### AVMT 216 Engine Auxiliary Systems I 3 Credit Hours

In this course the student will learn the construction, operation, inspection, troubleshooting, servicing, repair and overhaul of reciprocating engine carburetion, injection, and fuel metering systems, as well as turbine engine fuel control systems. The student will also study fuel warning, pressure and rate of flow instruments, as well as reciprocating and turbine engine lubricants and lubrication systems.

**Offered:** Resident

### AVMT 217 Powerplant Auxiliary Systems I 1 Credit Hour

This course will provide the student an understanding of operating principles and basic maintenance techniques for engine auxiliary systems and their components, including: engine exhaust and thrust reversers, and engine fire protection systems. The student will learn to inspect, check, service, troubleshoot and repair these systems.

**Registration Restrictions:** Due to FAA requirements, the students must submit an AMTS Application through the School of Aeronautics prior to enrollment.

### AVMT 218 Engine Auxiliary Systems II 3 Credit Hours

In this course the student will study engine instrument systems, fire detection and extinguishing systems, induction systems, cooling systems, exhaust and thrust-reverser systems, with a focus on theory of operation, servicing, inspection, repair, and troubleshooting. The student will also learn the theory of operation and basic construction of fixed-pitch, constant-speed, and feathering propellers. The student will also be introduced to propeller synchronization systems, ice-control systems, and propeller governing systems. The student will gain knowledge & skills to inspect, check, service, remove, repair, and install propellers.

**Offered:** Resident

### AVMT 219 Powerplant Auxiliary Systems II 1 Credit Hour

This course will provide the student an understanding of operating principles and basic maintenance techniques for engine auxiliary systems and their components, including: engine cooling, engine induction, and engine instrument systems. The student will learn to inspect, check, service, troubleshoot and repair these systems.

**Registration Restrictions:** Due to FAA requirements, the student must submit an AMTS Application through the School of Aeronautics prior to enrollment.

### AVMT 221 Propeller Systems 1 Credit Hour

In this course the student will study the construction and operation of propeller systems and their components, including: fixed-pitch, constant-speed, and feathering propellers. The student will also be introduced to propeller synchronization systems, ice-control systems, and propeller governing systems. The student will learn to inspect, check, service, troubleshoot and install propeller systems.

**Registration Restrictions:** Due to FAA requirements, the student must submit an AMTS Application through the School of Aeronautics prior to enrollment.

### AVMT 312 Reciprocating Engine Technology 3 Credit Hours

This course will instruct the student in the principles of operation, construction, and design of reciprocating aircraft engines and components. The student will gain procedural knowledge and technical skills in reciprocating engine removal, disassembly, inspection, servicing, overhaul, reassembly, installation, and troubleshooting. A student research project will delve into the history and development of reciprocating engines, as well as the comparative efficiencies of various types of reciprocating engines.

**Registration Restrictions:** Due to FAA requirements, the student must submit an AMTS Application through the School of Aeronautics prior to enrollment.

### AVMT 320 Turbine Engine Technology 3 Credit Hours

This course provides the student with an understanding of gas turbine engine cycles, high speed gas flow, and the design and construction of turbojet, turboprop, and turbofan engines. The student will receive an introduction to unducted fans and turbine-driven auxiliary power units. The student will learn the fundamentals of turbine engine operation, removal and replacement, maintenance, servicing, troubleshooting, and inspection. A student research project will delve into the history and development of turbine engines, as well as the comparative efficiencies of various types of turbine engines.
AVMX 339 UAS Airframe 2 Credit Hours
Prerequisites: (AVMT 100 and AVMT 102 and AVMT 104 and AVMT 106 and AVMT 200 and AVMT 202 and AVMT 204 and AVMT 206 and AVMT 208 and AVMT 210 and AVMT 214 and AVMT 216 and AVMT 218 and AVMT 312 and AVMT 320) or (AVMT 101 and AVMT 102 and AVMT 103 and AVMT 104 and AVMT 105 and AVMT 106 and AVMT 201 and AVMT 202 and AVMT 203 and AVMT 204 and AVMT 205 and AVMT 206 and AVMT 207 and AVMT 208 and AVMT 209 and AVMT 213 and AVMT 214 and AVMT 215 and AVMT 217 and AVMT 219 and AVMT 221 and AVMT 312 and AVMT 320)

Offered: Resident

AVMX 349 UAS Powerplant 2 Credit Hours
Prerequisites: (AVMT 100 and AVMT 102 and AVMT 104 and AVMT 106 and AVMT 200 and AVMT 202 and AVMT 204 and AVMT 206 and AVMT 208 and AVMT 210 and AVMT 214 and AVMT 216 and AVMT 218 and AVMT 312 and AVMT 320) or (AVMT 101 and AVMT 102 and AVMT 103 and AVMT 104 and AVMT 105 and AVMT 106 and AVMT 201 and AVMT 202 and AVMT 203 and AVMT 204 and AVMT 205 and AVMT 206 and AVMT 207 and AVMT 208 and AVMT 209 and AVMT 213 and AVMT 214 and AVMT 215 and AVMT 217 and AVMT 219 and AVMT 221 and AVMT 312 and AVMT 320)

Offered: Resident

AVMX 359 UAS Ground Systems 2 Credit Hours
Prerequisites: (AVMT 100 and AVMT 102 and AVMT 104 and AVMT 106 and AVMT 200 and AVMT 202 and AVMT 204 and AVMT 206 and AVMT 208 and AVMT 210 and AVMT 214 and AVMT 216 and AVMT 218 and AVMT 312 and AVMT 320) or (AVMT 101 and AVMT 102 and AVMT 103 and AVMT 104 and AVMT 105 and AVMT 106 and AVMT 201 and AVMT 202 and AVMT 203 and AVMT 204 and AVMT 205 and AVMT 206 and AVMT 207 and AVMT 208 and AVMT 209 and AVMT 213 and AVMT 214 and AVMT 215 and AVMT 217 and AVMT 219 and AVMT 221 and AVMT 312 and AVMT 320)

Offered: Resident

AVMX 418 Principles of Troubleshooting 3 Credit Hours
Prerequisites: (AVMT 100 or AVMT 101 and AVMT 103 and AVMT 105) and AVMT 102 and AVMT 104 and AVMT 106 and (AVMT 200 or AVMT 201 and AVMT 203 and AVMT 205) and AVMT 202 and AVMT 204 and AVMT 206 and AVMT 208 and (AVMT 210 or AVMT 207 and AVMT 209) and AVMT 214 and (AVMT 216 or AVMT 213 and AVMT 215) and (AVMT 218 or AVMT 217 and AVMT 219 and AVMT 221) and AVMT 312 and AVMT 320

This course will provide the students with a logical and systematic process for troubleshooting aircraft systems. The student will learn and understand processes of troubleshooting and then apply them to realistic aviation problems to refine their troubleshooting skills.

Offered: Resident

AVMX 428 Advanced Electronics 3 Credit Hours
Prerequisites: (AVMT 100 or AVMT 101 and AVMT 103 and AVMT 105) and AVMT 102 and AVMT 104 and AVMT 106 and (AVMT 200 or AVMT 201 and AVMT 203 and AVMT 205) and AVMT 202 and AVMT 204 and AVMT 206 and AVMT 208 and (AVMT 210 or AVMT 207 and AVMT 209) and AVMT 214 and (AVMT 216 or AVMT 213 and AVMT 215) and (AVMT 218 or AVMT 217 and AVMT 219 and AVMT 221) and AVMT 312 and AVMT 320

This course will review basic electrical theory, including DC and AC and then expand on this knowledge by introducing advanced electrical concepts including digital electronics, solid state electrical control devices, and radio theory with an emphasis on their application in modern aircraft.

AVMX 445 Medium UAS Maintenance I 3 Credit Hours
This course will provide the student with maintenance and crew chief training on a specific UAS platform. This training will include structural repair, avionics, power plant and systems training on the UAS platform.

Offered: Resident

AVMX 446 Medium UAS Maintenance II 3 Credit Hours
Prerequisites: AVMX 445 (may be taken concurrently)
This course will provide the student with maintenance and crew chief training on a specific UAS platform. This training will include structural repair, avionics, power plant and systems training on the UAS platform.

Offered: Resident

AVMX 447 Medium UAS Maintenance III 3 Credit Hours
Prerequisites: AVMX 445 and AVMX 446
This course will provide the student with maintenance and crew chief training on a specific UAS platform. This training will include structural repair, avionics, power plant and systems training on the UAS platform.

Offered: Resident

AVMX 451 Aviation Maintenance Operations 3 Credit Hours
Prerequisites: (AVMT 100 or AVMT 101 and AVMT 103 and AVMT 105) and AVMT 102 and AVMT 104 and AVMT 106 and (AVMT 200 or AVMT 201 and AVMT 203 and AVMT 205) and AVMT 202 and AVMT 204 and AVMT 206 and AVMT 208 and (AVMT 210 or AVMT 207 and AVMT 209)

A study of aviation maintenance-specific topics which face those in maintenance leadership positions. These topics include, but are not limited to, the need for maintenance; development of maintenance programs; technical planning, control, and training; and differing types of maintenance operations.

Offered: Resident

Aviation Maintenance (B.S.) - Management - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain
in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Courses may also fulfill select general education requirements
2 Based on FAA requirements, the AVMT courses (45 hours) listed on this degree cannot be offered online and must be taken residentially at Liberty University. You may complete FAA mechanic certification with Airframe and Powerplant ratings outside of Liberty University and Prior Learning Assessment (PLA) credit may be awarded for licensure to meet the requirements of the AVMT courses (45 hours)

All applicable prerequisites must be met
Graduation Requirements
• 120 Total hours
• 2.0 Overall grade point average
• 30 Hours must be upper-level courses (300-400 level)
• Grade of 'C' Minimum required for all upper-level courses in the major
• 40% Of major taken through Liberty University
• 30 Hours must be completed through Liberty University
• Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Aviation Major (B.S.)
Purpose
The purpose of the Aviation degree program is to train men and women to become exceptional aviators who possess outstanding knowledge, excellent technical skills, sound judgment, professionalism, leadership, and strong Christian character.

Program Learning Outcomes
The student will be able to:
1. Apply biblical principles within the professional aviation environment.
2. Apply written and oral communication skills as they pertain to the aviation industry.
3. Promote a healthy organizational safety culture in aviation.
4. Mentor others in leadership skills and qualities as it relates to aviation.
5. Assimilate the healthy lifestyle required to meet the unique physical and cognitive demands of an aviation career.
6. Apply science, technology, and mathematics to aeronautical disciplines

Program of Study
Delivery Format: Online Only
• Aviation (B.S.) - Online (p. 449)

Career Opportunities
• Certified Flight Instructor
• Commercial Pilot
• Corporate Pilot
• Military Pilot
• Missionary Pilot

Courses
AVIA 010 Private Pilot Training Block Lab 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 220.
Offered: Resident

AVIA 015 Private Pilot Stage 2 & 3 Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 225.
Offered: Resident

AVIA 020 Instrument Flight Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 320.
Offered: Resident

AVIA 025 Commercial Flight Stage 1 Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 325.
Offered: Resident

AVIA 026 Commercial Flight Stage 2 Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 326.
Offered: Resident

AVIA 027 Commercial Flight Stage 3 Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 327.
Offered: Resident

AVIA 030 Commercial Pilot Training Block Lab 0 Credit Hours
Offered: Resident

AVIA 031 Commercial S.E. Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 331.
Offered: Resident

AVIA 036 Advanced Jet Flight Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 436.
Offered: Resident

AVIA 040 CFI Training Block 0 Credit Hours
Registration Restrictions: Co-requisite with AVIA 420.
Offered: Resident

AVIA 101 Exploring Aviation 3 Credit Hours
This course explores the field of aviation, career opportunities, and future trends. While learning about their future in aviation, students will study blimps, rocketry, gliders, and the principles of flight.
Offered: Resident

AVIA 102 Aviation Foundations 1-3 Credit Hours
This is a survey course that introduces key ideas which will help anyone interested in aviation succeed. Class time is spent introducing topics like aviation rules of thumb, character development, learning theory, and aviation technical knowledge areas, and applying these topics to various aviation career fields.
Offered: Resident
AVIA 103 Flight Attendant Orientation 3 Credit Hours
This course will introduce students to the exciting lifestyle and career of professional airline flight attendants. Students will learn about the fundamentals of flight, aviation terminology, emergency procedures, regulations, aeromedical factors, customer services expectations, how to deliver public address announcements, and other elements relevant to the role of an airline crewmember. In addition, students will participate in various class activities that include water survival drills that require swimming while fully clothed, self-defense training, touring relevant airport operations areas, professional dress and appearance, classroom discussions, and publically presenting aircraft safety announcements. It will also include one or more aircraft flights in a small flight training aircraft and, depending upon availability, it may include an observational flight onboard a regional airline aircraft.

Offered: Resident

AVIA 105 Aviation Survey 3 Credit Hours
Prerequisites: AVIA 210
This course is required for all aviation majors and designed for all students interested in an aviation career. Includes a general introduction of current aviation and historical events. This course includes an overview of basic aviation terminology, and potential careers in aviation. Further, it will expose students to the vast array of careers within the aviation sector. This course will introduce a student to Part 141 flight training, Aviation Medicals and Restricted ATP program.

AVIA 210 Private Ground I 3 Credit Hours
This course is the first of two courses that develop the student’s aeronautical knowledge required for certification as a Private Pilot with an Airplane Single Engine Land rating. The course covers basic aviation terms and concepts, basic aerodynamics, aircraft systems, and FAA publications.

Prerequisites: AVIA 225
This course will introduce students to the idea of aviation risk management. Course content includes discussions on aircraft systems, cross-country flying, elements of risk management, and automation.

Offered: Online

AVIA 211 Advanced Aviation Theory 3 Credit Hours

AVIA 215 Private Ground II 3 Credit Hours
Prerequisites: AVIA 210 (may be taken concurrently)
This course is the second of two courses that develop the student’s aeronautical knowledge required for certification as a Private Pilot with an Airplane Single Engine Land Rating. The course covers basic aviation terms and concepts, to include flight planning, meteorology, airport operations, and navigation.

Offered: Online

AVIA 220 Private Flight I 3 Credit Hours
Prerequisites: (ENGL 100 or (pre2016) SAT Writing with a score of 480 or SAT Test Writing/Language with a score of 28 or ACT English with a score of 19 or Placement Score-English with a score of 70 or ENGL 102 or ENGL 201 or ENGL 202 or ENGL 215 or ENGL 216 or ENGL 221 or ENGL 222) and (Placement Score-Math with a score of 75 or MATH 110 or MATH 114 or MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 217) and AVIA 010 (may be taken concurrently)
This course is the first of two sequential flight training courses that include the requisite aircraft and simulator training and experience required for the FAA Private Pilot practical test. Students who are required to complete ENGL 100, MATH 100, or MATH 100 are not eligible for AVIA 220 enrollment.

Registration Restrictions: To be eligible to take this course, students must score at least a ‘C’ on the Liberty University English and Math Assessment Tests and be eligible to take English 101 and Math 115 or higher.

AVIA 225 Private Flight II 3 Credit Hours
Prerequisites: AVIA 220 and AVIA 015 (may be taken concurrently)
This course is the second of two sequential flight training courses that include the requisite aircraft and simulator training and experience required for the FAA Private Pilot practical test.

AVIA 230 Unmanned Aerial Systems 3 Credit Hours
This is an introductory course in unmanned aerial systems (UAS). The course includes the history of unmanned aircraft; the elements of command and control; the National Airspace System and how it relates to UAS; current and planned Federal Aviation Administration regulation; and the very latest operations and challenges currently facing this industry.

AVIA 235 Small Unmanned Aerial System Ground 3 Credit Hours
Prerequisites: AVIA 230
This course builds upon the foundation developed in AVIA 230. This course consists of academics and simulated flights of multi-rotor and fixed wing UAS platforms. Students will learn mission planning, autonomous mission execution, and customer product creation.

Offered: Resident

AVIA 236 Small UAS Flight 1 Credit Hour
Prerequisites: AVIA 230 and (AVIA 235)
This course will provide the student a study in the command and control of small unmanned aerial systems. Command and control theories will be discussed in relation to a specific UAS. Specific command and control systems will be taught and will include ground lessons, simulator training, and flight training. By completion of the class, the student will be able to safely conduct small UAS flights for commercial purposes.

Offered: Resident
AVIA 240 GPS Navigation 1 Credit Hour

This course teaches the practical use of global positioning through the Garmin G1000 Flight Management System. We will cover the Global Positioning System (GPS) theory, operations, hardware and software usage, and refer to similar equipment models. This course references the National Airspace System and critical Air Traffic Control elements including navigational aids, operations in controlled and uncontrolled airspace, as well as towered and non-towered airport environments. Elements of communication, radio operations, as well as normal and abnormal operations are discussed.

Offered: Resident

AVIA 241 GPS Instrument Navigation 1 Credit Hour

Prerequisites: AVIA 240

This course builds upon the basic GPS knowledge acquired in the AVIA 240 GPS Navigation course and builds on an understanding of the Garmin G1000 as it relates to instrument flight. The content encompasses all phases of instrument flying including instrument approaches, holding and course reversals, departures, enroute and arrivals as well as vertical navigation (VNAV) descents, troubleshooting and malfunctions, WAAS and autopilot use in an instrument flight rules (IFR) environment.

Offered: Resident

AVIA 242 Advanced GPS Navigation 3 Credit Hours

Prerequisites: AVIA 225

The quality and effectiveness of this course is dependent upon the focus of real-life lessons rather than simple textbook learning. This course teaches the practical use of global positioning through the Garmin G1000 Flight Management System. We will cover GPS theory, operations, hardware and software usage, and refer to similar equipment models. This course references the National Airspace System and critical Air Traffic Control elements including navigational aids, operations in controlled and uncontrolled airspace, as well as towered and non-towered airport environments. Elements of communication, radio operations, as well as normal and abnormal operations are discussed. The content encompasses all phases of instrument flying including instrument approaches, holding and course reversals, departures, en route and arrivals as well as vertical navigation (VNAV) descents, troubleshooting and malfunctions, WAAS and autopilot use in an instrument flight rule (IFR) environment.

Offered: Online

AVIA 245 Aviation Leadership 3 Credit Hours

The focus of this course is how an aviator can promote effective and safe aviation operations by developing and employing sound human factors leadership principles. Crew resource management, threat and error management, and safety management system concepts and programs will be evaluated against actual situations and aircraft accident case studies to help students develop their analytic and evaluative skills. Students will also learn their own personal strengths and how those strengths relate to human factors elements that contribute to effective aviation teams and an organizational culture that promotes safe mission accomplishment. (Formerly AVIA 445)

AVIA 250 Introduction to Space Flight 3 Credit Hours

This course is a survey of the major aspects of space flight and exploration. Topics covered include the history of space flight, space vehicle launch and orbits, international space station operations, human physiology in space, and present and future commercial, industrial and military applications in space. The course examines differing views presented by scientists in the field including those with a biblical worldview.

Offered: Resident

AVIA 299 Internship 0 Credit Hours

Offered: Resident

AVIA 300 Aviation Safety 3 Credit Hours

Prerequisites: MATH 130 and PHYS 101

This course provides the student with a detailed introduction into aspects of aviation safety, risk management, and the associated components of pilot psychology, human factors and accident trends, factors and analysis. Students will explore and develop their identity as an aviation leader as it relates to safety.

AVIA 302 Airplane Aerodynamics 3 Credit Hours

Prerequisites: AVIA 225

This course will provide the student a study of the physical principles of airplane aerodynamics, thereby fostering an appreciation of the factors affecting aircraft performance, stability and control, and special flight conditions often experienced by commercial pilots of the fixed-wing aircraft.

AVIA 305 Airplane Aerodynamics 3 Credit Hours

Prerequisites: AVIA 225

This course will provide the student a study of the physical principles of airplane aerodynamics, thereby fostering an appreciation of the factors affecting aircraft performance, stability and control, and special flight conditions often experienced by commercial pilots of the fixed-wing aircraft.

AVIA 301 Instrument Ground 3 Credit Hours

Prerequisites: AVIA 225

The student will learn the FAA regulations, radio communications, air traffic control procedures, and meteorology as it relates to the instrument flight environment. The student will learn the proper use of radio navigational instruments and will be given study tools to prepare for the FAA Instrument written exam.

AVIA 311 Instrumental Lab Theory 1 Credit Hour

Prerequisites: AVIA 225

This course is designed to provide the student with ability to convert instrument flight theory to practical flight simulator operations. Student will fly simulator lights in the basic instrument phase to build a strong instrument scan. After mastering basic instruments, they learn radio calls and navigation used to perform instrument approaches to a landing.

Offered: Resident
In AVIA 312, students gain understanding of establishing an aviation safety program, including organizational policy and risk management. Hands on learning includes conducting an investigation into a simulated aviation mishap.

**Offered:** Resident

**AVIA 314 Principles of Aviation Administration** 3 Credit Hours

There is so much more to aviation than flying airplanes. This is a career-oriented course which introduces students to management competencies with a practical application to aviation service businesses. Course discussions include management functions, marketing, cash flows, and property oversight.

**Offered:** Resident

**AVIA 315 Commercial Ground** 3 Credit Hours

**Prerequisites:** AVIA 225

This course will cover advanced aeronautical knowledge in aerodynamics, regulations, meteorology, aircraft systems, and airspace operations required for the Commercial Pilot Knowledge and Oral examinations.

**AVIA 320 Instrument Flight** 3 Credit Hours

**Prerequisites:** (AVIA 310 and AVIA 020 (may be taken concurrently) and (ENGL 100 or (pre2016) SAT Writing with a score of 480 or SAT Test Writing/Language with a score of 28 or ACT English with a score of 19 or Placement Score-English with a score of 70 or ENGL 101 or ENGL 102 or ENGL 201 or ENGL 202 or ENGL 215 or ENGL 216 or ENGL 221 or ENGL 222) and (Placement Score-Math with a score of 75 or MATH 110 or MATH 114 or MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 217)

This course will provide basic instrument flight training. The course will require approximately 35 hours and will include a combination of both aircraft and simulator flight training. The student will gain an in-depth knowledge of Air Traffic Control procedures, airway navigation, and both precision and non-precision instrument approaches. This course will prepare the student for the FAA Instrument Practical Test.

**Offered:** Resident and Online

**AVIA 323 UAS Avionics & Powerplants** 3 Credit Hours

This course will provide the student a study in the current state of the art of avionics and systems in unmanned aerial systems. Students will be taught advanced concepts including RTK GPS, wired and wireless communications protocols, and RF theory. An overview of various UAS powerplants will also be presented.

**Offered:** Resident

**AVIA 325 Commercial Flight I** 1-3 Credit Hours

**Prerequisites:** AVIA 025 (may be taken concurrently) and (ENGL 100 or (pre2016) SAT Writing with a score of 480 or SAT Test Writing/Language with a score of 28 or ACT English with a score of 19 or Placement Score-English with a score of 70 or ENGL 102 or ENGL 201 or ENGL 202 or ENGL 215 or ENGL 216 or ENGL 221 or ENGL 222) and (Placement Score-Math with a score of 75 or MATH 110 or MATH 114 or MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 217)

This course is the first of three sequential flight training courses that include the requisite aircraft and simulator training and experience required for the FAA Commercial Pilot practical test. During this course, students will complete approximately one third of the aircraft and simulator training and experience hours required in the applicable commercial pilot training course outline (TCO).

**Offered:** Resident and Online

**AVIA 326 Commercial Flight II** 1-3 Credit Hours

**Prerequisites:** AVIA 325 and AVIA 026 (may be taken concurrently)

This course is the second of three sequential flight training courses that include the requisite aircraft and simulator training and experience required for the FAA Commercial Pilot practical test. During this course, students will complete approximately one third of the aircraft and simulator training and experience hours required in the applicable commercial pilot training course outline (TCO).

**Offered:** Resident and Online

**AVIA 327 Commercial Flight III** 1-3 Credit Hours

**Prerequisites:** AVIA 326 and AVIA 315 and AVIA 027 (may be taken concurrently)

This course is the third of three sequential flight training courses that include the requisite aircraft and simulator training and experience required for the FAA Commercial Pilot practical test. During this course, students will complete approximately one third of the aircraft and simulator training and experience hours required in the applicable commercial pilot training course outline (TCO).

**Offered:** Resident and Online

**AVIA 331 Commercial Pilot, Single Engine Land Add On** 1 Credit Hour

**Prerequisites:** AVIA 327 and AVIA 031 (may be taken concurrently)

This course will provide the student a study in the commercial operation of single-engine aircraft. The student will apply the knowledge and skills previously attained during the commercial multi-engine course to the operation of a single-engine aircraft. This will include theoretical and practical training in the flight maneuvers required by the FAA Commercial Pilot Practical Test Standards such that the student will be able to smoothly and precisely perform each single-engine commercial flight maneuver to the high standards required of a professional aviator. To satisfactorily complete this course, the student will be required to successfully complete an FAA Practical Test, which includes an oral exam and a flight test in a single-engine aircraft.
AVIA 332 Commercial Pilot Helicopter Add-On 3 Credit Hours

This course provides helicopter academic and flight training to FAA certificated fixed wing pilots. The student will receive a detailed introduction to helicopter aerodynamics, helicopter systems, helicopter maneuvers, aviation safety, and risk assessment.

Offered: Online

AVIA 334 Rotor to Fixed-Wing Commercial/Instrument Transition 3 Credit Hours

This course provides the requisite aircraft, simulator, and ground instruction training required to take the FAA Additional Category (Airplane Single Engine Land) and Instrument Airplane practical test. Students must already hold a valid FAA Commercial/Instrument Rotorcraft rating. During this course, students will complete the required training outlined in the applicable training course outline (TCO) under FAA 14CFR141 Appendix I and Appendix C. The student will be required to complete the following three FAA practical tests at the end of this course: Commercial Single Engine, Added-Instrument, and Commercial Multi Engine Add-On.

Offered: Online

AVIA 335 Medium UAS Ground and Flight I 3 Credit Hours

Prerequisites: AVIA 230 and AVIA 235 and AVIA 446 (may be taken concurrently)

This course provides the student knowledge on a medium UAS platform through classroom instruction. Aircraft systems, software, hardware, and operating procedures will be covered. This course prepares the student to succeed in future simulated, and actual, flight training events.

Offered: Resident

AVIA 340 Aviation Weather 3 Credit Hours

Prerequisites: AVIA 210

This course is a study of weather hazards, meteorological flight planning, aviation weather equipment and human factors as related to flight safety in all weather conditions.

AVIA 350 Airline Operations 3 Credit Hours

Prerequisites: AVIA 310 and AVIA 320

This course is representative of the initial training a First Officer will receive as a new hire in today’s airline industry. A foundational knowledge of FAR Part 91 instrument procedures is required. The material covered will focus on FAR Part 121 regulations, airline policies and procedures presented from an operational perspective. The topics studied will include: airline seniority, safety systems, the concept of operational control, operational policy, flight planning, and emergency/abnormal operations. Each student will be exposed to an in-depth study of dispatch procedures, fuel planning, weather requirements, and Jeppesen instrument approach procedures. The concepts of both Crew Resource Management (CRM) and Threat and Error Management (TEM) will be developed through all aspects of this course.

AVIA 355 Air Carrier Operations 3 Credit Hours

This course will explore the regulatory, network, business, and operational framework that supports air carrier operations and management. Special topics include business strategy, airside planning and procedures, operational and crew planning, processes, disruptions in operations, and tactics for mitigating service interruptions. The course will incorporate concept-relevant current trends within the air carrier industry through review, analysis, and discussion.

Offered: Online

AVIA 360 Corporate and Business Aviation 3 Credit Hours

This course is designed to introduce students to the exciting industry of corporate aviation. The course does introduce some business theory, but most of the course is designed as a practical guide for those who are interested in being involved in field of on-demand aviation. Students will be introduced to the importance of the feasibility study, and then discover the pitfalls of aircraft selection and acquisition. The course also highlights topics like international operations, maintenance requirements, and the importance of a good safety culture.

AVIA 361 Airport Management 3 Credit Hours

This course introduces students to the amazing world of airport operations. Management skills and airport knowledge merge together in this course to help develop a better understanding of the planning processes and managerial and operational functions carried on at small and large international airports.

Offered: Resident

AVIA 400 Aviation Human Factors 3 Credit Hours

This course will cover the scope of regulations concerning aviation and how they impact the pilot. The course will provide basic understanding of the human factors concepts including psychological and physiological limitations of humans operating in complex environments. In addition, the course will include an in-depth study of Crew Resource Management, which involves understanding of the flight deck environment and the proper utilization of resources available to the aviator.

AVIA 405 Advanced Aerodynamics 3 Credit Hours

Prerequisites: AVIA 305

This course will survey the theory of airplane performance and flight characteristics to include pilot static calibration, weight and balance, engine and propeller performance, takeoff and landing performance, range and endurance, excess energy and power, 1G stalls, turn performance, and longitudinal, lateral and directional static and dynamic stability and control. The course will provide in class instruction and practical laboratory work in both a simulator and aircraft to quantitatively document aircraft performance, and stability and control. Flight test data reduction and reporting techniques will conclude the learning objectives as student will report on the results of their evaluations.

Offered: Resident
AVIA 409 Safety Management Systems 3 Credit Hours  
**Prerequisites:** AVIA 312  
In AVIA 409, students explore Safety Management Systems (SMS) in depth. As leaders in training, students learn how Safety Management Systems (SMS) integrates leadership commitment, an environment of trust and accountability, and just culture. Hands on learning includes the planning and conducting of a simulated emergency response drill.

**Offered:** Resident

AVIA 410 Flight and Ground Instructor Theory 3 Credit Hours  
**Prerequisites:** AVIA 315  
This course provides the student with a detailed study of the responsibilities and teaching methods of a flight instructor. The course is divided into two major sections: fundamentals of teaching and learning, including effective teaching methods, learning process, consideration of flight training syllabi, effective evaluations, and flight instructor responsibilities. The second section covers the analysis of the flight maneuvers involved with Private Pilot, Commercial Pilot and Flight Instructor Certificates. The course will also provide practical teaching experiences.

AVIA 419 Aviation Safety Data Analysis 3 Credit Hours  
**Prerequisites:** AVIA 400  
In AVIA 419, students will learn to collect, validate, analyze and communicate data relevant to aviation safety. Students will visualize flight data using tools such as Google Earth, flight simulators, and data software, and will learn how to conduct Flight Data Monitoring (FDM).

**Offered:** Resident

AVIA 420 Flight Instructor Flight 3 Credit Hours  
**Prerequisites:** AVIA 410 and AVIA 040 (may be taken concurrently)  
This course covers flight instructor methods and maneuvers in preparation for the FAA Certified Flight Instructor initial evaluation.

AVIA 422 Certified Flight Instructor - Instrument (CFII) 1 Credit Hour  
This course is designed to train students to successfully complete the FAA Certified Flight Instructor Instrument Certificate. The course will contain both academic classroom and aircraft flight training required by FAA regulations. The academic ground school will consist of 11 lessons exceeding the FAA requirement of 40 classroom hours of instruction. The flight portion of this course will consist of 10 flights exceeding the FAA requirement of 25 hours of flight time.

AVIA 424 Airline Transport Pilot 3 Credit Hours  
**Prerequisites:** AVIA 315 and AVIA 325 and AVIA 362 and AVIA 372  
This course is designed to train the student to obtain the knowledge, skill, and aeronautical experience necessary to meet the FAA Part 141 requirements to obtain an Airline Transport Pilot Certificate. The course will contain both academic classroom and aircraft flight training required by FAA regulations. The academic ground school will consist of 11 lessons exceeding the FAA requirement of 40 classroom hours of instruction. The flight portion of this course will consist of 10 flights exceeding the FAA requirement of 25 hours of flight time.

**Offered:** Resident

AVIA 430 Multi-Engine Theory and Advanced Aircraft Systems 3 Credit Hours  
**Prerequisites:** AVIA 310  
This course provides for an understanding of the principles and practice of operating a multi-engine aircraft. Normal and abnormal procedures are included along with a discussion of the Federal Aviation Regulations, unique weather and environmental circumstances, aircraft systems and the specific aerodynamics associated with multi-engine aircraft.

**Offered:** Resident

AVIA 435 Advanced Jet Systems 3 Credit Hours  
**Prerequisites:** AVIA 430 and (AVIA 350  
This course is representative of the systems training a First Officer receives as a new hire in today's airline industry. This course provides advanced jet systems training by systematically studying the type of aircraft systems commonly found on commercially operated jet aircraft. As a training platform, this course specially explores all the major aircraft systems found on the Bombardier CRJ-200. Students will be exposed to aircraft limitations and profiles, Immediate Action Items, checklist usage, and Flight Management Systems (FMS) navigation. The concepts of both Crew Resource Management (CRM) and Threat and Error Management (TEM) will be developed through all aspects of this course.

AVIA 436 Advanced Jet Training 3 Credit Hours  
**Prerequisites:** AVIA 435 and AVIA 036 (may be taken concurrently)  
Built on the foundational knowledge acquired in Airline Operations (AVIA 350) and Advanced Jet Systems (AVIA 435), this course will include Cockpit Procedure Training (CPT) lessons and Flight Training Lessons in a CRJ-200 Flight Training Device (FTD). This scenario-based training will include: Checklist usage in multi-crew environment; Flight Management Systems (FMS) operations; Normal procedures and flight profiles; Abnormal/Emergency procedures and flight profiles; High altitude aerodynamics; and Aeronautical Decision Making. This course will also stress the proper use of aircraft automation to include: the Flight Control Panel, incorporating both the Flight Director and the Autopilot through all phases of flight. The concepts of both Crew Resource Management (CRM) and Threat and Error Management (TEM) will be developed through all aspects of this course.

**Offered:** Resident
AVIA 440 Multi-Engine Flight 1 Credit Hour
Prerequisites: AVIA 327 (may be taken concurrently)
Introduction to multi-engine flight and all related maneuvers in preparation for the FAA Multi-Engine Rating.
Offered: Resident and Online

AVIA 441 Multi-Engine Instructor 1 Credit Hour
Prerequisites: AVIA 410
This course builds on the Certified Flight Instructor Licensure to teach techniques and maneuvers in preparation for the FAA multi-engine practical flight test for licensure.

AVIA 442 Advanced Aircraft Flight Operations 1 Credit Hour
Prerequisites: AVIA 327
This course will provide the student a study in high performance aircraft with engines having more than 200 horsepower. This will include theoretical ground training associated with high performance aircraft and the practical flight training required by 14 CFR 61.31. This will include training to proficiency in the operation of the aircraft’s major systems and in the safe conduct of high performance flight operations. In addition, this course will focus on advanced flight operations in a wide variety of environments, including unimproved landing surfaces, flight operations in and over uninhabited areas, complex airspace and aerodromes, and complex weather systems. At the successful completion of this course, students will receive a special endorsement authorizing the student to legally operate an aircraft with an engine of more than 200 horsepower.
Offered: Resident

AVIA 446 Medium UAS Ground and Flight II 3 Credit Hours
Prerequisites: AVIA 230 and AVIA 235 and (AVIA 335
This course provides the student the opportunity to utilize knowledge gained in AVIA 335 by conducting simulated medium UAS flights. Normal, abnormal, and emergency procedures will be taught and executed utilizing Medium UAS simulators.
Offered: Resident

AVIA 447 Medium UAS Ground and Flight III 3 Credit Hours
Prerequisites: AVIA 446 and AVIA 335
This course provides the student the opportunity to achieve full certification on a Medium UAS aircraft. Utilizing knowledge and skills built in AVIA 335 and 446, students will conduct training flight operations. Upon successful completion of all flight events the student will be given industry certification.
Offered: Resident

AVIA 450 Confined Area Operation 2 Credit Hours
Prerequisites: AVIA 325
This course will prepare students to plan and operate in confined areas with short and unpaved landing strips. The student will learn safety aspects, risk management and flight techniques necessary to successfully operate throughout the world.
Offered: Resident

AVIA 451 Aviation Maintenance Operations 3 Credit Hours
A study of aviation maintenance-specific topics which face those in maintenance leadership positions. These topics include, but are not limited to, the need for maintenance; development of maintenance programs; technical planning, control, and training; and differing types of maintenance operations.
Offered: Online

AVIA 455 Turbine Engines and Jet Transports 3 Credit Hours
This course is an in-depth study of the turbine engine theory, design and operations. The student will also receive a broad knowledge of the design and operation of turbine engines and their related systems on transport category aircraft.

AVIA 460 Aviation Interview 3 Credit Hours
This course will cover the unique requirements of an aviation job interview. The course material will focus on the entire interview process from personal preparation, to paperwork presentation, to the actual interview itself. Practice interviews with professionals from the aviation industry will critique the student on personal appearance, communication skills, and professional knowledge. In formulating answers to interview questions, the principles of Aeronautical Decision Making (ADM), Crew Resource Management (CRM) and Threat and Error Management (TEM) will be thoroughly developed.
Registration Restrictions: Junior Status or higher.
Offered: Resident

AVIA 465 Human Factors & Crew Mgmt 3 Credit Hours
Prerequisites: AVIA 310

AVIA 472 Aviation Organizational Ethics 3 Credit Hours
Prerequisites: AVIA 245
The aviation industry offers a work environment with a unique balance of regulatory and performance demands. This course introduces students to the tools necessary to recognize and apply managerial principles to common ethical situations found in this unique aviation environment.
Offered: Resident
AVIA 491 Capstone: Advanced Research Concepts 3 Credit Hours

Prerequisites: AVIA 400 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

During this course, students pursue aeronautical research interests to add to their educational portfolio through participation in a case study project or with a capstone topic or concept paper. Tasks include forming the research problem, defining methods, and generating a literature review. Path to continue with AVIA 492, Aviation Research Implementation.

Registration Restrictions: Second semester Junior Status or higher.

Offered: Resident

AVIA 492 Aviation Research Implementation 3 Credit Hours

Prerequisites: AVIA 491

During this AVIA 492 students refine the research problem and methods, research the problem and report the conclusions. Ultimate desired outcome includes path for national forum presentation and/or scholarly journal publication.

Offered: Resident

AVIA 495 Directed Research 1-3 Credit Hours

AVIA 495 - Directed Research (1 to 3 hours)

Offered: Resident

AVIA 496 Advanced Directed Research 1 Credit Hour

Prerequisites: AVIA 495

Students will apply their learning to add to their learning portfolio through participation in a case study project or with a capstone research paper. Tasks include refining the research problem, exploring methods, and generating a final paper.

Offered: Resident

AVIA 499 Aeronautics Internship 1-6 Credit Hours

AVIA 499 - Aeronautics Internship (3-6 hours)

Offered: Resident

Aviation (B.S.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1. Courses may also fulfill select general education requirements
2. Students must hold a valid Private Pilot Certificate or have completed AVIA 220 Private Flight I (3 c.h.) and AVIA 225 Private Flight II (3 c.h.) prior to enrolling in any AVIA course
3. Advanced Standings awarded for FAA Certificates and Ratings
4. Choose one course from the following: Any 300-400 level AVIA course, AVIA 230 Unmanned Aerial Systems (3 c.h.), GLST 200 Introduction to Global Studies (3 c.h.), GLST 220 Intercultural Communication and Engagement (3 c.h.), or any 300-400 level BUSI course (maximum of 2 BUSI courses may be applied)

All applicable prerequisites must be met

Graduation Requirements
- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of 'C' Minimum required for all upper-level courses in the major
- 30% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Undergraduate Certificates

Delivery Format: Residential Only
- Aviation Maintenance Technician Certificate - Resident (p. 450)
- Medium Unmanned Aerial Systems Certificate - Resident (p. 450)

Aviation Maintenance Technician Certificate - Resident

Important: This certificate plan is effective for those starting in the fall 2019 through summer 2020. This certificate plan will remain in effect for students who do not break enrollment or who do not change certificates.

Total Hours 18

Completion Requirements
- 18 total hours
- All courses must be completed through Liberty University
- 2.0 GPA
- No grade of 'D' may be applied to the certificate
- Submission of Certificate Completion Application at beginning of final semester
School of Behavioral Sciences

Administration
Vice Provost
Founding Dean, School of Behavioral Sciences
Professor of Counseling and Practical Theology

Kenyon C. Knapp, B.A., M.S., M.S., Ph.D.
Dean, School of Behavioral Services

Kevin Van Wynsberg, M.A., Ph.D.
Interim Online Dean, School of Behavioral Sciences
Assistant Professor of Counseling

Shawn M. George, B.S., M.A.
Associate Dean, School of Behavioral Sciences
Assistant Professor of Psychology

Program Directors
A listing of program directors can be viewed at http://www.liberty.edu/programdirectors.

Research Intensive Courses
All research intensive courses are listed online at https://www.liberty.edu/academics/qualityenhancement/index.cfm?PID=32835.

Purpose
The School of Behavioral Sciences exists to promote an integrated understanding of science, practice, and faith. Programs prepare future graduates dedicated to impacting the fields of Psychology, Counseling, and Social Work within the context of a commitment to scientific competence and the demonstration of best practices supported by a Christian Worldview.

Departments
- Department of Psychology (p. 459)
- Department of Social Work (p. 495)

Programs
- Human Services Major (B.S.) (p. 464)
- James C. Dobson Center for Child Development, Marriage, & Family Studies - Minors (p. 466)
- Psychology Major (A.A.) (p. 468)
- Psychology Major (B.S.) (p. 474)
- Psychology Minors (p. 494)
- Social Work Major (B.S.) (p. 498)
- Undergraduate Certificates (p. 505)

Faculty

A
Adkins, Michele; B.S., M.Ed.
Title: Adjunct Faculty
B.S. - Liberty University, M.Ed. - University of Lynchburg

Aiken, Jessica; B.A., M.A.
Title: Adjunct Faculty
B.A. - Meredith College, M.A. - Southeastern Baptist Theological Seminary

Alday, Patricia; B.A., M.A.
Title: Adjunct Faculty
B.A. - The Baptist College of Florida, M.A. - Liberty University

Anderson, Barbara; B.S.W., M.S.W., PHD
Title: Adjunct Faculty
B.S.W. - Radford University, M.S.W. - Radford University, PHD - University of Tennessee in Knoxville

Anderson, Nancy; B.S., Ph.D.
Title: Adjunct Faculty
B.S. - Texas Tech University, Ph.D. - Texas Tech University

Anderson-Engler, Annette; B.S.W., M.A., M.S.W., Ph.D.
Title: Adjunct Faculty
B.S.W. - University of North Texas, M.A. - Nova Southeastern University, M.S.W. - Walla Walla College, Ph.D. - Saybrook

Ayodeji, Sunday; M.A.
Title: Adjunct Faculty
M.A. - Liberty University

B
Barclay, Timothy; B.S., M.A., Ph.D.
Title: Professor of Psychology
B.S. - Liberty University, M.A. - Liberty University, Ph.D. - Walden University

Barrett, Aarika; B.A., M.A., M.A.T.
Title: Adjunct Faculty
B.A. - Anderson University, M.A. - Liberty University, M.A.T. - David Lipscomb University

Bartley, Jennifer; B.S.W., M.S.W.
Title: Adjunct Faculty
B.S.W. - James Madison University, M.S.W. - Radford University

Bathe, Sarah; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Best, Faith; B.S.W., M.S.W.
Title: Adjunct Faculty
B.S.W. - Cedarville University, M.S.W. - Ohio State University

Borrett, Nathan; Ph.D.
Title: Adjunct Faculty
Ph.D. - Grand Canyon University

Bouman, Timothy; B.S., M.A.
Title: Instructor
B.S. - Liberty University, M.A. - Liberty University

Brown, Janet; B.S., M.A., Ph.D.
Title: Associate Professor of Psychology
B.S. - Liberty University, M.A. - Liberty University, Ph.D. - Liberty University

Brown, Joshua; B.S., M.Ed., PHD
Title: Instructor
B.S. - Liberty University, M.Ed. - Azusa Pacific University, PHD - University of Virginia

Bruce, Sally; B.S.E., M.A.
Title: Adjunct Faculty
B.S.E. - Slippery Rock University, M.A. - Western Conservative Baptist Seminary

Burger, Rachel; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Burke, Joseph; B.S., M.Ed.
Title: Adjunct Faculty
B.S. - Liberty University, M.Ed. - University of Lynchburg

Busarow, Donna; B.S., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - Campbell University, M.A. - Bowie State University, Ph.D. - Capella University

Captari, Laura; B.A., B.S., M.A.
Title: Adjunct Faculty
B.A. - Liberty University, B.S. - Liberty University, M.A. - Liberty University

Cardoza, Dominique; B.S.W., M.S.W.
Title: Instructor
B.S.W. - California State University, M.S.W. - California State University

Carter, Marshanda; M.A., Ph.D.
Title: Adjunct Faculty
M.A. - Argosy University-Washington DC, Ph.D. - Capella University

Carter, Neal; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Carson-Newman College, M.A. - Nova Southeastern University, Ph.D. - Florida State University

Cary, Georgianna; B.S.E., M.A.
Title: Instructor
B.S.E. - University of Georgia, M.A. - Liberty University

Cashion, Virginia; B.S., M.A.R., M.A.R., M.A.R.
Title: Online Chair
B.S. - Liberty University, M.A.R. - Liberty University, M.A.R. - Liberty University, M.A.R. - Liberty University

Chamberland, Cynthia; M.S., Psy.D.
Title: Adjunct Faculty
M.S. - Palm Beach Atlantic University, Psy.D. - California Southern University

Clark, Mendy; A.G., B.A., M.A.
Title: Instructor
A.G. - Central Virginia Community College, B.A. - Randolph College, M.A. - Liberty University

Clark, Jamie; PHD
Title: Adjunct Faculty
PHD - Northcentral University

Clark, Robert; B.S., M.S.W.
Title: Adjunct Faculty
B.S. - Middle Tennessee State University, M.S.W. - University of Michigan-Ann Arbor

Clunan, Megan; B.A., M.A., M.T., Ph.D.
Title: Adjunct Faculty

Cob, Kristi; B.A., M.A., M.A., Ed.S.
Title: Adjunct Faculty
B.A. - Houghton College, M.A. - Liberty University, M.A. - Liberty University, Ed.S. - Liberty University

Cole, J.; B.S., M.S.W.
Title: Associate Professor of Social Work
B.S. - Liberty University, M.S.W. - Florida International University

Colte, Florin; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - University of Bucharest, M.A. - Trinity International University-Florida, Ph.D. - Capella University

Combs, Rebecca; B.S.W., M.S.W.
Title: Adjunct Faculty
B.S.W. - Cedarville University, M.S.W. - University of Cincinnati

Conner, Kevin; B.S., M.A.R., M.Div., Ph.D.
Title: Assistant Professor of Psychology
B.S. - Liberty University, M.A.R. - Liberty University, M.Div. - Liberty University, Ph.D. - Liberty University

Conner, Amy; B.A., M.A.
Title: Adjunct Faculty
B.A. - Erskine College, M.A. - Erskine College

Corsini, Marlene; A.G., B.S., M.A., Ed.D., Ed.S.
Title: Associate Professor of Psychology

Cox, Elke; B.A., M.S.W.
Title: Assistant Professor of Social Work
B.A. - University of North Carolina at Chapel Hill, M.S.W. - University of North Carolina at Chapel Hill

Cox, Trilby; B.A., M.A., M.A.
Title: Instructor
B.A. - Mississippi College, M.A. - University of California Los Angeles, M.A. - University of California Los Angeles

Crawford, Arthur; B.S., M.S., Ph.D.
Title: Instructor
B.S. - University of Nebraska Omaha, M.S. - University of Nebraska Omaha, Ph.D. - Colorado State University

Creason, Linda; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Avila College, M.A. - Avila College, Ph.D. - University of Missouri-Kansas City

Crow, Kristie; B.S.W., M.S.W.
Title: Adjunct Faculty
B.S.W. - Missouri State University, M.S.W. - Austin Peay State University

Curran, Bonnie; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University
Day, Robert; B.T., M.Div., M.S.W.

Title: Adjunct Faculty
B.T. - University of The Cumberlands, M.Div. - Southern Baptist Theological Seminary, M.S.W. - Southern Baptist Theological Seminary

Debolt, Elizabeth; B.S., M.A.

Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Deemer, Holly; B.A., M.A., M.P.H., Ph.D.

Title: Adjunct Faculty
B.A. - University of South Alabama, M.A. - University of Alabama, M.P.H. - University of Alabama, Ph.D. - University of Alabama

Deneen, Susan; B.A., M.A., Ed.S.

Title: Adjunct Faculty
B.A. - Rhodes College, M.A. - University of Memphis, Ed.S. - University of Memphis

Donovan, Sundi; A.A., B.S., M.A.

Title: Assistant Professor of Psychology
A.A. - Broward College, B.S. - Liberty University, M.A. - Liberty University

Dudley, Karen; B.S., M.A.

Courses  

PSYC 101 General Psychology  
3 Credit Hours  

Introduction to Psychology as a scientific discipline concerned with the study of behavior. Consideration will be given to such topics as human development, motivation, emotion, perception, learning, personality, intelligence, measurement and applied areas.
Relationships interact with one’s identity, attachment style, boundary formation, emotional well-being, and worldview. Therefore, an understanding of relationship development and maintenance are essential to the successful navigation of life. This interactive course reviews healthy relationship concepts and practices in research and Scripture and encourages strategies to adjust potential deficits in developing healthy relationships.

**Offered:** Resident

**PSYC 200 General Psychology**  
3 Credit Hours

An overview of the human life span from conception through senescence. Continuity of development as well as critical periods faced by the maturing human will be emphasized using contemporary theories and research as foundation materials.

**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

A study of child growth and development from birth to puberty. Examination of the basic theories principles and practices of childhood training and education.

**PSYC 221 Psychology of Childhood**  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

An investigation of the psychological and environmental factors related to puberty, peer identification and identity conflict in the adolescent. Emphasis will be upon the development of self-identity and the problems faced by the American adolescent.

**PSYC 231 Psychology of Adolescence**  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

The focus will be on viewing adult development as an integrative, dynamic and continuous process terminated only at death. The whole span of adulthood will be examined, including retirement and old age.

**PSYC 235 Psychology of Adulthood**  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

An introduction to psychological research techniques and methodology designed to improve students’ understanding of the basic issues in the scientific methods of the social sciences. The goals of the course are: to improve students’ understanding of the concepts related to research methodology; to improve the students’ ability to communicate ideas about science, including a significant amount of writing; and survey of both quantitative and qualitative research methods.

**PSYC 255 Introduction to Research**  
3 Credit Hours

**PSYC 299 Internship**  
0 Credit Hours

**Prerequisites:** PSYC 255

Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinic settings and through exposure/intern opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

**Registration Restrictions:** Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

**Offered:** Resident and Online

**PSYC 305 Overview of Theory and Treatment of Substance Abuse**  
3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255

This course includes a thorough examination of the theoretical models of addiction, the introduction to the neurobiology of addiction, the addiction cycle, the evaluation and treatment of addictions, and the trauma that occurs with addictions.

**PSYC 306 Advanced Theory and Treatment of Substance Abuse**  
3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255

Advanced information on the theory and treatment of substance abuse and addiction with both secular and biblical concepts of substance abuse, recovery, and the impact upon family systems and society. An appropriate integration of the sets of materials will focus on the 12-step method of recovery and methods of relapse prevention.

**PSYC 307 Treatment and Recovery of Addictions**  
3 Credit Hours

**Prerequisites:** PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255

This course examines addiction recovery process theory and treatment modes. Students will understand the theoretical basis for treatment by critically assessing treatment outcome research from various approaches and formalize a practical recovery approach plan. Students will explore treatment approaches, gain a working understanding of addictions and begin to develop a practical approach to recovery. The dynamics of addiction recovery will be examined as students consider recovery obstacles for substance and sexual addiction subsets.

**PSYC 308 Diagnosis and Treatment of Sexual Addiction**  
3 Credit Hours

**Prerequisites:** PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255

An examination of the definition, neurobiology, etiology, diagnosis and treatment of sexual addiction. Students will explore, from a biblical worldview, gender issues related to sexual addiction and related topics such as marital affairs, pornography and homosexuality.
PSYC 309 Healthy Sexuality  
3 Credit Hours  
**Prerequisites:** PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255  
This course provides a foundational understanding of healthy sexuality based on psychological foundations and a biblical worldview. Special attention is given to the biological foundations of sexual development, sexual enrichment, challenges, brokenness, and controversial issues surrounding healthy sexuality.

PSYC 311 Educational Psychology  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255  
Acquaints the student with various learning theorists and models of learning. Focus is on the generation of practical solutions to problems associated with the teaching-learning process.  
**Offered:** Resident

PSYC 312 Social Psychology  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or SOCI 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255  
Social psychology is the study of how the presence of other people affects an individual's behavior, as well as how an individual forms opinions and attitudes about others. Topics in the course include interpersonal attraction, accuracy of eye-witness testimony, impact of TV on aggression, non-verbal communication, group decision making, and the impact of advertising on beliefs and behavior.

PSYC 313 Multicultural Counseling & Res  
3 Credit Hours  
**Prerequisites:** PSYC 255

PSYC 315 Applied Psychology  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255  
An introduction to the wide variety of positions psychologists fill in government, industry, education and the social services. Students are given information on the various applications of psychological theories, principles and practices as they relate to different career fields.  
**Offered:** Resident

PSYC 316 Industrial and Organizational Psychology  
3 Credit Hours  
**Prerequisites:** (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255  
Industrial and Organizational (I/O) Psychology is the application of the scientific study of human behavior and mental processes to work organizations. The major areas of concern for I/O psychologists include recruitment, selection, training, evaluation, motivation, leadership and job attitudes. Additional time will be dedicated to the investigation of human factors engineering and consumer behavior.  
**Offered:** Resident

PSYC 317 Crisis Intervention  
3 Credit Hours  
**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)  
This course offers an understanding of how a crisis can impact the life of an individual and cause a decrease in healthy functioning. A variety of crises are explored, including but not limited to, PTSD, Types of Abuse, Community Disasters, Substance Abuse, Crises of Lethality, Crisis of Loss, and Sexual Assault. In addition, therapeutic interventions and evidence-based practices are identified.

PSYC 318 Consumer Psychology  
3 Credit Hours  
**Prerequisites:** (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255  
Consumer Psychology is the study of individuals, groups, or organizations and the processes they use to select, secure, use, and dispose of products, services, experiences, or ideas to satisfy the wants and needs of the consumer and society.  
**Offered:** Resident

PSYC 320 Behavior Modification  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255  
The application, implementation, measurement, and evaluation of behavior management techniques in various settings including hospitals, institutions, and schools.

PSYC 321 Psychology of Childhood  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 331 Psychology of Adolescence  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 334 Psychology of Adulthood  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 335 Gerontology  
3 Credit Hours  
**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255  
The facts of demography describe the background and present status of elderly people in the United States. Then the biological, psychological and sociological factors in aging will be studied to promote an in-depth understanding of the dynamics of aging. The dying-grieving processes, as well as LTC policies and government-sponsored programs are explored.
PSYC 341 Psychology of Personality 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The major historical and contemporary theories of the origin and development of personality are explored, emphasizing the role of the dynamics of personality.

PSYC 345 Exceptional Child 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

All major areas of exceptionality will be surveyed to provide undergraduate students a first contact with the field of exceptionality from infancy through adolescence. The focus is on theory, empirical research, and interventions related to behavioral, emotional, and cognitive disorders.

PSYC 350 Bibliotherapy 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

Bibliotherapy is a study of the history, methodologies, and applications of the use of therapy through books and as a process of dynamic interaction between the personality of the reader and literature. Literature for children and adolescents is presented as a tool and a backdrop for counseling troubled clients with needs similar to those of characters presented in the literature. Appropriate bibliographies with assigned readings are combined with topics on issues of common concern. Students are given the opportunity to explore personal issues as well as those expected to be encountered in social service settings.

**Offered:** Resident

PSYC 351 Multicultural Counseling and Research Issues 3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

Mental health counseling should assist students to take their own backgrounds into account before learning about counseling approaches which center around techniques shown to be multiculturally effective. The importance of therapist characteristics will be emphasized. Additionally, research leading to the misunderstanding of minority culture members will be critiqued as the value of objective scientific reporting is recognized to be critical to advancement in the mental health field.

PSYC 354 Statistics for the Social Sciences 3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 221 or MATH 231 or MATH 250) and PSYC 255

Introduction to the descriptive statistics and probability, probability distributions, estimation, tests of hypotheses, and visual displays of data with applications in psychology and the other social sciences.

PSYC 355 Statistics in Psychology 3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 211 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 354 and PSYC 255

Introduction to statistical methodology in the social sciences, particularly as related to psychological measurement and development of scientific research studies involving quantitative investigation.

PSYC 356 Introduction to Qualitative Research 3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

An overview of qualitative research methods and qualitative data analysis. The course introduces the student to the logic and process of qualitative research, to four specific qualitative research methods - phenomenology, ethnography, case study, and grounded theory - and the basics of analyzing qualitative data.

**Offered:** Resident

PSYC 360 Psychology of Wisdom Tradition 3 Credit Hours

**Prerequisites:** PSYC 255

PSYC 361 Marriage and Family 3 Credit Hours

**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)

This course examines the research from the social sciences, showing the benefits of marriage to those married and to society at large, as well as the biblical basis for marriage and family. The course also investigates the research regarding family strength, incorporates instruction relating to preparation for marriage, and offers marital and family enrichment.

**Offered:** Resident

PSYC 365 Psychological Foundations of Learning 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

A study of human learning, including examination of conditioning, modeling, cognitive development, and high level thought processes. Models of behaviorism, social learning, cognitive development, memory, motivation, and attribution theories will be evaluated.

PSYC 371 Theories in Counseling and Psychotherapy 3 Credit Hours

**Prerequisites:** PSYC 341 and PSYC 255 and (PSYC 101 or PSYC 210)

The principal current theoretical approaches to counseling and psychotherapy represented and evaluated. Exploration of techniques and methods in group and individual counseling.
PSYC 380 Physiological Psychology 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
This course is designed to investigate the most recent findings in the area of physiological psychology. Topics of study will concern basic information about the nervous system, sensory systems, physiological bases of behaviors and the development of learning and memory.

PSYC 401 History and Systems of Psychology 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The history of psychology from its beginnings in early philosophical thought to the present. Emphasis is on the last century of developments in the field, the life, and works of historically eminent psychologists.
Offered: Resident

PSYC 405 Group Dynamics 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The study of human personality in relationship to other persons, singularly and in groups. The application of the principles of group dynamics to business, industry, public and private life will be examined in theory and demonstrated with exercises.

PSYC 406 Addictions and the Recovery Process 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210) and PSYC 255 and PSYC 306
This course provides to students knowledge of addictions and the recovery process. Students will learn about dual diagnosis, co-morbid issues, adjunctive treatment and support, addiction and special populations (women, adolescents, same-sex attraction, etc.), codependency, relapse prevention, crisis management and counseling and HIV.
Offered: Resident

PSYC 407 Addictions Groups, Ethics and the Community 3 Credit Hours
Prerequisites: PSYC 371 and PSYC 406 and PSYC 255 and (PSYC 101 or PSYC 210)
This course focuses on the issues of group counseling and dynamics, client and community, education and ethics. Students will learn both didactic and psychodynamic group counseling skills. Learning groups will prepare a program of client and community education focused on substance abuse prevention. Students will also learn about ethical issues in substance abuse treatment.
Offered: Resident

PSYC 410 Psychology of Religion 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255
A challenge to examine the role psychology plays in religious beliefs. Students with analyze and evaluate assigned texts and novels comparing aspects of ten religions and how psychological theories coincide with each system.
Offered: Resident

PSYC 420 Psychology and Christianity 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
This course explores the relationship between Christian theology and the science of psychology. Students will focus on philosophical foundations and the major models of conceptualizing the relationship between the two disciplines.

PSYC 421 Psychological Measurement 3 Credit Hours
Prerequisites: PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)
A study of standardized tests in psychology, counseling and education. Includes personality, aptitude, general ability, achievement and interest tests. Elementary statistics necessary to test usage and interpretation will be a part of the course.

PSYC 425 Psychology of Criminal Behavior 3 Credit Hours
Prerequisites: (PSYC 101 and PSYC 341) or (PSYC 210 and PSYC 345) or (PSYC 341 and SOCI 200) or (PSYC 200 and PSYC 341) and PSYC 255
Offered: Resident

PSYC 430 Abnormal Psychology 3 Credit Hours
Prerequisites: PSYC 255 and (PSYC 101 or PSYC 210)
A study of neurotic and psychotic behavior including origin, classification, symptoms and a survey of diagnosis, therapy and prevention.

PSYC 440 Experimental Design in Research: Application and Construction 3 Credit Hours
Prerequisites: PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)
Acquaints the prospective research experimentalist in the behavioral sciences with a number of the basic principles used in the construction of experimental designs.
Offered: Resident
PSYC 450 Children in Healthcare  
3 Credit Hours

**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)

This course will provide a foundational knowledge of the impact of medical illness/injury on the developmental and psychosocial well-being of children, adolescents, and their families within health care. Students will gain an understanding of therapeutic interventions utilized to help reduce the negative impact of illness and increase the child/family's ability to cope. Core areas discussed include: psycho-education, therapeutic/supportive uses of play and expressive arts, death and dying, the health-care environment, family centered care, developmental stressors, and cultural and spiritual issues. Students interested in pursuing the Child Life Professional Certification Examination are responsible for meeting with the professor after the completion of the course to complete their verification form.

**Note:** Successful completion of Children in Healthcare will meet the child life course criteria outlined by the Child Life Council.

**Offered:** Online

PSYC 460 Counseling Processes and Techniques  
3 Credit Hours

**Prerequisites:** PSYC 341 and PSYC 371 and PSYC 255 and (PSYC 101 or PSYC 210)

Counseling theories, techniques, and practices are presented in an experiential group-practice manner. Students are introduced to a variety of counseling issues and therapeutic techniques at a level commensurate with senior status and entry into the community workplace.

**Offered:** Resident

PSYC 475 Psychology of Criminal Behavior  
3 Credit Hours

**Prerequisites:** PSYC 341 and (PSYC 101 or PSYC 210) and PSYC 255

An examination of the factors that contribute to criminal behavior, including various psychopathological and sociological aspects.

PSYC 495 Directed Research  
1-3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

PSYC 495 - Directed Research (1 to 3 hours) Prerequisites: PSYC 101 or 210; PSYC 255.

**Offered:** Resident

PSYC 497 Special Topics in Psychology  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

An examination and evaluation of moral and ethical concepts and principles as they relate to the field of psychology. A wide range of subjects will be discussed including counseling intervention systems, the exceptional child, vocational development and human development.

PSYC 498 Senior Project  
3 Credit Hours

**Prerequisites:** PSYC 355 and PSYC 440

Junior or Senior majors in Psychology will engage in a formal project of research, calling upon their previous courses in statistics and research methods, to produce a detailed project as a written capstone to a Psychology education.

**Offered:** Resident

PSYC 499 Internship  
1-6 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinical settings and through exposure/intern opportunities. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. 3.0+ overall GPA, Senior or Junior Status, 18 credits of PSYC coursework successfully completed, suitable internship site, and completed Student Internship Agreement (SIA)

**Registration Restrictions:** 2.

### Human Services Major (B.S.)

#### Purpose

The B.S. in Human Services focuses on meeting the career goals of students who plan to enter the Human Services professions upon graduation. The courses offered within this degree provide the academic foundation necessary for students to be competitive and effective as they serve their communities.

#### Program Learning Outcomes

The student will be able to:

1. Demonstrate competence in an array of human service theories.
2. Evaluate service delivery models and programs effectiveness.
3. Discuss ethical standards for human service workers.
4. Evaluate concepts within the field of human services as they relate to biblical thought.
5. Analyze the needs of diverse clients with an appreciation of multicultural perspectives.

This degree offering is for students who desire to enter the helping professions directly after completing their degree. The student can obtain entry-level (non-licensed) positions within the field of case management, human services, and community outreach programs. If a student desires to go to graduate school, it is highly recommended that PSYC 355 Statistics in Psychology (3 c.h.) is taken as an elective course within this degree offering.

#### Program of Study

**Delivery Format:** Residential Only

- Human Services (B.S.) - Resident (p. 465)
Career Opportunities

Individuals with a baccalaureate degree in Human Services may pursue the following entry level careers in the helping profession and mental health fields:

- Case worker
- Child care worker
- Community case worker
- Counselor assistant
- Day care center supervisor
- Domestic relations worker
- Group home case manager
- Residential youth counselor
- Welfare office related work

Courses

HSER 201 Survey of Human Services 3 Credit Hours

This course explores the complexities of the Human Services field, such as, the macro-mechanics of the service delivery system, the variety of professionals within the field, and the diversified population groups receiving specialized services. It provides the student with a historical perspective and it explores the societal values that served as a catalyst for the implementation of the policies that influence the delivery of human services.

Offered: Resident

HSER 301 Administration & Case Management 3 Credit Hours

Prerequisites: HSER 201 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

The purpose of this course is to prepare students for work in human services. The focus is practical in what to expect in the work setting in terms of managing both specific population groups as well as the various entities providing services. Students will examine the dynamics of clients, agency, and the self as the representative and provider of services. The course will help students understand the complex religious, moral, economic, and political aspects of human services practice when interacting with a variety of people. The student will be exposed to a broad range of ideas about the philosophies and practices of the various agencies and will be challenged to identify their own beliefs about the role of helping others in a professional context.

Offered: Resident

HSER 315 Human Services Policy and Ethics 3 Credit Hours

Prerequisites: PSYC 101 and PSYC 210 and SOWK 101 and (SOCI 200 or SOCI 201)

The course provides an overview of the professional realities and ethical issues surrounding human services practices and procedures. It focuses on the dialectical relationship of social welfare and public policy as well as the benefits and dangers related to professional interventions in society through the lens of a Christian biblical ethos. It pays special attention to individual and public social work, municipal and federal government interaction, historical precedent and development of general work policies, youth and elderly programs, philanthropic community work, and related behavioral science professional contributions. Additionally, it provides insight on common philosophical, theological, and cultural presuppositions in the formation and application of various ethical theories and moral practices in social work.

Offered: Resident

HSER 499 Internship 1-9 Credit Hours

A course that provides students the opportunity to observe human behavior within the human services profession. Applications are processed through the department Faculty Intern Advisor. And, all applicants must apply the semester prior to starting the internship.

Registration Restrictions: Senior Status; Human Service Major.

Offered: Resident

Human Services (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

### James C. Dobson Center for Child Development, Marriage, & Family Studies - Minors

Liberty University has partnered with world-renowned psychologist, author, radio show host, and family expert Dr. James C. Dobson to create Liberty University’s James C. Dobson Center for Child Development, Marriage, & Family Studies. The goal of the center is to equip men and women with the knowledge to positively impact the family, and society, for Christ. Whether you are a pastor, counselor, caregiver, teacher, stay-at-home-mom, businessperson, or in any other field, these courses will strengthen your faith and grow your knowledge in the area of the family and family advocacy. Video lectures integrated into the courses are taught by Dr. Dobson, as well as other distinguished, Christian psychologists and family therapists. The center is offering the following programs:

- **Minor in Family Advocacy, Public Policy, and the Future**
- **Minor in Parenting and Child/Adolescent Development**
- **Minor in Marriage and Family Studies**

For more information, please visit: [http://www.liberty.edu/online/index.cfm?PID=33578](http://www.liberty.edu/online/index.cfm?PID=33578).

### Dobson Center Family Advocacy, Public Policy and the Future Minor

#### Program Learning Outcomes

The student will be able to:

1. Defend a Christian worldview and the biblical definition of marriage and family.
2. Identify and discuss why philosophy and worldviews matter and describe the various worldviews prevalent today.

### Dobson Center Marriage and Family Studies Minor

#### Program Learning Outcomes

The student will be able to:

1. Describe the current state of social issues and how they are influencing today’s adolescents (i.e., technology, bullying, sexual
promiscuity, STD's, drug addiction, pornography, suicide, divorce and broken families, etc.).

2. Explain the significance of the historical, cultural and spiritual context of parenting.

Dobson Center Parenting and Child/Adolescent Development Minor

Program Learning Outcomes

The student will be able to:

1. Identify current trends and issues in child and adolescent development using the current information and past personal experiences.

2. Identify lifestyle and cultural barriers to effective parenting.

Psychology Major (A.A.)

Program Learning Outcomes
The student will be able to:

1. Understand the basic concepts of psychology.
2. Analyze behavior within the context of major psychological theories.
3. Communicate effectively using appropriate research style and methods.

Program of Study
Delivery Format: Online Only

• Psychology (A.A.) - Christian Counseling - Online (p. 473)
• Psychology (A.A.) - Online (p. 473)

Career Opportunities

• Case worker
• Christian Counselor aide
• Direct care worker

Courses

PSYC 101 General Psychology 3 Credit Hours
Introduction to Psychology as a scientific discipline concerned with the study of behavior. Consideration will be given to such topics as human development, motivation, emotion, perception, learning, personality, intelligence, measurement and applied areas.

PSYC 150 Psychology of Relationship Development 3 Credit Hours
Relationships interact with one's identity, attachment style, boundary formation, emotional well-being, and worldview. Therefore, an understanding of relationship development and maintenance are essential to the successful navigation of life. This interactive course reviews healthy relationship concepts and practices in research and Scripture and encourages strategies to adjust potential deficits in developing healthy relationships.

Offered: Resident

PSYC 200 General Psychology 3 Credit Hours

PSYC 210 Developmental Psychology 3 Credit Hours
An overview of the human life span from conception through senescence. Continuity of development as well as critical periods faced by the maturing human will be emphasized using contemporary theories and research as foundation materials.

PSYC 221 Psychology of Childhood 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
A study of child growth and development from birth to puberty. Examination of the basic theories principles and practices of childhood training and education.

PSYC 231 Psychology of Adolescence 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
An investigation of the psychological and environmental factors related to puberty, peer identification and identity conflict in the adolescent. Emphasis will be upon the development of self-identity and the problems faced by the American adolescent.

PSYC 235 Psychology of Adulthood 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
The focus will be on viewing adult development as an integrative, dynamic and continuous process terminated only at death. The whole span of adulthood will be examined, including retirement and old age.

PSYC 255 Introduction to Research 3 Credit Hours
Prerequisites: PSYC 200 or PSYC 210 or PSYC 101 or GEED 201
An introduction to psychological research techniques and methodology designed to improve students' understanding of the basic issues in the scientific methods of the social sciences. The goals of the course are: to improve students' understanding of the concepts related to research methodology; to improve the students' ability to communicate ideas about science, including a significant amount of writing; and survey of both quantitative and qualitative research methods.

PSYC 299 Internship 0 Credit Hours
Prerequisites: PSYC 255
Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinic settings and through exposure/intern opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident and Online

PSYC 305 Overview of Theory and Treatment of Substance Abuse 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255
This course includes a thorough examination of the theoretical models of addiction, the introduction to the neurobiology of addiction, the addiction cycle, the evaluation and treatment of addictions, and the trauma that occurs with addictions.
PSYC 306 Advanced Theory and Treatment of Substance Abuse 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255

Advanced information on the theory and treatment of substance abuse and addiction with both secular and biblical concepts of substance abuse, recovery, and the impact upon family systems and society. An appropriate integration of the sets of materials will focus on the 12-step method of recovery and methods of relapse prevention.

PSYC 307 Treatment and Recovery of Addictions 3 Credit Hours

Prerequisites: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255

This course examines addiction recovery process theory and treatment modes. Students will understand the theoretical basis for treatment by critically assessing treatment outcome research from various approaches and formalize a practical recovery approach plan. Students will explore treatment approaches, gain a working understanding of addictions and begin to develop a practical approach to recovery. The dynamics of addiction recovery will be examined as students consider recovery obstacles for substance and sexual addiction subsets.

PSYC 308 Diagnosis and Treatment of Sexual Addiction 3 Credit Hours

Prerequisites: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255

An examination of the definition, neurobiology, etiology, diagnosis and treatment of sexual addiction. Students will explore, from a biblical worldview, gender issues related to sexual addiction and related topics such as marital affairs, pornography and homosexuality.

PSYC 309 Healthy Sexuality 3 Credit Hours

Prerequisites: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255

This course provides a foundational understanding of healthy sexuality based on psychological foundations and a biblical worldview. Special attention is given to the biological foundations of sexual development, sexual enrichment, challenges, brokenness, and controversial issues surrounding healthy sexuality.

PSYC 311 Educational Psychology 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

Acquaints the student with various learning theorists and models of learning. Focus is on the generation of practical solutions to problems associated with the teaching-learning process.

Offered: Resident

PSYC 312 Social Psychology 3 Credit Hours

Prerequisites: (PSYC 200 or SOCI 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

Social psychology is the study of how the presence of other people affects an individual's behavior, as well as how an individual forms opinions and attitudes about others. Topics in the course include interpersonal attraction, accuracy of eye-witness testimony, impact of TV on aggression, non-verbal communication, group decision making, and the impact of advertising on beliefs and behavior.

PSYC 313 Multicultural Counseling & Res 3 Credit Hours

Prerequisites: PSYC 255

PSYC 315 Applied Psychology 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

An introduction to the wide variety of positions psychologists fill in government, industry, education and the social services. Students are given information on the various applications of psychological theories, principles and practices as they relate to different career fields.

Offered: Resident

PSYC 316 Industrial and Organizational Psychology 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

Industrial and Organizational (I/O) Psychology is the application of the scientific study of human behavior and mental processes to work organizations. The major areas of concern for I/O psychologists include recruitment, selection, training, evaluation, motivation, leadership and job attitudes. Additional time will be dedicated to the investigation of human factors engineering and consumer behavior.

