwealth of Virginia, or the state of Tennessee or Maryland. Please submit a copy of your APRN license to luoverify@liberty.edu.
6. If a past sanction or disciplinary action exists on a professional license, the applicant may be contacted by the Nursing Admissions Review Committee for further explanation.
7. Verification of professional certification as an advanced practice nurse (Nurse Practitioner); submit to luoverify@liberty.edu.
8. GPA 3.0 or above in all previous graduate course work.
10. Contact information for one recommendation - professional/academic/personal.
11. Must have completed a graduate-level health assessment course, graduate-level pathophysiology course and graduate-level pharmacology course, all taught across the life span.
12. Writing Sample (not to exceed 3000) words – A document discussing introduction world-view, professional experience goals and vision and scholarly project.
13. Verification of practicum hours from graduate program director.
14. TOEFL if applicable.
15. CPR Certification American Heart Association BLS for Health Care Providers with AED
16. An interview may be requested for selected applicants. Please note that not all applicants will be requested to interview with the School of Nursing. Interviews can be conducted remotely, as needed.
17. Background, drug and fingerprint screening
18. Immunization/Physical Exam Form
19. Ability to meet Essential Attributes Requirements.

Program Learning Outcomes
The student will be able to:

1. Integrate nursing science, theory research and scholarship into advanced nursing practice.
2. Design effective health care environments to improve quality, cost-effectiveness and outcomes.
3. Apply evidence and clinical scholarship to support clinical/systems decision making, policy and advocacy.
4. Utilize information systems and technology to support decision-making and improve outcomes.
5. Extend knowledge of clinical prevention, population health, and policy through application of evidence and collaboration with stakeholders and professionals.
6. Apply evidence-based advanced clinical decision-making and culturally competent mental health care to individuals, families and populations.
7. Integrate the Christian World view into the delivery of care of diverse populations.

Graduation Requirements for Post - BSN DNP
1. Complete 78 hours.
2. A minimum of 72 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
3. A maximum of 6 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. 3.0 GPA
5. Students must complete all coursework with a GPA of 3.0 or greater and maintain an overall GPA of 3.0. Students must maintain a GPA of 3.0 to remain in the program, with no grade lower than a B. All course grades averaged into the GPA course work towards degree completion must be B or above. Students may repeat one grade of B-, C+, C or C-. The most recent grade will be calculated in the GPA. A grade of B-, C+, C or C- received in a second course or any grade below C will result in dismissal from the program. Any grade of B- or below will not be applied to the degree. There shall be no unresolved reports of the Academic or Personal Honor Code, or pending reviews.
6. For information regarding the repeat policy, please refer to "Course Repeat Policy" in the Academic Information and Policies section of this Catalog.
7. Successful completion of Comprehensive Exam.
8. Successful completion of 1,232 Practicum hours.
9. Degree must be completed within 5 years.
10. Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date.

Graduation Requirements for Post - MSN DNP
1. Complete 41 hours.
2. A minimum of 35 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
Doctor of Nursing Practice (D.N.P)

3. A maximum of 6 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.

4. 3.0 GPA.

5. Students must complete all coursework with a GPA of 3.0 or greater and maintain an overall GPA of 3.0. Students must maintain a GPA of 3.0 to remain in the program, with no grade lower than a B. All course grades averaged into the GPA course work towards degree completion must be B or above. Students may repeat one grade of B-, C+, C or C-. The most recent grade will be calculated in the GPA. A grade of B-, C+, C or C- received in a second course or any grade below C- will result in dismissal from the program. Any grade of B- or below will not be applied to the degree. There shall be no unresolved reports of the Academic or Personal Honor Code, or pending reviews.

6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.

7. Successful completion of 560 Practicum hours.

8. Degree must be completed within 5 years.

9. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Commission on Collegiate Nursing Education (CCNE) requires all DNP students to complete at least 1,000 practicum hours post-BSN. Program of Study

Delivered Format: Resident and Online
• Nursing Practice (D.N.P) - Family Nurse Practitioner (p. 673)

Delivered Format: Online Only
• Nursing Practice (D.N.P) (p. 672)
• Nursing Practice (D.N.P) - Psychiatric Mental Health Nurse Practitioner (p. 674)

Students who are interested in teaching nursing are encouraged to take the Nurse Educator Elective Sequence.

Courses
NURS 700 Advanced Nursing Research 3 Credit Hours
This course applies a variety of methods used for practice improvement through synthesis of the literature. The use of these methods, such as action research, program evaluation, and quality improvement will be explored through critical analysis of each.

D. in Nursing Education program Note: (BSN-DNP only)
Registration Restrictions: Admission to DNP program or Admission to the Ph.

NURS 711 Advanced Physiology/Pathophysiology 3 Credit Hours
This course provides the student with an understanding physiology and pathophysiology for advanced practice nurses. An emphasis on homeostasis, systems interactions, and pathophysiology will be the foundation for case-based learning of common diseases and conditions seen in primary care.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.
Offered: Resident and Online
NURS 712 Advanced Health Assessment for Nurse Practitioners  
3 Credit Hours

Prerequisites: NURS 711

This course provides the student with knowledge, skills, and attitudes to perform physical, psychosocial, and spiritual advance health assessments of clients across the life span. Emphasis is on acquisition of advanced skills and analysis of relevant data to conduct a comprehensive history including the ability to perform client-centered health assessments. The course will focus on normal vs. abnormal findings, symptom/health problem assessment, selection and interpretation of diagnostic tests, and screenings and differential diagnosis to develop a management plan. Culturally competent patient education, health promotion and clinical prevention considerations will be integrated into the provision of care of the individual and family. This course includes lecture and lab.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 713 Advanced Pharmacology for Nurse Practitioners  
3 Credit Hours

Prerequisites: NURS 711 and NURS 712

This course is designed to provide clinical application of the pharmacology and pharmacotherapeutics of common conditions and diseases across the lifespan encountered by the advanced practice nurse in primary care. The role of pharmacokinetics and pharmacodynamics will be applied. Emphasis is on the development of client-centered prescriptive decisions within the context of outcomes, safety, quality and costs.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 715 Theoretical Application for Advanced Practice Nursing  
3 Credit Hours

This course will analyze the nature of theory and theory development in nursing. Students will examine nursing theory, apply theory to practice, practice change, and scholarship. Application of advanced levels of clinical judgment and accountability in the design, development, and evaluation of evidence-based care will occur.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 716 Applications of Evidence-Based Care  
3 Credit Hours

Prerequisites: NURS 715 and NURS 700

The course is designed to support advanced practice nurses in the translation of nursing research to the use of research that will impact nursing practice. This course will serve as a touchstone for exploring the concept of Evidence Based Care (EBC). Evidence-based practice models will be examined and contrasted. Students will have the opportunity to appraise current research in their practice interests which will support students in developing improved practice guidelines, design processes to examine and disseminate findings. The course emphasizes the evaluation of research in the discipline of nursing and its application to professional practice both at the individual, family and population levels. The assimilation of knowledge, comparison to established benchmarks and research outcomes serve as a foundation to plan and develop innovations that influence quality care across practice settings and disciplines.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

NURS 718 Informatics, Technology and Trends for Transforming Health Care  
3 Credit Hours

Prerequisites: NURS 715 and (NURS 700 or Grad Rsrch Methods (NURS 500) with a score of 3)

This course explores various applications of informatics as well as current trends for health care delivery across a variety of settings. Students will analyze and evaluate information systems and patient care technology, as well as the impact on the delivery of care in all practice settings. Advanced clinical applications of technology will be emphasized with various populations including those in clinical settings, aggregate populations at risk and the community as a whole. Students will explore utilization of technology applicable to advanced practice such as: guiding evidenced-based practice, providing patient education, promoting health and wellness, improving clinical workflow, and administrative applications. The advanced role related to information systems will be examined, including working with interdisciplinary groups to select and maintain nursing information systems and serving as a credible resource for legal and ethical situations related to information technology.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

NURS 721 Leadership, Policy and Ethics  
3 Credit Hours

Prerequisites: NURS 715

This course will provide a study of principles and knowledge of organizational leadership and advanced communication abilities that support an improved quality of care delivery as well as improved outcomes. Consultative and leadership approaches that facilitate collaboration are explored. The advanced practice role of nursing as it pertains to policy development, championing change, and inspiring clinical innovation are examined. National and global policy issues are highlighted, with specific attention placed on the ethical aspects of health policy development.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.
NURS 722 Nursing Theory Development 3 Credit Hours

This course examines the nature of nursing knowledge and the development of its underpinnings. Various approaches to concept and/or theory development, analysis, and evaluation are examined and applied. The course explores the connections between research, theory and practice as it relates to the development of nursing knowledge.

Offered: Online

NURS 730 Family Nurse Practitioner Practicum I 2 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 733 (may be taken concurrently) and NURS 734 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This practicum course introduces the student to the nurse practitioner role in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial and spiritual care through taking health histories, conducting physical examinations, and build skills in diagnostic reasoning. Principles of clinical prevention/health promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

Registration Restrictions: Prerequisites: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 732 Interprofessional Collaboration and Outcomes Management for Quality in Health Care 3 Credit Hours

Prerequisites: NURS 715 and NURS 716 and NURS 721 and (NURS 718 (may be taken concurrently) and NURS 732 and NURS 733 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on a collaborative approach to patient centered care. The emphasis is on the values and ethics of inter-professional practice, roles and responsibilities, interprofessional communication skills, and team work to manage outcomes and improve quality. Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 733 Women’s Health 3 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 716 and NURS 718 and NURS 721 and NURS 732 and NURS 733 (may be taken concurrently) and NURS 734 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on the development of knowledge and skills in clinical assessment, intervention and management of women’s health in diverse populations across the lifespan. The integration of research and theory underpin clinical decision making, health promotion and clinical prevention to support holistic client-focused care.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 734 Family Nursing I: Acute Health 3 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 716 and NURS 718 and NURS 721 and NURS 732 and NURS 730 (may be taken concurrently) and NURS 733 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on the care of individuals across the lifespan and families in the primary care setting. Theory and clinical foundations of evidenced based advanced nursing practice prepare the student to manage acute health care problems common to the primary care setting. An emphasis on assessment, diagnosis and management of acute health conditions within the context of ethnic, culture and community will be promoted.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 735 Infant and Children’s Health 3 Credit Hours

Prerequisites: NURS 730 and NURS 734

This course focuses on the development of knowledge and skills in clinical assessment, intervention, and management of acute and chronic conditions seen in infants through early adulthood in primary care. The integration of research and theory underpin clinical decision making, health promotion, and clinical prevention to support holistic client/family centered care. Students will demonstrate an understanding of genetic and genomic influences on infant’s and children’s health, and services including client/family education.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 736 Family Nurse Practitioner Practicum II 4 Credit Hours

Prerequisites: NURS 730 and NURS 733 and NURS 734 and NURS 735 (may be taken concurrently) and NURS 737 (may be taken concurrently)

This practicum course builds on the skills developed in Family Nurse Practitioner Practicum I. Students will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. Students will manage episodic and follow up visits for chronic health and complex acute care issues. Under the guidance of the preceptor, the student will demonstrate evidence-based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop a plan of care to manage disease states or conditions. Students will provide physical, psychosocial, and spiritual care to the individuals and families through the integration of ethnicity, culture, and community.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.
NURS 737 Family Nursing II: Chronic Health 3 Credit Hours

Prerequisites: NURS 730 and NURS 733 and NURS 734 and NURS 735 (may be taken concurrently) and NURS 736 (may be taken concurrently)

This course focuses on the care of individuals across the lifespan and families in the primary care setting. Theory and clinical foundations of evidenced based advanced nursing practice prepare the student to manage chronic health care problems common to the primary care setting. An emphasis on assessment, diagnosis and management of chronic health conditions within the context of ethnic, culture and community will be promoted.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 740 Family Nurse Practitioner I 1 Credit Hour

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 734 (may be taken concurrently) and NURS 735 (may be taken concurrently)

This practicum course introduces the student to nurse practitioner role in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial, and spiritual care through health history taking, conducting physical examinations, and build skills in diagnostic reasoning. Principles of health prevention/promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

Registration Restrictions: Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Resident

NURS 741 Family Nurse Practitioner I 1 Credit Hour

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 734 (may be taken concurrently) and NURS 735 (may be taken concurrently)

This practicum course supports the student to continue in the role of nurse practitioner in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial, and spiritual care through health history taking, conducting physical examinations, and build skills in diagnostic reasoning. Principles of health prevention/promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

Registration Restrictions: Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online

NURS 742 Nursing Seminar: Issues in Global Health 2 Credit Hours

Prerequisites: NURS 735 and NURS 736 and NURS 737 and NURS 838 (may be taken concurrently)

This seminar is designed to provide students with knowledge and skills to address global health issues through assessment, interventions, planning, and evaluation to promote health at the individual/family/ population level. Students will explore cultural intelligence and develop strategies to deliver culturally competent care. Care and treatment of common diseases and conditions seen in underdeveloped and developing countries will be discussed within the context of issues such as poverty, societal norms and values. The impact of globalization on the delivery of health care in the United States will also be examined.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 743 Family Nurse Practitioner II 2 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 740 and NURS 733 and NURS 737 (may be taken concurrently)

This practicum course builds on the skills obtained in Family Nurse Practitioner I. The student will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. The student should manage episodic and follow up visits for chronic health and complex acute care issues. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics and develop a plan of care to manage disease states or conditions under the guidance of the preceptor. The student should provide physical, psychosocial, and spiritual care to the individuals and families through the integration of ethnicity, culture, and community.

Registration Restrictions: Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online

NURS 744 Family Nurse Practitioner II 2 Credit Hours

Prerequisites: NURS 730 and NURS 734 and NURS 733 (may be taken concurrently) and NURS 737 (may be taken concurrently)

This practicum course continues to build on the skills obtained in NURS 743. The student will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. The student should manage episodic and follow up visits for chronic health and complex acute care issues. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop a plan of care to manage disease states or conditions under the guidance of the preceptor. The student should provide physical, psychosocial, and spiritual care to the individuals, and families through the integration of ethnicity, culture, and community.

Registration Restrictions: Admission into the Doctorate of Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online
NURS 750 Spiritual Care 3 Credit Hours

This course will examine the interrelatedness of spirituality and the practice of nursing. The primary orientation of the course will be that of the Christian worldview. Historical perspectives on spiritual care will be incorporated with the healing arts. Contemporary models such as parish nursing will be explored. The spiritual needs of the caregiver will be identified and support opportunities will be examined.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 751 Neurobiology and Differential Diagnosis of Mental Disorders 3 Credit Hours

This foundational course focuses on mental disorders across the lifespan. Based on anatomy, physiology, and pathophysiology, this course examines underlying causality including injury, trauma, developmental, genetic, infection and disease including degeneration. The relationship to support homeostasis between the body and brain, and within the brain will be explored. This course also integrates the use of case-based learning to approach differential psychiatric diagnoses. Students will gain skills in interviewing, observation, and the use of and interpretation of screening, tools, behavioral assessments and diagnostic tests. Case studies will be based on the most current edition of the Diagnostic and Statistical Manual for Mental Disorders (DSM 5) and other appropriate diagnostic tools and methods.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Resident and Online

NURS 752 Clinical Psychopharmacology 2 Credit Hours

Prerequisites: NURS 751 (may be taken concurrently)

This course provides a case-based approach to utilizing best practices and principles for using psychopharmacology to treat mental illness and disorders across the lifespan. The course examines neuropharmacological mechanisms, pharmacodynamics, and drug interactions of commonly used psychotropic drugs. Emphasis is on the development of client-centered prescriptive decisions within the context of outcomes, safety, quality, and costs.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Resident and Online

NURS 753 Psychotherapeutic Theories, Frameworks, and Modalities 3 Credit Hours

Prerequisites: NURS 752 (may be taken concurrently)

This course provides an overview of theories, frameworks, modalities and best practices related to psychotherapeutic treatments and management of mental health disorders across the lifespan. The integration of the application of evidence-based psychotherapies and psychotherapeutic case formulation, treatment for the management of disorders, symptoms and issues. Cognitive Behavioral Therapy and Motivational interviewing will be integrated through a case-based learning experience.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Online

NURS 754 Psychiatric Mental Health Nurse Practitioner Practicum I Adult/Gero 4 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753

This practicum course provides extensive experience to prepare the student for the professional role of a psychiatric mental health nurse practitioner. Students will provide interviewing, screening, diagnostic testing, episodic, acute and chronic care to adult and geriatric clients. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret screening/diagnostics tests, prescribe therapeutics, and develop health prevention/promotion and health maintenance plans. Students should be able to assess adults and geriatric clients and develop a plan of care in consultation with the preceptor. The student should provide holistic care through the integration of ethnicity, culture and community.

Offered: Resident and Online

NURS 755 Psychiatric Mental Health Nurse Practitioner Practicum II Pediatrics/Family 5 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753 and NURS 754

This practicum course provides extensive experience to prepare the student for the professional role of a psychiatric mental health nurse practitioner. Students will provide interviewing, screening, diagnostic testing, episodic, acute, and chronic care to pediatrics, clients and families. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret screening/diagnostic tests, prescribe therapeutics, and develop health prevention/promotion and health maintenance plans. Students should be able to assess the pediatric client, and families and develop a plan of care in consultation with the preceptor. The student should provide holistic care through the integration of ethnicity, culture and community.

Offered: Resident and Online
NURS 764 Learning Theories and Teaching Methods for Nurse Educators  
3 Credit Hours

This course provides an overview of major research based theories of adult learning and knowledge development. Application of theory to the planning and execution of various phases of curriculum across a variety of educational settings is explored. Students will engage in self-reflection to improve teaching practices through strategies such as use of personal attributes, demonstrating enthusiasm for nursing and the teaching-learning process, use of technology, and respect for the learner. Individual learning styles and unique needs of students will be explored, including international, adult, multicultural, educationally disadvantaged, physically challenged, at-risk, and second degree learners. Students will be encouraged to develop an individual teaching style utilizing research based theory and engage in continuous self-evaluation as life-long learners.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 765 Curriculum Development and Program Evaluation for Nurse Educators  
3 Credit Hours

This course prepares the student to design, implement, and evaluate curriculum. Research and evidenced-based theories will be applied to the process of curriculum development and program evaluation. The role of the faculty member in curriculum design and program evaluation will be explored.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 766 Advanced Evaluation Strategies for Nurse Educators  
3 Credit Hours

Prerequisites: NURS 764 and NURS 765

This course provides an overview of theories on educational measurement and evaluation. Methods of evaluating teaching effectiveness, student learning, and student performance are explored with emphasis on test construction and analysis.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 767 Transition to the Nurse Educator Role  
3 Credit Hours

Prerequisites: NURS 766

In this precepted practicum, students will engage in the development and deliverance of classroom, laboratory, and clinical teaching assignments in nursing. Students will integrate philosophical foundations, educational theory, and nursing knowledge to promote active learning.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

Offered: Online

NURS 784 Assessment and Accreditation for Nursing Programs  
3 Credit Hours

This course examines the process of curriculum design and development from the perspective of faculty and administration. Curricula are analyzed from the context of program evaluation and accreditation standards. Various instructional design models are applied to nursing courses.

Offered: Online

NURS 815 Quantitative Methods of Research  
3 Credit Hours

Prerequisites: EDUC 812

This course is designed for those planning to write a dissertation. An examination of quantitative designs for Nursing research topics will be considered. These are: Developing a research problem, Reviewing the Literature, The Hypothesis, Descriptive Statistics, Sampling and Inferential Statistics, Tools of Research, Validity and Reliability, Experimental Research Designs, Ex Post Facto Research, Correlational Research, Survey Research, Guidelines for Writing a Quantitative Research Proposal, and Interpreting and Reporting Results of Quantitative Research.

Offered: Online

NURS 817 Qualitative Methods of Research  
3 Credit Hours

Prerequisites: EDUC 812

This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents.

Offered: Online

NURS 820 Comprehensive Exam  
0 Credit Hours

Prerequisites: NURS 721 and NURS 716 and NURS 834 and NURS 718 and NURS 836 and NURS 832 and NURS 732 and NURS 731

The comprehensive exam must be completed successfully prior to enrollment in NURS 839. The exam will be administered during NURS 820, a non-credit course designed to administer the comprehensive exam. Exams are administered during the fall, spring, and summer semesters. Students may repeat the exam once for a total of two attempts at passing the comprehensive exam. Students not passing the exam on the second attempt will be dismissed from the program. Registration Restrictions: Admission into the Doctor of Nursing Practice Program; must have completed all coursework except practicum (excludes optional educator courses)

NURS 821 Comprehensive Exam: Psychiatric Mental Health Nurse Practitioner  
0 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753 and NURS 754 and NURS 755

NURS 821 is a comprehensive exam designed to demonstrate competencies for the Psychiatric Mental Health Nurse Practitioner students.

Offered: Resident and Online
NURS 832 Clinical Prevention and Biostatistics 3 Credit Hours

Prerequisites: NURS 715 and NURS 716 and NURS 718 and NURS 721 and Grad Biostatistics with a score of 3

This course provides an overview of epidemiologic principles and biostatistical methods for evaluation and implementation of evidence-based changes in clinical practice to enhance the quality of care and to predict and analyze outcomes. Students will apply descriptive and inferential statistics to examine aggregate data. Health data will be disseminated to further enhance clinical prevention efforts.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

Offered: Online

NURS 833 Higher Educational Leadership 3 Credit Hours

This course examines various topics relevant to nursing leaders in higher education. Leadership demands specific to higher education are examined. The structure and function of college and university settings are explored. Current issues that affect higher education are discussed.

Offered: Online

NURS 834 Health Care Operations and Financial Management 3 Credit Hours

Prerequisites: NURS 832

This course will examine the constructs of health care operations and students will apply these for the purposes of strengthening the advanced nurses' practice effectiveness in organizational collaboration and leadership. Students will demonstrate conceptual ability and skills to evaluate and monitor outcomes through data extrapolation. Students will examine the principles of public and private financing as they apply. Problem-based activities will assist the student in developing a working knowledge of subsidization, vulnerable populations, and the impact of global health system shocks.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

NURS 835 Theories of Nursing 3 Credit Hours

This course explores the scholarly development of the discipline of nursing. The historical, educational, contemporary, scientific, and professional influences of theoretical knowledge in nursing are explored. The conceptual basis of various nurse theorist are analyzed. This course prepares students to select an appropriate theoretical framework for use in their dissertation.

Offered: Online

NURS 836 Translational Research in Health Care 3 Credit Hours

Prerequisites: NURS 715 and NURS 716 and NURS 718 and NURS 832

This course is designed to support an understanding of concepts in knowledge translation (KT), methods, and models for evaluation of research, and findings to translate knowledge into best practice protocols. A translational model is used to support knowledge translation from scholarly evidence that will influence outcomes. The steps in the research process are examined to support a comprehensive plan in preparation for the scholarly project. The content includes the development of a research question, identifying an appropriate sample, identifying appropriate strategies for data collection and analysis, and emphasizing the importance of the protection of human subjects. The course provides students with a foundation for developing a scholarly proposal.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

Offered: Online

NURS 837 Grant Writing and Publication 3 Credit Hours

This course is designed to provide writing experiences which prepare the learner for manuscript and grant proposal submissions. This introductory experience into the grant process from proposal to funding to management will include project management, funding sources, and funding challenges. Other course requirements include a research proposal (manuscript) that is ready for submission for publication and development of a dissertation proposal.

Offered: Online

NURS 838 Family Nurse Practitioner Practicum III 5 Credit Hours

Prerequisites: NURS 736

This practicum course provides extensive experience to prepare the student to enter the professional role of a family nurse practitioner. Students will provide wellness exams, episodic, acute, and chronic care to individuals across the lifespan. The student will demonstrate evidence-based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop clinical prevention/health promotion and health maintenance plans. Students will be able to assess individuals and/or families and develop a plan of care in consultation with the preceptor. The student will provide physical, psychosocial, and spiritual care to individuals and families through the integration of ethnicity, culture, and community.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.
NURS 839 Proposal Development 2 Credit Hours

**Prerequisites:** NURS 716 and NURS 832 and NURS 836 and (NURS 700 or Grad Ranch Methods (NURS 500) with a score of 3)

This course is designed to apply the knowledge and skills developed in previous research and related coursework and apply them to the Scholarly Project process. Students will be required to apply scholarly writing skills and an understanding of expectations of the scholarly project to develop a scholarly proposal. Students will be guided through the development of a Scholarly Project proposal and must successfully defend the proposal at the end of the course. At the completion of this course, CITI training and all Scholarly Project tutorials must be completed.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 840 DNP Practicum I 2 Credit Hours

**Prerequisites:** NURS 839

This course provides the student an opportunity to develop in the role as a systems leader at the micro level under the supervision of a preceptor, guided by a faculty member. Students will execute their practicum at a pre-approved site. Students will establish individualized practicum goals and objectives that create a framework for the experience. A learning contract will result between students and preceptor(s), and must receive faculty approval prior to accrual of practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will begin their Scholarly Project concurrently with this course. The student will utilize the Scholarly Project Portal, faculty and other supportive infrastructure to further their Scholarly Project. Students must generate and successfully present/defend a Scholarly proposal concurrently with this course under the guidance of their project Chair/committee.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 841 DNP Practicum II 2 Credit Hours

**Prerequisites:** NURS 840

This course provides students an opportunity to engage more deeply in the role as a systems leader at micro level under the supervision of a preceptor, guided by a faculty member. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership, and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students’ starting practicum hours, course faculty must approve of practicum activities that support achievement of goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 842 DNP Practicum III 2 Credit Hours

**Prerequisites:** NURS 841

This course provides the student an opportunity to engage in the role as a systems leader at the meso level. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership, and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to further their scholarly project concurrently with this course. Students must submit a complete first draft of the Scholarly project under the guidance of their project Chair/committee.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 843 DNP Practicum IV 2 Credit Hours

**Prerequisites:** NURS 842

This course provides the student an opportunity to fully integrate into the role of the advanced practice nurse at the macro level. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership, and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students’ starting practicum hours, course faculty must approve of practicum activities that support achievement goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Project Handbook, faculty and other supportive infrastructure to further their Scholarly Project concurrently with this course. Students must submit a complete second draft of the Scholarly Project under the guidance of their project Chair/committee.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.
NURS 844 DNP Practicum V 4 Credit Hours

Prerequisites: NURS 843

This course provides the student an opportunity to lead macro systems change based on dissemination of evidence based practice findings at the highest level of advanced practice nursing. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will disseminate findings and finalize work on the Scholarly project culminating in a publishable manuscript. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to complete their Scholarly project concurrently with this course. Students must successfully defend the final Scholarly project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 915 Advanced Quantitative Methods of Nursing Research 3 Credit Hours

Prerequisites: NURS 815

This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

Offered: Online

NURS 917 Advanced Qualitative Methods of Nursing Research 3 Credit Hours

Prerequisites: NURS 817

This course addresses the skills and knowledge necessary for completion of a qualitative dissertation, including research design, data analysis and representation, methods for increasing trustworthiness, and ethical considerations in research with human subjects.

Offered: Online

NURS 980 Nursing Comprehensive Exam 0 Credit Hours

Prerequisites: NURS 700 and NURS 721 and NURS 722 and NURS 835 and EDUC 703 and NURS 764 and NURS 765 and NURS 766 and NURS 784 and NURS 833 and EDUC 812 and NURS 815 and NURS 817 and NURS 837 and (NURS 915 or NURS 917)

A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation planning.

Registration Restrictions: Completion of all PhD in Nursing: Concentration in Nursing Education coursework prior to dissertation courses.

Offered: Online

NURS 987 Dissertation Planning 5 Credit Hours

Prerequisites: NURS 980

This course is the initial step for students and faculty to actualize the student’s research project. It provides a focused study of the problem, purpose, significance, theoretical framework, biblical integration, and important literature relevant to the proposed project. Students will prepare and defend their doctoral dissertation proposal during this course.

Offered: Online

NURS 988 Dissertation I 5 Credit Hours

This course is the second step for students and faculty to actualize the student’s dissertation. Students will also progress through the IRB process and begin to conduct their research.

Offered: Online

NURS 989 Dissertation II 5 Credit Hours

During this course students will conduct their analysis, present their findings, comments, and recommendations, and prepare for final defense of their dissertation.

Offered: Online

NURS 990 Dissertation Defense 0 Credit Hours

Prerequisites: NURS 989

This course is the last step in the dissertation process. Students will defend their dissertation and finalize their dissertation manuscript for publication.

Registration Restrictions: Dissertation Chair Approval.

Offered: Online

Nursing Practice (D.N.P.)

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours: 41

1 Intensive format optional  
2 Practicum hours required  
3 An optional one-week residential intensive in addition to practicum (NURS 844 DNP Practicum V (4 c.h.)) may be available  
4 NURS 844 DNP Practicum V (4 c.h.) may be repeated in order to allow the student more time to complete the required practicum hours. Students are able to re-enroll with the approval of Nursing Department and enrollment must not exceed four times

All applicable prerequisites must be met

### Graduation Requirements

- Complete 41 hours
- A minimum of 35 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 6 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than B may be applied to the degree
- Successful completion of 560 Practicum hours
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

1 Commission on Collegiate Nursing Education (CCNE) requires all DNP students to complete at least 1000 practicum hours post-BSN. Students must complete at least 560 DNP practicum hours; additional hours may be required to support the 1000 hours post-BSN depending on the number of practicum hours considered from the MSN

6 An optional one-week residential intensive in addition to practicum (NURS 844 DNP Practicum V (4 c.h.)) may be available
Liberty University’s Purpose

Graduation Requirements
- Complete 58 hours
- A minimum of 55 hours must be completed through Liberty University, not to include credits prior degree earned through Liberty
- A maximum of 3 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than B may be applied to the degree
- Successful completion of Comprehensive Exam
- Successful completion of 1064 Practicum hours
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format

Doctor of Philosophy in Nursing (Ph.D.)

Purpose
Liberty University’s Doctor of Philosophy in Nursing program is founded on a Christian worldview and designed to prepare the next generation of nurse faculty at the highest level who are committed to research, educational leadership, Christian ethical standards and who view nursing education as a ministry.

Program Learning Outcomes
The student will be able to:
1. Synthesize nursing’s philosophical and theoretical underpinnings in the practice of research.
2. Contribute to the science of nursing by adding to the body of nursing knowledge through original research and scholarship.
3. Apply ethical decision-making and values to the nursing profession based upon a biblical worldview.
4. Advocate for policies and programs that improve health outcomes for individuals and communities.
5. Act as a professional nurse leader, role model, and mentor to others who wish to pursue advancement of the nursing profession.

Nurse Education Concentration
The student will be able to educate the next generation of nurse scholars to add to the global community of nursing professionals.

Program Specific Admission Procedures
All policies and procedures for admission to graduate programs as stated in this Catalog apply unless otherwise stated. The following criteria are established to encourage applications from qualified students who are highly motivated, self-directed, and academically competent to ensure selection of individuals who possess abilities that will enable them to successfully pursue graduate study in nursing. Each applicant must submit documentation to the Office of Graduate Admissions gradadmissions@liberty.edu that addresses the following criteria:

1. Conferred Master’s degree in Nursing from an Accredited Institution.
2. Minimum cumulative undergraduate GPA of 3.00 on a scale of 4.00.
3. Complete a background check upon admission as per LUSON policy and when requested by Clinical/Practicum Partners.
4. Statement of Purpose: 200 words minimum
5. Nurses educated outside of the United States must submit the following documentation in order to be considered for admission:
   a. Proof of valid and current RN licensure based on review by the Commission on Graduates for Foreign Nursing Schools (CGFNS) International [+1(215) 222-8454] (must hold a valid registered nurse license issued in one of the fifty States. See #6.)
   b. Pass the NCLEX Readiness Exam (offered by the CGFNS)
   c. Undergraduate transcript evaluation report from the World Education System (WES) or the National Association of Credential Evaluation Services (NACES). This evaluation is required to determine equivalency of the applicant’s nursing and baccalaureate degrees to nursing education programs offered by schools in the U.S.
6. TOEFL Scores for students who speak English as a second language (score of 600 paper –based test; 250 computer-based test, 80 internet-based test). Additionally, the School of Nursing will require a TOEFL score for all students education outside of the United States regardless of the nursing degree obtained
7. Current RN license in good standing with 1 year minimum experience as a practicing RN.
8. Registered Nurse Licensure verification will be conducted annually until the program is completed.
9. RN’s will self-verify a minimum of one year of nursing practice. This can be collected verbally by a call center agent or via email from the student to LUO Admissions Verification.

Evaluation of Transfer Credits
With approval from the School of Nursing Graduate Faculty Committee, students may transfer up to 15 credit hours from an appropriately accredited institution. In order to transfer credit hours, the student must have earned the minimum grade of B-, and the courses must have been completed within five years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Research Experience
The complete of a 90 hours research experience is required for all PhD candidates. These hours are done with an approved faculty research mentor in LUSON and/or expert nursing faculty researcher from another institution of higher learning or clinical affiliate. The purpose of this practicum is to strengthen the students understanding and application of nursing research (development, process, analytics, etc.).

Comprehensive Examination
Students must successfully complete a comprehensive examination once all course work is completed and prior to the beginning of the dissertation phase. The purpose of the comprehensive exam is to
examine student’s mastery of content within the PhD in Nursing: Concentration in Nursing Education program learning outcomes.

Dissertation
Research (Dissertation) topic must be approved prior to beginning the research experience. Approval is provided by the Program Chair, Program Director, or assigned faculty mentor.

Completion of the dissertation is partial fulfillment of the requirements for completion of the Ph.D. degree. Students are expected, with the assistance and approval of the dissertation committee chairperson, to select an appropriate topic of sufficient scope to demonstrate scholarly mastery of the program content and to make a meaningful contribution to nursing science. The dissertation is an original, rigorous research study carried out with substantial independence by the doctoral candidate. It represents a significant extrapolation from a base of solid experience or knowledge in the area of concentration. The dissertation significantly advances knowledge, improves professional practice, or contributes to understanding in the field of Nursing. Dissertation work is presented in a logical and understandable fashion. The results of the dissertation should be properly disseminated.

Program Dismissal
Automatic dismissal without the options for extensions, to repeat courses, or to reapply to the Ph.D. program occurs when students:

• Earn more than three (3) graduate grades of C+ or lower.
• Earn more than one (1) graduate grade of D+ or lower.
• Earn a GPA lower than 3.0 for two consecutive semesters.
• Fail to report any changes, sanctions, or other updates to their RN license to the MSN program Chair.
• Are in violation of the Liberty University Online honor Code.

Graduation Requirements
1. Complete 60 hours.
2. A minimum of 45 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
3. A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. 3.0 GPA.
5. No grades lower than B- may be applied to the degree.
6. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
7. Successful defense of dissertation.
8. Successful publication of dissertation to the Jerry Falwell Library.
9. Degree must be completed within 7 years.
10. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Programs of Study
Delivery Format: Online Only

Career Opportunities
• Director of Clinical Services
• Director of Nursing Research
• Nurse Educator

Courses
NURS 700 Advanced Nursing Research 3 Credit Hours
This course applies a variety of methods used for practice improvement through synthesis of the literature. The use of these methods, such as action research, program evaluation, and quality improvement will be explored through critical analysis of each. D in Nursing Education program Note: (BSN-DNP only)

Registration Restrictions: Admission to DNP program or Admission to the Ph.

NURS 711 Advanced Physiology/Pathophysiology 3 Credit Hours
This course provides the student with an understanding physiology and pathophysiology for advanced practice nurses. An emphasis on homeostasis, systems interactions, and pathophysiology will be the foundation for case-based learning of common diseases and conditions seen in primary care.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

Offered: Resident and Online

NURS 712 Advanced Health Assessment for Nurse Practitioners 3 Credit Hours
Prerequisites: NURS 711
This course provides the student with knowledge, skills, and attitudes to perform physical, psychosocial, and spiritual advance health assessments of clients across the life span. Emphasis is on acquisition of advanced skills and analysis of relevant data to conduct a comprehensive history including the ability to perform client-centered health assessments. The course will focus on normal vs. abnormal findings, symptom/health problem assessment, selection and interpretation of diagnostic tests, and screenings and differential diagnosis to develop a management plan. Culturally competent patient education, health promotion and clinical prevention considerations will be integrated into the provision of care of the individual and family. This course includes lecture and lab.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.
NURS 713 Advanced Pharmacology for Nurse Practitioners  

3 Credit Hours

Prerequisites: NURS 711 and NURS 712

This course is designed to provide clinical application of the pharmacology and pharmacotherapeutics of common conditions and diseases across the lifespan encountered by the advanced practice nurse in primary care. The role of pharmacokinetics and pharmacodynamics will be applied. Emphasis is on the development of client-centered prescriptive decisions within the context of outcomes, safety, quality, and costs.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 715 Theoretical Application for Advanced Practice Nursing  

3 Credit Hours

This course will analyze the nature of theory and theory development in nursing. Students will examine nursing theory, apply theory to practice, practice change, and scholarship. Application of advanced levels of clinical judgment and accountability in the design, development, and evaluation of evidence-based care will occur.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 716 Applications of Evidence-Based Care  

3 Credit Hours

Prerequisites: NURS 715 and NURS 700

The course is designed to support advanced practice nurses in the translation of nursing research to the use of research that will impact nursing practice. This course will serve as a touchstone for exploring the concept of Evidence Based Care (EBC). Evidence-based practice models will be examined and contrasted. Students will have the opportunity to appraise current research in their practice interests which will support students in developing improved practice guidelines, design processes to examine and disseminate findings. The course emphasizes the evaluation of research in the discipline of nursing and its application to professional practice both at the individual, family and population levels. The assimilation of knowledge, comparison to established benchmarks and research outcomes serve as a foundation to plan and develop innovations that influence quality care across practice settings and disciplines.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

NURS 718 Informatics, Technology and Trends for Transforming Health Care  

3 Credit Hours

Prerequisites: NURS 715 and (NURS 700 or Grad Rsrch Methods (NURS 500) with a score of 3)

This course explores various applications of informatics as well as current trends for health care delivery across a variety of settings. Students will analyze and evaluate information systems and patient care technology, as well as the impact on the delivery of care in all practice settings. Advanced clinical applications of technology will be emphasized with various populations including those in clinical settings, aggregate populations at risk and the community as a whole. Students will explore utilization of technology applicable to advanced practice such as: guiding evidenced-based practice, providing patient education, promoting health and wellness, improving clinical workflow, and administrative applications. The advanced role related to information systems will be examined, including working with interdisciplinary groups to select and maintain nursing information systems and serving as a credible resource for legal and ethical situations related to information technology.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 721 Leadership, Policy and Ethics  

3 Credit Hours

Prerequisites: NURS 715

This course will provide a study of principles and knowledge of organizational leadership and advanced communication abilities that support an improved quality of care delivery as well as improved outcomes. Consultative and leadership approaches that facilitate collaboration are explored. The advanced practice role of nursing as it pertains to policy development, championing change, and inspiring clinical innovation are examined. National and global policy issues are highlighted, with specific attention placed on the ethical aspects of health policy development.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 722 Nursing Theory Development  

3 Credit Hours

This course examines the nature of nursing knowledge and the development of its underpinnings. Various approaches to concept and/or theory development, analysis, and evaluation are examined and applied. The course explores the connections between research, theory and practice as it relates to the development of nursing knowledge.

Offered: Online
NURS 730 Family Nurse Practitioner Practicum I 2 Credit Hours

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 733 (may be taken concurrently) and NURS 734 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This practicum course introduces the student to the nurse practitioner role in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial and spiritual care through taking health histories, conducting physical examinations, and build skills in diagnostic reasoning. Principles of clinical prevention/health promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

**Registration Restrictions:** Prerequisites: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 732 Interprofessional Collaboration and Outcomes Management for Quality in Health Care 3 Credit Hours

**Prerequisites:** NURS 715 and NURS 716 and NURS 721 and (NURS 718

This course focuses on a collaborative approach to patient centered care. The emphasis is on the values and ethics of inter-professional practice, roles and responsibilities, interprofessional communication skills, and team work to manage outcomes and improve quality. Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 733 Women's Health 3 Credit Hours

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 716 and NURS 718 and NURS 721 and NURS 732 and NURS 730 (may be taken concurrently) and NURS 734 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on the development of knowledge and skills in clinical assessment, intervention and management of women’s health in diverse populations across the lifespan. The integration of research and theory underpin clinical decision making, health promotion and clinical prevention to support holistic client-focused care.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 734 Family Nursing I: Acute Health 3 Credit Hours

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 716 and NURS 718 and NURS 721 and NURS 732 and NURS 730 (may be taken concurrently) and NURS 733 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on the care of individuals across the lifespan and families in the primary care setting. Theory and clinical foundations of evidenced based advanced nursing practice prepare the student to manage acute health care problems common to the primary care setting. An emphasis on assessment, diagnosis and management of acute health conditions within the context of ethnic, culture and community will be promoted.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

Offered: Resident and Online

NURS 735 Infant and Children's Health 3 Credit Hours

**Prerequisites:** NURS 730 and NURS 734

This course focuses on the development of knowledge and skills in clinical assessment, intervention, and management of acute and chronic conditions seen in infants through early adulthood in primary care. The integration of research and theory underpin clinical decision making, health promotion, and clinical prevention to support holistic client/family centered care. Students will demonstrate an understanding of genetic and genomic influences on infant's and children's health, and services including client/family education.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 736 Family Nurse Practitioner Practicum II 4 Credit Hours

**Prerequisites:** NURS 730 and NURS 733 and NURS 734 and NURS 735 (may be taken concurrently) and NURS 737 (may be taken concurrently)

This practicum course builds on the skills developed in Family Nurse Practitioner Practicum I. Students will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. Students will manage episodic and follow up visits for chronic health and complex acute care issues. Under the guidance of the preceptor, the student will demonstrate evidence-based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop a plan of care to manage disease states or conditions Students will provide physical, psychosocial, and spiritual care to the individuals and families through the integration of ethnicity, culture, and community.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.
NURS 737 Family Nursing II: Chronic Health 3 Credit Hours

Prerequisites: NURS 730 and NURS 733 and NURS 734 and NURS 735 (may be taken concurrently) and NURS 736 (may be taken concurrently)

This course focuses on the care of individuals across the lifespan and families in the primary care setting. Theory and clinical foundations of evidenced based advanced nursing practice prepare the student to manage chronic health care problems common to the primary care setting. An emphasis on assessment, diagnosis and management of chronic health conditions within the context of ethnic, culture and community will be promoted.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 740 Family Nurse Practitioner I 1 Credit Hour

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 734 (may be taken concurrently) and NURS 735 (may be taken concurrently)

This practicum course introduces the student to nurse practitioner role in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial, and spiritual care through health history taking, conducting physical examinations, and build skills in diagnostic reasoning. Principles of health prevention/promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

Registration Restrictions: Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Resident

NURS 741 Family Nurse Practitioner I 1 Credit Hour

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 734 (may be taken concurrently) and NURS 735 (may be taken concurrently)

This practicum course supports the student to continue in the role of nurse practitioner in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial, and spiritual care through health history taking, conducting physical examinations, and build skills in diagnostic reasoning. Principles of health prevention/promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

Registration Restrictions: Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online

NURS 742 Nursing Seminar: Issues in Global Health 2 Credit Hours

Prerequisites: NURS 735 and NURS 736 and NURS 737 and NURS 838 (may be taken concurrently)

This seminar is designed to provide students with knowledge and skills to address global health issues through assessment, interventions, planning, and evaluation to promote health at the individual/family/population level. Students will explore cultural intelligence and develop strategies to deliver culturally competent care. Care and treatment of common diseases and conditions seen in underdeveloped and developing countries will be discussed within the context of issues such as poverty, societal norms and values. The impact of globalization on the delivery of health care in the United States will also be examined.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 743 Family Nurse Practitioner II 2 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 740 and NURS 733 and NURS 734 (may be taken concurrently)

This practicum course builds on the skills obtained in Family Nurse Practitioner I. The student will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. The student should manage episodic and follow up visits for chronic health and complex acute care issues. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics and develop a plan of care to manage disease states or conditions under the guidance of the preceptor. The student should provide physical, psychosocial, and spiritual care to the individuals and families through the integration of ethnicity, culture, and community.

Registration Restrictions: Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online

NURS 744 Family Nurse Practitioner II 2 Credit Hours

Prerequisites: NURS 730 and NURS 734 and NURS 733 (may be taken concurrently) and NURS 737 (may be taken concurrently)

This practicum course continues to build on the skills obtained in NURS 743. The student will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. The student should manage episodic and follow up visits for chronic health and complex acute care issues. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop a plan of care to manage disease states or conditions under the guidance of the preceptor. The student should provide physical, psychosocial, and spiritual care to the individuals, and families through the integration of ethnicity, culture, and community.

Registration Restrictions: Admission into the Doctorate of Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online
NURS 750 Spiritual Care 3 Credit Hours
This course will examine the interrelatedness of spirituality and the practice of nursing. The primary orientation of the course will be that of the Christian worldview. Historical perspectives on spiritual care will be incorporated with the healing arts. Contemporary models such as parish nursing will be explored. The spiritual needs of the caregiver will be identified and support opportunities will be examined.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 751 Neurobiology and Differential Diagnosis of Mental Disorders 3 Credit Hours
This foundational course focuses on mental disorders across the lifespan. Based on anatomy, physiology, and pathophysiology, this course examines underlying causality including injury, trauma, developmental, genetic, infection and disease including degeneration. The relationship to support homeostasis between the body and brain, and within the brain will be explored. This course also integrates the use of case-based learning to approach differential psychiatric diagnoses. Students will gain skills in interviewing, observation, and the use of and interpretation of screening, tools, behavioral assessments and diagnostic tests. Case studies will be based on the most current edition of the Diagnostic and Statistical Manual for Mental Disorders (DSM 5) and other appropriate diagnostic tools and methods.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Resident and Online

NURS 752 Clinical Psychopharmacology 2 Credit Hours
Prerequisites: NURS 751 (may be taken concurrently)
This course provides a case-based approach to utilizing best practices and principles for using psychopharmacology to treat mental illness and disorders across the lifespan. The course examines neuropharmacological mechanisms, pharmacodynamics, and drug interactions of commonly used psychotropic drugs. Emphasis is on the development of client-centered prescriptive decisions within the context of outcomes, safety, quality, and costs.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Resident and Online

NURS 753 Psychotherapeutic Theories, Frameworks, and Modalities 3 Credit Hours
Prerequisites: NURS 752 (may be taken concurrently)
This course provides an overview of theories, frameworks, modalities and best practices related to psychotherapeutic treatments and management of mental health disorders across the lifespan. The integration of the application of evidence-based psychotherapies and psychotherapeutic case formulation, treatment for the management of disorders, symptoms and issues. Cognitive Behavioral Therapy and Motivational Interviewing will be integrated through a case-based learning experience.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Online

NURS 754 Psychiatric Mental Health Nurse Practitioner Practicum I Adult/Gero 4 Credit Hours
Prerequisites: NURS 751 and NURS 752 and NURS 753
This practicum course provides extensive experience to prepare the student for the professional role of a psychiatric mental health nurse practitioner. Students will provide interviewing, screening, diagnostic testing, episodic, acute and chronic care to adult and geriatric clients. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret screening/diagnostics tests, prescribe therapeutics, and develop health prevention/promotion and health maintenance plans. Students should be able to assess adults and geriatric clients and develop a plan of care in consultation with the preceptor. The student should provide holistic care through the integration of ethnicity, culture and community.

Offered: Resident and Online

NURS 755 Psychiatric Mental Health Nurse Practitioner Practicum II Pediatrics/Family 5 Credit Hours
Prerequisites: NURS 751 and NURS 752 and NURS 753 and NURS 754
This practicum course provides extensive experience to prepare the student for the professional role of a psychiatric mental health nurse practitioner. Students will provide interviewing, screening, diagnostic testing, episodic, acute, and chronic care to pediatrics, clients and families. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret screening/diagnostic tests, prescribe therapeutics, and develop health prevention/promotion and health maintenance plans. Students should be able to assess the pediatric client, and families and develop a plan of care in consultation with the preceptor. The student should provide holistic care through the integration of ethnicity, culture and community.

Offered: Resident and Online
NURS 764 Learning Theories and Teaching Methods for Nurse Educators  
3 Credit Hours

This course provides an overview of major research based theories of adult learning and knowledge development. Application of theory to the planning and execution of various phases of curriculum across a variety of educational settings is explored. Students will engage in self-reflection to improve teaching practices through strategies such as use of personal attributes, demonstrating enthusiasm for nursing and the teaching-learning process, use of technology, and respect for the learner. Individual learning styles and unique needs of students will be explored, including international, adult, multicultural, educationally disadvantaged, physically challenged, at-risk, and second degree learners. Students will be encouraged to develop an individual teaching style utilizing research based theory and engage in continuous self-evaluation as life-long learners.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 765 Curriculum Development and Program Evaluation for Nurse Educators  
3 Credit Hours

This course prepares the student to design, implement, and evaluate curriculum. Research and evidenced-based theories will be applied to the process of curriculum development and program evaluation. The role of the faculty member in curriculum design and program evaluation will be explored.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 766 Advanced Evaluation Strategies for Nurse Educators  
3 Credit Hours

Prerequisites: NURS 764 and NURS 765

This course provides an overview of theories on educational measurement and evaluation. Methods of evaluating teaching effectiveness, student learning, and student performance are explored with emphasis on test construction and analysis.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 767 Transition to the Nurse Educator Role  
3 Credit Hours

Prerequisites: NURS 766

In this precepted practicum, students will engage in the development and deliverance of classroom, laboratory, and clinical teaching assignments in nursing. Students will integrate philosophical foundations, educational theory, and nursing knowledge to promote active learning.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

Offered: Online

NURS 784 Assessment and Accreditation for Nursing Programs  
3 Credit Hours

This course examines the process of curriculum design and development from the perspective of faculty and administration. Curricula are analyzed from the context of program evaluation and accreditation standards. Various instructional design models are applied to nursing courses.

Offered: Online

NURS 815 Quantitative Methods of Research  
3 Credit Hours

Prerequisites: EDUC 812

This course is designed for those planning to write a dissertation. An examination of quantitative designs for Nursing research topics will be considered. These are: Developing a research problem, Reviewing the Literature, The Hypothesis, Descriptive Statistics, Sampling and Inferential Statistics, Tools of Research, Validity and Reliability, Experimental Research Designs, Ex Post Facto Research, Correlational Research, Survey Research, Guidelines for Writing a Quantitative Research Proposal, and Interpreting and Reporting Results of Quantitative Research.

Offered: Online

NURS 817 Qualitative Methods of Research  
3 Credit Hours

Prerequisites: EDUC 812

This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents.

Offered: Online

NURS 820 Comprehensive Exam  
0 Credit Hours

Prerequisites: NURS 721 and NURS 716 and NURS 834 and NURS 718 and NURS 836 and NURS 832 and NURS 732 and NURS 731

The comprehensive exam must be completed successfully prior to enrollment in NURS 839. The exam will be administered during NURS 820, a non-credit course designed to administer the comprehensive exam. Exams are administered during the fall, spring, and summer semesters. Students may repeat the exam once for a total of two attempts at passing the comprehensive exam. Students not passing the exam on the second attempt will be dismissed from the program. Registration Restrictions: Admission into the Doctor of Nursing Practice Program; must have completed all coursework except practicum (excludes optional educator courses)

NURS 821 Comprehensive Exam: Psychiatric Mental Health Nurse Practitioner  
0 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753 and NURS 754 and NURS 755

NURS 821 is a comprehensive exam designed to demonstrate competencies for the Psychiatric Mental Health Nurse Practitioner students.

Offered: Resident and Online
NURS 832 Clinical Prevention and Biostatistics | 3 Credit Hours

**Prerequisites:** NURS 715 and NURS 716 and NURS 718 and NURS 721 and Grad Biostatistics with a score of 3

This course provides an overview of epidemiologic principles and biostatistical methods for evaluation and implementation of evidence-based changes in clinical practice to enhance the quality of care and to predict and analyze outcomes. Students will apply descriptive and inferential statistics to examine aggregate data. Health data will be disseminated to further enhance global clinical prevention efforts.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice Program.

**Offered:** Online

NURS 833 Higher Educational Leadership | 3 Credit Hours

This course examines various topics relevant to nursing leaders in higher education. Leadership demands specific to higher education are examined. The structure and function of college and university settings are explored. Current issues that affect higher education are discussed.

**Offered:** Online

NURS 834 Health Care Operations and Financial Management | 3 Credit Hours

**Prerequisites:** NURS 832

This course will examine the constructs of health care operations and students will apply these for the purposes of strengthening the advanced nurses’ practice effectiveness in organizational collaboration and leadership. Students will demonstrate conceptual ability and skills to evaluate and monitor outcomes through data extrapolation. Students will examine the principles of public and private financing as they apply. Problem-based activities will assist the student in developing a working knowledge of subsidization, vulnerable populations, and the impact of global health system shocks.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program.

NURS 835 Theories of Nursing | 3 Credit Hours

This course explores the scholarly development of the discipline of nursing. The historical, educational, contemporary, scientific, and professional influences of theoretical knowledge in nursing are explored. The conceptual basis of various nurse theorists are analyzed. This course prepares students to select an appropriate theoretical framework for use in their dissertation.

**Offered:** Online

NURS 836 Translational Research in Health Care | 3 Credit Hours

**Prerequisites:** NURS 715 and NURS 716 and NURS 718 and NURS 832

This course is designed to support an understanding of concepts in knowledge translation (KT), methods, and models for evaluation of research, and findings to translate knowledge into best practice protocols. A translational model is used to support knowledge translation from scholarly evidence that will influence outcomes. The steps in the research process are examined to support a comprehensive plan in preparation for the scholarly project. The content includes the development of a research question, identifying an appropriate sample, identifying appropriate strategies for data collection and analysis, and emphasizing the importance of the protection of human subjects. The course provides the students with a foundation for developing a scholarly proposal.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program.

**Offered:** Online

NURS 837 Grant Writing and Publication | 3 Credit Hours

This course is designed to provide writing experiences which prepare the learner for manuscript and grant proposal submissions. This introductory experience into the grant process from proposal to funding to management will include project management, funding sources, and funding challenges. Other course requirements include a research proposal (manuscript) that is ready for submission for publication and development of a dissertation proposal.

**Offered:** Online

NURS 838 Family Nurse Practitioner Practicum III | 5 Credit Hours

**Prerequisites:** NURS 736

This practicum course provides extensive experience to prepare the student to enter the professional role of a family nurse practitioner. Students will provide wellness exams, episodic, acute, and chronic care to individuals across the lifespan. The student will demonstrate evidence-based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop clinical prevention/health promotion and health maintenance plans. Students will be able to assess individuals and/or families and develop a plan of care in consultation with the preceptor. The student will provide physical, psychosocial, and spiritual care to individuals and families through the integration of ethnicity, culture, and community.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program.
NURS 839 Proposal Development 2 Credit Hours

Prerequisites: NURS 716 and NURS 832 and NURS 836 and (NURS 700 or Grad Rach Methods (NURS 500) with a score of 3)

This course is designed to apply the knowledge and skills developed in previous research and related coursework and apply them to the Scholarly Project process. Students will be required to apply scholarly writing skills and an understanding of expectations of the scholarly project to develop a scholarly proposal. Students will be guided through the development of a Scholarly Project proposal and must successfully defend the proposal at the end of the course. At the completion of this course, CITI training and all Scholarly Project tutorials must be completed.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 840 DNP Practicum I 2 Credit Hours

Prerequisites: NURS 839

This course provides the student an opportunity to develop in the role as a systems leader at the micro level under the supervision of a preceptor, guided by a faculty member. Students will execute their practicum at a pre-approved site. Students will establish individualized practicum goals and objectives that create a framework for the experience. A learning contract will result between students and preceptor(s), and must receive faculty approval prior to accrual of practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will begin their Scholarly Project concurrently with this course. The student will utilize the Scholarly Project Portal, faculty and other supportive infrastructure to initiate development of the Scholarly Project. Students must generate and successfully present/defend a Scholarly proposal concurrently with this course under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 841 DNP Practicum II 2 Credit Hours

Prerequisites: NURS 840

This course provides students an opportunity to engage more deeply in the role as a systems leader at micro level under the supervision of a preceptor, guided by a faculty member. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students’ starting practicum hours, course faculty must approve of practicum activities that support achievement goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Project Handbook, faculty and other supportive infrastructure to execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students’ starting practicum hours, course faculty must approve of practicum activities that support achievement goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 842 DNP Practicum III 2 Credit Hours

Prerequisites: NURS 841

This course provides the student an opportunity to engage in the role as a systems leader at the meso level. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to further their scholarly project concurrently with this course. Students must submit a complete first draft of the Scholarly Project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 843 DNP Practicum IV 2 Credit Hours

Prerequisites: NURS 842

This course provides the student an opportunity to fully integrate into the role of the advanced practice nurse at the macro level. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students’ starting practicum hours, course faculty must approve of practicum activities that support achievement goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Project Handbook, faculty and other supportive infrastructure to further their Scholarly Project concurrently with this course. Students must submit a complete second draft of the Scholarly Project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.
NURS 844 DNP Practicum V 4 Credit Hours

Prerequisites: NURS 843

This course provides the student an opportunity to lead macro systems change based on dissemination of evidence based practice findings at the highest level of advanced practice nursing. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will disseminate findings and finalize work on the Scholarly project culminating in a publishable manuscript. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to complete their Scholarly project concurrently with this course. Students must successfully defend the final Scholarly project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 915 Advanced Quantitative Methods of Nursing Research 3 Credit Hours

Prerequisites: NURS 815

This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

Offered: Online

NURS 917 Advanced Qualitative Methods of Nursing Research 3 Credit Hours

Prerequisites: NURS 817

This course addresses the skills and knowledge necessary for completion of a qualitative dissertation, including research design, data analysis and representation, methods for increasing trustworthiness, and ethical considerations in research with human subjects.

Offered: Online

NURS 980 Nursing Comprehensive Exam 0 Credit Hours

Prerequisites: NURS 700 and NURS 721 and NURS 722 and NURS 835 and EDUC 703 and NURS 764 and NURS 765 and NURS 766 and NURS 784 and NURS 833 and EDUC 812 and NURS 815 and NURS 817 and NURS 837 and (NURS 915 or NURS 917)

A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation planning.

Registration Restrictions: Completion of all PhD in Nursing: Concentration in Nursing Education coursework prior to dissertation courses.

Offered: Online

NURS 987 Dissertation Planning 5 Credit Hours

Prerequisites: NURS 980

This course is the initial step for students and faculty to actualize the student’s research project. It provides a focused study of the problem, purpose, significance, theoretical framework, biblical integration, and important literature relevant to the proposed project. Students will prepare and defend their doctoral dissertation proposal during this course.

Offered: Online

NURS 988 Dissertation I 5 Credit Hours

This course is the second step for students and faculty to actualize the student’s dissertation. Students will also progress through the IRB process and begin to conduct their research.

Offered: Online

NURS 989 Dissertation II 5 Credit Hours

During this course students will conduct their analysis, present their findings, comments, and recommendations, and prepare for final defense of their dissertation.

Offered: Online

NURS 990 Dissertation Defense 0 Credit Hours

Prerequisites: NURS 989

This course is the last step in the dissertation process. Students will defend their dissertation and finalize their dissertation manuscript for publication.

Registration Restrictions: Dissertation Chair Approval.

Offered: Online

Nursing (Ph.D.) - Nursing Education

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.
Graduation Requirements

- Complete 60 hours
- A minimum of 45 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty
- A maximum of 15 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree
- 3.0 GPA
- No grades lower than B- may be applied to the degree
- Successful defense of dissertation
- Successful publication of dissertation to the Jerry Falwell Library
- Degree must be completed within 7 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Program Offered in Online Format

Dual Degree Programs

Delivery Format: Online Only

- Bachelor of Science in Nursing (B.S.N.) for RNs: Post-Licensure - Master of Science in Nursing (M.S.N.) (p. 685)
- Master of Science in Nursing (M.S.N.) & Master of Business Administration (M.B.A.) (p. 695)
- Master of Science in Nursing (M.S.N.) & Master of Science in Healthcare Administration (M.S.) (p. 701)

Bachelor of Science in Nursing (B.S.N.) for RNs: Post-Licensure - Master of Science in Nursing (M.S.N.)

Purpose

The RN-BSN-MSN program will sharpen students’ knowledge, skills, and abilities as they manage in the capacity of a healthcare professional.

Program Specific Admission Requirements

Admission to the Bachelor of Science in Nursing (BSN) and a Master of Science in Nursing (MSN) program is a competitive process.

Admission standards for RN-BSN-MSN include:

1. Students must have earned a diploma or an Associate Degree in Nursing through an NLN/ACEN or CCNE accredited nursing program.
2. Current and Active Registered Nurse license.
3. Documentation of the ability to meet the Essential Attributes of Nursing.
4. If a student makes a C-/+ in NURS 500 Research (3 c.h.) or NURS 503 Managing Population Health (3 c.h.), the student is required to take the undergraduate equivalents course (NURS 225 Research in Nursing (3 c.h.) or NURS 445 Population Health (3 c.h.)) prior to retaking the graduate course for transcript adjustment.
5. Prior to taking NURS 500 Research (3 c.h.), the student must successfully complete an undergraduate statistics course with a grade of C or above.

6. Progression to the MSN program following BSN completion is dependent upon earning a grade of B- or higher in all graduate courses.

7. If the student makes a D or less in either NURS 500 Research (3 c.h.) or NURS 503 Managing Population Health (3 c.h.), the student will be administratively dismissed from the RN-BSN-MSN program. He or she may remain eligible to continue in the RN-BSN program.

8. Students in the RN to BSN to MSN track must maintain a GPA of 3.0 or higher. If the student is unable to maintain this GPA, he or she may remain in the RN to BSN track if meeting RN to BSN progression policies.

9. The gate course in the RN-BSN program in NURS 492 Advanced Concepts of Nursing Practice (3 c.h.) (capstone course). This course must be completed prior to taking any 500 or 600 level nursing class, except for NURS 500 Research (3 c.h.) and NURS 503 Managing Population Health (3 c.h.).

10. NURS 220 Advanced Nursing Communication (3 c.h.) is the entry nursing course. Students will be informed that this is their chance to transfer to the dual degree, afterwards, the students will not be eligible to transition into the dual degree program.

11. UG pre-reqs should be completed by NURS 492 Advanced Concepts of Nursing Practice (3 c.h.).

12. MSN requirements will lead for admission and graduation.

13. After completing NURS 492 Advanced Concepts of Nursing Practice (3 c.h.), progression policies of the Graduate School apply.

Program Learning Outcomes
The student will be able to:

1. View nursing as a ministry of demonstrating Christ’s love to hurting people of all religions, creeds, and cultures;

2. Provide and coordinate nursing care for individuals, families, and groups within the community;

3. Utilize critical thinking/problem solving skills in determining nursing interventions and applying therapeutic skills;

4. Demonstrate leadership skills in collaboration with clients, other professionals and groups within the community for the purpose of promoting, maintaining, and restoring health;

5. Apply a personal and professional Christian value system, based on biblical principles, to ethical issues related to the practice of professional nursing; and

6. Value the need for ongoing personal and professional development through both formal and informal learning experiences.

7. Foster professional level competencies in writing, oral communication, and computer literacy.

8. Integrate research and scholarship into advanced nursing practice (AACN/CCNE I, IV, NLN 7, ANA-Admin. 10, 13, 15).

9. Influence nursing practice by integrating policy criteria and advocacy skills (AACN/CCNE VI, NLN 8, ANA-Admin. 16).

10. Employ quality improvement, safety standards, and outcomes management to support best practices in nursing (AACN/CCNE III, IX, NLN 6, ANA-Admin. 7).

11. Collaborate with members of interprofessional teams to promote culturally competent population health care and clinical prevention in a variety of settings (AACN/CCNE VII, VIII, ANA-Admin. 5b, 10, 11).

12. Utilize innovative health care technologies in a variety of practice settings (AACN/CCNE V, NLN 1, ANA-Admin. 14).

13. Apply Christian Worldview and ethical decision making to Advanced Nursing Practice (LU mission, AACN/CCNE IX, NLN 6, ANA-Admin. 12).

14. Demonstrate leadership in a variety of professional practice and educational settings (AACN/CCNE II, IX, NLN 5, 8, ANA-Admin. 3, 15).

Nurse Educator Concentration
The student will be able to:

1. Design nursing curricula that reflects student learning needs, innovative teaching strategies, assessment and evaluation of learning outcomes that support a positive learning environment (NLN competencies 3 and 4).

2. Construct a learning environment based on educational theory and evidence-based practice which promotes individual learner needs (NLN competency 1).

3. Demonstrated the knowledge, skills, and abilities in creating a learning environment that supports individual goals and diverse student needs (NLN competency 2).

Nursing Administration Concentration
The student will be able to:

1. Demonstrate consultation and collaboration with interdisciplinary teams to direct health care systems delivery of nursing services and professional practice (ANA-Admin. 5c, 11, 10).

2. Provide health care systems management utilizing the nursing process to perform strategic planning, fiscal and resource management and evaluation of outcomes (ANA-Admin. 1-6, 14).

3. Utilize evidence to create a culture of safety and quality based on nursing values, advocacy, current nursing practice, legal ethical and regulatory compliance (ANA-Admin. 7, 8, 9, 12).

Nursing Informatics Concentration
The student will be able to:

1. Design nursing informatics solutions to reach a community need, resolve a healthcare issue, or improve an outcome in the healthcare setting (ANA-Nursing Inform. 1,4,5).

2. Collaborate with key stakeholders in the healthcare setting to create strategies for informatics solutions (ANA-Nursing Inform. 6, 11, 13).

3. Synthesize available data, information, evidence, and knowledge to create a culture of safety and quality based on legal, ethical, and regulatory compliance (ANA-Nursing Inform. 1, 7, 10, 15).

Graduation Requirements for RN-BSN-MSN
1. Complete 151 hours.
2. 120 Credit hours must be 100-400 level courses (NURS 500 Research (3 c.h.) & NURS 503 Managing Population Health (3 c.h.) included)
3. 3.0 GPA
4. 30 credit hours of undergraduate courses must be upper-level (300-400 level)
5. Grade of 'C' minimum required for all undergraduate courses in the major
6. Grade of 'B' or higher required for all graduate courses
7. 46% of the undergraduate courses in majors must be taken through Liberty University
8. 30 credit hours of undergraduate courses must be taken through Liberty University
9. Coursework taken through Liberty University and is more than 5 years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit.
10. Degree must be completed within 5 years.
11. Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date.

Programs of Study
Delivery Format: Online Only
- Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nurse Educator (B.S.N. to M.S.N.) - Online (p. 691)
- Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nursing Administration (B.S.N. to M.S.N) - Online (p. 692)
- Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nursing Informatics (B.S.N. to M.S.N.) - Online (p. 694)

Career Opportunities
- Director of Nursing
- Head Nurse
- Nursing Instructor

Courses

NURS 500 Research 3 Credit Hours
Prerequisites: (Research Met (NURS 225) with a score of 3 and Stats Met (MATH 201) with a score of 3) or (BSN Met with a score of 3 and Stats Met (MATH 201) with a score of 3)

This course expands upon research knowledge acquired at the baccalaureate level and focuses on in-depth study of the research process, theory-based research, data collection and analysis methods, and application of nursing and related research findings to nursing practice. The importance of evidence-based practice is emphasized. Quantitative and qualitative methodologies are examined.

NURS 501 Health Policy and Ethics 3 Credit Hours

This course examines policy decisions and related issues that shape the organization, financing, and implementation of health care services and delivery systems. Ethical, social, and political issues that affect the provision of health care, nursing services, communities, and society are critically analyzed. Dynamics related to the roles and influences of health care providers and consumers, government, and law are discussed. Advanced nursing practice and its impact on policy decision making and health care is emphasized.

Offered: Online

NURS 502 Nursing Theory and Advanced Practice 3 Credit Hours

Emphasis is placed on the critique, evaluation, and utilization of nursing and other relevant theories that apply to advanced nursing practice and a comprehensive approach to care. Professional role development, interdisciplinary relationships, and issues relevant to advanced practice are studied.

NURS 503 Managing Population Health 3 Credit Hours

This course focuses on health behaviors of diverse populations and critical analysis of various theories of health promotion and clinical prevention. Health behaviors of different cultures and age groups are addressed, relevant nursing research on health promotion and clinical prevention are discussed, and new areas for nursing research are identified. Emphasis is placed on the promotion of health, prevention of illness, and environmental factors that impact health status. The importance of providing appropriate, individualized health care that is sensitive to the ethnic, racial, gender and age differences within and across diverse populations is stressed and the role of the advanced practice nurse is emphasized.

Offered: Online

NURS 504 Advanced Pharmacology 3 Credit Hours
Prerequisites: (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3 and NURS 505 and NURS 506) or (BSN Met with a score of 3 and NURS 505 and NURS 506)

This course is designed to expand the advanced practice student's knowledge of pharmacotherapeutics, which includes the cellular response level, for the management of individuals in the acute care and primary care setting. Broad categories of pharmacologic agents are examined. Skills to assess, diagnose, and manage a client's common health problems in a safe, high quality, cost-effective manner are emphasized.

Registration Restrictions: BSN, RN, or RN with bachelor's degree in another discipline.

Offered: Online
NURS 505 Advanced Health / Physical Assessment 3 Credit Hours

Prerequisites: (BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course focuses on comprehensive physical assessment which includes in-depth health history, physical and psychological signs and symptoms, developmental stages, pathophysiologic changes, and psychosocial and cultural characteristics of the individual, family, and community as client. Enhancement of communication and observational skills are emphasized along with the development of sensitive and refined interviewing techniques. Students must obtain a master’s prepared nurse preceptor who will proctor their final exam which is a comprehensive head-to-toe physical assessment.

Registration Restrictions: BSN, RN, or RN with bachelor degree in another discipline.

Offered: Online

NURS 506 Advanced Physiology and Pathophysiology 3 Credit Hours

Prerequisites: BSN Met with a score of 3 or (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3) or (EXSC 510 and EXSC 525)

System-focused content addresses the normal physiologic and pathologic mechanisms of disease that serve as the foundation for advanced clinical assessment, decision-making, and management. Physiologic changes are compared and contrasted over the life span and developmental physiology, normal etiology, pathogenesis, and clinical manifestations of commonly found/observed altered health states and responses to illness and treatment modalities are examined.

Registration Restrictions: BSN, RN or Non-BSN degree, RN and NURS 225, 440, 445, 490 and 491; or EXSC 510 and 525.

Offered: Online

NURS 507 Advanced Acute Adult Care I 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506

This course focuses on advanced nursing skills and assessment related to common developmental, health, and illness changes of adults. The effects of acute illness on the individual and family are also analyzed. In addition, pharmacological, nutritional, and psychosocial management options are examined. Role development as a clinical nurse specialist is discussed. With the assistance of faculty and selected preceptors students design practicums tailored to their individual preferences, professional goals, and objectives for future practice as clinical nurse specialists. Students who choose to focus on teaching based on advanced practice knowledge and expertise within the acute care specialty are guided to integrate specific goals and objectives congruent with the role of nurse educator into their practicums. A clinical contract is developed and established with an approved MSN preceptor; and clinical practicum hours are initiated.

NURS 519 Strategies for End of Life Care 3 Credit Hours

The focus of this course is to explore the multifaceted role of caring for the patient who has reached the end of life. Particular attention is given to providing sufficient knowledge to assure that the student will be prepared to facilitate the patient’s comfort and quality of life. Other areas include ethical / legal issues, cultural perspectives on death and dying, grief, and death. Content course emphasizes the respectful treatment of the entire individual and the delivery of care with the love of Christ. (Elective course)

NURS 521 Nursing Issues, Informatics and Technology 3 Credit Hours

Prerequisites: (NURS 501 and BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (NURS 501 and Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course prepares students for the rapidly evolving world of health care by addressing topics affecting practice and issues facing future nurse leaders and educators. Changing reimbursement models and their effect on nursing practice will be discussed. Topics related to technology such as tele-health and nursing informatics will be examined. Quality improvement, patient safety, and other topics relevant to contemporary nursing will be explored.

Offered: Online

NURS 522 Performance Management in Healthcare 3 Credit Hours

This course will allow students to explore the concepts that support a sound approach to managing performance. Performance management is a proactive and ongoing process which strives to align individual, unit, and/or team performance with the mission, vision, and strategic goals of the organization. When organizational goals are established, performance metrics are created along with a methodical measurement process that will support analysis of performance. Performance management also implies that leaders are managing their individual staff through relationship and rapport building, investment in the ongoing growth of employees, goal setting, motivating and rewarding staff, and giving feedback at regular intervals.

Offered: Online

NURS 523 Financial and Resource Management for Nurse Leaders 3 Credit Hours

Prerequisites: NURS 521

The course focuses on financial and resource management for the nurse leader. The course provides students the skills and knowledge to perform a variety of functions related to financial and resource management including budgetary functions such as operating, expense, revenue, capital, and performance budgets, planning, controlling, management of costs associated with staff/skill mix, and cost analysis. Key concepts such as strategic management, reimbursement and payor mix, forecasting economic and marketing factors are explored for decision making. Students will be required to perform financial and budgeting operations and spread sheet analysis using Microsoft® Excel.

Offered: Online
NURS 524 Systems Management and Leadership for Nurse Leaders 3 Credit Hours

Prerequisites: NURS 523

This course is designed for students who desire to develop skills in the areas of leadership and management who plan to utilize their selected area of advanced practice and knowledge as nurse leaders within healthcare organizations. Students will investigate content areas that will build knowledge and expertise in working with systems theories, high performing work teams, information systems, change theories and theories of organizational behavior. Leadership styles and innovations styles will be explored.

Registration Restrictions: Admission to the MSN program.

Offered: Online

NURS 600 Evaluation Strategies for Nurse Educators 3 Credit Hours

This course will cover various formative and summative evaluation strategies for assessment of student learning outcomes in the classroom, clinical, and laboratory settings. Attention will be given to social/legal/ethical issues, students with disabilities, and cultural diversity.

Offered: Online

NURS 613 Advanced Community Health II 3 Credit Hours

Prerequisites: NURS 512

Provides the student with clinical opportunities to apply theories and community health models of care to families and community groups. Emphasis is on the development of the advanced practice role of clinical nurse specialist. Economic, ethical, and political issues relevant to health care delivery to multicultural populations within a variety of community settings are examined. Theoretical and evidence-based practice, collaboration, and current health care climate are addressed. Clinical practicum hours continue.

NURS 617 Nurse Educator I: Advanced Clinical Applications 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506 and NURS 521

This course provides the student advanced health assessment skills within a selected population. Biopsychosocial, cultural, spiritual, physical, ethical concepts, and systems theory will be integrated into managing advanced health care needs of the client. Students will apply the nursing process and focus on improving patient outcomes. The theoretical framework for simulation design for nursing education, the nursing process, collaborative learning and guided reflection will be explored to create student-centered educational experiences for attainment of clinical skills and critical thinking. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; practicum application hours are initiated in NURS 618. Students must meet all pre-practicum requirements prior to enrollment in NURS 618; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to the MSN program.

Offered: Online

NURS 618 Nurse Educator II: Teaching Strategies 3 Credit Hours

Prerequisites: NURS 617 and NURS 600

This course provides students with a variety of teaching strategies and evaluative approaches designed to promote a productive and effective learning environment. Selected teaching learning theories are examined and applied to the role of nurse educator and nursing education practice. Students establish nurse education practicum goals and objectives and are required to obtain a nurse educator preceptor. Practicum hours involve practical observational and hands-on experiences in both the clinical and classroom environments. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; practicum hours are initiated in NURS 618. Students must meet all pre-practicum requirements prior to enrollment in NURS 618; refer to Graduate Nursing Handbook for pre-practicum requirements.

Offered: Online

NURS 619 Nurse Educator III: Curriculum Development 3 Credit Hours

Prerequisites: NURS 618

This course provides students with the fundamental knowledge and requisite skill set needed to effectively design, develop, and evaluate nursing education focused curricula. Current trends in nursing education and accreditation are discussed; philosophies, conceptual frameworks, development of learning goals and objectives are examined and applied. Practicum hours continue.

Offered: Online

NURS 620 Nurse Educator IV: Role of the Nurse Educator 3-6 Credit Hours

Prerequisites: NURS 619

This course is designed for students who elect to utilize their selected area of advanced practice knowledge and related practicum experiences by serving as nurse educators. Students are guided to continue working with preceptors to fulfill clinical and educational objectives that were developed and initiated in NURS 618. A research project that leads to the writing of a scholarly paper suitable for publication is required.

Note: Students admitted in the program prior to Fall 2012, follow the prior Nurse Education track and the course/practicum hours for those students is 6 hours.

Offered: Online
NURS 623 Nursing Administration I: The Role of the Nurse Administrator 3 Credit Hours

Prerequisites: NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521 and NURS 523 and BUSI 610

The practicum course will provide the student an opportunity to explore the role of the nurse administrator within today’s health care organizations. Students will examine organizational structure, management theory, professional ethics, and policy, legal and ethical and regulatory issues as a foundation to create a culture of excellence, quality and safety. Students will examine decision making and the role of the nurse administrator within the context of political and power structures, the practice, institutional and physical environments of the organization and external factors. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse leader preceptor prior to enrollment in this course; nursing administration/leadership practicum hours are initiated in NURS 623. Students must meet all pre-practicum requirements prior to enrollment in NURS 623; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to MSN program.

Offered: Online

NURS 624 Nursing Administration II: Organizational Leadership and Management 3 Credit Hours

Prerequisites: NURS 524 and NURS 623

This practicum course will provide students with an opportunity to apply theories of leadership and use of self to develop the leadership and managements skills required of the nurse leader. Students will obtain knowledge, skills and abilities to lead and manage a diverse workforce in a complex healthcare environment. Particular emphasis will be on team building, managing conflict, expanding opportunities for effective communication and dealing with change. The role of the leader as a transforming influence will be integrated into the practicum experience that fosters a vision for developing innovations that support positive patient and organizational outcomes.

Offered: Online

NURS 625 Nursing Administration III: Management of Resources 3 Credit Hours

Prerequisites: NURS 624 and BUSI 642

This practicum course will provide the student an opportunity to apply legal, regulatory and ethical considerations in the management of resources. Management of human resources will include topics such as relationship management, staff development, professional performance appraisals, motivation, personnel policies and procedures. Principles of financial, material, and technological resource management will be utilized through collaborative learning opportunities.

Offered: Online

NURS 626 Nursing Administration IV: Nursing Administration Capstone 3 Credit Hours

Prerequisites: NURS 625

This practicum course provides students an opportunity to demonstrate competencies in key elements of the Nurse Administrator role and apply the advanced practice role to a variety of professional practice settings. Students will integrate standards of professional nursing performance, ethical, legal and regulatory compliance to practice during a capstone project and experience.

Offered: Online

NURS 627 Practicum I Health Policy Leadership 3 Credit Hours

The HP I practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy- making processes and activities. Typically, the student will complete the practicum at their employing organization.

Offered: Online

NURS 628 Practicum II Health Policy Leadership 3 Credit Hours

The Health Policy Leadership II practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy- making processes and activities.

Offered: Online

NURS 629 Practicum III Health Policy Leadership 3 Credit Hours

The Health Policy Leadership III practicum is designed to provide the student already employed in a healthcare organization with exposure to the policy- making processes and activities within the local and/or state levels.

Offered: Online

NURS 630 Nursing Informatics Capstone 3 Credit Hours

Prerequisites: NURS 524 and INFO 668

Course description: This capstone course will provide the graduate student with the opportunity to demonstrate mastery of the core competencies of the nursing informatics field (ANA, 2015) through identification of a problem, issue, or need in professional practice. A community assessment will be performed to identify the problem, issue or need at hand. Through consultation with their professor, the graduate student will then create an evidence-based project, to address this area of need through synthesis of advanced knowledge and skills, resulting in a nursing informatics deliverable as a means to foster improved outcomes.

Offered: Online
NURS 631 Community Health Practicum I Health Policy Leadership
3 Credit Hours

Prerequisites: NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521

This practicum course is designed to engage the practicing nurse in community health nursing with the goal of promoting and preserving the health of populations. This course recognizes that community health practice is responsible to the community as client with services provided to individuals, families and groups to promote health and prevent disease. Students will apply knowledge and skills regarding comprehensive community assessment and diagnosis, evidenced-based nursing theory and community practice models, analysis of population data, and priority setting. Emphasis is placed on biblical worldview, culturally relevant care and interdisciplinary teamwork. Clinical opportunities within the community setting are initiated.

Offered: Online

NURS 632 Community Health Practicum II
3 Credit Hours

This practicum course is designed to build on practicum experiences from NURS 631 and expand the practicing RN's engagement within the community setting by considering community concepts and addressing the social determinants of health; with the goal of promoting and preserving the health of populations. RN's will apply knowledge and skills from nursing practice, nursing courses, and public health sciences to broaden their understanding of caring for a community's health.

Offered: Online

NURS 633 Community Health Practicum III
3 Credit Hours

This course completes community health practicum experience that continues to build on community focus to include community based management, formulates community goals and objectives, concentrating on evidence-based program planning while expanding population-oriented preventive, therapeutic and rehabilitative models of care.

Offered: Online

NURS 668 Health/Wellness Capstone Project
3 Credit Hours

Prerequisites: NURS 501 and NURS 503 and NURS 519

This capstone course is designed for health/wellness majors who are in the last semester of their Health Services graduate degree program. With guidance from the course professor, students will develop a health-oriented educational program, based on current research.

Note: Students must be in the final semester of their Health Services degree program.

NURS 695 Independent Study
1-3 Credit Hours

---

Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nurse Educator (B.S.N. to M.S.N.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Choose three credit hours of any 500-600 level course

| Total Hours | 125-130 |

---

1. Courses may also fulfill select General Education Requirements
2. Minimum grade of “C” is required
3. Prior Learning Assessment (PLA) Credit will be given for BIOL 213 Human Anatomy & Physiology I (3 c.h.), BIOL 214 Human Anatomy & Phys I Lab (1 c.h.), BIOL 215 Human Anatomy and Physiology II (3 c.h.), and BIOL 216 Human Anatomy & Phys II Lab (1 c.h.) for RN students with a current & active Nursing License
4. These courses will be satisfied automatically for RNs

5. NURS 220 Advanced Nursing Communication (3 c.h.) requires a background check as a course assignment and must be taken as the first Nursing course to help set a foundation for the remaining Nursing coursework
6. Students must complete NURS 500 Research (3 c.h.) and NURS 503 Managing Population Health (3 c.h.) prior to NURS 492 Adv Concepts of Nurs Practice (3 c.h.)
7. If this course is not successfully completed (B- or better), the student will need to take NURS 225 Research in Nursing (3 c.h.) as a prerequisite prior to repeating NURS 500 Research (3 c.h.)
8. If this course is not successfully completed (B- or better), the student will need to take NURS 445 Population Health (3 c.h.) as a prerequisite prior to repeating NURS 503 Managing Population Health (3 c.h.)
9. NURS 617 Nurse Educator I: Advanced Clinical Applications (3 c.h.), NURS 618 Nurse Educator II: Teaching Strategies (3 c.h.), NURS 619 Nurse Educator III: Curriculum Development (3 c.h.) & NURS 620 Nurse Educator IV: Role of the Nurse Educator (3-6 c.h.) involve practicum hours [Nurse Educator-200 hours]

All applicable prerequisites must be met

### Graduations Requirements

- **151 Total Credit Hours**
- **120 Credit hours must be 100-400 level courses (NURS 500 Research (3 c.h.) & NURS 503 Managing Population Health (3 c.h.) included)**
- **3.0 Overall grade point average**
- **30 Credit hours of undergraduate courses must be upper-level (300-400 level)**
- **Grade of ‘C’** Minimum required for all undergraduate courses in the major
- **Grade of ‘B’** Or higher required for all graduate courses
- **50%** Of the coursework (up to 75 credit hours) may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- **46%** Of the undergraduate courses in majors must be taken through Liberty University
- **30 Credit hours of undergraduate courses must be taken through Liberty University**
- **Nursing** Courses taken through Liberty University which are more than 5 years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit
- **5 years** Degree must be completed within 5 years
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Choose three credit hours of any 500-600 level course 3

Total Hours: 125-130

1 Courses may also fulfill select General Education Requirements
2 Minimum grade of “C” is required
3 Prior Learning Assessment (PLA) Credit will be given for BIOL 213 Human Anatomy and Physiology I (3 c.h.), BIOL 214 Human Anatomy and Physiology I Lab (1 c.h.), BIOL 215 Human Anatomy and Physiology II (3 c.h.), and BIOL 216 Human Anatomy and Physiology II Lab (1 c.h.) for RN students with a current & active Nursing License
4 These courses will be satisfied automatically for RNs
5 NURS 220 Advanced Nursing Communication (3 c.h.) requires a background check as a course assignment and must be taken as the first Nursing course to help set a foundation for the remaining Nursing coursework
Students must complete NURS 500 Research (3 c.h.) and NURS 503 Managing Population Health (3 c.h.) prior to NURS 492 Advanced Concepts of Nursing Practice (3 c.h.)

If this course is not successfully completed (B- or better), the student will need to take NURS 225 Research in Nursing (3 c.h.) as a prerequisite prior to repeating NURS 500 Research (3 c.h.)

If this course is not successfully completed (B- or better), the student will need to take NURS 445 Population Health (3 c.h.) as a prerequisite prior to repeating NURS 503 Managing Population Health (3 c.h.)

All applicable prerequisites must be met

Graduation Requirements

- 151 Total Credit Hours
- 120 Credit hours must be 100-400 level courses (NURS 500 Research (3 c.h.) & NURS 503 Managing Population Health (3 c.h.) included)
- 3.0 Overall grade point average
- 30 Credit hours of undergraduate courses must be upper-level (300-400 level)
- Grade of ‘C’ Minimum required for all undergraduate courses in the major
- Grade of ‘B’ Or higher required for all graduate courses
- 50% Of the coursework (up to 75 credit hours) may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 46% Of the undergraduate courses in majors must be taken through Liberty University
- 30 Credit hours of undergraduate courses must be taken through Liberty University
- Nursing Courses taken through Liberty University which are more than 5 years old may not be applied towards this degree. Students are required to repeat the course if it has exceeded the age limit
- 5 years Degree must be completed within 5 years
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nursing Informatics (B.S.N. to M.S.N.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

The MSN/MBA program will sharpen students’ knowledge, skills, and abilities as they manage in the capacity of a healthcare professional. Students will learn how to be successful in the health care organization, (M.S.N.) & Master of Business (M.B.A.)

Purpose

Admission to the Master of Science in Nursing (MSN) / Master of Business Administration (M.B.A.) program is a competitive process.

Admission standards for MSN/MBA include:

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.);
2. Introductory statistics course (math preferred) and an undergraduate course in health assessment are required. For those who did not complete these courses in their undergraduate programs, they may fulfill these requirements during the first two semesters of the M.S.N. program and must complete a undergraduate statistics course

Liberty University 2019-2020 Graduate Catalog 695
and an undergraduate nursing research course prior enrollment in NURS 500 Research (3 c.h.); the undergraduate course for health assessment must be fulfilled prior to enrollment in NURS 505 Advanced Health / Physical Assessment (3 c.h.).

3. Minimum cumulative undergraduate GPA of 3.00 on a scale of 4.00.
4. Current registered nurse license in good standing without any sanctions or restrictions, actual or pending issued in one of the fifty United States.
5. Must have one year of nursing practice as a registered nurse.
6. Students with RN license and bachelor's degree in a discipline other than Nursing must take NURS 225 Research in Nursing (3 c.h.), NURS 440 Strategies for Community Health Care (5 c.h.), NURS 489 Leadership in Nursing (3 c.h.), and NURS 491 Nursing Management (3 c.h.) within the first year of the program.

7. One Recommendation from a Nurse Manager.

Program Learning Outcomes
Master of Science in Nursing (M.S.N.)
The student will be able to:

1. Integrate research and scholarship into advanced nursing practice (AACN/CCNE I, IV, NLN 7, ANAAdmin. 10, 13, 15).
2. Influence nursing practice by integrating policy criteria and advocacy skills (AACN/CCNE VI, NLN 8, ANA-Admin. 16).
4. Collaborate with members of Inter-professional teams to promote culturally competent population health care and clinical prevention in a variety of settings. (AACN/CCNE VII, VIII, ANAAdmin Sb, 10, 11).
5. Utilize innovative health care technologies in a variety of practice settings. (AACN/CCNE V, NLN 1, ANA-Admin. 14).
6. Apply Christian Worldview and ethical decision making to Advanced Nursing Practice (LU mission, AACN/CCNE IX, NLN 6, ANA-Admin 12).
7. Demonstrate leadership in a variety of professional practice and educational settings. (AACN/CCNE II, IX, NLN 5, 8, ANA-Admin. 3, 15).

Nurse Administration Concentration
The student will be able to:

1. Demonstrate consultation and collaboration with interdisciplinary teams to direct healthcare systems delivery of nursing services and professional practice (ANA-Ad min Sc, 11, 10).
2. Provide health care systems management utilizing the nursing process to perform strategic planning, fiscal and resource management and evaluation of outcomes (ANA-Admin 1-6, 14).
3. Utilize evidence to create a culture of safety and quality based on nursing values; advocacy; current nursing practice; legal, ethical, and regulatory compliance (ANA-Admin. 7, 8, 9, 12).

Master of Business Administration (M.B.A.)
The student will be able to:

1. Incorporate Christian worldview perspectives when solving business ethical dilemmas.
2. Evaluate and present scholarship relevant to business contexts.
3. Solve complex business issues within various contexts.

Program Dismissal
Automatic dismissal without the options for extensions, to repeat courses, or to reapply to the MSN – MBA program occurs when students:

- Earn more than three (3) graduate NURS grades of C+ or lower.
- Earn more than one (1) graduate NURS grade of D+ or lower.
- Earn a GPA lower than 3.0 for two consecutive semesters.
- Fail to report any changes, sanctions, or other updates to their RN license to the MSN program Chair.
- Are in violation of the Liberty University Online honor Code.

Graduation Requirements for MSN/MBA
1. Complete 60 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. 3.0 GPA
4. No grades lower than a B- may be applied to the degree.
5. Liberty University coursework that is more than 5 years old may not be applied towards that degree. Students are required to repeat the course if it is has exceeded the age limit.
6. Degree must be completed within 5 years.
7. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Program of Study
Delivery Format: Online Only
- Nursing (M.S.N.) & Master of Business Administration (M.B.A.) (p. 700)

Career Opportunities
- Clinical Manager
- Health Information Manager
- Nursing Administrator
- Healthcare Policy Consultant
- State or Federal Healthcare Advocacy

Courses
NURS 500 Research 3 Credit Hours

Prerequisites: (Research Met (NURS 225) with a score of 3 and Stats Met (MATH 201) with a score of 3) or (BSN Met with a score of 3 and Stats Met (MATH 201) with a score of 3)

This course expands upon research knowledge acquired at the baccalaureate level and focuses on in-depth study of the research process, theory-based research, data collection and analysis methods, and application of nursing and related research findings to nursing practice. The importance of evidence-based practice is emphasized. Quantitative and qualitative methodologies are examined.
NURS 501 Health Policy and Ethics 3 Credit Hours

This course examines policy decisions and related issues that shape the organization, financing, and implementation of health care services and delivery systems. Ethical, social, and political issues that affect the provision of health care, nursing services, communities, and society are critically analyzed. Dynamics related to the roles and influences of health care providers and consumers, government, and law are discussed. Advanced nursing practice and its impact on policy decision making and health care is emphasized.

Offered: Online

NURS 502 Nursing Theory and Advanced Practice 3 Credit Hours

Emphasis is placed on the critique, evaluation, and utilization of nursing and other relevant theories that apply to advanced nursing practice and a comprehensive approach to care. Professional role development, interdisciplinary relationships, and issues relevant to advanced practice are studied.

NURS 503 Managing Population Health 3 Credit Hours

This course focuses on health behaviors of diverse populations and critical analysis of various theories of health promotion and clinical prevention. Health behaviors of different cultures and age groups are addressed, relevant nursing research on health promotion and clinical prevention are discussed, and new areas for nursing research are identified. Emphasis is placed on the promotion of health, prevention of illness, and environmental factors that impact health status. The importance of providing appropriate, individualized health care that is sensitive to the ethnic, racial, gender and age differences within and across diverse populations is stressed and the role of the advanced practice nurse is emphasized.

Offered: Online

NURS 504 Advanced Pharmacology 3 Credit Hours

Prerequisites: (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3 and NURS 505 and NURS 506) or (BSN Met with a score of 3 and NURS 505 and NURS 506)

This course is designed to expand the advanced practice student’s knowledge of pharmacotherapeutics, which includes the cellular response level, for the management of individuals in the acute care and primary care setting. Broad categories of pharmacologic agents are examined. Skills to assess, diagnose, and manage a client’s common health problems in a safe, high quality, cost-effective manner are emphasized.

Registration Restrictions: BSN, RN, or RN with bachelor’s degree in another discipline.

Offered: Online

NURS 505 Advanced Health / Physical Assessment 3 Credit Hours

Prerequisites: (BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course focuses on comprehensive physical assessment which includes in-depth history, physical and psychological signs and symptoms, developmental stages, pathophysiologic changes, and psychosocial and cultural characteristics of the individual, family, and community as client. Enhancement of communication and observational skills are emphasized along with the development of sensitive and refined interviewing techniques. Students must obtain a master’s prepared nurse preceptor who will proctor their final exam which is a comprehensive head-to-toe physical assessment.

Registration Restrictions: BSN, RN, or RN with bachelor degree in another discipline.

Offered: Online

NURS 506 Advanced Physiology and Pathophysiology 3 Credit Hours

Prerequisites: BSN Met with a score of 3 or (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3) or (EXSC 510 and EXSC 525)

System-focused content addresses the normal physiologic and pathologic mechanisms of disease that serve as the foundation for advanced clinical assessment, decision-making, and management. Physiologic changes are compared and contrasted over the life span and developmental physiology, normal etiology, pathogenesis, and clinical manifestations of commonly found/observed altered health states and responses to illness and treatment modalities are examined.

Registration Restrictions: BSN, RN or Non-BSN degree, RN and NURS 225, 440, 445, 490 and 491; or EXSC 510 and 525.

Offered: Online

NURS 507 Advanced Acute Adult Care I 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506

This course focuses on advanced nursing skills and assessment related to common developmental, health, and illness changes of adults. The effects of acute illness on the individual and family are also analyzed. In addition, pharmacological, nutritional, and psychosocial management options are examined. Role development as a clinical nurse specialist is discussed. With the assistance of faculty and selected preceptors students design practicums tailored to their individual preferences, professional goals, and objectives for future practice as clinical nurse specialists. Students who choose to focus on teaching based on advanced practice knowledge and expertise within the acute care specialty are guided to integrate specific goals and objectives congruent with the role of nurse educator into their practicums. A clinical contract is developed and established with an approved MSN preceptor; and clinical practicum hours are initiated.
NURS 519 Strategies for End of Life Care 3 Credit Hours

The focus of this course is to explore the multifaceted role of caring for the patient who has reached the end of life. Particular attention is given to providing sufficient knowledge to assure that the student will be prepared to facilitate the patient's comfort and quality of life. Other areas include ethical/legal issues, cultural perspectives on death and dying, grief, and death. Course content emphasizes the respectful treatment of the entire individual and the delivery of care with the love of Christ. (E elective course)

NURS 521 Nursing Issues, Informatics and Technology 3 Credit Hours

Prerequisites: (NURS 501 and BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (NURS 501 and Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course prepares students for the rapidly evolving world of health care by addressing topics affecting practice and issues facing future nurse leaders and educators. Changing reimbursement models and their effect on nursing practice will be discussed. Topics related to technology such as tele-health and nursing informatics will be examined. Quality improvement, patient safety, and other topics relevant to contemporary nursing will be explored.

Offered: Online

NURS 522 Performance Management in Healthcare 3 Credit Hours

This course will allow students to explore the concepts that support a sound approach to managing performance. Performance management is a proactive and ongoing process which strives to align individual, unit, and/or team performance with the mission, vision, and strategic goals of the organization. When organizational goals are established, performance metrics are created along with a methodical measurement process that will support analysis of performance. Performance management also implies that leaders are managing their individual staff through relationship and rapport building, investment in the ongoing growth of employees, goal setting, motivating and rewarding staff, and giving feedback at regular intervals.

Offered: Online

NURS 523 Financial and Resource Management for Nurse Leaders 3 Credit Hours

Prerequisites: NURS 521

The course focuses on financial and resource management for the nurse leader. The course provides students the skills and knowledge to perform a variety of functions related to financial and resource management including budgetary functions such as operating, expense, revenue, capital, and performance budgets, planning, controlling, management of costs associated with staff/skill mix, and cost analysis. Key concepts such as strategic management, reimbursement and payor mix, forecasting economic and marketing factors are explored for decision making. Students will be required to perform financial and budgeting operations and spread sheet analysis using Microsoft® Excel.

Offered: Online

NURS 524 Systems Management and Leadership for Nurse Leaders 3 Credit Hours

Prerequisites: NURS 523

This course is designed for students who desire to develop skills in the areas of leadership and management who plan to utilize their selected area of advanced practice and knowledge as nurse leaders within healthcare organizations. Students will investigate content areas that will build knowledge and expertise in working with systems theories, high performing work teams, information systems, change theories and theories of organizational behavior. Leadership styles and innovations styles will be explored.

Registration Restrictions: Admission to the MSN program.

Offered: Online

NURS 600 Evaluation Strategies for Nurse Educators 3 Credit Hours

This course will cover various formative and summative evaluation strategies for assessment of student learning outcomes in the classroom, clinical, and laboratory settings. Attention will be given to social/legal/ethical issues, students with disabilities, and cultural diversity.

Offered: Online

NURS 613 Advanced Community Health II 3 Credit Hours

Prerequisites: NURS 512

Provides the student with clinical opportunities to apply theories and community health models of care to families and community groups. Emphasis is on the development of the advanced practice role of clinical nurse specialist. Economic, ethical, and political issues relevant to health care delivery to multicultural populations within a variety of community settings are examined. Theoretical and evidence-based practice, collaboration, and current health care climate are addressed. Clinical practicum hours continue.

NURS 617 Nurse Educator I: Advanced Clinical Applications 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506 and NURS 521

This course provides the student advanced health assessment skills within a selected population. Biopsychosocial, cultural, spiritual, physical, ethical concepts, and systems theory will be integrated into managing advanced health care needs of the client. Students will apply the nursing process and focus on improving patient outcomes. The theoretical framework for simulation design for nursing education, the nursing process, collaborative learning and guided reflection will be explored to create student-centered educational experiences for attainment of clinical skills and critical thinking. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; advanced clinical application practicum hours are initiated in NURS 617. Students must meet all pre-practicum requirements prior to enrollment in NURS 617; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to the MSN program.

Offered: Online
**NURS 618 Nurse Educator II: Teaching Strategies**  
3 Credit Hours  

**Prerequisites:** NURS 617 and NURS 600

This course provides students with a variety of teaching strategies and evaluative approaches designed to promote a productive and effective learning environment. Selected teaching learning theories are examined and applied to the role of nurse educator and nursing education practice. Students establish nurse education practicum goals and objectives and are required to obtain a nurse educator preceptor. Practicum hours involve practical observational and hands-on experiences in both the clinical and classroom environments. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; practicum hours are initiated in NURS 618. Students must meet all pre-practicum requirements prior to enrollment in NURS 618; refer to Graduate Nursing Handbook for pre-practicum requirements.

**Offered:** Online

**NURS 619 Nurse Educator III: Curriculum Development**  
3 Credit Hours  

**Prerequisites:** NURS 618

This course provides students with the fundamental knowledge and requisite skill set needed to effectively design, develop, implement, and evaluate nursing education focused curricula. Current trends in nursing education and accreditation are discussed; philosophies, conceptual frameworks, development of learning goals and objectives are examined and applied. Practicum hours continue.

**Offered:** Online

**NURS 620 Nurse Educator IV: Role of the Nurse Educator**  
3-6 Credit Hours  

**Prerequisites:** NURS 619

This course is designed for students who elect to utilize their selected area of advanced practice knowledge and related practicum experiences by serving as nurse educators. Students are guided to continue working with preceptors to fulfill clinical and educational objectives that were developed and initiated in NURS 618. A research project that leads to the writing of a scholarly paper suitable for publication is required.

**Note:** Students admitted in the program prior to Fall 2012, follow the prior Nurse Education track and the course/practicum hours for those students is 6 hours.

**Offered:** Online

**NURS 623 Nursing Administration I: The Role of the Nurse Administrator**  
3 Credit Hours  

**Prerequisites:** NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521 and NURS 523 and BUSI 610

The practicum course will provide the student an opportunity to explore the role of the nurse administrator within today's health care organizations. Students will examine organizational structure, management theory, professional ethics, and policy, legal and ethical and regulatory issues as a foundation to create a culture of excellence, quality and safety. Students will examine decision making and the role of the nurse administrator within the context of political and power structures, the practice, institutional and physical environments of the organization and external factors. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse leader preceptor prior to enrollment in this course; nursing administration/leadership practicum hours are initiated in NURS 623. Students must meet all pre-practicum requirements prior to enrollment in NURS 623; refer to Graduate Nursing Handbook for pre-practicum requirements.

**Registration Restrictions:** Admission to MSN program.

**Offered:** Online

**NURS 624 Nursing Administration II: Organizational Leadership and Management**  
3 Credit Hours  

**Prerequisites:** NURS 524 and NURS 623

This practicum course will provide students with an opportunity to apply theories of leadership and use of self to develop the leadership and managements skills required of the nurse leader. Students will obtain knowledge, skills and abilities to lead and manage a diverse workforce in a complex healthcare environment. Particular emphasis will be on team building, managing conflict, expanding opportunities for effective communication and dealing with change. The role of the leader as a transforming influence will be integrated into the practicum experience that fosters a vision for developing innovations that support positive patient and organizational outcomes.

**Offered:** Online

**NURS 625 Nursing Administration III: Management of Resources**  
3 Credit Hours  

**Prerequisites:** NURS 624 and BUSI 642

This practicum course will provide the student an opportunity to apply legal, regulatory and ethical considerations in the management of resources. Management of human resources will include topics such as relationship management, staff development, professional performance appraisals, motivation, personnel policies and procedures. Principles of financial, material, and technological resource management will be utilized through collaborative learning opportunities.

**Offered:** Online
NURS 626 Nursing Administration IV: Nursing Administration Capstone 3 Credit Hours

**Prerequisites:** NURS 625

This practicum course provides students an opportunity to demonstrate competencies in key elements of the Nurse Administrator role and apply the advanced practice role to a variety of professional practice settings. Students will integrate standards of professional nursing performance, ethical, legal and regulatory compliance to practice during a capstone project and experience.

**Offered:** Online

NURS 627 Practicum I Health Policy Leadership 3 Credit Hours

The HP I practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities. Typically, the student will complete the practicum at their employing organization.

**Offered:** Online

NURS 628 Practicum II Health Policy Leadership 3 Credit Hours

The Health Policy Leadership II practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities.

**Offered:** Online

NURS 629 Practicum III Health Policy Leadership 3 Credit Hours

The Health Policy Leadership III practicum is designed to provide the student already employed in a healthcare organization with exposure to the policy-making processes and activities within the local and/or state levels.

**Offered:** Online

NURS 630 Nursing Informatics Capstone 3 Credit Hours

**Prerequisites:** NURS 524 and INFO 668

Course description: This capstone course will provide the graduate student with the opportunity to demonstrate mastery of the core competencies of the nursing informatics field (ANA, 2015) through identification of a problem, issue, or need in professional practice. A community assessment will be performed to identify the problem, issue or need at hand. Through consultation with their professor, the graduate student will then create an evidence-based project, to address this area of need through synthesis of advanced knowledge and skills, resulting in a nursing informatics deliverable as a means to foster improved outcomes.

**Offered:** Online

NURS 631 Community Health Practicum I Health Policy Leadership 3 Credit Hours

**Prerequisites:** NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521

This practicum course is designed to engage the practicing nurse in community health nursing with the goal of promoting and preserving the health of populations. This course recognizes that community health practice is responsible to the community as client with services provided to individuals, families and groups to promote health and prevent disease. Students will apply knowledge and skills regarding comprehensive community assessment and diagnosis, evidenced-based nursing theory and community practice models, analysis of population data, and priority setting. Emphasis is placed on biblical worldview, culturally relevant care and interdisciplinary teamwork. Clinical opportunities within the community setting are initiated.

**Offered:** Online

NURS 632 Community Health Practicum II 3 Credit Hours

This practicum course is designed to build on practicum experiences from NURS 631 and expand the practicing RN's engagement within the community setting by considering community concepts and addressing the social determinants of health; with the goal of promoting and preserving the health of populations. RN's will apply knowledge and skills from nursing practice, nursing courses, and public health sciences to broaden their understanding of caring for a community's health.

**Offered:** Online

NURS 633 Community Health Practicum III 3 Credit Hours

This course completes community health practicum experience that continues to build on community focus to include community based management, formulates community goals and objectives, concentrating on evidence-based program planning while expanding population-oriented preventive, therapeutic and rehabilitative models of care.

**Offered:** Online

NURS 668 Health/Wellness Capstone Project 3 Credit Hours

**Prerequisites:** NURS 501 and NURS 503 and NURS 519

This capstone course is designed for health/wellness majors who are in the last semester of their Health Services graduate degree program. With guidance from the course professor, students will develop a health-oriented educational program, based on current research. 

**Note:** Students must be in the final semester of their Health Services degree program.

NURS 695 Independent Study 1-3 Credit Hours

**Nursing (M.S.N.) & Master of Business Administration (M.B.A.)**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain 
in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Total Hours** 60

1. Students with RN license and bachelors degree in a discipline other than Nursing must take NURS 225 Research in Nursing (3 c.h.), NURS 440 Strategies for Community Health Care (5 c.h.), NURS 445 Population Health (3 c.h.), NURS 490 Leadership/Management in Nursing (3.5 c.h.) and NURS 491 Nursing Management (3 c.h.) within the first year of the program

2. Introductory statistics course (math preferred) and an undergraduate course in health assessment are required. For those who did not complete these courses in their undergraduate programs, they may fulfill these requirements during the first two semesters of the MSN program. Students must complete the statistics course prior to enrollment in NURS 500 Research (3 c.h.).

3. NURS 623 Nursing Administration I: The Role of the Nurse Administrator (3 c.h.), NURS 624 Nursing Administration II: Organizational Leadership and Management (3 c.h.), NURS 625 Nursing Administration III: Management of Resources (3 c.h.) and NURS 626 Nursing Administration IV: Nursing Administration Capstone (3 c.h.) involve practicum hours. Students must obtain a preceptor site contract along with an approved MSN or doctoral-prepared nurse leader preceptor. Students must also complete all pre-practicum requirements prior to enrollment in any practicum course.

4. Students who have obtained or are pursuing a J.D. through Liberty University may substitute BUSI 561 Legal Issues in Business (3 c.h.) with LAW 561 Business Associations (4 c.h.)

All applicable prerequisites must be met

**Graduation Requirements**

- Complete 60 total hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No grades lower than B- may be applied to the degree
- Liberty University coursework that is more than 5 years old may not be applied towards this degree. Students are required to repeat the course if it is has exceeded the age limit
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

**Program Offered in Online Format**

**Master of Science in Nursing (M.S.N.) & Master of Science in Healthcare Administration (M.S.)**

**Purpose**

The MSN/MS program will sharpen students' knowledge, skills, and abilities as they manage in the capacity of a healthcare professional. Students will learn how to be successful in the health care organization, manage operations and personnel, ensure quality, and maintain compliance with laws that affect healthcare providers, administrators, and organizations.

**Program Specific Admission Requirements**

Admission to the Master of Science in Nursing (MSN) / Master of Science in Healthcare Administration (MS) program is a competitive process.