Offered: Resident

PSYC 317 Crisis Intervention 3 Credit Hours

Prerequisites: PSYC 255 and (PSYC 101 or PSYC 210)

This course offers an understanding of how a crisis can impact the life of an individual and cause a decrease in healthy functioning. A variety of crises are explored, including but not limited to, PTSD, Types of Abuse, Community Disasters, Substance Abuse, Crises of Lethality, Crisis of Loss, and Sexual Assault. In addition, therapeutic interventions and evidence-based practices are identified.

PSYC 318 Consumer Psychology 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

Consumer Psychology is the study of individuals, groups, or organizations and the processes they use to select, secure, use, and dispose of products, services, experiences, or ideas to satisfy the wants and needs of the consumer and society.

Offered: Resident
Psychology Major (A.A.)

PSYC 320 Behavior Modification 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The application, implementation, measurement, and evaluation of behavior management techniques in various settings including hospitals, institutions, and schools.

PSYC 321 Psychology of Childhood 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 331 Psychology of Adolescence 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 335 Psychology of Adulthood 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 336 Gerontology 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The facts of demography describe the background and present status of elderly people in the United States. Then the biological, psychological and sociological factors in aging will be studied to promote an in-depth understanding of the dynamics of aging. The dying-grieving processes, as well as LTC policies and government-sponsored programs are explored.

PSYC 341 Psychology of Personality 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The major historical and contemporary theories of the origin and development of personality are explored, emphasizing the role of the dynamics of personality.

PSYC 345 Exceptional Child 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
All major areas of exceptionality will be surveyed to provide undergraduate students a first contact with the field of exceptionality from infancy through adolescence. The focus is on theory, empirical research, and interventions related to behavioral, emotional, and cognitive disorders.

PSYC 350 Bibliotherapy 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
Bibliotherapy is a study of the history, methodologies, and applications of the use of therapy through books and as a process of dynamic interaction between the personality of the reader and literature. Literature for children and adolescents is presented as a tool and a backdrop for counseling troubled clients with needs similar to those of characters presented in the literature. Appropriate bibliographies with assigned readings are combined with topics on issues of common concern. Students are given the opportunity to explore personal issues as well as those expected to be encountered in social service settings.

Offered: Resident

PSYC 351 Multicultural Counseling and Research Issues 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255
Mental health counseling should assist students to take their own backgrounds into account before learning about counseling approaches which center around techniques shown to be multiculturally effective. The importance of therapist characteristics will be emphasized. Additionally, research leading to the misunderstanding of minority culture members will be critiqued as the value of objective scientific reporting is recognized to be critical to advancement in the mental health field.

PSYC 354 Statistics for the Social Sciences 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 255
Introduction to the descriptive statistics and probability, probability distributions, estimation, tests of hypotheses, and visual displays of data with applications in psychology and the other social sciences.

PSYC 355 Statistics in Psychology 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 354 and PSYC 255
Introduction to statistical methodology in the social sciences, particularly as related to psychological measurement and development of scientific research studies involving quantitative investigation.
PSYC 356 Introduction to Qualitative Research 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

An overview of qualitative research methods and qualitative data analysis. The course introduces the student to the logic and process of qualitative research, to four specific qualitative research methods - phenomenology, ethnography, case study, and grounded theory - and the basics of analyzing qualitative data.

Offered: Resident

PSYC 360 Psychology of Wisdom Tradition 3 Credit Hours

Prerequisites: PSYC 255

PSYC 361 Marriage and Family 3 Credit Hours

Prerequisites: PSYC 255 and (PSYC 101 or PSYC 210)

This course examines the research from the social sciences, showing the benefits of marriage to those married and to society at large, as well as the biblical basis for marriage and family. The course also investigates the research regarding family strength, incorporates instruction relating to preparation for marriage, and offers marital and family enrichment.

Offered: Resident

PSYC 365 Psychological Foundations of Learning 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

A study of human learning, including examination of conditioning, modeling, cognitive development, and high level thought processes. Models of behaviorism, social learning, cognitive development, memory, motivation, and attribution theories will be evaluated.

PSYC 371 Theories in Counseling and Psychotherapy 3 Credit Hours

Prerequisites: PSYC 341 and PSYC 255 and (PSYC 101 or PSYC 210)

The principal current theoretical approaches to counseling and psychotherapy represented and evaluated. Exploration of techniques and methods in group and individual counseling.

PSYC 380 Physiological Psychology 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This course is designed to investigate the most recent findings in the area of physiological psychology. Topics of study will concern basic information about the nervous system, sensory systems, physiological bases of behaviors and the development of learning and memory.

PSYC 401 History and Systems of Psychology 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The history of psychology from its beginnings in early philosophical thought to the present. Emphasis is on the last century of developments in the field, the life, and works of historically eminent psychologists.

Offered: Resident

PSYC 405 Group Dynamics 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The study of human personality in relationship to other persons, singularly and in groups. The application of the principles of group dynamics to business, industry, public and private life will be examined in theory and demonstrated with exercises.

PSYC 406 Addictions and the Recovery Process 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210) and PSYC 255 and PSYC 306

This course provides to students knowledge of addictions and the recovery process. Students will learn about dual diagnosis, co-morbid issues, adjunctive treatment and support, addiction and special populations (women, adolescents, same-sex attraction, etc.), codependency, relapse prevention, crisis management and counseling and HIV.

Offered: Resident

PSYC 407 Addictions Groups, Ethics and the Community 3 Credit Hours

Prerequisites: PSYC 371 and PSYC 406 and PSYC 255 and (PSYC 101 or PSYC 210)

This course focuses on the issues of group counseling and dynamics, client and community, education and ethics. Students will learn both didactic and psychodynamic group counseling skills. Learning groups will prepare a program of client and community education focused on substance abuse prevention. Students will also learn about ethical issues in substance abuse treatment.

Offered: Resident

PSYC 410 Psychology of Religion 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

A challenge to examine the role psychology plays in religious beliefs. Students with analyze and evaluate assigned texts and novels comparing aspects of ten religions and how psychological theories coincide with each system.

Offered: Resident
PSYC 420 Psychology and Christianity 3 Credit Hours
**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
This course explores the relationship between Christian theology and the science of psychology. Students will focus on philosophical foundations and the major models of conceptualizing the relationship between the two disciplines.

PSYC 421 Psychological Measurement 3 Credit Hours
**Prerequisites:** PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)
A study of standardized tests in psychology, counseling and education. Includes personality, aptitude, general ability, achievement and interest tests. Elementary statistics necessary to test usage and interpretation will be a part of the course.

PSYC 425 Psychology of Criminal Behavior 3 Credit Hours
**Prerequisites:** (PSYC 101 and PSYC 341) or (PSYC 210 and PSYC 345) or (PSYC 341 and SOCI 200) or (PSYC 200 and PSYC 341) and PSYC 255

**Offered:** Resident

PSYC 430 Abnormal Psychology 3 Credit Hours
**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)
A study of neurotic and psychotic behavior including origin, classification, symptoms and a survey of diagnosis, therapy and prevention.

PSYC 440 Experimental Design in Research: Application and Construction 3 Credit Hours
**Prerequisites:** PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)
Acquaints the prospective research experimentalist in the behavioral sciences with a number of the basic principles used in the construction of experimental designs.

**Offered:** Resident

PSYC 450 Children in Healthcare 3 Credit Hours
**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)
This course will provide a foundational knowledge of the impact of medical illness/injury on the developmental and psychosocial well being of children, adolescents, and their families within health care. Students will gain an understanding of therapeutic interventions utilized to help reduce the negative impact of illness and increase the child/family's ability to cope. Core areas discussed include: psycho-education, therapeutic/supportive uses of play and expressive arts, death and dying, the health-care environment, family centered care, developmental stressors, and cultural and spiritual issues. Students interested in pursuing the Child Life Professional Certification Examination are responsible for meeting with the professor after the completion of the course to complete their verification form.

**Note:** Successful completion of Children in Healthcare will meet the child life course criteria outlined by the Child Life Council.

**Offered:** Online

PSYC 460 Counseling Processes and Techniques 3 Credit Hours
**Prerequisites:** PSYC 341 and PSYC 371 and PSYC 255 and (PSYC 101 or PSYC 210)
Counseling theories, techniques, and practices are presented in an experiential group-practice manner. Students are introduced to a variety of counseling issues and therapeutic techniques at a level commensurate with senior status and entry into the community workplace.

**Offered:** Resident

PSYC 475 Psychology of Criminal Behavior 3 Credit Hours
**Prerequisites:** PSYC 341 and (PSYC 101 or PSYC 210) and PSYC 255
An examination of the factors that contribute to criminal behavior, including various psychopathological and sociological aspects.

PSYC 495 Directed Research 1-3 Credit Hours
**Prerequisites:** (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255
PSYC 495 - Directed Research (1 to 3 hours) **Prerequisites:** PSYC 101 or 210; PSYC 255.

**Offered:** Resident

PSYC 497 Special Topics in Psychology 3 Credit Hours
**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
An examination and evaluation of moral and ethical concepts and principles as they relate to the field of psychology. A wide range of subjects will be discussed including counseling intervention systems, the exceptional child, vocational development and human development.

PSYC 498 Senior Project 3 Credit Hours
**Prerequisites:** PSYC 355 and PSYC 440
Junior or Senior majors in Psychology will engage in a formal project of research, calling upon their previous courses in statistics and research methods, to produce a detailed project as a written capstone to a Psychology education.

**Offered:** Resident

PSYC 499 Internship 1-6 Credit Hours
**Prerequisites:** (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255
Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinical settings and through exposure/intern opportunities. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. 00+ overall GPA, Senior or Junior Status, 18 credits of PSYC coursework successfully completed, suitable internship site, and completed Student Internship Agreement (SIA)

**Registration Restrictions:** 2.

**Total Hours: 27**

1. Courses may also fulfill select general education requirements
2. Choose one course from the following: PSYC 221 Psychology of Childhood (3 c.h.), PSYC 231 Psychology of Adolescence (3 c.h.), or PSYC 235 Psychology of Adulthood (3 c.h.)
3. Choose any PSYC course not already required in the major

All applicable prerequisites must be met

**Graduation Requirements**

- 60 Total hours
- 2.0 Overall grade point average
- Grade of 'C' Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 15 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

**Psychology Major (B.S.)**

**Purpose**

The Department of Psychology exists to provide students with the knowledge and skills required for the development of a biblically-integrated, evidence-based psychological understanding of humankind focused on practical application and research.

**Psi Chi Honor Society**

*Advisor: Dr. Marilyn Gadomski*

Psi Chi is the International Honor Society for Psychology. Membership in Psi Chi is an earned honor which is for life. A permanent record of your membership is preserved at the Psi Chi National Office and may be used for reference purposes such as applications for graduate school and jobs.

Psi Chi inductees are eligible to order and wear the Psi Chi honor cord at graduation. Copies of Psi Chi's magazine, *Eye on Psi Chi*, are available in the main PSYC office in DeMoss Hall. Psi Chi members are eligible to present research papers/posters at Psi Chi programs held at national and regional conventions. In addition, members may participate in Psi Chi's undergraduate and graduate research award competitions, and undergraduate members may submit their research for publication in the Psi Chi Journal of Undergraduate Research. The names of new members and activities of chapters are published in *Eye on Psi Chi*.

The Liberty Psi Chi chapter inducts new members once in the fall and once in the spring. Applications for the fall induction should be submitted between September 1 and October 15, and applications for the spring induction should be submitted between January 15 and February 28.

To apply for membership, please fill out an application and return it and a check for $65 to the Psychology office in DM 4008, or mail it to the address listed in the application. Do not submit applications by email. To be eligible to join the Liberty chapter of Psi Chi, students must meet the following requirements:

1. Registration for major or minor standing in Psychology.
2. Completion of at least 36 hours of college courses (this can include transfer courses).
3. Completion of at least 9 hours of Liberty Psychology courses with a PSYC prefix, excluding PSYC 101 General Psychology (3 c.h.), PSYC 150 Psychology of Relationship Development (3 c.h.), and PSYC 210 Developmental Psychology (3 c.h.).
4. GPA of at least 3.5 in Liberty Psychology courses with a PSYC prefix, excluding PSYC 101 General Psychology (3 c.h.), PSYC 150 Psychology of Relationship Development (3 c.h.), and PSYC 210 Developmental Psychology (3 c.h.).
5. Overall GPA of at least 3.35.
6. Check for $65 that covers the lifetime Psi Chi national membership fee and Liberty's one-time dues (there are no additional annual dues).
7. Application must be submitted at least 2 months prior to student's graduation date.

You may email the current Psi Chi officers at psichi@liberty.edu for additional information.

**Daniels Program**

The Daniels Program was designed for students who have the desire and ability to pursue graduate training in psychology. Students in this Program work on applied research projects under the supervision of faculty members, and have the opportunity to present findings at conferences and submit articles for publication. Students can apply for this Program after completing PSYC 255 Introduction to Research (3 c.h.), and are selected on the basis of their grades, Christian character, and faculty recommendations. This Program provides students the opportunity to develop the research skills and experience that will improve their ability to gain acceptance and funding in competitive graduate programs.

**Program Learning Outcomes**

The student will be able to:

1. Demonstrate competence in the major concepts in psychology.
2. Interpret research data accurately.
3. Use critical thinking to solve problems related to behavior and mental processes.
4. Evaluate psychological concepts/theories as they relate to biblical thought.
5. Communicate effectively in written, oral, and technological formats.
6. Recognize and respect the complexity of socio-cultural and international diversity.

Psychology Cognates
Residential and Online Cognates are designed to provide students with a better understanding of a particular field of study.

Programs of Study
Delivery Format: Residential and Online
• Psychology (B.S.) - Criminal Psychology - Online (p. 484)
• Psychology (B.S.) - Criminal Psychology - Resident (p. 484)
• Psychology (B.S.) - Developmental Psychology - Online (p. 486)
• Psychology (B.S.) - Developmental Psychology - Resident (p. 487)
• Psychology (B.S.) - Online (p. 491)
• Psychology (B.S.) - Resident (p. 491)

Delivery Format: Residential Only
• Psychology (B.S.) - Child Life Specialist - Resident (p. 481)
• Psychology (B.S.) - Counseling - Resident (p. 483)
• Psychology (B.S.) - Industrial/Organizational Psychology - Resident (p. 488)
• Psychology (B.S.) - Sport Psychology - Resident (p. 492)
• Psychology (B.S.) - Substance Abuse Counseling - Resident (p. 493)

Delivery Format: Online Only
• Psychology (B.S.) - Addictions & Recovery - Online (p. 480)
• Psychology (B.S.) - Christian Counseling - Online (p. 482)
• Psychology (B.S.) - Crisis Counseling - Online (p. 485)
• Psychology (B.S.) - Life Coaching - Online (p. 489)
• Psychology (B.S.) - Military Resilience - Online (p. 490)

Career Opportunities
Individuals with a Bachelor’s degree in Psychology may pursue the following careers in the helping profession and mental health fields:
• Affirmative action officer
• Behavior analyst
• Case worker
• Child care worker
• Child protection worker
• College admissions counselor
• College admissions recruiter
• Community recreation worker
• Corrections officer
• Counselor aide
• Day care center supervisor
• Day treatment specialist
• Direct care worker
• Domestic relations worker
• Family service worker
• Group home coordinator
• Mental health technician
• Residential youth counselor
• Social Security Administration Office
• Social service coordinator
• Statistical assistant
• Veterans’ advisor
• Welfare office related work

Courses
PSYC 101 General Psychology 3 Credit Hours
Introduction to Psychology as a scientific discipline concerned with the study of behavior. Consideration will be given to such topics as human development, motivation, emotion, perception, learning, personality, intelligence, measurement and applied areas.

PSYC 150 Psychology of Relationship Development 3 Credit Hours
Relationships interact with one’s identity, attachment style, boundary formation, emotional well-being, and worldview. Therefore, an understanding of relationship development and maintenance are essential to the successful navigation of life. This interactive course reviews healthy relationship concepts and practices in research and Scripture and encourages strategies to adjust potential deficits in developing healthy relationships.

Offered: Resident

PSYC 200 General Psychology 3 Credit Hours

PSYC 210 Developmental Psychology 3 Credit Hours
An overview of the human life span from conception through senescence. Continuity of development as well as critical periods faced by the maturing human will be emphasized using contemporary theories and research as foundation materials.

PSYC 221 Psychology of Childhood 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
A study of child growth and development from birth to puberty. Examination of the basic theories principles and practices of childhood training and education.
PSYC 231 Psychology of Adolescence 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
An investigation of the psychological and environmental factors related to puberty, peer identification and identity conflict in the adolescent. Emphasis will be upon the development of self-identity and the problems faced by the American adolescent.

PSYC 235 Psychology of Adulthood 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
The focus will be on viewing adult development as an integrative, dynamic and continuous process terminated only at death. The whole span of adulthood will be examined, including retirement and old age.

PSYC 255 Introduction to Research 3 Credit Hours
Prerequisites: PSYC 200 or PSYC 210 or PSYC 101 or GEED 201
An introduction to psychological research techniques and methodology designed to improve students’ understanding of the basic issues in the scientific methods of the social sciences. The goals of the course are: to improve students’ understanding of the concepts related to research methodology; to improve the students’ ability to communicate ideas about science, including a significant amount of writing; and survey of both quantitative and qualitative research methods.

PSYC 299 Internship 0 Credit Hours
Prerequisites: PSYC 255
Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinic settings and through exposure/intern opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.
Offered: Resident and Online

PSYC 305 Overview of Theory and Treatment of Substance Abuse 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255
This course includes a thorough examination of the theoretical models of addiction, the introduction to the neurobiology of addiction, the addiction cycle, the evaluation and treatment of addictions, and the trauma that occurs with addictions.

PSYC 306 Advanced Theory and Treatment of Substance Abuse 3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255
Advanced information on the theory and treatment of substance abuse and addiction with both secular and biblical concepts of substance abuse, recovery, and the impact upon family systems and society. An appropriate integration of the sets of materials will focus on the 12-step method of recovery and methods of relapse prevention.

PSYC 307 Treatment and Recovery of Addictions 3 Credit Hours
Prerequisites: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255
This course examines addiction recovery process theory and treatment modes. Students will understand the theoretical basis for treatment by critically assessing treatment outcome research from various approaches and formalize a practical recovery approach plan. Students will explore treatment approaches, gain a working understanding of addictions and begin to develop a practical approach to recovery. The dynamics of addiction recovery will be examined as students consider recovery obstacles for substance and sexual addiction subsets.

PSYC 308 Diagnosis and Treatment of Sexual Addiction 3 Credit Hours
Prerequisites: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255
An examination of the definition, neurobiology, etiology, diagnosis and treatment of sexual addiction. Students will explore, from a biblical worldview, gender issues related to sexual addiction and related topics such as marital affairs, pornography and homosexuality.

PSYC 309 Healthy Sexuality 3 Credit Hours
Prerequisites: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255
This course provides a foundational understanding of healthy sexuality based on psychological foundations and a biblical worldview. Special attention is given to the biological foundations of sexual development, sexual enrichment, challenges, brokenness, and controversial issues surrounding healthy sexuality.

PSYC 311 Educational Psychology 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
Acquaints the student with various learning theorists and models of learning. Focus is on the generation of practical solutions to problems associated with the teaching-learning process.
Offered: Resident
PSYC 312 Social Psychology 3 Credit Hours

**Prerequisites:** (PSYC 200 or SOCI 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

Social psychology is the study of how the presence of other people affects an individual’s behavior, as well as how an individual forms opinions and attitudes about others. Topics in the course include interpersonal attraction, accuracy of eye-witness testimony, impact of TV on aggression, non-verbal communication, group decision making, and the impact of advertising on beliefs and behavior.

PSYC 313 Multicultural Counseling & Res 3 Credit Hours

**Prerequisites:** PSYC 255

PSYC 315 Applied Psychology 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

An introduction to the wide variety of positions psychologists fill in government, industry, education and the social services. Students are given information on the various applications of psychological theories, principles and practices as they relate to different career fields.

**Offered:** Resident

PSYC 316 Industrial and Organizational Psychology 3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

Industrial and Organizational (I/O) Psychology is the application of the scientific study of human behavior and mental processes to work organizations. The major areas of concern for I/O psychologists include recruitment, selection, training, evaluation, motivation, leadership and job attitudes. Additional time will be dedicated to the investigation of human factors engineering and consumer behavior.

**Offered:** Resident

PSYC 317 Crisis Intervention 3 Credit Hours

**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)

This course offers an understanding of how a crisis can impact the life of an individual and cause a decrease in healthy functioning. A variety of crises are explored, including but not limited to, PTSD, Types of Abuse, Community Disasters, Substance Abuse, Crises of Lethality, Crisis of Loss, and Sexual Assault. In addition, therapeutic interventions and evidence-based practices are identified.

PSYC 318 Consumer Psychology 3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

Consumer Psychology is the study of individuals, groups, or organizations and the processes they use to select, secure, use, and dispose of products, services, experiences, or ideas to satisfy the wants and needs of the consumer and society.

**Offered:** Resident

PSYC 320 Behavior Modification 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The application, implementation, measurement, and evaluation of behavior management techniques in various settings including hospitals, institutions, and schools.

PSYC 321 Psychology of Childhood 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 331 Psychology of Adolescence 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 335 Psychology of Adulthood 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

PSYC 336 Gerontology 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The facts of demography describe the background and present status of elderly people in the United States. Then the biological, psychological and sociological factors in aging will be studied to promote an in-depth understanding of the dynamics of aging. The dying-grieving processes, as well as LTC policies and government-sponsored programs are explored.

PSYC 341 Psychology of Personality 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The major historical and contemporary theories of the origin and development of personality are explored, emphasizing the role of the dynamics of personality.

PSYC 345 Exceptional Child 3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

All major areas of exceptionality will be surveyed to provide undergraduate students a first contact with the field of exceptionality from infancy through adolescence. The focus is on theory, empirical research, and interventions related to behavioral, emotional, and cognitive disorders.
PSYC 350 Bibliotherapy 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

Bibliotherapy is a study of the history, methodologies, and applications of the use of therapy through books and as a process of dynamic interaction between the personality of the reader and literature. Literature for children and adolescents is presented as a tool and a backdrop for counseling troubled clients with needs similar to those of characters presented in the literature. Appropriate bibliographies with assigned readings are combined with topics on issues of common concern. Students are given the opportunity to explore personal issues as well as those expected to be encountered in social service settings.

Offered: Resident

PSYC 351 Multicultural Counseling and Research Issues 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

Mental health counseling should assist students to take their own backgrounds into account before learning about counseling approaches which center around techniques shown to bemulticulturally effective. The importance of therapist characteristics will be emphasized. Additionally, research leading to the misunderstanding of minority culture members will be critiqued as the value of objective scientific reporting is recognized to be critical to advancement in the mental health field.

PSYC 354 Statistics for the Social Sciences 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 255

Introduction to the descriptive statistics and probability, probability distributions, estimation, tests of hypotheses, and visual displays of data with applications in psychology and the other social sciences.

PSYC 355 Statistics in Psychology 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 354 and PSYC 255

Introduction to statistical methodology in the social sciences, particularly as related to psychological measurement and development of scientific research studies involving quantitative investigation.

PSYC 356 Introduction to Qualitative Research 3 Credit Hours

Prerequisites: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

An overview of qualitative research methods and qualitative data analysis. The course introduces the student to the logic and process of qualitative research, to four specific qualitative research methods - phenomenology, ethnography, case study, and grounded theory - and the basics of analyzing qualitative data.

Offered: Resident

PSYC 360 Psychology of Wisdom Tradition 3 Credit Hours

Prerequisites: PSYC 255

PSYC 361 Marriage and Family 3 Credit Hours

Prerequisites: PSYC 255 and (PSYC 101 or PSYC 210)

This course examines the research from the social sciences, showing the benefits of marriage to those married and to society at large, as well as the biblical basis for marriage and family. The course also investigates the research regarding family strength, incorporates instruction relating to preparation for marriage, and offers marital and family enrichment.

Offered: Resident

PSYC 365 Psychological Foundations of Learning 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

A study of human learning, including examination of conditioning, modeling, cognitive development, and high level thought processes. Models of behaviorism, social learning, cognitive development, memory, motivation, and attribution theories will be evaluated.

PSYC 371 Theories in Counseling and Psychotherapy 3 Credit Hours

Prerequisites: PSYC 341 and PSYC 255 and (PSYC 101 or PSYC 210)

The principal current theoretical approaches to counseling and psychotherapy represented and evaluated. Exploration of techniques and methods in group and individual counseling.

PSYC 380 Physiological Psychology 3 Credit Hours

Prerequisites: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This course is designed to investigate the most recent findings in the area of physiological psychology. Topics of study will concern basic information about the nervous system, sensory systems, physiological bases of behaviors and the development of learning and memory.
PSYC 401 History and Systems of Psychology  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The history of psychology from its beginnings in early philosophical thought to the present. Emphasis is on the last century of developments in the field, the life, and works of historically eminent psychologists.

**Offered:** Resident

PSYC 405 Group Dynamics  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255

The study of human personality in relationship to other persons, singularly and in groups. The application of the principles of group dynamics to business, industry, public and private life will be examined in theory and demonstrated with exercises.

PSYC 406 Addictions and the Recovery Process  
3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210) and PSYC 255 and PSYC 306

This course provides to students knowledge of addictions and the recovery process. Students will learn about dual diagnosis, comorbid issues, adjunctive treatment and support, addiction and special populations (women, adolescents, same-sex attraction, etc.), codependency, relapse prevention, crisis management and counseling and HIV.

**Offered:** Resident

PSYC 407 Addictions Groups, Ethics and the Community  
3 Credit Hours

**Prerequisites:** PSYC 371 and PSYC 406 and PSYC 255 and (PSYC 101 or PSYC 210)

This course focuses on the issues of group counseling and dynamics, client and community, education and ethics. Students will learn both didactic and psychodynamic group counseling skills. Learning groups will prepare a program of client and community education focused on substance abuse prevention. Students will also learn about ethical issues in substance abuse treatment.

**Offered:** Resident

PSYC 410 Psychology of Religion  
3 Credit Hours

**Prerequisites:** (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255

A challenge to examine the role psychology plays in religious beliefs. Students will analyze and evaluate assigned texts and novels comparing aspects of ten religions and how psychological theories coincide with each system.

**Offered:** Resident

PSYC 420 Psychology and Christianity  
3 Credit Hours

**Prerequisites:** (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

This course explores the relationship between Christian theology and the science of psychology. Students will focus on philosophical foundations and the major models of conceptualizing the relationship between the two disciplines.

PSYC 421 Psychological Measurement  
3 Credit Hours

**Prerequisites:** PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)

A study of standardized tests in psychology, counseling and education. Includes personality, aptitude, general ability, achievement and interest tests. Elementary statistics necessary to test usage and interpretation will be a part of the course.

PSYC 425 Psychology of Criminal Behavior  
3 Credit Hours

**Prerequisites:** (PSYC 101 and PSYC 341) or (PSYC 210 and PSYC 345) or (PSYC 341 and SOCI 200) or (PSYC 200 and PSYC 341) and PSYC 255

**Offered:** Resident

PSYC 430 Abnormal Psychology  
3 Credit Hours

**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)

A study of neurotic and psychotic behavior including origin, classification, symptoms and a survey of diagnosis, therapy and prevention.

PSYC 440 Experimental Design in Research: Application and Construction  
3 Credit Hours

**Prerequisites:** PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)

Acquaints the prospective research experimentalist in the behavioral sciences with a number of the basic principles used in the construction of experimental designs.

**Offered:** Resident

PSYC 450 Children in Healthcare  
3 Credit Hours

**Prerequisites:** PSYC 255 and (PSYC 101 or PSYC 210)

This course will provide a foundational knowledge of the impact of medical illness/injury on the developmental and psychosocial well being of children, adolescents, and their families within health care. Students will gain an understanding of therapeutic interventions utilized to help reduce the negative impact of illness and increase the child/family’s ability to cope. Core areas discussed include: psycho-education, therapeutic/supportive uses of play and expressive arts, death and dying, the health-care environment, family centered care, developmental stressors, and cultural and spiritual issues. Students interested in pursuing the Child Life Professional Certification Examination are responsible for meeting with the professor after the completion of the course to complete their verification form.

**Note:** Successful completion of Children in Healthcare will meet the child life course criteria outlined by the Child Life Council.

**Offered:** Online
Psychology (B.S.) - Addictions & Recovery - Online

PSYC 460 Counseling Processes and Techniques 3 Credit Hours
Prerequisites: PSYC 341 and PSYC 371 and PSYC 255 and (PSYC 101 or PSYC 210)

Counseling theories, techniques, and practices are presented in an experiential group-practice manner. Students are introduced to a variety of counseling issues and therapeutic techniques at a level commensurate with senior status and entry into the community workplace.

Offered: Resident

PSYC 475 Psychology of Criminal Behavior 3 Credit Hours
Prerequisites: PSYC 341 and (PSYC 101 or PSYC 210) and PSYC 255

An examination of the factors that contribute to criminal behavior, including various psychopathological and sociological aspects.

PSYC 495 Directed Research 1-3 Credit Hours
Prerequisites: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

PSYC 495 - Directed Research (1 to 3 hours) Prerequisites: PSYC 101 or 210; PSYC 255.

Offered: Resident

PSYC 497 Special Topics in Psychology 3 Credit Hours
Prerequisites: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255

An examination and evaluation of moral and ethical concepts and principles as they relate to the field of psychology. A wide range of subjects will be discussed including counseling intervention systems, the exceptional child, vocational development and human development.

PSYC 498 Senior Project 3 Credit Hours
Prerequisites: PSYC 355 and PSYC 440

Junior or Senior majors in Psychology will engage in a formal project of research, calling upon their previous courses in statistics and research methods, to produce a detailed project as a written capstone to a Psychology education.

Offered: Resident

PSYC 499 Internship 1-6 Credit Hours
Prerequisites: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255

Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinical settings and through exposure/intern opportunities. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.00+ overall GPA, Senior or Junior Status, 18 credits of PSYC coursework successfully completed, suitable internship site, and completed Student Internship Agreement (SIA)

Registration Restrictions: 2.

Psychology (B.S.) - Addictions & Recovery - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Courses

SOWK 101 Introduction to Social Work 3 Credit Hours

Introduction to Social Work and Social Welfare is a course that gives an overview of the field of social work practice. Topics regarding the ecclesiastical beginnings of the profession, additional historical components, the integration of faith and practice, as well as social work values and ethics will be explored.

SOWK 120 Social Work Field Exploration 2 Credit Hours

Prerequisites: ENGL 102

Social Work Field Exploration is the study of social work practice and settings of practice. Topics in the course are centered on social work practice in places such as child welfare, schools, domestic violence shelters, hospice, hospitals, mental health clinics, assisted living facilities, and early intervention programs.

Offered: Resident
SOWK 135 Social Work Field Exploration and Observation 3 Credit Hours

Prerequisites: ENGL 102

Social Work Field Exploration and Observation is the study of social work practice and settings of practice. Topics in the course are centered on social work practice in places such as child welfare, schools, domestic violence shelters, hospice, hospitals, mental health clinics, assisted living facilities, and early intervention programs. Participatory observation of a professional social worker for a full work week is also included in this course.

SOWK 150 Intensive Social Work Observation 1 Credit Hour

Intensive Social Work Observation is the study of social work practice within one particular setting of practice. The topic of this course centers on the participatory observation of a professional social worker for a full work week. Settings may include, but are not limited to places such as child welfare agencies, schools, domestic violence shelters, hospice facilities, hospitals, mental health clinics, assisted living facilities, and early intervention programs.

Offered: Resident

SOWK 200 Introduction to Social Work and Human Services 3 Credit Hours

An introduction to the field of Social Work and Human Services. Consideration will be given to such topics as the history and current development of social welfare programs, methods of influencing social change, professional values and ethics, the particular needs of at-risk populations, theories of human behavior, and family, group, community and organizational functioning.

Offered: Resident

SOWK 250 Health of the Social Worker 3 Credit Hours

This course emphasizes the personal health and self-care of the social worker.

SOWK 260 Chemical Dependency 3 Credit Hours

Prerequisites: ENGL 102

Chemical Dependency is a course that presents an overview of the concepts associated with the use and abuse of alcohol and other drugs. Topics in the course are the various perspectives on treatment and prevention options; each topic is evaluated through a biblical worldview.

SOWK 270 Ethics in Professional Helping 3 Credit Hours

Prerequisites: (SOWK 101 or PSYC 101 or SOCI 200) and ENGL 102

Ethics in Professional Helping is the study of values and principles of ethical decision making. Topics in the course are ethical dilemmas, critical thinking, professional code of ethics, and common morality. Each topic is evaluated through a biblical worldview.

SOWK 294 BSSW GATE 1 & Approval Process 0 Credit Hours

Prerequisites: SOWK 101 and (PSYC 101 and SOCI 200 and (HLTH 216 or SOWK 250 (may be taken concurrently) and (BIOL 102 or BIOL 101 and (SOWK 120 and SOWK 150 or SOWK 135 (may be taken concurrently) and (SOWK 260 and SOWK 270 and ENGL 102

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 294 course includes the application process for GATE 1 of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 1 indicates official acceptance into the Social Work Program to pursue.

Offered: Resident and Online

SOWK 300 Human Behavior and the Social Environment 3 Credit Hours

Prerequisites: SOWK 101 and ENGL 102

Human Behavior and the Social Environment is a course that utilizes a life course perspective and additional theoretical perspectives as tools for understanding human behavior and its development across the life span. Particular focus is places on the inter-relatedness of the biological, psychological, social, and spiritual aspects with a ‘person in the environment’ framework.

SOWK 325 Social Welfare and Policy 3 Credit Hours

Prerequisites: SOWK 101 and ENGL 102

This course studies the historical and contemporary issues surrounding social welfare and policy in the U.S. Particular focus is placed on analyzing, formulating, and advocating for policies that advance social well-being.

SOWK 350 Social Work Practice with Individuals and Families 3 Credit Hours

Prerequisites: (SOWK 294 or Social Work Gate 1 with a score of 3) and (SOWK 300

Social Work Practice with Individuals and Families is the study of practice from a generalist social work point of view. Particular emphasis is placed on the practice behaviors associated with engagement, assessment, and intervention.

SOWK 355 Social Work Practice with Groups 3 Credit Hours

Prerequisites: SOWK 101

This course provides the student with the opportunity to develop an understanding of theories, methods and skills in relation to generalist practice with social work groups. This course also provides the forum for students to gain an understanding of cultural values of individuals and the impact of those values on the group process. Emphasis will be placed on the importance of being a culturally sensitive group leader.
SOWK 365 BSSW GATE 2 & Junior Field Enrollment 0 Credit Hours

**Prerequisites:** (PSYC 255 and (SOWK 294 or Social Work Gate 1 with a score of 3) and (GLST 220 and SOWK 300 and SOWK 355 and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 217 (may be taken concurrently)

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 365 course includes the application process for GATE 2 and Field Enrollment Process of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 2 and completion of the Field Enrollment process indicates approval to begin Junior Field Placement (SOWK 370).

**Offered:** Resident

SOWK 370 Junior Field Experience and Seminar 3-4 Credit Hours

**Prerequisites:** SOWK 101 and SOWK 120 and SOWK 150 and SOWK 270 and SOWK 355

Junior field experience provides students with the opportunity to perform in the role of a social work practitioner under the supervision of an experienced social worker. In one semester, students will have experienced a minimum of 100 field hours in a setting, which employs social workers. Students will meet for one hour weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

SOWK 375 Junior Field Seminar 1 Credit Hour

**Prerequisites:** SOWK 270

Junior Field Seminar is taken in conjunction with Junior Field Experience. Students will meet for one hour weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

**Registration Restrictions:** Provisional acceptance into the Social Work program.

SOWK 425 International Social Work 3 Credit Hours

**Prerequisites:** SOWK 101 and SOWK 270 and GLST 220

This course is designed to introduce students to the theoretical perspectives, values, and skills associated with contemporary international social work. Social, political, cultural, economic, organizational, religious, and technological advances that affect societal dynamics in various regions of the world will be explored.

SOWK 431 Social Work in Mental Health 3 Credit Hours

**Prerequisites:** SOWK 101 and SOWK 270

This course is designed to introduce students to the knowledge, values, and skills necessary for social work practice in mental health settings. Topics will include roles and functions of social workers, diagnoses, and assessment.

SOWK 432 Geriatric Social Work 3 Credit Hours

**Prerequisites:** SOWK 101 and SOWK 270

This course is designed to introduce students to the knowledge, values, and skills associated with working with an older population of clients. Topics will include the effects of aging on physical, mental, and emotional processes as well as socio-cultural, spiritual, and environmental considerations.

SOWK 435 Social Work in the Military 3 Credit Hours

**Prerequisites:** SOWK 101 and SOWK 270

This course is designed to introduce students to the knowledge, values, and skills associated with working with individuals, families, and communities impacted by military operations. Topics will include the effects of multiple deployments, experiencing traumatic events, and military culture.

SOWK 439 International Social Work Field Experience 3 Credit Hours

International Social Work Field Experience provides students with the opportunity to participate in international social work practice under the supervision of an experienced social worker.

**Registration Restrictions:** Instructor approval.

SOWK 450 Social Work Practice with Diverse Populations 3 Credit Hours

**Prerequisites:** GLST 220 and (SOWK 294 or Social Work Gate 1 with a score of 3)

This course provides the student with the opportunity to develop an understanding of theories, knowledge, values, and skills in relation to generalist practice with diverse populations. This course also provides the forum for students to gain an understanding of cultural values of individuals and the impact of those values on human relationships. Emphasis will be placed on the importance of respecting and valuing diversity.
SOWK 465 BSSW GATE 3 & Senior Field Enrollment 0 Credit Hours

**Prerequisites:** (PSYC 354 and SOWK 325 and SOWK 350 and SOWK 370 and (SOWK 294 or Social Work Gate 1 with a score of 3 and SOWK 365 or Social Work Gate 2 with a score of 3)

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 465 course includes the application process for GATE 3 and Field Enrollment Process of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 3 and completion of the Field Enrollment process indicates approval to begin Senior Field Placement (SOWK 470 or SOWK 475).

**Offered:** Resident and Online

SOWK 470 Senior Field Experience and Seminar 9-11 Credit Hours

**Prerequisites:** SOWK 370

Senior Field Experience provides students with the opportunity to perform in the role of a social work practitioner under the supervision of an experienced master's level social worker. In one semester, students will have experienced a minimum of 400 field hours in a setting, which employs social workers. Students will meet for two hours weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

SOWK 475 Senior Field Seminar 6-9 Credit Hours

**Prerequisites:** SOWK 370

Senior Field Seminar is taken in conjunction with Senior Field Experience. Students will meet for two hours weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

SOWK 477 Senior Field Experience and Seminar B 3-4 Credit Hours

**Prerequisites:** SOWK 370

Senior Field Experience provides students with the opportunity to perform in the role of a social work practitioner under the supervision of an experienced master's level social worker. In one semester, students will have experienced a minimum of 100 field hours in a setting, which employs social workers. Students will meet for one hour weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

**Offered:** Online

SOWK 494 BSSW GATE 4 & Comprehensive Exam 0 Credit Hours

**Prerequisites:** (SOWK 465 or Social Work Gate 3 with a score of 3 and SOWK 294 or Social Work Gate 1 with a score of 3 and SOWK 365 or Social Work Gate 2 with a score of 3) and (SOWK 475 and SOWK 477 or SOWK 470 and (SOWK 410 and SOWK 450

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 494 course includes the application process for GATE 4 of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 4 and successful completion of the comprehensive exam indicates readiness to graduate out of the Social Work Program with a Bachelor's of Science Degree in Social Work (BSSW).

**Offered:** Resident and Online

SOWK 495 Directed Social Work Research 3 Credit Hours

**Prerequisites:** PSYC 255 and PSYC 354 and SOWK 101

An independent study agreed upon between the instructor and the student regarding an area of specific research.

SOWK 497 Special Topics in Social Work 3 Credit Hours

An in depth study of a specific aspect of social work practice.

**Registration Restrictions:** Instructor approval.

**Social Work Major (B.S.)**

**Purpose**

The Social Work Program exists to develop Christ-centered social workers, who are equipped with the competency, skills, values, and knowledge, to humbly lead in advancing human and community well-being through the world.

**Program Learning Outcomes**

The student will be able to:

1. Integrate faith in the practice of social work.
2. Identify as a professional social worker and conduct oneself accordingly.
3. Apply social work ethical principles to guide professional practice.
4. Apply critical thinking to inform and communicate professional judgments.
5. Engage diversity and difference in practice.
6. Advance human rights and social and economic justice.
7. Engage in research-informed practice and practice-informed research.
8. Apply knowledge of human behavior and the social environment.
9. Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
10. Respond to contexts that shape practice.
11. Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

Program Policies and Degree Requirements

A student interested in earning a Bachelor’s of Science Degree in Social Work (BSSW) at Liberty University must meet the requirements of the Social Work Program. The Social Work Program's requirements include meeting the university admission criteria as well as the additional standards associated with preparing competent social workers for generalist practice. These additional standards are developed by the Social Work Program at Liberty University. Acceptance to Liberty University and declaring Social work as one’s major is the way in which a student begins the process. However, this first step is not synonymous with admission into the Social Work Program. Each social work candidate is to follow the steps associated with the process and meet the criteria established by the programs.

Formal application to the Social Work Program is generally completed during a student’s sophomore year in coordination with the completion of SOWK 270 Ethics in Professional Helping (3 c.h.). A candidate must satisfactorily complete the application and meet the following criteria.

1. Be in good academic standing with the University and have a minimum cumulative GPA of 2.50.
2. Be currently enrolled or successfully completed

3. Provide copy of DCP audit.
4. Adhere to the standards set forth in the Liberty Way for residential students or the Personal Code of Honor for online students.
5. Provide three references (one must be from a social service agency at which the student completed volunteer hours)

Once a student has been granted entry into the Social Work Program, a student is to maintain his/her status by consistently meeting the following criteria:

1. Earn a “C” or higher in all social work classes.
2. Maintain satisfactory citizenship and ethical behavior.
3. Consistently demonstrate the values of the profession: integrity, service, the value of human relationships, dignity and worth of a person, competence, and social justice.

Career Opportunities

Social workers are employed in a variety of professional fields.

- Church social worker
- Clinical/mental health social worker
- School social worker
- Medical social worker
- Child welfare social worker
- Hospice social worker
- Military social worker
- Nursing home social worker

Social workers provide services to people of all ages in numerous settings. A social worker can get employment without a master’s degree. However, if the social worker wants to do mental health therapy, military social work, supervision or administration, it is recommended that the social worker get their Master’s Degree in Social Work (MSW).

Courses

SOWK 101 Introduction to Social Work 3 Credit Hours

Introduction to Social Work and Social Welfare is a course that gives an overview of the field of social work practice. Topics regarding the ecclesiastical beginnings of the profession, additional historical components, the integration of faith and practice, as well as social work values and ethics will be explored.

SOWK 120 Social Work Field Exploration 2 Credit Hours

Prerequisites: ENGL 102

Social Work Field Exploration is the study of social work practice and settings of practice. Topics in the course are centered on social work practice in places such as child welfare, schools, domestic violence shelters, hospice, hospitals, mental health clinics, assisted living facilities, and early intervention programs.

Offered: Resident

SOWK 135 Social Work Field Exploration and Observation 3 Credit Hours

Prerequisites: ENGL 102

Social Work Field Exploration and Observation is the study of social work practice and settings of practice. Topics in the course are centered on social work practice in places such as child welfare, schools, domestic violence shelters, hospice, hospitals, mental health clinics, assisted living facilities, and early intervention programs. Participatory observation of a professional social worker for a full work week is also included in this course.

Programs of Study

Delivery Format: Residential and Online

- Social Work (B.S.) - Online (p. 502)
- Social Work (B.S.) - Resident (p. 503)
SOWK 150 Intensive Social Work Observation 1 Credit Hour

Intensive Social Work Observation is the study of social work practice within one particular setting of practice. The topic of this course centers on the participatory observation of a professional social worker for a full work week. Settings may include, but are not limited to places such as child welfare agencies, schools, domestic violence shelters, hospice facilities, hospitals, mental health clinics, assisted living facilities, and early intervention programs.

Offered: Resident

SOWK 200 Introduction to Social Work and Human Services 3 Credit Hours

An introduction to the field of Social Work and Human Services. Consideration will be given to such topics as the history and current development of social welfare programs, methods of influencing social change, professional values and ethics, the particular needs of at-risk populations, theories of human behavior, and family, group, community and organizational functioning.

Offered: Resident

SOWK 250 Health of the Social Worker 3 Credit Hours

This course emphasizes the personal health and self-care of the social worker.

SOWK 260 Chemical Dependency 3 Credit Hours

Prerequisites: ENGL 102

Chemical Dependency is a course that presents an overview of the concepts associated with the use and abuse of alcohol and other drugs. Topics in the course are the various perspectives on treatment and prevention options; each topic is evaluated through a biblical worldview.

SOWK 270 Ethics in Professional Helping 3 Credit Hours

Prerequisites: (SOWK 101 or PSYC 101 or SOCI 200) and ENGL 102

Ethics in Professional Helping is the study of values and principles of ethical decision making. Topics in the course are ethical dilemmas, critical thinking, professional code of ethics, and common morality. Each topic is evaluated through a biblical worldview.

SOWK 294 BSSW GATE 1 & Approval Process 0 Credit Hours

Prerequisites: SOWK 101 and (PSYC 101 and SOCI 200 and (HLTH 216 or SOWK 250 (may be taken concurrently) and (BIOL 102 or BIOL 101 and (SOWK 120 and SOWK 150 or SOWK 135 (may be taken concurrently) and (SOWK 260 and SOWK 270 and ENGL 102

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 294 course includes the application process for GATE 1 of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 1 indicates official acceptance into the Social Work Program to pursue.

Offered: Resident and Online

SOWK 300 Human Behavior and the Social Environment 3 Credit Hours

Prerequisites: SOWK 101 and ENGL 102

Human Behavior and the Social Environment is a course that utilizes a life course perspective and additional theoretical perspectives as tools for understanding human behavior and its development across the life span. Particular focus is placed on the inter-relatedness of the biological, psychological, social, and spiritual aspects with a ‘person in the environment’ framework.

SOWK 325 Social Welfare and Policy 3 Credit Hours

Prerequisites: SOWK 101 and ENGL 102

This course studies the historical and contemporary issues surrounding social welfare and policy in the U.S. Particular focus is placed on analyzing, formulating, and advocating for policies that advance social well-being.

SOWK 350 Social Work Practice with Individuals and Families 3 Credit Hours

Prerequisites: (SOWK 294 or Social Work Gate 1 with a score of 3) and (SOWK 300

Social Work Practice with Individuals and Families is the study of practice from a generalist social work point of view. Particular emphasis is placed on the practice behaviors associated with engagement, assessment, and intervention.

SOWK 355 Social Work Practice with Groups 3 Credit Hours

Prerequisites: SOWK 101

This course provides the student with the opportunity to develop an understanding of theories, methods and skills in relation to generalist practice with social work groups. This course also provides the forum for students to gain an understanding of cultural values of individuals and the impact of those values on the group process. Emphasis will be placed on the importance of being a culturally sensitive group leader.
SOWK 365 BSSW GATE 2 & Junior Field Enrollment  

**Prerequisites:** (PSYC 255 and (SOWK 294 or Social Work Gate 1 with a score of 3) and (GLST 220 and SOWK 300 and SOWK 355 and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 217 (may be taken concurrently)

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 365 course includes the application process for GATE 2 and Field Enrollment Process of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 2 and completion of the Field Enrollment process indicates approval to begin Junior Field Placement (SOWK 370).

**Offered:** Resident

SOWK 370 Junior Field Experience and Seminar  

**Prerequisites:** SOWK 101 and SOWK 120 and SOWK 150 and SOWK 270 and SOWK 355

Junior field experience provides students with the opportunity to perform in the role of a social work practitioner under the supervision of an experienced social worker. In one semester, students will have experienced a minimum of 100 field hours in a setting, which employs social workers. Students will meet for one hour weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

SOWK 375 Junior Field Seminar  

**Prerequisites:** SOWK 270

Junior Field Seminar is taken in conjunction with Junior Field Experience. Students will meet for one hour weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

**Registration Restrictions:** Provisional acceptance into the Social Work program.

SOWK 425 International Social Work  

**Prerequisites:** SOWK 101 and SOWK 270 and GLST 220

This course is designed to introduce students to the theoretical perspectives, values, and skills associated with contemporary international social work. Social, political, cultural, economic, organizational, religious, and technological advances that affect societal dynamics in various regions of the world will be explored.

SOWK 431 Social Work in Mental Health  

**Prerequisites:** SOWK 101 and SOWK 270

This course is designed to introduce students to the knowledge, values, and skills necessary for social work practice in mental health settings. Topics will include roles and functions of social workers, diagnoses, and assessment.

SOWK 432 Geriatric Social Work  

**Prerequisites:** SOWK 101 and SOWK 270

This course is designed to introduce students to the knowledge, values, and skills associated with working with an older population of clients. Topics will include the effects of aging on physical, mental, and emotional processes as well as socio-cultural, spiritual, and environmental considerations.

SOWK 435 Social Work in the Military  

**Prerequisites:** SOWK 101 and SOWK 270

This course is designed to introduce students to the knowledge, values, and skills associated with working with individuals, families, and communities impacted by military operations. Topics will include the effects of multiple deployments, experiencing traumatic events, and military culture.

SOWK 439 International Social Work Field Experience  

**Prerequisites:** GLST 220 and (SOWK 294 or Social Work Gate 1 with a score of 3) and (SOWK 325

This course provides a generalist social work perspective of social work with communities and organizations. Topics include engagement, assessment, intervention, and evaluation as well as advocacy in regards to social and economic justice.

SOWK 450 Social Work Practice with Diverse Populations  

**Prerequisites:** GLST 220 and (SOWK 294 or Social Work Gate 1 with a score of 3)

This course provides the student with the opportunity to develop an understanding of theories, knowledge, values, and skills in relation to generalist practice with diverse populations. This course also provides the forum for students to gain an understanding of cultural values of individuals and the impact of those values on human relationships. Emphasis will be placed on the importance of respecting and valuing diversity.
SOWK 465 BSSW GATE 3 & Senior Field Enrollment 0 Credit Hours

**Prerequisites:** (PSYC 354 and SOWK 325 and SOWK 350 and SOWK 370 and (SOWK 294 or Social Work Gate 1 with a score of 3 and SOWK 365 or Social Work Gate 2 with a score of 3)

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 465 course includes the application process for GATE 3 and Field Enrollment Process of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 3 and completion of the Field Enrollment process indicates approval to begin Senior Field Placement (SOWK 470 or SOWK 475).

**Offered:** Resident and Online

---

SOWK 470 Senior Field Experience and Seminar 9-11 Credit Hours

**Prerequisites:** SOWK 370

Senior Field Experience provides students with the opportunity to perform in the role of a social work practitioner under the supervision of an experienced master’s level social worker. In one semester, students will have experienced a minimum of 400 field hours in a setting, which employs social workers. Students will meet for two hours weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

---

SOWK 475 Senior Field Seminar 6-9 Credit Hours

**Prerequisites:** SOWK 370

Senior Field Seminar is taken in conjunction with Senior Field Experience. Students will meet for two hours weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

---

SOWK 477 Senior Field Experience and Seminar B 3-4 Credit Hours

**Prerequisites:** SOWK 370

Senior Field Experience provides students with the opportunity to perform in the role of a social work practitioner under the supervision of an experienced master’s level social worker. In one semester, students will have experienced a minimum of 100 field hours in a setting, which employs social workers. Students will meet for one hour weekly to discuss the theoretical and conceptual concepts learned in the classroom with the practical experiences in field placement.

**Offered:** Online

---

SOWK 494 BSSW GATE 4 & Comprehensive Exam 0 Credit Hours

**Prerequisites:** (SOWK 465 or Social Work Gate 3 with a score of 3 and SOWK 294 or Social Work Gate 1 with a score of 3 and SOWK 365 or Social Work Gate 2 with a score of 3) and (SOWK 475 and SOWK 477 or SOWK 470 and (SOWK 410 and SOWK 450

The Council on Social Work Education (CSWE) requires that all social work programs have a gatekeeping process to ensure that students have a thorough understanding of the profession of social work and will be a good fit for the program and profession. The BSSW program at Liberty University includes 4 gates. All students must apply for and be approved through all 4 gates to be eligible to graduate from the Social Work Program. This SOWK 494 course includes the application process for GATE 4 of the Social Work Program. This course is 0 credits and is Pass/Fail. Approval through GATE 4 and successful completion of the comprehensive exam indicates readiness to graduate out of the Social Work Program with a Bachelor’s of Science Degree in Social Work (BSSW).

**Offered:** Resident and Online

---

SOWK 495 Directed Social Work Research 3 Credit Hours

**Prerequisites:** PSYC 255 and PSYC 354 and SOWK 101

An independent study agreed upon between the instructor and the student regarding an area of specific research.

---

SOWK 497 Special Topics in Social Work 3 Credit Hours

An in depth study of a specific aspect of social work practice.

**Registration Restrictions:** Instructor approval.

---

**Social Work (B.S.) - Online**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1. Courses may also fulfill select general education requirements
2. HLTH 216 Personal Health (3 c.h.) is offered residually only
3. SOWK 120 Social Work Field Exploration (2 c.h.) and SOWK 150 Intensive Social Work Observation (1 c.h.) (Offered residually only) can substitute for SOWK 135 Social Work Field Exploration and Observation (3 c.h.)
4. These Gate Courses house the application process for each of the 4 program Gates. All students must apply for and be approved through all 4 program Gates to be eligible to graduate from the program
5. SOWK 355 Social Work Practice with Groups (3 c.h.) is a required on campus intensive course
6. Resident: SOWK 470 Senior Field Experience and Seminar (9-11 c.h.); Online: SOWK 470 Senior Field Experience and Seminar (9-11 c.h.), or SOWK 475 Senior Field Seminar (6-9 c.h.) and SOWK 477 Senior Field Experience and Seminar (3-4 c.h.)
7. Choose one course from the following: SOWK 425 International Social Work (3 c.h.), SOWK 431 Social Work in Mental Health (3 c.h.), SOWK 432 Geriatric Social Work (3 c.h.), SOWK 435 Social Work in the Military (3 c.h.), SOWK 439 International Social Work Field Experience (3 c.h.), SOWK 495 Directed Social Work Research (3 c.h.), or SOWK 497 Special Topics in Social Work (3 c.h.)
8. Choose a 300-400 level PSYC or SOWK course not already applying in the major

**Graduation Requirements**

- 120 Total hours
- 2.5 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of ‘C’ Minimum required for all major and major foundational courses
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

**Social Work (B.S.) - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

School of Business

Administration

David Brat, B.A., M.Div., Ph.D.
Dean of Residential Programs
Professor of Business

Melanie Hicks, B.S., M.B.A, D.B.A.
Associate Dean of Residential Programs
Director of Accreditation, Professor of Business

Anita Satterlee, B.S., M.A., Ed.D.
Dean of Online Programs

Daniel O'Malley, B.S., M.S., Ph.D.

Chair, Information Technology, Informatics, Information Systems
Associate Professor of Information Technology

Colleen McLaughlin, B.S., M.S., M.P.H., Ph.D.
Chair, School of Business
Professor of Business

Beth Koss, B.S., M.B.A., CPA
Chair, Department of Accounting, Finance, Financial Planning, & Economics
Assistant Professor of Accounting

Jason Byrd, B.S., M.B.A.
Chair, School of Business
Assistant Professor of Business

Mike Floyd, B.S., M.A.R.
Online Chair, School of Business
Associate Professor of Business

Emily Knowles, B.S., M.A., D.B.A.
Chair, School of Business
Assistant Honors Director, Associate Professor of Business

David Donahoo, B.S., M.S.
Chair, Computational Sciences
Assistant Professor, Computational Sciences

Wade Schofield, B.S., M.S., M.S.
Chair, Information Technology
Assistant Professor, Information Technology

Laura Hatfield, B.S., B.S., M.S., Ph.D.
Chair, Sport, Event, and Tourism Management
Associate Professor, Sport, Event, and Tourism Management

Program Directors

A listing of program directors can be viewed at http://www.liberty.edu/programdirectors.

Research Intensive Courses

All research intensive courses are listed online at https://www.liberty.edu/academics/qualityenhancement/index.cfm?PID=32835.

Accreditation

Liberty University's School of Business has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACBSP), demonstrating it has met standards of business education that promote teaching excellence. Undergraduate programs that have achieved accredited status include:

- A.A. in Accounting
- A.A. in Business
- A.A. in Business Management Information Systems
- B.S. in Accounting
- B.S. in Business Administration
- B.S. in Information Systems
- B.S. in Information Technology

ACBSP accreditation encompasses both resident and distance learning programs.
Purpose
To educate our Business students with the values, knowledge, and skills they need in the development of the whole person to enable them to impact their world. Inherent in this mission are the following fundamental imperatives:

1. That all teaching be given within a distinctively Christian worldview;
2. That the Word of God be honored as the final authority for life and practice;
3. That justice and ethics be exalted within a context of limited government and a free market system in a global economy;
4. That all of life’s tasks are sacred and are to be done as unto the Lord;
5. That the education process be a collaboration with faculty and staff, helping to transform students into self-sufficient, lifelong learners; and
6. That courses of instruction be designed and delivered to provide our graduates with a competitive advantage as they pursue their chosen careers.

Business Internship Program
Integration of theory and practice is the purpose of the Business Internship Program at Liberty. Hands-on learning, in addition to classroom learning, gives the student a perspective that is very valuable upon graduation. The internship experience provides a basis for career decisions, as well as experience that will assist the student in securing employment.

Juniors and seniors who wish to be considered for the internship program should contact the Business Internship Director to discuss qualifications for and the methods of obtaining internships.

Sigma Beta Delta and Delta Mu Delta Honor Societies
Sigma Beta Delta and Delta Mu Delta are honor societies for students of business, management or administration. The honor societies recognize students who have achieved superior academic performance through the pursuit of wisdom, honor, and the pursuit of meaningful aspirations. Membership invitations are forwarded each spring to accounting and business majors who rank in the upper 20 percent of the class.

Teacher Licensure
Teacher preparation and endorsement in Business is available through the School of Business in cooperation with the Teacher Education Department. Those wishing to pursue a teacher-related program should seek information from the Teacher Licensure Office in the School of Education.

Information Technology Competency Requirements
Purpose
Information Technology (INFT) is designed to assist students in developing and demonstrating foundational technology competency and proficiency that will lead to success in their college program coursework and future careers. All incoming residential students, both freshmen and transfer, have the option to take an assessment in Information Technology their first semester to determine basic competency. The Information Technology assessment covers areas in computer concepts, including file management, email, word processing, spreadsheets, and presentation software.

The competency requirements may be met by either passing the assessments or taking a course, INFT 110 Computer Concepts and Applications (3 c.h.) or INFT 111 MAC Computer Concepts and Applications (3 c.h.) (MAC only). In addition, students may complete a combination of assessments and coursework (INFT 102 PowerPoint (1 c.h.), INFT 103 Excel (1 c.h.), and/or INFT 104 Word (1 c.h.)) to fulfill the competency requirements. Online students develop their technology skills by other varied means, and online students beginning at Liberty complete UNIV 104 Instructional Technology for Successful Online Learning (3 c.h.) to assure technological competency.

Programs
• Accounting Major (A.A.) (p. 530)
• Accounting Major (B.S.) (p. 527)

Carroll, Christos; B.S., M.B.A.
Title: Instructor
B.S. - Liberty University, M.B.A. - University of Lynchburg

Cates, Steven; B.S., M.B.A., D.B.A.
Title: Assistant Professor
B.S. - University of North Carolina at Greensboro, M.B.A. - Northern Illinois University, D.B.A. - Nova Southeastern University

Cecil, Mary; B.S., M.A., Ph.D.
Title: Assistant Professor
B.S. - Southern Illinois University, M.A. - University of Phoenix, Ph.D. - Northcentral University

Chavarria, Marlo; B.A., M.A.
Title: Instructor
B.A. - University of South Florida, M.A. - University of South Florida

Cheek, Elijah; B.S., M.B.A., M.S.
Title: Adjunct Faculty
B.S. - Virginia Union University, M.B.A. - University of Maryland University College, M.S. - University of Maryland University College

Choi, Kiwhan; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Pusan National University, M.A. - Georgia State University, M.A. - Pusan National University, Ph.D. - Georgia State University

Christian, Jason; B.S., M.S.
Title: Assistant Professor
B.S. - Park University, M.S. - University of North Texas

Christson, Aristarchus; B.B.A., M.B.A., M.G.S., D
Title: Adjunct Faculty
B.A.A. - University of Ghana, M.B.A. - Fitchburg State, M.G.S. - University of Cape Coast, D - Colorado Technical University

Churchill, John; B.S., M.B.A.
Title: Instructor
B.S. - Indiana Wesleyan University, M.B.A. - Indiana Wesleyan University

Clingenpeel, David; B.S., M.S.
Title: Adjunct Faculty
B.S. - Liberty University, M.S. - Liberty University

Coggins, Eric; B.A., M.B.A., Ph.D.
Title: Adjunct Faculty
B.A. - California State University, M.B.A. - University of Phoenix, Ph.D. - Regent University

Coker, Marsha; B.S., M.A., Ed.D.
Title: Adjunct Faculty
B.S. - Stephen F. Austin State University, M.A. - Spring Hill College, Ed.D. - United States Sports Academy

Cole, Aileen; B.S., M.S.
Title: Adjunct Faculty
B.S. - Kenyatta University, M.S. - University of Phoenix

Connell, Melissa; B.A., M.B.A., D.B.A.
Title: Adjunct Faculty
B.A. - Univ of South Carolina Sumter, M.B.A. - Charleston Southern University, D.B.A. - Walden University

Conner, Terrence; M.A., M.A., M.A.
Title: Associate Dean, Res Ed & Grad Ops
M.A. - Liberty University, M.A. - Liberty University, M.A. - Liberty University

Cook, Elsie; B.S., M.S., Ph.D.
Title: Adjunct Faculty
B.S. - Universidad Nueva Esparta, M.S. - Asian Seminary of Christian Mi, Ph.D. - Regent University

Cornfield, Kurt; B.S., M.S.
Title: Assistant Professor of Business
B.S. - Taylor University in Upland, M.S. - College for Financial Planning

Corum, Richard; D
Title: Assistant Professor
D - Nova Southeastern University

Cox, Andrew; M.A., M.B.A.
Title: Adjunct Faculty
M.A. - Bellevue University, M.B.A. - Kennesaw State University

Cox, Courtney; A.A., B.S., M.B.A.
Title: Instructor
A.A. - Liberty University, B.S. - Liberty University, M.B.A. - Liberty University

Crawford, Laurie; B.S., M.B.A., M.S.
Title: Adjunct Faculty
B.S. - Ohio State University, M.B.A. - Ashland University, M.S. - University of Illinois at Urbana

Cree, Carole; B.S., M.B.A., D
Title: Adjunct Faculty
B.S. - Edgewood College, M.B.A. - Nova Southeastern University, D - Nova Southeastern University

Cruz-Melend, Josie; B.A., M.L., J.D.
Title: Adjunct Faculty
B.A. - Trinity University, M.L. - Harvard University, J.D. - Universidad de Puerto Rico

Cullipher, David; B.A., M.B.A.
Title: Adjunct Faculty
B.A. - University of Memphis, M.B.A. - Arkansas State University

Daenzer, Brian; B.S., M.B.A., Ph.D.
Title: Adjunct Faculty
B.S. - Oakland University, M.B.A. - Wayne State University, Ph.D. - University of Phoenix

Dantas, Timoteo; B.S., M.B.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.B.A. - Liberty University

Davies, Jordan; B.S., J.D.
Title: Adjunct Faculty
B.S. - Liberty University, J.D. - Liberty University Law School

Davis, Kimberly; B.S., M.S.
Title: Adjunct Faculty
B.S. - University of Virginia, M.S. - University of North Carolina at Chapel Hill

Davis, Mark; B.S., B.S., M.B.A., D.B.A.
Title: Adjunct Faculty
B.S. - Wayland Baptist University, B.S. - Wayland Baptist University, M.B.A. - Baker College, D.B.A. - Argosy University-Sarasota

Dean, Cendoria; B.A., M.A., J.D.
Title: Adjunct Faculty
B.A. - Sojourner-Douglass College, M.A. - Liberty University, J.D. - University of Baltimore

DeHaven, David; B.S., M.B.A., Ph.D.
Title: Adjunct Faculty
B.S. - George Mason University, M.B.A. - Auburn University, Ph.D. - Capella University

Demaline, Christopher; B.A., M.B.A., M.B.A., D.B.A.
Title: Adjunct Faculty
B.A. - Ottawa University, M.B.A. - Grand Canyon University, M.B.A. - Grand Canyon University, D.B.A. - Grand Canyon University

Denham, Christine; B.B.A., M.B.A.
Title: Adjunct Faculty
B.B.A. - University of Tulsa, M.B.A. - University of Tulsa

Dennis, Carl; B.S., M.B.A., J.D.
Title: Adjunct Faculty
B.S. - United States Naval Academy, M.B.A. - Oral Roberts University, J.D. - Baylor University

DeShay, Lorna; B.A., M.S., Ph.D.
Title: Instructor
B.A. - Virginia Commonwealth University, M.S. - Central Michigan University, Ph.D. - Northcentral University
Dewhurst, Robert; A.A., B.S., M.A., Ed.D.
Title: Adjunct Faculty
A.A. - University of Maryland in College Park, B.S. - University of Maryland in College Park, M.A. - Central Michigan University, Ed.D. - Nova Southeastern University

Dickenson, Kevin; B.A., M.B.A., M.S., M.S., Ph.D.
Title: Adjunct Faculty
B.A. - Eastern Kentucky University, M.B.A. - Eastern Kentucky University, M.S. - Eastern Kentucky University, M.S. - Eastern Kentucky University, M.S. - Southern Polytechnic State University, Ph.D. - Indiana State University

Dickerson, Tosha; M.S., D.B.A.
Title: Adjunct Faculty
M.S. - Southern University, D.B.A. - Capella University

Dingman, Walter; B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.A. - University of New Mexico, M.S. - Chapman University, Ph.D. - Regent University

Distler, Michele; B.S., M.B.A.
Title: Adjunct Faculty
B.S. - University of South Florida, M.B.A. - University of South Florida

Dixon, Angela; B.A., M.Div., M.P.H., J.D.
Title: Adjunct Faculty
B.A. - Vanderbilt University, M.Div. - Emory University, M.P.H. - Emory University, J.D. - Vanderbilt University

Donahoo, David; B.S., B.S., M.S.
Title: Associate Professor, Computer Science
B.S. - Wayland Baptist University, B.S. - Wayland Baptist University, M.S. - Air Force Institute of Technology

Donahou, James; B.B.A., M.B.A., M.S.
Title: Adjunct Faculty
B.B.A. - Mississippi State University, M.B.A. - Mississippi State University, M.S. - Mississippi State University

Dowty, Robert; B.B.A., M.B.A.
Title: Adjunct Faculty
B.B.A. - Oklahoma Baptist University, M.B.A. - Dallas Baptist University

Dragseth, Carolyn; B.A., M.B.A., J.D.
Title: Adjunct Faculty
B.A. - University of Colorado Boulder, M.B.A. - Kaplan University-Online, J.D. - Loyola University

Duby, David; B.S., M.S., Ph.D.
Title: Professor of Business Law/Ethics
B.S. - Pensacola Christian College, M.S. - Pensacola Christian College, Ph.D. - Regent University

Management
- Branch Manager
- City Manager
Accounting Major (B.S.)

Purpose
Liberty University’s accounting program prepares students to be effective leaders in business. The program develops the proficiency in communication and computer application skills needed to work with complex accounting issues. Students also learn to identify, analyze and appropriately deal with ethical dilemmas from a sound moral and biblical perspective.

Program Learning Outcomes
The student will be able to:
1. Evaluate business transactions in accordance with accounting and auditing standards as set by the governing bodies within the accounting discipline.
2. Communicate effectively in written, oral, and technical venues.
3. Identify, evaluate, and appropriately deal with ethical dilemmas from a sound moral and biblical perspective.

Programs of Study
Delivery Format: Online and Residential
- Accounting (B.S.) - Online (p. 529)
- Accounting (B.S.) - Resident (p. 530)

Career Opportunities
- Auditor
- Bank Officer
- Budget Analyst
- Certified Public Accountant
- Controller
- Cost Accounting
- Credit Manager

- Government Accountant
- Internal Auditor
- Internal Revenue Agent
- International Banking Office
- Managerial Accounting
- Tax Accountant
- Treasurer

Courses
ACCT 209 Survey of Accounting and Finance 3 Credit Hours
This course provides the basics of financial analysis and management for non-business majors. Topics in this course will include financial reporting, underlying accounting assumptions, performance measures, ratio analysis, cash flow, time value of money, and budgeting.

ACCT 211 Financial Accounting 3 Credit Hours
Prerequisites: MATH 201 or BUSI 230
A study of basic transactions, general ledger accounts, books of original entry, closing and adjusting entry processes, trial balances, financial statements, accounting for assets, liabilities, sole proprietorship, equity, revenues, and expenses.

Offered: Resident and Online

ACCT 212 Managerial Accounting 3 Credit Hours
Prerequisites: ACCT 211
A study of the fundamentals of managerial accounting with an emphasis on financial statement analysis, cost accounting measurement systems, cost-volume-profit analysis, managerial decision-making concepts, operational budgeting, standard cost systems and capital budgeting.

ACCT 299 Internship 0 Credit Hours
Directed applicable work experience under supervision of the Director of Business Internships and an accounting or business professional at the place of employment. Application processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

ACCT 301 Intermediate Accounting I 3 Credit Hours
Prerequisites: ACCT 212
This is an intensive course in accounting theory and practice. The course attempts to strike a balance between procedural explanations of currently applied accounting practices and the theoretical framework upon which those practices are based. Alternatives to current practice are also introduced.
<table>

**ACCT 212**

This course provides an introduction to accounting principles. It covers the basic concepts of financial accounting, including the preparation of financial statements and the analysis of financial data. The course is designed to provide students with a solid foundation in accounting fundamentals.
ACCT 495 Directed Research 1-3 Credit Hours
Registration Restrictions: Written permission of department chair and consent of instructor.

ACCT 497 Special Topics in Accounting 1-3 Credit Hours
Topics will vary and are offered on demand. Course may be repeated for credit, when topics differ.

ACCT 499 Internships 1-6 Credit Hours
Directed applicable work experience under supervision of the Director of Business Internships and an accounting or business professional at the place of employment. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Junior or Senior standing; required GPA.

Accounting (B.S.) - Online
Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

• Business Major (A.A.) (p. 533)
• Information Systems Major (A.A.) (p. 542)

Accounting Major (A.A.)

Purpose

Liberty University’s Associate of Arts in Accounting program is an introductory program designed to develop your competencies in such
areas as financial, managerial, governmental, and non-profit accounting, auditing, and taxation. You will develop proficiency in communication and computer application skills in order to evaluate and synthesize common accounting problems. You will also learn to identify, analyze, and appropriately deal with ethical dilemmas from a sound moral and biblical perspective, utilizing critical thinking and problem-solving skills to formulate solutions.

Program Learning Outcomes
The student will be able to:

1. Demonstrate competence in basic accounting procedures and principles.
2. Communicate effectively using appropriate research style and methods.

Program of Study
Delivery Format: Online Only
• Accounting (A.A.) - Online (p. 532)

Career Opportunities
• Corporate/ Public Accounting
• Education
• Government

Courses
ACCT 209 Survey of Accounting and Finance 3 Credit Hours
This course provides the basics of financial analysis and management for non-business majors. Topics in this course will include financial reporting, underlying accounting assumptions, performance measures, ratio analysis, cash flow, time value of money, and budgeting.

ACCT 211 Financial Accounting 3 Credit Hours
Prerequisites: MATH 201 or BUSI 230
A study of basic transactions, general ledger accounts, books of original entry, closing and adjusting entry processes, trial balances, financial statements, accounting for assets, liabilities, sole proprietorship, equity, revenues, and expenses.
Offered: Resident and Online

ACCT 212 Managerial Accounting 3 Credit Hours
Prerequisites: ACCT 211
A study of the fundamentals of managerial accounting with an emphasis on financial statement analysis, cost accounting measurement systems, cost-volume-profit analysis, managerial decision-making concepts, operational budgeting, standard cost systems and capital budgeting.

ACCT 299 Internship 0 Credit Hours
Directed applicable work experience under supervision of the Director of Business Internships and an accounting or business professional at the place of employment. Application processed through the Career Center. Must apply semester prior to internship.
Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.
Offered: Resident

ACCT 301 Intermediate Accounting I 3 Credit Hours
Prerequisites: ACCT 212
This is an intensive course in accounting theory and practice. The course attempts to strike a balance between procedural explanations of currently applied accounting practices and the theoretical framework upon which those practices are based. Alternatives to current practice are also introduced.

ACCT 302 Intermediate Accounting II 3 Credit Hours
Prerequisites: ACCT 301
This is an intensive course in accounting theory and practice dealing with liabilities, stockholders equity, and financial reporting issues. The course attempts to strike a balance between procedural explanations of currently applied accounting practices and the theoretical framework upon which those practices are based.
Note: Offered spring semester.

ACCT 311 Cost Accounting I 3 Credit Hours
Prerequisites: ACCT 212
A study of the principles and procedures used in the collection, recording and reporting of costs. Balance Sheet inventory valuation and the related Income Statement cost of goods sold valuation, determined using both job order costing and process costing, are emphasized. Activity-based costing is covered in depth. Traditional cost accounting is the main content of this course.
Note: Offered fall semester.

ACCT 332 Accounting Information Systems 3 Credit Hours
Prerequisites: ACCT 301
This course provides a basic knowledge of how accounting information systems function in today's business environment. It emphasizes the internal control feature necessary to produce accurate and reliable accounting data as it looks at how accounting information is recorded, summarized and reported in both manual and computerized systems. The following topics are covered in this course: systems concepts, tools, development processes, analysis; design; implementation and operation; computer software and configurations; data storage and processing methods; file processing; implementing data base management systems; internal control; information system control; data security and integrity; accounting transaction cycles; revenue cycle applications; and expenditure cycle applications.
ACCT 340 Accounting Ethics  
3 Credit Hours  
Prerequisites: ACCT 212

This course provides an analysis of ethical standards in the accounting profession. Major ethics paradigms are examined and contrasted with a Christian worldview of ethics. The course includes an in-depth examination of the AICPA Code of Professional Conduct and other ethical standards in the accounting profession. The course also presents an ethical decision-making model for the accounting profession.

ACCT 370 Financial Statement Analysis  
3 Credit Hours  
Prerequisites: BUSI 320

This course examines the fundamental techniques of financial statement analysis and their application to strategic planning and decision-making. The course covers the analysis and interpretation of financial information including the balance sheet, income statement, and statement of cash flows.

Offered: Resident and Online

ACCT 401 Taxation I  
3 Credit Hours  
Prerequisites: ACCT 212

A study of the legal and accounting aspects of federal taxation with an emphasis on individuals and unincorporated businesses.

Note: Offered fall semester.

ACCT 402 Advanced Accounting  
3 Credit Hours  
Prerequisites: ACCT 302

This is an intensive course in accounting theory and practice regarding partnerships, business combinations and consolidated financial statements. The course attempts to strike a balance between procedural explanations of currently applied accounting practices and the theoretical framework upon which those practices are based. Alternatives to current practice are also discussed.

Note: Offered fall semester.

ACCT 403 Governmental and Not-for-Profit Accounting  
3 Credit Hours  
Prerequisites: ACCT 402

Advanced problems involving government and non-profit organizations, estates and trusts, financially distressed entities, translation and consolidation of foreign entities and segment reporting.

Note: Offered spring semester.

ACCT 404 Auditing  
3 Credit Hours  
Prerequisites: ACCT 302

A study of auditing standards and related auditing procedures. Topics include: evaluation of internal control and preparation of the audit program; examination of financial statements and preparation of working papers; and auditors' reports and opinions.

Note: Offered fall semester.

ACCT 412 Taxation II  
3 Credit Hours  
Prerequisites: ACCT 401

The second course in a two-course sequence dealing with corporate income taxes, taxes on corporate distributions, other corporate tax levies; partnership information, operation and special issues; corporations, gift and estate taxes; the income taxation of trusts and estates; and IRS administrative procedures.

Note: Offered spring semester.

ACCT 432 IT Audit  
3 Credit Hours  
Prerequisites: ACCT 332 and ACCT 404

This course provides the theory and application of auditing through the use of information systems. Topics include: authoritative information technology control frameworks; computer security; continuous auditing; and audit approaches to new and emerging technologies.

ACCT 495 Directed Research  
1-3 Credit Hours

Registration Restrictions: Written permission of department chair and consent of instructor.

ACCT 497 Special Topics in Accounting  
1-3 Credit Hours

Topics will vary and are offered on demand. Course may be repeated for credit, when topics differ.

ACCT 499 Internships  
1-6 Credit Hours

Directed applicable work experience under supervision of the Director of Business Internships and an accounting or business professional at the place of employment. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Junior or Senior standing; required GPA.

Accounting (A.A.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

- General Business

### Courses

- **BUSI 101 Introduction to Business** 3 Credit Hours
  The student will study all of the major aspects of operating a modern business. Emphasis is given to business practice for both small business and large corporate enterprises.

- **BUSI 200 Enterprise Business Applications and Communications** 3 Credit Hours
  The student will study all of the major aspects of operating a modern business. Emphasis is given to business practice for both small business and large corporate enterprises.

Prerequisites: MATH 121 or MATH 117 or MATH 108 or MATH 110 or MATH 115 or MATH 122 or MATH 126 or MATH 128 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or MATH 217 or MATH 227 or MATH 250 or BUSI 230 or ACT Math with a score of 21 or (pre2016 post1995)SAT Math with a score of 560 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 070

This course examines the design, selection, implementation and management of enterprise Business solutions. The focus is on identifying critical business processes and envisioning how technology can be developed to provide solutions which generate competitive advantage. Students learn how applying frameworks and strategies around the Business Process and Organization Strategy provide a competitive advantage. Topics include MIS and IT fundamentals, Information Systems Management and Using Enterprise Business Applications for competitive advantage. The course also includes a component for Technical Writing for Information Systems. (Formerly ISYS and CMIS 110) (Crosslisted with BMIS 200)
BUSI 201 Intermediate Business Computer Applications 3 Credit Hours

**Prerequisites:** INFT 110 or INFT 111 or (INFT Excel Test with a score of 5 and INFT PowerPoint Test with a score of 5)

This laboratory experience offers the student a hands-on introduction to an electronic spreadsheet, a database program, and a presentation program. Upon this foundation, intermediate database and intermediate and advanced spreadsheet skills are taught. Throughout the course, there is an emphasis on the integration of the applications as they are applied to personal and organizational tasks. This course provides the IT foundations that are applicable for all curriculums. (Formerly ISYS/CMIS 201)

BUSI 223 Personal Finance 3 Credit Hours

Budgets, borrowing funds, stock ownership, savings, real estate as investments, and related tax matters are among the topics covered.

BUSI 230 Introduction to Probability and Statistics 3 Credit Hours

**Prerequisites:** Placement Score-Math with a score of 075 or (CLST 103 and Assessment - Mathematics with a score of 23 and Assessment - Mathematics II with a score of 15) or MATH 108 or MATH 110 or MATH 115 or MATH 121 or MATH 126 or MATH 128 or MATH 131 or MATH 1XX or MATH 2XX

Introduction to descriptive statistics and probability, probability distributions, estimation, tests of hypotheses, chi-square tests, regression analysis, and correlation with applications in business and science. (Crosslisted with MATH 201)

BUSI 240 Organizational Behavior I 3 Credit Hours

Explores the practice of evidence-based management relative to healthcare decision making and support. Topics explored include but not limited to: evolution of evidence-based healthcare, locating and evaluating evidence, developing the capacity of healthcare managers to utilize evidence in decision making, and evidence-based healthcare in the 21st century.

BUSI 419 Management of Quality Improvement and Outcomes 3 Credit Hours

Addresses the manager’s role in improving healthcare quality and outcomes, including clinical and organizational improvement, technology assessment, and quality improvement practices. This course examines how improved work processes lead to quality improvement and value creation in the healthcare organization. Students will explore the contribution of operations research and quality management to improve delivery and production of healthcare services and business processes from the perspective of the healthcare professional.

Offered: Online

BUSI 420 Investments 3 Credit Hours

Prerequisites: BUSI 320

A survey of corporate securities, financial securities, security markets, investment and portfolio analysis and administration. Investment companies, commodity markets and the stock exchange are also examined.

BUSI 421 Insurance Planning/Risk Management/Employee Benefits 3 Credit Hours

This course will cover the concepts and tools used in Insurance Planning, Risk Management and Employee Benefits. All three are important parts of a holistic financial plan.

BUSI 422 Real Estate 3 Credit Hours

Prerequisites: BUSI 301 and BUSI 320

An overview of real estate brokerage, property rights, transfer mechanisms and documents, property evaluation, finance, investments, and property management.

Offered: Resident

BUSI 423 Franchising 3 Credit Hours

Franchising is a major form of business ownership and a strategy for growing ventures. This course examines franchising from both the perspective of the entrepreneur as a franchisee and as a franchisor. Topics will include selecting a franchise, developing a franchised business model, and legal issues associated with the franchised relationship.

BUSI 424 E-Commerce 3 Credit Hours

This course explores how the Internet has revolutionized the buying and selling of goods and services in the marketplace. Topics include: Internet business models, electronic commerce infrastructure, designing on-line storefronts, payment acceptance and security issues, and the legal and ethical challenges of electronic commerce.

BUSI 425 Family Business Management 3 Credit Hours

This course explores the unique personal, interpersonal issues, and business issues associated with the family-owned and managed firm. Topics include challenges and opportunities for family businesses, the dynamics of family interactions within the family business culture, conflict resolution, estate planning, and succession planning.

BUSI 427 Team Dynamics 3 Credit Hours

Prerequisites: BUSI 240 or BUSI 340

The dynamics of building a highly functioning team in order to accomplish a goal. Examination of how to choose team members and how to manage the team to deliver successful results.

Offered: Online

BUSI 428 Strategic Management and Marketing in Healthcare 3 Credit Hours

Prerequisites: BUSI 344 and BUSI 418

Focused on increasing organizational effectiveness and efficiency through strategic planning, students will develop an understanding of the strategic planning process and marketing from a healthcare perspective. Topics explored include but not limited to: importance of strategic planning in healthcare, internal and external environmental assessment, marketing healthcare services, strategy formulation, implementation, and long-term control.

BUSI 429 Healthcare Economics 3 Credit Hours

Explores how principles of economic analysis can be applied to the field of healthcare. This course will explore how healthcare economics is unique through an exploration of healthcare markets (including supply, demand, production, and costs) and how cost benefit analysis is performed when the output presents challenges for measurement.

Offered: Online
BUSI 430 Promotion Strategy 3 Credit Hours

Prerequisites: BUSI 330

This course is open to students who desire to understand the function of Promotion within a company’s Integrated Marketing Communications (IMC) plan. Emphasis is on planning, creating, and evaluating advertising, sales promotion, and publicity strategies to communicate most effectively across the optimum blend of media channels.

BUSI 431 Sales Management and Professional Selling 3 Credit Hours

Prerequisites: BUSI 330

This course presents each component of the sales cycle in a business-to-business selling environment. Students will master models for initiating sales contacts, identifying and defining prospect’s needs, and presenting and gaining commitment for a proposed solution.

BUSI 432 Retail Management 3 Credit Hours

BUSI 433 Marketing Management 3 Credit Hours

Prerequisites: BUSI 331

Advanced study of the role and responsibilities of marketing executives. Emphasis will include: analysis of marketing opportunities and problems; planning of objectives and strategies; development of organizational structure, policies, implementation, and control; and evaluation of marketing programs.

Registration Restrictions: Senior Status.

Offered: Resident

BUSI 434 International Business 3 Credit Hours

BUSI 435 Small Business Entrepreneurship 3 Credit Hours

A practical study in the dynamics of establishing, funding, and managing a small new enterprise, or acquiring an existing business using case studies, practical exercises, and class instruction.

Registration Restrictions: Junior/Senior Status.

Offered: Resident and Online

BUSI 436 Digital Marketing in a Virtual World 3 Credit Hours

Prerequisites: BUSI 330

Students explore the principles required to successfully practice marketing in the virtual world of social media and electronic commerce between and among businesses and consumers.

BUSI 437 Global Marketing 3 Credit Hours

Prerequisites: BUSI 330

This course focuses on the basic theories, concepts, and practices of Marketing in a practical and unique way. This course will delve into: 1) The Culture Environment of Global Markets; 2) Assessing Global Opportunities; 3) Developing Global Marketing Strategies; and 4) Implementing Global Market Strategies.

Offered: Online

BUSI 438 Marketing Brand Management 3 Credit Hours

Prerequisites: BUSI 330

Students will learn how an organization’s brand provides a broad definition of its purpose, uniqueness, and its package of products and services. Course topics include channel development, merchandising, marketing, and establishing and delivering the brand promise.

Offered: Resident

BUSI 439 Conversion and Optimization 3 Credit Hours

Prerequisites: BUSI 436

This course covers the principles, functions, and techniques of web analytics, site optimization, and conversion strategies related to digital marketing. The information covered in this course will provide students with knowledge of how to successfully reach and influence potential consumers and convert them into customers. The course also covers the financial impact of conversation strategies on the firm.

BUSI 440 Compensation Management 3 Credit Hours

Prerequisites: BUSI 342

This course develops the philosophy and fundamental guiding principles for wages and salaries in business institutions. This comprehensive study of compensation management also includes job analysis, administrative job evaluation, basis compensation plans, executive compensation and administrative controls.

Offered: Resident

BUSI 442 Customer Retention Through Digital Marketing 3 Credit Hours

Prerequisites: BUSI 436

The content of this course focuses on digital marketing strategies and techniques necessary for satisfying and retaining customers. In this course, students are presented with information and methods for driving and assessing overall lifetime customer value and resulting financial performance. The course content also encourages students to explore industry trends and their future impact on digital marketing.
BUSI 443 Workforce Planning and Employment 3 Credit Hours

**Prerequisites:** BUSI 342

This course will focus on recruitment, assessment, selection, placement and appraisal issues and methods necessary to align the organizational workforce with the strategic goals of the organization. The laws and guidelines related to the DOL, INS, EEOC, and other legal enforcement agencies as related to the staffing process will be reviewed.

**Offered:** Resident

BUSI 444 Human Resource Development 3 Credit Hours

**Prerequisites:** BUSI 342

This course focuses on the design, implementation, and management of employee orientation, career development, and training programs. Human resource development issues examined include strategic training, needs assessment, theories, program design, evaluation, and training methods as well as career management.

BUSI 446 Retailing and Category Management 3 Credit Hours

**Prerequisites:** BUSI 330

From an economic perspective, retailing, and category management represent anywhere from 25-30% of GDP annually. This course integrates retailing and category management into one course. The category management aspects of this course are derived from retail and supply chain perspectives.

BUSI 450 Database Management Systems 3 Credit Hours

BUSI 452 Survey Design 3 Credit Hours

**Prerequisites:** BUSI 331

This course covers important elements for effective survey and questionnaire design. Students will learn how to plan, structure, and write survey material for meaningful market research giving consideration to ethical and social issues. The course will include topics in research techniques and best practices as well as how to use, act on, and follow-up research.

BUSI 453 Applied Marketing Analysis 3 Credit Hours

**Prerequisites:** BUSI 452

Building on knowledge acquired in marketing research, students will assess environmental market conditions. The course will explore principles used in construction, application, and analysis of market research necessary to exercise good judgement and develop action plans for key decision makers. Students will explore, analyze, and offer recommendations regarding market and consumer research through applied projects.

BUSI 454 Practical Analytics 3 Credit Hours

**Prerequisites:** BUSI 334 and BUSI 341

This course provides a hands-on exploration of current business analytical tools including reporting, visualization, and prediction. Analyses will be considered in a real-world context utilizing a variety of data sets and case studies.

**Offered:** Resident and Online

BUSI 455 Conflict Resolution and Negotiation 3 Credit Hours

**Prerequisites:** BUSI 310

BUSI 456 Growth Enterprise: Strategy and Planning 3 Credit Hours

**Prerequisites:** ACCT 212 and BUSI 336

A course in the principles of managing a funded startup enterprise through the various stages of growth and the principles of leading a team of employees to achieve organizational desired outcomes.

**Offered:** Resident and Online

BUSI 458 Innovating into Industries and Markets 3 Credit Hours

**Prerequisites:** BUSI 336 and BUSI 338 and BUSI 456

A course that applies the general concepts of key success factors for establishing entrepreneurial ventures to the unique characteristics of significant industries and marketspaces.

BUSI 464 International Market Integration and Trade Agreements 3 Credit Hours

**Prerequisites:** BUSI 303

This course examines market and economic integration among countries, including the European Union, the North American Free Trade Agreement, Asia-Pacific Economic Cooperation, Association of Southeast Asian Nations and others. Major emerging market economies will also be surveyed, along with the challenges and opportunities these present to the international business firm.

BUSI 465 Export Management Strategy 3 Credit Hours

**Prerequisites:** BUSI 303

An overview of international trade theories, policies, instruments and documents that affect the success of U.S. exports. Students are introduced to various resources, private organizations, and government agencies designed to facilitate American export businesses. The tools and methods for establishing a small export business model are examined.
BUSI 472 Organizational Ethics 3 Credit Hours
An analysis of the foundation of ethical behavior in business, including an introduction to social graces and the importance of professional image. Emphasis is placed on a comparison between Judeo-Christian and secular ethical paradigms.

BUSI 474 Fixed Operations 3 Credit Hours
Prerequisites: ACCT 212 and BUSI 370
A detailed study of fixed operations within an organization and how they interact with other organizational departments. The focus will be from the perspective of (a) customers, (b) employees, and (c) managers.
Offered: Resident and Online

BUSI 476 Variable Operations 3 Credit Hours
Prerequisites: BUSI 370 and ACCT 212
A detailed study of variable operations within an organization and how they interact with other organizational departments. The focus will be from the perspective of (a) customers, (b) employees, and (c) managers.

BUSI 478 Leadership Skills for Franchise Owner 3 Credit Hours
Prerequisites: BUSI 372 and BUSI 474 and BUSI 476
Students will combine what they have learned in the cognate with the strategic perspective of an owner in terms of moving the organization forward into the future to satisfy customer needs and to lead employees in a successful enterprise.

BUSI 480 Principles of Property Management 3 Credit Hours
Prerequisites: BUSI 380
This course provides a comprehensive overview of the property management industry as it relates to residential, multi-family and commercial properties. This includes the interactions between owners, tenants and property managers as well as associated business and tax implications.
Offered: Online

BUSI 481 Real Estate Investment Analysis 3 Credit Hours
Prerequisites: BUSI 380
This course explores real estate valuation and investment transactions through the lens of capital budgeting techniques. This includes general cash flow considerations and pertinent tax implications associated with real estate investments.
Offered: Online

BUSI 482 Real Estate Valuation 3 Credit Hours
Prerequisites: BUSI 380
This course provides comprehensive instruction related to the valuation and appraisal techniques used for residential and income-producing properties, including the comparable sales approach, the cost approach, and the income approach.
Offered: Online

BUSI 489 Capstone in Financial Planning 3 Credit Hours
Prerequisites: BUSI 352 and BUSI 320 and BUSI 354 and BUSI 420 and BUSI 421 and ACCT 401
This course will allow the student to create a written financial plan using the knowledge acquired from previous course work in the financial planning classes. The student will use a software package to incorporate all the elements of a successful financial plan for a case study client.
Offered: Resident and Online

BUSI 490 Capstone 3 Credit Hours
Prerequisites: BUSI 320 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
This course serves as the capstone for all business administration majors. Students integrate the concepts, techniques, and knowledge of the common professional components (CPC) of business administration. Course topics include a review of the CPC, strategic management theory/practices, and business analysis tools. Additionally, the course requires students to undertake a research project that is discipline-specific to strategic management and business decisions within a business environment.
Registration Restrictions: Senior status and should be taken in the last semester of coursework.
Offered: Resident

BUSI 493 Entrepreneur Internship 3 Credit Hours
Prerequisites: ACCT 209 and BUSI 336 and BUSI 338
This course covers both cognitive and experiential aspects of entrepreneurship. The prospective entrepreneur will be provided opportunities to develop the skills and tools necessary to effectively analyze opportunities in today’s market. The internship will be a supervised field experience at an approved location.
Offered: Resident

BUSI 494 Healthcare Administration Capstone 3 Credit Hours
Prerequisites: BUSI 323 and BUSI 428 and HLTH 485
This capstone course for all healthcare administration majors seeks to integrate the concepts, techniques, and knowledge of all areas of healthcare administration. Its focus is strategic management which is studied in theory and then rigorously applied. This course is designed for final semester seniors.
Offered: Online
BUSI 495 Directed Research 3 Credit Hours

Designed to encourage students to broaden their understanding of contemporary business and to give them an opportunity to propose, conduct and report a major piece of individual research in his area of specialization.

Registration Restrictions: Written permission of the chairman of the department in area of concentration and consent of instructor.

Offered: Resident

BUSI 497 Special Topics in Business 3 Credit Hours

Topics will vary and are offered on demand. Course may be repeated for credit when topics differ.

Offered: Resident

BUSI 498 Business Practicum 3 Credit Hours

A practical experience provided in an automotive dealership with a minimum of 400 hours per practicum section.

BUSI 499 Business Internship 1-6 Credit Hours

A selected directed practical work experience under the supervision of the Director of the Business Internship program and a business manager/professional in the student's area of career interest. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Junior or Senior standing and required GPA.

Business (A.A.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Courses may also fulfill select general education requirements

All applicable prerequisites must be met

Graduation Requirements

- 60 Total Hours
- 2.0 Overall grade point average
- Grade of ‘C’ Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 15 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Information Systems Major (A.A.)

Purpose

Liberty University’s Associate of Arts in Information Systems program is designed to introduce students to an applied knowledge of technology, focusing on the information side of the information technology industry. The IS discipline is concerned with ways in which computer technology can be optimized so that it can provide maximum benefit to a business.
Program Learning Outcomes
The student will be able to determine effective solutions to hypothetical and/or real life situations using core business management information systems principles and practices and/or tools and techniques.

Program of Study
Delivery Format: Online Only
• Information Systems (A.A.) - Online (p. 549)

Career Opportunities
• Consulting
• Education Training
• Internet-related Jobs
• Network Technology
• Non-Technical Areas
• Systems Development

Courses
CSIS 100 Introduction to Information Sciences and Systems 3 Credit Hours
Prerequisites: MATH 108 or MATH 110 or MATH 115 or MATH 117 or MATH 121 or MATH 122 or MATH 126 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 21 or (pre2016 post1995) SAT Math with a score of 530 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 070

This course examines the design, selection, implementation and management of enterprise Business solutions. The focus is on identifying critical business processes and envisioning how technology can be developed to provide solutions which generate competitive advantage. Students learn how applying frameworks and strategies around the Business Process and Organization Strategy provide a competitive advantage. The course also includes a component for Technical Writing for Information Systems. (Formerly BMIS 200)

CSIS 111 Introduction to Computing Sciences 3 Credit Hours
Prerequisites: MATH 121 or MATH 122 or MATH 126 or MATH 128 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 25 or (pre2016 post1995) SAT Math with a score of 530 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 075

A breadth-first introduction to the computing disciplines, with an emphasis on computer ethics and how computing technology impacts the world. Topics include: computing history; discrete mathematics; computer architecture and organization; algorithm design; languages; compilers; operating systems; applications; networks; databases; intellectual property; privacy; free speech; social consequences; computer crime; and codes of conduct. (Formerly CSCI 110)

Offered: Resident and Online

CSIS 112 Advanced Programming 3 Credit Hours
Prerequisites: CSCI 111 or CSIS 111

Continuation of CSIS 111. Further development of discipline in program design, especially for larger programs. Introduction of pointers, simple data structures, recursion, internal sort/search methods. Programming assignments are required. (Formerly CSCI 112)

CSIS 208 Application Programming 3 Credit Hours
Prerequisites: (CSCI 110 or CSIS 110) and (MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 445) or BUSI 230

Development of computer and programming skills, problem solving methods, and selected applications. This course provides a broad-based introduction to programming in Visual Basic. Students will learn how to build a program from the design phase all the way through to delivery. (Formerly BMIS 208)

Offered: Resident and Online

CSIS 209 C# Programming 3 Credit Hours
Prerequisites: BMIS 208 or CSIS 208 or CSCI 111 or CSIS 111 or ISYS 211 or CMIS 211 or CSIS 212 or BMIS 212 or CMIS 212 or ISYS 212

Development of computer and programming skills using the C# language. Students will learn how to use C# to develop stand-alone applications in an IDE. Advanced concepts, such as database connectivity and web applications will also be examined. (Formerly BMIS 209)

Offered: Resident and Online
CSIS 212 Object-Oriented Programming 3 Credit Hours

**Prerequisites:** CSIS 110 or CSIS 208 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450

A study of the general-purpose, secure, object-oriented, portable programs. This course prepares students to program stand-alone applications. It will cover features such as programming concepts, data types, operators, flow control statements, objects, classes, methods, arrays, and strings. The concept of object-oriented programming is emphasized. (Formerly BMIS 212)

CSIS 215 Algorithms and Data Structures 3 Credit Hours

**Prerequisites:** (CSCI 112 or CSIS 112) and MATH 250

Study of data structures such as linked lists, stacks, queues, trees, and graphs. Algorithms for manipulating such structures will be introduced and analyzed. Static and dynamic memory allocation. Access methods for sorting/searching, such as hashing and tree searching. (Formerly CSCI 215)

**Offered:** Resident and Online

CSIS 244 Assembly Language 3 Credit Hours

**Prerequisites:** CSCI 111 or CSIS 111

A detailed development of the tools and techniques of assembly language on a particular computing system. Several programming assignments are required. (Formerly CSCI 244)

**Offered:** Resident

CSIS 299 Internship 0 Credit Hours

Application procedures processed through the Career Center. Must apply semester prior to internship. (Previously BMIS/CSCI 299)

**Registration Restrictions:** Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

**Offered:** Resident

CSIS 310 Web Architecture and Development 3 Credit Hours

**Prerequisites:** CSIS 111 or CSIS 208 or CSIS 212

Provides students with thorough knowledge of the foundations of web architecture, current technologies utilized in the development of a web site, and criteria for assessing the usability of web sites. (Formerly CSCI 310) (Crosslisted with BMIS 310)

CSIS 312 Advanced Object-Oriented Programming 3 Credit Hours

**Prerequisites:** CMIS 212 or CSIS 212 or ISYS 212 or BMIS 212

In-depth study of the advanced features of Java, with an emphasis on the ‘why’ as well as the ‘how to’ of programming in the Java language. This course also prepares students for the Sun Certified Java Programmer exam. (Formerly BMIS 312)

**Offered:** Resident

CSIS 315 Client-Side Programming 3 Credit Hours

**Prerequisites:** (CSIS 212 or BMIS 212) or (CSIS 112 or CSCI 112)

This course provides an introduction to the various languages and tools used in client-side programming. The fundamentals of client-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 315)

**Offered:** Resident and Online

CSIS 316 Server-Side Programming 3 Credit Hours

**Prerequisites:** CSIS 112 or CSIS 212

This course provides an introduction to the various languages and tools used in server-side programming. The fundamentals of server-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 316)

**Offered:** Resident and Online

CSIS 320 IS Hardware and Software 3 Credit Hours

**Prerequisites:** (CSCI 110 or CSIS 110 or (BMIS 200 or CSIS 100

Emphasis is placed on the role of the computer in information processing, including the design of computer hardware and operating systems, application programming, data storage, network and client/server concepts, and systems development life cycle. (Formerly BMIS 320)

CSIS 325 Database Management Systems 3 Credit Hours

**Prerequisites:** (MATH 201 or BUSI 230) and (BMIS 212 or CSIS 212 or BMIS 208 or CSIS 208)

The study of relational database architecture, design, access, administration and implementation in the context of various organizational environments. The course includes issues of data normalization, standard queries, and the use of popular relational and object technologies for building business-oriented applications. Assigned projects will provide hands-on experience with industry leading SQL and RDBMS tools and ER CASE tools currently popular in business and government settings. (Formerly BMIS 325)
CSIS 326 Database System Concepts  
**Prerequisites:** (CSIS 215 or CSCI 215) and (MATH 211 or ENGR 210)

The study of database management systems, database architecture, design, queries, applications, administration and implementation. The course will focus on data normalization, SQL (queries), and the use of relational technology for building database applications. Projects will be assigned to provide hands-on experience with the SQL language and relational database management software packages. (Formerly CSCI 325).

**Offered:** Resident

CSIS 327 Introduction to Oracle  
**Prerequisites:** BMIS 325 or CSIS 325 or ISYS 325 or CMIS 450

This course introduces the fundamentals of database design using an Oracle platform. Database administration will be introduced as well as the basic concepts of data manipulation in an Oracle environment. (Formerly BMIS 326)

CSIS 328 Advanced Oracle  
**Prerequisites:** BMIS 326 or CSIS 327

This course introduces the advanced topics of database administration in Oracle. Multi-dimensional databases for Business Intelligence applications will be examined as well. (Formerly BMIS 327)

**Offered:** Resident

CSIS 330 Business Data Communication Systems  
**Prerequisites:** CSIS 330

Business Data Communications. The study of the movement of information (data) from one device to another by means of electrical, optical, radio or satellite transmission systems. This course will introduce the architecture, concepts, terminology, design, and management issues related to the modern environment of networking and data communications. Various types of networks and communication systems, protocols, regulatory issues and policies will be explored. (Formerly BMIS 330)

CSIS 331 Networks  
**Prerequisites:** CSIS 330

Building on the foundational knowledge of the 330 course, this is a study in corporate data networking. This course primarily focuses on switched networks (wired and wireless) with hands on work on setting up and operating a switched network. Routed networks fundamentals and concepts will be introduced to prepare students for careers in networks operations and the follow-on advanced networks class. (Formerly BMIS 331)

CSIS 335 Network Security  
**Prerequisites:** BMIS 330 or CSIS 330 or ISYS 330 or CMIS 330

A study of the control of unwanted intrusions into, use of, or damage to a business' computer network. This course will cover elements that prevent unwanted activities in an efficient and cost effective manner. This study will start with a focus on the business challenges and threats network professionals face in their day to day operations. It explores the nature and intent of hackers and defines preventative measures such as Intrusion Detection Systems, firewalls, and virtual private networks. (Formerly BMIS 335)

CSIS 340 Studies in Information Security  
**Prerequisites:** CSCI 340 or BMIS 340 or CSIS 340

This course introduces the basic issues and principles of information system security such as security policies, their mechanisms of implementation, means attackers use to circumvent these protections, and defenses against these attackers. (Formerly CSCI 340) (Crosslisted with BMIS 340 and BUSI 417)

CSIS 341 Information Security Planning  
**Prerequisites:** CSCI 340 or BMIS 340 or CSIS 340

This course will deal with the proper planning for and initial implementation of an Information Security program. The topics included would be: security planning and policies, risk analysis, program accreditation, systems lifecycle management, contingency planning, physical security measures, personal security practices and procedures, software security, network security, administrative controls, crypto security. (Formerly CSCI 351) (Crosslisted with BMIS 341)

CSIS 342 Computer Architecture and Organization  
**Prerequisites:** CSIS 215 or CSCI 215

Introduction to architecture and organization of computer systems. Data and instruction representations. Arithmetic and logical operations. Processor and memory implementations. (Formerly CSCI 342)

**Offered:** Resident and Online

CSIS 343 Cybersecurity  
**Prerequisites:** CSCI 340 or BMIS 340 or CSIS 340 or BUSI 417

A comprehensive overview of the essential concepts students must know as they pursue careers in information systems security. Topics include a discussion of the new risks, threats, and vulnerabilities associated with the transformation to a digital world, including a look at how business, government, and individuals operate today. Additionally, information is included from the (ISC)2 SSCP Certified Body of Knowledge and presents a high-level overview of each of the seven domains within the System Security Certified Practitioner certification. (Formerly BMIS 342)
CSIS 344 Information Security Operations 3 Credit Hours
Prerequisites: CSCI 340 or BMIS 340 or CSIS 340
This course will cover the issues and tasks involved in the day to day operation of an Information Security System. The topics included in this course would be: risk management, auditing and monitoring, regulations and compliance, disaster recovery, incident response, key management, information systems hardware and software operation, networks and transmission security, operational security, and cryptography. (Formerly CSCI 352)
Offered: Resident

CSIS 345 Introduction to Linux 3 Credit Hours
Prerequisites: CSCI 112 or CSIS 112 or ISYS 212 or BMIS 212 or CSIS 212
This course introduces students to the usage and administration of the UNIX Operating System. The course will emphasize end-user tools and commands for basic file manipulation, editing, compilation and debugging, as well as special features of the UNIX shell environment. Basic system administration will also be covered. Students will learn through a combination of traditional lectures, hands-on laboratory sessions, and individual assignments. (Formerly CSCI 345)
Offered: Resident and Online

CSIS 351 System Analysis and Design 3 Credit Hours
Prerequisites: CSIS 325
This practical course in information systems development will cover the concepts, skills, methodologies (RAD as well as SDLC), and tools essential for systems analysts to successfully develop information systems. The course will also introduce the student to the Oracle Designer CASE tools, which will be used to assist in the documentation of the analysis and design phases. The course will include a significant amount of team-based activities, therefore issues associated with team interactions and processes will be discussed. (Formerly BMIS 351)

CSIS 352 System Administration 3 Credit Hours
Prerequisites: (BMIS 320 or CSIS 320) or CSIS 345
Principles of system administration activities, applications, operating systems, and domains; analysis of computing applications, infrastructures, architectures, firmware, hardware, disaster recovery, security, and enterprise deployment.

CSIS 354 Integrative Programming and Technologies 3 Credit Hours
Prerequisites: BMIS 320 or CSIS 320
Examines the integration of systems and applications across global businesses; explores programming interfaces, data mapping and exchange, scripting, and programming languages to support the configuration, maintenance, integration, and security of systems.

CSIS 355 Network Architecture and Protocols 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and RSCH 201
A study of how computer networks and internets operate. Investigates networking from the level of data transmission and wiring through the level of application software that provides networking functionality. Topics include: data and packet transmission, LANs and WANs, and internet concepts, including architecture, protocol layering, and application software. (Formerly CSCI 355)
Offered: Resident and Online

CSIS 375 Introduction to Human-Computer Interaction 3 Credit Hours
Prerequisites: BMIS 208 or BMIS 212 or CSIS 208 or CSIS 212 or CSIS 111
This course provides a study and application of the concepts, theory, and practice of effective user interactive computer software, including user-centered design principles, guidelines and evaluation for designing a software product. Cognitive and social aspects of human interaction will be examined in conjunction with elements of technological devices. Human interaction with mobile applications, internet applications, social networking technology, cloud computing, and stand-alone applications will be explored. (Formerly CSCI 375) (Crosslisted with BMIS 375)
Offered: Resident and Online

CSIS 405 Business and Economic Forecasting 3 Credit Hours
Prerequisites: (MATH 201 or BUSI 230) and (ECNC 214 or ECON 214)
Factors producing and study of cyclic movements, analysis of their causes and methods of forecasting as well as study of seasonal, erratic and other movements. (Formerly BMIS 405) (Crosslisted with BUSI 405)

CSIS 408 Web and Mobile Programming 3 Credit Hours
Prerequisites: CSIS 315 or CSCI 316 or CSIS 315 or CSIS 316
This course provides an in-depth look at current enterprise level technologies used for standardized business-to-business communication among client-server applications using Internet Services technologies. It covers modern technologies used as well as new and rising technologies. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 405)
Offered: Resident and Online

CSIS 410 Web Enterprise Technologies 3 Credit Hours
Prerequisites: (BMIS 310 or CSIS 310) and (BMIS 325 or CSIS 325 or CSCI 325 or CSIS 326 or ISYS 325 or CMIS 450)
Provides students with thorough knowledge of current technologies and best practices for developing database driven dynamic websites including database and client side programming. (Formerly BMIS 410)
CSIS 416 AITE Capstone 3 Credit Hours
Prerequisites: CSCI 405 or CSIS 408
This is the capstone course. The student will learn to work in teams in the programming of their capstone project. The teams will give both written and oral presentations to their clients. (Formerly CSCI 416)

CSIS 430 Advanced Networking and Communication Systems 3 Credit Hours
Prerequisites: BMIS 331 or CSIS 331 or CSCI 355 or CSIS 355
This course focuses on routed data networks and the implementation of previously learned business data communications and switched networks concepts, principles and strategies to build a complete data communications network. This course is an in-depth study of technologies and equipment in modern communication networks. The TCP/IP stack and Cisco (or comparable) networking equipment are used to explore methodologies for designing, configuring, and maintaining communication networks. (Formerly BMIS 430)

CSIS 434 Theory of Programming Languages 3 Credit Hours
Prerequisites: CSCI 215 or CSIS 215
A theoretical study of programming languages. Introduction to grammars and parsers. Language design issues and practical applications. (Formerly CSCI 434)
Offered: Resident and Online

CSIS 440 Digital Forensics 3 Credit Hours
Prerequisites: CSIS 341
Students are introduced to the concept of computer crimes and the need for forensics specialists (people who know how to find and follow the evidence). System Forensics, Investigation, and Response begins by examining the fundamentals of system forensics, the role of computer forensics specialists, computer forensic evidence, and application of forensic analysis skills. It also gives an overview of computer crimes, forensic methods, and laboratories. It then addresses the tools, techniques, and methods used to perform computer forensics and investigation. Finally, it explores emerging technologies as well as future directions of this interesting and cutting-edge field. (Formerly BMIS 440)
Offered: Resident

CSIS 443 Operating Systems 3 Credit Hours
Prerequisites: CSCI 342 or CSIS 342
Resource management for processes, files, devices, and memory. Deadlock and recovery procedures. Security issues. (Formerly CSCI 443)
Offered: Resident and Online

CSIS 461 Technical Aspects of Computer Security 3 Credit Hours
Prerequisites: CSCI 355 or CSIS 355
This course introduces the following issues and principles of information system security: security policies and their mechanisms of implementation, methods used by attackers attempting to circumvent these protections, and specific defenses against these attackers.

Offered: Resident and Online

CSIS 463 Modern Cryptography 3 Credit Hours
Prerequisites: MATH 350 and (CSCI 215 or CSIS 215)
Study of modern cryptographic techniques. Covers basic cryptographic concepts, including symmetric key, public key, hash functions, digital signatures, and message authentication codes.
Offered: Resident and Online

CSIS 465 Enterprise Systems and Integration 3 Credit Hours
Prerequisites: CSIS 352 and CSIS 354
Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance.

CSIS 466 Modern Cryptography 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and (MATH 350

Offered: Resident

CSIS 470 Executive Perspectives on E-Commerce Technology 3 Credit Hours
Prerequisites: (BMIS 310 or CMIS 310 or ISYS 310 or CSIS 310) and (BMIS 351 or CMIS 351 or ISYS 351 or CSIS 351)
The capstone course for the Web Technology and Design degree. The course synthesizes material presented in previous courses highlighting the challenge of communication electronic commerce technology issues to non-technically oriented executives. Specific topics will include: models of web business strategy; and non-business web applications in government and education. (Formerly BMIS 470)
Offered: Resident

CSIS 471 Software Engineering 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
Study of the software development process. Topics include: phases of a software project; life-cycle models; metrics; tools; and ethical and professional issues. Participation on team projects is integral. (Formerly CSCI 481)
Registration Restrictions: Senior Status.
Offered: Resident and Online
CSIS 473 IS Project Management 3 Credit Hours

**Prerequisites:** (CMIS 351 or BMIS 351 or ISYS 351 or CSIS 351) and (ECNC 214 or ECON 214 or ENGI 220) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Capstone course for MIS majors. Develops skills in managing the project development cycle in an organization. Topics include systems engineering, cost analysis, risk management, and managing the socio-technological elements of a project. (Formerly BMIS 460)

CSIS 474 Enterprise Systems and Integration 3 Credit Hours

**Prerequisites:** CSIS 352 and CSIS 354 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance. (Formerly CSIS 465)

CSIS 481 CS Capstone I 3 Credit Hours

**Prerequisites:** (CSIS 471 or CSCI 481) and CSIS 326

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Computer Science program. A team solution of a real-world project is required. (Formerly CSCI 482)

Offered: Resident

CSIS 482 CS Capstone II 3 Credit Hours

**Prerequisites:** CSIS 481

The activities in this course provide a hands-on experience that will allow the students to apply the various skills and knowledge they have gained throughout their Computer Science program. Teams of three to four persons will be formed at the beginning of the course. Software is nearly always developed by teams so this kind of experience is crucial for career preparation. A real-world project submitted by a ministry, some component of the university, or an associated business organization will be identified for each team. These projects will be selected to emphasize the software development process, as well as result in a viable product.

Offered: Resident

CSIS 483 Information Systems Capstone 3 Credit Hours

**Prerequisites:** (CMIS 351 or BMIS 351) and (CSIS 473 or BMIS 460)

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Systems program. A team solution of a real-world project is required.

Offered: Resident

CSIS 484 Information Technology Capstone 3 Credit Hours

**Prerequisites:** (CSIS 465 or CSIS 474)

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Technology program. A team solution of a real-world project is required.

Offered: Resident

CSIS 485 Cybersecurity Capstone I 3 Credit Hours

**Prerequisites:** CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471

This course is a comprehensive review of the computer science cybersecurity program and integrates all concepts of software cybersecurity, from a secure software development lifecycle (SDLC) point of view.

Offered: Resident and Online

CSIS 486 Cybersecurity Capstone II 3 Credit Hours

**Prerequisites:** CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471 and CSIS 485

This course is a continuation of the Cybersecurity Capstone I course and serves as the culmination of the computer science cybersecurity program which integrates all concepts of enterprise cybersecurity, from an offensive and defensive point of view.

Offered: Resident and Online

CSIS 495 Directed Research 1-3 Credit Hours

**Prerequisites:** CSCI 215 or CSIS 215

Study of advanced topics in computer science on an individual basis. Periodic meetings with instructor.

Registration Restrictions: Permission of instructor.

Offered: Resident

CSIS 497 Special Topics in Technology 3 Credit Hours

Selected topics in various areas of computer science. May be repeated for credit when topic varies. (Formerly CSCI 497)

Registration Restrictions: Permission of instructor.

Offered: Resident

CSIS 499 Internship 1-6 Credit Hours

Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. (Formerly CSCI 499)

Registration Restrictions: Junior Status, required GPA & permission of Faculty Intern Advisor.

Offered: Resident
Information Systems (A.A.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours 27

1 Courses may also fulfill select general education requirements

All applicable prerequisites must be met

Graduation Requirements

- 60 total hours
- 2.0 Overall grade point average
- Grade of 'C' Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 15 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Business Administration Major (B.S.)

Purpose
Liberty University's business administration program prepares students to be effective leaders in business. The program develops the proficiency in communication and computer application skills needed to work in all areas of business. Cognates have been developed to allow students to specialize in areas of interest.

Program Learning Outcomes
The student will be able to:

1. Apply ethical business practices within the context of the Christian worldview.
2. Evaluate the business environment based upon the knowledge and research of the appropriate literature, and industry best practices.
3. Develop appropriate business strategies, policies, and solutions for sustainable competitive advantage.

Finance Concentration
The student will be able to demonstrate the application of various financial analytical decision-making methods utilized by financial managers.

Financial Planning Concentration
The student will be able to apply financial and decision-making methods used by financial planners.

Healthcare Management Concentration
Evaluate managerial and leadership challenges in healthcare management based upon knowledge of current literature and industry best practices.

Courses

BUSI 101 Introduction to Business 3 Credit Hours

The student will study all of the major aspects of operating a modern business. Emphasis is given to business practice for both small business and large corporate enterprises.

BUSI 200 Enterprise Business Applications and Communications 3 Credit Hours

Prerequisites: MATH 121 or MATH 117 or MATH 108 or MATH 110 or MATH 115 or MATH 122 or MATH 126 or MATH 128 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or MATH 217 or MATH 227 or MATH 250 or BUSI 230 or ACT Math with a score of 21 or (pre2016 SAT Math with a score of 560 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 070)

This course examines the design, selection, implementation and management of enterprise Business solutions. The focus is on identifying critical business processes and envisioning how technology can be developed to provide solutions which generate competitive advantage. Students learn how applying frameworks and strategies around the Business Process and Organization Strategy provide a competitive advantage. Topics include MiS and IT fundamentals, Information Systems Management and Using Enterprise Business Applications for competitive advantage. The course also includes a component for Technical Writing for Information Systems. (Formerly ISYS and CMIS 110) (Crosslisted with BMIS 200)

BUSI 201 Intermediate Business Computer Applications 3 Credit Hours

Prerequisites: INFT 110 or INFT 111 or (INFT Excel Test with a score of 5 and INFT PowerPoint Test with a score of 5 and INFT Word Test with a score of 5)

This laboratory experience offers the student a hands-on introduction to an electronic spreadsheet, a database program, and a presentation program. Upon this foundation, intermediate database and intermediate and advanced spreadsheet skills are taught. Throughout the course, there is an emphasis on the integration of the applications as they are applied to personal and organizational tasks. This course provides the IT foundations that are applicable for all curriculums. (Formerly ISYS/CMIS 201)
BUSI 223 Personal Finance 3 Credit Hours

Budgets, borrowing funds, stock ownership, savings, real estate as investments, and related tax matters are among the topics covered.

BUSI 230 Introduction to Probability and Statistics 3 Credit Hours

Prerequisites: Placement Score-Math with a score of 075 or (CLST 103 and Assessment - Mathematics with a score of 23 and Assessment - Mathematics II with a score of 15) or MATH 108 or MATH 110 or MATH 115 or MATH 121 or MATH 126 or MATH 128 or MATH 131 or MATH 1XX or MATH 2XX

Introduction to descriptive statistics and probability, probability distributions, estimation, tests of hypotheses, chi-square tests, regression analysis, and correlation with applications in business and science. (Crosslisted with MATH 201)

BUSI 240 Organizational Behavior I 3 Credit Hours

This introductory course in organizational behavior integrates the management and behavioral principles, techniques, and concepts associated with the productivity of organizational resources. It focuses on human behavior in organizations and is primarily concerned with improving organizational efficiency and effectiveness through increased understanding of the behavior of people at work.

BUSI 297 Seminar 1-3 Credit Hours

Elective course covering various basic areas common to most businesses and organizations. May be repeated when topics differ. Open to all students; pass/fail graded.

Offered: Resident

BUSI 299 Internship 0 Credit Hours

Directed applicable work experience under supervision of the Director of Business Internships and a business manager/ professional in the student’s area of interest. Application processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

BUSI 300 Business Communications 3 Credit Hours

Essential to all business professionals is a sound understanding of the theories and practice of organizational communication. This dynamic course presents the fundamentals of written, verbal, nonverbal, and technological communication.

BUSI 301 Business Law 3 Credit Hours

Designed to increase the understanding of the American legal system and those legal principles which apply to the business environment. Business organizations, torts, contracts, employment relationships and issues, intellectual property, and international law are among the topics discussed.

Registration Restrictions: Sophomore status.

BUSI 302 Legal and Ethical Issues in Healthcare 3 Credit Hours

Explores legal and ethical issues encountered in the provision and delivery of healthcare products and services. Topics explored include, but are not limited to, introduction to healthcare law and ethics, making ethical decisions, contracts, medical records and informed consent, privacy law, and HIPAA.

BUSI 303 International Business 3 Credit Hours

An introduction to the field of international business. Topics to be covered include: country differences in political economy and culture; cross-border trade and investment; the global monetary system; global strategy; global market; and product development; global operations management; and global human resources management.

BUSI 304 Introduction to Health Policy 3 Credit Hours

Examines procedures of how healthcare policy is developed at the federal and state levels. This course examines policy decisions and related issues that shape the healthcare organization, financing, and implementation of healthcare services and delivery systems. Ethical, social, and political issues that affect the provision of healthcare services will be evaluated.

Offered: Online

BUSI 310 Principles of Management 3 Credit Hours

Management requires a balance between social (people) and technical (quantitative) perspectives, as well as between efficiency and effectiveness. This course emphasizes the application of these perspectives in each of the planning, organizing, leading and controlling functions.

BUSI 311 Introduction to Healthcare Administration 3 Credit Hours

Explores the field of healthcare management related to the global healthcare system. Topics explored include, but not limited to, a historical overview, theoretical foundations, and history and major characteristics of development. Addresses the application of managerial concepts and practices to healthcare organizations exploring healthcare provider types, cost, access and quality of care, and the future of health services delivery.

BUSI 313 Foundations of Project Management 3 Credit Hours

This course introduces the student to the field of modern project management and the fundamental processes of initiating, planning, executing, monitoring, controlling and closing projects. Students will learn the inputs and outputs and the tools and techniques of: defining the project, estimating project times and costs, developing project plans, managing risk, scheduling resources and their costs, reducing project duration, progress and performance measurement and evaluation and project closure. (Previously BUSI 413)
BUSI 320 Corporate Finance 3 Credit Hours
Prerequisites: ACCT 212
A study of the financial forms of business organization, with special attention to the corporation and its advantages and disadvantages; capital stocks and bonds; budgeting; dividend policy; failure and reorganization; financial accounting; and cash flows.

Registration Restrictions: Junior status.

BUSI 321 Money and the Financial System 3 Credit Hours
Prerequisites: ECNC 214 or ECON 214
This course covers the structure and operation of the U.S. and international financial systems, functions of the Federal Reserve, monetary theory, and the impact of monetary policy on financial markets and the economy.

BUSI 323 Financial Analysis and Management in Healthcare 3 Credit Hours
Focused on exploring the concepts of financial management in healthcare this course will explore topics related to the revenue cycle, disbursement, budgeting/forecasting, internal control, financial reporting, and contract management aspects of the healthcare organization. Differences between the goods and service industries will be explored. This course will also survey the pros and cons of a single payer system.

Offered: Online

BUSI 330 Principles of Marketing 3 Credit Hours
The study of the system of activities that constitutes marketing with emphasis on the principles, policies and strategies utilized to identify and satisfy the needs and wants of consumers. The universal application of marketing in all forms of organizations is stressed.

BUSI 331 Marketing Research 3 Credit Hours
Prerequisites: BUSI 330 and (MATH 201 or BUSI 230)
This course will provide students with an overview of qualitative and quantitative marketing research methods. Students will identify and apply appropriate research methods to support evidence-based decision-making.

BUSI 332 Consumer Behavior 3 Credit Hours
Prerequisites: BUSI 330
Students in this course demonstrate their knowledge of consumer acquisition, consumption, and disposal of products and services. Students analyze buyer behavior of individual consumers, business, and governments and evaluate the influence that demographics, popular culture, and subcultures have on consumer behavior.

BUSI 333 Business Analytics I 3 Credit Hours
Prerequisites: BUSI 201 and (BUSI 230 or MATH 201)
This course introduces major topics in business analytics, with an emphasis on descriptive analytical techniques and theory. Students will explore methods of data collection and analysis in gaining an understanding of variation and its impact on the business setting.

Offered: Resident and Online

BUSI 334 Business Analytics II 3 Credit Hours
Prerequisites: BUSI 333
This course continues the exploration of major topics in business analytics, with an emphasis on prescriptive and predictive analytics.

Offered: Resident and Online

BUSI 335 Leading Change 3 Credit Hours
A review of the concepts and practices of planning for and leading effective change. Students will evaluate personal and organizational approaches to change in order to identify requirements, plan and implement change.

Offered: Online

BUSI 336 Introduction to Entrepreneurship 3 Credit Hours
An overview course in the principles of establishing an entrepreneurial venture for either a for-profit enterprise or a non-profit organization.

Registration Restrictions: Sophomore status.

Offered: Resident and Online

BUSI 338 Developing Entrepreneurial Opportunities 3 Credit Hours
Prerequisites: BUSI 336
A course that expands on the principles of how to develop a business opportunity that brings value to the marketspace.

BUSI 341 Database Concepts for Analytics 3 Credit Hours
Prerequisites: BUSI 333
This course will explore the fundamentals of relational databases as they relate to business analytics, including normalization, data modeling, and Structured Query Language to extract meaning from data for decision making. The topics of data quality and integrity will be considered, as well as the impact of big data on analytics and the traditional relational database model.

Offered: Resident and Online

BUSI 342 Human Resource Management 3 Credit Hours
Introduces the student to the human resources/personnel functions. Topics covered include: recruitment, assessment, compensation, motivation, appraisal, development, legal environment, labor relations, employee relations, etc. Emphasis on how managers can deal with and utilize the human resources function.
BUSI 343 Employee and Labor Relations 3 Credit Hours

**Prerequisites:** BUSI 342

A comprehensive study of collective bargaining; the negotiation process and the scope of labor contracts to include the day-to-day administration of contracts; the major substantive issues in bargaining to include their implication for public policy; and the problem of dealing with labor conflict.

**Offered:** Resident

BUSI 344 Management of Human Resources and Health Professionals 3 Credit Hours

**Prerequisites:** BUSI 302 or (BUSI 304 and BUSI 311)

Explores managing human resources in the context of the healthcare organization. Focuses on applying human resource management concepts (i.e. but not limited to: recruitment, compensation, motivation, performance and talent management) in the management of human capital within the healthcare setting.

BUSI 345 Leadership Theory and Practices 3 Credit Hours

An evaluation of the inter-relatedness of the followership and servant leadership is reviewed on how those traits are imperative to be an effective leader.

BUSI 350 Business Information Processing 3 Credit Hours

BUSI 351 System Analysis/Design of Information Systems 3 Credit Hours

BUSI 352 Financial and Retirement Planning 3 Credit Hours

This course is designed to provide an overview of the financial planning process with specific emphasis of retirement planning. Topics discussed will include: client/planner interactions; time value of money applications; personal financial statements development and assessment; cash flow and debt management; asset acquisition; education planning; planning elements of risk management; investment planning; and retirement planning; special needs planning review; integrating planning recommendations; financial planning ethics review; overview of practice management concepts.

**Offered:** Resident and Online

BUSI 354 Estate Planning 3 Credit Hours

Estate Planning focuses on the efficient conservation and transfer of wealth, consistent with the goals of a financial planner’s clients. It is a study of the legal, tax, financial and non-financial aspects of this process, covering topics such as: trusts, wills, probate, advanced directives, charitable giving, wealth transfers, and related taxes.

**Offered:** Resident and Online

BUSI 360 Contemporary Issues in International Business 3 Credit Hours

**Prerequisites:** BUSI 303

An analysis of current global developments and rapid change in areas that have the potential for an impact on the international business environment. Attention is given to the use of techniques for identifying and researching significant issues, extrapolating probable outcomes, and developing strategic responses. Corporate and entrepreneurial perspectives are considered.

BUSI 365 Global Industries and Operations 3 Credit Hours

**Prerequisites:** BUSI 303

An introduction to the organizational and operational dynamics of the various global industries and their rapidly growing importance to the world’s national economies and governments. Various aspects of the industries will be explored.

BUSI 370 Dynamics of the American Automotive Dealership Industry 3 Credit Hours

**Prerequisites:** ACCT 211

An overview course in the Automotive Dealership Management Concentration that provides the foundation for understanding management principles that lead to successful dealership operations.

BUSI 372 Marketing and Sales 3 Credit Hours

**Prerequisites:** BUSI 370

A study of the marketing and sales roles and responsibilities with application in an automotive industry.

BUSI 376 Legal, Finance, and Insurance 3 Credit Hours

**Prerequisites:** BUSI 301 and BUSI 370

A study of the financial impact of automotive dealerships from legal issues, cash flow, accounting principles, and insurance policies. The focus will be from the perspective of (a) the consumer, (b) the dealership, and (c) the industry.

BUSI 380 Principles of Real Estate 3 Credit Hours

**Prerequisites:** BUSI 320

This course provides a comprehensive overview of the principles, practices, legal aspects, and ethical dimensions associated with residential and commercial real estate. This includes ownership and leasing concepts; property rights, property management, appraisals, financing, and land development.

**Offered:** Resident and Online
BUSI 381 Real Estate Law 3 Credit Hours
Prerequisites: BUSI 301
This course covers the legal aspects of residential and commercial real estate, including transaction contracts, titles, mortgages, deeds, zoning, covenants, risk management, conveyances, liens, foreclosures, and ethical issues.
Offered: Online

BUSI 390 Business Common Professional Components 3 Credit Hours
This course is designed to meet the common professional component for the Accreditation Council of Business Schools and Programs (ACBSP). Students in business-related programs need to attain general business competencies such that they may be better suited to understand the business environment. This course allows students to attain the minimal competencies required by ACBSP such that their degrees are accredited as business-related programs. Covers 20 hours of the Common Professional Core.

BUSI 397 Construction Project Supervision Lab 1 Credit Hour
Prerequisites: CRFT 101
Offered: Resident

BUSI 400 Strategic Planning/Business Policy 3 Credit Hours
Prerequisites: BUSI 301 and BUSI 303 and BUSI 310 and BUSI 320 and BUSI 330 and (BUSI 340 or BUSI 240) and BUSI 342
This capstone course for all business majors seeks to integrate the concepts, techniques, and knowledge of all areas of business administration. Its focus is strategic management which is studied in theory and then rigorously applied. This course is designed for final semester seniors.

Registration Restrictions: Senior status (at least 90 credits) and completion of all 300-level Business courses.

BUSI 405 Business and Economic Forecasting 3 Credit Hours
Prerequisites: MATH 201 or BUSI 230
This course covers methods of collecting data, discovering data patterns, and selecting appropriate forecasting techniques. Time series and regression forecasting techniques are introduced.
Offered: Resident

BUSI 409 Non-Profit Management 3 Credit Hours
Management principles and techniques for the administration of a non-profit organization, including churches, charities, hospitals, and government organizations.

BUSI 411 Operations Management 3 Credit Hours
Prerequisites: (MATH 201 or BUSI 230) and BUSI 201 and (BUSI 310 or BUSI 311 or ACCT 311)
A study of the challenges and opportunities facing managers of the operational functions of business, the value added areas where resources are transformed into goods and services. The wide ranging implications and applications of the concept of employee/team driven, customer-centered continuous improvement will be examined, as well as Total Quality Management principles. The study of operations management will involve some complexity as various quantitative management tools are examined and applied.

BUSI 414 Project Management I 3 Credit Hours
Prerequisites: BUSI 313
This course provides focused instruction in the first five (of nine) project management competencies as delineated in the Project Management Institute’s Body of Knowledge (PMBOK): Project Integration Management, Project Scope Management, Project Time Management, Project Cost Management, and Project Quality Management. Students will apply processes to ensure project coordination, plan development processes, project plan execution processes and integrated change control processes.
Offered: Resident

BUSI 415 Project Management II 3 Credit Hours
Prerequisites: BUSI 313
This course provides focused instruction in the final four (of nine) project management competencies as delineated in the Project Management Institute’s Body of Knowledge (PMBOK): Project Human Resource Management, Project Communications Management, Project Risk Management, and Project Procurement Management. The course will provide students with processes to review organizational and human resource structures to develop and manage project teams; identify, analyze, plan for and respond to project risk; identify and acquire goods and services to implement and complete project plans; and, identify stakeholders, plan communications, and distribute information.
Offered: Resident

BUSI 416 Leading Global Projects 3 Credit Hours
Prerequisites: BUSI 313
This course provides instruction in global project management with emphasis on the integration of the interconnected themes of strategic project management, cross-cultural effectiveness, and project leadership.
Offered: Resident

BUSI 417 Studies in Information Security 3 Credit Hours
BUSI 417/CSCI 340/BMIS 340 - Studies in Information Security (3 hours) This course introduces the basic issues and principles of information system security such as security policies, their mechanisms of implementation, means attackers use to circumvent these protections, and defenses against these attackers. (Formerly ISYS 340)
BUSI 418 Research and Evidence Based Practice in Healthcare
3 Credit Hours
Explores the practice of evidence-based management relative to healthcare decision making and support. Topics explored include but not limited to: evolution of evidence-based healthcare, locating and evaluating evidence, developing the capacity of healthcare managers to utilize evidence in decision making, and evidence-based healthcare in the 21st century.

BUSI 419 Management of Quality Improvement and Outcomes
3 Credit Hours
Addresses the manager’s role in improving healthcare quality and outcomes, including clinical and organizational improvement, technology assessment, and quality improvement practices. This course examines how improved work processes lead to quality improvement and value creation in the healthcare organization. Students will explore the contribution of operations research and quality management to improve delivery and production of healthcare services and business processes from the perspective of the healthcare professional.

Offered: Online

BUSI 420 Investments
3 Credit Hours
Prerequisites: BUSI 320
A survey of corporate securities, financial securities, security markets, investment and portfolio analysis and administration. Investment companies, commodity markets and the stock exchange are also examined.

BUSI 421 Insurance Planning/Risk Management/Employee Benefits
3 Credit Hours
This course will cover the concepts and tools used in Insurance Planning, Risk Management and Employee Benefits. All three are important parts of a holistic financial plan.

BUSI 422 Real Estate
3 Credit Hours
Prerequisites: BUSI 301 and BUSI 320
An overview of real estate brokerage, property rights, transfer mechanisms and documents, property evaluation, finance, investments, and property management.

Offered: Resident

BUSI 423 Franchising
3 Credit Hours
Franchising is a major form of business ownership and a strategy for growing ventures. This course examines franchising from both the perspective of the entrepreneur as a franchisee and as a franchisor. Topics will include selecting a franchise, developing a franchised business model, and legal issues associated with the franchised relationship.

BUSI 424 E-Commerce
3 Credit Hours
This course explores how the Internet has revolutionized the buying and selling of goods and services in the marketplace. Topics include: Internet business models, electronic commerce infrastructure, designing on-line storefronts, payment acceptance and security issues, and the legal and ethical challenges of electronic commerce.

BUSI 425 Family Business Management
3 Credit Hours
This course explores the unique personal, interpersonal issues, and business issues associated with the family-owned and managed firm. Topics include challenges and opportunities for family businesses, the dynamics of family interactions within the family business culture, conflict resolution, estate planning, and succession planning.

BUSI 427 Team Dynamics
3 Credit Hours
Prerequisites: BUSI 240 or BUSI 340
The dynamics of building a highly functioning team in order to accomplish a goal. Examination of how to choose team members and how to manage the team to deliver successful results.

Offered: Online

BUSI 428 Strategic Management and Marketing in Healthcare
3 Credit Hours
Prerequisites: BUSI 344 and BUSI 418
Focused on increasing organizational effectiveness and efficiency through strategic planning, students will develop an understanding of the strategic planning process and marketing from a healthcare perspective. Topics explored include but not limited to: importance of strategic planning in healthcare, internal and external environmental assessment, marketing healthcare services, strategy formulation, implementation, and long-term control.

BUSI 429 Healthcare Economics
3 Credit Hours
Explores how principles of economic analysis can be applied to the field of healthcare. This course will explore how healthcare economics is unique through an exploration of healthcare markets (including supply, demand, production, and costs) and how cost benefit analysis is performed when the output presents challenges for measurement.

Offered: Online

BUSI 430 Promotion Strategy
3 Credit Hours
Prerequisites: BUSI 330
This course is open to students who desire to understand the function of Promotion within a company’s Integrated Marketing Communications (IMC) plan. Emphasis is on planning, creating, and evaluating advertising, sales promotion, and publicity strategies to communicate most effectively across the optimum blend of media channels.
BUSI 431 Sales Management and Professional Selling  3 Credit Hours
Prerequisites: BUSI 330
This course presents each component of the sales cycle in a business-to-business selling environment. Students will master models for initiating sales contacts, identifying and defining prospect's needs, and presenting and gaining commitment for a proposed solution.

BUSI 432 Retail Management  3 Credit Hours

BUSI 433 Marketing Management  3 Credit Hours
Prerequisites: BUSI 331
Advanced study of the role and responsibilities of marketing executives. Emphasis will include: analysis of marketing opportunities and problems; planning of objectives and strategies; development of organizational structure, policies, implementation, and control; and evaluation of marketing programs.

Registration Restrictions: Senior Status.

Offered: Resident

BUSI 434 International Business  3 Credit Hours

BUSI 435 Small Business Entrepreneurship  3 Credit Hours
A practical study in the dynamics of establishing, funding, and managing a small new enterprise, or acquiring an existing business using case studies, practical exercises, and class instruction.

Registration Restrictions: Junior/Senior Status.

Offered: Resident and Online

BUSI 436 Digital Marketing in a Virtual World  3 Credit Hours
Prerequisites: BUSI 330
Students explore the principles required to successfully practice marketing in the virtual world of social media and electronic commerce between and among businesses and consumers.

BUSI 437 Global Marketing  3 Credit Hours
Prerequisites: BUSI 330
This course focuses on the basic theories, concepts, and practices of Marketing in a practical and unique way. This course will delve into:

Offered: Online

BUSI 438 Marketing Brand Management  3 Credit Hours
Prerequisites: BUSI 330
Students will learn how an organization's brand provides a broad definition of its purpose, uniqueness, and its package of products and services. Course topics include channel development, merchandising, marketing, and establishing and delivering the brand promise.

Offered: Resident

BUSI 439 Conversion and Optimization  3 Credit Hours
Prerequisites: BUSI 436
This course covers the principles, functions, and techniques of web analytics, site optimization, and conversion strategies related to digital marketing. The information covered in this course will provide students with knowledge of how to successfully reach and influence potential consumers and convert them into customers. The course also covers the financial impact of conversation strategies on the firm.

Offered: Resident

BUSI 440 Compensation Management  3 Credit Hours
Prerequisites: BUSI 342
This course develops the philosophy and fundamental guiding principles for wages and salaries in business institutions. This comprehensive study of compensation management also includes job analysis, administrative job evaluation, basis compensation plans, executive compensation and administrative controls.

Offered: Resident

BUSI 442 Customer Retention Through Digital Marketing  3 Credit Hours
Prerequisites: BUSI 436
The content of this course focuses on digital marketing strategies and techniques necessary for satisfying and retaining customers. In this course, students are presented with information and methods for driving and assessing overall lifetime customer value and resulting financial performance. The course content also encourages students to explore industry trends and their future impact on digital marketing.

BUSI 443 Workforce Planning and Employment  3 Credit Hours
Prerequisites: BUSI 342
This course will focus on recruitment, assessment, selection, placement and appraisal issues and methods necessary to align the organizational workforce with the strategic goals of the organization. The laws and guidelines related to the DOL, INS, EEOC, and other legal enforcement agencies as related to the staffing process will be reviewed.

Offered: Resident

<tbody>
<tr>
<td>BUSI 444</td>
<td>Human Resource Development</td>
<td>3</td>
<td>BUSI 342</td>
<td>This course focuses on the design, implementation, and management of employee orientation, career development, and training programs. Human resource development issues examined include strategic training, needs assessment, theories, program design, evaluation, and training methods as well as career management.</td>
</tr>
<tr>
<td>BUSI 446</td>
<td>Retailing and Category Management</td>
<td>3</td>
<td>BUSI 330</td>
<td>From an economic perspective, retailing, and category management represent anywhere from 25-30% of GDP annually. This course integrates retailing and category management into one course. The category management aspects of this course are derived from retail and supply chain perspectives.</td>
</tr>
<tr>
<td>BUSI 450</td>
<td>Database Management Systems</td>
<td>3</td>
<td></td>
<td></td>
</tr>
<tr>
<td>BUSI 452</td>
<td>Survey Design</td>
<td>3</td>
<td>BUSI 331</td>
<td>This course covers important elements for effective survey and questionnaire design. Students will learn how to plan, structure, and write survey material for meaningful market research giving consideration to ethical and social issues. The course will include topics in research techniques and best practices as well as how to use, act on, and follow-up research.</td>
</tr>
<tr>
<td>BUSI 453</td>
<td>Applied Marketing Analysis</td>
<td>3</td>
<td>BUSI 452</td>
<td>Building on knowledge acquired in marketing research, students will assess environmental market conditions. The course will explore principles used in construction, application, and analysis of market research necessary to exercise good judgement and develop action plans for key decision makers. Students will explore, analyze, and offer recommendations regarding market and consumer research through applied projects.</td>
</tr>
<tr>
<td>BUSI 454</td>
<td>Practical Analytics</td>
<td>3</td>
<td>BUSI 334 and BUSI 341</td>
<td>This course provides a hands-on exploration of current business analytical tools including reporting, visualization, and prediction. Analyses will be considered in a real-world context utilizing a variety of data sets and case studies.</td>
</tr>
<tr>
<td>BUSI 456</td>
<td>Growth Enterprise: Strategy and Planning</td>
<td>3</td>
<td>ACCT 212 and BUSI 336</td>
<td>A course in the principles of managing a funded startup enterprise through the various stages of growth and the principles of leading a team of employees to achieve organizational desired outcomes.</td>
</tr>
<tr>
<td>BUSI 458</td>
<td>Innovating into Industries and Markets</td>
<td>3</td>
<td>BUSI 336 and BUSI 338 and BUSI 456</td>
<td>A course that applies the general concepts of key success factors for establishing entrepreneurial ventures to the unique characteristics of significant industries and marketspaces.</td>
</tr>
<tr>
<td>BUSI 464</td>
<td>International Market Integration and Trade Agreements</td>
<td>3</td>
<td>BUSI 303</td>
<td>This course examines market and economic integration among countries, including the European Union, the North American Free Trade Agreement, Asia-Pacific Economic Cooperation, Association of Southeast Asian Nations and others. Major emerging market economies will also be surveyed, along with the challenges and opportunities these present to the international business firm.</td>
</tr>
<tr>
<td>BUSI 465</td>
<td>Export Management Strategy</td>
<td>3</td>
<td>BUSI 303</td>
<td>An overview of international trade theories, policies, instruments and documents that affect the success of U.S. exports. Students are introduced to various resources, private organizations, and government agencies designed to facilitate American export businesses. The tools and methods for establishing a small export business model are examined.</td>
</tr>
<tr>
<td>BUSI 472</td>
<td>Organizational Ethics</td>
<td>3</td>
<td></td>
<td>An analysis of the foundation of ethical behavior in business, including an introduction to social graces and the importance of professional image. Emphasis is placed on a comparison between Judeo-Christian and secular ethical paradigms.</td>
</tr>
</tbody>
</table>
BUSI 474 Fixed Operations 3 Credit Hours

Prerequisites: ACCT 212 and BUSI 370

A detailed study of fixed operations within an organization and how they interact with other organizational departments. The focus will be from the perspective of (a) customers, (b) employees, and (c) managers.

Offered: Resident and Online

BUSI 476 Variable Operations 3 Credit Hours

Prerequisites: BUSI 370 and ACCT 212

A detailed study of variable operations within an organization and how they interact with other organizational departments. The focus will be from the perspective of (a) customers, (b) employees, and (c) managers.

BUSI 478 Leadership Skills for Franchise Owner 3 Credit Hours

Prerequisites: BUSI 372 and BUSI 474 and BUSI 476

Students will combine what they have learned in the cognate with the strategic perspective of an owner in terms of moving the organization forward into the future to satisfy customer needs and to lead employees in a successful enterprise.

BUSI 480 Principles of Property Management 3 Credit Hours

Prerequisites: BUSI 380

This course provides a comprehensive overview of the property management industry as it relates to residential, multi-family and commercial properties. This includes the interactions between owners, tenants and property managers as well as associated business and tax implications.

Offered: Online

BUSI 481 Real Estate Investment Analysis 3 Credit Hours

Prerequisites: BUSI 380

This course explores real estate valuation and investment transactions through the lens of capital budgeting techniques. This includes general cash flow considerations and pertinent tax implications associated with real estate investments.

Offered: Online

BUSI 482 Real Estate Valuation 3 Credit Hours

Prerequisites: BUSI 380

This course provides comprehensive instruction related to the valuation and appraisal techniques used for residential and income-producing properties, including the comparable sales approach, the cost approach, and the income approach.

Offered: Online

BUSI 489 Capstone in Financial Planning 3 Credit Hours

Prerequisites: BUSI 352 and BUSI 320 and BUSI 354 and BUSI 420 and BUSI 421 and ACCT 401

This course will allow the student to create a written financial plan using the knowledge acquired from previous course work in the financial planning classes. The student will use a software package to incorporate all the elements of a successful financial plan for a case study client.

Offered: Resident and Online

BUSI 490 Capstone 3 Credit Hours

Prerequisites: BUSI 320 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This course serves as the capstone for all business administration majors. Students integrate the concepts, techniques, and knowledge of the common professional components (CPC) of business administration. Course topics include a review of the CPC, strategic management theory/practices, and business analysis tools. Additionally, the course requires students to undertake a research project that is discipline-specific to strategic management and business decisions within a business environment.

Registration Restrictions: Senior status and should be taken in the last semester of coursework.

Offered: Resident

BUSI 493 Entrepreneur Internship 3 Credit Hours

Prerequisites: ACCT 209 and BUSI 336 and BUSI 338

This course covers both cognitive and experiential aspects of entrepreneurship. The prospective entrepreneur will be provided opportunities to develop the skills and tools necessary to effectively analyze opportunities in today's market. The internship will be a supervised field experience at an approved location.

Offered: Resident

BUSI 494 Healthcare Administration Capstone 3 Credit Hours

Prerequisites: BUSI 323 and BUSI 428 and HLTH 485

This capstone course for all healthcare administration majors seeks to integrate the concepts, techniques, and knowledge of all areas of healthcare administration. Its focus is strategic management which is studied in theory and then rigorously applied. This course is designed for final semester seniors.

Offered: Online
BUSI 495 Directed Research 3 Credit Hours

Designed to encourage students to broaden their understanding of contemporary business and to give them an opportunity to propose, conduct and report a major piece of individual research in his area of specialization.

Registration Restrictions: Written permission of the chairman of the department in area of concentration and consent of instructor.

Offered: Resident

BUSI 497 Special Topics in Business 3 Credit Hours

Topics will vary and are offered on demand. Course may be repeated for credit when topics differ.

Offered: Resident

BUSI 498 Business Practicum 3 Credit Hours

A practical experience provided in an automotive dealership with a minimum of 400 hours per practicum section.

BUSI 499 Business Internship 1-6 Credit Hours

A selected directed practical work experience under the supervision of the Director of the Business Internship program and a business manager/professional in the student's area of career interest. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Junior or Senior standing and required GPA.

Business Administration (B.S.) - Automotive Dealership Management - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

All applicable prerequisites must be met

### Graduation Requirements

- 123 Total Hours
- 2.0 Overall grade point average
- 30.75 Hours must be upper-level courses (300-400 level)
- Grade of 'C' Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 30.75 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date
- CSER All requirements must be satisfied before a degree will be awarded
Business Minors

Accounting Minor
Program Learning Outcomes
The student will be able to:

1. Demonstrate competence in basic accounting procedures and principles.
2. Communicate effectively using appropriate research style and methods.