**Admission standards for MSN/MS include:**

1. An earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.);
2. Introductory statistics course (math preferred) and an undergraduate course in health assessment are required. For those who did not complete these courses in their undergraduate programs, they may fulfill these requirements during the first two semesters of the M.S.N. program and must complete a undergraduate statistics course and an undergraduate nursing research course prior enrollment in NURS 500 Research (3 c.h.); the undergraduate course for health assessment must be fulfilled prior to enrollment in NURS 505 Advanced Health / Physical Assessment (3 c.h.).
3. Minimum cumulative undergraduate GPA of 3.00 on a scale of 4.00.
4. Current registered nurse license in good standing without any sanctions or restrictions, actual or pending issued in one of the fifty United States.
5. Must have one year of nursing practice as a registered nurse.
6. Students with RN license and bachelor’s degree in a discipline other than Nursing must take NURS 225 Research in Nursing (3 c.h.), NURS 440 Strategies for Community Health Care (5 c.h.), NURS 489 Leadership in Nursing (3 c.h.), and NURS 491 Nursing Management (3 c.h.) within the first year of the program.

7. One Recommendation from a Nurse Manager.

Program Learning Outcomes
Master of Science in Nursing (M.S.N.)
The student will be able to:
1. Integrate research and scholarship into advanced nursing practice (AACN/CCNE I, IV, NLN 7, ANAAdmin. 10, 13, 15).
2. Influence nursing practice by integrating policy criteria and advocacy skills (AACN/CCNE VI, NLN 8, ANAAdmin. 16).
4. Collaborate with members of Inter-professional teams to promote culturally competent population health care and clinical prevention in a variety of settings. (AACN/CCNE VII, VIII, ANAAdmin Sb, 10, 11).
5. Utilize innovative health care technologies in a variety of practice settings. (AACN/CCNE V, NLN 1, ANA-Admin. 14).
6. Apply Christian Worldview and ethical decision making to Advanced Nursing Practice (LU mission, AACN/CCNE IX, NLN 6, ANA-Admin 12).
7. Demonstrate leadership in a variety of professional practice and educational settings. (AACN/CCNE II, IX, NLN 5, 8, ANA-Admin. 3, 15).

Nurse Administration Concentration
The student will be able to:
1. Demonstrate consultation and collaboration with interdisciplinary teams to direct healthcare systems delivery of nursing services and professional practice (ANA-Admin Sc, 11, 10).
2. Provide health care systems management utilizing the nursing process* to perform strategic planning, fiscal and resource management and evaluation of outcomes (ANA-Admin 1-6, 14).
3. Utilize evidence to create a culture of safety and quality based on nursing values; advocacy; current nursing practice; legal, ethical, and regulatory compliance (ANA-Admin. 7, 8, 9, 12).

Master of Science in Healthcare Administration (M.S.)
The student will be able to:
1. Provide solutions that align with a biblical worldview to problems associated with cost, access, and quality of care.
2. Evaluate environmental factors impacting the management of healthcare organizations.
3. Design strategic planning initiatives that incorporate financial analysis, human capital management, operational improvement, marketing, and legal/regulatory compliance based upon knowledge of current literature and industry best practices.

Program Dismissal
Automatic dismissal without the options for extensions, to repeat courses, or to reapply to the MSN – MS program occurs when students:
• Earn more than three graduate course grades of C plus or lower (>3 C’s, or >2 C’s and 1 D, F or FN)
• Earn more than one graduate course grade of D plus, D, D minus, F, or FN
• Earn a GPA lower than 3.0 for two consecutive semesters.
• Fail to report any changes, sanctions, or other updates to their RN license to the MSN program Chair.
• Are in violation of the Liberty University Online Honor Code.

Graduation Requirements for MSN/MS
1. Complete 60 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. 3.0 GPA
4. No grades lower than a B- may be applied to the degree.
5. Liberty University coursework that is more than 5 years old may not be applied towards the degree. Students are required to repeat the course if it is has exceeded the age limit.
6. Degree must be completed within 5 years.
7. Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Program of Study
Delivery Format: Online Only

Career Opportunities
• Clinical manager
• Health information manager
• Nursing home administrator
• Assistant administrator

Courses
NURS 500 Research 3 Credit Hours
Prerequisites: (Research Met (NURS 225) with a score of 3 and Stats Met (MATH 201) with a score of 3) or (BSN Met with a score of 3 and Stats Met (MATH 201) with a score of 3)

This course expands upon research knowledge acquired at the baccalaureate level and focuses on in-depth study of the research process, theory-based research, data collection and analysis methods, and application of nursing and related research findings to nursing practice. The importance of evidence-based practice is emphasized. Quantitative and qualitative methodologies are examined.
NURS 501 Health Policy and Ethics 3 Credit Hours

This course examines policy decisions and related issues that shape the organization, financing, and implementation of health care services and delivery systems. Ethical, social, and political issues that affect the provision of health care, nursing services, communities, and society are critically analyzed. Dynamics related to the roles and influences of health care providers and consumers, government, and law are discussed. Advanced nursing practice and its impact on policy decision making and health care is emphasized.

Offered: Online

NURS 502 Nursing Theory and Advanced Practice 3 Credit Hours

Emphasis is placed on the critique, evaluation, and utilization of nursing and other relevant theories that apply to advanced nursing practice and a comprehensive approach to care. Professional role development, interdisciplinary relationships, and issues relevant to advanced practice are studied.

Offered: Online

NURS 503 Managing Population Health 3 Credit Hours

This course focuses on health behaviors of diverse populations and critical analysis of various theories of health promotion and clinical prevention. Health behaviors of different cultures and age groups are addressed, relevant nursing research on health promotion and clinical prevention are discussed, and new areas for nursing research are identified. Emphasis is placed on the promotion of health, prevention of illness, and environmental factors that impact health status. The importance of providing appropriate, individualized health care that is sensitive to the ethnic, racial, gender and age differences within and across diverse populations is stressed and the role of the advanced practice nurse is emphasized.

Offered: Online

NURS 504 Advanced Pharmacology 3 Credit Hours

Prerequisites: (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3 and NURS 505 and NURS 506) or (BSN Met with a score of 3 and NURS 505 and NURS 506)

This course is designed to expand the advanced practice student’s knowledge of pharmacotherapeutics, which includes the cellular response level, for the management of individuals in the acute care and primary care setting. Broad categories of pharmacologic agents are examined. Skills to assess, diagnose, and manage a client’s common health problems in a safe, high quality, cost-effective manner are emphasized.

Registration Restrictions: BSN, RN, or RN with bachelor’s degree in another discipline.

Offered: Online

NURS 505 Advanced Health / Physical Assessment 3 Credit Hours

Prerequisites: (BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course focuses on comprehensive physical assessment which includes in-depth health history, physical and psychological signs and symptoms, developmental stages, pathophysiologic changes, and psychosocial and cultural characteristics of the individual, family, and community as client. Enhancement of communication and observational skills are emphasized along with the development of sensitive and refined interviewing techniques. Students must obtain a master’s prepared nurse preceptor who will proctor their final exam which is a comprehensive head-to-toe physical assessment.

Registration Restrictions: BSN, RN, or RN with bachelor degree in another discipline.

Offered: Online

NURS 506 Advanced Physiology and Pathophysiology 3 Credit Hours

Prerequisites: BSN Met with a score of 3 or (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3) or (EXSC 510 and EXSC 525)

System-focused content addresses the normal physiologic and pathologic mechanisms of disease that serve as the foundation for advanced clinical assessment, decision-making, and management. Physiologic changes are compared and contrasted over the life span and developmental physiology, normal etiology, pathogenesis, and clinical manifestations of commonly found/observed altered health states and responses to illness and treatment modalities are examined.

Registration Restrictions: BSN, RN or Non-BSN degree, RN and NURS 225, 440, 445, 490 and 491; or EXSC 510 and 525.

Offered: Online

NURS 507 Advanced Acute Adult Care I 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506

This course focuses on advanced nursing skills and assessment related to common developmental, health, and illness changes of adults. The effects of acute illness on the individual and family are also analyzed. In addition, pharmacological, nutritional, and psychosocial management options are examined. Role development as a clinical nurse specialist is discussed. With the assistance of faculty and selected preceptors students design practicums tailored to their individual preferences, professional goals, and objectives for future practice as clinical nurse specialists. Students who choose to focus on teaching based on advanced practice knowledge and expertise within the acute care specialty are guided to integrate specific goals and objectives congruent with the role of nurse educator into their practicums. A clinical contract is developed and established with an approved MSN preceptor; and clinical practicum hours are initiated.
NURS 519 Strategies for End of Life Care 3 Credit Hours

The focus of this course is to explore the multifaceted role of caring for the patient who has reached the end of life. Particular attention is given to providing sufficient knowledge to assure that the student will be prepared to facilitate the patient's comfort and quality of life. Other areas include ethical/legal issues, cultural perspectives on death and dying, grief, and death. Course content emphasizes the respectful treatment of the entire individual and the delivery of care with the love of Christ.

(Elective course)

NURS 521 Nursing Issues, Informatics and Technology 3 Credit Hours

Prerequisites: (NURS 501 and BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (NURS 501 and Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course prepares students for the rapidly evolving world of health care by addressing topics affecting practice and issues facing future nurse leaders and educators. Changing reimbursement models and their effect on nursing practice will be discussed. Topics related to technology such as tele-health and nursing informatics will be examined. Quality improvement, patient safety, and other topics relevant to contemporary nursing will be explored.

Offered: Online

NURS 522 Performance Management in Healthcare 3 Credit Hours

This course will allow students to explore the concepts that support a sound approach to managing performance. Performance management is a proactive and ongoing process which strives to align individual, unit, and/or team performance with the mission, vision, and strategic goals of the organization. When organizational goals are established, performance metrics are created along with a methodical measurement process that will support analysis of performance. Performance management also implies that leaders are managing their individual staff through relationship and rapport building, investment in the ongoing growth of employees, goal setting, motivating and rewarding staff, and giving feedback at regular intervals.

Offered: Online

NURS 523 Financial and Resource Management for Nurse Leaders 3 Credit Hours

Prerequisites: NURS 521

The course focuses on financial and resource management for the nurse leader. The course provides students the skills and knowledge to perform a variety of functions related to financial and resource management including budgetary functions such as operating, expense, revenue, capital, and performance budgets, planning, controlling, management of costs associated with staff/skill mix, and cost analysis. Key concepts such as strategic management, reimbursement and payor mix, forecasting economic and marketing factors are explored for decision making. Students will be required to perform financial and budgeting operations and spread sheet analysis using Microsoft® Excel.

Offered: Online

NURS 524 Systems Management and Leadership for Nurse Leaders 3 Credit Hours

Prerequisites: NURS 523

This course is designed for students who desire to develop skills in the areas of leadership and management who plan to utilize their selected area of advanced practice and knowledge as nurse leaders within healthcare organizations. Students will investigate content areas that will build knowledge and expertise in working with systems theories, high performing work teams, information systems, change theories and theories of organizational behavior. Leadership styles and innovations styles will be explored.

Registration Restrictions: Admission to the MSN program.

Offered: Online

NURS 600 Evaluation Strategies for Nurse Educators 3 Credit Hours

This course will cover various formative and summative evaluation strategies for assessment of student learning outcomes in the classroom, clinical, and laboratory settings. Attention will be given to social/legal/ethical issues, students with disabilities, and cultural diversity.

Offered: Online

NURS 613 Advanced Community Health II 3 Credit Hours

Prerequisites: NURS 512

Provides the student with clinical opportunities to apply theories and community health models of care to families and community groups. Emphasis is on the development of the advanced practice role of clinical nurse specialist. Economic, ethical, and political issues relevant to health care delivery to multicultural populations within a variety of community settings are examined. Theoretical and evidence-based practice, collaboration, and current health care climate are addressed. Clinical practicum hours continue.

NURS 617 Nurse Educator I: Advanced Clinical Applications 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506 and NURS 521

This course provides the student advanced health assessment skills within a selected population. Biopsychosocial, cultural, spiritual, physical, ethical concepts, and systems theory will be integrated into managing advanced health care needs of the client. Students will apply the nursing process and focus on improving patient outcomes. The theoretical framework for simulation design for nursing education, the nursing process, collaborative learning and guided reflection will be explored to create student-centered educational experiences for attainment of clinical skills and critical thinking. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; advanced clinical application practicum hours are initiated in NURS 617. Students must meet all pre-practicum requirements prior to enrollment in NURS 617; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to the MSN program.

Offered: Online
NURS 618 Nurse Educator II: Teaching Strategies 3 Credit Hours

Prerequisites: NURS 617 and NURS 600

This course provides students with a variety of teaching strategies and evaluative approaches designed to promote a productive and effective learning environment. Selected teaching learning theories are examined and applied to the role of nurse educator and nursing education practice. Students establish nurse education practicum goals and objectives and are required to obtain a nurse educator preceptor. Practicum hours involve practical observational and hands-on experiences in both the clinical and classroom environments. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; practicum hours are initiated in NURS 618. Students must meet all pre-practicum requirements prior to enrollment in NURS 618; refer to Graduate Nursing Handbook for pre-practicum requirements.

Offered: Online

NURS 619 Nurse Educator III: Curriculum Development 3 Credit Hours

Prerequisites: NURS 618

This course provides students with the fundamental knowledge and requisite skill set needed to effectively design, develop, implement, and evaluate nursing education focused curricula. Current trends in nursing education and accreditation are discussed; philosophies, conceptual frameworks, development of learning goals and objectives are examined and applied. Practicum hours continue.

Offered: Online

NURS 620 Nurse Educator IV: Role of the Nurse Educator 3-6 Credit Hours

Prerequisites: NURS 619

This course is designed for students who elect to utilize their selected area of advanced practice knowledge and related practicum experiences by serving as nurse educators. Students are guided to continue working with preceptors to fulfill clinical and educational objectives that were developed and initiated in NURS 618. A research project that leads to the writing of a scholarly paper suitable for publication is required.

Note: Students admitted in the program prior to Fall 2012, follow the prior Nurse Education track and the course/practicum hours for those students is 6 hours.

Offered: Online

NURS 623 Nursing Administration I: The Role of the Nurse Administrator 3 Credit Hours

Prerequisites: NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521 and NURS 523 and BUSI 610

The practicum course will provide the student an opportunity to explore the role of the nurse administrator within today’s healthcare organizations. Students will examine organizational structure, management theory, professional ethics, and policy, legal and ethical and regulatory issues as a foundation to create a culture of excellence, quality and safety. Students will examine decision making and the role of the nurse administrator within the context of political and power structures, the practice, institutional and physical environments of the organization and external factors. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse leader preceptor prior to enrollment in this course; nursing administration/leadership practicum hours are initiated in NURS 623. Students must meet all pre-practicum requirements prior to enrollment in NURS 623; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to MSN program.

Offered: Online

NURS 624 Nursing Administration II: Organizational Leadership and Management 3 Credit Hours

Prerequisites: NURS 524 and NURS 623

This practicum course will provide students with an opportunity to apply theories of leadership and use of self to develop the leadership and management skills required of the nurse leader. Students will obtain knowledge, skills and abilities to lead and manage a diverse workforce in a complex healthcare environment. Particular emphasis will be on team building, managing conflict, expanding opportunities for effective communication and dealing with change. The role of the leader as a transforming influence will be integrated into the practicum experience that fosters a vision for developing innovations that support positive patient and organizational outcomes.

Offered: Online

NURS 625 Nursing Administration III: Management of Resources 3 Credit Hours

Prerequisites: NURS 624 and BUSI 642

This practicum course will provide the student an opportunity to apply legal, regulatory and ethical considerations in the management of resources. Management of human resources will include topics such as relationship management, staff development, professional performance appraisals, motivation, personnel policies and procedures. Principles of financial, material, and technological resource management will be utilized through collaborative learning opportunities.

Offered: Online
NURS 626 Nursing Administration IV: Nursing Administration Capstone  
3 Credit Hours

**Prerequisites:** NURS 625

This practicum course provides students an opportunity to demonstrate competencies in key elements of the Nurse Administrator role and apply the advanced practice role to a variety of professional practice settings. Students will integrate standards of professional nursing performance, ethical, legal and regulatory compliance to practice during a capstone project and experience.

**Offered:** Online

NURS 627 Practicum I Health Policy Leadership  
3 Credit Hours

The HP I practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities. Typically, the student will complete the practicum at their employing organization.

**Offered:** Online

NURS 628 Practicum II Health Policy Leadership  
3 Credit Hours

The Health Policy Leadership II practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities.

**Offered:** Online

NURS 629 Practicum III Health Policy Leadership  
3 Credit Hours

The Health Policy Leadership III practicum is designed to provide the student already employed in a healthcare organization with exposure to the policy-making processes and activities within the local and/or state levels.

**Offered:** Online

NURS 630 Nursing Informatics Capstone  
3 Credit Hours

**Prerequisites:** NURS 524 and INFO 668

Course description: This capstone course will provide the graduate student with the opportunity to demonstrate mastery of the core competencies of the nursing informatics field (ANA, 2015) through identification of a problem, issue, or need in professional practice. A community assessment will be performed to identify the problem, issue or need at hand. Through consultation with their professor, the graduate student will then create an evidence-based project, to address this area of need through synthesis of advanced knowledge and skills, resulting in a nursing informatics deliverable as a means to foster improved outcomes.

**Offered:** Online

NURS 631 Community Health Practicum I Health Policy Leadership  
3 Credit Hours

**Prerequisites:** NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521

This practicum course is designed to engage the practicing nurse in community health nursing with the goal of promoting and preserving the health of populations. This course recognizes that community health practice is responsible to the community as client with services provided to individuals, families and groups to promote health and prevent disease. Students will apply knowledge and skills regarding comprehensive community assessment and diagnosis, evidenced-based nursing theory and community practice models, analysis of population data, and priority setting. Emphasis is placed on biblical worldview, culturally relevant care and interdisciplinary teamwork. Clinical opportunities within the community setting are initiated.

**Offered:** Online

NURS 632 Community Health Practicum II  
3 Credit Hours

This practicum course is designed to build on practicum experiences from NURS 631 and expand the practicing RN's engagement within the community setting by considering community concepts and addressing the social determinants of health; with the goal of promoting and preserving the health of populations. RN's will apply knowledge and skills from nursing practice, nursing courses, and public health sciences to broaden their understanding of caring for a community's health.

**Offered:** Online

NURS 633 Community Health Practicum III  
3 Credit Hours

This course completes community health practicum experience that continues to build on community focus to include community based management, formulates community goals and objectives, concentrating on evidence-based program planning while expanding population-oriented preventive, therapeutic and rehabilitative models of care.

**Offered:** Online

NURS 668 Health/Wellness Capstone Project  
3 Credit Hours

**Prerequisites:** NURS 501 and NURS 503 and NURS 519

This capstone course is designed for health/wellness majors who are in the last semester of their Health Services graduate degree program. With guidance from the course professor, students will develop a health-oriented educational program, based on current research.

**Note:** Students must be in the final semester of their Health Services degree program.

NURS 695 Independent Study  
1-3 Credit Hours

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain
in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1. Students with RN license and bachelors degree in a discipline other than Nursing must take NURS 225 Research in Nursing (3 c.h.), NURS 440 Strategies for Community Health Care (5 c.h.), NURS 445 Population Health (3 c.h.), NURS 490 Leadership/Management in Nursing (3,5 c.h.) and NURS 491 Nursing Management (3 c.h.) within the first year of the program.

2. Introductory statistics course (math preferred) and an undergraduate course in health Assessment are required. For those who did not complete these courses in their undergraduate programs, they may fulfill these requirements during the first two semesters of the MSN program. Students must complete the statistics course prior to enrollment in NURS 500 Research (3 c.h.)

3. NURS 623 Nursing Administration I: The Role of the Nurse Administrator (3 c.h.), NURS 624 Nursing Administration II: Organizational Leadership and Management (3 c.h.), NURS 625 Nursing Administration III: Management of Resources (3 c.h.) and NURS 626 Nursing Administration IV: Nursing Administration Capstone (3 c.h.) involve practicum hours. Students must obtain a preceptor site contract along with an approved MSN or doctorally-prepared nurse leader preceptor. Students must also complete all pre-practicum requirements prior to enrollment in any practicum course.

**All applicable prerequisites must be met**

### Graduation Requirements

- Complete 60 total hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No grades lower than B- may be applied to the degree
- Liberty University coursework that is more than 5 years old may not be applied towards this degree. Students are required to repeat the course if it is is has exceeded the age limit
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

### Program Offered in Online Format

**Master of Science in Nursing (M.S.N.)**

**Purpose**

Liberty University’s Master of Science in Nursing program is founded on a Christian worldview and designed to prepare competent men and women in the field of nursing education and nursing administration. The program prepares students as nurse educators and faculty members in schools of nursing, and nurse administration/leaders. Graduates are equipped with the critical thinking skills, leadership, and knowledge needed to promote the profession of nursing through clinical practice, teaching, research, program development and implementation, and scholarship.

### Program Learning Outcomes

The student will be able to:

1. Integrate research and scholarship into advanced nursing practice (AACN/CCNE I, IV, NLN 7, ANA-Admin. 10, 13, 15).
2. Influence nursing practice by integrating policy criteria and advocacy skills (AACN/CCNE VI, NLN 8, ANA-Admin. 16).
3. Employ quality improvement, safety standards, and outcomes management to support best practices in nursing (AACN/CCNE III, IX, NLN 6, ANA-Admin. 7).
4. Collaborate with members of interprofessional teams to promote culturally competent population health care and clinical prevention in a variety of settings (AACN/CCNE VII, VIII, ANA-Admin 5b, 10, 11).
5. Utilize innovative health care technologies in a variety of practice settings (AACN/CCNE V, NLN1, ANA-Admin. 14).
6. Apply Christian Worldview and ethical decision making to Advanced Nursing Practice (LU mission, AACN/CCNE IX, NLN 6, ANA-Admin 12).
7. Demonstrate leadership in a variety of professional practice and educational settings (AACN/CCNE II, IX, NLN 5, 8, ANA-Admin. 3, 15).

Community Health Concentration
The student will be able to:

1. Evaluate how various organizations, positions and roles contribute to carrying out public health's core functions and essential services.
2. Apply principles derived from the basic public health sciences to planning, implementing and evaluating public health interventions, disaster preparedness, and emergency response activities.

Health Policy Concentration
The student will be able to:

1. Evaluate the role of political actors in the analysis, formation and implementation of health policy and the impact of law and regulation on health policy.
2. Analyze specific health policy decisions and related issues that shape the organization, finances, and implementation of healthcare services and delivery systems.

Nursing Administration Concentration
The student will be able to:

1. Demonstrate consultation and collaboration with interdisciplinary teams to direct health care systems delivery of nursing services and professional practice (ANA-Admin. 5c, 11, 10).
2. Provide health care systems management utilizing the nursing process to perform strategic planning, fiscal and resource management and evaluation of outcomes (ANA-Admin. 1-6, 14).
3. Utilize evidence to create a culture of safety and quality based on nursing values, advocacy, current nursing practice, legal ethical and regulatory compliance (ANA-Admin. 7, 8, 9, 12).

Nurse Educator Concentration
The student will be able to:

1. Design nursing curricula that reflects student learning needs, innovative teaching strategies, assessment and evaluation of learning outcomes that support a positive learning environment (NLN competencies 3 and 4).
2. Construct a learning environment based on educational theory and evidence-based practice which promotes individual learner needs (NLN competency 1).
3. Demonstrates the knowledge, skills, and abilities in creating a learning environment that supports individual goals and diverse student needs (NLN competency 2).

Nursing Informatics Concentration
The student will be able to:

1. Design nursing informatics solutions to reach a community need, resolve a healthcare issue, or improve an outcome in the healthcare setting (ANA-Nursing Inform. 1, 4, 5).
2. Collaborate with key stakeholders in the healthcare setting to create strategies for informatics solutions (ANA-Nursing Inform. 6, 11, 13).
3. Synthesize available data, information, evidence, and knowledge to create a culture of safety and quality based on legal, ethical, and regularly compliance (ANA-Nursing Inform. 1, 7, 10, 15).

Accreditation
The Master of Science in Nursing program at Liberty University is accredited by the Commission on Collegiate Nursing Education:

One Dupont Circle, NW
Suite 530
Washington, DC 20036
(202) 887-6791

Certification
The Master of Science in Nursing – Nurse Educator Concentration may meet the educational requirements of the National League of Nursing's Nurse Educator Certification. The Nurse Administration concentration may meet the educational requirements of the American Nurse Credentialing Center’s Nurse Executive/ Nurse Executive Advanced Certification.

Note: Certification and eligibility requirements are changed periodically by credentialing bodies and are out of the control of the academic institution. Credentialing bodies such as the National League of Nursing and the American Nurse Credentialing Center make the final determination to sit for any exams they may offer.

Program Specific Admission Procedures
All policies and procedures for admission to graduate programs as stated in this Catalog apply unless otherwise stated. The following criteria are established to encourage applications from qualified students who are highly motivated, self-directed, and academically competent to ensure selection of individuals who possess abilities that will enable them to successfully pursue graduate study in nursing. Each applicant must submit documentation to the Office of Graduate Admissions gradadmissions@liberty.edu that addresses the following criteria:

1. Graduate of a nationally accredited nursing program/school or its equivalent. Accrediting bodies include: Commission on Collegiate Nursing Education (CCNE).
2. Bachelor of Science in Nursing (B.S.N.) or a bachelor’s degree in another discipline. Non-B.S.N. applicants with an RN license may be admitted to the M.S.N. program but must satisfy requirements for the following undergraduate bridge courses:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Bridge courses are not a prerequisite to admission into the M.S.N. program, but must be completed within the first year of admission to the M.S.N. program.
3. Introductory statistics course (math preferred) and an undergraduate course in health assessment are required. For those who did not complete these courses in their undergraduate programs, they may fulfill these requirements during the first two semesters of the M.S.N.
Evaluation of Transfer Credits

With approval from the School of Nursing Graduate Faculty Committee, students may transfer up to 21 credit hours from an appropriately accredited institution. In order to transfer credit hours, the student must have earned the minimum grade of B-, and the courses must have been completed within five years of the start date of the program. Students may receive transfer credit for graduate courses that were required for another completed master's degree. The M.S.N. program follows university policy for life experience. For previous life experience consideration, please see policies located in Academic Information & Policies (p. 20). Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Course Requirements

The Master of Science in Nursing offers nurse educator, nursing administration, nursing informatics, community health, and health policy concentrations. Full and part-time options are available. Each student should obtain an up-to-date copy of the Graduate Nursing Student Handbook (available online at Liberty University’s M.S.N. website), for information about matriculation and progression in the M.S.N. program. The application information and forms are also available online.

Practicum Requirements

Documentation that verifies current American Heart Association CPR card immunization status (i.e., measles, mumps and rubella (MMR), tuberculosis (TB) testing, Varicella titer or immunity, Hepatitis B & Influenza), HIPAA and Bloodborne Pathogens, a Criminal Background Check, and 10 Panel Drug Screen must be submitted prior to students enroll in courses that include a practicum component. Additional requirements may be requested by the student-selected practicum facility sites. Students are responsible to assume all costs associated with practicum requirements.

Program Dismissal

Automatic dismissal without the options for extensions, to repeat courses, or to reapply to the MSN program occurs when students:

- Earn more than three (3) graduate grades of C+ or lower.
- Earn more than one (1) graduate grade of D+ or lower.
- Earn a GPA lower than 3.0 for two consecutive semesters.
- Fail to report any changes, sanctions, or other updates to their RN license to the MSN program Chair.
- Are in violation of the Liberty University Online honor Code.

Graduation Requirements

1. Complete 42 hours.
2. A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
3. 3.0 GPA.
4. No grades lower than a B- may be applied to the degree.
5. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
6. Liberty coursework more than 5 years old must be repeated.
7. Degree must be completed within 5 years.
8. Submission of Graduation Application must be completed within the last semester of a student's anticipated graduation date.

**Programs of Study**

**Delivery Format: Online Only**

- Nursing (M.S.N.) - Community Health (p. 714)
- Nursing (M.S.N.) - Health Policy (p. 715)
- Nursing (M.S.N.) - Nurse Educator (p. 715)
- Nursing (M.S.N.) - Nursing Administration (p. 716)
- Nursing (M.S.N.) - Nursing Informatics (p. 716)

**Career Opportunities**

- Administration in Healthcare Systems
- Administration of Nursing Service
- Community Center RN/Specialist
- Curriculum Coordinator
- Director of Nursing (Hospital/Office/Clinic Setting)
- Disaster Relief Planner
- Elected Official
- Emergency Response Team Member
- Health Services Research Analyst
- Healthcare Provider Associate
- Home Care RN
- Legislative Analyst/Assistant
- Lobbying Arm of Professional Organization
- Medical/Health Inspector
- Nurse Leader
- Nurse Programmer
- Nurse Representative
- Professional Workforce Development
- Project Manager
- School/Business RN
- Staff/Patient Educator
- Undergraduate University Nurse Professor

**Courses**

**NURS 500 Research** 3 Credit Hours

**Prerequisites:** (Research Met (NURS 225) with a score of 3 and Stats Met (MATH 201) with a score of 3) or (BSN Met with a score of 3 and Stats Met (MATH 201) with a score of 3)

This course expands upon research knowledge acquired at the baccalaureate level and focuses on in-depth study of the research process, theory-based research, data collection and analysis methods, and application of nursing and related research findings to nursing practice. The importance of evidence-based practice is emphasized. Quantitative and qualitative methodologies are examined.

**NURS 501 Health Policy and Ethics** 3 Credit Hours

This course examines policy decisions and related issues that shape the organization, financing, and implementation of health care services and delivery systems. Ethical, social, and political issues that affect the provision of health care, nursing services, communities, and society are critically analyzed. Dynamics related to the roles and influences of health care providers and consumers, government, and law are discussed. Advanced nursing practice and its impact on policy decision making and health care is emphasized.

**Offered:** Online

**NURS 502 Nursing Theory and Advanced Practice** 3 Credit Hours

Emphasis is placed on the critique, evaluation, and utilization of nursing and other relevant theories that apply to advanced nursing practice and a comprehensive approach to care. Professional role development, interdisciplinary relationships, and issues relevant to advanced practice are studied.

**Offered:** Online

**NURS 503 Managing Population Health** 3 Credit Hours

This course focuses on health behaviors of diverse populations and critical analysis of various theories of health promotion and clinical prevention. Health behaviors of different cultures and age groups are addressed, relevant nursing research on health promotion and clinical prevention are discussed, and new areas for nursing research are identified. Emphasis is placed on the promotion of health, prevention of illness, and environmental factors that impact health status. The importance of providing appropriate, individualized health care that is sensitive to the ethnic, racial, gender and age differences within and across diverse populations is stressed and the role of the advanced practice nurse is emphasized.

**Offered:** Online

**NURS 504 Advanced Pharmacology** 3 Credit Hours

**Prerequisites:** (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3 and NURS 505 and NURS 506) or (BSN Met with a score of 3 and NURS 505 and NURS 506)

This course is designed to expand the advanced practice student's knowledge of pharmacotherapeutics, which includes the cellular response level, for the management of individuals in the acute care and primary care setting. Broad categories of pharmacologic agents are examined. Skills to assess, diagnose, and manage a client's common health problems in a safe, high quality, cost-effective manner are emphasized.

**Registration Restrictions:** BSN, RN, or RN with bachelor's degree in another discipline.

**Offered:** Online
NURS 505 Advanced Health / Physical Assessment  3 Credit Hours

Prerequisites: (BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course focuses on comprehensive physical assessment which includes in-depth health history, physical and psychological signs and symptoms, developmental stages, pathophysiologic changes, and psychosocial and cultural characteristics of the individual, family, and community as client. Enhancement of communication and observational skills are emphasized along with the development of sensitive and refined interviewing techniques. Students must obtain a master’s prepared nurse preceptor who will proctor their final exam which is a comprehensive head-to-toe physical assessment.

Registration Restrictions: BSN, RN, or RN with bachelor degree in another discipline.

Offered: Online

NURS 506 Advanced Physiology and Pathophysiology  3 Credit Hours

Prerequisites: BSN Met with a score of 3 or (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3) or (EXSC 510 and EXSC 525)

System-focused content addresses the normal physiologic and pathologic mechanisms of disease that serve as the foundation for advanced clinical assessment, decision-making, and management. Physiologic changes are compared and contrasted over the life span and developmental physiology, normal etiology, pathogenesis, and clinical manifestations of commonly found/observed altered health states and responses to illness and treatment modalities are examined.

Registration Restrictions: BSN, RN or Non-BSN degree, RN and NURS 225, 440, 445, 490 and 491; or EXSC 510 and 525.

Offered: Online

NURS 507 Advanced Acute Adult Care I  3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506

This course focuses on advanced nursing skills and assessment related to common developmental, health, and illness changes of adults. The effects of acute illness on the individual and family are also analyzed. In addition, pharmacological, nutritional, and psychosocial management options are examined. Role development as a clinical nurse specialist is discussed. With the assistance of faculty and selected preceptors students design practicums tailored to their individual preferences, professional goals, and objectives for future practice as clinical nurse specialists. Students who choose to focus on teaching based on advanced practice knowledge and expertise within the acute care specialty are guided to integrate specific goals and objectives congruent with the role of nurse educator into their practicums. A clinical contract is developed and established with an approved MSN preceptor; and clinical practicum hours are initiated.

NURS 519 Strategies for End of Life Care  3 Credit Hours

The focus of this course is to explore the multifaceted role of caring for the patient who has reached the end of life. Particular attention is given to providing sufficient knowledge to assure that the student will be prepared to facilitate the patient’s comfort and quality of life. Other areas include ethical / legal issues, cultural perspectives on death and dying, grief, and death. Course content emphasizes the respectful treatment of the entire individual and the delivery of care with the love of Christ. (Elective course)

NURS 521 Nursing Issues, Informatics and Technology  3 Credit Hours

Prerequisites: (NURS 501 and BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (NURS 501 and Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course prepares students for the rapidly evolving world of health care by addressing topics affecting practice and issues facing future nurse leaders and educators. Changing reimbursement models and their effect on nursing practice will be discussed. Topics related to technology such as tele-health and nursing informatics will be examined. Quality improvement, patient safety, and other topics relevant to contemporary nursing will be explored.

Offered: Online

NURS 522 Performance Management in Healthcare  3 Credit Hours

This course will allow students to explore the concepts that support a sound approach to managing performance. Performance management is a proactive and ongoing process which strives to align individual, unit, and/or team performance with the mission, vision, and strategic goals of the organization. When organizational goals are established, performance metrics are created along with a methodical measurement process that will support analysis of performance. Performance management also implies that leaders are managing their individual staff through relationship and rapport building, investment in the ongoing growth of employees, goal setting, motivating and rewarding staff, and giving feedback at regular intervals.

Offered: Online

NURS 523 Financial and Resource Management for Nurse Leaders  3 Credit Hours

Prerequisites: NURS 521

The course focuses on financial and resource management for the nurse leader. The course provides students the skills and knowledge to perform a variety of functions related to financial and resource management including budgetary functions such as operating, expense, revenue, capital, and performance budgets, planning, controlling, management of costs associated with staff/skill mix, and cost analysis. Key concepts such as strategic management, reimbursement and payor mix, forecasting economic and marketing factors are explored for decision making. Students will be required to perform financial and budgeting operations and spread sheet analysis using Microsoft® Excel.

Offered: Online
NURS 524 Systems Management and Leadership for Nurse Leaders  
3 Credit Hours

Prerequisites: NURS 523

This course is designed for students who desire to develop skills in the areas of leadership and management who plan to utilize their selected area of advanced practice and knowledge as nurse leaders within healthcare organizations. Students will investigate content areas that will build knowledge and expertise in working with systems theories, high performing work teams, information systems, change theories and theories of organizational behavior. Leadership styles and innovations will be explored.

Registration Restrictions: Admission to the MSN program.

Offered: Online

NURS 600 Evaluation Strategies for Nurse Educators  
3 Credit Hours

This course will cover various formative and summative evaluation strategies for assessment of student learning outcomes in the classroom, clinical, and laboratory settings. Attention will be given to social/legal/ethical issues, students with disabilities, and cultural diversity.

Offered: Online

NURS 613 Advanced Community Health II  
3 Credit Hours

Prerequisites: NURS 512

Provides the student with clinical opportunities to apply theories and community health models of care to families and community groups. Emphasis is on the development of the advanced practice role of clinical nurse specialist. Economic, ethical, and political issues relevant to health care delivery to multicultural populations within a variety of community settings are examined. Theoretical and evidence-based practice, collaboration, and current health care climate are addressed. Clinical practicum hours continue.

NURS 617 Nurse Educator I: Advanced Clinical Applications  
3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506 and NURS 521

This course provides the student advanced health assessment skills within a selected population. Biopsychosocial, cultural, spiritual, physical, ethical concepts, and systems theory will be integrated into managing advanced health care needs of the client. Students will apply the nursing process and focus on improving patient outcomes. The theoretical framework for simulation design for nursing education, the nursing process, collaborative learning and guided reflection will be explored to create student-centered educational experiences for attainment of clinical skills and critical thinking. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; advanced clinical application practicum hours are initiated in NURS 617. Students must meet all pre-practicum requirements prior to enrollment in this course; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to the MSN program.

Offered: Online

NURS 618 Nurse Educator II: Teaching Strategies  
3 Credit Hours

Prerequisites: NURS 617 and NURS 600

This course provides students with a variety of teaching strategies and evaluative approaches designed to promote a productive and effective learning environment. Selected teaching learning theories are examined and applied to the role of nurse educator and nursing education practice. Students establish nurse education practicum goals and objectives and are required to obtain a nurse educator preceptor. Practicum hours involve practical observational and hands-on experiences in both the clinical and classroom environments. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; practicum hours are initiated in NURS 618. Students must meet all pre-practicum requirements prior to enrollment in NURS 618; refer to Graduate Nursing Handbook for pre-practicum requirements.

Offered: Online

NURS 619 Nurse Educator III: Curriculum Development  
3 Credit Hours

Prerequisites: NURS 618

This course provides students with the fundamental knowledge and requisite skill set needed to effectively design, develop, implement, and evaluate nursing education focused curricula. Current trends in nursing education and accreditation are discussed; philosophies, conceptual frameworks, development of learning goals and objectives are examined and applied. Practicum hours continue.

Offered: Online

NURS 620 Nurse Educator IV: Role of the Nurse Educator  
3-6 Credit Hours

Prerequisites: NURS 619

This course is designed for students who elect to utilize their selected area of advanced practice knowledge and related practicum experiences by serving as nurse educators. Students are guided to continue working with preceptors to fulfill clinical and educational objectives that were developed and initiated in NURS 618. A research project that leads to the writing of a scholarly paper suitable for publication is required.

Note: Students admitted in the program prior to Fall 2012, follow the prior Nurse Education track and the course/practicum hours for those students is 6 hours.

Offered: Online
NURS 623 Nursing Administration I: The Role of the Nurse Administrator 3 Credit Hours

**Prerequisites:** NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521 and NURS 523 and BUSI 610

The practicum course will provide the student an opportunity to explore the role of the nurse administrator within today’s health care organizations. Students will examine organizational structure, management theory, professional ethics, and policy, legal and ethical and regulatory issues as a foundation to create a culture of excellence, quality and safety. Students will examine decision making and the role of the nurse administrator within the context of political and power structures, the practice, institutional and physical environments of the organization and external factors. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse leader preceptor prior to enrollment in this course; nursing administration/leadership practicum hours are initiated in NURS 623. Students must meet all pre-practicum requirements prior to enrollment in NURS 623; refer to Graduate Nursing Handbook for pre-practicum requirements.

**Registration Restrictions:** Admission to MSN program.

**Offered:** Online

NURS 624 Nursing Administration II: Organizational Leadership and Management 3 Credit Hours

**Prerequisites:** NURS 524 and NURS 623

This practicum course will provide students with an opportunity to apply theories of leadership and use of self to develop the leadership and management skills required of the nurse leader. Students will obtain knowledge, skills and abilities to lead and manage a diverse workforce in a complex healthcare environment. Particular emphasis will be on team building, managing conflict, expanding opportunities for effective communication and dealing with change. The role of the leader as a transforming influence will be integrated into the practicum experience that fosters a vision for developing innovations that support positive patient and organizational outcomes.

**Offered:** Online

NURS 625 Nursing Administration III: Management of Resources 3 Credit Hours

**Prerequisites:** NURS 624 and BUSI 642

This practicum course will provide the student an opportunity to apply legal, regulatory and ethical considerations in the management of resources. Management of human resources will include topics such as relationship management, staffing development, professional performance appraisals, motivation, personnel policies and procedures. Principles of financial, material, and technological resource management will be utilized through collaborative learning opportunities.

**Offered:** Online

NURS 626 Nursing Administration IV: Nursing Administration Capstone 3 Credit Hours

**Prerequisites:** NURS 625

This practicum course provides students an opportunity to demonstrate competencies in key elements of the Nurse Administrator role and apply the advanced practice role to a variety of professional practice settings. Students will integrate standards of professional nursing performance, ethical, legal and regulatory compliance to practice during a capstone project and experience.

**Offered:** Online

NURS 627 Practicum I Health Policy Leadership 3 Credit Hours

The HP I practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities. Typically, the student will complete the practicum at their employing organization.

**Offered:** Online

NURS 628 Practicum II Health Policy Leadership 3 Credit Hours

The Health Policy Leadership II practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities.

**Offered:** Online

NURS 629 Practicum III Health Policy Leadership 3 Credit Hours

The Health Policy Leadership III practicum is designed to provide the student already employed in a healthcare organization with exposure to the policy-making processes and activities within the local and/or state levels.

**Offered:** Online

NURS 630 Nursing Informatics Capstone 3 Credit Hours

**Prerequisites:** NURS 524 and INFO 668

Course description: This capstone course will provide the graduate student with the opportunity to demonstrate mastery of the core competencies of the nursing informatics field (ANA, 2015) through identification of a problem, issue, or need in professional practice. A community assessment will be performed to identify the problem, issue or need at hand. Through consultation with their professor, the graduate student will then create an evidence-based project, to address this area of need through synthesis of advanced knowledge and skills, resulting in a nursing informatics deliverable as a means to foster improved outcomes.

**Offered:** Online
NURS 631 Community Health Practicum I Health Policy Leadership
3 Credit Hours

Prerequisites: NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521

This practicum course is designed to engage the practicing nurse in community health nursing with the goal of promoting and preserving the health of populations. This course recognizes that community health practice is responsible to the community as client with services provided to individuals, families and groups to promote health and prevent disease. Students will apply knowledge and skills regarding comprehensive community assessment and diagnosis, evidence-based nursing theory and community practice models, analysis of population data, and priority setting. Emphasis is placed on biblical worldview, culturally relevant care and interdisciplinary teamwork. Clinical opportunities within the community setting are initiated.

Offered: Online

NURS 632 Community Health Practicum II
3 Credit Hours

This practicum course is designed to engage the practicing RN's engagement within the community setting by considering community concepts and addressing the social determinants of health, with the goal of promoting and preserving the health of populations. RN’s will apply knowledge and skills from nursing practice, nursing courses, and public health sciences to broaden their understanding of caring for a community's health.

Offered: Online

NURS 633 Community Health Practicum III
3 Credit Hours

This course completes community health practicum experience that continues to build on community focus to include community based management, formulates community goals and objectives, concentrating on evidence-based program planning while expanding population-oriented preventive, therapeutic and rehabilitative models of care.

Offered: Online

NURS 668 Health/Wellness Capstone Project
3 Credit Hours

Prerequisites: NURS 501 and NURS 503 and NURS 519

This capstone course is designed for health/wellness majors who are in the last semester of their Health Services graduate degree program. With guidance from the course professor, students will develop a health-oriented educational program, based on current research.

Note: Students must be in the final semester of their Health Services degree program.

NURS 695 Independent Study
1-3 Credit Hours

Total Hours: 36

1. Students with RN license and bachelors degree in a discipline other than Nursing must take NURS 225 Research in Nursing (3 c.h.), NURS 440 Strategies for Community Health Care (5 c.h.), NURS 445 Population Health (3 c.h.), NURS 490 Leadership/Management in Nursing (3,5 c.h.) and NURS 491 Nursing Management (3 c.h.) within the first year of the program.

2. Introductory statistics course (math preferred) and an undergraduate course in 3.0 GPA health assessment (e.g. NURS 210 Health Assessment (3 c.h.)) are required. For those who did not complete these courses in their undergraduate programs, they may fulfill these requirements during the first two semesters of the MSN program. Students must complete the statistics course prior to enrollment in NURS 500 Research (3 c.h.)

3. NURS 631 Community Health Practicum I Health Policy Leadership (3 c.h.), NURS 632 Community Health Practicum II (3 c.h.), and NURS 633 Community Health Practicum III (3 c.h.) involve practicum hours (200 practicum hours). Students must obtain a preceptor site contract along with an MSN or doctorally-prepared preceptor. Degree must be completed within 5 years.

4. Students must also complete all pre-practicum requirements prior to enrollment in any practicum course

All applicable prerequisites must be met

### Graduation Requirements

- Complete 36 hours
- A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level
- 3.0 GPA
- No grades lower than B- may be applied to the degree
- Liberty University coursework that is more than 5 years old may not be applied towards this degree. Students are required to repeat the course if it is has exceeded the age limit
- Degree must be completed within 5 years
- Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

**Nursing (M.S.N.) - Community Health**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

#### Nursing Informatics Concentration

All applicable prerequisites must be met
The School of Nursing offers a post-graduate certificate in Psychiatric Mental Health Nurse Practitioner. 

Program Learning Outcomes
The student will be able to:

1. Provide integrated mental health care including substance use, and co-morbid physical and mental disorders through screening, assessment diagnosis, treatment/management for clients across the lifespan.
2. Lead interprofessional collaborative practice initiatives to provide mental health care services, advocacy, and policy to promote awareness of mental healthcare disorders and illnesses to improve client safety and quality of care.
3. Utilize technology and information literacy to apply a scientific foundation to professional mental healthcare practice.
4. Integrate the Christian world view into ethical standards to deliver mental health care to diverse populations.
Certificate Completion Requirements for Post-Graduate Psychiatric Mental Health Nurse Practitioner Certificate Program

1. Complete 17 hours.
2. A minimum of 17 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
3. No transfer credit accepted.
4. 3.0 GPA.
5. No Grades lower than a B may be applied to the degree.
6. Successful completion of 504 practicum PMHNP hours.
7. Certificate must be completed within 2 years.
8. Submission of Certificate Completion Application must be completed within the last semester of a student’s anticipated graduation date.
10. Commission on Collegiate Nursing Education (CCNE) requires all DNP students to complete at least 1,000 practicum hours post-BSN.

Program Offered in Online Format

School of Visual & Performing Arts

Administration

Scott M. Hayes, B.F.A., M.F.A.
Dean, School of Visual & Performing Arts
Professor of Theatre Arts

Kevin Rawls, B.S., M.A.R., M.B.A., Ph.D.
Interim Online Dean, School of Visual & Performing Arts

Program Directors

A listing of program directors can be viewed at http://www.liberty.edu/administration/institutionaleffectiveness/index.cfm?PID=37389.

Purpose

The School of Visual & Performing Arts, comprising the Cinematic Arts–Zaki Gordon Center along with the Departments of Studio and Digital Arts and Theatre Arts, offers graduate degrees in order to prepare artists and scholars in the practice and theory of the visual and performing arts. Degrees, by department, include Studio & Digital Arts: MFA in Studio Art, MFA in Graphic Design, and M.A. in Visual Communication Design.

Graduation Requirements

The faculty may change the requirements for the receipt of the degrees listed below, as well as the courses offered, at any time. A student who does not break enrollment will be subject to the graduation requirements of the Catalog at the time of the student’s enrollment.

Breaking Enrollment

For resident students, a break in enrollment occurs when the student fails to enroll in either the Fall or Spring semesters. For online students, a break in enrollment occurs when the student fails to enroll in at least one course during an academic year. The academic year begins with the start of the fall semester and ends with the conclusion of the summer term. Students who break enrollment must apply for readmission and will be subject to the requirements of the Catalog and degree requirements in effect at the time of their readmission.

Programs

• Master of Arts in Visual Communication Design (M.A.) (p. 720)
• Master of Fine Arts in Graphic Design (M.F.A.) (p. 721)
• Master of Fine Arts in Studio Arts (M.F.A.) (p. 722)

Master of Arts in Visual Communication Design (M.A.)

Format
This program is delivered online.

Purpose
The purpose of the program is to produce visual artists, graphic designers and art educators rooted in a Christ-centered perspective that governs every decision, action and work of art they undertake in the field of visual art.

Program Learning Outcomes
The student will be able to:

1. Generate visual communication design solutions using a variety of graphic technologies.
2. Assess the efficacy of visual communication design in relation to its content.
3. Formulate research based visual communication solutions based on knowledge of the literature/artifacts of the discipline.
4. Apply aesthetic and visual design principles to original compositions.

Program Specific Admission Procedures
The Master of Arts in Visual Communication Design program will follow the standard admission, curriculum and graduation requirements as stated in the Liberty University Graduate Catalog with the following specific admission procedures:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education (e.g., SACSCOC, TRACS, ABHE, etc.)
2. Applicants should hold a 3.00 GPA for undergraduate study; applicants with a 2.0 GPA will be admitted on caution.

Transfer Credit
Students may transfer up to 15 hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B, and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

• Complete 30 hours.
  • A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
  • Maintain a minimum cumulative GPA of 3.00.
  • No more than two grades of C may be applied to the degree (includes grades of C+ & C-).
  • No grade of D or below may be applied to the degree (includes grades of D+ & D-).
  • For information regarding the repeat policy, please refer to "Course Repeat Policy" in the Academic Information and Policies section of this Catalog.
  • Degree must be completed within 5 years.
  • Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date.

Total Hours 30
Graduation Requirements

1. Regionally or nationally accredited bachelor’s degree with at least a 3.00 GPA (on a 4.00 scale) for acceptance in good standing.
2. Students with a GPA of 2.50 to 2.99 (on a 4.00 scale) may be considered for admission on Academic Caution.
3. TOEFL scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test; 80 internet based test)
4. Artist Statement
   • The artist statement should include your artistic background, area(s) of specialty, and the intended direction of your work. This is your opportunity to provide context for your art and design.
5. Departmental Approval via Master of Fine Arts Portfolio
   • The successful portfolio should include no less than 20 images that best depict the applicant’s abilities and interests in their desired field of study. (Please note: applications for the online MFA will only be considered in the area of graphic design).
   • Submitted images should be professionally photographed/composed and be ‘client’ ready.
   • Neat and professional presentation, layout, and image quality should be considered by the applicant when submitting his/her work for review. The submitted work samples should clearly demonstrate the applicant’s strong design skills, aesthetic style, and potential for success in the program.
   • All submitted images should be original creative artifacts designed by the applicant. Credit must be given when collaborative works are included.
   • This will be submitted via SlideRoom, this is a $10 Non-refundable fee.
   • Provide 20 items.
   • Images (up to 5MB each)
   • Video (up to 250MB each)
   • PDFs (up to 10MB each)
   • Models (Sketchfab)
   • The portfolio requirement is waived for applicants who transfer in at least 30 credit hours into the program.

Transfer Credit
Students may transfer up to 30 credit hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-, and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

Graduation Requirements

1. Complete 60 hours.
   • A maximum of 50% of the program hours may be transferred if approved and allowable, including credit from an earned degree from Liberty University on the same academic level.
   • Maintain a minimum cumulative GPA of 3.00.
   • No more than two grades of C may be applied to the degree (includes grades of C+ & C-).
   • No grade of D or below may be applied to the degree (includes grades of D+ & D-).
   • For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.

Program Learning Outcomes

The student will be able to:
1. Develop design solutions that address design problems at various scales of complexity.
2. Assess the efficacy of design in relation to its context.
3. Formulate research based design solutions based on knowledge of the literature/artifacts of the discipline.
4. Integrate aesthetic and visual design principles into original compositions.
5. Create design solutions that balance form and function.

Program Specific Admission Procedures

The MFA program will follow the standard admission, curriculum and graduation requirements as stated in the Liberty University Graduate Catalog with the following specific admission procedures:
• Successful completion of the Oral Examination.
• Thesis/Portfolio Artifact & Exhibit required.
• Degree must be completed within 7 years.
• Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Program Offered in Resident & Online Format

Master of Fine Arts in Studio Arts (M.F.A.)

Format
This program is delivered in the resident format only.
Purpose
The purpose of the program is to provide professional training for students who wish to pursue a variety of careers in the field of art, as working artists and designers, critics, managers and directors, or in the field of education as teachers and researchers. The MFA in Studio Art will provide students with the opportunity to build significant skills in the history, research, practice, and discourse of art and design. A creative atmosphere that encourages and challenges student interests is promoted. The goal is to create a community in which evaluation, critique, and open exchange stimulates artistic excellence and innovation. The program is designed to encourage individual graduate work augmented by faculty input.

Program Learning Outcomes
The student will be able to:

1. Generate conceptual artistic solutions using a variety of media.
2. Assess the efficacy of design in relation to its context.
3. Integrate aesthetic and visual design principles into original compositions.
4. Develop a cohesive artistic body of work.
5. Formulate research based artistic solutions based on knowledge of the literature/artifacts of the discipline.

Program Specific Admission Procedures
The MFA program will follow the standard admission, curriculum and graduation requirements as stated in the Liberty University Graduate Catalog with the following specific admission procedures:

1. Regionally or nationally accredited bachelor’s degree with at least a 3.00 GPA (on a 4.00 scale) for acceptance in good standing.
2. Students with a GPA of 2.50 to 2.99 (on a 4.00 scale) may be considered for admission on Academic Caution.
3. TOEFL scores for students who speak English as a second language (score of 600 paper-based test; 250 computer-based test; 80 internet based test)
4. Artist Statement
   - The artist statement should include your artistic background, area(s) of specialty, and the intended direction of your work. This is your opportunity to provide context for your art and design.
5. Departmental Approval via Master of Fine Arts Portfolio
   - The successful portfolio should include no less than 20 images that best depict the applicant’s abilities and interests in their desired field of study. (Please note: applications for the online MFA will only be considered in the area of graphic design).
   - Submitted images should be professionally photographed/composed and be ‘client’ ready.
   - Neat and professional presentation, layout, and image quality should be considered by the applicant when submitting his/her work for review. The submitted work samples should clearly demonstrate the applicant’s strong design skills, aesthetic style, and potential for success in the program.
   - All submitted images should be original creative artifacts designed by the applicant. Credit must be given when collaborative works are included.
   - This will be submitted via SlideRoom and there is a $10 non-refundable fee.

Transfer Credit
Students may transfer up to 30 credit hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B-, and courses must have been completed within 10 years of the start date of the program. ACCT 511 Advanced Business Law for Accountants 3 Credit Hours

Prerequisites: Financial Accounting with a score of 3 and Managerial Accounting with a score of 3 and Intermediate Accounting I with a score of 3 and Intermediate Accounting II with a score of 3 and Cost Accounting with a score of 3 and Auditing with a score of 3 and Taxation with a score of 3

This advanced course seeks to equip the student with an in-depth understanding of business law specifically as it relates to the legal issues that are encountered by certified public accountants. This course is designed to further the student’s knowledge and understanding of the law in such areas as the Uniform Commercial Code, contracts, securities regulation, organizational structure and formation, ethics, the Sarbanes-Oxley Act, property and insurance, and other forms of government regulation of business.

ACCT 521 Advanced Cost Accounting 3 Credit Hours

Prerequisites: ACCT 511 and ACCT 531 or BUSI 532 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course will examine the importance of analyzing and managing costs; activity-based management, process costing and cost allocation; planning and decisions making, and evaluating and managing performance. This course is designed primarily for accounting/finance majors who seek careers or are already employed in for profit corporations or not for profit organizations as public (such as CPAs) or private (such as controllers and/or CMAs or CFMs) accounting/business leaders in a fast changing, highly technically oriented society.

ACCT 531 Accounting Information Systems 3 Credit Hours

Prerequisites: Financial Accounting with a score of 3 and Managerial Accounting with a score of 3 and Intermediate Accounting I with a score of 3 and Intermediate Accounting II with a score of 3 and Taxation with a score of 3 and Cost Accounting with a score of 3 and Auditing with a score of 3

This course builds upon the student’s existing basic knowledge of how accounting information systems function in today’s business environment. It strongly emphasizes the internal control features necessary to provide accurate and reliable accounting data as it looks at how accounting information is recorded, summarized, and reported in both manual and computerized systems. Internal control as it applies to production processes as required by Rule 404 of the Sarbanes-Oxley Act of 2002 is part of this course.

ACCT 612 Tax Research and Jurisprudence 3 Credit Hours

Prerequisites: ACCT 531 and ACCT 511 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This innovative course seeks to equip the student with an in-depth understanding of the best tax research methods while providing the student with the opportunity to analyze the statutory and judicial doctrines that collectively give rise to the conceptual framework of tax law. The students will engage in tax research that will give them the opportunity to understand, analyze, and apply these familiar tax doctrines to a host of sophisticated and contemporary fact patterns.

ACCT 614 Estate, Trust, and Gift Taxation 3 Credit Hours

Prerequisites: (ACCT 511 and ACCT 531 or BUSI 532) and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course explores the taxation of estates, trusts, and gift returns, with a focus on estate planning.

Offered: Online
ACCT 616 Advanced Topics in Individual and Pass-through Taxation 3 Credit Hours

Prerequisites: ACCT 511 and ACCT 531 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course examines the various taxation implications of pass-through entities, particularly as they apply to an individual’s personal tax return.

Offered: Online

ACCT 618 Advanced Topics in Corporate Taxation 3 Credit Hours

Prerequisites: ACCT 531 and ACCT 511 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course explores current topics within the field of corporate taxation, as well as the impact of corporate taxes on shareholders.

Offered: Online

ACCT 622 Advanced Auditing 3 Credit Hours

Prerequisites: ACCT 511 and ACCT 531 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This advanced course provides students with actual applications of auditing procedures by exploring cases in which auditing was prominent and includes: Auditor’s Ethical Responsibilities, Auditor’s Responsibility to Detect Fraud, Event leading to creation of the Public Company Accounting Oversight Board (PCAOB) and Classic Court Cases affecting auditors.

Offered: Online

ACCT 632 Advanced Financial Accounting Theory 3 Credit Hours

Prerequisites: ACCT 612 and ACCT 511 and ACCT 521 and ACCT 531 and ACCT 622

This advanced course in financial accounting theory presents an in-depth analysis of the historical development of accounting theory and its application to current and future accounting issues. The course utilizes a case approach that provides a blend of theory, practice, and research. The course enhances critical thinking skills by synthesizing the professional accountant’s understanding and knowledge of accounting theory with the resolution of real world accounting problems. The course incorporates a global perspective with respect to the development and analysis of accounting standards.

ACCT 635 Advanced Research for Financial Reporting 3 Credit Hours

Prerequisites: ACCT 531 and ACCT 511 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course explores current issues within the field of financial reporting by examining recent pronouncements from the Financial Accounting Standards Board (FASB), and how those pronouncements will affect financial reporting.

Offered: Online

ACCT 642 Accounting Ethics 3 Credit Hours

Prerequisites: ACCT 622 and ACCT 612 and ACCT 511 and ACCT 521 and ACCT 531

This course evaluates accounting ethics research in the context of a Christian worldview perspective and in relation to the development of the profession’s code of professional conduct. The course examines the major ethical systems that exist today and distinguishes those that are compatible with a Christian worldview to enable the student to develop a sound framework for ethical decision making. The course presents an in-depth analysis of the two prevailing ethical systems (rule deontology and utilitarianism) advocated for the accounting profession and examines their appropriateness in resolving accounting ethics dilemmas as they relate to the profession’s code of conduct. The course also presents an ethical decision making model based on the profession’s code of professional conduct that is compatible with a Christian worldview.

ACCT 650 Corporate Governance and Fraudulent Financial Reporting 3 Credit Hours

Prerequisites: ACCT 511 and ACCT 531 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course examines corporate fraudulent financial reporting and the impact on corporate governance issues.

Offered: Online

ACCT 654 Fraud Examination 3 Credit Hours

Prerequisites: ACCT 511 and ACCT 531 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course provides an overview of the field of fraud examination, and discusses potential techniques to prevent fraud.

Offered: Online

ACCT 660 Information Technology and Fraud 3 Credit Hours

Prerequisites: ACCT 511 and ACCT 531 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

This course explores how information technology may be utilized as a tool to prevent and detect fraud.

Offered: Online

ACCT 697 Special Topics in Accounting 3 Credit Hours

Topics of special interest not included in the regular department offerings. May be taken more than once, but no topic may be repeated.
Addiction Counseling (ADCN)

ADCN 505 Techniques in Addiction Counseling 3 Credit Hours

Prerequisites: CEFS 501 or COUN 501 or MAAC 501

This course provides students an understanding of effective addiction counseling interventions from individual, relational, and systems perspectives with unique emphasis on motivational interviewing. Students also examine personal characteristics and their effect on individual, couple and family counseling using case discussion and analysis.

Offered: Online

ADCN 512 Group Dynamics 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (ADCN 505 or MAAC 505)

This course enables students to understand the types of groups, their purpose, development of dynamics, counseling theories, and group counseling methods and skills. Ethical and legal considerations are also explored. Group work specific to addiction counseling is highlighted. Students are required to participate in small groups for educational and self-assessment purposes.

Offered: Online

ADCN 605 Client, Family, and Community Education in Addiction Counseling 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 510 or MAAC 510 or COUN 510) and (ADCN 505 or MAAC 505)

This course provides an overview of the process of providing clients, families, significant others, and community groups with information on risks related to psychoactive substance use, as well as available prevention, treatment and recovery resources. Cultural diversity is appreciated and highlighted. Factors that increase the likelihood for an individual, community, or group to be at-risk for, or resilient to, psychoactive substance use disorders are described, as well as health and behavior problems related to addiction including infectious diseases such as HIV/AIDS, TB, and STDs.

Offered: Online

ADCN 606 Pharmacology of Addiction and Recovery 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 691 or MAAC 691)

This course focuses on the pharmacological aspects of addiction and recovery and how addiction affects the physical, emotional, social, and spiritual aspects of the person. In addition to the addictive nature and properties of various substances and behaviors, pharmacological treatment approaches to withdrawal, treatment, recovery, and relapse prevention are also reviewed.

Offered: Online

ADCN 607 Case Management and Relapse Prevention in Addiction Counseling 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 510 or MAAC 510 or COUN 510) and (ADCN 505 or MAAC 505)

This course emphasizes the coordinated approach to the delivery of substance abuse and addiction services. Effective case management focuses on the whole person, addresses other client psychosocial problems, and is associated with treatment retention which leads to better outcomes. The role of effective documentation, referral, and relapse prevention are highlighted.

Offered: Online

ADCN 608 Diagnosis and Treatment of Behavioral Addictions 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 691 or MAAC 691)

This course provides an overview of the history, theory, and current research perspectives in the etiology, assessment, diagnosis and treatment of behavioral addictions. Specific attention will be paid to examining the similarities and differences between substance addictions and behavioral addictions. Physiological, psychological, and sociocultural aspects will be explored.

Offered: Online

ADCN 667 Diagnosis and Treatment Planning of Addictive Disorders 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 546 or MAAC 646 or COUN 646) and (CEFS 691 or MAAC 691 or COUN 691) and (ADCN 505 or MAAC 505) and (ADCN 512 or MAAC 512)

Students become knowledgeable of the principles of clinical diagnosis and the development of treatment plans. The current edition of the Diagnostic and Statistical Manual is emphasized, with consideration also given to dimensional, relational, and systemic issues important in diagnosis and treatment planning. Substance related and addictive disorders are emphasized with special consideration given to co-occurrence with other disorders.

Offered: Online
ADCN 699 Addiction Counseling Internship 3 Credit Hours

Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 546 or MAAC 646 or COUN 646) and (CEFS 601 or MAAC 601 or COUN 601) and (CEFS 691 or COUN 691) and (ADCN 667 or MAAC 667)

This course involves an intensely supervised experience in the student’s designated program area at an approved site. Students are required to complete a total of 300 clock hours of addiction counseling and related services, 150 of which are direct client contact hours. While gaining direct service experience with clients, students regularly meet with an approved supervisor. Student counseling performance is evaluated throughout the internship. The student’s professional development along with the dynamics of the counseling relationship, diagnosis, treatment, and legal/ethical issues are primary areas of focus.

Offered: Online

Addictions & Recovery (SUBS)

SUBS 505 Addictions and the Recovery Process 3 Credit Hours

This course includes a thorough examination of the theoretical models of addiction with an introduction to the neurobiology of addiction while exploring the addiction cycle, the evaluation and treatment of addictions, the trauma that occurs with addictions, and intervention planning. In addition, the student will learn about the pharmacology of drugs.

SUBS 606 Biological Aspects of Addiction and Recovery 3 Credit Hours

Prerequisites: SUBS 505

Substance abuse and addictive behaviors have effects on the brain and the rest of the human body. This course focuses on biological aspects of addiction including brain anatomy, neurotransmitters and other brain chemicals, predisposing biological factors, and physiological effects. These biological aspects are reviewed for each of the primary classifications of drugs of abuse and key addictive behaviors. Biological aspects of medical approaches to treatment and recovery are also considered.

SUBS 607 Treatment and the Recovery Process 3 Credit Hours

Prerequisites: SUBS 505

This course includes a thorough examination of the treatment models of addiction, recovery, and relapse. Students will explore the treatment outcome research, begin treatment planning, and gain a working understanding of the culture of addiction and recovery. This is in essence an experiential class, with a combination of reading, exercises, and hands on experience in the recovery area.

SUBS 608 Diagnosis and Treatment of Sexual Addiction 3 Credit Hours

Prerequisites: SUBS 505

This course includes a thorough examination of sexual addiction including the definition, neurobiology, etiology, diagnosis and treatment. Both male and female sexual addiction will be explored. Topics related to sexual addiction including marital affairs, pornography, homosexuality and lesbianism will also be covered. A biblical understanding and approach to treatment will be integrated into the course.

SUBS 609 Healthy Sexuality 3 Credit Hours

This course provides a foundational understanding of healthy sexuality based on a psychological and Scriptural foundation. Special attention is given to foundations of sexual development, sexual enrichment, challenges, brokenness, and controversial issues surrounding healthy sexuality.

Apologetics (APOL)

APOL 500 Introduction to Apologetics 3 Credit Hours

This course surveys the basic issues in apologetics such as apologetic method, the biblical basis for apologetics, and the relationship between faith and reason. Then it turns to consideration of various apologetic issues, including the inerrancy of the Bible, the resurrection of Jesus Christ, and the existence of God. Finally, the student will be exposed to major worldviews extant today and will consider responses to modern apologetic challenges to Christianity, such as postmodernism, and religious pluralism.

Offered: Online

APOL 520 History of Christian Apologetics 3 Credit Hours

A survey of the history of Christian apologetics. The course will offer a contextualized study of key apologists in the history of Christianity including Justin Martyr, Irenaeus, Origen, Augustine, Anselm, Thomas Aquinas, John Calvin, Blaise Pascal, William Paley, B. B. Warfield, and C. S. Lewis. The study will focus upon the contribution of each apologist to Christian thought.

APOL 525 Pluralism and World Religions 3 Credit Hours

A contrast between the truth-claims of the major world religions and the uniqueness of Christian theistic apologetics, both in content and method. (Formerly APOL 560)

APOL 550 Faith and Reason 3 Credit Hours

Prerequisites: APOL 500

An introduction to basic issues in the intersection between faith and reason. The course will provide an introduction to the use of logic in apologetics and will consider key issues such as the nature of God, the definition of faith, religious epistemology, the nature of man and the human mind, and divine providence.
APOL 610 Miracles 3 Credit Hours

Presents a detailed study of contemporary denials of miracles, emphasizing the resurrection of Jesus and the part it plays in Christian apologetics and theology.

APOL 620 Evil, Suffering, and Hell 3 Credit Hours

**Prerequisites:** APOL 550

An advanced study of the differing forms of the problem of evil and suffering. The course will explore the problem and investigate various theodicies and responses to the problem. Attention will also be given to the issue of hell and eternal damnation.

APOL 630 Current Issues in Apologetics 3 Credit Hours

**Prerequisites:** APOL 500

An investigation of current issues and trends in apologetics, such as the intersection of science and religion, the problem of evil, atheism, or secularism.

APOL 679 Apologetics Capstone 3 Credit Hours

The student should be able to demonstrate an ability to reflect, integrate and apply apologetics knowledge to a specific problem facing Christianity. Apologetic reflection should be transformational, in that it influences, motivates, and empowers the student to live for Christ and further His kingdom.

**Registration Restrictions:** Must complete at least 24 semester hours toward the Master of Arts in Christian Apologetics degree.

**Offered:** Resident and Online

APOL 695 Directed Research in Apologetics 1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of Apologetics.

APOL 697 Seminar in Apologetics 1-3 Credit Hours

An intensive study in a specific subject of Apologetics. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

---

**Applied Psychology (MAOP)**

**MAOP 520 Foundations in I/O Psychology** 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3

Students will learn how to evaluate psychological research in organizations and apply that knowledge to work place settings. This will focus mainly in areas related to motivation, psychology and aptitudes in different organizational processes. Students will learn how to apply the scientist-practitioner model in a real life organization on campus. (formerly MSPS 513)

**Offered:** Resident

**MAOP 526 Organizational Psychology** 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3

Exploration of current theory and research in industrial/organizational psychology. Focus on talent acquisition and management, leadership, job attitudes, and organizational development. (formerly MSPS 526)

**Offered:** Resident

**MAOP 646 Personnel Psychology** 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3 and MAOP 520

Examination of personnel selection methods and perspectives. Focus on using advanced psychological methods to select high performing employees.

**Offered:** Resident

**MAOP 650 Current Issues in I/O Psychology** 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3

Exploration of Current Topics in I/O Psychology. This course will focus on several topics related to the development and advancement of I/O consultants such as ethics, communication and leadership.

**Offered:** Resident

**MAOP 655 Psychology of Performance** 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3 and MAOP 520 and MAOP 646

Examination of theory and practice in regard the psychological evaluation of performance in the workplace. This course will focus on the assessment, measurement and evaluation of employee performance.

**Offered:** Resident
MAOP 658 Special Topic in I/O Psychology 3 Credit Hours

Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3 and PSYC 510 and PSYC 515

Exploration of Contemporary Issues in I/O Psychology. This course will focus on using the most current organizational psychology principles/skills to help organizations answer day-to-day questions related to both employee and organizational performance and overall functioning.

Offered: Resident

MAOP 660 Industrial Psychology 3 Credit Hours

Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3 and MAOP 520 and MAOP 646 and MAOP 655

Evaluation of techniques for training and development purposes. Focus on design, implementation, and evaluation of training, continuing education, and staff development programs, looking to organizational improvement.

Offered: Resident

MAOP 693 Candidacy Exam 0 Credit Hours

Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3 and MSPS 513 and MAOP 526 and MAOP 646 and MAOP 650 and MAOP 655 and MAOP 658 and MAOP 660

A comprehensive examination of the concepts and content of the degree program.

Offered: Resident

MAOP 698 Applied Organizational Practicum 3 Credit Hours

Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Psychological Measurement with a score of 3 and MAOP 526 and MAOP 646 and MAOP 650 and MAOP 655 and MAOP 658

Get placed in an Approved Organizational Psychology Practicum Location and gain 80 hours of experience. The class will help students at their practicum process their experience and help them gain knowledge/tools on how to make their practicum experience as beneficial as possible.

Offered: Resident

Arts (ARTS)

ARTS 501 Character Design 3 Credit Hours

This graduate course stresses individual direction and achievement in illustration/character design. At this advanced level the student is expected to be self-motivated in the pursuit of illustration/character design and working toward that end. Graduate students are also expected to research the work of other artists who work in a similar manner. May be taken twice.

Offered: Resident and Online

ARTS 502 Sequential Art 3 Credit Hours

This course covers the development and fundamentals of sequential art in its many forms: comics, comic books, and introduces the graphic novel design. The work may be in any style and genre preferred by the student, but a graduate student is expected to produce at a higher aesthetic level than undergraduates. At this advanced level the student is expected to be self-motivated in the pursuit of sequential art and working toward that end. Graduate students enrolled in the class will schedule meetings every two weeks with the professor to report on their progress and get any necessary assistance. Graduate students are also expected to research the work of other artists who work in a similar manner. May be taken twice.

Offered: Resident and Online

ARTS 503 Advanced Studies in Baroque Art 3 Credit Hours

We shall examine the development of art and architecture in Italy, Spain, France, and the Lowlands, centering upon the works of seminal artists including Caravaggio, Bernini, Borromini, Velazquez, Poussin, Rembrandt, Rubens, and Van Dyck. Accordingly, we shall investigate how the art of the period reflects the Christian worldview as it took shape in the wake of the Reformation and Counter Reformation.

ARTS 504 Advanced Studies in Medieval Art 3 Credit Hours

This course will present an intensive study of Medieval Art and Architecture from the fall of Rome to the 15th century in the west, placing an emphasis on the development of painting, mosaic, and manuscript illumination, as well as upon the development of the Romanesque and Gothic architectural styles. The arts of this vast period will be analyzed from within the Christian worldview with particular attention to Christian iconography.

ARTS 505 Advanced Studies in Arts of East Asia 3 Credit Hours

This course presents an overview of the visual arts and culture of East Asia, with a focus on the art of China and Japan. The course examines works from various traditions, with particular attention to formal styles, mutual developmental influences, and aesthetic principles. Contextualization of visual culture remains a primary methodological component of art history. Accordingly, we shall examine the political, social, and religious backgrounds that gave rise to the arts of East Asia.

ARTS 506 Advanced Studies in Arts of Latin America 3 Credit Hours

This graduate course provides a critical study of Latin America art from Spanish military conquest of the New World to the development of conceptual art (1521 to ca. 1980). We will observe and describe different kinds of artifacts, made in a broad array of media (painting, sculpture, urban form, photography, engraving, and drawing, among others) to explicate the social context in which they were produced and circulated. The student will research collectively and individually aspects of each and present.

Offered: Resident and Online
ARTS 508 Advanced Studies in Italian and Northern Renaissance Art
3 Credit Hours

This graduate course concentrates on the origins of the Renaissance in both Italy and in the North as seen in the painting and sculpture of the early fifteenth century as to style and religious expression, examined in the context of philosophical influences, civic humanism, and contemporary politics. Attention will be given to the changing social status of the artist as manifested both in the theoretical writings and artists' working methods. The student will research collectively and individually aspects of each and present.

ARTS 511 Graduate Drawing Topics
3 Credit Hours

A studio for drawing with an emphasis on human anatomy, advanced drawing techniques, and observation. At the graduate level, students are expected to be self-motivated in the pursuit of their personal artistic interests. Meetings will be scheduled with the professor each week to report on progress of personal projects and research.

ARTS 512 Graduate Life Drawing
3 Credit Hours

A concentration on the methods and techniques used when drawing from life. This course further explores the benefits of working from life. Moreover, this graduate course demonstrates the value of the sketch as opposed to the time intensive efforts of studio work. It is understood that the graduate student is expected to produce at a higher aesthetic level than undergraduates. At this advanced level the student is expected to be self-motivated in the pursuit of technically sound artistic work. The work may be in any medium preferred by the student. Graduate students enrolled in the class will schedule meetings weekly with the professor to report on their progress and get any necessary assistance. Graduate students are also expected to research the work of other artists who work in a similar manner. May be taken twice.

ARTS 515 Issues in Contemporary Art
3 Credit Hours

This course presents an opportunity to conduct an in-depth graduate level study of issues in contemporary art as it relates to the Christian artist's perspective. The precise subject matter and parameters of this course will be supplied as appropriate by the professor.

ARTS 521 Graduate Painting Topics
3 Credit Hours

An advanced approach to direct painting; the use of paint with an emphasis of the representation of the artistic image through form and color. This hands-on, graduate studio course promotes creativity and technical excellence. Individual direction is emphasized as the graduate student is expected to produce artwork at a higher aesthetic level than undergraduates. Meetings will be scheduled with the professor each week to report on progress of personal projects and research. Graduate students may work in any medium(s) preferred as they work toward a proposed body of work.

ARTS 524 Advanced Typography
3 Credit Hours

This course is an advanced study of typography. Students are expected to develop an original body of work reflecting their personal artistic interests in graphic design. Graduate level students are expected to approach their work conceptually while demonstrating aesthetic excellence. May be taken twice.

ARTS 525 Graduate Wood Sculpture
3 Credit Hours

The graduate course further explores woodworking techniques and profession working methods. This graduate course addresses processes of subtractive and additive methods of wood sculpture coupled with the individual direction taken by the graduate student.

ARTS 526 Graduate Metal Sculpture
3 Credit Hours

This course stresses individual direction and achievement in vector illustration. The student will propose the work he/she plans to create during the semester and will develop a schedule for completion with the professor. Design projects may be conceptual, decorative, collaborative, or experimental but the finished product, both in production and presentation, must be more aesthetically sophisticated than undergraduate work. May be taken twice.

ARTS 531 Advanced Sculpture Topics
3 Credit Hours

The purpose of this course is to explain and demonstrate traditional and contemporary sculptural practices in a studio environment. This graduate course stresses individual direction, achievement, and creativity in sculpture. The first week of class the student will propose the work he plans to make during the semester. The work may be in any medium preferred by the student. It may be conceptual or object making but a graduate student is expected to produce at a higher aesthetic level than undergraduates. Students are required to make weekly appointments to meet with their professors regarding the direction of their work.

ARTS 532 Vector Illustration
3 Credit Hours

This graduate course stresses individual direction and achievement in vector illustration. The student will propose the work he/she plans to create during the semester and will develop a schedule for completion with the professor. Design projects may be conceptual, decorative, collaborative, or experimental but the finished product, both in production and presentation, must be more aesthetically sophisticated than undergraduate work. May be taken twice.

ARTS 533 Graduate Metal Sculpture
3 Credit Hours

Introduction to current and emerging metal art technologies and processes as a medium in functional, skill-based and conceptual 3D artwork. This hands-on, graduate studio course promotes technical excellence applied to processional endeavors. May be taken twice.

ARTS 534 Graduate Jewelry I
3 Credit Hours

This graduate course investigates advanced materials, processes, and styles relating to the creative production of jewelry forms. May be taken twice.

ARTS 535 Graduate Wood Sculpture
3 Credit Hours

The graduate course further explores woodworking techniques and profession working methods. This graduate course addresses processes of subtractive and additive methods of wood sculpture coupled with the individual direction taken by the graduate student.

ARTS 540 Publication Design
3 Credit Hours

This course stresses individual direction and achievement in publication design. Students will research the vital role of visual communication and will examine the processes involved in creating and coordinating images and typography through both verbal and visual content across multiple and emerging media. Through readings, research, and assignments, students will explore the role of the designer in visual storytelling and will develop a body of work that attempts to influence and shape culture. May be taken twice.

Offered: Resident and Online
ARTS 542 Digital Imaging 3 Credit Hours

This is a directed study of the creation of images utilizing digital and other tools for the purpose creating digital images. Students will choose one of five areas of concentration within the course: digital painting for fine art, digital illustration for commercial design, interactive media prototype development, digital photographic processes, imaging and compositing, special topics suggested by the student. This study will comprise of a series of four (4) special project modules that are related in a thematic or serial manner. There will be a written research module to investigate thoroughly the concentrated area. The projects will culminate in a formal presentation at the end of the semester with work properly presented accompanied by a verbal presentation. May be taken twice.

ARTS 544 Graduate Jewelry II: Design and Fabrication 3 Credit Hours

This graduate course further investigates materials, processes, and styles relating to the creative production of the jewelry forms. May be taken twice.

ARTS 555 Graduate Advanced Jewelry 3 Credit Hours

The course investigates advanced materials, processes, and styles relating to the creative production of jewelry forms. This hands-on, graduate studio course promotes creative and professional excellence. Graduate students may work with any jewelry methods preferred as they work toward a proposed body of work.

ARTS 557 Graduate Digital Application for 3D Arts 3 Credit Hours

This graduate course stresses individual direction in 3D Arts and 3D scanning. The work may be in any digital medium preferred by the student. It may be conceptual or skill based but a graduate student is expected to produce at a higher aesthetic level than undergraduates. At this advanced level the student is expected to be self-motivated in the pursuit of 3D Arts directed artwork. Graduate students enrolled in the class will schedule meetings weekly with the professor to report on their progress and get any necessary assistance. Graduate students are also expected to research the work of other artists they are interested in studying. May be taken twice.

Offered: Resident and Online

ARTS 561 Digital Photography 3 Credit Hours

This course will provide the graduate student with a basic knowledge of digital photography and to operate a digital single-lens reflex camera with proficiency. The correction and digital manipulation of images using current industry-standard software will be taught. Students will learn to communicate with their photography by posting their images to the Internet, printing their images using current inkjet technologies, and producing slideshows of their images for group consumption. Students are required to have their own digital single-lens reflex cameras. May be taken twice.

ARTS 566 Mixed Media 3 Credit Hours

A graduate level studio course that involves advanced exploration, application, and synthesis of conventional and unconventional art materials as valid media for the creation of expressive content in the visual arts. May be taken twice.

Offered: Resident and Online

ARTS 570 Graduate Printmaking 3 Credit Hours

This course aims to further expose the graduate student to printmaking in creating traditional artwork in a context of their choosing. This hands-on approach to printmaking promotes creativity and professional excellence. Graduate students may work in any medium(s) preferred as they work toward a proposed body of work.

ARTS 571 Advanced Graphic Design 3 Credit Hours

Advanced Graphic Design integrates design principles and software, typography, digital illustration, digital imaging, page layout, and prepress techniques with emphasis on design process from visualization to production. Students will be responsible for the design and production of a fully integrated campaign consisting of major projects including several components across multiple media forms. Individual and collaborative work is expected including branding and packaging as well as prototyping for interactive media. Each student is responsible for production of design products, critiquing of designs, portfolio preparation and presentation. May be taken twice.

ARTS 573 3D Graphics 3 Credit Hours

This graduate course stresses individual direction and achievement in 3D graphics. The first week of class the student will propose the work he/she plans to make during the semester. At this advanced level the student is expected to be self-motivated in the pursuit of 3D graphics and working toward that end. Graduate students are also expected to research the work of other artists who work in a similar manner. May be taken twice.

ARTS 574 Interactive Game Design 3 Credit Hours

Students will explore and pursue areas of interest through research related to interactive game development in regards to theoretical framework, building aesthetics, environments, and game engines with implementation of process and execution of interactive games in an appropriate platform. May be taken twice.

Offered: Resident and Online

ARTS 576 Graduate Ceramics 3 Credit Hours

Advanced studies and experiences in hand-building processes and wheel throwing techniques, including experimentation with glazes and surface decoration on creative ceramic works. This level of study is expected to be more self-directed, as graduate students develop a proposed body of work that reflects experimentation and advanced craftsmanship under the supervision of the major professor.

ARTS 578 Interactive Design 3 Credit Hours

Students will pursue areas of interest through research related to interactive design and apply advanced visual theories to construct design systems in an interactive user centered environment. Advanced understanding and theory of interactive technology and application in contextual frameworks in relation to the user are explored and developed. May be taken twice.
ARTS 580 Interactive Publication 3 Credit Hours

This graduate course stresses individual direction and achievement in interactive and digital publication design. Students will research the vital role of visual communication and will examine the processes involved in creating and coordinating images and typography through both verbal and visual content across multiple and emerging media. Through readings, research, and assignments, students will explore the role of the designer in visual storytelling and will develop a body of work that attempts to influence and shape culture. At this advanced level the student is expected to be self-motivated and produce work that is deeper conceptually and is at a much higher aesthetic level than undergraduates. May be taken twice.

Offered: Resident and Online

ARTS 582 Graduate Gallery/Museum Fundamentals 3 Credit Hours

This graduate course continues to explore the professional activities, which occur in galleries and museums. This hands-on, graduate studio course requires students to utilize professional gallery/museum standards in various contexts. Graduate students are required to produce at least one original work of art in the medium of their choice as they build their graduate portfolio.

ARTS 594 Graduate Arts and Crafts 3 Credit Hours

Advanced studies and application of several universal craft disciplines for utilitarian and expressive purposes. This level of study is expected to be more self-directed, as graduate students develop a proposed body of work that reflects experimentation and advanced craftsmanship under the supervision of the major professor.

ARTS 596 Teaching Art in Higher Education 3 Credit Hours

This course introduces graduate MFA students to the teaching of art at the post-secondary level. May be taken twice.

ARTS 597 Special Topics 3 Credit Hours

This course stresses individual direction and achievement in the medium that the student is concentrating on for their program. At this advanced level the student is expected to be self-motivated in the pursuit of a direction and working toward that end. Graduate students are also expected to research the work of other artists who work in a similar manner.

ARTS 598 Practicum 3 Credit Hours

An opportunity for students to pursue additional learning outcomes beyond studio courses, this course will further develop understanding of the principles of visual arts (e.g. form and content) through hands-on projects as approved by instructor of record.

Registration Restrictions: Minimum of 15 hours of Master of Fine Arts core successfully completed.

ARTS 599 Internship 3-6 Credit Hours

Practical application of knowledge under the supervision of a practicing artist or related professional approved by the internship coordinator for SADA. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: 40% of major course work successfully completed.

ARTS 600 Web and New Media 3 Credit Hours

Through research and independent work, the student will explore areas of web and new media in relation to human centered/human driven design and development. The Student will propose a topic to research and create an execution based on research findings. May be taken twice.

ARTS 603 History of Graphic Design 3 Credit Hours

A study of graphic communication from cave walls to the printed page to online digital communication. Students will consider how the advent of new technologies changed the graphic form of our communication. Students will be required to do topic related projects that will demonstrate their understanding. The final presentation will demonstrate the integration of historical styles with present design trends.

ARTS 604 Visualization Illustration 3 Credit Hours

This graduate course stresses individual direction, exploration, and achievement in visualization/illustration. The student will propose the work he/she plans to create during the semester and will develop a schedule for completion with the professor. Design projects may specialize in 2D 3D Product, architectural, environmental, data, or experimental visualization/illustration. May be taken twice.

Offered: Resident and Online

ARTS 611 Graduate Drawing Topics 3 Credit Hours

A studio for drawing with an emphasis on human anatomy, advanced drawing techniques, and observation. At the graduate level students are expected to be self-motivated in the pursuit of their personal artistic interests. Meetings will be scheduled with the professor each week to report on progress of personal projects and research.

ARTS 621 Graduate Painting Topics 3 Credit Hours

This course presents the maturing artist the opportunity to hone and perfect the technical and conceptual aspects of a personal creative direction in the field of painting, with the express purposes will be refinement and development, culminating in work of exhibition quality. Further, a verbal and critical elaboration of the artist’s intent will be required in the form of a formal artist’s statement.
ARTS 631 Advanced Sculpture Topics  3 Credit Hours

The purpose of this course is to explain and demonstrate traditional and contemporary sculptural practices in a studio environment. This graduate course stresses individual direction, achievement, and creativity in sculpture. The first week of class the student will propose the work he plans to make during the semester. The work may be in any medium preferred by the student. It may be conceptual or object making but a graduate student is expected to produce at a higher aesthetic level than undergraduates. Students are required to make weekly appointments to meet with their professors regarding the direction of their work.

Offered: Resident and Online

ARTS 635 Graduate Wood Sculpture  3 Credit Hours

The graduate course further explores woodworking techniques and profession working methods. This graduate course addresses processes of subtractive and additive methods of wood sculpture coupled with the individual direction taken by the graduate student.

ARTS 655 Graduate Advanced Jewelry  3 Credit Hours

The course investigates advanced materials, processes, and styles relating to the creative production of jewelry forms. This hands-on, graduate studio course promotes creative and professional excellence. Graduate students may work with any jewelry methods preferred as they work toward a proposed body of work.

ARTS 661 Advanced Digital Photography  3 Credit Hours

The purpose of this course is to assist those serious about photography in building a comprehensive body of digital work. This course will provide the graduate student with the knowledge and skills necessary to compete in the ever-changing field of digital visual communications. Professional trade secrets, shooting tips and lighting techniques will be discussed and the student will be able to integrate them into the making of their own photographs. May be taken twice.

ARTS 676 Graduate Ceramics  3 Credit Hours

Advanced studies and experiences in hand-building processes and wheel throwing techniques, including experimentation with glazes and surface decoration on creative ceramic works. This level of study is expected to be more self-directed, as graduate students develop a proposed body of work that reflects experimentation and advanced craftsmanship under the supervision of the major professor.

ARTS 694 Graduate Arts and Crafts  3 Credit Hours

Advanced studies and application of several universal craft disciplines for utilitarian and expressive purposes. This level of study is expected to be more self-directed, as graduate students develop a proposed body of work that reflects experimentation and advanced craftsmanship under the supervision of the major professor.

ARTS 695 Directed Research  3 Credit Hours

Directed research to create a body of work with substantial independence under the direction of the instructor. The body of work can be theoretical or practical and formal. The work may be created in a variety of media. Instructor will guide the student when an appropriate area of study is chosen. There will be a written research component with the course. May be taken twice.

ARTS 697 Special Topics  3 Credit Hours

This course stresses individual direction and achievement in the medium that the student is concentrating on for their program. At this advanced level the student is expected to be self-motivated in the pursuit of a direction and working toward that end. Graduate students are also expected to research the work of other artists who work in a similar manner.

ARTS 698 Practicum  3 Credit Hours

An opportunity for students to pursue additional learning outcomes beyond studio courses, this course will further develop understanding of the principles of visual arts (e.g. form and content) through hands-on projects as approved by instructor of record.

Registration Restrictions: Minimum of 15 hours of Master of Fine Arts core successfully completed.

ARTS 699 Internship  3 Credit Hours

Practical application of knowledge under the supervision of a practicing artist or related professional approved by the internship coordinator for SADA. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: 40% of major course work successfully completed.

Biochemistry (BCHM)

BCHM 551 Biochemistry  4 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

A survey of the structure and reactivity of bioorganic molecules within biological systems. Emphasis is placed on: 1) organic functional groups within carbohydrates, proteins, lipids, and nucleic acids; 2) mechanisms and regulation of enzyme catalyzed equilibria; 3) energy generation and utilization by anabolic and catabolic metabolism; 4) membrane dynamics, transport and signaling; and 5) the flow of biological information from nucleic acids to protein synthesis.
Biology (BIOL)

BIOL 515 Cell Biology 4 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208 and BIOL 301 and CHEM 301) or (BIOL 200 and BIOL 207 and BIOL 211 and BIOL 212 and BIOL 301 and CHEM 301)

A study of the organization and function of living matter at the cellular level. Special emphasis will be given to the integration of molecular and cellular interactions for the maintenance of life.

BIOL 518 Vertebrate Natural History 4 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 207 and BIOL 211 and BIOL 212)

A study of the life history of the vertebrates with special emphasis on their taxonomy, life cycles, and ecological relationships. Vertebrates native to central Virginia will receive special attention.

BIOL 595 Special Problems in Biology 4 Credit Hours

The preparation of a paper based on library, laboratory, and/or field research of a problem selected after consultation with the Biology faculty. Limited to students planning to pursue graduate studies in Biology. Only 4 hours may count toward the Biology major.

Registration Restrictions: Sixteen hours of Biology and consent of instructor and Department Chairman.

BIOL 597 Special Topics in Biology 3 Credit Hours

Biomedical Sciences (BIOM)

BIOM 500 Introduction to Biomedical Sciences 3 Credit Hours

This course employs the exploration of the molecular, genetic, biochemical and cellular basis of human oncogenesis, tumor metastasis, cancer detection and therapeutic advances as a comprehensive background for understanding and engaging the field of biomedicine. It provides a solid foundation in the basic biomedical principles that serve as the framework for advancing medical science including genetics, cellular anatomy, metabolism and cell signaling.

Offered: Online

BIOM 503 Human Genetics 3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

A study of the molecular causes of human disease with an emphasis on the specific gene perturbations that influence human health. Specific modes of genetic assault (e.g. mutations, epigenetic mechanisms, nutritional factors, and viral infections) will be discussed.

BIOM 513 Human Gross Anatomy 5 Credit Hours

This is an intensive course that covers all aspects of human anatomy through lectures, followed by practical application using cadavers. In addition, imaging techniques including CT scans and x-ray radiography are used to introduce the student to the physician's perspective.

Offered: Resident

BIOM 515 Human Physiology 5 Credit Hours

A concentrated, comprehensive course that provides the student with a high level of understanding of the physiological basis of medicine. The essential concepts of mechanisms of body function are presented at various levels of organization, ranging from cellular and molecular to tissue and organ system levels. Emphasis is placed on understanding the integrated regulation of various body processes among the major systems.

Offered: Resident

BIOM 523 Human Gross Anatomy Lecture 4 Credit Hours

This is an intensive course that covers all aspects of human anatomy through lectures. Students will be shown how imaging techniques including CT scans and x-ray radiography are viewed from the physician’s perspective. This course precedes BIOM 524 Human Anatomy Cadaver Lab which includes the use of human cadavers. (BIOM 523 and 524 are equivalent to BIOM 513)

Offered: Online

BIOM 524 Human Anatomy Cadaver Lab 1-2 Credit Hours

Prerequisites: BIOM 523

A laboratory study of the structure and function of the human body using a regional approach with emphasis on the detailed osteology, musculature, vasculature, and innervation of each region along with an understanding of the interrelationship between organ systems. This course follows BIOM 523 Human Gross Anatomy Lecture. (BIOM 523 and 524 are equivalent to BIOM 513).

Offered: Online

BIOM 525 Human Physiology Lecture 4 Credit Hours

This is a concentrated, comprehensive course that provides the student with a high level of understanding of the physiological basis of medicine. The essential concepts of physiology and mechanisms of body function are presented at various levels of organization ranging from cellular and molecular to tissue and organ system levels. Emphasis is placed on understanding the integrated regulation of various body processes among the major systems. This course precedes BIOM 526 Human Physiology Lab. (BIOM 525 and 526 are equivalent to BIOM 515).

Offered: Online
BIOM 526 Human Physiology Lab 1 Credit Hour

Prerequisites: BIOM 525

Human physiology is the study of the functions of the body and how it maintains homeostasis. This lab course practically examines systemic functions using human subjects and simulated case studies. It also allows students to independently develop and test hypotheses about homeostatic control mechanisms in health and disease. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive, endocrine systems and the effects of exercise, altitude and depth on these. (BIOM 525 and 526 are equivalent to BIOM 515).

Offered: Online

BIOM 600 Biomedical Ethics 3 Credit Hours

An in-depth ethical analysis and evaluation of present and emerging biomedical technologies in the 21st century. While not ignoring other ethical schools of thought, the focus of this course will be on the Hippocratic and Judeo-Christian traditions with their emphasis on the inherent dignity and worth of humanity as a whole, as well as the individual patient. This ethical foundation will serve as the primary framework for discussing medical decision making and practice.

BIOM 610 Human Neurology and Neuroanatomy 3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

This course will provide an introduction to the structural and functional features of the nervous system. Topics covered will include the gross anatomy of the brain and spinal cord, cellular and molecular neurobiology, sensory and motor systems, the major neurotransmitter systems, and brain regulation of behavior and body physiology.

BIOM 613 Human Gross Anatomy II 3 Credit Hours

Prerequisites: BIOM 513

A continuation of BIOM 513 with additional and more advanced dissections of human cadavers.

Offered: Resident

BIOM 615 Advanced Cell Biology 4 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524)

Advanced study on the structure, function and organization of the cell. Major topics include structure and function of cellular organelles, the cytoskeleton and extracellular matrix; cell signaling; membrane transport; protein targeting, vesicular transport, and cell division.

BIOM 620 Advanced Immunology 3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

A detailed study of the cells and molecules that result from an immune response to disease. The course will include antigen presentation, cytokine networks, vaccines and vaccine development, immunodeficiency diseases, tumor immunity, tolerance, autoimmunity and contemporary topics in immunology.

BIOM 623 Human Developmental Biology 3 Credit Hours

Prerequisites: BIOM 513 and BIOM 515

Advanced study of the major events of normal and abnormal human embryonic development. Major topics include gametogenesis, fertilization, axis formation, molecular pathways involved in tissue formation, and development of organ systems.

Offered: Resident

BIOM 625 Microbial Pathogenesis and Virology 3 Credit Hours

A comprehensive study of the viruses that cause human disease and the basic principles of microbial pathogenesis, including the molecular basis of infectious disease, how microbes establish infections, gain nutrients, cause damage to the host and disease, evade host defense mechanisms. The course will also include case studies.

BIOM 630 Principles of Pathology 3 Credit Hours

Prerequisites: (BIOM 513 and BIOM 515) or (BIOM 523 and BIOM 524 and BIOM 525 and BIOM 526)

This course reviews basic pathology principles including: Inflammation, Infection, Repair, Thrombosis, Hemostasis, Hyperplasia, Hypertrophy, Neoplasia, and Apoptosis. In addition, the pathophysiology of disease applied to various organ systems is covered in depth. Correlations with appropriate laboratory results and physical findings will elucidate the basis for signs and symptoms of various common diseases. Both diagnostic features of diseases and critical thinking skills will be stressed.

BIOM 633 Advanced Histology 4 Credit Hours

Prerequisites: BIOM 513

This course provides a detailed orientation to the structure and organization of cells and tissues. Students will learn a variety of techniques involved in the preparation of histological slides (including use of the microtome, vibratome, and cryostat) and staining specimens. Students will assist undergraduate students in tissue preparation.

Offered: Resident
BUSI 501 Executive Leadership and Management 3 Credit Hours

Prerequisites: BMAL 500 or BUSI 646

This course provides a comprehensive perspective on leadership and management, from both an historical and current practices perspective. The link between management and leadership is examined and the application of leadership theory is explored.

Offered: Online

BUSI 502 Servant Leadership 3 Credit Hours

This course examines the concept of servant leadership from the perspective of leadership theory and applied biblical integration. The course will impart the philosophy of servant leadership.

Offered: Online

BUSI 503 Leadership Theory 3 Credit Hours

Prerequisites: BUSI 502

This course broadly surveys the body of leadership literature with heavy emphasis on the major practical theories. All leadership theories are evaluated in the light of biblical reasoning.

Offered: Online

BUSI 504 Leading Organizational Change 3 Credit Hours

Students in this course will study the impact of change on an organization and stakeholders and the dynamics of change in order to lead organizational change efforts. The course reviews the literature for the best practices relating to organizational change and organizational learning.

Offered: Online

BUSI 505 Healthcare Informatics 3 Credit Hours

Focused on the foundations of healthcare informatics, students will gain an overview of the information, resources, and technologies in healthcare. Topics include but are not limited to healthcare information systems infrastructure, enterprise architecture, applications, data management, information security, telehealth, project management, and emerging technologies. Students will examine major theories supporting healthcare informatics, understand its application in supporting decision-making, and recognize its importance in the provision of effective and efficient healthcare. (Crosslisted with INFO 505)

Offered: Online

BUSI 506 Legal and Ethical Issues for Health Professionals 3 Credit Hours

Prerequisites: BUSI 511

An examination of contemporary legal and ethical issues encountered by health professionals in the provision and delivery of healthcare products and services. Topics explored include but not limited to patient-caregiver relationships, high-tech medicine, regulatory compliance, healthcare ethics, criminal aspects of healthcare, corporate structure, patient rights, medical records, and disclosure of patient information in healthcare.

Offered: Online

BUSI 508 Career Development in Healthcare Administration 3 Credit Hours

This course will provide an overview of healthcare administration career opportunities ranging from direct care facilities such as hospitals and physician practices, as well as non-direct health care entities such as associations, insurance companies and medical supplier organizations. Evaluating the healthcare management workforce, understanding healthcare management, and healthcare management practice settings will be completed.

Offered: Online

BUSI 510 Organizational Behavior in Health Systems 3 Credit Hours

This course will provide the current or future healthcare manager with an overview of issues healthcare administrators will need to address to include diversity, attitudes, perceptions, and effective communication. Motivational and leadership theories, intrapersonal and interpersonal issues, stress, decision making, conflict/negotiation skills and group dynamics in the healthcare organization will be addressed. Healthcare managers ultimately play a critical and vital role in how health systems manage change and these aspects will be explored.

Offered: Online

BUSI 511 Healthcare Administration 3 Credit Hours

Explores the field of healthcare management, specifically related to the management of global healthcare systems in technological societies and the need for innovation and creativity in healthcare administration. This course will provide an introduction to the principles of management and leadership as the foundations for the administration of healthcare products and service delivery. Topics explored include but not limited to a historical overview, theoretical foundations, and major developments and characteristics of global healthcare systems; types of healthcare providers; cost, access and quality of care; and the future of health services delivery.

Offered: Online

BUSI 512 Managerial Information Technology 3 Credit Hours

Prerequisites: BUSI 600

This course is designed to provide the essential tools needed for the effective management of information technology. The objective is to build a basic understanding of the value and uses of information systems for business operation, management decision-making, and strategic advantage. While not designed as a course in computer literacy, the course does include topics that develop skills as managers and users of information systems technology, rather than as producers of information systems technology.

Offered: Online

BUSI 520 Strategic Marketing Management 3 Credit Hours

This course is designed to provide the student with a working knowledge of the steps involved in the analytical and decision-making processes involved in formulating, implementing and controlling a strategic marketing program for a product market entry.

Offered: Online
BUSI 523 Financial Analysis and Decision Making in Healthcare  
3 Credit Hours

Focused on financial analysis and decision making in healthcare, this course will provide exposure to the design and operation of healthcare financial and reimbursement systems. Examines the current system of financing healthcare and the factors affecting it. Students will examine topics related to the revenue cycle, disbursement, budgeting/forecasting, internal control, financial reporting, and contract management aspects of the healthcare organization.

Offered: Online

BUSI 528 Strategic Management and Marketing for Health Professionals  
3 Credit Hours

Focused on creating strategies and exploring models for gaining a competitive edge in the healthcare marketplace. Students will explore the importance of strategic planning in healthcare; internal and external environmental assessment; marketing healthcare services; strategy formulation, implementation, evaluation, and long term control.

Offered: Online

BUSI 530 Managerial Finance  
3 Credit Hours

A treatment of the theory and practice of financial decision making in the firm, with emphasis on the practical application of financial analysis, the course is based on the principle that a firm should be managed to increase the wealth of its shareholders. The target audience is managers, at all levels and in all functional areas. Beginning with an overview of financial analysis, the course topics include financial management, capital investment decisions, financing decisions, and managing for value creation. Importance is placed on the concept of the time value of money.

BUSI 532 Advanced Financial Statement Analysis  
3 Credit Hours

Prerequisites: Financial Accounting with a score of 3 and Managerial Accounting with a score of 3 and Corporate Finance with a score of 3 and (Meets BMAL590 / 27 hrs in BUSI with a score of 3 or BMAL 590)

This course examines advanced techniques for evaluating the financial stability of a company through its financial statements, and how the financial statements may be used for strategic planning and decision making.

BUSI 534 Business Valuation  
3 Credit Hours

Prerequisites: Financial Accounting with a score of 3 and Managerial Accounting with a score of 3 and Corporate Finance with a score of 3 and (Meets BMAL590 / 27 hrs in BUSI with a score of 3 or BMAL 590)

This course examines the various techniques used to evaluate businesses from a theoretical and practical standpoint.

Offered: Online

BUSI 535 Biblical Financial Planning  
3 Credit Hours

Prerequisites: BUSI 532 and BUSI 534 and BUSI 536

This course provides the framework for biblical stewardship with regard to financial planning. Successful completion of this course allows for students to take the Certified Kingdom Advisors (CKA) exam.

BUSI 536 Mergers & Acquisitions  
3 Credit Hours

Prerequisites: Financial Accounting with a score of 3 and Managerial Accounting with a score of 3 and Corporate Finance with a score of 3 and (Meets BMAL590 / 27 hrs in BUSI with a score of 3 or BMAL 590)

This course explores the concepts of mergers and acquisitions from a financial resources need perspective, determining appropriate acquisitions, and analyzing the restructuring of companies.

BUSI 538 Investments & Derivatives  
3 Credit Hours

Prerequisites: Financial Accounting with a score of 3 and Managerial Accounting with a score of 3 and Corporate Finance with a score of 3 and (Meets BMAL590 / 27 hrs in BUSI with a score of 3 or BMAL 590)

This course explores the framework from which a company makes investment decisions, provides a foundation for the study of derivative products, and how companies may effectively use investments and derivatives to make wise financial decisions.

BUSI 561 Legal Issues in Business  
3 Credit Hours

This course provides the student with a foundational knowledge of the legal issues that both start-up and established business enterprises face. Armed with this wisdom, the student will assess an organization's need for competent legal advice from an experienced professional in matters of contracts, corporations, employment, insurance, intellectual property, international trade, leases, limited liability organizations, partnerships, and homeland security concerns.

Offered: Resident and Online

BUSI 570 Ethical Leadership  
3 Credit Hours

This course focuses upon ethical issues and dilemmas faced by leaders. Definitions of ethical leadership are reviewed as they relate to values and culture. The theory and practice of ethical leadership is evaluated as it pertains to a biblical worldview.

BUSI 600 Business Research Methods  
3 Credit Hours

Business research is a systematic inquiry whose objective is to provide information to solve managerial problems. This course is an introduction on how to do business research with an emphasis on applied problem solving. It has a major focus on problem identification and analysis, problem solving strategies and communication skills.

BUSI 601 Accounting for Decision Making  
3 Credit Hours

Prerequisites: BUSI 600 or (ACCT 531 (may be taken concurrently)

This is a graduate level course in cost management with a strategic cost emphasis. The course presents an in-depth study of contemporary management techniques used by managers in a contemporary business environment. The balanced scorecard, critical success factors, and strategic analysis are emphasized and integrated with other decision making techniques in this accounting course.
BUSI 602 Non-Profit Management 3 Credit Hours

Leaders of non-profit organizations must understand their role in the diverse political, social and economic contexts in which they will lead. This course provides a comprehensive understanding of how to lead a non-profit organization. Students will examine governance, key concepts and the stakeholders involved in non-profit management.

BUSI 603 Entrepreneurship 3 Credit Hours

This course is directed toward preparing those considering starting or acquiring a business. Students will examine the managerial, technical and financial challenges of entrepreneurship. In-depth studies of the entrepreneurial requirements for success and the methods of entering a business are covered.

BUSI 604 International Business 3 Credit Hours

The purpose of the course is to prepare managers to compete successfully in the global economy. The rapidly changing economic, political, technological and cultural environments will be studied as a foundation for understanding how to compete in differing environments, utilizing the resources available to the enterprise in managing the various functional areas of business.

BUSI 605 Environment of International Business 3 Credit Hours

Prerequisites: BUSI 604

The course provides in-depth perspectives concerning the nature of international business and the environment in which it is conducted, including international trade, foreign direct investment, the relationship between international organizations and international business, the international monetary system, and international environmental forces (socio-cultural, natural resources, economic, political, legal, financial, labor).

Offered: Online

BUSI 606 Global Financial Markets 3 Credit Hours

Prerequisites: BUSI 605

This course provides an overview of international financial markets and how they operate and interrelate. The structure, characteristics, and issues for markets in the Americas, Europe, Africa/Middle East, and Asia/Pacific will be identified.

BUSI 607 Developing Global Markets 3 Credit Hours

Prerequisites: BUSI 605

This course provides an organizational analysis framework within which a firm’s market-based global operations can be analyzed, understood, and undertaken. Particular focus will be placed on international competitive strategy, the assessment of global markets, modes of entry, workforce planning and development, and global operations and supply chain management.

BUSI 610 Organizational Design and Structure 3 Credit Hours

Prerequisites: BUSI 600 or NURS 500

This course provides graduate-level instruction regarding the design, redesign, and implementation of effective organizations. Special emphasis is placed on the analysis, planning, implementation, and evaluation of both the social and technical systems of organizations with emphasis on the structural changes necessary to improve and maintain productivity and quality of work life.