Business Minor
Program Learning Outcomes
The student will be able to:

1. Demonstrate competence in core business principles and strategies.
2. Communicate effectively using appropriate research style and methods.

Information Security Minor
Purpose
The purpose of the Information Security Minor is to provide the student with an awareness of the threats to and vulnerabilities of our corporate and national security information systems, as well as develop the skills needed to design, execute, and evaluate information security policies, procedures and practices.

Program Learning Outcome
The student will be able to design and operate the policies, procedures and practices of an information security system.

Entrepreneurship Minor
Program Learning Outcomes
The student will be able to analyze entrepreneurial principles and strategies.

Programs of Study

Delivery Format: Residential and Online
• Accounting Minor - Online (p. 591)
• Accounting Minor - Resident (p. 591)
• Business Minor - Online (p. 591)
• Business Minor - Resident (p. 592)
• Information Security Minor - Online (p. 592)
• Information Security Minor - Resident (p. 593)
• Information Systems Minor - Online (p. 593)
• Information Systems Minor - Resident (p. 593)

Delivery Format: Residential Only
• Computer Science Minor - Resident (p. 592)
• Entrepreneurship Minor - Resident (p. 592)

Accounting Minor - Online
Important: This minor plan is effective for those starting in fall 2019 through summer 2020. This minor plan will remain in effect for students who do not break enrollment or who do not change minors.

• 15 total hours

• 50% of the minor must be taken through Liberty University

• Minimum grade of 'C' required for all upper-level courses in the Minor

**Computer Science Cybersecurity Major (B.S.)**

**Purpose**

The Computer Science Cybersecurity major has the purpose of developing Christ-centered men and women with the values, knowledge, and skills essential to impact computing-related disciplines in tomorrow's world, including Cybersecurity. Students are exposed to the computer science core body of knowledge from a Christian worldview. Equipped with a firm foundation in algorithms and problem solving, they learn to analyze problems and design, implement, and test software solutions in a secure manner. Students also develop a strong background in mathematics to cultivate their reasoning abilities and manage advanced topics such as modern cryptography. Faculty help students prepare for a lifetime of service while encouraging undergraduate research and effective application of technology from a Christian worldview.

**Program Learning Outcomes**

The student will be able to:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.
7. Apply security principles and practices to the environment, hardware, software, and human aspects of a system.
8. Analyze and evaluate systems with respect to maintaining operations in the presence of risks and threats.
9. Conduct best practices in computer science while maintaining a Christian worldview.

Program of Study

Delivery Format: Online Only

- Computer Science Cybersecurity (B.S.) - Online (p. 600)

Career Opportunities

- Secure Developer
- Reverse Engineer
- Malware Analyst
- Threat Hunter
- Security Researcher

Courses

CSIS 100 Introduction to Information Sciences and Systems

Prerequisites: MATH 108 or MATH 110 or MATH 115 or MATH 117 or MATH 121 or MATH 122 or MATH 126 or MATH 128 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 21 or (pre2016post1995)SAT Math with a score of 530 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 070

This course examines the design, selection, implementation and management of enterprise Business solutions. The focus is on identifying critical business processes and envisioning how technology can be developed to provide solutions which generate competitive advantage. Students learn how applying frameworks and strategies around the Business Process and Organization Strategy provide a competitive advantage. The course also includes a component for Technical Writing for Information Systems. (Formerly BMIS 200)

CSIS 110 Introduction to Computing Sciences

Prerequisites: MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 131 or MATH 132 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 25 or (pre2016post1995)SAT Math with a score of 570 or SAT Section Math with a score of 590 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 075

A breadth-first introduction to the computing disciplines, with an emphasis on computer ethics and how computing technology impacts the world. Topics include: computing history; discrete mathematics; computer architecture and organization; algorithm design; languages; compilers; operating systems; applications; networks; databases; intellectual property; privacy; free speech; social consequences; computer crime; and codes of conduct. (Formerly CSCI 110)

Offered: Resident and Online

CSIS 111 Introduction to Programming

Prerequisites: (CSCI 110 or CSIS 110 or (ENGR 110

Introduction to structured programming and algorithms with an object-oriented language. Topics include input/ output, flow of control, functions, and an introduction to software engineering. Programming assignments are required. (Formerly CSCI 111)

CSIS 112 Advanced Programming

Prerequisites: CSCI 111 or CSIS 111

Continuation of CSIS 111. Further development of discipline in program design, especially for larger programs. Introduction of pointers, simple data structures, recursion, internal sort/search methods. Programming assignments are required. (Formerly CSCI 112)

CSIS 208 Application Programming

Prerequisites: (CSIS 100 or CSIS 110) and (MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450) or BUSI 230

Development of computer and programming skills, problem solving methods, and selected applications. This course provides a broad-based introduction to programming in Visual Basic. Students will learn how to build a program from the design phase all the way through to delivery. (Formerly BMIS 208)
CSIS 209 C# Programming 3 Credit Hours
Prerequisites: BMIS 208 or CSIS 208 or CSCI 111 or CSIS 111 or ISYS 211 or CMIS 211 or CSIS 212 or BMIS 212 or CMIS 212 or ISYS 212
Development of computer and programming skills using the C# language. Students will learn how to use C# to develop stand-alone applications in an IDE. Advanced concepts, such as database connectivity and web applications will also be examined. (Formerly BMIS 209)
Offered: Resident and Online

CSIS 212 Object-Oriented Programming 3 Credit Hours
Prerequisites: CSIS 110 or CSIS 208 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450
A study of the general-purpose, secure, object-oriented, portable programs. This course prepares students to program stand-alone applications. It will cover features such as programming concepts, data types, operators, flow control statements, objects, classes, methods, arrays, and strings. The concept of object-oriented programming is emphasized. (Formerly BMIS 212)

CSIS 215 Algorithms and Data Structures 3 Credit Hours
Prerequisites: (CSCI 112 or CSIS 112) and MATH 250
Study of data structures such as linked lists, stacks, queues, trees, and graphs. Algorithms for manipulating such structures will be introduced and analyzed. Static and dynamic memory allocation. Access methods for sorting/searching, such as hashing and tree searching. (Formerly CSCI 215)
Offered: Resident and Online

CSIS 244 Assembly Language 3 Credit Hours
Prerequisites: CSCI 111 or CSIS 111
A detailed development of the tools and techniques of assembly language on a particular computing system. Several programming assignments are required. (Formerly CSCI 244)
Offered: Resident

CSIS 299 Internship 0 Credit Hours
Application procedures processed through the Career Center. Must apply semester prior to internship. (Previously BMIS/CSCI 299)
Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.
Offered: Resident

CSIS 310 Web Architecture and Development 3 Credit Hours
Prerequisites: CSIS 111 or CSIS 208 or CSIS 212
Provides students with thorough knowledge of the foundations of web architecture, current technologies utilized in the development of a web site, and criteria for assessing the usability of web sites. (Formerly CSCI 310) (Crosslisted with BMIS 310)

CSIS 312 Advanced Object-Oriented Programming 3 Credit Hours
Prerequisites: CMIS 212 or CSIS 212 or ISYS 212 or BMIS 212
In-depth study of the advanced features of Java, with an emphasis on the 'why' as well as the 'how to' of programming in the Java language. This course also prepares students for the Sun Certified Java Programmer exam. (Formerly BMIS 312)
Offered: Resident

CSIS 315 Client-Side Programming 3 Credit Hours
Prerequisites: (CSIS 212 or BMIS 212) or (CSIS 112 or CSCI 112)
This course provides an introduction to the various languages and tools used in client-side programming. The fundamentals of client-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 315)
Offered: Resident and Online

CSIS 316 Server-Side Programming 3 Credit Hours
Prerequisites: CSIS 112 or CSIS 212
This course provides an introduction to the various languages and tools used in server-side programming. The fundamentals of server-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 316)
Offered: Resident and Online

CSIS 320 IS Hardware and Software 3 Credit Hours
Prerequisites: (CSCI 110 or (CSIS 110 or (BMIS 200 or (CSIS 100
Emphasis is placed on the role of the computer in information processing, including the design of computer hardware and operating systems, application programming, data storage, network and client/server concepts, and systems development life cycle. (Formerly BMIS 320)
CSIS 325 Database Management Systems 3 Credit Hours

Prerequisites: (MATH 201 or BUSI 230) and (BMIS 212 or CSIS 212 or BMIS 208 or CSIS 208)

The study of relational database architecture, design, access, administration and implementation in the context of various organizational environments. The course includes issues of data normalization, standard queries, and the use of popular relational and object technologies for building business-oriented applications. Assigned projects will provide hands-on experience with industry leading SQL and RDBMS tools and ER CASE tools currently popular in business and government settings. (Formerly BMIS 325)

CSIS 326 Database System Concepts 3 Credit Hours

Prerequisites: (CSIS 215 or CSCI 215) and (MATH 211 or ENGR 210)

The study of database management systems, database architecture, design, queries, applications, administration and implementation. The course will focus on data normalization, SQL (queries), and the use of relational technology for building database applications. Projects will be assigned to provide hands-on experience with the SQL language and relational database management software packages. (Formerly CSCI 325).

Offered: Resident

CSIS 327 Introduction to Oracle 3 Credit Hours

Prerequisites: BMIS 325 or CSIS 325 or ISYS 325 or CMIS 450

This course introduces the fundamentals of database design using an Oracle platform. Database administration will be introduced as well as the basic concepts of data manipulation in an Oracle environment. (Formerly BMIS 326)

CSIS 328 Advanced Oracle 3 Credit Hours

Prerequisites: BMIS 326 or CSIS 327

This course introduces the advanced topics of database administration in Oracle. Multi-dimensional databases for Business Intelligence applications will be examined as well. (Formerly BMIS 327)

Offered: Resident

CSIS 330 Business Data Communication Systems 3 Credit Hours

Business Data Communications. The study of the movement of information (data) from one device to another by means of electrical, optical, radio or satellite transmission systems. This course will introduce the architecture, concepts, terminology, design, and management issues related to the modern environment of networking and data communications. Various types of networks and communication systems, protocols, regulatory issues and policies will be explored. (Formerly BMIS 330)

CSIS 331 Networks 3 Credit Hours

Prerequisites: CSIS 330

Building on the foundational knowledge of the 330 course, this is a study in corporate data networking. This course primarily focuses on switched networks (wired and wireless) with hands on work on setting up and operating a switched network. Routed networks fundamentals and concepts will be introduced to prepare students for careers in networks operations and the follow-on advanced networks class. (Formerly BMIS 331)

CSIS 335 Network Security 3 Credit Hours

Prerequisites: BMIS 330 or CSIS 330 or ISYS 330 or CMIS 330

A study of the control of unwanted intrusions into, use of, or damage to a business’ computer network. This course will cover elements that prevent unwanted activities in an efficient and cost effective manner. This study will start with a focus on the business challenges and threats network professionals face in their day to day operations. It explores the nature and intent of hackers and defines preventative measures such as Intrusion Detection Systems, firewalls, and virtual private networks. (Formerly BMIS 335)

CSIS 340 Studies in Information Security 3 Credit Hours

This course introduces the basic issues and principles of information system security such as security policies, their mechanisms of implementation, means attackers use to circumvent these protections, and defenses against these attackers. (Formerly CSCI 340) (Crosslisted with BMIS 340 and BUSI 417)

CSIS 341 Information Security Planning 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340

This course will deal with the proper planning for and initial implementation of an Information Security program. The topics included would be: security planning and policies, risk analysis, program accreditation, systems lifecycle management, contingency planning, physical security measures, personal security practices and procedures, software security, network security, administrative controls, crypto security. (Formerly CSCI 351) (Crosslisted with BMIS 341)

CSIS 342 Computer Architecture and Organization 3 Credit Hours

Prerequisites: CSIS 215 or CSCI 215

Introduction to architecture and organization of computer systems. Data and instruction representations. Arithmetic and logical operations. Processor and memory implementations. (Formerly CSCI 342)

Offered: Resident and Online

</tbody>
</table>
CSIS 410 Web Enterprise Technologies 3 Credit Hours

Prerequisites: (BMIS 310 or CSIS 310) and (BMIS 325 or CSIS 325 or CSCI 326 or ISYS 325 or CMIS 450)

Provides students with thorough knowledge of current technologies and best practices for developing database driven dynamic websites including database and client side programming. (Formerly BMIS 410)

CSIS 416 AITE Capstone 3 Credit Hours

Prerequisites: CSCI 405 or CSIS 408

This is the capstone course. The student will learn to work in teams in the programming of their capstone project. The teams will give both written and oral presentations to their clients. (Formerly CSCI 416)

CSIS 430 Advanced Networking and Communication Systems 3 Credit Hours

Prerequisites: BMIS 331 or CSIS 331 or CSCI 355 or CSIS 355

This course focuses on routed data networks and the implementation of previously learned business data communications and switched networks concepts, principles and strategies to build a complete data communications network. This course is an in-depth study of technologies and equipment in modern communication networks. The TCP/IP stack and Cisco (or comparable) networking equipment are used to explore methodologies for designing, configuring, and maintaining communication networks. (Formerly BMIS 430)

CSIS 434 Theory of Programming Languages 3 Credit Hours

Prerequisites: CSCI 215 or CSIS 215

A theoretical study of programming languages. Introduction to grammars and parsers. Language design issues and practical applications. (Formerly CSCI 434)

Offered: Resident and Online

CSIS 440 Digital Forensics 3 Credit Hours

Prerequisites: CSIS 341

Students are introduced to the concept of computer crimes and the need for forensics specialists (people who know how to find and follow the evidence). System Forensics, Investigation, and Response begins by examining the fundamentals of system forensics, the role of computer forensics specialists, computer forensic evidence, and application of forensic analysis skills. It also gives an overview of computer crimes, forensic methods, and laboratories. It then addresses the tools, techniques, and methods used to perform computer forensics and investigation. Finally, it explores emerging technologies as well as future directions of this interesting and cutting-edge field. (Formerly BMIS 440)

Offered: Resident

CSIS 443 Operating Systems 3 Credit Hours

Prerequisites: CSCI 342 or CSIS 342

Resource management for processes, files, devices, and memory. Deadlock and recovery procedures. Security issues. (Formerly CSCI 443)

Offered: Resident and Online

CSIS 461 Technical Aspects of Computer Security 3 Credit Hours

Prerequisites: CSCI 355 or CSIS 355

This course introduces the following issues and principles of information system security policies and their mechanisms of implementation, methods used by attackers attempting to circumvent these protections, and specific defenses against these attackers.

Offered: Resident and Online

CSIS 463 Modern Cryptography 3 Credit Hours

Prerequisites: MATH 350 and (CSCI 215 or CSIS 215)

Study of modern cryptographic techniques. Covers basic cryptographic concepts, including symmetric key, public key, hash functions, digital signatures, and message authentication codes.

Offered: Resident and Online

CSIS 465 Enterprise Systems and Integration 3 Credit Hours

Prerequisites: CSIS 352 and CSIS 354

Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance.

CSIS 466 Modern Cryptography 3 Credit Hours

Prerequisites: (CSCI 215 or CSIS 215) and (MATH 350)

Offered: Resident

CSIS 470 Executive Perspectives on E-Commerce Technology 3 Credit Hours

Prerequisites: (BMIS 310 or CMIS 310 or ISYS 310 or CSIS 310) and (BMIS 351 or CMIS 351 or ISYS 351 or CSIS 351)

The capstone course for the Web Technology and Design degree. The course synthesizes material presented in previous courses highlighting the challenge of communication electronic commerce technology issues to non-technically oriented executives. Specific topics will include: models of web business strategy; and non-business web applications in government and education. (Formerly BMIS 470)

Offered: Resident
CSIS 471 Software Engineering 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and (Rsch 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
Study of the software development process. Topics include: phases of a software project; life-cycle models; metrics; tools; and ethical and professional issues. Participation on team projects is integral. (Formerly CSCI 481)
Registration Restrictions: Senior Status.
Offered: Resident and Online

CSIS 473 IS Project Management 3 Credit Hours
Prerequisites: (CMIS 351 or BMIS 351 or ISYS 351 or CSIS 351) and (ECNC 214 or ECON 214 or ENGI 220) and (Rsch 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
Capstone course for MIS majors. Develops skills in managing the project development cycle in an organization. Topics include systems engineering, cost analysis, risk management, and managing the socio-technological elements of a project. (Formerly BMIS 460)

CSIS 474 Enterprise Systems and Integration 3 Credit Hours
Prerequisites: CSIS 352 and CSIS 354 and (Rsch 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance. (Formerly CSIS 465)

CSIS 481 CS Capstone I 3 Credit Hours
Prerequisites: (CSIS 471 or CSCI 481) and CSIS 326
A hands-on experience that requires students to apply the skills and knowledge gained throughout the Computer Science program. A team solution of a real-world project is required. (Formerly CSCI 482)
Offered: Resident

CSIS 482 CS Capstone II 3 Credit Hours
Prerequisites: CSIS 481
The activities in this course provide a hands-on experience that will allow the students to apply the various skills and knowledge they have gained throughout their Computer Science program. Teams of three to four persons will be formed at the beginning of the course. Software is nearly always developed by teams so this kind of experience is crucial for career preparation. A real-world project submitted by a ministry, some component of the university, or an associated business organization will be identified for each team. These projects will be selected to emphasize the software development process, as well as result in a viable product.
Offered: Resident

CSIS 483 Information Systems Capstone 3 Credit Hours
Prerequisites: (CSIS 351 or BMIS 351) and (CSIS 473 or BMIS 460)
A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Systems program. A team solution of a real-world project is required.
Offered: Resident

CSIS 484 Information Technology Capstone 3 Credit Hours
Prerequisites: (CSIS 465 or CSIS 474)
A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Technology program. A team solution of a real-world project is required.
Offered: Resident

CSIS 485 Cybersecurity Capstone I 3 Credit Hours
Prerequisites: CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471
This course is a comprehensive review of the computer science cybersecurity program and integrates all concepts of software cybersecurity, from a secure software development lifecycle (SDLC) point of view.
Offered: Resident and Online

CSIS 486 Cybersecurity Capstone II 3 Credit Hours
Prerequisites: CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471 and CSIS 485
This course is a continuation of the Cybersecurity Capstone I course and serves as the culmination of the computer science cybersecurity program which integrates all concepts of enterprise cybersecurity, from an offensive and defensive point of view.
Offered: Resident and Online

CSIS 495 Directed Research 1-3 Credit Hours
Prerequisites: CSCI 215 or CSIS 215
Study of advanced topics in computer science on an individual basis. Periodic meetings with instructor.
Registration Restrictions: Permission of instructor.
Offered: Resident

CSIS 497 Special Topics in Technology 3 Credit Hours
Selected topics in various areas of computer science. May be repeated for credit when topic varies. (Formerly CSCI 497)
Registration Restrictions: Permission of instructor.
Offered: Resident
Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. (Formerly CSCI 499)

Registration Restrictions: Junior Status, required GPA & permission of Faculty Intern Advisor.

Offered: Resident

Computer Science Cybersecurity (B.S.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Courses may also fulfill select general education requirements
2 Minimum grade of ‘C’ required
3 Choose from BIOL 101 Principles of Biology (3 c.h.) and BIOL 103 Principles of Biology Laboratory (1 c.h.), or PHSC 210 Elements of Earth Science (3 c.h.) and PHSC 211 Elements of Earth Science Lab (1 c.h.), or any other Lab Science Course and its associated Lab
4 Minimum of 12 credits from any CSIS course not already required in the degree, or any ENGx (Engineering) course
5 Internship (CSIS 399 (c.h.) or CSIS 499 Internship (1-6 c.h.)) is strongly recommended

All applicable prerequisites must be met

Graduation Requirements

- 121 Total Hours
- 2.0 Overall grade point average
- 30.25 Hours must be upper-level courses (300-400 level)
- Grade of ‘C’ Minimum required for all courses in the major, quantitative studies, lab science, and technical electives
• 50% Of major taken through Liberty University
• 30.25 Hours must be completed through Liberty University
• Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Computer Science Major (B.S.)

Purpose
The Computer Science (CS) major is offered by the School of Business with the purpose of developing Christ-centered men and women with the values, knowledge, and skills essential to impact computing-related disciplines in tomorrow’s world.

Students are exposed to the computer science core body of knowledge from a Christian worldview. Equipped with a firm foundation in algorithms and problem solving, they learn to analyze problems and design, implement, and test software solutions. Students also develop a strong background in mathematics to cultivate their reasoning abilities. Faculty help students prepare for a lifetime of service while encouraging undergraduate research and effective application of technology from a Christian worldview.

Program Educational Objectives
Our goal is, within a few years of graduating, our Computer Science students will be able to:

1. Demonstrate a sound understanding of the fundamentals principles and practices of computer science necessary for employment and graduate studies.
2. Apply computer science principles and practices to identify and document requirements, develop designs, as well as implement and validate solutions for computing systems of varying levels of complexity.
3. Establish a sense of continuous life-long learning and adopting new technologies where appropriate.
4. Develop skills for working in teams; communicating technical information effectively in both oral and written forms; engaging in creative and critical thinking; gaining and applying business knowledge; building leadership skills.
5. Display the Christian principles that are the basis for their professional ethics and behavior.

Program Learning Outcomes
The student will be able to:

1. Apply knowledge of computing and mathematics appropriate to the discipline.
2. Analyze a problem, and identify and define the computing requirements appropriate to its solution.
3. Design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
4. Function effectively on teams to accomplish a common goal.
5. Demonstrate an understanding of professional, ethical, legal, security and social issues and responsibilities.
6. Communicate effectively with a range of audiences.
7. Analyze the local and global impact of computing on individuals, organizations, and society.
8. Recognize the need for and an ability to engage in continuing professional development.
9. Use current techniques, skills, and tools necessary for computing practice.
10. Apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
11. Apply design and development principles in the construction of software systems of varying complexity.

Programs of Study

Delivery Format: Residential Only

• Computer Science (B.S.) - Cyber Security - Resident (p. 607)
• Computer Science (B.S.) - General - Resident (p. 608)
• Computer Science (B.S.) - Software Engineering - Resident (p. 610)
• Computer Science (B.S.) - Web & Mobile Programming - Resident (p. 611)

Career Opportunities

• Computer Engineers
• Computer Programmers
• Computer Scientists
• Database Administrators
• Operations Research
• Systems Analysts
• Teaching in Private Schools & Public Schools

Courses

CSIS 100 Introduction to Information Sciences and Systems  
3 Credit Hours

Prerequisites: MATH 108 or MATH 110 or MATH 115 or MATH 117 or MATH 121 or MATH 122 or MATH 125 or MATH 130 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 21 or (pre2016 post1995)SAT Math with a score of 530 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 070

This course examines the design, selection, implementation and management of enterprise Business solutions. The focus is on identifying critical business processes and envisioning how technology can be developed to provide solutions which generate competitive advantage. Students learn how applying frameworks and strategies around the Business Process and Organization Strategy provide a competitive advantage. The course also includes a component for Technical Writing for Information Systems. (Formerly BMIS 200)
CSIS 110 Introduction to Computing Sciences 3 Credit Hours

**Prerequisites:** MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 131 or MATH 132 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 25 or (pre2016 post1995)SAT Math with a score of 570 or SAT Section Math with a score of 590 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 075

A breadth-first introduction to the computing disciplines, with an emphasis on computer ethics and how computing technology impacts the world. Topics include: computing history; discrete mathematics; computer architecture and organization; algorithm design; languages; compilers; operating systems; applications; networks; databases; intellectual property; privacy; free speech; social consequences; computer crime; and codes of conduct. (Formerly CSCI 110)

**Offered:** Resident and Online

CSIS 111 Introduction to Programming 3 Credit Hours

**Prerequisites:** (CSCI 110 or CSIS 110 or ENGR 110

Introduction to structured programming and algorithms with an object-oriented language. Topics include input/ output, flow of control, functions, and an introduction to software engineering. Programming assignments are required. (Formerly CSCI 111)

CSIS 112 Advanced Programming 3 Credit Hours

**Prerequisites:** CSCI 111 or CSIS 111

Continuation of CSIS 111. Further development of discipline in program design, especially for larger programs. Introduction of pointers, simple data structures, recursion, internal sort/search methods. Programming assignments are required. (Formerly CSCI 112)

CSIS 208 Application Programming 3 Credit Hours

**Prerequisites:** (CSCI 100 or CSIS 110) and (MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450) or BUSI 230

Development of computer and programming skills, problem solving methods, and selected applications. This course provides a broad-based introduction to programming in Visual Basic. Students will learn how to build a program from the design phase all the way through to delivery. (Formerly BMIS 208)

CSIS 209 C# Programming 3 Credit Hours

**Prerequisites:** BMIS 208 or CSIS 208 or CSCI 111 or CSIS 111 or ISYS 211 or CMIS 211 or CSIS 212 or BMIS 212 or CMIS 212 or ISYS 212

Development of computer and programming skills using the C# language. Students will learn how to use C# to develop stand-alone applications in an IDE. Advanced concepts, such as database connectivity and web applications will also be examined. (Formerly BMIS 209)

**Offered:** Resident and Online

CSIS 212 Object-Oriented Programming 3 Credit Hours

**Prerequisites:** CSIS 110 or CSIS 208 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450

A study of the general-purpose, secure, object-oriented, portable programs. This course prepares students to program stand-alone applications. It will cover features such as programming concepts, data types, operators, flow control statements, objects, classes, methods, arrays, and strings. The concept of object-oriented programming is emphasized. (Formerly BMIS 212)

CSIS 215 Algorithms and Data Structures 3 Credit Hours

**Prerequisites:** (CSCI 112 or CSIS 112) and MATH 250

Study of data structures such as linked lists, stacks, queues, trees, and graphs. Algorithms for manipulating such structures will be introduced and analyzed. Static and dynamic memory allocation. Access methods for sorting/searching, such as hashing and tree searching. (Formerly CSCI 215)

**Offered:** Resident and Online

CSIS 244 Assembly Language 3 Credit Hours

**Prerequisites:** CSCI 111 or CSIS 111

A detailed development of the tools and techniques of assembly language on a particular computing system. Several programming assignments are required. (Formerly CSCI 244)

**Offered:** Resident

CSIS 299 Internship 0 Credit Hours

Application procedures processed through the Career Center. Must apply semester prior to internship. (Previously BMIS/CSCI 299)

**Registration Restrictions:** Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

**Offered:** Resident
CSIS 310 Web Architecture and Development 3 Credit Hours

**Prerequisites:** CSIS 111 or CSIS 208 or CSIS 212

Provides students with thorough knowledge of the foundations of web architecture, current technologies utilized in the development of a web site, and criteria for assessing the usability of web sites. (Formerly CSCI 310) (Crosslisted with BMIS 310)

CSIS 312 Advanced Object-Oriented Programming 3 Credit Hours

**Prerequisites:** CMIS 212 or CSIS 212 or ISYS 212 or BMIS 212

In-depth study of the advanced features of Java, with an emphasis on the 'why' as well as the 'how to' of programming in the Java language. This course also prepares students for the Sun Certified Java Programmer exam. (Formerly BMIS 312)

**Offered:** Resident

CSIS 315 Client-Side Programming 3 Credit Hours

**Prerequisites:** (CSIS 212 or BMIS 212) or (CSIS 112 or CSCI 112)

This course provides an introduction to the various languages and tools used in client-side programming. The fundamentals of client-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 315)

**Offered:** Resident and Online

CSIS 316 Server-Side Programming 3 Credit Hours

**Prerequisites:** CSIS 112 or CSIS 212

This course provides an introduction to the various languages and tools used in server-side programming. The fundamentals of server-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 316)

**Offered:** Resident and Online

CSIS 320 IS Hardware and Software 3 Credit Hours

**Prerequisites:** (CSCI 110 or (CSIS 110 or (BMIS 200 or (CSIS 100

Emphasis is placed on the role of the computer in information processing, including the design of computer hardware and operating systems, application programming, data storage, network and client/server concepts, and systems development life cycle. (Formerly BMIS 320)

CSIS 325 Database Management Systems 3 Credit Hours

**Prerequisites:** (MATH 201 or BUSI 230) and (BMIS 212 or CSIS 212 or BMIS 208 or CSIS 208)

The study of relational database architecture, design, access, administration and implementation in the context of various organizational environments. The course includes issues of data normalization, standard queries, and the use of popular relational and object technologies for building business-oriented applications. Assigned projects will provide hands-on experience with industry leading SQL and RDBMS tools and ER CASE tools currently popular in business and government settings. (Formerly BMIS 325)

CSIS 326 Database System Concepts 3 Credit Hours

**Prerequisites:** (CSIS 215 or CSCI 215) and (MATH 211 or ENGR 210

The study of database management systems, database architecture, design, queries, applications, administration and implementation. The course will focus on data normalization, SQL (queries), and the use of relational technology for building database applications. Projects will be assigned to provide hands-on experience with the SQL language and relational database management software packages. (Formerly CSCI 325)

**Offered:** Resident

CSIS 327 Introduction to Oracle 3 Credit Hours

**Prerequisites:** BMIS 325 or CSIS 325 or ISYS 325 or CMIS 450

This course introduces the fundamentals of database design using an Oracle platform. Database administration will be introduced as well as the basic concepts of data manipulation in an Oracle environment. (Formerly BMIS 326)

CSIS 328 Advanced Oracle 3 Credit Hours

**Prerequisites:** BMIS 326 or CSIS 327

This course introduces the advanced topics of database administration in Oracle. Multi-dimensional databases for Business Intelligence applications will be examined as well. (Formerly BMIS 327)

**Offered:** Resident

CSIS 330 Business Data Communication Systems 3 Credit Hours

Business Data Communications. The study of the movement of information (data) from one device to another by means of electrical, optical, radio or satellite transmission systems. This course will introduce the architecture, concepts, terminology, design, and management issues related to the modern environment of networking and data communications. Various types of networks and communication systems, protocols, regulatory issues and policies will be explored. (Formerly BMIS 330)
Prerequisites: CSIS 341 Information Security Planning 3 Credit Hours

Building on the foundational knowledge of the 330 course, this is a study in corporate data networking. This course primarily focuses on switched networks (wired and wireless) with hands on work on setting up and operating a switched network. Rout networks fundamentals and concepts will be introduced to prepare students for careers in networks operations and the follow-on advanced networks class. (Formerly BMIS 331)

CSIS 335 Network Security 3 Credit Hours

Prerequisites: BMIS 330 or CSIS 330 or ISYS 330 or CMIS 330

A study of the control of unwanted intrusions into, use of, or damage to a business' computer network. This course will cover elements that prevent unwanted activities in an efficient and cost effective manner. This study will start with a focus on the business challenges and threats network professionals face in their day to day operations. It explores the nature and intent of hackers and defines preventative measures such as Intrusion Detection Systems, firewalls, and virtual private networks. (Formerly BMIS 335)

CSIS 340 Studies in Information Security 3 Credit Hours

This course introduces the basic issues and principles of information system security such as security policies, their mechanisms of implementation, means attackers use to circumvent these protections, and defenses against these attackers. (Formerly CSCI 340) (Crosslisted with BMIS 340 and BUSI 417)

CSIS 341 Information Security Planning 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340

This course will deal with the proper planning for and initial implementation of an Information Security program. The topics included would be: security planning and policies, risk analysis, program accreditation, systems lifecycle management, contingency planning, physical security measures, personal security practices and procedures, software security, network security, administrative controls, cryptographic security. (Formerly CSCI 351) (Crosslisted with BMIS 341)

CSIS 342 Computer Architecture and Organization 3 Credit Hours

Prerequisites: CSCI 215 or CSCI 215

Introduction to architecture and organization of computer systems. Data and instruction representations. Arithmetic and logical operations. Processor and memory implementations. (Formerly CSCI 342)

Offered: Resident and Online

CSIS 343 Cybersecurity 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340 or BUSI 417

A comprehensive overview of the essential concepts students must know as they pursue careers in information systems security. Topics include a discussion of the new risks, threats, and vulnerabilities associated with the transformation to a digital world, including a look at how business, government, and individuals operate today. Additionally, information is included from the Official (ISC) 2 SSCP Certified Body of Knowledge and presents a high-level overview of each of the seven domains within the System Security Certified Practitioner certification. (Formerly BMIS 342)

CSIS 344 Information Security Operations 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340

This course will cover the issues and tasks involved in the day to day operation of an Information Security System. The topics included in this course would be: risk management, auditing and monitoring, regulations and compliance, disaster recovery, incidence response, key management, information systems hardware and software operation, networks and transmission security, operational security, and cryptography. (Formerly CSCI 352)

Offered: Resident

CSIS 345 Introduction to Linux 3 Credit Hours

Prerequisites: CSCI 112 or CSCI 112 or ISYS 212 or BMIS 212 or CSIS 212

This course introduces students to the usage and administration of the UNIX Operating System. The course will emphasize end-user tools and commands for basic file manipulation, editing, compilation and debugging, as well as special features of the UNIX shell environment. Basic system administration will also be covered. Students will learn through a combination of traditional lectures, hands-on laboratory sessions, and individual assignments. (Formerly CSCI 345)

Offered: Resident and Online

CSIS 351 System Analysis and Design 3 Credit Hours

Prerequisites: CSIS 325

This practical course in information systems development will cover the concepts, skills, methodologies (RAD as well as SDLC), and tools essential for systems analysts to successfully develop information systems. The course will also introduce the student to the Oracle Designer CASE tools, which will be used to assist in the documentation of the analysis and design phases. The course will include a significant amount of team-based activities, therefore issues associated with team interactions and processes will be discussed. (Formerly BMIS 351)

CSIS 352 System Administration 3 Credit Hours

Prerequisites: (BMIS 320 or CSIS 320) or CSIS 345

Principles of system administration activities, applications, operating systems, and domains; analysis of computing applications, infrastructures, architectures, firmware, hardware, disaster recovery, security, and enterprise deployment.
CSIS 354 Integrative Programming and Technologies 3 Credit Hours

Prerequisites: BMIS 320 or CSIS 320

Examines the integration of systems and applications across global businesses; explores programming interfaces, data mapping and exchange, scripting, and programming languages to support the configuration, maintenance, integration, and security of systems.

CSIS 355 Network Architecture and Protocols 3 Credit Hours

Prerequisites: (CSCI 215 or CSIS 215) and RSCH 201

A study of how computer networks and internets operate. Investigates networking from the level of data transmission and wiring through the level of application software that provides networking functionality. Topics include: data and packet transmission, LANs and WANs, and internet concepts, including architecture, protocol layering, and application software. (Formerly CSCI 355)

Offered: Resident and Online

CSIS 375 Introduction to Human-Computer Interaction 3 Credit Hours

Prerequisites: BMIS 208 or BMIS 212 or CSIS 208 or CSIS 212 or CSIS 111

This course provides a study and application of the concepts, theory, and practice of effective user interactive computer software, including user-centered design principles, guidelines and evaluation for designing a software product. Cognitive and social aspects of human interaction will be examined in conjunction with elements of technological devices. Human interaction with mobile applications, internet applications, social networking technology, cloud computing, and stand-alone applications will be explored. (Formerly CSCI 375) (Crosslisted with BMIS 375)

Offered: Resident and Online

CSIS 405 Business and Economic Forecasting 3 Credit Hours

Prerequisites: (MATH 201 or BUSI 230) and (ECNC 214 or ECON 214)

Factors producing and study of cyclic movements, analysis of their causes and methods of forecasting as well as study of seasonal, erratic and other movements. (Formerly BMIS 405) (Crosslisted with BUSI 405)

CSIS 408 Web and Mobile Programming 3 Credit Hours

Prerequisites: CSCI 315 or CSCI 316 or CSIS 315 or CSIS 316

This course provides an in-depth look at current enterprise level technologies used for standardized business-to-business communication among client-server applications using Internet Services technologies. It covers modern technologies used as well as new and rising technologies. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 405)

Offered: Resident and Online

CSIS 410 Web Enterprise Technologies 3 Credit Hours

Prerequisites: (BMIS 310 or CSIS 310) and (BMIS 325 or CSIS 325 or CSCI 326 or ISYS 325 or CMIS 450)

Provides students with thorugh knowledge of current technologies and best practices for developing database driven dynamic websites including database and client side programming. (Formerly BMIS 410)

CSIS 416 AITE Capstone 3 Credit Hours

Prerequisites: CSCI 405 or CSIS 408

This is the capstone course. The student will learn to work in teams in the programming of their capstone project. The teams will give both written and oral presentations to their clients. (Formerly CSCI 416)

CSIS 430 Advanced Networking and Communication Systems 3 Credit Hours

Prerequisites: BMIS 331 or CSIS 331 or CSCI 355 or CSIS 355

This course focuses on routed data networks and the implementation of previously learned business data communications and switched networks concepts, principles and strategies to build a complete communications network. This course is an in-depth study of technologies and equipment in modern communication networks. The TCP/IP stack and Cisco (or comparable) networking equipment are used to explore methodologies for designing, configuring, and maintaining communication networks. (Formerly BMIS 430)

CSIS 434 Theory of Programming Languages 3 Credit Hours

Prerequisites: CSCI 215 or CSIS 215

A theoretical study of programming languages. Introduction to grammars and parsers. Language design issues and practical applications. (Formerly CSCI 434)

Offered: Resident and Online

CSIS 440 Digital Forensics 3 Credit Hours

Prerequisites: CSIS 341

Students are introduced to the concept of computer crimes and the need for forensics specialists (people who know how to find and follow the evidence). System Forensics, Investigation, and Response begins by examining the fundamentals of system forensics, the role of computer forensics specialists, computer forensic evidence, and application of forensic analysis skills. It also gives an overview of computer crimes, forensic methods, and laboratories. It then addresses the tools, techniques, and methods used to perform computer forensics and investigation. Finally, it explores emerging technologies as well as future directions of this interesting and cutting-edge field. (Formerly BMIS 440)

Offered: Resident
CSIS 443 Operating Systems 3 Credit Hours

Prerequisites: CSCI 342 or CSIS 342

Resource management for processes, files, devices, and memory. Deadlock and recovery procedures. Security issues. (Formerly CSCI 443)

Offered: Resident and Online

CSIS 461 Technical Aspects of Computer Security 3 Credit Hours

Prerequisites: CSCI 355 or CSIS 355

This course introduces the following issues and principles of information system security: security policies and their mechanisms of implementation, methods used by attackers attempting to circumvent these protections, and specific defenses against these attackers.

Offered: Resident and Online

CSIS 463 Modern Cryptography 3 Credit Hours

Prerequisites: MATH 350 and (CSCI 215 or CSIS 215)

Study of modern cryptographic techniques. Covers basic cryptographic concepts, including symmetric key, public key, hash functions, digital signatures, and message authentication codes.

Offered: Resident and Online

CSIS 465 Enterprise Systems and Integration 3 Credit Hours

Prerequisites: CSIS 352 and CSIS 354

Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance.

CSIS 466 Modern Cryptography 3 Credit Hours

Prerequisites: (CSCI 215 or CSIS 215) and (MATH 350

Offered: Resident

CSIS 470 Executive Perspectives on E-Commerce Technology 3 Credit Hours

Prerequisites: (BMIS 310 or CMIS 310 or ISYS 310 or CSIS 310) and (BMIS 351 or CMIS 351 or ISYS 351 or CSIS 351)

The capstone course for the Web Technology and Design degree. The course synthesizes material presented in previous courses highlighting the challenge of communication electronic commerce technology issues to non-technically oriented executives. Specific topics will include: models of web business strategy; and non-business web applications in government and education. (Formerly BMIS 470)

Offered: Resident

CSIS 471 Software Engineering 3 Credit Hours

Prerequisites: (CSCI 215 or CSIS 215) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Study of the software development process. Topics include: phases of a software project; life-cycle models; metrics; tools; and ethical and professional issues. Participation on team projects is integral. (Formerly CSCI 481)

Registration Restrictions: Senior Status.

Offered: Resident and Online

CSIS 473 IS Project Management 3 Credit Hours

Prerequisites: (CMIS 351 or BMIS 351 or ISYS 351 or CSIS 351) and (ECNC 214 or ECON 214 or ENGI 220) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Capstone course for MIS majors. Develops skills in managing the project development cycle in an organization. Topics include systems engineering, cost analysis, risk management, and managing the socio-technological elements of a project. (Formerly BMIS 460)

CSIS 474 Enterprise Systems and Integration 3 Credit Hours

Prerequisites: CSIS 352 and CSIS 354 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance. (Formerly CSIS 465)

CSIS 481 CS Capstone I 3 Credit Hours

Prerequisites: (CSIS 471 or CSCI 481) and CSIS 326

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Computer Science program. A team solution of a real-world project is required. (Formerly CSCI 482)

Offered: Resident

CSIS 482 CS Capstone II 3 Credit Hours

Prerequisites: CSIS 481

The activities in this course provide a hands-on experience that will allow the students to apply the various skills and knowledge they have gained throughout their Computer Science program. Teams of three to four persons will be formed at the beginning of the course. Software is nearly always developed by teams so this kind of experience is crucial for career preparation. A real-world project submitted by a ministry, some component of the university, or an associated business organization will be identified for each team. These projects will be selected to emphasize the software development process, as well as result in a viable product.

Offered: Resident
CSIS 483 Information Systems Capstone  3 Credit Hours

**Prerequisites:** (CSIS 351 or BMIS 351) and (CSIS 473 or BMIS 460)

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Systems program. A team solution of a real-world project is required.

**Offered:** Resident

CSIS 484 Information Technology Capstone  3 Credit Hours

**Prerequisites:** (CSIS 465 or CSIS 474)

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Technology program. A team solution of a real-world project is required.

**Offered:** Resident

CSIS 485 Cybersecurity Capstone I  3 Credit Hours

**Prerequisites:** CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471

This course is a comprehensive review of the computer science cybersecurity program and integrates all concepts of software cybersecurity, from a secure software development lifecycle (SDLC) point of view.

**Offered:** Resident and Online

CSIS 486 Cybersecurity Capstone II  3 Credit Hours

**Prerequisites:** CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471 and CSIS 485

This course is a continuation of the Cybersecurity Capstone I course and serves as the culmination of the computer science cybersecurity program which integrates all concepts of enterprise cybersecurity, from an offensive and defensive point of view.

**Offered:** Resident and Online

CSIS 495 Directed Research  1-3 Credit Hours

**Prerequisites:** CSCI 215 or CSIS 215

Study of advanced topics in computer science on an individual basis. Periodic meetings with instructor.

**Registration Restrictions:** Permission of instructor.

**Offered:** Resident

CSIS 497 Special Topics in Technology  3 Credit Hours

Selected topics in various areas of computer science. May be repeated for credit when topic varies. (Formerly CSCI 497)

**Registration Restrictions:** Permission of instructor.

**Offered:** Resident

CSIS 499 Internship  1-6 Credit Hours

Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. (Formerly CSCI 499)

**Registration Restrictions:** Junior Status, required GPA & permission of Faculty Intern Advisor.

**Offered:** Resident

Computer Science (B.S.) - Cyber Security - Resident

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Total Hours:** 46-49

1 Refer to the list of approved general education electives before enrolling in foundational skill requirements
2 All students must pass the Computer Assessment OR complete applicable INFT course
Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) & EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) & THEO 202 Theology Survey II (2 c.h.) waived.

### Total Hours

|       | 94 |

Courses may also fulfill select general education requirements.

Cybersecurity Cognate students are required to take the Cybersecurity Capstones (CSIS 485 Cybersecurity Capstone I (3 c.h.) & CSIS 486 Cybersecurity Capstone II (3 c.h.)). Students in other Cognates are required to take the CS Capstones (CSIS 481 CS Capstone I (3 c.h.) & CSIS 482 CS Capstone II (3 c.h.)).

Choose one of the following Programming Language courses: CSIS 209 C# Programming (3 c.h.), CSIS 212 Object-Oriented Programming (3 c.h.), CSIS 244 Assembly Language (3 c.h.), or CSIS 312 Advanced Object-Oriented Programming (3 c.h.). Other languages may be approved by the department chair.

Choose any science course which includes a lab component. Students typically choose BIOL 101 Principles of Biology (3 c.h.) and BIOL 103 Principles of Biology Laboratory (1 c.h.), BIOL 102 Principles of Human Biology (3 c.h.) and BIOL 104 Principles of Human Biology Laboratory (1 c.h.), BIOL 224 General Biology I (4 c.h.), CHEM 105 Elements of General Chemistry (4 c.h.), CHEM 107 Essentials of General and Organic Chemistry (4 c.h.), CHEM 121 General Chemistry I (4 c.h.), or PHYS 202 General Physics II (4 c.h.). If choosing a Physics course, it must be one that adds to the material in PHYS 201 General Physics I (4 c.h.).

Choose from: BUSI 300 Business Communications (3 c.h.), BUSI 301 Business Law (3 c.h.), BUSI 313 Foundations of Project Management (3 c.h.), BUSI 424 E-Commerce (3 c.h.), BUSI 427 Team Dynamics (3 c.h.), or any 200-400 level Computer Science, Math, or Engineering course not already required by the degree.

All applicable prerequisites must be met.

## Graduation Requirements

- **120 Total hours**
- **2.0 Overall grade point average**
- **30 Hours must be upper-level courses (300-400 level)**
- **Grade of 'C' Minimum required for all courses in the Major, Quantitative studies, Lab Sciences and Technical Elective**
- **50% Of major, core, and cognate taken through Liberty University**
- **30 Hours must be completed through Liberty University**
- **Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date**
- **CSER All requirements must be satisfied before a degree will be awarded**

## Computer Science (B.S.) - General - Resident

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Management Accreditation (COSMA) located in Fort Collins, Colorado, USA. The sport management programs in the following degrees are accredited by COSMA:

- Bachelor of Science Sport Management (Residential) with cognates in Sport Administration, Sport Communication & Public Relations, Sport Outreach, Sport Venue Management, and General Studies.

Programs

- Coaching Major (B.S.) (p. 616)
- Sport Management Major (B.S.) (p. 620)
- Sports Management Minors (p. 635)

Courses

SMGT 200 Introduction to Sport Management  3 Credit Hours

This course is designed to provide students with an introduction to the skills and competencies required to pursue career opportunities in the sport industry.

Offered: Resident

SMGT 201 History of Sport  3 Credit Hours

This course investigates the historical development of sport and recreational activities practiced in North America. Major influences on the development of sport are examined including religious beliefs, social and cultural values, economics, politics, and technological advances.

Offered: Resident

SMGT 205 Practicum  3 Credit Hours

Prerequisites: SMGT 200 or SMGT 201 (may be taken concurrently)

Supervised work experience in a sport administration area by the student with approval of advisor.

Offered: Resident

SMGT 299 Internship  0 Credit Hours

Offered: Resident

SMGT 300 Introduction to Coaching  3 Credit Hours

An overview of the roles, qualifications, responsibilities, and skills required of coaches during the season and off season. Issues affecting coaches both on and off the field will be addressed.

Registration Restrictions: Sophomore status.

Offered: Resident

SMGT 302 Sport Facilities and Events  3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and (ISYS 201 or CMIS 201 or BUSI 201)

This course is designed to provide students with an overview of facility planning and design, facility operations, and event management.

Offered: Resident

SMGT 304 Coaching Football  3 Credit Hours

An examination of the theories, techniques, and styles of coaching football. Multiple offensive and defensive strategies are explored.

Registration Restrictions: Junior status

Note: Offered in the fall semester.

Offered: Resident

SMGT 305 Sport Law  3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and (ISYS 201 or CMIS 201 or BUSI 201)

With a managerial approach to legal issues, this course will examine the influences of current state and federal legislation, collective bargaining agreements, regulation agencies, employee-employer relations, contracts and educational enterprises in relation to sport management.

Offered: Resident

SMGT 306 Coaching Basketball  3 Credit Hours

A study of the theories, methods, organization, and techniques of teaching and coaching of basketball skills and team play. Registration Restrictions: Junior status

Note: Offered in the spring semester.

Offered: Resident

SMGT 307 Coaching Fall Sports  3 Credit Hours

Prerequisites: SMGT 300

This course will function as an orientation to the coaching of specific individual and team sports. Furthermore, the course is designed to evaluate the knowledge and skill proficiencies (competencies) of coaching minors in selected sport and activities. The sports covered in this course are: volleyball, cross country/track and field and soccer.

Note: Offered in the fall semester.

Offered: Resident

SMGT 308 Coaching Spring Sports  3 Credit Hours

Prerequisites: SMGT 300

This course will function as an orientation to the coaching of specific individual and team sports. Furthermore, the course is designed to evaluate the knowledge and skill proficiencies (competencies) of coaching minors in selected sport and activities. The sports covered in this course are: tennis, baseball/softball, and golf.

Note: Offered in the spring semester.

Offered: Resident
SMGT 310 Communication in Sport  
3 Credit Hours

Prerequisites: COMS 101 and ENGL 101 and SMGT 200 and (ISYS 201 or CMIS 201 or BUSI 201) and (ENGL 102 or MUSC 200)

This course is a macro analysis of the field from personal, organizational, and external perspectives. Special attention is given to historical and theoretical features of the field, personal and organizational process, sport media, services and support systems, and sociological and legal aspects of sport.

Offered: Resident

SMGT 312 Introduction to Sport Ministry Outreach  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201

This course will explain the inter-relationships between sport and religion while examining the impact of muscular Christianity and sport ministry in North America. Tools and guidelines for preparing, organizing and administering a sport ministry program will also be examined.

SMGT 314 Coaching Dynamics  
3 Credit Hours

A study of rules, game procedures, methods, and practices in officiating athletic activities as well as instruction on video editing technology and film breakdown for a variety of sports. Students will also acquire certification in CPR, AED, and First Aid related to Coaching.

Note: Offered in spring semester.

Offered: Resident

SMGT 315 Concepts and Practices in Sport Outreach  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201

This course introduces the student to the broad spectrum of Christian concepts and practices with sport camp operation and leadership. The student will be equipped to plan, fund, program, direct, evaluate and assess a camp's effectiveness with an emphasis on outreach to athletes on high school and college campuses, in the local church, and with community organizations.

SMGT 317 Mentoring in Sport  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201

A residency whereby the student is assigned to a ministry outreach setting for the purpose of receiving hands-on experience and guidance in the day-to-day functions of sports outreach.

SMGT 321 Global Sport Outreach  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201

This course will examine global strategy issues within the context of sport outreach. Nation, region, and outreach specific factors that determine outreach effectiveness will be analyzed. Key global sport outreach organizations will be examined to deepen students' understanding of effective sport outreach theories and strategies. Students will develop a basic conceptual framework to formulate a strategy for undertaking sport outreach in a global setting.

SMGT 330 Sport Communication Technology  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and BUSI 201 and ENGL 101 and ENGL 102 and COMS 101 and SMGT 310

This course provides future sport professionals with the technology expertise needed to be successful and marketable in sport public relations. Students will develop proficiency in sport industry relevant technologies such as organizational media production programs, persuasive media platforms, and social media.

SMGT 399 Interim Internship  
3 Credit Hours

A SMGT directed elective that will consist of supervised work experience approved in advance by the professor in a sport administration and/or management cognate (administration, aquatics, promotion, marketing, directing, fitness). Application procedures processed through the Sport Management Department Faculty Internship Advisor (FIA).

Offered: Resident

SMGT 400 Sport and Exercise Psychology  
3 Credit Hours

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

This course is designed to provide students with an in-depth view of the theoretical and applied aspects of the psychology of sport and exercise. The emphasis is on providing knowledge and skills necessary to improve athletic performance, enhance health and well-being, and understand personal and situation variables in the exercise environment as related to the psychological development of the individual.

Note: Offered in the spring semester.

Offered: Resident

SMGT 401 Sport Methodology, Methods and Practices  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201

An introductory class to the psychological and emotional aspects of sport. Topics include mental preparation, goal setting, extrinsic vs. intrinsic reward, stress, anxiety, relaxation and coping within the context of sport participation. The topic of competition and the concepts of success and failure are discussed from a biblical perspective.

SMGT 402 Outreach in Organized Sport  
3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201

This course will provide a foundational view of character coaches and related personnel within organized sport. The content will focus on learning how to pray for, to serve, to challenge, and to invest in lives and being on the journey of faith for those who serve.
SMGT 404 Administration and Organization in Sport and Recreation 3 Credit Hours

Prerequisites: SMGT 302 and SMGT 305 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A study of the problems and considerations involved in the successful management of sport and recreation programs. Areas considered include program planning, organization, leadership and evaluation, and current organizational trends.

Registration Restrictions: Junior status.

Offered: Resident

SMGT 405 Sport Finance 3 Credit Hours

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

Economic marketing and finance theories applied to sport organizations, with special emphasis on the impact of sport upon the proximate community, and general development of cities and sport facilities.

Offered: Resident

SMGT 406 Issues and Trends in Sport 3 Credit Hours

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

A basic understanding of the developments, trends and social processes that explain the widely popular sporting experiences of society today.

Offered: Resident

SMGT 410 Sport Marketing 3 Credit Hours

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

The relevant areas of marketing are applied to sport applications for spectator and participative sport organizations are given. Special emphasis is placed on strategic planning, product analysis, and the development and presentation of marketing packages to secure sponsorship.

Offered: Resident

SMGT 415 Research Methods in Sport Management 3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

This course examines the concepts and process of research in sport management. Students will be introduced to issues associated with but not limited to the logic of the scientific method, assessing scholarly research, research design, qualitative and quantitative methodologies, and how to integrate research into decision making. Students will be afforded the opportunity to develop a research proposal relevant to the discipline and thus provide a foundation from which the student may use the knowledge and practices gained in this course throughout the rest of their career.

Offered: Resident and Online

SMGT 421 Policy & Governance in Sport 3 Credit Hours

Prerequisites: BUSI 201 and SMGT 200 and SMGT 201 and SMGT 302 and SMGT 304 and SMGT 310 and SMGT 312

This course examines various aspects of sport governing bodies and the organizations they oversee, including their structure, authority, membership, policy development, and the ethical issues behind their decisions. Governing bodies to be examined will include the domains of professional sport, interscholastic sport, intercollegiate sport, amateur sport, and international sport.

SMGT 422 Sport Analytics 3 Credit Hours

Prerequisites: BUSI 201 and SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312 and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 201 or MATH 2XX or MATH 3XX or MATH 4XX) and BUSI 201

A study of the process of data-based decision making including data collection, analysis and interpretation. Topics will include information gathering, research design and methods, data analysis software, and the use of statistics to analyze and interpret information.

SMGT 430 Sport Media Strategies 3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

Sport Media Strategies is designed as a capstone course for the Communications and Public Relations Cognate. Heavy emphasis is given to the application of sport public relations technologies and strategies including promotional media, media relations tactics, public relations campaigns, and high level public relations responsibilities related to sport information.

SMGT 440 Guest Service in Sport Venues 3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

An in-depth study of the business practices associated with the booking, scheduling, and presentation of events in sport venues. Reflecting the multipurpose programming of many sport venues, this course will examine a variety of one-off athletic competitions, sport tournaments, concerts, family shows, and other showcase events used to fill a venue’s calendar dark days.
Courses

SMGT 399 Interim Internship  

A SMGT directed elective that will consist of supervised work experience approved in advance by the professor in a sport administration and/or management cognate (administration, aquatics, promotion, marketing, directing, fitness). Application procedures processed through the Sport Management Department Faculty Internship Advisor (FIA).

Offered: Resident

SMGT 400 Sport and Exercise Psychology  

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

This course is designed to provide students with an in-depth view of the theoretical and applied aspects of the psychology of sport and exercise. The emphasis is on providing knowledge and skills necessary to improve athletic performance, enhance health and well-being, and understand personal and situation variables in the exercise environment as related to the psychological development of the individual.

Note: Offered in the spring semester.

Offered: Resident

SMGT 401 Sport Methodology, Methods and Practices  

Prerequisites: SMGT 200 and SMGT 201

An introductory class to the psychological and emotional aspects of sport. Topics include mental preparation, goal setting, intrinsic vs. extrinsic reward, stress, anxiety, relaxation, and coping within the context of sport participation. The topic of competition and the concepts of success and failure are discussed from a biblical perspective.

SMGT 402 Outreach in Organized Sport  

Prerequisites: SMGT 200 and SMGT 201

This course will provide a foundational view of character coaches and related personnel within organized sport. The content will focus on learning how to pray for, to serve, to challenge, and to invest in lives and being on the journey of faith for those who serve.

SMGT 404 Administration and Organization in Sport and Recreation  

Prerequisites: SMGT 302 and SMGT 305 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A study of the problems and considerations involved in the successful management of sport and recreation programs. Areas considered include program planning, organization, leadership, and evaluation, and current organizational trends.

Registration Restrictions: Junior status.

Offered: Resident

SMGT 405 Sport Finance  

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

Economic marketing and finance theories applied to sport organizations, with special emphasis on the impact of sport upon the proximate community, and general development of cities and sport facilities.

Offered: Resident

SMGT 406 Issues and Trends in Sport  

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

A basic understanding of the developments, trends and social processes that explain the widely popular sporting experiences of society today.

Offered: Resident

SMGT 410 Sport Marketing  

Prerequisites: SMGT 302 and SMGT 305 and SMGT 310

The relevant areas of marketing are applied to sport applications for spectator and participative sport organizations are given. Special emphasis is placed on strategic planning, product analysis, and the development and presentation of marketing packages to secure sponsorship.

Offered: Resident

SMGT 415 Research Methods in Sport Management  

Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

This course examines the concepts and process of research in sport management. Students will be introduced to issues associated with but not limited to the logic of the scientific method, assessing scholarly research, research design, qualitative and quantitative methodologies, and how to integrate research into decision making. Students will be afforded the opportunity to develop a research proposal relevant to the discipline and thus provide a foundation from which the student may use the knowledge and practices gained in this course throughout the rest of their career.

Offered: Resident and Online

SMGT 421 Policy & Governance in Sport  

Prerequisites: BUSI 201 and SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

This course examines various aspects of sport governing bodies and the organizations they oversee, including their structure, authority, membership, policy development, and the ethical issues behind their decisions. Governing bodies to be examined will include the domains of professional sport, interscholastic sport, intercollegiate sport, amateur sport, and international sport.
SMGT 422 Sport Analytics  
Prerequisites: BUSI 201 and SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312 and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 201 or MATH 2XX or MATH 3XX or MATH 4XX) and BUSI 201

A study of the process of data-based decision making including data collection, analysis and interpretation. Topics will include information gathering, research design and methods, data analysis software, and the use of statistics to analyze and interpret information.

SMGT 430 Sport Media Strategies  
Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

Sport Media Strategies is designed as a capstone course for the Communications and Public Relations Cognate. Heavy emphasis is given to the application of sport public relations technologies and strategies including promotional media, media relations tactics, public relations campaigns, and high level public relations responsibilities related to sport information.

SMGT 440 Guest Service in Sport Venues  
Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

This course will provide students with background knowledge of the unique aspects of the sport product and important guest service management concepts. These concepts include, but are not limited to, service quality, guest satisfaction, how perceptions of service influence consumer behaviors, and service assessment methods. Students will learn how to leverage their understanding of these concepts to establish guest service standards and strategies to meet organizational goals within the context of sport and live entertainment event businesses.

SMGT 441 Sport Venue Operations  
Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

An in-depth study of the business practices associated with the booking, scheduling, and presentation of events in sport venues. Reflecting the multipurpose programming of many sport venues, this course will examine a variety of one-off athletic competitions, sport tournaments, concerts, family shows, and other showcase events used to fill a venue's calendar dark days.

SMGT 495 Directed Research  
SMGT 495 - Directed Research (1 to 3 hours)

Offered: Resident

SMGT 497 Special Topics in Sport Management  
SMGT 497 - Special Topics in Sport Management (1 to 3 hours)
Prerequisite: Completion of all SMT 200-level courses.

Offered: Resident

SMGT 499 Internship  
1-12 Credit Hours

Placement with a sport organization for a controlled learning experience with the student's career specialization area. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: 2.25 GPA.

Offered: Resident

Coaching (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

- Nonprofit Organizations
- Private Sports Enterprises
- Resort Management
- Ticket Operations/Sales

Courses

SMGT 200 Introduction to Sport Management 3 Credit Hours

This course is designed to provide students with an introduction to the skills and competencies required to pursue career opportunities in the sport industry.

Offered: Resident

SMGT 201 History of Sport 3 Credit Hours

This course investigates the historical development of sport and recreational activities practiced in North America. Major influences on the development of sport are examined including religious beliefs, social and cultural values, economics, politics, and technological advances.

Offered: Resident

SMGT 205 Practicum 3 Credit Hours

Prerequisites: SMGT 200 or SMGT 201 (may be taken concurrently)

Supervised work experience in a sport administration area by the student with approval of advisor.

Offered: Resident

SMGT 299 Internship 0 Credit Hours

Offered: Resident

SMGT 300 Introduction to Coaching 3 Credit Hours

An overview of the roles, qualifications, responsibilities, and skills required of coaches during the season and off season. Issues affecting coaches both on and off the field will be addressed.

Registration Restrictions: Sophomore status.

Offered: Resident

SMGT 302 Sport Facilities and Events 3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and (ISYS 201 or CMIS 201 or BUSI 201)

This course is designed to provide students with an overview of facility planning and design, facility operations, and event management.

Offered: Resident

SMGT 304 Coaching Football 3 Credit Hours

An examination of the theories, techniques, and styles of coaching football. Multiple offensive and defensive strategies are explored.

Registration Restrictions: Junior status

Note: Offered in the fall semester.

Offered: Resident

SMGT 305 Sport Law 3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and (ISYS 201 or CMIS 201 or BUSI 201)

With a managerial approach to legal issues, this course will examine the influences of current state and federal legislation, collective bargaining agreements, regulation agencies, employee-employer relations, contracts and educational enterprises in relation to sport management.

Offered: Resident

SMGT 306 Coaching Basketball 3 Credit Hours

A study of the theories, methods, organization, and techniques of teaching and coaching of basketball skills and team play. Registration Restrictions: Junior status

Note: Offered in the spring semester.

Offered: Resident

SMGT 307 Coaching Fall Sports 3 Credit Hours

Prerequisites: SMGT 300

This course will function as an orientation to the coaching of specific individual and team sports. Furthermore, the course is designed to evaluate the knowledge and skill proficiencies (competencies) of coaching minors in selected sport and activities. The sports covered in this course are: volleyball, cross country/track and field and soccer.

Note: Offered in the fall semester.

Offered: Resident
SMGT 308 Coaching Spring Sports  
Prerequisites: SMGT 300  
This course will function as an orientation to the coaching of specific individual and team sports. Furthermore, the course is designed to evaluate the knowledge and skill proficiencies (competencies) of coaching minors in selected sport and activities. The sports covered in this course are: tennis, baseball/softball, and golf. 

Note: Offered in the spring semester.

Offered: Resident

SMGT 310 Communication in Sport  
Prerequisites: COMS 101 and ENGL 101 and SMGT 200 and (ISYS 201 or CMIS 201 or BUSI 201) and (ENGL 102 or MUSC 200)  
This course is a macro analysis of the field from personal, organizational, and external perspectives. Special attention is given to historical and theoretical features of the field, personal and organizational processes, sport media, services and support systems, and sociological and legal aspects of sport.

Offered: Resident

SMGT 312 Introduction to Sport Ministry Outreach  
Prerequisites: SMGT 200 and SMGT 201  
This course will explain the inter-relationships between sport and religion while examining the impact of muscular Christianity and sport ministry in North America. Tools and guidelines for preparing, organizing and administering a sport ministry program will also be examined.

SMGT 314 Coaching Dynamics  
A study of rules, game procedures, methods, and practices in officiating athletic activities as well as instruction on video editing technology and film breakdown for a variety of sports. Students will also acquire certification in CPR, AED, and First Aid related to Coaching.

Note: Offered in spring semester.

Offered: Resident

SMGT 315 Concepts and Practices in Sport Outreach  
Prerequisites: SMGT 200 and SMGT 201  
This course introduces the student to the broad spectrum of Christian concepts and practices with sport camp operation and leadership. The student will be equipped to plan, fund, program, direct, evaluate and assess a camp's effectiveness with an emphasis on outreach to athletes on high school and college campuses, in the local church, and with community organizations.

SMGT 317 Mentoring in Sport  
Prerequisites: SMGT 200 and SMGT 201  
A residency whereby the student is assigned to a ministry outreach setting for the purpose of receiving hands-on experience and guidance in the day-to-day functions of sports outreach.

SMGT 321 Global Sport Outreach  
Prerequisites: SMGT 200 and SMGT 201  
This course will examine global strategy issues within the context of sport outreach. Nation, region, and outreach specific factors that determine outreach effectiveness will be analyzed. Key global sport outreach organizations will be examined to deepen students' understanding of effective sport outreach theories and strategies. Students will develop a basic conceptual framework to formulate a strategy for undertaking sport outreach in a global setting.

SMGT 330 Sport Communication Technology  
Prerequisites: SMGT 200 and SMGT 201 and BUSI 201 and ENGL 101 and ENGL 102 and COMS 101 and SMGT 310  
This course provides future sport professionals with the technology expertise needed to be successful and marketable in sport public relations. Students will develop proficiency in sport industry relevant technologies such as organizational media production programs, persuasive media platforms, and social media.

SMGT 399 Interim Internship  
A SMGT directed elective that will consist of supervised work experience approved in advance by the professor in a sport administration and/or management cognate (administration, aquatics, promotion, marketing, directing, fitness). Application procedures processed through the Sport Management Department Faculty Internship Advisor (FIA).

Offered: Resident

SMGT 400 Sport and Exercise Psychology  
Prerequisites: SMGT 302 and SMGT 305 and SMGT 310  
This course is designed to provide students with an in-depth view of the theoretical and applied aspects of the psychology of sport and exercise. The emphasis is on providing knowledge and skills necessary to improve athletic performance, enhance health and well-being, and understand personal and situation variables in the exercise environment as related to the psychological development of the individual.

Note: Offered in the spring semester.

Offered: Resident

SMGT 401 Sport Methodology, Methods and Practices  
Prerequisites: SMGT 200 and SMGT 201  
An introductory class to the psychological and emotional aspects of sport. Topics include mental preparation, goal setting, extrinsic vs. intrinsic reward, stress, anxiety, relaxation and coping within the context of sport participation. The topic of competition and the concepts of success and failure are discussed from a biblical perspective.
SMGT 402 Outreach in Organized Sport 3 Credit Hours
Prerequisites: SMGT 200 and SMGT 201
This course will provide a foundational view of character coaches and related personnel within organized sport. The content will focus on learning how to pray for, to serve, to challenge, and to invest in lives and being on the journey of faith for those who serve.

SMGT 404 Administration and Organization in Sport and Recreation 3 Credit Hours
Prerequisites: SMGT 302 and SMGT 305 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
A study of the problems and considerations involved in the successful management of sport and recreation programs. Areas considered include program planning, organization, leadership and evaluation, and current organizational trends.
Registration Restrictions: Junior status.
Offered: Resident

SMGT 405 Sport Finance 3 Credit Hours
Prerequisites: SMGT 302 and SMGT 305 and SMGT 310
Economic marketing and finance theories applied to sport organizations, with special emphasis on the impact of sport upon the proximate community, and general development of cities and sport facilities.
Offered: Resident

SMGT 406 Issues and Trends in Sport 3 Credit Hours
Prerequisites: SMGT 302 and SMGT 305 and SMGT 310
A basic understanding of the developments, trends and social processes that explain the widely popular sporting experiences of society today.
Offered: Resident

SMGT 410 Sport Marketing 3 Credit Hours
Prerequisites: SMGT 302 and SMGT 305 and SMGT 310
The relevant areas of marketing are applied to sport applications for spectator and participative sport organizations are given. Special emphasis is placed on strategic planning, product analysis, and the development and presentation of marketing packages to secure sponsorship.
Offered: Resident

SMGT 415 Research Methods in Sport Management 3 Credit Hours
Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312
This course examines the concepts and process of research in sport management. Students will be introduced to issues associated with but not limited to the logic of the scientific method, assessing scholarly research, research design, qualitative and quantitative methodologies, and how to integrate research into decision making. Students will be afforded the opportunity to develop a research proposal relevant to the discipline and thus provide a foundation from which the student may use the knowledge and practices gained in this course throughout the rest of their career.
Offered: Resident and Online

SMGT 421 Policy & Governance in Sport 3 Credit Hours
Prerequisites: BUSI 201 and SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312
This course examines various aspects of sport governing bodies and the organizations they oversee, including their structure, authority, membership, policy development, and the ethical issues behind their decisions. Governing bodies to be examined will include the domains of professional sport, interscholastic sport, intercollegiate sport, amateur sport, and international sport.

SMGT 422 Sport Analytics 3 Credit Hours
Prerequisites: BUSI 201 and SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312 and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 201 or MATH 2XX or MATH 3XX or MATH 4XX) and BUSI 201
A study of the process of data-based decision making including data collection, analysis and interpretation. Topics will include information gathering, research design and methods, data analysis software, and the use of statistics to analyze and interpret information.

SMGT 430 Sport Media Strategies 3 Credit Hours
Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312
Sport Media Strategies is designed as a capstone course for the Communications and Public Relations Cognate. Heavy emphasis is given to the application of sport public relations technologies and strategies including promotional media, media relations tactics, public relations campaigns, and high level public relations responsibilities related to sport information.
SMGT 440 Guest Service in Sport Venues  3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

This course will provide students with background knowledge of the unique aspects of the sport product and important guest service management concepts. These concepts include, but are not limited to, service quality, guest satisfaction, how perceptions of service influence consumer behaviors, and service assessment methods. Students will learn how to leverage their understanding of these concepts to establish guest service standards and strategies to meet organizational goals within the context of sport and live entertainment event businesses.

SMGT 441 Sport Venue Operations  3 Credit Hours

Prerequisites: SMGT 200 and SMGT 201 and SMGT 302 and SMGT 305 and SMGT 310 and SMGT 312

An in-depth study of the business practices associated with the booking, scheduling, and presentation of events in sport venues. Reflecting the multipurpose programming of many sport venues, this course will examine a variety of one-off athletic competitions, sport tournaments, concerts, family shows, and other showcase events used to fill a venue’s calendar dark days.

SMGT 495 Directed Research  1-3 Credit Hours

SMGT 495 - Directed Research (1 to 3 hours)

Offered: Resident

SMGT 497 Special Topics in Sport Management  1-3 Credit Hours

SMGT 497 - Special Topics in Sport Management (1 to 3 hours)
Prerequisite: Completion of all SMT 200-level courses.

Offered: Resident

SMGT 499 Internship  1-12 Credit Hours

Placement with a sport organization for a controlled learning experience with the student’s career specialization area. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: 2.25 GPA.

Offered: Resident

Sport Management (B.S.) - Conference & Event Management - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Choose 18-24 credit hours of free electives  

Total Hours 78-84

1. Courses may also fulfill select general education requirements
2. Choose an ECON course (ECON 110 Survey of Economics (3 c.h.) or higher)
3. Choose an SMGT course not already required by the major

**All applicable prerequisites must be met**
Graduation Requirements

- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of 'C' Minimum required for all upper level courses in the major and all SMGT courses
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Sport Management (B.S.) - General - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Healthcare Administration Major (B.S.)

Purpose
The Bachelor of Science in Healthcare Administration is a 120-hour program that provides baccalaureate level training to prepare students for market, as managers within the healthcare field. In accordance with the mission of Liberty University, the undergraduate faculty seek to educate the whole person, developing the values, knowledge, and skills individuals need to impact the field of healthcare. The context for all instruction is the Christian worldview.

Program Learning Outcomes
The student will be able to:

1. Incorporate a biblical worldview when providing solutions to problems associated with cost, access, and quality of care.
2. Examine the responsibility and operations of a healthcare organization in meeting patient care quality outcomes, maintaining regulatory compliance, and achieving organizational performance targets.
3. Evaluate managerial and leadership challenges in healthcare administration based upon knowledge of current literature and industry best practices.

Program of Study
Delivery Format: Online Only
- Healthcare Administration (B.S.) - Online (p. 639)

Career Opportunities
- Health Care Administrator
- Physician Office Manager
- Human Resources Coordinator
- Medical Staff Relations Director

Courses
HLTH 105 Introduction to the Health Professions 3 Credit Hours
A survey of the health professions and requirements for educational, job and market demands in selected health careers, including health promotion philosophy, goals, history and development.

HLTH 205 Accident Prevention and Care (First Aid) 3 Credit Hours
Principles of accident prevention and personal safety with emphasis upon development of knowledge and skills needed for dealing with emergencies which may be faced in a variety of settings. First aid and CPR certification is included.

Offered: Resident

HLTH 211 Applied Anatomy and Physiology I for Associate Degree 3 Credit Hours
An examination of the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course employs virtual interactive cadaver dissection technology. The following topics are covered: introduction to the human body, organization of the body, the blood, cardiovascular system, lymphatic system, nervous system, special senses, endocrine system, and respiratory system.

HLTH 212 Applied Anatomy and Physiology II for Associate Degree 3 Credit Hours
A continuation of HLTH 211 that examines the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course employs virtual interactive cadaver dissection technology. The following topics are covered: the digestive system, the urinary system, the skin, the musculoskeletal system, and the reproductive systems.
HLTH 216 Personal Health 3 Credit Hours
A study of considerations and current trends in the areas of personal and community health. Emphasis is given to personal responsibility for healthy lifestyle management.

Offered: Resident

HLTH 221 Applied Human Anatomy and Physiology I 3 Credit Hours
An examination of the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course will employ virtual interactive cadaver dissection technology. The following topics are covered: introduction to the human body; the chemistry of life; the cells, tissues, and organization of the body; the blood; the cardiovascular system; the lymphatic system; the nervous system; the special senses; the endocrine system; and the respiratory system. (Formerly HLTH 201)

Note: This course does not substitute for BIOL 213 & 214.

Offered: Online

HLTH 222 Applied Human Anatomy and Physiology II 3 Credit Hours
A continuation of HLTH 221 that examines the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course will employ virtual interactive cadaver dissection technology. The following topics are covered: introduction to nutrition; the digestive system; the urinary system; the skin; resistance and immunity; the musculoskeletal system; introduction to genetics; and the reproductive systems. (Formerly HLTH 202)

Note: This course does not substitute for BIOL 215 & 216.

Offered: Online

HLTH 252 Drugs in Society 3 Credit Hours
An examination of alcohol, tobacco and other drugs effects upon individual, school and community.

HLTH 299 Internship 0 Credit Hours
Practical work experience in an approved health agency, supervised by a qualified health specialist. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

HLTH 301 Foundations of Public Health 3 Credit Hours
This course provides an introduction to public health concepts and practice. Beginning with the history of public health, the student will learn how this profession has evolved through time, study the foundational components of public health today, and explore its future. This course will address administrative roles and responsibilities of the profession within the context of socio-ecological levels. Topics covered include public health's core functions and essential services, organizational structures, ethical issues, systems thinking, and the role of the health education specialist.

Offered: Resident

HLTH 311 Health Promotion Methods for Global Settings 3 Credit Hours
This practical course applies health promotion theory through methods and materials designed for international settings. Non-formal methods are especially introduced to the learners. This course is ideal for those desiring to serve in overseas settings (the two-thirds world) for ministry and service. Non-health majors are welcome, especially those with a heart for missions and for serving the needy. Registration Restrictions: Completion of at least one academic year

Note: Offered spring semester.

Offered: Resident

HLTH 330 Human Nutrition 3 Credit Hours
Prerequisites: BIOL 211 or BIOL 213 or BIOL 214 or BIOL 101 or BIOL 102 or BIOL 200 or BIOL 1XX or BIOL 2XX or CHEM 105 or CHEM 107 or CHEM 1XX or CHEM 2XX or HLTH 201 or HLTH 202 or BIOL 215 or HLTH 221 or BIOL 216 or HLTH 222 or BIOL 224 or BIOL 225
Chemical structure, function, digestion, metabolism and biochemical interrelationships of nutrients relating to life cycle, current issues and diet selection.

Offered: Resident

HLTH 333 Exercise and Sports Nutrition 3 Credit Hours
Prerequisites: EXSC 310
This course focuses on nutrition with an emphasis on its role in exercise and sport performance. Topics include: macro/micro-nutrient metabolism in relation to exercise, hydration, body composition, ergogenic aids, disordered eating, and current nutritional recommendations.

Offered: Resident

HLTH 340 Women's Health Issues 3 Credit Hours
This course provides female students with an overview of contemporary women's health issues across the lifespan, within the framework of health education and health promotion. It prepares students with both knowledge and competencies to best minister to other women, in formal and informal settings, from a Christian perspective. Registration Restrictions: Women only; Completion of at least one academic year

Note: Offered fall semester.

Offered: Resident
HLTH 349 Public and Community Health for Business  
This course is an introduction to public and community health issues and problems at the local, state and national levels oriented toward business professionals.

Note: This course does not substitute for HLTH 350.

Offered: Online

HLTH 350 Introduction to Public and Community Health  
An introduction to public and community health issues or problems at the local, state and national levels.

Offered: Resident

HLTH 370 Introduction to Environmental Hazards and Response  
Prerequisites: HLTH 301 or (HLTH 350)

This course addresses manmade and natural environmental hazards that impact human health. After a description and epidemiological survey of risk, the course focuses on prevention and disaster management. Students will learn the structure and systems involved in the response to environmental disasters, and will participate in hands-on training in disaster response skills through the resources of the American Red Cross and/or other agencies.

Offered: Resident

HLTH 380 Health Promotion for Aging Populations  
The study of the process of aging and the interrelationships among the five dimensions of health as they relate to aging. Emphasis is placed on health promotion and disease prevention at all ages as the path to living a full life in later years. Registration Restrictions: Completion of at least one academic year

Note: Offered fall semester.

Offered: Resident

HLTH 400 Contemporary Health Issues  
As an integrative study course, classes examine health trends in America. The focus is on personal health / medical decisions relevant to Christians. Topics include but are not limited to: marital choices, addictions, common infectious and chronic diseases, mental illness, aging, dying and death, and predictions of future health events of the next 50 years. Registration Restrictions: Junior or Senior status

Note: Offered fall semester.

Offered: Resident

HLTH 402 The School Health Program  
School health program philosophy and K-12 curriculum are discussed with an emphasis on policies, procedures and methods for the teaching of health education. Registration Restrictions: Junior status

Note: Offered spring semester.

Offered: Resident

HLTH 419 Wellness and Behavior Change Theories for Business  
This course includes a study of theory and practice of wellness behavioral change that can be translated into the business arena. Organizational and individual intervention techniques for health promotion, marketing and general communication campaigns will be emphasized.

HLTH 420 Principles of Behavior Change and Health Counseling  
A study of theory and practice of behavioral change or verification that leads to a healthy lifestyle. Group and individual intervention techniques with follow-up health counseling theory and application will be emphasized.

Registration Restrictions: Junior status.

Offered: Resident

HLTH 440 Methods and Resources in Teaching Applied Sciences in Schools  
Prerequisites: HLTH 402 and Background Check Clearance with a score of 5 and Education Teacher Licensure with a score of 5

A study of classroom related instruction in applied sciences with an emphasis on delivery system, student needs and materials that can be utilized. Note: (Offered fall semester)

Offered: Resident

HLTH 441 Methods and Resources in Teaching Applied Sciences in School Practicum  
Prerequisites: HLTH 402 and Background Check Clearance with a score of 5 and Education Teacher Licensure with a score of 5

The student will be required to prepare a unit, teach in a secondary classroom setting and evaluate the experience.

Note: (Offered fall semester).

Offered: Resident

HLTH 444 Principles of Epidemiology and Biostatistics  
Prerequisites: MATH 201

A study of epidemiology, the basic science of public health. Epidemiology will be viewed as: 1) a quantitative basic science built on sound research methods; 2) a method of causal reasoning based on developing and testing hypothesis pertaining to the occurrence and prevention of morbidity (disease) and mortality (death); and 3) a tool for public health action to promote and protect the public’s health.

Offered: Resident
HLTH 452 Methods and Materials in Community Health Education
3 Credit Hours
Development, usage and evaluation of print and non-print materials and methods for health educators in the community setting.
Registration Restrictions: Junior status.
Offered: Resident

HLTH 453 Program Planning and Evaluation in Health Education
3 Credit Hours
Prerequisites: HLTH 350
A study of the theories, models, and processes that reflect best practice in assessment, planning, implementation, and evaluation of health education programming.
Registration Restrictions: Junior status.
Offered: Resident

HLTH 455 Principles of Epidemiology and Biostatistics for Business
3 Credit Hours
Prerequisites: MATH 201 or BUSI 230
The course introduces the principles, concepts, and methods of epidemiology – the study of patterns and determinants of disease in different populations to business professionals. Topics include measures of disease frequency and effect, uses of rates and proportions and other statistics to describe the health of populations in investigating the extent of disease problems and the associations between risk factors and disease outcomes.
Offered: Online

HLTH 488 Chronic and Infectious Diseases
3 Credit Hours
Prerequisites: BIOL 203 or BIOL 303
This course will address the epidemiology, pathogenesis, risk factors and prevention of major chronic diseases. Also, this course will examine infectious diseases through the epidemiology of various bacterial, viral, fungal, protozoal, and helminthic infections, with application for students interested in health promotion and disease prevention at home, overseas, and on the mission field.
Offered: Resident

HLTH 495 Directed Research
1-6 Credit Hours
To allow students the opportunity to expand their understanding of public health by taking part in a research-oriented project or program implementation and evaluation of a public health topic of interest.
Registration Restrictions: Approval of the program director.
Offered: Resident

HLTH 497 Special Topics in Health
1-3 Credit Hours
A comprehensive study of health promotion principles and problems in selected areas of health science which may include: stress management, weight control, environment, smoking cessation, family life education, human diseases, etc. (May be repeated to a total of six hours in different content areas.)
Offered: Resident

HLTH 498 Public Health Senior Seminar
3 Credit Hours
Prerequisites: HLTH 301 and HLTH 350 and HLTH 444
This course provides students with the opportunity to incorporate and apply the content and competencies of public health into a culminating experience that places emphasis on a research project and presentation.
Offered: Resident

HLTH 499 Professional Internship in Health Promotion
1-12 Credit Hours
Prerequisites: HLTH 452 and HLTH 453
Practical work experience in an approved health agency, supervised by a qualified health specialist. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.
Registration Restrictions: Consent of instructor; required cumulative GPA of 2.35; HLTH 452 and 453; CPR/First Aid Certification; Junior or Senior status.
Offered: Resident

Healthcare Administration (B.S.) - Online
Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Program Learning Outcomes**

The student will be able to:

1. Conduct best practices in informatics while maintaining a Christian worldview.
2. Apply core informatics principles and practices to determine effective solutions to hypothetical and/or real life situations.
3. Design and maintain informatics solutions that meet desired requirements.

**Programs of Study**

**Delivery Format: Residential and Online**

- Informatics (B.S.) - Healthcare Informatics – Online (p. 641)
- Informatics (B.S.) - Healthcare Informatics – Resident (p. 642)

**Career Opportunities**

- Clinical Informatics Specialist
- Director of Clinical Informatics
- Health information systems manager
• Healthcare project manager
• Informatics Systems Analyst

Courses

INFO 305 Quality Management and Decision Support 3 Credit Hours
Prerequisites: CSIS 100 or BUSI 311
Focused on improving the quality of patient care, this course will focus on quality management techniques and related decision-support practices. The evaluation of the impact of Computerized Provider Order Entry (CPOE) on the quality, safety, and efficiency of health care data will be explored. Students will apply decision modeling techniques, incorporating comparative analysis, simulation, optimization, and decision analysis designed to increase the efficiency and effectiveness of decision support within the healthcare system.

INFO 310 Foundations of Pharmacology 3 Credit Hours
Prerequisites: NURS 105 and INFO 305
Foundational view of the relationship between pharmacologic and pharmacokinetic knowledge; safe administration of medication; emphasis on the reasoning behind the selection of route, dosage, and dosing schedules of medications provided to patients across their lifespan; legal and professional issues surrounding the safe administration of medication.

INFO 320 Healthcare Informatics 3 Credit Hours
Prerequisites: INFO 305 or BUSI 311
Evaluates the needs of end users within the healthcare system; multi-phase project planning, evaluation, adoption, and management of new technologies centered on effectively and efficiently exchanging electronic health information; evaluation of medical practice workflows and exploration of the functional needs of end-users while analyzing the fiscal and human resource commitments needed in diverse settings.

INFO 321 Healthcare Coding and Classification 3 Credit Hours
Prerequisites: INFO 305 and INFO 320
Development of coding and classification systems; analysis of the structure and organization of the medical coding functions within the healthcare system; emphasizing the importance on ICD and CPT coding considerations, process evaluation and improvement, billing reimbursement, and related reporting issues central to effective and efficient operation and compliance.

INFO 405 Informatics Information Systems 3 Credit Hours
Prerequisites: (BMIS 200 or CSIS 100) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
An examination of expert, bio, and clinical decision support systems and technology; management of data in database management systems; data mining; informatics systems analysis, design, and implementation.

INFO 410 Healthcare Enterprise Systems 3 Credit Hours
Prerequisites: (BMIS 200 or CSIS 100) and INFO 305
Healthcare enterprise architecture planning, methodology, and frameworks; medical classification and coding systems including electronic health record system design and implementation.

Informatics (B.S.) - Healthcare Informatics – Online

Total Hours: 44-47

1. Refer to the list of approved general education electives before enrolling in foundational skill requirements
2. All students must pass the Computer Assessment OR complete applicable INFIT course
3. Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived

Total Hours 73-82

1. Courses may also fulfill select general education requirements
2. Internship (maximum 6 hours) is strongly recommended

All applicable prerequisites must be met

### Graduation Requirements

- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- **Grade of ‘C’** Minimum required for all upper-level courses in the major
- 50% Of major and cognate taken through Liberty University
- 30 Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

### Programs of Study

#### Delivery Format: Residential and Online

- Information Systems (B.S.) - Accounting Information Systems - Online (p. 649)
- Information Systems (B.S.) - Accounting Information Systems - Resident (p. 650)
- Information Systems (B.S.) - Data Networking - Online (p. 651)
- Information Systems (B.S.) - Data Networking - Resident (p. 652)
- Information Systems (B.S.) - Database - Online (p. 653)
- Information Systems (B.S.) - Database - Resident (p. 654)
- Information Systems (B.S.) - Information Assurance - Online (p. 656)
- Information Systems (B.S.) - Information Assurance - Resident (p. 657)
- Information Systems (B.S.) - Online (p. 657)
- Information Systems (B.S.) - Resident (p. 658)

#### Delivery Format: Residential Only

- Information Systems (B.S.) - Global Studies - Resident (p. 655)

### Career Opportunities

- Application Analyst
- Computer Systems Analyst
- Database Administrator
- Data Analyst
- Information Systems Manager
- Network Engineer
- Web & Mobile Developer

### Information Systems Major (B.S.)

#### Purpose

The Information Systems (IS) discipline provides students with an applied knowledge of technology, focusing on the information side of the information technology industry. The IS discipline is concerned with ways in which computer technology can be optimized so that it can provide maximum benefit to a business.

Students in the IS major will study topics such as database management, information systems, networking and telecommunications, programming, project management, system analysis and design, and WWW architecture and design.

#### Program Learning Outcomes

The student will be able to:

1. Evaluate ethical business management information systems practices within the context of the Christian worldview.
2. Determine effective solutions to hypothetical and/or real life situations using core business management information systems principles and practices and/or tools and techniques.
3. Construct applications, designs, and plans in the areas of hardware, software, and web architecture for various program and database management systems.
Courses

CSIS 100 Introduction to Information Sciences and Systems  3 Credit Hours

Prerequisites: MATH 108 or MATH 110 or MATH 115 or MATH 117 or MATH 121 or MATH 122 or MATH 126 or MATH 128 or MATH 131 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 21 or (pre2016 SAT Math with a score of 530 or SAT Section Math with a score of 560 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 070.

This course examines the design, selection, implementation and management of enterprise Business solutions. The focus is on identifying critical business processes and envisioning how technology can be developed to provide solutions which generate competitive advantage. Students learn how applying frameworks and strategies around the Business Process and Organization Strategy provide a competitive advantage. The course also includes a component for Technical Writing for Information Systems. (Formerly BMIS 200)

Offered: Resident and Online

CSIS 110 Introduction to Computing Sciences  3 Credit Hours

Prerequisites: MATH 121 or MATH 125 or MATH 126 or MATH 128 or MATH 131 or MATH 132 or MATH 133 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 227 or MATH 250 or ACT Math with a score of 25 or (pre2016 SAT Math with a score of 570 or SAT Section Math with a score of 590 or Assessment - Mathematics II with a score of 15 or Placement Score-Math with a score of 075.

A breadth-first introduction to the computing disciplines, with an emphasis on computer ethics and how computing technology impacts the world. Topics include: computing history; discrete mathematics; computer architecture and organization; algorithm design; languages; compilers; operating systems; applications; networks; databases; intellectual property; privacy; free speech; social consequences; computer crime; and codes of conduct. (Formerly CSCI 110)

Offered: Resident and Online

CSIS 111 Introduction to Programming  3 Credit Hours

Prerequisites: (CSCI 110 or CSIS 110 or ENGR 110

Introduction to structured programming and algorithms with an object-oriented language. Topics include input/output, flow of control, functions, and an introduction to software engineering. Programming assignments are required. (Formerly CSCI 111)

CSIS 112 Advanced Programming  3 Credit Hours

Prerequisites: CSCI 111 or CSIS 111

Continuation of CSIS 111. Further development of discipline in program design, especially for larger programs. Introduction of pointers, simple data structures, recursion, internal sort/search methods. Programming assignments are required. (Formerly CSCI 112)

CSIS 208 Application Programming  3 Credit Hours

Prerequisites: (CSCI 100 or CSIS 110) and (MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450 or BUSI 230.

Development of computer and programming skills, problem solving methods, and selected applications. This course provides a broad-based introduction to programming in Visual Basic. Students will learn how to build a program from the design phase all the way through to delivery. (Formerly BMIS 208)

Offered: Resident and Online

CSIS 209 C# Programming  3 Credit Hours

Prerequisites: BMIS 208 or CSIS 208 or CSCI 111 or CSIS 111 or ISYS 211 or CSIS 212 or BMIS 212 or BMIS 212 or ISYS 212.

Development of computer and programming skills using the C# language. Students will learn how to use C# to develop stand-alone applications in an IDE. Advanced concepts, such as database connectivity and web applications will also be examined. (Formerly BMIS 209)

Offered: Resident and Online

CSIS 212 Object-Oriented Programming  3 Credit Hours

Prerequisites: CSIS 110 or CSIS 208 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 211 or MATH 217 or MATH 221 or MATH 227 or MATH 231 or MATH 250 or MATH 301 or MATH 302 or MATH 305 or MATH 307 or MATH 311 or MATH 321 or MATH 331 or MATH 332 or MATH 334 or MATH 350 or MATH 352 or MATH 400 or MATH 401 or MATH 411 or MATH 419 or MATH 420 or MATH 421 or MATH 422 or MATH 431 or MATH 450.

A study of the general-purpose, secure, object-oriented, portable programs. This course prepares students to program stand-alone applications. It will cover features such as programming concepts, data types, operators, flow control statements, objects, classes, methods, arrays, and strings. The concept of object-oriented programming is emphasized. (Formerly BMIS 212)

CSIS 215 Algorithms and Data Structures  3 Credit Hours

Prerequisites: (CSCI 112 or CSIS 112) and MATH 250.

Study of data structures such as linked lists, stacks, queues, trees, and graphs. Algorithms for manipulating such structures will be introduced and analyzed. Static and dynamic memory allocation. Access methods for sorting/searching, such as hashing and tree searching. (Formerly CSCI 215)

Offered: Resident and Online
CSIS 244 Assembly Language  
**3 Credit Hours**  
**Prerequisites:** CSCI 111 or CSIS 111  
A detailed development of the tools and techniques of assembly language on a particular computing system. Several programming assignments are required. (Formerly CSCI 244)  
**Offered:** Resident

CSIS 299 Internship  
**0 Credit Hours**  
Application procedures processed through the Career Center. Must apply semester prior to internship. (Previously BMIS/CSCI 299)  
**Registration Restrictions:** Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.  
**Offered:** Resident

CSIS 310 Web Architecture and Development  
**3 Credit Hours**  
**Prerequisites:** CSIS 111 or CSIS 208 or CSIS 212  
Provides students with thorough knowledge of the foundations of web architecture, current technologies utilized in the development of a web site, and criteria for assessing the usability of web sites. (Formerly CSCI 310) (Crosslisted with BMIS 310)

CSIS 312 Advanced Object-Oriented Programming  
**3 Credit Hours**  
**Prerequisites:** CMIS 212 or CSIS 212 or ISYS 212 or BMIS 212  
In-depth study of the advanced features of Java, with an emphasis on the 'why' as well as the 'how to' of programming in the Java language. This course also prepares students for the Sun Certified Java Programmer exam. (Formerly BMIS 312)  
**Offered:** Resident

CSIS 315 Client-Side Programming  
**3 Credit Hours**  
**Prerequisites:** (CSIS 212 or BMIS 212) or (CSIS 112 or CSCI 112)  
This course provides an introduction to the various languages and tools used in client-side programming. The fundamentals of client-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 315)  
**Offered:** Resident and Online

CSIS 316 Server-Side Programming  
**3 Credit Hours**  
**Prerequisites:** CSIS 112 or CSIS 212  
This course provides an introduction to the various languages and tools used in server-side programming. The fundamentals of server-side programming will be emphasized. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 316)  
**Offered:** Resident and Online

CSIS 320 IS Hardware and Software  
**3 Credit Hours**  
**Prerequisites:** (CSCI 110 or (CSIS 110 or (BMIS 200 or (CSIS 100  
Emphasis is placed on the role of the computer in information processing, including the design of computer hardware and operating systems, application programming, data storage, network and client/server concepts, and systems development life cycle. (Formerly BMIS 320)

CSIS 325 Database Management Systems  
**3 Credit Hours**  
**Prerequisites:** (MATH 201 or BUSI 230) and (BMIS 212 or CSIS 212 or BMIS 208 or CSIS 208)  
The study of relational database architecture, design, access, administration and implementation in the context of various organizational environments. The course includes issues of data normalization, standard queries, and the use of popular relational and object technologies for building business-oriented applications. Assigned projects will provide hands-on experience with industry leading SQL and RDBMS tools and ER CASE tools currently popular in business and government settings. (Formerly BMIS 325)

CSIS 326 Database System Concepts  
**3 Credit Hours**  
**Prerequisites:** (CSIS 215 or CSCI 215) and (MATH 211 or ENGR 210)  
The study of database management systems, database architecture, design, queries, applications, administration and implementation. The course will focus on data normalization, SQL (queries), and the use of relational technology for building database applications. Projects will be assigned to provide hands-on experience with the SQL language and relational database management software packages. (Formerly CSCI 325)  
**Offered:** Resident

CSIS 327 Introduction to Oracle  
**3 Credit Hours**  
**Prerequisites:** BMIS 325 or CSIS 325 or ISYS 325 or CMIS 450  
This course introduces the fundamentals of database design using an Oracle platform. Database administration will be introduced as well as the basic concepts of data manipulation in an Oracle environment. (Formerly BMIS 326)

CSIS 328 Advanced Oracle  
**3 Credit Hours**  
**Prerequisites:** BMIS 326 or CSIS 327  
This course introduces the advanced topics of database administration in Oracle. Multi-dimensional databases for Business Intelligence applications will be examined as well. (Formerly BMIS 327)  
**Offered:** Resident
CSIS 330 Business Data Communication Systems 3 Credit Hours

Business Data Communications. The study of the movement of information (data) from one device to another by means of electrical, optical, radio or satellite transmission systems. This course will introduce the architecture, concepts, terminology, design, and management issues related to the modern environment of networking and data communications. Various types of networks and communication systems, protocols, regulatory issues and policies will be explored. (Formerly BMIS 330)

CSIS 331 Networks 3 Credit Hours

Prerequisites: CSIS 330

Building on the foundational knowledge of the 330 course, this is a study in corporate data networking. This course primarily focuses on switched networks (wired and wireless) with hands on work on setting up and operating a switched network. Routed networks fundamentals and concepts will be introduced to prepare students for careers in networks operations and the follow-on advanced networks class. (Formerly BMIS 331)

CSIS 335 Network Security 3 Credit Hours

Prerequisites: BMIS 330 or CSIS 330 or ISYS 330 or CMIS 330

A study of the control of unwanted intrusions into, use of, or damage to a business' computer network. This course will cover elements that prevent unwanted activities in an efficient and cost effective manner. This study will start with a focus on the business challenges and threats network professionals face in their day to day operations. It explores the nature and intent of hackers and defines preventative measures such as Intrusion Detection Systems, firewalls, and virtual private networks. (Formerly BMIS 335)

CSIS 340 Studies in Information Security 3 Credit Hours

This course introduces the basic issues and principles of information system security such as security policies, their mechanisms of implementation, means attackers use to circumvent these protections, and defenses against these attackers. (Formerly CSCI 340) (Crosslisted with BMIS 340 and BUSI 417)

CSIS 341 Information Security Planning 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340

This course will deal with the proper planning for and initial implementation of an Information Security program. The topics included would be: security planning and policies, risk analysis, program accreditation, systems lifecycle management, contingency planning, physical security measures, personal security practices and procedures, software security, network security, administrative controls, crypto security. (Formerly CSCI 351) (Crosslisted with BMIS 341)

CSIS 342 Computer Architecture and Organization 3 Credit Hours

Prerequisites: CSIS 215 or CSCI 215

Introduction to architecture and organization of computer systems. Data and instruction representations. Arithmetic and logical operations. Processor and memory implementations. (Formerly CSCI 342)

Offered: Resident and Online

CSIS 343 Cybersecurity 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340 or BUSI 417

A comprehensive overview of the essential concepts students must know as they pursue careers in information systems security. Topics include a discussion of the new risks, threats, and vulnerabilities associated with the transformation to a digital world, including a look at how business, government, and individuals operate today. Additionally, information is included from the Official (ISC) 2 SSCP Certified Body of Knowledge and presents a high-level overview of each of the seven domains within the System Security Certified Practitioner certification. (Formerly BMIS 342)

CSIS 344 Information Security Operations 3 Credit Hours

Prerequisites: CSCI 340 or BMIS 340 or CSIS 340

This course will cover the issues and tasks involved in the day to day operation of an Information Security System. The topics included in this course would be: risk management, auditing and monitoring, regulations and compliance, disaster recovery, incidence response, key management, information systems hardware and software operation, networks and transmission security, operational security, and cryptography. (Formerly CSCI 352)

Offered: Resident

CSIS 345 Introduction to Linux 3 Credit Hours

Prerequisites: CSCI 112 or CSCI 112 or ISYS 212 or BMIS 212 or CSIS 212

This course introduces students to the usage and administration of the UNIX Operating System. The course will emphasize end-user tools and commands for basic file manipulation, editing, compilation and debugging, as well as special features of the UNIX shell environment. Basic system administration will also be covered. Students will learn through a combination of traditional lectures, hands-on laboratory sessions, and individual assignments. (Formerly CSCI 345)

Offered: Resident and Online

CSIS 351 System Analysis and Design 3 Credit Hours

Prerequisites: CSIS 325

This practical course in information systems development will cover the concepts, skills, methodologies (RAD as well as SDLC), and tools essential for systems analysts to successfully develop information systems. The course will also introduce the student to the Oracle Designer CASE tools, which will be used to assist in the documentation of the analysis and design phases. The course will include a significant amount of team-based activities, therefore issues associated with team interactions and processes will be discussed. (Formerly BMIS 351)
CSIS 352 System Administration 3 Credit Hours
Prerequisites: (BMIS 320 or CSIS 320) or CSIS 345
Principles of system administration activities, applications, operating systems, and domains; analysis of computing applications, infrastructures, architectures, firmware, hardware, disaster recovery, security, and enterprise deployment.

CSIS 354 Integrative Programming and Technologies 3 Credit Hours
Prerequisites: BMIS 320 or CSIS 320
Examines the integration of systems and applications across global businesses; explores programming interfaces, data mapping and exchange, scripting, and programming languages to support the configuration, maintenance, integration, and security of systems.

CSIS 355 Network Architecture and Protocols 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and RSCH 201
A study of how computer networks and internets operate. Investigates networking from the level of data transmission and wiring through the level of application software that provides networking functionality. Topics include: data and packet transmission, LANs and WANs, and internet concepts, including architecture, protocol layering, and application software. (Formerly CSCI 355)

Offered: Resident and Online

CSIS 375 Introduction to Human-Computer Interaction 3 Credit Hours
Prerequisites: BMIS 208 or BMIS 212 or CSIS 208 or CSIS 212 or CSIS 111
This course provides a study and application of the concepts, theory, and practice of effective user interactive computer software, including user-centered design principles, guidelines and evaluation for designing a software product. Cognitive and social aspects of human interaction will be examined in conjunction with elements of technological devices. Human interaction with mobile applications, internet applications, social networking technology, cloud computing, and stand-alone applications will be explored. (Formerly CSCI 375) (Crosslisted with BMIS 375)

Offered: Resident and Online

CSIS 405 Business and Economic Forecasting 3 Credit Hours
Prerequisites: (MATH 201 or BUSI 230) and (ECNC 214 or ECON 214)
Factors producing and study of cyclic movements, analysis of their causes and methods of forecasting as well as study of seasonal, erratic and other movements. (Formerly BMIS 405) (Crosslisted with BUSI 405)

CSIS 408 Web and Mobile Programming 3 Credit Hours
Prerequisites: CSCI 315 or CSCI 316 or CSIS 315 or CSIS 316
This course provides an in-depth look at current enterprise level technologies used for standardized business-to-business communication among client-server applications using Internet Services technologies. It covers modern technologies used as well as new and rising technologies. Due to the particularly dynamic nature of Internet technologies, course content will change as appropriate. (Formerly CSCI 405)

Offered: Resident and Online

CSIS 410 Web Enterprise Technologies 3 Credit Hours
Prerequisites: (BMIS 310 or CSIS 310) and (BMIS 325 or CSIS 325 or CSCI 325 or CSIS 326 or ISYS 325 or CMIS 450)
Provides students with thorough knowledge of current technologies and best practices for developing database driven dynamic websites including database and client side programming. (Formerly BMIS 410)

CSIS 416 AITE Capstone 3 Credit Hours
Prerequisites: CSCI 405 or CSIS 408
This is the capstone course. The student will learn to work in teams in the programming of their capstone project. The teams will give both written and oral presentations to their clients. (Formerly CSCI 416)

CSIS 430 Advanced Networking and Communication Systems 3 Credit Hours
Prerequisites: BMIS 331 or CSIS 331 or CSCI 355 or CSIS 355
This course focuses on routed data networks and the implementation of previously learned business data communications and switched networks concepts, principles and strategies to build a complete data communications network. This course is an in-depth study of technologies and equipment in modern communication networks. The TCP/IP stack and Cisco (or comparable) networking equipment are used to explore methodologies for designing, configuring, and maintaining communication networks. (Formerly BMIS 430)

CSIS 434 Theory of Programming Languages 3 Credit Hours
Prerequisites: CSCI 215 or CSIS 215
A theoretical study of programming languages. Introduction to grammars and parsers. Language design issues and practical applications. (Formerly CSCI 434)

Offered: Resident and Online
CSIS 440 Digital Forensics 3 Credit Hours
Prerequisites: CSIS 341

Students are introduced to the concept of computer crimes and the need for forensics specialists (people who know how to find and follow the evidence). System Forensics, Investigation, and Response begins by examining the fundamentals of system forensics, the role of computer forensics specialists, computer forensic evidence, and application of forensic analysis skills. It also gives an overview of computer crimes, forensic methods, and laboratories. It then addresses the tools, techniques, and methods used to perform computer forensics and investigation. Finally, it explores emerging technologies as well as future directions of this interesting and cutting-edge field. (Formerly BMIS 440)

Offered: Resident

CSIS 443 Operating Systems 3 Credit Hours
Prerequisites: CSCI 342 or CSIS 342

Resource management for processes, files, devices, and memory. Deadlock and recovery procedures. Security issues. (Formerly CSCI 443)

Offered: Resident and Online

CSIS 461 Technical Aspects of Computer Security 3 Credit Hours
Prerequisites: CSCI 355 or CSIS 355

This course introduces the following issues and principles of information system security: security policies and their mechanisms of implementation, methods used by attackers attempting to circumvent these protections, and specific defenses against these attackers.

Offered: Resident and Online

CSIS 463 Modern Cryptography 3 Credit Hours
Prerequisites: MATH 350 and (CSCI 215 or CSIS 215)

Study of modern cryptographic techniques. Covers basic cryptographic concepts, including symmetric key, public key, hash functions, digital signatures, and message authentication codes.

Offered: Resident and Online

CSIS 465 Enterprise Systems and Integration 3 Credit Hours
Prerequisites: CSIS 352 and CSIS 354

Information technology capstone course focuses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance.

CSIS 466 Modern Cryptography 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and (MATH 350

Offered: Resident

CSIS 470 Executive Perspectives on E-Commerce Technology 3 Credit Hours
Prerequisites: (BMIS 310 or CMIS 310 or ISYS 310 or CSIS 310) and (BMIS 351 or CMIS 351 or ISYS 351 or CSIS 351)

The capstone course for the Web Technology and Design degree. The course synthesizes material presented in previous courses highlighting the challenge of communication electronic commerce technology issues to non-technically oriented executives. Specific topics will include: models of web business strategy; and non-business web applications in government and education. (Formerly BMIS 470)

Offered: Resident

CSIS 471 Software Engineering 3 Credit Hours
Prerequisites: (CSCI 215 or CSIS 215) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Study of the software development process. Topics include: phases of a software project, life-cycle models; metrics; tools; and ethical and professional issues. Participation on team projects is integral. (Formerly CSCI 481)

Registration Restrictions: Senior Status.

Offered: Resident and Online

CSIS 473 IS Project Management 3 Credit Hours
Prerequisites: (CMIS 351 or BMIS 351 or ISYS 351 or CSIS 351) and (ECNC 214 or ECON 214 or ENGI 220) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Capstone course for MIS majors. Develops skills in managing the project development cycle in an organization. Topics include systems engineering, cost analysis, risk management, and managing the socio-technological elements of a project. (Formerly BMIS 460)

CSIS 474 Enterprise Systems and Integration 3 Credit Hours
Prerequisites: CSIS 352 and CSIS 354 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Information technology capstone course converses by focusing on a sequence of projects that designs and builds systems and integrates them into a global business; emphasizes IT project management, enterprise architecture, business requirement analysis, system modeling, acquisition, testing, deployment, and quality assurance. (Formerly CSIS 465)

CSIS 481 CS Capstone I 3 Credit Hours
Prerequisites: (CSCI 471 or CSCI 481) and CSIS 326

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Computer Science program. A team solution of a real-world project is required. (Formerly CSCI 482)

Offered: Resident
CSIS 482 CS Capstone II  
Prerequisites: CSIS 481

The activities in this course provide a hands-on experience that will allow the students to apply the various skills and knowledge they have gained throughout their Computer Science program. Teams of three to four persons will be formed at the beginning of the course. Software is nearly always developed by teams so this kind of experience is crucial for career preparation. A real-world project submitted by a ministry, some component of the university, or an associated business organization will be identified for each team. These projects will be selected to emphasize the software development process, as well as result in a viable product.

Offered: Resident

CSIS 483 Information Systems Capstone  
Prerequisites: (CSIS 351 or BMIS 351) and (CSIS 473 or BMIS 460)

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Systems program. A team solution of a real-world project is required.

Offered: Resident

CSIS 484 Information Technology Capstone  
Prerequisites: (CSIS 465 or CSIS 474)

A hands-on experience that requires students to apply the skills and knowledge gained throughout the Information Technology program. A team solution of a real-world project is required.

Offered: Resident

CSIS 485 Cybersecurity Capstone I  
Prerequisites: CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471

This course is a comprehensive review of the computer science cybersecurity program and integrates all concepts of software cybersecurity, from a secure software development lifecycle (SDLC) point of view.

Offered: Resident and Online

CSIS 486 Cybersecurity Capstone II  
Prerequisites: CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471 and CSIS 485

This course is a continuation of the Cybersecurity Capstone I course and serves as the culmination of the computer science cybersecurity program which integrates all concepts of enterprise cybersecurity, from an offensive and defensive point of view.

Offered: Resident and Online

CSIS 495 Directed Research  
Prerequisites: CSCI 215 or CSIS 215

Study of advanced topics in computer science on an individual basis. Periodic meetings with instructor.

Registration Restrictions: Permission of instructor.

Offered: Resident

CSIS 497 Special Topics in Technology  
Prerequisites: CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471

Selected topics in various areas of computer science. May be repeated for credit when topic varies. (Formerly CSCI 497)

Registration Restrictions: Permission of instructor.

Offered: Resident

CSIS 499 Internship  
Prerequisites: CSIS 100 and CSIS 110 and CSIS 111 and CSIS 112 and CSIS 215 and CSIS 471 and CSIS 485

Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. (Formerly CSCI 499)

Registration Restrictions: Junior Status, required GPA & permission of Faculty Intern Advisor.

Offered: Resident

Information Systems (B.S.) - Accounting Information Systems - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

### Free Electives

Choose 9-18 credit hours of free electives

**Total Hours:** 78-87

---

1. Courses may also fulfill select general education requirements
2. Internship (maximum 6 hours) is strongly recommended.

### Graduation Requirements

- **120 Total hours**
- **2.0 Overall grade point average**
- **30 Hours must be upper-level courses (300-400 level)**
- **Grade of 'C' Minimum required for all upper-level courses in the major**
- **50% Of major and cognate taken through Liberty University**
- **30 Hours must be completed through Liberty University**
- **Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date**

---

1. Refer to the list of approved general education electives before enrolling in foundational skill requirements
2. All students must pass the Computer Assessment OR complete applicable INFT course
3. Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived

Free Electives

Choose 21-30 credit hours of free electives

Total Hours: 78-87

1. Courses may also fulfill select general education requirements.
2. Internship (maximum 6 hours) is strongly recommended.

All applicable prerequisites must be met.

Graduation Requirements

- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of ‘C’ Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

Information Systems (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Information Technology Major (B.S.)**

**Purpose**

The Information Technology (IT) discipline provides students with an applied knowledge of technology in a business environment. The information technology program is concerned with understanding the theoretical foundations of information technology, evaluation of appropriate information technology for business needs, and the management of organizational information technology resources. Students in the information technology major will study topics such as database management, computer programming, networking and telecommunications, information security, systems administration, integrative programming, human computer interaction, web architecture and development, information system hardware and software, and enterprise systems and integration.

**Program Learning Outcomes**

The student will be able to:

1. Conduct best practices in information technology while maintaining a Christian worldview.
2. Apply core information technology principles and practices to determine effective solutions to hypothetical and/or real life situations.
3. Evaluate and maintain information technology solutions that meet desired requirements.

**Programs of Study**

**Delivery Format: Residential and Online**

- Information Technology (B.S.) - Application & Database Development - Online (p. 660)
- Information Technology (B.S.) - Application & Database Development - Resident (p. 661)
- Information Technology (B.S.) - Data Networking & Security - Online (p. 662)
- Information Technology (B.S.) - Data Networking & Security - Resident (p. 663)
- Information Technology (B.S.) - Gaming Design - Online (p. 664)
- Information Technology (B.S.) - Gaming Design - Resident (p. 665)
- Information Technology (B.S.) - Web & Mobile Programming - Online (p. 666)
- Information Technology (B.S.) - Web & Mobile Programming - Resident (p. 667)

---

All applicable prerequisites must be met
Career Opportunities

• Database Administrator
• Network Engineer
• Software Developer
• Systems Administrator
• Web and Mobile Developer

Courses

INFT 000 Computer Competency 0 Credit Hours

Offered: Resident

INFT 102 PowerPoint 1 Credit Hour

An introduction to the basics of Microsoft® PowerPoint which includes creating and editing presentations, slide design, layout, transitions and animation. Topics including tables, pictures, Word Art and charts will be included in the course.

INFT 103 Excel 1 Credit Hour

An introduction to the basics of Microsoft® Excel which includes creating and analyzing data through the use of performing calculations and various formulas. Topics include entering data in a cell, constructing formulas, formatting worksheets, using the SUM function and creating charts based on data from the spreadsheet.

INFT 104 Word 1 Credit Hour

An introduction to the basics of Microsoft® Word which includes creating professional documents, editing and formatting documents and generating reports. Topics include inserting text, graphics and tables as well as modifying text boxes, tabs and general paragraph alignment.

INFT 105 Introduction to Information Literacy 1 Credit Hour

An introduction to the information literacy skills and resources needed for academic research and lifelong learning. Students will learn to identify, assess, organize, and report information responsibly, including library print and electronic materials as well as web resources.

INFT 110 Computer Concepts and Applications 3 Credit Hours

This course will introduce the student to the operation and use of computers. Specific applications taught include operating systems, word processing, spreadsheets, and presentation software. In addition, students will learn basic terminology and concepts related to the use of computers in today’s society.

INFT 111 MAC Computer Concepts and Applications 3 Credit Hours

This course will introduce the student to the operation and use of Mac computers. Specific applications taught include operating systems, word processing, spreadsheets, and presentation software. In addition, student will learn basic terminology and concepts related to the use of computers in today’s society.

INFT 126 Adobe InDesign - Introductory 1 Credit Hour

This course will introduce the student to Adobe InDesign. Specific skills taught include creating, editing, and publishing a created document to various media formats.

INFT 127 Adobe Photoshop - Introductory 1 Credit Hour

This course will introduce the student to Adobe Photoshop. Specific skills taught include creating, editing, and publishing digital content, including photos, images, and effects.

INFT 151 Mobile Media Techniques 1 Credit Hour

This course will introduce students to mobile devices, concepts, and using established mobile apps. Students will use mobile devices to create and web publish mobile media content that will enhance their understanding of the tools and functions available to tell their stories, communicate content, and establish a web presence.

INFT 152 Social Media Tools - Introductory 1 Credit Hour

This course will introduce the concepts and applications of social media. Students will gain hands on experience using readily available social media tools to create a social media presence on the internet.

INFT 241 CompTIA A+: Computer Hardware and Operating Systems Certification 3 Credit Hours

This course will introduce hardware, software, operating systems, and trouble-shooting. Students will learn basic skills in building and trouble-shooting computers, installing/configuring operating systems, and basic networking.

Information Technology (B.S.) - Application & Database Development - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

### Graduation Requirements

- **120** Total hours
- **2.0** Overall grade point average
- **30** Hours must be upper-level courses (300-400 level)
- **Grad of 'C'** Minimum required for all upper-level courses in the major
- **50%** Of major and cognate taken through Liberty University
- **30** Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

1 Refer to the list of approved general education electives before enrolling in foundational skill requirements
2 All students must pass the Computer Assessment OR complete applicable INFT course
3 Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived

School of Communication & Digital Content Administration

Vice Provost
Program Directors

A listing of program directors can be viewed at http://www.liberty.edu/programdirectors.

Research Intensive Courses

All research intensive courses are listed online at https://www.liberty.edu/academics/qualityenhancement/index.cfm?PID=32835.

Purpose

The School of Communication & Digital Content, comprising the Departments of Digital Media and Journalism, and Strategic and Personal Communication, offers undergraduate and graduate degrees in order to prepare scholars and practitioners in the execution and theory of the communication field. Majors, by department, include: Digital Media and Journalism; Strategic and Personal Communication; Communication and Strategic Communication.

Departments

- Department of Digital Media & Journalism (p. 676)
- Department of Strategic & Personal Communication (p. 690)

Programs

- Communication Major (B.S.) (p. 693)
- Digital Media & Journalism Minors (p. 679)
- Digital Media Major (B.S.) (p. 681)
- Journalism Major (B.S.) (p. 687)
- Strategic Communication Major (B.S.) (p. 698)

Faculty

A

Alban, Donald; B.A., M.A., Ph.D.
Title: Professor of Communication Studies
B.A. - Appalachian Bible College, M.A. - Regent University, Ph.D. - Regent University

Alban, Evangeline; B.S., B.S., M.A., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, B.S. - Liberty University, M.A. - Liberty University, M.A. - Towson University

Allison, David; M.A., M.Div., Ed.D.
Title: Adjunct Faculty

B

Bailey, Joseph; B.S., M.A., Ph.D.
Title: Adjunct Faculty
B.S. - Hardin Simmons University, M.A. - Abilene Christian University, Ph.D. - Texas A&M University

Baker, Meagan; B.A., M.A.
Title: Adjunct Faculty
B.A. - Virginia Polytechnic Institute and State University, M.A. - Liberty University

Bansley, Charla; B.A., M.A.
Title: Adjunct Faculty
B.A. - George Mason University, M.A. - Liberty University

Beck, Christopher; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Baptist Bible College, M.A. - Missouri State University, Ph.D. - Regent University

Black, Erin; B.A., M.B.A.
Title: Instructor
B.A. - Christopher Newport University, M.B.A. - Longwood University

Bonebright, Amy; B.S., M.A.
Title: Assistant Professor of Communication Studies
B.S. - Liberty University, M.A. - Regent University

Brake, Andrea; M.A., M.B.A.
Title: Instructor
M.A. - Liberty University, M.B.A. - Liberty University

Burnham, Denise; B.S., M.A.
Title: Adjunct Faculty
B.S. - Florida State University, M.A. - Texas State University in San Marcos

C

Carter, Zackery; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Purdue University at West Lafayette, M.A. - Purdue University at West Lafayette, Ph.D. - Regent University

Carver, Amanda; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Carver, Kendra; B.S., M.A.
Title: Adjunct Faculty
B.S. - Western Carolina University, M.A. - Appalachian State University

Cates, Benjamin; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Chiles, Tabethia; B.S., M.A.
Title: Adjunct Faculty
B.S. - Liberty University, M.A. - Liberty University

Clark, Chris; B.A., M.F.A.
Title: Adjunct Faculty
B.A. · Point Loma Nazarene University, M.F.A. · Academy of Art University

Cooke, Elliott; B.A., M.Div., Ph.D.
Title: Adjunct Faculty
B.A. · Eastern Nazarene College, M.Div. · Gordon-Conwell Theological Seminary, Ph.D. · Regent University

Cooke, John; B.A., M.A.
Title: Adjunct Faculty
B.A. · The Citadel, M.A. · Regent University

D
Dewhurst, William; B.S., M.A.
Title: Instructor
B.S. · Liberty University, M.A. · Liberty University

E
Ellett, Tracy; B.A., M.A.
Title: Instructor
B.A. · West Virginia University, M.A. · Duquesne University

F
Felton, Richmond; B.S., M.F.A.
Title: Adjunct Faculty
B.S. · Hampton University, M.F.A. · Regent University

Fiore, Jeffrey; B.S., M.A.
Title: Adjunct Faculty
B.S. · East Tennessee State University, M.A. · Savannah College of Art Design

Fujishin, Jared; B.A., M.A.
Title: Adjunct Faculty
B.A. · William Jessup University, M.A. · Liberty University

G
Gerstner, Kornel; B.A., M.A., M.F.A.
Title: Associate Professor of Communication Studies
B.A. · Moody Bible Institute, M.A. · Liberty University, M.F.A. · Academy of Art University

Gilliland, Jim; M.A.
Title: Instructor
M.A. · Liberty University

Greer, Clark; A.A., B.A., M.A., M.Div., Ph.D.
Title: Professor of Digital Media & Communications
A.A. · Shasta Bible College, B.A. · Los Angeles Baptist College, M.A. · University of Southern California, M.Div. · Northwest Baptist Seminary, Ph.D. · Bowling Green State University

H
Habrle, Christine; B.S., M.A.
Title: Adjunct Faculty
B.S. · University of Minnesota, M.A. · Regent University

Hark, Kristen; A.A.S., B.S., M.A., Ph.D.
Title: Instructor
A.A.S. · Shawnee State University, B.S. · Ohio University-Athens, M.A. · Marshall University, Ph.D. · Duquesne University

Heath, Edward; B.A., M.A.

Title: Adjunct Faculty
B.A. · University of Central Florida, M.A. · Regent University

Hepburn, Carol; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. · San Jose State University, M.A. · Mercy College, Ph.D. · Regent University

Huff, Deborah; B.A., M.B.A.
Title: Instructor
B.A. · Morehead State University, M.B.A. · Xavier University

Humphreys, Kayla; B.S., M.A.
Title: Adjunct Faculty
B.S. · Liberty University, M.A. · Liberty University

Hunt, Julia; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. · Oral Roberts University, M.A. · Wheaton College, Ph.D. · Regent University

J
Johnston, Jacob; B.A., M.A.
Title: Adjunct Faculty
B.A. · University of Kentucky, M.A. · Liberty University

Jones, Andrew; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. · Hillsdale College, M.A. · Liberty University, Ph.D. · Louisiana State University-Baton Rouge

Jones, Russell; BES, M.Div.
Title: Adjunct Faculty
BES · University of Missouri-Columbia, M.Div. · Saint Paul School of Theology

K
Karl, Abigail; B.S., M.A.
Title: Professor of Journalism
B.S. · Liberty University, M.A. · Liberty University

Katsion, John; B.S., M.A., Ph.D.
Title: Adjunct Faculty
B.S. · Pillsbury Baptist Bible College, M.A. · Minnesota State University-Mankato, Ph.D. · Regent University

Keating, Kristopher; B.S., M.S.
Title: Adjunct Faculty
B.S. · Quinnipiac University, M.S. · Quinnipiac University

Kirk, Bruce; B.G., M.A., Ed.D.
Title: Dean, School of Communication & Digital Content
B.G. · Kent State University, M.A. · Spring Arbor University, Ed.D. · Liberty University

Kirk, Jourdan; B.S., M.A.
Title: Adjunct Faculty
B.S. · Liberty University, M.A. · Liberty University

Kramer, Cecil; B.S., M.A., M.Div., D.Min.
Title: Professor of Communication Studies
B.S. · North Dakota State University, M.A. · University of North Dakota in Grand Forks, M.Div. · Liberty University, D.Min. · Bethel Seminary
Leverett, Jason; B.S., M.A., Ph.D.
Title: Instructor
B.A. - Liberty University, M.A. - Liberty University, Ph.D. - Regent University

Lunsford-Champion, Angela; B.A., M.A., M.Ed.
Title: Adjunct Faculty
B.A. - Logos Christian College and Graduate School, M.A. - Regent University, M.Ed. - Lipscomb University

Lyster, Robert; B.B.A., M.S., Ph.D.
Title: Adjunct Faculty
B.B.A. - Baylor University, M.S. - Texas A&M University, Ph.D. - Texas A&M University

Courses

**Communication Courses**

**COMS 101 Speech Communication**

*3 Credit Hours*

*Prerequisites: ENGL 100 or ENGL 101 or ESOL 100 or Placement Score-English with a score of 070*

Study and practice in communicating ideas competently in public speaking. Students are also given a foundation for development of communication skills in other human communication contexts, including dyadic and small group communication.

**COMS 113 Intro to Design: Principles/Elements**

*3 Credit Hours*

The investigation of design principles/elements. The elements of design will be covered in depth as well as the principles of design. Through exercises the student will demonstrate the use of these elements and principles of design.

**COMS 301 Basic Photography**

*3 Credit Hours*

Introduction to the techniques of taking and processing black and white photographs with consideration of the composition of both still and moving photography. Techniques of taking color transparencies for use in slide and slide-tape presentations, including title boards, graphics, and other imaging techniques. Legal and ethical implications. Portfolio preparation. 35mm camera with interchangeable lens required. Lab fee.

**COMS 315 Oral Interpretation**

*3 Credit Hours*

Study and practice of the art of using speech to communicate literature to an audience.

*Note: Offered fall semester.*

**COMS 325 Interpersonal Communication**

*3 Credit Hours*

A study of the nature of interpersonal communication and relationships. Attention is focused upon personal responsibilities, interactive factors, and message and contextual variables in relationships. Personal skills in stimulating friendships and resolving conflict are examined through exposure to theory, practical exercises, and analysis of personal relationships.

*Note: Offered fall semester.*

**COMS 330 Small Group Communication**

*3 Credit Hours*

Study and practice of the theories and methods of group communication.

*Note: Offered fall semester.*

**COMS 335 Argumentation**

*3 Credit Hours*

*Prerequisites: COMS 101*

Study and practice of principles of analysis, reasoning, evidence, organization and speaking needed to logically demonstrate and defend a position before an audience.

*Offered: Resident*

**COMS 340 Publication Design**

*3 Credit Hours*

*Prerequisites: COMS 222 or COMS 200*

**COMS 346 Advertising Copywriting and Design**

*3 Credit Hours*

*Prerequisites: (COMS 110 and COMS 220 and COMS 307 and VCAR 222) or (COMS 110 and COMS 220 and COMS 307 and ARTS 222)*

An introduction to advertising writing techniques for commercial, public service and direct marketing organizations with experience in various types of electronic and print media. Portfolio preparation.

*Offered: Resident*
COMS 351 Digital Imaging 3 Credit Hours

**Prerequisites:** COMS 222 or COMS 200

Importing digitized images into the computer via a scanner, a digital camera, or the Internet. Then modifying the digitized art and preparing it for electronic media or the printed page through electronic pre-press techniques such as black and white t1 targeting, color corrections; rotating, scaling, and cropping photographs; retouching; selecting color models; making color separations; and trapping. Training in a professional image-editing program. Lab fee.

COMS 355 Organizational Communication 3 Credit Hours

**Prerequisites:** COMS 101

A theoretical overview of communication functions and issues in a variety of contexts within organizations. Study and development of effective communication skills within the challenging, diverse workplace, and other organizational settings.

**Note:** Offered spring semester.

**Offered:** Resident

COMS 357 Public Relations Writing 3 Credit Hours

**Prerequisites:** COMS 110 and COMS 220 and COMS 234 and COMS 307 and (VCAR 222 or ARTS 222) and (VCAR 340 or ARTS 340)

This course builds upon the news writing techniques taught in COMS 220 and COMS 234 and the principles of advertising and public relations taught in COMS 307, while orienting the student toward the types of written products generated by public relations professionals. This advanced course will refine a student's writing skills while playing close attention to the various formats such as press releases, media advisories, crisis plans, press kits, etc.

**Offered:** Resident

COMS 358 Public Relations Strategies 3 Credit Hours

**Prerequisites:** COMS 110 and COMS 220 and COMS 234 and COMS 307 and (VCAR 222 or ARTS 222) and (VCAR 340 or ARTS 340)

A comprehensive study of public relations strategy, decision-making and program planning featuring a case-study approach to learning.

**Offered:** Resident

COMS 359 Chronicle of Motion Pictures and Television 3 Credit Hours

**Prerequisites:** Senior status and permission of instructor. The historical development and convergence of motion pictures and television, from their simultaneous origins in the 1890s through the new millennium.

**Offered:** Resident

COMS 367 Advanced Graphic Design 3 Credit Hours

**Prerequisites:** (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and INFT 101 and INFT 102) or (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and INFT 000) or (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and INFT 110) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and INFT 000) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and INFT 103) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and INFT 110)

Advanced study in graphic design, which integrates desktop publishing, digital illustration, digital imaging, page layout, and pre-press techniques with emphasis on the design process from visualization to production. Design and production of major projects for print including an extensive business identity package and a magazine project produced through both individual and group work. Critiquing designs. Portfolio preparation and presentation. Lab fee.

COMS 371 Forensic Practicum 1 Credit Hour

**Prerequisites:** (ARTS 110 and COMS 222 and COMS 232 and COMS 341) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341)

Introduction, theory, training, and instruction necessary to develop speech performance skills required for success on a competitive forensic speaking team. Students participate in multiple intercollegiate speaking events on campus and at other schools. Emphasis is on individual speaking events including platform, limited preparation, and oral interpretation events. Students must attend weekly coaching sessions and travel or present their work on a regular basis to receive credit. These credits may be repeated.

**Offered:** Resident

COMS 372 King's Players Practicum 1 Credit Hour

**Practical application of dramatic and ministry principles. Student activities include acting, costuming, publicity/promotion, set construction, sound reinforcement, and stage lighting.**

**Offered:** Resident

COMS 378 Selah Practicum 1 Credit Hour

**Prerequisites:** COMS 222 or VCAR 222 or ARTS 222

This course provides opportunities to apply what has been explored in the classroom through Selah, Liberty University's yearbook. Designed to enhance acquired skills and knowledge and provide the student with the opportunity to build a portfolio for employment.

**Offered:** Resident

COMS 455 Communication Theory 3 Credit Hours

**Prerequisites:** COMS 101 and COMS 210

A study of modern theories of communication with application to various contexts of speech communication.

**Note:** Offered fall semester.

**Offered:** Resident
COMS 465 Rhetorical Theory 3 Credit Hours

Prerequisites: COMS 101 and COMS 210

A historical survey and study of rhetorical theory in the past and present. Attention is given to Greek and Roman rhetorical theory, theories prevalent in the Middle Ages and Renaissance, and modern rhetorical theory.

Note: Offered spring semester.

Offered: Resident

COMS 472 Interactive Multimedia Design 3 Credit Hours

Prerequisites: COMS 222 or COMS 200

Study of both visual media design concepts and site management for web development. Practical experience in the preparation of digital materials while developing standards to evaluate the presentation of information with these tools. Training in industry-standard digital media and multimedia authoring programs guided by principles of design, including graphic design and user interface design. Lab fee.

COMS 474 Advanced Audio Production 3 Credit Hours

Prerequisites: COMS 101 and COMS 110 and COMS 220 and COMS 324 and COMS 334

Writing and production of dramatic and documentary programs for radio and Internet distribution. Portfolio development.

Note: Offered spring semester.

Offered: Resident

COMS 475 Criticism of Public Address 3 Credit Hours

Prerequisites: COMS 101 and COMS 210

The investigation of public address through historical and rhetorical critical methods. Focus on the development of competent critics through oral and written presentations.

Note: Offered fall semester.

Offered: Resident

COMS 490 Crisis Communication 3 Credit Hours

This course will examine modern crisis communication, and provide the students with exposure to and practice in organizational communication, gathering information and providing analysis, and oral and written communication skills, essential for handling crisis situations.

Registration Restrictions: Senior status.

Offered: Resident

COMS 492 Prof Practices in Graphic Desi 3 Credit Hours

Prerequisites: (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and COMS 371) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and COMS 371)

A senior-level course to further aid students in their upcoming transfer from the college setting to a graphic design work setting. Topics and issues related to professional practices followed by graphic designers relative to relationships with clients, design firms, and employees, as well as free lanceing, working as an independent contractor, resources on starting and operating a small graphic design studio, careers in graphic design, professional organizations, and portfolio presentation.

Offered: Resident

COMS 498 Senior Portfolio 3 Credit Hours

An intensive individual research or production project in which the graduating senior can best showcase his or her competence in the field of electronic media.

Registration Restrictions: Senior status and permission of instructor.

Offered: Resident

COMS 499 Internship 1-6 Credit Hours

Registration Restrictions: Junior or Senior status and required GPA.

Offered: Resident

DMCA 499 Internship 1-6 Credit Hours

DMCA 499 - Internship (1 to 6 hours) Prerequisites: None.

Offered: Resident and Online

Department of Digital Media & Journalism

John Rost, B.A., M.F.A.
Chair, Digital Media and Journalism
Associate Professor of Digital Media and Journalism

Purpose

The purpose of the Department of Digital Media and Journalism is to produce redemptive storytellers as communication professionals who are equipped with specific skills in videography, editing, audio production, on-air performance, and digital content and journalistic writing – all expressed through a multitude of genres and based on a Christ-centered perspective that governs everything undertaken in the field. Studying in Digital Media and Journalism will prepare students for a worldwide market to:

1. Use professional skills with great integrity as an expression of high moral and ethical values in storytelling.
2. Possess both theoretical and historical understanding of Digital Media and Journalism.
3. Make first-hand, practical application of knowledge in professional and personal contexts as a communicator in the field of Digital Media and Journalism.
Programs

- Digital Media & Journalism Minors (p. 679)

| JOUR 225   | Media Writing                 | 3            |
| Prerequisites: | ENGL 101                    |              |
| | This course provides a survey of mass communication media formats and writing techniques from news for print and broadcast, to advertising and public relations. The course is designed to enhance the appreciation of the mass communication professional as well as provide an understanding of the basic techniques used by the professional to inform and/or persuade audiences. Students will write news stories, produce copy for broadcast news, create an advertising package, and develop a public service announcement. (Formerly COMS 220) |
| Offered: | Resident                      |              |

| JOUR 234   | Modern Copy Editing           | 3            |
| Prerequisites: | JOUR 220 or JOUR 225        |              |
| | A writing course that emphasizes advanced grammar skills, copy editing across multiple platforms, and proofreading, as well as reporting and headline writing, tease and tag writing, legal and ethical considerations, and attention to layout and design. |
| Offered: | Resident                      |              |

| JOUR 354   | News Writing and Reporting II | 3            |
| Prerequisites: | (JOUR 220 or COMS 220 or JOUR 225) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80) |              |
| | The study and practice of news story preparation, including a step-by-step breakdown of each stage of story development for both print and electronic media. The student will concentrate on learning to write reporting style, which is different from expository writing. The student will develop responsibility for the accuracy and clarity of the work from gathering the information to assembling it into an article intended to inform and perhaps persuade. (Formerly COMS 354) |
| Offered: | Resident                      |              |
JOUR 356 Social Media Writing 3 Credit Hours
Prerequisites: JOUR 220 or JOUR 225
This course explores writing for various social media platforms and how they fit into a marketing plan. Students learn practical techniques used in producing social media content that promotes audience affinity and loyalty.
Offered: Resident and Online

JOUR 358 Strategic Web Writing (Blogging) 3 Credit Hours
Prerequisites: JOUR 220 or JOUR 225 or COMS 220
This course covers the study and practice of writing blogs for information, promotion, persuasion, and entertainment. The students will learn to craft their writing efforts in order to reach a variety of different audiences, including writing for media, businesses, nonprofit organizations and personal platforms. This course will allow students to build a portfolio.
Offered: Resident

JOUR 360 Media Convergence 3 Credit Hours
Prerequisites: ARTS 222 and (DIGI 225 or COMS 225) and (JOUR 354 or COMS 354)
This course features a hands-on approach that allows students to develop news stories using a variety of traditional media as well as social media such as Twitter, Facebook and Instagram. The media convergence class will help the student prepare material that is suitable for a portfolio.
Offered: Resident

JOUR 370 Sports Writing 3 Credit Hours
Prerequisites: JOUR 220 or JOUR 225
This course provides a survey of sports writing styles and will examine the elements that comprise a well-written sports story or column including such elements as narrative flow, colorful detail and appropriate quotations.
Offered: Resident

JOUR 373 Editorial and Opinion Writing 3 Credit Hours
Prerequisites: JOUR 220 or JOUR 225
A study in presenting opinions in a persuasive manner through research and writing. Students will develop skills to produce a commentary on contemporary issues that inform, persuade and change attitudes and actions. (Formerly COMS 373)
Offered: Resident

JOUR 374 Magazine Writing and Editing 3 Credit Hours
Prerequisites: JOUR 220 or JOUR 225
An advanced magazine writing course focusing on writing and selling full-length magazine articles with additional emphasis on magazine article editing and knowledge of the marketplace. (Formerly COMS 374)
Offered: Resident

JOUR 375 Community Reporting 3 Credit Hours
Prerequisites: JOUR 220 or JOUR 225
Examines the principles and practices of community journalism, offering students extensive hands-on experience in writing localized content. Special emphasis is given to the individual and group creation of targeted content.
Offered: Resident

JOUR 379 Champion Practicum 1 Credit Hour
Prerequisites: JOUR 220 or JOUR 225
This course provides opportunities to apply what has been explored in the classroom through the operation of The Liberty Champion, our Liberty University student-run newspaper. Practicum is designed to enhance those acquired skills and knowledge and provide the student with the opportunity to build a portfolio for employment. (Ad/PR students should request a sales assignment.) (Formerly COMS 390)
Offered: Resident

JOUR 389 Advertising Design and Photography Practicum 1 Credit Hour
Prerequisites: (JOUR 220 or JOUR 225) and (ARTS 222 or ARTS 224)
This course provides opportunities to apply what has been explored in the classroom in the area of advertising design. Practicum is designed to enhance those acquired skills and knowledge and provide the student with the opportunity to build a portfolio for employment, using real clients and their advertising placed in the Champion newspaper. (Formerly COMS 391)
Offered: Resident

JOUR 386 Advertising Practicum 1 Credit Hour
Prerequisites: JOUR 220 or JOUR 225
While priority will be given to Advertising/PR concentration students, this course is open as an elective to students majoring in Business Administration with the Marketing Cognate or to Sport Management majors. Students will work in support of the Advertising and Public Relations agency operated in the Department of Communication Studies under the wing of the Advertising/PR concentration. Students must enroll in this class if they plan to compete in Ad Team or Public Relations Student Society of America (PRSSA) contests. This practicum gives students the experience needed prior to getting an internship or a job in advertising or public relations or marketing or management. (Formerly COMS 397)
Offered: Resident
JOUR 482 Senior Project 3 Credit Hours

Prerequisites: (ARTS 222 and DIGI 224) or (JOUR 354 and DIGI 225)

This is a capstone course and a requirement for Digital Media and Communication Arts majors in the Journalism concentration. In a culminating activity, students produce three stories of professional quality designed for digital multimedia platforms. Students attend a weekly seminar and work independently under the supervision of a faculty member. Students will be required to immerse themselves in a specific beat such as education, business, medicine, sports, etc. for their news content.

Offered: Resident

JOUR 485 Investigative Reporting 3 Credit Hours

Prerequisites: JOUR 354

An in-depth study of research, story development, interview techniques and writing for investigative stories in mass media. Critical thinking and analysis will be developed as students review court documents and interview witnesses of cases and seek to evaluate the evidence. Research will be developed into a news story. (Formerly COMS 485)

Offered: Resident and Online

JOUR 497 Special Topics 1,3 Credit Hours

Offered: Resident

JOUR 498 Professional Practicum 1 Credit Hour

Prerequisites: (JOUR 354 or COMS 354) and (DIGI 225 or COMS 225 or COMS 224 or DIGI 224) and ARTS 222

This is a course designed for senior who are working for an on campus media group as an editor or producer. It is meant to give academic credit for the experience that gain as a leader for media outlet.

Offered: Resident

Digital Media & Journalism Minors

Digital Media Major (B.S.)

Purpose

The concentrations under this major are committed to preparing students for success in a digital, social and interactive media job market that is dramatically growing with each passing year. The concentrations cover the digital job market: video, audio, social and interactive media, storytelling and performance, while creating stories across multiple platforms.

Program Learning Outcomes

The student will be able to:

1. Create stories across multiple platforms.
2. Apply digital media knowledge, skills and behaviors to best practices in the discipline.
3. Create media reflective of the nature and heart of God.

Audio Concentration

The student will be able to:

1. Utilize current digital media equipment to create broadcast quality sounds for productions.
2. Develop sound, sound effects and sound design for effective storytelling.
3. Evaluate audio elements of digital media productions.

Performance Concentration

The student will be able to:

1. Utilize principles of style, color and fashion as they relate to personal appearance on camera.
2. Evaluate delivery styles and techniques.

Video Concentration

The student will be able to:

1. Utilize current digital media equipment to capture broadcast quality footage.
2. Implement effective storytelling as evidence by the production of broadcast quality packages.

Programs of Study

Delivery Format: Residential Only

- Digital Media (B.S.) - Audio - Resident (p. 684)
- Digital Media (B.S.) - Performance - Resident (p. 685)
- Digital Media (B.S.) - Video - Resident (p. 686)

Career Opportunities

- Director
- Host/co-host
- News anchor
- News director
- News reporter
- Producer
- Production manager
- Radio announcer
- Sound engineer
- Video editor
- Videographer

Courses

DIGI 100 Equipment Workshop 1 Credit Hour

This course will introduce the new Digital Media & Communication Arts student to the equipment available for their use throughout their academic career at Liberty University. Students will set up and execute basic functions of the various cameras, audio equipment and lighting fixtures available for use through the Media Lab. In addition, students will work through the Liberty University production manual including all production forms necessary to complete video and audio projects through the School of Communication and Creative Arts. This course is required of any student who expects to use Liberty University Media Lab equipment regardless of the student’s major.

Offered: Resident

DIGI 175 Fundamentals of Editing 3 Credit Hours

This course is a study of the techniques and workflow of the non-linear editing process, including tools and formats as they relate to the post-production process.

Offered: Resident and Online

</table>
DIGI 334 Intermediate Audio Production 3 Credit Hours

Prerequisites: (DIGI 224 or COMS 224) and DIGI 225 and DIGI 175

Intensive, practical experience in planning, coordinating, directing and producing various audio productions for broadcast. (Formerly COMS 334)

Offered: Resident

DIGI 335 Storytelling: Interactive, Social and Digital Media Writing 3 Credit Hours

Prerequisites: DIGI 220 and DIGI 240

Writing the webisode; an experiential class in the creation of particularly short-form, stand-alone moving image narratives for distribution through web and mobile devices, from treatment through script to final polish.

Offered: Resident

DIGI 337 Music Recording 3 Credit Hours

Prerequisites: DIGI 175 and DIGI 224 and DIGI 225

This course provides students the hands on experience to record, and mix down different music projects from a simple recital or solo project to a multi-track recording of a contemporary or symphonic band. Students will also learn proper microphone placement, mixing and application of specific plug-ins in music recording and production.

Offered: Resident

DIGI 340 Sports Broadcasting 3 Credit Hours

Prerequisites: DIGI 175 and DIGI 224 and DIGI 225

Play-by-play, analysis and color commentary will be studied. Individuals will develop their own broadcasting style through student projects including research, on-camera practice and attendance at Liberty sports events to observe LFSN professionals in action.

Offered: Resident

DIGI 343 TV News Production 3 Credit Hours

Prerequisites: (DIGI 175 (may be taken concurrently) and (DIGI 224 (may be taken concurrently) and (DIGI 225 (may be taken concurrently)

A study of the theory and practice of writing and preparing news copy and packages for TV broadcast. (Formerly DIGI 473)

Offered: Resident

DIGI 345 Producing TV News 3 Credit Hours

Prerequisites: DIGI 175 and DIGI 224 and DIGI 225

Students will learn advanced principles of producing, scripting, news gathering, and studio work for Producing TV Newscasts. This will include practice in planning, writing, and editing as well as producing a newscast as aired for a local news broadcast. Course work and assignments will prepare the student for working under a deadline in the production of a professional TV newscast. While the focus of this course will be on television news, much of what you learn and practice will be applicable to all digital platforms.

Offered: Resident

DIGI 350 Editing Theory 3 Credit Hours

Prerequisites: DIGI 225 and DIGI 175 and DIGI 224

This course will survey the theory and practice of editing and post-production for long and short form video and web products. Aesthetics of narrative and documentary editing stressed, for both picture and sound.

Offered: Resident and Online

DIGI 354 Storytelling: Sitcom 3 Credit Hours

Prerequisites: DIGI 240

Writing the half-hour situation comedy; an experiential class, including show conceptualization, episodic structure, & cooperative writing, and specializing in humorous and shorter-form screenwriting for cable, broadcast and streaming television.

Offered: Resident

DIGI 355 Interactive, Social and Digital Media Management 3 Credit Hours

Prerequisites: DIGI 335

Facebook, Twitter, Netflix, Hulu, Google+ and a myriad of other online outlets have become revenue generators in ways that magazine and newspaper ads and television and radio commercials were in years gone by. This course will equip the savvy social media manager to turn interactive and social networking strategies into dollars for the client of today.

Offered: Resident

DIGI 356 Chronicles of Motion Pictures and Television 3 Credit Hours

Prerequisites: RSCH 201 or Inquiry Research with a score of 80 or Research (prior to 2017-2018) with a score of 80

The historical development and convergence of motion pictures and television, from their simultaneous origins in the 1890s through the new millennium. (Formerly COMS 369)

Offered: Resident

DIGI 369 Studio Production 3 Credit Hours

Prerequisites: DIGI 175 and DIGI 224 and DIGI 225

This course will explore the positions and equipment involved in studio production, the founding techniques of this craft, and the language and discipline of studio environment. The course will expose the student to the professional function of the various studio production positions. This will be accomplished through lecture, text materials, classroom discussion and in-studio production.

Offered: Resident
DIGI 373 Storytelling: Episodic Drama 3 Credit Hours

**Prerequisites:** DIGI 240

Writing the hour-long televised drama; an experiential class, including show conceptualization, episodic structure, & cooperative writing, and specializing in serious and longer-form screenwriting for cable, broadcast and streaming television.

**Offered:** Resident

DIGI 393 Television Practicum 1-3 Credit Hours

**Prerequisites:** DIGI 333

Practicum for broadcast-oriented students using on-campus TV facilities. (Formerly COMS 393)

**Offered:** Resident

DIGI 394 Advanced Radio Practicum 1-3 Credit Hours

**Prerequisites:** DIGI 334

Practical hands on experience in the overall operation of the radio station. including experience in on-air and digital production skills, as well as an overview of broadcast programming and operations; may be repeated. (Formerly COMS 394)

**Offered:** Resident

DIGI 428 Media Industry & Ethics 3 Credit Hours

A study of digital media regulations, economic operations, and ethics as currently operational in the United States; including examination of moving image, audio-only, and transmedia application.

**Offered:** Resident

DIGI 453 Storytelling: Reality Television 3 Credit Hours

Writing the docu-style reality show; an experiential class in the creation of story in which the recording of moving image and audio follows the conceptualization but precedes the screenwriting.

DIGI 454 Radio News Production 3 Credit Hours

**Prerequisites:** DIGI 175 and DIGI 224 and DIGI 225

A study of the theory and practice of writing and preparing news copy and packages for radio broadcast. Students will write and produce regular newscasts for 90.9 FM. (Formerly COMS 454)

**Offered:** Resident

DIGI 474 Advanced Audio Production 3 Credit Hours

**Prerequisites:** DIGI 175 and DIGI 224 and DIGI 225

Writing and production of dramatic and documentary programs for radio and Internet distribution. Portfolio development. (Formerly COMS 474)

**Offered:** Resident

DIGI 477 Storytelling: Transmedia 3 Credit Hours

**Prerequisites:** DIGI 240

Writing the cross-platform storyworld; an experiential class, including story-world conceptualization, overarching cross-platform structure, & cooperative writing, with the focus on producing independent stand-alone narratives that simultaneously interlock into a seamless fictional universe.

**Offered:** Resident

DIGI 483 Advanced Video Production 3 Credit Hours

**Prerequisites:** DIGI 175 and DIGI 224 and DIGI 225 and DIGI 333 and DIGI 343

Writing and production of dramatic and documentary programs for television and Internet distribution. Portfolio development. (Formerly COMS 483)

**Offered:** Resident

DIGI 490 SFX, ADR, and Foley 3 Credit Hours

**Prerequisites:** DIGI 175 and DIGI 224 and DIGI 225

This course will give students the opportunity to learn proper microphone technique and placement for recording sound effects, and ADR (Automated Dialog Replacement), and to teach students to record and perform with Foley props.