BUSI 611 Operations Management for Health Organizations 3 Credit Hours

A study of the operational challenges and opportunities facing medical and health services managers and the value added areas where resources are transformed into goods and services. The exploration of operations management for health organizations will involve some complexity as various quantitative management tools are examined and applied.

Offered: Online

BUSI 612 Marketing Promotions 3 Credit Hours

Prerequisites: BUSI 520 and (Meets BMAL590 / 27 hrs in BUSI with a score of 3 or BMAL 590 or BUSI 700)

This course guides students in understanding and the application of key promotional theories, strategies and tactics associated with organizations whose unique product mix demands the highest levels of promotions. Students will get a solid foundation of the theory, design and application of promotion techniques and practices that are dedicated to increasing brand awareness and top line sales growth.

Offered: Online

BUSI 613 Supply Chain Management 3 Credit Hours

Prerequisites: BMAL 590 or BUSI 700 or Meets BMAL590 / 27 hrs in BUSI with a score of 3

This course will provide learners with a solid foundation of the theory and application of supply chain management techniques and practices that are dedicated to providing customers with superior value. Course topics include supply chain network design, facility planning, capacity planning, globalization and outsourcing, information technology, and global issues in supply chain management.

Offered: Online

BUSI 614 Marketing Research 3 Credit Hours

Prerequisites: BUSI 520 and (BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3 or BUSI 700)

This course will provide learners with a solid foundation of the theory, evaluation and application of marketing research techniques and practices. Students will apply marketing research through the use of tools and techniques to include data collection and report-generation software.
BUSI 615 Logistics 3 Credit Hours

Prerequisites: BUSI 613

This course covers logistics concepts and systems with respect to their collective impact on organizational performance. Other topics covered in the course include planning and implementation, demand forecasting, distribution, inventory management, transportation and warehousing. Relevant technologies for maximizing logistics efficiencies are also emphasized.

Offered: Online

BUSI 616 Total Quality Management 3 Credit Hours

Prerequisites: BUSI 613

This course provides learners with an understanding of quality control and improvement systems. The course includes study of topics related to quality management approaches, design and implementation of quality-related procedures, and related technologies. The focus of the course is on enhancing goods, services, and the business environment.

Offered: Online

BUSI 619 Quality Assessment and Evidence Based Decision Making 3 Credit Hours

Historically, the healthcare industry has been based mostly on clinical experience and judgment. Advances in communication, innovation in information technology, and other recent improvements have increased the promise of evidence-based decision making. This course will examine how evidence-based decision making provides a framework for addressing healthcare quality assessment and improvement in the provision and management of patient care.

Offered: Online

BUSI 620 Global Economic Environment 3 Credit Hours

Prerequisites: BUSI 600 or NURS 500

This course covers the tools of microeconomics useful in the analysis of producer and consumer behavior. The economics of demand, production and cost, and pricing and output decisions in a market system form the core of an approach adapted to the challenges faced by managers in the private, public, and nonprofit sectors of the economy. The coverage is from the domestic, as well as global perspectives.

BUSI 621 Real Estate Operations 3 Credit Hours

Prerequisites: BUSI 620

An examination of the economics and operations of the real estate markets, including the supply and demand, real estate prices, including cycles and price dynamics.

Offered: Online

BUSI 622 Real Estate Investment Analysis 3 Credit Hours

Prerequisites: BUSI 530

This course explores real estate, with a focus on investment and financing. A review of financing strategies and risk, investment decision making and capital markets.

Offered: Online

BUSI 623 Real Estate Development 3 Credit Hours

Prerequisites: BUSI 530

This course explores the real estate development process from a leadership and management perspective, including market analysis, site acquisition, planning and design, financing, construction, as well as leasing commitments and on-going management.

Offered: Online

BUSI 629 Economic Analysis in Healthcare 3 Credit Hours

Focused on the economics of healthcare, this course will explore how healthcare economics is unique. Students will be exposed to different techniques used for economic assessment of economic evaluation studies and related publications. For-profit and not-for-profit provider firms, information problems in healthcare markets, regulation, financing of healthcare, and healthcare reform issues will be explored.

Offered: Online

BUSI 630 Managerial Epidemiology 3 Credit Hours

Prerequisites: BUSI 511

This course provides students with a foundation of knowledge and skills to plan, organize and manage health services while addressing various epidemiologic methods. The course focuses on the need for healthcare administrators to evaluate epidemiologic data on incidence and prevalence while addressing the impact of administrative data on cost and quality to improve access and delivery of high quality services in a cost-effective and efficient manner.

Offered: Online

BUSI 640 Quantitative Methods in Healthcare Management 3 Credit Hours

Prerequisites: BUSI 511

This course provides students with a foundation of the quantitative methods and techniques needed for the new or mid-level healthcare administrator. The course will cover practical methods of the tactical, operational, strategic decision-making and analysis required for healthcare managers and administrators. This course will utilize Excel-based examples and techniques.

Offered: Online
BUSI 642 Contemporary Issues in Human Resource Management  
3 Credit Hours

Prerequisites: BUSI 620

A practical approach designed for the general manager that provides a knowledge base in basic human resource topics, as well as an in-depth analysis of important current issues in the field. Through text readings, case studies, experiential exercises, Internet activities, and research, students will learn to synthesize and integrate theory with application and evaluate the effectiveness of an organization's human resources.

BUSI 643 Workforce Planning and Employment  
3 Credit Hours

This course will examine the changing nature of the labor market, including conceptual, operational, and the legal issues. Discussion and activities will focus on the legal, ethical, and economic factors affecting recruitment, selection, placement, and appraisal. Students will learn to synthesize theory with application and evaluate the effectiveness of an organization's workforce planning and employment strategies. Understanding strategic organizational considerations and developing decision-making skills related to the staffing process will be emphasized through text readings, case studies, experiential exercises, and secondary research.

BUSI 644 Human Resources Development  
3 Credit Hours

This course integrates theory with a practical approach to the topic of human resources development (HRD) with a focus on the design, implementation, and management of employee orientation, training, and career development programs. A comprehensive view of the concepts, processes, and philosophies of training and development is presented in this course. Emphasis is placed on current trends and research related to the various aspects of the human resource development function. Students will discuss the history and future of HRD, strategies, methods, materials, and measurement of training programs, as well as apply the processes involved in designing, developing, and implementing appropriate and effective training programs.

BUSI 645 Compensation Management  
3 Credit Hours

The course will focus on the critical issues related to the strategic management of the organization's compensation and benefit system. Topics discussed will include the components and strategic analysis of compensation systems, bases for pay, designing compensation systems, legally required and discretionary employee benefits, and contemporary strategic compensation challenges. Students will learn to apply tools for decision-making complex, compensation related environments, as well as design, develop, and implement compensation strategies that achieve value-added results, thereby enabling organizations to more effectively and efficiently achieve their goals.

Offered: Online

BUSI 646 Managing Human Capital in Healthcare  
3 Credit Hours

Prerequisites: BUSI 506

Focused on strategically managing human capital in the healthcare environment, students will focus on evaluating human resource management concepts from the perspective of the manager's role in creating and maintaining a productive health workforce. Students will explore human resource management theory and practice of managing the employment relationship through conducting in-depth analyses of current issues (i.e., recruitment, compensation, motivation, performance, and talent management) related to the strategic management of human capital within the healthcare setting.

Offered: Online

BUSI 650 Operations Management  
3 Credit Hours

Prerequisites: BUSI 620 or MGMT 527

This course provides graduate-level instruction regarding the concepts and analytic methods that are useful in understanding the management of a firm's operations. Special emphasis will be placed on familiarizing the student with the problems and issues confronting operations managers, and providing the student with language, concepts, insights and tools to deal with these issues in order to gain competitive advantage through operations. Because the course deals with the management of 'processes,' it applies to both for-profit and non-profit organizations, to both service and manufacturing organizations, and to virtually any functional area or industry. (Crosslisted with BMIS 650)

BUSI 680 Advanced Project Management I  
3 Credit Hours

Prerequisites: BUSI 611 or BUSI 613 or BUSI 650

This is the first of a two-course series covering advanced topics in Project Management, cross-referenced with PMBOK concepts. Topical coverage includes: project selection and definition, aligning projects with organizational strategy/structure/ culture, estimating project times and costs, developing the project plan, managing risk, and scheduling resources and costs. (Crosslisted with BMIS 680)

Offered: Online

BUSI 681 Advanced Project Management II  
3 Credit Hours

Prerequisites: BUSI 680

This is the second of a two-course series covering advanced topics in Project Management, cross-referenced with PMBOK concepts. Topical coverage includes: reducing project duration, leading and managing project teams, outsourcing, progress and performance measurement and evaluation, project closure, and agile project management. (Crosslisted with BMIS 681)

Offered: Online
BUSI 682 Global Project Management 3 Credit Hours

Prerequisites: BUSI 681 and BUSI 680

Advanced coverage of Project Management concepts and techniques as applied to various political, cultural, and geographic settings. Topical coverage may include: outsourcing initiatives, the global integrated logistics support process, virtual global software projects, developing multinational teams, risk assessment in global projects, and program/project portfolio management.

Offered: Online

BUSI 683 Money & Capital Markets 3 Credit Hours

Prerequisites: BUSI 530 and (BUSI 687 or ECON 614)

This course focuses on the U.S. financial system and its major participants, including discussions regarding objectives and procedures for evaluating opportunities and pricing risk. Topics include the role and functions of the Federal Reserve System and the various dynamics of the financial system.

Offered: Online

BUSI 684 Financial Modeling 3 Credit Hours

Prerequisites: BUSI 530 and BUSI 687

This course provides exposure to financial modeling techniques for business analysis application. Topics include theoretical development, modeling approaches, financial analysis, and applications of financial modeling.

Offered: Online

BUSI 685 Financial Management 3 Credit Hours

Prerequisites: ACCT 614 or BUSI 535 or (BUSI 530 and BUSI 687)

This course focuses on the firm's opportunities and resulting potential impact on shareholder value based on the considered risk level. Topics include investments, capital structure and restructuring, budgeting, financial markets, policy, and portfolio management.

Offered: Online

BUSI 686 Financial Planning 3 Credit Hours

Prerequisites: BUSI 687

An overview of personal financial decision-making, emphasizing each phase of life. Topics covered include career planning, budgeting, use of credit, insurance, investments, retirement planning, and income tax planning.

Offered: Online

BUSI 687 Insurance & Risk Management 3 Credit Hours

Prerequisites: BUSI 532 and BUSI 534 and BUSI 536 and BUSI 538

This course focuses on assessing and mitigating risk in the financial industry while integrating insurance considerations to manage both risk and return. Topics include business and personal risk, corporate investments, diversification, ownership and property, and legal liability.

Offered: Online

BUSI 688 Retirement Planning 3 Credit Hours

Prerequisites: BUSI 687

This course provides a comprehensive overview of retirement planning needs and analysis for effective planning strategies. Topics include qualified retirement plan design, Social Security, Medicare, group life health and disability insurance, and non-qualified deferred compensation.

Offered: Online

BUSI 689 Capstone in Financial Planning 3 Credit Hours

Prerequisites: BUSI 686 and BUSI 688

This course will allow the student to create a written financial plan using the knowledge acquired from previous course work in the financial planning classes. The student will use a software package to incorporate all the elements of a successful financial plan for a case study client.

Offered: Online

BUSI 690 Policy and Strategy in Global Competition 3 Credit Hours

Prerequisites: BUSI 620 and BUSI 520 and BUSI 530 and BUSI 601 and BUSI 610

This capstone course integrates the concepts, techniques, and knowledge of all areas of business administration. This course may not be substituted for or transferred in from another institution. This course is the capstone course and must be taken in the final term of enrollment.

Offered: Resident and Online

BUSI 691 Healthcare Administration Capstone 3 Credit Hours

Prerequisites: BUSI 523 and BUSI 528 and BUSI 646 and BUSI 630 and BUSI 640

This capstone course for all healthcare administration majors seeks to integrate the concepts, techniques, and knowledge of all areas of healthcare administration. Its focus is strategic management, which is studied in theory and then rigorously applied. This course is designed for final semester seniors.

Offered: Online
BUSI 692 Capstone in Financial Management 3 Credit Hours

**Prerequisites:** BUSI 532 and BUSI 534 and BUSI 536 and BUSI 538 and BUSI 687

This course will allow the student to draw from previous coursework to craft a unique solution to a stated, real, or hypothetical defined topic approved by the course instructor. The comprehensive research project could touch on issues such as alternative financing between debt and equity, alternative financing between short term debt, inventory management, accounts receivable management, compensation structures, corporate governance, and alternatives for creation of equity valuation.

**Offered:** Online

BUSI 695 Business Research & Application 3 Credit Hours

BUSI 697 Special Topics in Business 3 Credit Hours

Topics of special interest not included in the regular department offerings. May be taken more than once, but no topic may be repeated.

**Business Management & Leadership (BMAL)**

BMAL 500 Organizational Behavior 3 Credit Hours

**Prerequisites:** ACCT 511 or BMAL 590 or BUSI 561 or Meets BMAL590 / 27 hrs in BUSI with a score of 3

This course discusses managerial competence in understanding the human output of organizations from the viewpoints of individual, group, and organizational systems levels. Emphasis is given to assessing one's personality and values and to applying course material to one's work environment. (Formerly BUSI 500)

BMAL 501 Strategic Leadership and Management 3 Credit Hours

This course provides a comprehensive perspective on leadership and management, from both an historical and current practices perspective. The link between management and leadership is examined and the application of leadership theory is explored. (Formerly BUSI 501) (Crosslisted with BMIS 501)

BMAL 504 Leading Organizational Change 3 Credit Hours

This course examines the concepts and practices of both leadership and followership in order to create successful change.

**Offered:** Online

BMAL 530 Accounting for Non-financial Managers 3 Credit Hours

Students will study the crucial aspects of financial analysis and management so that they will have an understanding of the requirements to identify, measure, and communicate financial information. Topics in this course include: financial reporting, underlying accounting assumptions, performance measures, ratio analysis, cash flow, time value of money and budgeting.

**Offered:** Online

BMAL 550 Effective Executive Communication 3 Credit Hours

**Prerequisites:** (BMAL 590 or BMAL 530) and (BMAL 560 or Meets BMAL590 / 27 hrs in BUSI with a score of 3)

Executives in professional organizations are expected to solve problems and make decisions, but ultimately, they must communicate them effectively to a variety of stakeholders. This course is designed to integrate knowledge of the pervasive impact of computer and other information technologies with time-honored communications principles to enable students to maximize their effectiveness in diverse and technologically dynamic business environments. (Formerly BUSI 550)

BMAL 560 Corporate Responsibility 3 Credit Hours

**Prerequisites:** BMAL 501 or BUSI 561

This course is designed to provide the student with a working knowledge of issues such as the role of business in society, the nature of corporate responsibility, business ethics practices, and the complex roles of government and business in the global economic community. That is, it presents the ‘non-economic’ strategy that a company must have to survive in tomorrow’s business world. Underlying this, of course, is the importance of personal character and the Christian worldview. (Formerly BUSI 560)

**Offered:** Online

BMAL 570 Ethical Leadership 3 Credit Hours

**Prerequisites:** BMAL 504 and BMAL 530 and BMAL 550

This course focuses upon ethical issues and dilemmas faced by leaders. Definitions of ethical leadership are reviewed as they relate to values and culture. The theory and practice of ethical leadership is evaluated as it pertains to a biblical worldview.

**Offered:** Online

BMAL 590 Business Common Professional Components 3 Credit Hours

This course is designed to give students a foundation of the common professional components necessary to understand the graduate level business concepts in the MBA. Students who pass each component will demonstrate proficiency in each of the following: Marketing, Business Finance, Accounting, Management, Legal Environment of Business, Business Ethics, Global Dimensions of Business, Information Management Systems, Quantitative Techniques/Statistics, Business Integration and Strategic Management. This course is required for admission to the MBA for all students who do not have an undergraduate degree in business or accounting.
BMAL 602 Non-profit Management 3 Credit Hours
Leaders of nonprofit organizations must understand their role in the diverse political, social and economic contexts in which they will lead. This course provides a comprehensive understanding of how to lead a nonprofit organization. Students will examine governance, key concepts and the stakeholders involved in nonprofit management. (Formerly BUSI 602)

BMAL 603 Entrepreneurship 3 Credit Hours
This course is directed toward preparing those considering starting or acquiring a business. Students will examine the managerial, technical and financial challenges of entrepreneurship. In-depth studies of the entrepreneurial requirements for success and the methods of entering a business are covered. (Formerly BUSI 603)

BMAL 604 Managing and Leading Across Cultures 3 Credit Hours
Prerequisites: BMAL 501
The purpose of this course is to provide an overview of the similarities and differences of managing and leading across cultures.

Business Management Information Systems (BMIS)

BMIS 501 Executive Leadership and Management 3 Credit Hours
This course provides a comprehensive perspective on leadership and management, from both an historical and current practices perspective. The link between management and leadership is examined and the application of leadership theory is explored.

BMIS 510 Enterprise Models 3 Credit Hours
Prerequisites: Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3
This course provides a process-oriented view of the organization and its relationships with suppliers, customers, and competitors. Topics include using processes as vehicles for achieving strategic objectives and transforming an organization; process analysis, design, implementation, control, and monitoring; processes as a means of achieving compliance. The role of enterprise resource planning (ERP), supply chain management (SCM), and customer relationship management (CRM) systems will also be explored.

BMIS 520 IT Infrastructure 3 Credit Hours
Prerequisites: (Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3) or (CSIS 505 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS 312 or equivalent with a score of 3 and Meets CSIS330 /CSIS331 / equiv with a score of 3)
This course explores the design, implementation, and management of digital networks. Topics will include telecommunications fundamentals, server architecture, as well as cluster and grid computing. The course will explore the development of an integrated technical architecture (hardware, software, networks, and data) to serve organizational needs in a rapidly changing and competitive technological environment.

BMIS 530 Systems Analysis, Modeling, and Design 3 Credit Hours
Prerequisites: (BMIS 520 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3) or (BMIS 520 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS330 /CSIS331 / equiv with a score of 3) or (INFO 535 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS330 /CSIS331 / equiv with a score of 3) or (INFO 535 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS330 /CSIS331 / equiv with a score of 3) or (INFO 535 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201/BUSI230/hi/equiv with a score of 3 and Meets BIOL102 / HLTH221 /equiv with a score of 3)
This course will provide a practical look at the current methodologies and design techniques necessary for system implementation, operation, and maintenance. These include the systems development life cycle (SDLC), rapid application development (RAD), agile development, object-oriented analysis and design, prototyping, visual development, and the human computer interface (HCI).

BMIS 570 Ethics and Legal Issues 3 Credit Hours
This course explores the ethical and legal implications of the digitization of data, information, and communications on organizations and society. These areas are examined in regard to information privacy, accessibility, property rights, and accuracy. The proliferation of computer crime and its ramifications as well as the legal and regulatory environment will be examined. The course will also look at the impact of globalization, sourcing, technology workforce, and the digital divide.
BMIS 580 Human Computer Interaction and Emerging Technologies
3 Credit Hours

Prerequisites: BMIS 510 and BMIS 520

This course addresses emerging technologies, how they evolve, and how to identify them. Topics covered in the course include accuracy of past forecasts and how to improve them, international perspectives on emerging technologies, future organizational and customer trends, and forecasting methodologies. It further explores human characteristics and their impacts on developing human-centered information systems. Finally, emerging trends in human interaction with mobile applications, internet applications, social networking technology, cloud computing, and stand-alone applications will be explored.

BMIS 601 Decision Making and Executive Information Systems
3 Credit Hours

Prerequisites: BMIS 530 and BMIS 510 and BMIS 520

This course will provide students with an understanding of computer-based information systems and their role in modern global organizations and society as a whole. Topics will explore the capabilities and limitations of information systems based on their design and configurations. Databases will be a focus of this course, considering the central role they play in the information systems strategies of most organizations.

BMIS 603 Business Simulation and Modeling
3 Credit Hours

Prerequisites: BMIS 601 and BMIS 510 and BMIS 520 and BMIS 530

This course introduces students to the concepts of business process improvement and principles of lean thinking. This course will address the historical reasons behind the structure of organizations. Students will learn to analyze and re-conceptualize the organization in terms of business processes and how to use that knowledge to improve organizational effectiveness and efficiency.

BMIS 650 Operations Management
3 Credit Hours

This course provides graduate-level instruction regarding the concepts and analytic methods that are useful in understanding the management of a firm’s operations. Special emphasis will be placed on familiarizing the student with the problems and issues confronting operations managers, and providing the student with language, concepts, insights and tools to deal with these issues in order to gain competitive advantage through operations. Because the course deals with the management of ‘processes’, it applies to both for-profit and nonprofit organizations, to both service and manufacturing organizations, and to virtually any functional area or industry.

BMIS 662 Telecommunications and Network Security
3 Credit Hours

Prerequisites: BMIS 520 and BMIS 510

This course develops a managerial level review of technical knowledge and terminology for data, voice, image, and video communications and computer networks to effectively communicate with technical, operational, and management people in telecommunications. The course will cover the Telecommunications and Network Security domain which encompasses topics to include: access control network structure, transmission methods, transport formats, and security measures used to maintain the integrity, availability, authentication, and confidentiality of the transmitted information over both private and public communication networks. The course will also give an overview of network security and the basics of cryptography. Additional topics include but are not limited to: threat models, authentication and authorization mechanisms and standards, public key infrastructure, electronic mail security, network layer security, transport layer and web security, packet filtering, firewalls, intrusion detection, and virtual private networks.

BMIS 663 Secure Enterprise Design and Development
3 Credit Hours

Prerequisites: BMIS 530 and BMIS 510 and BMIS 520

This course includes studies in security architecture and applications security. A detailed look will be given at the concepts, principles, structures and standards used to design, implement, monitor and secure operating systems, equipment, networks and applications. The course will explore controls used to enforce various levels of confidentiality, integrity and availability.

BMIS 664 Information Forensics, Compliance and Risk Management
3 Credit Hours

Prerequisites: BMIS 663 and BMIS 510 and BMIS 520

This course covers a diverse set of topics in information security and incident response. Risk Management domain involves the identification of an organization's information assets and the development, documentation, and implementation of policies, standards, procedures, and guidelines that ensure confidentiality, integrity, and availability. The Legal, Regulations, Investigations, and Compliance domains addresses computer crime laws and regulations, the investigative measures and techniques which can be used to determine if a crime has been committed, and methods to gather evidence. Incident handling provides the ability to react quickly and efficiently to malicious technical threats or incidents.
BMIS 665 Information Operations and Security 3 Credit Hours

Prerequisites: BMIS 662 and BMIS 510 and BMIS 520 and BMIS 530

Operations Security is used to identify the controls over hardware, media and the operators with access privileges to any of these resources. This course will look at the mechanisms, tools and facilities that permit the identification of security events and subsequent actions that follow identification. The course will address the threats, vulnerabilities and countermeasures that can be utilized to physically protect an enterprise's resources and sensitive information. A study of Business Continuity and Disaster Recovery Planning addresses the preservation of the business in face of major disruption to normal business operations will also be included. The preparation, testing and updating of specific actions to protect critical business processes from the effects of major system and network failures will be explored.

BMIS 668 Advanced IT Project Management I 3 Credit Hours

Prerequisites: BMIS 650 or (INFO 505 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 / higher with a score of 3)

This course is designed to provide students with the essential tools needed for leading and managing information technology (IT) projects. These include the traditional processes related to initiating, planning, executing, controlling, reporting and closing a project, with a focus on the unique challenges that information technology presents. These challenges include: software application size and cost estimations, assigning work to development teams, version control and managing the organizational change process. Other topics include the changing role of the IT manager in customer and partner relationship management, outsourcing and external contracts.

Offered: Online

BMIS 680 Advanced IT Project Management II 3 Credit Hours

This course explores the organizational aspects of information technology (IT) program management with the aim of providing knowledge, skills and exposure to issues in managing information and utilizing information technology as an asset in organizations. Students completing this course will be better equipped to be managers engaged in defining and implementing information systems opportunities and solutions or as leaders in an Information Systems department. Major topics include: information asset management, strategic information systems planning, information services organization issues, best practices for service level management, IT personnel selection and management, IT Procurement/request for proposal development/vendor selection, and contract negotiation principles.

Offered: Online

BMIS 690 Integrated Capstone 3 Credit Hours

Prerequisites: (BMIS 510 and BMIS 520 and BMIS 530 and BMIS 603 and BMIS 681) or (BMIS 510 and BMIS 520 and BMIS 530 and BMIS 664 and BMIS 665)

This capstone course focuses on the design and management of an overall organizational system consisting of three interacting subsystems: (1) the enterprise itself - its structure, core processes, and relationships with external entities such as customers, suppliers, and outsourcers; (2) the IS function and its role in marshaling information technologies and information assets to support the strategy of the organization, and (3) the information technology architecture consisting of the organization's networks, hardware, data, and applications. The student will learn how to integrate and synthesize these three aspects of the enterprise, how IT must be aligned with the strategy of the organization, and how to make appropriate choices about architecture in relationship to overall organization goals.

Chaplaincy Ministry (CHPL)

CHPL 500 Introduction to Chaplaincy Ministry 3 Credit Hours

Examines the theological and cultural issues of a formal and informal ministry setting. Explores the similarities and differences among the various types of chaplaincies. Gives attention to ministry in religiously pluralistic, multicultural and multi-staff environments. Emphasizes skills, strategies and character traits necessary for effective ministry.

CHPL 598 Spiritual and Professional Development of the Chaplain 3 Credit Hours

Prerequisites: CHPL 500

This course addresses the professional and spiritual formation of chaplains. Students will observe and evaluate, first-hand various chaplain ministries. Attention is given to the biblical nature of chaplain ministry and its practical application within the secular and pluralistic contexts of the military, healthcare, and community chaplain settings. Special emphasis is given to formation of godly character necessary for successful chaplain ministry.

CHPL 615 Chaplain Ethics for Advisement and Pastoral Care 3 Credit Hours

Prerequisites: CHPL 598 and CHPL 500

This course provides a study of the methodology and practice of biblical ethics applied within the secular and pluralistic contexts in which chaplains serve. Attention is given to chaplain ethical advisement of leaders and followers within the military, healthcare, and community chaplain environments. This course will prepare chaplains for ethical dilemmas through the development of an ethical decision model and personal code of ethics. Additionally, the course will address the ethics of evangelism and exercising ones faith in a pluralistic culture.
CHPL 640 Chaplain Leadership for Religious Freedom 3 Credit Hours

Prerequisites: CHPL 598 and CHPL 500

This course is a comprehensive study of chaplain leadership as it pertains to providing for the free exercise of religion and defending that constitutional liberty. This study will evaluate the chaplain’s calling to servent leadership, examine biblical models of servant leadership, discern the internal and external dangers of chaplain leadership, and explore the unique opportunities and challenges chaplains face while seeking to provide spiritual ministry in secular and pluralistic settings. Special attention will be given to the spiritual leadership traits necessary for successful chaplain ministry. On Campus Intensive Only.

Offered: Online

CHPL 645 Chaplain Resilient Leaders 3 Credit Hours

This course will examine in depth a biblical model for resiliency and resilient spiritual leadership for chaplains, introducing key characteristics and competencies which allow chaplain leaders to be resilient and set the conditions for successful performance, to lead through inevitable crises along the way, and to help individuals and organizations rebound from downturns to a brighter future. The course also addresses how resilient leaders stand the test of time, avoiding burnout and establishing essential disciplines of replenishment. On Campus Intensive Only.

Offered: Online

CHPL 655 Chaplain Evangelism and Discipleship 3 Credit Hours

This course will focus on the biblical imperative of evangelism and various methods of witnessing in the pluralistic cultures in which chaplains serve. Particular emphasis will be given to wisely sharing the Gospel in military, healthcare, and community settings. Additionally, attention will be given to evangelism follow-up, discipleship, and scripture memorization. This course is taught online and in residence.

Offered: Online

CHPL 665 Chaplain Crisis Counseling 3 Credit Hours

This course is an examination of the theory and practice of crisis intervention and approaches to short term pastoral counseling focused on the ministry of chaplains. On Campus Intensive Only.

CHPL 680 Military Chaplaincy 3 Credit Hours

Prerequisites: CHPL 500 and CHPL 598

This course examines the theological, historical, constitutional, and cultural basis for professional military chaplains, and addresses the chaplain’s opportunity to provide spiritual leadership, pastoral care, and advise commanders in order to best care for the warrior’s soul. Attention is given to scriptural and military mandates for chaplains to provide spiritual warrior care, spiritual leadership, and spiritual counsel to military leaders. Further, the skills, strategies, and character traits necessary for effective chaplain ministry within military pluralistic culture will be explored. This course is taught as an intensive, in residence, and online.

Offered: Online

CHPL 681 Healthcare Chaplaincy 3 Credit Hours

Prerequisites: CHPL 598 and CHPL 500

This course examines a biblical approach to theodicy, suffering and redemption, demonstrating the foundation for evangelical ministry in a healthcare environment. Attention is given to providing Christocentric spiritual care to patients and staff within pluralistic and secular settings.

Offered: Online

CHPL 682 Community Chaplaincy 3 Credit Hours

Prerequisites: CHPL 598 and CHPL 500

This course examines a biblical approach to providing chaplain ministry in pluralistic and secular community settings. Attention is given to providing Christocentric chaplain leadership and spiritual care within the context of corporations, colleges, sports organizations, first response teams, and prison systems.

Offered: Online

CHPL 683 Sports Chaplaincy 3 Credit Hours

Prerequisites: CHPL 500 and CHPL 598

This course examines the biblical, theological, philosophical, and cultural basis for sports chaplain ministry. Attention is given to scriptural principles empowering chaplains to provide spiritual leadership, care, and counsel to players, coaches, and families. Finally, students will evaluate and practice the skills, strategies, and character traits necessary for effective chaplain ministry within the pluralistic culture of sports.

Note: Course available Spring 2018.

Offered: Resident

CHPL 695 Directed Research 3 Credit Hours

CHPL 698 Chaplaincy Practicum 1-3 Credit Hours

Prerequisites: CHPL 500 and (CHPL 696 or PLED 635)

CHPL 698 - Chaplaincy Practicum (1 to 3 hours) Prerequisites: CHPL 500 and 696.

CHPL 699 Chaplaincy Internship 3 Credit Hours

Prerequisites: CHPL 655 and HOMI 605 and (CHPL 680 or CHPL 681 or CHPL 682)

A practical field experience in military, healthcare, or community chaplaincy under the supervision of an approved mentor. The field, mentor, and nature of service must be approved beforehand by the professor. To receive 3 hours credit, students must spend a minimum of 150 field hours.
Children's Ministry (CMIN)

CMIN 500 Foundations for Children's Ministry 3 Credit Hours
This course addresses the underlying principles and the essential practices of an effective ministry to children, from evangelism to edification and discipleship.

CMIN 600 Nurture and Formation of Children 3 Credit Hours
As ministers to children, today's Christian educators in home, church, and school can benefit from an exploration of these formative components of a child's life. This course will help the student to understand and facilitate these dimensions of growth and development and assist him or her in shaping strategies for instructing children in the nurture and admonition of the Lord.

CMIN 610 Discipleship and Education of Children 3 Credit Hours
This course is an examination of the procedures and processes utilized to impress the life of God and the lifestyle it fosters upon the community's youngest members. The course will focus first upon child evangelism strategies, then will proceed to a discussion of educational philosophy and psychology, teaching methods and materials, and instructional resources for promoting growth and development in our youngest disciples.

CMIN 650 Administration of Children's Ministries 3 Credit Hours
Building upon biblical models of leadership and extracting principles and practices from contemporary examples of efficient and effective management, this course will provide the children's minister with the tools necessary to administer a program for church, school, camp, or club, etc.

CMIN 660 Resources for Children's Ministries 3 Credit Hours
Children's ministers today must equip and provide themselves with the necessary 'tools of the trade.' This course will expose the student to a wide-range of ministry resources and tools - from curricular plans to ministry programs to equip and prepare ministers for their service to children.

CMIN 698 Children's Ministry Practicum 1-3 Credit Hours
CMIN 698 - Children's Ministry Practicum (1 to 3 hours)

Christian Leadership (LEAD)

LEAD 505 Church Administration 3 Credit Hours
A study of administrative principles and practices for the local church. The course examines staff, finances, buildings, and public relations in churches and integrates material from both religious and secular sources.

LEAD 510 Biblical Foundations of Leadership 3 Credit Hours
This course explores the topic of leadership from a biblical and theological perspective. Essential biblical principles bearing on the purpose and character of leadership will be examined. Instances of leadership in the Old and New Testaments will be analyzed within their biblical context, and in terms of contemporary understanding of leadership, with a special focus on the leadership of Jesus Christ as seen in the New Testament.

LEAD 520 The Life of Leaders 3 Credit Hours
This course will explore the lives of great leaders throughout history. Leadership is not a distinctively Christian practice. Leadership is found in all segments of society and culture. Thus, this course will explore the personal lives, traits, practices and disciplines of leaders in various sectors of cultural history including religious leaders, political leaders, military leaders, and business leaders. Specific attention will be given to the process of interpreting leadership from a distinctively organizational perspective, as performed by great leaders, and applying these leadership lessons into an organic perspective of Christian leadership in ministry. (Formerly CLED 520)

Offered: Online

LEAD 610 Team Leadership and Conflict Resolution 3 Credit Hours
This course will focus on building and sustaining decision making teams, mentoring, delegating, resolving conflict, and handling and overcoming opposition. Extensive time will also be devoted to improving the individual’s and the group’s repertoire of styles of communication skills with a view of functioning more effectively and efficiently as a team leader in handling routine and crisis situations.

Offered: Online

LEAD 620 Mission, Vision, and Strategic Planning 3 Credit Hours
This course prepares the student for strategic planning in various ministry settings. It will also equip the student to cast a vision and mission for their church or parachurch organization. The student will examine core biblical passages and create a clear vision/mission/values statement. (Formerly DSMN 620)

LEAD 625 Preventing Ministry Failure 3 Credit Hours
This class will help the student (and their spouse) better prepare themselves for the rigors of 21st century ministry, avoid common pitfalls, and prevent potential problems. It will deal with such significant issues as setting realistic expectations, dealing with church boards, marriage, children, finances, burnt-out, stress, time management and more.

Offered: Online

Christian Leadership (CLED)

CLED 697 Seminar 1-3 Credit Hours

Offered: Resident

**LEAD 630 The Art of Developing Leaders**
A truly effective leader understands the relationship between the organization's success and the ability to develop other leaders within the organization. This course will examine how leaders are recognized and developed. Skills necessary for mentoring others as leaders will be explored and developed.

**LEAD 635 Theology of Pastoral Ministry**
A study of the different phases of the daily work of the pastor. Attention is given to the call, character, leadership, and responsibilities of the pastor. Opportunities are also given for the student to practice methods of pastoral work.

**Offered:** Online

**LEAD 695 Directed Research in Leadership**
LEAD 695 - Directed Research in Leadership (1 to 6 hours)

**LEAD 697 Seminar in Leadership**
An intensive study in a specific subject of pastoral ministry. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

**LEAD 698 Practicum in Pastoral Leadership**
A practical field experience for international students in pastoral leadership under the supervision of an approved mentor. (Formerly PLED 698)

**LEAD 699 Internship in Pastoral Leadership**
Prerequisites: DSMN 500 and (EVAN 565 or EVAN 525) and (HOMI 500 or HOMI 501 or HOMI 601 or DSMN 601) and (LEAD 635 or PLED 635)

In order to complete this internship students must be currently working and/or serving in a local church. The church, mentor, and nature of involvement must be approved beforehand by the professor. Internship involves supervised work in an applied ministry setting. Students continue to apply, adapt, and improve their skills in specialized ministry situations. Students work under the supervision of a qualified pastor or deacon. Students must complete 150 hours of internship interaction with an average of 10 hours per week. 16 weeks.

**Offered:** Online

**Church History (CHHI)**

**CHHI 510 Survey of the History of Christianity**
3 Credit Hours
Presents a ‘big picture’ perspective on the history of Christianity. The focus is upon the major developments in Christian history from the earliest believers to the present. Includes an emphasis on the rich diversity of global Christianity. Attention will be paid to the major issues, persons, and developments that have shaped Christianity.

**CHHI 520 History of Christianity I**
3 Credit Hours
A study of the first fifteen centuries of historical Christianity. Includes the rise of the church under persecution, orthodoxy vs. heresy, doctrinal developments, the rise of the Roman Papacy and opposition to it during the Middle Ages, and the events leading up to the Protestant Reformation.

**CHHI 525 History of Christianity II**
3 Credit Hours
A study of historical Christianity from the Sixteenth Century to the present. Includes the major personalities, events, and results of the Protestant Reformation, the rise of modern denominationalism, modern Roman Catholicism, the ecumenical movement and current developments. Special attention is given to the development of American Christianity.

**CHHI 610 Historical Development of Christian Theology**
3 Credit Hours
Prerequisites: CHHI 520 or CHHI 525 or CHHI 510
The doctrinal development of the early church fathers and the Greek apologists, the doctrinal construction in the Nicene and post-Nicene period, and the further development and divisions in the Middle Ages, the Reformation Period, and the Modern Era.

**Offered:** Resident and Online

**CHHI 620 History of Global Christianity**
3 Credit Hours
This course explores the historic expansion of global Christianity from the first century to the present day. Attention will be given to cultural contexts, key personalities, and movements that contributed to the spread and identity of global Christianity. (Formerly CHHI 657)

**Offered:** Resident and Online

**CHHI 635 Patristic and Ancient Heresy**
3 Credit Hours
Prerequisites: CHHI 520 or CHHI 510
A study of the rise of the Christian movement through the first six centuries (A.D. 30-600). Includes periods of persecutions, heretical developments and attempts to preserve doctrinal purity, the determination of the canon, ecclesiastical developments, the union of church and state, the role of church councils, and the expansion of the authority of the bishop of Rome.

**CHHI 650 Classical Reformation**
3 Credit Hours
Prerequisites: CHHI 525 or CHHI 510
A study of the magisterial phase of Protestant Reformation, especially as promoted in Germany, Switzerland, Scotland and England. Special emphasis will be placed on one of its major personalities: Luther, Zwingli, Calvin, Knox or the Anglicans and Puritans. (Formerly CHHI 654)
CHHI 655 Free Church History and Thought  3 Credit Hours

Prerequisites: CHHI 525 or CHHI 510

A survey of the background, development, personalities, issues and results of the Anabaptist phase of the Reformation of the Sixteenth Century and its particular impact on the rise of the English Baptists. (Formerly CHHI 685)

CHHI 660 American Christianity  3 Credit Hours

Prerequisites: CHHI 510 or CHHI 525

A study of the beginnings of Christianity in America to the present. Includes the European background, colonial Christianity, the first Great Awakening, the rise of the United States, the separation of church and state, the second Great Awakening, the development of religious diversity, the impact of the Civil War on religion, denominational development, the impact of immigration and industrialization, and the modern period. (Formerly CHHI 692)

CHHI 665 History of Baptists  3 Credit Hours

Prerequisites: CHHI 525 or CHHI 510

A survey of the background and rise of English Baptists, including their progress from the seventeenth century in England until the present day. Includes a survey of the rise of Baptists in America in the seventeenth century and their progress to the present. Includes various Baptist groups, large and small, of differing theological persuasions, denominational and independent. (Formerly CHHI 694)

CHHI 670 History of Evangelicalism  3 Credit Hours

Prerequisites: CHHI 510 or CHHI 525

This course is designed to explore the development of Evangelicalism in the 20th century. This course includes the major issues that gave rise to Evangelicalism, such as its background, beliefs, and major personalities, the development of the Evangelical movement in America in the 20th century, fundamentalism, and the current state of Evangelicalism today. (Formerly CHHI 686)

CHHI 695 Directed Research  1-3 Credit Hours

CHHI 695 - Directed Research (1 to 3 hours)

CHHI 697 Seminar in Church History  3 Credit Hours

An intensive study in a specific subject of Church History. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Church Ministries (CHMN)

CHMN 500 Foundational Leadership Models for Next Generation Ministry  3 Credit Hours

This course explores the necessary skills and competencies for leading next generation ministry. It will introduce current and developing models in response to current cultural issues in the context of local church ministry.

Offered: Online

CHMN 510 Issues and Trends in Next Generation Ministry  3 Credit Hours

This course explores the cultural trends and issues impacting the current generation of children, adolescents, and their families. Current and developing trends will be evaluated from theological and sociological perspectives in the context of local church ministry.

Offered: Online

CHMN 520 Making Disciples for the Next Generation Ministry  3 Credit Hours

This course focuses on the nature and mandate of the Great Commission and with specific application to next generation ministry. It will guide students in developing effective and insightful models for making disciples among children and adolescents in partnership with their families and connected to the larger mission of the local church.

Offered: Online

CHMN 679 Capstone  3 Credit Hours

Prerequisites: APOL 500 and CHHI 510 and DSMN 500 and EVAN 525 and GLST 650 and HOMI 500 and LEAD 510 and NBST 515 and NBST 610 and OBST 515 and PACO 500 and RTCH 500 and THEO 525 and THEO 650

This course will require students to resource knowledge acquired from the entirety of coursework completed in the MDIV degree program. The core competencies and knowledge from each major area of the degree will be resourced in a comprehensive project that outlines a broad understanding in divinity.

Registration Restrictions: Must have completed 50 hours of the program which will include all Core Courses.

Offered: Resident and Online

CHMN 699 Internship  3 Credit Hours

Prerequisites: APOL 500 and CHHI 510 and DSMN 500 and EVAN 525 and GLST 650 and HOMI 500 and LEAD 510 and NBST 515 and NBST 610 and OBST 515 and PACO 500 and RTCH 500 and THEO 525 and THEO 650

In order to complete this internship, students must be currently working and/or serving in a local church. The church, mentor, and nature of involvement must be approved beforehand by the professor. Internship involves supervised work in an applied ministry setting. Students continue to apply, adapt, and improve their skills in specialized ministry situations. Students work under the supervision of a qualified church leader. Students must complete a minimum of 150 hours of internship approved by the professor.

Registration Restrictions: Must have completed 24 hours of coursework.
Communication Studies (COMS)

COMS 520 Communication Theory and Practices 3 Credit Hours
Intensive study of current theories, research, and trends in communication.

COMS 522 Interpersonal Communication Theory and Practice 3 Credit Hours
Analysis of theories and practices in interpersonal communication in such areas as self-concept, gender, culture, language, paralanguage, and competence in interpersonal relationships.

COMS 524 Small Group and Team Communications 3 Credit Hours
An analysis of theories, research, and practice of small group communication in various contexts.

COMS 526 Investigative Storytelling 3 Credit Hours
Investigative journalism in the digital age.

COMS 532 Media Technologies and Communication Strategies 3 Credit Hours
This course examines established and emerging media technologies used by various organizations in communicating specific messages to diverse audiences.

COMS 534 Strategic Media Analysis 3 Credit Hours
Analysis of the use of sight and sound to affect audiences.

COMS 542 Communication in Christian Ministry 3 Credit Hours
A practical and theoretical course designed to strengthen communication competencies of students in the Christian ministry environment. Concepts of communication theory are applied to ministry contexts.

COMS 546 Effective Social Media 3 Credit Hours
Using social media platforms to build a competitive advantage. Involves extensive integration and application of social media technologies.

COMS 550 Creativity in Teaching Communication 3 Credit Hours
The theories and skills necessary to manage communication in the education or training environment. (Required for all graduate teaching assistants.)

COMS 552 Leadership Communication 3 Credit Hours
An examination of leadership practice and theory. Students will analyze and discuss the role of communication in leadership practices and theory in personal and professional contexts.

COMS 554 Strategies and Tactics of Persuasion 3 Credit Hours
A practical application of current rhetorical, psychological and sociological theories of persuasion designed to facilitate understanding and change of attitudes, beliefs, and behaviors in various contexts including media, marketing, public relations, politics, and education.

COMS 558 Listening and Nonverbal Communication 3 Credit Hours
An analysis of theories and research of 1) listening and factors that influence competence and 2) various modes of nonverbal communication. Emphasis on skill development in both areas.

COMS 560 Communication and Conflict 3 Credit Hours
Analysis of theories and research of the role of communication in conflict in interpersonal, group, organizational, and societal contexts.

COMS 562 Web Strategies for Growth 3 Credit Hours
Developing the ability to grow organizations through online market-making and strategy. Hands-on experience with radical new digital and interactive tools for achieving relationships and spreading ideas.

COMS 597 Seminar in Communications (Gra 3 Credit Hours

COMS 612 Rhetorical Theory and Criticism 3 Credit Hours
An examination of the major contributions to rhetorical theory and their critical application in the assessment of symbols in human communication.

COMS 622 Organizational Communication 3 Credit Hours
Analysis of theories and practices that assist individuals in success in organizations. Students develop the ability to add value to employing organizations and enhance individual careers.

COMS 624 Intercultural Communication 3 Credit Hours
Analysis of theories and research of communication between people from various generational, racial, ethnic, regional, and international cultures.

COMS 630 Professional Communication & Nonprofit Development 3 Credit Hours
Explores the communicative preparation and planning for community relations and develops corporate communication functions to lead motivate, persuade and inform various publics. Teaches theoretically based skills as communication professionals for management, development, crises, public relations in nonprofit and corporate organizations.

COMS 632 Politics and Media 3 Credit Hours
An overview of the historic and current interaction between media and politics and an examination of potential effects. Students will develop and design a practical application.

Offered: Resident
COMS 639 The Transmedia Organization 3 Credit Hours
Principles and practice to strategically manage digital interactive and Transmedia organizations.

COMS 640 Event Planning & Donor Relations 3 Credit Hours
Focuses on designing theoretical communicative approaches for implementation in specific contexts such as conferences, professional meetings, celebratory events, and programs for community outreach. Working from a praxis approach, students engage the development of the marketplace through professional, interpersonal, and organization coordination of information and people.

COMS 652 Organizational Communication Consulting 3 Credit Hours
Analysis of theories and research of consulting practices within organizations. Emphasis on establishing a consultant-client relationship, the investigation of communication within an organization, the design of descriptive evaluations and prescriptive applications, the development and presentation of written and oral proposals, and the facilitation of seminars, workshops, and other activities.

COMS 656 Media Strategies 3 Credit Hours
A study of the historic and futuristic uses of mass communication. Students will design strategies for potential applications of print and electronic media.

COMS 658 Strategic Communication Campaigns for the Digital Age 3 Credit Hours
An exploration of the use of integrated marketing communication for strategic movement of organizations, products, and services toward growth.

COMS 670 Comprehensive Examination 3 Credit Hours
The comprehensive exam is a written examination with a practical component and serves as a culminating activity for the MA in Strategic Communication. Student's comprehensive exam will be based on courses taken in their academic program.

Registration Restrictions: At least 27 hours of required courses must be completed before the student may register for the course.

COMS 680 Communication Research Design 3 Credit Hours
The study and practice of the research design, interpretation, and evaluation of audiences, strategies, and issues.

COMS 689 Thesis/Project Proposal and Research 3 Credit Hours
Research and information-gathering.

COMS 690 Thesis Defense 3 Credit Hours
Intended to demonstrate a student's ability to carry out original research using one of three class research methods: historical-critical (qualitative), descriptive (qualitative and quantitative), or experimental (quantitative). Thesis may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field.

COMS 691 Project 3 Credit Hours
Project may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field. Demonstrates the ability of a student to conduct research and exhibit expertise in communication.

COMS 695 Directed Research 1-3 Credit Hours

COMS 695 - Directed Research (1-3 hours)

Offered: Resident

COMS 697 Special Topics 3 Credit Hours
Topics of special interest not included in the regular department offerings. May be taken more than once, but no topic may be repeated.

COMS 698 Communication Practicum 1-3 Credit Hours

Offered: Resident

COMS 699 Internship 3-6 Credit Hours
Offers students supervised, on-site training in the marketplace.

Computer Science (CSCI)

CSCI 501 Overview of Computer Security 3 Credit Hours
This course surveys major topics in Computer and Network Security.

Note: Admission into program.

CSCI 511 Digital Forensics 3 Credit Hours
This course covers the basics of digital forensics, including the technical aspects of evidence gathering for legal testimony and usage of digital forensics tools.

Note: Admission into program.

CSCI 561 Ethics, Legal Issues, and Policy 3 Credit Hours
This course covers ethical issues in computer and network security, legal issues, and business policy. It will teach students what the laws are concerning computer and network security, including the legal boundaries for breaking into systems without authorization. It will also cover the issues related to creating security policies for organizations, as well as the ethical responsibilities of protecting network and computer systems, and the ethical boundaries related to accessing other organizations systems.

Note: Admission into program.
CSCI 601 Applied Network Security 3 Credit Hours

Prerequisites: CSCI 501

In this course the students will learn hands on, practical techniques for securing a network. Topics include installing, configuring and using Intrusion Detection software, firewalls, anti-virus, etc.

CSCI 605 Applied Cryptography 3 Credit Hours

Prerequisites: CSCI 601

This course covers topics in modern cryptography with an emphasis on learning how to implement cryptographic protocols using mainstream cryptographic libraries such as OpenSSI.

Offered: Online

CSCI 611 Secure Software Engineering 3 Credit Hours

Prerequisites: CSCI 501

This course is primarily concerned with how to write secure software, including common pitfalls in major languages.

CSCI 612 Security Engineering 3 Credit Hours

Prerequisites: CSCI 501

This course covers issues related to validation and verification of the security of the software.

CSCI 620 Issues in Security, Privacy, and Anonymity 3 Credit Hours

Prerequisites: CSCI 501 and (CSCI 502 or CSCI 605)

This course covers security and privacy issues that arise in the field and how to mitigate them, including privacy of data, privacy preserving data mining, routing security, sensor network security, anonymous routing, and social networking.

CSCI 631 Web Security 3 Credit Hours

Prerequisites: CSCI 601

This course deals with web security issues, such as SQL injection and cross site scripting along with how to defend and protect against such attacks.

CSCI 632 Ethical Hacking 3 Credit Hours

Prerequisites: CSCI 601

This course goes into the how and why of ethical hacking, and how it is used to strengthen security of systems, including issues in penetration testing, such as physical security and social engineering.

CSCI 651 Advanced Topics in Computer Security 3 Credit Hours

Prerequisites: CSCI 601

A study of advanced technical challenges in cyber security as the field continues to evolve. Current developments in the industry and research advances will dictate specific areas of emphasis in the course per semester.

Offered: Online

CSCI 681 Capstone Project 3 Credit Hours

The capstone is an opportunity for the student to demonstrate the Cyber Security skills gained throughout the program. The student will learn how to apply the tools, techniques, and knowledge gained throughout the program in a practical, real world setting. The goal for this course is to evaluate the knowledge and skills gained by students in the Cyber Security program.

Registration Restrictions: Final Semester.

Offered: Online

Computer Science Information Systems (CSIS)

CSIS 505 Software Development 3 Credit Hours

Prerequisites: Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201 / BUSI230/hi/ equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS 312 or equivalent with a score of 3 and Meets CSIS330 / CSIS331 / equiv with a score of 3

This course is an in-depth study of the general-purpose, secure, object-oriented, portable programming language Java. Students will learn to program in Java using advanced features in Java to create stand-alone applications and applications for the World Wide Web using Java. The Java language concepts learned will be data types, operators, flow control statements, objects, classes, methods, arrays, inheritance, polymorphism, strings, characters, regular expressions, generic collections, recursion, and custom generic data structures.

Offered: Online
CSIS 525 Database Design and Development 3 Credit Hours

Prerequisites: CSIS 505 and Meets BMAL90 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201 / BUSI230 / hi / equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS 312 or equivalent with a score of 3 and Meets CSIS 330 / CSIS 331 / equiv with a score of 3 or (INFO 505 and Meets BMAL90 / 27 hrs in BUSI with a score of 3 and Meets MATH 121 / hi / equiv with a score of 3 and Meets MATH 201 / BUSI230 / hi / equiv with a score of 3 and Meets BIOL102 / HLTH221 / equiv with a score of 3)

Focused on the advanced design and development of databases, students will learn how to architect data storage solutions that are highly dynamic and scalable to meet the rapidly changing needs of business. Areas will include, but are not limited to, client-server processing, parallel processing, distributed, and multidimensional databases. Students will learn how to design database management systems that scale to meet the needs of rapidly changing and competitive business environments.

Offered: Online

CSIS 535 Computer Networks 3 Credit Hours

Prerequisites: Meets BMAL90 / 27 hrs in BUSI with a score of 3 and Meets MATH121 or higher with a score of 3 and Meets MATH201 / BUSI230 / hi / equiv with a score of 3 and Meets CSIS 212 or equivalent with a score of 3 and Meets CSIS 312 or equivalent with a score of 3 and Meets CSIS 330 / CSIS 331 / equiv with a score of 3

Concentrated on computer networks, students will learn the fundamentals of networking, network management, and network design. Areas will include, but are not limited to, the abstraction layers of network communication, wireless networks, mobile networks, network security, network architecture, basic network design, and network management. Students will learn how to analyze and build basic computer network designs that meet the needs of changing business environments.

Offered: Online

CSIS 641 Software Development Management 3 Credit Hours

Prerequisites: CSIS 505

This course will cover some of the challenges associated with software development management and is intended to serve as a guide to students maturing engineering discipline. Software succeeds when it meets the needs of the people who use it, performs flawlessly over a long period, is easy to modify, and changes things for the better. Therefore, students will explore software development from a managerial perspective by learning the software process models, modeling, quality management, and managing software projects. This course teaches students how to build better software based on discipline and modern methods, which is acquired through an engineering approach. Discussion of advanced topics such as software process improvement and future software engineering trends will be addressed.

Offered: Online

CSIS 643 Software Design 3 Credit Hours

Prerequisites: CSIS 505 and CSCI 611

In this course, the student will be introduced to the architectural design of complex software systems and explore how to successfully design complex software systems. Software system design requires an individual to be able to describe, evaluate, and create systems at an architectural level of abstraction. Therefore, this course considers commonly-used software system structures, techniques for designing and implementing these structures, models, and formal notations for characterizing and reasoning about architectures, tools for generating specific instances of an architecture, and case studies of actual system architectures. Students will learn the skills and background needed to properly evaluate the architectures of existing systems and to design new systems in principled ways using well-founded architectural paradigms.

Offered: Online

CSIS 651 Network Architecture and Design 3 Credit Hours

Prerequisites: BMIS 662 and CSCI 601

This course provides an in-depth analysis of network architecture models that are designed to support business strategies in a changing environment. It addresses optimization of network functionality including resilience, modularity, security, virtualization, management, and topology design.

Offered: Online

CSIS 657 Statistical Analysis and Data Mining 3 Credit Hours

Prerequisites: CSIS 505 and CSIS 525

This course provides an in-depth study of the field of statistical analysis and data mining as it relates to real-world applications. It explores the complexities of data mining algorithms, software tools, and techniques employed in modern analytics and massive data sets. The selection, application, and evaluation of statistical approaches are examined in the context of data mining.

Offered: Online

CSIS 690 Integrated Capstone 3 Credit Hours

Prerequisites: (BMIS 520 and BMIS 530 and BMIS 570 and CSIS 525 and CSIS 535 and CSIS 641 and CSIS 643 and CSIS 657) or (BMIS 520 and BMIS 530 and BMIS 570 and BMIS 662 and CSIS 525 and CSIS 535 and CSIS 651 and CSIS 657)

The capstone is an opportunity for the students to demonstrate their analytical, design, research, and management skills to solve a specific problem outlines within current information technology literature. Students will validate their abilities to develop effective information technology solutions through a thesis project that addresses a complex issue within this field. If completed successfully, the capstone project signifies the completion of the information technology program.

Offered: Online
Counseling (CEFS)

CEFS 500 Orientation to Counselors Professional Identity and Function 3 Credit Hours

This course introduces students to concepts regarding the professional functioning of licensed professional counselors and marriage and family therapists, including history, roles, professional organizations, standards, and credentialing. Current issues in the practice of counseling and marriage and family therapy in a variety of professional settings are explored. Students are also introduced to program policies, graduate level writing and APA style.

Offered: Online

CEFS 501 Ethical and Legal Issues in Counseling 3 Credit Hours

This course introduces students to concepts regarding ethical and legal issues encountered by licensed professional counselors and marriage and family therapists, including ethical principles, professional codes of ethics, identifying and resolving ethical dilemmas, ethical decision-making models, and legalities of the profession. Current issues in therapeutic practice in a variety of professional settings are explored.

Offered: Online

CEFS 502 Human Growth and Development 3 Credit Hours

This course explores individuals throughout the lifespan in the areas of cognitive, personality, physical, and social development specifically through the examination of various theories. Understanding development crises, specific interventions, and optimal wellness are key content areas within this course. Additionally, this course provides a framework for understanding the impact of various situational, environmental, and sociocultural factors on individuals and their families and communities.

Offered: Online

CEFS 504 Multicultural Counseling 3 Credit Hours

This course focuses on the multiple dimensions related to competent multicultural counseling. Major ethnic groups are studied along with the counseling, social justice, and advocacy approaches appropriate to each. In a similar fashion, the overarching cultural context of relationships, including factors such as age, race, gender, sexual orientation, religious and spiritual values, mental and physical characteristics, education, family values, socioeconomic status, and within group as well as between group cultural differences are examined. Theories of multicultural counseling, identity development, pluralistic trends, and systems-oriented intervention strategies (couple, family, group, and community) are considered. Counselor cultural self-awareness and the role of counseling in eliminating biases, prejudice, oppression, and discrimination are emphasized.

Offered: Online

CEFS 505 Counseling Techniques and the Helping Relationship 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502)

This experiential and didactic course provides students an understanding of effective interventions from individual, relational, and systems perspectives. Students also examine personal characteristics and their effect on individual, couple, and family counseling using case discussion and analysis.

Offered: Online

CEFS 506 Integration of Spirituality and Counseling 3 Credit Hours

Prerequisites: CEFS 501 or COUN 501 or MAAC 501

Students critically examine how a Christian worldview and a client's spirituality impact the assessment, diagnosis, and treatment planning process in counseling. Ethical, diagnostic, and assessment issues relevant to the use of Christian spiritual interventions with appropriately religious individuals, couples, and families are considered, along with current research related to spirituality and counseling.

Offered: Online

CEFS 507 Theology and Spirituality in Counseling 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501)

An examination of the content, comprehensiveness, and validity of several counseling theories that have been developed by prominent Christian counselors.

Offered: Online

CEFS 510 Theories of Counseling 3 Credit Hours

Prerequisites: CEFS 501 or COUN 501 or MAAC 501

This course provides in-depth exploration of selected theories of counseling and psychotherapy, including empirically supported treatment modalities. Through this course, students learn about the nature and process of therapy, and begin to learn how to conceptualize client presentations and select appropriate interventions while considering issues of diversity. Students are encouraged to begin to define their own theoretical approach to their work with individuals, couples, and families.

Offered: Online
CEFS 512 Group Counseling  3 Credit Hours
Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510)

The course provides in-depth training in group counseling methods including group counselor orientations and behaviors, group theories, principles of group dynamics, group process components, developmental stages of groups, group members' roles and behaviors, therapeutic factors of group work, and program design and evaluation. Group counseling skills, appropriate selection criteria and methods, as well as leadership approaches, characteristics, and styles are studied. Ethical and legal considerations of group counseling are also explored. An experiential component is required in this course where students participate in small groups as members and/or leaders for a minimum of 10 clock hours.

Offered: Online

CEFS 515 Research and Program Evaluation  3 Credit Hours
Prerequisites: Statistical Prereq Met with a score of 3 and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 505 or COUN 505 or MAAC 505 or ADCN 505)

Students learn the importance of scientific inquiry in the fields of clinical mental health counseling and marriage and family therapy. Emphasis is on research methods (designs, statistical analysis, needs assessment, and program evaluation) and locating, interpreting, and evaluating research and program evaluation articles that inform evidence-based practice. Ethical and cultural relevance as well as ethically appropriate integration is also addressed.

Offered: Online

CEFS 521 Assessment Techniques in Counseling  3 Credit Hours
Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 505 or COUN 505 or MAAC 505 or ADCN 505)

This course is designed to provide an understanding of individual and group approaches to assessment and evaluation in a multicultural society. Comprehension and application of basic concepts of standardized and nonstandardized testing and other assessment techniques, including norm-referenced and criterion-referenced assessment, environmental assessment, performance assessment, inventory methods, psychological testing, and behavioral observations are examined. Social and cultural factors related to the assessment and evaluation of individuals, groups, and specific populations are discussed. Identification of applicable ethical strategies for selecting, administering, and interpreting assessment and evaluation instruments and techniques in counseling are evaluated.

Offered: Online

CEFS 522 Career Development and Counseling  3 Credit Hours
Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510)

This course provides students an understanding of career development and related life factors. Students study career development theory and decision-making models, procedures for planning and conducting effective job searches, assessment instruments and techniques relevant to career planning and decision-making, and the use of career information. Emphasis is placed on understanding the interrelationships between career development and career decision-making and such factors as faith, values, personality, family, socio-economic status, leisure, individual interests and abilities, and other life roles.

Offered: Online

CEFS 546 Psychopathology  3 Credit Hours
Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 505 or COUN 505 or MAAC 505 or ADCN 505)

This course studies psychological disorders and normalcy across the lifespan. Students are prepared to responsibly and competently assess, diagnose, conceptualize, and counsel clients as defined by the Diagnostic Statistical Manual classification system. Concepts and constructs, assessment processes, etiology, cultural factors, differential diagnosis, decision-making, and evidence-based therapeutic approaches are emphasized. Clinical and scientific research is integrated through the course with a biblical worldview so that students will have a robust biopsychosocial-spiritual lens to understand and treat mental disorders.

Offered: Online

CEFS 601 Theories of Family Systems  3 Credit Hours
Prerequisites: (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 505 or COUN 505 or MAAC 505 or ADCN 505)

This course considers the dynamics of marriage and family relationships from a systems perspective. The emphasis is on understanding family and other systems theories, the structure and function of marriage, various aspects of the marital relationship and family systems, and models of family and systemic interventions. Considerations from a historical perspective are presented along with current developments within marriage and family systemic models. Students will engage in critical thinking regarding the application and integration of spirituality within marriage and family counseling.

Offered: Online
CEFS 602 Assessment, Diagnosis, and Treatment Planning in Marriage and Family Counseling 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 546 or MAAC 646 or COUN 646) and (CEFS 601 or MAAC 601 or COUN 601)

This course is an experiential exploration of selected, major treatment approaches utilized in marital and family counseling. The development of practical skills and techniques constitutes the primary focus. The intent is to make practical application of systemic theories presented in CEFS 601. Students will have significant engagements in assessment, diagnosis, and treatment planning through role-play of clinical practice with various marriage and family counseling methods. Additionally, the impact of addiction, crisis, disasters, and other trauma-causing events on diagnosis and treatment planning in marriage and family counseling will be addressed. Students will learn to apply systemic interventions as treatment for various mental health problems that occur with individuals, couples, and families.

Offered: Online

CEFS 603 Advanced Couple & Marital Counseling 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 521 (may be taken concurrently) or MAAC 521 or COUN 521) and (CEFS 546 or MAAC 646 or COUN 646) and (CEFS 601 or MAAC 601 or COUN 601 or CMHC 601)

This course introduces students to evidence-based protocols for couple and marital counseling. Advanced skill work in formalized assessment and couples counseling techniques highlight the elements of this course. Students will develop effective couple and marital case conceptualizations and apply effective treatment interventions to various problems couples may experience. This course also incorporates a focus on pre-marital assessment and counseling.

Offered: Online

CEFS 604 Crisis Counseling 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 522 or COUN 522) and (CEFS 546 or MAAC 646 or COUN 646)

This course provides students with foundational knowledge of the impact of crises, disasters, and other trauma-causing events on people as well as the principles of crisis intervention for people during crises, disasters, and other trauma-causing events. The appropriate use of diagnosis during crisis, disaster, or other trauma causing events and the differentiation between diagnosis and developmentally appropriate reaction during crises, disasters, and other trauma-causing events will be examined. Students will learn specific crisis intervention practices, including procedures for assessing and managing suicide risk, suicide prevention models, and the use of psychological first aid strategies. The counselors’ roles and responsibilities as members of an interdisciplinary emergency management response team during a crisis, disaster or other trauma-causing event and the operation of emergency management systems will be studied.

Offered: Online

CEFS 605 Community and Agency Counseling 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 522 or COUN 522) and (CEFS 546 or MAAC 646 or COUN 646)

This course provides an overview of the theory and practice of counseling in human services agencies and other community settings. Emphasis is given to principles and practices of community outreach, intervention, education, consultation, and client advocacy in multicultural settings.

Offered: Online

CEFS 607 Counseling Individuals with PTSD/Combat-Related PTSD 3 Credit Hours

Prerequisites: (COUN 646 or MAAC 646 or CEFS 546) and COUN 598 and (COUN 500 or CEFS 500 or Meets COUN 500 Requirement with a score of 5)

As shown throughout recorded history, individuals at times are tested by As shown throughout recorded history, individuals at times are tested by As shown throughout recorded history, individuals at times are tested by various types of trauma beyond what they may process, leading to what currently is termed Post-traumatic Stress Disorder (PTSD). This course will examine in-depth the causes, symptoms and treatments of PTSD and Combat-related PTSD, taking into account the latest research in the field and examining the affective, behavioral, cognitive and spiritual challenges faced by survivors.

Registration Restrictions: 18 Hours in Graduate Counseling course work including CEFS 546.

Offered: Online
CEFS 608 Counseling Survivors of Sexual Trauma 3 Credit Hours

Prerequisites: (COUN 646 or MAAC 646 or CEFS 546) and COUN 598 and (COUN 500 or CEFS 500 or Meets COUN 500 Requirement with a score of 5)

This course is an advanced study of various types of sexual trauma, (childhood sexual abuse, sexual assault, sex trafficking, prostitution, etc.) including causes, effects on various populations and options for counseling solutions from both Christian and traditional professional perspectives. It will assist the student in understanding the potential intervention options that may be used to deal with post-trauma situations encountered in a professional or personal capacity. An understanding of the theoretical foundation as well as an overview of general and position dependent intervention strategies are central.

Registration Restrictions: 18 Hours in Graduate Counseling course work including CEFS 546.

Offered: Online

CEFS 609 Counseling Survivors of Violence 3 Credit Hours

Prerequisites: COUN 646 or CEFS 546 or MAAC 646

This course is an advanced study of the effects of trauma resulting from various forms of violence. Areas to be covered include domestic violence, terrorism, general crime-related, gang-related, school bullying, workplace violence, stalking, hate crimes, and substance initiated violence. In addition to precipitating causes and their effect on various populations, options for counseling solutions from both Christian and traditional professional perspectives will be examined. An understanding of the theoretical foundation as well as an overview of general and position dependent intervention strategies are central.

Registration Restrictions: 18 Hours in Graduate Counseling course work including CEFS 546.

Offered: Online

CEFS 610 Human Sexuality 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510)

An analysis of the physiological, psychological, cultural, and religious aspects of a wide range of topics in the area of human sexuality. Emphasis is on the development of an understanding and appreciation of the role of sexuality in individuals, couples, and families throughout the various phases of the life cycle.

Offered: Online

CEFS 611 Counseling Children and Their Families 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 522 or COUN 522) and (CEFS 546 or MAAC 646 or COUN 646)

The developmental and psychological needs and problems of children are examined through the analysis of personality types and family structure. Counseling techniques (e.g. play therapy) for children are also examined.

Offered: Online

CEFS 620 Counseling Children, Adolescents, and Their Families 3 Credit Hours

Prerequisites: (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 546 or MAAC 646 or COUN 646)

This course examines the developmental and psychological needs and problems of children, to include the transition to adolescence. Coursework emphasizes parenting, family, social, spiritual/moral, and physical issues. Counseling theories and evidence-based interventions provide foundational skills for working with children, adolescents, parents, and their families. This course will also address the impact of crisis and trauma events on children and families.

Offered: Online

CEFS 625 Psychopharmacology and Counseling 3 Credit Hours

Prerequisites: (COUN 501 or MAAC 501 or CEFS 501) and (COUN 502 or CEFS 502) and (COUN 503 or CEFS 503 or COUN 515) and (COUN 510 or MAAC 510 or CEFS 510) and (COUN 512 or CEFS 512) and (COUN 601 or MAAC 601 or CEFS 601) and (COUN 500 or CEFS 500 or Meets COUN 500 Requirement with a score of 5)

This course is designed to teach the prospective counselor about the history and development of psychopharmacologic agents, the biochemical nature of the central nervous system and its relationship to psychopharmacology. The legitimate use of medications and their importance for treatment are also examined.

Offered: Online
CEFS 630 Gerontology and Counseling  
**Prerequisites:** (COUN 501 or MAAC 501 or CEFS 501) and (COUN 502 or CEFS 502) and (COUN 504 or MAAC 504 or CEFS 504) and (COUN 505 or CEFS 505) and (COUN 510 or MAAC 510 or CEFS 510) and (COUN 512 or CEFS 512) and (COUN 515 or MAAC 515 or CEFS 515 or CEFS 503 or COUN 503) and (COUN 521 or MAAC 521 or CEFS 521) and (COUN 522 or CEFS 522) and (COUN 646 or MAAC 646 or CEFS 546) and (COUN 667 or CEFS 667) and (COUN 500 or CEFS 500 or Meets COUN 500 Requirement with a score of 5) 

This course acquaints the counselor with the issues and problems unique to the elderly in American society. Topics such as suffering, societal attitude, and family structure are examined. 

**Offered:** Online

---

CEFS 667 Clinical Diagnosis and Treatment Planning  
**Prerequisites:** (CEFS 500 or COUN 500) and (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 522 or COUN 522) and (CEFS 546 or MAAC 646 or COUN 646) 

Students become knowledgeable of the principles and practice of clinical diagnosis and the development of treatment plans using the current edition of the Diagnostic and Statistical Manual. Emphasis is also placed on mental status, substance use, and risk assessment. Consideration is given to ethical, dimensional, relational, multicultural, and systemic issues important in diagnosis and treatment planning.

---

CEFS 691 Substance Abuse: Diagnosis, Treatment and Prevention  
**Prerequisites:** (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505) and (CEFS 510 or MAAC 510 or COUN 510) and (CEFS 512 or COUN 512) and (CEFS 515 or MAAC 515 or COUN 515) and (CEFS 521 or MAAC 521 or COUN 521) and (CEFS 522 or COUN 522) and (CEFS 546 or MAAC 646 or COUN 646) and (CEFS 505 or COUN 505 or MAAC 505 or ADCN 505) 

A course designed to introduce the student to current counseling and treatment techniques for substance abuse. Emphasis is placed on etiological factors, physiological and psychological effects, and related behaviors. 

**Offered:** Online

---

CEFS 695 Directed Research in Counseling  
**Prerequisites:** (CEFS 501 or MAAC 501 or COUN 501) and (CEFS 502 or COUN 502) and (CEFS 504 or MAAC 504 or COUN 504) and (CEFS 505 or COUN 505 or MAAC 510 or COUN 510) and (CEFS 546 or MAAC 646 or COUN 646) and (CEFS 505 or COUN 505 or MAAC 505 or ADCN 505) 

Designed for advanced students in good standing who have demonstrated an ability to work on their own. Students will work with the instructor in developing a proposal for guided research in a specified area of counseling. 

**Offered:** Online
Counseling (COUC)

COUC 500 Orientation to Counselor Professional Identity and Function 3 Credit Hours

This course introduces students to concepts regarding the professional functioning of licensed professional counselors and marriage and family therapists, including history, roles, professional organizations, standards, and credentialing. Current issues in the practice of counseling and marriage and family therapy in a variety of professional settings are explored. Students are also introduced to program policies, graduate level writing and APA style.

Offered: Resident and Online

COUC 501 Ethical and Legal Issues in Counseling 3 Credit Hours

This course introduces students to concepts regarding ethical and legal issues encountered by licensed professional counselors and marriage and family therapists, including ethical principles, professional codes of ethics, identifying and resolving ethical dilemmas, ethical decision-making models, and legalities of the profession. Current issues in therapeutic practice in a variety of professional settings are explored.

Offered: Resident and Online

COUC 502 Human Growth and Development 3 Credit Hours

This course explores individuals throughout the lifespan in the areas of cognitive, personality, physical, and social development specifically through the examination of various theories. Understanding development crises, specific interventions, and optimal wellness are key content areas within this course. Additionally, this course provides a framework for understanding the impact of various situational, environmental, and sociocultural factors on individuals and their families and communities.

Offered: Resident and Online

COUC 504 Multicultural Counseling 3 Credit Hours

This course focuses on the multiple dimensions related to competent multicultural counseling. Major ethnic groups are studied along with the counseling, social justice, and advocacy approaches appropriate to each. In a similar fashion, the overarching cultural context of relationships, including factors such as age, race, gender, sexual orientation, religious and spiritual values, mental and physical characteristics, education, family values, socioeconomic status, and within group as well as between group cultural differences are examined. Theories of multicultural counseling, identity development, pluralistic trends, and systems-oriented intervention strategies (couple, family, group, and community) are considered. Counselor cultural self-awareness and the role of counseling in eliminating biases, prejudice, oppression, and discrimination are emphasized.

Offered: Resident and Online
COUC 505 Counseling Techniques and the Helping Relationship 3 Credit Hours

**Prerequisites:** (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502)

This course provides training in essential interview and counseling skills with an orientation towards wellness and prevention. Students will learn how personal characteristics and behaviors that influence the helping process as well as how counseling theory, including family systems, influences case conceptualization and interventions. Students will learn basic counseling skills for crisis intervention and suicide prevention and the role of the counselor in consultation.

**Offered:** Resident and Online

COUC 506 Integration of Spirituality and Counseling 3 Credit Hours

**Prerequisites:** (COUC 501 or COUN 501 or CMHC 501)

Students critically examine how a Christian worldview and a client’s spirituality impact the assessment, diagnosis, and treatment planning process in counseling. Ethical, diagnostic, and assessment issues relevant to the use of Christian spiritual interventions with appropriately religious individuals, couples, and families are considered, along with current research related to spirituality and counseling.

**Offered:** Resident and Online

COUC 510 Theories of Counseling 3 Credit Hours

**Prerequisites:** (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501)

This course provides in-depth exploration of selected theories of counseling and psychotherapy, including empirically supported treatment modalities. Through this course, students learn about the nature and process of therapy, and begin to learn how to conceptualize client presentations and select appropriate interventions while considering issues of diversity. Students are encouraged to begin to define their own theoretical approach to their work with individuals, couples, and families.

**Offered:** Resident and Online

COUC 512 Group Counseling 3 Credit Hours

**Prerequisites:** (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510)

The course provides in-depth training in group counseling methods including group counselor orientations and behaviors, group theories, principles of group dynamics, group process components, developmental stages of groups, group members’ roles and behaviors, therapeutic factors of group work, and program design and evaluation. Group counseling skills, appropriate selection criteria and methods, as well as leadership approaches, characteristics, and styles are studied. Ethical and legal considerations of group counseling are also explored. An experiential component is required in this course where students participate in small groups as members and/or leaders for a minimum of 10 clock hours.

**Offered:** Resident and Online

COUC 515 Research and Program Evaluation 3 Credit Hours

**Prerequisites:** (Statistic Prereq Met with a score of 3 or M.Ed. T&L: Student Svcs Cognate with a score of 5 or Education Counseling Gate 2 with a score of 5) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 501 or EDCE 501 or COSC 501) and (COUC 510 or COUN 510 or CMHC 510 or EDCE 505 or COSC 505)

Students learn the importance of scientific inquiry in the fields of clinical mental health counseling and marriage and family therapy. Emphasis is on research methods (designs, statistical analysis, needs assessment, and program evaluation) and locating, interpreting, and evaluating research and program evaluation articles that inform evidence-based practice. Ethical and cultural relevance is also addressed. (Formerly CMHC 503)

**Offered:** Resident and Online

COUC 518 Educational Research and Assessment 3 Credit Hours

Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.
COUC 521 Assessment Techniques in Counseling 3 Credit Hours

Prerequisites: (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510)

This course is designed to provide an understanding of individual and group approaches to assessment and evaluation in a multicultural society. Comprehension and application of basic concepts of standardized and nonstandardized testing and other assessment techniques, including norm-referenced and criterion-referenced assessment, environmental assessment, performance assessment, inventory methods, psychological testing, and behavioral observations are examined. Social and cultural factors related to the assessment and evaluation of individuals, groups, and specific populations are discussed. Identification of applicable ethical strategies for selecting, administering, and interpreting assessment and evaluation instruments and techniques in counseling are evaluated.

Offered: Resident and Online

COUC 522 Career Development and Counseling 3 Credit Hours

Prerequisites: (COUC 502 or EDUC 502 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 501 or COUN 501 or CMHC 501 or EDCE 501 or COSC 501) and (COUC 510 or COUN 510 or CMHC 510 or EDCE 505 or COSC 505)

The course provides students an understanding of career development and related life factors. Students study career development theory and decision-making models, procedures for planning and conducting effective job searches, assessment instruments and techniques relevant to career planning and decision-making, and the use of career information. Emphasis is placed on understanding the interrelationships between career development and career decision-making and such factors as faith, values, personality, family, socioeconomic status, leisure, individual interests and abilities, and other life roles.

Offered: Resident and Online

COUC 546 Psychopathology 3 Credit Hours

Prerequisites: (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510)

This course studies psychological disorders and normalcy across the lifespan. Students are prepared to responsibly and competently assess, diagnose, conceptualize, and counsel clients as defined by the Diagnostic Statistical Manual classification system. Concepts and constructs, assessment processes, etiology, cultural factors, differential diagnosis, decisions-making, and evidence-based therapeutic approaches are emphasized. Clinical and scientific research is integrated through the course with a biblical worldview so that students will have a robust biopsychosocial/spiritual lens to understand and treat mental disorders.

Offered: Resident and Online

COUC 560 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

COUC 601 Theories of Family Systems 3 Credit Hours

Prerequisites: (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510)

This course considers the dynamics of marriage and family relationships from a systems perspective. The emphasis is on understanding family and other systems theories, the structure and function of marriage, various aspects of the marital relationship and family systems, and models of family and systemic interventions. Considerations from an historical perspective are presented along with current developments within marriage and family systemic models. Students will engage in critical thinking regarding the application and integration of spirituality within marriage and family counseling.

Offered: Resident and Online

COUC 602 Assessment, Diagnosis, and Treatment Planning in Marriage and Family Counseling 3 Credit Hours

Prerequisites: (CMHC 500 or COUN 500 or COUC 500) and (CMHC 501 or COUN 501 or COUC 501) and (CMHC 502 or COUN 502 or COUC 502) and (CMHC 505 or COUN 505 or COUC 505) and (CMHC 510 or COUN 510 or COUC 510) and (CMHC 646 or COUN 646 or COUC 546)

This course is an experiential exploration of selected, major treatment approaches utilized in marital and family counseling. The development of practical skills and techniques constitutes the primary focus. The intent is to make practical application of systemic theories presented in COUC 601. Students will have significant engagements in assessment, diagnosis, and treatment planning through role-play of clinical practice with various marriage and family counseling methods. Additionally, the impact of addiction, crisis, disasters, and other trauma-causing events on diagnosis and treatment planning in marriage and family counseling will be addressed. Students will learn to apply systemic interventions as treatment for various mental health problems that occur with individuals, couples, and families.

Offered: Resident
Offered:  

COUC 603 Advanced Couple and Marital Counseling  3 Credit Hours  

**Prerequisites:** (CMHC 501 or COUN 501 or COUC 501) and (CMHC 502 or EDUC 600 or COUN 502 or COUC 502) and (CMHC 500 or COUN 500 or COUC 500) and (CMHC 505 or COUN 505 or COUC 505) and (CMHC 510 or COUN 510 or COUC 510) and (CMHC 646 or COUN 646 or COUC 546) and (CMHC 512 or COUN 512 or COUC 512) and (CMHC 521 or COUN 521 or COUC 521) and (CMHC 504 or EDCE 504 or COUN 504 or COUC 504) and (COUN 601 or CMHC 601 or COUC 601)

This course introduces students to evidence-based protocols for couple and marital counseling. Advanced skill work in formalized assessment and couples counseling techniques highlight the elements of this course. Students will develop effective couple and marital case conceptualizations and apply effective treatment interventions to various problems couples may experience. This course also incorporates a focus on pre-marital assessment and counseling.

**Offered:** Resident

COUC 604 Crisis Counseling  3 Credit Hours  

**Prerequisites:** (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510) and (COUC 512 or COUN 512 or CMHC 512) and (COUC 515 or EDUC 518 or COUN 515 or CMHC 515) and (CMHC 521 or COUN 521 or CMHC 521) and (COUC 522 or EDCE 522 or COUN 522 or CMHC 522) and (CMHC 546 or COUN 646 or CMHC 646)

This course provides students with foundational knowledge of the impact of crises, disasters, and other trauma-causing events on people as well as the principles of crisis intervention for people during crises, disasters, and other trauma-causing events. The appropriate use of diagnosis during crisis, disaster, or other trauma causing events and the differentiation between diagnosis and developmentally appropriate reactions during crises, disasters, and other trauma-causing events will be examined. Students will learn specific crisis intervention practices, including procedures for assessing and managing suicide risk, suicide prevention models, and the use of psychological first aid strategies. The counselors' roles and responsibilities as members of an interdisciplinary emergency management response team during a crisis, disaster or other trauma-causing event and the operation of emergency management systems will be studied.

**Offered:** Resident and Online

COUC 610 Human Sexuality  3 Credit Hours  

**Prerequisites:** (CMHC 500 or COUN 500 or COUC 500) and (CMHC 501 or COUN 501 or COUC 501) and (CMHC 502 or EDUC 600 or COUN 502 or COUC 502) and (CMHC 505 or COUN 505 or COUC 505) and (CMHC 510 or COUN 510 or COUC 510)

An analysis of the physiological, psychological, cultural, and religious aspects of a wide range of topics in the area of human sexuality. Emphasis is on the development of an understanding and appreciation of the role of sexuality in individuals, couples, and families throughout the various phases of the life cycle.

**Offered:** Resident

COUC 620 Counseling Children, Adolescents, and Their Families  3 Credit Hours  

**Prerequisites:** (CMHC 501 or COUN 501 or COUC 501) and (CMHC 502 or EDUC 600 or COUN 502 or COUC 502) and (CMHC 500 or COUN 500 or COUC 500) and (CMHC 505 or COUN 505 or COUC 505) and (CMHC 510 or COUN 510 or COUC 510) and (CMHC 646 or COUN 646 or COUC 546) and (CMHC 601 or COUN 601 or COUC 601) and (CMHC 504 or EDCE 504 or COUN 504 or COUC 504) and (CMHC 512 or COUN 512 or COUC 512) and (CMHC 521 or COUN 521 or COUC 521)

This course examines the developmental and psychological needs and problems of children, to include the transition to adolescence. Coursework emphasizes parenting, family, social, spiritual/moral, and physical issues. Counseling theories and evidence-based interventions provide foundational skills for working with children, adolescents, parents, and their families. This course will also address the impact of crisis and trauma events on children and families.

**Offered:** Resident

COUC 667 Clinical Diagnosis and Treatment Planning  3 Credit Hours  

**Prerequisites:** (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510) and (COUC 512 or COUN 512 or CMHC 512) and (COUC 515 or EDUC 518 or COUN 515 or CMHC 515) and (CMHC 521 or COUN 521 or CMHC 521) and (COUC 522 or EDCE 522 or COUN 522 or CMHC 522) and (CMHC 546 or COUN 646 or CMHC 646)

Students become knowledgeable of the principles and practice of clinical diagnosis and the development of treatment plans using the current edition of the Diagnostic and Statistical Manual. Emphasis is also placed on mental status, substance use, and risk assessment. Consideration is given to ethical, dimensional, relational, multicultural, and systemic issues important in diagnosis and treatment planning.

**Offered:** Resident and Online

COUC 687 Counseling Women  3 Credit Hours  

**Prerequisites:** (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510) and (COUC 512 or COUN 512 or CMHC 512) and (COUC 515 or EDUC 518 or COUN 515 or CMHC 515) and (CMHC 521 or COUN 521 or CMHC 521) and (COUC 522 or EDCE 522 or COUN 522 or CMHC 522) and (CMHC 546 or COUN 646 or CMHC 646)

This course examines the most common problems women bring to counseling, including both developmental and situational crises. It explores biblical perspectives and the most effective treatments for these situations.

**Offered:** Online
Prerequisites: (COUC 501 or COUN 501 or CMHC 501) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510) and (COUC 521 or COUN 521 or CMHC 521) and (COUC 546 or COUN 646 or CMHC 646)

This course is designed to introduce the student to current theories and etiology of addictions and addictive behaviors, including strategies for prevention, intervention, and treatment. The identification of standard screening and assessment instruments for substance use disorders and process addictions are practiced, as well as screening for aggression, and danger to self and/or others, as well as co-occurring mental disorders are reviewed. The course also describes appropriate counseling strategies when working with clients with addiction and co-occurring disorders in a multicultural society.

Offered: Resident and Online

COUC 698 Counseling Practicum 3 Credit Hours
Prerequisites: (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 501 or COUN 501 or CMHC 501 or EDCE 501 or COSC 501) and (COUC 510 or COUN 510 or CMHC 510 or EDCE 505 or COSC 505) and (COUC 500 or COUN 500 or CMHC 500 or COUC 512 or COUN 512 or CMHC 512 or COUC 515 or EDUC 518 or COUN 515 or CMHC 515 or COUC 521 or COUN 521 or CMHC 521 or COUC 522 or EDCE 522 or COUN 522 or CMHC 522 or COUC 546 or COUN 646 or CMHC 646 or COUC 602 or CMHC 602 or COUN 602 or COUC 667 or COUN 667 or CMHC 667 or M.Ed. T&L: Student Svcs Cognate with a score of 5 or Education Counseling Gate 2 with a score of 5)

This course involves a highly supervised experience of professional counseling at an approved clinical site in the counseling community. This supervision includes both individual and group supervision. Students are required to complete a total of 100 hours of counseling and related services, 40 of which are direct client contact hours. Written and oral presentations accompanied by audio and video recordings are a basic part of the group supervisory process. Additionally, the class will focus on the development of counseling related skills, ethics, and professionalism based on observations and exposure to the counseling field.

Offered: Resident and Online

COUC 699 Counseling Internship 3 Credit Hours
Prerequisites: (COUC 500 or COUN 500 or CMHC 500) and (COUC 501 or COUN 501 or CMHC 501) and (COUC 502 or EDUC 600 or COUN 502 or CMHC 502) and (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 505 or COUN 505 or CMHC 505) and (COUC 510 or COUN 510 or CMHC 510) and (COUC 521 or COUN 521 or CMHC 521) and (COUC 546 or COUN 646 or CMHC 646) and (COUC 698 or COUN 698 or CMHC 698) and (COUC 602 or CMHC 602 or COUN 667 or CMHC 667 or COUC 667)

This course requires successful completion of the practicum as one of its prerequisites and involves an intensely supervised experience in the student's designated program area at an approved site. Students are required to complete a total of 600 clock hours of counseling and related services, 240 of which are direct client contact hours. While gaining direct service experience with clients, students regularly meet with an approved onsite supervisor. Student counseling performance is evaluated throughout the internship. Written and oral presentation accompanied by audio and video recordings form the basis of the group supervisory process. The dynamics of the counseling relationship, diagnosis, treatment, and legal/ethical issues are primary areas of focus.

Note: This course may be repeated.

Offered: Resident and Online

Counseling: School Counseling (COSC)

COSC 501 Professional, Ethical, and Legal Issues in School Counseling 3 Credit Hours

This course introduces students to the professional functioning of counselors with an emphasis on school counselors in relation to other human services and education professionals, including history, professional identity, roles, professional organizations, ethics, legalities, standards, and credentialing. Current issues, trends, and best practices in a variety of professional counseling settings are explored with an emphasis on the specialty of professional school counseling.

Offered: Online

COSC 505 Counseling Theories and Techniques 3 Credit Hours
Prerequisites: (M.Ed. T&L: Student Svcs Cognate with a score of 5 or Education Counseling Gate 2 with a score of 5) and (COSC 501 or EDCE 501)

This experiential and didactic course provides students an understanding of selected theories of counseling and psychotherapy and effective interventions from individual, relational, and systems perspectives. Theoretical and empirical foundations of individual, relational, and systemic approaches are examined. Students are encouraged to begin to define their own theoretical approach to their work with individuals, couples, and families. Students also examine personal characteristics and their effect on individual, couple, and family counseling using case discussion and analysis.

Offered: Online
COSC 512 Structured Groups 3 Credit Hours

**Prerequisites:** COSC 505 or EDCE 505

This course enables students to understand the types of groups, their purpose, development, and dynamics, counseling theories, and group counseling methods and skills with an emphasis on structured group work in the elementary and secondary schools. Participation in small groups is required for educational and self-assessment purposes.

**Offered:** Online

COSC 521 Foundations of Exceptionality 3 Credit Hours

A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

**Offered:** Online

COSC 604 Foundations of Education 3 Credit Hours

**Prerequisites:** (COUC 504 or EDCE 504 or CMHC 504 or COUN 504) and (COUC 522 or EDCE 522 or COUN 522 or CMHC 522) and (COSC 501 or EDCE 501) and (COSC 505 or EDCE 505) and (COSC 512 or EDCE 512) and (COSC 611 or EDCE 611) and (COSC 660 or EDCE 660) and (COSC 661 or EDCE 661) and (COUC 698 or COUN 698 or CMHC 698 or EDCE 698)

This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

**Offered:** Online

COSC 611 Child and Adolescent Counseling in the Schools 3 Credit Hours

**Prerequisites:** (M.Ed. T&L: Student Svcs Cognate with a score of 5 or Education Counseling Gate 2 with a score of 5)

This course focuses on counseling theories and techniques used with children and adolescents in the school setting (e.g., play therapy, solution-focused counseling). The school counselor's role is examined.

**Offered:** Online

COSC 622 Educational Assessment and Intervention 3 Credit Hours

**Prerequisites:** (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 522 or EDCE 522 or COUN 522 or CMHC 522) and (COSC 501 or EDCE 501) and (COSC 505 or EDCE 505) and (COSC 512 or EDCE 512) and (COSC 611 or EDCE 611) and (COSC 660 or EDCE 660) and (COSC 661 or EDCE 661) and (COUC 698 or COUN 698 or CMHC 698 or EDCE 698)

A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

**Offered:** Online

COSC 660 Principles of School Counseling 3 Credit Hours

**Prerequisites:** (M.Ed. T&L: Student Svcs Cognate with a score of 5 or Education Counseling Gate 2 with a score of 5)

This course studies the specialization of professional school counseling including foundations, history and current trends, and the roles of the school counselor in pluralistic schools with a systems-focus. Students are introduced to the ASCA Model as a framework for developing comprehensive, developmental school counseling programs. Field experience required.

**Offered:** Online

COSC 661 School Counseling Program Development and Evaluation 3 Credit Hours

**Prerequisites:** Education Counseling Gate 2 with a score of 5 or M.Ed. T&L: Student Svcs Cognate with a score of 5

This course is designed to examine the planning, development, organization, implementation, and evaluation of comprehensive developmental K-12 school counseling programs that promote access and equity for all students. Offered in intensive format.

**Offered:** Online

COSC 699 School Counseling Internship 3 Credit Hours

**Prerequisites:** (COUC 504 or EDCE 504 or COUN 504 or CMHC 504) and (COUC 522 or EDCE 522 or COUN 522 or CMHC 522) and (COSC 501 or EDCE 501) and (COSC 505 or EDCE 505) and (COSC 512 or EDCE 512) and (COSC 611 or EDCE 611) and (COSC 660 or EDCE 660) and (COSC 661 or EDCE 661) and (COUC 698 or COUN 698 or CMHC 698 or EDCE 698)

The School Counseling Internship course is a culminating field experience for students designed to build both clinical and non-clinical counseling skills in the elementary and secondary school settings under the supervision of a licensed school counselor on-site supervisor and faculty supervisor (refer to School Counseling Program Handbook). May be repeated to a maximum of six hours.

**Offered:** Online

**Criminal Justice (CJUS)**

CJUS 500 Criminal Justice Integration 3 Credit Hours

This course focuses on the interdependency of organizations and agencies in the criminal justice system. Specifically, the course will examine the competing roles of law enforcement, courts, prosecution, defense counsel, etc., in the pursuit of justice.

CJUS 520 Administration of Justice Organizations 3 Credit Hours

This course is designed to familiarize the student with the theoretical and practical management perspectives embraced by the American criminal justice system. This will address the nature of criminal justice organizations, individual and group behavior within those organizations, processes inherent in those organizations, and areas of criminal justice reform.
CJUS 530 Human Resource Management in Criminal Justice Organizations 3 Credit Hours

This class will emphasize applying the theoretical knowledge discussed in class lectures to 'real world' situations and events important to human resources management in criminal justice. The student will be expected to demonstrate their knowledge of human resources management in a criminal justice setting through various reading and written exercises. General objectives for students are to learn and be able to apply general management principles and techniques in a public agency office setting. The role of personnel manager in a criminal justice setting is stressed throughout the course, to define and clarify responsibilities, areas of authority, decision-making, and technical knowledge of services, systems, and procedure. While the subject primarily targets personnel managers, all supervisors and managers benefit from effective personnel management skills, knowledge of services, systems, and procedures. While the subject primarily targets personnel managers, all supervisors and managers benefit from effective personnel management skills, knowledge and abilities.

Offered: Online

CJUS 534 Human Resources and Civil Rights for Law Enforcement Leaders 3 Credit Hours

This course focuses on the key legal issues facing law enforcement leaders as related to specific HR strategies and best practices and the evolving civil rights issues facing law enforcement. Students will be introduced to historical and current legal precedent, including the ramifications of legal issues on the practices of effective leadership in the law enforcement context.

Note: Course offered beginning in Spring 2020.

Offered: Online

CJUS 535 Strategic Intelligence for Law Enforcement Leaders 3 Credit Hours

This course examines best practices for law enforcement leaders in the gathering, assessment and implementation of strategic intelligence. It is critical for law enforcement leaders to have strategic intelligence for planning, decision-making and threat assessment. This intelligence must be comprehensive, relevant for key stakeholders, and gathered ethically. Moreover, it must be interpreted and applied in a cohesive manner that leads to sound implementation of strategy and tactics.

Note: Course offered beginning in Spring 2020.

Offered: Online

CJUS 536 Perspectives in Law Enforcement Leadership 3 Credit Hours

This course provides a summary of key leadership trends, best practices, controversies and debates, particularly as applied to the law enforcement context. Students will be challenged to research, synthesize and articulate leadership best practices as related to the administration of law enforcement members, groups and agencies.

Note: Course offered beginning in Spring 2020.

Offered: Online

CJUS 540 Cybercrime Law and Public Policy 3 Credit Hours

This course provides an overview of the emerging challenges related to cybercrime, and their related major legal and public policy impacts. Relevant court cases and public policy initiatives will be discussed, as well as major trends in the cybercrime field.

Note: Course offered beginning in Spring 2020.

Offered: Online

CJUS 542 Advanced Cybercrime Investigation 3 Credit Hours

This course focuses on latest trends and best practices associated with cybercrime investigation contexts, processes, and procedures. Key legal, technological, and procedural challenges will also be addressed.

Note: Course offered beginning in Spring 2020.

Offered: Online

CJUS 550 Topics and Trends in Criminal Justice 3 Credit Hours

This course focuses upon contemporary topics and trends in the criminal justice arena. Topics will include: substantive and procedural changes in criminal law from a federal perspective utilizing case law, professional law enforcement organization reviews, and law review articles. Additionally, the course will identify and evaluate research trends of the National Institute of Justice, i.e., corrections, technology development, homeland security, and white collar/financial crime.

CJUS 551 Criminal Justice Program Evaluation 3 Credit Hours

Prerequisites: CJUS 500 and CJUS 520 and CJUS 530 and CJUS 550

This course has two primary focuses. First, in today's environment of Evidence Based Policing, proper program evaluation is necessary. This class builds the student's skill set to conduct and understand criminal justice program evaluation. Second, as a sub-component of program evaluation and as a major component of CompStat, statistical analysis should be understood by the criminal justice leader. This course addresses the understanding of the measurement of crime.

Offered: Online

CJUS 601 Leadership, Ethics and Policing 3 Credit Hours

Prerequisites: CJUS 500 and CJUS 520 and CJUS 530 and CJUS 550

Ethical Leadership is a foundational principle in building an excellent organization and developing and maintaining public trust. This class focuses not only on ethical principles; it focuses on ethical leadership with a Christian Worldview.

Offered: Online
CJUS 620 Fundamentals of Forensic Psychology 3 Credit Hours

This course will introduce the student to an understanding of psychology's use in assisting the law with clinical forensic cases. Focus will involve both practical and research applications in clinical and social-cognitive psychology. Additional topics will include admissibility of psychologists to provide expert testimony in the courts; assessment of various mental states to meet legal requirements for competency, insanity, abuse syndromes, and various other psychological harm; working in the criminal justice system; and child custody and dependency issues.

Offered: Online

CJUS 630 Crisis Intervention in Law Enforcement 3 Credit Hours

This course will introduce the student to crisis theory, concepts, intervention and strategies required for criminal justice first responders. The student will learn how to develop and implement organizational programs for crisis intervention including: recognition of threat levels, active listening, effective mediation strategies and negotiation strategies of mentally unstable persons.

Offered: Online

CJUS 640 Psychology & the Legal System 3 Credit Hours

This course applies the methods and theories of psychology to the criminal justice (legal) system. Specifically, students will gain and understanding of how the field of psychology and psychological research has been applied in law enforcement, the judicial process, and the corrections process. Issues of morality, the criminal personality, eyewitness testimony, the use of psychological evaluation, jury selection, criminal profiling, child custody evaluation, police, and inmate counseling are among topics covered. Since this course focuses on the criminal justice system, it will not include civil litigation.

Offered: Online

CJUS 650 Rehabilitation & Reintegration of Offenders 3 Credit Hours

This course will introduce the student to the historical, philosophical, legislative, and societal overview of offender rehabilitation and reintegration in corrections settings and in community-based settings.

Offered: Online

CJUS 689 Thesis Proposal and Research 3 Credit Hours

This course is designed to help students complete their master's thesis in Criminal Justice. It is expected that research for the thesis project will be relevant to the student's study in the master's program and will make an academic contribution to the research in criminal justice.

Registration Restrictions: Completion of 30 hours of coursework toward the Master of Science in Criminal Justice.

Offered: Online

CJUS 690 Thesis Defense 3 Credit Hours

Prerequisites: CJUS 689

Intended to demonstrate a student's ability to carry out original research. Thesis may be designed to answer practical research questions, or address theoretical or ethical issues of interest to scholars and professionals in the field of criminal justice. Credit is not awarded until the thesis has been accepted.

Registration Restrictions: Consent of instructor.

Offered: Online

CJUS 695 Directed Research 3 Credit Hours

CJUS 697 Special Topics in Criminal Justice 3 Credit Hours

CJUS 697 - Special Topics in Criminal Justice (1 to 3 hours)

Crisis Counseling (CRIS)

CRIS 605 Crisis and First Responder Training: Skills and Techniques 3 Credit Hours

This course will provide a foundation of the theoretical concepts and practical applications of crisis response and critical incidents, taking into account topics such as: intervention models and their efficacy and the consequential effects of critical incident stress and trauma on the life of an individual, group and organization.

Offered: Online

CRIS 606 Acute Stress, Grief and Trauma 3 Credit Hours

This course will provide a foundation of the theoretical concepts associated with the impact and consequences of acute stress on victims, first responders, families, and community members, taking into account the process of grief and loss, complicated grief, dying, death, and bereavement, and the long term consequences of unresolved trauma. Particular attention is paid to the treatment of the human stress response, effective counseling strategies, methods and techniques for immediate response, comorbidity, anxiety and depression, abuse, impact dynamics of crisis and trauma, survivor guilt, and cultural sensitivity.

Offered: Online

CRIS 607 PTSD and Combat Related Trauma 3 Credit Hours

This course will examine in depth the causes, symptoms and treatments of PTSD and Combat-related PTSD, taking into account the latest research in the field and examining the affective, behavioral, cognitive and spiritual challenges faced by survivors.

CRIS 608 Trauma Assessment and Interventions 3 Credit Hours

A focused investigation of specific techniques and interventions utilized in trauma care. Focus is given to the physical and psychological effects of trauma, a Christian theology of suffering, and assessment use in counseling clients in trauma.

Offered: Online
CRIS 609 Complex Trauma and Disasters: Offering Emotional and Spiritual Care 3 Credit Hours

This course will examine the role of faith-based organizations, faith communities, and pastors and clergy in the care of emotional and spiritual health in individuals, communities, and organizations following trauma and disaster. Specifically, topics will include the life cycle of a disaster, exclusive types of trauma and disasters, models of response for faith-based communities, collaborative efforts between mental health professionals and faith-based services, and other salient factors for effective emotional and spiritual care.

Offered: Online

Discipleship Ministries (DSMN)

DSMN 500 Discipleship Ministries 3 Credit Hours

This course will examine the biblical, general and specific steps to enable a person first to be a disciple. Then will discover systems, biblical principles, and methods that create a disciple making context. The systems will cover both the macro level and the micro level. Once this has been discovered and discussed the student will select a disciple making system and create a micro-level disciple making plan for a local church.

DSMN 520 Spiritual Formation 3 Credit Hours

This course focuses on the development of the believer’s spiritual life. Attention is given to the spiritual disciplines, prayer, and the biblical nature of calling, ministry, character, and the relation of spiritual formation to the doctrine of sanctification. (Formerly PLED 520)

DSMN 610 Family Discipleship 3 Credit Hours

This course studies the idea and practice called ‘family discipleship.’ It presents a framework in which a family leader can disciple household members beyond spiritual comprehension to a personal appropriation of the apologetic and application of Scripture. Attention will be given to the family leader’s responsibilities toward spiritual leadership and biblical discipleship, specifically to responsibilities regarding the Gospel, basic doctrine, systematic theology, the Great Commission, spiritual disciplines, practical Christian living, and worldview/philosophy. Various techniques for family discipleship will be examined, including family devotions, drill and catechism, Scripture memory, storytelling, teaching moments, relational example and intentional rehearsal.

Offered: Online

DSMN 630 Small Group Ministries 3 Credit Hours

Ministry of Small Groups prepares the individual to serve and equip the church to embrace, plan for, implement and evaluate small group ministry. In addition to helping establish a clear biblical basis for small groups, this course is divided into two distinct, but related, topics. The first aspect deals with the issue of organizing and ministering small group ministry. The second aspect deals with the dynamics related to small group leadership. The focus is on one leader and one group.

DSMN 660 Leading the Healthy, Growing, Multiplying Church 3 Credit Hours

This course teaches the necessary areas of discipleship with a corporate-church setting. It further addresses the process of church multiplication. The course will also explore church health and growth in the early, middle, and mature years of a church’s existence. (Formerly EVAN 660)

DSMN 695 Directed Research in Discipleship Ministries 1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specific area.

Offered: Resident

DSMN 697 Seminar in Discipleship Ministries 3 Credit Hours

An intensive study in a specific subject of educational ministries. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Resident

DSMN 698 Discipleship Ministry Practicum 1-3 Credit Hours

DSMN 698 - Discipleship Ministry Practicum (1 to 3 hours)

DBFA 600 Family, Faith and the Future: Worldview 3 Credit Hours

Prerequisites: HSCO 500

This course examines conflicting worldviews regarding marriage and family and provides an opportunity for students to apply evaluative research in considering the implications of human services from a Judeo-Christian perspective when biblical worldviews and cultural worldviews conflict. Philosophical, political or legal influences, ethical concerns, and multicultural factors are also considered.

DBFA 605 Public Policy and Advocacy Strategies 3 Credit Hours

Prerequisites: HSCO 500

This course provides an interdisciplinary review of public policies examining the perspectives of the Judeo-Christian heritage of America’s founding principles influenced by government policies and contemporary social problems of marriages and families in the 21st century. Implementation to ethical advocacy methods and multicultural evaluations helps to examine specific policy contributions to theology and government.
DBFA 610 Divorce, Marriage and Blended Families 3 Credit Hours
Prerequisites: HSCO 500

This course prepares students to address multiple factors contributing to the breakdown of a family and draws upon current findings in marriage and family research, as well as psychological literature to identify significant influences and outcomes of divorce. Attention is given to the reconstructed family exposing those treatments found to be most effective for stability and satisfaction.

DBFA 615 Child/Adolescent Development, Deviance and Violence 3 Credit Hours
Prerequisites: HSCO 500

This course explores the foundational theoretical models giving explanation to the issues and challenges associated with child and adolescent development. Attention is given to the perspectives of both child and parent with a focus on effective intervention at the familial and sociological levels. Informed by systems theory and empirically supported treatment approaches, the student will emerge with a strong appreciation for the continuum of care in diverse ecclesial and professional settings.

DBFA 620 Research and Emerging Paradigms in Marriage and Family Studies 3 Credit Hours
Prerequisites: HSCO 500

This course explores the causes of divorce, the psychological consequences for both children and parents, factors that challenge positive adjustment after a divorce, and strategies for successful remarriage. Other public policy and legislative issues related to marriage and the family are further examined, as well as legal, cultural, and theological implications for the 21st century. Ethical concerns and multicultural factors are also considered.

DBMF 600 Counseling Children and Adolescents: Issues and Strategies 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course prepares students to address opportunities to evaluate current theories and the appropriateness/effectiveness of frequently used counseling strategies related to parents and minor clients addressing related problems including, but not limited to, conduct, eating, sleeping, high-needs kids, and ADHD. Additionally, there is a special focus on trauma and abuse in the childhood years as well as an in depth analysis of ethical concerns and recognition of multicultural factors associated with diverse families are also included.

DBMF 605 Parenting and Child Discipline Strategies: Raising Healthy Kids 3 Credit Hours

This course provides students with scientifically based strategies and tools for helping parents raise emotionally, physically, spiritually, and socially healthy children. Time-honored techniques for disciplining children are examined together with an analysis of contemporary research and biblical perspectives on parenting and discipline strategies. Moral, ethical, and legal issues are considered within the context of today’s socio-cultural environment. The influence of intergenerational factors and family systems variables are also evaluated.

DBMF 610 Marriage and Family Systems: Foundations, Models and Techniques 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course prepares students with techniques and approaches useful to marriage and family counseling, including theoretical models of family systems and methods that can be used when problems develop. Current trends, societal issues, ethical concerns and multicultural factors are presented and considered.

DBMF 615 Love and Relationships 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course provides the biblical and psychological principles and techniques for cultivating and counseling healthy marital and romantic relationships. Gender role differences, scriptural precepts and potential relational stressors are examined. Ethical concerns and multicultural factors are also considered.

DBPC 600 Child and Family Development: Psychological and Theological Perspectives 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course provides essential foundational psychological and theological perspectives needed for understanding core child and family development stages and dynamics. Current trends, issues, and cultural norms are examined as well as risk and protective factors that influence resiliency and coping mechanisms in children and teens. Ethical concerns and multicultural factors are also considered.

DBPC 605 Parenting and Multigenerational Influence 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course provides the psychological and spiritual foundations and strategies for understanding the meaning and significance of generational influence and its impact on family legacy. Lifestyle and cultural barriers to effective parenting are examined, as well as proactive parenting strategies, sound discipline and healthy communication patterns. Ethical concerns and multicultural factors are also considered.
DBPC 610 Human Growth and Lifespan Development 3 Credit Hours
This course explores intellectual personality, and faith development throughout the lifespan. Biblical and theoretical principles are used to examine the parent-child-relationship, and factors that impact this relationship, including multicultural interests. Ethical concerns are addressed.

DBPC 615 Childhood Issues, Trauma and Abuse 3 Credit Hours
Students will explore counseling strategies for helping parents and minor clients by analyzing and synthesizing information and readings outlining the various effects on the child from such issues as sexual abuse and related trauma, as well as issues of divorce. Additional topics include addressing childhood ADHD and problems related to conduct. Guidance is provided regarding the role of church programs, processes, and responses in addressing the various topics related to childhood. Ethics related to report ability, church responsibilities and requirements are discussed.

DBPC 620 Healthy Sexuality: Biblical and Developmental Factors 3 Credit Hours
This course provides a biblically influenced overview of the theological and psychological aspects of sexuality, with additional focus on parenting and preparing young and adolescent children for healthy sexuality as adults. Cultural shifts, safety, pregnancy, gender identity, and sexual behaviors are examined along with ethical concerns and multicultural factors.

Economics (ECON)

ECON 610 Microeconomic Theory 3 Credit Hours
This course provides students with an understanding of the economic concepts necessary for sound business decision making. Concepts to be analyzed include consumer behavior, firm structure, market structure, factors of production, market efficiency, and market equilibrium. The interrelationships between these factors and their impact on the firm will be discussed.

ECON 614 Macroeconomics Theory 3 Credit Hours
This course provides students with a structured and analytically sound overview of how the U.S. economy functions. Measures of economic performance including productivity, price stability, economic growth, interest rates, government debt, and international trade deficits will be covered. The impact of international trade will also be discussed.

ECON 620 Econometrics 3 Credit Hours
Prerequisites: BUSI 600
This course provides the application of statistical methods to the testing and estimation of economic relationships. Statistical methods applied will include basic data analysis, regression analysis, and forecasting. Students will gain experience using leading statistical analysis software.

ECON 630 International Economics 3 Credit Hours
This course provides students with an understanding of economics from a global perspective. Concepts analyzed include the theory of international trade, trade policy, foreign exchange markets, and macro policies for open economics.

Education (EDUC)

EDUC 500 Learning Theory 3 Credit Hours
An overview of the teaching-learning process. Topics include learning theory, individual differences, motivation, human development, exceptionality, teaching methodology, measurement, and evaluation.

EDUC 501 Advanced Child Development 3 Credit Hours
An examination of physical, cognitive, spiritual and social/emotional development, and guidance of a young child.

EDUC 504 Historical and Philosophical Foundations of Education 3 Credit Hours
A comprehensive survey of the historical and philosophical development of education. Emphasis is placed upon analysis of religious and public educational trends in the past and present. The candidates will be required to formulate a personal, Christian worldview philosophy.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 507 Educational Statistics 3 Credit Hours
Prerequisites: EDUC 506 and Background Check Receipt with a score of 5
An examination of descriptive statistics and basic inferential statistical techniques. Also, hypothesis testing, confidence intervals and correlation techniques will be studied.

EDUC 518 Educational Research and Assessment 3 Credit Hours
Overview of the nature of research on human development, learning, and pedagogical knowledge and skills. Topics include current trends and issues in education, skills in data collection and assessment, and application of research in the school setting.

EDUC 521 Foundations of Exceptionality 3 Credit Hours
Prerequisites: EDUC 500
A comprehensive course dealing with the characteristics of children and youth with disabilities and topics related to models of service delivery, documentation procedures, and legal/ethical issues. Recommended as the first special education course.

EDUC 523 Principles of Behavior Management 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
EDUC 524 Collaborating for Successful Inclusive Classrooms  
3 Credit Hours

**Prerequisites:** EDUC 500

A study of the types and characteristics of students with learning disabilities. Emphasis will be placed on classroom intervention strategies. Field experience required.

EDUC 525 Collaborating for Successful Transitions  
3 Credit Hours

**Prerequisites:** EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

A study of the characteristics of students with intellectual disabilities. Curriculum and techniques will be investigated to enable achievement of individual potential academically, socially, and functionally.

EDUC 526 Principles and Practices in Gifted Education  
3 Credit Hours

Candidates will explore the characteristics of gifted students as well as the emotional, academic, and social needs of gifted learners, with emphasis on those from special populations. Theories and strategies for differentiating curriculum designed for gifted students in heterogeneous and homogeneous groups will be analyzed.

EDUC 527 Characteristics of Autism Spectrum Disorder and Assessment  
3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5 and EDUC 521

This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

**Registration Restrictions:** Completed background check.

EDUC 528 Communication, Language and Sensory Aspects for Autism  
3 Credit Hours

**Prerequisites:** EDUC 527 and Background Check Receipt with a score of 5

This course provides students with an overview of the components of communication and strategies to increase an individual's communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

EDUC 530 Teaching Mathematics  
3 Credit Hours

**Prerequisites:** EDUC 500 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

An in depth study of the theory and processes of teaching mathematics to students in preschool through eighth grade, the course includes the instructional process in the area of numeration, operations and computations, geometry and logic. Candidates will participate in hands-on, modeled instruction, will construct and demonstrate models and teaching tools, and will complete a research project.

EDUC 531 Teaching the Natural and Social Sciences  
3 Credit Hours

Using a thematic approach, the integration of sciences with other areas of the curriculum is the focus of this course. Candidates will participate in hands-on demonstration in the areas of biological and physical science, chemistry, geography, political science, and history. Candidates will generate and implement a thematic teaching unit which includes instructional activity in each of eight subject areas.

EDUC 533 Teaching Writing Across the Curriculum  
3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

This course investigates theories and applications of writing to learn, using writing as a means of learning in the English classroom and within the disciplines.

EDUC 535 Secondary Instructional Procedures  
3 Credit Hours

**Prerequisites:** (EDUC 500 or EDUC 501) and Background Check Clearance with a score of 5

A course in secondary methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

EDUC 536 Sec Instructional Procedures P  
1 Credit Hour

**Prerequisites:** EDUC 500 or EDUC 501 and Background Check Receipt with a score of 5

Micro-teaching will be used as a means of providing an opportunity for students to model and role play appropriate teaching methods and activities in the secondary school. Candidates will be required to observe in secondary classrooms, prepare a lesson, teach the lesson, and evaluate the experience.

EDUC 539 Current Issues in Content Areas  
3 Credit Hours

An examination of current content standards in a subject area. Research in the subject area will enhance content knowledge in preparation for content assessment required for teachers.
EDUC 540 Historical Perspectives in Urban Education 3 Credit Hours
An introduction to urban education and contemporary urban life in the United States of America. Candidates will examine educational issues in urban communities and learn strategies for developing partnerships between home, school, and community.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 542 Culturally Responsive Teaching 3 Credit Hours
An introduction to the culturally responsive teaching pedagogy that acknowledges, responds to, and celebrates cultural differences and offers equitable educational access to students from all cultural backgrounds. Students will explore the dynamics of race, class, and culture and how they affect diverse school populations.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 543 Urban Schools and Communities 3 Credit Hours
The social context of urban communities is tied to the success of urban schools. This course will analyze the connection between urban schools and communities and provide strategies for working with families and community stakeholders to advocate for children and improve educational outcomes for students from diverse backgrounds.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 544 Research in Urban Education 3 Credit Hours
An examination and analysis of research related to urban communities and urban education. Students will synthesize research findings to develop strategies for improved educational outcomes in urban schools.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 547 The Differentiated Classroom 3 Credit Hours
An introduction to the process of differentiation in K-12 classrooms, including differentiation of content, process, and product, in an attempt to maximize the potential for student success. Emphasis will be placed on the identification of individual student needs and learning styles.
Note: Course offered beginning in Spring 2020.
Offered: Online

EDUC 550 Directed Practicum 6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 551 Comparative Educations 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 554 Reading and Language Acquisition 3 Credit Hours
Prerequisites: (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Check Clearance with a score of 5) and Education Gate 2 with a score of 5
A study of foundations of reading and language acquisition principles, techniques, and materials for developmental reading programs. Field experience required.
Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 556 Teaching Content Area Reading 3 Credit Hours
Prerequisites: (EDUC 500 or EDUC 501) and Background Check Receipt with a score of 5
Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 562 Introduction to Higher Education 3 Credit Hours
This course is intended to give the candidate a broad overview of the postsecondary education system in the United States. The course will examine major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty.
Offered: Online

EDUC 571 Curriculum Fundamentals 3 Credit Hours
An introduction to basic concepts and issues related to curriculum design, development, change and evaluation.
Note: To be taken the semester directly before student teaching or during student teaching.

EDUC 588 Practicum in Education I: External 0 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 554 (may be taken concurrently) or EDUC 656 (may be taken concurrently))
Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.
Registration Restrictions: Background Check.

EDUC 590 Student Teaching I: Local 3 Credit Hours
Prerequisites: Education Gate 3 with a score of 5
Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.
EDUC 591 Student Teaching II: Local 3 Credit Hours

**Prerequisites:** Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

**Registration Restrictions:** Employment as a full-time K-12 teacher.

EDUC 592 Student Teaching I: External 3 Credit Hours

**Prerequisites:** Education Gate 3 with a score of 5

Co-teaching with a responsible classroom teacher in an accredited K-12 institution and participation in professional activities. Applies what has been learned to the actual process of teaching and guiding K-12 students. Offers practice in all phases of teacher responsibility. Lab fee.

EDUC 593 Student Teaching II: External 3 Credit Hours

**Prerequisites:** Education Gate 3 with a score of 5

Teaching in an accredited K-12 institution and participation in related professional activities. Applies what has been learned to the actual process of the classroom for which the candidate has been employed. Lab fee.

**Registration Restrictions:** Employment as a full-time K-12 teacher.

EDUC 598 Field Experience Practicum 3 Credit Hours

**Prerequisites:** Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

This course will be used to provide field experiences for students desiring licensure in conjunction with certificate programs.

**Offered:** Online

EDUC 599 Human Development Across the Lifespan 3 Credit Hours

This course includes a survey of the organic, social, and physical factors that influence the development of the individual. It seeks to understand what makes a person distinctively different along with a critical evaluation of various theories of learning and personality development, particularly as they relate to questions of values and religious commitment.

EDUC 600 Professional Development in Middle Grades Education 3 Credit Hours

This class will heighten Middle Grade Educators' understanding of their personal pedagogy by encouraging reflective practice through individualized and collaborative professional development opportunities.

**Registration Restrictions:** Background Check Required.

EDUC 601 Young Adolescents, Schools and Communities 3 Credit Hours

An overview of the characteristics and issues related to transience and their implications for educational practice. Understanding of preadolescent physical, social, emotional, intellectual, and spiritual development will be applied to school processes and the teacher's interaction with middle school students and families.

**Registration Restrictions:** Background Check Required.

EDUC 602 Comparative Education 3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

A study of selected national systems of education in their differing cultural settings, with particular reference to administration, curriculum development and educational opportunity.

**Offered:** Resident

EDUC 603 Foundations of Education 3 Credit Hours

This course is a comprehensive survey of the historical development of education. Emphasis is placed on American education and the emergence of the Christian School Movement.

**Registration Restrictions:** Background check.

EDUC 604 Tests and Measurements 3 Credit Hours

Focuses on the development of the ability to evaluate and interpret standardized tests, and to construct, evaluate and interpret the results of teacher-made tests. (Formerly EDUC 506)

EDUC 605 Educational Assessment for Special Needs 3 Credit Hours

**Prerequisites:** EDUC 506 and EDUC 507 and EDUC 508 and Background Check Receipt with a score of 5

Principles and techniques in the utilization of research methods to solve problems and answer questions in educational settings. This course requires completion of a major research project, along with demonstration of skills in using technology as a tool in qualitative and quantitative educational research and assessment.

EDUC 606 Organization and Design of Gifted Education Programs 3 Credit Hours

Candidates will examine model programs for gifted students that include organizational strategies for heterogeneous and homogeneous groupings. The study will include programs that are field specific, integrated content, and extracurricular models. Strategies for securing funding for gifted programs will be explored.

EDUC 607 Educational Assessment for Special Needs 3 Credit Hours

This course examines the processes and strategies for assessing students with special needs.

**Registration Restrictions:** Background Check.
EDUC 622 Educational Assessment and Intervention 3 Credit Hours
A study of the techniques and procedures of educational identification and intervention strategies, collaboration, and referral. Field experience required.

Registration Restrictions: Background Check Required.

EDUC 623 Principles of Behavior Management 3 Credit Hours
An examination of the principles of behavior management as applied to children and youth in the classroom setting. Positive approaches for dealing with behavior problems are emphasized. Contemporary research in the area is analyzed and discussed.

Registration Restrictions: Background Check Required.

EDUC 624 Instructional Methods for Behavior and Learning 3 Credit Hours
This course will explore research and instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior support to prepare candidates for the special education classroom as well as student’s going into the general education classrooms and community settings.

Offered: Online

EDUC 625 Content Instructional Procedures 3 Credit Hours
Prerequisites: Education Gate 2 with a score of 5 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)
A course in content methodology focusing on competencies associated with individualizing instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. An emphasis will be placed on transferring theory into practice through selection and use of materials appropriate for the secondary classroom.

Registration Restrictions: Background Check Clearance and Gate 2.

EDUC 626 Characteristics of Autism Spectrum Disorder and Assessment 3 Credit Hours
This course provides an overview of autism across the lifespan and examines characteristics, definitions, eligibility criteria, incidence rates, and etiology. Assessment, diagnostic and identification criteria are described, and methods for monitoring the impact of interventions in a variety of service delivery models will be explored.

Registration Restrictions: Completed background check.

EDUC 627 Reading and Research in Gifted Education 3 Credit Hours
Candidates will explore the contemporary issues and research in gifted education including the systematic gathering, analyzing, and reporting of formative and summative data and current issues on a local, state, and national level.

EDUC 628 Communication, Language and Sensory Aspects for Autism 3 Credit Hours
This course provides students with an overview of the components of communication and strategies to increase an individual’s communication abilities, with emphasis on visual aspects of language. Sensory systems, sensory processing and sensory motor development, and the implication of sensory processing when developing a complete educational program for students with autism spectrum disorders will be discussed.

Registration Restrictions: Background check required.

EDUC 629 Technology and Diversity 3 Credit Hours
This course focuses on the nature of individual learners as it impacts instructional design with the use of technology in education. Specifically, the course covers topics on tools, methods and approaches to meet learning needs of children with special learning, those of differing socioeconomic and cultural backgrounds, and those of varying learning styles and preferences. The course attempts to bridge the gap between theoretical implications and practical applications of diversity considerations in the context of educational technology integration.

Registration Restrictions: Background Check Receipt.

EDUC 630 Technology Practices for Instructional Improvement 3 Credit Hours
This course has students research and engage best practices in educational technology usage for the purposes of inclusion in instructional practice for student learning and for assessment of student achievement as a result of instruction. Students practice and demonstrate competency in using productivity tools for professional and pedagogical practice. Further, students will develop means of effectively using technologies for communication and collaboration to improve teaching and learning.

EDUC 631 Foundations of Educational Technology and Online Learning 3 Credit Hours
An introduction to the historical, theoretical, and philosophical foundations of educational technology and online learning systems; an overview of education technologies including online, classroom, and administrative; and an examination of effective techniques for teaching and learning within these systems.

EDUC 632 Language Acquisition and Instruction 3 Credit Hours
A study of the major perspectives on the acquisition of oral and written language, including language differences and difficulties; methods of evaluating oral and written language performance; and strategies for improving the quality and quantity of oral and written language in classroom settings. Field experience required. (Formerly EDUC 532)

EDUC 633 Principles of Design and Management in Educational Technology and Online Learning 3 Credit Hours
This course is designed to assist the education professional in developing a solid foundation in instructional design and current research. The student will develop the skills and knowledge to advance their instructional effectiveness in varied settings through application of technology theory and practice.

|             | Concepts and specific techniques in school-community relations involving the development and maintenance of purposeful programs of communication and collaboration between school personnel and the community. Includes appropriate field projects relating theory to practice.
EDUC 647 School Law 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An examination of the legal aspects of education affecting administrators, teachers, students, parents and board members; various forms of liability; separation of church and state.

EDUC 648 School Finance and Management 3 Credit Hours

Prerequisites: EDUC 647 and (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5)

Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.

EDUC 650 Specialists for Reading/Math Programs 3 Credit Hours

Prerequisites: Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5

An investigation of research-based intervention for reading or math programs. The role of the reading or math specialist to the total school program is also examined. Field experience required. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 652 Current Issues in Reading/Math 3 Credit Hours

Prerequisites: Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

An examination of current standards and exploration of controversies related to reading or math programs. Program Specialists: To be taken the semester directly before or during internship.

Note: May be repeated for credit.

EDUC 653 Current Issues in Early Childhood Education 3 Credit Hours

An examination of current standards and exploration of controversies related to early childhood education.

Registration Restrictions: Background Check Receipt.

EDUC 655 Organization and Administration of Pre-Schools 3 Credit Hours

Philosophy, objectives and methods for organizing and operating a kindergarten, nursery school, day-care center and play group for children below six years of age. Also includes the planning of pre-school facilities and the selection of equipment and personnel.

EDUC 656 Teaching Content Area Reading 3 Credit Hours

Develops instructional competencies necessary for teaching reading and study skills essential in learning the concepts of content subjects. Applicable to teaching in grades 4-12.

EDUC 659 Foundations and Theories of Literacy Instruction 3 Credit Hours

Prerequisites: EDUC 701 or Background Check Clearance with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5

A study of the major theories, models, and components of literacy. Foundational knowledge will be utilized to design effective literacy instruction. Field experience is required.

Offered: Online

EDUC 663 Social and Political Aspects in Higher Education 3 Credit Hours

This survey course introduces students to the major social and political issues and trends facing contemporary higher education in the United States. Students examine, discuss, and debate various perspectives on critical issues at postsecondary campuses.

Offered: Online

EDUC 664 Economics and Finance of Higher Education 3 Credit Hours

This course discusses approaches to optimizing post-secondary student outcomes, particularly in support of critical programs designed to meet students’ academic, developmental and economic needs. Topics include orientation programming, academic support, student retention, campus life, academic advising, and career guidance, among others.

Offered: Online

EDUC 665 Student Support Services & Retention 3 Credit Hours

This course will explore, develop, and use instructional strategies, technologies, and activities to promote development of attitudes and concepts in mathematics. Emphasis is on mathematical teaching and learning practices anchored in mathematical concepts, diagnostic and assessment methods, and leadership skills.

EDUC 666 Teaching Mathematics in the Middle School 3 Credit Hours

This course focuses on promoting the middle level learner’s literacy development. Emphasis is placed on current theories, models, and methods of teaching, learning and communicating through the language processes of reading, writing, listening and speaking in the content areas. Students will explore, analyze, and critique research in reading, and the relationship of other disciplines to reading in the context of the middle school.
EDUC 670 Curriculum and Methods for Early Childhood  
3 Credit Hours

The course is designed to show current trends in curriculum organization, the effects of environment on learning and adapting curriculum content and methods to maturity level of the young child. Emphasis will be placed on designing individual educational programs for all children.

EDUC 671 Curriculum Evaluation  
3 Credit Hours

A study of the curriculum evaluation process focusing on the beliefs and practices of curriculum evaluation, the relationship between evaluation and curriculum improvement, and the relationship between theory and practice of curriculum evaluation.

EDUC 672 Curriculum Development (Elementary/Secondary)  
3 Credit Hours

A study of the construction, organization and function of the curriculum. Special attention is given to objectives, sequence, major problems and recent developments in each school program area.

Registration Restrictions: Background Check Clearance or Receipt.

EDUC 673 Curriculum and Methods for Effective Instruction  
3 Credit Hours

A review of the history of education as it affects the development across schools. Emphasis on characteristics of preadolescents, personalizing curriculum for the K12 student, and strategies for motivating curriculum improvement planning to involve teachers and community.

Registration Restrictions: Background Check Required.

EDUC 675 Elementary Curriculum and Methods  
3 Credit Hours

An overview of the current issues and trends in the field of elementary teaching and curriculum.

EDUC 676 Middle Grades Curriculum and Methods  
3 Credit Hours

An overview of the current issues and trends in the field of middle grades teaching and curriculum.

EDUC 688 Practicum in Education II: External  
0 Credit Hours

Prerequisites: Education Gate 2 with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5) and (EDUC 530 may be taken concurrently) or EDUC 625 (may be taken concurrently)

Candidates will participate in a supervised 45-hour practicum designed to link theory with practice. This practicum may be repeated one time with prior approval from the program chair.

Registration Restrictions: Background Check.

EDUC 690 Thesis Defense  
3 Credit Hours

Prerequisites: EDUC 518 and Background Check Receipt with a score of 5

Research project completed on an educational topic related to the concentration in the master's degree. Credit is not awarded until the thesis has been accepted.

EDUC 695 Directed Research  
1-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Offers opportunity and challenge of self-directive, independent study: that is, it develops the individual's ability as an independent student and enables the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.

EDUC 696 Current Issues in Education Capstone  
3 Credit Hours

Prerequisites: Non-Licensure Gate 3 with a score of 5 or EDUC 665

This is a capstone course. It should be the last course taken. An examination of current issues in the field of education with classroom implications and case study.

EDUC 697 Seminar in Education  
3-6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Topics of special interest not included in the regular department offerings, may be taken more than once, but no topic may be repeated.

EDUC 698 Directed Practicum  
3 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and Non-Licensure Gate 3 with a score of 5

A planned program of practice in an educational setting under the direct supervision of University faculty and/or appropriate school administrator. May be repeated to a maximum of six hours.

Note: Completed application and approval of Department Chair.

EDUC 699 Internship  
3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Requires completion of the projects and minimum number of hours as specified in proposal. May be repeated to a maximum of six hours. (A01: Administration/Supervision; A02: School Counseling; A03: Program Specialist)

Note: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program.

English (ENGL)

ENGL 501 Christian Poetics  
3 Credit Hours

This course assists the student in developing, through reading and discussion of salient critical texts, a distinctly Christian poetics: a set of principles by which the reader analyzes, interprets, and evaluates literature in a manner consistent with a Biblical worldview.

Offered: Resident
ENGL 503 Bibliography and Research 3 Credit Hours
This course provides students with an introduction to graduate-level research and bibliography methods in the field of English. In addition, students will practice the primary forms of writing expected of graduate students.
Offered: Resident

ENGL 505 Advanced Literary Criticism 3 Credit Hours
An inquiry into the nature and functions of Anglo-American literary criticism and theory. A review of ancient, early Modern, and 18- and 19th-Century figures as context for analysis and critique of a selected recent theorist.
Offered: Resident

ENGL 510 Studies in Ancient Literature/Classics 3 Credit Hours
A study of the literature of the ancient Greek and Roman world, with the works studied each semester to be determined by the genre emphasized (epic, tragedy, comedy). The inquiry into the nature of this body of literature will revolve around an investigation of the poets' peculiar visions and the limits of the genre studied, with reference the theories of Aristotle and Plato regarding the nature and purpose of poetry and civil life.
Offered: Resident

ENGL 511 Christian Authors 3 Credit Hours
This course offers advanced study of selected authors, themes, or genres that either reflect or respond to Christian belief as well as analysis of the relationship of such texts to both Christian culture and the larger world.
Offered: Resident

ENGL 512 Seminar in British Authors 3 Credit Hours
This course explores the works and contexts, both critical and historical, of a major British author. Authors studied might include Chaucer, Spenser, Fielding, Thackeray, or Joyce, among others.
Offered: Resident

ENGL 513 Linguistics 3 Credit Hours
This course lays a foundation for studying and understanding not only English, but any language, primarily from the functional/typological approach, but also from the generative one. Principles will be learned via text analysis, breaking down a language into its basic constituents relative to its phonology, morphology, syntax and discourse.
Offered: Resident

ENGL 515 Studies in British Literature 3 Credit Hours
This course offers a focused study of a specific time period, genre, or major figure in British literature.
Offered: Resident

ENGL 517 Old English Literature 3 Credit Hours
This course is an introduction to Old English language, literature, and culture. It will focus on an introduction to the language itself with a central view to reading the literature of the Anglo-Saxon world. The course will therefore also involve an introductory study of Anglo-Saxon culture and the history of the Anglo-Saxon peoples.
Offered: Resident

ENGL 520 Adolescent Literature 3 Credit Hours

ENGL 521 Victorian Literature 3 Credit Hours

ENGL 522 Modern Drama 3 Credit Hours

ENGL 523 Shakespeare 3 Credit Hours
A study of selected works from the Shakespearean canon, with the chief focus each semester determined by genre (tragedy, comedy, or history).
Offered: Resident

ENGL 529 Studies in American Literature 3 Credit Hours
This course offers a focused study of a specific time period, genre, or major figure in American literature.
Offered: Resident

ENGL 532 Seminar in American Authors 3 Credit Hours
An in-depth study of the life and literary works of one major American writer who made significant contributions to the canon of American literature.
Offered: Resident

ENGL 534 Literary Criticism 3 Credit Hours

ENGL 539 Early American Literature 3 Credit Hours

ENGL 540 The American Renaissance 3 Credit Hours

ENGL 542 The American Novel 3 Credit Hours

ENGL 543 Elizabethan Literature 3 Credit Hours
ENGL 550 Nonfiction Writing 3 Credit Hours

This course will survey various tools and techniques which assist in the writing of nonfiction works: essays, articles, memoirs, trade books, travelogues, biographies, etc. Exemplary nonfiction works will be reviewed. Attention will also be given to the roles of agents, editors, and publishers in the production of nonfiction literature. A significant portion of the course will be dedicated to the production of publishable works by the students.

Offered: Resident

ENGL 551 Poetry Writing 3 Credit Hours

Integrating instruction, exercise, and feedback on work from the instructor and classmates, this course teaches students techniques in producing publishable poetry as well as in creating a variety of poetic forms.

Offered: Resident

ENGL 552 Fiction Writing 3 Credit Hours

Integrating instruction, exercise, and feedback on work from the instructor and classmates, this course teaches students the craft of fiction writing with attention to setting, mood, theme, character, dialogue, plot, point of view, tone and style, description, technique, and publication.

Offered: Resident

ENGL 553 Chaucer 3 Credit Hours

ENGL 562 Text Analysis 3 Credit Hours

This course is an in-depth examination and application of principles and practices of text analysis, both oral and written. Focus will be upon the full range of genres: narrative, procedural, hortatory, and expository discourse.

Offered: Resident

ENGL 563 17th Century English Literature 3 Credit Hours

ENGL 570 Classical Rhetoric 3 Credit Hours

A study of classical skills of argumentation and persuasion, focusing on theory and application.

Offered: Online

ENGL 582 18th Century English Literature 3 Credit Hours

ENGL 595 Directed Research 3 Credit Hours

This course will allow a student to work individually with a professor or to take an approved course outside of the English program for credit.

ENGL 597 Special Topics: South Asian Diasporic Fiction 3 Credit Hours

This course is a study of some of the world’s literary masterpieces from antiquity to the present with particular emphasis on religious texts, diverse literary traditions, and universal themes.

Offered: Resident

ENGL 600 Editing, Layout and Publishing 3 Credit Hours

Provides students with a practical working knowledge of the fundamentals of editing, layout, and publishing for multiple contexts, modalities, and audiences.

Offered: Online

ENGL 601 Writing as Cultural Engagement 3 Credit Hours

Theory and Practice of Writing as Cultural Engagement (3 hours) Instruction, practice, and evaluation of writing for publication in various mediums (blogs, op-eds, popular journals, online news outlets, etc.) with an emphasis on diverse audiences, rhetorical strategies, and cultural contexts. Through assessing the procedures and principles that govern 21st century writings, students will examine the process of engaging various societal outlets and apply that knowledge towards cultural artifacts.

Offered: Online

ENGL 602 Methods and Materials of Research 3 Credit Hours

This course provides students with an introduction to graduate-level research and bibliography methods. In addition, students will practice the primary forms of writing expected of graduate students.

Offered: Online

ENGL 603 Literary Theory and Practice 3 Credit Hours

A study of the relationship between contemporary literary theory and critical practice, with emphasis on using a variety of critical approaches to analyze literary texts.

Offered: Online

ENGL 604 Composition Studies 3 Credit Hours

This course introduces composition studies - its theory, research, scholarship and pedagogy - and the teaching of academic composition classes. Students will engage in both theoretical and practical approaches to teaching writing.

Offered: Online

ENGL 608 Modern Rhetoric 3 Credit Hours

A study of contemporary rhetorical approaches, focusing on theory and application.

Offered: Online
ENGL 613 Contemporary and Postmodern Literature 3 Credit Hours
A study of contemporary (post-World War II) fiction, poetry, and/or drama and of postmodern world literature. Readings include American, English, and world literature.

Offered: Resident

ENGL 621 Seminar: The Novel 3 Credit Hours

Offered: Resident

ENGL 633 Advanced English Grammar 3 Credit Hours
This course is an advanced study of the full-range of English grammar, from phonology, morphology and syntax to discourse.

Offered: Online

ENGL 637 Studies in African-American Literature 3 Credit Hours
This course is a study of the periods and major genres of African-American Literature - poetry, prose, drama, vernacular tradition, essays, and non-fiction. Selected major works and authors are taken from all the periods of African-American literature to show the breadth and variety of African-American literary tradition.

ENGL 654 Methods of Teaching Writing Across the Curriculum 3 Credit Hours
This course is a study of the theories, practices, and different scenarios of writing to learn, including pedagogy of using writing as a means of learning in the English classroom and within the disciplines.

Offered: Online

ENGL 656 Studies in World Literatures 3 Credit Hours
This course is a study of some of the world's literary masterpieces from antiquity to the present with particular emphasis on religious texts, diverse literary traditions, and universal themes.

ENGL 664 English as a World Language 3 Credit Hours
This course analyzes the reasons for the rise of English language to a position of global dominance over other major world languages.

Offered: Online

ENGL 689 Thesis Proposal and Research 3 Credit Hours
This course is designed to help students complete their M.A. Thesis. It is expected that research for the thesis project will be relevant to the student's study in the master's program and will make an academic contribution to the research in English.

ENGL 690 Thesis Defense 3 Credit Hours

ENGL 690 · Thesis Defense (3 hours)

ENGL 695 Directed Research 3 Credit Hours

Offered: Resident

ENGL 697 English Seminar 3 Credit Hours

ENGL 699 Thesis 3 Credit Hours

Offered: Resident

Ethnomusicology (ETHM)

ETHM 500 Ethnic Music Theory 3 Credit Hours
Prerequisites: ETHM 511 or Music and Culture with a score of 3 or Music in World Cultures with a score of 3
The study of non-Western theories of music, with an emphasis on both existing systems of art and folk music as well as systems without an articulated theory.

ETHM 511 Introduction to Ethnomusicology 3 Credit Hours
The study of traditions, belief systems and practices of world cultures as approached through the comparative study and analysis of the music cultures of contrasting ethnic groups. Specific cultures studied may vary each term.

ETHM 512 Field of Ethnomusicology 3 Credit Hours
The study of various philosophical approaches in the practice of ethnomusicology. Primary emphasis is given to research of the history of the discipline, comparative analysis, and readings of some major contributors in the field of ethnomusicology.

ETHM 513 Anthropology of Music 3 Credit Hours
Explore the anthropological side of ethnomusicology by examining a wide variety of theoretical and ethnographic approaches to music culture analysis.

ETHM 514 Organology 3 Credit Hours
The study of sound instrument classifications and characteristics, their use in Western and non-Western cultures, and the variety of contexts in which instruments are found. Emphasis is also given to recent approaches and uses in the field of organology.

ETHM 515 Music, Orality and Storytelling 3 Credit Hours
The examination of various strategies for using music to break down cultural barriers and build bridges for intercultural relationships, including chronological storytelling in cultures of oral tradition.

ETHM 530 Worship and Culture 3 Credit Hours
A study of worship as observed in biblical examples. Scriptural principles regarding worship are applied to the life of the individual and to individual responsibility in the corporate worship experience. Emphasis is on building a theological orientation for interculturality by understanding the nature of worship as the foundation for building interdependent relationships in the kingdom of God.
ETHM 531 Resources and Materials in Ethnomusicology 3 Credit Hours

Bibliographic research in the field of ethnomusicology. Students will identify, access, evaluate and interpret ethnomusicology resources and materials while performing research of the socio-musical culture of selected ethnic group(s).

ETHM 540 Seminar in Ethnic Music 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 541 Seminar in Ethnic Music: India 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 542 Seminar in Ethnic Music: Native America 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 543 Seminar in Ethnic Music: Africa 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 544 Seminar in Ethnic Music: Latin America 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 545 Seminar in Ethnic Music: Middle East 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 546 Seminar in Ethnic Music: China 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 547 Seminar in Ethnic Music: Southeast Asia 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 548 Seminar in Ethnic Music: Indonesia 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 549 Seminar in Ethnic Music: Eastern Europe 3 Credit Hours

Concentrated study of a selected ethnic music culture. In scheduling each seminar, consideration will be given to student interest and the availability of appropriate guest musicians.

ETHM 560 Ethnic Music Performance 3 Credit Hours

Individual and/or ensemble performance in an ethnic music instrumental or vocal genre. The performance genre will be arranged in cooperation with the Coordinator of Ethnomusicology, who will also approve the instrumental or vocal genre to be studied. A minimum of ten (10) 30-minute lessons, ten (10) 60-minute ensemble rehearsals, or a combination thereof is required for each of the three credits. May be repeated for credit.

ETHM 560 Transcription and Analysis of Non-Western Music 3 Credit Hours

Practice in the generative transcription and theoretical analysis of non-Western music systems, including etic and emic elements, systems of notation, and computer-assisted analysis.

Offered: Online

ETHM 611 Arts in Global Engagement 3 Credit Hours

Students will learn how to become artistic catalysts and so facilitate local community engagement and effective outreach through music and the arts, including: 1) strategies for development of professional and intercultural relationships; 2) systems of pre-engagement and assessment of current issues; 3) contextualization of music in local worldwide contexts; 4) promoting the creation of indigenous songs; 5) promoting the distribution of such songs through appropriate media.

Offered: Online

ETHM 613 Applied Ethnomusicology 3 Credit Hours

The practice of ethnomusicology including: 1) a summary of technology and audio/video recording practices; 2) development of professional and intercultural relationships; 3) contextualization of music in worship, discipleship, and evangelism; 4) promoting the creation of indigenous Christian songs; 5) promoting the distribution of such songs through appropriate media; and, 6) introduction to other areas of applied ethnomusicology.

ETHM 650 Research Methods in Ethnomusicology 3 Credit Hours

Prerequisites: ETHM 531

Introduction to research methodologies in preparation for completion of the capstone project in ethnomusicology.

ETHM 688 Field Experience in Ethnomusicology 3 Credit Hours

Extended field experience in a cross-cultural setting providing for the on-site application and appraisal of skills learned in the classroom. The internship provides a basis for field research for the Master's Thesis or Project. The thesis advisor will be assigned in collaboration between the student and the Coordinator of Ethnomusicology.
ETHM 689 Master’s Thesis/Project Proposal and Research 3 Credit Hours

Completion of the Master’s Thesis or Project. This course is required each semester following ETHM 688: Field Experience in Ethnomusicology only for students who have not made sufficient progress so as to demonstrate they will be able to complete the thesis or project within the time frame required in ETHM 690: Master’s Thesis or Project Defense.

ETHM 690 Master’s Thesis/Project Defense 3 Credit Hours

Prerequisites: ETHM 692

The culmination of the degree program in the form of written and/or oral defense of the research thesis or application project. The final document should reflect the ability of the student to integrate the various facets of course preparation to practical research in the field of ethnomusicology or a field project.

Offered: Online

ETHM 692 Graduate Ethnomusicology Comprehensive Exam 0 Credit Hours

The comprehensive exam/defense is a zero credit written and oral examination that serves as a culminating assessment for the MA in Ethnomusicology. The comprehensive exam will be based on courses taken in the MA in Ethnomusicology. The exam is taken as a prerequisite of the Thesis. A Pass/Fail Committee decision for the Comprehensive Exam/Oral Defense will be placed in the student's official file, noted on the DCP Audit, and appear on the student's transcript.

Offered: Online

European History (HIEU)

HIEU 550 20th Century Germany 3 Credit Hours

This course covers the history and historiography of the German states from the early nineteenth century to the present. Study of the rise of German nationalism, pattern of German unification, and dissolution and reunification of Germany in the twentieth century provides the focus of this course. Students will also discuss cultural, religious, and gender issues.

HIEU 555 Modern European Military History 3 Credit Hours

This course examines of modern European military history from the French Revolution in 1789 until the present day as well as the historiography of the field. While focusing on conflicts in Europe, the course also examines European imperial wars. Demographic, industrial, social, and technical developments that shaped the pattern of European warfare provide the background for this class.

Offered: Resident

HIEU 566 Protestant Reformation 3 Credit Hours

A study of 16th Century Europe and the historical impact of the Protestant Reformation on Western Christianity. Moving beyond theological and confessional discussions, this class includes the social, political, economic, scientific, cultural and spacial changes to Western Culture.

HIEU 570 18th Century Europe 3 Credit Hours

This course will examine the political, social, economic, and intellectual developments in selected European countries from the late seventeenth century to the end of the Napoleonic Era.

Offered: Resident

HIEU 580 19th Century Europe 3 Credit Hours

The course will cover the political, social, economic, and intellectual developments in selected European countries from the Congress in Vienna to the outbreak of World War I.

Offered: Resident

HIEU 590 Modern Europe 3 Credit Hours

The political, military, social, economic and intellectual developments in selected European countries from 1914 through 1945 will be analyzed. Topics include causes of WWI, the Versailles Peace Conference, rise of Fascism and Communism, origins of World War II, the war, the holocaust, and end of WWII, setting the stage for the Cold War.

HIEU 595 Directed Research 3 Credit Hours

This course will allow a student to work individually with a professor to do extra readings on topics and/or specific issues related to European history and/or historiography.

Offered: Resident

HIEU 597 Special Topics in European History 3 Credit Hours

This course will allow a student to work individually with a professor to do research on a specific topic related to European history.

Evangelism (EVAN)

EVAN 500 Spiritual Factors of Growing Churches 3 Credit Hours

An examination of spiritual factors of church growth such as prayer, fasting, revival, anointed preaching and worship. The student will analyze and develop programs to produce balanced growth in evangelism and discipleship.

EVAN 505 Introduction to Church Planting 3 Credit Hours

An introduction to the skills and knowledge needed to plant a New Testament church ‘in culture.” A survey is given of the various schools of church planting with an evaluation of their strengths and weaknesses. (Formerly EVAN 550)

EVAN 510 Evangelism and the Growing Church 3 Credit Hours

An introductory study in evangelism and church growth principles, stressing the biblical and theological basis of evangelism as reflected in and through the local church.

Offered: Online
EVAN 525 Contemporary Evangelism 3 Credit Hours
A study of the evangelistic imperative and various methods of personal witnessing. Particular emphasis is given to follow-up, discipleship, and memorizing key Bible verses. (Formerly EVAN 565)

EVAN 610 Church Planting Methods and Culture 3 Credit Hours
This course combines study of various cross-cultural church planting methods with exegesis of North American culture. In specific, focus will be given to generational, ethnicity, and people group differences.

Offered: Online

EVAN 670 Strategic Prayer and Spiritual Warfare 3 Credit Hours
This course addresses necessary aspects of angelology, personal prayer life, and holy living. It further helps the student form effective corporate church based prayer strategies.

Offered: Online

EVAN 695 Directed Research in Evangelism 1-3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specific area of evangelism.

EVAN 697 Seminar in Evangelism 3 Credit Hours
An intensive study in a specific subject of evangelism. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

EVAN 698 Evangelism Practicum 1-3 Credit Hours
EVAN 698 - Evangelism Practicum (1 to 3 hours)

Exercise Science (EXSC)

EXSC 505 Foundations of Human Performance 3 Credit Hours
This entry level graduate course will examine the physiological, biomechanical, measurement and evaluation, and program design theories and principles that are associated with numerous aspects of human performance.

EXSC 510 Advanced Exercise Physiology 3 Credit Hours
Prerequisites: Physiology/Exercise Physiology with a score of 3 or Exercise Physiology/Equivalent with a score of 3 or EXSC 505
Advanced study of physiological adaptations to acute and chronic exercise.

EXSC 511 Advanced Exercise Physiology Lab 1 Credit Hour
Prerequisites: Exercise Physiology/Equivalent with a score of 3 or Physiology/Exercise Physiology with a score of 3
Laboratory experience demonstrating acute physiological responses to exercise.

EXSC 520 Statistical Analysis in Exercise Science 3 Credit Hours
Prerequisites: Statistics or Equivalent with a score of 3 or EXSC 505
This course targets the development of understanding in statistical methodology as it relates to the field of exercise science. Students will be able to summarize, analyze, and interpret data using descriptive and inferential statistics.

EXSC 525 Research Methods in Exercise Science 3 Credit Hours
In this course students will be given the opportunity to develop their knowledge of the applied theories behind exercise science research methods. An emphasis will be placed on study design and approval, manuscript format and preparation, application of statistical analysis and data evaluation.

EXSC 540 Advanced Strength Development 3 Credit Hours
This course focuses on the principles of strength development as presented through the M.O.R.R. training system.

EXSC 541 Advanced Speed and Agility 3 Credit Hours
Prerequisites: EXSC 540
This course focuses on the principles of speed and agility development as presented through the M.O.R.R. training system.

EXSC 542 Advanced Conditioning & Recovery 3 Credit Hours
Prerequisites: EXSC 540
This course focuses on the principles of conditioning and recovery as presented through the M.O.R.R. training system.

EXSC 545 Motor Learning and Performance 3 Credit Hours
This course includes the philosophy and application of qualitative movement analysis as the foundation for exercise prescription within a standard operating procedure.

EXSC 550 Advanced Biomechanical Analysis 3 Credit Hours
Prerequisites: Biomchncs, physics/equivalent with a score of 3 or EXSC 505
This course involves the application of mechanical principles, quantitative analysis of human movement, and advanced study of biomechanical instrumentation systems. Critical analysis of current research in the field of biomechanics is also emphasized.

EXSC 551 Advanced Biomechanical Analysis Lab 1 Credit Hour
Prerequisites: EXSC 550
In this course the student will apply kinetic and kinematic concepts through the use of biomechanical instrumentation for the advanced study of human movement.
EXSC 610 Graded Exercise Testing and Electrocardiotherapy  
3 Credit Hours

Prerequisites: EXSC 510 and EXSC 511

This course provides the framework for the exercise physiologist to develop and apply the academic background for clinical exercise testing. Students will become competent in the physiological and pathophysiological responses of the body during various exercise testing protocols. Guidelines based on ACSM standards will be applied while vital signs are measured and evaluated during exercise testing. Cardiac physiology will be covered through electrocardiographic monitoring and interpretation.

EXSC 633 Exercise and Physical Activity for People with Disabilities  
3 Credit Hours

This course is designed to investigate the background, opportunities, and challenges faced by people with disabilities as related to physical activity. Physical activity program planning, implementation, and evaluation for various impairments will be examined.

EXSC 635 Exercise Prescription for Special Populations: Cardiac and Pulmonary Disorders  
3 Credit Hours

Prerequisites: EXSC 510

This course provides the foundational understanding for the pathophysiological processes of various common chronic conditions. A clinical understanding of limitations and special needs will be provided, which allows the exercise scientist to appropriately interact and serve the cardiopulmonary client.

EXSC 637 Exercise Prescription for Special Populations: Chronic Health Conditions  
3 Credit Hours

Prerequisites: EXSC 510 and (EXSC 635

This course provides the foundational understanding for the pathophysiological processes of various common chronic conditions. A clinical understanding of limitations and special needs will be provided, which allows the exercise scientist to appropriately interact and serve the clinical client.

EXSC 640 Public Health and Physical Activity  
3 Credit Hours

This course focuses on the integration of public health and exercise science. The techniques used to measure physical activity, the effects of physical activity on health, and strategies for physical activity promotion will be examined. The scientific findings and applications that led to the emergence of the field of physical activity and public health are also examined.

EXSC 650 Promoting Physical Activity in the Community  
3 Credit Hours

Prerequisites: EXSC 640

This course will examine the promotion of physical activity in the community setting. The techniques, theories, and strategies for physical activity promotion will be examined.

EXSC 660 Fitness Assessment and Programming  
3 Credit Hours

This course is a study of the laboratory and field tests used for assessing physical fitness components as well as principles of exercise prescription. Test results are used in developing individualized exercise prescriptions to improve cardiorespiratory fitness, muscular fitness, body weight and body composition, and flexibility.

EXSC 689 Thesis Proposal and Design  
3 Credit Hours

Prerequisites: EXSC 525

This course is designed as a secondary step towards a graduate level thesis; following EXSC 525 - Research Methods in Exercise Science. The student continues with their selected topic of interest and solidifies a research proposal. The process is designed to deepen the comprehension of research methods, expand the knowledge of current evidence based understanding and enhance skills necessary for scholarly writing.

EXSC 690 Thesis Defense  
3 Credit Hours

Prerequisites: EXSC 689

The Thesis Defense is the culminating event for the student’s education through the research conducted as a continuation of prior coursework. The research will be the foundation for the written report and oral defense of the selected thesis. A final copy of a publishable manuscript is submitted to a thesis defense committee for review prior to a formal defense by way of presentation and responses to verbal inquiry by the defense committee.

EXSC 699 Internship  
1-6 Credit Hours

Prerequisites: EXSC 510 and EXSC 511 and EXSC 520 and EXSC 525 and EXSC 550 and EXSC 551 and HLTH 645

This course involves practical work experience in an approved exercise or fitness-related agency, or similar setting/facility supervised by a qualified professional. Selection of the internship site should coincide with academic track selected and intended career path.

Registration Restrictions: Complete all other Masters of Exercise Science coursework.

Family & Consumer Sciences (FACS)

FACS 510 Administration of the Contemporary Family  
3 Credit Hours

Emphasis will be given to the current emerging issues concerning family demography including trends in marriage, divorce, fertility, and development as it relates to the contemporary family.

Offered: Online
FACS 530 Interior Design 3 Credit Hours
This course is an overview of the professional standards and vocation of interior design. Through project-based experiential learning, students will develop skills in drafting, space planning, lighting design, and FF&E (furniture, fixture, & equipment) selection and specification. Incorporating the principles and elements of design, students will learn how to specify appropriate interior finishes, incorporate sustainable design strategies, and apply ADA standards to their projects.

Offered: Online

FACS 550 Textiles & Apparel Applications 3 Credit Hours
This course is an overview of the textile and fashion industry focused on merchandising and design as well as textiles.

Offered: Online

FACS 570 Family Wellness 3 Credit Hours
This course will examine the influences that culture, family and school environments have on a child's health, nutrition, well-being and the subsequent impact on communities.

Offered: Online

General History (HIST)

HIST 501 Historical Methods 3 Credit Hours
This course covers methods, writing, citation, and tools for graduate level historical research.

HIST 505 Public History 3 Credit Hours
This course is a graduate level introduction to the different types of public history. The course also focuses on the role and theories of public history and the challenges public historians face in today's world.

HIST 520 Teaching History in College 3 Credit Hours
This course covers the content and pedagogy of American History and Western Civilization general education survey courses, using primary sources, historical scholarship, and digital resources, preparing graduate students for teaching assignments.

Offered: Resident

HIST 550 Reading Seminar in American History 3 Credit Hours
This course will introduce students to major fields and historiographical interpretations in American history.

Offered: Resident

HIST 551 Reading Seminar in Modern European History 3 Credit Hours
This course will introduce students to major fields and historiographical interpretations in Modern European history.

Offered: Resident

HIST 601 Advanced Historical Research 3 Credit Hours
Application of advanced historical methodology to a specific topic or research interest.

Registration Restrictions: A minimum GPA of 3.75.
Offered: Resident and Online

HIST 602 Historiography 3 Credit Hours
This course covers the historiographical and theoretical approaches to the discipline of history. Particular emphasis is given to the history of historical writing, classic works of historiography, and Christian worldview.

HIST 689 Thesis Proposal and Research 3 Credit Hours
This course will allow a student to work individually with the director of his/her thesis.

Offered: Resident

HIST 690 Thesis Defense 3 Credit Hours
This course will allow a student to defend his/her thesis.

Offered: Resident

HIST 695 Directed Research 3 Credit Hours

HIST 699 History Internship 3-6 Credit Hours
This course provides an opportunity for students to attain real world experience working on tasks specific to their discipline. This experience will help prepare students to be competitive on the job market upon graduation.

Registration Restrictions: A 3.5 or better GPA.

Geography (GEOG)

GEOG 520 Historical Geography 3 Credit Hours
How geography has influenced history and the development of cultures, ideas, people groups, resources, and countries.

Offered: Online

GEOG 597 Special Topics 3 Credit Hours
GEOG 597 - Special Topics (3 hours)

Offered: Online

Global Studies (GLST)

GLST 500 Global Studies Survey 3 Credit Hours
Course Description: This course introduces and examines the historical and theoretical foundations of global engagement then develops a framework for interacting with the current needs and realities of a complex and culturally diverse world.

Offered: Resident and Online
GLST 525 Introduction to Islam 3 Credit Hours

Course Description: This course explores the historic rise and expansion of Islam. Basic Muslim beliefs and practices are identified and the diversity within the world of Islam is examined.

Offered: Resident and Online

GLST 550 Becoming a Global Facilitator 3 Credit Hours

Course Description: This course identifies the roles, relationships, and responsibilities of the global facilitator with regard to global engagement. Students examine advocacy needs, support models, sending avenues, mobilization opportunities, training resources, and partnership development.

GLST 585 Tribal Communities 3 Credit Hours

Course Description: This course combines classroom theory and experiential learning to explore the unique nature of tribal contexts. Linguistics, contextualization, and worldview issues are examined as the foundation of engaging tribal communities.

GLST 600 Cultural Anthropology 3 Credit Hours

This course introduces the discipline of cultural anthropology with particular emphasis on studying culture and worldview for the purpose of effective engagement.

Offered: Resident and Online

GLST 605 History and Theory of Global Engagement 3 Credit Hours

This course explores the expansion of Christianity from the first century to the present day. Attention is given to key cultural contexts, foundational truths, personalities, strategies, and movements that have influenced the identity and expansion of the Christian movement within an increasingly complex global reality. This course combines GLST 620 and GLST 605.

Offered: Resident and Online

GLST 620 History of Global Christianity 3 Credit Hours

This course explores the historic expansion of global Christianity from the first century to the present day. Attention will be given to cultural contexts, key personalities, and movements that contributed to the spread and identity of global Christianity.

GLST 630 Current Issues in Global Studies 3 Credit Hours

Course Description: This course examines current trends in global engagement. This course will be used for all future study tours.

GLST 640 Marketplace Strategies 3 Credit Hours

Course Description: This course explores the diverse marketplace opportunities that exist in global engagement and guides students to develop strategies for non-profit, for-profit, educational, service, and faith-based global initiatives.

GLST 650 Intercultural Communication 3 Credit Hours

This course explores key issues in the process of effective intercultural communication. Special attention is given to the concept of Cultural Intelligence and its application in effective intercultural engagement.

GLST 655 Orality - The Power of Story 3 Credit Hours

This course examines the power of story and communication in predominantly oral cultures. It will be taught in the framework of the Grand Narrative and students will develop skills in communicating, guiding the growth of oral communicators, and community development through the telling of stories.

Offered: Resident and Online

GLST 665 Living and Working Cross-Culturally 3 Credit Hours

This course examines the opportunities and challenges of intercultural careers and prepares students for the many realities that will be faced in living and working cross-culturally.

GLST 670 Discipleship and Leadership Development 3 Credit Hours

This course focuses on developing disciples who make disciples globally. It explores the definition and expression of discipleship along with various methods of global disciplemaking and leadership development.

GLST 675 Contextualization and Global Thought 3 Credit Hours

This course identifies key foundations of global thought and examines the process of communicating truth to diverse global worldviews. Specific aspects of worldview are discussed and various principles and approaches to contextualization are analyzed. (Formerly ICST 675)

GLST 685 Small Groups and People Movements 3 Credit Hours

This course explores the historical and current role of community as expressed in small groups and people movements around the world. Small group and community development strategies will be analyzed for use in global contexts.

GLST 695 Directed Research in Global Studies 3 Credit Hours

This course facilitates independent research on a topic agreed upon by professor and student.

GLST 697 Seminar in Global Studies 3 Credit Hours

This course will address a special topic or issue in global studies, especially those presented by visiting lecturers.

GLST 698 Global Studies Practicum 3 Credit Hours

Prerequisites: GLST 500 and GLST 650

This course is a practical, intercultural field experience that crosses ethno-linguistic cultural contexts. It is completed under the supervision of a qualified mentor. The context, mentor, and nature of service must be approved by the internship coordinator prior to course registration. To receive 3 hours credit, students must complete a minimum of 150 contact hours or spend one month living in another cultural context.

Offered: Online
GLST 699 Global Studies Internship 3-6 Credit Hours

**Prerequisites:** GLST 500 and GLST 650

This course is a practical, intercultural field experience that crosses ethno-linguistic cultural contexts. It is completed under the supervision of a qualified mentor. The context, mentor, and nature of service must be approved by the internship coordinator prior to course registration. To receive 3 hours credit, students must complete a minimum of 150 contact hours or spend one month living in another cultural context. To receive 6 hours credit, students must complete a minimum of 300 contact hours or spend two months living in another cultural context.

**Government (GOVT)**

GOVT 595 Directed Research 3 Credit Hours

GOVT 697 Special Topics in Government 1-3 Credit Hours

GOVT 697 - Special Topics in Government (1 to 3 hours)

**Graduate Studies (GRST)**

GRST 500 Introduction to Graduate Writing 0 Credit Hours

This course is designed to give students the skills they need to complete successful written projects in graduate-level courses. Students who pass the course will demonstrate proficiency in the following areas: grammar, punctuation, syntax, diction, organization, revision, documentation, and topic development.

GRST 501 Graduate Success Strategies 0 Credit Hours

This elective course is designed to give students the skills they need to complete successful written projects in graduate-level courses. Students who pass the course will demonstrate proficiency in the following areas: grammar, punctuation, syntax, diction, organization, revision, documentation, and topic development.

**Offered:** Resident and Online

**Health (HLTH)**

HLTH 500 Introduction to Public Health 3 Credit Hours

This course will provide a broad overview of the practice of public health. It is intended for those with a limited exposure to the field or in the need of a refresher of analytical and critical thinking skills prior to beginning a graduate level course of study. The course will specifically address basic algebraic and probability concepts, review the use of peer-reviewed literature, introduce students to literature citation using the AMA style, and provide a framework to approach public health practice.

HLTH 501 Biostatistics 3 Credit Hours

The course prepares the student in the development and application of statistical reasoning and methods in addressing, analyzing and solving problems in public health; healthcare; and biomedical, clinical and population-based research.

HLTH 503 Principles of Epidemiology 3 Credit Hours

This course is a study of human population patterns of disease and injury and the application of this study to the control of health problems.

HLTH 505 Principles of Environmental Health 3 Credit Hours

The course is a study of environmental factors including biological, physical and chemical factors that affect the health of a community.

HLTH 507 Public Health Administration 3 Credit Hours

The course is a study of health policy and management concerns regarding the delivery, quality and cost of healthcare for individuals and populations. It reviews the structure, process and outcomes of health services including costs, financing, organization and accessibility to care.

HLTH 509 Social and Behavioral Theory Applications in Public Health 3 Credit Hours

The course is a study of the behavioral, social and cultural factors related to population health disparities. The student will learn that research in this area contributes to the development and evaluation of public health policies, programs and services that promote and sustain health populations.

HLTH 511 Research Methods in Public Health 3 Credit Hours

**Prerequisites:** HLTH 501

This course prepares students to critically evaluate research protocols in public health. Students must be prepared to design practical research methodologies to evaluate contributing factors of contemporary health issues with measurable goals and objectives.

HLTH 550 Addictive Behaviors and Interventions 3 Credit Hours

This course explores the dynamics of chemical and non-chemical dependency including the psychological, physiological, and spiritual bases of addiction. Intervention modalities will be discussed for various forms of addictions.

HLTH 551 Issues in Public and Community Health 3 Credit Hours

This course reviews the Christian worldview and healthcare choices in the 21st century. Topics may include but are not limited to: genetic testing, eugenics, reproductive control, treating or terminating impaired infants, organ transplantation and euthanasia.

HLTH 552 Chronic Disease Prevention and Management 3 Credit Hours

This course is focused on the leading chronic disease indicators of morbidity and mortality in the United States, including cardiovascular disease, cancer, stroke, diabetes, and chronic obstructive pulmonary disease. Students will study prevention strategies using the ecological framework to examine individual, social, organizational, community, and population levels of prevention. Public health measures to reduce chronic disease will be emphasized.
HLTH 553 Grant Acquisition and Management 3 Credit Hours
This course acquaints students with the 'soft' money world of private and public grants, promotes the development of grant writing skills and identifies the practical issues of managing a grant once acquired.

HLTH 554 Medical Terminology en Español 3 Credit Hours
This course provides students with medical and health related vocabulary and terminology necessary to communicate with Spanish speakers with limited English proficiency.

HLTH 556 Politics and Health Policy 3 Credit Hours
This course examines the framework and concepts used in public health policy. Processes of formulation, implementation and change will be discussed. Evidence-based decision making will be discussed. The role of politics in relation to health policy will be highlighted.

HLTH 597 Graduate Health Seminar 3 Credit Hours

HLTH 600 MPH Competency Exam 0 Credit Hours
**Prerequisites:** HLTH 501 and HLTH 503 and HLTH 505 and HLTH 507 and HLTH 509 and HLTH 511 (may be taken concurrently)
The purpose of the Competency Exam is to assess students' substantive and integrative knowledge of the field of Public Health. The exam draws from students' previous studies thereby eliciting the broad and comprehensive knowledge and understanding required in transitioning to practical experiences. The exam is meant to be a bridge between the concepts, theories, and skills presented in program coursework and critical analysis demanded in the field for a successful practicum experience. A department policy for the exam requires departmental review and approval of a faculty panel beyond the single term of enrollment.

**Registration Restrictions:** HLTH 600 will need to be taken in a single term.

**Offered:** Resident and Online

HLTH 620 Introduction to Global Health 3 Credit Hours
This course introduces the student to global health priorities and the roles of institutional players in resolving the issues. Multiple determinants of health such as economic, environmental, biological and cultural are addressed with an emphasis on the health needs of lesser economically developed nations.

**Offered:** Resident

HLTH 622 Primary Healthcare in Developing Countries 3 Credit Hours
This course addresses the delivery of essential healthcare to individuals, families and communities in lesser economically developed countries. Emphasis is on the utilization of community healthcare worker schemes and appropriate technology.

HLTH 623 Cultural Aspects of Health Behavior 3 Credit Hours
This course examines cultural perspectives on beliefs and health risk perception in relationship to health behavior. The cultural aspects of healthcare use through 'healers' and health systems are also examined.

**Offered:** Resident

HLTH 624 Sanitation in Developing Countries 3 Credit Hours
This course examines environmental hygiene and health problems related to water supply and sanitation. Low cost methods as well as appropriate technology applied to sanitation are discussed.

HLTH 625 Prevention and Control of Infectious Diseases 3 Credit Hours
This course provides the student with the knowledge base necessary to understand the mechanisms of infectious disease transmission, to select specific preventive methodologies in the control of particular diseases and to communicate the rationale for the various control methods.

HLTH 626 Vaccines and Immunology 3 Credit Hours
**Prerequisites:** HLTH 625
This course provides an overview of the immune system. The course will cover immune mechanisms believed to be related to vaccine induced disease protection. The course will examine vaccine development.

HLTH 630 Principles of Community Health 3 Credit Hours
This course provides an overview of public health issues as they relate to community health promotion and disease prevention. Theories and models relevant to community health programming as well as the connections between local, state, and national public health initiatives are presented. Emphasis is placed on acquisition of pertinent public health data to enable practical, applied, community-wide planning and cooperation among varied stakeholders.

HLTH 632 Health Program Planning 3 Credit Hours
This course provides students with an overview of program planning, including methods for assessment, planning models and theories, and intervention strategies. Course content will focus on program planning in community settings.

HLTH 633 Health Program Evaluation 3 Credit Hours
**Prerequisites:** HLTH 632
This course provides an introduction to quantitative, qualitative, and ethnographic methods of evaluation for health education programming. A variety of health education evaluation topics are included. Students will be introduced to both formative and summative evaluation as well as principles of measurement.

**Health Informatics (INFO)**

INFO 505 Health Informatics 3 Credit Hours

Focused on the foundations of healthcare informatics, students will gain an overview of the information, resources, and technologies in healthcare. Topics include but are not limited to healthcare information systems infrastructure, enterprise architecture, applications, data management, information security, telehealth, project management, and emerging technologies. Students will examine major theories supporting healthcare informatics, understand its application in supporting decision-making, and recognize its importance in the provision of effective and efficient healthcare.

Offered: Online
INFO 535 Health Systems and Delivery 3 Credit Hours

Prerequisites: INFO 505 and Meets BMAL590 / 27 hrs in BUSI with a score of 3 and Meets MATH121 / higher with a score of 3 and Meets MATH201 /BUSI230 / hi/equiv with a score of 3

This advanced course examines the delivery models of healthcare, the regulatory environment of health care, and the professional roles of people in healthcare. Investigative topics include the different states of disease, medicine, public health, financing, and new relational fields within the United States healthcare systems. The examination will address the changing practices and innovations of medicine and relational services.

Offered: Online

INFO 545 Health Information Systems and Integrated Technologies 3 Credit Hours

Prerequisites: (INFO 505 and INFO 535) or (INFO 505 and NURS 521)

This advanced course will examine the relevant and emerging information systems and technologies that exist in the healthcare industry. Using a broad examination of healthcare technologies, areas include the healthcare systems development life cycle, scalable computing, information security, systems analysis, systems design, and systems implementation. Students will learn health care information systems strategy and innovation that is essential to meet the quickly changing needs of effective and efficient healthcare delivery and services.

Offered: Online

INFO 668 Health Data Analytics and Decision-Making 3 Credit Hours

Prerequisites: CSIS 525 and HLTH 511

This course introduces students to data science for good decision-making in the healthcare industry. It prepares health informatics in the data analytics domain, including statistical analysis, data mining, text analytics, and predictive analytics.

Offered: Online

INFO 690 Integrated Capstone 3 Credit Hours

Prerequisites: BMIS 530 and BMIS 680 and CSIS 525 and HLTH 503 and HLTH 511 and NURS 501 and INFO 545 and INFO 668

The capstone is an opportunity for the students to demonstrate their analytical, design, research, and management skills to solve a specific problem outlines within current information technology literature. Students will validate their abilities to develop effective health informatics solutions through a thesis project that addresses a complex issue within this field. If completed successfully, the capstone project signifies the completion of the health informatics program.

Offered: Online

Homeland Security (HLSC)

HLSC 500 Foundations of Homeland Security 3 Credit Hours

Course Description: This course provides a broad, up-to-date, multidisciplinary overview of homeland security as a contemporary subject of intense interest and inquiry. Issues of public policy, public administration, law, criminal justice and the social/behavioral impacts of terrorism and homeland security will be considered.

Offered: Online

HLSC 510 Homeland Security Organization & Administration 3 Credit Hours

This course will examine the evolution of Homeland Security as a concept, a legal framework, a redirection of national policies and priorities and also the actual implementation and creation of the Department of Homeland Security. The course provides an overview of the history of terrorist threats and U.S. responses and an introduction to the fundamental policy legislation and documents, such as national security strategies, homeland security directives, the National Response Framework (NRF), and National Incident Management System (NIMS).

Offered: Online

HLSC 520 Legal Issues in Homeland Security 3 Credit Hours

Survey of the controlling authorities that pertain to homeland security, from the U.S. Constitution to major federal statutes, court decisions, and executive directives.

Offered: Online

HLSC 530 Homeland Security Capstone 3 Credit Hours

The Capstone provides students with the opportunity to explore homeland security issues and to address them through focused study and applied research under the direction of a faculty member. The Capstone must demonstrate a student’s ability to apply the knowledge and skills acquired in their academic program to real world issues and problems. This final academic activity must represent graduate level work and must demonstrate competency in areas such as research, written communication, integrative and analytical thinking skills, and problem solving and decision-making ability. The capstone must contribute to the current body of knowledge in the field of homeland security.

Offered: Online

HLSC 600 Introduction to Disaster Management 3 Credit Hours

This course examines a theoretical and practical application of disaster management activities including human behavior in emergency situations, warning, evacuation, sheltering, triage, damage assessment, disaster declaration, debris removal, media relations, crisis counseling, individual and public assistance, fiscal responsibilities, and other relevant functions. Decision making, incident command, EOC operations, coordination, and service will be examined. This course highlights several hazard types as a topical investigations, as well as the processes and considerations of management options for preparedness, response, recovery, and mitigation.

Offered: Online
HLSC 610 Understanding Terrorism and Homeland Security
3 Credit Hours

This course examines terrorism as it relates to the United States domestically as well as internationally. Emphasis is placed upon the identification, comparison and understanding of the various definitions of terrorism and the perpetrators of these acts, along with the various aspects of terrorism and homeland security. The student will be exposed to the nexus between terrorism and homeland security as it relates to homeland security strategy, assessment, evaluation, preparation, responses, and recovery actions and mechanisms relating to terrorism and homeland security. There will be a focus on the importance of coordination of various assessments, plans, strategies and implementation of plans of action involving local, county, state, federal, and international responses pertaining to terrorism and homeland security.

Offered: Online

HLSC 620 Hazard Mitigation
3 Credit Hours

In this course, students determine best practices for risk assessment composed of hazard identification, vulnerability assessment, and impact analysis as an integrated process. Throughout the course, students integrate the theoretical paradigm supporting the management of risk and risk-based decision making. Critical infrastructures will be examined from a risk assessment viewpoint. Various structural and non-structural mitigation strategies will be examined. This course will consider steps that should follow or be considered in conjunction with mitigation strategies such as but not limited to resiliency, continuity of operations planning, and redundancy.

Offered: Online

Homiletics (HOMI)

HOMI 500 Preparation of the Sermon
3 Credit Hours

A basic study of the principles of sermon construction which includes selecting and interpreting the text, forming sermon objectives, and structuring sermons for content and style. (Formerly HOMI 501)

Offered: Resident and Online

HOMI 601 Foundations of Expository Teaching and Preaching
3 Credit Hours

Prerequisites: NBST 610

This course explores the biblical foundation for the ministry of teaching and extracts a template for a step-by-step procedure for the practice of pedagogy, whether for pulpit presentation, classroom instruction, or small group discipleship, etc. As a result, the student will be able to add to his instructional skill set and tool kit direction and resources for personal preparation, lesson message presentation (including methods, materials, and differentiated instruction to address learning styles), and comprehensive assessment. (Formerly DSMN 601)

HOMI 605 Expository Preaching
3 Credit Hours

Prerequisites: (HOMI 500 or HOMI 501)

A study in the preparation of expository sermons. Attention is given to the types of expository preaching: paragraph, parable, biographical, etc. A study of the methods of interpretation, the formula of expository sermon outlines, and the preaching of expository sermons. (Formerly HOMI 611)

Offered: Online

HOMI 612 Evangelistic Preaching
3 Credit Hours

Prerequisites: HOMI 605 or HOMI 611

A study of the content, principles and delivery of expositional evangelistic sermons. Emphasis will be on preaching evangelistically from the Old and New Testaments.

Offered: Online

HOMI 635 Preaching for Special Occasions
3 Credit Hours

Prerequisites: (HOMI 605 or HOMI 611) and (LEAD 635 or PLED 635)

This course is a study in the selection, preparation and delivery of sermons to meet the needs of the contemporary church family. Attention is given to the preaching of the special occasion sermons (i.e. Christmas, Easter, Weddings, Funerals, etc).

Offered: Online

HOMI 660 Great Preachers and Their Preaching
3 Credit Hours

Prerequisites: HOMI 605 or HOMI 611

A study of Christian history’s outstanding preachers. Special attention is given to their lives, their sermons, and their homiletical methods. Students will then be challenged to adapt these great texts and homilies to their current cultural context. (Formerly HOMI 610)

HOMI 670 Preaching from the Old Testament
3 Credit Hours

Prerequisites: HOMI 605 or HOMI 611

This course is designed to prepare students to preach from the Old Testament. Special attention will be given to genres and theological themes that arise from the Old Testament text.

HOMI 675 Preaching from the New Testament
3 Credit Hours

Prerequisites: HOMI 605 or HOMI 611

This course is designed to prepare students to preach from the New Testament. Special attention will be given to genres and theological themes that arise from the New Testament text.

Offered: Online
HOMI 679 Homiletics Capstone 3 Credit Hours
Prerequisites: HOMI 500 and HOMI 605 and NBST 610
This course is designed to prepare students to preach expository sermons from the book of Romans. Special attention will be given to theological themes that arise from the text, to include: salvation, sanctification, suffering/death and hope, God's plan and purpose, and Christian liberty. This course is available as an intensive, in residence, and online.
Offered: Online

HOMI 695 Directed Research in Homiletics 1-3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of homiletics.

HOMI 697 Seminar in Homiletics 1-3 Credit Hours
An intensive study in a specific subject of homiletics. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

HOMI 698 Homiletics Practicum 1-3 Credit Hours
HOMI 698 - Homiletics Practicum (1 to 3 hours)

Human Services Counseling (HSCO)

HSCO 500 Introduction to Human Services Counseling 3 Credit Hours
This course explores the historical context and the current structure of the Human Service field. Students will be exposed to the primary intervention strategies utilized in human services including interviewing, case management and facilitating groups. The special populations served in the Human Service profession will be examined. Topics including values and ethical dilemmas, the social welfare system, diversity, program planning, organizing and changing systems, legal issues, staying current and avoiding burnout will be considered.

HSCO 502 Human Growth and Development 3 Credit Hours
Prerequisites: HSCO 500 (may be taken concurrently)
This course explores individuals throughout the lifespan in the areas of cognitive, personality, physical, and social development specifically through the examination of various theories. Understanding development crises, specific interventions, and optimal wellness are key content areas within this course. Additionally, this course provides a framework for understanding the impact of various situational, environmental, and sociocultural factors on individuals and their families and communities.

HSCO 506 Integration of Spirituality and Counseling 3 Credit Hours
Prerequisites: HSCO 500 (may be taken concurrently)
Students critically examine how a Christian worldview and a client's spirituality impact the assessment, diagnosis, and treatment planning process in counseling. Ethical, diagnostic, and assessment issues relevant to the use of Christian spiritual interventions with appropriately religious individuals, couples, and families are considered, along with current research related to spirituality and counseling.

HSCO 508 Studies in Interpersonal Communication 3 Credit Hours
Prerequisites: HSCO 500 (may be taken concurrently)
An interactive learning experience designed to equip students with a comprehensive understanding of self and the 'listening-to-understanding' skills which facilitate improved interpersonal communications in establishing and maintaining relationships with God and others.

HSCO 509 Multicultural Issues in Human Services 3 Credit Hours
Prerequisites: HSCO 500 (may be taken concurrently)
This course examines contemporary scholarship on race/ethnic relations and addresses issues of racial/ethnic identities, gender inequality, and disability discrimination. It will examine social stratification by looking at various public policy arenas, social institutions, and the history of group marginalization. The course employs case studies, various readings, and theoretical and empirical literature on racial/ethnic relations, gender, and disability issues.

HSCO 511 Group Dynamics 3 Credit Hours
Prerequisites: HSCO 500 (may be taken concurrently)
This course involves the study of human beings in relationship to other persons, singularly and in groups. The course explores-in theory and through in-class exercises - the real-life application of various aspects of group dynamics including (but not limited to) leadership, motivation, perception, power, and decision-making.

HSCO 597 Seminar in Human Services Counseling 3 Credit Hours
An intensive study of a specific subject in human services counseling. This course allows variation in the approach and content of the regular curriculum.

Human Services Marriage & Family (HSMF)

HSMF 601 Marriage and Family Counseling I 3 Credit Hours
This course considers the dynamics of marriage and family relationships from a systems perspective. The emphasis is on understanding family and other systems theories, the structure and function of marriage, various aspects of the marital relationship and family systems, and models of family and systemic interventions. Considerations from a historical perspective are presented along with current developments within marriage and family systemic models.
HSMF 602 Marriage and Family Counseling II  
3 Credit Hours

**Prerequisites:** HSMF 601

This course is an experiential exploration of selected, major treatment approaches utilized in premarital, marital and family counseling. Development of practical skills, interventions and techniques constitute the primary focus.

HSMF 603 Premarital and Marital Counseling  
3 Credit Hours

This course introduces students to a variety of approaches that have been developed for thorough premarital counseling. The course also teaches students a conceptual model for understanding the variety of ways marriages can become dysfunctional, and introduces them to short-term methods that can be used when those kinds of problems develop.

HSMF 611 Counseling Children and Their Families  
3 Credit Hours

The developmental and psychological needs and problems of children are examined through the analysis of personality types and family structure. Counseling techniques (e.g. play therapy) for children are also examined.

HSMF 620 Counseling Adolescents and Their Families  
3 Credit Hours

This course examines the transitions of adolescence emphasizing family, social, spiritual/moral, and physical issues. Counseling theories and practices for working with adolescents are explored. Opportunities for application of theory are provided.

HSMF 687 Counseling Women  
3 Credit Hours

This course examines the most common problems women bring to counseling, including both developmental and situational crises. It explores biblical perspectives and the most effective treatments for these situations.

**Inspirational Writing (WRIT)**

WRIT 601 Grant Writing  
3 Credit Hours

A course on the process of grant writing.

**Offered:** Online

WRIT 633 Technical Writing  
3 Credit Hours

This course helps students develop skill sets for writing about topics in science, medicine, engineering, as well as other technical fields. Particular emphasis is placed on transforming technical and complex information into accessible knowledge for a variety of audiences.

**Interdisciplinary Studies (INDS)**

INDS 500 Introduction to Interdisciplinary Studies  
1 Credit Hour

This course is designed to provide a comprehensive introduction to graduate interdisciplinary studies and writing skills. It is intended for those with limited exposure in the area of graduate interdisciplinary studies and to provide a foundation for cross-disciplinary analysis and application. This course will examine interdisciplinary studies knowledge, research methods, and writing techniques.

**Offered:** Online

INDS 600 Interdisciplinary Research  
3 Credit Hours

**Prerequisites:** INDs 500

This course is designed to assess student mastery of content for the Master of Arts in Interdisciplinary Studies and will be based on the knowledge and skills acquired in earlier course work. It will require the summation and synthesis of two disciplines through research and the integration of learned concepts, techniques, and knowledge of their chosen interdisciplinary field into transferrable skills and qualifications. Through this course, students will research interdisciplinary relationships and their purpose in academia and professional fields in order to connect the importance of their specialized program to personal and professional goals.

**Offered:** Online

**International Relations (INTL)**

INTL 500 Fundamentals of International Relations  
3 Credit Hours

The course offers a critical knowledge foundation of various perspectives, issues, and controversies that comprise contemporary international relations and policy today. Students will engage relevant topics like the structure and actors of the international system; the theory and practice of conflict and cooperation; political economy and international trade; international organizations and human rights; global governance and development; and international security and terrorism. They will be strongly encouraged to reflect upon how each of these topics may be informed by, integrated with, or deviate from a biblically informed world view.

**Offered:** Online

INTL 502 Global Governance  
3 Credit Hours

Since WWII, global governance has been an increasing if contentious force in international politics. Whether political, military, legal, financial, commercial, or humanitarian in nature, global institutions like the UN, the World Bank, the IMF, the World Trade Organization, the World Court, the World Health Organization, and affiliated INGOs have all sought to integrate with, substitute for, or in some cases compete with state actors as providers of basic health, safety, and human rights enforcement. Critically assessing theories, practices, and aims of global governance, the course highlights fundamental tensions between international organizations (IOs), sovereign states, and non-state actors. Students are strongly encouraged to reflect upon how each of these topics may be informed by, integrated with, or deviate from a biblically informed world view.

**Offered:** Online
INTL 689 Thesis Proposal and Research 3 Credit Hours

This course is designed to help students complete their master’s thesis in International Relations. It is expected that research for the thesis project will be relevant to the student’s study in the master’s program and will make an academic contribution to the research in international relations.

Offered: Online

INTL 690 Thesis Defense 3 Credit Hours

Prerequisites: INTL 689

Intended to demonstrate a student’s ability to carry out original research. Thesis may be designed to answer practical research questions, or address theoretical or ethical issues of interest to scholars and professionals in the field of international relations. Credit is not awarded until the thesis has been accepted.

Juris Master Law (JURI)

JURI 510 Introduction to Legal Systems and Research 3 Credit Hours

This course is an introduction to legal research; fundamentals of legal writing; and fundamental analysis of treaties, customary law, and other sources of law. This course will provide an overview of current research techniques in the field of legal systems and research. Students will learn and apply professional writing skills in the early research paper drafting process and will incorporate techniques outlined in the course.

JURI 515 Legal Writing and Analysis 3 Credit Hours

Prerequisites: JURI 510

This course will further develop student research methods, research strategies, and statistical analysis skills necessary to both produce and critically analyze research reports and data compilations used in forming legal analysis. Students will further develop and apply professional writing skills in the research paper drafting process and fully incorporate techniques as outlined in this course and the Introduction to Legal Research course.

JURI 520 Constitutional Law 3 Credit Hours

An analysis of the basic principles of constitutional law, including the nature of a written constitution, the covenantal framework of the U.S. Constitution, the Marshall legacy and judicial review, theories of interpretation, and principles of interpretivism. Emphasis is given to the distribution of governmental powers in the federal system; separation of powers; the federal commerce, taxing, and foreign affairs powers; intergovernmental relations; due process; and equal protection.

JURI 525 Health Law Survey 3 Credit Hours

This course provides an overview of the laws related to health care in the United States. Subjects to be covered include the licensing and monitoring of healthcare professionals, the professional-patient relationship and duties to treat, liability that may attach to healthcare professionals and businesses, healthcare financing including public and private sources, fraud and abuse and business aspects of healthcare including antitrust. This course allows students to become conversant with the current complexities of healthcare law and understand emerging trends in this evolving body of law.

Offered: Online

JURI 530 Contracts Law 3 Credit Hours

A study of the history of the development of the common law of contracts and statutory variances from the common law, particularly the Uniform Commercial Code. It focuses on legal theories for enforcing promises or preventing unjust enrichment; and principles controlling the formation, modification, and enforceability of contracts. A study of the legal principles dealing with performance, remedies for nonperformance or threatened nonperformance, excuses for nonperformance, rights of nonparties to enforce contracts, assignment of rights, and delegation of duties.

JURI 535 Healthcare and Bioethics 3 Credit Hours

This course provides an overview of the law and policy that underpin the subject of healthcare bioethics. This is a course that bridges the gap between the moral and ethical aspects of healthcare delivery and the legal constructs that surround them. Topics to be covered include human genetics, cloning, and reproduction, legal issues related to death and dying including medically assisted dying and the regulation of research involving human subjects. This course will allow the student to explore the intersection of the law and policy for these and other bioethical issues.

Offered: Online

JURI 540 Criminal Law 3 Credit Hours

An introduction to the general principles, sources, and purpose of criminal law, including the following doctrinal issues that apply to crimes in general: the act requirement, the mens rea requirement, causation, liability for attempted crimes, accomplice liability, defenses, and criminal code interpretation.

JURI 545 Healthcare Compliance 3 Credit Hours

This course provides an overview of the subject of healthcare compliance. Healthcare compliance is the ongoing process of meeting the applicable legal, ethical, and professional standards set by government agencies and third party players. Subjects to be covered include how healthcare organizations can develop and administer effective standards, policies, and procedures to screen and evaluate employees and physicians, communicate and educate on compliance issues, develop monitoring, auditing and internal reporting systems and investigate non-compliance and take appropriate disciplinary and other remedial measures.

**JURI 550 Property Law**
A study of the fundamental precepts applicable to real and personal property. Aspects of real property covered are possessory estates and interests, as well as joint and concurrent ownership. A study of the rights, duties, and liabilities of landlords and tenants; acquisition, ownership, and transfer of property; rights of possession; donative transactions; issues in the conveyancing system; and governmental regulations.

**Offered:** Online

**JURI 555 Healthcare Fraud and Abuse**
This course provides an understanding of the laws related to healthcare fraud and abuse in United States. The three major fraud and abuse statutes - the False Claims Act, the Stark Law and the Anti-Kickback Statute - will be covered in detail. This includes identifying the statutory construction of each of these three statutes and seeing how different courts have applied them. Related subjects to be covered include, an overview of Federal and State agencies tasked with eliminating fraud and abuse in the healthcare arena, examples of settled and litigated cases and their impact on the healthcare industry and the history and ongoing evolution of healthcare fraud and abuse enforcement.

**Offered:** Online

**JURI 560 Torts Law**
A study of intentional torts against persons and property and the privileges thereto. It focuses on the basic principles of negligence and other standards of care. A survey of the remaining issues in negligence including particular duties of landowners, damages, joint and several liability, and defenses. It also deals with products liability, wrongful death, vicarious liability, and nuisance.

**Offered:** Online

**JURI 565 Medical Malpractice Survey**
This course provides an overview of the laws related to the torts of medical malpractice and other forms of medical negligence. Topics to be covered include the physician-associated factors that may lead to medical negligence, the duty of the physician to treat patients including the initiation and termination of the physician-patient relationship, breach of a duty to the patient, the use of medical experts in proving the case, causation including proximate cause and calculating damages and collecting monetary awards. A discussion of medical malpractice tort reform will also be included.

**Offered:** Online

**JURI 570 American Business Law**
Introduces the fundamental concepts and legal principles that are applicable to the American legal system, its development and inherent ethical considerations. Discusses the basis and structure of business contracts; the creation and characteristics of agencies, partnerships, limited liability companies and corporations; and the rights and liabilities of agents, partners, directors and shareholders.

**JURI 580 Ethics and Professional Responsibility**
A study of the authority and duties of lawyers in the practice of their profession as advocates, mediators, and counselors; and of their responsibility to the courts, to the bar, and to their clients, including a study of the various ABA standards of professional conduct.

**JURI 590 International Business Law**
A study of selected international legal issues affecting or regulating multinational enterprise foreign investment, the banking system, trade in goods and services, labor matters, intellectual property, sales transactions, transportation, and trade financing. M. students must meet additional legal brief component as described in course syllabus.

**Offered:** Online

**JURI 600 Foundations of Law**
An introduction to the theological and philosophical foundations of law, including the Augustinian concept of antithetical thinking; the Creator/creature distinction; the development of higher/natural law thinking; the basis for the distinction between the judicial and prudential methods of analysis; the origins and jurisdictional boundaries of family, church, and state; the schools of jurisprudence; and the biblical basis for the fundamental principles underlying the several courses that comprise the basic curriculum. An introduction to the historical and political background of the Western legal tradition; the impact of canon law and higher law influences on the development of the common law; the development of the respective jurisdictional bases of family, church, and state, and historical struggle between them; and the influence of Christian and secular worldviews on the application of American law, with a particular emphasis on the influences of the Founding Fathers and the drafters of the Declaration of Independence and the Constitution. M. students must meet additional legal brief component as described in course syllabus.

**Note:** LL.

**JURI 610 Jurisprudence/Legal History**
This course is an introduction to the many schools of jurisprudence. Jurisprudence is the study of legal philosophy. An examination of the nature and meaning of the legal past, particularly the Western legal tradition, with a primary focus on the historical relationship between church and state; and the biblical and theological foundations of the Western legal tradition and the English Common Law heritage. Particular emphasis is given to formulating principles of a distinctively Christian jurisprudence and on reading primary materials. M. students must meet additional legal brief component as described in course syllabus.

**Note:** LL.

**JURI 620 Law and Economics**
Law and economics as a jurisprudential theory seeks to apply neoclassic economics concepts to law. Law and economics tends to be both positive (explaining rules in terms of economic concepts) and normative (arguing that legal rules should promote economic efficiency). This course considers a variety of subject areas in order to provide a critique of law and economics from the perspective of the distinct mission of Liberty University School of Law. M. students must meet additional legal brief component as described in course syllabus.

**Note:** LL.

**JURI 630 International Business Law**
A study of selected international legal issues affecting or regulating multinational enterprise foreign investment, the banking system, trade in goods and services, labor matters, intellectual property, sales transactions, transportation, and trade financing. M. students must meet additional legal brief component as described in course syllabus.

**Note:** LL.
JURI 640 International Public Law 3 Credit Hours

This course focuses on the study of fundamental concepts of international law and its historical origins. It considers the influence of diverse schools of thought in international law, including the post-modern, natural law, and integrative jurisprudence. The course examines the sources of international law, including international treaties, customary international law and general principles of law. It also studies the subjects of international law and international legal personality. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 650 International Trade Law 3 Credit Hours

This course is a study of the international norms and principles that regulate international trade on goods, services and intellectual property. It also focuses on the history of the creation of the World Trade Organization (WTO) and its current functions. It considers the influence of economic doctrines in the creation of norms and principles of international trade law. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 660 International Law and Diplomacy 3 Credit Hours

This course focuses on the study of international treaties, such as the Vienna Convention on Diplomatic Relations. It also analyzes the place of customary international law in the regulation of diplomatic relations. It explores the close interaction and interrelation between international law and diplomacy. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 670 The Law of Armed Conflict 3 Credit Hours

This course is a study of the historical origins and development of norms regarding the law of armed conflicts. The course focuses on the norms of customary international law and the positive law norms, such as the Geneva Conventions and Protocols on the law of war. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 680 International Human Rights Law 3 Credit Hours

This course studies the creation of the international human rights system and its influence in international relations. It highlights the Christian foundations of human rights norms and principles. It specially focuses on the concept of human dignity and the imago Dei (image of God) as the foundation of human rights law. It analyzes international declarations and resolutions of the United Nations General Assembly and the UN Human Rights Council. It shows the importance of the defense of fundamental human rights, such as the right to life, the right to family and the right to religious freedom. M. students must meet additional legal brief component as described in course syllabus.

Note: LL.

JURI 690 Legal Research and Writing I - Capstone 3 Credit Hours

This course develops the fundamental requirements in writing an LL.M. thesis in the context of international law. The student will select a topic under the supervision of a faculty member. Following the selection of a topic, the student conducts research aimed at narrowing and refining the thesis, and the faculty member provides feedback that assists the student in formulating a research and writing plan. The student prepares and submits a written outline of the research thesis, and the faculty provides substantive feedback. Lastly, the student submits a preliminary draft of the paper.

JURI 695 Legal Research and Writing II - Capstone 3 Credit Hours

Prerequisites: JURI 690

The legal thesis developed in the Capstone Legal Research and Writing I course is further developed. Continued development and refinement of the topic, legal research, and drafts are completed. Final submission of thesis for faculty’s evaluations.

Law (LAW)

LAW 501 Foundations of Law 2 Credit Hours

LAW 501 - Foundations of Law I (2 hours) An introduction to the theological and philosophical foundations of law, including the Creator/creature distinction; the development of natural law thinking; the origins and jurisdictional boundaries of family, church and state; and the Biblical basis for the fundamental principles of civil procedure, tort law, criminal law, contract law, and property law which comprise the basic curriculum.

Offered: Resident

LAW 502 Foundations of Law II 2 Credit Hours

LAW 502 - Foundations of Law II (2 hours) Prerequisite: LAW 501. An introduction to the historical and political background of the American legal tradition, including the Biblical principles that form the foundation of America's legal institutions and constitutional system; the influence of Christian and secular worldviews on the application of American law; and the development of the respective jurisdictional bases of family, church, and state.

Offered: Resident

LAW 505 Contracts I 3 Credit Hours

LAW 505 - Contracts I (3 hours) A study of the history of the development of the common law of contracts, and statutory variances from the common law, particularly the Uniform Commercial Code. It focuses on legal theories for enforcing promises or preventing unjust enrichment; and principles controlling the formation, modification, and enforceability of contracts.

Offered: Resident
LAW 506 Contracts II 3 Credit Hours
LAW 506 - Contracts II (3 hours) Prerequisite: LAW 505. A study of the legal principles dealing with performance, remedies for nonperformance or threatened nonperformance, excuses for nonperformance, rights of nonparties to enforce contracts, assignment of rights, and delegation of duties.
Offered: Resident

LAW 511 Torts I 3 Credit Hours
LAW 511 - Torts I (3 hours) A study of intentional torts against persons and property and the privileges thereto. It focuses on the basic principles of negligence and other standards of care.
Offered: Resident

LAW 512 Torts II 2 Credit Hours
LAW 512 - Torts II (2 hours) Prerequisite: LAW 511. A survey of the remaining issues in negligence including particular duties of landowners, damages, joint and several liability, and defenses. It also deals with products liability, wrongful death, vicarious liability, and nuisance.
Offered: Resident

LAW 515 Property I 2 Credit Hours
LAW 515 - Property I (2 hours) A study of the fundamental precepts applicable to real and personal property. Aspects of real property covered are possessory estates and interests, as well as joint and concurrent ownership.
Offered: Resident

LAW 516 Property II 3 Credit Hours
LAW 516 - Property II (3 hours) Prerequisite: LAW 515. A study of the rights, duties, and liabilities of landlords and tenants; acquisition, ownership, and transfer of property; rights of possession; donative transactions; issues in the conveyancing system; and governmental regulations.
Offered: Resident

LAW 520 Legal Methods 2 Credit Hours

LAW 521 Civil Procedure I 3 Credit Hours
LAW 521 - Civil Procedure I (3 hours) An introduction to the rules and principles that dictate the process by which civil disputes are resolved by courts. A study of the judicial process and of the relationship between the procedural and substantive law; pleadings; principles of jurisdiction, including jurisdiction over subject matter and persons, and service of process; and an introduction to the allocation of jurisdiction between the state and federal courts and the law to be applied in state courts and federal courts.
Offered: Resident

LAW 522 Civil Procedure II 2 Credit Hours
LAW 522 - Civil Procedure II (2 hours) Prerequisite: LAW 521. A continuation of Civil Procedure I with a focus on pleadings, joinder of parties and claims, discovery, motions, trial, post-trial matters, and the binding effects of adjudications.
Offered: Resident

LAW 525 Lawyering Skills I 2 Credit Hours
LAW 525 Lawyering Skills I (2 hours) An introduction to the law library and basic legal research; interviewing clients; drafting basic pleadings; fundamentals of legal writing; fundamentals of statutory and case analysis; oral communication skills; drafting an objective memorandum of law.
Offered: Resident

LAW 526 Lawyering Skills II 1-3 Credit Hours
LAW 526 - Lawyering Skills II (3 hours) Prerequisite: LAW 525
A continuation of Lawyering Skills I with an increased level of sophistication in researching, analysis and writing; drafting basic transactional documents; drafting a memorandum of law; oral argument. (Research component of this course to be taught during an intensive week prior to the start of the spring semester.)
Offered: Resident

LAW 531 Constitutional Law I 3 Credit Hours
LAW 531 - Constitutional Law I (3 hours) An analysis of the basic principles of constitutional law, including the nature of a written constitution, the covenantal framework of the U.S. Constitution, the Marshall legacy and judicial review, theories of interpretation, and principles of interpretivism. Emphasis is given to the distribution of governmental powers in the federal system; separation of powers; the federal commerce, taxing, and foreign affairs powers; intergovernmental relations; due process; and equal protection.
Offered: Resident

LAW 532 Constitutional Law II 3 Credit Hours
LAW 532 - Constitutional Law II (3 hours) Prerequisite: LAW 531
A study of the history and development of the first amendment and the body of constitutional law including the doctrines of freedom of speech, press, peaceable assembly, the right to petition the government for the redress of grievances, and the religion clauses.
Offered: Resident

LAW 535 Criminal Law 3 Credit Hours
LAW 535 - Criminal Law (3 hours) An introduction to the general principles, sources, and purpose of criminal law, including the following doctrinal issues that apply to crimes in general: the act requirement, the mens rea requirement, causation, liability for attempted crimes, accomplice liability, defenses, and criminal code interpretation.
Offered: Resident
LAW 541 Criminal Procedure 3 Credit Hours
LAW 541 - Criminal Procedure (3 hours) An introduction to the limitations imposed on law enforcement activities by the Fourth, Fifth, and Sixth Amendments of the U.S. Constitution as applied to the states through the Fourteenth Amendment. The course considers the criminal justice process from investigation through arrest and initial court appearance.
Offered: Resident

LAW 542 Advanced Criminal Procedure 3 Credit Hours
LAW 542 - Advanced Criminal Procedure (3 hours) Prerequisite: LAW 541 This course examines the process of the adjudicatory stages of criminal procedure, beginning with the pre-trial detention and continuing through trial and sentencing. Topics that will be covered in this course include: pre-trial detention, initiating the charging decision, bail and pretrial release, grand jury practice, discovery, the plea, speedy trial rights, right to counsel, trial by jury, the criminal trial, double jeopardy, sentencing, and post-conviction relief. For a student pursuing a career with a concentration in criminal practice, this course is best taken immediately subsequent to Criminal Procedure and prior to a criminal law externship.

LAW 545 Evidence 3 Credit Hours
LAW 545 - Evidence (3 hours) An introduction to the law of evidence and the rules and principles governing its admission within the context of the adversarial trial system. Emphasis is placed upon mastering the Federal Rules of Evidence, examination and cross-examination of witnesses, functions of the judge and the jury, and burden of proof. (NOTE: This course is a prerequisite for Virginia Third-Year Practice.)
Offered: Resident

LAW 561 Business Associations 4 Credit Hours
LAW 561 - Business Associations (4 hours) An examination of agency, partnership, and corporation concepts with emphasis on the rights and obligations of partners; and the formation, management, and operation of for-profit and nonprofit corporations.
Offered: Resident

LAW 565 Professional Responsibility 2 Credit Hours
LAW 565 - Professional Responsibility (2 hours) A study of the authority and duties of lawyers in the practice of their profession as advocates, mediators, and counselors; and of their responsibility to the courts, to the bar, and to their clients, including a study of the various ABA standards of professional conduct. (NOTE: This course is a prerequisite for Virginia Third-Year Practice; it must be taken in the spring semester of the student's second year or during an intensive session.)
Offered: Resident

LAW 571 Lawyering Skills III 2 Credit Hours
LAW 571 - Lawyering Skills III (2 hours) Prerequisite: LAW 526. Students continue the pretrial development of a case. A major focus is on drafting and arguing pretrial motions, in particular motions in limine in a civil trial. Students also further develop skills of interviewing and witness preparation, examining witnesses, negotiating settlements and pretrial agreements. The planning portion of the course focuses on drafting documents necessary for the effective establishment and operation of one or more business organizations.
Offered: Resident

LAW 572 Lawyering Skills IV 2 Credit Hours
LAW 572 - Lawyering Skills IV (2 hours) Prerequisite: LAW 571. Students review and then practice the major steps in the pretrial litigation process, including litigation planning, informal fact investigation, legal research, and all facets of discovery. Each student prepares requests for documents, interrogatories, and requests for admissions. Each student also conducts and defends a deposition of one of the parties or witnesses in a case. Students also draft and argue a motion to dismiss in a criminal trial.
Offered: Resident

LAW 575 Wills, Trusts, and Estates 3 Credit Hours
LAW 575 - Wills, Trusts, and Estates (3 hours) A study of the basic devices in gratuitous transfers, including the will and trust; selected problems in class gifts, and will and trust substitutes; and social restrictions upon the power of testation, the formation of property interests, and the trust device.
Offered: Resident

LAW 580 Statutory Interpretation 1 Credit Hour

LAW 581 Jurisprudence 3 Credit Hours
LAW 581 - Jurisprudence (3 hours) An introduction to the many schools of jurisprudence. Jurisprudence is the study of legal philosophy. Particular emphasis is given to formulating principles of a distinctively Christian jurisprudence and on reading primary materials. (NOTE: This course is offered in the spring semester of odd-numbered years.)
Offered: Resident

LAW 582 Law and Economics 2 Credit Hours
LAW 582 - Law and Economics (2 hours) Law and economics as a jurisprudential theory seeks to apply neoclassic economics concepts to the law. Law and economics tends to be both positive (explaining rules in terms of economics concepts) and normative (arguing that legal rules should promote economic efficiency). This course considers a variety of subject areas in order to provide a critique of law and economics from the perspective of the distinct mission of Liberty University School of Law. Possible subject areas for consideration include: property, contracts, constitutional law, human rights, family law, tort law, criminal law, employment law, corporate law, securities regulation, and taxation.
Offered: Resident
LAW 585 - Legal History (3 hours) An examination of the nature and meaning of the legal past, particularly the Western legal tradition, with a primary focus on the historical relationship between church and state; and the biblical and theological foundations of the Western legal tradition and the English Common Law heritage. (NOTE: This course is offered in the spring semester of even-numbered years.)

Offered: Resident

LAW 591 - Taxation of Individuals (3 hours) An introduction to the federal income tax system. Topics include items of inclusion and exclusion from gross income, deductions from gross income, capital gains and losses, basic tax accounting, and the identification of income to the appropriate taxpayer. The course gives consideration to the private attorney's role in administering the tax law and in advising clients on the interaction of the tax law with their businesses, investments, and personal activities. This course must be taken in the fall or spring semester of the student's second year or in the fall semester of the student's third year.

Offered: Resident

LAW 595 - Lawyering Skills V (3 hours) Prerequisites: LAW 545, 572. The basics of trial advocacy. There is an emphasis on mastering certain litigation and trial tasks; paying attention to detail; and precision in analysis, thought, expression, and communication.

Offered: Resident

LAW 601 - Family Law (3 hours) A general introduction to the nature and regulation of family associations. This course focuses on the relationships of husband and wife as well as parent and child. It addresses moral, legal, and biblical issues relating to marriage, divorce, and custody, including international and American developments involving same-sex unions.

Offered: Resident

Offered: Resident

LAW 608 - Adoption Law (2 hours) The course explores fundamental issues in adoption law from both international and domestic perspectives. It will examine on a comparative basis the legal relationship among children and families across continents and in the state. Students will understand the legal framework of adoption laws in states such as Virginia, Florida, Georgia, North Carolina and a few selected states, as well as processes and procedures involving adoptions in general. Students will also learn, on a step-by-step basis, how adoption treaties in private international law are interpreted and applied in U.S. Courts. The course will further examine issues in assisted reproduction using reproductive technology. The learning process will involve practical hands-on approach including problem solving, case law review and analysis of domestic rules and procedures for the recognition of foreign judgments in U.S. courts.

Offered: Resident

LAW 610 - Child Abuse and the Law (2 hours) Prerequisites: LAW 535, 541, 545. This is a course designed for students interested in public service and working on behalf of abused children. Students who enroll in this course will have diverse practice interests such as, being a criminal or civil child abuse prosecutor, guardian/attorney ad litem, child protection attorney, or public interest lawyer. The course is designed to provide an overview of the prosecution process in civil and criminal cases involving child abuse and neglect. Students will learn the internal path of both a criminal child abuse case as well as the civil process for protecting children from further abuse or neglect. This course will explore the necessity of working with a multidisciplinary team of professionals in preparing a case for the court process as well as the necessary skills needed to communicate with child victims. The course will require observation of a criminal or civil child abuse case. Ethical responsibilities of prosecution will be addressed.

Offered: Resident

LAW 615 - Taxation of Estates and Gifts (3 hours) Prerequisite: LAW 591. An in-depth study of federal taxation of wealth transmission, including estate and gift taxes.

Offered: Resident

LAW 621 - Estate Planning (3 hours) Prerequisites: LAW 575, 591, 615. An overview of the estate planning process, including considerations entering into the structure and completion of an estate plan. This course includes a discussion of the information-gathering process and the preparation of such estate planning documents as wills, trusts, and durable powers of attorney. It also includes a consideration of the various methods that may be used to reduce estate taxes for the client, both through lifetime and testamentary planning.

Offered: Resident

**LAW 654 Business Planning**

Offered: Resident

**LAW 655 Bankruptcy**

LAW 655 - Bankruptcy (3 hours) Prerequisite: LAW 561. A course covering the history and philosophy of the Bankruptcy Acts and Bankruptcy Rules as interpreted by the United States Supreme Court and the other inferior courts. It includes relief under chapters 7, 11, and 13 of the Bankruptcy Code; complaints; motions; and applications. It deals extensively with the rights and duties of debtors and creditors.

Offered: Resident

**LAW 661 Intellectual Property**

LAW 661 - Intellectual Property (3 hours) An introduction to the basic principles of the law of copyrights, trademarks, patents, and unfair competition. An overview of the U.S. legal systems that protect creations of the mind: inventions, trade secrets, artistic creations, computer software, brand names, and image/persona, with primary focus on patent, copyright, trademark, and trade secret law. It serves as a basic building block for more advanced intellectual property courses.

Offered: Resident

**LAW 662 Intellectual Property Clinic 1**

LAW 663 Intellectual Property Clinic 2

**LAW 665 Entertainment Law**

LAW 665 - Entertainment Law (2 hours) An introduction to the basic legal, business, and financial aspects of the entertainment industry including comparisons and contrasts between the motion picture, television, literary, music, and digital industries. In addition to covering general legal concepts relevant to the entertainment industry, students will achieve an understanding of selected topics and transactions germane to this area of law. Customs and practices within the entertainment industry and various legal scenarios will be examined.

Offered: Resident

**LIFE Coaching (LIFC)**

**LIFC 501 Introduction to Life Coaching**

This course serves as an introduction of professional coaching from a Christian perspective with special attention given to coaching theories, practice, skills, and various coaching specialties.

**LIFC 502 Advanced Life Coaching Skills**

Life coaching is a rapidly growing field that is a natural complement to the counseling profession. It involves guiding an individual as they explore the requisite skills, knowledge, confidence, and goals that they will need to become proficient and successful in the area(s) in which they are being coached. This course will address some of the more advanced skills with which the experienced life coach should become adept.

**LIFC 601 Health and Wellness Coaching**

This course serves as a further exploration of an aspect of professional coaching that includes wellness. This course will examine health and wellness from a Christian perspective with special attention given to a biblical foundation of health and wellness coaching.

**LIFC 602 Marriage Coaching**

Marriage Coaching is a rapidly growing practice that involves mentoring or guiding a couple as they explore the requisite skills, knowledge, confidence, and goals that they will need to become proficient and successful in the area(s) in which they are being coached. This course will address some of the more advanced skills with which the Marriage Coach should become adept.

**LIFC 603 Financial Life Coaching**

This course provides the framework to the structure and strategy surrounding financial life coaching. Special attention will be given to personal financial strategies for navigating spending, debt, and investing.

**LIFC 604 Leadership Professional Life Coaching**

This course provides the framework to the structure and strategy surrounding Leadership Professional Life Coaching. Special attention will be given to leadership strategies for navigating project management, cultural awareness, inter-generational issues, and balancing work and home life.

**Management (MGMT)**

**MGMT 501 Executive Leadership and Management**

This course provides a comprehensive perspective on leadership and management, from both an historical and current practices perspective. The link between management and leadership is examined and the application of leadership theory is explored.

Offered: Online

**MGMT 527 Leading Project Teams**

Prerequisites: BMAL 590 or Meets BMAL590 / 27 hrs in BUSI with a score of 3

Description: This course provides an analysis of effective team-based leadership practices in a project environment. Topical coverage includes creating high-performance teams, managing team conflict, motivating teams, and empowering teams for the successful completion of projects. Key principles of effective team leadership are cross-referenced with PMBOK concepts.

Offered: Online
MGMT 602 Non-Profit Management  3 Credit Hours
Leaders of nonprofit organizations must understand their role in the diverse political, social and economic contexts in which they will lead. This course provides a comprehensive understanding of how to lead a nonprofit organization. Students will examine governance, key concepts and the stakeholders involved in nonprofit management.

Offered: Online

MGMT 610 Risk Management  3 Credit Hours
Prerequisites: BUSI 681
This course explores the area of risk management in project management contexts, and is cross-referenced with PMBOK concepts. Topical coverage includes: principles and concepts of risk management, the processes of risk management, planning risk management, critical success factors for effective risk management, and performing qualitative and quantitative risk analysis.

Offered: Online

MGMT 620 Project Evaluation & Assessment  3 Credit Hours
Prerequisites: BUSI 681
In this course students will have the opportunity to learn to plan, design, implement, assess and report project performance. Project management will be examined from the perspective of project funding and support, project supervision, and participatory evaluation methods. Examines stakeholder analysis and techniques for reporting performance results.

Offered: Online

MGMT 625 Project Planning & Scheduling  3 Credit Hours
Prerequisites: BUSI 680 and BUSI 681
This course explores the area of project planning and scheduling, and is cross-referenced with PMBOK concepts. Topical coverage includes: defining the work breakdown structure, addressing work breakdown structure quality, and key considerations when creating the work breakdown structures. Coverage also includes principles and concepts of the scheduling model, best practices for scheduling, developing a project schedule, and the components of a schedule.

Offered: Online

MGMT 645 Quality Management  3 Credit Hours
Prerequisites: BUSI 680 and BUSI 681
This course explores the area of quality management, and is cross-referenced with PMBOK concepts. Topical coverage includes: foundations of quality, the contemporary application of quality concepts, quality paradigms, tools for managing project quality, and quality in practice. Current best practices in quality management will also be discussed.

Offered: Online

MGMT 651 Agile Project Management  3 Credit Hours
Prerequisites: BUSI 681
This course explores the core values and principles of agile project management. Topical coverage includes: agile methodologies, the relationship between defined and empirical processes, best practices and latest agile approaches.

Offered: Online

MGMT 690 Capstone, Project Management  3 Credit Hours
Prerequisites: MGMT 620 and MGMT 625 and MGMT 645
In this course, students integrate the concepts, techniques, and knowledge of the principal components of project management in a comprehensive, applied case study exercise. Course topics include project planning, project scope management, risk management, project scheduling and estimation, and project assessment.

Offered: Online

Marketing (MRKT)

MRKT 600 Applied Market Research  3 Credit Hours
Prerequisites: BUSI 520 and BUSI 614
This course will provide learners with the latest theory and practices in marketing research. Building on the knowledge and skills attained in BUSI 614 Marketing Research, students will identify and apply the right techniques appropriate for the context to develop viable action plans for marketing management and (future) clients.

Offered: Online

MRKT 640 Consumer Behavior  3 Credit Hours
Prerequisites: BUSI 520
Students will gain a strong foundation for critical thinking in the area of consumer decision making. A focus will be on the concepts and theories that are used to evaluate and predict consumer behavior, in addition to forecasting and analyzing the demand for products and services.

MRKT 661 Ethical and Legal Issues in Marketing  3 Credit Hours
Prerequisites: BUSI 520 and MRKT 640
This course examines traditional and modern ethical issues facing marketing managers. Students will analyze ethical situations found in marketing research, product liability, advertising, international marketing, competitive intelligence, socially controversial products, consumer privacy, and corporate social responsibility.

MRKT 670 Brand Management  3 Credit Hours
Prerequisites: BUSI 520 and BUSI 612
Students will analyze the function of brand management as it relates to marketing strategy and decisions. Students will study brand concepts in areas of: building sustainable brands, brand equity and brand management strategies.
MRKT 690 Marketing Strategy Capstone 3 Credit Hours

Prerequisites: MRKT 661 and MRKT 600 and (MRKT 670)

This course serves as the capstone for the Masters of Science in Marketing. Students integrate the concepts, techniques, and knowledge of the marketing core concepts. Students will analyze and develop comprehensive marketing strategies. This course may not be substituted for or transferred from another institution. Student must enroll in this course during their last term in the program.

Mathematics (MATH)

MATH 505 Fundamentals of Modern Geometry 3 Credit Hours

Prerequisites: Calculus II & Discrete Math with a score of 5

A treatment of the foundations of modern Euclidean geometry and an introduction to non-Euclidean geometries with emphasis on hyperbolic geometry. The course focuses on demonstrating and explaining geometric concepts through axiomatic methods.

Offered: Online

MATH 510 Applied Linear Algebra 3 Credit Hours

Prerequisites: Calculus II & Discrete Math with a score of 5

This course focuses on developing an understanding of vector spaces their transformations as is revealed by the theory of linear algebra and matrices through both examples and proofs.

Offered: Online

MATH 520 Abstract Algebraic Systems 3 Credit Hours

Prerequisites: MATH 510

This course focuses on developing an understanding of basic algebraic concepts and the structures of groups, rings, fields and homomorphisms through both examples and proofs.