**Offered:** Resident

DIGI 497 Special Topics 1,3 Credit Hours

DIGI 497 - Special Topics (1 to 3 hours)

**Offered:** Resident

DIGI 498 Senior Portfolio 3 Credit Hours

An intensive individual research or production project in which the graduating senior can best showcase his or her competence in the field of electronic media. (Formerly COMS 498)

**Registration Restrictions:** Senior status; POI.

**Offered:** Resident

**Digital Media (B.S.) - Audio - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Journalism Major (B.S.)**

**Purpose**

The purpose of the journalism major is for the student to be able to create and prepare news and content in a fashion appropriate for all media; from digital to video to traditional in an ever-growing and changing media market. This prepares the student for careers such as content producer and manager, reporter, copywriter, editor, columnist, sports writer and freelance writer.

**Program Learning Outcomes**

The student will be able to:

1. Utilize best practices for journalism while maintaining a Christian worldview.
2. Research and create content based on journalist practices and principles.
3. Prepare news and content in a format and style appropriate for traditional and social media platforms.

**Program of Study**

**Delivery Format: Residential Only**

- Journalism (B.S.) - Resident (p. 689)

**Career Opportunities**

- Anchor
- Blogger
- Communications coordinator
- Editor
- News reporter
- Social media editor writer/content developer
- Sports reporter
- Writer

All applicable prerequisites must be met
Courses

JOUR 220 News Writing & Reporting I 3 Credit Hours

Prerequisites: ENGL 101

This course provides a survey of media journalism formats and writing techniques for each. The course is designed to enhance the appreciation of the journalism professional as well as provide an understanding of the basic techniques used by the professional to inform for both broadcast and written forms of media. Students will write objective news stories using the inverted pyramid and complete circle, produce copy for broadcast news stories, create online news stories and be introduced to the basics of blogging.

Offered: Resident

JOUR 225 Media Writing 3 Credit Hours

Prerequisites: ENGL 101

This course provides a survey of mass communication media formats and writing techniques from news for print and broadcast, to advertising and public relations. The course is designed to enhance the appreciation of the mass communication professional as well as provide an understanding of the basic techniques used by the professional to inform and/or persuade audiences. Students will write news stories, produce copy for broadcast news, create an advertising package, and develop a public service announcement. (Formerly COMS 220)

JOUR 234 Modern Copy Editing 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225

A writing course that emphasizes advanced grammar skills, copy editing across multiple platforms, and proofreading, as well as reporting and headline writing, tease and tag writing, legal and ethical considerations, and attention to layout and design.

Offered: Resident

JOUR 354 News Writing and Reporting II 3 Credit Hours

Prerequisites: (JOUR 220 or COMS 220 or JOUR 225) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

The study and practice of news story preparation, including a step-by-step breakdown of each stage of story development for both print and electronic media. The student will concentrate on learning to write reporting style, which is different from expository writing. The student will develop responsibility for the accuracy and clarity of the work from gathering the information to assembling it into an article intended to inform and perhaps persuade. (Formerly COMS 354)

Offered: Resident

JOUR 356 Social Media Writing 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225

This course explores writing for various social media platforms and how they fit into a marketing plan. Students learn practical techniques used in producing social media content that promotes audience affinity and loyalty.

Offered: Resident and Online

JOUR 358 Strategic Web Writing (Blogging) 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225 or COMS 220

This course covers the study and practice of writing blogs for information, promotion, persuasion, and entertainment. The students will learn to craft their writing efforts in order to reach a variety of different audiences, including writing for media, businesses, nonprofit organizations and personal platforms. This course will allow students to build a portfolio.

Offered: Resident

JOUR 360 Media Convergence 3 Credit Hours

Prerequisites: ARTS 222 and (DIGI 225 or COMS 225) and (JOUR 354 or COMS 354)

This course features a hands-on approach that allows students to develop news stories using a variety of traditional media as well as social media such as Twitter, Facebook and Instagram. The media convergence class will help the student prepare material that is suitable for a portfolio.

Offered: Resident

JOUR 370 Sports Writing 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225

This course provides a survey of sports writing styles and will examine the elements that comprise a well-written sports story or column including such elements as narrative flow, colorful detail and appropriate quotations.

Offered: Resident

JOUR 373 Editorial and Opinion Writing 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225

A study in presenting opinions in a persuasive manner through research and writing. Students will develop skills to produce a commentary on contemporary issues that inform, persuade and change attitudes and actions. (Formerly COMS 373)

Offered: Resident

JOUR 374 Magazine Writing and Editing 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225

An advanced magazine writing course focusing on writing and selling full-length magazine articles with additional emphasis on magazine article editing and knowledge of the marketplace. (Formerly COMS 374)

Offered: Resident
JOUR 375 Community Reporting 3 Credit Hours

Prerequisites: JOUR 220 or JOUR 225

Examines the principles and practices of community journalism, offering students extensive hands-on experience in writing localized content. Special emphasis is given to the individual and group creation of targeted content.

Offered: Resident

JOUR 390 Champion Practicum 1 Credit Hour

Prerequisites: JOUR 220 or JOUR 225

This course provides opportunities to apply what has been explored in the classroom through the operation of The Liberty Champion, our Liberty University student-run newspaper. Practicum is designed to enhance those acquired skills and knowledge and provide the student with the opportunity to build a portfolio for employment. (Ad/PR students should request a sales assignment.) (Formerly COMS 390)

Offered: Resident

JOUR 391 Advertising Design and Photography Practicum 1 Credit Hour

Prerequisites: (JOUR 220 or JOUR 225) and (ARTS 222 or ARTS 224)

This course provides opportunities to apply what has been explored in the classroom in the area of advertising design. Practicum is designed to enhance those acquired skills and knowledge and provide the student with the opportunity to build a portfolio for employment, using real clients and their advertising placed in the Champion newspaper. (Formerly COMS 391)

Offered: Resident

JOUR 396 Advertising Practicum 1 Credit Hour

Prerequisites: JOUR 220 or JOUR 225

While priority will be given to Advertising/PR concentration students, this course is open as an elective to students majoring in Business Administration with the Marketing Cognate or to Sport Management majors. Students will work in support of the Advertising and Public Relations agency operated in the Department of Communication Studies under the wing of the Advertising/PR concentration. Students must enroll in this class if they plan to compete in Ad Team or Public Relations Student Society of America (PRSSA) contests. This practicum gives students the experience needed prior to getting an internship or a job in advertising or public relations or marketing or management. (Formerly COMS 397)

Offered: Resident

JOUR 482 Senior Project 3 Credit Hours

Prerequisites: (ARTS 222 and DIGI 224) or (JOUR 354 and DIGI 225)

This is a capstone course and a requirement for Digital Media and Communication Arts majors in the Journalism concentration. In a culminating activity, students produce three stories of professional quality designed for digital multimedia platforms. Students attend a weekly seminar and work independently under the supervision of a faculty member. Students will be required to immerse themselves in a specific beat such as education, business, medicine, sports, etc. for their news content.

Offered: Resident

JOUR 485 Investigative Reporting 3 Credit Hours

Prerequisites: JOUR 354

An in-depth study of research, story development, interview techniques and writing for investigative stories in mass media. Critical thinking and analysis will be developed as students review court documents and interview witnesses of cases and seek to evaluate the evidence. Research will be developed into a news story. (Formerly COMS 485)

Offered: Resident and Online

JOUR 497 Special Topics 1,3 Credit Hours

Offered: Resident

JOUR 498 Professional Practicum 1 Credit Hour

Prerequisites: (JOUR 354 or COMS 354) and (DIGI 225 or COMS 225 or COMS 224 or DIGI 224) and ARTS 222

This is a course designed for senior who are working for an on campus media group as an editor or producer. It is meant to give academic credit for the experience that gain as a leader for media outlet.

Offered: Resident

Journalism (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded
Lambda Pi Eta Honor Society

Advisor: Dr. Cecil Kramer

Lambda Pi Eta (LPH) is the National Communication Association’s official honor society at four-year colleges and universities. As an accredited member of the Association of College Honor Societies (ACHS), Lambda Pi Eta has active chapters at four-year colleges and universities worldwide. LPH represents what Aristotle described in The Rhetoric as three ingredients of persuasion: logos (Lambda), meaning logic; pathos (Pi), relating to emotion; and ethos (Eta), defined as character credibility and ethics. Lambda Pi Eta recognizes, fosters, and rewards outstanding scholastic achievement while stimulating interest in the communication discipline.

To be eligible for admission, undergraduate students must meet the following criteria:

1. Complete 60 semester credit-hours (90 quarter credit-hours)
2. Have a minimum cumulative GPA of 3.00 for all courses taken
3. Complete the equivalent of 12 semester credit-hours (18 quarter credit-hours) in communication studies
4. Have a minimum GPA of 3.25 for all communication studies courses
5. Currently be enrolled as a student in good standing, as determined by the institution’s policies
6. Rank within the highest thirty-five percent of one’s class in general scholarship

Courses

COMS 101 Speech Communication 3 Credit Hours

Prerequisites: ENGL 100 or ENGL 101 or ESOL 100 or Placement Score-English with a score of 070

Study and practice in communicating ideas competently in public speaking. Students are also given a foundation for development of communication skills in other human communication contexts, including dyadic and small group communication.

COMS 113 Intro to Design:Principles/Ele 3 Credit Hours

The investigation of design principles/elements. The elements of design will be covered in depth as well as the principles of design. Through exercises the student will demonstrate the use of these elements and principles of design.

COMS 301 Basic Photography 3 Credit Hours

Introduction to the techniques of taking and processing black and white photographs with consideration of the composition of both still and moving photography. Techniques of taking color transparencies for use in slide and slide-tape presentations, including title boards, graphics, and other imaging techniques. Legal and ethical implications. Portfolio preparation. 35mm camera with interchangeable lens required. Lab fee.

COMS 315 Oral Interpretation 3 Credit Hours

Study and practice of the art of using speech to communicate literature to an audience.

Note: Offered fall semester.

Offered: Resident

COMS 325 Interpersonal Communication 3 Credit Hours

A study of the nature of interpersonal communication and relationships. Attention is focused upon personal responsibilities, interactive factors, and message and contextual variables in relationships. Personal skills in stimulating friendships and resolving conflict are examined through exposure to theory, practical exercises, and analysis of personal relationships.

Note: Offered fall semester.

Offered: Resident

COMS 330 Small Group Communication 3 Credit Hours

Study and practice of the theories and methods of group communication.

Note: Offered fall semester.

Offered: Resident
COMS 335 Argumentation 3 Credit Hours

Prerequisites: COMS 101

Study and practice of principles of analysis, reasoning, evidence, organization and speaking needed to logically demonstrate and defend a position before an audience.

Offered: Resident

COMS 340 Publication Design 3 Credit Hours

Prerequisites: COMS 222 or COMS 200

COMS 346 Advertising Copywriting and Design 3 Credit Hours

Prerequisites: (COMS 110 and COMS 220 and COMS 307 and VCAR 222) or (COMS 110 and COMS 220 and COMS 307 and ARTS 222)

An introduction to advertising writing techniques for commercial, public service and direct marketing organizations with experience in various types of electronic and print media. Portfolio preparation.

Offered: Resident

COMS 351 Digital Imaging 3 Credit Hours

Prerequisites: COMS 222 or COMS 200

Importing digitized images into the computer via a scanner, a digital camera, or the Internet. Then modifying the digitized art and preparing it for electronic media or the printed page through electronic pre-press techniques such as black and white 11 targeting; color corrections; rotating, scaling, and cropping photographs; retouching; selecting color models; making color separations; and trapping. Training in a professional image-editing program. Lab fee.

COMS 355 Organizational Communication 3 Credit Hours

Prerequisites: COMS 101

A theoretical overview of communication functions and issues in a variety of contexts within organizations. Study and development of effective communication skills within the challenging, diverse workplace, and other organizational settings.

Note: Offered spring semester.

Offered: Resident

COMS 357 Public Relations Writing 3 Credit Hours

Prerequisites: COMS 110 and COMS 220 and COMS 234 and COMS 307 and (VCAR 222 or ARTS 222) and (VCAR 340 or ARTS 340)

This course builds upon the news writing techniques taught in COMS 220 and COMS 234 and the principles of advertising and public relations taught in COMS 307, while orienting the student toward the types of written products generated by public relations professionals. This advanced course will refine a student's writing skills while playing close attention to the various formats such as press releases, media advisories, crisis plans, press kits, etc.

Offered: Resident

COMS 367 Public Relations Strategies 3 Credit Hours

Prerequisites: COMS 110 and COMS 220 and COMS 234 and COMS 307 and COMS 357 and (VCAR 222 or ARTS 222) and (VCAR 340 or ARTS 340)

A comprehensive study of public relations strategy, decision-making and program planning featuring a case-study approach to learning.

Offered: Resident

COMS 368 Media Sales & Audience Measure 3 Credit Hours

COMS 369 Chronicle of Motion Pictures and Television 3 Credit Hours

Prerequisites: Senior status and permission of instructor. The historical development and convergence of motion pictures and television, from their simultaneous origins in the 1890s through the new millennium.

Offered: Resident

COMS 371 Advanced Graphic Design 3 Credit Hours

Prerequisites: (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and INFT 101 and INFT 102) or (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and INFT 000) or (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and INFT 110) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and INFT 000) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and INFT 101 and INFT 103) or (ARTS 110 and COMS 200 and COMS 234 and COMS 351 and INFT 110)

Advanced study in graphic design, which integrates desktop publishing, digital illustration, digital imaging, page layout, and pre-press techniques with emphasis on the design process from visualization to production. Design and production of major projects for print including an extensive business identity package and a magazine project produced through both individual and group work. Critiquing designs. Portfolio preparation and presentation. Lab fee.

COMS 387 Forensic Practicum 1 Credit Hour

Prerequisites: (ARTS 110 and COMS 222 and COMS 232 and COMS 341) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341)

Introduction, theory, training, and instruction necessary to develop speech performance skills required for success on a competitive forensic speaking team. Students participate in multiple intercollegiate speaking events on campus and at other schools. Emphasis is on individual speaking events including platform, limited preparation, and oral interpretation events. Students must attend weekly coaching sessions and travel or present their work on a regular basis to receive credit. These credits may be repeated.

Offered: Resident

COMS 388 King’s Players Practicum 1 Credit Hour

Practical application of dramatic and ministry principles. Student activities include acting, costuming, publicity/promotion, set construction, sound reinforcement, and stage lighting.

Offered: Resident
COMS 389 Selah Practicum  1 Credit Hour

**Prerequisites:** COMS 222 or VCAR 222 or ARTS 222

This course provides opportunities to apply what has been explored in the classroom through Selah, Liberty University's yearbook. Designed to enhance acquired skills and knowledge and provide the student with the opportunity to build a portfolio for employment.

**Offered:** Resident

COMS 455 Communication Theory  3 Credit Hours

**Prerequisites:** COMS 101 and COMS 210

A study of modern theories of communication with application to various contexts of speech communication.

**Note:** Offered fall semester.

**Offered:** Resident

COMS 465 Rhetorical Theory  3 Credit Hours

**Prerequisites:** COMS 101 and COMS 210

A historical survey and study of rhetorical theory in the past and present. Attention is given to Greek and Roman rhetorical theory, theories prevalent in the Middle Ages and Renaissance, and modern rhetorical theory.

**Note:** Offered spring semester.

**Offered:** Resident

COMS 472 Interactive Multimedia Design  3 Credit Hours

**Prerequisites:** COMS 222 or COMS 200

Study of both visual media design concepts and site management for web development. Practical experience in the preparation of digital materials while developing standards to evaluate the presentation of information with these tools. Training in industry-standard digital media and multimedia authoring programs guided by principles of design, including graphic design and user interface design. Lab fee.

COMS 474 Advanced Audio Production  3 Credit Hours

**Prerequisites:** COMS 101 and COMS 110 and COMS 220 and COMS 324 and COMS 334

Writing and production of dramatic and documentary programs for radio and Internet distribution. Portfolio development.

**Note:** Offered spring semester.

**Offered:** Resident

COMS 475 Criticism of Public Address  3 Credit Hours

**Prerequisites:** COMS 101 and COMS 210

The investigation of public address through historical and rhetorical critical methods. Focus on the development of competent critics through oral and written presentations.

**Note:** Offered fall semester.

**Offered:** Resident

COMS 490 Crisis Communication  3 Credit Hours

This course will examine modern crisis communication, and provide the students with exposure to and practice in organizational communication, gathering information and providing analysis, and oral and written communication skills, essential for handling crisis situations.

**Registration Restrictions:** Senior status.

**Offered:** Resident

COMS 492 Prof Practices in Graphic Desi  3 Credit Hours

**Prerequisites:** (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and COMS 371) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and COMS 371)

A senior-level course to further aid students in their upcoming transfer from the college setting to a graphic design work setting. Topics and issues related to professional practices followed by graphic designers relative to relationships with clients, design firms, and employees, as well as free lance, working as an independent contractor, resources on starting and operating a small graphic design studio, careers in graphic design, professional organizations, and portfolio presentation.

**Offered:** Resident

COMS 498 Senior Portfolio  3 Credit Hours

An intensive individual research or production project in which the graduating senior can best showcase his or her competence in the field of electronic media.

**Registration Restrictions:** Senior status and permission of instructor.

**Offered:** Resident

COMS 499 Internship  1-6 Credit Hours

Registration Restrictions: Junior or Senior status and required GPA.

**Offered:** Resident

**Communication Major (B.S.)**

**Purpose**

The purpose of the Communication Major is to develop the skills, knowledge, and conscience of the next generation of communication leaders and professionals. This major provides students the ability to practically apply theoretical communication processes, create and deliver effective messages, practice ethical communication and solve practical problems in all areas of communication.
Program Learning Outcomes
The student will be able to:

1. Master communication in its variety of forms and practices
2. Utilize best practices for communication while maintaining a Christian worldview.
3. Create effective and audience appropriate messages.

Communication Concentration
The student will be able to:

1. Demonstrate communication competency through verbal, non-verbal, and computer-mediated channels.
2. Evaluate the effectiveness of various approaches to business communication.

Integrated Communication Concentration
The student will be able to:

1. Demonstrate communication competency through verbal, non-verbal, and written forms.
2. Evaluate the effectiveness of various approaches to professional communication.

Programs of Study
Delivery Format: Residential Only

- Communication (B.S.) - Communication - Resident (p. 696)
- Communication (B.S.) - Integrated Communication - Resident (p. 697)

Career Opportunities
- Fundraising coordinator
- Communication director
- Sales director
- Nonprofit communicator
- Community relations manager
- Event coordinator
- Public affairs coordinator
- Communication analyst

Courses
COMS 101 Speech Communication 3 Credit Hours

Prerequisites: COMS 101 and COMS 210

A study of modern theories of communication with application to various contexts of speech communication.

Note: Offered fall semester.

Offered: Resident
COMS 465 Rhetorical Theory 3 Credit Hours

**Prerequisites:** COMS 101 and COMS 210

A historical survey and study of rhetorical theory in the past and present. Attention is given to Greek and Roman rhetorical theory, theories prevalent in the Middle Ages and Renaissance, and modern rhetorical theory.

**Note:** Offered spring semester.

**Offered:** Resident

---

COMS 472 Interactive Multimedia Design 3 Credit Hours

**Prerequisites:** COMS 222 or COMS 200

Study of both visual media design concepts and site management for web development. Practical experience in the preparation of digital materials while developing standards to evaluate the presentation of information with these tools. Training in industry-standard digital media and multimedia authoring programs guided by principles of design, including graphic design and user interface design. Lab fee.

---

COMS 474 Advanced Audio Production 3 Credit Hours

**Prerequisites:** COMS 101 and COMS 110 and COMS 220 and COMS 324 and COMS 334

Writing and production of dramatic and documentary programs for radio and Internet distribution. Portfolio development.

**Note:** Offered spring semester.

**Offered:** Resident

---

COMS 475 Criticism of Public Address 3 Credit Hours

**Prerequisites:** COMS 101 and COMS 210

The investigation of public address through historical and rhetorical critical methods. Focus on the development of competent critics through oral and written presentations.

**Note:** Offered fall semester.

**Offered:** Resident

---

COMS 479 Crisis Communication 3 Credit Hours

This course will examine modern crisis communication, and provide the students with exposure to and practice in organizational communication, gathering information and providing analysis, and oral and written communication skills, essential for handling crisis situations.

**Registration Restrictions:** Senior status.

**Offered:** Resident

---

COMS 492 Prof Practices in Graphic Desi 3 Credit Hours

**Prerequisites:** (ARTS 110 and COMS 222 and COMS 232 and COMS 341 and COMS 351 and COMS 371) or (ARTS 110 and COMS 200 and COMS 232 and COMS 341 and COMS 351 and COMS 371)

A senior-level course to further aid students in their upcoming transfer from the college setting to a graphic design work setting. Topics and issues related to professional practices followed by graphic designers relative to relationships with clients, design firms, and employees, as well as free lancing, working as an independent contractor, resources on starting and operating a small graphic design studio, careers in graphic design, professional organizations, and portfolio presentation.

**Offered:** Resident

---

COMS 498 Senior Portfolio 3 Credit Hours

An intensive individual research or production project in which the graduating senior can best showcase his or her competence in the field of electronic media.

**Registration Restrictions:** Senior status and permission of instructor.

**Offered:** Resident

---

COMS 499 Internship 1-6 Credit Hours

**Registration Restrictions:** Junior or Senior status and required GPA.

**Offered:** Resident

---

**Communication (B.S.) - Communication - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Strategic Communication Major (B.S.)

Purpose
The purpose of the strategic communication major is for students to learn to develop effective audience specific cross-platform strategic communication campaigns. This prepares them for careers in advertising, social media management, integrated marketing communications, digital promotion and interactive marketing among others.

Program Learning Outcomes
The student will be able to:
1. Utilize strategic communication while maintaining a Christian worldview.
2. Develop effective, audience appropriate cross-platform strategic communication campaigns.
3. Evaluate strategic and tactical communication practices.

Programs of Study
Delivery Format: Residential and Online
- Strategic Communication (B.S.) - Social Media Management - Online (p. 700)
- Strategic Communication (B.S.) - Social Media Management - Resident (p. 700)
- Strategic Communication (B.S.) - Strategic Communications - Online (p. 701)
- Strategic Communication (B.S.) - Strategic Communications - Resident (p. 702)

Career Opportunities
- Advertising manager
- Communication manager
- Customer relationship manager
- E-Business specialist
- Public relations manager
- Social media marketing manager
- Web strategies specialist
Courses

STCO 289 Digital Promotion Technologies and Application  3 Credit Hours

Learn and work with the software & hardware tools used in the creation of promotional audio and video. Students will be introduced to best practices in the creation of digital messages, and how to deploy these messages through channels used by professionals in the field.

Offered: Resident and Online

STCO 307 Strategic Communication  3 Credit Hours

Examines the principles and practices of impacting markets through Strategic Communications. Special emphasis is given to team problem-solving. (Formerly COMS 307)

Offered: Resident and Online

STCO 346 Persuasive Advertising and Storytelling  3 Credit Hours

This course focuses on the communication principles and communication strategies that augment growing the image of an organization, its products and services. Emphasizes the persuasive application of story-telling and narrative communication techniques. (Formerly COMS 346)

Registration Restrictions: Junior/Senior Status.

Offered: Resident

STCO 348 Strategic Social Media  3 Credit Hours

This course connects students to organizational growth objectives with social media strategy, platforms, and tactics. Extensive focus is given to interactive sessions and team problem-solving exercises.

Registration Restrictions: Junior/Senior Status.

Offered: Resident

STCO 356 Digital/Social/Mobile Communication Strategies  3 Credit Hours

Prerequisites: RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80

This course explores the successful design, development and execution of targeted marketing campaigns for news, information and entertainment. Special emphasis is given to team problem-solving. (Formerly COMS 356)

Registration Restrictions: Junior/Senior Status.

Offered: Resident

STCO 357 Public Relations and Promotion Tactics  3 Credit Hours

This course provides students with a broad understanding of and ability to apply promotional and public relations techniques in a digitally mediated world. Emphasis is on experiential application of specific techniques across multiple media and channels. (Formerly COMS 357)

Registration Restrictions: Junior/Senior Status.

STCO 367 Best Practices: Strategic Communications Management  3 Credit Hours

This course is designed to give students hands-on experience in creating collaborative integrated marketing communication campaigns, guided by the lessons learned from organizations that have used strategic communications to drive growth. (Formerly COMS 367)

Registration Restrictions: Junior/Senior Status.

Offered: Resident

STCO 372 Employee and Organizational Communication  3 Credit Hours

This course in organizational public relations provides students with the strategic ability to communicate with the affiliated parts of an organization critical to successful relationships and image-making.

Registration Restrictions: Junior/Senior Status.

Offered: Resident

STCO 422 Social Media Development  3 Credit Hours

Prerequisites: STCO 307 and STCO 348

Through a mentor-driven approach, students gain experience in organizing, integrating and operating the school's social media channels. Their experiences are transferable to other organizations, both corporate and non-profit.

Offered: Resident and Online

STCO 426 Creating Affiliate Loyalty in a Digital Age  3 Credit Hours

This course is designed to familiarize students with the principles of customer relationship strategies and the means by which organizations develop loyal customers and/or affiliates.

Registration Restrictions: Junior/Senior Status.

Offered: Resident

STCO 460 Career Preparation  3 Credit Hours

Students research and explore the types of Strategic Communications opportunities available to them upon graduation. This course emphasizes jump-starting careers by undertaking a professional job search and awareness of current job market conditions.

Registration Restrictions: Senior Standing Only.

STCO 462 Using the Social and Digital Future  3 Credit Hours

This course will demystify the emerging social, digital and technology trends, and help students apply these trends in a dramatically changing marketplace.

Offered: Resident
STCO 487 Agency/Field Projects 1-3 Credit Hours

Students, individually or in groups, work in a variety of strategic communication roles with real-world organizations under the mentorship of faculty and other professionals. Organizations include corporate and non-profits.

Registration Restrictions: Senior Status.

Offered: Resident

### Graduation Requirements

- **120** Total hours
- **2.0** Overall grade point average
- **30** Hours must be upper-level courses (300-400 level)
- **Grade of 'C'** Minimum required for all upper-level courses in the major
- **50%** Of major and cognate taken through Liberty University
- **30** Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

### School of Education Administration

*Online Dean, School of Education*

### Professor of Education

Michelle B. Goodwin, B.S., M.Ed., Ed.D.
*Senior Assistant Dean, Residential Programs and Licensure*

### Program Directors

A listing of program directors can be viewed at http://www.liberty.edu/programdirectors.

### Research Intensive Courses

All research intensive courses are listed online at https://www.liberty.edu/academics/qualityenhancement/index.cfm?PID=32835.

### Purpose

The School of Education is committed to providing the highest quality Christian education based on the principles of God’s Word. Our school, by virtue of its commitment to strengthening the mind, body and soul, educates the whole person as God created us. The school offers programs to prepare undergraduate and graduate students for careers in teaching and school administration.

### Departments

- Department of Teacher Education (p. 710)

### Programs

Purpose

The mission of the Educator Preparation Program at Liberty University is to develop competent professionals with a Christian worldview for Christian, public, and private schools.

Excellent teachers are an invaluable asset to the home, church, community, and nation. The Educator Preparation Program at Liberty is designed to provide a program of study and preservice experiences that will foster teaching excellence and stimulate improvements in teaching practices in Christian, public, and private schools. The program is designed for teacher candidates who are preparing to teach kindergarten, elementary, and middle school, as well as high school students. Those wishing to pursue careers in middle school, or high school teaching may do so in the following areas: biology, business, computer science, English, family and consumer sciences, history/social sciences, mathematics. Comprehensive licensure may be completed in the following areas: music (vocal or instrumental), health/physical education, Spanish, special education, studio art, teaching English as a second language, and theatre arts.

Program Learning Outcomes

The teacher candidate:

INT-A. KNOWS Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
• INT-A1. Demonstrates a broad base of professional and general knowledge.
• INT-A2. Demonstrates knowledge of content in the endorsement area.

INT-B. IMPLEMENTS skills as a gift from God, because teaching is a calling from God
• INT-B3. Integrates skills in speaking, writing, reading, and listening for effective classroom communication, peer leadership, and professional involvement.
• INT-B4. Designs and selects a variety of instructional strategies based on the developmental levels and individual needs of the learner.
• INT-B5. Applies knowledge of content areas and curriculum goals to design and supervise appropriate instruction.
• INT-B6. Enhances the success of all diverse learners, providing for special needs and diverse backgrounds.
• INT-B7. Manages classroom climate and procedures to motivate students and maximize learning.
• INT-B8. Integrates a variety of assessment strategies to improve student learning.
• INT-B9. Integrates appropriate technology and resources to support instruction and to facilitate professional development opportunities.
• INT-B10. Provides evidence of student learning at the grade level and content appropriate for the endorsement.

INT-C. BELIEVES and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity consistent
with our mission to prepare competent professionals with a biblical worldview for Christian, public, and private schools

• INT-C11. Models personal integrity and sensitivity to human needs.
• INT-C12. Demonstrates behaviors of a reflective practitioner and seeks opportunities for collaboration and professional development.

Definitions For Dispositions – Scrip:
1. Displays a sense of Social responsibility
2. Demonstrates Commitment/ work ethic
3. Demonstrates Reflective practice
4. Displays personal Integrity
5. Displays Professionalism

Teacher Endorsement Areas
Teacher preparation and endorsement are available through the Teacher Education Department in cooperation with departments offering majors in the following teacher endorsement areas:

Elementary
• Elementary education (preK – 6) [Integrated Studies major]
• Middle education (grades 6 – 8) [only with preK – 6]

Secondary (6 – 12)
• Biology
• Business
• Computer Science
• English
• Family and Consumer Sciences
• History/Social Sciences
• Mathematics
• Studio Art

Comprehensive (preK – 12)
• English as a Second Language
• Health/Physical Education
• Music: Choral or Instrumental
• Spanish
• Special Education (K-12) [Integrated Studies major] General Curriculum
• Theatre Arts (preK – 12)

Add-on Endorsements
• Algebra I
• Chemistry (only with Biology)
• Computer Science
• Journalism
• Speech
• Theatre Arts (preK – 12)

Minor (Non-licensure)
• Special Education

Educator Preparation Provider (EPP)
The Educator Preparation Provider (EPP) Program is designed to meet licensure requirements of the Commonwealth of Virginia in the candidate’s approved concentration. The University has approval from the State Council of Higher Education for Virginia and is accredited by the Southern Association of Colleges and Schools. The Educator Preparation Provider Program has been officially approved by the Virginia Department of Education and is accredited under NCATE Standards through the CAEP Accreditation System. Graduates of Liberty’s approved educator preparation programs are eligible for licensure within the Commonwealth of Virginia. Completing Virginia licensure requirements will generally be necessary if the teacher candidate intends to seek licensure in another state.

Several states have additional licensure requirements beyond what is specified for graduation from an approved program at Liberty. However, teacher candidates are typically able to gain licensure and to begin teaching in another state while completing the additional requirements. Assistance in securing licensure from other states, information about licensure requirements in states other than Virginia, and help in obtaining necessary applications for out-of-state teaching credentials may be obtained from the Teacher Licensure Office. In addition to state licensure, students who complete the Educator Preparation Program at Liberty are eligible for the Association of Christian Schools International (ACSI) certificate.

Programs
• Licensure Programs (p. 719)
• Non-Licensure Programs (p. 734)
• Teacher Education Minors (p. 764)

Courses
EDUC 125 Introduction to Education 1 Credit Hour
The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Each teacher candidate will be required to prepare for structured observations in the school setting. Students will apply to the Educator Preparation Program.

Offered: Resident

EDUC 188 Practicum in Education I: External 0 Credit Hours
Prerequisites: EDUC 225 and (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online
EDUC 189 Practicum in Education I: Local 0 Credit Hours

**Prerequisites:** EDUC 225 and Background Clear Virginia with a score of 5 and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Resident

EDUC 200 Principles of Education 3 Credit Hours

Students will examine historical, philosophical, legal, and sociological principles of education. Emphasis will be placed on current issues and terminology in the field of education.

**Offered:** Online

EDUC 201 Introduction to Education and Classroom Technology 3 Credit Hours

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Teacher candidates will focus on the effective use of technology in learning environments, with special attention to instructional practice, assessment development and student engagement. Each teacher candidate will be required to prepare for structured observations in the school setting.

**Offered:** Resident and Online

EDUC 205 Learning Theory and Portfolio Development 3 Credit Hours

**Prerequisites:** (EDUC 200)

An introduction to learning theories with an emphasis on experiential learning. Here will also be a focus on learning and learning styles, including management and communications profiles. A major part of this course is the preparation of the Professional Development Profile and the Experiential Learning Portfolio.

**Offered:** Online

EDUC 210 Early Childhood Education Fundamentals 3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

Designed to introduce a candidate to the field of early childhood education; an overview of child development and learning, family relationships, assessment of young children, developmentally effective approaches to early childhood education, and how to use content knowledge to build a meaningful curriculum.

**Offered:** Online

EDUC 215 Wellness in the Early Childhood Setting 3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

Designed to introduce a candidate to the issue of wellness in early childhood education; an overview of wellness in the early childhood setting by examining good nutrition, safety, and healthful practices for young children.

**Offered:** Online

EDUC 220 Differentiated Teaching and Learning: Elementary 2 Credit Hours

**Prerequisites:** EDUC 125 and Background Check Receipt with a score of 5

Designed to train teacher candidates concentrating in elementary or special education in differentiated teaching and learning strategies, aiding the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on the mastery of teaching and learning skills in thinking, organizing for study, time management, reading rate and comprehension, textbook mastery/readability, listening, note taking, retention, motivation for study, learning styles, exceptionality, class discussion, test taking, and handwriting.

**Offered:** Resident

EDUC 221 Content Area Reading and Differentiated Teaching and Learning 2 Credit Hours

**Prerequisites:** EDUC 125 and Background Check Receipt with a score of 5

This course is designed to prepare teacher candidates training for 6-12 and K-12 level teaching in developing differentiated teaching and learning strategies for the reading, thinking, and study skills required in content areas. Aids the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on mastery of teaching and learning skills in thinking, organizing for study, time management, reading comprehension and rate, textbook mastery/readability, listening, note taking, retention, motivation for study, class discussion, test taking, learning styles, exceptionality, and handwriting.

**Offered:** Resident

EDUC 225 Instructional Design: Elementary 1,3 Credit Hours

**Prerequisites:** EDUC 201 and EDUC 350 and Education Gate 2 with a score of 3

A systematic approach to instruction for diverse classrooms including purpose, process and practice. Each teacher candidate will prepare lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation, and resources.

**Offered:** Resident and Online
EDUC 226 Instructional Design Practicum: Elementary  
2 Credit Hours

**Prerequisites:** (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5))

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate.

*Offered:* Resident

EDUC 235 Content Instructional Design  
1 Credit Hour

**Prerequisites:** (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5))

A systematic approach to instruction for diverse classrooms, including purpose, process and practice. Each teacher candidate will prepare content lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation and resources. Field experience required.

*Offered:* Resident

EDUC 236 Content Instructional Design Practicum: Secondary  
2 Credit Hours

**Prerequisites:** EDUC 235 (may be taken concurrently) and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5))

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating content instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate. Field experience required.

*Offered:* Resident

EDUC 240 Introduction to Applied Educational Technology Practicum  
2 Credit Hours

**Prerequisites:** (EDUC 225 (may be taken concurrently) and EDUC 226 (may be taken concurrently)) or (EDUC 235 (may be taken concurrently) and EDUC 236 (may be taken concurrently)) or (KINE 245 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5)) and Education Teacher Licensure with a score of 5)

This course is designed to allow the teacher candidate to be competent in the application of learning technologies needed for teachers.

*Registration Restrictions:* Background Check Receipt, and Enrollment in Teacher Licensure Program.

*Offered:* Resident

EDUC 288 Practicum in Education II: External  
0 Credit Hours

**Prerequisites:** (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and (EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

*Offered:* Online

EDUC 289 Practicum in Education II: Local  
0 Credit Hours

**Prerequisites:** (Background Clear Virginia with a score of 5 and EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

*Offered:* Resident

EDUC 290 Pre-Teaching Practicum  
1 Credit Hour

**Prerequisites:** EDUC 125 and Background Check Receipt with a score of 5

A planned program of practice and observation in a PreK-12 classroom setting under the mentorship of an experienced on-site educator. May be repeated to a maximum of six hours. Thirty hours of practice and observation equal one credit hour.

EDUC 298 Education Practicum  
3 Credit Hours

**Prerequisites:** (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and EDUC 205

Field experience in a classroom setting.

EDUC 299 Internship  
0 Credit Hours

**Prerequisites:** Background Check Clearance with a score of 5

Professional-supervised experience in first-hand internship opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

*Registration Restrictions:* Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

*Offered:* Resident

EDUC 301 Instructional Practices for Math Teachers  
3 Credit Hours

**Prerequisites:** EDUC 205 or EDUC 220

This course provides professional development for preservice and inservice teachers in mathematics instruction. Students will examine the principles of instruction for number systems, computation, and problem solving and apply theories to classroom settings.
EDUC 302 Instructional Practices for Reading Teachers 3 Credit Hours

Prerequisites: EDUC 205 or EDUC 220

This course will survey instructional approaches, materials, and media for the teaching of reading. The instruction of phonemic awareness, phonics, vocabulary, comprehension and fluency will be addressed. Attention will be given to creativity and enjoyment in reading.

Offered: Online

EDUC 303 Instructional Practices for Content Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course is designed to engage educators in applying effective principles of instruction when teaching in the content areas. A focus is on the instructional process of planning, teaching, assessing, and reflecting.

Offered: Online

EDUC 304 Classroom Management for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course will survey instructional approaches, materials, and methods for classroom management. Emphasis will be placed on management styles and the various methods associated with those styles.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 305 Educational Philosophy for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course presents the practical role of philosophy in the classroom. Emphasis is placed upon a careful analysis of current religious and education trends, and major philosophies are defined. Students will formulate a personal philosophy and apply that philosophy to their teaching methodology, lesson plan design, and delivery.

Offered: Online

EDUC 306 Scholarly Writing and APA for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and ENGL 101 and ENGL 102 and Background Check Receipt with a score of 5

This course provides professional development for preservice and inservice teachers in professional writing skills. Students will examine the principles of form, structure, grammars, and format.

Offered: Online

EDUC 307 Instructional Practices for Differentiated Instruction 3 Credit Hours

Prerequisites: (EDUC 205 and Background Check Receipt with a score of 5) or (EDUC 220 and Background Check Receipt with a score of 5)

This course provides professional development for preservice and inservice teachers in differentiated instruction.

Offered: Online

EDUC 308 Teaching Reading to Diverse Learners 2-3 Credit Hours

Prerequisites: EDUC 225 and EDUC 319 (may be taken concurrently) and (EDUC 188 (may be taken concurrently) or EDUC 189 (may be taken concurrently))

A survey of instructional approaches, materials and media for the teaching of reading in the elementary grades. Emphasis will be placed on phonics methods. Attention will be given to phonemic awareness, phonics, fluency, vocabulary development, and comprehension.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident

EDUC 315 Instructional Approaches to Literature for Children and Adolescents 3 Credit Hours

Prerequisites: EDUC 225

This course examines literature for children in PreK through Grade 8. Focus is on selecting and using appropriate books for the classroom in literature-based reading instruction and in content curricular instruction. In addition, students explore multiple instructional approaches and strategies for literature use in diverse classrooms, as well as emphasizing selection, critical evaluation, and utilization of literary materials for developmental, recreational, and needs across the curriculum.

Offered: Resident and Online

EDUC 317 Elementary Reading and Language Arts Practicum 2 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 225 and EDUC 226 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5) and EDUC 318 (may be taken concurrently) and EDUC 319 (may be taken concurrently)

Students are required to prepare a lesson, teach the lesson in an elementary classroom setting and evaluate the experience. Field experience required.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident

EDUC 318 Teaching Reading to Diverse Learners 2-3 Credit Hours

Prerequisites: EDUC 225 and EDUC 319 (may be taken concurrently) and (EDUC 188 (may be taken concurrently) or EDUC 189 (may be taken concurrently))

A survey of instructional approaches, materials and media for the teaching of reading in the elementary grades. Emphasis will be placed on phonics methods. Attention will be given to phonemic awareness, phonics, fluency, vocabulary development, and comprehension.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident and Online
EDUC 319 Teaching Elementary Language Arts  2-3 Credit Hours

**Prerequisites:** EDUC 225 and EDUC 318 (may be taken concurrently)

A survey of instructional approaches, materials and media for the teaching of language arts in the elementary grades, including writing, speaking, and listening. Attention will be given to the connection of language arts to reading, as well as language acquisition, language differences, and creativity and enjoyment in communication. Emphasis will be given to developing differentiated instructional practices for diverse learners in the language arts classroom.

**Registration Restrictions:** Background Check Clearance, Enrollment in Teacher Licensure program.

**Offered:** Resident and Online

EDUC 322 Teaching Elementary and Middle School Social Science  2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 323 (may be taken concurrently) and EDUC 324 (may be taken concurrently)

An analysis of trends and practices of teaching social sciences in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of history, geography, the social sciences, and other related areas appropriate for the elementary classroom. A unit is developed to enhance differentiation of instruction for diverse learners.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 323 Teaching Elementary and Middle School Mathematics  2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 324 (may be taken concurrently) and (EDUC 288 (may be taken concurrently) or EDUC 289 (may be taken concurrently))

An analysis of trends and practices of teaching mathematics in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, geometry, measurement, statistics and probability, and algebra and other related areas appropriate for the elementary classroom.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 324 Teaching Elementary and Middle School Science  2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 323 (may be taken concurrently)

An analysis of trends and practices of teaching science in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for fundamental concepts in science - including physical, life, and earth and space sciences and other related areas appropriate for the elementary classroom.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 324 Teaching Elementary and Middle School Science  2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 323 (may be taken concurrently)

An analysis of trends and practices of teaching science in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for fundamental concepts in science - including physical, life, and earth and space sciences and other related areas appropriate for the elementary classroom.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 350 Behavior and Individual Differences  3 Credit Hours

**Prerequisites:** EDUC 201

This course is designed to prepare teacher candidates concentrating in elementary and/or special education to differentiate instruction, to respond appropriately to student behavior, and to cultivate an environment conducive to learning. Emphasis is given to the application of skills to promote responsibility, self-discipline, and self-regulation. Also considered will be variations in student interests, culture, gender, development, and disabilities.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 360 Foundations of Education  2-3 Credit Hours

**Prerequisites:** EDUC 201 and Education Gate 2 with a score of 3

A comprehensive survey of the historical, philosophical, psychological, and sociological foundations of American education. Emphasis is placed upon the educational foundations as found in the Scriptures, and the applicability of these to both the Christian School Movement and the public school system. Students will be expected to articulate their personal philosophy of education as a result of this course.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 380 Current Issues in Education  3 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 200 and EDUC 205

An examination of current issues in the field of education with classroom implications and case study. It should be the last course taken.

**Note:** This is the capstone course.

**Offered:** Online
EDUC 388 Practicum in Education III: External 0 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 389 Practicum in Education III: Local 0 Credit Hours

Prerequisites: Background Clear Virginia with a score of 5 and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 390 Teaching Practicum 3 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 205

An extended supervised field experience targeted to enhance teaching skills in the classroom. It should be the last course taken.

Note: This is a capstone course.

Offered: Resident and Online

EDUC 398 Field Experience Capstone 3 Credit Hours

An extended supervised field experience targeted to enhance teaching skills in the classroom.

Offered: Online

EDUC 410 Elementary School Curriculum 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 and EDUC 415 (may be taken concurrently)

Recommendations are presented for curriculum for elementary grades based on major concepts, principles, theories and research related to child development to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation. Planning and evaluating appropriate experiences and materials that nurture and challenge children as they progress through their stages of development are provided through practical activities. Current trends and how they affect the curriculum are also addressed.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 411 Elementary School Curriculum Practicum 1 Credit Hour

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Candidates will participate in a field practicum to experience the relationship between the planning of curriculum and the implementation of instruction. Emphasis is given to integrating the fine arts and/or other non-core areas into the curriculum and using the arts to enhance instruction within the core subject areas. Field experience required.

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 412 Middle School Curriculum and Instruction 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and Education Gate 2 with a score of 3 and (EDUC 488 (may be taken concurrently) and EDUC 489 (may be taken concurrently))

This course is a study of the historical development and philosophical base of the middle school. It will emphasize the unique characteristics of the emerging adolescent and the prescriptive school concepts that will meet those needs. Field experience required.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 415 Diagnostic Measurement and Evaluation 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 and EDUC 410 (may be taken concurrently)

A diagnostic-prescriptive approach to classroom teaching is presented in this course. The teacher candidate is trained in diagnostic testing techniques and procedures, the administration and interpretation of standardized tests, and the construction of classroom tests.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 416 Diagnostic Measurement and Evaluation Practicum 1 Credit Hour

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 323 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will be assigned to tutor elementary students in the Tutoring Club for individual diagnosis and appropriate instruction for diverse learners. Field experience required.

Note: Admission to Educator Preparation Program.

Offered: Resident
EDUC 419 Content Teaching Methods  2 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and Background Check Clearance with a score of 5

Secondary Teaching Methods is a generic course. Teacher candidates will be expected to meet competencies associated with effective teaching in their content area, especially teaching skills related to questioning techniques, individualized instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. Emphasis will be placed on methods which provide instruction in thinking and writing across the curriculum. Note: (Offered fall semester only)

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 420 Content Teaching Methods Practicum  1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5 and EDUC 235 and EDUC 236

Teacher candidates will be required to prepare a unit, teach in a secondary classroom setting, and evaluate the experience. Field experience required. Note: (Offered fall semester only)

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 425 Content Measurement and Evaluation  3 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

This course is designed to acquaint teacher candidates with the basic principles and practices of student assessment through the use of standardized tests and teacher-made tests. Simple statistical treatments of both types of tests are included. Evaluation of instructional objectives is also stressed.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 435 Content Curriculum Fundamentals  2 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5 and EDUC 436 (may be taken concurrently)

Curriculum defines the motivation for programs and instruction used in teaching. Content curriculum focuses on those trends and principles which span academic areas and which cross grade levels. Attention will be given to special and alternative education to federal, state and local guidelines; and to the influence of educational philosophies on programs and instruction.

**Note:** Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

**Offered:** Resident

EDUC 436 Content Curriculum Fundamentals Practicum  1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 435 (may be taken concurrently)

Experiences in demonstrating and evaluating content teaching episodes including the use of appropriate materials and classroom management. Field experience required.

**Note:** Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

**Offered:** Resident

EDUC 450 Student Teaching Seminar, Elem  2 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 454 Supervised StuTea Elementary I  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 455 Superv StuTea Elementary II  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 456 Supervised Student Tchng-Middl  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 458 Student Teaching Seminar(Secon  2 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 459 Supervised Student Teaching Pr  3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5
EDUC 460 Sup Stu Teach in the Sec Schl 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 461 Sup Stu Tea Sec School II 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 463 Sup StuTea Elementary School M 4 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 464 Sup StuTea Secondary School Mu 4 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 469 Supervised StuTea Elem Hlth & 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 470 Sup StuTea Secondary Hlth/PE 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 473 Sup Student Tchng in Spec Educ 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 474 Sup Studnt Tchng in Spec Educ 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 475 Seminar in Classroom Management 2-3 Credit Hours
Prerequisites: Education Gate 3 with a score of 3 and EDUC 476 (may be taken concurrently) and EDUC 477 (may be taken concurrently)

Student teachers will apply principles of classroom management from reading assignments and group discussion to actual practice in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

Note: Admission to Student Teaching.
Offered: Resident and Online

EDUC 477 Supervised Student Teaching II 3,5 Credit Hours
Prerequisites: Education Gate 3 with a score of 3 and EDUC 475 (may be taken concurrently) and EDUC 476 (may be taken concurrently)
A continuation of student teaching in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

Note: Admission to Student Teaching.
Offered: Resident and Online

EDUC 487 Practicum in Middle Education: External 0 Credit Hours
Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 412 (may be taken concurrently)
Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice in middle education. This practicum may only be repeated one time with prior program chair approval.
Offered: Online

EDUC 488 Practicum in Middle Education: Local 0 Credit Hours
Prerequisites: Background Clear Virginia with a score of 5 and EDUC 412 (may be taken concurrently)
Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice in middle education. This practicum may only be repeated one time with prior program chair approval.
Offered: Resident

EDUC 495 Directed Research 1-3 Credit Hours
Prerequisites: EDUC 000 and Background Check Receipt with a score of 5
To be planned (with the instructor) on an individual basis to include research, special activities, and conferences. May be repeated for credit to a maximum of 3 semester hours.
Offered: Resident

EDUC 497 Special Topics in Education 1-3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
EDUC 497 - Special Topics in Education (1 to 3 hours)
Offered: Resident

EDUC 499 English Internship 6 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Professional-supervised experience in first-hand internship opportunities: writing, editing, researching, and comparable duties. Application procedures processed through the Career Center. Must apply semester prior to completing internship.
Offered: Resident
Licensure Programs

The Liberty University School of Education utilizes a gate system to ensure the successful progression of its candidates through the Educator Preparation Provider (EPP) program. The following gates are described below:

- **Gate 1**: University Admission and Declaration of Major
- **Gate 2**: Program Status Check
- **Gate 3**: Program Admission and Student Teaching Application
- **Gate 4**: Program Exit and Licensure Application

Please visit www.liberty.edu/uguide for specific requirements at each gate.

Status Check (Gate 2)

- **Gate 1**: Admission to the University
  
  Please see the admission guidelines found at www.liberty.edu/admissions.

- **Gate 2**: Program Status Check
  
  Preparation for the Program Status Check (Gate 2) begins in the first EDUC course. Candidates will be presented with an overview of the program and how to proceed to Gate 2. The Program Status Check (Gate 2) includes (but is not limited to) the following:
  
  a. A minimum cumulative GPA of 3.0;
  b. Satisfactory conduct / dispositions;
  c. Required test scores (as stated at www.liberty.edu/uguide);
  d. Clearance of the required background check;

  Please see https://www.liberty.edu/education/epp-undergrad-gates/gate-2/ for specific, current guidelines concerning the Gate 2 Program Status Check.

Student Teaching

The student teaching experience is required of all candidates seeking teacher licensure and takes place during the student’s final semester of study. It will involve the commitment of the entire semester for student teaching and related coursework.

Professional Semester

Student teaching experiences are arranged to take place within Christian and public school settings in Central Virginia and abroad. A listing of local school divisions may be found at http://www.liberty.edu/uguide. A limited number of external placements in accredited schools are available for students who meet the criteria for external placement. The University seeks to place student teachers in positive classroom settings with well-qualified cooperating teachers.

It is the policy of the Liberty University School of Education that student teaching experiences are performed in the above settings which are supervised directly by faculty members from the University. For this reason, it is not possible to complete student teaching at another institution and then transfer credit to Liberty for the purpose of meeting student teaching requirements. Teacher candidates also will not be issued credit for student teaching because of having a period of non-certified classroom employment. Further information about the student teaching experience may be secured from the Teacher Licensure Office.

The student teaching experience should be approached with a great deal of respect for the responsibilities involved and should be regarded as a very important experience for the aspiring teacher. During the student teaching semester, the candidate will assume an important role in terms of responsibilities and obligations to the school and the candidates where the student teaching is to take place. It is also imperative that student teachers plan to arrange personal time schedules so that proper attention is given to student teaching and those activities associated with outside preparation and school responsibilities.

For these reasons, the School of Education very strongly suggests that teacher candidates should not plan to have significant amounts of outside diversions during the student teaching semester. Examples of activities which have previously caused problems for student teachers include jobs, excessive social commitments, and extracurricular activities. In such circumstances, the quality of the teaching inevitably suffers. For these reasons, planning and prior arrangement to avoid such problems is expected. Please see the Teacher Education Handbook and the Student Teaching Handbook found at http://www.liberty.edu/uguide for specific policies concerning the requirements for student teaching.

Admission to Student Teaching (Gate 3)

Gate 3 is considered the official admission stage for the Liberty University EPP (Educator Preparation Provider) Program. The standards of admission to the EPP are inclusive of those for admission to the University and include other criteria outlined by the School of Education as indicated below. Policies governing admission to the program originate in, or are channeled through the Teacher Education Department. The Department formulates policies, coordinates the EPP program, and works for selective recruitment, admission, and retention of diverse candidates for and in teacher licensure. It must be clearly understood that admission to the University is not synonymous with admission to the EPP. For Gate 3, candidates must complete an application that

1. documents they have met the requirements to be in the program and
2. makes the official request for a student teaching placement.

The Gate 3: Program Admission / Student Teaching Application includes (but is not limited to) the following:

1. Results of current TB test;
2. Receipt of current liability insurance;
3. Cleared background check;
4. Satisfactory conduct / dispositions;
5. A minimum cumulative GPA of 3.0;
6. Completion of all professional education coursework, as well as all courses in the candidate’s major area of study. Grades below a “C” are not acceptable in any EDUC course, or in any concentration course (Elementary and Special Education Licensure), or in any upper level course in the major (Secondary/ Comprehensive Licensure);
7. Completion of all required test scores (https://www.liberty.edu/education/epp-undergrad-gates/gate-3/). Licensure tests must be passed before the student teaching application can be accepted and a request for placement can be made; and
8. DCP Audit that indicates all coursework except student teaching is completed.
The application deadlines for placement in student teaching are September 1 for placement in the spring semester and February 1 for placement in the fall semester.

GATE 4: Program Exit and Licensure Application
Candidates are ready to proceed to Gate 4 when they have a conferred degree (with the required GPA, coursework, etc.) and the required paperwork documenting that they are eligible for a teaching license. The Gate 4 checklist for the required documents may be found at https://www.liberty.edu/education/epp-undergrad-gates/gate-4/.

Teacher Licensure Tests
An important requirement for meeting Teacher Licensure standards in the Commonwealth of Virginia is the successful completion of the required tests for licensure. Tests include Praxis Core Mathematics, the Praxis Core Reading, the Praxis Core Writing, the VCLA (Virginia Communication and Literacy Assessment), the Praxis Subject Assessment, and the RVE (Reading for Virginia Educators) for Elementary and Special Education candidates.

These tests must be passed before applying for Gate 3. The tests may be repeated, if necessary. More information about the required licensure tests may be found at http://www.liberty.edu/uguide.

Elementary And Special Education Licensure
A teacher candidate who plans to teach in elementary or special education must complete a major in Elementary Education Integrated Studies or Special Education Integrated Studies. The candidate will choose from a specified list of concentrations that have been approved by the respective department chairs. The middle school option provides additional endorsement in the concentration selected. Professional education requirements for teacher candidates preparing to be elementary and special education teachers are outlined in the program DCP. Course requirements are available online at http://www.liberty.edu/education.

Secondary Licensure
A candidate who plans to teach in secondary school must complete a major in the subject area(s) in which the candidate wishes to teach. The secondary areas of licensure available at Liberty are biology, business, computer science, English, history/social sciences, mathematics, and work and family studies. Add-on licensure is available in Algebra I, biology, chemistry, computer science, journalism, speech, and theatre arts.

The typical professional education requirements for candidates preparing to be secondary school teachers are outlined in the program Degree Completion Plan (DCP). Requirements for the various subject matter areas are available on the DCP of the respective major.

Comprehensive Licensure
Comprehensive licensure includes certification in both elementary and secondary school levels for the teacher candidate who plans to teach in areas such as music (vocal and instrumental), health/physical education, Spanish, special education, teaching English as a second language, studio art, and theatre arts. Requirements vary slightly among majors. Requirements for the various subject matter areas are available on the Degree Completion Plans of the respective majors.

Licensure Information
Graduates who have successfully completed Liberty’s Educator Preparation Program are eligible for a standard Collegiate Professional License from the Virginia Department of Education. Though candidates must pass a background check for entrance into the Liberty University School of Education EPP program, the Virginia Department of Education (VDOE) also makes determinations concerning the eligibility of candidates.

Please see the VDOE website to see the list of questions that will be asked of each applicant.

Licensure In Other States
Graduates who have successfully completed Liberty’s Educator Preparation Program and who have met all standards for Teacher Licensure in Virginia can be recommended for licensure in other states. The Commonwealth of Virginia operates within the Interstate Licensure Compact, which means that other states in the compact recognize and freely accept incoming licensure applications from Virginia-based programs.

The remaining states utilize different processes to evaluate out-of-state applicants for licensure. In most cases, other states will require proof that the candidate has successfully completed a state-approved Educator Preparation Program. Assistance in securing this license is provided to all of those who are completing student teaching. Licensure applications will be processed after all undergraduate work has been successfully completed.

Teacher Licensure personnel can provide addresses of the various State Departments of Education for those wishing to pursue licensure in other states. The Teacher Licensure personnel will assist candidates in the preparation and submission of the required documents.

As a condition of Liberty’s Certificate of Approval from the Alabama Commission on Higher Education, the following disclaimer pertains to Liberty’s online programs in Teacher Education:

Teacher Education: State Authorization to provide a program related to the preparation of teachers or other P-12 school/system personnel does not indicate eligibility for an Alabama certificate. Applicants for an Alabama certificate based on reciprocity must meet Alabama’s test requirements and submit a valid, renewable professional educator certificate/license issued by another state at the degree level, grade level, and in the teaching field or area of instructional support for which an Alabama certificate is sought and for which Alabama issues a certificate. Applicants for Alabama certification in an area of administration must also document at least three years of full-time employment as an administrator in a P-12 school system(s). www.alsde.edu

Time Frame For Professional Licensure And Field Work
Teacher candidates must have completed all requirements necessary for professional licensure within five years after completion of the undergraduate degree.

Teacher candidates who have received a degree and wish to return to Liberty University for field experience (elementary/secondary student teaching) for licensure will be subject to the same five-year timeframe.

Each case will be evaluated on an individual basis according to time elapsed from completion of coursework, transcripts, program changes, and recent experiences in the field of education.
Programs

- Elementary Education Major (B.Ed.) (p. 721)
- Middle Education Major (B.Ed.) (p. 724)
- Special Education Major (B.Ed.) (p. 731)

Elementary Education Major (B.Ed.)

Purpose
The Bachelor of Education in Elementary Education program is designed for those candidates who desire a four-year bachelor’s degree in education that meets the competencies for teacher candidates. The emphases for this major are on the content for the field, as defined by the federal guidelines, state guidelines of the Virginia Department of Education, and national accreditation. The guidelines for this major is subject to change in federal and state regulations or national accreditation for the licensure of elementary education.

Program Learning Outcomes
The student will be able to:

1. Formulate knowledge of learner development, learning difference, and learning environment.
2. Demonstrate knowledge of the discipline area and the application of content to connect concepts and engage learners.
3. Plan instruction using multiple methods of assessment and instructional strategies to develop a deep understanding of the content for all learners.
4. Develop a Biblical worldview and professional responsibility through ongoing reflection and professional development experiences where opportunities are provided for leadership and collaboration with stakeholders.
5. Use evidence-based practices and knowledge of pedagogical theory in all content areas to assess, plan, and teach elementary students.

Admission Requirements

1. Gate 3 Application Requirements*:
   a. Deadline for Submission
      i. Fall Student Teaching (ST) Semester: February 1
      ii. Spring Student Teaching (ST) Semester: September 1
   b. Gate 2 Acceptance
   c. Degree Completion Plan Audit
      a. 3.0 GPA
   d. Content Competency Evaluation Completion
      a. (Elementary Education, Middles Grades Education, and Secondary Education candidates only)
   e. Licensure Exams (Official Score Reports with PASSING Scores)
      a. Math Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores)
      b. Reading Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores)
      c. Writing Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores; effective for Fa/12020 and future student teachers)
      d. Virginia Communication and Literacy Assessment
      e. Praxis Subject Assessment(s) (Specific to endorsement(s))
   f. Reading for Virginia Educators (Elementary/Special Education candidates only)
2. Full Background Clearances
   a. Criminal Background
   b. Virginia Child Abuse
   c. FBI Fingerprints
3. Placement Request
4. Professional Liability Insurance (Christian Educators Association International)
   a. Coverage dates must be valid through end of ST semester
5. Tuberculosis (TB) Results
   a. Results are valid for one year and must be valid through end of ST semester
6. After completion of the required program coursework (including student teaching), content competencies (if applicable), and the passing of licensure tests, the graduate of this program would be eligible for a Virginia state teaching license.

Special Arrangements for Transfer Policies
The following required courses may be fulfilled by transfer credits:
EDUC 201 Introduction to Education and Classroom Technology (3 c.h.), EDUC 350 Behavior and Individual Differences (3 c.h.), EDUC 360 Foundations of Education (2-3 c.h.).

Transfer credits submitted by students requesting to fulfill any required B.Ed. courses other than those listed above will undergo departmental review. This departmental review will allow for confirmation that transfer credits into the B.Ed. sufficiently meet licensure competency requirements as outlined by the Virginia Department of Education.

Degree Requirements
The Elementary Education program will require three 0-credit hour practicums (EDUC 188 Practicum Educ I: External (0 c.h.), EDUC 288 Practicum Educ II: External (0 c.h.), and EDUC 388 Practicum in Education III: External (0 c.h.)) that are 16-weeks with a minimum of 30 required hours in a K12 classroom with a qualified instructor and have a corequisite with a corresponding content course. Students will be placed in these practicums through the SOE field placement office and will require a background check clearance prior to enrollment.

Students will also complete a combined 9-credit hours (EDUC 475 Seminar in Classroom Management (2-3 c.h.), EDUC 476 Supervised Student Teaching I (3,5 c.h.), and EDUC 477 Supervised Student Teaching II (3,5 c.h.)) of students teaching, after passing Gate 3 and necessary licensure exams, over one semester (their final semester in the program) for a total of 16-weeks and minimum of 150 clock hours in the classroom. Students will be placed in their student teaching through the SOE field placement office.

Programs of Study

Delivery Format: Resident and Online

- Elementary Education (B.Ed.) - Online (p. 722)
- Elementary Education (B.Ed.) - Resident (p. 723)
Career Opportunities

- Elementary Teacher
- Teacher
- Educator

Elementary Education (B.Ed.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching) and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.

Total Hours: 68-85

All applicable prerequisites must be met

Graduation Requirements

- 120 Total Hours
- 3.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of 'C' Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
**Elementary Education (B.Ed.) - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching) and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.

Middle Education Major (B.Ed.)

Purpose
The Bachelor of Education in Middle Education program is designed for those candidates who desire a four-year bachelor’s degree in education that meets the competencies for teacher candidates. The emphases for this major is on the content for the field, as defined by the federal guidelines, state guidelines of the Virginia Department of Education, and national accreditation. The guidelines for this major is subject to change in federal and state regulations or national accreditation for the licensure of middle education.

Program Learning Outcomes
The student will be able to:

1. Formulate knowledge of learner development, learning difference, and learning environment.
2. Demonstrate knowledge of the discipline area and the application of content to connect concepts and engage learners.
3. Plan instruction using multiple methods of assessment and instructional strategies to develop a deep understanding of the content for all learners.
4. Develop a Biblical worldview and professional responsibility through ongoing reflection and professional development experiences where opportunities are provided for leadership and collaboration with stakeholders.
5. Use evidence-based practices and knowledge of pedagogical theory in all content areas to assess, plan, and teach middle students.

Admission Requirements
1. **Gate 3 Application Requirements**:  
   a. Deadline for Submission  
      i. Fall Student Teaching (ST) Semester: February 1  
      ii. Spring Student Teaching (ST) Semester: September 1
   b. Degree Completion Plan Audit  
      a. 3.0 GPA
   c. Content Competency Evaluation Completion  
      a. (Elementary Education, Middles Grades Education, and Secondary Education candidates only)
   d. Licensure Exams (Official Score Reports with PASSING Scores)  
      a. Math Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores)
      b. Reading Assessment (Praxis Core or eligible SAT/ACT /GRE exemption scores)
      c. Writing Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores; effective for Fa/12020 and future student teachers)
      d. Virginia Communication and Literacy Assessment
      e. Praxis Subject Assessment(s) (Specific to endorsement(s))
2. Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
3. CSER All requirements must be satisfied before a degree will be awarded

Special Arrangements for Transfer Policies
The following required courses may be fulfilled by transfer credits: EDUC 201 Introduction to Education and Classroom Technology (3 c.h.), EDUC 350 Behavior and Individual Differences (3 c.h.), EDUC 360 Foundations of Education (2-3 c.h.).

Degree Requirements
The Middle Education program will require three 0-credit hour practicums (EDUC 188 Practicum in Education I: External (0 c.h.), EDUC 288 Practicum in Education II: External (0 c.h.), and EDUC 488 Practicum in Middle Education: External (0 c.h.) that are 16-weeks with a minimum of 30 required hours in a K12 classroom with a qualified instructor and have a co-requisite with a corresponding content course. Students will be placed in these practicums through the SOE field placement office and will require a background check clearance prior to enrollment.

Students will also complete a combined 9-credit hours (EDUC 475 Seminar in Classroom Management (2-3 c.h.), EDUC 476 Supervised Student Teaching I (3.5 c.h.), and EDUC 477 Supervised Student Teaching II (3.5 c.h.)) of students teaching, after passing Gate 3 and necessary licensure exams, over one semester (their final semester in the program) for a total of 16-weeks and minimum of 150 clock hours in the classroom. Students will be placed in their student teaching through the SOE field placement office.

Programs of Study

Delivery Format: Resident Only

- Middle Education (B.Ed.) - Math - Resident (p. 727)
- Middle Education (B.Ed.) - Science - Resident (p. 728)
Delivery Format: Resident and Online
- Middle Education (B.Ed.) - English - Online (p. 725)
- Middle Education (B.Ed.) - English - Resident (p. 726)
- Middle Education (B.Ed.) - Social Sciences - Online (p. 729)
- Middle Education (B.Ed.) - Social Sciences - Resident (p. 730)

Career Opportunities
- Middle School Teacher
- Teacher
- Educator

Middle Education (B.Ed.) - English - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching) and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.

Total Hours: 70-84

*All applicable prerequisites must be met*

**Graduation Requirements**

- **124 Total hours**
- **3.0 Overall grade point average**
- **31 Hours must be upper-level courses (300-400 level)**
- **Grade of ‘C’ Minimum required for all upper-level courses in the major**
- **50% Of major taken through Liberty University**
- **31 Hours must be completed through Liberty University**
- **Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date**
- **CSER All requirements must be satisfied before a degree will be awarded**

**Special Education Major (B.Ed.)**

**Purpose**

The Bachelor of Education in Special Education program is designed for those candidates who desire a four-year bachelor’s degree in education that meets the competencies for teacher candidates. The emphases for this major is on the content for the field, as defined by the federal guidelines, state guidelines of the Virginia Department of Education, and national accreditation. The guidelines for this major is subject to change in federal and state regulations or national accreditation for the licensure of special education.

**Program Learning Outcomes**

The student will be able to:

1. Formulate knowledge of learner development, learning difference, and learning environment.
2. Demonstrate knowledge of the discipline area and the application of content to connect concepts and engage learners.
3. Plan instruction using multiple methods of assessment and instructional strategies to develop a deep understanding of the content for all learners.
4. Develop a Biblical worldview and professional responsibility through ongoing reflection and professional development experiences where opportunities are provided for leadership and collaboration with stakeholders.
5. Use evidence-based practices and student characteristics along with theory on human behavior and development to assess, plan, and teach individuals with exceptionalities.

**Admission Requirements**

1. **Gate 3 Application Requirements**:
   - Deadline for Submission
     - Fall Student Teaching (ST) Semester: February 1
     - Spring Student Teaching (ST) Semester: September 1

2. **Degree Completion Plan Audit**
   - **3.0 GPA**
   - **Gate 2 Acceptance**

3. **Content Competency Evaluation Completion**
   - Elementary Education, Middles Grades Education, and Secondary Education candidates only

4. **Licensure Exams (Official Score Reports with PASSING Scores)**
   - Math Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores)
   - Reading Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores)
   - Writing Assessment (Praxis Core or eligible SAT/ACT/GRE exemption scores; effective for Fa/12020 and future student teachers)
   - Virginia Communication and Literacy Assessment
   - Praxis Subject Assessment(s) (Specific to endorsement(s))
   - Reading for Virginia Educators (Elementary/Special Education candidates only)

5. **Full Background Clearances**
   - Criminal Background
   - Virginia Child Abuse
   - FBI Fingerprints

6. **Placement Request**

7. **Professional Liability Insurance (Christian Educators Association International)**
   - Coverage dates must be valid through end of ST semester

8. **Tuberculosis (TB) Results**
   - Results are valid for one year and must be valid through end of ST semester

9. **After completion of the required program coursework (including student teaching), content competencies (if applicable), and the passing of licensure tests, the graduate of this program would be eligible for a Virginia state teaching license.**
Special Arrangements for Transfer Policies

The following required courses may be fulfilled by transfer credits:
EDUC 201 Introduction to Education and Classroom Technology (3 c.h.), EDUC 350 Behavior and Individual Differences (3 c.h.), EDUC 360 Foundations of Education (2-3 c.h.).

Transfer credits submitted by students requesting to fulfill any required B.Ed. courses other than those listed above will undergo departmental review. This departmental review will allow for confirmation that transfer credits into the B.Ed. sufficiently meet licensure competency requirements as outlined by the Virginia Department of Education.

Degree Requirements

The Special Education program will be required three 0-credit hours practicum (EDUC 188 Practicum in Education I: External (0 c.h.), EDUC 288 Practicum in Education II: External (0 c.h.), and EDSP 488 Practicum in Special Education: External (0 c.h.)) that are 16-weeks with a minimum of 30 required hours in a K12 classroom with a qualified instructor and have a corequisite with a corresponding content course. Students will be placed in these practicums through the SOE field placement office and will require a background check clearance prior to enrollment.

Students will also complete a combined 9-credit hours (EDUC 475 Seminar in Classroom Management (2-3 c.h.), EDUC 476 Supervised Student Teaching I (3,5 c.h.), and EDSP 477 Supervised Student Teaching II (3,5 c.h.)) of students teaching, after passing Gate 3 and necessary licensure exams, over one semester (their final semester in the program) for a total of 16-weeks and minimum of 150 clock hours in the classroom. Students will be placed in their student teaching through the SOE field placement office.

Programs of Study

Delivery Format: Resident and Online

• Special Education (B.Ed.) - Online (p. 732)
• Special Education (B.Ed.) - Resident (p. 733)

Career Opportunities

• Special Education Teacher
• Teacher
• Educator

Special Education (B.Ed.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

After completion of the required program coursework (including student teaching) and the passing of licensure tests, the graduate of this program would be eligible for a VA state teaching license.

Non-Licensure Programs

The School of Education offers the following programs in an online format. The requirements for the programs are listed below.

Admission Requirements

- Application Submission.
- High School Self-Certification Form.
- College transcripts from all previously attended institutions.
- Students must have above a 2.0 cumulative combined GPA for all accredited colleges attended or for high school.

Programs

- Early Childhood Education Interdisciplinary Studies Major (B.S.) (Non-Licensure Program) (p. 734)
- Education Major (A.A.) & Early Childhood Education Major (A.A.) (Non-Licensure Programs) (p. 743)
- Elementary Education Interdisciplinary Studies Major (B.S.) (p. 752)
- Special Education Interdisciplinary Studies Major (B.S.) (p. 760)

Early Childhood Education Interdisciplinary Studies Major (B.S.) (Non-Licensure Program)

Program Learning Outcomes

A graduate of the Pre-Licensure (AA & BS) programs:

- PRE-A. Knows Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
  - PRE-A1. Demonstrates a broad base of general and professional knowledge;
- PRE-B. Implements skills as a gift from God, because teaching is a calling from God
  - PRE-B2. Plans effective instruction and selects a variety of strategies based on developmental levels and diverse backgrounds in course case studies;
  - PRE-B3. Demonstrates the understanding of differentiated instruction,
  - PRE-B4. Demonstrates an understanding of classroom management to motivate students and maximize learning;
- PRE-C. Believes and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity
  - PRE-C5. Demonstrates behaviors of a reflective student, articulates a Biblical worldview, and seeks opportunities for professional development.

Program of Study

Delivery Format: Online Only

- Early Childhood Education Interdisciplinary Studies (B.S.) - Online (p. 742)

Career Opportunities

- Tutor
- Homeschool Teacher
- Paraprofessional
- Private School Teacher
Courses

EDUC 125 Introduction to Education 1 Credit Hour

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Each teacher candidate will be required to prepare for structured observations in the school setting. Students will apply to the Educator Preparation Program.

Offered: Resident

EDUC 188 Practicum in Education I: External 0 Credit Hours

Prerequisites: EDUC 225 and (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 189 Practicum in Education I: Local 0 Credit Hours

Prerequisites: EDUC 225 and Background Clear Virginia with a score of 5 and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 200 Principles of Education 3 Credit Hours

Students will examine historical, philosophical, legal, and sociological principles of education. Emphasis will be placed on current issues and terminology in the field of education.

Offered: Online

EDUC 201 Introduction to Education and Classroom Technology 3 Credit Hours

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Teacher candidates will focus on the effective use of technology in learning environments, with special attention to instructional practice, assessment development and student engagement. Each teacher candidate will be required to prepare for structured observations in the school setting.