Offered: Online

MATH 530 Foundations of Multivariable Calculus 3 Credit Hours

Prerequisites: MATH 510

This course focuses on developing an understanding of multivariate calculus and its structure as well as how it applies to the study of functions and analytic geometry through both examples and proofs.

Offered: Online

MATH 595 Directed Research 3 Credit Hours

MATH 595 - Directed Research (1 to 3 hours)

MATH 597 Seminar 3 Credit Hours

MATH 597 - Seminar (1 to 3 hours)

Military (MILT)

MILT 525 Advanced Resilience for Leaders and Caregivers 3 Credit Hours

An advanced graduate study of the key definitions and factors related to how leaders and caregivers create and maintain resilience in themselves and others, focused on the military culture with broad applications to the general population. Topics include the impacts of suffering and trauma on followers, leaders, and caregivers; the Resilience Life Cycle®, disciplines of replenishment for leaders and caregivers, evidence-based research surrounding resilience protocols, and a holistic approach to spiritual equipping for leaders and caregivers.

MILT 575 Resilient Marriage and Family 3 Credit Hours

This course studies the impact of military culture on service members and their families. It addresses precepts essential to the development of healthy and resilient military marriages and families. Topics include pre-deployment preparation, deployment, post-deployment reintegration, therapeutic needs, domestic violence, substance use, infidelity, divorce, and the impact of injury and death. Special emphasis is given to understanding, intervening, and treating the stresses and challenges of military families.

MILT 625 Military Career and Community Transition 3 Credit Hours

This graduate course examines the two primary transitions of military life: the reintegration challenges that recently deployed military members encounter as they blend back into family, community, church, and a peacetime setting; and the transition from military to civilian life and career. Students will identify and critique strategies meant to facilitate a positive adjustment, while exploring possible Biblical and Christian interventions to support veterans in this transition back into family and community life as well as new careers. Specific course content will focus on the role of the caregiver or helping profession. Special focus will be given to providing resources and various avenues of assistance to these military service men and women who may not know of these services.

MILT 675 Advanced Military Mental and Behavioral Health 3 Credit Hours

This course will cover advanced assessment and treatment of military mental and behavioral health issues, including Posttraumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), and related stressors. Topics to be covered include ‘best practices’ for treating depression, suicidal ideation, addictions, and other prevalent mental and behavioral disorders.

Modern Languages (MLAN)

MLAN 519 Second Language Acquisition 3 Credit Hours

A study of the foundations of second language acquisition (SLA), including the theories, research, as well as the cross cultural, cross-linguistic, psychological, and personality components inherent in SLA; students explore strategies for second-language acquisition and assessment.
Music (MUSC)

MUSC 510 Foundations of Music Education 3 Credit Hours
This course provides an overview to the foundational principles, philosophies, and practices in music education. Topics emphasized are: purposes of school music; students as music learners; content and structure of school music programs; and music teacher knowledge and skills. Identification of personal qualities and professional competencies of excellent music teachers will also be discussed.

MUSC 514 Basic Conducting 3 Credit Hours
Basic instruction in conducting techniques for worship leaders in traditional and non-traditional worship settings. Knowledge and skill areas include: posture and hand position, baton usage, foreign and mechanical terms, conducting gestures and patterns, basic score interpretation, and rehearsal management and technique.

Offered: Online

MUSC 515 Graduate Conducting 3 Credit Hours
Prerequisites: MUSC 514 or WRSP 010
Intermediate and advanced instruction in choral and instrumental conducting techniques for music educators. Knowledge and skill areas stressed are a review of conducting gestures and patterns; advanced score interpretation, rehearsal management and technique, special challenges in choral and instrumental contexts.

MUSC 516 Advanced Graduate Conducting 3 Credit Hours
Prerequisites: MUSC 515
This course is a continuation of WMUS 515 OR MUSC 515 and focuses on developing advanced instruction in conducting techniques in traditional and non-traditional settings. Specific attention is given to the role of the conductor in practical contexts, including 21st century evangelical worship, professional orchestral/choral organizations, and elementary, secondary, and collegiate educational systems.

MUSC 522 Introduction to Music Theory 3 Credit Hours
In this course, students learn foundational principles of music theory including: notes, rhythms, intervals, chord construction, and harmonic progressions. Basic arranging and analytical techniques are also explored related to traditional, classical, and popular music styles. This course is designed to prepare students for MUSC 524 or WMUS 524.

Offered: Online

MUSC 524 Analytical Techniques 3 Credit Hours
Prerequisites: MUSC 522
This course is a foundational course for graduate contemporary music theory practices. Systematic and empirical investigations into formal and compositional procedures of selected masterworks from the tonal repertoire. The study includes a thorough investigation of jazz and extended harmonies used in contemporary popular music. Students continue to learn and apply analytical technique to various music styles. Melodic concepts and music form are explored in the literature from historical music periods and compared to present popular music literature and practice. Lectures lead to individual analytical projects. Principles of harmonic function are taught and applied to representative historical and popular music forms.

Registration Restrictions: Students must successfully complete the Graduate Music Theory.

MUSC 525 Advanced Contemporary Arranging Techniques 3 Credit Hours
Prerequisites: MUSC 630
This course is designed to teach and develop advanced skills as an arranger of vocal and instrumental ensembles. Chord chart writing and arranging techniques relevant to the rhythm section (keyboards, bass, guitar, drums, and percussion) and contemporary rhythm idioms will be explained and studied. Students will be expected to demonstrate skill in scoring for pop/rock bands, orchestras, singers, and choirs. A major worship arranging project is required.

MUSC 531 Bibliography and Research in Music Education 3 Credit Hours
Bibliographic research in the field of music education. Students will identify, access, evaluate and interpret music education resources and materials while performing research on music education topics.

**MUSC 550 Applied Music**

Guitar: Graduate level applied guitar lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Piano: Graduate applied piano lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Voice: Graduate level applied vocal lessons. Instruction includes technical exercises, review of literature, and development of music reading and performance skills in classical and contemporary styles. Woodwinds: Continuation of applied lessons at the graduate level in the woodwind instruments of band and orchestra (Clarinet, Flute, Saxophone, Oboe or Bassoon). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Brass: Continuation of applied lessons at the graduate level in the brass instruments of band and orchestra (Trumpet, Trombone, Tuba, and Horn). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Strings: Continuation of applied lessons at the graduate level in the string instruments of band and orchestra (Violin, Viola, Cello, Bass, Harp). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Percussion: Continuation of applied lessons at the graduate level in the drum set and/or orchestral percussion (Timpani, Snare, Mallet Instruments, and Various Orchestral Percussion). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Conducting: Graduate applied conducting lessons. Instruction includes technical exercises in conducting gestures as well as mentoring in score study and ensemble leadership.

**MUSC 560 Ensemble Pedagogy**

Prerequisites: MUSC 589

Students study basic rehearsal techniques, synthesize rehearsal methodologies, and apply written and aural theory through large ensemble experience. Students engage in score analysis detailing expected rehearsal problems with appropriate pedagogical solutions.

Registration Restrictions: Consent of instructor.

**MUSC 589 Graduate Ensemble**

This ensemble is open to all Liberty University graduate students by audition and offers the opportunity to experience and participate in various styles of music. Special attention is given to the preparation and presentations of the Night of Worship (Spring), Christmas on the Boulevard (Fall), and other campus and area events.

Registration Restrictions: Audition or consent of instructor.

**MUSC 560 Ensemble Pedagogy**

Evaluation of various influences contributing to the creation of a unique ‘American’ musical style. Materials are arranged and discussed in a theoretical/historical framework. Diversity of influences investigated include: European, African American, Afro-Cuban, American Indian, Spanish-Mexican, religious, jazz, blues, folk song, popular, and black gospel. Special attention is given to music of the American Colonies and specific musical influences through the 21st century.

**MUSC 630 Principles of Music Technology**

The study of computer applications in music, including: competencies in the use of notation software, music recording software; sequencing; using loops in live and recording applications; integrating midi and digital audio; capturing, editing, and storing digital audio data; multi and single tracking; VSTs; and sound shaping.

**MUSC 640 History and Philosophy of Music Education in America**

In this course, students examine the historical and philosophical development of music education in America traced from its roots in biblical times through recent historical events and trends. Also emphasized are the pedagogical movements in and sociological aspects of music education from the early colonial period through the 21st century. Readings and discussions will emphasize specific subjects including: Ancient Greek music philosophy and aesthetics, music in the medieval universities and the quadrivium, the influences of humanism and the Enlightenment, musical aesthetics related to 19th and 20th century thought, and the current discussion related to aesthetic vs. praxial music educational philosophies.

**MUSC 650 Research in Music Education**

The purpose of this course is to acquaint students with a variety of research that informs music education in preparation for the final capstone curriculum project or thesis in music education. As part of this course, students expand their understanding of various research methodologies as related to music education. While developing their scholarly writing skills, students learn to critique and apply research techniques.

**MUSC 660 Performance Pedagogy & Literature**

Students study materials and techniques for teaching beginning and intermediate music students of various ages in class and private lesson settings. Students also explore issues relevant to the advanced performer, such as handling of performance anxiety, physical and psychological well-being, and concerns related to advanced technique. Includes a segment on technological tools. Special attention is given to teaching group lessons at the college level. Provides practical experience under faculty supervision.

**MUSC 670 Principles of Curricula and Pedagogy for Music Education**

This course helps students engage matters of curricula development and pedagogy through critical evaluation and inquiry. Emphasis is given to curricula and pedagogical models that address practical issues for primary, secondary, and college classrooms.
MUSC 675 Entrepreneurism in Music 3 Credit Hours

Students gain understanding of the individual elements of a business plan, business structures, finance, marketing, management and organizational behavior, and leadership. Students learn entrepreneurial tools particular to the music community, techniques for innovation and creation of new ventures. At the conclusion of the course, students complete a cogent business plan applicable to different endeavors within the community.

MUSC 687 Music Education Curriculum Project 3 Credit Hours

Prerequisites: MUSC 692

This course is designed to provide the student with practical experience in the planning and implementation of a major music education project. This is the completion of the research and curriculum project begun in MUSC 650. In the course, students focus on the development of a site-specific music curriculum, including the philosophical, contextual, and cultural foundations for that curriculum as well as the prospective implementation and assessment of the project. Because the nature of the project is to bring together elements from all previous coursework, it is graded as the Comprehensive Examination for the degree program.

MUSC 689 Masters Thesis Proposal & Research 3 Credit Hours

MUSC 690 Thesis 3 Credit Hours

Prerequisites: MUSC 692

In this course, students complete the Thesis project begun in MUSC 650. The thesis is a comprehensive paper written in a specific music education discipline and selected in consultation between the student and approved faculty. It should illustrate a thorough understanding and mastery of research techniques and demonstrate a level of original discovery suitable for graduate work on the master's level. Students may not enroll in this class until the last semester of graduate work or until all other course requirements for the degree have been successfully completed. (Crosslisted with WRSP 690)

MUSC 691 Lecture Performance Recital 3 Credit Hours

Prerequisites: MUSC 692

This is a faculty supervised, 55-60 minute lecture recital program. The student must demonstrate the ability to conduct or perform appropriate repertoire for 50 percent of the recital. The student must demonstrate the ability to lecture about their selected repertoire for 50 percent of the recital. Preparation of the recital must demonstrate completion of a serious, formal research paper that documents the repertoire selected, historical information about composers and songwriters, and rationale for stylistic representation.

MUSC 692 Graduate Music Comprehensive Exam 0 Credit Hours

The comprehensive exam/defense is a zero credit written and oral examination that serves as a culminating assessment for the MA in Music Education. The comprehensive exam will be based on courses taken in their distinct MA in Education program, online or residential. The exam is taken as a prerequisite to the Thesis, Lecture Performance Recital, or Curriculum Project. A Pass/Fail Committee decision for the Comprehensive Exam/Oral Defense will be placed in the student’s official file, noted on the DCP Audit, and appear on the student’s transcript.

MUSC 695 Graduate Research in Music 3 Credit Hours

Offered: Resident

MUSC 697 Seminar in Music 1-3 Credit Hours

National Security (NSEC)

NSEC 501 National Security Structure and Responsibilities 3 Credit Hours

This course provides an in-depth look at the National Security Council and subordinate organizations like DoD, DHS, DOJ, DNI, and other related departments. Topics include areas of national security and military actions, the use and development of intelligence programs, homeland security basics, and the requirements of these agencies based on the 2001 Patriot Act and the 2004 Intelligence Reorganization and Terror Prevention Act. The course considers the elements of national power and their application to national security.

Offered: Online

NSEC 502 Christian Values in National Security 3 Credit Hours

Prerequisites: NSEC 501

This course examines Christian moral challenges in the national security structure, addressing Biblical aspects of government and dilemmas facing Christians in national security challenges, morals and ethics in war, covert action, and peacetime, and the ethics involved in intervention policies. The course considers the Christian approach, collectively and individually, to national defense and intelligence operations.

Offered: Online

NSEC 503 National Security, National Defense, & Foreign Policy 3 Credit Hours

Prerequisites: NSEC 501

This course provides a comprehensive overview of the U.S. military and homeland defense structures, relationships and challenges. The course reviews the missions and strategies of the organizations, how each area of security works together with the other aspects of government, and the integration of intelligence capabilities across the spectrum of government actions.

Offered: Online
NSEC 504 Historic Lessons of National Security in War & Peace
Prerequisites: NSEC 501
This course examines historic successes and failures in the application of national security, and discusses deterrence postures in WMD, the onset of cyber threats and operations, and future threats based on historic successes and failures. The course considers intelligence successes and failures in a historic context.
Offered: Online

NSEC 505 Cyberspace Policy/Operations & Political Challenges
Prerequisites: NSEC 501
This course looks at the current lack of cyber policy, and government operations in cyberspace and how politics creates challenges. Students develop the requirements for a national cyber strategy and review the strategies of the major players in cyber defense, primarily DoD, DHS, FBI, and critical infrastructure organizations. The course considers the issues of cyber sovereignty, international threats and opportunities, and future challenges.
Offered: Online

NSEC 506 Sovereignty & National Security Challenges
Prerequisites: NSEC 501
This course discusses the issues related to national security and the concept of national sovereignty. Answers the questions on the security implications of national sovereignty, especially in the global marketplace and the ubiquitous application of internet and cyber capabilities. Discusses potential threats to US sovereignty, and the US responsibility in areas of sovereignty with other nations, both allied and non-allied.
Offered: Online

NSEC 507 Terrorism & National Security
Prerequisites: NSEC 501
This course discusses the political challenges to developing national security capabilities against the threat of terrorism. Examines what military and intelligence organizational changes are needed to combat the continual threat of terrorism to US citizens, and the roles of the FBI, DHS, and DoD in protecting citizens. Considers the challenges of protecting our critical infrastructure from terrorist threats, ranging from the lone wolf to large scale terrorist operations.
Offered: Online

NSEC 689 Thesis Proposal and Defense
Prerequisites: NSEC 501 and NSEC 502 and NSEC 503 and NSEC 504 and NSEC 505 and NSEC 506 and NSEC 507
Prerequisites: Completion of all core and elective degree coursework
This course is designed to help students complete their master's thesis in National Security. It is expected that research for the thesis project will be relevant to the student's study in the master's program and will make an academic contribution to the research in national security.
Offered: Online

NSEC 690 Thesis Defense
Prerequisites: NSEC 689
Intended to demonstrate a student's ability to carry out original research. Thesis may be designed to answer practical research questions, or address theoretical or ethical issues of interest to scholars and professionals in the field of national security. Credit is not awarded until the thesis has been accepted.
Offered: Online

New Testament Bible Studies (NBST)

NBST 500 The New Testament World
Prerequisites: NSEC 501
An intensive investigation of the historical, literary, and cultural milieu in which the New Testament revelation was given. Special attention will be given to the inter-testamental, Egyptian, Greek, and Roman sources that provide a framework for the understanding of the New Testament.

NBST 510 New Testament Introduction
Prerequisites: NSEC 501

NBST 515 New Testament Orientation I
Prerequisites: NSEC 501
A general introduction to the New Testament Gospels, General Epistles, and Revelation, emphasizing matters of text, canon, authorship, date, authorial purpose, and theme development. Also a special introduction, involving current issues of criticism and interpretation, such as the synoptic problem. The general principles of interpretation (hermeneutics) will be introduced as well as the special principles concerning parables, symbols and types, and prophecy.

NBST 520 New Testament Orientation II
Prerequisites: NSEC 501
A continuation of NBST 521 with a general and special introduction of Acts and the Pauline Epistles. The study of hermeneutics will continue with emphasis upon word meaning, figures of speech, and other linguistic matters.

NBST 595 Directed Research
Offered: Resident
NBST 610 Hermeneutics 3 Credit Hours
An advanced course in hermeneutics including a study of the history of interpretation, both biblical and extra-biblical, and an examination of the current status of various interpretive approaches to the Scriptures.

NBST 611 Life of Christ 3 Credit Hours
Using a harmony of the Gospels as a basis, the life of Christ will be studied in the light of its historical background, geographical setting, political situation, and religious conditions. Special emphasis will be given to His mission and His message.

NBST 615 John 3 Credit Hours
An intensive exegetical study of the Gospel of John, including an investigation of the uniqueness of this Gospel compared with the synoptic Gospels, and a study of the life and teachings of Christ which are distinctive in this Gospel.

NBST 616 Acts 3 Credit Hours
An intensive study of the book of Acts, emphasizing its foundational importance to the New Testament epistles and showing the origin and establishment of the church. Attention is also given to the historical, geographical, and political background for Acts and the book’s doctrinal significance for the church today.

NBST 617 Romans 3 Credit Hours
An intensive exegetical study of Paul’s epistle to the Romans. The study includes an investigation of the doctrines of justification, sanctification, and proper Christian conduct. Advanced language students will be given opportunity to use their Greek skills. A verse-by-verse exposition will follow a brief study of authorship, background, destination, and purpose.

NBST 618 The Corinthian Correspondence 3 Credit Hours
An expositional study of the two letters of Paul to Corinth. Special attention is directed to discovering the major doctrinal themes developed by Paul and how these are applied to the numerous personal and institutional problems of the first-century Gentile church.

Offered: Online

NBST 620 Pastoral Epistles 3 Credit Hours
An expository treatment of the epistles to Timothy and Titus, emphasizing the responsibilities of church leaders as stewards in God’s household. Attention is given to such introductory matters as date, authorship, occasion, and purpose.

Offered: Online

NBST 621 Hebrews 3 Credit Hours
An intensive exegetical study of Hebrews. The course includes an investigation of the doctrines of Christ, especially His mediatorialship and priesthood and the use of the Old Testament in this book. A verse-by-verse exposition will follow a brief study of authorship, background, destination and purpose.

NBST 623 I and II Peter 3 Credit Hours
An intensive study of I and II Peter. Attention is directed to discovering the major doctrinal themes developed by Peter, and how these are applied to the personal and institutional problems of the first-century church. Application will also be made to the personal and spiritual life of each class member and to the contemporary church.

NBST 625 Revelation 3 Credit Hours
An intensive historical, doctrinal, and critical study of the text of the book; the interpretation of the messages and visions of the Apocalypse with a consideration of the various approaches to the interpretation of this book.

NBST 640 Apologetics and the New Testament 3 Credit Hours
Prerequisites: APOL 500 and NBST 610
An investigation of key issues in the study of the New Testament with a focus upon defending the truthfulness of the New Testament. Focused attention will be given to the Synoptic Problem, historical Jesus studies, the historicity of Acts, as well as theories of the development of New Testament Christology and claims of early, competing Christianities.

NBST 660 New Testament Development of Old Testament Themes 3 Credit Hours
An intensive study of how historical, exegetical, and theological themes of the Old Testament are developed in the New Testament. Special attention will also be given to how the hermeneutics of the New Testament writers should impact Christian interpretation of Scripture. (Crosslisted with OBST 680)

Offered: Online

NBST 695 Directed Research in New Testament Biblical Studies 3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of the New Testament.

NBST 697 Seminar in New Testament 3 Credit Hours
An intensive study in a specific subject of the New Testament. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

New Testament Greek (NGRK)

NGRK 505 Greek Language Tools 3 Credit Hours
An introduction to the biblical Greek alphabet, word formation, the verbal system, and syntax. Emphasis is placed on developing skills in the use of concordance and lexicons, as well as the use of various linguistic helps and differing English translations. (Formerly NGRK 506)
### NG RK 511 Advanced Greek Language Tools 3 Credit Hours
An enhancement and development of the exposure to Greek word formation, the verbal system, and syntax. Emphasis is placed on developing skills for the use of various linguistic helps in performing Greek language word studies (semantic range studies and semantic domain studies). Pragmatic use of Greek for Bible exposition is emphasized.

**Offered:** Resident and Online

### NG RK 520 Beginning Greek I 3 Credit Hours
Introduction to Greek grammar, vocabulary, and pronunciation for the beginning student. (Formerly NGRK 500)

### NG RK 525 Beginning Greek II 3 Credit Hours
**Prerequisites:** NGRK 500 or NGRK 520
Continuation of Beginning Greek I. The student completes the study of grammar and begins a study of translation of the New Testament. (Formerly NGRK 501)

**Offered:** Online

### NG RK 620 Greek Syntax 3 Credit Hours
**Prerequisites:** (NGRK 520 or NGRK 500) and (NGRK 525 or NGRK 501)
An intermediate study of the function or syntax of Greek grammar, focusing upon case, tense, participles, infinitives, and clauses.

**Offered:** Online

### NG RK 643 Greek Exegesis: Galatians 3 Credit Hours
**Prerequisites:** NGRK 620
A careful investigation in Greek of the argument of the book of Galatians. (Formerly NGRK 660)

**Offered:** Online

### NG RK 644 Greek Exegesis Ephesians 3 Credit Hours
**Prerequisites:** NGRK 620
An exegetical analysis of Ephesians emphasizing the mystery of the Church as revealed to the Apostle Paul. (Formerly NGRK 657)

### NG RK 645 Greek Exegesis: Philippians 3 Credit Hours
**Prerequisites:** NGRK 620
An exegesis of Paul's Epistle to the Philippians giving special attention to Christological passages. (Formerly NGRK 670)

### NG RK 646 Greek Exegesis: Colossians 3 Credit Hours
**Prerequisites:** NGRK 620
An exegetical analysis of Colossians emphasizing the doctrinal error being confronted and the Apostle’s delineation of the Christian truth. (Formerly NGRK 654)

### NG RK 650 New Testament Textual Criticism 3 Credit Hours
A study of the materials, history, theories, and principles of textual criticism with application to selected textual problems.

**Registration Restrictions:** Permission of instructor.

### NG RK 675 Advanced Greek Grammar 3 Credit Hours
**Prerequisites:** NGRK 620
An intensive study of the syntax of New Testament Greek involving the reading of advanced level grammars and the inductive study of selected portions of the Greek New Testament.

### NG RK 695 Directed Research in Greek 1-3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of Greek.

**Offered:** Resident

### NG RK 697 Seminar in Greek 3 Credit Hours
An intensive study in a specific area related to the Greek Bible. This course allows variation in the approach and content.

## Nursing (NURS)

### NURS 500 Research 3 Credit Hours
**Prerequisites:** (Research Met (NURS 225) with a score of 3 and Stats Met (MATH 201) with a score of 3) or (BSN Met with a score of 3 and Stats Met (MATH 201) with a score of 3)
This course expands upon research knowledge acquired at the baccalaureate level and focuses on in-depth study of the research process, theory-based research, data collection and analysis methods, and application of nursing and related research findings to nursing practice. The importance of evidence-based practice is emphasized. Quantitative and qualitative methodologies are examined.

### NURS 501 Health Policy and Ethics 3 Credit Hours
This course examines policy decisions and related issues that shape the organization, financing, and implementation of health care services and delivery systems. Ethical, social, and political issues that affect the provision of health care, nursing services, communities, and society are critically analyzed. Dynamics related to the roles and influences of health care providers and consumers, government, and law are discussed. Advanced nursing practice and its impact on policy decision making and health care is emphasized.

**Offered:** Online

### NURS 502 Nursing Theory and Advanced Practice 3 Credit Hours
Emphasis is placed on the critique, evaluation, and utilization of nursing and other relevant theories that apply to advanced nursing practice and a comprehensive approach to care. Professional role development, interdisciplinary relationships, and issues relevant to advanced practice are studied.
NURS 503 Managing Population Health 3 Credit Hours

This course focuses on health behaviors of diverse populations and critical analysis of various theories of health promotion and clinical prevention. Health behaviors of different cultures and age groups are addressed, relevant nursing research on health promotion and clinical prevention are discussed, and new areas for nursing research are identified. Emphasis is placed on the promotion of health, prevention of illness, and environmental factors that impact health status. The importance of providing appropriate, individualized health care that is sensitive to the ethnic, racial, gender and age differences within and across diverse populations is stressed and the role of the advanced practice nurse is emphasized.

Offered: Online

NURS 504 Advanced Pharmacology 3 Credit Hours

Prerequisites: (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3 and NURS 505 and NURS 506) or (BSN Met with a score of 3 and NURS 505 and NURS 506)

This course is designed to expand the advanced practice student’s knowledge of pharmacotherapeutics, which includes the cellular response level, for the management of individuals in the acute care and primary care setting. Broad categories of pharmacologic agents are examined. Skills to assess, diagnose, and manage a client’s common health problems in a safe, high quality, cost-effective manner are emphasized.

Registration Restrictions: BSN, RN or Non-BSN degree, RN with bachelor’s degree in another discipline.

Offered: Online

NURS 505 Advanced Health / Physical Assessment 3 Credit Hours

Prerequisites: (BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course focuses on comprehensive physical assessment which includes in-depth health history, physical and psychological signs and symptoms, developmental stages, pathophysiologic changes, and psychosocial and cultural characteristics of the individual, family, and community as client. Enhancement of communication and observational skills are emphasized along with the development of sensitive and refined interviewing techniques. Students must obtain a master’s prepared nurse preceptor who will proctor their final exam which is a comprehensive head-to-toe physical assessment.

Registration Restrictions: BSN, RN, or RN with bachelor degree in another discipline.

Offered: Online

NURS 506 Advanced Physiology and Pathophysiology 3 Credit Hours

Prerequisites: BSN Met with a score of 3 or (Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3) or (EXSC 510 and EXSC 525)

System-focused content addresses the normal physiologic and pathologic mechanisms of disease that serve as the foundation for advanced clinical assessment, decision-making, and management. Physiologic changes are compared and contrasted over the life span and developmental physiology, normal etiology, pathogenesis, and clinical manifestations of commonly found/observed altered health states and responses to illness and treatment modalities are examined.

Registration Restrictions: BSN, RN or Non-BSN degree, RN and NURS 225, 440, 445, 490 and 491; or EXSC 510 and 525.

Offered: Online

NURS 507 Advanced Acute Adult Care I 3 Credit Hours

Prerequisites: NURS 504 and NURS 505 and NURS 506

This course focuses on advanced nursing skills and assessment related to common developmental, health, and illness changes of adults. The effects of acute illness on the individual and family are also analyzed. In addition, pharmacological, nutritional, and psychosocial management options are examined. Role development as a clinical nurse specialist is discussed. With the assistance of faculty and selected preceptors students design practicums tailored to their individual preferences, professional goals, and objectives for future practice as clinical nurse specialists. Students who choose to focus on teaching based on advanced practice knowledge and expertise within the acute care specialty are guided to integrate specific goals and objectives congruent with the role of nurse educator into their practicums. A clinical contract is developed and established with an approved MSN preceptor; and clinical practicum hours are initiated.

NURS 519 Strategies for End of Life Care 3 Credit Hours

The focus of this course is to explore the multifaceted role of caring for the patient who has reached the end of life. Particular attention is given to providing sufficient knowledge to assure that the student will be prepared to facilitate the patient’s comfort and quality of life. Other areas include ethical / legal issues, cultural perspectives on death and dying, grief, and death. Course content emphasizes the respectful treatment of the entire individual and the delivery of care with the love of Christ. (Elective course)
NURS 521 Nursing Issues, Informatics and Technology 3 Credit Hours

**Prerequisites:** (NURS 501 and BSN Met with a score of 3 and Hlth Assessment Met (NURS 210) with a score of 3) or (NURS 501 and Hlth Assessment Met (NURS 210) with a score of 3 and Research Met (NURS 225) with a score of 3 and Community Met (NURS 440) with a score of 3 and Ldr Management Met (NURS 490) with a score of 3 and Population Hlth Met (NURS 445) with a score of 3 and Nrs Management Met (NURS 491) with a score of 3)

This course prepares students for the rapidly evolving world of health care by addressing topics affecting practice and issues facing future nurse leaders and educators. Changing reimbursement models and their effect on nursing practice will be discussed. Topics related to technology such as tele-health and nursing informatics will be examined. Quality improvement, patient safety, and other topics relevant to contemporary nursing will be explored.

**Offered:** Online

NURS 522 Performance Management in Healthcare 3 Credit Hours

This course will allow students to explore the concepts that support a sound approach to managing performance. Performance management is a proactive and ongoing process which strives to align individual, unit, and/or team performance with the mission, vision, and strategic goals of the organization. When organizational goals are established, performance metrics are created along with a methodical measurement process that will support analysis of performance. Performance management also implies that leaders are managing their individual staff through relationship and rapport building, investment in the ongoing growth of employees, goal setting, motivating and rewarding staff, and giving feedback at regular intervals.

**Offered:** Online

NURS 523 Financial and Resource Management for Nurse Leaders 3 Credit Hours

**Prerequisites:** NURS 521

The course focuses on financial and resource management for the nurse leader. The course provides students the skills and knowledge to perform a variety of functions related to financial and resource management including budgetary functions such as operating, expense, revenue, capital, and performance budgets, planning, controlling, management of costs associated with staff/skill mix, and cost analysis. Key concepts such as strategic management, reimbursement and payor mix, forecasting economic and marketing factors are explored for decision making. Students will be required to perform financial and budgeting operations and spreadsheet analysis using Microsoft® Excel.

**Offered:** Online

NURS 524 Systems Management and Leadership for Nurse Leaders 3 Credit Hours

**Prerequisites:** NURS 523

This course is designed for students who desire to develop skills in the areas of leadership and management who plan to utilize their selected area of advanced practice and knowledge as nurse leaders within healthcare organizations. Students will investigate content areas that will build knowledge and expertise in working with systems theories, high performing work teams, information systems, change theories and theories of organizational behavior. Leadership styles and innovations styles will be explored.

**Registration Restrictions:** Admission to the MSN program.

**Offered:** Online

NURS 600 Evaluation Strategies for Nurse Educators 3 Credit Hours

This course will cover various formative and summative evaluation strategies for assessment of student learning outcomes in the classroom, clinical, and laboratory settings. Attention will be given to social/legal/ethical issues, students with disabilities, and cultural diversity.

**Offered:** Online

NURS 613 Advanced Community Health II 3 Credit Hours

**Prerequisites:** NURS 512

Provides the student with clinical opportunities to apply theories and community health models of care to families and community groups. Emphasis is on the development of the advanced practice role of clinical nurse specialist. Economic, ethical, and political issues relevant to health care delivery to multicultural populations within a variety of community settings are examined. Theoretical and evidence-based practice, collaboration, and current health care climate are addressed. Clinical practicum hours continue.

NURS 617 Nurse Educator I: Advanced Clinical Applications 3 Credit Hours

**Prerequisites:** NURS 504 and NURS 505 and NURS 506 and NURS 521

This course provides the student advanced health assessment skills within a selected population. Biopsychosocial, cultural, spiritual, physical, ethical concepts, and systems theory will be integrated into managing advanced health care needs of the client. Students will apply the nursing process and focus on improving patient outcomes. The theoretical framework for simulation design for nursing education, the nursing process, collaborative learning and guided reflection will be explored to create student-centered educational experiences for attainment of clinical skills and critical thinking. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor prior to enrollment in this course; advanced clinical application practicum hours are initiated in NURS 617. Students must meet all pre-practicum requirements prior to enrollment in NURS 617; refer to Graduate Nursing Handbook for pre-practicum requirements.

**Registration Restrictions:** Admission to the MSN program.

**Offered:** Online
NURS 618 Nurse Educator II: Teaching Strategies 3 Credit Hours

Prerequisites: NURS 617 and NURS 600

This course provides students with a variety of teaching strategies and evaluative approaches designed to promote a productive and effective learning environment. Selected teaching learning theories are examined and applied to the role of nurse educator and nursing education practice. Students establish nurse education practicum goals and objectives and are required to obtain a nurse educator preceptor. Practicum hours involve practical observational and hands-on experiences in both the clinical and classroom environments. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse educator preceptor. Practicum hours are initiated in NURS 618. Students must meet all pre-practicum requirements prior to enrollment in NURS 618; refer to Graduate Nursing Handbook for pre-practicum requirements.

Offered: Online

NURS 619 Nurse Educator III: Curriculum Development 3 Credit Hours

Prerequisites: NURS 618

This course provides students with the fundamental knowledge and requisite skill set needed to effectively design, develop, implement, and evaluate nursing education focused curricula. Current trends in nursing education and accreditation are discussed; philosophies, conceptual frameworks, development of learning goals and objectives are examined and applied. Practicum hours continue.

Offered: Online

NURS 620 Nurse Educator IV: Role of the Nurse Educator 3-6 Credit Hours

Prerequisites: NURS 619

This course is designed for students who elect to utilize their selected area of advanced practice knowledge and related practicum experiences by serving as nurse educators. Students are guided to continue working with preceptors to fulfill clinical and educational objectives that were developed and initiated in NURS 618. A research project that leads to the writing of a scholarly paper suitable for publication is required.

Note: Students admitted in the program prior to Fall 2012, follow the prior Nurse Education track and the course/practicum hours for those students is 6 hours.

Offered: Online

NURS 623 Nursing Administration I: The Role of the Nurse Administrator 3 Credit Hours

Prerequisites: NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521 and NURS 523 and BUSI 610

The practicum course will provide the student an opportunity to explore the role of the nurse administrator within today's health care organizations. Students will examine organizational structure, management theory, professional ethics, and policy, legal and ethical and regulatory issues as a foundation to create a culture of excellence, quality and safety. Students will examine decision making and the role of the nurse administrator within the context of political and power structures, the practice, institutional and physical environments of the organization and external factors. An educational site affiliation agreement with a student selected approved facility is secured and a practicum contract is developed and established with an approved nurse leader preceptor. Practicum hours are initiated in NURS 623. Students must meet all pre-practicum requirements prior to enrollment in NURS 623; refer to Graduate Nursing Handbook for pre-practicum requirements.

Registration Restrictions: Admission to MSN program.

Offered: Online

NURS 624 Nursing Administration II: Organizational Leadership and Management 3 Credit Hours

Prerequisites: NURS 524 and NURS 623

This practicum course will provide students with an opportunity to apply theories of leadership and use of self to develop the leadership and management skills required of the nurse leader. Students will obtain knowledge, skills and abilities to lead and manage a diverse workforce in a complex healthcare environment. Particular emphasis will be on team building, managing conflict, expanding opportunities for effective communication and dealing with change. The role of the leader as a transforming influence will be integrated into the practicum experience that fosters a vision for developing innovations that support positive patient and organizational outcomes.

Offered: Online

NURS 625 Nursing Administration III: Management of Resources 3 Credit Hours

Prerequisites: NURS 624 and BUSI 642

This practicum course will provide the student an opportunity to apply legal, regulatory and ethical considerations in the management of resources. Management of human resources will include topics such as relationship management, staff development, professional performance appraisals, motivation, personnel policies and procedures. Principles of financial, material, and technological resource management will be utilized through collaborative learning opportunities.

Offered: Online
NURS 626 Nursing Administration IV: Nursing Administration Capstone  
3 Credit Hours

**Prerequisites:** NURS 625

This practicum course provides students an opportunity to demonstrate competencies in key elements of the Nurse Administrator role and apply the advanced practice role to a variety of professional practice settings. Students will integrate standards of professional nursing performance, ethical, legal and regulatory compliance to practice during a capstone project and experience.

**Offered:** Online

NURS 627 Practicum I Health Policy Leadership  
3 Credit Hours

The HP I practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities. Typically, the student will complete the practicum at their employing organization.

**Offered:** Online

NURS 628 Practicum II Health Policy Leadership  
3 Credit Hours

The Health Policy Leadership II practicum is designed to provide the student already employed in a healthcare organization with exposure to executive management, leadership, and policy-making processes and activities.

**Offered:** Online

NURS 629 Practicum III Health Policy Leadership  
3 Credit Hours

The Health Policy Leadership III practicum is designed to provide the student already employed in a healthcare organization with exposure to the policy-making processes and activities within the local and/or state levels.

**Offered:** Online

NURS 630 Nursing Informatics Capstone  
3 Credit Hours

**Prerequisites:** NURS 524 and INFO 668

Course description: This capstone course will provide the graduate student with the opportunity to demonstrate mastery of the core competencies of the nursing informatics field (ANA, 2015) through identification of a problem, issue, or need in professional practice. A community assessment will be performed to identify the problem, issue or need at hand. Through consultation with their professor, the graduate student will then create an evidence-based project, to address this area of need through synthesis of advanced knowledge and skills, resulting in a nursing informatics deliverable as a means to foster improved outcomes.

**Offered:** Online

NURS 631 Community Health Practicum I Health Policy Leadership  
3 Credit Hours

**Prerequisites:** NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521

This practicum course is designed to engage the practicing nurse in community health nursing with the goal of promoting and preserving the health of populations. This course recognizes that community health practice is responsible to the community as client with services provided to individuals, families and groups to promote health and prevent disease. Students will apply knowledge and skills regarding comprehensive community assessment and diagnosis, evidenced-based nursing theory and community practice models, analysis of population data, and priority setting. Emphasis is placed on biblical worldview, culturally relevant care and interdisciplinary teamwork. Clinical opportunities within the community setting are initiated.

**Offered:** Online

NURS 632 Community Health Practicum II  
3 Credit Hours

This practicum course is designed to build on practicum experiences from NURS 631 and expand the practicing RN’s engagement within the community setting by considering community concepts and addressing the social determinants of health; with the goal of promoting and preserving the health of populations. RN’s will apply knowledge and skills from nursing practice, nursing courses, and public health sciences to broaden their understanding of caring for a community’s health.

**Offered:** Online

NURS 633 Community Health Practicum III  
3 Credit Hours

This course completes community health practicum experience that continues to build on community focus to include community based management, formulates community goals and objectives, concentrating on evidence-based program planning while expanding population-oriented preventive, therapeutic and rehabilitative models of care.

**Offered:** Online

NURS 668 Health/Wellness Capstone Project  
3 Credit Hours

**Prerequisites:** NURS 501 and NURS 503 and NURS 519

This capstone course is designed for health/wellness majors who are in the last semester of their Health Services graduate degree program. With guidance from the course professor, students will develop a health-oriented educational program, based on current research.

**Note:** Students must be in the final semester of their Health Services degree program.

**Offered:** Online

NURS 695 Independent Study  
1-3 Credit Hours

**Prerequisites:** NURS 500 and NURS 501 and NURS 502 and NURS 503 and NURS 521

This practicum course is designed to engage the practicing nurse in community health nursing with the goal of promoting and preserving the health of populations. This course recognizes that community health practice is responsible to the community as client with services provided to individuals, families and groups to promote health and prevent disease. Students will apply knowledge and skills regarding comprehensive community assessment and diagnosis, evidenced-based nursing theory and community practice models, analysis of population data, and priority setting. Emphasis is placed on biblical worldview, culturally relevant care and interdisciplinary teamwork. Clinical opportunities within the community setting are initiated.

**Offered:** Online
Old Testament Bible Studies (OBST)

**OBST 510 Old Testament Introduction**  
3 Credit Hours  
Deals with the two major subdivisions of OTI: (1) general introduction which involves the matters of text, canon, and the particular question of the date and authorship of the Pentateuch; and (2) special introduction relating to the treatment of the individual books of the Old Testament one-by-one, giving an account of authorship, date, purpose, and integrity. The goal of the course is to provide a basis for an introduction to the tools used in the Old Testament materials in their historical and theological context.

**OBST 515 Old Testament Orientation I**  
3 Credit Hours  
An examination of the current status of research in studies relative to the Pentateuch and Historical Books. Special attention will be given to biblical introduction, hermeneutics, and the acquiring of a strategic grasp of the historical setting, literary genres, and structure of each book, as well as areas of particular critical concern.

**OBST 520 Old Testament Orientation II**  
3 Credit Hours  
An examination of the current status of research in studies relative to the poetic and prophetic books. Special attention will be given to biblical introduction, hermeneutics, and the acquiring of a strategic grasp of the historical setting, literary genres, and structure of each book, as well as areas of particular critical concern.

**OBST 640 Apologetics and the Old Testament**  
3 Credit Hours  
Prerequisites: APOL 500 and NBST 610  
An investigation of key issues in the study of the Old Testament with a focus upon defending the truthfulness of the Old Testament. Focused attention will be given to the historicity of Old Testament narratives, issues in archaeology, and the compatibility of the God of the Old Testament with the God of the New Testament.

**OBST 650 Genesis**  
3 Credit Hours  
An examination of Genesis with particular emphasis on the major themes and events: creation, flood, patriarchal narratives, and the Abrahamic Covenant. Attention will be given to significant historical and archaeological details relative to the cultural milieu as well as to crucial theological concepts found in key chapters in the book.

**OBST 651 Creation, Cosmology and Genesis**  
3 Credit Hours  
An intensive, comparative study of creation issues. Attention will be directed to a proper exegesis of pertinent Genesis texts, to comparing/contrasting the Genesis account to other Ancient Near East creation stories, and to an evaluation of modern theories of creation.

**OBST 655 Joshua-Kings**  
3 Credit Hours  
A survey of the historical books of the Old Testament with a brief special introduction to each, followed by a detailed study of the history of Israel from the era of conquest to the era of restoration. Assigned work in the biblical materials.

**OBST 659 Job-Song of Songs and Lamentations**  
3 Credit Hours  
A survey of the historical background, nature, and purpose of divine revelation in the poetic literature of the Old Testament. An analysis of the form and content of the poetic books of the Old Testament: Job through Song of Solomon, and Lamentations.

**OBST 660 Psalms**  
3 Credit Hours  
An in-depth study of representative types of psalmic materials. Attention is given to questions of historical setting and literary form as they relate to major religious ideas and teachings.

**OBST 661 Isaiah**  
3 Credit Hours  
Careful attention is given to the special introductory aspects of the book: 1) unity, authorship, date; 2) historical background; 3) themes, motifs, or emphasis; 4) purpose(s); and 5) literary features. A detailed exposition of the major portions of the text will be presented, especially the Messianic sections.

**OBST 662 Jeremiah and Ezekiel**  
3 Credit Hours  
A detailed investigation of two of Judah’s great major prophets in the late kingdom and exilic periods, with special emphasis on their historical setting and literary compilation.

**OBST 663 Daniel**  
3 Credit Hours  
An intensive study of the book of Daniel. Attention will be given to the historical setting, questions of date and authorship, the nature of Hebrew prophecy, parallel eschatological passages, and basic teachings. The best critical literature will be utilized.

**OBST 664 Pre-Exilic Minor Prophets**  
3 Credit Hours  
An examination of Israel’s prophets before the fall of Jerusalem in 586 B.C. Attention is given to their historic setting as well as to their message and theological relevance.

3 Credit Hours  
An intensive study of how historical, exegetical, and theological themes of the Old Testament are developed in the New Testament. Special attention will also be given to how the hermeneutics of the New Testament writers should impact Christian interpretation of Scripture. (Crosslisted with NBST 680)

**Offered: Online**

**OBST 695 Directed Research in Old Testament Biblical Studies**  
3 Credit Hours  
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of Old Testament.
OBST 697 Seminar in Old Testament 3 Credit Hours
An intensive study in a specific subject of the Old Testament. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Old Testament Cognate Languages (OTCL)

OTCL 505 Hebrew Language Tools 3 Credit Hours
An introduction to the biblical Hebrew alphabet, word formation, the verbal system, and syntax. Emphasis is placed on developing skills in the use of concordances and lexicons, as well as the use of various linguistic helps and differing English translations.

Prerequisites: OTCL 505

OTCL 511 Advanced Hebrew Language Tools 3 Credit Hours
An enhancement and development of the exposure to Hebrew word formation, the verbal system, and syntax. Emphasis is placed on developing skills for the use of various linguistic helps in performing Hebrew language word studies (semantic range studies and semantic domain studies). Pragmatic use of Hebrew for Bible exposition is emphasized.

Offered: Online

OTCL 520 Beginning Hebrew I 3 Credit Hours
The basic elements of Hebrew grammar with stress upon morphology and vocabulary.

Offered: Online

OTCL 525 Beginning Hebrew II 3 Credit Hours
A study of Hebrew tools and syntactical principles that will serve as guides to sound exegetical procedure.

Prerequisites: OTCL 520

OTCL 640 Hebrew Syntax and Exegesis 3 Credit Hours
The development of exegetical principles (including text critical, grammatical, historical, and theological factors) and their application to selected readings from the Hebrew Old Testament.

Prerequisites: OTCL 525

OTCL 643 Hebrew Exegesis Elective 3 Credit Hours
An exegetical analysis of the book of Jonah with an emphasis on literary and structural discourse strategies in the Hebrew text.

Prerequisites: OTCL 520 and OTCL 525

OTCL 695 Directed Research in Hebrew 1-3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of Hebrew.

OTCL 697 Seminar in Old Testament Language 1-3 Credit Hours
An intensive study in a distinctive language related to the Hebrew Old Testament. This course will vary considerably in approach and course content.

Offered: Resident

Pastoral Counseling (PACO)

PACO 500 Introduction to Pastoral Counseling 3 Credit Hours
This course introduces students to a solution-based model for short-term counseling that incorporates knowledge of and practice in facilitation skills, cognitive behavioral approaches, and biblical teaching.

PACO 501 Foundational Doctrines for Pastoral Counselors 3 Credit Hours
This course is a study of systematic theology that will give attention to the doctrines of the Bible, God, humanity, sin, Christ, Holy Spirit, salvation, the church and last things. The course will provide the student the theological foundations to serve and counsel more effectively in the local church and community contexts.

PACO 504 Multicultural Issues in Pastoral Counseling 3 Credit Hours
This course introduces students to the constructs of Ethnicity, Families, and Counseling. It focuses on the contribution of ethnic background to family makeup and functioning. Major ethnic minorities are studied along with the counseling approaches appropriate to each.

Prerequisites: PACO 500 and PACO 501

PACO 506 Integration of Psychology and Theology 3 Credit Hours
This course introduces students to the process of pastoral counseling with a variety of religious clients who would define themselves as evangelical Christians. The course provides a systematic overview of Christian doctrines, a discussion of various theological viewpoints regarding those doctrines, and an examination of how psychological and theological concepts relate to each other.

PACO 507 Theology and Spirituality in Counseling 3 Credit Hours
An examination of the content, comprehensiveness, and validity of several counseling theories that have been developed by prominent Christian counselors.
PACO 509 Spiritual Formation in Pastoral Counseling 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course introduces students to the essential elements of a biblically responsible, research informed, holistic approach to his/her spiritual formation. The goals, means, and challenges faced in the process of transformation, especially within pastoral counseling, will comprise the major issues covered in class.

PACO 597 Seminar 1-3 Credit Hours
PACO 597/COUN 597 - Seminar (1 to 3 hours)

PACO 603 Premarital and Marital Counseling 3 Credit Hours

This course introduces students to the factors contributing to successful marital relationships. The course also teaches students a conceptual model for assessing relationship functionality and introduces them to short-term methods that can be used when those kinds of problems develop. Students will be challenged to articulate a clinically informed biblical counseling approach to pre-marital counseling. (Formerly PACO 610)

PACO 604 Crisis Intervention in Pastoral Counseling 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course introduces students to the theories and skills required to provide pastoral crisis intervention and counseling that will cultivate resiliency and promote spiritual growth.

PACO 611 Counseling the Child and Their Families 3 Credit Hours

The developmental and psychological needs and problems of children are examined through the analysis of personality types and family structure. Counseling techniques (e.g. play therapy) for children are also examined.

PACO 615 Marriage and Family Counseling 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course introduces students to the dynamics of marriage and family relationships. Emphasis is on understanding the structure and function of marriage, the various aspects of the marital relationship, family systems, and ways the counselor may approach marriage and family counseling as a creative, preventative, and healing ministry.

PACO 617 Theories and Techniques in Pastoral Counseling 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course introduces students to selected theories of counseling and psychotherapy. It involves an intensive pastoral counseling experience designed to enhance self-awareness, promote personality exploration, and provide case discussion and analysis. Fundamentals of the therapeutic relationship and essential skills are examined.

PACO 618 Advanced Marriage and Family Counseling 3 Credit Hours
Prerequisites: PACO 500 and PACO 501 and PACO 615

This course is an exploration of selected major treatment approaches utilized in marital and family counseling. Development of practical skills, interventions, and techniques constitute the primary focus. (Formerly PACO 602).

PACO 620 Counseling the Adolescent and Their Families 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course examines the transitions of adolescence emphasizing family, social, spiritual/moral, and physical issues. Counseling theories and practices for working with adolescents are explored. Opportunities for application of theory are provided.

PACO 622 Counseling the Child and Adolescent 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course introduces students to the developmental transitions of childhood and adolescence emphasizing family, social, spiritual/moral, and physical issues. Counseling theories and practices for working with children and adolescents are explored. Opportunities for application of theory are provided.

PACO 625 Healthy Sexuality 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course introduces students to a research informed biblical paradigm for healthy sexuality. It will increase their awareness, knowledge, and skills regarding the broad range of issues in the field of counseling when addressing healthy sexuality.

PACO 630 Gerontology and Counseling 3 Credit Hours

This course introduces students to the issues and problems unique to the elderly in American society. Topics such as grief and loss, suffering, societal attitude, and family structure are examined.

PACO 647 Counseling Women 3 Credit Hours
Prerequisites: PACO 500 and PACO 501

This course examines the most common problems women bring to counseling, including both developmental and situational crises. It explores biblical perspectives and the most effective treatments for these situations.

PACO 695 Directed Research in Pastoral Counseling 3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of counseling.

Offered: Resident

PACO 697 Seminar in Pastoral Counseling 3 Credit Hours

An intensive study in a specific subject of counseling. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.
PACO 698 Practicum 3 Credit Hours

Prerequisites: COUN 501 and COUN 502 and COUN 503 and COUN 504 and COUN 505 and COUN 506 and COUN 507 and COUN 510 and COUN 512 and COUN 521 and COUN 601 and COUN 646 and COUN 667

Students will complete supervised counseling and counseling-related experiences in a professional setting. The primary focus is the development of counseling skills.

PACO 699 Pastoral Counseling Internship 3 Credit Hours

Prerequisites: THEO 510 and PACO 500 and PACO 504 and PACO 509 and PACO 603 and PACO 604 and PACO 617

This course offers student participation in a pastoral counseling experience under supervision in an approved setting along with supervision by a university faculty member.

Philosophy (PHIL)

PHIL 550 Introduction to Philosophy of Religion 3 Credit Hours

This course will acquaint the student with the central issues in the philosophy of religion. These include topics such as the status of revelation, the existence of God, the problem of evil, and religious language.

Offered: Resident

PHIL 565 Modern Philosophy 3 Credit Hours

This course provides an overview of ideas, concepts, problems, movements, and individuals in the various phases of the history of modern philosophy. Attention is paid to primary texts and classical and contemporary secondary literature.

PHIL 575 Contemporary Philosophy 3 Credit Hours

This course focuses on topics, movements, and specific individuals in the field of philosophy from the twentieth century to the present. Special emphasis is placed on the critical evaluation of recent articles and/or monographs.

PHIL 597 Seminar in Philosophy 3 Credit Hours

PHIL 597 - Seminar in Philosophy (1 to 3 hours)

Offered: Resident

PHIL 605 The Existence of God 3 Credit Hours

An investigation and critique of the major arguments for God's existence from Plato to the present, and a discussion of their relation to theology and in particular, God's attributes.

Offered: Resident

PHIL 615 The Problem of Evil 3 Credit Hours

An examination of how the problem of evil arises along with some of the major historical and contemporary solutions. The course attempts to evaluate the current status of the debate and to construct a theodicy which is both theologically and philosophically acceptable.

Offered: Resident

PHIL 620 Philosophy of Language 3 Credit Hours

A course designed to acquaint the student with the philosophical debate over the uses, methods, and structures of verbal and textual language, with special emphasis on the meaningfulness and factual significance of theological discourse. Primary focus will be the debate in contemporary discussions.

PHIL 625 Classic and Religious Epistemology 3 Credit Hours

This course investigates and critiques the major philosophical explanations of knowledge and their specific application to God, revelation, and religious experience.

Offered: Resident

PHIL 680 Research Methods 3 Credit Hours

Bibliography and thesis research. Emphasis will be given to the formulation of the topic and thesis proposal.

Offered: Resident

PHIL 689 Thesis Project Proposal and Research 3 Credit Hours

PHIL 689 - Thesis Project Proposal and Research (3 hours)

Offered: Resident

PHIL 690 Thesis Defense 3 Credit Hours

PHIL 690 - Thesis Defense (3 hours)

Offered: Resident

PHIL 695 Directed Research in Philosophy 3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of philosophy.

Offered: Resident

PHIL 697 Seminar in Philosophy 3 Credit Hours

An intensive study in a specific subject of philosophy. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Resident
Political Science (PSCI)

PSCI 501 Political Science, Public Policy & Statesmanship 3 Credit Hours
This course establishes the major facets of the study of political science and explains the relationship between political science and the public policy process. Students will also discuss and apply a Biblical model of statesmanship to this process and political context.

Offered: Online

PSCI 600 Comparative Politics 3 Credit Hours
This course provides comparative frameworks for alternative models of politics, government, international relations, and statesmanship. Students will compare not only the American system of government and politics to other systems, but also examine the key philosophical and theoretical influences of these various systems, particularly in light of a Biblical perspective on government, politics, and statesmanship.

Offered: Online

PSCI 610 Contemporary Political Process & Trends 3 Credit Hours
This course examines the current challenges and opportunities facing those who would lead as statesmen and women in the political context. Contemporary philosophical influences, electoral and demographic changes, and geopolitical realignments and forces will all be considered in light of a Biblical perspective. Students will be challenged to apply key concepts of political science to these discussions.

Offered: Online

PSCI 689 Thesis Proposal & Research 3 Credit Hours
This course is designed to help students complete their master's thesis in Political Science. It is expected that research for the thesis project will be relevant to the student's study in the master's program and will make an academic contribution to the research in political science.

Offered: Online

PSCI 690 Thesis Defense 3 Credit Hours
Intended to demonstrate a student's ability to carry out original research. Thesis may be designed to answer practical research questions, or address theoretical or ethical issues of interest to scholars and professionals in the field of political science. Credit is not awarded until the thesis has been accepted.

Offered: Online

Psychology (MSPS)

MSPS 500 Statistics and Research Design I 3 Credit Hours
Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3
Advanced research methodology and statistical techniques for psychological research. Focuses on methods for use with non-experimental designs, including correlation and regression. Measurement issues, such as reliability and validity, are covered, as well as research ethics. Lab component focuses on use of computer software packages for analysis of data. (Crosslisted with PSYC 510)

Offered: Resident

MSPS 505 Statistics and Research Design II 3 Credit Hours
Prerequisites: (MSPS 500 or PSYC 510) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3
Advanced research methodology and statistical techniques for psychological research. Focuses on methods for use with experimental designs, including factorial, repeated measures, and mixed design ANOVA models. Lab component focuses on use of computer software packages for analysis of data. (Crosslisted with PSYC 515)

Offered: Resident

MSPS 513 Social Psychology 3 Credit Hours
Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3
Examination of scientific literature involving individual behavior in relation to social contexts. Topics include attribution, social perception, socialization, attitude formation/change, group dynamics, prosocial behavior, aggression, social influence, and applications. (Crosslisted with PSYC 512)

Offered: Resident

MSPS 521 Psychology and Christianity Integration 3 Credit Hours
Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3
Exploration of the relationship between psychological science and Christian faith. Topics include philosophical foundations and models of conceptualizing the relationship between the disciplines. (Crosslisted with PSYC 520)

Offered: Resident
MSPS 531 Cognitive Psychology: Theories & Methodology 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Discussion of theory and research in cognitive psychology. Topics include attention, memory, language, learning, reasoning, and decision-making. (Crosslisted with PSYC 575)

Offered: Resident

MSPS 540 Developmental Psychology 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Advanced study of developmental processes across the lifespan. Examination of theories and current research in physical, mental, emotional, and social domains. Special consideration given to varying social situations and cultural contexts. (Crosslisted with PSYC 525)

Offered: Resident

MSPS 570 Conditioning and Learning 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Advanced study of associative learning. Special emphasis on instrumental conditioning, motivation, and affect as they relate to the field of developmental psychology. (Crosslisted with PSYC 565)

Offered: Resident

MSPS 580 Developmental Neuropsychology 3 Credit Hours

**Prerequisites:** (MSPS 540 or PSYC 525) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Exploration of the relationship between brain and behavior across the lifespan. Special emphasis on contemporary research and issues in the field. (Crosslisted with PSYC 676)

MSPS 610 Developmental Psychopathology 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Exploration of developmental pathways, including specific disorders and their contexts, and risk/resilience. Special attention devoted to normal and deviant development, and principles of adaptive functioning. (Crosslisted with PSYC 645)

Offered: Resident

MSPS 625 Behavior Modification 3 Credit Hours

**Prerequisites:** Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Discussion of traditional and contemporary intervention strategies. Special emphasis on evidence-based practices and application to real-world scenarios. (Crosslisted with PSYC 620)

Offered: Resident

MSPS 627 Child Development 3 Credit Hours

**Prerequisites:** (MSPS 540 or PSYC 525) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Advanced study of developmental processes from conception until adolescence. Focus on contemporary research in biological, cognitive, and socio-emotional development. (Crosslisted with PSYC 621)

MSPS 637 Adolescent Development 3 Credit Hours

**Prerequisites:** (MSPS 540 or PSYC 525) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Advanced study of developmental processes during adolescence. Focus on contemporary research in biological, cognitive, and socio-emotional development. (Crosslisted with PSYC 631)

MSPS 646 Organizational Behavior 3 Credit Hours

**Prerequisites:** (MSPS 526 or PSYC 516) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Discussion of organization theories and organizational change. Consideration also given to group structure and processes. (Crosslisted with PSYC 640)

Offered: Resident

MSPS 647 Adult Development 3 Credit Hours

**Prerequisites:** (MSPS 540 or PSYC 525) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Advanced study of developmental processes in adulthood. Focus on contemporary research in various domains, such as work, marriage and family, personality, cognition, and physical change. (Crosslisted with PSYC 635)

Offered: Resident
MSPS 657 Geropsychology 3 Credit Hours

Prerequisites: (MSPS 540 or PSYC 525) and Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Review of empirical literature in gerontology. Topics include cognition, personality and adjustment, physical change, social roles, and more. (Crosslisted with PSYC 636)

Offered: Resident

MSPS 689 Thesis Proposal and Research 3 Credit Hours

Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

This course will allow a student to work individually with the director of his/her thesis.

MSPS 691 Master's Thesis 3 Credit Hours

Prerequisites: Statistics with a score of 3 and General Psychology with a score of 3 and Research Methods with a score of 3 and Additional Psychology with a score of 3

Research on approved topic under direction of thesis committee with chair approval. (Crosslisted with PSYC 690)

Offered: Resident

Psychology (PSYC)

PSYC 510 Research Methods and Statistics in Psychology I 3 Credit Hours

Overview of research methodology and statistical techniques for psychological research. Emphasis on the three basic types of research - descriptive, predictive, and experimental. Also, addresses ethics in research. A computer package is used for analysis of data. (Crosslisted with MSPS 500).

Offered: Online

PSYC 512 Social Psychology 3 Credit Hours

Examination of scientific literature involving individual behavior in relation to social contexts. Topics include attribution, social perception, socialization, attitude formation/change, group dynamics, prosocial behavior, aggression, social influence, and applications. (Crosslisted with MSPS 513)

Offered: Online

PSYC 515 Research Methods and Statistics in Psychology II 3 Credit Hours

Prerequisites: PSYC 510

This course examines advanced research methodology and statistical techniques for psychological research. This course equips students to design, conduct, and present research using APA formatting guidelines. A computer software package is used for analysis of data. (Crosslisted with MSPS 505)

Offered: Online

PSYC 516 Industrial/Organizational Psychology 3 Credit Hours

Exploration of current theory and research in industrial/organizational psychology. Focus on talent acquisition and management, leadership, job attitudes, and organizational development. (Crosslisted with MSPS 526)

Offered: Online

PSYC 520 Psychology and Christianity 3 Credit Hours

Exploration of the relationship between psychological science and Christian faith. Topics include philosophical foundations and models of conceptualizing the relationship between the disciplines. (Crosslisted with MSPS 521)

Offered: Online

PSYC 525 Developmental Psychology 3 Credit Hours

Advanced study of developmental processes across the lifespan. Examination of theories and current research in physical, mental, emotional, and social domains. Special consideration given to varying social situations and cultural contexts. (Crosslisted with MSPS 540)

Offered: Online

PSYC 545 Test Construction/Validation 3 Credit Hours

Prerequisites: PSYC 510

Discussion of principles to produce and improve tests and assessments of knowledge, skills, and other psychological constructs. A focus on techniques for evaluating existing measures for reliability and validity evidence and guidelines for the rigorous development of new instruments.

PSYC 565 Psychology of Learning 3 Credit Hours

Advanced study of associative learning. Special emphasis on instrumental conditioning, motivation, and affect as they relate to the field of developmental psychology. (Crosslisted with MSPS 570)

Offered: Online

PSYC 575 Cognitive Psychology 3 Credit Hours

Discussion of theory and research in cognitive psychology. Topics include attention, memory, language, learning, reasoning, and decision-making. (Crosslisted with MSPS 531)

Offered: Online
PSYC 620 Intervention and Behavior Support 3 Credit Hours
Discussion of traditional and contemporary intervention strategies. Special emphasis on evidence-based practices and application to real-world scenarios. (Crosslisted with MSPS 625)

Offered: Online

PSYC 621 Child Psychology 3 Credit Hours
Prerequisites: PSYC 525
Advanced study of developmental processes from conception until adolescence. Focus on contemporary research in biological, cognitive, and socio-emotional development. (Crosslisted with MSPS 627)

Offered: Online

PSYC 631 Adolescent Psychology 3 Credit Hours
Prerequisites: PSYC 525
Advanced study of developmental processes during adolescence. Focus on contemporary research in biological, cognitive, and socio-emotional development. (Crosslisted with MSPS 637)

Offered: Online

PSYC 635 Adult Psychology 3 Credit Hours
Prerequisites: PSYC 525
Advanced study of developmental processes in adulthood. Focus on contemporary research in various domains, such as work, marriage and family, personality, cognition, and physical change. (Crosslisted with MSPS 647)

Offered: Online

PSYC 636 Geropsychology 3 Credit Hours
Prerequisites: PSYC 525
Review of empirical literature in gerontology. Topics include cognition, personality and adjustment, physical change, social roles, and more. (Crosslisted with MSPS 657)

Offered: Online

PSYC 640 Organizational Behavior and Development 3 Credit Hours
Prerequisites: PSYC 516 or PSYC 716
Discussion of organization theories and organizational change. Consideration also given to group structure and processes. (Crosslisted with MSPS 646)

Offered: Online

PSYC 642 Human Resource Training and Development 3 Credit Hours
Prerequisites: PSYC 516
Evaluation of techniques for training and motivating personnel. Focus on design, implementation, and evaluation of training, continuing education, and staff development programs, looking to organizational improvement. (Crosslisted with MSPS 650)

Offered: Online

PSYC 644 Organizational Ethics 3 Credit Hours
Prerequisites: PSYC 516
Exploration of ethical/legal issues confronted by organizations, and discussion of ethical theories pertaining to decision-making and problem solving in organizations. Special consideration given to how Christian faith informs ethics. (Crosslisted with MSPS 655)

Offered: Online

PSYC 645 Developmental Psychopathology 3 Credit Hours
Prerequisites: PSYC 516 or PSYC 716
Exploration of developmental pathways, including specific disorders and their contexts, and risk/resilience. Special attention devoted to normal and deviant development, and principles of adaptive functioning. (Crosslisted with MSPS 658)

Offered: Online

PSYC 648 Leadership and Motivation 3 Credit Hours
Prerequisites: PSYC 516 or PSYC 716
Review of psychological theories of and research on motivation and their application to work. Highlights how leadership relates to motivation, workplace climate and attitudes, and group performance. (Crosslisted with MSPS 660)

Offered: Online

PSYC 651 Personnel and Performance Management 3 Credit Hours
Prerequisites: PSYC 516 or PSYC 716
Examination of personnel psychology. Topics include workforce planning, recruitment and selection of employees, performance criteria and appraisal, job analysis, job evaluation, and compensation. (Crosslisted with MSPS 666)

Offered: Online

PSYC 676 Developmental Neuropsychology 3 Credit Hours
Prerequisites: PSYC 525
Exploration of the relationship between brain and behavior across the lifespan. Special emphasis on contemporary research and issues in the field. (Crosslisted with MSPS 580)

Offered: Online
PSYC 689 Thesis Proposal and Research  3 Credit Hours
This course will allow a student to work individually with the director of his/her thesis.

Offered: Online

PSYC 690 Master's Thesis  3 Credit Hours
Research on approved topic under direction of thesis committee with chair approval. (Crosslisted with MSPS 691)

Offered: Online

Public Administration (PADM)

PADM 501 Fundamentals of Public Administration  3 Credit Hours
This course serves as an introduction to the discipline of public administration. This class explores the various theories and practices that have led to, and continue to dominate the profession and study of public administration. The major topics of interest that will be discussed in this class include the politics of government bureaucracy, managing and leading public organizations, the core functions of government administration such as budgeting, public policy implementation and human resources management, and current trends emerging from the 21st century that are directing and influencing public administration.

Offered: Online

PADM 530 Politics, Strategies, and Initiatives of Community Economic Development  3 Credit Hours
This course will provide an overview of theoretical and practical approaches to community economic development.

Offered: Online

PADM 550 Public Policy Analysis  3 Credit Hours
This course will examine the manner in which various worldviews affect American Public Policy, with particular emphasis on the contrast between the Judeo-Christian worldview and secular humanism, Marxism/Leninism, and Islamic Fundamentalism.

Offered: Online

PADM 600 Politics & Policy of Public Sector Budgeting  3 Credit Hours
The process of budget making in a public agency will be evaluated in light of the many political and economic factors that arise. Challenges and opportunities will be examined, as well as effective strategies for establishing a budgetary process designed to serve and protect the constituents of the public organization or agency and maintain financial solvency, accountability, and integrity.

PADM 610 Management of Public Sector Organizations  3 Credit Hours
Key management and leadership theories and perspectives will be discussed in the public sector context. Students will be challenged to evaluate all of these aspects from Biblical and ethical perspectives, and to understand the link between leadership ideas and concepts and the real world of public sector leadership, political stakeholders, and constituents.

PADM 620 Public Administration Praxis: Legal & Contemporary Issues  3 Credit Hours
This course examines the current challenges facing those who would lead as public servants in the political context. Contemporary legal challenges as well as shifting cultural demographics, political movements, and strategies for urban and community development will be discussed. A Biblical perspective on these developments will be provided.

PADM 689 Thesis Proposal & Research  3 Credit Hours
This course is designed to help students complete their master’s thesis in Public Administration. It is expected that research for the thesis project will be relevant to the student’s study in the master’s program and will make an academic contribution to the research in public administration.

Offered: Online

PADM 690 Thesis Defense  3 Credit Hours
Intended to demonstrate a student’s ability to carry out original research. Thesis may be designed to answer practical research questions, or address theoretical or ethical issues of interest to scholars and professionals in the field of public administration. Credit is not awarded until the thesis has been accepted.

Offered: Online

Public Policy: Government (PPOG)

PPOG 500 Introduction to Writing, Research and Turabian  3 Credit Hours
This course will provide an overview of current research techniques in the field of public policy. Students will also hone and apply professional writing skills by completing a final research paper fully incorporating techniques as outlined by Turabian.

PPOG 502 Economics and Public Policy  3 Credit Hours
Prerequisites: PPOG 500
This course will study markets and market failure, the effects of Public Policy on economics, the effects of economics on Public Policy, and the role of government in economic issues particularly in the areas of trade, enterprise, debt and taxation, from a biblical worldview. The class will emphasize the Judeo-Christian foundations and principles of economic activity.

PPOG 503 Political Philosophy  3 Credit Hours
Prerequisites: PPOG 500
This course studies the most influential political philosophers who substantially influence the Western political and legal thought processes, for better or worse, from ancient Greece, through Western European development and the American Founding era to the modern era.
PPOG 504 Leadership, Statesmanship, and Governance  
**Prerequisites:** PPOG 500

This course will provide an examination of the fundamentals and characteristics of diligent, principled-based servant leadership from a Judeo-Christian perspective. This course will be as practical as it is philosophical.

PPOG 505 Introduction to Geopolitics and International Diplomacy  
**Prerequisites:** PPOG 500

Introduction to Geopolitics and International Diplomacy will provide a Judeo-Christian perspective on international affairs; American foreign policy; international governments, groups, organizations and coalitions; sovereignty issues; the influence of Christianity and competing worldviews on the changing global arena; and the role of America in the world.

PPOG 530 Domestic Policy  
**Prerequisites:** PPOG 500

This course is a survey of U.S. domestic policy. It will focus on domestic public policy-making at the national level, beginning with the processes, institutions and actors engaged in the creation, advocacy, development, enactment, and implementation of domestic policy, and followed by a discussion of several contemporary public policy issues.

Offered: Online

PPOG 540 Foreign Policy  
**Prerequisites:** PPOG 500

This course is a survey of U.S. foreign policy. It will focus on the processes, institutions and actors engaged in the creation, advocacy, development, enactment, and implementation of foreign policy, followed by a discussion of several contemporary foreign policy issues.

Offered: Online

PPOG 595 Directed Readings in Public Policy  
**Prerequisites:** PPOG 500

This course will allow a student to work individually with a professor to do extra readings on a specific topic related to Public Policy form a Judeo-Christian perspective. This course will be as practical as it is philosophical.

PPOG 597 Special Topics in Public Policy  
**Prerequisites:** PPOG 500

This course is a one-on-one study directed by the professor that involves specialized readings pertaining to Public Policy.

PPOG 624 Presidential Leadership  
**Prerequisites:** PPOG 500

Presidential Leadership is a course studying the role, powers, dynamics, and impact of the American presidency. The course will analyze the effects of the worldview, philosophies, and personal experience of the President as well as methods, strategies, and tactics that Presidents employ in shaping public policy, structuring the court, and communicating with and persuading the American people.

PPOG 625 Legislative Leadership  
**Prerequisites:** PPOG 500

Legislatures are at the heart of policy-making in the United States. This course will help students learn how to ask and answer original research questions related to the study of U.S. legislatures, their members, and policy-making within the legislature. The course has two goals: to introduce students to a broad range of legislative research and to explore how to critically assess and extend that research.

Offered: Online

PPOG 626 State and Local Leadership  
**Prerequisites:** PPOG 500

This course examines the challenges of running public sector organizations at the state and local level from the perspective of those who lead them. With trust in government plummeting and greater expectations from both the federal government and citizens, senior executives in state and local governments face significant challenges in governing. Students will develop the knowledge, skills, and tools necessary to operate as ethical and effective statesmen at the state and local level. Additionally, students will learn the need for public officials to be ready to lead strategically, think creatively, and act collaboratively in a dynamic governing environment.

Offered: Online

PPOG 635 Speech Writing for Candidates and Officeholders  
**Prerequisites:** PPOG 500

Speech Writing for Candidates and Officeholders is a research and writing course instructing students in the drafting of comments, sound bites, and full campaign and policy speeches for use by candidates and office holders.

PPOG 640 Middle East Law and Policy  
**Prerequisites:** PPOG 500

Middle East Laws and Policy provides an introduction to and survey of the legal, political, legislative, and judicial systems of the Middle East. The course will analyze the political parties that wield power, the ideologies that drive them, the policies they produce, and the impact of those policies both in the Middle East and abroad.
PPOG 641 U.S. Middle East Foreign Policy 3 Credit Hours

Prerequisites: PPOG 500

U.S. Middle East Foreign Policy will build upon PPOG 640, providing a detailed analysis of the foundations, motivations, formation and impact of U.S. Foreign Policy in the Middle East. The course will study the history and status of U.S.-Israeli relations, the substance of U.S. foreign policy, and the mechanics of how that policy is communicated, negotiated and carried out.

PPOG 689 Thesis Proposal & Research 3 Credit Hours

Prerequisites: PPOG 500

This course is designed to help students complete their master's thesis in Public Policy. It is expected that research for the thesis project will be relevant to the student's study in the master's program and will make an academic contribution to the research in public policy.

PPOG 690 Thesis Defense 3 Credit Hours

Prerequisites: PPOG 689

Intended to demonstrate a student's ability to carry out original research. Thesis may be designed to answer practical research questions, or address theoretical or ethical issues of interest to scholars and professionals in the field of public policy. Credit is not allowed until the thesis has been accepted.

PPOG 695 Direct Research 3-6 Credit Hours

Public Policy: Law (PPOL)

PPOL 501 Foundations of American Governance: An Introduction to Public Policy 3 Credit Hours

Prerequisites: PPOG 500

This course provides a broad study of the philosophical, intellectual, political, and cultural influences on Western Society and examines the manner in which those influences have been and are being reflected in American Public Policy. More specifically, it will examine the manner in which various worldviews affect American Public Policy, with particular emphasis on the contrast between the Judeo-Christian worldview and Secular Humanism, Marxism/Leninism, and Islamic Fundamentalism.

PPOL 505 Applied Public Policy Research Methods 3 Credit Hours

Prerequisites: PPOG 500

This course will study research methods, research strategies, and statistical analysis skills necessary to both produce and critically analyze research reports and data compilations used in forming public policy.

PPOL 506 Intro to Geopolitics 3 Credit Hours

PPOL 630 Campaign Tactics, Strategies, and Management 3 Credit Hours

Prerequisites: PPOG 500

Campaign Tactics, Strategies, and Management will provide both case studies and practical instruction in the art and science of starting, running and succeeding in political campaigns. The class will include expert guest lectures on a variety of topics and will provide a well-rounded overview and practical framework for the potential candidate, campaign manager, campaign counsel, and student of the electoral process alike.

PPOL 631 Message, Media and Political Communication 3 Credit Hours

Prerequisites: PPOG 500

Message, Media and Political Communications provides an in-depth analysis of the history, means, methods, and strategies of crafting messages and communicating with and persuading constituent groups and the public at large through various media. Topics covered will include, among others, writing and creation of radio and television issue ads, radio and television campaign ads, public service announcements, internet video, screenplays and film. The course will provide an historical overview of the use of radio, television and film in shaping cultural and political thought, provide case studies and provide practical instruction in cutting edge formats, media and techniques by experts in this genre of political communication.

PPOL 650 International Law, Policy, and Politics 3 Credit Hours

Prerequisites: PPOG 500

International Law, Policy, and Politics will provide an introduction and overview of the dynamic interplay between peoples, nations, governments and international organizations. This course introduces the student to both the history and the current status of international relationships including the rise and impact of globalism, the global influences of radical Islam, and the shifting influence and power of nations.

PPOL 652 U.S. Foreign Policy and Sovereignty Issues 3 Credit Hours

Prerequisites: PPOG 500

U.S. Foreign Policy and Sovereignty Issues specifically analyzes the history and current status of United States foreign policy, particularly as it affects American Sovereignty and the health, welfare, and protection of American citizens.

Religion (RLGN)

RLGN 681 World Religions Survey 3 Credit Hours

This course surveys the origin and growth of the major world religions and discusses their core beliefs, practices, and worldviews.

Offered: Resident
Research Methods & Teaching (RTCH)

RTCH 500 Research, Writing, and Ministry Preparation 3 Credit Hours
This course is an introduction to the skills necessary for competent graduate work. These skills include theological and professional library competency, the use of electronic research media, the execution of research design, and graduate writing development. The course also prepares students for ministry success by equipping them for family and education balance, avoiding burnout, and pursuing intentional spiritual formation.

Offered: Resident and Online

RTCH 680 Research Methods 3 Credit Hours
Bibliography and thesis research. Emphasis will be given to the formulation of the topic and thesis proposal. (Formerly THEO 680)

Registration Restrictions: Student must have completed 50% of their program.

Offered: Online

Spanish (SPAN)

Sport Management (SMGT)

SMGT 501 Social Issues in Sport Management 3 Credit Hours
This course will examine the social institution of sport and its consequences for the North American society; the social organization from play to professional sport; violence and discrimination; women and ethnic minorities in sport; and the socialization implications from participation in sports.

SMGT 502 Sport Marketing and Public Relations 3 Credit Hours
This course is an examination of the principles of marketing, promotion, sponsorship, public relations and consumer behavior as they apply to the sport industry.

SMGT 503 Ethics in Sport 3 Credit Hours
This course offers an introduction to ethics within the sporting context. The values promoted within sport will be examined along with common ethical dilemmas faced by those involved in sport. The course will cover issues ranging from fair play to sportsmanship to Title IX and drug use for performance enhancement.

SMGT 504 Foundations of Sport Outreach 3 Credit Hours
This course will investigate the historical foundations and the current development, operation, and biblical justifications for sport outreach programs within church and parachurch organizations.

SMGT 505 Legal Issues in Sport 3 Credit Hours
This course provides an examination of risk management and the current legal principles which affect sport and recreation organizations.

SMGT 506 Economics and Financial Management of Sport 3 Credit Hours
This course provides a comprehensive synopsis of the application of economics and financial management used in the sport organization decision making context from both a macro and micro level.

SMGT 520 Understanding Research in Sport, Recreation, and Tourism 3 Credit Hours
Overview of the nature of research in sport, recreation, and tourism studies. Topics include different types of research in sport, research design, skills in data collection and assessment, and application of research to the management of sport, recreation, and tourism.

SMGT 600 Comprehensive Examination 0 Credit Hours
Prerequisites: SMGT 501 and SMGT 502 and SMGT 503 and SMGT 504 and SMGT 505 and SMGT 506 and SMGT 520
The Comprehensive Examination is comprised of seven individual exams that include content from the seven core courses in the Master’s program.

SMGT 611 Foundations of Outdoor Adventure Sport 3 Credit Hours
This course will provide an in-depth examination of the philosophical, ethical, ecological, and cultural foundations of outdoor recreation and adventure sport. The emphasis is on studying the interaction of the participant in the experiential environment as it relates to the complex challenges faced by management professionals working in public, commercial and not-for-profit sport and recreation delivery systems.

SMGT 612 Outdoor Adventure Programming 3 Credit Hours
This course offers a consideration of the history, theory, design and management, as well as current issues and trends in outdoor and adventure-based programs. Special attention will be given to developing an understanding of principles and methodologies of outdoor curricula, as well as implementation, risk management, and group dynamics in outdoor programs.

SMGT 613 Leadership and Administration of Outdoor Adventure Sport 3 Credit Hours
This course is a critical analysis of the historic development, current status, and changing patterns of public policy in outdoor recreation, adventure sport and eco-tourism. A majority of the course will focus on leadership and strategic planning relating to land use and community engagement for outdoor organizations.

SMGT 621 Advanced Coaching Theory 3 Credit Hours
An in-depth study of the theoretical frameworks supporting effective coaching behaviors. Students will develop knowledge in skill development, athlete evaluation, communication strategies, and successful coaching philosophies.
SMGT 622 Strategic Sport Management 3 Credit Hours
This course examines issues related to the holistic development of athletes. Topics to be examined include player safety, personal development, mental preparation, academic performance, team cohesion, and off-the-field conduct.

SMGT 623 Sport Governance 3 Credit Hours
This course provides an in-depth analysis of the history, development, and organizational structures of the agencies that govern amateur and professional sport. Initial and continuing eligibility, major governance areas, and current issues requiring policy revisions will be examined.

SMGT 631 Sport Event and Facility Management 3 Credit Hours
This course will examine the current research related to planning, funding, and operating sporting events and sport/recreation facilities.

SMGT 632 Sport Development and Sales 3 Credit Hours
This course will provide practical professional sales techniques needed to form a framework for strategic account management. Subsequently, the dynamics associated with building and fostering relationships necessary for a vibrant development office will be thoroughly examined.

SMGT 633 Management and Leadership in Sport Organizations 3 Credit Hours
This course will provide application for the development of skills necessary to be an effective and efficient leader regarding communication, motivation and corporate decision making. The role of human resources and leadership theory in an atmosphere of complexity and diversity will be explored.

SMGT 689 Thesis Proposal and Research 3 Credit Hours
Prerequisites: SMGT 600
Prerequisite: Successfully pass the Comprehensive Examination. This course is designed to help students complete their M.S. thesis. It is expected that research for the thesis project will be relevant to the student’s specialization area and will make an academic contribution to the literature in Sport Management.

SMGT 690 Thesis Defense 3 Credit Hours
Prerequisites: SMGT 600 and SMGT 689
Intended to demonstrate a student’s ability to carry out original research. Thesis may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the sport management field. Credit is not awarded until the thesis has been accepted.

Registration Restrictions: Successfully pass the Comprehensive Examination; consent of instructor.

SMGT 697 Seminar 3 Credit Hours
Offered: Resident

SMGT 699 Internship 6 Credit Hours
Prerequisites: SMGT 600
Placement with a sport or recreation management organization for a controlled learning experience with the student's career specialization area. A minimum of 400 hours are required at an approved internship site.

Registration Restrictions: 21 hours completed; consent of instructor; successfully pass the Comprehensive Examination.

Strategic Communications (STCO)

STCO 526 Strategic Storytelling 3 Credit Hours
Investigative journalism in the digital age.

STCO 532 Media Technologies & Communication Strategies 3 Credit Hours
This course examines established and emerging media technologies used by various organizations in communicating specific messages to diverse audiences.

STCO 533 Video, Social & Mobile Promotion 3 Credit Hours
This course explores the creation & use of disruptive video-intensive social & mobile integrated marketing strategies.

STCO 534 Strategic Media Analysis 3 Credit Hours
Analysis of the use of sight and sound to affect audiences.

STCO 546 Effective Media Analysis 3 Credit Hours
Using social media platforms to build a competitive advantage. Involves extensive integration and application of social media technologies.

STCO 550 Best Practices: Transforming the Digital Organization 3 Credit Hours
Lead digitally-driven organizations to extraordinary growth in both for-profit & non-profit sectors.

Offered: Resident and Online

STCO 562 Using Emerging Trends in Strategic Communication 3 Credit Hours
Developing the ability to grow organizations through online market-making and strategy. Hands-on experience with radical new digital and interactive tools for achieving relationships and spreading ideas.

STCO 622 Strategic Organizational Communication 3 Credit Hours
Analysis of theories and practices that assist individuals in success in organizations. Students develop the ability to add value to employing organizations and enhance individual careers.
STCO 638 Video Storytelling 3 Credit Hours
How to create and use affective video narratives to strategically move consumers and other viewers through online digital media.
Offered: Online

STCO 639 Transmedia Storytelling 3 Credit Hours
Principles and practice to strategically manage digital interactive and Transmedia organizations.

STCO 648 Setting Social & Interactive Goals 3 Credit Hours
The use of social, mobile and online bechmarking and metrics in maximizing social media strategy and growing a customer/audience base.
Offered: Online

STCO 658 Strategic Communication Campaigns for the Digital Age 3 Credit Hours
An exploration of the use of integrated marketing communication for strategic movement of organizations, products and services toward growth.

STCO 670 Challenge Examination 3 Credit Hours
Capstone written challenge.

STCO 681 New Beginnings: Research, Insight, and Application 3 Credit Hours
This course provides the student with a personalized career-oriented framework for successful completion & application of this graduate program.
Offered: Resident and Online

STCO 690 Thesis Defense 3 Credit Hours
Intended to demonstrate a student’s ability to carry out original research using one of three class research methods: historical-critical (qualitative), descriptive (qualitative and quantitative), or experimental (quantitative). Thesis may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field.

STCO 691 Project 3 Credit Hours
Project may be designed to answer practical research questions, theoretical, or ethical issues of interest to scholars and professionals in the communication field. Demonstrates the ability of a student to conduct research and exhibit expertise in communication.

Supervised Field Ministry Experience (SFME)

SFME 510 Supervised Field Ministry Expe 0 Credit Hours

STCO 610 Supervised Field Ministry Expe 0 Credit Hours

STCO 611 Advanced Supervised Field Ministry 0 Credit Hours
Offered: Resident

STCO 612 Advanced Supervised Field Min 0 Credit Hours

STCO 613 Adv Supervied Field Ministry I 0 Credit Hours

STCO 613 Supervised Field Ministry Experience 3 Credit Hours

Teaching English as a Second Language (TESL)

TESL 600 Introduction to TESL 3 Credit Hours
An overview of the history, philosophies, & current trends of second language research. Students will explore the multiple fields of study that comprise TESL, including education, linguistics, psychology, and cultural anthropology, all from a Christian worldview.
Offered: Online

TESL 601 Methods and Materials for TESL 3 Credit Hours
An exploration of various methods and techniques for teaching reading, writing, listening, and speaking to second language learners.
Offered: Online

TESL 602 Curriculum, Testing, and Assessment 3 Credit Hours
Prerequisites: TESL 600
This course focuses on language specific curricular design, student assessment, and protocols for standard test creation.
Offered: Online

TESL 603 Teaching Grammar, Lexicon, and Pronunciation 3 Credit Hours
Prerequisites: TESL 600
Instruction on the skills needed to teach grammar, lexicon, and pronunciation to second language learners.
Offered: Online

TESL 630 Applied Linguistics I 3 Credit Hours
Prerequisites: TESL 600
An overview of major fields of linguistics and their application to TESL.
Offered: Online
TESL 633 Applied Linguistics II 3 Credit Hours
Prerequisites: TESL 630
The course addresses grammar, phonology, and linguistics research for TESL.
Offered: Online

TESL 699 Internship 3 Credit Hours
Prerequisites: Forgn Lang Prereq Met (6 hrs.) with a score of 6
The course provides field experience, practical applications of the discipline, and opportunities for vocational development.
Offered: Online

Theology (THEO)

THEO 510 Survey of Theology 3 Credit Hours
A foundational study of the basic disciplines of theology. The following theological disciplines will be examined: biblical, systematic, historical, dogmatic, and contemporary theologies.

THEO 525 Systematic Theology I 3 Credit Hours
A course beginning the study of systematic theology with special attention given to prolegomena the doctrines of Scripture, God, angels, humanity and sin.

THEO 530 Systematic Theology II 3 Credit Hours
A course completing the study of systematic theology with special attention given to the doctrines of the person and work of Christ, the Holy Spirit, salvation, the church, and last things. Such issues as nature and extent of salvation, the origin, nature and future of the church, and the eternal state are explored.

THEO 603 Modern and Contemporary Christian Thought 3 Credit Hours
A study of thought from Enlightenment trends to contemporary theological and philosophical developments. The latter subject includes Nineteenth Century liberalism, Twentieth Century new-orthodoxy, existentialism, and post-existential trends such as secular, liberation, and hope theologies. Attention is also given to recent philosophical movements such as logical positivism, linguistic analysis, and process thought. The course stresses the history of major ideas, the system of formative scholars, and the conservative alternative. (Formerly THEO 503)
Offered: Online

THEO 610 Biblical Theology 3 Credit Hours
A study of the nature, history and current trends in biblical theology. Each semester there will be a special focus given to specific areas in Old Testament biblical theology or New Testament Biblical theology.
Offered: Resident

THEO 620 Ecclesiology 3 Credit Hours
Prerequisites: THEO 530
This course is a study of the origin, nature, purpose, mission, polity, and ministry of the church; a major emphasis will be on Baptist ecclesiology.
Offered: Online

THEO 626 Doctrine of God 3 Credit Hours
Prerequisites: THEO 525
A study of the existence, nature, and attributes of the triune God. Contains a study of such doctrines as the decree of God, Creation, the providence of God, and the doctrine of the Trinity.
Offered: Resident and Online

THEO 630 Eschatology 3 Credit Hours
Prerequisites: THEO 530
A study of key issues related to eschatology such as heaven and hell, Israel, the church, the rapture, the tribulation, the millennium, the Book of Revelation, and Dispensationalism.

THEO 635 Contemporary Theological Issues 3 Credit Hours
Prerequisites: THEO 525 or THEO 530
Designed to isolate and discuss major theological issues within the various major heads of systematic theology. Specific problems to be discussed will vary with the discretion of the professor, but issues such as free will and determinism, the nature of man, and the rapture of the Church are indicative of the kinds of issues to be discussed.
THEO 641 Advanced Bibliology 3 Credit Hours
Prerequisites: THEO 525
A detailed study of the whole area of Bibliology. Special emphasis will be placed on contemporary conceptions of such doctrines as Revelation and Inspiration. An in-depth analysis of the contemporary debate over the inerrancy and authority of Scripture will be included.
Offered: Resident

THEO 642 Advanced Christology 3 Credit Hours
Prerequisites: THEO 530
A detailed examination of the Person, nature, and works of Jesus Christ. Focus will be not only on traditional issues in Christology, but also on contemporary discussions in the field, both within orthodoxy and outside it.
Offered: Resident

THEO 644 Johanne Theology 3 Credit Hours
Prerequisites: THEO 610
A course focusing on the unique contributions of John to each of the major areas of history, symbolism, language and journalistic style of development. From the course, the student will correlate the unique Johannine principles of theologizing and hermeneutics, as well as the particular contributions John makes to New Testament theology. A. and Th.M. students.
Note: Offered to M.

THEO 650 Public Theology 3 Credit Hours
Prerequisites: THEO 525 or THEO 530
A study of the role and practice of Christian ministry in responding to ethical challenges presented by cultural developments in the contemporary world.
Offered: Online

THEO 654 Pneumatology 3 Credit Hours
Prerequisites: THEO 530
A comprehensive study of the Person and work of the Holy Spirit. The activities of the Holy Spirit are traced through the Old and New Testaments, with special attention to His ministry to Christ, to the Church, and to the individual Christian.

THEO 678 Western and New Religions 3 Credit Hours
The history, doctrines, and present state of the major cults such as Mormonism, Christian Science, Jehovah's Witnesses and Seventh Day Adventism. The course will also include a study of the Occult Movement. Emphasis is placed on the errors of these groups and on methods and materials for confronting them effectively.

THEO 679 Theology Capstone 3 Credit Hours
Prerequisites: (THEO 603 or THEO 503) and THEO 610
This theology capstone course is for the Master of Theology student who has completed at least 24 hours toward the degree. This course is to demonstrate scholarship and contribute to the general knowledge in a specified field of theology. The approved topic must be related to the student's chosen area of study in the Master of Theology program.
Offered: Online

THEO 695 Directed Research in Theology 1-3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of theology.

THEO 697 Seminar in Theological Studies 3 Credit Hours
An intensive study in a specific subject of theology. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

THES 689 Thesis Project Proposal and Research 3 Credit Hours
(Formerly THEO 689)

THES 690 Thesis Defense 3 Credit Hours
(Formerly THEO 690)

Tourism (TOUR)
TOUR 601 Current Issues and Theories for Hospitality and Tourism Management 3 Credit Hours
This course will explore the various issues faced by hospitality and tourism organizations. Current research designs and methodologies related to hospitality and tourism will be examined.

TOUR 602 Hospitality and Tourism Marketing Strategy 3 Credit Hours
This course offers an examination of the marketing process as applied to hospitality and tourism management organizations. Attention is given to the role of marketing as part of a travel and tourism organization's strategic plans.
TOUR 603 Sport and Event Tourism Planning And Impacts 3 Credit Hours

This course is an investigation into the planning process for special events and sport tourism. Potential economic, social, and environmental impacts of events are examined as they apply to the various tourism and event stakeholders.

United States History (HIUS)

HIUS 510 American Colonial History 3 Credit Hours

This course will provide a comprehensive examination of the political, economic, religious, cultural, and military developments from the founding of the thirteen colonies to the American Revolution.

HIUS 511 Colonial Virginia History 3 Credit Hours

Students in this course will explore and analyze the key political, economic, religious, cultural, and military developments from the founding of Virginia to the American Revolution.

Offered: Resident

HIUS 512 American Revolution 3 Credit Hours

The course covers American history during the War for Independence, focusing on the factors that prompted separation of the colonies from Great Britain, on the role of Christianity in the resistance and independence movements, and on the nature and genius of the American constitutional system of government.

Offered: Resident and Online

HIUS 513 Jeffersonian America 3 Credit Hours

The history of the United States from the presidency of George Washington through the War of 1812, with particular attention to political and constitutional conflicts, the rise of American institutions, and evangelical religious movements.

Offered: Resident

HIUS 519 Antebellum South 3 Credit Hours

This course will study all aspects of Southern life and civilization from the colonial period to secession with special emphasis on the effects of the institution of slavery and the formation of Southern nationalism.

Offered: Resident

HIUS 520 Civil War and Reconstruction 3 Credit Hours

This course is a comprehensive examination of the causes, course, and the significance of the American Civil War and Reconstruction.

HIUS 530 American Christian Heritage 3 Credit Hours

The course will explore American Christianity, emphasize its impact on American political, social, and cultural history, and evaluate the role of Christianity in influencing the American character.

Offered: Resident and Online

HIUS 536 American Social and Intellectual History Since 1865 3 Credit Hours

This course examines the social and intellectual history of the United States from Reconstruction to the present.

Offered: Resident

HIUS 542 History of American Political Parties Since 1896 3 Credit Hours

This course examines the party system's response to the emergence of the United States as a world power from the election of McKinley to the present. Special emphasis is placed on U.S. presidential elections.

Offered: Resident and Online

HIUS 551 Studies in U.S. History (1898-1945) 3 Credit Hours

This course will examine American history from the Spanish-American War through World War II with a focus on major historical events and the arguments made by historians.

Offered: Resident

HIUS 552 Recent America (Since 1945) 3 Credit Hours

This course will examine U.S. history from the conclusion of World War II to the end of the 20th Century with a focus on major historical events and the arguments made by historians.

Offered: Resident

HIUS 570 American Diplomatic History 3 Credit Hours

Students in this course will examine the key historiographical literature concerning American diplomatic history since 1898. While emphasis will be placed on some of the more recent interpretations of issues, older analyses that have stood the test of time will also be examined.

Offered: Resident

HIUS 580 Modern American Military History 3 Credit Hours

Students in this course will examine the key historiographical literature concerning American military history since 1898. While emphasis will be placed on some of the newer interpretations of issues, older analyses that have stood the test of time will also be examined.

Offered: Resident

HIUS 595 Directed Readings 3 Credit Hours

This course will allow a student to work individually with a professor to do extra readings on topics and/or specific issues related to American history and/or historiography.

Offered: Resident

HIUS 597 Special Topics in United States History 3 Credit Hours

This course will allow a student to work individually with a professor to do research on a specific topic related to American history.

HIUS 695 Directed Research 3 Credit Hours
Women's Ministry (WMIN)

WMIN 500 Introduction to Ministry for Women 3 Credit Hours
This course presents an introduction for women's ministry and for women in ministry. It will introduce students to the topics of ministry calling, preparation for ministry, the place of women in ministry, working with men in ministry settings, and the balance between ministry and family responsibilities.

WMIN 520 Biblical and Theological Foundations of Women in Ministry 3 Credit Hours
Prerequisites: WMIN 500
This course examines the biblical and theological foundations of women in ministry. Particular attention will be given to the biblical passages dealing with women in leadership positions and the theological discussions surrounding women in ministry.

WMIN 697 Seminar in Women's Ministry 3 Credit Hours
An intensive study in a specific subject of women's ministry. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

World History (HIWD)

HIWD 550 History of Slavery and Servitude in the Western World 3 Credit Hours
This course examines the history of slavery and other forms of servitude in the Western world from the ancient civilizations of the Near East through the modern nation-states of Europe and the Americas.
Offered: Online

HIWD 555 World War II 3 Credit Hours
This course is a comprehensive examination of the causes, course, and significance of World War II.

HIWD 560 History of the Atlantic World 3 Credit Hours
This course examines the social, cultural, political and economic exchanges and interactions of the Atlantic World circa. 1492-circa 1825.

HIWD 595 Directed Readings in World History 3 Credit Hours
This course will allow a student to work individually with a professor to do extra readings on topics and/or specific issues related to Latin American history and/or historiography.
Offered: Resident

HIWD 597 Special Topics in World History 3 Credit Hours
This course will allow a student to work individually with a professor to do research on a specific topic related to Latin American history.
Offered: Resident

Worship Music (WMUS)

WMUS 514 Basic Conducting 3 Credit Hours
Basic instruction in conducting techniques for worship leaders in traditional and non-traditional worship settings. Knowledge and skill areas include: posture and hand position, baton usage, foreign and mechanical terms, conducting gestures and patterns, basic score interpretation, rehearsal management, and technique.

Offered: Online

WMUS 515 Graduate Conducting for the Worship Leader 3 Credit Hours
Prerequisites: WMUS 514 or MUSC 514 or WRSP 010
Intermediate and advanced instruction in conducting techniques for worship leaders in traditional and non-traditional worship settings. Knowledge and skill areas stressed are a review of conducting gestures and patterns; advanced score interpretation, rehearsal management and technique, special problems in vocal and instrumental situations.

WMUS 516 Advanced Graduate Conducting 3 Credit Hours
Prerequisites: WMUS 515
This course is a continuation of WMUS 515 and focuses on developing advanced instruction in conducting techniques in traditional and non-traditional settings. Specific attention is given to the role of the conductor in practical contexts; including 21st century evangelical worship, professional orchestral/choral organizations, and elementary, secondary, and collegiate educational systems.

Offered: Online

WMUS 522 Basic Music Theory for the Worship Leader 3 Credit Hours
Prerequisites: WMUS 522 or MUSC 522 or WRSP 010 or WMUS 010 or MUSC 010
In this course, students learn basic principles of music theory for the worship ministry including: notes, rhythms, intervals, chord construction, chord charts, and harmonic progressions. Basic arranging and analytical techniques are also explored related to traditional, classical, and popular worship music styles. This course is designed to prepare students for WMUS 524.
Offered: Online

WMUS 524 Analytical Techniques for the Worship Leader 3 Credit Hours
Prerequisites: WMUS 522 or MUSC 522 or WRSP 010 or WMUS 010 or MUSC 010
This course is a foundational course for graduate contemporary music theory practices. The study includes a thorough investigation of jazz and extended harmonies used in contemporary worship music. Worship students continue to learn and apply analytical technique to various music styles. Melodic concepts and music form are explored in the literature from historical music periods and compared to present worship music literature and practice. Principles of harmonic function are taught and applied to representative worship literature forms.
WMUS 525 Advanced Contemporary Arranging Techniques for Worship

3 Credit Hours

Prerequisites: WMUS 630

This course is designed to teach and develop advanced skills as an arranger of vocal and instrumental ensembles. Chord chart writing and arranging techniques relevant to the rhythm section (keyboards, bass, guitar, drums, and percussion) and contemporary rhythm idioms will be explained and studied. Students will be expected to demonstrate skill in scoring for praise bands, orchestras, singers, and choirs. A major worship arranging project is required.

WMUS 550 Applied Music

1-3 Credit Hours

Guitar: Graduate level Private guitar lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Piano: Graduate private piano lessons. Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classical and contemporary styles. Voice: Graduate level private vocal lessons. Instruction includes technical exercises, review of literature, and development of music reading and performance skills in classical and contemporary styles. Woodwinds: Continuation of private lessons at the graduate level in the woodwind instruments of band and orchestra (Clarinet, Flute, Saxophone, Oboe or Bassoon). Instruction includes technical exercises, chords and chord progressions, and development of music reading and performance skills in classic and contemporary styles.

WMUS 600 Music Resources and Literature for Worship Leading

3 Credit Hours

A study of the materials used in program building of instrumental and choral ensembles in non-traditional worship settings. Evaluation is made of select publishers to investigate musical, audio, video, and software resources availability with application to contemporary Christian worship ensemble.

WMUS 610 Tools and Techniques for Contemporary Worship

3 Credit Hours

A study of the current available resources and techniques employed by contemporary worship leaders. Consideration is given to practical issues related to rehearsal techniques, programming, MIDI technology, sound reinforcement, use of drama, use of drama as script, and worship events. (Formerly WRSP 610)

WMUS 630 Principles of Worship Technology

3 Credit Hours

The study of computer applications in music, including: competencies in the use of notation software, music recording software; sequencing; using loops in live and recording applications; integrating midi and digital audio; capturing, editing, and storing digital audio data; multi and single tracking; VSTs; and sound shaping.

WMUS 670 Principles of Music and Worship Pedagogy

3 Credit Hours

This course is designed to examine the planning development, organization, implementation and evaluation of Worship Pedagogy for secondary, post-secondary, and college students. Attention is given to historical concepts of pedagogy, current trends in curriculum organization, available resources for the teaching and training of worship leaders, and strengths and weaknesses of various worship pedagogy models. Includes a graduate level curriculum project.

WMUS 687 Music and Worship Ministry Project

3 Credit Hours

Prerequisites: WMUS 692

This course is designed to provide the student with practical experience in the planning and implementation of a major music and worship ministry project. This project is practical in nature and may include, but is not limited to: a major seasonal presentation, choral recording project, or group mission project. The student must demonstrate the ability to develop a plan of action for spiritual foundation, ministry methodology, communication of learned principles and application to the local ministry being served. Presentation of the 'ministry project' must include all planning and production aspects of the event and a formal research paper.

WMUS 690 Worship Program Recital

3 Credit Hours

Prerequisites: WMUS 692

This is a faculty supervised, 55-60 minute worship recital program. The student must demonstrate the ability to organize a worship program using a variety of media, drama, lighting, and instrumentation. Repertoire is representative of the vast stylistic repertoire in the student’s area of performance disciple and may include but is not limited to: traditional classical, sacred classic, contemporary Christian, worship and praise, gospel song, or hymn-style literature. Recital preparation must demonstrate completion of a serious, formal research paper that documents the song repertoire and selection, historical data about composers and song-writers, rationale for stylistic representation, and biblical foundations for the program. Presentation of select material representing this research is made during the student recital.

WMUS 691 Worship Lecture Recital

3 Credit Hours

This is a faculty supervised, 55-60 minute worship recital program. The student must demonstrate the ability to organize a worship program using a variety of media, drama, lighting, and instrumentation. Repertoire is representative of the vast stylistic repertoire in the student’s area of performance disciple and may include but is not limited to: traditional classical, sacred classic, contemporary Christian, worship and praise, gospel song, or hymn-style literature. Recital preparation must demonstrate completion of a serious, formal research paper that documents the song repertoire and selection, historical data about composers and song-writers, rationale for stylistic representation, and biblical foundations for the program. Presentation of select material representing this research is made during the student recital.
Worship Studies (WRSP)

WRSP 501 The Dynamics of Corporate Worship 3 Credit Hours
This course involves a study of the dynamic influences of personal, biblical, historical, professional, and practical worship to the corporate ministry of the local church. Application is made to the presentation and influence of singing, praying, preaching, evangelism, and the great modern revival movements on corporate worship in the church today. Graduate students complete a personal assessment that relates honest, genuine, unhindered, and biblical worship to their own responsibility to music, prayer, evangelism, preaching, and corporate ministry.

WRSP 502 History and Philosophy of Worship 3 Credit Hours
This is a study of the history of worship from the Old Testament, the early church, through the modern period. Emphasis is given to changes in worship practices resulting from the Reformation, the Great Awakenings, revival movements, large evangelistic crusades of the 1940s and 1950s, Jesus Movement, and the Praise and Worship movement.

WRSP 510 Biblical Foundations of Worship 3 Credit Hours
A study of the principles of worship as found in the Old and New Testaments. Includes study of the Tabernacle as a model of worship, worship in the lives of biblical characters, and the biblical roots of worship practices developed by the early church.

WRSP 520 The Role of the Worship Leader 3 Credit Hours
A study of the many and varied roles and relationships of the worship leader. Special emphasis is placed on the relationship between the worship leader and the pastor. Also considered are the relationships between the worship leader and other staff members, singers/instrumentalists, and the congregation.

WRSP 530 Principles of Leadership for the Worship Leader 3 Credit Hours
A study of the characteristics and responsibilities of a good leader as they relate to the worship leader. Planning, organizing, staff development, and decision-making are topics of consideration.

WRSP 540 Current Issues in Worship 3 Credit Hours
A study of the current trends and issues related to contemporary worship. Consideration is given to various worship models, worship evangelism, cross-cultural issues, and church worship in transition.

WRSP 545 Global Worship 3 Credit Hours
A study of worship as observed in biblical examples. Scriptural principles regarding worship are applied to the life of the individual and to individual responsibility in the corporate worship experience. Emphasis is on building a theological orientation for interculturality by understanding the nature of worship as the foundation for building interdependent relationships in the kingdom of God.

WRSP 551 Building a Balanced Worship Ministry 3 Credit Hours
This is a course that looks at the various roles the worship leader holds within the mandates of the overall church mission. Consideration is given to the worship leader's relationship to the local church education and discipleship programs, missions and evangelism outreach ministries, preaching and teaching ministries, women's and men's ministries, children, youth and young adult ministries, and creative arts ministries.

WRSP 555 Directed Research 3 Credit Hours
A study of theology which includes developing a strategy for teaching theology of a biblical theology of worship and music; and, practical application based on collaborative research.

Offered: Online

WRSP 635 Building a Theology of Worship 3 Credit Hours
This course focuses on the cultural, social, inter-generational, and ecclesiastical issues surrounding worship in the black evangelical church community. Issues surrounding social norms and values, inter-generational relationships, reconciliation and multiculturalism, role of the worship leader and the family and the diverse issues in the worshiping community are investigated. Students complete a major writing project based on collaborative research.

Offered: Online
WRSP 641 Team Building in African American Worship 3 Credit Hours

This course deals with principles for team building in the African American worship tradition. Studies include, but are not limited to: working as a pastor/worship leader team, leading from the ‘second seat,’ organizational management, conflict resolution, principles for developing people skill and personnel management. Students complete a capstone research project and professional practitioner interview.

**Offered:** Online

WRSP 645 The Role of the Pastor with the Worship Leader 3 Credit Hours

This is a study of the relationship between the pastor and minister of music/worship leader in a local church. Clarification of the biblical role a pastor has as ‘the worship leader’ of his congregation is discussed. Responsibilities pastors and ministers of music/worship leaders have to the gospel ministry are defined and articulated. Leadership models are investigated in the light of team building and staff management. Practical application is made through class and small group case studies, interviews, on-location observations, and personal evaluation.

WRSP 650 Bibliography & Research in Music & Worship 3 Credit Hours

Introduction to research methodologies in preparation for completion of the capstone project in worship and music studies.

WRSP 671 God's People and the History of African American Worship 3 Credit Hours

This course documents the history of African-American worship through the black experience. Studies include: Africa and its People, The Middle Passage Period, 1750-1890 (Heritage, Colonization, Slavery and the quest for freedom - How God brought this people to this place in History), 1890-1960 A New Age Part 1, 1960-1990 A New Age Part 2, and, 1990-Present - The Way Forward/A New Millennium. Students develop a timeline tracing the African-American worship experience and participate in a capstone research project.

**Offered:** Online

WRSP 689 Master's Thesis Proposal and Research 3 Credit Hours

This course is only for students who have not made sufficient progress so as to demonstrate they will be able to complete the thesis or project within the time frame required in WRSP 690: Master's Thesis/Project Defense.

WRSP 690 Thesis 3 Credit Hours

**Prerequisites:** WMUS 692

The thesis is a comprehensive paper written in a specific worship discipline and selected in consultation between the student and approved faculty. It should illustrate a thorough understanding and mastery of research techniques and demonstrate a level of original discovery suitable for graduate work on the master’s level. The final document should also reflect the ability of the student to integrate the various facets of course preparation to practical research in the field of music and worship.

**Note:** Any student who will not be able to complete and defend his/her thesis in the course of a single semester may be required to take WRSP 689 - Thesis Proposal and Research, and repeat the course each semester until deemed ready for enrollment in WRSP 690.

WRSP 695 Directed Research in Worship 1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of worship.

WRSP 697 Seminar in Worship Studies 1-3 Credit Hours

This course focuses on advanced worship practice within the evangelical and local church community. Student and faculty will work together to develop and tailor assignments to each student’s individual preference, professional goals, and objectives for future practice as a worship leader. A major project illustrating the student’s ability to apply learned theory to the practical outcomes of a local church is expected.

WRSP 698 Worship Practicum (Apprenticeship) 1-3 Credit Hours

WRSP 698 - Worship Practicum (Apprenticeship) (1 to 3 hours)

WRSP 699 Graduate Worship Internship 3-6 Credit Hours

**Prerequisites:** WMUS 692

Requires 9 - 12 months of supervised experience in an approved worship ministry. Internships are awarded to students receiving an invitation from one of the approved ministries participating in the ‘LU Worship Department Graduate Mentoring Program.’ The student is to submit a proposal for internship placement one semester in advance and approved by the Chair of the Graduate Program. ‘Special consideration is given to student giftedness, talent, leadership skill and spiritual maturity as related to local ministry needs. At the conclusion of the internship, the student must demonstrate completion of a serious, formal research paper that documents how the internship promoted formational, transformational, relational, missional, and reproducible worship in their own ministry.

**Registration Restrictions:** Completed application to the Coordinator of the Graduate Program.
Youth Ministries (YOUT)

YOUT 510 Developing a Philosophy of Youth Ministry 3 Credit Hours
An introductory course designed to develop a basic philosophy of the youth ministry through an analysis of contemporary and historical youth ministry models.

Offered: Online

YOUT 520 Organizing Youth Ministries 3 Credit Hours
Prerequisites: YOUT 510
This course is a careful analysis of methods, curriculum, staffing, promotion, and facilities of the total youth program.

YOUT 615 Integrating Youth Ministry into the Home and Church 3 Credit Hours
Prerequisites: YOUT 510
A course designed to study the philosophy and principles of ministry leadership as they relate to the dual responsibilities of home ministry and local church ministry. Issues such as balancing family and ministry, establishment of priorities, strategies of integration, roles and responsibilities of parents and leaders, team building, outcomes and goals, shifting emphases and trends will be addressed. Special emphasis will be placed on helping ministry leaders address the special challenges of balancing spousal, parental and ministry leadership responsibilities through priorities and integration by developing a personal paradigm for each of the roles.

YOUT 630 Contextualization of Evangelism and Discipleship in Youth Ministry 3 Credit Hours
A study of the philosophy, principles, and practices of evangelizing and discipling middle and high school age students within the context of their own diverse cultures. Certain ‘axioms’ and ‘paradigms’ of adolescent ministry will be examined and evaluated for their effectiveness as tools for understanding and reaching students with the gospel.

YOUT 695 Directed Research in Youth Ministries 3 Credit Hours
Prerequisites: YOUT 510

YOUT 697 Seminar in Youth Ministries 1-3 Credit Hours
YOUT 697 - Seminar in Youth Ministries (1 to 3 hours)

YOUT 698 Youth Practicum 1-3 Credit Hours
YOUT 698 - Youth Practicum (1 to 3 hours)

Courses of Instruction - Doctoral Programs

Note: It is the student’s responsibility to make up any prerequisite deficiencies, as stated in this Catalog, which would prevent the successful completion of any course.

**Apologetics (APOL)**

**APOL 810 Miracles, the Resurrection, and Christian Ministry**

**Prerequisites:** DMIN 810

This course examines the apologetic value of the miraculous, giving special emphasis to the resurrection of Jesus, as it bears on Christian theology and the life and mission of the Church.

**Note:** Available to DMIN Students only.

**Offered:** Online

**APOL 820 Cultural Apologetics**

**Prerequisites:** DMIN 810

This course equips students to understand, evaluate, and engage cultural trends from a Christian ministerial perspective. Students will learn a biblical theology of culture which they will use to evaluate strategies for church engagement in the culture. Particular emphasis will be placed on the intersections that exist between ecclesial ministry, cultural influences in the western world, and apologetics.

**Registration Restrictions:** Admission to the DMIN Program.

**Offered:** Online

**APOL 900 Reading Seminar in Apologetics**

3 Credit Hours

A reading seminar which focuses on the basic literature in the field.

**APOL 910 Apologetic Method**

3 Credit Hours

A seminar critically examining various methods and taxonomies of apologetics. A detailed study of major Christian apologetic methodologies, as espoused by representative thinkers, from New Testament times to the present. Emphasis is placed on the structure and defense of various systems, including the formulation of a personal apologetic strategy.

**APOL 920 Miracles**

3 Credit Hours

A seminar examining classic and modern arguments against the miraculous with special attention to the resurrection of Jesus Christ.

**APOL 930 The Problem of Evil, Pain and Suffering**

3 Credit Hours

A seminar examining the problem of evil in classical theology and apologetics. Theodicies from the time of the Church Fathers down through the modern era, as well as serious challenges to Christian theism, from both philosophy and apologetics, will be critically examined.

**APOL 940 Modern Apologetic Issues**

3 Credit Hours

A seminar examining current issues in apologetics, including pluralism, open theism, the validity/historicity of the biblical documents, and the validity of religious truth claims.

**APOL 950 Global Apologetics**

3 Credit Hours

A seminar on apologetic approaches to major religions.

**APOL 965 Apologetics in the Church**

3 Credit Hours

A course especially designed to deal with current issues in Christian evidences, so that the pastor can apply the results to preaching, teaching and evangelism.

**APOL 995 Directed Research in Apologetics**

1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of Apologetics.

**APOL 997 Seminar in Apologetics**

1-3 Credit Hours

An intensive study in a specific subject of Apologetics. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.
ARTS 700 The Photography Studio 3 Credit Hours

This course will assist the student in discovering and developing their own personal photographic style from within a historical context of fine art studio photography. The student will develop an extensive and cohesive body of personal work that will be available for display upon course completion. This course will directly equip the student to work in a variety of studio settings. May be taken twice.

Offered: Resident and Online

ARTS 711 Graduate Drawing Topics 3 Credit Hours

A studio for drawing with an emphasis on human anatomy, advanced drawing techniques, and observation. At the graduate level students are expected to be self-motivated in the pursuit of their personal artistic interests. Meetings will be scheduled with the professor each week to report on progress of personal projects and research.

ARTS 721 Graduate Painting Topics 3 Credit Hours

This course serves to facilitate advanced painting topics with the intention of developing in the graduate student a highly professional approach and achievement in his art. The work may be in any medium preferred by the student. It may be conceptual or technically driven but a graduate student is expected to produce at a higher aesthetic level than undergraduates, thus the artwork created should excel to a professional level. Graduate students are required to meet with their professor each week to report on progress of personal projects and research.

ARTS 731 Advanced Sculpture Topics 3 Credit Hours

The purpose of this course is to explain and demonstrate traditional and contemporary sculptural practices in a studio environment. This graduate course stresses individual direction, achievement, and creativity in sculpture. The first week of class the student will propose the work he plans to make during the semester. The work may be in any medium preferred by the student. It may be conceptual or object making but a graduate student is expected to produce at a higher aesthetic level than undergraduates. Thus the artwork created should excel to a professional level. Graduate students are required to make weekly appointments to meet with their professors regarding the direction of their work.

ARTS 735 Graduate Wood Sculpture 3 Credit Hours

The graduate course further explores woodworking techniques and profession working methods. This graduate course addresses processes of subtractive and additive methods of wood sculpture coupled with the individual direction taken by the graduate student.

ARTS 755 Graduate Advanced Jewelry 3 Credit Hours

The course investigates advanced materials, processes, and styles relating to the creative production of jewelry forms. This hands-on, graduate studio course promotes creative and professional excellence. Graduate students may work with any jewelry methods preferred as they work toward a proposed body of work.

ARTS 770 Graduate Printmaking 3 Credit Hours

This course aims to further expose the graduate student to printmaking in creating traditional artwork in a context of their choosing. This hands-on approach to printmaking promotes creativity and professional excellence. Graduate students may work in any medium(s) preferred as they work toward a proposed body of work.

ARTS 776 Graduate Ceramics 3 Credit Hours

Advanced studies and experiences in hand-building processes and wheel throwing techniques, including experimentation with glazes and surface decoration on creative ceramic works. This level of study is expected to be more self-directed, as graduate students develop a proposed body of work that reflects experimentation and advanced craftsmanship under the supervision of the major professor.

ARTS 780 Art and Design Research Methodologies 3 Credit Hours

Students define the thesis or portfolio 'problem' and conduct research through a variety of methods in order to envision the end state and how it may be achieved.

Offered: Online

ARTS 789 Thesis/Portfolio Research 3 Credit Hours

This course provides an opportunity for the graduate student to pursue specialized supervised independent creative or scholarly research toward the thesis and exhibition.

ARTS 790 Thesis/Portfolio Project 1-6 Credit Hours

The written thesis should be an in depth description of the student's artwork and studio practice, clearly delineating its underlying concepts and ideas, and provide a context for the work within the field of art, design and cultural history. The MFA thesis is meant to frame and defend work that culminates in the thesis exhibit. The paper has many of the demands of a traditional thesis but with less writing, generally 20-25 written pages plus documentation of work.

ARTS 794 Graduate Arts and Crafts 3 Credit Hours

Advanced studies and application of several universal craft disciplines for utilitarian and expressive purposes. This level of study is expected to be more self-directed, as graduate students develop a proposed body of work that reflects experimentation and advanced craftsmanship under the supervision of the major professor.

ARTS 795 Directed Research 3 Credit Hours

ARTS 797 Special Topics 3 Credit Hours

This course stresses individual direction and achievement in the medium that the student is concentrating on for their program. At this advanced level the student is expected to be self-motivated in the pursuit of a direction and working toward that end. Graduate students are also expected to research the work of other artists who work in a similar manner.
Bible (BIBL)

BIBL 700 Introduction to Bible Exposition 3 Credit Hours
An introductory course serving as an orientation to the PhD in Bible Exposition. Foundational aspects of writing and research for Bible exposition are explored, with attention given to dissertation development. An introduction to expositional hermeneutics is included with an emphasis on inductive methodology and procedure.

Registration Restrictions: Enrollment in the PhD Bible Exposition.

Offered: Online

BIBL 715 Hermeneutics 3 Credit Hours
Prerequisites: BIBL 700
An advanced course in hermeneutics with an emphasis in preparing the student to engage the biblical text for genre specific exposition. Content focuses on genre specific issues in the interpretation and application of the biblical text, including an examination of current interpretive approaches for primary and secondary literary genres. Exposure to theoretical issues in hermeneutics and their practical ramifications for Bible exposition is given significant consideration.

Offered: Online

BIBL 810 Theology of the Gospel 3 Credit Hours
Prerequisites: DMIN 810
An examination of the gospel and its implications for ministry and the Christian life with special focus on understanding the gospel in the context of the entire biblical narrative, cultivating a gospel-centered life, and viewing ministry through the lens of the good news of Jesus Christ. Crosslisted with THEO 810

Note: Available to DMIN students only.

Offered: Online

BIBL 820 The Theory and Practice of Biblical Theology 3 Credit Hours
Prerequisites: DMIN 810
An examination of the various approaches to biblical theology, including historical, worldview, canonical, and theological, with a focus on how biblical theology shapes ministry practice today.

Note: Available to DMIN Students only.

Offered: Online

BIBL 830 The Bible and the Pastor (or Uses of Scripture in Pastoral Ministry) 3 Credit Hours
Prerequisites: DMIN 810
An examination of the function of the Bible within pastoral ministry with a specific focus on the Bible in preaching/teaching, counseling, church administration and the pastor’s devotional life. The class will examine the unique purpose of the Bible in each setting and a methodology for applying the Bible in each context.

Note: Available to DMIN Students only.

Offered: Online

BIBL 987 Research and Communication for Bible Exposition 5 Credit Hours
Prerequisites: BIBL 700 and BIBL 715 and OBST 800 and OBST 815 and OBST 845 and OBST 860 and NBST 800 and NBST 815 and NBST 830 and NBST 845
A 16 week course designed in two stages. The first half of the course (8 weeks) engages the student in homiletical aspects of Bible exposition, with attention given to the expositor and the process of moving from text to sermon. Building on prior course exposure, emphasis is placed on expository distinction among literary genres and subgenres, while also integrating biblical theological awareness into the modern context of communicating the message of Scripture. The second half of the course (8 weeks) is designed to develop research skills in concert with the completion of comprehensive exams and the development and approval of a dissertation prospectus. Comprehensive exams and the prospectus approval process is under the direct supervision of the student’s dissertation mentor. *Comprehensive exams must be taken and completed satisfactorily prior to enrollment in further courses. *Dissertation prospectus must be written and approved prior to enrollment in further courses.

Offered: Online

BIBL 988 Research Methodology for Bible Exposition 5 Credit Hours
Prerequisites: BIBL 987
A 16 week course designed to develop dissertation research, analyze research findings, and compile conclusions based on guided research into an approved dissertation prospectus. The outcome of dissertation writing by the conclusion of the course should approximate three chapters of content for the student’s dissertation. Writing progress will develop under the oversight of the student’s dissertation mentor.

Offered: Online

**BIBL 989 Dissertation Research and Writing** 5 Credit Hours  
**Prerequisites:** BIBL 988  
A 16 week guided research course centered around the development of an approved dissertation prospectus into a first draft dissertation. Dissertations should be designed and structured into chapters (usually 4 to 7 chapters), and demonstrate substantial content development in preparation for final draft refinement, revision, and defense. Writing progress throughout the course will be in close consultation with the student’s dissertation mentor.  
**Offered:** Online  

**BIBL 990 Dissertation Defense** 0 Credit Hours  
**Prerequisites:** BIBL 989  
A course designed for students to defend the methodology of their research design and the analysis of their research findings. Students will revise and refine the first draft dissertation under the supervision of their dissertation mentor in preparation for final approval and defense before their dissertation committee (comprised of mentor and two readers).  
**Offered:** Online

| BUSI 750    | Human Resource Development                        | 3 Credit Hours| BUSI 700 and BUSI 710  
An advanced study of the integrated use of training, organizational development, and career development efforts to improve individual, group, and organizational effectiveness. Coverage is designed to develop ethical, competent professional leaders with the KSA’s needed to perform effectively in critical HRD roles.  
**Offered:** Online
BUSI 755 Organizational and Executive Coaching 3 Credit Hours

**Prerequisites:** (BUSI 700 and BUSI 710) or DIGI 700

Comprehensive overview of business coaching theory, methodology, and techniques, including organizational coaching theories and frameworks, coaching skills and techniques, and executive coaching, resulting in an experiential and individualized leader development process that builds a leader's capability to achieve short- and long-term organizational goals.

**Offered:** Online

BUSI 760 Quality Management and Productivity 3 Credit Hours

**Prerequisites:** BUSI 700 and BUSI 710

The advanced study of the concepts of continuous improvement and quality management, viewing quality as a systematic process that improves customer satisfaction. Coverage includes methods and technologies that will aid managers in ensuring that the organization’s quality system is effectively meeting the organization's continuous improvement goals.

BUSI 770 Strategic Thinking for Decision-Making 3 Credit Hours

**Prerequisites:** BUSI 700 and BUSI 710

The advanced study of the process of business strategy (for both profits and nonprofits), including the decision traps to avoid and the most effective ways to develop and implement strategy.

BUSI 780 Business Case Study Design Seminar 3 Credit Hours

**Prerequisites:** BUSI 770

BUSI 789 Appl Doctoral Research Proj II 5 Credit Hours

**Prerequisites:** BUSI 788

BUSI 790 Appl Doctoral Research Prj III 5 Credit Hours

**Prerequisites:** BUSI 789

BUSI 815 Qualitative Research Methods 3 Credit Hours

**Prerequisites:** (BUSI 700 and BUSI 710 and BUSI 730 and BUSI 740 and BUSI 750 and BUSI 755 and BUSI 760 and BUSI 770) or (DIGI 710 and DIGI 720)

This doctoral level course examines the qualitative method used in business research, with a focus on five qualitative designs: narrative, phenomenological, grounded theory, ethnographic, and case study. Underpinning philosophical assumptions are presented in context with the selected qualitative designs. The course also covers data collection, analysis, and validation measures appropriate for qualitative research. (Formerly BUSI 715)

**Offered:** Online

BUSI 820 Quantitative Research Methods 3 Credit Hours

**Prerequisites:** BUSI 700 and BUSI 710 and (BUSI 715 or BUSI 815) and BUSI 730 and BUSI 740 and BUSI 750 and BUSI 755 and BUSI 760 and BUSI 770

This course is designed to prepare doctoral students to apply statistical methods to problems in business administration. Students will learn the fundamental concepts, designs, principles, and statistical skills necessary to perform an empirical study. This will include a basic knowledge of the nature of quantitative methods and the principles of experimental design. Upon conclusion of the course, students will be able to differentiate between a variety of models and statistical methods appropriate to business administration research. (Formerly BUSI 720)

BUSI 885 Comprehensive Exam and Research Concept 3 Credit Hours

**Prerequisites:** BUSI 700 and BUSI 710 and (BUSI 715 or BUSI 815) and (BUSI 720 or BUSI 820) and BUSI 730 and BUSI 740 and BUSI 750 and BUSI 755 and BUSI 760 and BUSI 770

This course will focus on students completing a comprehensive exam, preparing a Concept Paper, and preparing students for their applied doctoral research project. (Formerly BUSI 785)

BUSI 987 Dissertation I 5 Credit Hours

**Prerequisites:** BUSI 700 and BUSI 710 and BUSI 730 and BUSI 740 and BUSI 750 and BUSI 755 and BUSI 760 and BUSI 770 and (BUSI 815 or BUSI 715) and (BUSI 820 or BUSI 720) and (BUSI 885 or BUSI 785)

This course is the first step for DBA Doctoral Candidates in the process of developing and completing their research study and dissertation. Doctoral Candidates will develop Section 1 which includes the Foundation of the Study to include a detailed Literature Review relevant to the proposed research study.

**Offered:** Online

BUSI 988 Dissertation II 5 Credit Hours

**Prerequisites:** BUSI 987

This course is the second step for DBA Doctoral Candidates to develop and complete their dissertation. Doctoral Candidates will develop Section 2 which includes their methodology for conducting the study and combine it with Section 1 into a single document. Candidates will also complete and submit their IRB package complete their proposal defense.

BUSI 989 Dissertation III 5 Credit Hours

**Prerequisites:** BUSI 988

This course is the final step in developing the dissertation manuscript. Doctoral Candidates will conduct their field study, analyze their data, and present their findings and develop Section 3 of their dissertation. Candidates will combine all three sections into their completed dissertation manuscript in preparation for their dissertation defense.
BUSI 990 Disseration IV 0 Credit Hours

Prerequisites: BUSI 989

This course is the last step in the DBA program. Doctoral Candidates will defend their dissertation and finalize their dissertation manuscript for publication.

Business Management & Leadership (BMAL)

BMAL 700 DSL Program Orientation 3 Credit Hours

Introduction to doctoral studies, which provides information regarding the Doctor of Strategic Leadership program, the Graduate School of Business, and University resources.

Offered: Online

BMAL 702 Leadership Theory 3 Credit Hours

Prerequisites: BMAL 700 (may be taken concurrently)

This course provides a comprehensive overview of dominant approaches to leadership with a focus on how those approaches can inform leadership practice and follow outcomes. As a complement to leadership theory, the basic competencies or skills necessary for effective leadership are also explored.

Offered: Online

BMAL 703 Managing the Contemporary Organization 3 Credit Hours

Prerequisites: BMAL 700

This course provides a comprehensive background in the critical role of management in the modern organization. Topics include the management process, planning and decision making, organizing and motivating individuals and groups, and effective communication.

Offered: Online

BMAL 704 Leading Organizational Change 3 Credit Hours

Prerequisites: BMAL 700 or DIGI 700

This course provides a comprehensive overview of the theories, process, and practice of leading successful change in organizations. Topics include the problem with change and its solution, the eight-stage process for effective change, what the organization of the future will look like, and the importance of change for lifelong learning.

Offered: Online

BMAL 706 Strategic Global Leadership 3 Credit Hours

Prerequisites: BMAL 700 or EDUC 710

This course examines the similarities and differences of managing and leading across cultures.

Offered: Online

BMAL 710 Understanding the Organization 3 Credit Hours

Prerequisites: BMAL 700 or EDUC 710

This course provides a comprehensive overview of the modern organization from a systems perspective. Topics include the importance of organizations, organizations as systems, the environment of the organization, and the structure of organizations.

Offered: Online

BMAL 714 Risk Management Process and Practice 3 Credit Hours

Prerequisites: BMAL 700

This course provides an analysis of risk management principles with a focus on the processes of risk management, planning risk management, critical success factors for effective risk management, and performing qualitative and quantitative risk analysis.

Offered: Online

BMAL 716 Research Theory and Planning 3 Credit Hours

Prerequisites: BMAL 700

This course provides a comprehensive overview of the process of planning and conducting effective research projects. Topics include social research theories, research methods and designs, data collection methods, data analysis methods, and reporting results.

Offered: Online

BMAL 720 Leveraging Data for Decision Making 3 Credit Hours

Prerequisites: BMAL 700

This course provides an overview of the process and skills necessary for organizational leaders to make effective data driven decisions. Topics include: defining business analytics, quantify value it brings to an organization, harnessing the power of analytics to gain advantage.

Offered: Online

BMAL 727 Leading Effective Teams 3 Credit Hours

Prerequisites: BMAL 700

This course provides a comprehensive overview of effective team-based leadership practices in a project environment with a focus on creating high-performance teams, managing team conflict, motivating teams, and empowering teams for the successful completion of projects.

Offered: Online

BMAL 755 Coaching Theory & Practice 3 Credit Hours

Prerequisites: BMAL 700

This course provides a comprehensive overview of coaching theory and methods necessary for effective executive coaching. Topics include coaching methodology and techniques, coaching theories and frameworks, and coaching skills and techniques.

Offered: Online
BMAL 770 Ethical Leadership 3 Credit Hours
Prerequisites: BMAL 700

The course is an examination of ethics from the perspective of a strategic leader. Students will evaluate the theoretical and practical approaches to leading ethically within the context of a Christian Worldview.

Offered: Online

BMAL 780 Strategic Leadership in the 21st Century 3 Credit Hours
Prerequisites: BMAL 700

This is the capstone class for the Doctorate in Strategic Leadership DSL program and allows students to synthesize knowledge gained in previous courses into a cohesive view of leadership. This course focuses on the critical knowledge and skills that leaders must master in order to be successful.

Offered: Online

BMAL 785 Comprehensive Exam and Doctoral Research Project Concept 3 Credit Hours
Prerequisites: BMAL 700 and BMAL 702 and BMAL 703 and BMAL 704 and BMAL 710 and BMAL 714 and BMAL 716 and BMAL 720 and BMAL 727 and BMAL 770 and BMAL 780

The study of diverse methods of applied research design to improve applied research practice. Students will apply the knowledge and skills developed in previous research and related course work to the understanding Research Project process. Students will be required to apply scholarly writing skills and an understanding of expectations of the scholarly project to develop a scholarly proposal and must successfully defend the proposal at the end of the course. In addition, students must pass the comprehensive exam that will be given during the course.

Offered: Online

BMAL 887 Doctoral Research Project I 4 Credit Hours
Prerequisites: BMAL 785

This course is the first step for DSL Doctoral Candidates in the process of developing and completing their research project. Doctoral Candidates will develop Section 1 which includes the Foundation of the Study to include a detailed Literature Review relevant to the proposed research project.

Offered: Online

BMAL 888 Doctoral Research Project II 4 Credit Hours
Prerequisites: BMAL 887

This course is the second step for DSL Doctoral Candidates in the process of developing and completing their research project. Doctoral Candidates will develop Section 2 which includes their methodology for conducting the study and combine it with Section 1 into a single document. Candidates will complete and submit their IRB package and conduct their proposal defense.

Offered: Online

BMAL 889 Doctoral Research Project III 4 Credit Hours
Prerequisites: BMAL 888

This course is the final step in developing the research project. Doctoral Candidates will conduct their field study, develop and present their findings, and develop Section 3 of their research project. Candidates will combine all three sections into their completed Doctoral Research Project manuscript in preparation for their defense.

Offered: Online

BMAL 890 Doctoral Research Project IV 0 Credit Hours
Prerequisites: BMAL 889

This course is the last step in the DSL program. Doctoral Candidates will defend their Doctoral Research Project and finalize their manuscript for publication.

Offered: Online

Chaplaincy Ministry (CHPL)

CHPL 810 Practical Theology of Chaplaincy 3 Credit Hours
Prerequisites: DMIN 810

The course provides a practical study of the theology of chaplaincy, as well as the application of the chaplain’s theology in the secular and pluralistic contexts. Emphasis is given to the tension that exists for chaplains ministering to individuals from broad theological backgrounds. The course will prepare the chaplain to minister in pluralistic contexts, as well as, advise and mentor chaplains from a diversity of theologies.

Offered: Online

CHPL 820 Chaplain Strategic Leadership 3 Credit Hours
Prerequisites: DMIN 810

The course provides a study in chaplain strategic leadership, focusing on the authority and responsibility of the chaplain to lead prophetically with godly character, insight, and wisdom within secular and religious contexts. Special emphasis is placed on the chaplain’s position and opportunity to influence critical decisions and lives within military, healthcare, and community contexts.

Offered: Online

CHPL 830 Ethics for Chaplain Leaders 3 Credit Hours
Prerequisites: DMIN 810

This course is a study of theoretical and applied ethical leadership for chaplains serving as religious representatives and leaders in primarily secular, pluralistic environments. It will broadly explore the field of ethics from theological and philosophical perspectives providing the student with insights to critique them against biblical truth. The course will prepare chaplains to engage ethical problems through the development and application of a biblically based ethical decision-making model and personal code of ethics. Additionally, the course will address the ethics of evangelism, civil discourse, and the free exercise of one’s faith in a pluralistic culture.

Offered: Online
**Christian Leadership (CLED)**

**CLED 700 Biblical & Theological Foundations of Leadership**  
3 Credit Hours

This course is a study of the biblical and theological foundations of leadership as evidenced within Scripture. Learners examine theological themes and biblical assumptions that directly impact one’s philosophy and practice of leadership. Students learn to think theologically about issues, and concepts drawn from the discipline of leadership.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

**CLED 715 Ecologies of Christian Formation**  
3 Credit Hours

This course will examine an ecological model of spiritual formation that attends to the role of God’s people, the body of Christ in fostering individual and corporate growth. The course will also include an analysis of the function of Christian Social networks in promoting evangelism to non-Christians and facilitating edification in the Church.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

**CLED 720 Biblical & Theological Foundations of Education**  
3 Credit Hours

**Prerequisites:** CLED 700

This course builds on the CLED700 and is a study of the biblical and theological foundations of leadership as evidenced within Scripture. Learners examine theological themes and biblical assumptions that directly impact one’s philosophy and practice of leadership. Students learn to think theologically about issues, and concepts drawn from the discipline of leadership. A framework for biblically-based integrative thinking is developed and practiced with regards to relationship between education, leadership, and theology.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership, CLED 700.

**Offered:** Online

**CLED 730 Research Methods for Christian Leadership I**  
3 Credit Hours

**Prerequisites:** CLED 700

As the first of six sequenced research courses, this course provides an overview of the dissertation research and writing process. Students develop the foundational knowledge, skills, and disposition necessary for critical inquiry, research design, dissertation preparation, data analysis, data interpretation, and the evaluation of research results. The course focuses on the critical evaluation of research quality. Students learn to deconstruct dissertations as a way to understand the process.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

**CLED 745 Leadership & Cultural Contextualization**  
3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720

This course assists leaders in defining ‘a vision for a preferred future’ that is culturally and contextually appropriate. The course involves an analysis of the leader’s role as a communicator within and outside the organizational structure. It includes a focus on the role of public and private communication channels in moving the vision and mission of the organization forward. The course looks at communication success and failure in the context of culture, crisis and change. Skill sets are developed for leading people within the culture and ministry leadership context.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

**CLED 765 Trends & Issues of Contemporary Leadership**  
3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720

In this course students will research and present contemporary issues and trends relevant to the fields of leadership and education. Current literature and research is presented and discussed. Each topic is then examined biblically and theologically. Topics are determined in consultation with course professors as the student begins to develop a line of research that eventually leads to the development of the dissertation topic and research questions.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

**CLED 770 Research Methods for Christian Leadership II**  
3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720 and CLED 745

As the second of six sequenced research courses, this course acquaints the students with quantitative, qualitative, and mixed-methods methodologies and the role of statistical analysis in the evaluation of research results. Students are introduced to the resources and tools available to the doctoral level researcher. Additionally, this course addresses the steps needed to successfully defend the dissertation. Lastly, students will choose their research topic for their doctoral research.

**Offered:** Online
CLED 780 Change, Power, and Conflict in Leadership 3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720 and CLED 745

This course provides an analysis of dynamics surrounding the innovation and strategic change process. While innovation and change are essential to the progress of any organization, they often produce conflict solutions. This course looks at how innovation brings valuable disruption to an organization. Students learn how to lead change effectively while leveraging the benefits of the disruption and conflict that innovative change created. Leaders learn to capture and capitalize on the opportunities of new technologies, creative methods, and strategic initiatives to move their church or organization forward. Additionally, this course explores the role of entrepreneurial leadership in the development of strategic initiatives within a faith-based organization and strategic partnerships outside of faith-based organization.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

---

CLED 800 Theological Anthropology in Leadership & Education 3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720 and CLED 745 and CLED 780

This course examines he implications of the doctrine of the image of God in all persons as the central concept for the development of a philosophy, theory, and practice of leadership and education. Building upon this study of the imago dei (Image of God), this course further consider factors that define and distinguish a Christian view of leadership and educational practice that are consistent with a belief that all persons are created in the image of God.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

---

CLED 805 Research Methods for Christian Leadership III 3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720 and CLED 745 and CLED 780

This is the third course in a series of six research methods seminars. This course is designed to develop research proficiency necessary for the creation of the first chapter of the research prospectus. Students will gain a further understanding of the research process including the identification of a research problem and initial steps in the development of a literature review. Students will submit a working draft of chapter 1 ‘Introduction to the Research Problem’.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

---

CLED 815 Character & Ethics in Leadership & Education 3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720 and CLED 745 and CLED 780

This course builds on the CLED800. Building upon this study of the imago dei (Image of God), this course further studies the essential character qualities of effective biblical servant leader-teachers, and the principles of ethical influence, communication, instruction, problem-solving, and decision-making. Ethical dilemmas will be considered in case study format to aid students in applying ethics to leadership and education decisions.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online

---

CLED 820 Leadership and Management Theory 3 Credit Hours

**Prerequisites:** CLED 800

This course provides a critical examination of historic and contemporary leadership theories, principles and practices. This course also includes an analysis of each theory’s worldview assumptions, scientific worthiness and potential contribution to the leadership and management of faith-based organizations. Authentic, transformational, and servant leadership theories are in light of biblical examples, principles, and theological understandings of leadership.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Resident and Online

---

CLED 830 Research Methods for Christian Leadership IV 3 Credit Hours

**Prerequisites:** CLED 700 and CLED 720 and CLED 745 and CLED 780

This course is the fourth in a series of six methods seminars. This course is designed to develop research proficiency necessary for the creation of the second chapter of the research prospectus. Students will develop a literature review and being design of research study. In this seminar, students continue work on the prospectus and submit a working draft of chapter 2 ‘Literature Review’.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Resident and Online

---

CLED 835 Organizational Theory and Development 3 Credit Hours

**Prerequisites:** CLED 800

This course provides a review of theoretical understandings of organizations and their development. Students gain skills in the analysis of organizational culture, the formation of an organization culture, and the role of staff training in the transmission of an organizational culture. The unique factors shaping faith-based organizations are considered.

**Note:** Enrollment in the School of Divinity EdD in Christian Leadership.

**Offered:** Online
CLED 845 Group and Team Dynamics: Theory and Practice in Leadership 3 Credit Hours

Prerequisites: CLED 800 and CLED 820

This course is a study of group theory and team processes and their application to faith-based organizational leadership. Team dynamics, team development and the role of the team leader are examined.

Offered: Online

CLED 855 Teaching & Learning: Theory & Practice in Leadership 3 Credit Hours

Prerequisites: CLED 800 and CLED 820

This course integrates a study of teaching and learning theory in relationship to leading the faith-based organization. This course develops an understanding of the role of teaching and learning in the processes of both leader and follower development. Major theories of learning are considered, critically and theologically evaluated, and applied.

Offered: Online

CLED 987 Research Methods for Christian Leadership V 5 Credit Hours

Prerequisites: CLED 745 and CLED 770 and CLED 805 and CLED 820

This course is designed to develop research proficiency necessary for the creation of the third chapter of the research prospectus. The course will include content on population and sampling procedures, instrument design and validation, data collection and analysis, and data reporting, as these concepts apply to quantitative and qualitative research. As part of this course, students will complete the comprehensive exam requirement of the program, details of which are found in the program handbook. (Formerly CLED 900)

Offered: Online

CLED 988 Research Methods for Christian Leadership VI 5 Credit Hours

Prerequisites: CLED 745 and CLED 770 and CLED 805 and CLED 820 and CLED 987

This course is the final course in a six course sequence on research methodology. Students continue in a guided mentorship begun in CLED 900 as the student continues to prepare for the submission of dissertation prospectus under the supervision of the faculty member. During the course, students will develop and submit the full prospectus (comprised of chapters 1-3) for approval. Upon successful supervisor and IRB approval of the prospectus, students will then enter the field research phase of the dissertation process. (Formerly CLED 905)

Offered: Online

CLED 989 Dissertation Research & Writing 5 Credit Hours

Prerequisites: CLED 745 and CLED 770 and CLED 805 and CLED 820 and CLED 900 and CLED 905

This course exists so that the student can conduct approved dissertation research, analyze research findings, and compile conclusions based on the research.

Offered: Online

CLED 990 Dissertation Defense 1 Credit Hour

Prerequisites: CLED 989

This course exists for students to defend the methodology of the research design, the gathering of the research data, the analysis of the research findings, and the conclusions derived from the research.

Offered: Online

CLED 995 Directed Research 1-6 Credit Hours

CLED 695/995 - Directed Research (1 to 6 hours)

CLED 997 Seminar in Biblical Leadership 3 Credit Hours

Christian Leadership (LEAD)

LEAD 810 Strategies for Developing Leaders 3 Credit Hours

Prerequisites: DMIN 810

This course will examine how to identify and equip key members of a church’s staff. Principles and methods will be analyzed and defined for foundational leadership skills.

Note: Admission to DMIN program.

Offered: Online

LEAD 820 Organizational Leadership in the Church 3 Credit Hours

Prerequisites: DMIN 810

A truly effective leader understands the relationship between the organization’s success and the ability to develop other leaders within the organization. This course will examine how leaders are recognized and developed inside the local church. Skills necessary for developing and mentoring leaders for the local church will be examined from a biblical, philosophical and practical perspective.

Note: Admission to DMIN program.

Offered: Online

LEAD 830 Ministry Leadership 3 Credit Hours

Prerequisites: DMIN 810

An advanced study of the personal leadership function of the pastor. Attention is focused on such topics as conflict management, decision making, long-range planning, motivation, and interpersonal relationships.

Note: Admission to DMIN program.

Offered: Online
LEAD 895 Directed Research 1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. This course should/can only be used if a student lacks a seminar for graduation and the needed seminar is not offered in their last semester. If approved, the student will work with the instructor in developing a proposal for guided research in a specific area.

Offered: Online

LEAD 897 Seminar in Leadership Studies 3 Credit Hours

An intensive study in a specific subject of leadership. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Online

Church History (CHHI)

CHHI 940 Seminar in American Fundamentalism and Evangelicalism 3 Credit Hours

This course offers a historical and theological investigation into the origins, theological trends, major issues and figures, and institutions of American Fundamentalism and Evangelicalism. American Fundamentalism and Evangelicalism will be examined in relation to theological liberalism, modernism, postmodernism, Pentecostalism, and Roman Catholicism. The course will attempt to place American Fundamentalism and Evangelicalism in the context of various theological, political, and social tensions of the twentieth century and to reveal their current shape in the 21st Century.

CHHI 941 Augustine 3 Credit Hours

A seminar that would consider Augustine's life, philosophy, theology, and legacy. His ministry in the context of 4th-5th century Roman Africa (with its politics, philosophy, social movements) will be explored. While readings would comprise some key secondary sources (Brown, Frend), a key component would be interacting with primary sources (Confessions, City of God, On the Trinity, Letters and Sermons).

CHHI 942 Patristic Exegesis 3 Credit Hours

A seminar studying the approach to Scripture of the church fathers in the first five centuries. While reading sermons and commentaries from exegetes like Origen, Ambrose, Augustine, Basil, Gregory of Nyssa, Gregory of Nazianzus, Athanasius and Augustine, the Alexandrian and Antiochene schools of interpretation will be considered.

CHHI 943 The Latin Fathers 3 Credit Hours

A concentrated study into the work and theology of the Latin church fathers including Lactantius, Tertullian, Cyprian, Ambrose, Augustine and Jerome, among others.

CHHI 945 Seminar in Modern Theologies and Theologians 3 Credit Hours

This seminar focuses on the work of select theologians and theological movements since the 18th Century. This seminar may be repeated as subject matter varies.

CHHI 948 Reading Seminar in Historical Theology 3 Credit Hours

A seminar focused on reading classic texts in Historical Theology.

CHHI 995 Directed Research 1-3 Credit Hours

CHHI 995 - Directed Research (1 to 3 hours)

CHHI 997 Seminar in Church History 3 Credit Hours

An intensive study in a specific subject of Church History. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Church Ministries (CHMN)

CHMN 810 Biblical Leadership in Church Revitalization 3 Credit Hours

Prerequisites: DMIN 810

This course will address the essential biblical leadership characteristics that enable church leaders to engage the church revitalization process with effectiveness. It will consider the revitalization themes throughout the Old and New Testaments and the strongest leadership traits of those who God used to bring new life to His people.

Offered: Online

CHMN 820 Strategic Leadership for Church Revitalization 3 Credit Hours

Prerequisites: DMIN 810

A practical study of the elements that are required for church leaders to lead the church revitalization process effectively. This will include the guiding values, leadership structure, facility assessment, location, and overall feasibility of the church revitalization. The historical foundations of church revitalization in the 20th century will be examined.

Offered: Online

CHMN 830 Change and Conflict in Church Revitalization 3 Credit Hours

Prerequisites: DMIN 810

An advanced course for pastors and church leaders who are called to lead a church through the process of church revitalization. This course will give the pastor and church leader the biblical and practical understanding, training, and leadership skills to successfully navigate change and conflict in a church that is engaging revitalization process.

Offered: Online

CHMN 840 Leadership Models for Next Generation Ministry 3 Credit Hours

Prerequisites: DMIN 810

This course explores the necessary skills and competencies for leading next generation ministry. It will introduce current and developing models in response to current cultural issues in the context of local church ministry. Research related to the future of next generation ministry will be engaged with emphasis given to a biblical/theological critique of proposed ministry methods.

Offered: Online
CHMN 841 Issues and Trends in Next Generation Ministry  
3 Credit Hours

**Prerequisites:** DMIN 810

This course explores the cultural trends and issues impacting the current generation of children, adolescents, and their families. Current and developing trends will be evaluated from a theological and sociological perspective in the context of local church ministry. Research related to the future of next generation ministry will be initiated to further the church’s effective response to these issues.

**Offered:** Online

---

CHMN 842 Making Disciples for the Next Generation  
3 Credit Hours

**Prerequisites:** DMIN 810

This course focuses on the nature and mandate of the Great Commission and with specific application to next generation ministry. It will guide students in developing effective and insightful models for making disciples among children and adolescents in partnership with their families and connected to the larger mission of the local church. Students will engage in research that identifies and supports the most effective strategies for making disciples for the next generation.

**Offered:** Online

---

CHMN 850 A Biblical and Missiological Theology of the City  
3 Credit Hours

**Prerequisites:** DMIN 810

This course introduces students to a biblical and missional theology of the city. Students will learn that, beginning in Genesis and ending in the Book of Revelation, the Bible offers a distinctive view of the city and its place in the mission of God and the mission of the church. Students will acquire a solid biblical and theological framework within which they can design a ministry to the city that is faithful to God’s word and God’s mission while serving the distinctive needs of the city.

**Registration Restrictions:** Admission to the Doctor of Ministry program

**Note:** Course offered beginning in Spring 2020.

**Offered:** Online

---

CHMN 851 Contemporary Issues of the City  
3 Credit Hours

**Prerequisites:** DMIN 810

This course challenges students to be critical thinkers in a rapidly changing culture. Through a comparison and contrast of current issues concerning racial justice, sexuality, arts/entertainment, and compassion ministry, students will gain a robust understanding of current issues and how to address ministry needs in the city with a sound biblical exegesis. Emphasis will be placed on understanding significant historical events in American and global history that have shaped the attitudes and values of the city.

**Registration Restrictions:** Admission to the Doctor of Ministry program

**Note:** Course offered beginning in Spring 2020.

**Offered:** Online

---

CHMN 852 Disciple-Making Strategies among Diverse Communities  
3 Credit Hours

**Prerequisites:** DMIN 810

This course is a practical guide to healthy disciple making in impoverished settings and ethnically diverse communities. Emphasis will be placed on indigenous disciple making strategies, spiritual formation among Black and Hispanic communities, and case studies on multi-ethnic church ministry. This course will help students cultivate a multi-ethnic ministry consciousness for city ministry.

**Registration Restrictions:** Admission to the Doctor of Ministry program

**Note:** Course offered beginning in Spring 2020.

**Offered:** Online

---

**Communication Studies (COMS)**

COMS 987 Dissertation I  
5 Credit Hours

**Prerequisites:** DIGI 700

Dissertation I is the initial step for PhD students and faculty to actualize the student’s research project. It provides a focused study of the problem, purpose, significance, theoretical framework, biblical integration, and important literature relevant to the proposed project.

**Offered:** Online

---

COMS 988 Dissertation II  
5 Credit Hours

**Prerequisites:** DIGI 700

This course is the second step for PhD students and faculty to actualize the student’s dissertation. It provides a focused study of the methodology that will be employed in the dissertation, and allows students to finalize their literature review. Students will also progress through the IRB process, in preparation for conducting their project.

**Offered:** Online

---

COMS 989 Dissertation III  
5 Credit Hours

**Prerequisites:** DIGI 700

This course is the third step for PhD students and faculty to actualize the student’s dissertation. The student will conduct their final project research. Students will finalize dissertation with an emphasis on developing results and analysis section.

**Offered:** Online
COMS 990 Dissertation Defense 0 Credit Hours

Prerequisites: DIGI 700

Under the direction of the dissertation chair and committee, doctoral candidates defend their dissertation research. The student must also complete any changes as determined by committee members, ensure compliance with the Dissertation Manual’s form and style, and upload the final dissertation according to stated protocols. The final oral Ph.D. dissertation defense is primarily an opportunity to share the research and address questions and challenges about the research. It is held following the approval of the dissertation committee, and is open to the public, held on campus, and scheduled a minimum of one month following approval.

Offered: Online

Community Care & Counseling (EDCO)

EDCO 705 Issues and Trends in Community Counseling 3 Credit Hours

An overview of key areas of community counseling including rehabilitation counseling, career counseling, school counseling, community advocacy, and counseling in diverse settings such as mental health agencies, employment agencies, and population-specific programs.

Note: Intensive course.

Offered: Online

EDCO 711 Advanced Group Counseling 3 Credit Hours

This course examines the theories related to group counseling and their application to group work. Students will learn the types of group work, basic group leader skills, group processes and procedures.

Note: Intensive course.

Offered: Online

EDCO 715 Applied Counseling Theories 3 Credit Hours

A review, examination, and critique of counseling research, concepts, and theory constructs with applications in various community settings and populations.

Note: Intensive format optional.

Offered: Online

EDCO 716 Dissertation Topic 1 Credit Hour

This course orient the student to the overall dissertation development and writing process specific to the Ed.D. in Community Care and Counseling program.

Offered: Online

EDCO 725 Teaching and Learning 3 Credit Hours

An examination of established and emerging teaching and learning perspectives and practices, viewed through the lens of biblically framed pedagogy. Students will develop and reflectively practice their own philosophy of education in community contexts.

Note: Intensive course.

Offered: Online

EDCO 735 Statistics 3 Credit Hours

Prerequisites: COUN 515 / EDUC 518 with a score of 3

A review of descriptive and inferential statistics with attention to how these techniques are utilized in community counseling and the role of primary research in the counseling literature. Students will gain proficiency in research techniques data analysis.

Offered: Online

EDCO 740 Diagnosis and Treatment of Addictive Behaviors 3 Credit Hours

The psychological and psychosocial effects of drug addiction and addictive behaviors on individuals, couples, and families are examined. Emphasis is placed on counseling skills and techniques.

Note: Intensive course.

Offered: Online

EDCO 745 Intermediate Statistics and Research 3 Credit Hours

Prerequisites: EDCO 701 or EDCO 735

An examination of established and emerging teaching and learning perspectives and practices, viewed through the lens of biblically framed pedagogy. Students will develop and reflectively practice their own philosophy of education in community contexts.

Note: Intensive format optional.

Offered: Online

EDCO 747 Qualitative Methods of Research 3 Credit Hours

Prerequisites: EDCO 716 and EDCO 735

This course examines qualitative methods used in social science research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents.

Offered: Online

EDCO 770 Dissertation Formation 1 Credit Hour

Prerequisites: EDCO 716 and EDCO 735 and EDCO 745 and EDCO 747

This course explores strategies for selecting an appropriate topic, research question(s), and design for the dissertation in the Ed.D. program in Community Care and Counseling. (Formerly EDCO 737)

Offered: Online
EDCO 790 Crisis & Trauma Counseling 3 Credit Hours
This course provides an overview of the aspects of stress and trauma, including examination of seminal texts and concepts. In addition, a foundational understanding of trauma counseling, theories, and interventions will be offered, together with definitions, causative factors, incidence rates, and idiomatic factors of a number of traumatic events. Students will consider how science informs the delivery of effective counseling theory and technique for these clients with the goal of integrating ethical, effective, and biblically grounded care.

Offered: Online

EDCO 800 Advanced Tests and Measurements 3 Credit Hours
An overview of personality and diagnostic assessment instruments. Students will learn testing procedures as well as interpretation and application of results in diagnosis and treatment planning.

Note: Intensive course.

Offered: Online

EDCO 806 Premarital and Remarriage Counseling 3 Credit Hours
An in-depth examination of the dynamics of marriage and family relationships, with emphasis on the structure and function of marriage, various aspects of the marital relationship, family systems, and ways to conduct premarital, divorce care, and remarriage counseling as a creative, preventative, and healing ministry.

Offered: Online

EDCO 808 Dissertation Research 1 Credit Hour
Prerequisites: EDCO 716 and EDCO 737 and EDCO 810
This course examines strategies for the effective building of a bibliography tailored to the needs creating a literature review in a dissertation proposal for the Ed.D. program in Community Care and Counseling. The role of bibliography and literature review in refining the dissertation topic, research question(s), and design is also considered.

Offered: Online

EDCO 810 Dissertation Design 3 Credit Hours
Prerequisites: EDCO 716 and EDCO 735 and EDCO 745 and EDCO 747 and EDCO 770
A review of the process of developing research designs and conducting primary research. Students will develop a research prospectus that is anchored in current theory and research in the community counseling context which will serve as a basis for their doctoral dissertation proposal.

Note: Intensive format optional.

Offered: Online

EDCO 811 Marriage Counseling 3 Credit Hours
An in-depth examination and discussion of the major assessment and treatment approaches utilized in marriage and family counseling. Emphasis is placed on the development of practical skills and intervention techniques.

Offered: Online

EDCO 815 Family Development 3 Credit Hours
An in-depth study of the developmental and psychological needs and problems of families, examined through the lens of personality types and family structures. Students will gain understanding of established counseling and intervention techniques used with families and children.

Offered: Online

EDCO 817 Trauma and Current Issues in Marital Counseling 3 Credit Hours
An in-depth review of causes, interactions, effects, and treatment of trauma occurring within the marriage with a special emphasis placed on intimate partner violence, as well as infidelity, empty nest syndrome, limited duration marital contracts, and other current trends.

Offered: Online

EDCO 820 Assessment in Marital & Family Counseling 3 Credit Hours
An in-depth examination of the types of assessment used in marital counseling. Students will learn how to select the best instrument for a particular situation, how to administer these, and how to interpret the results.

Offered: Online

EDCO 821 Ethics & Issues in Pastoral Counseling 3 Credit Hours
An in-depth examination of ethical and legal issues encountered by community counselors, including ethical principles, professional codes of conduct, identifying and resolving ethical dilemmas, ethical decision-making models, and laws governing the profession.

Offered: Online

EDCO 826 Growth & Development of the Pastoral Counselor 3 Credit Hours
Drawing upon Master’s level study of the person in life and ministry, additional factors are explored to develop an Evangelical Christian growth and development strategy for the doctoral level pastoral counselor. Research and assessment provide the foundation for this course as participants develop an understanding of their primary and functional purpose in ministry’s highly relational network.

Offered: Online
EDCO 831 Individual & Family Issues in Pastoral Counseling  
3 Credit Hours

Examining the various factors that hinder and destroy the family, this course provides an in-depth study of the issues encountered in pastoral counseling. Areas of discussion and examination include common mental health disorders, as well as issues that impact both the individual and family including family composition such as blended families, childbirth, parenting, and additional pertinent topics throughout the lifespan.

Offered: Online

EDCO 836 Premarital & Marital Issues in Pastoral Counseling  
3 Credit Hours

This course studies issues that affect the relationship and decision to marry in premarital counseling, as well as problematic factors in marriage such as marital distress and dissolution. Factors central to marital enrichment, renewal, stability, growth, and health are addressed by marriage theories and intervention strategies.

Offered: Online

EDCO 841 Crisis & Current Issues in Pastoral Counseling  
3 Credit Hours

Ranging from such endemic issues as domestic violence to preparation for both manmade and natural disasters, this course provides an in-depth study of the onset, duration, and appropriate interventions for various crises encountered in pastoral counseling. All aspects of crises that affect the individual, family or corporate worship group are open to examination.

Offered: Online

EDCO 865 Comprehensive Exam  
0 Credit Hours

Prerequisites: EDCO 711 and EDCO 715 and EDCO 725 and EDCO 740 and EDCO 745 and EDCO 810 and EDCO 705 and EDCO 735 and EDCO 790

EDCO 865 - Comprehensive Exam (0 hours) Prerequisites: EDCO 705, 711, 715, 725, 735, 740, 745, 790, and 810.

Offered: Online

EDCO 870 Dissertation Writing  
1 Credit Hour

Prerequisites: EDCO 701 and EDCO 745

EDCO 870 - Dissertation Writing (1 hour)

Offered: Online

EDCO 871 Research Seminar  
3 Credit Hours

Prerequisites: EDCO 865

EDCO 871 - Research Seminar (3 hours)

Offered: Online

EDCO 888 Dissertation Proposal and Research  
5 Credit Hours

This course is required of all candidates seeking a doctoral degree in community care and counseling. All candidates must register for the course each semester, including summer, until scheduled defense of the dissertation.

Offered: Online

EDCO 889 Dissertation Completion  
3,5 Credit Hours

Prerequisites: EDCO 888

This course is offered online only. It represents the formal research and writing of the Dissertation under the supervision of the Dissertation Chair and with input from the dissertation committee.

Offered: Online

EDCO 990 Dissertation Defense  
3 Credit Hours

Prerequisites: EDCO 989

This course is offered online only. Upon the successful completion of writing the dissertation and with approval of the dissertation committee, the student will defend his research and dissertation before the doctoral committee.

Offered: Online

EDCO 999 Internship  
3-6 Credit Hours

Prerequisites: EDCO 725 and EDCO 730 and EDCO 740 and EDCO 745 and EDCO 800 and EDCO 810

An opportunity to engage in experiential learning by participation in community counseling under supervision in an approved agency.

Offered: Online

**Counseling (COUC)**

**COUC 700 Theology and Counseling**  
3 Credit Hours

This is a study of evangelical, theological and ethical perspectives and their impact on pastoral and professional counseling. Particular emphasis is placed on biblical themes related to human nature, its ideal vs. its present condition, and the divine design for its restoration, health, and destiny.

**COUC 701 Statistics**  
3 Credit Hours

Introduction to descriptive and inferential statistics, probability, probability distributions, estimation, tests of hypotheses, and visual displays of data with applications in counseling research and practice.

Offered: Resident

**COUC 705 Philosophy of Religion and the Helping Professions**  
3 Credit Hours

This course examines several issues that are commonly addressed in both philosophy of religion and counseling, like the problem of evil, the nature of persons, and the issue of religious doubt.
COUC 710 Advanced Group Counseling  
3 Credit Hours

Students review counseling leadership styles in task-oriented and personal growth groups. Current research on group counseling models and application is critiqued. Emphasis is placed upon leadership behaviors that are most facilitative to the group process.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 712 Psychopharmacology  
3 Credit Hours

Prerequisites: (COUN 500 or CEFS 500 or COUC 500 or Meets COUN 500 Requirement with a score of 5) and (COUN 501 or CEFS 501 or COUC 501) and (COUN 502 or CEFS 502 or COUC 502) and (COUN 504 or CEFS 504 or COUC 504) and (COUN 505 or CEFS 505 or COUC 505) and (COUN 510 or CEFS 510 or COUC 510) and (COUN 512 or CEFS 512 or COUC 512) and (COUN 515 or CEFS 515 or COUC 515) and (COUN 521 or CEFS 521 or COUC 521) and (COUN 522 or CEFS 522 or COUC 522) and (COUN 646 or CEFS 546 or COUC 546)

This course is a study of neurology, brain-behavioral relationships, diseases, injuries, and psycho-pharmacology. The effects of psychotropic drugs on individuals are examined and Pastoral Care and Counseling treatments are developed.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 714 Supervision and Consultation  
3 Credit Hours

Prerequisites: COUN 699 or CMHC 699 or COUC 699

Theory, practice, and experience of supervision for counselors in training are reviewed. Students apply principles and theory while supervising other students, as well as being supervised themselves.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 715 Advanced Theory Application  
3 Credit Hours

A review and critique of counseling theories. Research regarding counseling theory constructs, along with their application in different settings and populations, is reviewed.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 720 Advanced Family, Systems, and Development  
3 Credit Hours

A review of family therapy models, with special emphasis placed upon family change issues over the life span. Specifically, research is reviewed on family assessment, the family life cycle, and family pathology in the developmental context.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 725 Counseling Religious Clients  
3 Credit Hours

Counseling issues and special needs of religious clients are discussed, including philosophical and value differences and ethical issues. Students are encouraged to review techniques and therapy styles for different religious groups.

COUC 730 Issues in Integration  
3 Credit Hours

Current trends and themes in integration literature are reviewed. Special emphasis is given to current philosophical, theological, and psychological bases of integration, models of integration, and future themes.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 740 Advanced Research Design  
3 Credit Hours

A review of the process and method of developing and conducting research. Emphasis will be placed upon the application of methods for development and preparation of the doctoral proposal.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 745 Advanced Multivariate Statistics and Quantitative Research  
3 Credit Hours

An examination of both quantitative and qualitative designs for research to assist the student in preparing a research proposal for discussion and critique in class. Each student will submit a formal written proposal.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 747 Instruction in Counselor Education  
3 Credit Hours

Prerequisites: (COUN 501 or CEFS 501 or COUC 501) and (COUN 510 or CEFS 510 or COUC 510) and (COUN 546 or CEFS 546 or COUC 546) and (COUN 598 or Meets COUN 598 Requirement with a score of 5) and (COUN 500 or CEFS 500 or COUC 500 or Meets COUN 500 Requirement with a score of 5) and (COUN 505 or CEFS 505 or COUC 505)

This course explores contemporary andragogy, course design, adult learning theory, course delivery, and evaluation methods in the field of counselor education. This exploration is both applied in focus and grounded in the empirical research on these subjects. Students synthesize their own philosophy of teaching and incorporate it practically in residential and online instructional contexts. Cultural, ethical, historical, and legal aspects of counseling instruction are examined. Teaching Christian spirituality as a subspecialty area in a counseling program is also considered. (Formerly COUN 747)

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor and Supervision.

Registration Restrictions: By instructor permission only.
**COUC 750 Qualitative Research** 3 Credit Hours

**Prerequisites:** COUC 740

Qualitative research helps advance our understanding of effective solutions to the complex problems addressed in counseling. Therefore, counseling doctoral students need to understand the main qualitative methods of inquiry and when/how to appropriately use them. This course promotes understanding of the main qualitative research methods and their application to the counseling field. Selected qualitative research methods are explored, appropriate problems for qualitative inquiry delineated, and rigorous, ethical, and effective qualitative research strategies are applied to problems addressed in the field of counseling.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 797 Counseling Seminar** 3 Credit Hours

An intensive study in a specific subject of Professional Counseling. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 800 Advanced Assessment** 3 Credit Hours

**Prerequisites:** (COUN 500 or CEFS 500 or COUC 500 or Meets COUN 500 Requirement with a score of 5) and (COUN 501 or CEFS 501 or COUC 501) and (COUN 502 or CEFS 502 or COUC 502) and (COUN 504 or CEFS 504 or COUC 504) and (COUN 505 or CEFS 505 or COUC 505) and (COUN 510 or CEFS 510 or COUC 510) and (COUN 512 or CEFS 512 or COUC 512) and (COUN 515 or CEFS 515 or COUC 515) and (COUN 521 or CEFS 521 or COUC 521) and (COUN 522 or CEFS 522 or COUC 522) and (COUN 646 or CEFS 546 or COUC 546)

Use and application of personality assessment instruments are discussed, including projective tests with individuals. Students learn testing procedures as well as application of results and use in diagnosis and treatment planning.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 805 Advanced Psychopathology and its Treatment** 3 Credit Hours

This course presents a comprehensive examination of the major psychiatric disorders contained in the Diagnostic and Statistical Manual of Mental Disorders, including Personality Disorders and Character Flaws. Students will learn multi-axial diagnosis and develop treatments for these disorders.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 806 Cognitive-Behavioral Therapy** 3 Credit Hours

An overview of theoretical foundations of cognitive-behavioral therapy. Students learn the assessment, conceptual framework, strategic focus, and technical details of how cognitive-behavioral therapy is conducted.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 810 Dissemination of Research and Scholarship in Counseling** 3 Credit Hours

**Prerequisites:** COUC 715 and COUC 730 and COUC 740 and COUC 745 and COUC 969

Course Description: This course offers an orientation to writing and disseminating presentations and publications to the field of counseling in a variety of venues. Principles of research and scholarly writing are reviewed and skills are emphasized that provide readiness for manuscript preparation, submission, review, editorial, and presentation processes. The skills developed in this course will equip budding scholars to make a difference for Christ as expert writers and presenters in their chosen areas of counseling specialization.

**Offered:** Online

**COUC 815 Empirically Supported Treatments for Adults** 3 Credit Hours

Evidence-based or empirically supported practice involves ‘the integration of the best available research with clinical expertise in the context of patient characteristics, culture, and preferences’ (APA, 2005). In this course, students will explore and understand how science informs clinical practice in the field of counseling with the goal of translating learning into ethical, effective, and biblically grounded clinical practice.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 820 Empirically Supported Treatments for Children and Adolescents** 3 Credit Hours

Evidence-based or empirically supported practice involves ‘the integration of the best available research with the clinical expertise in the context of patient characteristics, culture, and preferences’ (APA, 2005). In this course, students will explore and understand how science informs clinical practice in the field of counseling with the goal of translating learning into ethical, effective, and biblically grounded clinical practice with children and adolescents.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**Offered:** Online

**COUC 850 Advanced Career Counseling** 3 Credit Hours

A thorough grounding in current career development theories and application is provided. Special attention is given to career development, career counseling with special populations, and decision-making models.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**Offered:** Resident
**COUC 860 Counseling Leadership and Advocacy**  
**3 Credit Hours**

**Prerequisites:** COUC 715 and COUC 730 and COUC 740 and COUC 745 and COUC 969

Course description: This doctoral level seminar course is designed to foster professional identity as a counselor educator and leadership/service to the counseling profession. There is a focus on leadership principles and theories, including their application to counselor education. Students will work for a self-reflective model in order to discover and assess their own leadership skills and potential and to consider how that potential can be applied to their field of counselor education. Professional, ethical, social, spiritual, and religious advocacy issues are also addressed throughout this course.

**Offered:** Online

**COUC 870 Advanced Research Seminar**  
**3 Credit Hours**

This course is designed to assist doctoral students in clarifying, developing, and completing their dissertations by examining both the methodological and practical issues involved in research designs and advanced data analysis procedures. Under the supervision of the instructor, students will present their own dissertation research ideas to the seminar participants for discussion, critique, and advice. Specific attention will be given to insuring that students craft research questions that build upon previous research and select an appropriate research design and analytic strategy. Concerns about research quality and rigor will be addressed in detail. Additionally, institutional guidelines regarding thesis and dissertation policies and procedures, the Human Research Review Committee application, publication options, timelines, committee membership, etc., will be reviewed.

**Offered:** Online

**COUC 871 Qualitative Research Seminar**  
**3 Credit Hours**

The course is designed to assist dissertators in clarifying, developing, and completing their theses by examining both the philosophical and methodological issues of qualitative research. Under the supervision of the instructor, students will present their own work to the seminar participants for discussion, critique, and advice. Additionally, institutional guidelines regarding thesis and dissertation policies and procedures, the Human Research Review Committee application, publication options, timelines, committee membership, etc., requirements will be reviewed.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 969 Qualifying Exam**  
**0 Credit Hours**

**Prerequisites:** COUC 715 and COUC 730 and COUC 740 and COUC 745

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 970 Teaching Internship**  
**3 Credit Hours**

**Prerequisites:** COUC 715 and COUC 730 and COUC 740 and COUC 745 and COUC 747 and COUC 969 and COUC 998

Description: The doctoral internship is designed to provide students with supervised experiences that reflect the activities of a regularly employed professional in the field of counselor education. All doctoral interns must have internship experiences in teaching, supervision and one additional doctoral competency (counseling, research, or leadership/advocacy). Under the guidance of faculty, the primary focus of the teaching internship is to help doctoral students develop the knowledge, skills, and dispositions required for ethical and competent practice in their role of educating counselor trainees in the field of counselor education.

**Registration Restrictions:** 3.0 GPA or above.

**Offered:** Online

**COUC 980 Supervision Internship**  
**3 Credit Hours**

**Prerequisites:** COUC 715 and COUC 714 and COUC 730 and COUC 740 and COUC 745 and COUC 969 and COUC 998

Description: Course Description: The doctoral internship is designed to provide students with supervised experiences that reflect the activities of a regularly employed professional in the field of counselor education. All doctoral interns must have internship experiences in supervision, teaching, and one additional doctoral competency (counseling, research, or leadership/advocacy). Under the guidance of faculty and supervisors, the primary focus of the supervision internship is to help doctoral students develop the knowledge, skills, and dispositions required for ethical and competent practice as supervisors in the field of counseling and counselor education.

**Registration Restrictions:** 3.0 GPA or above.

**Offered:** Online

**COUC 989 Dissertation Proposal and Research**  
**3 Credit Hours**

Description: Preparation for research and writing of the Dissertation.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 990 Dissertation Defense**  
**3 Credit Hours**

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

**COUC 995 Directed Research**  
**1-3 Credit Hours**

**COUC 997 Counseling Seminar**  
**3 Credit Hours**

**Prerequisites:** COUN 646 or CEFS 546 or COUC 546

An intensive study in a specific subject of Professional Counseling. This course allows variation in the approach and content of the regular curriculum, and often will be used by visiting professors.

**Note:** Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.
COUC 998 Practicum 3 Credit Hours

Prerequisites: COUC 969

Supervised practice of counseling. Focus is on the skills and development of the counselor under the supervision and guidance of staff in that setting. Students will actively participate in counseling situations with individuals and groups.

Note: Must be enrolled in the following program: Doctor of Philosophy in Counselor Education and Supervision.

COUC 999 Internship 3-6 Credit Hours

Prerequisites: COUC 747 and COUC 714 and COUC 998

Course Description: The doctoral internship is designed to provide students with supervised experiences that reflect the activities of a regularly employed professional in the field of counselor education. All doctoral interns must have internship experiences in supervision, teaching, and one additional doctoral competency (counseling, research or leadership/advocacy). Under the guidance of faculty and supervisors, the primary focus of this internship is to help doctoral students develop the knowledge, skills, and dispositions required for ethical and competent practice as a counselor educator in counseling, research, or leadership and advocacy.

Counseling (COUN)

COUN 711 Diagnosis and Treatment of Addictive Behaviors 3 Credit Hours

Prerequisites: COUN 501 and COUN 502 and COUN 504 and COUN 505 and COUN 510 and COUN 512 and COUN 515 and COUN 521 and COUN 522 and COUN 646 and (COUN 500 or Meets COUN 500 Requirement with a score of 5)

The biopsychosocial and spiritual effects of various substance and process addictions are examined, along with current information about the effects that addictive substances, behaviors, and patterns have on individuals, couples, and families. Emphasis is placed on current diagnostic issues, stages of change, and treatment techniques from individual, relational, and systemic perspectives.

COUN 713 Community Systems Counseling: Programs and Practice 3 Credit Hours

Prerequisites: COUN 501 and COUN 502 and (COUN 503 or COUN 515) and COUN 504 and COUN 505 and COUN 510 and COUN 512 and COUN 521 and COUN 522 and COUN 646 and (Meets COUN 500 Requirement with a score of 5 or COUN 500)

Principles of service delivery in community agencies is reviewed, including roles and functions of counselors, trends in community systems, problems, and special populations.

COUN 716 Consultation and Counseling 3 Credit Hours

Prerequisites: COUN 501 and COUN 502 and (COUN 503 or COUN 515) and COUN 504 and COUN 505 and COUN 510 and COUN 512 and COUN 521 and COUN 522 and COUN 646 and (COUN 500 or Meets COUN 500 Requirement with a score of 5)

Consultation strategies in working with individuals and groups are surveyed. Topics, problems, and research are taken from counseling, adult education, community service agencies, and instructional technology.

COUN 747 Teaching and Learning 3 Credit Hours

Prerequisites: COUN 501 and COUN 502 and COUN 510 and (COUN 598 or Meets COUN 598 Requirement with a score of 5) and COUN 646 and (COUN 500 or Meets COUN 500 Requirement with a score of 5) and (COUN 505)

The course is designed to address the need for counselor educators to operate within a biblically framed pedagogy. To do so, the course examines established and emerging teaching and learning perspectives and practices, viewed through the lens of Scripture, as foundational for developing and reflectively practicing a personal philosophy of education. Participants will be expected to reflect on their own learning, as well as dialogue with others, to build a meaningful education learning community.

COUN 801 Pastoral Care and Counseling in the New Millennium Church 3 Credit Hours

This course presents an overview of the field of pastoral care and counseling in the local church setting.

COUN 810 Diagnosis/Treatment of Addctv 3 Credit Hours

COUN 815 Neuro & Psychopharm Issues Cli 3 Credit Hours

COUN 820 Advanced Readings in Pastoral Care and Counseling 1-3 Credit Hours

An advanced reading class of an approved subject area in pastoral care and counseling.

COUN 825 Growth & Devel of Contemp Min 3 Credit Hours

COUN 865 Adv Theories in Career Develop 3 Credit Hours

COUN 875 Advanced Family Counseling 3 Credit Hours

Advanced theoretical foundations and intervention for the practice of marriage and family therapy. Emphasizes intervention for couples and families in conflict. Treatment strategies and goals for intervention in specific areas of family conflict are described. Supervision of current cases is employed.
Criminal Justice (CJUS)

CJUS 700 Theories of Crime  3 Credit Hours
This course offers an advanced exploration of the theories of crime causation. Biological, psychological, sociological, cultural, and political theories may be examined using a 'cause of crime' perspective. Emphasis is placed around the key concepts used in theories of crime and the multidisciplinary source of these concepts, how they are applied to criminological theory, and their importance for understanding the present state of criminological theory.
Offered: Online

CJUS 701 Comparative Criminal Justice Systems  3 Credit Hours
Prerequisites: CJUS 700
Typically, undergraduate and master's programs examine criminal justice from the United States lens. This course is an advanced in-depth analysis of the various courts, corrections, and law enforcement systems worldwide.
Offered: Online

CJUS 702 Advanced Juvenile Justice Policy  3 Credit Hours
Prerequisites: CJUS 700
This course provides a comprehensive overview of the origin, philosophy and objectives of the juvenile justice system. An extensive and systematic analysis of juvenile justice policies and practices will be undertaken, especially those reflecting any recent philosophical shifts. Students will be challenged to critically examine present policy and propose practical new policies related to juvenile justice.
Offered: Online

CJUS 703 Advanced Corrections Policy  3 Credit Hours
Prerequisites: CJUS 700
This course provides a comprehensive overview of the origin, philosophy and objectives of the prison system. As an advanced corrections course, students explore the far-reaching impacts of prisons policy on society. Policies related to prisons, rehabilitation, re-entry, alternative court, community corrections, recidivism and other recent relevant topics may be explored. Additionally, students will prepare new evidence-based practice corrections policy.
Offered: Online

COUN 910 Counseling Supervision  3 Credit Hours
COUN 920 Consultation in Human Services  3 Credit Hours
COUN 980 Ministering to Troubled Families  3 Credit Hours
This course presents a biblical-theological base for resolving issues related to marriage and family problems developed within the context of the current American lifestyle.

COUN 985 Pastoral Counseling with Couples in Distress  3 Credit Hours
Provides an in-depth study of marital distress and dissolution, theory, intervention strategies, and factors central to marital stability, growth, and health.

COUN 989 Dissertation Proposal and Research  3 Credit Hours
Preparation for research and writing of the Dissertation.

COUN 990 Dissertation Defense  3 Credit Hours
COUN 990 - Dissertation Defense (3 hours)

COUN 995 Directed Research  3 Credit Hours
An individually selected research project or tutorial under supervision of the student’s advisor.

COUN 997 Counseling Seminar  3 Credit Hours
Prerequisites: COUN 646
An intensive study in a specific subject of Professional Counseling. This course allows variation in the approach and content of the regular curriculum, and often will be used by visiting professors.

COUN 998 Advanced Practicum  3 Credit Hours
Supervised practice of counseling. Focus is on the skills and development of the counselor under the supervision and guidance of staff in that setting. Students will actively participate in counseling situations with individuals and groups.

COUN 999 Internship in Counseling  3,6 Credit Hours
Work with individual or groups in practical situations under the supervision and guidance of staff in that setting. Open only to doctoral students or by consent of the department.
CJUS 730 Advanced Criminal Justice Leadership  
**Prerequisites:** CJUS 801

To be an organizational leader demands an understanding of the basic principles and practices underlying the management of large and diverse organizations. The contrast of management of stability and control with the management of chaos and instability suggests different techniques of leadership and management. Modelling, inspiring, challenging, enabling, and encouraging subordinates toward the organization mission is key to solid organizational leadership. Additionally, having tools to make leadership decisions in extreme situations is necessary for all criminal justice leaders. This course covers sound leadership principles necessary for an ethical high performing law enforcement organization by student self-reflection, peer feedback, and subordinate feedback. Additionally, students are challenged to create sound leadership policies necessary for a high performing criminal justice organization.

**Offered:** Online

CJUS 732 Strategic Planning in Criminal Justice  
**Prerequisites:** CJUS 730

This course studies strategic planning models, forecasting methods, trend analysis, systems thinking, and futuring. Participants will learn how to manage growth, change, and organizational innovation. The use of strategic planning tools such as scenarios, systems thinking, and change strategies will be presented through case studies and projects that utilize the principles of problem-based learning. Students will have the opportunity to design a mock strategic plan and develop scenarios to apply principles learned in this course.

**Offered:** Online

CJUS 734 Human Resource Law and Civil Rights in Criminal Justice  
**Prerequisites:** CJUS 732

This course studies human resource law associated with leading a criminal justice organization. Advanced topics of selection, discipline, retention, criminal investigations, and internal investigations will be investigated. Additionally, this course studies the recent relevant internal and external implications of 42 U.S.C. 1983. Participants will focus on creating an ethical organizational environment with respect to HR Law and 42 U.S.C. 1983.

**Offered:** Online

CJUS 736 Advanced Human Resources Development in Criminal Justice  
**Prerequisites:** CJUS 701 and CJUS 702 and CJUS 703 and CJUS 734

This course provides advanced human resource development techniques for criminal justice organizations. Topics include skills needed for planning, organizing, staffing, directing and controlling, communicating, motivating, decision-making, priority setting and time management toward effective objectives and organizational goals. Focused areas include job performance, employee development, management of a diverse work force, employment law, harassment and health issues, and disabilities and discrimination in the workplace.

**Offered:** Online

CJUS 740 Advanced Research Design  
**Prerequisites:** CJUS 700

The overall purpose of this class is to familiarize the student with the language and major issues confronting criminal justice research and researchers. As such, students will learn the basic rudiments of social science inquiry with special focus on how one conceptualizes a problem, uses theory to structure research questions, designs a method to examine the problem and answer the questions of interest, and implements that research approach. This is the first of a required multi-course sequence. The mastery of SPSS will be required in this class. Students will demonstrate competency through the design of a brief research project.

**Offered:** Online

CJUS 745 Quantitative Methods of Research  
**Prerequisites:** CJUS 740

This course will introduce concepts and methods in descriptive and inferential statistics. The course is designed to provide students with the statistical background required for doctoral level applied research. Application of statistics and educational and human services research will be emphasized. Areas of study will include estimation, probability, variables, normal distribution, t-distribution, chi-square distribution, F-distribution, confidence intervals, hypotheses testing, and correlation. This course will provide the skills necessary to properly apply descriptive and inferential statistics by helping students understand the role of statistics in scientific research. Further, the assignments are designed to help students identify and implement the correct statistical procedure for a research question through data analysis using a computer (e.g., SPSS). Students will gain the requisite knowledge necessary to learn more complex statistical/research procedures and become more critical of various statistical presentations in academic journals and the mass media.

**Offered:** Online

CJUS 750 Qualitative Methods of Research  
**Prerequisites:** CJUS 740

This course will suggest the kinds of phenomena for which qualitative approaches are most apt to be useful, and equip students with the skills necessary in order to successfully conduct sound and ethical studies. The epistemological bases for such approaches and the complementary aspects of qualitative approaches will be explored in great detail. Emphasis will be on a hands-on approach on how to do field research, case studies, interviews, etc.

CJUS 989 Dissertation III 5 Credit Hours

Prerequisites: CJUS 988

This course is the final step in developing the dissertation manuscript. Doctoral candidates will conduct their field study, analyze their data, and present their findings and develop Section 3 of their dissertation. Candidates will combine all three sections into their completed dissertation manuscript in preparation for their dissertation defense.

Offered: Online

CJUS 990 Dissertation IV - Dissertation Defense 0 Credit Hours

Prerequisites: CJUS 989

This course is the last step in the doctoral program. Doctoral candidates will defend their dissertation and finalize their dissertation manuscript for publication.

Offered: Online

Digital Arts (DIGI)

DIGI 700 Digital & Strategic Communication Orientation I 3 Credit Hours

Synthesizing introduction for new PhD students to provide information about the doctoral program and philosophy of the graduate program, as well as resources available through the School of Communication & Digital Content and university.

Offered: Online

DIGI 705 Digital & Strategic Communication Orientation II 3 Credit Hours

Continuation of introduction for new PhD students, with emphasis on connecting theories of audience and consumer behavior, digital strategies, and media use to communication application.

Offered: Online

DIGI 710 Digital & Strategic Communication Audience Measurement 3 Credit Hours

Prerequisites: DIGI 700

The types and uses of digital & strategic communication audience measurements, the use of big data in shaping the user experience and organizational strategy.

Offered: Online

DIGI 720 Social, Mobile, & Online Media Analytics 3 Credit Hours

Prerequisites: DIGI 700

The types and uses of social, mobile and online metrics, the use of big data in shaping the user experience.

Offered: Online

DIGI 725 Seminar: From Digital Analytics to Communication Action 3 Credit Hours

Prerequisites: DIGI 700

A study of the use of analytics in shaping promotional messages in the digital age, maximizing the effectiveness of digital and strategic communication.

Offered: Online

DIGI 830 Seminar: Design, Technology, and Visualization 3 Credit Hours

Prerequisites: DIGI 700

This course focuses on the utilization of principles and practices of video, graphic, and online visual persuasion.

Note: Course offered beginning in Spring 2020.

Offered: Online

DIGI 835 Current Topics in Content Communication 3 Credit Hours

Prerequisites: DIGI 700

Understanding content creation, which is a strategic communication approach emphasizing the use of content to mediate messages and drive profitable affiliate interaction.

Offered: Online

DIGI 845 Visualization & Social Media Strategy 3 Credit Hours

Prerequisites: DIGI 700

Effective use of communication channels in the age of digital media requires extensive understanding and knowledge of data visualization and presentation. This course focuses on the principles and practices of video, graphic and online visual persuasion.

Offered: Online

DIGI 850 Interactive Strategic Media 3 Credit Hours

Prerequisites: DIGI 700

This course will research and investigate the strategic media field for insights in digital media, market strategy, and market objectives.

Note: Course offered beginning in Spring 2020.

Offered: Online

DIGI 880 Research Concepts 3 Credit Hours

Prerequisites: DIGI 700

This course will focus on students preparing a Concept Paper and preparing students for their applied doctoral research project.

Note: Course offered beginning in Spring 2020.

Offered: Online
Discipleship Ministries (DSMN)

DSMN 810 Biblical and Philosophical Foundations of Disciple Making
3 Credit Hours

Prerequisites: DSMN 810

This class will examine N.T. principles of disciple-making and evaluate modern systems and structures. Students will be equipped to develop their own disciple making system in their local church or ministry context.

Note: Admission to DSMN program.

Offered: Online

DSMN 820 Historical and Practical Discipleship
3 Credit Hours

Prerequisites: DSMN 810

This course will examine the biblical and philosophical foundations of making disciples by examining disciple-making in the Gospels, the book of Acts and in the Epistles. Careful attention will be given to the commands of Christ and the practice (interpretation) of the early disciples. Disciple-making down through church history will also be reviewed.

Note: Admission to DSMN program.

Offered: Online

DSMN 830 Environmental Discipleship Models
3 Credit Hours

Prerequisites: DSMN 810

This class is designed to examine the biblical foundations for small group discipleship, how to develop small groups, how to grow small groups, how to develop small group leaders and how to transition to a small group (environmental) discipleship model. The focus of the class will be on how to accomplish the Great Commission in a relational context.

Note: Admission to DSMN program.

Offered: Online

DSMN 840 Biblical Theology of Spiritual Formation
3 Credit Hours

Prerequisites: DSMN 810

This course traces out the biblical theme of spiritual formation in both Old and New Testaments. Students gain an appreciation for the consistent manner in which biblical writers explain the process of spiritual growth by an appeal to natural growth processes in creation. Students also explore the place of spiritual formation within the larger purposes of the mission of God as it unfolds canonically and historically. Students formulate practical applications of a biblical model of spiritual formation to ministry practice within their own denominational and theological traditions.

Note: Admission to DSMN program.

Offered: Online

DSMN 860 History of Spiritual Formation
3 Credit Hours

Prerequisites: DSMN 810

This course is an examination of the historical practices of spiritual formation throughout the life of the church. Focused on primary materials, this course will explore salient themes related to spiritual formation through the lens of discipline, theology, and practice.

Note: Admission to the DSMN program.

Offered: Online

DSMN 870 Facilitation of Spiritual Formation
3 Credit Hours

Prerequisites: DSMN 810

This course focuses on the corporate aspect of spiritual formation against the backdrop of our hyper-individualistic culture and emphasis within Protestantism. The course will provide an analysis of those elements that facilitate and foster spiritual formation in Christian community. In particular, the course will examine an ecological model of spiritual formation as a way of conceptualizing and fostering growth and formation. Finally, this course will inspect the role of the Christian community in the facilitation of spiritual growth and maturity that brings into balance the disparate notions of academic and ministerial formation.

Note: Admission to the DSMN program.

Offered: Online

DSMN 895 Directed Research
1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. This course should/can only be used if a student lacks a seminar for graduation and the needed seminar is not offered in their last semester. If approved, the student will work with the instructor in developing a proposal for guided research in a specific area.

Offered: Online

DSMN 897 Seminar in Discipleship Studies
3 Credit Hours

An intensive study in a specific subject of discipleship. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Online

DSMN 995 Directed Research in Educational Ministries
1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specific area.

DSMN 997 Seminar in Educational Ministries
3 Credit Hours

An intensive study in a specific subject of educational ministries. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

DSMN 998 Practicum
1-3 Credit Hours
**Dissertation (DISS)**

**DISS 987 Dissertation Proposal and Research I**

*Registration Restrictions: Program Director Approval.*

*Offered: Online*

**DISS 988 Dissertation Proposal and Research II**

*Prerequisites: DISS 987*

*Registration Restrictions: Program Director Approval.*

*Offered: Online*

**DISS 989 Dissertation Proposal and Research III**

*Offered: Online*

**DISS 990 Dissertation Defense**

*Prerequisites: DISS 989*

*Registration Restrictions: DISS 989 and Approval of Program Director.*

**Doctor of Ministry (DMIN)**

**DMIN 810 Foundations for the Doctor of Ministry**

*This course provides a general introduction to the Doctor of Ministry program. Students are presented an overview of the program along with doctoral research and writing resources. These resources are then utilized to examine various theological and ministry concepts academically in preparation for progress through the program.*

*Note: Admission to the DMIN program.*

*Offered: Online*

**DMIN 820 Research and Thesis Development**

*Prerequisites: (DMIN 810 and BIBL 810 and BIBL 820 and BIBL 830) or (CHPL 810 and CHPL 820 and CHPL 830 and DMIN 810) or (DMIN 810 and CHMN 810 and CHMN 820 and CHMN 830) or (DMIN 810 and DSMN 810 and DSMN 820 and DSMN 830) or (DMIN 810 and EVCP 810 and EVCP 820 and EVCP 830) or (DMIN 810 and EVCP 810 and EVCP 820 and EVCP 830 and EVCP 840) or (DMIN 810 and EVCP 810 and EVCP 820 and EVCP 830 and EVCP 840) or (DMIN 810 and EVCP 810 and EVCP 820 and EVCP 840) or (DMIN 810 and EVCP 820 and EVCP 830 and EVCP 840) or (DMIN 810 and EVCP 830 and EVCP 840) or (DMIN 810 and EVCP 840) or (DMIN 810 and LEAD 810 and LEAD 820 and LEAD 830) or (DMIN 810 and PACO 830 and PACO 835 and PACO 840) or (DMIN 810 and APOL 810 and APOL 820 and THEO 810) or (DMIN 810 and WRSP 820 and WRSP 835 and WRSP 845)*

*This introductory course prepares the DMIN candidate for an understanding and completion of the groundwork elements required to begin writing their DMIN proposal. The course is designed to help students identify researchable DMIN thesis projects, build sound arguments for a thesis through literature and biblical evaluation, and develop competent research skills to complete the thesis project.*

*Note: Admission to the DMIN program.*

*Offered: Online*

**DMIN 830 Thesis Project Proposal Development**

*Prerequisites: DMIN 820*

*This course guides the candidate toward the completion of the DMIN thesis proposal. The student will write each chapter and revise them as needed in preparation to present the proposal to an assigned mentor. Acceptance of the proposal by a mentor is required in order to pass the course.*

*Note: Admission to the DMIN program.*

*Offered: Online*

**DMIN 840 Thesis Project Writing Stage 1**

*Prerequisites: DMIN 830*

*The candidate will write, revise, and complete chapters 1 and 2 of their DMIN thesis project. In addition, the candidate will complete and submit their IRB application in order to begin the field research phase of their project.*

*Note: Admission to the DMIN program.*

*Offered: Online*

**DMIN 880 Research and Writing of the Thesis Project**

*An introduction to the Thesis Writing Process and how ministry is enhanced using current electronic resources. Students will be introduced to all phases of the D.Min Thesis writing process, including the thesis timeline, research, writing your thesis, and the finished product, including the abstract and the vita. Students will become familiar with the Thesis Manual and with resources available to them through the library and the Liberty University Writing Center. Use of electronic databases for ministry research and Turabian Formatting will be introduced.*

*Offered: Online*

**DMIN 885 Thesis Project Writing Stage 2**

*Prerequisites: DMIN 840*

*This course allows the candidate time to conduct and evaluate research in coordination with a professional mentor. Once the research has been conducted, the student will complete the thesis project under the mentor supervision.*

*Note: Admission to the DMIN program.*

*Offered: Online*

**DMIN 889 Thesis Project Writing**

*DMIN 889 - Thesis Project Writing (3 hours)*

**DMIN 890 Thesis Project Defense**

*Prerequisites: DMIN 885*

*Note: Admission to DMIN program.*

*Offered: Online*
EDMIN 995 Directed Research 3 Credit Hours

EDMIN 997 Seminar in Pastoral Studies 3 Credit Hours

Education (EDUC)

EDUC 700 Introduction and Orientation to Doctoral Studies 2 Credit Hours
This course orients candidates to the Doctor of Education in the School of Education and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a doctoral candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

Offered: Online

EDUC 701 Advanced Learning Theory and Research 3 Credit Hours
Current findings and research in learning theory are examined, including research about classroom management, learning, motivation, diversity, exceptionalities, assessment, and teaching. Discussion, analysis of cases, examination of personal experiences in schools, cooperative projects, and other activities will also be included.

EDUC 703 Theories of Historical and Social Foundations of Education 3 Credit Hours
Advanced study covering the historical and philosophical principles and theories that have shaped education on a global basis.

EDUC 708 Quantitative/Qualitative Meth 3 Credit Hours
Prerequisites: EDUC 608 and Background Check Receipt with a score of 5

EDUC 710 Orientation to Doctoral Study and Research 2 Credit Hours
This course orients students to the Ph.D. program and the skills and competencies necessary for success in coursework and the dissertation. This course socializes students to what it means to be a Ph.D. candidate and how learning throughout the program informs multiple outcomes including coursework, research, scholarship, and post-doctoral opportunities.

EDUC 718 Advanced Research and Writing 3 Credit Hours
Prerequisites: EDUC 712 and EDUC 746 and Background Check Clearance with a score of 5 and Background Check Receipt with a score of 5
This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication.

EDUC 721 Issues and Trends in Exceptionality 3 Credit Hours
A research oriented course that focuses on issues and trends that face the discipline of special education. The course utilizes research to analyze and examine through written discussions controversial issues in various areas of exceptionalities.

EDUC 723 Administration and Supervision of Special Education 3 Credit Hours
This course addresses critical knowledge for effective leadership, management, and supervision in special education and disability services. Emphasis is placed on the legal foundations for special education and disability services in the United States.

Offered: Online

EDUC 730 Issues & Trends in Learning Technologies 3 Credit Hours
A study of technology practices as they impact the teaching and learning process in any context. Specifically, this course will examine personal, professional and pedagogical engagement of technology; especially those technologies associated with digitally-based communication, collaboration, engagement, interactivity, problem-solving, as well as current trends and future perspectives.

Offered: Online

EDUC 731 Instructional Design Theory 3 Credit Hours
This course introduces students to instructional design and technology through a Christian perspective. It reviews historical trends and current issues found in learning environments through the field of instructional design. Students will focus on planning instruction to address specific learning problems through instructional design theory.

Offered: Online

EDUC 732 Principles of Human Performance Technology 3 Credit Hours
This course addresses instructional design through human performance technology. It examines the gap between what human performance is occurring within an organization and what human performance should be occurring. Students will learn about human performance technology and identify solutions to address performance gaps within learning environments.

Offered: Online

EDUC 733 Instructional Systems Design 3 Credit Hours
Through the examination of various instructional design models and conceptual underpinnings, this course works to develop advanced instructional design and development skills from a systems thinking perspective. The enhancement of technology leadership proficiencies to effectively lead organizations in applying technology to foster active engagement with other professionals within instructional systems is a significant focus.

Offered: Online
EDUC 734 Implementation and Assessment of Multimedia Learning Tools  
3 Credit Hours

This course addresses assessment and evaluation of learning tools in instructional design and technology. It looks at how best to integrate, design, and administer learning tools within the classroom no matter the learning environment. Students will research about multimedia learning tools and identify solutions to address performance gaps within educational settings.

Offered: Online

EDUC 735 Issues and Trends in Curriculum and Instruction  
3 Credit Hours

An overview of the current issues and trends in the field of education, specifically targeting the area of teaching and learning.

EDUC 736 Models for Instructional Design and Technology  
3 Credit Hours

This course will focus on key learning and performance metrics to inform the selection and application of instructional design models and technologies that best support teaching and learning across multiple learning environments, modalities, and delivery mechanisms.

Offered: Online

EDUC 737 Ethics and Social Responsibility in Technology  
3 Credit Hours

This course provides a critical review of the ethics and social responsibility behind the integration of technology into learning systems. Course material will reflect on the nature of technology and how it impacts both the individual and society within learning environments. Students will also analyze the effect of technology on culture through a biblical worldview.

Offered: Online

EDUC 740 Leadership Principles and Ethics  
3 Credit Hours

Prerequisites: EDUC 759 and (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

Candidates are engaged in an analysis of appropriate practices and principles related to leadership by exploring ethical issues and developing a biblical foundation for leadership practices.

EDUC 741 Theories of Educational Leadership  
3 Credit Hours

An analysis of education/organizational leadership theories and evidence based practices with application to challenges faced by academic leaders in complex and changing contexts. Emphasis given to significance and relevance for leaders forging relationships and leading academic organizations to successfully fulfill their mission.

EDUC 742 Educational Leadership and Public Relations  
3 Credit Hours

An investigation into the issues and practices of developing communication and relationships to enhance support for educational activities within and outside the school.

EDUC 743 Executive Leadership in Curriculum and Instruction  
3 Credit Hours

This course addresses the role of district-level leadership in the supervision of instruction as a superintendent or assistant superintendent. Research-based methods will be applied to the development of district-wide processes for the improvement of student achievement through systematic planning, designing, implementing, and evaluating curriculum, instruction and assessment. Attention is given to supervision, evaluations, and professional development of district-level personnel and building-level administrators. Field experience hours are required.

Offered: Online

EDUC 745 Organizational Analysis and Problem Solving  
3 Credit Hours

An introduction to the nature and management of educational organizations. Integrates major theoretical perspectives with special focus on applying such theories to both better understand and more effectively resolve organizational problems.

EDUC 746 Conflict Resolution  
3 Credit Hours

The effective means of solving conflicts are explored through conceptualizing and practicing interpersonal leadership skills, testing assumptions about other people, taking other people into account by listening and testing the meaning of what they have said.

EDUC 747 Advanced Educational Law  
3 Credit Hours

An in-depth study into educational law and how social and cultural changes are directing how our courts act and react. A new global mindset present in our high courts has and will continue to re-direct how our courts view many judicial rulings and from those considerations a new set of legal precedents will emerge impacting how our educational systems are viewed by those courts.

EDUC 748 School District Finance and Organizational Management  
3 Credit Hours

Prerequisites: EDUC 743 or (Background Check Clearance with a score of 5 or Background Clear International with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5)

This course addresses the role of district-level leadership in system operations, including budget preparation, fiscal management, administration of auxiliary services (food service, transportation, etc.), human resources (salaries, benefits, hiring costs, professional development, etc.) and policy development. Related topics address equity issues, taxation, statutory mandates, facility management, technology infrastructures, and school safety.

Offered: Online
EDUC 750 Survey of Educational Research 3 Credit Hours

Prerequisites: EDUC 700

This course introduces candidates to a range of methods used in educational research. This survey of educational research methods addresses the difference between qualitative and quantitative research and basic versus applied research methods.

Offered: Online

EDUC 758 Teaching the College Student 3 Credit Hours

A study of the nature of the college student from a sociological, cultural, and psychological perspective. Opportunity will be given to analyze, synthesize, and discuss ways to bring about maximum impact, growth and satisfaction.

EDUC 759 College and University Administration 3 Credit Hours

A study of the administrative and organizational aspects of colleges and universities with emphasis on principle organizational components, and contemporary leadership issues.

Registration Restrictions: Background Check Receipt.

EDUC 760 Literature Review in Education Research 2-3 Credit Hours

Prerequisites: EDUC 750

This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

Offered: Online

EDUC 771 Curriculum Theory 3 Credit Hours

Addresses the theoretical constructs of the K-12 curriculum as related to the nature and function of curriculum, the curriculum development process, and curriculum evaluation procedures.

EDUC 782 Historical Perspectives of Higher Education 3 Credit Hours

This course provides a historical foundation of how ideas and practices from the past influence current trends in higher education.

EDUC 783 Economic Impact in Higher Education 3 Credit Hours

This course is an introductory examination of financial, economic, and budgetary issues in higher education. Focusing on postsecondary institutions, students will review the primary political, economic, and social issues influencing higher education finance, examine revenue streams and expenditure patterns, survey tuition and financial aid policies, and assess the budget as an instrument of strategic planning, resource allocation, and fiscal control.

EDUC 784 Assessment & Accreditation 3 Credit Hours

The purpose of this course is to explore assessment programs and research that informs planning and results in measurable improvements for students. The course will also explore how assessment can be used to align programs with the goals and values of the institution, while satisfying accreditation requirements.

EDUC 798 Advanced Research and Writing 3 Credit Hours

This course will provide an overview of current educational research and its use as an inquiry tool. Students will apply professional writing skills by completing a final research project for the Ed.S. program, and by writing and submitting an article for publication. This is the capstone course for the Ed.S. program, and it should be taken as the last course in the program. (Formerly EDUC 718)

Offered: Online

EDUC 799 Internship: District-Level Leadership 3 Credit Hours

Prerequisites: Advanced Gate 3 with a score of 5

Registration Restrictions: Proposal submitted one semester in advance and approved by the Chair of the Graduate Program May be repeated to a maximum of six hours.

Note: Requires completion of the projects and minimum hours as specified in proposal.

Offered: Online

EDUC 810 Dissertation Planning 1 Credit Hour

Prerequisites: EDUC 760

This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

Offered: Online

EDUC 812 Advanced Educational Statistics 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

This course involves an examination of descriptive statistics and basic inferential statistical techniques. Hypothesis testing, confidence intervals, analysis of variance, correlation techniques and nonparametric statistical methods will be discussed.

EDUC 815 Quantitative Methods of Research 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5 and EDUC 812

This course is designed for those planning to write a dissertation. An examination of quantitative designs for educational research topics will be considered. These are: Developing a research problem, Reviewing the Literature, The Hypothesis, Descriptive Statistics, Sampling and Inferential Statistics, Tools of Research, Validity and Reliability, Experimental Research Designs, Ex Post Facto Research, Correlational Research, Survey Research, Guidelines for Writing a Quantitative Research Proposal, and Interpreting and Reporting Results of Quantitative Research.
EDUC 816 Applied Research 3 Credit Hours

**Prerequisites:** EDUC 750

The objective of an applied dissertation is to identify a problem of practice in the workplace and generate solutions to improve practice or policy on the issue. This course addresses the methods, skills, and knowledge necessary for completion of an applied research project.

**Offered:** Online

EDUC 817 Qualitative Methods of Research 3 Credit Hours

This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents. (Formerly EDUC 717)

EDUC 840 Issues and Trends in Educational Leadership 3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

A study of the current issues and trends related to the field of education leadership. Emphasis will be placed on research and analysis of practices related to effectiveness.

**Registration Restrictions:** Background Check Receipt.

EDUC 845 Policy Analysis 3 Credit Hours

A study of the contemporary educational policy issues. Candidates will be required to assess and evaluate current education policies and implications for education effectiveness.

**Registration Restrictions:** Background check required and candidacy status.

EDUC 848 Culture and Educational Leadership 3 Credit Hours

This course deals with the complexities of multicultural issues in school systems by exploring the history, philosophy, and goals of multicultural education. Emphasis is given to the role of educational leaders in evaluating cultural issues in the context of a biblical worldview and developing practices that maximize the opportunities of cultural diversity.

**Registration Restrictions:** Background Check Receipt.

EDUC 850 Literature Review for Applied Research 3 Credit Hours

This course provides education practitioners in the doctoral program with research skills and strategies for conducting a literature review for applied research. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a capstone project.

**Offered:** Online

EDUC 860 Literature Review for Advanced Research 2-3 Credit Hours

**Prerequisites:** EDUC 710 and EDUC 812

This course provides doctoral students with advanced research skills and strategies for conducting a literature review. Critical thinking skills, synthesis of information, and application of the literature are emphasized to support the feasibility and relevance of a research study.

EDUC 871 Investigations in Curriculum Change 3 Credit Hours

Review and evaluation of theories, models, and strategies for change; recognition and use of this knowledge as a practical guide to problem solving.

EDUC 872 Research in Curriculum Design and Development 3 Credit Hours

This course is designed for candidates who have an advanced understanding of research orientation and knowledge in the field of curriculum and instruction. Content and emphasis will focus on the understanding of how people learn, who decides what people learn, and how to determine what is taught in a classroom. Candidates will research curriculum theorists and the impact they have on the field of education. Candidates will also design and develop a curriculum project that both meets a professional need and reflects current issues and trends.

EDUC 880 Applied Research Concepts & Methodology 3 Credit Hours

**Prerequisites:** EDUC 750 and EDUC 816 and EDUC 850

Review of the doctoral candidates' proposed capstone project concepts and methodology under the supervision of a consultant.

**Offered:** Online

EDUC 887 Capstone I 5 Credit Hours

**Prerequisites:** EDUC 880

This course focuses on developing doctoral candidates' capstone project prospectus.

**Offered:** Online

EDUC 888 Capstone II 5 Credit Hours

**Prerequisites:** EDUC 887

This course focuses on developing doctoral candidates' capstone project proposal.

**Offered:** Online

EDUC 889 Capstone III 5 Credit Hours

**Prerequisites:** EDUC 888

This course focuses on developing doctoral candidates' capstone project.

**Offered:** Online

EDUC 890 Capstone IV 0 Credit Hours

**Prerequisites:** EDUC 889

This course focuses on final submission of doctoral candidates' capstone project.

**Offered:** Online
EDUC 895 Advanced Directed Research 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Offers opportunity and challenge for advanced independent research to develop the individual's ability as an independent student and enable the student to pursue needed study or to pursue a particular interest (thesis or project). May be repeated for credit to a maximum of 6 hours.
Registration Restrictions: Approval of instructor.

EDUC 897 Advanced Seminar in Education 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
A study of selected topics relevant to current issues in education.

EDUC 915 Advanced Quantitative Methods of Research 3 Credit Hours
Prerequisites: EDUC 812 and EDUC 815 and EDUC 817
This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

EDUC 917 Advanced Qualitative Methods of Research 3 Credit Hours
Prerequisites: EDUC 817 and EDUC 812 and EDUC 815
This course addresses the skills and knowledge necessary for completion of a qualitative dissertation, including research design, data analysis and representation, methods for increasing trustworthiness, and ethical considerations in research with human subjects.

EDUC 919 Professional Writing and Research 3 Credit Hours
Prerequisites: (EDUC 815 and EDUC 812 and EDUC 760) or (EDUC 760 and EDUC 816 and EDUC 817)
This course addresses the skills and knowledge necessary for completion of a doctoral dissertation including research design, data analysis, and writing for publication.

EDUC 960 Dissertation Planning 1 Credit Hour
Prerequisites: EDUC 815 and EDUC 817
This course provides an avenue for students to receive feedback on their dissertation topic with the objective of determining a viable method for investigating their selected research problem.

EDUC 970 Comprehensive Exam 0 Credit Hours
Prerequisites: (Background Clear International with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Check Clearance with a score of 5) and EDUC 701 and (EDUC 919
A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation proposal.
Note: Tuition charged for a one hour course.
Registration Restrictions: Background Check Clearance.

EDUC 980 Research Concepts & Methodology 3 Credit Hours
Prerequisites: EDUC 915 or EDUC 917 or EDUC 919
Required of all candidates in a School of Education doctoral program. Review of the candidates proposed dissertation research concepts and methodology under the supervision of a research consultant.

EDUC 987 Dissertation Prospectus and Research 5 Credit Hours
Prerequisites: EDUC 980
This course focuses on developing the dissertation prospectus.
Offered: Online

EDUC 988 Dissertation Proposal & Research 3,5 Credit Hours
Prerequisites: EDUC 980
This course focuses on developing the dissertation proposal.

EDUC 989 Dissertation Writing and Research 3,5 Credit Hours
Prerequisites: EDUC 989
This course focuses on developing the dissertation.

EDUC 990 Dissertation Defense 3 Credit Hours
Prerequisites: EDUC 989
This course focuses on defending the dissertation.

European History (HIEU)

HIEU 913 Comprehensive Readings in Early Modern Europe 3 Credit Hours
Prerequisites: HIST 901
Analysis of the major primary sources and scholarly research of early modern European history leading toward a comprehensive examination.
Offered: Online
HIEU 914 Comprehensive Readings in Modern Europe 3 Credit Hours

Prerequisites: HIST 901

Analysis of the major primary sources and scholarly research of modern European history leading toward a comprehensive examination.

Offered: Online

Evangelism & Church Planting (EVCP)

EVCP 810 Spiritual Factors of Growing Churches 3 Credit Hours

Prerequisites: DMIN 810

Growth and growing churches are the products of health, and the degree of growth is related to the vitality of that health directly. Unhealthy churches cannot sustain growth; therefore, health is imperative for growth and continued growth in a church. In this course students will examine the connection between being a disciple and making disciples through developing leaders in a healthy environment, and teach the church leader how to preach and plan sermons with an eye toward church growth. Students will also examine how Christian leaders can use innovative and methodical processes to develop shared vision, communicate it to internal and external customers, and translate it through the strategic planning processes into operative and effective action through analysis of the latest theories of vision and strategic planning in organizations.

Note: Admission to DMIN program.

Offered: Online

EVCP 820 Leading a Healthy Church 3 Credit Hours

Prerequisites: DMIN 810

This course equips students with an understanding of the importance and role of health in the life of a pastor and the church, and to enable the skills needed for providing pastoral leadership leading to a healthy, growing, and multiplying twenty-first century church. Emphasis will be placed on church health/growth, church planting, church multiplication, and postmodern ministry factors.

Note: Admission to DMIN program.

Offered: Online

EVCP 830 Contemporary Movements in Church Planting 3 Credit Hours

Prerequisites: DMIN 810

This course equips students with an understanding of the various methods, approaches, and tools employed in the greater context of twenty-first century church planting and ministry in the United States. Emphasis will be placed on contemporary models of church ministry as examples illustrating current church planting movements.

Note: Admission to DMIN program.

Offered: Online

EVCP 840 Strategic Evangelism and the Local Church 3 Credit Hours

Prerequisites: DMIN 810

This class will explore various approaches to establishing a viable evangelism strategy for the local church. A special emphasis is placed on biblical principles, evangelism planning, contemporary spiritual movements, and multiplication as the core value.

Note: Admission to DMIN program.

Offered: Online

EVCP 895 Directed Research 1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. This course should/can only be used if a student lacks a seminar for graduation and the needed seminar is not offered in their last semester. If approved, the student will work with the instructor in developing a proposal for guided research in a specific area.

Offered: Online

EVCP 897 Seminar in Evangelism and Church Planting 3 Credit Hours

An intensive study in a specific subject of evangelism and church planting. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Online

General History (HIST)

HIST 701 Historical Professions 3 Credit Hours

An overview of the discipline of history, patterns of historical research, history instruction, historical organizations and careers in history.

Offered: Online

HIST 705 Public History 3 Credit Hours

HIST 705 - Public History (3 hours) This course is a graduate level introduction to the different types of public history. The course also focuses on the role and theories of public history and the challenges public historians face in today's world.

Offered: Online

HIST 706 Digital History 3 Credit Hours

An examination of the leading works of digital history scholarship, best practices, and the needs within the historical community, culminating in a professional digital project.

Offered: Online

HIST 711 Development of Western Freedoms 3 Credit Hours

A detailed examination of the philosophical, political, religious, and cultural origins of the Anglo-American constitutional tradition and its role in the economic development of the United States. D. in History.

Registration Restrictions: Enrollment in the Ph.

Offered: Online
HIST 799 Internship 3 Credit Hours
This course provides an opportunity for students to attain real world experience working on tasks specific to their discipline.

Registration Restrictions: 9 hours of graduate study, 3.5 or higher GPA, and approval of graduate program director.

Offered: Online

HIST 820 Teaching History Online 3 Credit Hours
Doctoral analysis and pedagogy of using primary sources, historical scholarship, and digital resources in classroom and other educational settings. Emphasis is placed on online teaching.

Registration Restrictions: Enrollment in the Ph.

Offered: Online

HIST 901 Doctoral Historical Research 3 Credit Hours
Prerequisites: HIUS 530 and HIST 720
Instruction on methodological and interpretive approaches appropriate for doctoral research in the discipline of History.

Offered: Online

HIST 987 Dissertation Research I 5 Credit Hours
Prerequisites: HIST 911 and HIST 912 and HIST 913 and HIST 914
This course focuses on structure and design of Ph.D. dissertation research that includes chairperson review and scholarly discourse leading to proposal development and a draft of chapter one. Any student who is not ready for enrollment in HIST 988 after completing HIST 987 may be required, as determined by the student's dissertation chair, to repeat HIST 987 until deemed ready for enrollment in HIST 988.

Offered: Online

HIST 988 Dissertation Research II 5 Credit Hours
Prerequisites: HIST 987
This course focuses on structure and research of the Ph.D. dissertation that includes chairperson review and scholarly discourse. Any student who is not ready for enrollment in HIST 989 after completing HIST 988 may be required, as determined by the student's dissertation chair, to repeat HIST 988 until deemed ready for enrollment in HIST 989.

Offered: Online

HIST 989 Dissertation Research III 5 Credit Hours
Prerequisites: HIST 988
This course focuses on structure and completion of the Ph.D. dissertation that includes chairperson review and scholarly discourse. Students who do not successfully defend their dissertation must re-enroll in HIST 989.

Offered: Online

HIST 990 Dissertation Defense 0 Credit Hours
Prerequisites: HIST 989
This course will allow a student to defend his/her dissertation.

Offered: Online

Global Studies (GLST)

GLST 995 Directed Research in Global Studies 3 Credit Hours
This course facilitates independent research on a topic agreed upon by professor and student.

GLST 997 Seminar in Global Studies 3 Credit Hours
This course will address a special topic or issue in global studies, especially those presented by visiting lecturers.

Homeland Security (HLSC)

HLSC 710 Contemporary Issues in Cyber Security and WMD (CBRNE) Threat Analysis 3 Credit Hours
Prerequisites: CJUS 801
This course will teach the student to identify the ways that cyber technology can be used by terrorists and criminals. Students completing this course will be able to appraise and assess the potential of different kinds of cyber and WMD attacks. Cyber and WMD threats and proliferation of WMD present challenges to homeland security and create legitimate concerns about our Nation's ability to prevent cyber and WMD attacks. The course examines technological advancements and the opportunities they present for terrorists and other hostile actors, as well as how one can devise plans, countermeasures, and contingencies against cyber and WMD attacks.

Offered: Online

HLSC 720 Critical Infrastructure: Vulnerability Analysis and Protection 3 Credit Hours
Prerequisites: HLSC 710
This course explores the assessment and management of risk. Focuses on analytical techniques that assess risk; the primary application will be threats to critical infrastructure. Students will learn to conduct a risk and vulnerability analysis of a specific target, city, or region using various assessment techniques and to manage that risk by assessing the efficacy of both prevention, mitigation, and response measures. The techniques covered will be both quantitative and qualitative.