Offered: Resident and Online

EDUC 205 Learning Theory and Portfolio Development 3 Credit Hours

Prerequisites: (EDUC 200)

An introduction to learning theories with an emphasis on experiential learning. Here will also be a focus on learning and learning styles, including management and communications profiles. A major part of this course is the preparation of the Professional Development Profile and the Experiential Learning Portfolio.

Offered: Online

EDUC 210 Early Childhood Education Fundamentals 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Designed to introduce a candidate to the field of early childhood education; an overview of child development and learning, family relationships, assessment of young children, developmentally effective approaches to early childhood education, and how to use content knowledge to build a meaningful curriculum.

Offered: Online

EDUC 215 Wellness in the Early Childhood Setting 3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Designed to introduce a candidate to the issue of wellness in early childhood education; an overview of wellness in the early childhood setting by examining good nutrition, safety, and healthful practices for young children.

Offered: Online

EDUC 220 Differentiated Teaching and Learning: Elementary 2 Credit Hours

Prerequisites: EDUC 125 and Background Check Receipt with a score of 5

Designed to train teacher candidates concentrating in elementary or special education in differentiated teaching and learning strategies, aiding the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on the mastery of teaching and learning skills in thinking, organizing for study, time management, reading rate and comprehension, textbook mastery/readability, listening, note taking, retention, motivation for study, learning styles, exceptionality, class discussion, test taking, and handwriting.

Offered: Resident
EDUC 221 Content Area Reading and Differentiated Teaching and Learning 2 Credit Hours

Prerequisites: EDUC 125 and Background Check Receipt with a score of 5

This course is designed to prepare teacher candidates training for 6-12 and K-12 level teaching in developing differentiated teaching and learning strategies for the reading, thinking, and study skills required in content areas. Aids the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on mastery of teaching and learning skills in thinking, organizing for study, time management, reading comprehension and rate, textbook mastery/readability, listening, note taking, retention, motivation for study, class discussion, test taking, learning styles, exceptionality, and handwriting.

Offered: Resident

EDUC 225 Instructional Design: Elementary 1,3 Credit Hours

Prerequisites: EDUC 201 and EDUC 350 and Education Gate 2 with a score of 3

A systematic approach to instruction for diverse classrooms including purpose, process and practice. Each teacher candidate will prepare lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation, and resources.

Offered: Resident and Online

EDUC 226 Instructional Design Practicum: Elementary 2 Credit Hours

Prerequisites: (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate.

Offered: Resident

EDUC 235 Content Instructional Design 1 Credit Hour

Prerequisites: (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

A systematic approach to instruction for diverse classrooms, including purpose, process and practice. Each teacher candidate will prepare content lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation and resources. Field experience required.

Offered: Resident

EDUC 236 Content Instructional Design Practicum: Secondary 2 Credit Hours

Prerequisites: EDUC 235 (may be taken concurrently) and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating content instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate. Field experience required.

Offered: Resident

EDUC 240 Introduction to Applied Educational Technology Practicum 2 Credit Hours

Prerequisites: (EDUC 225 (may be taken concurrently) and EDUC 226 (may be taken concurrently)) or (EDUC 235 (may be taken concurrently) and EDUC 236 (may be taken concurrently)) or (KINE 245 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5) and Education Teacher Licensure with a score of 5

This course is designed to allow the teacher candidate to be competent in the application of learning technologies needed for teachers.

Registration Restrictions: Background Check Receipt, and Enrollment in Teacher Licensure Program.

Offered: Resident

EDUC 288 Practicum in Education II: External 0 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 289 Practicum in Education II: Local 0 Credit Hours

Prerequisites: Background Clear Virginia with a score of 5 and (EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident
EDUC 290 Pre-Teaching Practicum 1 Credit Hour

Prerequisites: EDUC 125 and Background Check Receipt with a score of 5

A planned program of practice and observation in a PreK-12 classroom setting under the mentorship of an experienced on-site educator. May be repeated to a maximum of six hours. Thirty hours of practice and observation equal one credit hour.

EDUC 298 Education Practicum 3 Credit Hours

Prerequisites: (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and EDUC 205

Field experience in a classroom setting.

EDUC 299 Internship 0 Credit Hours

Prerequisites: Background Check Clearance with a score of 5

Professional-supervised experience in first-hand internship opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

EDUC 301 Instructional Practices for Math Teachers 3 Credit Hours

Prerequisites: EDUC 205 or EDUC 220

This course provides professional development for preservice and inservice teachers in mathematics instruction. Students will examine the principles of instruction for number systems, computation, and problem solving and apply theories to classroom settings.

EDUC 302 Instructional Practices for Reading Teachers 3 Credit Hours

Prerequisites: EDUC 205 or EDUC 220

This course will survey instructional approaches, materials, and media for the teaching of reading. The instruction of phonemic awareness, phonics, vocabulary, comprehension and fluency will be addressed. Attention will be given to creativity and enjoyment in reading.

Offered: Online

EDUC 303 Instructional Practices for Content Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course is designed to engage educators in applying effective principles of instruction when teaching in the content areas. A focus is on the instructional process of planning, teaching, assessing, and reflecting.

Offered: Online

EDUC 304 Classroom Management for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course will survey instructional approaches, materials, and methods for classroom management. Emphasis will be placed on management styles and the various methods associated with those styles.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 305 Educational Philosophy for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course presents the practical role of philosophy in the classroom. Emphasis is placed upon a careful analysis of current religious and education trends, and major philosophies are defined. Students will formulate a personal philosophy and apply that philosophy to their teaching methodology, lesson plan design, and delivery.

Offered: Online

EDUC 306 Scholarly Writing and APA for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and ENGL 101 and ENGL 102 and Background Check Receipt with a score of 5

This course provides professional development for preservice and inservice teachers in professional writing skills. Students will examine the principles of form, structure, grammars, and format.

Offered: Online

EDUC 307 Instructional Practices for Differentiated Instruction 3 Credit Hours

Prerequisites: (EDUC 205 and Background Check Receipt with a score of 5) or (EDUC 220 and Background Check Receipt with a score of 5)

This course provides professional development for preservice and inservice teachers in differentiated instruction.

Offered: Online

EDUC 315 Instructional Approaches to Literature for Children and Adolescents 3 Credit Hours

Prerequisites: EDUC 225

This course examines literature for children in PreK through Grade 8. Focus is on selecting and using appropriate books for the classroom in literature-based reading instruction and in content curricular instruction. In addition, students explore multiple instructional approaches and strategies for literature use in diverse classrooms, as well as emphasizing selection, critical evaluation, and utilization of literary materials for developmental, recreational, and needs across the curriculum.

Offered: Resident and Online
EDUC 317 Elementary Reading and Language Arts Practicum  
2 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 225 and EDUC 226 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5) and EDUC 318 (may be taken concurrently) and EDUC 319 (may be taken concurrently)

Students are required to prepare a lesson, teach the lesson in an elementary classroom setting and evaluate the experience. Field experience required.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident

EDUC 318 Teaching Reading to Diverse Learners  
2-3 Credit Hours

Prerequisites: EDUC 225 and EDUC 319 (may be taken concurrently) and (EDUC 188 (may be taken concurrently) or EDUC 189 (may be taken concurrently))

A survey of instructional approaches, materials and media for the teaching of reading in the elementary grades. Emphasis will be placed on phonics methods. Attention will be given to phonemic awareness, phonics, fluency, vocabulary development, and comprehension.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident and Online

EDUC 319 Teaching Elementary Language Arts  
2-3 Credit Hours

Prerequisites: EDUC 225 and EDUC 318 (may be taken concurrently)

A survey of instructional approaches, materials and media for the teaching of language arts in the elementary grades, including writing, speaking, and listening. Attention will be given to the connection of language arts to reading, as well as language acquisition, language differences, and creativity and enjoyment in communication. Emphasis will be given to developing differentiated instructional practices for diverse learners in the language arts classroom.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident and Online

EDUC 322 Teaching Elementary and Middle School Social Science  
2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 (may be taken concurrently) and EDUC 324 (may be taken concurrently) and (EDUC 288 (may be taken concurrently) or EDUC 289 (may be taken concurrently))

An analysis of trends and practices of teaching social sciences in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, geometry, measurement, statistics and probability, and algebra and other related areas appropriate for the elementary classroom.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 323 Teaching Elementary and Middle School Mathematics  
2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 324 (may be taken concurrently) and (EDUC 288 (may be taken concurrently) or EDUC 289 (may be taken concurrently))

An analysis of trends and practices of teaching mathematics in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, geometry, measurement, statistics and probability, and algebra and other related areas appropriate for the elementary classroom.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 324 Teaching Elementary and Middle School Science  
2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 (may be taken concurrently) and EDUC 322 (may be taken concurrently)

An analysis of trends and practices of teaching science in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, geometry, measurement, statistics and probability, and algebra and other related areas appropriate for the elementary classroom.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 350 Behavior and Individual Differences  
3 Credit Hours

Prerequisites: EDUC 201

This course is designed to prepare teacher candidates concentrating in elementary and/or special education to differentiate instruction, to respond appropriately to student behavior, and to cultivate an environment conducive to learning. Emphasis is given to the application of skills to promote responsibility, self-discipline, and self-regulation. Also considered will be variations in student interests, culture, gender, development, and disabilities.

Offered: Resident and Online

EDUC 360 Foundations of Education  
2-3 Credit Hours

Prerequisites: EDUC 201 and Education Gate 2 with a score of 3

A comprehensive survey of the historical, philosophical, psychological, and sociological foundations of American education. Emphasis is placed upon the educational foundations as found in the Scriptures, and the applicability of these to both the Christian School Movement and the public school system. Students will be expected to articulate their personal philosophy of education as a result of this course.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online
EDUC 380 Current Issues in Education 3 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 200 and EDUC 205

An examination of current issues in the field of education with classroom implications and case study. It should be the last course taken.

Note: This is the capstone course.

Offered: Online

EDUC 388 Practicum in Education III: External 0 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 389 Practicum in Education III: Local 0 Credit Hours

Prerequisites: Background Clear Virginia with a score of 5 and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 390 Teaching Practicum 3 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 205

An extended supervised field experience targeted to enhance teaching skills in the classroom. It should be the last course taken.

Note: This is a capstone course.

Offered: Resident and Online

EDUC 398 Field Experience Capstone 3 Credit Hours

An extended supervised field experience targeted to enhance teaching skills in the classroom.

Offered: Online

EDUC 410 Elementary School Curriculum 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 and EDUC 415 (may be taken concurrently)

Recommendations are presented for curriculum for elementary grades based on major concepts, principles, theories and research related to child development to construct learning opportunities that support individual students’ development, acquisition of knowledge, and motivation. Planning and evaluating appropriate experiences and materials that nurture and challenge children as they progress through their stages of development are provided through practical activities. Current trends and how they affect the curriculum are also addressed.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 411 Elementary School Curriculum Practicum 1 Credit Hour

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Candidates will participate in a field practicum to experience the relationship between the planning of curriculum and the implementation of instruction. Emphasis is given to integrating the fine arts and/or other non-core areas into the curriculum and using the arts to enhance instruction within the core subject areas. Field experience required.

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 412 Middle School Curriculum and Instruction 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and Education Gate 2 with a score of 3 and (EDUC 488 (may be taken concurrently) and EDUC 489 (may be taken concurrently))

This course is a study of the historical development and philosophical base of the middle school. It will emphasize the unique characteristics of the emerging adolescent and the prescriptive school concepts that will meet those needs. Field experience required.

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 415 Diagnostic Measurement and Evaluation 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 and EDUC 410 (may be taken concurrently)

A diagnostic-prescriptive approach to classroom teaching is presented in this course. The teacher candidate is trained in diagnostic testing techniques and procedures, the administration and interpretation of standardized tests, and the construction of classroom tests.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online
EDUC 416 Diagnostic Measurement and Evaluation Practicum 1 Credit Hour

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 323 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will be assigned to tutor elementary students in the Tutoring Club for individual diagnosis and appropriate instruction for diverse learners. Field experience required.

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 419 Content Teaching Methods 2 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and Background Check Clearance with a score of 5

Secondary Teaching Methods is a generic course. Teacher candidates will be expected to meet competencies associated with effective teaching in their content area, especially teaching skills related to questioning techniques, individualized instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. Emphasis will be placed on methods which provide instruction in thinking and writing across the curriculum. Note: (Offered fall semester only)

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 420 Content Teaching Methods Practicum 1 Credit Hour

Prerequisites: Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5 and EDUC 235 and EDUC 236

Teacher candidates will be required to prepare a unit, teach in a secondary classroom setting, and evaluate the experience. Field experience required. Note: (Offered fall semester only)

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 425 Content Measurement and Evaluation 3 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

This course is designed to acquaint teacher candidates with the basic principles and practices of student assessment through the use of standardized tests and teacher-made tests. Simple statistical treatments of both types of tests are included. Evaluation of instructional objectives is also stressed.

Note: Admission to Educator Preparation Program.

Offered: Resident

EDUC 435 Content Curriculum Fundamentals 2 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 436 (may be taken concurrently)

Curriculum defines the motivation for programs and instruction used in teaching. Content curriculum focuses on those trends and principles which span academic areas and which cross grade levels. Attention will be given to special and alternative education to federal, state and local guidelines, and to the influence of educational philosophies on programs and instruction.

Note: Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

Offered: Resident

EDUC 436 Content Curriculum Fundamentals Practicum 1 Credit Hour

Prerequisites: Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 435 (may be taken concurrently)

Experiences in demonstrating and evaluating content teaching episodes including the use of appropriate materials and classroom management. Field experience required.

Note: Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

Offered: Resident

EDUC 450 Student Teaching Seminar, Elem 2 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 454 Supervised StuTea Elementary I 5 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 455 Superv StuTea Elementary II 5 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Early Childhood Education Interdisciplinary Studies (B.S.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete one of our state-approved programs. Refer to www.liberty.edu/advisingguide.

1 Courses may also fulfill select general education requirements
2 Requires 45 hours of field experience; does not lead to ACSI licensure
3 Background check clearance required; no field experience required
4 Choose any Cultural Studies course from the General Education list
5 Choose any 100-400 level course from EDSP, EDUC or PSYC not already required in Area of Study I or II

All applicable prerequisites must be met

Graduation Requirements

- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of 'C' Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date.

Education Major (A.A.) & Early Childhood Education Major (A.A.) (Non-Licensure Programs)

Program Learning Outcomes
A graduate of the Pre-Licensure (AA & BS) programs:

- PRE-A. Knows Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
  - PRE-A1. Demonstrates a broad base of general and professional knowledge;
- PRE-B. Implements skills as a gift from God, because teaching is a calling from God
  - PRE-B2. Plans effective instruction and selects a variety of strategies based on developmental levels and backgrounds in course case studies;
  - PRE-B3. Demonstrates the understanding of differentiated instruction;
  - PRE-B4. Demonstrates an understanding of classroom management to motivate students and maximize learning;
- PRE-C. Believes and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity
  - PRE-C5. Demonstrates behaviors of a reflective student, articulates a Biblical worldview, and seeks opportunities for professional development.

Programs of Study
Delivery Format: Online Only

- Early Childhood Education (A.A.) - Online (p. 750)
- Education (A.A.) - Online (p. 751)

Career Opportunities
- Owner/Manager of Early Childhood Education Centers
- Early Childhood Church Ministry Worker
- Pre-School Teacher
- Tutor
- Home school teacher
- Christian school teacher not seeking licensure
- Other education careers that may not need state licensure

Courses

EDUC 125 Introduction to Education  
1 Credit Hour

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Each teacher candidate will be required to prepare for structured observations in the school setting. Students will apply to the Educator Preparation Program.

Offered: Resident

EDUC 188 Practicum in Education I: External  
0 Credit Hours

Prerequisites: EDUC 225 and (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 189 Practicum in Education I: Local  
0 Credit Hours

Prerequisites: EDUC 225 and Background Clear Virginia with a score of 5 and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 200 Principles of Education  
3 Credit Hours

Students will examine historical, philosophical, legal, and sociological principles of education. Emphasis will be placed on current issues and terminology in the field of education.

Offered: Online

EDUC 201 Introduction to Education and Classroom Technology  
3 Credit Hours

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Teacher candidates will focus on the effective use of technology in learning environments, with special attention to instructional practice, assessment development and student engagement. Each teacher candidate will be required to prepare for structured observations in the school setting.

Offered: Resident and Online

EDUC 205 Learning Theory and Portfolio Development  
3 Credit Hours

Prerequisites: EDUC 200

An introduction to learning theories with an emphasis on experiential learning. Here will also be a focus on learning and learning styles, including management and communications profiles. A major part of this course is the preparation of the Professional Development Profile and the Experiential Learning Portfolio.

Offered: Online
EDUC 210 Early Childhood Education Fundamentals  3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

Designed to introduce a candidate to the field of early childhood education; an overview of child development and learning, family relationships, assessment of young children, developmentally effective approaches to early childhood education, and how to use content knowledge to build a meaningful curriculum.

Offered: Online

EDUC 215 Wellness in the Early Childhood Setting  3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

Designed to introduce a candidate to the issue of wellness in early childhood education; an overview of wellness in the early childhood setting by examining good nutrition, safety, and healthful practices for young children.

Offered: Online

EDUC 220 Differentiated Teaching and Learning: Elementary  2 Credit Hours
Prerequisites: EDUC 125 and Background Check Receipt with a score of 5

Designed to train teacher candidates concentrating in elementary or special education in differentiated teaching and learning strategies, aiding the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on the mastery of teaching and learning skills in thinking, organizing for study, time management, reading rate and comprehension, textbook mastery/readability, listening, note taking, retention, motivation for study, learning styles, exceptionality, class discussion, test taking, and handwriting.

Offered: Resident

EDUC 221 Content Area Reading and Differentiated Teaching and Learning  2 Credit Hours
Prerequisites: EDUC 125 and Background Check Receipt with a score of 5

This course is designed to prepare teacher candidates training for 6-12 and K-12 level teaching in developing differentiated teaching and learning strategies for the reading, thinking, and study skills required in content areas. Aids the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on mastery of teaching and learning skills in thinking, organizing for study, time management, reading comprehension and rate, textbook mastery/readability, listening, note taking, retention, motivation for study, class discussion, test taking, learning styles, exceptionality, and handwriting.

Offered: Resident

EDUC 225 Instructional Design: Elementary  1,3 Credit Hours
Prerequisites: EDUC 201 and EDUC 350 and Education Gate 2 with a score of 3

A systematic approach to instruction for diverse classrooms including purpose, process and practice. Each teacher candidate will prepare lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation, and resources.

Offered: Resident and Online

EDUC 226 Instructional Design Practicum: Elementary  2 Credit Hours
Prerequisites: (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate.

Offered: Resident

EDUC 235 Content Instructional Design  1 Credit Hour
Prerequisites: (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

A systematic approach to instruction for diverse classrooms, including purpose, process and practice. Each teacher candidate will prepare content lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation and resources. Field experience required.

Offered: Resident

EDUC 236 Content Instructional Design Practicum: Secondary  2 Credit Hours
Prerequisites: EDUC 235 (may be taken concurrently) and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating content instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate. Field experience required.

Offered: Resident
EDUC 240 Introduction to Applied Educational Technology Practicum  
2 Credit Hours

**Prerequisites:** (EDUC 225 (may be taken concurrently) and EDUC 226 (may be taken concurrently)) or (EDUC 235 (may be taken concurrently) and EDUC 236 (may be taken concurrently)) or (KINE 245 and Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5) and Education Teacher Licensure with a score of 5

This course is designed to allow the teacher candidate to be competent in the application of learning technologies needed for teachers.

**Registration Restrictions:** Background Check Receipt, and Enrollment in Teacher Licensure Program.

**Offered:** Resident

---

EDUC 288 Practicum in Education II: External  
0 Credit Hours

**Prerequisites:** (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and (EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Online

---

EDUC 289 Practicum in Education II: Local  
0 Credit Hours

**Prerequisites:** Background Clear Virginia with a score of 5 and (EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Resident

---

EDUC 290 Pre-Teaching Practicum  
1 Credit Hour

**Prerequisites:** EDUC 125 and Background Check Receipt with a score of 5

A planned program of practice and observation in a PreK-12 classroom setting under the mentorship of an experienced on-site educator. May be repeated to a maximum of six hours. Thirty hours of practice and observation equal one credit hour.

---

EDUC 298 Education Practicum  
3 Credit Hours

**Prerequisites:** (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and EDUC 205

Field experience in a classroom setting.

---

EDUC 299 Internship  
0 Credit Hours

**Prerequisites:** Background Check Clearance with a score of 5

Professional-supervised experience in first-hand internship opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

**Registration Restrictions:** Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

**Offered:** Resident

---

EDUC 301 Instructional Practices for Math Teachers  
3 Credit Hours

**Prerequisites:** EDUC 205 or EDUC 220

This course provides professional development for preservice and inservice teachers in mathematics instruction. Students will examine the principles of instruction for number systems, computation, and problem solving and apply theories to classroom settings.

---

EDUC 302 Instructional Practices for Reading Teachers  
3 Credit Hours

**Prerequisites:** EDUC 205 or EDUC 220

This course will survey instructional approaches, materials, and media for the teaching of reading. The instruction of phonemic awareness, phonics, vocabulary, comprehension and fluency will be addressed. Attention will be given to creativity and enjoyment in reading.

**Offered:** Online

---

EDUC 303 Instructional Practices for Content Teachers  
3 Credit Hours

**Prerequisites:** (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course is designed to engage educators in applying effective principles of instruction when teaching in the content areas. A focus is on the instructional process of planning, teaching, assessing, and reflecting.

**Offered:** Online

---

EDUC 304 Classroom Management for Teachers  
3 Credit Hours

**Prerequisites:** (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course will survey instructional approaches, materials, and methods for classroom management. Emphasis will be placed on management styles and the various methods associated with those styles.

**Registration Restrictions:** Background Check Required.

**Offered:** Online

---

EDUC 305 Classroom Management for Teachers  
3 Credit Hours

**Prerequisites:** (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course will survey instructional approaches, materials, and methods for classroom management. Emphasis will be placed on management styles and the various methods associated with those styles.

**Registration Restrictions:** Background Check Required.

**Offered:** Online
EDUC 305 Educational Philosophy for Teachers 3 Credit Hours

**Prerequisites:** (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course presents the practical role of philosophy in the classroom. Emphasis is placed upon a careful analysis of current religious and education trends, and major philosophies are defined. Students will formulate a personal philosophy and apply that philosophy to their teaching methodology, lesson plan design, and delivery.

**Offered:** Online

EDUC 306 Scholarly Writing and APA for Teachers 3 Credit Hours

**Prerequisites:** (EDUC 205 or EDUC 220) and ENGL 101 and ENGL 102 and Background Check Receipt with a score of 5

This course provides professional development for preservice and inservice teachers in professional writing skills. Students will examine the principles of form, structure, grammars, and format.

**Offered:** Online

EDUC 307 Instructional Practices for Differentiated Instruction 3 Credit Hours

**Prerequisites:** (EDUC 205 and Background Check Receipt with a score of 5) or (EDUC 220 and Background Check Receipt with a score of 5)

This course provides professional development for preservice and inservice teachers in differentiated instruction.

**Offered:** Online

EDUC 315 Instructional Approaches to Literature for Children and Adolescents 3 Credit Hours

**Prerequisites:** EDUC 225

This course examines literature for children in PreK through Grade 8. Focus is on selecting and using appropriate books for the classroom in literature-based reading instruction and in content curricular instruction. In addition, students explore multiple instructional approaches and strategies for literature use in diverse classrooms, as well as emphasizing selection, critical evaluation, and utilization of literary materials for developmental, recreational, and needs across the curriculum.

**Offered:** Resident and Online

EDUC 317 Elementary Reading and Language Arts Practicum 2 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 225 and EDUC 226 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5) and EDUC 318 (may be taken concurrently) and EDUC 319 (may be taken concurrently)

Students are required to prepare a lesson, teach the lesson in an elementary classroom setting and evaluate the experience. Field experience required.

**Registration Restrictions:** Background Check Clearance, Enrollment in Teacher Licensure program.

**Offered:** Resident

EDUC 318 Teaching Reading to Diverse Learners 2-3 Credit Hours

**Prerequisites:** EDUC 225 and EDUC 319 (may be taken concurrently) and (EDUC 188 (may be taken concurrently) or EDUC 199 (may be taken concurrently))

A survey of instructional approaches, materials and media for the teaching of reading in the elementary grades. Emphasis will be placed on phonics methods. Attention will be given to phonemic awareness, phonics, fluency, vocabulary development, and comprehension.

**Registration Restrictions:** Background Check Clearance, Enrollment in Teacher Licensure program.

**Offered:** Resident and Online

EDUC 319 Teaching Elementary Language Arts 2-3 Credit Hours

**Prerequisites:** EDUC 225 and EDUC 318 (may be taken concurrently)

A survey of instructional approaches, materials and media for the teaching of language arts in the elementary grades, including writing, speaking, and listening. Attention will be given to the connection of language arts to reading, as well as language acquisition, language differences, and creativity and enjoyment in communication. Emphasis will be given to developing differentiated instructional practices for diverse learners in the language arts classroom.

**Registration Restrictions:** Background Check Clearance, Enrollment in Teacher Licensure program.

**Offered:** Resident and Online

EDUC 322 Teaching Elementary and Middle School Social Science 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 323 (may be taken concurrently) and EDUC 324 (may be taken concurrently)

An analysis of trends and practices of teaching social sciences in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of history, geography, the social sciences, and other related areas appropriate for the elementary classroom. A unit is developed to enhance differentiation of instruction for diverse learners.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online
EDUC 323 Teaching Elementary and Middle School Mathematics
2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 324 (may be taken concurrently) and (EDUC 288 (may be taken concurrently) or EDUC 289 (may be taken concurrently))

An analysis of trends and practices of teaching mathematics in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, geometry, measurement, statistics and probability, and algebra and other related areas appropriate for the elementary classroom.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 324 Teaching Elementary and Middle School Science
2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 323 (may be taken concurrently)

An analysis of trends and practices of teaching science in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for fundamental concepts in science - including physical, life, and earth and space sciences and other related areas appropriate for the elementary classroom.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 350 Behavior and Individual Differences
3 Credit Hours

**Prerequisites:** EDUC 201

This course is designed to prepare teacher candidates concentrating in elementary and/or special education to differentiate instruction, to respond appropriately to student behavior, and to cultivate an environment conducive to learning. Emphasis is given to the application of skills to promote responsibility, self-discipline, and self-regulation. Also considered will be variations in student interests, culture, gender, development, and disabilities.

**Offered:** Resident and Online

EDUC 360 Foundations of Education
2-3 Credit Hours

**Prerequisites:** EDUC 201 and Education Gate 2 with a score of 3

A comprehensive survey of the historical, philosophical, psychological, and sociological foundations of American education. Emphasis is placed upon the educational foundations as found in the Scriptures, and the applicability of these to both the Christian School Movement and the public school system. Students will be expected to articulate their personal philosophy of education as a result of this course.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 380 Current Issues in Education
3 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 200 and EDUC 205

An examination of current issues in the field of education with classroom implications and case study. It should be the last course taken.

**Note:** This is the capstone course.

**Offered:** Online

EDUC 388 Practicum in Education III: External
0 Credit Hours

**Prerequisites:** (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Online

EDUC 389 Practicum in Education III: Local
0 Credit Hours

**Prerequisites:** Background Clear Virginia with a score of 5 and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Resident

EDUC 390 Teaching Practicum
3 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 205

An extended supervised field experience targeted to enhance teaching skills in the classroom. It should be the last course taken.

**Note:** This is a capstone course.

**Offered:** Resident and Online

EDUC 398 Field Experience Capstone
3 Credit Hours

An extended supervised field experience targeted to enhance teaching skills in the classroom.

**Offered:** Online
EDUC 410 Elementary School Curriculum 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 323 and EDUC 415 (may be taken concurrently)

Recommendations are presented for curriculum for elementary grades based on major concepts, principles, theories and research related to child development to construct learning opportunities that support individual students’ development, acquisition of knowledge, and motivation. Planning and evaluating appropriate experiences and materials that nurture and challenge children as they progress through their stages of development are provided through practical activities. Current trends and how they affect the curriculum are also addressed.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 411 Elementary School Curriculum Practicum 1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Candidates will participate in a field practicum to experience the relationship between the planning of curriculum and the implementation of instruction. Emphasis is given to integrating the fine arts and/or other non-core areas into the curriculum and using the arts to enhance instruction within the core subject areas. Field experience required.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 412 Middle School Curriculum and Instruction 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and Education Gate 2 with a score of 3 and (EDUC 488 (may be taken concurrently) and EDUC 489 (may be taken concurrently))

This course is a study of the historical development and philosophical base of the middle school. It will emphasize the unique characteristics of the emerging adolescent and the prescriptive school concepts that will meet those needs. Field experience required.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 415 Diagnostic Measurement and Evaluation 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 323 and EDUC 410 (may be taken concurrently)

A diagnostic-prescriptive approach to classroom teaching is presented in this course. The teacher candidate is trained in diagnostic testing techniques and procedures, the administration and interpretation of standardized tests, and the construction of classroom tests.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 416 Diagnostic Measurement and Evaluation Practicum 1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 323 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will be assigned to tutor elementary students in the Tutoring Club for individual diagnosis and appropriate instruction for diverse learners. Field experience required.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 419 Content Teaching Methods 2 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and Background Check Clearance with a score of 5

Secondary Teaching Methods is a generic course. Teacher candidates will be expected to meet competencies associated with effective teaching in their content area, especially teaching skills related to questioning techniques, individualized instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. Emphasis will be placed on methods which provide instruction in thinking and writing across the curriculum. Note: (Offered fall semester only)

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 420 Content Teaching Methods Practicum 1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5 and EDUC 235 and EDUC 236

Teacher candidates will be required to prepare a unit, teach in a secondary classroom setting, and evaluate the experience. Field experience required. Note: (Offered fall semester only)

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 425 Content Measurement and Evaluation 3 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

This course is designed to acquaint teacher candidates with the basic principles and practices of student assessment through the use of standardized tests and teacher-made tests. Simple statistical treatments of both types of tests are included. Evaluation of instructional objectives is also stressed.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident
EDUC 435 Content Curriculum Fundamentals  2 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 436 (may be taken concurrently)

Curriculum defines the motivation for programs and instruction used in teaching. Content curriculum focuses on those trends and principles which span academic areas and which cross grade levels. Attention will be given to special and alternative education to federal, state and local guidelines; and to the influence of educational philosophies on programs and instruction.

**Note:** Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

**Offered:** Resident

EDUC 436 Content Curriculum Fundamentals Practicum  1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 435 (may be taken concurrently)

Experiences in demonstrating and evaluating content teaching episodes including the use of appropriate materials and classroom management. Field experience required.

**Note:** Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

**Offered:** Resident

EDUC 450 Student Teaching Seminar, Elem  2 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 454 Supervised StuTea Elementary I  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 455 Superv StuTea Elementary II  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 456 Supervised Student Tchng-Middl  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 458 Student Teaching Seminar(Secon  2 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 459 Supervised Student Teaching Pr  3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 460 Sup Stu Teach in the Sec Schl  3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 461 Sup Stu Tea Sec School II  3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 463 Sup StuTea Elementary School M  4 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 464 Sup StuTea Secondary School Mu  4 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 466 Supervised StuTea Elem Hlth &  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 470 Sup StuTea Secondary Hlth/PE  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 473 Sup Student Tchng in Spec Educ  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 474 Sup Studnt Tchng in Spec Educ  5 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 475 Seminar in Classroom Management  2-3 Credit Hours

**Prerequisites:** Education Gate 3 with a score of 3 and EDUC 476 (may be taken concurrently) and EDUC 477 (may be taken concurrently)

Student teachers will apply principles of classroom management from reading assignments and group discussion to actual practice in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

**Note:** Admission to Student Teaching.

**Offered:** Resident and Online

EDUC 476 Supervised Student Teaching I  3,5 Credit Hours

**Prerequisites:** Education Gate 3 with a score of 3 and EDUC 476 (may be taken concurrently) and EDUC 477 (may be taken concurrently)

Student teaching offers practice in all phases of teacher responsibility including teaching activities in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

**Note:** Admission to Student Teaching.

**Offered:** Resident and Online
EDUC 477 Supervised Student Teaching II 3,5 Credit Hours

Prerequisites: Education Gate 3 with a score of 3 and EDUC 475 (may be taken concurrently) and EDUC 476 (may be taken concurrently)

A continuation of student teaching in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

Note: Admission to Student Teaching.

Offered: Resident and Online

EDUC 488 Practicum in Middle Education: External 0 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 412 (may be taken concurrently)

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice in middle education. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 489 Practicum in Middle Education: Local 0 Credit Hours

Prerequisites: Background Clear Virginia with a score of 5 and EDUC 412 (may be taken concurrently)

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice in middle education. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 495 Directed Research 1-3 Credit Hours

Prerequisites: EDUC 000 and Background Check Receipt with a score of 5

To be planned (with the instructor) on an individual basis to include research, special activities, and conferences. May be repeated for credit to a maximum of 3 semester hours.

Offered: Resident

EDUC 497 Special Topics in Education 1-3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDUC 497 - Special Topics in Education (1 to 3 hours)

Offered: Resident

EDUC 499 English Internship 6 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

Professional-supervised experience in first-hand internship opportunities: writing, editing, researching, and comparable duties. Application procedures processed through the Career Center. Must apply semester prior to completing internship.

Offered: Resident

## Early Childhood Education (A.A.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete one of our state-approved programs. Refer to www.liberty.edu/advisingguide.

Liberty University 2019-2020 Undergraduate Catalog
Elementary Education
Interdisciplinary Studies Major (B.S.)
With Fifth-Year Option for M.A.T. and Licensure

Purpose
The purpose of the non-licensure Bachelor of Science in Elementary Education Interdisciplinary Studies program is to provide a foundation of education that can assist a student in becoming a teacher candidate in a graduate education program. The program also provides theories and methodology of Christian education that will assist those who will work in Christian schools, churches and home.

Program Learning Outcomes
A graduate of the Pre-Licensure (AA & BS) programs:

- PRE-A. Knows Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
  - PRE-A1. Demonstrates a broad base of general and professional knowledge;
- PRE-B. Implements skills as a gift from God, because teaching is a calling from God
  - PRE-B2. Plans effective instruction and selects a variety of strategies based on developmental levels and diverse backgrounds in course case studies;
  - PRE-B3. Demonstrates the understanding of differentiated instruction,
  - PRE-B4. Demonstrates an understanding of classroom management to motivate students and maximize learning;
- PRE-C. Believes and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity
  - PRE-C5. Demonstrates behaviors of a reflective student, articulates a Biblical worldview, and seeks opportunities for professional development.

Program of Study
Delivery Format: Online Only

- Elementary Education Interdisciplinary Studies (B.S.) - Online (p. 759)

Career Opportunities
- Tutor
- Homeschool Teacher
- Paraprofessional
- Private School Teacher

Courses
EDUC 125 Introduction to Education
1 Credit Hour

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Each teacher candidate will be required to prepare for structured observations in the school setting. Students will apply to the Educator Preparation Program.

Offered: Resident

EDUC 188 Practicum in Education I: External
0 Credit Hours

Prerequisites: EDUC 225 and (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 189 Practicum in Education I: Local
0 Credit Hours

Prerequisites: EDUC 225 and Background Clear Virginia with a score of 5 and (EDUC 318 (may be taken concurrently) or EDUC 235 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 200 Principles of Education
3 Credit Hours

Students will examine historical, philosophical, legal, and sociological principles of education. Emphasis will be placed on current issues and terminology in the field of education.

Offered: Online

EDUC 201 Introduction to Education and Classroom Technology
3 Credit Hours

The teacher candidate will be acquainted with the role of public and private education and the nature of the teaching profession. Attention will be given to current developments in the field of education and the terminology basic to those in the profession. Teacher candidates will focus on the effective use of technology in learning environments, with special attention to instructional practice, assessment development and student engagement. Each teacher candidate will be required to prepare for structured observations in the school setting.

Offered: Resident and Online
EDUC 205 Learning Theory and Portfolio Development 3 Credit Hours
Prerequisites: EDUC 200
An introduction to learning theories with an emphasis on experiential learning. Here will also be a focus on learning and learning styles, including management and communications profiles. A major part of this course is the preparation of the Professional Development Profile and the Experiential Learning Portfolio.
Offered: Online

EDUC 210 Early Childhood Education Fundamentals 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Designed to introduce a candidate to the field of early childhood education; an overview of child development and learning, family relationships, assessment of young children, developmentally effective approaches to early childhood education, and how to use content knowledge to build a meaningful curriculum.
Offered: Online

EDUC 215 Wellness in the Early Childhood Setting 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5
Designed to introduce a candidate to the issue of wellness in early childhood education; an overview of wellness in the early childhood setting by examining good nutrition, safety, and healthful practices for young children.
Offered: Online

EDUC 220 Differentiated Teaching and Learning: Elementary 2 Credit Hours
Prerequisites: EDUC 125 and Background Check Receipt with a score of 5
Designed to train teacher candidates concentrating in elementary or special education in differentiated teaching and learning strategies, aiding the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on the mastery of teaching and learning skills in thinking, organizing for study, time management, reading rate and comprehension, textbook mastery/readability, listening, note taking, retention, motivation for study, learning styles, exceptionality, class discussion, test taking, and handwriting.
Offered: Resident

EDUC 221 Content Area Reading and Differentiated Teaching and Learning 2 Credit Hours
Prerequisites: EDUC 125 and Background Check Receipt with a score of 5
This course is designed to prepare teacher candidates training for 6-12 and K-12 level teaching in developing differentiated teaching and learning strategies for the reading, thinking, and study skills required in content areas. Aids the teacher in adapting instruction and assignments to meet individual needs. Emphasis is on mastery of teaching and learning skills in thinking, organizing for study, time management, reading comprehension and rate, textbook mastery/readability, listening, note taking, retention, motivation for study, class discussion, test taking, learning styles, exceptionality, and handwriting.
Offered: Resident

EDUC 225 Instructional Design: Elementary 1,3 Credit Hours
Prerequisites: EDUC 201 and EDUC 350 and Education Gate 2 with a score of 3
A systematic approach to instruction for diverse classrooms including purpose, process and practice. Each teacher candidate will prepare lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation, and resources.
Offered: Resident and Online

EDUC 226 Instructional Design Practicum: Elementary 2 Credit Hours
Prerequisites: (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Check Virginia with a score of 5)
Teacher candidates will demonstrate proficiency in planning, implementing and evaluating instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate.
Offered: Resident

EDUC 235 Content Instructional Design 1 Credit Hour
Prerequisites: (EDUC 125 or EDUC 220 or EDUC 221 and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Check Virginia with a score of 5)
A systematic approach to instruction for diverse classrooms, including purpose, process and practice. Each teacher candidate will prepare content lessons which follow the Liberty University model. Teacher candidates will be expected to present these lessons in the practicum. Topics include elements of the desired model: objectives, instructional process, systems of evaluation and resources. Field experience required.
Offered: Resident
EDUC 236 Content Instructional Design Practicum: Secondary  
2 Credit Hours

**Prerequisites:** EDUC 235 (may be taken concurrently) and Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will demonstrate proficiency in planning, implementing and evaluating content instruction for diverse classrooms, which includes appropriate instructional technology (for example: computers, graphics, and other media). Video micro-teaching will be used to assist in evaluating lessons prepared and presented by the teacher candidate. Field experience required.

**Offered:** Resident

EDUC 240 Introduction to Applied Educational Technology Practicum  
2 Credit Hours

**Prerequisites:** (EDUC 225 (may be taken concurrently) and EDUC 226 (may be taken concurrently)) or (EDUC 235 (may be taken concurrently) and EDUC 236 (may be taken concurrently)) or (KINE 245 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5)) and Education Teacher Licensure with a score of 5

This course is designed to allow the teacher candidate to be competent in the application of learning technologies needed for teachers.

**Registration Restrictions:** Background Check Receipt, and Enrollment in Teacher Licensure Program.

**Offered:** Resident

EDUC 288 Practicum in Education II: External  
0 Credit Hours

**Prerequisites:** (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently)

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Online

EDUC 289 Practicum in Education II: Local  
0 Credit Hours

**Prerequisites:** Background Clear Virginia with a score of 5 and (EDUC 323 (may be taken concurrently) or EDUC 419 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Resident

EDUC 290 Pre-Teaching Practicum  
1 Credit Hour

**Prerequisites:** EDUC 125 and Background Check Receipt with a score of 5

A planned program of practice and observation in a PreK-12 classroom setting under the mentorship of an experienced on-site educator. May be repeated to a maximum of six hours. Thirty hours of practice and observation equal one credit hour.

EDUC 298 Education Practicum  
3 Credit Hours

**Prerequisites:** (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5) and EDUC 205

Field experience in a classroom setting.

EDUC 299 Internship  
0 Credit Hours

**Prerequisites:** Background Check Clearance with a score of 5

Professional-supervised experience in first-hand internship opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

**Registration Restrictions:** Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

**Offered:** Resident

EDUC 301 Instructional Practices for Math Teachers  
3 Credit Hours

**Prerequisites:** EDUC 205 or EDUC 220

This course provides professional development for preservice and inservice teachers in mathematics instruction. Students will examine the principles of instruction for number systems, computation, and problem solving and apply theories to classroom settings.

EDUC 302 Instructional Practices for Reading Teachers  
3 Credit Hours

**Prerequisites:** EDUC 205 or EDUC 220

This course will survey instructional approaches, materials, and media for the teaching of reading. The instruction of phonemic awareness, phonics, vocabulary, comprehension and fluency will be addressed. Attention will be given to creativity and enjoyment in reading.

**Offered:** Online

EDUC 303 Instructional Practices for Content Teachers  
3 Credit Hours

**Prerequisites:** (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course is designed to engage educators in applying effective principles of instruction when teaching in the content areas. A focus is on the instructional process of planning, teaching, assessing, and reflecting.

**Offered:** Online
EDUC 304 Classroom Management for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course will survey instructional approaches, materials, and methods for classroom management. Emphasis will be placed on management styles and the various methods associated with those styles.

Registration Restrictions: Background Check Required.

Offered: Online

EDUC 305 Educational Philosophy for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and Background Check Receipt with a score of 5

This course presents the practical role of philosophy in the classroom. Emphasis is placed upon a careful analysis of current religious and education trends, and major philosophies are defined. Students will formulate a personal philosophy and apply that philosophy to their teaching methodology, lesson plan design, and delivery.

Offered: Online

EDUC 306 Scholarly Writing and APA for Teachers 3 Credit Hours

Prerequisites: (EDUC 205 or EDUC 220) and ENGL 101 and ENGL 102 and Background Check Receipt with a score of 5

This course provides professional development for preservice and inservice teachers in professional writing skills. Students will examine the principles of form, structure, grammars, and format.

Offered: Online

EDUC 307 Instructional Practices for Differentiated Instruction 3 Credit Hours

Prerequisites: (EDUC 205 and Background Check Receipt with a score of 5) or (EDUC 220 and Background Check Receipt with a score of 5)

This course provides professional development for preservice and inservice teachers in differentiated instruction.

Offered: Online

EDUC 315 Instructional Approaches to Literature for Children and Adolescents 3 Credit Hours

Prerequisites: EDUC 225

This course examines literature for children in PreK through Grade 8. Focus is on selecting and using appropriate books for the classroom in literature-based reading instruction and in content curricular instruction. In addition, students explore multiple instructional approaches and strategies for literature use in diverse classrooms, as well as emphasizing selection, critical evaluation, and utilization of literary materials for developmental, recreational, and needs across the curriculum.

Offered: Resident and Online

EDUC 317 Elementary Reading and Language Arts Practicum 2 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 225 and EDUC 226 and (Background Check Clearance with a score of 5 or Background Check Receipt with a score of 5) and EDUC 318 (may be taken concurrently) and EDUC 319 (may be taken concurrently)

Students are required to prepare a lesson, teach the lesson in an elementary classroom setting and evaluate the experience. Field experience required.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident

EDUC 318 Teaching Reading to Diverse Learners 2-3 Credit Hours

Prerequisites: EDUC 225 and EDUC 319 (may be taken concurrently) and (EDUC 188 (may be taken concurrently) or EDUC 189 (may be taken concurrently))

A survey of instructional approaches, materials and media for the teaching of reading in the elementary grades. Emphasis will be placed on phonics methods. Attention will be given to phonemic awareness, phonics, fluency, vocabulary development, and comprehension.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident and Online

EDUC 319 Teaching Elementary Language Arts 2-3 Credit Hours

Prerequisites: EDUC 225 and EDUC 318 (may be taken concurrently)

A survey of instructional approaches, materials and media for the teaching of language arts in the elementary grades, including writing, speaking, and listening. Attention will be given to the connection of language arts to reading, as well as language acquisition, language differences, and creativity and enjoyment in communication. Emphasis will be given to developing differentiated instructional practices for diverse learners in the language arts classroom.

Registration Restrictions: Background Check Clearance, Enrollment in Teacher Licensure program.

Offered: Resident and Online

EDUC 322 Teaching Elementary and Middle School Social Science 2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 323 (may be taken concurrently) and EDUC 324 (may be taken concurrently)

An analysis of trends and practices of teaching social sciences in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of history, geography, the social sciences, and other related areas appropriate for the elementary classroom. A unit is developed to enhance differentiation of instruction for diverse learners.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online
EDUC 323 Teaching Elementary and Middle School Mathematics  
2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 324 (may be taken concurrently) and (EDUC 288 (may be taken concurrently) or EDUC 289 (may be taken concurrently))

An analysis of trends and practices of teaching mathematics in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for the integrated study of major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, geometry, measurement, statistics and probability, and algebra and other related areas appropriate for the elementary classroom.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 324 Teaching Elementary and Middle School Science  
2-3 Credit Hours

Prerequisites: EDUC 318 and EDUC 319 and EDUC 322 (may be taken concurrently) and EDUC 323 (may be taken concurrently)

An analysis of trends and practices of teaching science in the elementary school. Emphasis will be made on how to transfer theory into practice through the development of instructional planning for fundamental concepts in science - including physical, life, and earth and space sciences and other related areas appropriate for the elementary classroom.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 350 Behavior and Individual Differences  
3 Credit Hours

Prerequisites: EDUC 201

This course is designed to prepare teacher candidates concentrating in elementary and/or special education to differentiate instruction, to respond appropriately to student behavior, and to cultivate an environment conducive to learning. Emphasis is given to the application of skills to promote responsibility, self-discipline, and self-regulation. Also considered will be variations in student interests, culture, gender, development, and disabilities.

Offered: Resident and Online

EDUC 360 Foundations of Education  
2-3 Credit Hours

Prerequisites: EDUC 201 and Education Gate 2 with a score of 3

A comprehensive survey of the historical, philosophical, psychological, and sociological foundations of American education. Emphasis is placed upon the educational foundations as found in the Scriptures, and the applicability of these to both the Christian School Movement and the public school system. Students will be expected to articulate their personal philosophy of education as a result of this course.

Note: Admission to Educator Preparation Program.

Offered: Resident and Online

EDUC 380 Current Issues in Education  
3 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 200 and EDUC 205

An examination of current issues in the field of education with classroom implications and case study. It should be the last course taken.

Note: This is the capstone course.

Offered: Online

EDUC 388 Practicum in Education III: External  
0 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Online

EDUC 389 Practicum in Education III: Local  
0 Credit Hours

Prerequisites: Background Clear Virginia with a score of 5 and (EDUC 410 (may be taken concurrently) or EDUC 435 (may be taken concurrently))

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice. This practicum may only be repeated one time with prior program chair approval.

Offered: Resident

EDUC 390 Teaching Practicum  
3 Credit Hours

Prerequisites: Education Teacher Licensure with a score of 5 or (Background Clear Out of State with a score of 5 or Background Clear Virginia with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 205

An extended supervised field experience targeted to enhance teaching skills in the classroom. It should be the last course taken.

Note: This is a capstone course.

Offered: Resident and Online

EDUC 398 Field Experience Capstone  
3 Credit Hours

An extended supervised field experience targeted to enhance teaching skills in the classroom.

Offered: Online
EDUC 410 Elementary School Curriculum 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 323 and EDUC 415 (may be taken concurrently)

Recommendations are presented for curriculum for elementary grades based on major concepts, principles, theories and research related to child development to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation. Planning and evaluating appropriate experiences and materials that nurture and challenge children as they progress through their stages of development are provided through practical activities. Current trends and how they affect the curriculum are also addressed.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 411 Elementary School Curriculum Practicum 1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Candidates will participate in a field practicum to experience the relationship between the planning of curriculum and the implementation of instruction. Emphasis is given to integrating the fine arts and/or other non-core areas into the curriculum and using the arts to enhance instruction within the core subject areas. Field experience required.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 412 Middle School Curriculum and Instruction 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 322 and EDUC 323 and EDUC 324 and Education Gate 2 with a score of 3 and (EDUC 488 (may be taken concurrently) and EDUC 489 (may be taken concurrently))

This course is a study of the historical development and philosophical base of the middle school. It will emphasize the unique characteristics of the emerging adolescent and the prescriptive school concepts that will meet those needs. Field experience required.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 415 Diagnostic Measurement and Evaluation 2-3 Credit Hours

**Prerequisites:** EDUC 318 and EDUC 319 and EDUC 323 and EDUC 410 (may be taken concurrently)

A diagnostic-prescriptive approach to classroom teaching is presented in this course. The teacher candidate is trained in diagnostic testing techniques and procedures, the administration and interpretation of standardized tests, and the construction of classroom tests.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident and Online

EDUC 416 Diagnostic Measurement and Evaluation Practicum 1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 317 and EDUC 318 and EDUC 319 and EDUC 323 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Teacher candidates will be assigned to tutor elementary students in the Tutoring Club for individual diagnosis and appropriate instruction for diverse learners. Field experience required.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 419 Content Teaching Methods 2 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and Background Check Clearance with a score of 5

Secondary Teaching Methods is a generic course. Teacher candidates will be expected to meet competencies associated with effective teaching in their content area, especially teaching skills related to questioning techniques, individualized instruction, grouping students for cognitive subject-matter learning, and preparing advanced organizers for cognitive instruction. Emphasis will be placed on methods which provide instruction in thinking and writing across the curriculum. Note: (Offered fall semester only)

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 420 Content Teaching Methods Practicum 1 Credit Hour

**Prerequisites:** Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5 and EDUC 235 and EDUC 236

Teacher candidates will be required to prepare a unit, teach in a secondary classroom setting, and evaluate the experience. Field experience required. Note: (Offered fall semester only)

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident

EDUC 425 Content Measurement and Evaluation 3 Credit Hours

**Prerequisites:** Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

This course is designed to acquaint teacher candidates with the basic principles and practices of student assessment through the use of standardized tests and teacher-made tests. Simple statistical treatments of both types of tests are included. Evaluation of instructional objectives is also stressed.

**Note:** Admission to Educator Preparation Program.

**Offered:** Resident
Elementary Education Interdisciplinary Studies Major (B.S.)

EDUC 435 Content Curriculum Fundamentals 2 Credit Hours
Prerequisites: Education Teacher Licensure with a score of 5 and EDUC 235 and EDUC 236 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 436 (may be taken concurrently)

Curriculum defines the motivation for programs and instruction used in teaching. Content curriculum focuses on those trends and principles which span academic areas and which cross grade levels. Attention will be given to special and alternative education to federal, state and local guidelines; and to the influence of educational philosophies on programs and instruction.

Note: Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

Offered: Resident

EDUC 436 Content Curriculum Fundamentals Practicum 1 Credit Hour
Prerequisites: Education Teacher Licensure with a score of 5 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and EDUC 435 (may be taken concurrently)

Experiences in demonstrating and evaluating content teaching episodes including the use of appropriate materials and classroom management. Field experience required.

Note: Enrollment in Teacher Licensure program Registration Restrictions: Background Check Clearance.

Offered: Resident

EDUC 450 Student Teaching Seminar, Elem 2 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 454 Supervised StuTea Elementary I 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 455 Superv StuTea Elementary II 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 456 Supervised Student Tchng-Middl 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 458 Student Teaching Seminar(Secon 2 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 459 Supervised Student Teaching Pr 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 460 Sup Stu Teach in the Sec Schl 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 461 Sup Stu Tea Sec School II 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 463 Sup StuTea Elementary School M 4 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 464 Sup StuTea Secondary School Mu 4 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 466 Sup StuTea Elem Hlth & 3 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 470 Sup StuTea Secondary Hlth/PE 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 473 Sup Student Tchng in Spec Educ 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 474 Sup Studnt Tchng in Spec Educ 5 Credit Hours
Prerequisites: Background Check Receipt with a score of 5

EDUC 475 Seminar in Classroom Management 2-3 Credit Hours
Prerequisites: Education Gate 3 with a score of 3 and EDUC 476 (may be taken concurrently) and EDUC 477 (may be taken concurrently)

Student teachers will apply principles of classroom management from reading assignments and group discussion to actual practice in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

Note: Admission to Student Teaching.

Offered: Resident and Online

EDUC 476 Supervised Student Teaching I 3,5 Credit Hours
Prerequisites: Education Gate 3 with a score of 3 and EDUC 476 (may be taken concurrently) and EDUC 477 (may be taken concurrently)

Student teaching offers practice in all phases of teacher responsibility including teaching activities in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

Note: Admission to Student Teaching.

Offered: Resident and Online
EDUC 477 Supervised Student Teaching II 3,5 Credit Hours

**Prerequisites:** Education Gate 3 with a score of 3 and EDUC 475 (may be taken concurrently) and EDUC 476 (may be taken concurrently)

A continuation of student teaching in a preK-12 classroom setting appropriate to the endorsement area of the teacher candidate.

**Note:** Admission to Student Teaching.

**Offered:** Resident and Online

EDUC 488 Practicum in Middle Education: External 0 Credit Hours

**Prerequisites:** (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 or Background Check Clearance with a score of 5) and EDUC 412 (may be taken concurrently)

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice in middle education. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Online

EDUC 489 Practicum in Middle Education: Local 0 Credit Hours

**Prerequisites:** Background Clear Virginia with a score of 5 and EDUC 412 (may be taken concurrently)

Candidates will participate in a supervised 30 hour field practicum designed to link theory with practice in middle education. This practicum may only be repeated one time with prior program chair approval.

**Offered:** Resident

EDUC 495 Directed Research 1-3 Credit Hours

**Prerequisites:** EDUC 000 and Background Check Receipt with a score of 5

To be planned (with the instructor) on an individual basis to include research, special activities, and conferences. May be repeated for credit to a maximum of 3 semester hours.

**Offered:** Resident

EDUC 497 Special Topics in Education 1-3 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

EDUC 497 - Special Topics in Education (1 to 3 hours)

**Offered:** Resident

EDUC 499 English Internship 6 Credit Hours

**Prerequisites:** Background Check Receipt with a score of 5

Professional-supervised experience in first-hand internship opportunities: writing, editing, researching, and comparable duties. Application procedures processed through the Career Center. Must apply semester prior to completing internship.

**Offered:** Resident

---

**Elementary Education Interdisciplinary Studies (B.S.) - Online**

**With Fifth-Year Option for M.A.T. and Licensure**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

This is a non-licensure degree and is not a state approved program. Completion of this degree will not lead to the eligibility of a VA state teaching license or a teaching license or certificate in any other state. If you would like to be eligible for a VA state teaching license or work through reciprocity guidelines to be eligible for a license or certificate in another state, you must complete one of our state-approved programs. Refer to www.liberty.edu/advisingguide.

**Special Education Interdisciplinary Studies Major (B.S.)**

**With Fifth-Year Option for M.A.T. and Licensure**

**Program Learning Outcomes**

A graduate of the Pre-Licensure (AA & BS) programs:

- PRE-A. Knows Christian values, moral dimensions, and ethical implications synthesized with academic knowledge
  - PRE-A1. Demonstrates a broad base of general and professional knowledge;
  - PRE-B2. Plans effective instruction and selects a variety of strategies based on developmental levels and diverse backgrounds in course case studies;
  - PRE-B3. Demonstrates the understanding of differentiated instruction;
  - PRE-B4. Demonstrates an understanding of classroom management to motivate students and maximize learning;

- PRE-B. Implements skills as a gift from God, because teaching is a calling from God
  - PRE-B2. Plans effective instruction and selects a variety of strategies based on developmental levels and diverse backgrounds in course case studies;
  - PRE-B3. Demonstrates the understanding of differentiated instruction;
  - PRE-B4. Demonstrates an understanding of classroom management to motivate students and maximize learning;

- PRE-C. Believes and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity
  - PRE-C5. Demonstrates behaviors of a reflective student, articulates a Biblical worldview, and seeks opportunities for professional development.

Courses

EDSP 323 Special Education Law and Characteristics 2-3 Credit Hours

Prerequisites: EDUC 350

This course is designed to expose teacher candidates to a variety of special education related topics including: legal/ethical issues, documentation procedures, development of Individual Education Plan (IEP), models of service delivery, and collaboration. (Formerly EDSP 423)

Offered: Resident and Online

EDSP 324 Special Education Law and Characteristics Licensure Practicum 1 Credit Hour

Prerequisites: (EDSP 323 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5))

Field experience to be completed in special education classroom setting. (Formerly EDSP 424)

Registration Restrictions: Background Check Clearance.

Offered: Resident

EDSP 325 Special Education Law and Characteristics Community Practicum 1 Credit Hour

Prerequisites: EDSP 323

Field experience to be completed in special education community setting. (Formerly EDSP 425)

Offered: Resident

EDSP 360 Learning and Behavior Problems 3 Credit Hours

The characteristics of children and adolescents, with disabilities in the area of learning and behavior, will be explored with the goal of remediation. This course will further include techniques for dealing with these diverse learners in a variety of settings as well as our Christian mission in providing for all God’s children.

Offered: Online

EDSP 363 Behavior Management 2-3 Credit Hours

Prerequisites: EDSP 323 and EDUC 350

This course will explore research for instructional approaches and methods for managing behaviors effectively. Emphasis will be placed on individualized, classroom and school-wide behavior supports, including functional behavior assessments and behavior support plans. The applications in this course cover both general education and special education strategies.

Registration Restrictions: Background Check Clearance.

Offered: Resident and Online

EDSP 364 Behavior Management in Special Education Licensure Practicum 1 Credit Hour

Prerequisites: EDSP 323 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5) and (EDSP 324)

Field experience to be completed in a classroom setting of students with disabilities.

Registration Restrictions: Background Check Clearance.

Offered: Resident

EDSP 365 Behavior Management in Special Education Community Practicum 1 Credit Hour

Prerequisites: EDSP 325

Field experience to be completed in a special education community setting of individuals with disabilities.

Offered: Resident

EDSP 366 Introduction to Autism Spectrum Disorders 3 Credit Hours

This course provides information on autism and gives the foundation, characteristics and effective strategies and approaches to interventions with an emphasis on school settings.

Offered: Online

EDSP 370 Intervention for Students with Intellectual Disabilities 3 Credit Hours

Prerequisites: PSYC 345 or EDUC 307 and Background Check Receipt with a score of 5

This course is a study of the characteristics of children and adolescents with intellectual disabilities (ID). Interventions for working with the individuals in schools, church and community settings will be addressed as well as preparing adolescents who are ID for transition into adulthood.

Offered: Online

EDSP 377 Autism: Educational and Theoretical Approaches 3 Credit Hours

Prerequisites: EDSP 367 and Background Check Receipt with a score of 5

This course provides a comprehensive overview of the different educational approaches and therapies available for children and adults on the autism spectrum. The educational and theoretical approaches discussed within this course will help teacher candidates and professionals in the field of autism alike.

Offered: Online
EDSP 410 Instructional Adaptation for Special Education
3 Credit Hours

Prerequisites: PSYC 345 or EDUC 307 and Background Check Receipt with a score of 5

Teacher candidates will apply intervention strategies for adapting curriculum materials and methods to fit individual needs in various school, church and community settings. Focus will be on students with mild and moderate disabilities.

Offered: Online

EDSP 413 Inclusion and Diversity: Effective Practices and Strategies
2-3 Credit Hours

Prerequisites: EDSP 363 and EDUC 323 (may be taken concurrently)

Teacher candidates will apply intervention strategies for adapting curriculum materials and methods to fit individual needs in various school settings. Focus will be on differentiating instruction for students with mild and moderate disabilities.

Registration Restrictions: Background Check Clearance.

Offered: Resident and Online

EDSP 414 Inclusion and Diversity: Effective Practices and Strategies Licensure Practicum
1 Credit Hour

Prerequisites: (EDSP 413 and EDSP 324 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Field experience to be completed in special education classroom setting.

Registration Restrictions: Background Check Clearance.

Offered: Resident

EDSP 415 Inclusion and Diversity: Effective Practices and Strategies Community Practicum
1 Credit Hour

Prerequisites: (EDSP 413 and EDSP 325 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Field experience to be completed in a special education community setting.

Registration Restrictions: Background Check Clearance.

Offered: Resident

EDSP 429 Survey of Trends in Special Education
3 Credit Hours

This course provides a comprehensive overview of special education related topics including legal/ethical issues, documentation procedures, and development of the Individualized Education Program (IEP), Functional Behavior Assessment (FBA), and Behavior Intervention Plan (BIP) as well as models of service delivery and collaboration that can be used in school, church, and community settings.

Offered: Online

EDSP 473 Transition Planning
2-3 Credit Hours

Prerequisites: EDSP 413

This course prepares special educators to work with families to provide successful student transitions throughout the educational experience focusing on educational issues, independent living preparation, community living skills and vocational preparation. Current methods and tools will be covered. (Formerly EDSP 373)

Registration Restrictions: Background Check Clearance.

Offered: Resident and Online

EDSP 474 Transition Planning Practicum
1 Credit Hour

Prerequisites: (EDSP 473 and EDSP 325 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Field experience to be completed in classroom setting of students with mental retardation (MR). There will be an examination of IEP development for individuals who are MR. (Formerly EDSP 374)

Offered: Resident

EDSP 475 Transition Planning Community Practicum
1 Credit Hour

Prerequisites: EDSP 323 and (EDSP 473 and (Background Check Clearance with a score of 5 or Background Clear Virginia with a score of 5)

Field experience to be completed in a special education community setting. (Formerly EDSP 375)

Registration Restrictions: Background Check Clearance.

Offered: Resident

EDSP 488 Practicum in Special Education: External
0 Credit Hours

Prerequisites: (Background Clear Virginia with a score of 5 or Background Clear Out of State with a score of 5 or Background Clear International with a score of 5 and EDSP 473 (may be taken concurrently)

Candidates participate in a field practicum in a special education setting to gain skills, knowledge, and experience working with individuals with exceptionalities. This experience provides beginning special education teacher candidates with the knowledge and skills necessary to understand and address the academic, social, behavioral, and transition needs of individuals with disabilities throughout the school setting. This practicum course may only be repeated one time with program chair approval.

Offered: Online
EDSP 489 Practicum in Special Education: Local  0 Credit Hours

Prerequisites: Background Clear Virginia with a score of 5 and EDSP 473 (may be taken concurrently)

Candidates participate in a field experience in a special education setting to gain skills, knowledge, and experience working with individuals with exceptionalities. This experience provides beginning special education teacher candidates with the knowledge and skills necessary to understand and address the academic, social, behavioral, and transition needs of individuals with disabilities throughout the school setting. This practicum course may only be repeated one time with program chair approval.

Offered: Resident

EDSP 495 Directed Research in Special Education  1-3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDSP 495 - Directed Research in Special Education (1 to 3 hours)

Offered: Resident

EDSP 497 Topics in Special Education  1-3 Credit Hours

Prerequisites: Background Check Receipt with a score of 5

EDSP 497 - Topics in Special Education (1 to 3 hours)

Offered: Resident

Special Education Interdisciplinary Studies (B.S.) - Online

With Fifth-Year Option for M.A.T. and Licensure

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Liberty University 2019-2020 Undergraduate Catalog  763
Teacher Education Minors

Autism Minor

Program Learning Outcomes
PRE-A. KNOWS Christian values, moral dimensions, and ethical implications synthesized with academic knowledge

- PRE-A1. Demonstrates a broad base of general and professional knowledge;

PRE-B. IMPLEMENTS skills as a gift from God, because teaching is a calling from God

- PRE-B2. Plans effective instruction and selects a variety of strategies based on developmental levels and diverse backgrounds in course case studies;
- PRE-B3. Demonstrates the understanding of differentiated instruction,
- PRE-B4. Demonstrates an understanding of classroom management to motivate students and maximize learning;

PRE-C. BELIEVES and practices personal integrity, social responsibility, sensitivity to the needs of others, and the betterment of humanity.

- PRE-CS. Demonstrates behaviors of a reflective student, articulates a Biblical worldview, and seeks opportunities for professional development.

**School of Engineering**

**Administration**

Mark Horstemeyer, B.S., M.S., Ph.D.  
Dean, School of Engineering

Carl Pettiford, B.S., M.S., Ph.D.  
Chair, Department of Engineering  
Professor of Electrical Engineering

**Program Directors**

A listing of program directors can be viewed at http://www.liberty.edu/programdirectors.

**Research Intensive Courses**

All research intensive courses are listed online at https://www.liberty.edu/academics/qualityenhancement/index.cfm?PID=32835.

**Purpose**

The School of Engineering functions with the purpose of teaching Christ-centered men and women with the values, knowledge, and skills critical for impacting computing and technology-related disciplines in tomorrow’s world. Enhanced in the fall of 2007, the School has the long-term vision of creating and maintaining nationally recognized technology-related degrees, centers, institutes, and initiatives in education, research, training, and missions so that our Christ-centered graduates can have the greatest impact on tomorrow’s world.

The School offers degrees that provide students with the skills, knowledge, and understanding of information technology necessary for impacting tomorrow’s socio-technological culture.
Program Accreditation

The Bachelor of Science degree programs in Computer Engineering, Electrical Engineering and Industrial and Systems Engineering have received accreditation from the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET is the recognized accrediting agency for college and university programs in applied science, computing, engineering, and engineering technology. ABET accreditation demonstrates a program’s commitment to providing its students with a quality education.

Engineering Programs

Certain degrees within the School of Engineering require specific technical electives be completed as part of the degree. The intent of the technical electives is to enhance (i.e. deepen and/or broaden) the scientific, mathematical, technological, or engineering knowledge or experience of the student in his or her career potential and development.

Technical Electives

The intent of the technical elective was determined to enhance (i.e., deepen and/or broaden) the scientific, mathematical, technological, or engineering knowledge or experience of the student in his or her career potential and development.

The following stipulations must be followed when choosing technical electives in any of the four engineering degree programs.

<table>
<thead>

</tr>
</tbody>
</table>

The student is limited to 3 semesters of ENGR 495 Directed Research (1-6 c.h.) at 2 credits per semester (which will give a total of 6 hours of technical electives) to count toward technical electives, as specified in the syllabus.

Although no additional lab sciences have to be taken as part of the program, no more than one of the following lab science courses can or will be counted toward a technical elective.

1. EITHER AVIA 230 Unmanned Aerial Systems (3 c.h.) OR AVIA 405 Advanced Aerodynamics (3 c.h.) to satisfy ONE technical elective.
2. EITHER MATH 221 Applied Linear Algebra (3 c.h.) OR MATH 321 Linear Algebra (3 c.h.) to satisfy ONE technical elective.

The student is responsible for satisfying any prerequisites for the technical electives chosen and any requirements specified in the college catalog course description [e.g., courses such as the 497 Topics & 499 Internship courses require the permission of the instructor]. Under certain circumstances and where denoted, the course instructor, in consultation with the student’s engineering advisor, has the option to approve or deny a student’s technical elective choice.

Engineering Program Learning Outcomes

The student will be able to:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Programs

Certain degrees within the School of Engineering require specific technical electives be completed as part of the degree. The intent of the technical electives is to enhance (i.e. deepen and/or broaden) the scientific, mathematical, technological, or engineering knowledge or experience of the student in his or her career potential and development.

T

Tucker, Robert; B.S., M.S., Ph.D.
Title: Associate Professor of Computer Science
Civil Engineering Major (B.S.)

Purpose

The civil engineering degree is designed to provide a Christ-focused program that will train students in the necessary knowledge, skills, and perspective to use with their God-given gifts to impact the world through their employment, further education, and communities.

Program Educational Objectives

Our goal is, within a few years of graduating, our Civil Engineering students will be able to:

1. Be recognized as creative thinkers and emerging leaders in engineering; exhibiting an aptitude for continuous improvement.
2. Display professional ethics and behavior consistent with foundational Christian principles.
3. Be an invested, contributing, core team member with a focus on customers and a sense for business and innovation.
4. Be an effective communicator for interfacing with diverse audiences.
5. Conduct appropriate checks to produce quality engineering work within acceptable tolerances.

Programs of Study

Delivery Format: Residential Only

- Civil Engineering (B.S.) - Residential (p. 770)
- Environmental Engineer
- Transportation Engineer
- Project Manager

Courses

ENGR 102 Introduction to Engineering 1 Credit Hour

This course will introduce students to the engineering profession and the study skills necessary to succeed in the rigorous course of study to achieve an engineering degree. Students will be taught how to think critically and reason analytically in order to skillfully navigate the course of instruction they have chosen to pursue and to be equipped for success in that profession. This is a required course for all engineering majors.

Offered: Resident

ENGR 110 Introduction to Engineering Fundamentals 3 Credit Hours

Prerequisites: (ENGR 102 and (MATH 128 or MATH 131 or MATH 132

Introduction to engineering problem solving techniques, the engineering design process, and the engineering profession. This course also introduces students to the various engineering disciplines offered at Liberty University and enables them to chart a path to success in achieving their engineering degree, as well as helping students understand what they must do to excel in their studies. This course also serves non-engineering students by exposing them to an overview of the engineering discipline. This course is mandatory for all engineering majors.

Offered: Resident

ENGR 125 Visualization for Engineers 1 Credit Hour

Prerequisites: ENGR 110 and (ENGR 131 or MATH 131

To train students on graphical applications of vital and practical importance in engineering. The intention is to assist students to improve their three-dimensional spatial cognitive skills. The creation and interpretation of graphical communication will be introduced. Concepts include: two and three-dimensional part and assembly representations, dimensioning and tolerance as a link between design and manufacturing, introduction to solid modeling and virtual prototyping.

Offered: Resident

ENGR 133 Calculus with MATLAB 1 Credit Hour

Prerequisites: MATH 131 or ENGR 131

This course is intended to be an introductory MATLAB Lab in which the topics of arithmetic, algebra, plotting, preparation of m-files, limits, derivatives, related rates, optimization, integration, and other engineering-related topics will be investigated. (This course is intended for Engineering, Computer Science or Internet Technology majors only.)

Offered: Resident
ENGR 210 Probability and Statistical Methods for Engineering  
3 Credit Hours

Prerequisites: (ENGR 131 or MATH 131) and (ENGR 110 or CSCI 110 or CSIS 110)

Introduction to applied probability and the principles and methodologies of statistical inference. Topics include methods of data analysis, point and interval estimation; test of hypotheses, correlation, regression and an introduction to analysis of variance methods.

Offered: Resident

ENGR 235 Statics  
3 Credit Hours

Prerequisites: PHYS 231

A study of 2D and 3D force systems, equilibrium, structures, distributed forces, shear and bending moment diagrams, friction, and area moments of inertia. Analysis of the static equilibrium of rigid bodies and fluids in static conditions. Topics include free-body diagram, concentrated forces, distributed forces, forces due to friction, and inertia forces, as well as their application to the analysis of machines, structures and systems.

Offered: Resident

ENGR 240 Dynamics  
3 Credit Hours

Prerequisites: ENGR 235

A study of force action related to displacement, velocity and acceleration of particles and rigid bodies using translation and rotation, work and energy and impulse and momentum principles. Course is presented in two parts: the geometric aspects of the motion, or kinematics; and the analysis of forces causing the motion, or kinetics.

Offered: Resident

ENGR 270 Technical Communication  
3 Credit Hours

Prerequisites: ENGL 101

This course will teach students how to write documents representing the three main types of technical writing: operational (instructional), promotional (argumentative and analytical), and reportorial (expository, informational and analytical). Students will also evaluate and edit documents belonging to these categories by examining how well these documents serve their purpose for particular audiences in different cultural and social contexts. Students will study and practice communicating ideas competently in diverse public and private speaking venues.

Offered: Resident

ENGR 277 Engineering Ethical and Legal Issues  
3 Credit Hours

Prerequisites: (BWVW 102 or GNED 102) or (BWVW102 Exempt with a score of 5)

Introduction to the ethical and legal issues encountered during the development of engineering projects from a Christian perspective. Topics include copyrights, patents, contracts, environmental responsibility, personnel management, and professionalism. (Formerly ENGR 377)

Offered: Resident

ENGR 299 Internship  
0 Credit Hours

Offered: Resident

ENGR 313 Mechatronics  
4 Credit Hours

Prerequisites: MATH 334 and PHYS 231 and PHYS 232

An introductory study of the fundamental principles and technologies found in modern computer-controlled machines and processes, or mechatronics systems. Students learn about the four main components of a mechatronic system: sensors, actuators, motion transmission mechanisms, and controllers. Students are expected to design and build a mechatronic system. (Formerly ENGR 213)

Registration Restrictions: Junior Status.

Offered: Resident

ENGR 315 Fluid Dynamics  
3 Credit Hours

Prerequisites: MATH 231 and ENGR 240

To provide an understanding of both the kinematics and kinetics of fluids. Students gain knowledge on the fundamental conservation laws of mass, momentum, and energy. Students will be expected to gain an ability to solve and design engineering problems involving pipe flow, turbomachines, pumps, large reservoirs, etc. Topics include: the Reynolds transport theorem, The Bernoulli's equation, applications of fluid momentum to propellers, wind turbines, turbojets, and rockets, differential fluid flow analysis, dimensional analysis and similitude, Reynolds number and flow classification, analysis and design for pipe flow, flow over external surfaces and boundary layer, cavitation and turbo machines.