Offered: Online
HLSC 730 Counterterrorism and Counterintelligence Strategies  
3 Credit Hours

Prerequisites: HLSC 720

Counterintelligence (CI) and Counterterrorism (CT) provides students with insight on the homeland security threats we face today with emphasis on terrorism and espionage. The tasks of CT and CI are particularly analysis-intensive. It requires its practitioners to employ a melded set of analytical tools and interoperable capabilities. This objective can be complicated by the fact that many CT and CI operations might involve several entities, including both the Intelligence Community and counterterrorism efforts. This course will explore how to create unified, integrated, and multi-disciplinary CT and CI analysis programs that make the best use of all available resources.

Offered: Online

Homiletics (HOMI)

HOMI 810 Preaching and Teaching the Grand Story of the Bible  
3 Credit Hours

Prerequisites: DMIN 810

A study of the principles for accurate interpretation and appropriate application and delivery of Scripture in its various settings or genres. Problems created by various literary forms, cultural differences, and theological issues will be considered. Preaching will be engaged with personal examination and employment of forms in light of literary, cultural, and theological issues.

Note: Admission to DMIN program.

Offered: Online

HOMI 820 Expository Preaching and Teaching and the Old Testament  
3 Credit Hours

Prerequisites: DMIN 810 and HOMI 810

This course is designed to prepare students to preach from the Old Testament. Special attention will be given to genres and theological themes that arise from the Old Testament text.

Note: Admission to DMIN program.

Offered: Online

HOMI 830 Expository Preaching and Teaching and the New Testament  
3 Credit Hours

Prerequisites: DMIN 810 and HOMI 810

This course is designed to prepare students to preach from the New Testament. Special attention will be given to genres and theological themes that arise from the New Testament text.

Note: Admission to DMIN program.

Offered: Online

HOMI 840 Preaching and Teaching the Nature of God  
3 Credit Hours

This course offers an analytical overview regarding what the Word of God says about the God of the Word. It provides a four-fold focus: a) false views regarding the nature of God (atheism, deism, pantheism, etc.); b) philosophical arguments formulated in an attempt to ‘prove’ the existence of God (the cosmological argument, teleological argument, etc.); c) the key names of God (Elohim, Jehovah, etc.); d) the basic attributes of God (He is eternal; omnipresent; gracious, etc).

Offered: Online

HOMI 850 Preaching and Teaching the Person and Work of Christ  
3 Credit Hours

This course is a study of the person and ministry of the Lord Jesus Christ, focusing on the first four books of the New Testament. It is a comprehensive focus on Christ’s life from an analytical, biographical, chronological, visual, geographical, political and theological perspective.

Offered: Online

HOMI 860 Preaching and Teaching the Person and Work of the Holy Spirit  
3 Credit Hours

This course examines the person and work of the Holy Spirit of God. Its intent is to demonstrate from both Old and New Testaments that He is (1) a real Person, not a force or influence; and (2) that He is a divine Person, possessing all the attributes of both the Father and Son. The course of study involves a four-fold presentation which overviews His earthly ministry: a) names and titles of the Holy Spirit; b) the various ministries assigned to the Holy Spirit; c) the nature of the spiritual gifts dispensed by the Holy Spirit; and d) the fruit of the Holy Spirit.

Offered: Online

HOMI 895 Directed Research in Homiletics  
1-3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. This course should/can only be used if a student lacks a seminar for graduation and the needed seminar is not offered in their last semester. If approved, the student will work with the instructor in developing a proposal for guided research in a specific area.

Offered: Online

HOMI 897 Seminar in Homiletics  
1-3 Credit Hours

An intensive study in a specific subject of homiletics. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Online

Law (LAW)

LAW 701 Constitutional Litigation  
3 Credit Hours
LAW 705 First Amendment Law Seminar 2 Credit Hours

LAW 705 - First Amendment Law Seminar (2 hours) Prerequisites: LAW 531, 532. A study of the history and development of the First Amendment and the body of Constitutional law including the doctrines of freedom of religion, speech, press, peaceable assembly, the right to petition the government for a redress of grievances, and the balance between church and state.

Offered: Resident

LAW 711 Federal Jurisdiction 3 Credit Hours

LAW 711 - Federal Jurisdiction (3 hours) Prerequisite: LAW 531. A study of the federal judicial system. Topics include separation of powers; federalism; Congressional power to curtail federal jurisdiction; the case and controversy requirement as it relates to doctrines of standing, ripeness, and mootness; sovereign immunity; Congressional power to abrogate Eleventh Amendment immunity; Ex Parte Young doctrine; Section 1983 litigation; absolute and qualified immunity in suits against state and federal officers; and abstention doctrine. An analysis of the Constitutional and legislative foundations of the judicial power of the U.S.

Offered: Resident

LAW 715 Conflict of Laws 2 Credit Hours

LAW 715 - Conflict of Laws (2 hours) Prerequisite: LAW 531. A study of the conflicts arising in many cases that have connections with more than one state, or with a state and a foreign country, or that involve both state and federal interests. It explores the principles that courts use in selecting the proper law to apply in such cases under the American system of divided sovereignty - divided both horizontally among states and vertically between state and federal governments.

Offered: Resident

LAW 720 State Constitutional Law 2-3 Credit Hours

A study of state constitutional law, with special attention given to the texts, history, nature, and interpretation of state constitutions; state constitutions in the federal system; state bills of rights as separate guarantees of individual rights; the distribution of powers among the separate branches of government; local government; taxing, borrowing, and spending; public education and state institutions; and the processes for amending state constitutions.

Offered: Resident

LAW 721 State and Local Government 3 Credit Hours

LAW 721 - State and Local Government (3 hours) Prerequisite: LAW 531. An overview of the nature, structure, powers, and liabilities of state governments and their political subdivisions, including the interrelationships among administrative agencies and municipal, county, and state governments.

Offered: Resident

LAW 725 School Law Seminar 2 Credit Hours

LAW 725 - School Law Seminar (2 hours) Prerequisite: LAW 532. A survey of the law relating to public, private, and home education. Emphasis is placed on the legal framework for public education, the First Amendment and other Constitutional issues related to the public schools, and the nature of parental rights in the context of public education.

Offered: Resident

LAW 730 State Constitutional Law 2 Credit Hours

LAW 730 State Constitutional Law 2 Credit Hours

LAW 731 Race and the Law 2 Credit Hours

LAW 731 Race and the Law 2 Credit Hours

LAW 740 Israel Int Law & Policy 1 Credit Hour

LAW 740 - Israel and Middle Eastern International Law and Policy (1 hour) This course will cover a wide range of topics including the historical and biblical history of Israel leading up to the British Mandate (1920-1948), the Zionist Movement, and the Declaration of Independence in 1948. Students will learn about the foundation of Israel and the history of the United Nations in relationship to Israel, including the history of the land and the 1967 and 1973 conflicts. The course will overview Arab-Israeli conflicts and co-existence. Students will be exposed to the geo-political issues Israel faces with its neighbors and the rest of the world, including the conflicts between radical Islamic factions and the West with specific focus on Israel. This course is Pass/Fail.

Offered: Resident

LAW 741 International Law 3 Credit Hours

LAW 741 - International Law (3 hours) Co-requisite: LAW 531. A survey of public international law, its nature, sources, and application. Addressed are: international agreements, international organizations, states and recognition, nationality and alien rights, territorial and maritime jurisdiction, state responsibility, and international claims including expropriation and the act of state doctrine, the laws of war, and the developing law of human rights.

Offered: Resident

LAW 743 International Human Rights 3 Credit Hours

LAW 743 - International Human Rights (2 hours) Prerequisite: LAW 531. An introduction to complex legal issues in international human rights, including a discussion of the Christian and secular views of the source of individual rights, survey of selected human rights concerns, examination and analysis of international human rights treaties, the role of international and regional human rights systems, non-governmental organizations, international decisions of tribunals and human rights courts, and prevention of human rights violations. Learning method will be through research and seminar-type presentations.

Offered: Resident
LAW 745 International Business Trans 2 Credit Hours

LAW 745 - International Business Transactions (2 hours) A study of selected international legal issues affecting or regulating multinational enterprise, foreign investment, the banking system, trade in goods and services, labor matters, intellectual property, sales transactions, transportation, and trade financing.

Offered: Resident

LAW 747 Immigration Law 2 Credit Hours

LAW 747 - Immigration Law and Policy (2 hours) This course is an overview of immigration law and policy in the United States. Migration policy has long provoked controversy and has become even more contentious in the new era of homeland security since September 11, 2001. Immigration bills in Congress have been the subject of heated debates, particularly in recent years. However, to have a truly informed opinion on the subject, one must understand the history of immigration law in the United States, the statutory framework into which any new legislation must fit, and the legal process used to enforce U.S. immigration law. This course will examine federal immigration law and policy in a variety of its aspects—contemporary and historical, substantive and procedural, statutory and regulatory and constitutional—including the criteria for admission to the United States on a temporary or permanent basis, the grounds and process of deportation, the peculiar constitutional status of foreign nationals, the role of the courts in ensuring the legality of official action, and an introduction to refugee law.

Offered: Resident

LAW 755 Bioethics and the Law 3 Credit Hours

LAW 755 - Bioethics and the Law (3 hours) This course involves the study of law, policy and litigation issues relating to stem cell and cloning research, abortion, reproductive technologies such as in vitro fertilization, and euthanasia. Course material includes case study, legislative and regulatory reviews, the reports of specialized task forces and professional panels and historic analysis. The course will also review litigations and policy developments in these respective areas.

Offered: Resident

LAW 760 Public Policy Lawyering 2 Credit Hours

LAW 760 - Public Policy Lawyering Skills (2 hours) A study of selected law skills involved in the public policy arena, drawn from the following areas: drafting legislation; drafting memoranda in support of legislation; planning and creating legal structures necessary to operate election campaigns, to comply with on-going campaign finance and disclosure laws, and to dissolve campaigns; planning and operating political campaigns and lobbying organizations; and complying with disclosure requirements by organizations that involve themselves in public policy matters.

Offered: Resident

LAW 761 Public Policy Survey 2 Credit Hours

LAW 761 - Public Policy Survey (2 hours) An introduction to public policy that examines the effect of worldview on both the objects and means of creating public policy. The course will use substantive public policy, policy initiatives, bills, legislative history, case law, white papers, and public relation campaigns to provide an understanding of the various methods, tactics, and strategies used in transforming ideas into governing policy and will prepare students to analyze both the substance of public policy and the policy creation process.

Offered: Resident

LAW 765 Sexual Behavior and the Law 2 Credit Hours

LAW 765 - Sexual Behavior and the Law (2 hours) A survey of the relationship between various types of human sexual behavior and law, including employment law, education law, criminal law, family law, civil rights legislation, and the constitutional guarantees of equal protection and freedom of religion, speech, and association. The course will explore sexual behavior and notions of sexual morality through a biblical, historical, and anthropological prism and consider how the law, public policy, and culture approaches the sexual choice people make.

Offered: Resident

LAW 771 Administrative Law 3 Credit Hours

LAW 771 - Administrative Law (3 hours) Prerequisite: LAW 531. A study of the processes by which legislative and administrative policy is translated into law and applied by the responsible administrative agencies. Topics include analysis of informal and formal procedures, separation of powers, delegation, statutory construction, rule making, and adjudication.

Offered: Resident

LAW 773 Health Law Survey 3 Credit Hours

LAW 773 - Health Law Survey (3 hours) An introduction to the major health law issues including employment law, education law, criminal law, family law, civil rights legislation, and the constitutional guarantees of equal protection and freedom of religion, speech, and association. The course will explore sexual behavior and notions of sexual morality through a biblical, historical, and anthropological prism and consider how the law, public policy, and culture approaches the sexual choice people make.

Offered: Resident

LAW 774 Medical Negligence 2 Credit Hours

LAW 774 - Medical Negligence (2 credit hours)

LAW 775 Environmental Law 3 Credit Hours

LAW 775 - Environmental Law (3 hours) A survey of statutory regulations applicable to the protection of the environment. Attention is directed to the role of the EPA and other administrative agencies in the development and implementation of environmental policy.

Offered: Resident

LAW 779 Disability Law 2 Credit Hours

LAW 779 - Disability Law (2 credit hours)

LAW 781 Employment Law 3 Credit Hours

LAW 781 - Employment Law (3 hours) A survey of common law and federal and state statutes regulating the relationship between an employer and an employee. Subjects include the hiring process, termination, terms and conditions of employment, disability, unemployment, and retirement.

Offered: Resident
LAW 783 Trademark Law and Practice 2 Credit Hours

LAW 784 Corporate Compliance Survey 2 Credit Hours

LAW 785 Land Use and Zoning 3 Credit Hours

LAW 785 - Land Use and Zoning (2 hours) A selective examination of governmental regulation of the use of real estate and of the land development industry. It is fundamentally a course in applied Constitutional and administrative law. While it includes the law of nuisance, zoning, density, growth, and subdivision controls, it is a vehicle for exploring the public regulation of business behavior in general, including various strategies for deregulation.

Offered: Resident

LAW 801 Remedies 3 Credit Hours

LAW 801 - Remedies (3 hours) A study of the law of judicial remedies, both legal and equitable, focusing on the nature and scope of relief as distinguished from substantive and procedural law. The four major categories of remedies are addressed: damages, including measurement issues for both compensatory and punitive damages, and limitations on the damages remedy; restitution, including measurement issues and issues related to rescission, constructive trust, and equitable lien; injunctions, including issues relating to requirements for obtaining preliminary and permanent injunctive; and declaratory relief, including ancillary remedies to effectuate the relief obtained, and legal and equitable defenses.

Offered: Resident

LAW 802 Virginia Practice 1 Credit Hour

LAW 802 - Virginia Practice (1 hour) Prerequisite: Third year status. This course will emphasize practical and substantive issues of Virginia law that are common to everyday practice. Students will be expected to apply Virginia law to articulate answers to common legal issues that arise in Virginia practice. The course includes a writing component.

Offered: Resident

LAW 803 Virginia Civil Procedure 2 Credit Hours

LAW 803 - Virginia Civil Procedure (2 hours) Prerequisites: LAW 521 and 522. This course covers Virginia civil procedural law for both law and equitable claims, including applicable statutes, rules of court and cases interpreting the statutes and rules. Appellate procedure for both the Court of Appeals of Virginia and the Supreme Court of Virginia are covered.

Offered: Resident

LAW 804 Virginia Criminal Procedure 1 Credit Hour

LAW 804 - Virginia Criminal Procedure (1 hour) Prerequisite: LAW 535. A review of the Virginia statutes and Rules of Court governing criminal procedure in Virginia. Covers Virginia Code Title 19.2 and Rules of the Supreme Court of Virginia, Parts 1, 3A, 5 & 5A [the latter two dealing with appellate procedure for criminal cases] together with some of the cases dealing with the statutes and rules. Topics include jurisdiction, venue, pre-trial motions and procedures, competency and insanity issues, trial, sentencing and appeals. Course offered as a Winter intensive.

Offered: Resident

LAW 805 Insurance Law 3 Credit Hours

LAW 805 - Insurance Law (3 hours) A study of the regulation of the insurance business, insurable interest, the insurance contract, the interests protected by contracts of insurance, construction of policies, rights under the policies, subrogation; and processing of claims and suits for insureds, claimants, and insurers.

Offered: Resident

LAW 809 Virginia Legal Aid Survey 1 Credit Hour

LAW 810 Virginia Legal Aid Clinic I 2 Credit Hours

LAW 811 Virginia Legal Aid Clinic II 2 Credit Hours

LAW 812 Complex Litigation 2 Credit Hours

Offered: Resident

LAW 815 Law Office Management 2 Credit Hours

LAW 815 - Law Office Management (2 hours) An introduction to the establishment and management of a law office. It is designed to prepare the student for entry into the private practice of law, including ethical and personal pressures related to private law practice.

Offered: Resident

LAW 821 Mediation 2 Credit Hours

LAW 821 - Mediation (2 hours) Prerequisite: LAW 595. A course on dispute resolution, building on the foundation of Lawyering Skills V, using a mixture of lecture, discussion, role-playing, and analysis of videotape. A lawyer’s primary task is to resolve disputes. Most controversies never reach trial; rather, they are settled by agreement. The ability to negotiate and mediate effectively is crucial for all attorneys.

Offered: Resident

**LAW 825 - Advanced Trial Advocacy (3 hours)**

Prerequisites: LAW 545, 595. A course building on the foundation of Lawyering Skills V. Develops courtroom skills through simulated trials. Focus is on opening statement, direct and cross-examination, and closing argument.

**Offered:** Resident

**LAW 826 - Real Property Litigation (1 hour)**

Prerequisites: LAW 515 and 516. The course will undertake a selective examination of real estate disputes for litigation or transactional oriented future attorney-practitioners. The planning of real estate transactions is enhanced with a view toward the pitfalls of litigation in mind. An emphasis will be on the common disputes a practitioner typically handles during their career; disputes related to landlord-tenant, common interest communities, the real estate purchase-sale contract, and foreclosures.

**Offered:** Resident

**LAW 831 - Appellate Advocacy (2 hours)**

Prerequisites: LAW 525, 526. An introduction to the mechanics of appellate brief-writing and oral argument by engaging in simulated oral arguments. It is designed to develop clear and persuasive communication skills through written and oral advocacy. (NOTE: This course is offered in the fall semester and is designed for those who are interested in participating in Moot Court.)

**Offered:** Resident

**LAW 832 - Advanced Appellate Advocacy (1 hour)**

Competition in the 2L/3L Liberty Cup Moot Court Tournament. This course requires research of unique legal issues, preparation of an appellate brief, preparation of at least two oral arguments, and participation in an intercollegiate moot court tournament. Successful completion of the course will be determined by the Moot Court Faculty Advisor based on the student's preparation for the tournament and demonstrated competence in both the written and oral skills. Only two credits for LAW 832 may count toward the credits required for graduation. Course credit is pass/fail.

**Offered:** Resident

**LAW 833 - Trial Team (1 hour)**

Prerequisites: This course is for those students who try out for and are chosen to be on the Trial Team. Team members will engage in an intense study of trial strategy and preparation, direct and cross-examination, opening statements and closing arguments, pretrial motions, arguing and opposing objections, and all aspects of trial advocacy. Team members will be chosen to compete in state, regional, and national trial competitions. Only two credits for LAW 833 may count toward the credits required for graduation. Course credit is pass/fail.

**Offered:** Resident

**LAW 851 - Constitutional Litigation Clinic (2 hours)**

Prerequisites: Permission of instructor is required and availability is limited. Students will be provided a hands-on experience in Constitutional litigation representing actual clients and preparing and prosecuting a lawsuit at the trial and/or appellate level. Students share responsibility for the management of a case under supervision of a member of the faculty and licensed attorneys and staff with Liberty Counsel. Students will be expected to research, write legal arguments, and engage in critical thinking in order to prosecute a case. Coursework encompasses civil procedure, evidence, substantive law, law office management, ethics, and professional responsibility.

**Offered:** Resident

**LAW 855 - Prosecution Clinic (2 hours)**

Prerequisites: Permission from the Bedford Commonwealth Attorney and Associate Dean for Academic Affairs; and Virginia Third-Year Practice Certificate required. Students will work under the direct supervision of a faculty supervisor and the Bedford (Virginia) Commonwealth Attorney's Office and will be involved in all aspects of criminal prosecution. Students will be exposed to the role and responsibilities of a prosecutor while engaging in the hands-on experiences of a working prosecutor. Students will be encouraged to think critically about the prosecutor's role in the criminal justice system. The Clinic will also contain a classroom component where students will cover subject matter that includes: the role of the prosecutor, ethics, plea bargaining, motions and hearings, discovery and examination of witnesses. Students may conduct legal research and writing, write motions and briefs and give oral arguments.

**Offered:** Resident

**LAW 861 - Externship (2 hours)**

Prerequisites: Qualify for third year practice in Virginia; approval of the Associate Dean for Academic Affairs. Externs earn academic credit while working part time in government or nonprofit institutions. Externs work under the supervision of qualified and experienced attorneys who provide guidance and training in practical lawyering skills. Classroom component covers topics relating to the legal system, judicial process, and professionalism. Three credit hours are approved only in special circumstances.

**Note:** The normal externship is for two credit hours.

**Offered:** Resident

**LAW 862 - Criminal Law Externship (2 hours)**

Prerequisites: Qualify for third year practice in Virginia; approval of the Associate Dean for Academic Affairs. Students earn academic credit while working part time with other students in a Commonwealth's Attorney's Office in Virginia under the supervision of an attorney in that office and a Liberty law professor. Students receive guidance and training in lawyering skills, interview and prepare witnesses for trial, and appear in court. Three credit hours are approved only in special circumstances.

**Note:** The normal externship is for two credit hours.

**Offered:** Resident

Note: The normal externship is for two credit hours.
LAW 903 Advanced Legal Writing 1 Credit Hour

Offered: Resident

LAW 904 Advanced Research & Writing 2 Credit Hours

LAW 904 - Advanced Research and Writing (2 hours) Advanced Research and Writing provides advanced instruction in legal research techniques and hones the writing skills learned in LS I and II. Students will draft a variety of common, legal documents used in litigation and transactional work.

Offered: Resident

New Testament Bible Studies (NBST)

NBST 800 New Testament Backgrounds 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of the peoples, movements, and cultures surrounding the world of the New Testament. Special emphasis is placed on the impact of background material on the exposition of key segments of the New Testament. Resources from Greco-Roman and Second Temple Jewish archaeological and literary discoveries are examined with attention given to their influence on informing the interpretation of the New Testament. Historiography within the first century world is explored with an emphasis on its impact upon the Gospels and Acts.

Offered: Online

NBST 815 Gospels 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the Gospels, including a treatment of introductory issues, aspects of historiography in the first century, hermeneutical principles regarding narrative literature and the diverse literary features within the Gospels, and a functional analysis of key interpretive issues in the study of the Gospels. The course engages with current evangelical scholarship on critical issues that relate to the study of the four gospels. Special emphasis is placed on biblical theological motifs within the Gospels, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online

NBST 830 Acts/Pauline Epistles 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the Gospels, including a treatment of introductory issues, aspects of historiography in the first century, hermeneutical principles regarding narrative literature and the diverse literary features within the Gospels, and a functional analysis of key interpretive issues in the study of the Gospels. The course engages with current evangelical scholarship on critical issues that relate to the study of the four gospels. Special emphasis is placed on biblical theological motifs within the Gospels, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online

NBST 845 General Epistles/Revelation 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the General Epistles and the book of Revelation. The course provides a treatment of introductory issues, hermeneutical principles regarding epistolary and apocalyptic literature, and a functional analysis of key interpretive issues in the study of the General Epistles and Revelation. The course engages with current evangelical scholarship on critical issues that relate to the study of the General Epistles and Revelation, with attention given to the impact of theological systems on the interpretation of Revelation. Special emphasis is placed on biblical theological motifs within these books, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online

NBST 900 Intertestamental Period 3 Credit Hours

A seminar on the development of Jewish doctrine during the period between the Old and New Testaments. This seminar will focus on theological, philosophical, and political developments that set the stage for the coming of Christ in the first century. Areas of investigation could include the Dead Sea Scrolls, the Old Testament Apocrypha, or the writings commonly called Old Testament Pseudepigrapha.

NBST 910 Uses of the Old Testament in the New Testament 3 Credit Hours

NBST 935 Theology of Paul 3 Credit Hours

A seminar examining the theological themes expressed in the epistles of the Apostle Paul.

NBST 950 Special Topics in the New Testament 3 Credit Hours

An intensive study in a specific topic related to the New Testament. The emphasis in this study will be on directed reading and research in an area determined by the supervising instructor. This course allows a variation in approach and content and may be used to supplement areas already covered.

NBST 968 Current Biblical and Theological Issues 3 Credit Hours

A study of biblical and theological issues of contemporary significance. Attention will be given to the present-day representatives along with their literature and influence upon current Christianity.

NBST 995 Directed Research in New Testament Biblical Studies 3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of the New Testament.
NBS 997 Seminar in New Testament 3 Credit Hours

An intensive study in a specific subject of the New Testament. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Nursing (NURS)

NURS 700 Advanced Nursing Research 3 Credit Hours

This course applies a variety of methods used for practice improvement through synthesis of the literature. The use of these methods, such as action research, program evaluation, and quality improvement will be explored through critical analysis of each. D. in Nursing Education program Note: (BSN-DNP only)

Registration Restrictions: Admission to DNP program or Admission to the Ph.

NURS 711 Advanced Physiology/Pathophysiology 3 Credit Hours

This course provides the student with an understanding physiology and pathophysiology for advanced practice nurses. An emphasis on homeostasis, systems interactions, and pathophysiology will be the foundation for case-based learning of common diseases and conditions seen in primary care.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

Offered: Resident and Online

NURS 712 Advanced Health Assessment for Nurse Practitioners 3 Credit Hours

Prerequisites: NURS 711

This course provides the student with knowledge, skills, and attitudes to perform physical, psychosocial, and spiritual advance health assessments of clients across the life span. Emphasis is on acquisition of advanced skills and analysis of relevant data to conduct a comprehensive history including the ability to perform client-centered health assessments. The course will focus on normal vs. abnormal findings, symptom/health problem assessment, selection and interpretation of diagnostic tests, and screenings and differential diagnosis to develop a management plan. Culturally competent patient education, health promotion and clinical prevention considerations will be integrated into the provision of care of the individual and family. This course includes lecture and lab.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 713 Advanced Pharmacology for Nurse Practitioners 3 Credit Hours

Prerequisites: NURS 711 and NURS 712

This course is designed to provide clinical application of the pharmacology and pharmacotherapeutics of common conditions and diseases across the lifespan encountered by the advanced practice nurse in primary care. The role of pharmacokinetics and pharmacodynamics will be applied. Emphasis is on the development of client-centered prescriptive decisions within the context of outcomes, safety, quality and costs.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 715 Theoretical Application for Advanced Practice Nursing 3 Credit Hours

Prerequisites: Admission into the Doctor of Nursing Practice Program.

NURS 716 Applications of Evidence-Based Care 3 Credit Hours

Prerequisites: NURS 715 and NURS 700

The course is designed to support advanced practice nurses in the translation of nursing research to the use of research that will impact nursing practice. This course will serve as a touchstone for exploring the concept of Evidence Based Care (EBC). Evidence-based practice models will be examined and contrasted. Students will have the opportunity to appraise current research in their practice interests which will support students in developing improved practice guidelines, design processes to examine and disseminate findings. The course emphasizes the evaluation of research in the discipline of nursing and its application to professional practice both at the individual, family and population levels. The assimilation of knowledge, comparison to established benchmarks and research outcomes serve as a foundation to plan and develop innovations that influence quality care across practice settings and disciplines.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.
NURS 718 Informatics, Technology and Trends for Transforming Health Care  3 Credit Hours

Prerequisites: NURS 715 and (NURS 700 or Grad Rsrch Methods (NURS 500) with a score of 3)

This course explores various applications of informatics as well as current trends for health care delivery across a variety of settings. Students will analyze and evaluate information systems and patient care technology, as well as the impact on the delivery of care in all practice settings. Advanced clinical applications of technology will be emphasized with various populations including those in clinical settings, aggregate populations at risk and the community as a whole. Students will explore utilization of technology applicable to advanced practice such as: guiding evidenced-based practice, providing patient education, promoting health and wellness, improving clinical workflow, and administrative applications. The advanced role related to information systems will be examined, including working with interdisciplinary groups to select and maintain nursing information systems and serving as a credible resource for legal and ethical situations related to information technology.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

NURS 721 Leadership, Policy and Ethics  3 Credit Hours

Prerequisites: NURS 715

This course will provide a study of principles and knowledge of organizational leadership and advanced communication abilities that support an improved quality of care delivery as well as improved outcomes. Consultative and leadership approaches that facilitate collaboration are explored. The advanced practice role of nursing as it pertains to policy development, championing change, and inspiring clinical innovation are examined. National and global policy issues are highlighted, with specific attention placed on the ethical aspects of health policy development.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 722 Nursing Theory Development  3 Credit Hours

This course examines the nature of nursing knowledge and the development of its underpinnings. Various approaches to concept and/or theory development, analysis, and evaluation are examined and applied. The course explores the connections between research, theory and practice as it relates to the development of nursing knowledge.

Offered: Online

NURS 730 Family Nurse Practitioner Practicum I  2 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 733 (may be taken concurrently) and NURS 734 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This practicum course introduces the student to the nurse practitioner role in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial and spiritual care through taking health histories, conducting physical examinations, and build skills in diagnostic reasoning. Principles of clinical prevention/health promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

Registration Restrictions: Prerequisites: Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 732 Interprofessional Collaboration and Outcomes Management for Quality in Health Care  3 Credit Hours

Prerequisites: NURS 715 and NURS 716 and NURS 721 and (NURS 718

This course focuses on a collaborative approach to patient centered care. The emphasis is on the values and ethics of inter-professional practice, roles and responsibilities, interprofessional communication skills, and team work to manage outcomes and improve quality. Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 733 Women's Health  3 Credit Hours

Prerequisites: NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 716 and NURS 718 and NURS 721 and NURS 732 and NURS 730 (may be taken concurrently) and NURS 734 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on the development of knowledge and skills in clinical assessment, intervention and management of women's health in diverse populations across the lifespan. The integration of research and theory underpin clinical decision making, health promotion and clinical prevention to support holistic client-focused care.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.
NURS 734 Family Nursing I: Acute Health 3 Credit Hours

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 716 and NURS 718 and NURS 721 and NURS 732 and NURS 730 (may be taken concurrently) and NURS 733 (may be taken concurrently) and NURS 832 (may be taken concurrently)

This course focuses on the care of individuals across the lifespan and families in the primary care setting. Theory and clinical foundations of evidenced based advanced nursing practice prepare the student to manage acute health care problems common to the primary care setting. An emphasis on assessment, diagnosis and management of acute health conditions within the context of ethnic, culture and community will be promoted.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

Offered: Resident and Online

NURS 735 Infant and Children's Health 3 Credit Hours

**Prerequisites:** NURS 730 and NURS 734

This course focuses on the development of knowledge and skills in clinical assessment, intervention, and management of acute and chronic conditions seen in infants through early adulthood in primary care. The integration of research and theory underpin clinical decision making, health promotion, and clinical prevention to support holistic client/family centered care. Students will demonstrate an understanding of genetic and genomic influences on infant's and children's health, and services including client/family education.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 736 Family Nurse Practitioner Practicum II 4 Credit Hours

**Prerequisites:** NURS 730 and NURS 733 and NURS 734 and NURS 735 (may be taken concurrently) and NURS 737 (may be taken concurrently)

This practicum course builds on the skills developed in Family Nurse Practitioner Practicum I. Students will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. Students will manage episodic and follow up visits for chronic health and complex acute care issues. Under the guidance of the preceptor, the student will demonstrate evidence-based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop a plan of care to manage disease states or conditions. Students will provide physical, psychosocial, and spiritual care to the individuals and families through the integration of ethnicity, culture, and community.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 737 Family Nursing II: Chronic Health 3 Credit Hours

**Prerequisites:** NURS 730 and NURS 733 and NURS 734 and NURS 735 (may be taken concurrently) and NURS 736 (may be taken concurrently)

This course focuses on the care of individuals across the lifespan and families in the primary care setting. Theory and clinical foundations of evidenced based advanced nursing practice prepare the student to manage chronic health care problems common to the primary care setting. An emphasis on assessment, diagnosis and management of chronic health conditions within the context of ethnic, culture and community will be promoted.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

NURS 740 Family Nurse Practitioner I 1 Credit Hour

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 734 (may be taken concurrently) and NURS 735 (may be taken concurrently)

This practicum course introduces the student to nurse practitioner role in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial, and spiritual care through health history taking, conducting physical examinations, and build skills in diagnostic reasoning. Principles of health prevention/promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

**Registration Restrictions:** Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Resident

NURS 741 Family Nurse Practitioner I 1 Credit Hour

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 740 and NURS 734 (may be taken concurrently) and NURS 735 (may be taken concurrently)

This practicum course supports the student to continue in the role of nurse practitioner in the primary care setting and focuses on wellness and the delivery of acute health care across the lifespan. Students will provide physical, psychosocial, and spiritual care through health history taking, conducting physical examinations, and build skills in diagnostic reasoning. Principles of health prevention/promotion, health maintenance and risk assessment will be applied to individual and family care within the context of culture, ethnicity, and community. The student may participate in the diagnosis and plan of care with the guidance of the preceptor.

**Registration Restrictions:** Admission into the Doctorate Nursing Practice program/Family Nurse Practitioner Specialization.

Offered: Online
### NURS 742 Nursing Seminar: Issues in Global Health
**2 Credit Hours**

**Prerequisites:** NURS 735 and NURS 736 and NURS 737 and NURS 838 (may be taken concurrently)

This seminar is designed to provide students with knowledge and skills to address global health issues through assessment, interventions, planning, and evaluation to promote health at the individual/family/population level. Students will develop cultural intelligence and develop strategies to deliver culturally competent care. Care and treatment of common diseases and conditions seen in underdeveloped and developing countries will be discussed within the context of issues such as poverty, societal norms and values. The impact of globalization on the delivery of health care in the United States will also be examined.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

### NURS 743 Family Nurse Practitioner II
**2 Credit Hours**

**Prerequisites:** NURS 700 and NURS 711 and NURS 712 and NURS 713 and NURS 715 and NURS 721 and NURS 732 and NURS 740 and NURS 733 and NURS 737 (may be taken concurrently)

This practicum course builds on the skills obtained in Family Nurse Practitioner I. The student will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. The student should manage episodic and follow up visits for chronic health and complex acute care issues. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics and develop a plan of care to manage disease states or conditions under the guidance of the preceptor. The student should provide physical, psychosocial, and spiritual care to the individuals and families through the integration of ethnicity, culture, and community.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice Program/Family Nurse Practitioner Specialization.

**Offered:** Online

### NURS 744 Family Nurse Practitioner II
**2 Credit Hours**

**Prerequisites:** NURS 730 and NURS 734 and NURS 733 (may be taken concurrently) and NURS 737 (may be taken concurrently)

This practicum course continues to build on the skills obtained in NURS 743. The student will continue to develop the role of nurse practitioner in the primary care setting focusing on assessment and management of chronic and more complex acute care health problems across the lifespan. The student should manage episodic and follow up visits for chronic health and complex acute care issues. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop a plan of care to manage disease states or conditions under the guidance of the preceptor. The student should provide physical, psychosocial, and spiritual care to the individuals, and families through the integration of ethnicity, culture, and community.

**Registration Restrictions:** Admission into the Doctorate of Nursing Practice program/Family Nurse Practitioner Specialization.

**Offered:** Online

### NURS 750 Spiritual Care
**3 Credit Hours**

This course will examine the interrelatedness of spirituality and the practice of nursing. The primary orientation of the course will be that of the Christian worldview. Historical perspectives on spiritual care will be incorporated with the healing arts. Contemporary models such as parish nursing will be explored. The spiritual needs of the caregiver will be identified and support opportunities will be examined.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program.

### NURS 751 Neurobiology and Differential Diagnosis of Mental Disorders
**3 Credit Hours**

This foundational course focuses on mental disorders across the lifespan. Based on anatomy, physiology, and pathophysiology, this course examines underlying causality including injury, trauma, developmental, genetic, infection and disease including degeneration. The relationship to support homeostasis between the body and brain, and within the brain will be explored. This course also integrates the use of case-based learning to approach differential psychiatric diagnoses. Students will gain skills in interviewing, observation, and the use of and interpretation of screening, tools, behavioral assessments and diagnostic tests. Case studies will be based on the most current edition of the Diagnostic and Statistical Manual for Mental Disorders (DSM 5) and other appropriate diagnostic tools and methods.

**Registration Restrictions:** Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

**Offered:** Resident and Online

### NURS 752 Clinical Psychopharmacology
**2 Credit Hours**

**Prerequisites:** NURS 751 (may be taken concurrently)

This course provides a case-based approach to utilizing best practices and principles for using psychopharmacology to treat mental illness and disorders across the lifespan. The course examines neuropharmacological mechanisms, pharmacodynamics, and drug interactions of commonly used psychotropic drugs. Emphasis is on the development of client-centered prescriptive decisions within the context of outcomes, safety, quality, and costs.

**Registration Restrictions:** Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

**Offered:** Online
NURS 753 Psychotherapeutic Theories, Frameworks, and Modalities 3 Credit Hours

Prerequisites: NURS 752 (may be taken concurrently)

This course provides an overview of theories, frameworks, modalities and best practices related to psychotherapeutic treatments and management of mental health disorders across the lifespan. The integration of the application of evidence-based psychotherapies and psychotherapeutic case formulation, treatment for the management of disorders, symptoms and issues. Cognitive Behavioral Therapy and Motivational Interviewing will be integrated through a case-based learning experience.

Registration Restrictions: Enrollment in the Post MSN DNP PMHNP program or Post Graduate PMHNP Certificate program.

Offered: Online

NURS 754 Psychiatric Mental Health Nurse Practitioner Practicum I Adult/Gero 4 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753

This practicum course provides extensive experience to prepare the student for the professional role of a psychiatric mental health nurse practitioner. Students will provide interviewing, screening, diagnostic testing, episodic, acute and chronic care to adult and geriatric clients. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret screening/diagnostics tests, prescribe therapeutics, and develop health prevention/promotion and health maintenance plans. Students should be able to assess adults and geriatric clients and develop a plan of care in consultation with the preceptor. The student should provide holistic care through the integration of ethnicity, culture and community.

Offered: Resident and Online

NURS 755 Psychiatric Mental Health Nurse Practitioner Practicum II Pediatrics/Family 5 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753 and NURS 754

This practicum course provides extensive experience to prepare the student for the professional role of a psychiatric mental health nurse practitioner. Students will provide interviewing, screening, diagnostic testing, episodic, acute, and chronic care to pediatrics, clients and families. The student should demonstrate evidence based practice behaviors and adhere to standards of care to order and interpret screening/diagnostic tests, prescribe therapeutics, and develop health prevention/promotion and health maintenance plans. Students should be able to assess the pediatric client, and families and develop a plan of care in consultation with the preceptor. The student should provide holistic care through the integration of ethnicity, culture and community.

Offered: Resident and Online

NURS 754 Learning Theories and Teaching Methods for Nurse Educators 3 Credit Hours

This course provides an overview of major research based theories of adult learning and knowledge development. Application of theory to the planning and execution of various phases of curriculum across a variety of educational settings is explored. Students will engage in self-reflection to improve teaching practices through strategies such as use of personal attributes, demonstrating enthusiasm for nursing and the teaching-learning process, use of technology, and respect for the learner. Individual learning styles and unique needs of students will be explored, including international, adult, multicultural, educationally disadvantaged, physically challenged, at-risk, and second degree learners. Students will be encouraged to develop an individual teaching style utilizing research based theory and engage in continuous self-evaluation as life-long learners.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

Offered: Online

NURS 756 Advanced Evaluation Strategies for Nurse Educators 3 Credit Hours

Prerequisites: NURS 764 and NURS 765

This course provides an overview of theories on educational measurement and evaluation. Methods of evaluating teaching effectiveness, student learning, and student performance are explored with emphasis on test construction and analysis.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

Offered: Online
NURS 784 Assessment and Accreditation for Nursing Programs  
3 Credit Hours

This course examines the process of curriculum design and development from the perspective of faculty and administration. Curricula are analyzed from the context of program evaluation and accreditation standards. Various instructional design models are applied to nursing courses.

Offered: Online

NURS 815 Quantitative Methods of Research  
3 Credit Hours

Prerequisites: EDUC 812

This course is designed for those planning to write a dissertation. An examination of quantitative designs for Nursing research topics will be considered. These are: Developing a research problem, Reviewing the Literature, The Hypothesis, Descriptive Statistics, Sampling and Inferential Statistics, Tools of Research, Validity and Reliability, Experimental Research Designs, Ex Post Facto Research, Correlational Research, Survey Research, Guidelines for Writing a Quantitative Research Proposal, and Interpreting and Reporting Results of Quantitative Research.

Offered: Online

NURS 817 Qualitative Methods of Research  
3 Credit Hours

Prerequisites: EDUC 812

This course examines qualitative methods used in educational research, focusing primarily on participant-observation, asking questions, writing field notes, and on the transformation of these primary field data into written ethnographic documents.

Offered: Online

NURS 820 Comprehensive Exam  
0 Credit Hours

Prerequisites: NURS 721 and NURS 716 and NURS 834 and NURS 718 and NURS 836 and NURS 832 and NURS 732 and NURS 731

The comprehensive exam must be completed successfully prior to enrollment in NURS 839. The exam will be administered during NURS 820, a non-credit course designed to administer the comprehensive exam. Exams are administered during the fall, spring, and summer semesters. Students may repeat the exam once for a total of two attempts at passing the comprehensive exam. Students not passing the exam on the second attempt will be dismissed from the program. Registration Restrictions: Admission into the Doctor of Nursing Practice Program; must have completed all coursework except practicum (excludes optional educator courses)

NURS 821 Comprehensive Exam: Psychiatric Mental Health Nurse Practitioner  
0 Credit Hours

Prerequisites: NURS 751 and NURS 752 and NURS 753 and NURS 754 and NURS 755

NURS 821 is a comprehensive exam designed to demonstrate competencies for the Psychiatric Mental Health Nurse Practitioner students.

Offered: Resident and Online

NURS 832 Clinical Prevention and Biostatistics  
3 Credit Hours

Prerequisites: NURS 715 and NURS 716 and NURS 718 and NURS 721 and Grad Biostatistics with a score of 3

This course provides an overview of epidemiologic principles and biostatistical methods for evaluation and implementation of evidence based changes in clinical practice to enhance the quality of care and to predict and analyze outcomes. Students will apply descriptive and inferential statistics to examine aggregate data. Health data will be disseminated to further enhance global clinical prevention efforts.

Registration Restrictions: Admission into the Doctorate of Nursing Practice Program.

Offered: Online

NURS 833 Higher Educational Leadership  
3 Credit Hours

This course examines a various topic relevant to nursing leaders in higher education. Leadership demands specific to higher education are examined. The structure and function of college and university settings are explored. Current issues that affect higher education are discussed.

Offered: Online

NURS 834 Health Care Operations and Financial Management  
3 Credit Hours

Prerequisites: NURS 832

This course will examine the constructs of health care operations and students will apply these for the purposes of strengthening the advanced nurses’ practice effectiveness in organizational collaboration and leadership. Students will demonstrate conceptual ability and skills to evaluate and monitor outcomes through data extrapolation. Students will examine the principles of public and private financing as they apply. Problem-based activities will assist the student in developing a working knowledge of subsidization, vulnerable populations, and the impact of global health system shocks.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program.

NURS 835 Theories of Nursing  
3 Credit Hours

This course explores the scholarly development of the discipline of nursing. The historical, educational, contemporary, scientific, and professional influences of theoretical knowledge in nursing are explored. The conceptual basis of various nurse theorist are analyzed. This course prepares students to select an appropriate theoretical framework for use in their dissertation.

Offered: Online
NURS 836 Translational Research in Health Care  
3 Credit Hours

**Prerequisites:** NURS 715 and NURS 716 and NURS 718 and NURS 832

This course is designed to support an understanding of concepts in knowledge translation (KT), methods, and models for evaluation of research, and findings to translate knowledge into best practice protocols. A translational model is used to support knowledge translation from scholarly evidence that will influence outcomes. The steps in the research process are examined to support a comprehensive plan in preparation for the scholarly project. The content includes the development of a research question, identifying an appropriate sample, identifying appropriate strategies for data collection and analysis, and emphasizing the importance of the protection of human subjects. The course provides the students with a foundation for developing a scholarly proposal.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program.

NURS 837 Grant Writing and Publication  
3 Credit Hours

This course is designed to provide writing experiences which prepare the learner for manuscript and grant proposal submissions. This introductory experience into the grant process from proposal to funding to management will include project management, funding sources, and funding challenges. Other course requirements include a research proposal (manuscript) that is ready for submission for publication and development of a dissertation proposal.

**Offered:** Online

NURS 838 Family Nurse Practitioner Practicum III  
5 Credit Hours

**Prerequisites:** NURS 736

This practicum course provides extensive experience to prepare the student to enter the professional role of a family nurse practitioner. Students will provide wellness exams, episodic, acute, and chronic care to individuals across the lifespan. The student will demonstrate evidence-based practice behaviors and adhere to standards of care to order and interpret diagnostic tests, prescribe therapeutics, and develop clinical prevention/health promotion and health maintenance plans. Students will be able to assess individuals and/or families and develop a plan of care in consultation with the preceptor. The student will provide physical, psychosocial, and spiritual care to individuals and families through the integration of ethnicity, culture, and community.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program.

NURS 839 Proposal Development  
2 Credit Hours

**Prerequisites:** NURS 716 and NURS 832 and NURS 836 and (NURS 700 or Grad Rsrch Methods (NURS 500) with a score of 3)

This course is designed to apply the knowledge and skills developed in previous research and related coursework and apply them to the Scholarly Project process. Students will be required to apply scholarly writing skills and an understanding of expectations of the scholarly project to develop a scholarly proposal. Students will be guided through the development of a Scholarly Project proposal and must successfully defend the proposal at the end of the course. At the completion of this course, CITI training and all Scholarly Project tutorials must be completed.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 840 DNP Practicum I  
2 Credit Hours

**Prerequisites:** NURS 839

This course provides the student an opportunity to develop in the role as a systems leader at the micro level under the supervision of a preceptor, guided by a faculty member. Students will execute their practicum at a pre-approved site. Students will establish individualized practicum goals and objectives that create a framework for the experience. A learning contract will result between students and preceptor(s), and must receive faculty approval prior to accrual of practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will begin their Scholarly Project concurrently with this course. The student will utilize the Scholarly Project Portal, faculty and other supporting infrastructure to initiate development of the Scholarly Project. Students must generate and successfully present/defend a Scholarly Proposal concurrently with this course under the guidance of their project Chair/committee

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 841 DNP Practicum II  
2 Credit Hours

**Prerequisites:** NURS 840

This course provides students an opportunity to engage more deeply in the role as a systems leader at micro level under the supervision of a preceptor, guided by a faculty member. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students’ starting practicum hours, course faculty must approve practicum activities that support achievement of goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course.

**Registration Restrictions:** Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.
NURS 842 DNP Practicum III  
2 Credit Hours

Prerequisites: NURS 841

This course provides the student an opportunity to engage in the role as a systems leader at the meso level. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to further their scholarly project concurrently with this course. Students must submit a complete first draft of the Scholarly project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 843 DNP Practicum IV  
2 Credit Hours

Prerequisites: NURS 842

This course provides the student an opportunity to fully integrate into the role of the advanced practice nurse at the macro level. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Prior to students' starting practicum hours, course faculty must approve of practicum activities that support achievement goals and objectives. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will utilize the Scholarly Project Handbook, faculty and other supportive infrastructure to complete their Scholarly project concurrently with this course. Students must successfully defend the final Scholarly project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 844 DNP Practicum V  
4 Credit Hours

Prerequisites: NURS 843

This course provides the student an opportunity to lead macro systems change based on dissemination of evidence based practice findings at the highest level of advanced practice nursing. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will disseminate findings and finalize work on the Scholarly project culminating in a publishable manuscript. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to complete their Scholarly project concurrently with this course. Students must successfully defend the final Scholarly project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 844 DNP Practicum V  
4 Credit Hours

Prerequisites: NURS 843

This course provides the student an opportunity to lead macro systems change based on dissemination of evidence based practice findings at the highest level of advanced practice nursing. Students will execute their practicum at a pre-approved site where theories and concepts of health care administration, leadership and clinical practice can be applied. Progression toward attainment of the individualized practicum goals and objectives will continue, aided by preceptor and faculty guidance. Approval of practicum activities that support achievement goals and objectives must be obtained by the faculty prior to starting practicum hours. Students must complete all pre-practicum requirements including practicum/health clearances prior to enrollment in this course. Students will disseminate findings and finalize work on the Scholarly project culminating in a publishable manuscript. Students will utilize the Scholarly Handbook, faculty and other supportive infrastructure to complete their Scholarly project concurrently with this course. Students must successfully defend the final Scholarly project under the guidance of their project Chair/committee.

Registration Restrictions: Admission into the Doctor of Nursing Practice Program or Doctor of Nursing Practice Program Family Nurse Practitioner Specialization.

NURS 915 Advanced Quantitative Methods of Nursing Research  
3 Credit Hours

Prerequisites: NURS 815

This course addresses the skills and knowledge necessary for completion of a quantitative dissertation, including research design, analysis, and associated statistical procedures. This course also addresses sampling, assumptions, data interpretation, validity, reliability, and instrumentation.

Offered: Online

NURS 917 Advanced Qualitative Methods of Nursing Research  
3 Credit Hours

Prerequisites: NURS 817

This course addresses the skills and knowledge necessary for completion of a qualitative dissertation, including research design, data analysis and representation, methods for increasing trustworthiness, and ethical considerations in research with human subjects.

Offered: Online
Old Testament Bible Studies (OBST)

NURS 980 Nursing Comprehensive Exam 0 Credit Hours

Prerequisites: NURS 700 and NURS 721 and NURS 722 and NURS 835 and EDUC 703 and NURS 764 and NURS 765 and NURS 766 and NURS 784 and NURS 833 and EDUC 812 and NURS 815 and NURS 817 and NURS 837 and (NURS 915 or NURS 917)

A comprehensive examination must be taken no earlier than completion of the course requirements for the program of study. The comprehensive examinations must be successfully completed prior to submission to the dissertation planning.

Registration Restrictions: Completion of all PhD in Nursing: Concentration in Nursing Education coursework prior to dissertation courses.

Offered: Online

NURS 987 Dissertation Planning 5 Credit Hours

Prerequisites: NURS 980

This course is the initial step for students and faculty to actualize the student’s research project. It provides a focused study of the problem, purpose, significance, theoretical framework, biblical integration, and important literature relevant to the proposed project. Students will prepare and defend their doctoral dissertation proposal during this course.

Offered: Online

NURS 988 Dissertation I 5 Credit Hours

This course is the second step for students and faculty to actualize the student’s dissertation. Students will also progress through the IRB process and begin to conduct their research.

Offered: Online

NURS 989 Dissertation II 5 Credit Hours

During this course students will conduct their analysis, present their findings, comments, and recommendations, and prepare for final defense of their dissertation.

Offered: Online

NURS 990 Dissertation Defense 0 Credit Hours

Prerequisites: NURS 989

This course is the last step in the dissertation process. Students will defend their dissertation and finalize their dissertation manuscript for publication.

Registration Restrictions: Dissertation Chair Approval.

Offered: Online

Old Testament Bible Studies (OBST)

OBST 800 Old Testament Backgrounds 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of the peoples, movements, and cultures surrounding the world of the Old Testament. Special emphasis is placed on the impact of background material on the exposition of key segments of the Old Testament. Resources from ancient Near Eastern archaeological and literary discoveries are examined with attention given to their influence on informing the interpretation of the Old Testament. Historiography within the ancient world is explored with an emphasis on its impact upon Old Testament texts.

Offered: Resident and Online

OBST 815 Law 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the Pentateuch, including a treatment of introductory issues, hermeneutical principles regarding the narrative and legal genres, and a functional analysis of key interpretive issues in the study of Genesis through Deuteronomy. The course engages with current evangelical scholarship on critical issues that relate to the study of the Pentateuch. Special emphasis is placed on biblical theological motifs within the Pentateuch, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online

OBST 830 Prophets I 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the Former Prophets, which include the books of Joshua, Judges, Samuel, and Kings. The course provides a treatment of introductory issues, aspects of historiography in the ancient Near East, hermeneutical principles regarding narrative literature, and a functional analysis of key interpretive issues in the study of Joshua through Kings. The course engages with current evangelical scholarship on critical issues that relate to the study of the historical books of the Old Testament. Special emphasis is placed on biblical theological motifs within the Former Prophets, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online
OBST 845 Prophets II 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the Latter Prophets, including a treatment of the historical framework of the 8th – 5th centuries B.C. The course addresses the rhetorical strategies of the writing prophets along with the hermeneutics involved in the study of prophetic genre and sub-genre. A functional analysis is provided for key interpretive issues in the study of the Jeremiah, Ezekiel, Isaiah, and the Book of the Twelve. The course engages with current evangelical scholarship on critical issues that relate to the study of the writing prophets. Special emphasis is placed on biblical theological motifs within the prophetic corpus, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online

OBST 860 Writings 3 Credit Hours

Prerequisites: BIBL 700 and BIBL 715

A study of select portions of the Old Testament Writings, including the Psalter, wisdom literature, Daniel, Lamentations, and the narratives of Ruth, Esther, Ezra-Nehemiah, and Chronicles. The course includes a treatment of diverse introductory issues and the hermeneutical principles associated with the Psalter and wisdom literature. The course engages with current evangelical scholarship on critical issues that relate to the study of the Writings. Special emphasis is placed on biblical theological motifs within the diverse books that comprise the Writings, and expositional strategies to integrate standard exegesis with biblical theological awareness.

Offered: Online

OBST 900 Intertestamental Period 3 Credit Hours

A seminar on the development of Jewish doctrine during the period between the Old and New Testaments. This seminar will focus on theological, philosophical, and political developments that set the stage for the coming of Christ in the first century. Areas of investigation could include the Dead Sea Scrolls, the Old Testament Apocrypha, or the writings commonly called Old Testament Pseudepigrapha.

OBST 910 Uses of the Old Testament in the New Testament 3 Credit Hours

OBST 922 The Theology of the Torah 3 Credit Hours

A seminar examining the theological themes expressed in the Pentateuch and how these themes are developed in the larger canon of Christian Scripture.

OBST 933 Isaiah 3 Credit Hours

OBST 935 Daniel 3 Credit Hours

OBST 938 Daniel 3 Credit Hours

OBST 950 Special Topics in the Old Testament 3 Credit Hours

An intensive study in a specific topic of interest related to the Old Testament. The emphasis in this study will be on directed reading and research in the designated topic.

OBST 995 Directed Research in Old Testament Biblical Studies 3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of Old Testament.

OBST 997 Seminar in Old Testament 3 Credit Hours

An intensive study in a specific subject of the Old Testament. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Old Testament Cognate Language (OTCL)

OTCL 997 Seminar in Old Testament Language 3 Credit Hours

An intensive study in a distinctive language related to the Hebrew Old Testament. This course will vary considerably in approach and course content.

Pastoral Counseling (PACO)

PACO 821 Ethics and Issues in Pastoral Counseling 3 Credit Hours

An in-depth examination of ethical and legal issues encountered by community counselors, including ethical principles, professional codes of conduct, identifying and resolving ethical dilemmas, ethical decision-making models, and laws governing the profession.

Offered: Online

PACO 825 Growth & Development of the Contemporary Minister 3 Credit Hours

An in-depth look at the person in ministry. Extensive testing will form the foundation for this course and the results of the testing will be used to develop a growth profile for the individual student.

Registration Restrictions: Admission to DMIN program.

Offered: Online
PACO 826 Growth and Development of the Pastoral Counselor  
3 Credit Hours
An in-depth look at the person in ministry. Extensive testing will form the foundation for this course and students will use the results to develop a growth profile.
Offered: Online

PACO 830 Individual & Family Issues in Pastoral Counseling  
3 Credit Hours
Prerequisites: DMIN 810
This course is designed to provide an in-depth study of the commonly addressed issues encountered in pastoral counseling. This study will include topical discussions of individual and family issues including the more common mental health disorders and familial issues such as family composition, childbirth, parenting, and other pertinent topics throughout the lifespan.
Registration Restrictions: Admission to DMIN program.
Offered: Online

PACO 835 Premarital & Marital Issues in Pastoral Counseling  
3 Credit Hours
Prerequisites: DMIN 810
This course provides an in-depth study of premarital counseling as well as marital distress and dissolution, marriage theory, intervention strategies, and factors central to marital renewal, stability, growth, and health.
Registration Restrictions: Admission to DMIN program.
Offered: Online

PACO 840 Crises and Current Issues in Pastoral Counseling  
3 Credit Hours
Prerequisites: DMIN 810
This course provides an in-depth study of the onset, duration, and appropriate interventions for various crises encountered in pastoral counseling. This study will include topical discussions of crises including natural and manmade disasters, trauma, suicidal ideations, and familial crises.
Registration Restrictions: Admission to DMIN program.
Offered: Online

PACO 897 Seminar in Pastoral Counseling  
3 Credit Hours
An intensive study in a specific subject of pastoral counseling. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.
Offered: Online

PACO 889 Dissertation  
3 Credit Hours
Preparation for research and writing of the Dissertation.

PACO 890 Dissertation Defense  
3 Credit Hours

PACO 995 Directed Research in Philosophy  
3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of philosophy.

PHIL 997 Seminar in Philosophy  
3 Credit Hours
An intensive study in a specific subject of philosophy. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

PSYC 700 Foundations of Doctoral Study in Psychology  
3 Credit Hours
This course introduces students to doctoral education in Psychology and the requirements for a Ph.D. in Psychology. Critical thinking skills, scholarly writing, empirical research, and ethics are discussed to equip students for success in doctoral education.
Offered: Online

PSYC 710 Psychological Research & Biblical Worldview  
3 Credit Hours
Exploration of the purpose of empirical research with a review of the philosophies of empiricism and rationalism in comparison to the Biblical worldview. How a Biblical worldview is compatible with empirical research in Psychology and the exploration of truth is examined.
Offered: Resident and Online

PSYC 712 Theories and Research in Social Psychology  
3 Credit Hours
Critical examination of current theory and research in social psychology. Focus on theories of attribution, social perception, attitude formation/change, social relationships, prosocial behavior, aggression, social influence.
Offered: Online
PSYC 716 Theories & Research I/O Psyc 3 Credit Hours
Critical examination of current theory and research in industrial/organizational psychology. Focus on organizational development, workplace attitudes, research on personnel and management, as well as key theories in industrial/organizational psychology.

PSYC 725 Theories and Research in Developmental Psychology 3 Credit Hours
Critical examination of current theory and research in developmental psychology. Focus on physical, cognitive, emotional, and social development across the lifespan.

Offered: Online

PSYC 750 Biological Bases of Behavior 3 Credit Hours
Advanced exploration of the anatomical structures and physiological processes that determine behavior. Focus on the structure and function of the vertebrate nervous system, the cellular basis of neuronal activities, the neural control of movement, the acquisition and processing of sensory information, and the biological bases of motivated behaviors and higher-order mental processes.

Offered: Online

PSYC 775 Teaching of Psychology 3 Credit Hours
This course provides students with an overview of the theoretical background and practical skills needed to effectively teach the subject of psychology at the college level. Topics in the course include course preparation, strategies to facilitate learning, successful teacher-student rapport, and exploration of personal teaching style/philosophy.

Offered: Online

PSYC 810 Advanced Research: Qualitative Research & Analysis 3 Credit Hours
Prerequisites: PSYC 510 and PSYC 515
The value of qualitative research in understanding human behavior is examined with an emphasis on various qualitative methodologies and their theoretical foundations. Phenomenology, grounded theory, and case study are discussed.

Offered: Online

PSYC 812 Social Cognitive Development 3 Credit Hours
This course will explore and evaluate theories and empirical findings on the development of social cognition, a form of cognition. Students will engage knowledge of cognitive development and social development as we examine how research explains the role cognitive processes play in social interactions. Emphasis on the "social" aspects of social cognition will guide our focus on cognition in relation to the self, others, how we interpret feelings and emotions, and mental processes that influence perception and judgments within social groups.

Offered: Online

PSYC 815 Advanced Research: Quantitative Research & Analysis 3 Credit Hours
Prerequisites: PSYC 510 and PSYC 515
The value of quantitative research in understanding human behavior is examined with an emphasis on various advanced quantitative methodologies and their theoretical foundations. The course builds on students' understanding of basic inferential theory and linear regression and familiarizes them with new statistical techniques and advanced quantitative methods.

Offered: Online

PSYC 825 Contemporary Topics in Developmental Psychology 3 Credit Hours
Prerequisites: PSYC 725
Exploration of contemporary topics in developmental psychology across the lifespan. Empirical research, current trends, and a special focus on ongoing research in the field will be highlighted.

Offered: Resident and Online

PSYC 826 Contemporary Topics in Industrial/Organizational Psychology 3 Credit Hours
Prerequisites: PSYC 716
Exploration of contemporary topics in Industrial/Organizational psychology. Empirical research, current trends, and a special focus on ongoing research in the field will be highlighted.

Offered: Resident and Online

PSYC 827 Contemporary Topics in Social Psychology 3 Credit Hours
Prerequisites: PSYC 712
Exploration of contemporary topics in social psychology. Empirical research, current trends, and a special focus on ongoing research in the field will be highlighted.

Offered: Resident and Online

PSYC 830 Child and Adolescent Development in the Digital Age 3 Credit Hours
Prerequisites: PSYC 725
Examination of current research on child and adolescent development in the context of the digital age. Appraisal of empirical literature relating to the impact of contemporary technological innovations on physical, cognitive, emotional, social, and spiritual development of children and adolescents. Investigation of the complex interactions among development, media and technology, and recent sociocultural change. Exploration of the effects of sociocultural change on development.

Offered: Online
PSYC 831 Advanced Child and Adolescent Development 3 Credit Hours
Advanced study of the unique physical, social, psychological and cognitive development of children and adolescents. Developmental theories and research aimed at understanding the unique needs and stages in childhood and adolescence will be examined.
Offered: Online

PSYC 832 Language and Cognitive Development 3 Credit Hours
Prerequisites: PSYC 725
Examination of how children’s thinking and language develop from infancy through the lifespan. Major theories and explanations for intellectual growth will be examined with application to real-world issues that pertain to children’s cognitive and language development.
Offered: Online

PSYC 833 Moral Development 3 Credit Hours
Prerequisites: PSYC 725
Advanced study of moral development across the lifespan. Examination of themes and current research in physical, mental, emotional, and social domains pertinent to moral development. Special consideration given to varying social and cultural contexts.
Offered: Online

PSYC 845 Measurement & Testing in I/O Psychology 3 Credit Hours
Prerequisites: PSYC 545
In this course, students will review and apply methodologies to assess the measurement qualities of tests pertinent to organizations. Specifically, students will demonstrate their ability to critique and improve existing measures using data with the goal of bolstering the validity arguments of the test scores. Students will learn to make data-driven decisions from classical and advanced measurement techniques that are readily used by the I/O psychologists of today.
Offered: Online

PSYC 850 Workplace Attitudes, Measurement, & Change 3 Credit Hours
Prerequisites: PSYC 716
Working in or with organizations requires an in-depth understanding of job attitudes. This class will approach the measurement and assessment of workplace attitudes from both a research and practical perspective. This course will review the major theories of job attitudes, as well as their antecedents, correlates, and consequences. Students will review research on attitudes such as job satisfaction, organizational commitment, engagement and both organizational & counterproductive behaviors. They will then use this research to create their own applied attitude survey research project.
Offered: Online

PSYC 855 Psychology of Contemporary & Virtual Organizations 3 Credit Hours
Prerequisites: PSYC 716
In this course, students explore current research and theory related to the emergence of contemporary virtual organizations in the 21st century. The dimensions of virtual work, as well as evaluation of managerial and individual challenges facing virtual organizations is examined. Focus is given to effectiveness, communication, technology changes, and functionality in the work setting.
Offered: Online

PSYC 860 Attitudes, Measurement, and Change 3 Credit Hours
Prerequisites: PSYC 712
This course examines theory, research, and application in attitudes and change. Through use of evidence-based psychological measurements, research regarding the growing field of implicit attitudes, with the more traditional study of persuasion will be addressed. Additionally, new research on the effects of attitude and change, as is understood within the concept of humanity’s information processing and behavior will be explored.
Offered: Online

PSYC 865 Survey Research Methods 3 Credit Hours
Prerequisites: PSYC 510 and PSYC 515
In this course, students are provided with the opportunity to develop a comprehensive understanding of the process of survey research methods, including research design and the construction, implementation, analysis, and validation of survey instruments. Focus is given to critical analysis of survey-based research in both academic and non-academic settings. Additional emphasis is placed on development of practical and technical skills involved in designing high-quality surveys and analyzing and interpreting survey data.
Offered: Online

PADM 708 Studies in Urban Planning and State and Local Government  
3 Credit Hours

**Prerequisites:** PADM 700

Students will be challenged to investigate key issues and best practices related to urban planning and challenges of local government administration. This course will provide a synthesis of these topics with a Biblical perspective on ethics and statesmanship.

**Offered:** Online

PADM 710 Information Management in Public Sector Organizations  
3 Credit Hours

**Prerequisites:** PADM 700

This course examines the major trends in information management (IM) and the challenges associated with IM best practices within the public sector. Students will research key IM issues and make appropriate recommendations related to the effective practice of public administration and leadership.

**Offered:** Online

PADM 712 Organizational Leadership and Behavior in Public Administration  
3 Credit Hours

**Prerequisites:** PADM 700

This course examines key organizational leadership and behavior best practices within the public administration context. These best practices will be examined from a Biblical perspective on ethics and statesmanship.

**Offered:** Online

PADM 810 Quantitative Methods for Public Administration  
3 Credit Hours

**Prerequisites:** PADM 700

The purpose of this course is to present an examination of quantitative methods and designs that are used in the public sector. Areas of focus include measurement, sampling, and design issues in generating and testing research questions and hypotheses. Quasi-experimental and non-experimental designs will be used including survey research to assess public input on government service quality and applied to practice and policy issues. IBM SPSS software will be used to analyze government datasets using descriptive and inferential statistics including correlations, cross-tabulations, t-tests, ANOVA, and regression.

**Offered:** Online

PADM 812 Qualitative Methods for Public Administration  
3 Credit Hours

**Prerequisites:** PADM 810

The purpose of this course is to introduce the field of qualitative research and preparation for public administration doctoral students. This course addresses how to apply advanced, qualitative research principles, and data collection and analysis methods. Ethnography, phenomenology, grounded theory, and case study designs will be applied. Interviewing techniques, focus groups, field work, open-ended surveys, and observations will be discussed. Qualitative analyses include manual coding and developing themes.

**Offered:** Online

PADM 885 Comprehensive Exam and Research Concept  
3 Credit Hours

**Prerequisites:** PADM 812

This course will focus on students completing a comprehensive exam, preparing a concept paper, and preparing for their dissertation.

**Offered:** Online

PADM 987 Dissertation I  
5 Credit Hours

**Prerequisites:** PADM 885

This course is the first step for DPA doctoral candidates in the process of developing and completing their research study and dissertation. Doctoral candidates will develop Section 1, which includes the Foundation of the Study, to include a detailed Literature Review relevant to the proposed research study.

**Offered:** Online

PADM 988 Dissertation II  
5 Credit Hours

**Prerequisites:** PADM 987

This course is the second step for DPA doctoral candidates to develop and complete their dissertation. Doctoral candidates will develop Section 2, which includes their methodology for conducting the study, and combine it with Section 1 into a single document. Candidates will also complete and submit their IRB package to complete their proposal defense.

**Offered:** Online

PADM 989 Dissertation III  
5 Credit Hours

**Prerequisites:** PADM 988

This course is the final step in developing the dissertation manuscript. Doctoral candidates will conduct their field study, analyze their data, and present their findings and develop Section 3 of their dissertation. Candidates will combine all three sections into their completed dissertation manuscript in preparation for their dissertation defense.

**Offered:** Online
### Public Policy (PLCY)

#### PADM 990 Dissertation IV

**Prerequisites:** PADM 989

This course is the last step in the DPA program. Doctoral candidates will defend their dissertation and finalize their dissertation manuscript for publication.

**Offered:** Online

#### PLCY 700 Foundations of Statesmanship and Public Policy

**3 Credit Hours**

This course introduces the students to the concept of statesmanship and various models for policy analysis. Students will be introduced to the various contexts in which policy formation and implementation occur. Students will be challenged to view policy from Biblical, constitutional, and political lenses in order to understand a comprehensive approach to policy development and implementation.

**Offered:** Online

#### PLCY 701 Natural Law, The State & The Gospel

**3 Credit Hours**

**Prerequisites:** PLCY 700

The student is introduced to Biblical principles of government and statesmanship in this course, both in terms of key governmental processes and structures, as well as practices related to statesmanship and statecraft. Concepts such as natural law, inalienable rights, covenant, sphere sovereignty, justice, and church-state relations are incorporated into course content with a particular emphasis on policy implications.

**Offered:** Online

#### PLCY 702 The Founding Era and Constitution

**3 Credit Hours**

**Prerequisites:** PLCY 700

The course explores the key actors, events and content of the American Founding period and provides an application of Biblical principles of statesmanship as discussed in PLCY 701. Special emphasis is placed on the religious, social economic and philosophical influences on U.S. constitutional design as well as significant crises and inconsistencies between ideals and practice. Study will span the formative period from the granting of colonial charters to the ratification of the U.S. Constitution and Bill of Rights and the early years of the republic. A combination of historical textbook(s), scholarly journals articles and primary documents will be examined.

**Offered:** Online

#### PLCY 703 Contemporary Challenges to Constitutional Order and the Role of the State

**3 Credit Hours**

**Prerequisites:** PLCY 700

The student is introduced to the contemporary challenges facing America, the prevailing Western legal tradition, and a Biblical model of statesmanship, particularly as these challenges have influenced policy formation. Such challenges include modern reinterpretations of American constitutionalism and the shifting relationship of the State to the individual and other spheres in society.

**Offered:** Online

#### PLCY 704 Economics and Public Policy

**3 Credit Hours**

**Prerequisites:** PLCY 700

This course covers the application of a Biblical model of statesmanship and statecraft to economic and fiscal policy. Students will compare and contrast various approaches to economic policy with specific attention to key legislation and policies enacted at the federal level.

**Offered:** Online

#### PLCY 707 Statesmanship and National Security

**3 Credit Hours**

**Prerequisites:** PLCY 700

Statesmanship and National Security covers the role of leaders tasked with protecting nation. Foreign policy concerns, Constitutional parameters, and tools for decision-making from a biblical perspective will be discussed. These elements will be discussed in a fluid fashion approximating a 'think-tank' environment, engaging technology to access real time information while also examining the results of decision structures of the past.

**Offered:** Online

#### PLCY 708 Competing Visions of Statesmanship

**3 Credit Hours**

**Prerequisites:** PLCY 700

This course covers the changing political landscape as impacted by competing political ideologies and worldviews. Students will be introduced to the history of worldview ideas, particularly as related to the modern public policy arena. A Biblical model of statesmanship and statecraft will be applied to these discussions.

**Offered:** Online

PLCY 851 Research Seminar in Social Policy 3 Credit Hours

**Prerequisites:** PLCY 850

In the second course of the chosen policy cognate, students will continue what may be an open-ended exploration into their policy studies. Students will identify and discuss the major debates and issues in their cognate. Students will also submit a dissertation research question for review and discussion. Finally, students will conduct an extensive literature review of their chosen dissertation topic. Students will work with faculty to ensure that their literature review is comprehensive and sets them up for a successful research question for their dissertation.

**Offered:** Online

PLCY 852 Research Prospectus in Social Policy 5 Credit Hours

**Prerequisites:** PLCY 851

Students will be challenged to look at their chosen research question by using various research methodologies. The course will culminate in a final paper discussing their research question and chosen methodologies. A comprehensive examination must be taken and successfully completed prior to enrollment in PLCY 989.

**Offered:** Online

PLCY 860 Introduction to Foreign Policy 3 Credit Hours

**Prerequisites:** PLCY 700 and PLCY 812

This course requires students to research the basic contours of their chosen policy cognate. Students will work with their faculty member to understand the scope, history, controversial issues, and key policy outcomes associated with this cognate. This research will serve as a stepping stone to conducting a comprehensive literature review for their dissertation, and provide the needed context to ensure that the student’s chosen dissertation topic is focused and appropriate.

**Offered:** Online

PLCY 861 Research Seminar in Foreign Policy 3 Credit Hours

**Prerequisites:** PLCY 860

In the second course of the chosen policy cognate, students will continue what may be an open-ended exploration into their policy studies. Students will identify and discuss the major debates and issues in their cognate. Students will also submit a dissertation research question for review and discussion. Finally, students will conduct an extensive literature review of their chosen dissertation topic. Students will work with faculty to ensure that their literature review is comprehensive and sets them up for a successful research question for their dissertation.

**Offered:** Online

PLCY 862 Research Prospectus in Foreign Policy 3 Credit Hours

**Prerequisites:** PLCY 861

Students will be challenged to look at their chosen research question by using various research methodologies. The course will culminate in a final paper discussing their research question and chosen methodologies. A comprehensive examination must be taken and successfully completed prior to enrollment in PLCY 989.

**Offered:** Online

PLCY 870 Introduction to Economic Policy 3 Credit Hours

**Prerequisites:** PLCY 700 and PLCY 812

This course requires students to research the basic contours of their chosen policy cognate. Students will work with their faculty member to understand the scope, history, controversial issues, and key policy outcomes associated with this cognate. This research will serve as a stepping stone to conducting a comprehensive literature review for their dissertation, and provide the needed context to ensure that the student’s chosen dissertation topic is focused and appropriate.

**Offered:** Online

PLCY 871 Research Seminar in Economic Policy 3 Credit Hours

**Prerequisites:** PLCY 870

In the second course of the chosen policy cognate, students will continue what may be an open-ended exploration into their policy studies. Students will identify and discuss the major debates and issues in their cognate. Students will also submit a dissertation research question for review and discussion. Finally, students will conduct an extensive literature review of their chosen dissertation topic. Students will work with faculty to ensure that their literature review is comprehensive and sets them up for a successful research question for their dissertation.

**Offered:** Online

PLCY 872 Research Prospectus in Economic Policy 5 Credit Hours

**Prerequisites:** PLCY 871

Students will be challenged to look at their chosen research question by using various research methodologies. The course will culminate in a final paper discussing their research question and chosen methodologies. A comprehensive examination must be taken and successfully completed prior to enrollment in PLCY 989.

**Offered:** Online

PLCY 880 Introduction to National Security Policy 3 Credit Hours

**Prerequisites:** PLCY 700 and PLCY 812

This course requires students to research the basic contours of their chosen policy cognate. Students will work with their faculty member to understand the scope, history, controversial issues, and key policy outcomes associated with this cognate. This research will serve as a stepping stone to conducting a comprehensive literature review for their dissertation, and provide the needed context to ensure that the student’s chosen dissertation topic is focused and appropriate.

**Offered:** Online
PLCY 881 Research Seminar in National Security Policy 3 Credit Hours

**Prerequisites:** PLCY 880

In the second course of the chosen policy cognate, students will continue what may be an open-ended exploration into their policy studies. Students will identify and discuss the major debates and issues in their cognate. Students will also submit a dissertation research question for review and discussion. Finally, students will conduct an extensive literature review of their chosen dissertation topic. Students will work with faculty to ensure that their literature review is comprehensive and sets them up for a successful research question for their dissertation.

**Offered:** Online

PLCY 882 Research Prospectus in National Security Policy 5 Credit Hours

**Prerequisites:** PLCY 881

Students will be challenged to look at their chosen research question by using various research methodologies. The course will culminate in a final paper discussing their research question and chosen methodologies. A comprehensive examination must be taken and successfully completed prior to enrollment in PLCY 989.

**Offered:** Online

PLCY 885 Comprehensive Exam and Research Concept 3 Credit Hours

This course will focus on students completing a comprehensive exam, preparing a concept paper, and preparing for their dissertation.

**Offered:** Online

PLCY 980 Dissertation Prospectus 5 Credit Hours

**Prerequisites:** PLCY 700 and PLCY 701 and PLCY 702 and PLCY 703 and PLCY 704 and PLCY 800 and PLCY 801 and PLCY 802 and PLCY 804 and PLCY 805 and PLCY 810 and PLCY 811 and PLCY 812

This course provides students with an opportunity to examine the dissertation process. The course focuses on structure and design of a concept for PhD dissertation research that includes peer/collegial review and scholarly discourse leading to a draft of Chapter one of the proposal development. A comprehensive examination must be taken and successfully completed prior to enrollment in PPOG 989. This course is not required for students who successfully complete the Research Prospectus course in a policy cognate.

**Offered:** Online

PLCY 987 Dissertation I 5 Credit Hours

**Prerequisites:** PLCY 885

This course is the first step for doctoral candidates in the process of developing and completing their research study and dissertation. Doctoral candidates will develop Section 1, which includes the Foundation of the Study, to include a detailed Literature Review relevant to the proposed research study.

**Offered:** Online

PLCY 988 Dissertation II 5 Credit Hours

**Prerequisites:** PLCY 987

This course is the second step for doctoral candidates to develop and complete their dissertation. Doctoral candidates will develop Section 2, which includes their methodology for conducting the study, and combine it with Section 1 into a single document. Candidates will also complete and submit their IRB package to complete their proposal defense.

**Offered:** Online

PLCY 989 Dissertation III 5 Credit Hours

**Prerequisites:** PLCY 988

This course is the final step in developing the dissertation manuscript. Doctoral candidates will conduct their field study, analyze their data, and present their findings and develop Section 3 of their dissertation. Candidates will combine all three sections into their completed dissertation manuscript in preparation for their dissertation defense.

**Offered:** Online

PLCY 990 Dissertation IV - Dissertation Defense 0 Credit Hours

**Prerequisites:** PLCY 989

This course is the last step in the doctoral program. Doctoral candidates will defend their dissertation and finalize their dissertation manuscript for publication.

**Offered:** Online

Research Methods & Teaching (RTCH)

RTCH 900 Research Methods and Teaching in Christian Higher Education 3 Credit Hours

This course guides the student in the use of library materials, computerized databases, bibliographic resources as well as research strategies, dissertation topic selection, and familiarization with form and style for research papers and dissertations. Students will also be introduced to the processes involved in syllabus development, lesson planning, and evaluation of student progress for both live instruction and the distance learning environment.

Special Education (EDSP)

EDSP 722 History and Future of Special Education 3 Credit Hours

This course introduces students to special education and disability advocacy from a Christian perspective, tracing historical trends in the treatment of people with disabilities to current trends and critical issues in special education and disability advocacy today.

**Offered:** Online
EDSP 724 Collaboration and Communication in Special Education  
3 Credit Hours

This course surveys supports and services for individuals receiving special education and disability services. Emphasis is placed on transition planning, collaboration, and communication among individuals, families, and service providers.

Offered: Online

EDSP 725 Assessment and Evaluation in Special Education  
3 Credit Hours

This course provides study and analysis of assessment, instrumentation, and evaluation of special education research. A primary focus is on data-driven decision making, evaluating research methods, analyzing results, and examining evidence-based practices.

Offered: Online

EDSP 726 Disability and Learning  
3 Credit Hours

This course examines disability across domains, including learning and cognitive development, social-emotional development, and language acquisition. Included in this review is an overview of disability categories, characteristics and associated supports and services from early childhood through post-secondary interventions.

Offered: Online

EDSP 727 Critical Review of Special Education Literature  
3 Credit Hours

This course provides a critical review of special education literature on a variety of topics with a focus on teacher education. Topics include universal design principles, evidence based best practice in subject areas, post-secondary and community-based disability services, and assistive technologies.

Offered: Online

Theology (THEO)

THEO 725 Systematic Theology I  
3 Credit Hours

THEO 810 Theology of the Gospel  
3 Credit Hours

Prerequisites: DMIN 810

An examination of the gospel and its implications for ministry and the Christian life with special focus on understanding the gospel in the context of the entire biblical narrative, cultivating a gospel-centered life, and viewing ministry through the lens of the good news of Jesus Christ.

Note: (Available to DMIN students only) Crosslisted with BIBL 810.

Offered: Online

THEO 900 Seminar in Theological Method  
3 Credit Hours

Analyzes theological methods in various theological traditions and persuasions. Different types of biblical, systematic, and contemporary theologies will be scrutinized. Particular attention will be given to the significance of theological sources including revelation, tradition, and culture and to their role in theology.

THEO 901 Contemporary Issues in the Doctrine of God  
3 Credit Hours

A Seminar on the Doctrine of God with special attention to modern issues on the topic, such as Open Theism, the knowability of truths about God, proper basicity and the justification of God's existence, and the problem of evil.

THEO 904 Bibliology  
3 Credit Hours

An examination of the doctrine of scripture with attention to its inerrancy, and inspiration, along with a consideration of the matter of in scripturated revelation and the nature of religious language.

THEO 905 Christology in Contemporary Theological Perspective  
3 Credit Hours

A study of recent trends in Christological method and understanding including process christologies, the Jesus Seminar, and the 'new search' for the historical Jesus.

THEO 908 Reading Seminar in Systematic Theology  
3 Credit Hours

The purpose of this reading seminar is to provide a base-line of readings in systematic theology focusing on reading classic texts significant to or exemplary of systematic thelogy. Students will read about thirty books and treatises, reading both scholarly and popular work throughout the history of the church. Students will evaluate, critique, and write critical reviews of assigned works evaluating, comparing and synthesizing their respective contribution to the development of the discipline and relation to contemporary evangelical theological concerns.

THEO 945 Seminar in Modern Theologies and Theologians  
3 Credit Hours

This seminar focuses on the work of select theologians and theological movements since the 18th Century. This seminar may be repeated as subject matter varies.

THEO 946 Contemporary Theology  
3 Credit Hours

An examination and critical analysis of theologians and theological movements since 1945. Topics include Liberation and Feminist Theologies as well as Open Theism, and the work of Paul Tillich, Jurgen Moltmann, John A. T. Robinson, and Harvey Cox. This seminar focuses on the work of select theologians and theological movements since the eighteenth century. This seminar may be repeated as subject matter varies. This seminar will focus on the Twentieth and early Twenty-first Centuries.

THEO 995 Directed Research in Theology  
3 Credit Hours

Designed for the advanced student in good standing who has demonstrated an ability to work independently. The student will work with the instructor in developing a proposal for guided research in a specified area of theology.

THEO 997 Seminar in Theological Studies  
3 Credit Hours

THEO 997 - Seminar in Theological Studies (3 hours)
**Trauma (TRMA)**

**TRMA 800 Child Adolescent Trauma Research Design** 3 Credit Hours

This course examines the effects of traumatic events as experienced by children and adolescents. Students will examine causative factors and evidence-based (or empirically supported) treatments of trauma and topical areas of trauma to include Attachment Wounds, PTSD, Sexual Abuse, Physical and Emotional Abuse and Neglect, Domestic and Community Violence, Traumatic Grief, Complex Trauma, and Emerging Trauma Issues. Students will consider how science informs the delivery of effective counseling theory and technique for these clients with the goal of integrating ethical, effective, and biblically grounded care.

*Offered: Online*

**TRMA 810 Adult and Familial Trauma** 3 Credit Hours

This course examines the effects of traumatic events as experienced by Adults and Families. Students will examine causative factors and evidence-based (or empirically supported) treatments of trauma and topical areas of trauma to include Attachment Wounds, PTSD, Sexual Assault, Date Rape, Family Systems Trauma, Terrorism, Domestic and Community Violence, Traumatic Grief, Complex Trauma, and Emerging Trauma Issues. Students will consider how science guides the delivery of effective counseling theory and technique for these Individuals and Families with the goal of integrating ethical, effective, and biblically grounded care.

*Offered: Online*

**TRMA 820 Disaster Mental Health and Community Response** 3 Credit Hours

This course examines the nature and effects of natural disasters on individuals and groups in affected communities. In addition, preparation for potential events on both a personal and community level is discussed. Large scale disasters addressed include tornados, hurricanes, wildfires, blizzards, earthquakes, floods, volcanic eruptions, tsunamis, avalanches and landslides, sinkholes, and droughts, as well as pandemics and large scale civil unrest. Related topics may be added as needed. In addition to preparation and counseling responses, interaction with national, religious, and governmental relief agencies will be examined.

*Offered: Online*

**TRMA 830 Assessment and Testing in the Treatment of Trauma** 3 Credit Hours

An advanced application of Assessment, Testing, and Appraisal methodology specifically geared towards the assessment of trauma and severe crises. These assessments will be examined and analyzed regarding the ethical use and interpretation of tests and assessments with individuals suffering with Acute Stress, Complex Stress, and Post-Traumatic Stress disorders. Emphasis is on the use of tests and assessments to facilitate appropriate and timely professional interventions.

*Offered: Online*

**TRMA 840 Empirically-Supported Treatments for Trauma** 3 Credit Hours

Prerequisites: TRMA 830

This course examines evidence-based (or empirically supported) treatments of trauma with sensitivity to client characteristics, cultural backgrounds, and preferences. Students will consider how science informs human services counseling practice for these clients with the goal of ethical, effective, and biblically grounded care.

*Offered: Online*

**TRMA 999 Internship** 3 Credit Hours

*Offered: Online*

---

**United States History (HIUS)**

**HIUS 713 American Entrepreneurship Since 1900** 3 Credit Hours

The development of distinctive patterns of American entrepreneurship in relation to American culture and politics up to 1900. D. in History.

*Note: Enrollment in the Ph.*

*Offered: Online*

**HIUS 820 Research in the Civil War** 3 Credit Hours

Doctoral research seminar that develops advanced historical research and writing skills through the study of selected topics of the American Civil War era.

*Offered: Online*

**HIUS 911 Comprehensive Readings in Early America** 3 Credit Hours

Prerequisites: HIST 901

Analysis of the major primary sources and scholarly research of early American history leading toward a comprehensive examination.

*Offered: Online*

**HIUS 912 Comprehensive Readings in Modern America** 3 Credit Hours

Prerequisites: HIST 901

Analysis of the major primary sources and scholarly research of modern American history leading toward a comprehensive examination.

*Offered: Online*

---

**Worship Studies (WRSP)**

**WRSP 801 Theological and Historical Developments Influencing Corporate Worship** 3 Credit Hours

A study of the dynamic theological, historical and cultural influences on corporate worship in the evangelical community. Application is made to the influence of worship paradigms and practices of the great revival movements on 21st Century corporate worship. Major emphasis is placed on student-based research and inquiry.

**WRSP 810 Foundations of Christian Worship**
A study of the Biblical, Theological, and Historical foundations for Christian Worship. The Biblical foundations of worship are identified and explored, with attention given to practical integration into the worship practice of 21st Century evangelical culture.

**Offered:** Online

**WRSP 811 Principles of Ethno-doxology**
An examination of how different cultures practice worship. Students investigate how worship both influences and is influenced by life as lived within a cultural community or specific ethnic group. Application is made to the role of various art forms (i.e. music, dance, drama, video, visuals, storytelling) have in the proclamation of the gospel and celebration of the Eucharist event.

**Offered:** Online

**WRSP 812 Theological and Cultural Contextualization in Worship**
This course explores the practical integration of theological foundation with modern culture as it relates to 21st century evangelical worship. Specifically, core beliefs that define evangelicals are identified and examined, and are then applied to worship within a variety of national and international ministry contexts.

**Offered:** Online

**WRSP 820 The Worship Leader**
A study of the many and varied roles and relationships of the worship leader. Special emphasis is placed on the relationship between the worship leader and the pastor. Also considered are the relationships between the worship leader and other staff members, singers, instrumentalists, and the congregation. In addition to required reading, significant research within the evangelical community, and application to various worship ministries, students are required to complete 10 projects that integrate learned principles and practical application.

**Offered:** Online

**WRSP 835 Theology, Philosophy and Methodology of Worship**
This course is a comprehensive study of the purpose and practice of a theology of worship in the Evangelical church community. The study is divided into three parts: 1) cognitive theology that includes the understanding and discovery of a biblical theology of worship and music; 2) personal and professional philosophy derived from the application of theology to worship; and 3) methodology for worship ministry which includes developing a strategy for teaching theology as a worship leader. The class is guided by a series of projects whereby students build a personal theology for private and public worship and then develops a pedagogical paradigm for inclusion of the course material and constructs in a worship curriculum. This course is offered online only.

**Offered:** Online

**WRSP 840 Transitions in Leadership, Music, Worship, and Culture**
A study of the current trends and issues related to leadership, music, worship, and culture. Consideration is given to music education standards, technology, and classroom strategies as well as worship models, multi-cultural issues, worship transitions, and worship trends. The course includes research into emerging practices within school districts and universities as well as emerging practices in worship.

**WRSP 845 Pastoral Roles of the Worship Leader**
This course provides clarification of the various and many pastoral roles of the worship leader in the Evangelical community. Responsibilities worship pastors have to the gospel call and ministry are defined and articulated. Practical application is made through class and small group case studies, interviews, on-location observations, and personal evaluation. Students are required to develop a pedagogical paradigm for inclusion of course materials and constructs in a worship curriculum. This course is offered online only.

**Offered:** Online

**WRSP 846 Growth, Development, and Spiritual Formation**
An in-depth look at the person and individual growth, development, and spiritual formation. Extensive testing will form the foundation for this course and the results of the testing will be used to develop a growth profile for the individual student.

**Offered:** Online

**WRSP 851 Community, Culture, and Relationship**
This is a course that looks at the various responsibilities music educators and worship leaders have in building a community of well-balanced, well-conceived partnerships. Consideration is given to the worship leader’s responsibility to build relationships with various ministries in the church, with those in the community and with other worship pastors. Consideration is also given to the music educator’s responsibility to build community within the school, within the culture, and with other music educators.

**WRSP 880 Introduction to the Thesis Writing Project**

**Offered:** Online

**WRSP 889 Thesis Project Proposal & Research**
Crosslisted with DMIN 889.

**Offered:** Online

**WRSP 890 Thesis Project Defense**

**Prerequisites:** WRSP 889

**Offered:** Online
WRSP 895 Directed Research in Worship 1-3 Credit Hours
Designed for the advanced student in good standing who has demonstrated an ability to work independently. This course should/can only be used if a student lacks a seminar for graduation and the needed seminar is not offered in their last semester. If approved, the student will work with the instructor in developing a proposal for guided research in a specific area.

Offered: Online

WRSP 897 Seminar in Worship Studies 3 Credit Hours
An intensive study in a specific subject of worship studies. This course allows variation in the approach and content of the regular curriculum and often will be used by visiting professors.

Offered: Online

WRSP 899 Worship Self-Study and Apprenticeship 3 Credit Hours
WRSP 899 - Worship Self-Study and Apprenticeship (3 hours)

Offered: Online

WRSP 997 Advanced Seminar in Worship Studies 3 Credit Hours
This course focuses on a study of worship practices in the evangelical community. Student and faculty work together to develop and tailor assignment to each student's individual preference, professional goals, needs, and objectives. A 30-50 page major paper demonstrating research ability must be completed. This major project must be practical in application to the student's ministry.

Offered: Online

### Faculty Roster

**A**

Abella, Fernando; BMIN, M.R.E., D.Min.
*Title: Adjunct Faculty*
BMIN - Rio Grande Bible Institute, M.R.E. - Cornerstone University, D.Min. - Dallas Theological Seminary

Abogunrin, Eunice; B.T., M.A., M.A., Ph.D.
*Title: Adjunct Faculty*
B.T. - ECWA Theo Seminary, M.A. - Wheaton College, M.A. - ECWA Theo Seminary, Ph.D. - Trinity International University

Abraham, David; B.A.S., M.S., M.T., PHD
*Title: Adjunct Faculty*
B.A.S. - University of Madras, M.S. - Reg Engineering College in Trichy, M.T. - Dallas Theological Seminary, PHD - Walden University

Acheson, Kent; M.B.A., Ph.D.
*Title: Adjunct Faculty*
M.B.A. - University of Phoenix, Ph.D. - University of Phoenix

Achilles, Wendy; B.S., M.A., PHD
*Title: Adjunct Faculty*
B.S. - East Carolina University, M.A. - East Carolina University, PHD - Virginia Commonwealth University

Ackerman, Margaret; B.G., B.G., M.Ed., Ed.D.
*Title: Adjunct Faculty*
B.G. - Liberty University, B.G. - Liberty University, M.Ed. - University of Lynchburg, Ed.D. - University of Virginia

Adams, Joshua; B.S., M.A., M.S., PHD
*Title: Adjunct Faculty*
B.S. - Columbia Southern University, M.A. - American Military University, M.S. - George Mason University, PHD - Walden University, PHD - Walden University

Adams, Susan; B.A., M.Ed., Ph.D.
*Title: Professor CACREP*
B.A. - Louisiana Tech University, M.Ed. - University of Louisiana at Monroe, Ph.D. - Texas A&M University-Commerce

Adams, William; B.S., M.B.A., Ph.D.
*Title: Adjunct Faculty*
B.S. - Campbellsville University, M.B.A. - Campbellsville University, Ph.D. - Capella University

Adams, Andrea; B.A., M.Div., D.Min.
*Title: Adjunct Faculty*
B.A. - William Carey University, M.Div. - Southeastern Baptist Theological Seminary, D.Min. - Liberty University

Adams, Dwayne; B.A., M.T., Ph.D.
*Title: Adjunct Faculty*
B.A. - Kalamazoo College, M.T. - Dallas Theological Seminary, Ph.D. - Dallas Theological Seminary

Adeyemi, Olufemi; B.T., BBS, M.Div., M.T., Ph.D.
*Title: Assistant Professor*
B.T. - United Missionary Church of Africa Theological College, BBS - Washington Bible College Capital Bible Seminary, M.Div. - Capital Bible Seminary, M.T. - Capital Bible Seminary, Ph.D. - Dallas Theological Seminary

Adler, Mark; B.S., M.A., Ph.D.
*Title: Adjunct Faculty*
B.S. - Cairn University, M.A. - Biola University, Ph.D. - Talbot Theological Seminary

Adu-Gyamfi, Yaw; B.A., M.A., Ph.D.
*Title: Professor of English*
B.A. - Kwame Nkrumah University of Science and Technology, M.A. - University of Saskatchewan, Ph.D. - University of Saskatchewan

Ahmed, Betty; B.A., M.B.A., D.B.A.
*Title: Adjunct Faculty*
B.A. - University of Central Florida, M.B.A. - Stetson University, D.B.A. - Nova Southeastern University

Ajayi, Joel; B.A., B.T., M.A., M.Div., Ph.D.
*Title: Adjunct Faculty*
B.A. - Ouachita Baptist University, B.T. - Nigerian Baptist Theological Seminary, M.A. - New Orleans Baptist Theological Seminary, M.Div. - New Orleans Baptist Theological Seminary, Ph.D. - Baylor University

Akanji, Olugbenga; B.A., M.A., PHD
*Title: Adjunct Faculty*
B.A. - University of Ibadan, M.A. - Southern University, PHD - Walden University

Akers, Shawn; B.A., M.A., J.D.
*Title: Online Provost*
Akers, Shanna; B.S., M.S.N., M.S.N., Ed.D., Ed.S.
Title: Dean, School of Nursing
B.S. - Virginia Commonwealth University, M.S.N. - University of Phoenix, M.S.N. - University of Phoenix, Ed.D. - Liberty University, Ed.S. - Liberty University

Aki, Charles; B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.A. - Southern Illinois University, M.S. - Southern Illinois University, Ph.D. - Ohio State University

Albright, Richard; B.S., M.Ed., Ed.D.
Title: Associate Professor of Counseling
B.S. - Pennsylvania State University, M.Ed. - Pennsylvania State University, Ed.D. - Pennsylvania State University

Alcindor, Esther; B.S., B.S., M.Ed., Ph.D.
Title: Chair
B.S. - Liberty University, B.S. - Liberty University, M.Ed. - Liberty University, Ph.D. - Regent University

Alderman, Stephen; B.S., M.B.A., J.D.
Title: Adjunct Faculty
B.S. - Houghton College, M.B.A. - University of Denver, J.D. - University of Denver

Alford, Mary; B.S., M.B.A., D.B.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.B.A. - Liberty University, D.B.A. - Walden University

Allen, Sharon; B.S., M.A., Psy.D.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - University of Missouri-Kansas City, Psy.D. - Capella University

Alleyne, Nancy; B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.A. - SUNY University at Albany, M.S. - Long Island University, Ph.D. - Capella University

Alpern, Carla; B.S., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S. - Syracuse University, M.Ed. - George Mason University, Ed.D. - Regent University

Alsup, Philip; B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.A. - Bob Jones University, M.S. - Bob Jones University, Ed.D. - Liberty University

Amos, Christopher; B.S., M.S.
Title: Assistant Professor of Sport Management
B.S. - Liberty University, M.S. - Liberty University

Amsler, Debra; B.S.E., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S.E. - Slippery Rock University, M.Ed. - Wright State University in Celina, Ed.D. - Capella University

Anastasia, Christina; CRT, PHD
Title: Adjunct Faculty
CRT - Colorado Technical University, PHD - Capella University

Anderson, Bailey; B.S., M.Ed., Ed.D., Ed.S.
Title: Adjunct Faculty
B.S. - Liberty University, M.Ed. - Liberty University, Ed.D. - Liberty University, Ed.S. - Liberty University

Anderson, Nancy; B.S., Ph.D.
Title: Adjunct Faculty
B.S. - Texas Tech University, Ph.D. - Texas Tech University

Anderson, Kami; M.A., Ph.D.
Title: Instructor
M.A. - American University, Ph.D. - Howard University

Anderson, Rodney; B.A., M.T., Ed.D.
Title: Adjunct Faculty
B.A. - Grace University, M.T. - Dallas Theological Seminary, Ed.D. - Southern Baptist Theological Seminary

Anderson, Robyn; B.S., M.P.H., M.S., Ph.D.
Title: Professor of Public Health
B.S. - Indiana University of Pennsylvania, M.P.H. - University of Pittsburgh, M.S. - Indiana University of Pennsylvania, Ph.D. - University of Pittsburgh

Andre, Thomas; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Georgia Southwestern State University, M.S. - University of North Alabama, Ph.D. - Baylor University

Andreicut, Gavril; M.A., M.A., Ph.D.
Title: Adjunct Faculty
M.A. - Trinity International University, M.A. - Babes Bolyai University, Ph.D. - Marquette University

Andrew, Lane; B.S., M.S., Ph.D., Ph.D.
Title: Instructor
B.S. - University of Colorado Denver, M.S. - University of Denver, Ph.D. - University of Northern Colorado, Ph.D. - University of Northern Colorado

Anning, Jonathan; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Central Michigan University, M.A. - Central Michigan University, Ph.D. - University of Toledo

Anson, Wendy; M.A., Ph.D.
Title: Instructor
M.A. - George Washington University, Ph.D. - Capella University

Anthony, Larry; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Tusculum College, M.S. - Boston University, Ph.D. - Walden University

Anthony, Kimberly; B.S., M.A., Ph.D.
Title: Assistant Professor
B.S. - East Carolina University, M.A. - Mary Baldwin University, Ph.D. - Capella University

Anthony, H.; B.A., M.Div., Ed.D.
Title: Adjunct Faculty
B.A. - Mississippi College, M.Div. - Southern Baptist Theological Seminary, Ed.D. - Southern Baptist Theological Seminary

Applegate, Christopher; B.A., M.Ed., Ed.D.
Title: Adjunct Faculty
Arbelo Marrero, Floralba; B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.A. - University of Iowa, M.Ed. - Liberty University, Ed.D. - Northcentral University

Arbo, Ashli; B.A., J.D.
Title: Adjunct Faculty
B.A. - Union University, J.D. - Liberty University Law School

Arowolaju, Adebayo; M.S., PHD
Title: Adjunct Faculty
M.S. - University of Maryland in College Park, PHD - Howard University

Arrington, Arnetra; B.A., M.B.A., PHD
Title: Adjunct Faculty
B.A. - University of Michigan-Ann Arbor, M.B.A. - Keller Graduate School of Management, PHD - Capella University

Ascencao, Kristen; B.M.E., M.Ed., Ed.D.
Title: Assistant Professor
B.M.E. - Baylor University, M.Ed. - Texas Tech University, Ed.D. - Liberty University

Ashburn, Colin; B.S., M.P.A., D.B.A.
Title: Adjunct Faculty
B.S. - University of Texas Rio Grande Valley, M.P.A. - University of Texas Rio Grande Valley, D.B.A. - Northcentral University

Assaid, Christopher; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Roanoke College, M.S. - Virginia Polytechnic Institute and State University, Ph.D. - Virginia Polytechnic Institute and State University

Attin, Oswald; B.S., B.S., M.P.H.
Title: Associate Professor of Public Health
B.S. - Liberty University, B.S. - Liberty University, M.P.H. - Trident University International, Ph.D. - Walden University

Austin, Daniel; B.R.E., M.R.E., D.Min.
Title: Adjunct Faculty
B.R.E. - Cornerstone University, M.R.E. - Grand Rapids Baptist Seminary, D.Min. - Clarks Summit University

Austin, Shante; B.A., M.Ed., Ph.D.
Title: Adjunct Faculty
B.A. - University of Virginia, M.Ed. - Regent University, Ph.D. - Capella University

Averin, Alexander; B.S., M.B.A., Ph.D.
Title: Adjunct Faculty
B.S. - Vassar College, M.B.A. - Marist College, Ph.D. - Regent University

Avila, Jacob; B.S., M.B.A., PHD
Title: Adjunct Faculty
B.S. - Pepperdine University, M.B.A. - California Baptist University, PHD - University of Southern California

Ayres, Brenda; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - University of South Alabama, M.A. - University of South Alabama, Ph.D. - University of Southern in Mississippi

Aysta-Isaac, Shany; B.A., B.A., M.A., Psy.D.
Title: Adjunct Faculty
B.A. - Wheaton College, B.A. - Wheaton College, M.A. - Biola University, Psy.D. - Biola University

B

Babatunde, Olusola; B.A., M.Div., M.L., M.S.
Title: Associate Librarian for Access & Technology
B.A. - University of Lagos, M.Div. - Liberty University, M.L. - Southern Methodist University, M.S. - University of North Texas

Babulak, Eduard; M.S., Ph.D.
Title: Professor of Computer Science & Cyber Security
M.S. - University of East London, Ph.D. - Staffordshire University

Baca, Jason; B.S., M.S., D.S.L.
Title: Adjunct Faculty
B.S. - Southwestern Assemblies of God University, M.S. - Regent University, D.S.L. - Regent University

Badorff, William; B.B.A., M.A., M.B.A., M.B.A., Ph.D., Ph.D.
Title: Adjunct Faculty
B.B.A. - Loyola University, M.A. - Fielding Institute, M.B.A. - University of North Alabama, M.B.A. - University of North Alabama, Ph.D. - Fielding Institute, Ph.D. - Fielding Institute

Baer, Daniel; B.S.E., M.S., Ph.D.
Title: Assistant Professor
B.S.E. - Ohio State University, M.S. - Pensacola Christian College, Ed.S. - Nova Southeastern University, Ph.D. - Nova Southeastern University

Baggett, Mary; B.S., M.A., Ph.D.
Title: Professor of English
B.S. - Liberty University, M.A. - Longwood University, Ph.D. - Indiana University of Pennsylvania

Baggett, David; B.A., M.Div., Ph.D.
Title: Professor of Apologetics
B.A. - University of Michigan-Dearborn, M.Div. - Asbury Theological Seminary, Ph.D. - Wayne State University

Bailey, Joseph; B.S., M.A., Ph.D.

Botner, Elizabeth; B.S., M.A., Ed.D.
Title: Adjunct Faculty
B.S. - Campbell University, M.A. - Campbell University, Ed.D. - Argosy University-Phoenix

Boto, Julie; B.B.A., M.B.A., M.B.A.
Title: Instructor
B.B.A. - Grand Canyon University, M.B.A. - Pepperdine University, M.B.A. - Pepperdine University

Bounds, Teresa; B.S., M.A.C., D.B.A.
Title: Adjunct Faculty
B.S. - Gardner-Webb University, M.A.C. - Gardner-Webb University, D.B.A. - Argosy University-Phoenix

Bouvin, David; B.A., M.B.A., D.B.A.
Title: Adjunct Faculty
B.A. - Roberts Wesleyan College, M.B.A. - Argosy University-Sarasota, D.B.A. - Argosy University-Sarasota

Bowe, Shakerra; B.S.E., M.S., Ed.D.
Title: Adjunct Faculty
B.S.E. - Florida International University, M.S. - Florida International University, Ed.D. - Walden University

Bowen, William; B.A., M.A., M.A., PHD
Title: Adjunct Faculty
B.A. - Pensacola Christian College, M.A. - California State University Fullerton, M.A. - Florida State University, PHD - Florida State University

Bowen, Christopher; B.A., M.S., Ph.D.
Title: Assistant Professor
B.A. - Lee University, M.S. - Lee University, Ph.D. - University of South Carolina

Bowery, Keith; CRT, M.B.A., D.B.A.
Title: Adjunct Faculty
CRT - Northcentral University, M.B.A. - King University, D.B.A. - Argosy University-Sarasota

Bowles, Kerry; B.S., M.Ed.
Title: Assistant Professor
B.S. - Liberty University, M.Ed. - University of Lynchburg

Bowman, Todd; B.A., Ph.D.
Title: Adjunct Faculty
B.A. - Mount Vernon Nazarene University, Ph.D. - Oklahoma State University

Bowman, Rebecca; B.S.E., M.S., Ed.D., Ed.S.
Title: Adjunct Faculty
B.S.E. - Shorter University, M.S. - Capella University, Ed.D. - Liberty University, Ed.S. - Liberty University

Boyce, Jeff; B.S., M.B.A., Ph.D.
Title: Adjunct Faculty
Boyer, Edward; B.B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.B.A. - Santa Fe University of Art and Design, M.S. - National University, Ph.D. - Nova Southeastern University

Braboy, Deborah; B.A.S., M.S., Ph.D.
Title: Assistant Professor of Counseling
B.A.S. - California State University Fullerton, M.S. - Northeastern State University, Ph.D. - Regent University

Bracewell, Jonathan; B.S., M.Ed., Ed.D., Ed.S.
Title: Instructor
B.S. - Columbus State University, M.Ed. - Columbus State University, Ed.D. - Walden University, Ed.S. - Columbus State University

Bradley, John; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - University of Oklahoma, M.A. - University of Oklahoma, Ph.D. - University of Florida

Bradshaw, Travis; B.S., M.A., Ph.D.
Title: Instructor
B.S. - James Madison University, M.A. - University of Florida, Ph.D. - University of Florida

Bradshaw, L.; B.A., M.Ed., Ph.D.
Title: Associate Professor of Education
B.A. - University of Florida, M.Ed. - University of Florida, Ph.D. - University of North Carolina at Chapel Hill

Bragg, Rick; B.A., M.A., Ed.D., Ed.S.
Title: Adjunct Faculty
B.A. - Saint Francis College, M.A. - University of Alabama, Ed.D. - Argosy University-Sarasota, Ed.S. - Lincoln Memorial University

Brake, Peter; B.S., M.A., J.D.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Regent University, J.D. - Quinnipiac University

Branch, Sabine; B.S., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S. - Sam Houston State University, M.Ed. - Sam Houston State University, Ed.D. - University of Mary Hardin-Baylor

Brands, Chad; B.A., MD
Title: Associate Professor of Internal Medicine
B.A. - Dordt College, MD - Baylor College of Medicine

Branker, Teri; B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.A. - Florida Atlantic University, M.S. - Nova Southeastern University, Ed.D. - Nova Southeastern University

Brat, David; B.A., M.Div.
Title: Dean School of Business
B.A. - Hope College, M.Div. - Princeton Theological Seminary

Bredfeldt, Gary; B.A., M.A., Ph.D.
Title: Professor of Christian Education
B.A. - Denver Baptist Bible College, M.A. - Denver Seminary, Ph.D. - Trinity Evangelical Divinity School

Title: Adjunct Faculty
B.S. - Liberty University, J.D. - Liberty University Law School

Kopis, Sharon; B.S., M.S.N., Ed.D.
Title: Chair, Doctoral Programs; Professor of Nursing
B.S. - Liberty University, M.S.N. - Virginia Commonwealth University, Ed.D. - Argosy University-Sarasota

Koss, Elizabeth; B.S., M.B.A.
Title: Residential Chair
B.S. - Liberty University, M.B.A. - Liberty University

Kramer, Cecil; B.S., M.A., M.Div., D.Min.
Title: Professor of Communication Studies
B.S. - North Dakota State University, M.A. - University of North Dakota in Grand Forks, M.Div. - Liberty University, D.Min. - Bethel Seminary

Krantz, Randy; A.A.S., B.A., M.A.R., J.D.
Title: Adjunct Faculty
A.A.S. - Virginia Western Community College, B.A. - University of Lynchburg, M.A.R. - Liberty Baptist Theological Seminary, J.D. - University of Richmond

Krause, Matthew; B.A., J.D.
Title: Assistant Professor
B.A. - San Diego Christian College, J.D. - Liberty University Law School

Kribs, James; B.A., D.O.
Title: Chair, Department of Osteopathic Manipulation
B.A. - Michigan State University, D.O. - Michigan State University

Kuba, Summer; M.A., M.S.W., Ed.S., Ph.D.
Title: Assistant Professor of Counseling
M.A. - University of Phoenix, M.S.W. - University of Central Florida, Ed.S. - Florida Atlantic University, Ph.D. - Florida Atlantic University

Kuhn, John; B.A.S., M.B.A., Ph.D.
Title: Adjunct Faculty
B.A.S. - University of Central Florida, M.B.A. - University of Pittsburgh, Ph.D. - University of Central Florida

Kuhne, Gary; B.S., Ed.D.
Title: Adjunct Faculty
B.S. - Pennsylvania State University, Ed.D. - Pennsylvania State University

Kuo, Chris; M.A., Ph.D.
Title: Adjunct Faculty
M.A. - SUNY Stony Brook University, Ph.D. - SUNY Stony Brook University

Kurz, Charity; B.S.E., M.S., PHD
Title: Instructor
B.S.E. - Youngstown State University, M.S. - Youngstown State University, PHD - Pennsylvania State University

Kuyatt, Brian; B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.A. - Catholic University of America, M.S. - University of Maryland-Baltimore County, Ed.D. - Regent University

Laatsch, Joel; B.A., Ed.D., Ed.S.

Lafond, Blake; A.A., B.A., M.P.A., M.S., Ph.D.
Title: Adjunct Faculty
A.A. - Rowan Cabarrus Community College, B.A. - University of North Carolina at Charlotte, M.P.A. - American Military University, M.S. - University of North Carolina at Charlotte, Ph.D. - Capella University

Lahikainen, Keith; A.S., B.A., M.S., Psy.D.
Title: Professor of Psychology

Laine, James; B.A., M.Div., Ph.D., Th.D.
Title: Adjunct Faculty
B.A. - Grove City College, M.Div. - Pittsburgh Theological Seminary, Ph.D. - Emmanuel Baptist University, Ph.D. - Cornerstone University, Th.D. - International Seminary

Laird, Benjamin; B.S., M.Div., M.T., MLITT, MLITT, Ph.D.
Title: Professor of Biblical Studies
B.S. - Liberty University, M.Div. - Southeastern Baptist Theological Seminary, M.T. - Southeastern Baptist Theological Seminary, MLITT - University of St. Andrews, MLITT - University of St. Andrews, Ph.D. - University of Aberdeen

Lakin, Ashlee; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Elon University, M.A. - University of Lynchburg, Ph.D. - Liberty University

Lamport, Mark; B.A., M.A., M.Div., M.T., Ph.D.
Title: Adjunct Faculty
B.A. - Huntington University, M.A. - Wheaton College, M.Div. - Evangelical School of Theology, M.T. - Princeton Theological Seminary, Ph.D. - Michigan State University

Land, Christy; B.S., M.A., Ed.S., Ph.D.
Title: Adjunct Faculty
B.S. - University of Lynchburg, M.A. - Marymount University, Ed.S. - University of Georgia, Ph.D. - University of Georgia

Landa, Samuel; A.A., B.A., M.A.
Title: Adjunct Faculty
A.A. - College of Southern Nevada, B.A. - University of Nevada Las Vegas, M.A. - Liberty University

Landers, John; M.Div., Ph.D., Ph.D.
Title: Assistant Professor
M.Div. - Southwestern Baptist Theological Seminary, Ph.D. - Southwestern Baptist Theological Seminary, Ph.D. - Texas Christian University

Landrum, Jennifer; B.A., M.A., Ph.D.
Title: Assistant Professor
B.A. - University of Northern Colorado, M.A. - University of Northern Colorado, Ph.D. - Northcentral University

Lane, Richard; B.S., M.P.H., MD
Title: Adjunct Faculty
B.S. - University of Maryland in College Park, M.P.H. - Tulane University, MD - University of Maryland at Baltimore

Lane-Tillerson, Crystal; BSN, M.A.T., M.S.N., PHD
Title: Adjunct Faculty
BSN - Howard University, M.A.T. - Howard University, M.S.N. - Hampton University, PHD - Hampton University

Langston, Michael; B.G., M.A., M.A.
Title: Adjunct Faculty
B.G. - University of Louisiana at Lafayette, M.A. - Southeastern Baptist Theological Seminary, M.A. - Naval War College

Lanham, Melissa; B.S., M.S., Ed.D.
Title: Adjunct Faculty
B.S. - Averett University, M.S. - Radford University, Ed.D. - Liberty University

Law, Colleen; B.A., M.P.H., Ph.D.
Title: Assistant Professor
B.A. - Mount Holyoke College, M.P.H. - University of Michigan-Ann Arbor, Ph.D. - Brandeis University

Lawrence, Justin; B.A., M.A.R., M.B.A., M.Div., J.D.
Title: Adjunct Faculty
B.A. - Texas Tech University, M.A.R. - Liberty Baptist Theological Seminary, M.B.A. - Texas Tech University, M.Div. - Liberty Baptist Theological Seminary, J.D. - Texas Tech University

Lawrenson, Julie; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Title: Adjunct Faculty
M.A. - Southwestern Baptist Theological Seminary, M.A. - Tennessee Technological University, M.Div. - Southwestern Baptist Theological Seminary, M.Ed. - University of North Texas, J.D. - Campbell University, Ed.D. - University of North Texas, Ph.D. - Southwestern Baptist Theological Seminary

Lawton, Abigail; B.S., M.S.
Title: Teaching Fellow
B.S. - Liberty University, M.S. - Liberty University

Layton, Gary; B.S., M.B.A., D
Title: Adjunct Faculty
B.S. - Metropolitan State University of Denver, M.B.A. - Embry-Riddle Aeronautical University, D - Northcentral University

Lazenka, Matthew; B.S., Ph.D.
Title: Professor of Biology & Chemistry
B.S. - East Tennessee State University, Ph.D. - Virginia Commonwealth University

Leatherbury, Linda; B.B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.B.A. - Drexel University, M.S. - Widener University, Ph.D. - Union Institute & University

Ledoux, Janine; B.S., M.Ed., DPH
Title: Adjunct Faculty
B.S. - Bridgewater State University, M.Ed. - Bridgewater State University, DPH - Loma Linda University

Lee, Jennifer; B.A., M.S., Ph.D.
Title: Instructor
B.A. - Civil Aviation Administration of China, M.S. - University of Alabama, Ph.D. - University of Alabama

Leialoha Waipa, Sherry; B.S., M.Ed., Ph.D.
Title: Adjunct Faculty
B.S. - Bellevue University, M.Ed. - Graceland University, Ph.D. - Walden University

Leinen, Shannon; A.A., B.A., M.A., M.B.A., Ph.D.
Title: Adjunct Faculty
A.A. - York College, B.A. - York College, M.A. - Gonzaga University, M.B.A. - Harding University, Ph.D. - Regent University

Leitz, Richard; B.S., M.B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - York College Penn, M.B.A. - University of Maryland University College, M.S. - University of Maryland University College, Ph.D. - York College Penn

Lemmer, Stacey; A.A., B.A., M.S.W., Psy.D.
Title: Adjunct Faculty
A.A. - Frederick Community College, B.A. - Hood College, M.S.W. - University of Maryland at Baltimore, Psy.D. - Regent University

Lennon, Jeffrey; B.A., M.P.H., M.S., MD, Ph.D.
Title: Professor of Health Sciences
B.A. - The King's College, M.P.H. - University of Alabama at Birmingham, M.S. - University of Alabama at Birmingham, MD - Universidad Centro de Estudios Tecnologicos, Ph.D. - University of Alabama at Birmingham

Leo, Cassondra; B.S., M.A.T., Ed.D.
Title: Adjunct Faculty
B.S. - North Greenville University, M.A.T. - Clemson University, Ed.D. - Univ of South Carolina Sumter

Leon, Gil; B.S., J.D.
Title: Adjunct Faculty
B.S. - Liberty University, J.D. - Liberty University Law School

Leonard, Timothy; B.S., MD, PHD
Title: Senior Associate Dean, Academic Affairs
Leonard, John; B.A., B.A., M.A., M.S., Ph.D.
Title: Assistant Professor
B.A. - Asbury University, B.A. - Asbury University, M.A. - University of South Florida, M.S. - Georgia State University, Ph.D. - University of South Florida

Leos, Luis; B.S., M.A., M.A., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - Southern Illinois University, M.A. - Southwestern Baptist Theological Seminary, M.A. - University of Phoenix, M.A. - Southwestern Baptist Theological Seminary, Ph.D. - Southwestern Baptist Theological Seminary

Lester, Kimberly; B.S., M.S., Ed.D., Ed.S.
Title: Assistant Professor
B.S. - Tennessee State University, M.S. - Fort Valley State College, Ed.D. - Argosy University-Sarasota, Ed.S. - Argosy University - San Fran

Leverett, Jason; B.S., M.A., Ph.D.
Title: Instructor
B.S. - Liberty University, M.A. - Liberty University, Ph.D. - Regent University

Leverett, Gaylen; B.A., M.A., M.Div., Ph.D.
Title: Professor of Religion

Title: Assistant Professor
B.A. - Washington Bible College Capital Bible Seminary, B.B.A. - Northwood University, M.B.A. - Liberty University, D.B.A. - Argosy University-Sarasota

Saunders, Michael; M.B.A.
Title: Adjunct Faculty
M.B.A. - Regis University

Savage, Jeffrey; B.A., M.S., Ed.D.
Title: Adjunct Faculty
Savage-Speegle, Amanda; B.S., M.A., Ed.D.
Title: Adjunct Faculty
B.A. - Culver-Stockton College, M.S. - Central Michigan University, Ed.D. - Baylor University
Title: Adjunct Faculty
B.S. - Olivet Nazarene University, M.A. - Illinois State University, Ed.D. - Walden University

Scalise, Eric; B.A., M.A., Ed.S., Ph.D.
Title: Adjunct Faculty
B.A. - College of William and Mary, M.A. - College of William and Mary, Ed.S. - College of William and Mary, Ph.D. - Regent University

Schaff, David; B.S., M.S., Ed.S., PHD
Title: Adjunct Faculty
B.S. - Purdue University Global, M.S. - Air Force Institute of Technology, Ed.S. - Nova Southeastern University, PHD - Nova Southeastern University

Schaefer, Thomas; B.S., M.B.A., D
Title: Adjunct Faculty
B.S. - University of South Florida, M.B.A. - Argosy University-Sarasota, D - Argosy University-Sarasota

Schauer, Tim; B.S., M.B.A., D.B.A.
Title: Adjunct Faculty
B.S. - Immaculata College, M.B.A. - Liberty University, D.B.A. - Walden University

Scheiman, Gerald; M.S., Ph.D.
Title: Adjunct Faculty
M.S. - University of Washington in Seattle, Ph.D. - Pennsylvania State University

Schellenberg, Rita; B.S., M.Ed., Ph.D.
Title: Assistant Professor of Counseling
B.S. - Christopher Newport University, M.Ed. - College of William and Mary, Ph.D. - Regent University

Schlabra, Lisa; B.S., M.Ed., Ed.D., Ed.S.
Title: Adjunct Faculty
B.S. - University of North Georgia-Dahlonega, M.Ed. - University of North Georgia-Dahlonega, Ed.D. - Liberty University, Ed.S. - Lincoln Memorial University

Schlabra, Michael; B.A., M.Ed., Ed.D., Ed.S.
Title: Adjunct Faculty
B.A. - University of Houston-Clear Lake, M.Ed. - Sam Houston State University, Ed.D. - Liberty University, Ed.S. - University of Georgia

Schmal, David; B.A., B.S., M.A., M.A., D.M.A.
Title: Professor of Commercial Music
B.A. - Metropolitan State University of Denver, B.S. - University of Colorado Denver, M.A. - University of Colorado Denver, M.A. - University of Colorado Boulder, D.M.A. - Boston University

Schmalz, Karen; B.S.E., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S.E. - Geneva College, M.Ed. - Shippensburg University, Ed.D. - Regent University

Schmidt, Mark; B.S., M.A., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - Dallas Bible College, M.A. - Wheaton College, M.A. - University of Texas Dallas, Ph.D. - University of Texas Arlington

Schmitt, Erik; B.A., M.A., PHD
Title: Assistant Professor of Counseling
B.A. - West Virginia Wesleyan College, M.A. - Appalachian State University, PHD - University of Georgia

Schneider, Bryan; B.S., M.S., Ph.D.
Title: Instructor
B.S. - Wayland Baptist University, M.S. - Central Michigan University, Ph.D. - Central Michigan University

Schneider, Charles; B.A., M.Ed., Ed.D.
Title: Assistant Professor
B.A. - University of Virginia, M.Ed. - University of Virginia, Ed.D. - Nova Southeastern University

Schmittjer, Gary; B.S., M.T., Ph.D.
Title: Adjunct Faculty
B.S. - Cairn University, M.T. - Dallas Theological Seminary, Ph.D. - Dallas Theological Seminary

Schloffstall, Heather; A.A., B.S., M.Ed., Ed.D.
Title: Assistant Professor
A.A. - American River College, B.S. - Old Dominion University, M.Ed. - Old Dominion University, Ed.D. - Argosy University-Arlington/DC

Schloffstall, James; B.S., M.S., Ed.D.
Title: Professor of Health Professions
B.S. - Old Dominion University, M.S. - Old Dominion University, Ed.D. - Liberty University

Schofield, Wade; B.S., M.S., M.S.
Title: Assistant Professor of Business
B.S. - Auburn University, M.S. - George Mason University, M.S. - University of Tennessee Martin

Schultz, Roger; B.A., B.A., M.A., Ph.D.
Title: Dean/Professor of History
B.A. - Bemidji State University, B.A. - Bemidji State University, M.A. - Trinity International University, Ph.D. - University of Arkansas at Fayetteville

Title: Assistant Professor
A.A. - Southwestern Assemblies of God University, B.S. - Southwestern Assemblies of God University, M.A. - Southwestern Assemblies of God University, M.Ed. - Southwestern Assemblies of God University, D.B.A. - Argosy University-Sarasota

Schultz, Donald; B.S.E., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S.E. - Liberty University, M.Ed. - Slippery Rock University, Ed.D. - University of North Carolina at Greensboro

Schulze, Dietmar; Th.M., Ph.D.
Title: Adjunct Faculty
Th.M. - University of Hamburg, Ph.D. - Ruhr University

Schwartz, Stuart; B.A., M.A., Ph.D., Ph.D.
Title: Associate Dean, School of Communication & Digital Content
B.A. - University of Connecticut, M.A. - Liberty University, M.A. - Fairfield University, Ph.D. - Temple University, Ph.D. - Temple University

Title: Associate Professor of History
B.A. - Texas A&M University, M.A. - University of Houston, Ph.D. - University of Houston

Smith, Jason; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - University of North Texas, M.A. - University of North Texas, Ph.D. - Texas A&M University

Smith, Trevor; B.A., M.P.A., Ph.D.
Title: Adjunct Faculty
B.A. - Pfeiffer University, M.P.A. - Webster University, Ph.D. - Walden University

Smith, Gregory; B.A., M.A., M.B.A.
Title: Associate Dean, Library Technologies & Collection Services
B.A. - Baptist Bible College, M.A. - University of Missouri-Columbia, M.B.A. - Liberty University

Smith, Bonita; B.A., M.A., M.A., Ph.D., Ph.D.
Title: Adjunct Faculty
B.A. - Baptist Bible College, M.A. - University of Missouri-Columbia, M.B.A. - Liberty University

Smith, Ganella; B.S., M.S., Ph.D.
Title: Assistant Professor
B.S. - University of Wisconsin-Milwaukee, M.S. - Capella University, Ph.D. - Capella University

Smith, Lonnie; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Radford University, M.S. - Radford University, Ph.D. - Union Institute & University

Smith, Rita; B.A., M.A., Ph.D.
Title: Assistant Professor
B.A. - Morgan State University, M.A. - University of Maryland in College Park, Ph.D. - University of Maryland in College Park

Smith, Shanda; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - California State University San Bernardino, M.A. - Azusa Pacific University, Ph.D. - Walden University

Smith, Charles; M.B.A., Ph.D.
Title: Assistant Professor
M.B.A. - Dallas Baptist University, Ph.D. - Capella University

Smith, Curtis; B.S., PHD
Title: Adjunct Faculty
B.S. - National-Louis University, PHD - Capella University

Smith, Amanda; M.S.
Title: Adjunct Faculty
M.S. - Troy University Atlanta

Smith, Almer; B.A., M.Div., Ph.D.
Title: Adjunct Faculty
B.A. - Hardin Simmons University, M.Div. - Southern Baptist Theological Seminary, Ph.D. - Southern Baptist Theological Seminary

Smith, Ashton; B.S., D.Min.
Title: Adjunct Faculty
B.S. - Virginia Commonwealth University, D.Min. - Luther Rice Seminary and University

Smith, Fred; B.S., M.A., Ph.D.
Title: Assistant Professor
B.S. - Toccoa Falls College, M.A. - Fuller Theological Seminary, Ph.D. - Fuller Theological Seminary

Smith, Alice; B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.A. - St. Thomas University, M.S. - Florida International University, Ed.D. - Capella University

Smith, Angela; B.A., M.Ed., Ed.D.
Title: Adjunct Faculty
B.A. - Arizona State University, M.Ed. - Northern Arizona University, Ed.D. - Arizona State University

Smith, Charles; B.A., M.S., Ph.D.
Title: Assistant Professor
B.A. - Southeastern College, M.S. - Nova Southeastern University, Ph.D. - Capella University

Smith, Gary; B.A., B.A., M.Ed., Ed.D.
Title: Adjunct Faculty

Smith, Samuel; B.A., B.A., M.A., Ed.D.
Title: Professor of Education
B.A. - Mid-America Christian University, B.A. - Mid-America Christian University, M.A. - Grace College and Seminary, Ed.D. - Oklahoma State University

Smith, Kristine; B.S., J.D.
Title: Instructor
B.S. - James Madison University, J.D. - College of William and Mary

Smith, Lisa; BSN, M.S.N., DNP
Title: Adjunct Faculty
BSN - University of Lynchburg, M.S.N. - University of Virginia, DNP - Radford University

Smith, Anthony; B.A., B.S., M.F.A.
Title: Professor of Studio & Digital Art
B.A. - Emmanuel College, B.S. - Radford University, M.F.A. - Radford University

Smith, C.; B.A., M.Div., Ph.D.
Title: Assistant Professor
B.A. - University of Memphis, M.Div. - Mid-America Baptist Theological Seminary, Ph.D. - Southwestern Baptist Theological Seminary

Smith, Justin; B.S., M.Div., Ed.D.
Title: Adjunct Faculty
B.S. - University of North Carolina at Charlotte, M.Div. - Southern Evangelical Seminary, Ed.D. - Southeastern Baptist Theological Seminary

Smither, Edward; B.A., M.A.R., M.Div., Ph.D., Ph.D.
Title: Adjunct Faculty
B.A. - North Carolina State University, M.A.R. - Liberty University, M.Div. - Liberty University, Ph.D. - University of Pretoria, Ph.D. - University of Wales Lampeter

Smylie, Kenneth; B.A., M.A., Ed.S., Ph.D.
Title: Adjunct Faculty
B.A. - Ambassador University, M.A. - Appalachian State University, Ed.S. - University of Florida, Ph.D. - University of Florida

Smylie, Scott; A.A., B.A., M.S., J.D.
Title: Adjunct Faculty
A.A. - Santa Fe College, B.A. - University of Florida, M.S. - University of Florida, J.D. - University of Florida

Snavely, Bruce; M.Div., Ph.D.
Title: Adjunct Faculty
M.Div. - Michigan Theological Seminary, Ph.D. - University of Bristol

Snead, David; B.A., M.A., Ph.D.
Title: Professor of History
B.A. - Virginia Polytechnic Institute and State University, M.A. - Virginia Polytechnic Institute and State University, Ph.D. - University of Virginia

Solitro, Abigail; B.S., B.S., Ph.D.
Title: Assistant Professor of Biology
B.S. - Ferris State University, B.S. - Ferris State University, Ph.D. - Van Andel Institute Grad Sch

Somado-Hemazro, Folly; M.B.A., Ph.D.
Title: Adjunct Faculty
M.B.A. - Purdue Global, Ph.D. - Walden University

Sopeju, Olugbenga; B.A., M.L., J.D.
Title: Adjunct Faculty
B.A. - Ogun State University, M.L. - Northwestern University, J.D. - University of Iowa

Sosin, Lisa; B.S., M.A., Ph.D.
Title: Professor of Counseling
B.S. - SUNY College at Brockport, M.A. - Center for Humanistic Studies, Ph.D. - Liberty University

Soto, Edward; B.A., B.A., J.D.
Title: Assistant Professor
B.A. - Christopher Newport University, B.A. - Christopher Newport University, J.D. - Regent University

Sousane, Richard; B.S., M.B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.S. - Villanova University, M.B.A. - Shepherd University, M.S. - George Washington University, Ed.D. - George Washington University

Sova, Harry; B.A., M.A., Ph.D.
Title: Professor of Advertising, Public Relations, & Journalism
B.A. - University of Wisconsin-Madison, M.A. - Indiana University, Ph.D. - Ohio University-Athens

Spangenburg, Janice; A.A.S., B.A., M.A., M.S., Ph.D.
Title: Adjunct Faculty
A.A.S. - Tidewater Community College in Virginia Beach, B.A. - Saint Leo University, M.A. - Fielding Institute, M.S. - Troy University, Ph.D. - Regent University

Spano, Eric; B.S., M.Div., Ph.D.
Title: Adjunct Faculty
B.S. - University of Alabama at Birmingham, M.Div. - Southwestern Baptist Theological Seminary, Ph.D. - Southwestern Baptist Theological Seminary

Spaulding, Lucinda; B.S., M.Ed., Ph.D.
Title: Associate Professor of Education
B.S. - Houghton College, M.Ed. - Roberts Wesleyan College, Ph.D. - Regent University

Speight, Sheila; A.D., B.A., M.S., Ph.D.
Title: Assistant Professor
A.D. - New Orleans Baptist Theological Seminary, B.A. - Southeastern University, M.S. - Troy University, Ph.D. - Capella University

Speight, Dallas; B.A., M.Div., M.S., D.Min., Ed.D.
Title: Assistant Professor
B.A. - Bob Jones University, M.Div. - New Orleans Baptist Theological Seminary, M.S. - Troy University, D.Min. - Columbia Theological Seminary, Ed.D. - Argosy University-Sarasota

Spindel, Paul; B.S., M.A., M.L., J.D.
Title: Professor of Law
B.S. - Evangel University, M.A. - Missouri State University, M.L. - University of Virginia, J.D. - University of Missouri-Kansas City

Spotts, Thomas; A.S., B.A., M.A., Ph.D.
Title: Assistant Professor
A.S. - University of South Carolina, B.A. - University of South Carolina, M.A. - Webster University, Ph.D. - Walden University

Springer, Gary; B.A., M.A., M.Ed., Ph.D., Ph.D.
Title: Assistant Professor
B.A. - University of Texas Austin, M.A. - St. Edward’s University, M.Ed. - University of Texas Austin, Ph.D. - California Southern University, Ph.D. - Northcentral University

St. Peters, Megan; B.S., Ph.D.
Title: Adjunct Faculty
B.S. - University of the Ozarks, Ph.D. - Northern Illinois University

Stacy, Robert; B.A., B.A., B.A., M.Div., Ph.D.

Watson, Rebecca; BM, D.M.A.
Title: Assistant Professor of Music Education & Double Reeds
BM - University of Minnesota, D.M.A. - University of Arizona

Waugh, Cynthia; B.A.
Title: Adjunct Faculty
B.A. - Mars Hill University

Weaver, Tory; B.S., M.B.A., Ph.D.
Title: Adjunct Faculty
B.S. - Fairmont State University, M.B.A. - West Virginia University, Ph.D. - North Carolina State University

Webb, Patrick; B.S., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - Lamar University, M.A. - Prairie View A&M University, Ph.D. - Prairie View A&M University

Weiss, Marc; A.G., B.S., MCJ, Ph.D.
Title: Adjunct Faculty
A.G. - Montgomery County Community College, B.S. - Mountain State University, MCJ - Mountain State University, Ph.D. - Walden University

Welch, Dave; B.B.A., M.B.A., D.B.A.
Title: Adjunct Faculty
B.B.A. - East Tennessee State University, M.B.A. - East Tennessee State University, D.B.A. - Argosy University-Sarasota

Welch-Simon, Lori; B.S., M.A., M.S., Ph.D.
Title: Assistant Professor
B.S. - Florida State University, M.A. - Fielding Institute, M.S. - Augusta State University, Ph.D. - Fielding Institute

Wells, Jason; B.S., Ph.D.
Title: Assistant Dean of Academics
B.S. - Allegheny College, Ph.D. - West Virginia University

Wells, Jerry; B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.A. - Western Kentucky University, M.S. - Eastern Kentucky University, Ed.D. - Spalding University

Wells, Melissa; B.A., M.A., Ed.D.
Title: Adjunct Faculty
B.A. - Wagner College, M.A. - Teacher's College at Columbia University, Ed.D. - Walden University

Welsh, Rebecca; B.S., M.Ed., Ph.D.
Title: Instructor
B.S. - Centenary College of Louisiana, M.Ed. - Oklahoma City University, Ph.D. - Capella University

Wendt, Jillian; B.S., M.Ed., Ed.D., Ed.S.
Title: Adjunct Faculty
B.S. - Virginia Commonwealth University, M.Ed. - Liberty University, Ed.D. - Liberty University, Ed.S. - Liberty University

Weniger, Jennifer; M.A., Ph.D.
Title: Assistant Professor
M.A. - Adler University, Ph.D. - California Southern University

Wentlandt, Shawna; B.A., M.A., Ph.D.
**Title:** Adjunct Faculty
B.A. - Washington State University, M.A. - Wayland Baptist University, Ph.D. - Walden University

Werner, Aaron; B.S., M.Div., Ph.D.
**Title:** Adjunct Faculty
B.S. - Liberty University, M.Div. - Southern Baptist Theological Seminary, Ph.D. - Southern Baptist Theological Seminary

Wesley, Sarita; B.S., M.B.A., M.S.W., Ph.D.
**Title:** Adjunct Faculty
B.S. - Southeast Missouri State University, M.B.A. - University of Phoenix, M.S.W. - University of Houston, Ph.D. - Capella University

West, Rosa; B.S., M.B.A., M.Ed., Ed.S., Ph.D.
**Title:** Assistant Professor
B.S. - University of Florida, M.B.A. - Saint Leo University, M.Ed. - University of Florida, Ed.S. - University of Florida, Ph.D. - University of Florida

Wetmore, Robert; B.A., M.Div., Th.M., Th.D.
**Title:** Adjunct Faculty

Whaley, Kimberly; B.S.E., M.Ed., M.S., Ed.D.
**Title:** Instructor
B.S.E. - Eastern New Mexico University, M.Ed. - University of Texas Tyler, M.S. - Walden University, Ed.D. - Walden University

Whaley, Vernon; B.A., M.A., M.A., D.Min., Ph.D.
**Title:** Dean, Professor of Worship & Music
B.A. - Welch College, M.A. - Middle Tennessee State University, M.A. - Luther Rice Seminary and University, D.Min. - Luther Rice Seminary and University, Ph.D. - University of Oklahoma

Whaley, Rodney; B.A., M.A., M.Div., D.Min.
**Title:** Assistant Professor
B.A. - Welch College, M.A. - Middle Tennessee State University, M.Div. - Luther Rice Seminary and University, D.Min. - Liberty University

Wheatley, John; B.S., M.Div., Ed.D.
**Title:** Assistant Professor
B.S. - Lancaster Bible College, M.Div. - Eastern Baptist Theology Seminary, Ed.D. - Argosy University-Sarasota

Wheeler, Bert; B.S., M.A., Ph.D.
**Title:** Adjunct Faculty
B.S. - University of Tennessee in Knoxville, M.A. - University of Tennessee in Knoxville, Ph.D. - University of Tennessee in Knoxville

Wheeler, David; B.S.E., M.Div., Ph.D.
**Title:** Professor of Evangelism/Church Ministries
B.S.E. - Tennessee Technological University, M.Div. - Southwestern Baptist Theological Seminary, Ph.D. - Southwestern Baptist Theological Seminary

Wheeler, Kelly; B.A., M.P.H., Ph.D.
**Title:** Assistant Professor
B.A. - University of Houston-Clear Lake, M.P.H. - Walden University, Ph.D. - Walden University

White, David; B.A., M.A., M.A., Ph.D.
**Title:** Adjunct Faculty
B.A. - George Washington University, M.A. - King's College, M.A. - University of Alabama, M.A. - Army Command and General Staff, Ph.D. - University of Alabama

White, Daria; M.S., Ph.D.
**Title:** Assistant Professor of Counseling
M.S. - Cairn University, Ph.D. - James Madison University

White, William; B.S., M.A., Ph.D.
**Title:** Assistant Professor
B.S. - Ball State University, M.A. - Ball State University, Ph.D. - Walden University

White, Douglas; B.A., M.R.E., Ed.D.
**Title:** Assistant Professor

White, Barbara; B.A., M.A., Ph.D.
**Title:** Assistant Professor
B.A. - University of South Florida, M.A. - University of South Florida, Ph.D. - University of South Florida

White, Kevin; B.A., M.S., Ph.D.
**Title:** Adjunct Faculty
B.A. - Black Hills State University, M.S. - Capella University, Ph.D. - Capella University

White, Shariva; B.S., M.Ed., Ed.D.
**Title:** Adjunct Faculty
B.S. - North Carolina A&T State University, M.Ed. - North Carolina State University, Ed.D. - Northeastern University

White, Diedri; B.S., M.S., DPH
**Title:** Instructor
B.S. - Andrews University, M.S. - Rosalind Franklin University of Medicine and Science, DPH - Loma Linda University

Whittington, Michael; M.Div., M.S., M.S.S., D.Min.
**Title:** Assistant Professor
M.Div. - Abilene Christian University, M.S. - Air University, M.S. - Abilene Christian University, M.S.S. - Air University, D.Min. - Saint Paul School of Theology

Whorley, Elizabeth; BSN, M.S.N., Ph.D.
**Title:** Assistant Professor of Nursing
BSN - Liberty University, M.S.N. - Liberty University, Ph.D. - Nova Southeastern University

Wicks, Carolyn; B.A., M.S., Ed.D., Ed.D.
**Title:** Adjunct Faculty

Wiegand, Joseph; B.A., M.A., M.L., J.D.
**Title:** Vice Provost
B.A. - Michigan State University, M.A. - Regent University, M.L. - University of London, J.D. - Regent University

Wielhouwer, Peter; B.S., M.A., Ph.D.
**Title:** Adjunct Faculty
B.S. - Heidelberg University, M.A. - University of Georgia, Ph.D. - University of Georgia
Wilhite, Dennis; B.R.E., M.R.E., Ed.D.
Title: Assistant Professor

Willard, Nancy; B.S., M.Ed., Ed.D., Ed.S.
Title: Adjunct Faculty
B.S. - Georgia State University, M.Ed. - Georgia State University, Ed.D. - Argosy University-Sarasota, Ed.S. - Georgia State University

Willert, Bert; B.S., M.L., J.D.
Title: Adjunct Faculty
B.S. - University of Southern California, M.L. - University of San Diego, J.D. - Thomas Jefferson School of Law

Williams, Charity; B.S.W., M.Div., Ph.D., S.T.M.
Title: Assistant Professor
B.S.W. - Jacksonville State University, M.Div. - New Orleans Baptist Theological Seminary, Ph.D. - New Orleans Baptist Theological Seminary, S.T.M. - New Orleans Baptist Theological Seminary

Williams, Robyn; B.S., M.A., Ed.D.
Title: Adjunct Faculty
B.S. - Towson University, M.A. - Bowie State University, Ed.D. - Argosy University-Arlington/DC

Williams, Charles; B.S., M.A., M.B.A., D, D.B.A.
Title: Adjunct Faculty
B.S. - Centenary College of Louisiana, M.A. - Rice University, M.B.A. - Texas A&M University, D.B.A. - Louisiana Tech University, D - Louisiana Tech University

Williams, Mike; M.B.A., D.S.L.
Title: Adjunct Faculty
M.B.A. - Colorado State University, D.S.L. - Regent University

Title: Adjunct Faculty
B.B.A. - Delta State University, M.A. - Luther Rice Seminary and University, M.B.A. - Liberty University, M.Div. - Luther Rice Seminary and University, M.R.E. - Luther Rice Seminary and University, Ed.D. - Liberty University, Ed.S. - Liberty University

Williams, Pattie; B.S., M.B.A., M.S., Ed.D.
Title: Adjunct Faculty
B.S. - University of Mount Olive, M.B.A. - Strayer University, M.S. - Saint Leo University, Ed.D. - Argosy University-Dallas, TX

Williams, Cynthia; B.S., B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - University of Florida, B.S. - Florida A&M University, M.S. - University of Central Florida, Ph.D. - University of Central Florida

Williamson, Valerie; B.S., M.P.A., Ph.D.
Title: Adjunct Faculty
B.S. - Georgia State University, M.P.A. - Columbus State University, Ph.D. - Walden University

Wilmouth, Carrie; B.S., M.A., Ph.D.
Title: Professor of Psychology
B.S. - Bridgewater College, M.A. - SUNY Binghamton University, Ph.D. - SUNY Binghamton University

Wilson, Billy; B.S., M.Ed., Ph.D.
Title: Adjunct Faculty
B.S. - Eastern Kentucky University, M.Ed. - Liberty University, Ph.D. - Capella University

Wilson, Beth; Ph.D.
Title: Adjunct Faculty
Ph.D. - Indiana University

Wilson, Joy; B.S., M.A., Ed.D.
Title: Professor of Psychology
B.S. - Northern Kentucky University, M.A. - Cincinnati Christian University, Ed.D. - University of Cincinnati

Wilson, Darnell; B.S., M.B.A., D.B.A.
Title: Adjunct Faculty
B.S. - Wilberforce University, M.B.A. - University of Findlay, D.B.A. - Argosy University - San Fran

Wilson, Joe; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - City University, M.S. - City University, Ph.D. - Capella University

Wilson, Jonathan; M.A., M.B.A., Ph.D.
Title: Adjunct Faculty
M.A. - University of Cranfield, M.B.A. - University of Cape Town, Ph.D. - University of Roehampton

Wilson, Muriel; B.S., Ph.D.
Title: Assistant Professor
B.S. - Old Dominion University, Ph.D. - University of Oxford

Wilson, Mary; B.S.E., M.A., Ed.D.
Title: Adjunct Faculty
B.S.E. - Malone University, M.A. - Malone University, Ed.D. - Liberty University

Wimberley, Alan; B.S., M.Ed., Ed.D.
Title: Adjunct Faculty
B.S. - Tarleton State University, M.Ed. - Liberty University, Ed.D. - University of North Texas

Windsor, Deborah; A.A., B.S., M.B.A., Psy.D.
Title: Instructor
A.A. - Central Virginia Community College, B.S. - Liberty University, M.B.A. - Liberty University, Psy.D. - Grand Canyon University

Wines, Maria; BSN, M.S.N., Ph.D.
Title: Adjunct Faculty
BSN - Dominican University of California, M.S.N. - Case Western Reserve University, Ph.D. - Loyola University

Winner, William; B.A., M.Div., Ph.D.
Title: Adjunct Faculty
B.A. - Eastern University, M.Div. - Eastern Baptist Theology Seminary, Ph.D. - Regent University

Wireman, Matthew; B.A., M.Div., Ph.D.
Title: Adjunct Faculty
B.A. - University of Louisville, M.Div. - Southern Baptist Theological Seminary, Ph.D. - Southern Baptist Theological Seminary

Wirth, Jacqueline; B.S.E., M.Ed., Ed.S., Ph.D.
Title: Faculty Mentoring Director
B.S.E. - Towson University, M.Ed. - Loyola University Maryland, Ed.S. - Louisiana State University-Baton Rouge, Ph.D. - Florida Atlantic University

Wise, Dawnne; B.S., M.P.H., Ph.D.
Title: Assistant Professor
B.S. - Ohio State University, M.P.H. - Ohio State University, Ph.D. - Ohio State University

Woo, Jeffrey; B.A., M.B.A., M.S., D.B.A.
Title: Adjunct Faculty
B.A. - University of Mary Washington, M.B.A. - Averett University, M.S. - Liberty University, D.B.A. - Nova Southeastern University

Wood, Benjamin; B.A., M.A., Ph.D.
Title: Assistant Professor of Psychology
B.A. - Azusa Pacific University, M.A. - California State University, Ph.D. - Hofstra University

Wood, James; B.A., M.Div., Ph.D.
Title: Adjunct Faculty
B.A. - University of Mobile, M.Div. - Southern Baptist Theological Seminary, Ph.D. - Regent University

Wood, Kelsey; B.S., DPT
Title: Adjunct Faculty
B.S. - University of Portland, DPT - Creighton University

Woodard, Branson; B.A., B.S., M.A., DA
Title: Professor of English
B.A. - Welch College, B.S. - East Carolina University, M.A. - Tennessee State University, DA - Middle Tennessee State University

Woodbridge, Russell; B.S., M.Div., Ph.D.
Title: Adjunct Faculty
B.S. - Rensselaer Polytechnic Institute, M.Div. - Southeastern Baptist Theological Seminary, Ph.D. - Southeastern Baptist Theological Seminary

Woodbridge, Jerry; B.S.E., M.A.T., Ph.D.
Title: Adjunct Faculty
B.S.E. - Eastern Nazarene College, M.A.T. - Jacksonville University, Ph.D. - Walden University

Wooddell, Joseph; B.S., M.Div., Ph.D.
Title: Adjunct Faculty
B.S. - Liberty University, M.Div. - Southern Baptist Theological Seminary, Ph.D. - Southern Baptist Theological Seminary

Woods, Terrance; B.S., M.B.A., M.B.A., Ph.D.
Title: Instructor
B.S. - University of the West Indies, M.B.A. - Nova Southeastern University, M.B.A. - Nova Southeastern University, Ph.D. - Capella University

Title: Adjunct Faculty
A.A. - University of North Georgia-Gainesville, B.S. - University of North Georgia-Dahlonega, M.Ed. - University of North Georgia-Dahlonega, Ed.D. - Liberty University, Ed.S. - University of North Georgia-Dahlonega

Woodworth, Steven; B.A., Ph.D.
Title: Adjunct Faculty
B.A. - Southern Illinois University, Ph.D. - Rice University

Woody, Dana; B.S., M.S.N., DNP
Title: Associate Professor of Nursing
B.S. - University of Lynchburg, M.S.N. - University of Lynchburg, DNP - Liberty University

Wright, Jason; B.S., M.A., Ph.D.
Title: Assistant Professor
B.S. - University of Lynchburg, M.A. - Liberty University, Ph.D. - Liberty University

Wright, Leonis; PHD
Title: Adjunct Faculty
PHD - University of South Carolina

Wright, James; M.Div., D.Min.
Title: Adjunct Faculty
M.Div. - Southern Baptist Theological Seminary, D.Min. - Southern Baptist Theological Seminary

Wynn, Crystal; B.A.C.C., M.P.H., Ph.D.
Title: Adjunct Faculty
B.A.C.C. - Delaware State University, M.P.H. - University of North Carolina at Chapel Hill, Ph.D. - Walden University

X

Xu, David; B.A., M.F.A.
Title: Adjunct Faculty
B.A. - Shanghai Jiao Tong University, M.F.A. - Pratt Institute

Xu, Diane; M.F.A.
Title: Adjunct Faculty
M.F.A. - Digital Media Arts College

Y

Yates, Brian; B.S., M.Ed., Ed.D.
Title: Dean, College of Applied Studies & Academic Success
B.S. - Grove City College, M.Ed. - Westminster College, Ed.D. - University of Pittsburgh

Yates, Gary; B.A., Th.M., Ph.D.
Title: Professor of Old Testament Studies
B.A. - Washington Bible College Capital Bible Seminary, Th.M. - Dallas Theological Seminary, Ph.D. - Dallas Theological Seminary

Yeager, Jonathan; M.A., M.T., Ph.D.
Title: Adjunct Faculty
M.A. - Regent College, M.T. - Regent College, Ph.D. - University of Stirling

Yeo, Ju-Ping Chiao; B.A., M.A., M.S., Ph.D.
Title: Adjunct Faculty
B.A. - National Cheng Chi University, M.A. - Reformed Theological Seminary, M.S. - Florida State University, Ph.D. - Liberty University

Yocum, Russell; B.A., M.Ed., Ed.D., Ed.S.
Title: Professor
B.A. - University of Kentucky, M.Ed. - University of West Florida, Ed.D. - University of West Florida, Ed.S. - University of West Florida

Young, George; B.S., M.S., Ph.D.
Title: Professor of Business
B.S. - Arizona State University, M.S. - Arizona State University, Ph.D. - Michigan State University

Z

Zabloski, James; B.S., M.S., Ed.D., Ed.S.
Title: Adjunct Faculty

Zakhari, Raymond; M.Ed., M.S.N., DNP
Degree Programs

 Degree Programs and Certificates

 Programs of Study

 Degree Programs. At the graduate level, Liberty University offers degree programs at the master's, post-master's (specialist), and doctoral levels. Concentrations and cognates within given degree programs are listed under the program. Liberty University defines a Concentration as a specific grouping of 18 or more credit hours that may be offered within the requirements for a Graduate Program. A Cognate/Specialization is defined as a specific grouping of 18 or more credit hours that may be offered within the requirements for a Graduate Program. A Program of Study is a degree with a specified Graduate Program and concentration or cognate (if applicable).

 Liberty University offers graduate degree programs of study in two formats:

 • Residential. With the residential delivery format, courses in a program are delivered on campus [face-to-face] and generally last the standard semester.
 • Online. With the online [distance education] delivery format, courses in a program are delivered to students through a virtual classroom experience that is flexible, personal and challenging. Through the online format a student can complete a program entirely online, with some exceptions in which a student is required to complete a minimum number of courses face-to-face on campus.

 Certificates. Certificates are offered at the graduate and post-graduate level. Each certificate differs; therefore, the student must follow the requirements carefully. All of the required coursework for a certificate must be completed at Liberty.

 The requirements for graduation for all graduate programs and certificates are listed in this Catalog and on Degree Completion Plans (DCP) which can be accessed at http://www.liberty.edu/dcps. Each Degree Completion Plan includes a Suggested Course Sequence page which can provide assistance to students in planning their classes for upcoming semesters.

 Regardless of format, the majority of the course work for any program of study must be earned at Liberty University. Graduate degree programs with concentrations or cognates/specializations, as well as graduate certificates, are listed below.

 Course Numbering and Identification

 Each course is identified by a four-letter prefix and a three-digit number. The letters represent the disciplinary area.

 Course Numbering

 500 Basic Master's Level
 600 Advanced Master's Level
 700 Special Master's Level and Doctoral Level
 800 Doctoral Level
 900 Advanced Doctoral Level

 School of Law Course Numbering

 A three-letter prefix and a three-digit number identify courses offered by the School of Law. Course numbers reflect program requirements and elective areas of interest; courses at the 900-level are designated for advanced skills in the study of law.

 500-595 Required Doctoral and Jurisprudential Courses
 601-621 Family and Juvenile Law Courses
 630-665 Business Courses
 705-747 Constitutional and International Law Courses
 755-765 Public Policy Courses
 771-904 Administrative Law and Advanced Skills Courses

 Course Prefixes

 The meaning of a course prefix can be found by using the course search tool in the left-side navigation. Searching by subject in the search panel will give the course prefix along with the meaning of the prefix.

 Programs A-Z

 A
 • Accounting (M.S.) - Audit & Financial Reporting (p. 141)
 • Accounting (M.S.) - Business (p. 142)
 • Accounting (M.S.) - Financial Services (p. 142)
 • Accounting (M.S.) - Forensic Accounting (p. 142)
 • Accounting (M.S.) - General (p. 143)
 • Accounting (M.S.) - Leadership (p. 143)
 • Accounting (M.S.) - Taxation (p. 144)
 • Addiction Counseling (M.A.) (p. 393)
 • American Legal Studies (J.M.) (p. 620)
 • Anatomy & Cell Biology (Ph.D.) (p. 588)
 • Applied Communication Studies - Graduate Certificate (p. 443)
 • Applied Industrial/Organizational Psychology (M.A.) (p. 420)
• Applied Psychology (M.A.) - Developmental Psychology (p. 424)
• Applied Psychology (M.A.) - Industrial/Organizational Psychology (p. 424)
• Autism Education - Graduate Certificate (p. 570)

B

• Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nurse Educator (B.S.N. to M.S.N.) - Online (p. 691)
• Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nursing Administration (B.S.N. to M.S.N) - Online (p. 692)
• Bachelor of Science in Nursing for RNs: Post Licensure & Master of Science in Nursing: Nursing Informatics (B.S.N. to M.S.N) - Online (p. 694)
• Bible Exposition (Ph.D.) (p. 260)
• Biblical Exposition (M.A.) (p. 262)
• Biblical Studies (M.A.B.S.) (p. 263)
• Biblical Studies - Graduate Certificate (p. 332)
• Biomedical Sciences (M.S.) (p. 595)
• Business Administration (D.B.A.) - Accounting (p. 105)
• Business Administration (D.B.A.) - Finance (p. 105)
• Business Administration (D.B.A.) - Healthcare Management (p. 106)
• Business Administration (D.B.A.) - Human Resources (p. 107)
• Business Administration (D.B.A.) - Information Systems (p. 107)
• Business Administration (D.B.A.) - International Business (p. 108)
• Business Administration (D.B.A.) - Leadership (p. 108)
• Business Administration (D.B.A.) - Marketing (p. 109)
• Business Administration (D.B.A.) - Non-Profit Leadership & Management (p. 109)
• Business Administration (D.B.A.) - Project Management (p. 110)
• Business Administration (D.B.A.) - Real Estate Development (p. 110)
• Business Administration (D.B.A.) - Strategic Management (p. 111)
• Business Administration (D.B.A.) - Strategic Media & Digital Content (p. 111)
• Business Administration (D.B.A.) - Supply Chain Management & Logistics (p. 112)
• Business Administration (M.B.A.) - 36-hour (p. 127)
• Business Administration (M.B.A.) - Accounting (p. 128)
• Business Administration (M.B.A.) - American Legal Studies (p. 129)
• Business Administration (M.B.A.) - Criminal Justice Administration (p. 129)
• Business Administration (M.B.A.) - Economics (p. 130)
• Business Administration (M.B.A.) - Finance (p. 130)
• Business Administration (M.B.A.) - Healthcare Management (p. 131)
• Business Administration (M.B.A.) - Human Resources (p. 131)
• Business Administration (M.B.A.) - International Business (p. 132)
• Business Administration (M.B.A.) - International Legal Studies (p. 133)
• Business Administration (M.B.A.) - Leadership (p. 133)
• Business Administration (M.B.A.) - Marketing (p. 134)
• Business Administration (M.B.A.) - Non-Profit Leadership & Management (p. 134)

C

• Christian Apologetics (M.A.) (Non-Thesis) (p. 319)
• Christian Apologetics (M.A.) (Thesis) (p. 319)
• Christian Leadership - Graduate Certificate (p. 332)
• Christian Ministry (M.A.C.M.) (p. 279)
• Christian Ministry - Graduate Certificate (p. 332)
• Clinical Mental Health Counseling (M.A.) (p. 396)
• Communication & Business Administration - Graduate Certificate (p. 443)
• Communication (M.A.) (p. 436)
• Communication (Ph.D.) (p. 432)
• Communication for Human Services - Graduate Certificate (p. 443)
• Community Care & Counseling (Ed.D.) - Marriage & Family Counseling (p. 358)
• Community Care & Counseling (Ed.D.) - Pastoral Care & Counseling (p. 359)
• Community Care & Counseling (Ed.D.) - Traumatology (p. 359)
• Composition (M.A.) (p. 184)
• Counselor Education & Supervision (Ph.D.) (p. 390)
• Criminal Justice (M.S.) (p. 238)
• Criminal Justice (M.S.) - Cybercrime Investigation (p. 239)
• Criminal Justice (M.S.) - Forensic Psychology (p. 240)
• Criminal Justice (M.S.) - Homeland Security (p. 240)
• Criminal Justice (M.S.) - Law Enforcement Leadership (p. 241)
• Criminal Justice (M.S.) - Public Administration (p. 241)
• Criminal Justice (Ph.D.) (p. 212)
• Criminal Justice (Ph.D.) - Homeland Security (p. 213)
• Criminal Justice (Ph.D.) - Leadership (p. 213)
• Criminal Justice - Advanced Graduate Certificate (p. 222)
• Criminal Justice - Graduate Certificate (p. 222)
• Curriculum & Instruction (Ed.D.) (p. 469)
• Curriculum & Instruction (Ed.D.) - Elementary Education (p. 471)
• Curriculum & Instruction (Ed.D.) - Middle Grades Education (p. 473)
• Curriculum & Instruction (Ed.D.) - Secondary Education (p. 475)
• Curriculum & Instruction (Ed.D.) - Special Education (p. 478)
• Curriculum & Instruction (Ed.S.) (p. 506)
• Curriculum & Instruction (Ed.S.) - Elementary Education (p. 508)
• Curriculum & Instruction (Ed.S.) - Middle Grades Education (p. 510)
• Curriculum & Instruction (Ed.S.) - Secondary Education (p. 512)
• Curriculum & Instruction (Ed.S.) - Special Education (p. 514)
• Curriculum & Instruction (M.Ed.) - Early Childhood Ed. (add-on endorsement) (p. 563)
• Curriculum & Instruction (M.Ed.) - Educational Law (Non-Licensure) (p. 609)
• Curriculum & Instruction (M.Ed.) - Educational Technology (Non-Licensure) (p. 563)
• Curriculum & Instruction (M.Ed.) - Elementary Education (Non-Licensure) (p. 564)
• Curriculum & Instruction (M.Ed.) - English (Non-Licensure) (p. 564)
• Curriculum & Instruction (M.Ed.) - General Education (Non-Licensure) (p. 565)
• Curriculum & Instruction (M.Ed.) - Gifted Education (add-on endorsement) (p. 565)
• Curriculum & Instruction (M.Ed.) - History (Non-Licensure) (p. 566)
• Curriculum & Instruction (M.Ed.) - Leadership (Non-Licensure) (p. 566)
• Curriculum & Instruction (M.Ed.) - Middle Grades (Non-Licensure) (p. 567)
• Curriculum & Instruction (M.Ed.) - Special Education (Non-Licensure) (p. 567)
• Curriculum & Instruction (M.Ed.) - Student Services (Non-Licensure) (p. 568)
• Curriculum & Instruction (M.Ed.) - Urban Education (Non-Licensure) (p. 568)
• Curriculum & Instruction - Executive Graduate Certificate (p. 571)
• Cyber Security (M.S.) (p. 146)

Campus Recreation
Chris Misiano, B.S., M.A.R., M.R.E.
Vice President of Campus Recreation
The Department of Campus Recreation provides a variety of options for resident and online students to interact socially through state of the art indoor and outdoor recreation facilities as well as programs and services that provide entertainment and physical fitness.

Campus Recreation helps to connect students to all that Liberty University has to offer beyond the classroom. By offering dozens of sporting options through the Intramural Sports and Club Sports departments, Campus Recreation gives every student an opportunity to participate in a competitive sport. In order to assist in the social atmosphere on campus, the Student Activities department plans weekly entertainment events. Several different fitness facilities are available for student use to stay physically fit, or they can relax with friends at one of the different lounge areas on campus. With all of these options, Campus Recreation offers something for everyone.

Student Activities
Steph Ward, B.S., M.S.
Director of Student Activities
The Student Activities department is committed to the service of the students of Liberty University by providing a variety of culturally-relevant events and recreational activities throughout each semester, giving students a full calendar of social occasions to interact with one another and enhance their overall experience.

Student Activities provides an extensive variety of entertainment opportunities, usually free or at an exclusive Liberty University discount price. Events range from concerts featuring nationally acclaimed performers (Lecrae, Switchfoot, For King & Country, Needtobreathe, and more), movie nights, game nights, student concerts, art expos and more. For detailed information visit the Student Activities website at http://www.liberty.edu/studentactivities.

Outdoor Recreation
Mike Ellsworth, B.S., M.A.
Director of Outdoor Recreation
The Outdoor Recreation Department plans and executes a wide range of outdoor events and trips each semester. Outdoor Recreation staff provide opportunities for students to go white water rafting, kayaking, horseback riding, fly fishing, hiking, and camping. The Outdoor Recreation Department also hosts the Liberty Mountain Trail Series, which comprises several trail races during the fall and spring semesters.

Hydaway Outdoor Recreation Center
The Hydaway Outdoor Recreation Center features an eight-acre lake with beach access for swimming, as well as outdoor equipment rentals. Students can check out items such as, canoes, kayaks, fishing gear, camping gear, and mountain bikes. Additionally, team building and leadership development courses can be scheduled for groups on our high and low ropes course. The facility has eight campsites and multi-purpose space for group meetings as well as events.
Liberty Mountain Trail System
The Liberty Mountain Trail System consists of over 65 miles of single and double track trails and logging roads that spans approximately 5,000 acres. The mountain rises to over 1,360 feet and offers something for all difficulty levels, from a leisurely stroll to the Liberty University Monogram, to cross country and gravity-fed trails for both hiking and mountain biking. A trail map and additional information is available online at http://www.liberty.edu/outdoorrecreation.

Recreation Centers
Jamie Swyers, B.S., M.P.H.
Director of Recreation Centers

Recreation Centers (which includes the LaHaye Recreation and Fitness Center, Montview Bowling Alley, Montview Game Room, David’s Place, and the Liberty Natatorium) provide multiple opportunities for meeting the recreational, fitness, and wellness needs of the University family. More information is available online at www.liberty.edu/campusrec/recenters or by calling (434) 592-3223.

LaHaye Recreation and Fitness Center
The LaHaye Recreation and Fitness Center offers students a variety of co-curricular environments that provide vital physical and social outlets for the development of a well-rounded collegiate experience. This includes state of the art fitness equipment, 7 basketball courts, 4 racquetball courts, 2 indoor soccer fields, a rock wall, an aquatic center, an indoor track, six group exercise studios, and more. Students have the opportunity to participate in a variety of programs including over 80 group fitness classes per week, personal training, bouldering classes, fitness workshops and competitions.

Montview Bowling Alley and Game Room
The Montview Bowling Alley provides 8 bowling lanes and 2 billiards tables. Bowling balls and shoes are available for rental. Students can bowl by the game or by the hour. Bowling memberships are available for purchase for unlimited bowling. The Montview Game Room provides board games, PS4 games, XBOX One games, pool cues, paddles, and other equipment for checkout. There are several game consoles, billiard tables and table tennis tables available for use with the checked out equipment.

David’s Place
David’s Place is dedicated to the memory of David A. DeMoss, a gentle and loving young man who died tragically in an automobile accident in January 1988. David’s Place is a recreational center that offers billiards, a theatre (featuring a Blu-ray player with a surround sound system), video gaming room (with Playstation 4), and a heated outdoor pool with patio heaters on the pool deck. The facility features Bistro ’71, our grab-and-go location offering delicious flatbread melts and gourmet pizzettes.

Liberty Natatorium
The Liberty Natatorium is a multi-use, state of the art aquatics facility. The building features an Olympic size, 10 lane pool with a moveable bulk head to adjust the distances to 50 meters, 25 meters or 25 yards. The facility also contains a 17 foot deep diving well with diving platforms ranging from 1-10 meters high. Students can take advantage of this facility during recreational swim hours during the week.

Additional Facilities
Equestrian Center
Suzanne Flaig, B.A.
Associate Director/Associate Head Coach

The Equestrian Center is home to Liberty Hunter and Western Equestrian Teams, trail riding opportunities as well as student boarders and physical education riding classes. Three main barns hold 52 horse stalls, 8 grooming stalls, and 5 indoor wash stalls with hot water. There are air-conditioned and heated boarder and team tack rooms, feed rooms, offices, equestrian team locker rooms and showers, team lounge and study rooms, classroom, as well as restrooms and kitchenettes. Wireless internet is throughout the boarder barn. All stalls are rubber matted, 12’ x 12’, with sliding front doors and Dutch back doors, most with an all-weather outdoor run. High ceilings and 14’ wide aisle ways make the barns roomy and airy.

Horses are provided with daily turnout in 18 pastures, each from 5 to 10 hilly acres with automatic waterers and loafing sheds. There are miles of riding trails on the mountain, in addition to the two brand new arenas. The 120’ x 300’ outdoor ring has lights and an automatic water cannon watering system. The 120’ x 300’ indoor ring is one of largest in Virginia, with state-of-the-art lights and ventilation, and is used for collegiate shows and other events, in addition to daily riding. Altogether, the Liberty Equestrian Center is nearly 400 acres, with 60 stalls, and 72,000 square feet of high tech riding surface. More information can be found here https://www.liberty.edu/campusrec/equestrian/.

Liberty Mountain Snowflex Centre
Caleb Acree, B.A.
General Manager

Liberty Mountain Snowflex® Centre, located off Candler’s Mountain Road, consists of two main distinct ski runs. This includes a beginner slope, intermediate slope, advanced slope/terrain park, a 260-foot tubing run, a trampoline and a 50 x 50 ft. Airbag for air awareness training. The 550-foot terrain run has three jumps with a quarter pipe at the bottom, and a 550-foot ski slope with multiple rail features for all levels.

The ski lodge is an 8,000 square foot facility at the base of the ski runs. This building houses the ticket office, ski school, event scheduling, and rental area on the first floor with a seating and concession area on the second floor with a full view of the ski slope, amazing view of the campus and the Blue Ridge Mountains. The Snowflex Centre is a great venue for birthday parties, business meetings, classes, and events. It hosts multiple ski and snowboard summer camps along with fun activities all summer long. The Liberty Mountain Snowflex Centre is open all year round for Liberty University students and public access.

Skate Park
The Liberty Mountain Skate Park is located in the Candler’s Mountain Shopping Center. The Skate Park is an indoor facility, which allows students and the community to skateboard, BMX, or inline skate all year round. The Park has various features for beginners through advanced, such as: two mini ramps, quarter pipe, hubba box, handrails, and a bowl.

Intramural Sports
Ed Barnhouse, B.S.
Director of Intramural Sports
The University believes that sports, both inter-collegiate and intramural, have definite educational value, and that few other agencies offer so much that is potentially good for character building in American youth.

Intramural Sports are organized recreational sports leagues that allow students at Liberty to participate in a variety of team and individual sports. Competition exists, but the real focus of intramural sports is health and exercise, social interaction, stress reduction, sportsmanship, and teamwork.

During the fall and spring semester, a program of competitive intramural sports is sponsored that opens the way for wide participation on the part of both men and women. Information on intramural sports is available at https://www.liberty.edu/campusrec/intramural-sports/.

Outdoor Facilities

Sand Volleyball Complex
Consisting of eight courts, which were completed in two phases, this facility is a premiere venue in the area. Lights provide the opportunity for evening play. The complex is the home for Liberty’s men’s and women’s Beach Volleyball Teams and coed intramural sports leagues. It is also available for pick up play for the Liberty University students.

East Campus Athletic Complex
The East Campus Athletics Complex was completed in August 2011. Two fields are surfaced with an in-filled synthetic turf that is the home of men’s and women’s lacrosse teams. A third astro turf field is the home of the women’s field hockey team. All three fields are used for intramural sports play that includes soccer, flag football and ultimate Frisbee. A fieldhouse with offices, team rooms and locker rooms is also located at the complex.

Liberty Mountain Intramural Sports Complex
This recreational facility was completed on East Campus in fall 2012. It consists of four distinct areas. A 220,000 square foot, multi-purpose turf area is the home to flag football, softball and ultimate Frisbee. A natural grass, recreational softball field sits next to the turf area. Due to the enormous popularity of the sand volleyball courts, four additional courts were added to make a total of eight courts at Liberty University.

Paintball Fields
Liberty University’s Paintball Team has a premiere facility to prepare for and host competitions. The paintball complex consists of two fields with a retractable netting system made with a protective mesh. Students may watch the team behind the safety of the netting during practices. These fields are open for Club Sports, special events, and recruitment events.

Disc Golf Courses
Two different courses exist on Liberty’s campus. The first is located on the mountain near the Hydaway Outdoor Recreation in conjunction with the Liberty Trail System, and the second is located on East Campus. They serve as the home of the Liberty Flames Disc Golf Team. Disc golf is similar to traditional golf in that players tee off and attempt to reach a particular hole in the fewest number of strokes. Unlike normal golf, however, players throw discs, and the “holes” are actually elevated baskets made of metal. The 27-hole course located at the Hydaway Outdoor Recreation Center and the 20-hole course located on East Campus include tee pads for beginners and experts alike.

Usage will vary from intramural sports leagues, to open recreational play among students.

3-D Archery Range
Located on Liberty Mountain, is a 3-D Archery Range nestled in 10 acres for the Liberty Flames Archery Team. The range consists of 20 life-like animal targets as well as several practice bag targets. In order to qualify as a potential state qualifier site, the range is setup to comply with Archery Shooters Association (ASA) standards. The Archery Team has access to shoot and hold tournaments on the 3-D Archery Range.

Liberty Mountain Gun Range
Bill Crawford, B.S., M.S.
General Manager
Located across the street from Hydaway Outdoor Recreation Center, the nearly 600 acre facility is home to state-of-the-art Olympic Shotgun
fields, 100 to 300 yard rifle ranges, and a 3-Gun/Pistol range. The Shotgun portion has four disciplines: Trap (American or International), Skeet (American or International), 5-Stand, and Sporting Clays. The Rifle range will host 100, 200, and 300 yard ranges to allow for higher powered firearms to be used. Lastly, our 3-Gun/Pistol range will be a multi-use facility that allows for a mix of both higher and lower powered firearms.

Students will be able to shoot on the range provided they show completion of Liberty University Police Department's (LUPD) Gun Safety Course, which has two parts: 1) class room instruction and 2) showing competency with firearms on LUPD's current range. The Liberty Mountain Gun Range (or Club) is also home to Liberty University's Competitive Shooting Team. More information on the team can be found here https://www.liberty.edu/campusrec/gun-range/.

Intercollegiate Athletics
Administration
Ian McCaw, B.S., M.S.
Director of Athletics
Mickey Guridy, B.S., M.B.A.
Senior Associate Athletics Director, Internal Operations

Kevin Keys, B.S.
Executive Producer of Broadcast Communications
Bert Locklin, B.S., M.A.
Associate Athletics Director for Compliance
Todd Wetmore, B.S.
Associate Athletics Director for Communications

Academic Affairs for Athletics
The primary mission of Academic Affairs for Athletics at Liberty University is to provide continuous academic, athletic, social, and spiritual development for each student athlete. Utilizing the expertise of our staff in collaboration with institutional programs at Liberty University, our student-athletes receive professional advising, career and academic skill development, tutoring, and mentoring services. Our program assists student-athletes in finding and maintaining a balance between the demands of athletics and academics while preparing them as socially responsible individuals for life after athletics.

Cheerleading
Jordan Ballard, Head Coach

Mission and Philosophy
The mission of the Liberty University cheerleading squad is first to glorify the Lord Jesus Christ in everything, including and especially through cheerleading. Second, Liberty University cheerleaders are ambassadors for the university who are to reflect the spiritual, academic, social, emotional and physical values and expectations of the university. Third, the Liberty University cheerleading squad is to provide positive support for athletics teams, to serve at various university and community events, and to participate in fundraising activities to support the program. In participating in these activities and events, the cheerleaders will work to improve recognition and loyalty to Liberty University, promote student and fan morale and excitement, and develop and promote the Liberty University cheerleading squad. The team verses are Colossians 3:23-24: "Whatever you do, work at it with all your heart, as working for the Lord - 
is the Lord Christ you are serving." This passage reflects the standard of excellence for which Liberty University cheerleaders strive in their service to the Lord Jesus Christ.

Program Structure and Basic Information
The Liberty University cheerleading squad comprises between 16-22 coed stunt couples. The cheerleaders practice 3-4 times per week and workout 2-3 times per week. Game day includes football, volleyball, and basketball games. The top cheerleaders represent Liberty University in the Coed D1A division at the UCA College National Championship in January. The rest of the squad competes at CCA Nationals in March. Partial scholarships are available and are awarded on the basis of skills and character. For more information on the program or the application process, tryout procedures and scholarship aid, please visit us online at www.LibertyFlames.com/cheerleading or contact the coaching staff at cheer@liberty.edu.

Student Flames Club
The Student Flames Club exists to promote school spirit, enhance the Game Day atmosphere, and to give the student body an avenue to identify with the University's athletics programs. Membership is only $25 (valued at $50) and available to all residential & online students.

Member Benefits:
• SFC T-shirt and drawstring backpack
• 10% discount at the Liberty University Barnes & Noble Bookstore
• Coupons and discounts at local restaurants and stores
• Member of the Month recognition and prizes (Apple TV, FitBit, LU Bookstore prize pack)
• Opportunity to reserve premium tailgating space for all home football games
• First priority on tickets for select away games and postseason events
• Invitation to exclusive SFC events

Membership and benefits are valid for the 2019-20 academic year.

Office of Spiritual Development
David Nasser
Senior Vice President for Spiritual Development

Josh Rutledge
Vice President for Spiritual Development

The Office of Spiritual Development manages and oversees all the co-curricular ministry and mission of Liberty University—providing vision, structure, and commonality between the various departments that service Liberty University students, faculty, and staff. The following departments answer to the Office of Spiritual Development.

LU Send
David Welch
Executive Director, LU Send

Brandon Milks
Director of Strategic Planning and Management, LU Send

Audrey Hammond
Director of Academic Operations, LU Send

LU Send develops Champions for Christ through academic enrichment and cultural engagement in student travel.

Additional Information
For more information on LU Send visit the website at: http://www.liberty.edu/lusend.

LU Serve
Dr. Lew Weider
Executive Director, LU Serve

LU Serve develops Champions for Christ through local, domestic, and international engagement opportunities.

Additional Information
For more information on LU Serve visit the website at: http://www.liberty.edu/luserve.

LU Stages
Ashley Lison
Executive Director, LU Stages

LU Stages develops Champions for Christ through campus-wide events and ministry experiences.

Additional Information
For more information on LU Stages visit the website at: http://www.liberty.edu/lustages.

LU Shepherd
Wes Franklin
Executive Director, LU Shepherd

Tim Griffin
Director, LU Shepherd

LU Shepherd develops Champions for Christ by fostering a holistic community through peer mentorships, pastoral care, and life-skills training.

Additional Information
For more information on LU Shepherd visit the website at: http://www.liberty.edu/lushepherd.

Liberty Worship Collective
Kevin Huguley
Executive Director, Liberty Worship Collective

The Liberty Worship Collective exists to cultivate and influence vibrant worship on campus and around the world.

Additional Information
For more information on Liberty Worship Collective go to http://www.liberty.edu/worshipcollective.

Center for Online Engagement
Will Scheren
Director, Center for Online Engagement
The Center for Online Engagement provides comparable resources of Spiritual Development content and opportunities online.

**Additional Information**
For more information on the Center for Online Engagement visit the website at: http://www.liberty.edu/onlineengagement.

**Offices for Diversity, Equity, & Inclusion**

Greg Dowell  
Vice President for Equity and Inclusion and Chief Diversity Officer

**Purpose**
The Offices for Diversity, Equity and Inclusion are responsible for leading the development and implementation of proactive equity and inclusion initiatives, which support the University’s desire to have culturally and ethnically diverse students, faculty, staff, and leadership, free from all unbiblical and unlawful discrimination.

**Non-Discrimination Statement**
To view Liberty University’s Non-Discrimination Statement click here: http://www.liberty.edu/financeadmin/studentfinances/index.cfm?PID=30442.

**Office of Equity and Compliance: Title IX**

Nathan Hopkins  
Executive Director  
Title IX Coordinator

The purpose of the Office of Title IX is to oversee compliance with Title IX pursuant to the Education Amendment of 1972. Liberty University is committed to providing students and employees with an environment free from sex-based discrimination, which can include sexual harassment, sexual assault, sexual misconduct, and other forms of sex-based discrimination. The office is also responsible to enforce one investigative policy that addresses all protected classes indicated by:

- Race
- Color
- Ancestry
- Age
- Sex
- National Origin
- Pregnancy or Childbirth
- Disability
- Military Veteran Status

All members of the Liberty community are expected to treat each other with a spirit of Christian love, mutual respect, and individual dignity.

**Title IX**
To view Title IX information and Contacts click here: www.liberty.edu/officeofequityandcompliance.

**Speak UP**
https://www.liberty.edu/speakup

**Office of Equity and Inclusion**

Melany Pearl  
Executive Director

The Office of Equity and Inclusion promotes diversity in our academic and professional community. This is accomplished through biblically qualified efforts in the development of growth-focused programming and the education of inclusive excellence principles. The office provides training, support, and community-building opportunities for leadership, faculty, staff, and students campus-wide. This is accomplished through:

- Diversity Mentorship/Retention
- Group Discussions
- Educational Training
- Professional Development
- One-on-one/Group Coaching
- Accreditation Support
- Discrimination Advocacy

Similarly, the office is responsible for leading the development and implementation of proactive equity and inclusion initiatives, which support the University’s desire to have culturally and ethnically diverse students, faculty, staff, and leadership, free from all unbiblical and unlawful discrimination, answering the Matthew 25:40 call to serve God by serving one another.

**Office of Disability Accommodation Support (ODAS)**

Denny McHaney  
Executive Director  
Associate Professor of Education

Under the umbrella of the Offices for Diversity, Equity, and Inclusion, the Office of Disability Accommodation Support was created to coordinate academic support services for Liberty University students who have documented disabilities.

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of disability against students in institutions of higher education. Section 504 mandates “reasonable” accommodations to provide equal program access to all students with disabilities. Faculty must provide accommodations that meet the special needs of each student with a disability.

The University has an obligation to make reasonable accommodations in policies, practices or procedures when accommodations are needed to prevent discrimination on the basis of disability unless making the accommodations would fundamentally alter the nature of the service, program or activity, or would result in undue financial and administrative burdens.

A student who requests accommodations is required to sign a request form each semester giving Disability Support Advisors permission to send the request for accommodations. Then each student is instructed to individually seek a private meeting with professors to discuss any accommodations that may be necessary. Professors only need to arrange for those accommodations which have been identified.

Students with documented disabilities may be eligible for some of the following services:
Student Affairs carries out this mission by:

- Responding to the needs of students as they grow spiritually, academically and socially
- Presenting leadership opportunities and offering leadership training
- Maintaining an atmosphere that provides fertile ground for spiritual growth

Office of the Dean of Students

The Office of the Dean of Students comprises the Office of Community Life, Office of Student Life, Student Counseling Services, Commuter Student Life, Graduate Student Life, and the Office of Online Student Life. The Office exists to meet the emotional, physical and spiritual needs of each student in a way that promotes holistic student development and individual maturity. For additional information, visit the Office of the Dean of Students’ website.

Office of Community Life

Purpose

The purpose of the Office of Community Life is to engage students to actively experience a holistic community through abiding by the code of conduct, participating in restorative practices, receiving mentoring, and utilizing conflict resolution. Community Life seeks to engage students in a critical time of personal development to educate and equip them to better live in community with one another.

Code of Conduct

The Administration and Faculty have committed Liberty to the highest standards of moral and ethical conduct. No one will become spiritual merely by observing rules; nonetheless, the spiritual student will desire to abide by the rules, regulations and policies. Liberty holds as one of its foremost goals the development of men and women of strong character. Firm moral conviction and dependable self-discipline are as important to the mission of the university as academic aptitude.

Students are expected to conduct themselves according to the rules of the University at all times. The specific rules, regulations and policies that govern student behavior are outlined both in this catalog and in the Code of Honor, which is available on the Office of Community Life website.

Students enrolled in the Liberty University Graduate School and Liberty University Online are subject to the Liberty University Code of Honor as well as the Liberty Way (if living on campus). This information is available online at http://www.liberty.edu/index.cfm?PID=19155 as well as this Catalog.

Students enrolled in the Liberty University College of Osteopathic Medicine (LUCOM) are subject to the LUCOM Code of Conduct. This information is available on the LUCOM website at http://www.liberty.edu/lucom/index.cfm?PID=28793.

Students enrolled in the School of Law are subject to the Liberty University School of Law Academic Honor Code and Personal Code of Honor. This information is available on the School of Law website at http://www.liberty.edu/law/.

Students enrolled in the College of Osteopathic Medicine are subject to the Liberty University College of Osteopathic Medicine Code of Conduct. This information is available on the College of Osteopathic Medicine website at http://www.liberty.edu/lucom/.

Deaf and Hard of Hearing Services

Jackie Owen
Coordinator/Interpreter
Deaf and Hard of Hearing Services

Housed within the office of Disability Academic Support (ODAS), Deaf and Hard of Hearing Services provides accommodations for students who are d/Deaf or hard of hearing. These services may include the provision of qualified Sign Language interpreters for academic classes and related events, cultural mediation, note takers, academic advising, priority classroom seating, and priority pre-registration.

Student Affairs

Mark Hine, B.S., M.Div., D.Min.
Senior Vice President for Student Affairs

Robert Mullen, B.S., M.Div., J.D.
Dean of Students

Joshua Brown, B.S., M.Ed., Ph.D.
Director for Research and Assessment

Dustin DuBose, B.S., M.Div.
Executive Director of Residence Life

Executive Director for Student Health and Wellness Services

Office of the Senior Vice President

Purpose

The purpose of Liberty University's Office of the Senior Vice President for Student Affairs is to work with the administration, faculty and staff to foster an experience that promotes personal development and learning.

The Division contributes to the University's mission by preparing students for leadership and involvement in an increasingly diverse, technologically-sophisticated and complex global society.

Student Affairs carries out this mission by:

- Extended time for testing
- Testing in a quiet environment
- Note-taking help
- Priority pre-registration
- Interpreters
- Assistive technology lab
- JAWS for Windows – screen reading software for the visually impaired
- Kurzweil 3000 – scanning and reading software for students with reading disabilities
- Dragon Naturally Speaking – speech recognition software which can turn speech into print
- CCTV – magnification hardware for the visually impaired
- Offering co-curricular programming that encourages students' academic growth
- Promoting and celebrating the rich cultural differences found at the University
- Assisting students in responsible decision-making
CARE Team
The CARE Team (Collaborate, Assess, Resource, Empower) exists to promote the safety and well-being of the university community. The CARE Team, comprised of core members from departments across campus that have the most direct student interaction, works collaboratively to assess students who may be displaying concerning behavior(s), and seeks to effectively resource them to on and off campus providers that help promote holistic student success. The CARE Team provides two primary services: threat assessment and case management. Threat assessment is conducted on each referral to determine the level of risk a student poses to themselves or others. Case management and advocacy services are also offered to help determine what resources may be most beneficial for the students’ unique situation, or to collaborate with students on resources they are already pursuing.

Graduate Student Life
Graduate students can connect with similar students in the Commuter Lounge in GH 1875, at professional development workshops designed for graduate students, or at events designed for this cohort. Graduate Student Life is located in GH 1887.

Commuter Student Life
Commuters are encouraged to get connected with other commuters in the Commuter Lounge in GH 1875 and at events planned for commuters. Commuters can follow Commuter Student Life on Facebook at https://www.facebook.com/LUCommuterLife/ and on Instagram at https://www.instagram.com/lucommuterlife/.

Commuter Community Groups
These groups are designed to give commuters a similar spiritual connection as on-campus residential students. These groups are set up as either male, female, or co-ed and they meet on various days of the week on or off campus. Commuters interested in being a Commuter Shepherd are invited to fill out this form - https://form.jotform.com/82146720786159.

Student Health Center & Wellness Initiatives
Purpose
The department of Student Health Center and Wellness Initiatives seeks to provide quality medical health services and educational programming that promotes healthy living in the university community.

Department Objectives
• Provide designated clinics and services that are cost-effective and responsive to student needs.
• Promote campus-wide wellness initiatives so as to reduce the impact of illness and other health concerns which may interfere with student success.
• Maintain the security of student health records and oversee the official release of information to comply with federal and state regulations.
• Coordinate the distribution of self-disclosed student medical information among university departments so that students with health related needs might secure the necessary support services.

• University Services - Online (p. 993)

Center for Research & Scholarship
Purpose
The Center for Research & Scholarship/CRS provides administrative coordination and resources to develop new and support ongoing curricular and co-curricular research initiatives at Liberty University, which includes administration of the Quality Enhancement Plan (QEP).

Quality Enhancement Plan
Demonstrating Liberty’s commitment to improve the quality of education for all our students, we have initiated a Quality Enhancement Plan (QEP). Our plan, entitled, ‘Illuminate: Cultivating a Community of Research,’ is a targeted course of action that promotes learning among the undergraduate residential students of our student body. The QEP is a central requirement implemented by the University every five years to enhance student learning and to fulfill a reaccreditation requirement from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). The QEP primarily focuses on improving student learning through research and scholarship. Through this
plan, undergraduate residential students will benefit by developing as researchers and practitioners in their fields of study.

Improves Student Learning
The QEP is grounded in Liberty University's mission and purpose, which emphasizes the importance of helping students to develop knowledge, skills, and behaviors to impact their workplaces, their communities, and the world in accordance with their Christian faith and worldview. This emphasis includes assisting undergraduate students in developing competence in scholarship, research, and communication, as well as in the related skill sets of critical thinking and information literacy.

The QEP focus on research and scholarship also aligns with the 2014-2017 Strategic Plan. The six themes for the Strategic Plan indicate the main goals for Liberty University. Two of these themes are directly related to the QEP initiative.

Advancing Academic Reputation
- The efforts a university makes to increase the quality of curriculum, instruction, academic scholarship, and research. This results in higher levels of learning and academic achievement among current students and alumni, which is widely recognized by the community, prospective employers, benchmark institutions, and pertinent stakeholders. This is the foundation for developing and promoting the university as a top educational brand.

Capitalizing on Human Potential
- The efforts a university makes to recruit highly qualified and innovative personnel and provide them with opportunities to achieve their full potential through training and professional development. Employees are encouraged to utilize their skills to the best of their ability by providing them with a safe and secure work environment. This utilization will provide opportunities for these individuals to fulfill their own mission in life.

Making an intentional effort to establish an exemplary academic curriculum and optimize human capital through hiring and training faculty to equip students for academic and professional success are deliberate themes in the strategic plan. These themes build upon the founder's vision for the University to become a distinguished institution. Locating research within the curriculum, as the QEP proposes, builds on the University's historic strengths, ideological and philosophical commitments, and evangelical mission in the areas of teaching and learning, while also enabling the University to improve its productivity level and public reputation in the areas of research and scholarship.

Additional Information
To read more about the Center for Research & Scholarship, including the Quality Enhancement Plan, please visit www.liberty.edu/CRS.

Center for Writing & Languages
Administration
Shelah Simpson, B.S., M.A.R., M.A., Ph.D.
Director, Online Writing Center
Associate Professor of English

Alisha P. Castañeda, B.A.S., M.A., Ed.S., Ed.D.
Director, Online Foreign Language Lab

Caitlin Elliott, B.A., M.A.
Intro Grad Writing Instructor

The Center for Writing and Languages (CWL), formerly known as the University Writing Program (UWP), was established in 2006 as part of Liberty’s efforts to improve graduate student writing. In support of Liberty University’s mission, CWL provides quality academic support by offering free writing, language, and subject-based tutoring services to all students. CWL is committed to fostering and facilitating university-wide academic excellence.

These areas are in-person writing coaching (for undergraduate and graduate students), the Online Writing Center, the Online Foreign Language Lab, subject-based tutoring, and online supplemental instruction, which collectively provide a supportive learning atmosphere, well-trained peer and professional tutors, classes and workshops designed to address specific student needs, and a wealth of resources available at www.liberty.edu/success.

CWL staff are available to faculty for classroom presentations or for help in developing teaching aids, rubrics, or assignments.

Currently, all CWL services are free of charge to Liberty University students. Faculty may download any CWL-produced online materials for use in their classes.

Undergraduate & Graduate Writing Coaching
The mission of undergraduate and graduate writing coaching is to assist students of all disciplines and all levels of expertise to become the best writers they can be. In support of this mission, the Undergraduate and Graduate Writing Coaching provides free face-to-face coaching sessions (our core service), classroom presentations, workshops, and web resources. Peer coaches work with writers at all stages of the writing process, from topic selection to documentation.

Students can find more information and make an appointment for undergraduate and graduate writing coaching at www.liberty.edu/success.

Online Writing Center
In support of the University mission, Liberty’s Online Writing Center (OWC) helps online students at any level of written English proficiency identify, understand, and improve their academic writing strengths and weaknesses. To this end, the OWC offers synchronous and asynchronous tutoring by a wide variety of trained tutors with insider experience in the various degree programs offered by Liberty Online. Without editing, OWC tutors provide written feedback on drafts with direct links to web resources and writing aids specific to each student’s writing needs or speak with students via Skype to discuss projects at any stage of the writing process. Through the OWC, online students may also access a wide variety of resources—handouts, worksheets, and presentations—to research writing concerns and improve their academic writing skills. and success courses:

- GRST 500 Introduction to Graduate Writing (0 c.h.)
- GRST 501 Graduate Success Strategies (0 c.h.)

Through the Online Writing Center web page (http://www.liberty.edu/onlinewritingcenter), online students can submit drafts of upcoming assignments to receive tutor feedback, schedule appointments to speak online with a tutor, use live chat or e-mail to ask quick grammar or citation questions, and or offer suggestions for further online writing aids that the OWC should consider developing. Students may contact the OWC by emailing onlinewriting@liberty.edu but should not submit drafts for
review to this email address. All drafts must be submitted using the Request Tutoring link on the web page.

Online Foreign Language Lab
In August 2012, the Center for Writing and Languages (CWL) opened the Online Foreign Language Lab (OFLL). The OFLL provides free one-on-one tutoring sessions for students studying French, German, and Spanish through the Liberty University Online conversational language courses.

The OFLL employs highly qualified individuals with native-speaking ability who not only meet the language standards but are also skilled in effectively tutoring and teaching essential language skills. These tutors provide personalized instruction in all areas related to language acquisition, including grammar, vocabulary, appropriate writing style, and oral and auditory practice and development. Considering the long-distance nature of online learning, students will meet with tutors via Skype and Google Hangouts.

To find out more information about the OFLL and schedule an appointment, students can visit www.liberty.edu/success.

University Services - Resident
Liberty University Police Department
Col. Richard D. Hinkley, B.S.
Chief of Police

Liberty University Police Department (LUPD), located in the southwest corner of Green Hall, provides 24/7/365 full service protection by Police and Emergency Services personnel to all properties owned and/or controlled by the University. Liberty University Police Officers are duly sworn with full law enforcement powers and responsibilities, similar to employees of a local police department or sheriff’s office. The officers are trained at Central Virginia Criminal Justice Academy and receive additional in-service and specialized training in first aid, firearms, defensive tactics, legal updates, cultural diversity, human relations, sensitivity issues and criminal investigations.

University Police share concurrent jurisdiction with the Lynchburg Police Department for properties owned or controlled by the University and other properties agreed upon. University Police offer assistance to the city Police when requested. University Police Officers are responsible for the full range of public safety services, including, but not limited to, all crime reports, investigations, medical emergencies, traffic accidents, enforcement of laws about underage drinking, controlled substances, firearms and other weapons and all other incidents requiring police assistance. In an effort to assist in combating crime, University Police share information on arrests and serious crimes with all surrounding police agencies.

LUPD can be contacted by phone at (434) 592-7641 (non-emergencies) or (434) 592-3911 (emergencies). Additional information is available online at http://www.liberty.edu/lupd.

Public Safety Services
LUPD provides several service-oriented functions to the University community consisting of more than 20,000 students, faculty, staff and visitors on campus during any given day. Officers are equipped with two-way radios as they patrol campus in marked and unmarked vehicles. University Police responsibilities range from responding to medical and fire emergencies, conducting criminal investigations to facilitating an on-campus safe ride program during hours when the campus transit system is not in service.

LUPD works in conjunction with LU Student Affairs to facilitate Operation Identification. This is a nationally recognized identification system in which students engrave an identification number on personal property items kept on campus, such as bicycles, computers, radios, stereo systems, etc. Operation Identification has been proven effective in the recovery of stolen items and is offered at no cost to the student.

LUPD provides, upon appointment and a nominal fee, Fingerprinting Services for Liberty University students, employees and their families for a small fee.

LUPD is proud to offer classes in firearms, range safety and NRA’s “Refuse to be a Victim” to students, employees and their families free of charge.

Extensive efforts are made to create a campus environment that fosters personal safety, property security, and learning for all members of the University community. Always remember “if you see something, say something”, reporting anything that looks out of the ordinary or suspicious to LUPD immediately.

Active Threat Training and Emergency Preparation
LUPD offers monthly Civilian Response to Active Shooter Events (CRASE) training sessions (2 hour) for Liberty University staff/faculty/students to continue the goal of Emergency Management Preparedness Critical Incident (EMPCI) implementation campus wide.

Global Travel Security Coordinator
LUPD meets with Trip Leaders to provide security briefings prior to departure on all LU Send, LU Serve and Study Abroad travel. LUPD offers training to include roundtable scenario discussions to prepare trip leaders for emergency response in a crisis situation and the proper procedures for managing incidents while abroad. This also includes equipping travelers with basic knowledge of self-defense and first aid.

Emergency Notification System
Liberty University has implemented the Campus Alerting System. This system allows all University constituents to receive notification when an emergency situation occurs on campus. Messages can be transmitted to a cell phone, home phone, work phone or email address. Specific notification for emergency road closures, fires, school closings and severe weather are also features of this system.

Register your contact information online at http://www.liberty.edu/lupd.

Campus Crime Report
Liberty University fully abides by the Campus Security Act of 1990, the Higher Education Act Reauthorization of 2008 and the Violence Against Women Reauthorization Act of 2013. All of these enacted laws are designed to protect the communities of higher education institutions by ensuring that information concerning crime statistics, fire statistics, fire suppression systems and emergency information is readily available. This information is available to the Liberty University community online at http://www.liberty.edu/lupd or upon request at the LUPD office.

Automobile Registration
Students, faculty and staff members must register their vehicles through the online parking registration system at https://www.liberty.edu/myParkingDecal/. Once registration is completed, you will receive an email receipt. Print this receipt off and place it in the front windshield of
your vehicle to act as a temporary parking authorization until you receive your parking decal. If it is the beginning of the school year, then your parking decal will be mailed to you, however after the school year begins, decals must be picked up at the LUPD front office or at a designated location to be announced. Watch the parking decal information page online at https://www.liberty.edu/index.cfm?P1D=19238 for information on parking decal mailing.

Visitors must obtain a temporary parking hangtag in order to park on campus. These hangtags are available at LUPD or any number of secondary distribution sites across campus. For more information on the location of secondary distribution sites or traffic and parking regulations visit http://www.liberty.edu/lupd.

Liberty University Transit Services

Liberty University Transit Services operates a comprehensive transportation system that is designed to make the campus and the surrounding community accessible to students, faculty, and staff, while reducing the dependency on single occupancy vehicles. This is accomplished through an efficient intra-campus transit system, a complete carpool program with park and ride and satellite parking programs, airport/train and bus station shuttle services, as well as partnerships with apartment communities to bring improved transportation service options to commuters.

Intra campus and off campus services operating by Liberty University buses can be tracked in real-time with estimated departures provided for every bus stop. The system can be accessed at http://liberty.prod.ridesystems.net/.

For more details regarding Liberty University Transit Services see http://www.liberty.edu/transit.

ID & Campus Services

ID & Campus Services is dedicated to connecting students to Liberty University via their Flames Pass ID card. Our office offers meal plan and Flames Cash assistance, lost and found, notary services, information desk, postage stamps, passport photos and BankMobile assistance. ID & Campus Services has extended night and weekend hours to better serve you.

Flames Pass: The Flames Pass is the key to a variety of services and activities both on and off campus. You can receive a Flames Pass by visiting ID & Campus Services with a valid government issued photo ID or request one online via the Photo Upload Application.

Flames Cash: A prepaid declining balance account which allows you to carry money in a safe and secure format and is accepted at Liberty University and at a variety of off-campus merchants. Flames Cash can be added during Financial Check-In, online, or at ID & Campus Services. When you dine on campus with Flames Cash, you always save 10-15%!

BankMobile: Liberty University uses the disbursement service offered by BankMobile Technologies for the distribution of student refunds, per diems and stipends. Once you are financially checked-in, you can select how you would like to receive your funds; check, your personal bank account, or a BankMobile Vibe account.

Contact Us: We are happy to assist you at (434) 582-7771, CampusServices@liberty.edu, or for more information visit liberty.edu/CampusServices.

Student Service Center

The Student Service Center houses the offices of Financial Aid, Student Accounts, and the Registrar. Our mission is to help our guests with any questions they may have and to guide as needed to the correct office for further assistance.

We will ensure that we understand your situation, research your situation, and provide accurate information in a timely manner.

The Student Service Center Lobby is open from 8:00 a.m. - 5:00 p.m. Monday, Wednesday through Friday. The Lobby is closed for Convocation on Wednesday and Friday from 10:30 a.m. - 11:45 a.m.

The Student Service Call Center is open 8:00 a.m. - 4:45 p.m. on Monday - Friday and closed for Convocation on Wednesday from 10:30 a.m. - 11:30 a.m.

If you have any questions regarding your academic account or student account, please visit the Student Service Center located at Green Hall in room 1869 or call our office at (434) 592-5100 or toll-free (888) 632-5551 for assistance.

The Student Service Center offers free notary services to students, faculty, and staff.

Additional resources and information are available online at http://www.liberty.edu/student服务中心.

Student Advocate Office

Director of Orientation and Retention: Jeremy Breaux

The Student Advocate Office (SAO) is a ‘one-stop’ office for answers to all your questions.

It is normal for college students to have questions about financial aid, housing, account holds, balances, personal issues and roommate conflicts. The Student Advocate Office serves as a liaison for students to other departments to help them get their questions answered.

Its primary focus is to help each resident student from their first day at Liberty to graduation – whether through problem solving, peer counseling, one-on-one appointments, financial aid guidance, scholarship assistance or just a helping hand and listening ear, we are here for you.

The Student Advocate Office is located in CASAS which is on the DeMoss Hall first floor. For more information call (434) 582-7200 or visit the website at http://www.liberty.edu/sao.

International Student Center

The C. Daniel Kim International Student Center (ISC) opened its doors in the spring of 2004 to meet the needs of the growing body of international students at Liberty University. The ISC now sponsors more than 50 events per year celebrating international students and their cultures and giving international students an opportunity to enjoy their experience in the U.S.

The International Student Center is the primary location for information and activities for current international students. International Student Advisors, the International Student Retention Specialist, the International Student Operations Coordinator and Office Manager, the International Student Operations Assistant and Health Insurance representative, and an embedded Student Accounts representative are all housed in the International Student Center. More information regarding the ISC
and additional information for international students is provided at www.liberty.edu/international.

**Liberty University Bookstore**
Located at the entrance to Main Campus, the Liberty University Campus Bookstore is a two-story, 20,000 square foot, free standing brick facility that features a Barnes and Noble Café serving Starbucks® coffee and outdoor patio area. In addition to textbooks, the bookstore also sells leisure books, University apparel and more. For more information on the products and services available including hours of operation, access the webpage at http://liberty.bncollege.com/.

**Career Center**
The Career Center provides professional resources in career planning and employment services to Liberty University men and women, equipping them with the ability to obtain a position that will utilize their God-given talents to impact the world for Christ.

Our purpose is to facilitate Christ-centered, positive partnerships and engagement opportunities among students, alumni, faculty, staff and employers locally, nationally and worldwide.

We assist all students, and alumni with:

- Planning and implementing career objectives focusing on their development and identity formation through assessments, cover letter and resume review, and interview critiques.
- Identifying internship and post-graduate employment opportunities meeting their post graduate career goals.

We assist employers in:

- Establishing and maintaining a relationship with Liberty University and its various departments, students and Alumni.
- Meeting their staffing needs for internships and employment (both entry level and seasoned professionals) locally, nationally and worldwide.
- Organizing on-site, off-site and on-line introductions and informational sessions with the Liberty community.

**Information Services**

**John Gauger**
Chief Information Officer
Vice President of Analytics

**IT HelpDesk**
The IT HelpDesk assists students with a variety of computer problems free of charge by phone, remote assistance, online chat, or walk – in service. HelpDesk hours and other resources such as the Liberty University Knowledge Base (HelpDesk DIY) are published online at www.liberty.edu/helpdesk. The HelpDesk is located at Green Hall Room 1539 and DeMoss Hall 2414. To contact by phone, call (866) 447-2869; To contact by chat, visit www.liberty.edu/hdchat.

**On-Campus Wireless Internet**
Information Technology has implemented a campus-wide wireless network. This network allows students to access the internet and other network resources while in range of one of our many wireless access points.

**Computer Labs**
Computer labs are available for students, faculty, and staff to use in various locations including DeMoss Hall, Green Hall, the School of Music, and the Jerry Falwell Library. Over 1300 computers, including Macs and Windows-based computers are available.

**Online Learning Platform**
Liberty provides students with an online learning platform. The online learning platform serves a variety of purposes, allowing professors to make announcements, post assignments, and interact with students. Students will use the online learning platform to submit coursework, complete online tests, and interact with their classmates.

**Administrative Software Application**
Liberty uses an application called Banner to house all Liberty user account information. Banner is accessible to Liberty staff, faculty, alumni, and students and is used to manage account information such as Financial Aid, Student Accounts, etc. Students access Banner (ASIST) from the main Liberty website to register for courses, complete financial check-in, view academic records, and update personal information.

**Technology Education Center**
The Technology Education Center (TEC) provides IT-related certification testing for fields of expertise including Cisco®, Microsoft®, Oracle®, Kryterion and more. For more information on Training or Certification Testing, visit www.liberty.edu/TEC or contact by phone (434) 592-7820.

**IT Marketplace**
The IT Marketplace, Liberty’s Campus Technology Store, provides students, alumni, faculty, and staff with a variety of hardware and software options at discounted prices. Please check out our campus store location in DeMoss Hall 2414 or online at www.liberty.edu/ITMarketplace.

**Mobile Applications**

**Liberty Today** is a free application that keeps users connected to activities occurring online or around campus with modules for Blackboard, Flames Cash, Degree Completion Plan, Campus Maps, lab computer/laundry availability, and more. It also provides access to numerous Liberty focused media releases including Liberty News, Liberty TV Channel, Liberty Journal, Journey FM Radio, and others. It is currently available for Android and Apple devices

Additional information, including how to download Liberty mobile applications, can be found at http://www.liberty.edu/LibertyToday.

**myLU Portal**
The myLU portal is a customizable website that allows students to access a wide variety of Liberty information. It features widgets (small software programs) that display a specific piece of information such as Blackboard, Flames Cash, Liberty news, class schedule, Liberty announcements, financial aid information, and more. The portal can be located at http://mylu.liberty.edu.

**Network Printing**
Multiple network print stations are provided for students in a variety of locations on campus. A printer account is provided to every student and print costs are charged to their student account. Network printing is available from Liberty University computers as well as student-owned personal computers and mobile devices.
Online Web Presence
Liberty provides an official webpage that can be used to access all Liberty information and major services such as Webmail, Banner (ASIST), Blackboard, Official Announcements, University Calendar, and Financial Aid. Liberty’s official webpage can be viewed at https://www.liberty.edu.

Office 365
Office 365 is a subscription-based version of the Microsoft Office suite as well as a series of productivity applications that are provided to all current student, staff, and faculty members. Office 365 is accessible through the web version or can be downloaded on up to five personal devices through www.liberty.edu/office365.

IT Products & Services Hub
The Products and Services hub is a comprehensive online catalogue of the technology products and services that Liberty provides — all in one convenient location. The hub is housed on two webpages, one specifically designed for students, and the other specifically for faculty/staff. The hub can be accessed at www.liberty.edu/producthub.

Liberty University Student Health Center
Liberty University Student Health Center, located in the terrace level of Commons III, is a service of Central Virginia Family Physicians (CVFP), providing quality medical care and assisting students, faculty, and staff in maintaining and optimizing their health. Effective Fall 2016, Liberty University has partnered with nationally recognized CVFP-Medical Group to provide students with excellent medical and mental health services, health promotion, and preventive care. A $170 student health fee built into tuition and fees each semester will cover a wide variety of services in our Student Health Center.

Office hours are Monday – Thursday, 8:00 AM to 6:00 PM, and Friday 8:00 AM to 5:00 PM. To schedule an appointment, please call (434) 338-7774. Additional information is provided on the Health Services webpage.

Liberty University Dining Services
Liberty University Dining Services are offered at several locations throughout the campus. The Food Court at Reber-Thomas has 22 stations inside to choose from. From international cuisine to fresh pulled pork, you have full reign over customizing your meals here.

Other on campus dining locations include Monteview Student Union, Tilley Student Center, Tinney Café, Dunkin Donuts, Baskin Robbins, Doc’s Diner, Bistro ’71, Hilltop Pizza, Founder’s Food Court, Simply to Go, and Cravings Food Truck.

Students residing on campus may select from a variety of meal plans and meal plan points which are added to the Flames Pass. Commuter students purchase meal plans and points on a semester basis. Many student meal plans can also be utilized at more than thirty off-campus dining locations.

To assist with special dietary needs, a registered dietician works alongside the culinary team to ensure compliance with health food standards, make dietary restriction accommodations, and to help facilitate general nutritional education with the students.

Additional information on meal plans, nutritional information, locations, hours of operation, and other services provided can be accessed at http://www.libertydining.com.

Liberty University Postal Services
The Liberty University Postal Service exists to serve all postal needs of the University’s students, staff, and faculty. Offering domestic and international shipping options at a reduced rate than the general post office, Liberty University Postal Services is the best choice for all shipping and receiving needs.

The Liberty University Post Office is located in Green Hall Room 1846. To view the hours of operation, please visit see http://www.liberty.edu/index.cfm?PID=16230.

For more information related to Liberty University Postal Services, please see http://www.liberty.edu/postalservices.

University Services - Online
Academic Advising
Each student has access to professional Academic Advisors who will assist the student with choosing and scheduling courses. Academic Advisors are available to answer questions the student may have or to assist with resolving unexpected problems. In addition, every course is managed by a faculty member who is available to answer course-related and academic questions.

New students will need to contact a New Enrollment Specialist, who will guide them in course selection for the first semester and assist in all other preparations until the first day of class. On the first day of the first sub-term in which students are enrolled, all questions concerning academic issues should be directed to Academic Advising. Students are encouraged to contact Academic Advising for help with any school-related problems they may encounter during the academic year.

Online services include email and ASIST (Automated Student Information Services Tool), all of which can be accessed through the student’s myLU portal. Students are each assigned a personal email account, which they are advised to check on a daily basis. The student’s Liberty email address will serve as the primary means of communication between the University and the student.

Using myLU, students may register and drop courses, access and update their personal information, view their account balances, make online payments, view individual test and final course grades, email professors, view and calculate the GPA, and view financial aid awards.

Career Center
The Career Center strives to assist students in realizing their God-given potential through developing career and education decisions that are rooted in their faith and values. They provide services and resources to help students utilize their academic training in preparation for their professional development. Through the Career Center, residential and online students, as well as alumni, have access to career services without closing hours.

Career Services
Website: http://www.liberty.edu/career
  • Employer Services
  • Resume and Portfolios
  • Job Search and Research
  • Graduate School Preparation
• Internships and Externships
• The Washington Fellowship
• The New York City Fellowship

Several programs are available to assist students in determining career goals and implementing appropriate educational plans. Through the Career Center, online job listings, career counseling, and a computerized career assessment, students are encouraged to explore various occupational fields, develop job-hunting skills, and research graduate education programs. Students are also encouraged to participate in externships and internships, which provide practical work experience and complement their formal education.

For more information on any of the stated topics, please visit the Career Center website at http://www.liberty.edu/career.

LUNETWORK – Job Database
Liberty University’s exclusive employer relationship database, LUNETWORK, is the on-line database that has thousands of employers looking for Liberty students, recent graduates, and alumni. Employers from all over the country (and world) are purposefully posting positions looking for Liberty talent. Postings include internships and full time positions for both new graduates and seasoned professionals. Students and alumni can post their resume and search the database for positions all over the world. Residential and online students and alumni are eligible to utilize LUNETWORK for life.

Internship Program
All students are encouraged to complete an internship to assist with career planning and gain practical experience within their chosen field of study. Internships are available in major cities all across the country, including Washington DC, New York City, Chicago, Orlando, and many more. Students may earn from one to six (in some cases nine) semester hours of credit. Many majors require at least three credits. All applicants for credit internships, which are listed in the University’s Catalog, are processed through the student’s academic department Faculty Internship Advisor (FIA). Contact your department to identify your FIA.

The Career Center also provides a special internship opportunity through the Washington Fellowship (WF). This program allows students to live and work in Washington D.C. where they are placed in internships relevant to their career or academic interests. Students in the WF earn six credits and alumni can post their resume and search the database for positions all over the world. Residential and online students and alumni are eligible to utilize LUNETWORK for life.

Office 365 is a subscription-based version of the Microsoft Office suite as well as a series of productivity applications that are provided to all current student, staff and faculty members. Office 365 is accessible through the web version or can be downloaded on up to five personal devices through www.liberty.edu/office365.

**IT Products & Services Hub**

The Products and Services hub is a comprehensive online catalogue of the technology products and services that Liberty provides — all in one convenient location. The hub is housed on two webpages, one specifically designed for students, and the other specifically for faculty/staff. The hub can be accessed at www.liberty.edu/producthub.

**Intensives**

Intensive course schedules, enrollment procedures, tuition and fees, transportation and lodging information are accessible online at www.liberty.edu/intensives.

**Jerry Falwell Library**

Angela M. Rice, B.A., M.L.S.
Dean, Jerry Falwell Library

The Jerry Falwell Library services are organized and provided through the highly qualified faculty and staff. A broad range of support is provided to help students and faculty use information resources and technology effectively. These services include online tutorials, topic-specific workshops, personalized research assistance, and software support.

The Jerry Falwell Library provides many services and resources to students in the Liberty University Online programs. Online students can access virtually all electronic database resources through a proxy login system. In addition, online students have direct toll-free telephone, chat, and email support through the library’s Research Support Center, which provides access to research and instruction librarians and staff. The Jerry Falwell Library is committed to being the primary library for Liberty University Online students by offering timely personal contact and document delivery in order to meet their academic needs. This includes the delivery of books and journal articles as well as research and reference services.

Liberty University Online students can contact the library by email: research@liberty.edu chat: http://www.liberty.edu/library/chat-faq/ local phone: (434) 582-2221 and toll-free phone: (800) 424-9595, the ‘Additional Support Office’ option.

**Liberty Online Engagement**

Liberty University Online Engagement exists to provide comparable resources that are afforded to residential Students of Liberty University from the Office of Spiritual Development to online students. Various online resources are offered including:

- Live and recorded streaming events including Convocation, Campus Community, and special events. Go to facebook.com/LibertyOSD.
- Content from our LU Shepherd and LU Serve offices is available to learn about spiritual growth and ministry opportunities. Go to facebook.com/LibertyOSD.
- Learn about information regarding LU Send Trips at facebook.com/LibertyOSD.
- The ability to submit requests for prayer and to pray for other students’ prayer requests.

**Convocation and Campus Community**

As a dynamic institution vitally interested in the whole person, Liberty provides for physical, social, intellectual, and spiritual needs of the Liberty community. To meet these needs, Liberty provides opportunities for students to gather and serve as a community through Convocation and Campus Community services. Liberty University Online students are encouraged to attend Campus Community services as well as Convocation when completing on-campus intensives. All of these services are streamed on Facebook Live at www.facebook.com/LibertyOSD.

**Liberty University Bookstore**

Course materials are not included in the cost of tuition. However, through Liberty University Online bookstore, MBS Direct, you can purchase textbooks and related course materials, track previous orders, sell your old textbooks and much more. It is MBS Direct’s goal to minimize your textbook cost and provide you with the best online shopping experience possible. Purchases may be made online through http://www.mbsdirect.net/liberty or by phone at (800) 325-3252.

It is recommended that you purchase your course materials at least ten days before the start of your course(s) to ensure a timely delivery. When ordering, please verify whether you are enrolled in an 8- or 16-week course format. Liberty does not guarantee that required course materials will be available after the sub-term start date.

Materials for practica and required intensives can be purchased from MBS Direct. Tuition does not cover the cost of course materials.

**Instructional Media**

The Instructional Media coordinators provide webinars and tutorial videos to new and current students in order to help them successfully acclimate to the online learning environment. Webinars are offered via web conferencing, and include topics such as:

- New Student Orientation
- Navigating Blackboard® and IT Resources
- Online Research Basics
- Funding Your Education

Tutorial videos are also available covering a variety of topics including how to register for courses in ASIST, completing Financial Check-in, and how to set up your university email on your smart phone.

For more information about instructional media offerings, or to register for a webinar event, visit http://www.liberty.edu/instructionalmedia.

**Student Advocate Office**

The Liberty University Student Advocate Office works directly with advisors as well as university support offices to help students overcome obstacles on the journey from enrollment through graduation. Online students have a unique email to access these services. The Liberty University Student Advocate team is available via email at luostudentadvocate@liberty.edu or online at: www.liberty.edu/online/student-advocate-office.
Online Student Life

Ted Whitney, B.S.
Executive Director of Student Life

Online Student Life helps online students by engaging with and connecting them to the people, events, and services of the University. Go to www.liberty.edu/OnlineStudentLife for online student counseling resources, community groups, social media pages, and other online services.

To join a group of online students with similar interests, go to www.liberty.edu/yammer.

For helpful videos, go to www.liberty.edu/ocvideos.

Topics include:

- Emotional Wellness
- Physical Wellness
- Spiritual Disciplines
- Evangelism
- And more

For prayer, go to https://www.liberty.edu/prayer-request/.

Download the Weekly Study Planner here.

Follow Online Student Life on Facebook.

Online Writing Center

Shelah Simpson, B.S., M.A.R., M.A., Ph.D.
Director, Online Writing Center
Associate Professor of English

The Online Writing Center (OWC) was established as part of Liberty's efforts to improve student writing and thus offers writing-related services to the University's online student population including success courses:

- GRST 500 Introduction to Graduate Writing (0 c.h.)
- GRST 501 Graduate Success Strategies (0 c.h.)

OWC tutors are trained Christian graduate students from various Liberty University online degree programs. Through the Online Writing Center web page (http://www.liberty.edu/onlinewritingcenter), online students can submit drafts of upcoming assignments to receive tutor feedback, schedule appointments to speak online with a tutor, use live chat or e-mail to ask quick grammar or citation questions, and offer suggestions for further writing aids the OWC should consider developing. Students may contact the OWC by emailing onlinewriting@liberty.edu but should not submit drafts for review to this email address. All drafts must be submitted using the Request Tutoring links on the web page. The OWC myLU widget helps keep track of all requests and links to all writing aids.

Student Counseling Services

Mike Kunzinger, M.A., M.A., LPC, NCC
Executive Director, Student Counseling Services

Student Counseling Services (SCS) exists to help students manage difficult life experiences and reduce psychological distress. All currently enrolled residential, commuter, and local online students are eligible to receive face-to-face counseling services. For those not in the greater Lynchburg area, we provide assistance to help students locate counseling services in their local areas. Additionally, we offer online resources and self-help guides on our website.