Offered: Resident

ENGR 330 Mechanics of Materials  
4 Credit Hours

Prerequisites: ENGM 310

A thorough study of the principles that govern the internal effects of stress and strain in solid bodies that are subjected to external loading. The purpose is to enable the engineering student to design solid components and structures by selecting materials and geometry. Students learn to compare strength of materials against internal stresses, and deformation of materials against internal strains. Topics also include: mechanical properties of materials, types of loading, plane-stress and plane-strain conditions, design of beams and shafts, and buckling.

Offered: Resident
ENGR 360 Heat Transfer  
**Prerequisites:** MATH 334 and PHYS 320

A study of the fundamentals of the three traditional forms of heat transfer: conduction, convection, and radiation. Both steady state as well as transient heat transfer are introduced. The concept of numerical methods in the solution of realistic heat conduction problems is presented. Students are exposed to external and internal forced as well as natural convective heat transfer. Selection and design of heat exchangers are introduced both theoretically and practically.

**Offered:** Resident

ENGR 370 Quality Assurance  
**Prerequisites:** ENGR 210

Introduction to the principles involved in designing statistical quality control systems. Topics include probability concepts, density and distribution functions, control chart concepts and sampling inspection plans.

**Offered:** Resident

ENGR 381 Engineering Design Introduction  
**Prerequisites:** (MATH 334 and ENGR 270 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Introduction to the design process. Topics include system engineering, team dynamics, design specifications, conceptual design, scheduling, developing a business plan, market survey, and budgeting.

**Registration Restrictions:** Chair approval, Junior Status.

**Offered:** Resident

ENGR 385 Thermodynamics II  
**Prerequisites:** ENGR 360

To bridge the gap between knowledge of fundamentals of thermodynamics and its applications. Students are presented a wealth of real-world engineering examples involving thermal systems. Starting with the ideal concept of exergy, students are introduced to gas power cycles, vapor and combined power cycles, refrigeration cycles, for pure substances and mixtures. Other topics include chemical reactions, chemical and phase equilibrium, and compressible flow.

**Offered:** Resident

ENGR 405 Dynamic Systems Modeling  
**Prerequisites:** MATH 334 and (ENGR 213 or ENGR 313) and ENGR 240

A study of the modeling, simulation, and control of mechatronic systems. Upon successful completion of this course, students will be able to: develop mathematical models of real systems; use techniques to analyze and understand systems behavior; use modern computational tools to simulate the dynamic response of systems to external stimuli; and design automatic control systems. Topics will include: dynamic models, linearity and nonlinearity of systems, multiport systems and bond graphs, basic bond graph elements, various types of mechanical and electrical systems, state-space equations and automated simulations, and analysis and control of linear systems. (Formerly ENGR 365)

**Offered:** Resident

ENGR 481 Engineering Design I  
**Prerequisites:** ENGR 381 and MATH 334 and PHYS 232

The second course in the design sequence of formal design courses that emphasizes the design process. Student teams carry a project from inception to completion to satisfy the need of a client. In addition to technical design, factors such as safety, economics, and ethical and societal implications are considered.

**Offered:** Resident

ENGR 482 Engineering Design II  
**Prerequisites:** ENGR 481 or ENGE 481 or ENGC 481 or ENGI 481

The third course in the design sequence where the student is exposed to engineering design and development. Design process culminates in prototype development, gathering performance data and presenting a final design briefing to peers and department faculty.

**Offered:** Resident

ENGR 495 Directed Research  
**1-6 Credit Hours**

Research-oriented project or an independently completed course of study in a specially designed area as approved and supervised by the instructor. May be repeated for up to 6 credits or as approved by the department chair.

**Registration Restrictions:** Written permission of the chairman of the department in area of concentration and consent of instructor.

**Offered:** Resident

ENGR 497 Special Topics in Engineering  
**1-3 Credit Hours**

**Offered:** Resident

**Civil Engineering (B.S.) - Residential**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

¹ Courses may also fulfill select general education requirements

² Minimum grade of ‘C’ is required

³ Choose from the following approved Science Courses: BIBL 101 Principles of Biology (3 c.h.), ENV 215 Principles of Environmental Science (3 c.h.), or ENV 220 Physical Geology (3 c.h.)

⁴ Choose from the following courses: ENGR 415 Special Topics in Construction Engineering (3 c.h.), ENGR 440 Special Topics in Structural Engineering (3 c.h.), ENGR 455 Special Topic Geotech Engineer (3 c.h.), and ENGR 460 Special Topics in Transportation Engineering (3 c.h.)

All applicable prerequisites must be met

## Graduation Requirements

- **136** Total hours
- **2.0** Overall grade point average
- **34** Hours must be upper-level courses (300-400 level)
- **Grade of ‘C’** Minimum required for all upper-level courses in the major
- **50%** Of major, including technical electives and quantitative studies, taken through Liberty University
- **34** Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
Computer Engineering Major (B.S.)

Purpose
The computer engineering degree is designed to develop Christ-centered men and women with the values, knowledge, and skills essential to positively influence computer and electrical engineering-related industries in the current and evolving economy. The program prepares graduates for the thoughtful integration of work and life and to view the computer engineering profession as a lifelong commitment to serving others.

Program Educational Objectives
Our goal is, within a few years of graduating, our Computer Engineering students will be able to:

1. Be recognized as creative thinkers and emerging leaders in engineering; exhibiting an aptitude for continuous improvement.
2. Display professional ethics and behavior consistent with foundational Christian principles.
3. Be an invested, contributing, core team member with a focus on customers and a sense for business and innovation.
4. Be an effective communicator for interfacing with diverse audiences.
5. Conduct appropriate checks to produce quality engineering work within acceptable tolerances.

Program of Study
Delivery Format: Residential Only

Career Opportunities

- Aerospace Engineer
- Computer Engineer
- Computer Hardware Systems Engineer
- Computer Network Architect
- Robotics Computer Engineer

Courses

ENGC 299 Internship 0 Credit Hours
Professional-supervised experience in first-hand internship opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

ENGC 301 Introduction to Embedded Systems 3 Credit Hours
Prerequisites: CSIS 112 and ENGE 201
Design of microcontroller-based embedded systems; interfacing from both a hardware and software perspective; and applications, including audio, data acquisition, and communication systems.

Offered: Resident

ENGC 361 Computer Architecture 3 Credit Hours
Prerequisites: ENGE 201
Introduction to architecture and organization of computer systems. Topics include data and instruction representation, arithmetic and logical operations, processor and memory implementations, memory hierarchy (cache, main memory and secondary memory), simple pipelines and hardware applications of OS functions.

Offered: Resident

ENGC 371 Embedded and Real-Time Systems Design 3 Credit Hours
Prerequisites: ENGC 301
This course will provide an introduction to the principles of real-time and embedded systems, the main components and design consideration. This course covers Embedded microcomputer systems; implementation of multitasking, synchronization, protection, and paging; operating systems for embedded microcomputers; design, optimization, evaluation, and simulation of digital and analog interfaces; real-time microcomputer software; applications, including data acquisition and control.

Offered: Resident

ENGC 401 Advanced Embedded Systems Design 3 Credit Hours
Prerequisites: ENGC 361 and ENGC 371 and CSIS 215
The course provides an in-depth coverage of systematical development and synthesis of advanced embedded systems with emphasis on Field Programmable Gate Array (FPGA) and SoC technologies. The course will cover digital hardware system design, digital arithmetic, SoC design, high level synthesis and functional verification; minimum grade of C.

Offered: Resident

ENGC 465 Introduction to Computer Networks 3 Credit Hours
Prerequisites: ENGC 341
Emphasis is placed on network transport services and key protocols to include TCP, IP, and UDP. Topics include application of network design and implementation of robust performance based computer networks, and an introduction to wireless and mobile networks. (Elective)

Offered: Resident

ENGC 497 Special Topics in Computer Engineering 3 Credit Hours
Selected topics in various areas of Computer Engineering. May be repeated for credit when topic varies.

Offered: Resident
ENGC 499 Computer Engineering Internship  3-6 Credit Hours

Placement in a computer or related organization for a controlled learning experience within the student's career specialization area. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Offered: Resident

Computer Engineering (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Electrical Engineering Major (B.S.)

Purpose

The electrical engineering degree is designed to develop Christ-centered men and women with the values, knowledge, and skills essential to positively influence electrical engineering-related industries in the current and evolving economy. The program prepares graduates for the thoughtful integration of work and life and to view the electrical engineering profession as a lifelong commitment to serving others.

Program Educational Objectives

Our goal is, within a few years of graduating, our Electrical Engineering students will be able to:

1. Be recognized as creative thinkers and emerging leaders in engineering; exhibiting an aptitude for continuous improvement.
2. Display professional ethics and behavior consistent with foundational Christian principles.
3. Be an invested, contributing, core team member with a focus on customers and a sense for business and innovation.
4. Be an effective communicator for interfacing with diverse audiences.
5. Conduct appropriate checks to produce quality engineering work within acceptable tolerances.

Program of Study

Delivery Format: Residential Only

- Electrical Engineering (B.S.) - Resident (p. 775)

Career Opportunities

- Electrical Engineer
- Aerospace Engineer
- Broadcast Engineer
- Robotics Engineer
- Design Engineer

Courses

ENGE 201 Introduction to Logic Design 3 Credit Hours

Prerequisites: CSIS 111 and MATH 250 or (pre2016 post1995)SAT Math with a score of 600 or SAT Section Math with a score of 620 or ACT Math with a score of 27 or Placement Score-Math with a score of 075

Introduction to combinational logic design, Boolean algebra, logic minimization, and Karnaugh maps with an emphasis on applying topics presented to design of registers, counters and finite state machines using CPLD’s.

Offered: Resident

ENGE 211 Introduction to Electrical and Electronic Circuits 4 Credit Hours

Prerequisites: ENGR 110 and (MATH 131 or ENGR 131)

An introduction to lumped-parameter circuit elements in DC circuits. Topics include resistors (R), independent and dependent sources, capacitors (C), inductors (L), equivalent networks. Introduction to fundamental techniques used in DC circuit analysis, including Laplace transforms. Semiconductor electronic devices will also be introduced, with the focus being on the terminal characteristics of such devices. The two-terminal diodes (D) and the three-terminal transistors (Q) are studied in DC circuits. Laboratory experiments are an essential and integral part of the theory students will learn in this course. Experiments will focus on building, measuring, and calculating the predicted responses of DC circuits containing all of the above mentioned elements, and transient analysis of circuits containing R, L, and C circuit elements.

Offered: Resident

ENGE 212 AC Circuit Analysis 4 Credit Hours

Prerequisites: MATH 132 and ENGE 211

An introduction to AC circuit analysis using phasors in conjunction with the techniques covered in ENGE 211. Topics include AC steady state analysis, AC power, three phase circuits, and advanced circuit analysis using Fourier analysis. Semiconductor electronic devices will also be introduced, with the focus being on the terminal characteristics of such devices. The two-terminal diodes (D) and the three-terminal transistors (Q) are studied in AC circuits. Laboratory experiments are an essential and integral part of the theory students will learn in this course. Experiments will focus on building, measuring, and calculating the predicted responses of AC circuits. Minimum grade of 'C.'

Offered: Resident

ENGE 299 Internship 0 Credit Hours

Placement in an electrical engineering or related organization for a controlled learning experience within the student's career specialization area. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident
ENGE 311 Signals and Systems 3 Credit Hours

Prerequisites: ENGE 212 and (MATH 321 or MATH 221)

Analysis techniques for system and signal modeling using numerical analysis software. Topics include introduction to convolution, Fourier series, Fourier transforms, and Laplace transforms with application to determine system response, filters, sampling, linearity, time invariance and stability.

Offered: Resident

ENGE 312 Digital Signal Processing 3 Credit Hours

Prerequisites: ENGE 311

This course is designed to introduce students to discrete-time systems and signal processing with emphasis on digital filter designs. Topics include, but are not limited to: sampling and reconstruction of continuous-time signals, fundamental characteristics of discrete-time signals and systems, difference equations, z-transform, discrete-time Fourier transform (DTFT), discrete Fourier transform (DFT), fast Fourier transform (FFT), and analysis, design, and realization of digital filters.

Offered: Resident

ENGE 321 Electronics 4 Credit Hours

Prerequisites: ENGE 212

Introduction to electronic devices including diodes, transistors and operational amplifiers and their applications in electrical circuits.

Offered: Resident

ENGE 331 Electromagnetic Fields 4 Credit Hours

Prerequisites: ENGE 212 and MATH 334

Fundamentals of electromagnetic theory and modern transmission systems. Maxwell's equations are formulated and applied to electromagnetic problems including plane-wave propagation, reflection and transmission at discontinuous boundaries and basic transmission line theory.

Offered: Resident

ENGE 341 Communications Systems 3 Credit Hours

Prerequisites: ENGR 210 and MATH 231 and ENGE 311

Analysis and design of communication systems and transmission of information over various medium. Topics include modulation, sampled signals, conversion (ADC and DAC), random processes and noise.

Offered: Resident

ENGE 351 Power Systems 3 Credit Hours

Prerequisites: ENGE 321

Basic concepts of AC systems. Topics include single-phase and three-phase networks, electric power generation, transformers, transmission lines, electric machinery and the use of power.

Offered: Resident

ENGE 411 Control Systems 3 Credit Hours

Prerequisites: ENGE 311 and ENGR 133

An introduction to both the classical and the modern control theories, with an emphasis on constant-coefficient linear control systems and state function. Topics include, but are not limited to: classical feedback control systems, controller sensitivity and disturbance rejection, transfer matrices, feedback control of first- and second-order systems, stability analysis, frequency response methods, state equations, linear transformations, state-variable feedback, eigenvalue placement, controllability, observability, and observer design for linear control systems.

Offered: Resident

ENGE 421 Advanced Electronics 3 Credit Hours

Prerequisites: ENGE 321

Application of advanced design methods used to achieve gain and bandwidth specifications in amplifiers. Topics include use of feedback techniques, and design specifications of operational amplifiers.

Offered: Resident

ENGE 431 Electromagnetic Compatibility 3 Credit Hours

Prerequisites: ENGE 331

Introduction to the Electromagnetic fields of passive components and Electromagnetic compatibility regulations and measurements. Topics include radiated signals, electromagnetic waves, transmission lines, conducted emissions, radiated emissions, electromagnetic shielding and grounding, and Electrostatic discharge. (Elective)

Offered: Resident

ENGE 497 Special Topics in Electrical Engineering 3 Credit Hours

Selected topics in various areas of Electrical Engineering. May be repeated for credit when topic varies.

Offered: Resident

ENGE 499 Electrical Engineering Internship 1-6 Credit Hours

Placement in an electrical engineering or related organization for a controlled learning experience within the student's career specialization area. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Permission of the instructor.

Offered: Resident

Electrical Engineering (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

All applicable prerequisites must be met

Graduation Requirements

- **133 Total hours**
- **2.0 Overall grade point average**
- **33.25 Hours must be upper-level courses (300-400 level)**
- **Grade of 'C' Minimum required for all upper-level courses in the major**
- **50% Of major, including technical electives and quantitative studies, taken through Liberty University**
- **33.25 Hours must be completed through Liberty University**
- **Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date**
- **CSER All requirements must be satisfied before a degree will be awarded**
Industrial & Systems Engineering Major (B.S.)

Purpose
The industrial and systems engineering degree is designed to develop Christ-centered men and women with the values, knowledge, and skills essential to positively influence an industrial setting of complex, integrated systems. The program prepares graduates for the thoughtful integration of work and life and to view the industrial engineering profession as a lifelong commitment to serving others.

Program Educational Objectives
Our goal is, within a few years of graduating, our Industrial and Systems Engineering students will be able to:

1. Be recognized as creative thinkers and emerging leaders in engineering; exhibiting an aptitude for continuous improvement.
2. Display professional ethics and behavior consistent with foundational Christian principles.
3. Be an invested, contributing, core team member with a focus on customers and a sense for business and innovation.
4. Be an effective communicator for interfacing with diverse audiences.
5. Conduct appropriate checks to produce quality engineering work within acceptable tolerances.

Program of Study
Delivery Format: Residential Only

• Industrial & Systems Engineering (B.S.) - Resident (p. 778)

Career Opportunities

• Management Engineer
• Operations Analyst
• Ergonomist
• Quality Engineer
• Industrial Engineer

Courses

ENGI 220 Engineering Economy 3 Credit Hours
Prerequisites: MATH 131 or MATH 126 or ENGR 131
Introduction to the principles of time value of money, analysis of investments, break-even concepts, risk analysis, alternatives analysis, tax implications, certainty and uncertainty.
Offered: Resident

ENGI 230 Production Systems 3 Credit Hours
Prerequisites: ENGR 110 and CSIS 111
Introduction to manufacturing and production processes. Topics include production process as a human/machine system, planning, organizing, designing, and operating production systems.
Offered: Resident

ENGI 299 Internship 0 Credit Hours
Placement in a manufacturing plant, hospital, library, police department, or similar location, or related organization for a controlled learning experience within the student’s career specialization area. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.
Offered: Resident

ENGI 300 Enterprise Forecasting 3 Credit Hours
Prerequisites: (MATH 121 and MATH 201 or BUSI 230) or ENGR 210
Advanced forecasting and data modeling methods and techniques.
Offered: Resident

ENGI 305 Data Analysis Methods and Modeling 3 Credit Hours
Prerequisites: ENGR 210
Revealing business and economic patterns and information hidden in data by transforming data using algebraic and statistical methods.
Offered: Resident

ENGI 330 Facilities Design 3 Credit Hours
Prerequisites: ENGI 230
Introduction to the design, analysis and selection of manufacturing facilities and material handling equipment. Topics include integration of computer systems, material flow and storage, and economic implications.
Offered: Resident

ENGI 340 Introduction to Operations Research: Deterministic Models 3 Credit Hours
Prerequisites: MATH 321 or MATH 221
Introduction to basic principles and application of deterministic analytical methods. Topics include linear programming, integer programming, dynamic programming and nonlinear optimization.
Offered: Resident

ENGI 350 Introduction to Operations Research: Probabilistic Models 3 Credit Hours
Prerequisites: ENGI 340 and ENGR 210 and CSIS 111
Introduction to decision-making modeling and analysis subject to randomness, uncertainty, and risk. Topics include stochastic dynamic programming, Markov chains, and queuing theory.
Offered: Resident
ENGI 360 Engineering Information Systems  3 Credit Hours

**Prerequisites:** ENGR 110 or CSCI 110 or CSIS 110

Introduction to information systems used in the analysis, design, and management of complex engineering projects. Topics include identifying potential data anomalies and methods for ameliorating these problems.

**Offered:** Resident

ENGI 420 Advanced Data Analysis and Machine Learning  3 Credit Hours

**Prerequisites:** (ENGR 210 or MATH 211) and (MATH 221 or MATH 321) and (ENGR 133 or MATH 133)

Machine learning introduces the methods that are used to provide computers the ability to perform various levels of artificial intelligence (AI) with the ability to learn without being explicitly programmed. Machine learning focuses on the development of computer programs and algorithms as well as the underlying data requirements that can enable computers to teach themselves, self-organize objects, and to grow or change when exposed to new data or sensory information.

**Offered:** Resident

ENGI 430 Decision Analysis  3 Credit Hours

**Prerequisites:** ENGI 220 and (ENGI 350 (may be taken concurrently)

A first course in decision analysis that extends the domain of decision-making problems from those considered in traditional statistical hypothesis testing scenarios: modeling decisions, where the emphasis is on structuring decision problems using techniques such as influence diagrams and decision trees, modeling uncertainty, which covers subjective probability assessment, use of classical probability models, Bayesian analysis, and value of information, and modeling preferences, which introduces concepts of risk preference, expected utility, and multi-attribute value and utility models.

**Offered:** Resident

ENGI 450 Human Factors and Ergonomics  3 Credit Hours

**Prerequisites:** ENGI 330

Human biological and psychological capabilities and limitations in the industrial setting. Topics include techniques and methods for applying the principles of human factors engineering and ergonomics to systems design.

**Offered:** Resident

ENGI 460 Digital Simulation  3 Credit Hours

**Prerequisites:** MATH 334

Introduction to the structure, logic and methodologies of systems simulation. Topics include the generation of random numbers, simulation languages, and simulation models and analysis.

**Offered:** Resident

ENGI 497 Special Topics in Industrial and Systems Engineering  1-4 Credit Hours

Selected topics in various areas of Industrial and Systems Engineering. May be repeated for credit when topic varies.

**Offered:** Resident

ENGI 499 ISE Internship  1-6 Credit Hours

Placement in a manufacturing plant, hospital, library, police department, or similar location or related organization for a controlled learning experience within the student's career specialization area. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

**Registration Restrictions:** Junior or Senior status.

**Offered:** Resident

**Industrial & Systems Engineering (B.S.) - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Mechanical Engineering Major (B.S.)

Purpose

The mechanical engineering degree is designed to develop Christ-centered men and women with the values, knowledge, and skills essential to positively influence mechanical engineering-related industries in the current and evolving economy. The program prepares graduates for the thoughtful integration of work and life and to view the mechanical engineering profession as a lifelong commitment to serving others.

Program Educational Outcomes

Our goal is, within a few years of graduating, our Mechanical Engineering students will be able to:

1. Be recognized as creative thinkers and emerging leaders in engineering; exhibiting an aptitude for continuous improvement.
2. Display professional ethics and behavior consistent with foundational Christian principles.
3. Be an invested, contributing, core team member with a focus on customers and a sense for business and innovation.
4. Be an effective communicator for interfacing with diverse audiences.
5. Conduct appropriate checks to produce quality engineering work within acceptable tolerances.

Program of Study

Delivery Format: Residential Only

- Mechanical Engineering (B.S.) - Resident (p. 780)
Career Opportunities

• Quality Engineer
• Mechanical Engineer
• Reliability Engineer

Courses

ENGM 299 Internship 0 Credit Hours
Offered: Resident

ENGM 310 Materials Engineering 3 Credit Hours
Prerequisites: CHEM 121 and ENGR 235 and ENGR 125
A study of the atomic and molecular structure of materials and the effects on their various properties and applications. It provides understanding of how the microstructure composition of materials can be tailored to desired mechanical, electrical, optical, magnetic, and even smart properties. Emphasis is placed on the four most common categories of engineering materials: metals, plastics, ceramics, and composites. It also provides a survey on the abundance, selection, design, manufacturing, and designation of engineering materials.
Offered: Resident

ENGM 350 Computer-Aided Engineering 3 Credit Hours
Prerequisites: ENGR 125 and ENGR 240 and MATH 334 and ENGR 315 (may be taken concurrently) and ENGR 360 (may be taken concurrently)
This course emphasizes on creative design, application of physical laws, and hands-on virtual or physical projects. Review of kinematics/dynamics of commonly used planar mechanisms and programming techniques for motion simulation. Interdisciplinary projects will be assigned to assess students' design knowledge. Application of computer-aided techniques to the analysis of engineering problems utilizing governing equations of the systems. Students will be exposed to formulations of finite element methods of analysis. Emphasis is placed on practical aspects of structural FE.
Offered: Resident

ENGM 375 Thermal Fluids Design Lab 2 Credit Hours
Prerequisites: PHYS 320 and ENGR 315 and ENGR 360
To reinforce key concepts of thermal-fluid sciences and introduce thermal-fluids system design. To equip students to design and carry out experiments related to thermal-fluids systems, to analyze data, and report results in a professional manner. Students learn to operate equipment such as heat exchangers, centrifugal pumps, ducts and fittings, compressors, refrigerators, valves, dampers, etc. Additionally, students are introduced to thermal-fluids systems in nature. (Formerly ENGM 325)
Offered: Resident

ENGM 415 Design of Machine Components 3 Credit Hours
Prerequisites: ENGR 330
To provide common analytical approaches to design a wide variety of machine components. It emphasizes the engineering mechanics topics of failure theory and analysis. It provides reinforcement of finite element method and computer-aided engineering as techniques and tools to aid machinery design. Topics include: Cam design and analysis; static and fatigue failure theories; surface failure; shafts, keys, and couplings; bearings and lubrication; spur, helical, bevel and worm gears; spring design; screws and fasteners; clutches and brakes. (Formerly ENG 355)
Offered: Resident

ENGM 445 Material and Manufacturing Processing 4 Credit Hours
Prerequisites: ENGM 310
To introduce the physical fundamentals of manufacturing processes; with emphasis placed on those physical principles that are common to several, apparently unrelated, processes. Students learn material selection and processes, especially for metals, plastics, ceramics, and composites. Topics include: geometric attributes of manufactured parts, service attributes of manufactured products, materials in design and manufacturing, machining and nontraditional machining processes, joining processes, surface treatments, manufacturing of semiconductor devices, manufacturing systems, and dynamics of manufacturing in a globalized economy.
Offered: Resident

ENGM 499 Internship 1-6 Credit Hours
Offered: Resident

Mechanical Engineering (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Program Directors
A listing of program directors can be viewed at http://www.liberty.edu/programdirectors.

Research Intensive Courses
All research intensive courses are listed online at https://www.liberty.edu/academics/qualityenhancement/index.cfm?PID=32835.

Purpose
The School of Health Sciences exists to prepare men and women in the sciences and health professions through the integration of current scientific thought and the biblical worldview. Current undergraduate degree programs include: the B.S. in Athletic Training, Biology, Biochemistry, Biomedical Sciences, Biopsychology, Biotechnology, Chemistry, Exercise Science, Environmental Biology, Forensic Science, Public and Community Health, Physical Education and Health, Respiratory Therapy, Zoo and Wildlife Biology, and Zoology.

Departments
- Department of Allied Health Professions (p. 788)
- Department of Biology & Chemistry (p. 821)
- Department of Public & Community Health (p. 883)

Programs
- Allied Health Professions Minors (p. 791)
- Athletic Training Major (B.S.) (p. 792)
- Biochemistry & Molecular Biology Major (B.S.) (p. 829)
- Biology & Chemistry Minors (p. 831)
- Biomedical Sciences Major (B.S.) (p. 832)
- Biopsychology Major (B.S.) (p. 839)
- Biotechnology Major (B.S.) (p. 845)
- Chemistry Major (B.S.) (p. 852)
- Environmental Biology Major (B.S.) (p. 855)
- Exercise Science Major (B.S.) (p. 799)
- Forensic Science Major (B.S.) (p. 859)
- General Biology Major (B.S.) (p. 863)
- Medical Office Assistant Major (A.A.S.) (p. 806)
- Physical Education & Health Major (B.S.) (p. 808)
- Public & Community Health Minors (p. 886)
- Public Health Major (B.S.) (p. 887)
- Respiratory Therapy Major (B.S.) (p. 815)
- Undergraduate Certificates (p. 908)
- Zoo & Wildlife Biology Major (B.S.) (p. 870)
- Zoology Major (B.S.) (p. 877)

Faculty

A

E

Eakin, Stephen; B.S., MD
Title: Instructor, Health Sciences
B.S. - Geneva College, MD - Temple University School of Medicine

Ejike, Chika; M.P.H., Ed.D., MD
Title: Adjunct Faculty
M.P.H. - Western Kentucky University, Ed.D. - Western Kentucky University, MD - University of Nigeria

Emerson, James; A.A.S.
Title: Adjunct Faculty
A.A.S. - Guilford Technical Community College

F

Farmer, Rebecca; B.S., M.S.
Title: Adjunct Faculty
B.S. - Northwestern State University, M.S. - Midwestern State University

Ferris, Keren; B.S., M.P.H.
Title: Adjunct Faculty
B.S. - Winston Salem State University, M.P.H. - Liberty University

Francis, Joseph; B.S., Ph.D.
Title: Assistant Professor
B.S. - Michigan State University, Ph.D. - Wayne State University

Fry, Nathaniel; B.S., Ph.D.
Title: Adjunct Faculty
B.S. - Liberty University, Ph.D. - East Carolina University
Fulp, Alan; B.S., M.A.R., Ph.D.
Title: Associate Professor of Chemistry
B.S. - Western Carolina University, M.A.R. - Liberty University, Ph.D. - North Carolina State University

Gage, Matthew; B.A., M.S., Ph.D.
Title: Associate Professor of Health Professions
B.A. - University of Northern Iowa, M.S. - Eastern Kentucky University, Ph.D. - Brigham Young University

Garrett, Sherese; B.S., M.P.H., DPH
Title: Adjunct Faculty
B.S. - Florida State University, M.P.H. - Florida State University, DPH - Florida A&M University

George, Pamela; B.A.S., B.S., M.P.H., Ed.D.
Title: Adjunct Faculty
B.A.S. - Ryerson University, B.S. - University of Toronto, M.P.H. - Loma Linda University, Ed.D. - La Sierra University

Giles, Jonathan; B.S., M.P.H., D
Title: Administrative Dean
B.S. - Liberty University, M.P.H. - Liberty University, D - Nova Southeastern University

Gillen, Alan; B.A., M.S., Ed.D.
Title: Professor of Biology
B.A. - Washington and Jefferson College, M.S. - Ohio State University, Ed.D. - University of Houston

Glauser, Jessi; B.S., M.S.
Title: Assistant Professor of Allied Health Professions
B.S. - Liberty University, M.S. - Liberty University

Gochenour, Daniel; A.A.S., B.S., M.S.
Title: Adjunct Faculty
A.A.S. - Jefferson College of Health Sciences, B.S. - Radford University, M.S. - Northeastern University

Goff, Cory; B.S., M.S.
Title: Assistant Professor of Biology & Chemistry
B.S. - Liberty University, M.S. - Marshall University

Gonzalez, Norma; B.S., M.S., D
Title: Instructor
B.S. - University of Puerto Rico, M.S. - Rosalind Franklin University of Medicine and Science, D - Rutgers University - Newark

Graf, Linnaya; A.A., B.S., M.S., Ph.D.
Title: Associate Professor of Public Health
A.A. - Florida State College at Jacksonville, B.S. - Pennsylvania State University, M.S. - Walden University, Ph.D. - Walden University

Green, Daniel; B.A., M.A., Ph.D.
Title: Adjunct Faculty
B.A. - Kalamazoo College, M.A. - Western Michigan University, Ph.D. - Bowling Green State University

Gulliford, Deryl; B.S., M.S.
Title: Adjunct Faculty
B.S. - Ohio State University, M.S. - University of Cincinnati

Hamill, Amy; B.S., M.S.
Title: Instructor
B.S. - Liberty University, M.S. - University of Idaho

Harris, Anastasia; A.A., B.S., M.S.
Title: Adjunct Faculty
A.A. - Indian River State College, B.S. - University of Florida, M.S. - University of Florida

Harris, Kyle; B.S., M.Ed., M.S., Ed.D.
Title: Assistant Professor of Biology
B.S. - Liberty University, M.Ed. - Liberty University, M.S. - University of Nebraska Kearney, Ed.D. - Liberty University

Haynie, Brendan; B.S., M.A., Ph.D.
Title: Associate Professor of Public & Community Health
B.S. - University of Scranton, M.A. - University of Virginia, Ph.D. - Pennsylvania State University

Helms, Clint; B.S., M.S., Ph.D.
Title: Instructor
B.S. - Shorter University, M.S. - University of Mississippi, Ph.D. - Northcentral University

Henderson, Catharine; B.S., M.S., Ph.D.
Title: Professor of Nutrition
B.S. - Albright College, M.S. - Pennsylvania State University, Ph.D. - Pennsylvania State University

Hobson, Stephen; B.S., Ph.D.
Title: Assistant Professor of Chemistry
B.S. - Wheaton College, Ph.D. - University of California Irvine

Hogan, Mary; B.S., M.S.
Title: Adjunct Faculty
B.S. - Virginia Polytechnic Institute and State University, M.S. - University of Alaska Fairbanks

Hoo, Elizabeth; B.S., M.P.H., Ph.D.
Title: Adjunct Faculty
B.S. - University of Georgia, M.P.H. - Georgia Southern University-Armstrong, Ph.D. - Walden University

Hornsby, Jared; B.S., M.S., Ph.D.
Title: Assistant Professor of Health Professions
B.S. - University of North Alabama, M.S. - University of North Alabama, Ph.D. - University of Alabama

Horton, David; B.S.E., M.S., Ed.D.
Title: Professor of Health Professions
B.S.E. - University of Central Arkansas, M.S. - University of Central Arkansas, Ed.D. - University of Arkansas at Fayetteville

House, Jon; B.S., M.Ed., Ed.D.
Title: Associate Professor of Health Professions
B.S. - Liberty University, M.Ed. - Temple University, Ed.D. - Argosy University-Sarasota

Howell, Larry; B.S., Ph.D.
Title: Professor of Biology
B.S. - Old Dominion University, Ph.D. - Virginia Polytechnic Institute and State University
Huang, Yan; B.S., M.S., Ph.D.  
Title: Adjunct Faculty  
B.S. - Shanghai University of Traditional Chinese Medicine, M.S. - Brandeis University, Ph.D. - Indiana University

Hubbard, Randall; B.S., B.S., M.S., Ph.D., Ph.D.  
Title: Professor of Microbiology  
B.S. - Iowa State University, B.S. - Iowa State University, M.S. - Iowa State University, Ph.D. - Iowa State University, Ph.D. - Iowa State University

Hughes, Duncan; B.S., M.P.H., MD  
Title: Adjunct Faculty  
B.S. - Messiah College, M.P.H. - University of Texas Health Science Center at Houston, MD - Uniformed Services University

Hulse, James; A.S., B.S., M.P.H., Ph.D.  
Title: Adjunct Faculty  
A.S. - Loma Linda University, B.S. - Loma Linda University, M.P.H. - Loma Linda University, Ph.D. - Andrews University

Huntley, Charlotte; A.A., A.A.S., B.A., M.P.H., Ph.D.  
Title: Adjunct Faculty  
A.A. - Mississippi Gulf Coast Community College-Jackson, A.A.S. - Mississippi Gulf Coast Community College-Jackson, B.A. - Thomas Edison State University, M.P.H. - Walden University, Ph.D. - Walden University

Ingle, Matthew; B.S., M.S., Ph.D.  
Title: Adjunct Faculty  
B.S. - The Master’s College, M.S. - Loma Linda University, Ph.D. - Loma Linda University

Isaac, Shirley; B.A., M.S., M.S.  
Title: Adjunct Faculty  
B.A. - University of California Los Angeles, M.S. - California State University Los Angeles, M.S. - California State University Los Angeles

Isaacs, Gary; B.S., Ph.D.  
Title: Associate Professor of Biology  
B.S. - Liberty University, Ph.D. - Cornell University

Jones-Foster, Sarah; B.A., M.S., M.S.  
Title: Adjunct Faculty  
B.A. - University of Alaska Fairbanks, M.S. - University of Nebraska Kearney, M.S. - University of Nebraska Kearney

Kalu, Ben; M.S., MD  
Title: Associate Professor of Biology  
M.S. - Catholic University of America, MD - Abia State University

Kilian, Justin; B.S., M.Ed.  
Title: Assistant Professor of Health Professions · Exercise Science  
B.S. - Liberty University, M.Ed. - University of Virginia

Kilian, Benjamin; B.S., Ph.D.  
Title: Adjunct Faculty  
B.S. - Cedarville University, Ph.D. - Washington State University

Kim, Jeong-Ho; B.S., M.S., Ph.D.  
Title: Associate Professor of Biology/Chemistry  
B.S. - Chonnam National University, M.S. - Chonnam National University, Ph.D. - University of Wisconsin Oshkosh College of Letters and Science

Kirshberger, James; B.S., M.S.  
Title: Adjunct Faculty  
B.S. - Liberty University, M.S. - Miami University Oxford

Kollars, Thomas; A.S., B.S., M.S., Ph.D.  
Title: Adjunct Faculty  
A.S. - Austin Peay State University, B.S. - Austin Peay State University, M.S. - Austin Peay State University, Ph.D. - University of Memphis

Korn, Michael; M.S., Ph.D.  
Title: Associate Prof of Chemistry  
M.S. - University of Freiburg, Ph.D. - University of Freiburg

Krasny, Amber; A.S., B.S., M.B.A.  
Title: Adjunct Faculty  
A.S. - Fisher College, B.S. - Walden University, M.B.A. - Walden University

Law, Colleen; B.A., M.P.H., Ph.D.  
Title: Assistant Professor  
B.A. - Mount Holyoke College, M.P.H. - University of Michigan-Ann Arbor, Ph.D. - Brandeis University

Lawton, Abigail; B.S., M.S.  
Title: Teaching Fellow  
B.S. - Liberty University, M.S. - Liberty University

Lazenga, Matthew; B.S., Ph.D.  
Title: Professor of Biology & Chemistry  
B.S. - East Tennessee State University, Ph.D. - Virginia Commonwealth University

Leusink, Mary; B.S., M.S., M.S.  
Title: Adjunct Faculty  
B.S. - University of Denver, M.S. - University of Colorado Denver, M.S. - University of Colorado Denver

Liakos, Marianne; A.S., B.S., M.S.  
Title: Adjunct Faculty  
A.S. - SUNY Westchester Community College, B.S. - Marymount College of Fordham University, M.S. - California University of Pennsylvania

Lindsey, John; A.S., B.S., M.Ed.  
Title: Assistant Professor, Director of Clinical Education  
A.S. - University of Arkansas for Medical Sciences, B.S. - University of Arkansas at Monticello, M.Ed. - University of Arkansas at Little Rock

Linstra, Ralph; B.S., M.Ed., Ed.D.  
Title: Dean, School of Health Sciences; Professor of Health Professions  
B.S. - The King’s College, M.Ed. - University of Massachusetts Amherst, Ed.D. - University of Massachusetts Amherst

Litevich, Aaron; M.S.  
Title: Adjunct Faculty
Lowes, Jeffrey; B.S., DC  
Title: Associate Professor of Health Professions  
B.S. - Liberty University, DC - New York Chiropractic College

Lumpkin, Kelly; B.S., M.S., Ph.D.  
Title: Associate Professor of Health Professions  
B.S. - Austin Peay State University, M.S. - Slippery Rock University, Ph.D. - Middle Tennessee State University

Marin, Traci; A.A.S., B.S., M.P.H., M.S., Ph.D.  
Title: Instructor  
A.A.S. - Victor Valley College, B.S. - Loma Linda University, M.P.H. - Loma Linda University, M.S. - University of California Riverside, Ph.D. - University of California Riverside

Martin, Darlene; B.S., M.Ed., D  
Title: Assistant Professor of Health Professions  
B.S. - Liberty University, M.Ed. - Liberty University, D - A.T. Still University

Mc Dowell, Maresa; B.S., M.A., M.S.  
Title: Adjunct Faculty  
B.S. - Liberty University, M.A. - Liberty University, M.S. - Liberty University

McArthur, Teresa; B.S., M.S.  
Title: Adjunct Faculty  
B.S. - Western Michigan University, M.S. - East Carolina University

McClintock, James; B.S., M.S., Ph.D.  
Title: Professor of Biology  
B.S. - James Madison University, M.S. - University of Maryland in College Park, Ph.D. - University of Maryland in College Park

McGuirt, Davis; B.S., D.V.M.  
Title: Associate Professor of Biology  
B.S. - Furman University, D.V.M. - University of Georgia

Miller, Paul; B.A., Ph.D.  
Title: Associate Professor of Biology & Chemistry  
B.A. - University of Alabama at Birmingham, Ph.D. - Vanderbilt University

Mitchell, Kimberly; B.S., M.S., Ph.D.  
Title: Associate Professor of Biology  
B.S. - Liberty University, M.S. - University of Virginia, Ph.D. - University of Virginia

Moody, LaRee; BSN, M.S., D  
Title: Adjunct Faculty  
BSN - University of North Florida, M.S. - University of St Francis, D - University of Phoenix

Muvuka, Baraka; B.S., M.P.H., Ph.D.  
Title: Instructor  
B.S. - Silliman University, M.P.H. - Liberty University, Ph.D. - University of Louisville

Napier, Racharine; B.S., M.P.H., DPH  
Title: Adjunct Faculty  
B.S. - CUNY City College of New York, M.P.H. - Ohio State University, DPH - Capella University

O'Connell, Bethesda; B.S., M.P.H., DPH  
Title: Associate Professor  
B.S. - East Tennessee State University, M.P.H. - East Tennessee State University, DPH - East Tennessee State University

Ogunleye, Olushola Olaitan; C.T.G., M.P.H., MD  
Title: Adjunct Faculty  
C.T.G. - Liberty University, M.P.H. - Liberty University, MD - Ahmadu Bello University

Oldfather, Diane; B.S., M.Ed.  
Title: Adjunct Faculty  
B.S. - Missouri Southern State College, M.Ed. - A.T. Still University

Osborne, Jason; B.S., M.S.  
Title: Adjunct Faculty  
B.S. - Radford University, M.S. - East Tennessee State University

Parker, Jennifer; B.S., DPT  
Title: Adjunct Faculty  
B.S. - James Madison University, DPT - Duke University

Parson, Monica; B.S., M.Ed., Ed.D.  
Title: Professor of Kinesiology  
B.S. - Liberty University, M.Ed. - University of Virginia, Ed.D. - University of Virginia

Passburg, Crystal; B.S., M.S.  
Title: Teaching Fellow  
B.S. - Bryan College, M.S. - Liberty University

Peveler, Willard; B.A., M.S., Ph.D.  
Title: Professor of Health Professions  
B.A. - Western Kentucky University, M.S. - Western Kentucky University, Ph.D. - University of Alabama

Pickard, Jerry; B.S., M.A.T., Ed.D.  
Title: Professor of Athletic Training  
B.S. - University of Texas El Paso, M.A.T. - Western New Mexico University, Ed.D. - Sam Houston State University

Porter, Jason; B.S., M.S., Ed.D.  
Title: Instructor  
B.S. - Oklahoma Baptist University, M.S. - Texas Tech University, Ed.D. - Liberty University

Purdom, Georgia; B.A., Ph.D., Ph.D.  
Title: Adjunct Faculty  
B.A. - Cedarville University, Ph.D. - Ohio State University, Ph.D. - Ohio State University

Raner, Gregory; B.S., M.S., Ph.D.  
Title: Professor of Biology & Chemistry  
B.S. - Lemoyne College, M.S. - Syracuse University, Ph.D. - University of Utah

Reichenbach, Norman; B.S., M.S., Ph.D.  
Title: Professor of Biology
Richardson, Nancy; A.A., B.S., M.S., Ph.D.
Title: Associate Professor of Chemistry
A.A. - Wenatchee Valley College, B.S. - Bob Jones University, M.S. - Texas A&M University, Ph.D. - University of Georgia

Rodriguez, Silvia; MD
Title: Adjunct Faculty
MD - Universidad Central de Venezue

Title: Instructor
Department of Allied Health Professions

Purpose
The Department of Allied Health Professions faculty members are committed to preparing students in four majors: Athletic Training, Exercise Science, Respiratory Therapy, and Physical Education and Health. Each major leads to a Bachelor of Science degree. Our objective is to encourage student growth in these disciplines from the Christian worldview in preparation for employment/graduate education as they pursue God’s purpose for their lives.

Programs
- Allied Health Professions Minors (p. 791)
- Athletic Training Major (B.S.) (p. 792)
- Exercise Science Major (B.S.) (p. 799)
- Medical Office Assistant Major (A.A.S.) (p. 806)
- Physical Education & Health Major (B.S.) (p. 808)
- Respiratory Therapy Major (B.S.) (p. 815)

Courses
HLTH 105 Introduction to the Health Professions 3 Credit Hours
A survey of the health professions and requirements for educational, job and market demands in selected health careers, including health promotion philosophy, goals, history and development.

HLTH 205 Accident Prevention and Care (First Aid) 3 Credit Hours
Principles of accident prevention and personal safety with emphasis upon development of knowledge and skills needed for dealing with emergencies which may be faced in a variety of settings. First aid and CPR certification is included.

Offered: Resident
HLTH 211 Applied Anatomy and Physiology I for Associate Degree 3 Credit Hours
An examination of the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course employs virtual interactive cadaver dissection technology. The following topics are covered: introduction to the human body, organization of the body, the blood, cardiovascular system, lymphatic system, nervous system, special senses, endocrine system, and respiratory system.

HLTH 212 Applied Anatomy and Physiology II for Associate Degree 3 Credit Hours
A continuation of HLTH 211 that examines the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course employs virtual interactive cadaver dissection technology. The following topics are covered: the digestive system, the urinary system, the skin, the musculoskeletal system, and the reproductive systems.

HLTH 216 Personal Health 3 Credit Hours
A study of considerations and current trends in the areas of personal and community health. Emphasis is given to personal responsibility for healthy lifestyle management.

Offered: Resident
HLTH 221 Applied Human Anatomy and Physiology I 3 Credit Hours
An examination of the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course will employ virtual interactive cadaver dissection technology. The following topics are covered: introduction to the human body; the chemistry of life; the cells, tissues, and organization of the body; the blood; the cardiovascular system; the lymphatic system; the nervous system; the special senses; the endocrine system; and the respiratory system. (Formerly HLTH 201)

Note: This course does not substitute for BIOL 213 & 214.

Offered: Online
HLTH 222 Applied Human Anatomy and Physiology II 3 Credit Hours
A continuation of HLTH 221 that examines the structure, function, and pathology of the various body systems and their roles, relevance, and applications in health and illness. The course will employ virtual interactive cadaver dissection technology. The following topics are covered: introduction to nutrition; the digestive system; the urinary system; the skin; resistance and immunity; the musculoskeletal system; introduction to genetics; and the reproductive systems. (Formerly HLTH 202)

Note: This course does not substitute for BIOL 215 & 216.

Offered: Online

HLTH 252 Drugs in Society 3 Credit Hours
An examination of alcohol, tobacco and other drugs effects upon individual, school and community.

HLTH 299 Internship 0 Credit Hours
Practical work experience in an approved health agency, supervised by a qualified health specialist. Application procedures processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

HLTH 301 Foundations of Public Health 3 Credit Hours
This course provides an introduction to public health concepts and practice. Beginning with the history of public health, the student will learn how this profession has evolved through time, study the foundational components of public health today, and explore its future. This course will address administrative roles and responsibilities of the profession within the context of socio-ecological levels. Topics covered include public health’s core functions and essential services, organizational structures, ethical issues, systems thinking, and the role of the health education specialist.

Offered: Resident

HLTH 311 Health Promotion Methods for Global Settings 3 Credit Hours
This practical course applies health promotion theory through methods and materials designed for international settings. Non-formal methods are especially introduced to the learners. This course is ideal for those desiring to serve in overseas settings (the two-thirds world) for ministry and service. Non-health majors are welcome, especially those with a heart for missions and for serving the needy. Registration Restrictions: Completion of at least one academic year

Note: Offered spring semester.

Offered: Resident

HLTH 330 Human Nutrition 3 Credit Hours
Prerequisites: BIOL 211 or BIOL 213 or BIOL 214 or BIOL 101 or BIOL 102 or BIOL 200 or BIOL 1XX or BIOL 2XX or CHEM 105 or CHEM 107 or CHEM 1XX or CHEM 2XX or HLTH 201 or HLTH 202 or BIOL 215 or HLTH 221 or BIOL 216 or HLTH 222 or BIOL 224 or BIOL 225
Chemical structure, function, digestion, metabolism and biochemical interrelationships of nutrients relating to life cycle, current issues and diet selection.

Offered: Resident

HLTH 333 Exercise and Sports Nutrition 3 Credit Hours
Prerequisites: EXSC 310
This course focuses on nutrition with an emphasis on its role in exercise and sport performance. Topics include: macro/micro-nutrient metabolism in relation to exercise, hydration, body composition, ergogenic aids, disordered eating, and current nutritional recommendations.

Offered: Resident

HLTH 340 Women’s Health Issues 3 Credit Hours
This course provides female students with an overview of contemporary women’s health issues across the lifespan, within the framework of health education and health promotion. It prepares students with both knowledge and competencies to best minister to other women, in formal and informal settings, from a Christian perspective. Registration Restrictions: Women only; Completion of at least one academic year

Note: Offered fall semester.

Offered: Resident

HLTH 349 Public and Community Health for Business 3 Credit Hours
This course is an introduction to public and community health issues and problems at the local, state and national levels oriented toward business professionals.

Note: This course does not substitute for HLTH 350.

Offered: Online

HLTH 350 Introduction to Public and Community Health 3 Credit Hours
An introduction to public and community health issues or problems at the local, state and national levels.

Offered: Resident
HLTH 370 Introduction to Environmental Hazards and Response  
3 Credit Hours

**Prerequisites:** HLTH 301 or (HLTH 350

This course addresses manmade and natural environmental hazards that impact human health. After a description and epidemiological survey of risk, the course focuses on prevention and disaster management. Students will learn the structure and systems involved in the response to environmental disasters, and will participate in hands-on training in disaster response skills through the resources of the American Red Cross and/or other agencies.

**Offered:** Resident

HLTH 380 Health Promotion for Aging Populations  
3 Credit Hours

The study of the process of aging and the interrelationships among the five dimensions of health as they relate to aging. Emphasis is placed on health promotion and disease prevention at all ages as the path to living a full life in later years. Registration Restrictions: Completion of at least one academic year.

**Note:** Offered fall semester.

**Offered:** Resident

HLTH 400 Contemporary Health Issues  
3 Credit Hours

As an integrative study course, classes examine health trends in America. The focus is on personal health / medical decisions relevant to Christians. Topics include but are not limited to: marital choices, addictions, common infectious and chronic diseases, mental illness, aging, dying and death, and predictions of future health events of the next 50 years. Registration Restrictions: Junior or Senior status

**Note:** Offered fall semester.

**Offered:** Resident

HLTH 402 The School Health Program  
3 Credit Hours

School health program philosophy and K-12 curriculum are discussed with an emphasis on policies, procedures and methods for the teaching of health education. Registration Restrictions: Junior status

**Note:** Offered spring semester.

**Offered:** Resident

HLTH 419 Wellness and Behavior Change Theories for Business  
3 Credit Hours

This course includes a study of theory and practice of wellness behavioral change that can be translated into the business arena. Organizational and individual intervention techniques for health promotion, marketing and general communication campaigns will be emphasized.

HLTH 420 Principles of Behavior Change and Health Counseling  
3 Credit Hours

A study of theory and practice of behavioral change or verification that leads to a healthy lifestyle. Group and individual intervention techniques with follow-up health counseling theory and application will be emphasized.

**Registration Restrictions:** Junior status.

**Offered:** Resident

HLTH 440 Methods and Resources in Teaching Applied Sciences in Schools  
2 Credit Hours

**Prerequisites:** HLTH 402 and Background Check Clearance with a score of 5 and Education Teacher Licensure with a score of 5

A study of classroom related instruction in applied sciences with an emphasis on delivery system, student needs and materials that can be utilized. Note: (Offered fall semester)

**Offered:** Resident

HLTH 441 Methods and Resources in Teaching Applied Sciences in School Practicum  
1 Credit Hour

**Prerequisites:** HLTH 402 and Background Check Clearance with a score of 5 and Education Teacher Licensure with a score of 5

The student will be required to prepare a unit, teach in a secondary classroom setting and evaluate the experience.

**Note:** (Offered fall semester).

**Offered:** Resident

HLTH 444 Principles of Epidemiology and Biostatistics  
3 Credit Hours

**Prerequisites:** MATH 201

A study of epidemiology, the basic science of public health. Epidemiology will be viewed as: 1) a quantitative basic science built on sound research methods; 2) a method of causal reasoning based on developing and testing hypothesis pertaining to the occurrence and prevention of morbidity (disease) and mortality (death); and 3) a tool for public health action to promote and protect the public’s health.

**Offered:** Resident

HLTH 452 Methods and Materials in Community Health Education  
3 Credit Hours

Development, usage and evaluation of print and non-print materials and methods for health educators in the community setting.

**Registration Restrictions:** Junior status.

**Offered:** Resident
HLTH 453 Program Planning and Evaluation in Health Education 3 Credit Hours

Prerequisites: HLTH 350
A study of the theories, models, and processes that reflect best practice in assessment, planning, implementation, and evaluation of health education programming.

Registration Restrictions: Junior status.
Offered: Resident

HLTH 485 Principles of Epidemiology and Biostatistics for Business 3 Credit Hours

Prerequisites: MATH 201 or BUSI 230
The course introduces the principles, concepts, and methods of epidemiology – the study of patterns and determinants of disease in different populations to business professionals. Topics include measures of disease frequency and effect, uses of rates and proportions and other statistics to describe the health of populations in investigating the extent of disease problems and the associations between risk factors and disease outcomes.

Offered: Online

HLTH 488 Chronic and Infectious Diseases 3 Credit Hours

Prerequisites: BIOL 203 or BIOL 303
This course will address the epidemiology, pathogenesis, risk factors and prevention of major chronic diseases. Also, this course will examine infectious diseases through the epidemiology of various bacterial, viral, fungal, protozoal, and helminthic infections, with application for students interested in health promotion and disease prevention at home, overseas, and on the mission field.

Offered: Resident

HLTH 491 Grantsmanship 3 Credit Hours
An introduction to the world of public, corporate and private foundations. Topic research, organizational communications, protocol, budget development and grant writing are emphasized skill areas.

Offered: Resident and Online

HLTH 495 Directed Research 1-6 Credit Hours
To allow students the opportunity to expand their understanding of public health by taking part in a research-oriented project or program implementation and evaluation of a public health topic of interest.

Registration Restrictions: Approval of the program director.
Offered: Resident

HLTH 497 Special Topics in Health 1-3 Credit Hours
A comprehensive study of health promotion principles and problems in selected areas of health science which may include: stress management, weight control, environment, smoking cessation, family life education, human diseases, etc. (May be repeated to a total of six hours in different content areas.)

Offered: Resident

HLTH 498 Public Health Senior Seminar 3 Credit Hours

Prerequisites: HLTH 301 and HLTH 350 and HLTH 444
This course provides students with the opportunity to incorporate and apply the content and competencies of public health into a culminating experience that places emphasis on a research project and presentation.

Offered: Resident

HLTH 499 Professional Internship in Health Promotion 1-12 Credit Hours

Prerequisites: HLTH 452 and HLTH 453
Practical work experience in an approved health agency, supervised by a qualified health specialist. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Consent of instructor; required cumulative GPA of 2.35; HLTH 452 and 453; CPR/First Aid Certification; Junior or Senior status.
Offered: Resident

Allied Health Professions Minors

Athletic Training Major (B.S.)

Athletic Training is practiced by Certified/Licensed Athletic Trainers; health care professionals who collaborate with physicians to optimize activity and participation of patients and clients. Athletic training encompasses the prevention, diagnosis, and intervention of emergency, acute, and chronic medical conditions involving impairment, functional limitations, and disabilities. Athletic Trainers have been recognized by the AMA (American Medical Association) as an allied health care profession since 1990 (www.nata.org, 2010).

Entry-level athletic training education uses a competency-based approach in both the classroom and clinical settings. Using a medical-based education model, athletic training students (ATS) are educated to provide comprehensive preventive services and care in six domains of clinical practice: injury/illness prevention and wellness protection; clinical evaluation and diagnosis; immediate and emergency care; treatment and rehabilitation; and, organizational and professional health and well-being. The Commission on Accreditation of Athletic Training (CAATE) determines the educational requirements for Athletic Training Programs (ATP). These requirements include cognitive (knowledge) and psychomotor (skill) content in the following 8 content areas:

1. evidence-based practice,
2. prevention and health promotion,
3. clinical examination and diagnosis,
4. acute care of injury and illness,
5. therapeutic interventions,
6. psychosocial strategies and referral,
7. healthcare administration,
8. professional development and responsibility.

Athletic training programs, academic majors, are accredited by CAATE and lead to a bachelor's or master's degree. Certification is granted by the Board of Certification, Inc. (BOC). The BOC conducts annual examinations to certify entry-level athletic trainers. The BOC also establishes and regularly reviews both the standards for the practice of athletic training and the continuing education requirements for BOC Certified/Licensed athletic trainers. The Bachelor of Science degree program in Athletic Training at Liberty University is nationally accredited through an independent process by CAATE.

The ATP at Liberty University is designed to produce athletic training professionals who will impact the world of sports and health with the highest standards of knowledge, skill, and compassion. This program of study provides a thorough investigation into the profession of Athletic Training, using rigorous academic instruction in the classroom and intense hands-on clinical study working with area colleges and universities, high schools, and other affiliated sites.

Program Learning Outcomes

The student will be able to:

1. Demonstrate assessment procedures for overall wellness including injury prevention techniques.
2. Evaluate pathologies through the use of evidence-based assessment techniques.
3. Demonstrate how to provide care during acute and emergency situations.
4. Implement evidence-based therapeutic treatments and rehabilitation protocols for various pathologies.
5. Demonstrate the components of healthcare administration while having the knowledge of maintaining professional health and well-being.

All applicable prerequisites must be met

4. Implement evidence-based therapeutic treatments and rehabilitation protocols for various pathologies.
5. Demonstrate the components of healthcare administration while having the knowledge of maintaining professional health and well-being.
6. Demonstrate mastery of the knowledge and skills necessary to effectively perform as an entry-level Certified Athletic Trainer as defined by the program's accrediting body.

7. Integrate the biblical worldview into all aspects of practicing athletic training.

Program Policies And Degree Requirements/Application Procedures

A student interested in earning a Bachelor's of Science Degree in Athletic Training at Liberty University must meet the requirements of the Athletic Training Program. The Athletic Training Program's requirements include meeting the university admissions criteria as well as the additional standards associated with preparing competent athletic trainers for clinical practice. These additional standards are developed by the Athletic Training Program at Liberty University. Acceptance to Liberty University and declaring Athletic Training as one's major is the way in which a student begins the process. However this first step is not synonymous with admission into the Athletic Training Program. Each athletic training candidate is to follow the steps associated with the process and meet the criteria established by the program.

The Athletic Training Program has a two stage (Initial & Full) application process. Each candidate will complete the initial application stage at the end of their freshman year or during the first year at Liberty University for transfer students.

Initial Application Process

In addition to completing ATTR 200 Introduction to Athletic Training (3 c.h.), students must meet the following criteria and provide the following information:

1. Candidates must be in good academic standing with the University and have a minimum cumulative GPA of 2.50 on a 4.0 scale.
2. Complete of initial application
3. All previous collegiate official transcripts must be available to the Athletic Training Program Admissions Committee.
4. Medical history form signed by a physician. The form shall include an endorsement by the physician that states the student is physically able to meet the requirements of the program (See Technical Standards). Meet the Technical Standards Policy for admission into the program.
   a. Copy of vaccination records, which must include: Rubella, Tetanus, Mumps, Polio, Chicken Pox and HBV vaccination.
   b. Due by April 1 to the Athletic Training Program Director
      • Initial acceptance will only occur after final grades have been confirmed by the registrar's office.

Students will be notified of their initial acceptance status by June 1 via a letter that will be sent out to the student's Liberty University E-Mail. Initial acceptance into Liberty University's Athletic Training Program signifies that students are allowed to continue to take the following athletic training courses:

<table>
<thead>
<tr>

</tr>
<tr>
<td>ATTR 226</td>
<td>Clinical Kinesiology for Health Professionals Laboratory</td>
<td>1</td>
</tr>
</tbody>
</table>

Full Application/Requirements

Students will apply for full acceptance into Liberty University’s Athletic Training Program during the semester (Fall) following initial acceptance. The application deadline for full application submission is November 15, students must meet and submit the following criteria and provide the following information to the Athletic Training Program to be considered for acceptance:

1. Anticipated final grade for each of the following courses:

<table>
<thead>
<tr>

   a. Students will have to obtain their professor's signature to confirm the anticipated final grade
   b. Full acceptance will only occur after final grades have been confirmed by the registrar's office.

2. Cumulative GPA of 2.75 or higher
3. Provide evidence of First Aid certification (certification must remain current while in ATP)
4. Provide evidence of professional rescuer CPR certification (certification must remain current while in ATP)
5. Completed background check through Liberty University approved background check
6. Complete an Essay titled “Why I want to be in athletic training”
7. Three letters of recommendation (1 from each: non-Athletic Training professor/instructor, pastoral, professional)
8. Provide verification of clinical observation hours
9. Provide verification of the students ability to meet technical standards
10. Provide verification of Universal Precautions Training (annual requirement)
11. Read & sign the confidentiality statement (annual requirement)
12. Read & sign the Athletic Training Policy & Procedure Manuals (annual requirement)

Students will be notified of their initial acceptance status by January 1 via a letter that will be sent out to the student's Liberty University E-Mail. Full acceptance into Liberty University’s Athletic Training Program signifies that students are allowed to continue to take the following athletic training courses:

Transfer Students

Students transferring to Liberty University who are interested in entering the ATP must contact the Program Director by August 1. Due to the unique characteristics and background of each individual, a transfer student will be evaluated on an individual basis to determine his/her suitability for the program as well as an appropriate entry level. This evaluation will be made only after the Program Director has received the following:

1. Candidates must be in good academic standing with previous university as well as Liberty University and have a minimum cumulative GPA of 2.50 on a 4.0 scale.
2. Completion of provisional application
3. Copy of all official transcripts from prior academic institutions
4. Medical history form signed by a physician. The form shall include an endorsement by the physician that states the student is physically able to meet the requirements of the program (See Technical Standards).
   • Copy of current vaccination records, including: Rubella, Tetanus, Mumps, Polio, Chicken Pox and HBV vaccination.
5. Meet the Technical Standards Policy for admission into the program.

The above documents and materials must be submitted to Liberty University's AT Program Director by August 1 to be assured an opportunity to be provisionally accepted.

It is highly likely that the competencies covered in the transferring courses may differ from those covered in LU's courses. However, if a transfer student feels certain competencies have been completed, the student must provide the Program Director written documentation from his/her former school's Program Director. This documentation must include a weekly log of hours, a list of completed clinical experiences, competencies, and a statement signed by the Program Director verifying satisfactory completion of the competencies in question. All competencies must meet the standards set forth by CAATE. Any request for course credit transfer must be made to the Program Director.

Once a student has been granted entry into the athletic training program, a student is to maintain his/her status by consistently meeting the following criteria:

1. Earn a ‘C’ or higher in all athletic training courses.
2. Maintain satisfactory citizenship and ethical behavior.
3. Maintain a cumulative 2.75 GPA
4. Remain current with CSER requirement

Program Retention Standards

Once admitted to the program, the student must demonstrate and maintain satisfactory academic and clinical progress as defined below:

• Overall GPA: Athletic training students will maintain a minimum cumulative GPA of 2.75. Students falling below a 2.75 GPA will be placed on probation for one semester. If, after one semester of probation, the GPA remains below a 2.75, or falls below a 2.75 in any subsequent semester, the student will be suspended from the program.
• GPA in Major: Students must achieve a minimum grade of “C” in all designated classes (right side of DCP). The student, with permission of the Program Director, may repeat one ATTR course in which the student failed to achieve the minimum grade of “C”. A second failure to receive a grade of “C” or better in any ATTR course will result in suspension from the program.
• Students must complete BIOL 213 Human Anatomy and Physiology I (3 c.h.)/BIOL 214 Human Anatomy and Physiology I Lab (1 c.h.) and BIOL 215 Human Anatomy and Physiology II (3 c.h.)/BIOL 216 Human Anatomy and Physiology II Lab (1 c.h.) with a minimum grade of “C” in each section before enrolling in ATTR 400 Principles of Therapeutic Exercise and Rehabilitation (3 c.h.), ATTR 320 Clinical Education II (2 c.h.) or ATTR 302 Upper Extremity Injury Evaluation (3 c.h.). Students who receive a grade of “D” will be allowed to continue enrollment for one additional semester if they are enrolled in the BIOL course in which they received the grade of “D”. Students who receive a grade of “F” in any section of the required BIOL classes will be allowed to re-enter the program in the appropriate sequencing upon completion of this requirement.
• Under extenuating circumstances, and with approval of the Program Director, students will be allowed to continue in the program (under probation status) if they fail to meet one specific section of the GPA requirement. Issues will be considered on an individual basis and must constitute mitigating circumstances beyond the control of the student or program.
• Course Sequencing: Students must complete each clinical and academic course in the order prescribed.
• Codes of Conduct: Satisfactory citizenship and behavior must be demonstrated, per the University’s and the program’s codes of conduct as outlined in the Liberty Way and in the Athletic Training Program Handbook.

Students suspended from the University will be subject to athletic training faculty review as to continuation in the program.

The athletic training faculty reserves the right to dismiss from the major, students who exhibit unprofessional or unethical behavior as outlined in the Program Handbook.
• Guidelines for Appeal: Students may appeal decisions concerning their status in the Athletic Training Program. In order to do so, the student must submit a written appeal to the Program Director within one week of the notification in question. The documentation must include a detailed justification for the appeal. Upon receipt of the appeal, the athletic training faculty will meet to review the matter. The student will be advised in writing as to the outcome of that discussion within two weeks.

Program of Study

Delivery Format: Residential Only

• Athletic Training (B.S.) - Resident (p. 798)

Career Opportunities

• Emergent Care
• Examination and Clinical Diagnosis
• Rehabilitation of Injuries and Medical Conditions
• Therapeutic Intervention
• Wellness Promotion and Education
Courses

ATTR 200 Introduction to Athletic Training 3 Credit Hours
An introduction to the profession of athletic training. Topics also include basic methods of care, treatment, and rehabilitation of athletic injuries.
Offered: Resident

ATTR 205 Muskuloskeletal Terminology and Clinical Documentation 2 Credit Hours
Foundations of scientific and medical vocabulary with specific discussion of anatomical, musculoskeletal and differential diagnostic terminology associated with the Allied Health Fields. Significant time will be devoted to the understanding of the proper application of scientific and medical vocabulary as it relates to the Allied medical practice of formal written and electronic documentation (SOAP Notes) for proper medical referral and reimbursement.
Offered: Resident

ATTR 210 Principles of Athletic Training 3 Credit Hours
Introduction of Basic Athletic Training. Topics include: pre-participation exam; modalities; and prevention. Laboratory experiences are provided.
Offered: Resident

ATTR 211 Principles of Athletic Training Lab 1 Credit Hour
Prerequisites: ATTR 210 (may be taken concurrently)
This class is in directed support of ATTR 210 and is designed to clinical application of preventative and treatment techniques associated with athletic training.
Offered: Resident

ATTR 221 Clinical Education I 2 Credit Hours
Prerequisites: ATTR 200 and BIOL 213 and BIOL 214
Didactic and psychomotor skill instruction of competencies in Athletic Training. Emphasis will be placed on the application of extremity taping/wrapping and emergency care of athletic injuries through clinical scenarios. Will include a clinical education rotation.
Offered: Resident

ATTR 222 Clinical Kinesiology for Health Professionals 2 Credit Hours
Prerequisites: (BIOL 213 and BIOL 214) or (BIOL 213 (may be taken concurrently) and BIOL 214 (may be taken concurrently))
Students will gain knowledge of clinical musculoskeletal human anatomy through a variety of instructional techniques. The focus of the course will be on learning: bony landmarks, muscle origins and insertions, how to assess each muscle, & how to assess range of motion.
Registration Restrictions: For ATEP provisionally accepted students.
Offered: Resident

ATTR 226 Clinical Kinesiology for Health Professionals Laboratory 1 Credit Hour
Students will apply knowledge of clinical musculoskeletal human anatomy through a variety of hands on activities. The focus of the course will be to practice identifying bony landmarks and muscle origins and insertions along with demonstrating how to perform manual muscle testing & how to assess range of motion.
Registration Restrictions: For ATEP provisionally accepted students only.
Offered: Resident

ATTR 299 Internship 0 Credit Hours
Direct applicable work experience under the supervision of the Athletic Training Faculty Intern Advisor. Application processed through the Career Center. Must apply semester prior to internship.
Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.
Offered: Resident

ATTR 300 Lower Extremity Injury Evaluation 3 Credit Hours
Prerequisites: ATTR 200 and BIOL 213 and BIOL 214
Methods of evaluation of athletic injuries are investigated, including history, inspection, palpation, and orthopedic and neurologic testing with focus on the lumbar area and lower extremities.
Offered: Resident

ATTR 301 Lower Extremity Injury Evaluation Laboratory 1 Credit Hour
Prerequisites: ATTR 200 and BIOL 213 and BIOL 214
The methods of evaluation including history, inspection, palpation, and orthopedic and neurological testing of athletic injuries will be practiced in a hands-on laboratory environment. This laboratory experience will focus on lower extremity injuries.
Offered: Resident

ATTR 302 Upper Extremity Injury Evaluation 3 Credit Hours
Prerequisites: ATTR 300
Methods of evaluating injuries to the physically active are investigated including history, inspection, palpation, and orthopedic and neurological testing. Focus includes evaluation of injuries to the upper extremity, head, neck and thorax. Other topics include management of crisis situations and facial injuries related to athletic participation.
Offered: Resident
ATTR 303 Upper Extremity Injury Evaluation Laboratory 1 Credit Hour

Prerequisites: ATTR 200 and ATTR 300 and ATTR 301 and BIOL 213 and BIOL 214

The methods of evaluation including history, inspection, palpation, and orthopedic and neurological testing of athletic injuries will be practiced in a hands-on laboratory environment. This laboratory experience will focus on upper extremity injuries.

Offered: Resident

ATTR 305 Emergency Care for Athletic Training 3 Credit Hours

Prerequisites: (ATTR 200 and (ATTR 210 and (BIOL 213 and (BIOL 214)) or (BIOL 213 (may be taken concurrently) and BIOL 214 (may be taken concurrently))

Advanced level of first aid and CPR training for individuals who have a job-related 'duty to respond.' This course includes such topics as: CPR use of the resuscitation mask bag-valve mask and Automated External Defibrillator; anatomy; patient assessment; shock; bleeding; burns; oxygen and airway care; spine board use; and other medical emergencies.

Registration Restrictions: For ATEP provisionally-accepted students only.

Offered: Resident

ATTR 306 Emergency Care for Athletic Training Laboratory 1 Credit Hour

Prerequisites: (ATTR 200 and (ATTR 210 and (BIOL 213 and (BIOL 214)) or (BIOL 213 (may be taken concurrently) and BIOL 214 (may be taken concurrently))

This lab course provides students with the application of advanced level first aid and CPR training for individuals who have a job-related 'duty to respond.' This course is designed for students to gain proficiency in first aid skills as it relates to such topics as: CPR use of the resuscitation mask bag-valve mask and Automated External Defibrillator; anatomy; patient assessment; shock; bleeding; burns; oxygen and airway care; spine board use; and other medical emergencies discussed in ATTR 305.

Offered: Resident

ATTR 310 Therapeutic Modalities in Athletic Training 3 Credit Hours

Prerequisites: ATTR 305 and ATTR 306

A study of theories and principles of uses of different modalities to enhance the healing of injuries. Lab experiences included.

Offered: Resident

ATTR 311 Therapeutic Modalities Laboratory 1 Credit Hour

Prerequisites: ATTR 305 and ATTR 306

This class presents the practical application of therapeutic modalities to enhance the healing of injuries. Laboratory experiences will include the set-up, application and probable outcomes of the use of various therapeutic modalities commonly used in athletic training.

Offered: Resident

ATTR 320 Clinical Education II 2 Credit Hours

Prerequisites: ATTR 221

Didactic and psychomotor skill instruction of competencies in Athletic Training. Emphasis will be placed on the application of lower extremity injury and illness evaluation of athletic injuries and therapeutic modalities through clinical scenarios. Will include a clinical education rotation.

Offered: Resident

ATTR 321 Clinical Education III 2 Credit Hours

Prerequisites: ATTR 320

Didactic and psychomotor skill instruction of competencies in Athletic Training. Emphasis will be placed on the application of upper extremity injury and illness evaluation of athletic injuries through clinical scenarios. Will include a clinical education rotation.

Offered: Resident

ATTR 325 Evidence Based Research in Athletic Training 2 Credit Hours

Prerequisites: ATTR 225 and ATTR 226 and ATTR 305 and ATTR 306 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This class introduces the research process in athletic training with an emphasis on evidence-based medicine. Students will learn to evaluate the quality of available research evidence and interpret statistical data and relevance. Scientific writing experience will be gained in the form of research proposals, literature reviews, case studies and critical appraisals.

Offered: Resident

ATTR 330 Clinical Musculoskeletal Anatomy 3 Credit Hours

Prerequisites: BIOL 213 and BIOL 214 and BIOL 215 and BIOL 216

Students will gain and apply knowledge of clinical musculoskeletal human anatomy and function through a variety of Instructional Techniques/Methods. The focus of this course will be on learning: Identification of musculoskeletal anatomical landmarks, muscle origins and insertions, nerve innervations, how to assess each muscle's range of motion (Active ROM-AROM) and joint range of motion (Passive ROM-PROM).

Offered: Resident

ATTR 331 Clinical Musculoskeletal Anatomy Lab 1 Credit Hour

Prerequisites: BIOL 213 and BIOL 214 and BIOL 215 and BIOL 216 and ATTR 330 (may be taken concurrently)

Students will apply knowledge of clinical musculoskeletal human anatomy and function through a variety of hands on Laboratory activities. The focus of this course will be to practice identifying and palpation of musculoskeletal anatomical landmarks, muscle origins and insertions, nerve innervations, how to assess each muscle's range of motion (Active ROM-AROM) and joint range of motion (Passive ROM-PROM).

Offered: Resident
ATTR 335 Musculoskeletal Injury Assessment 3 Credit Hours

Prerequisites: ATTR 330 and ATTR 331 and ATTR 336 (may be taken concurrently)

This course will provide students with the foundational knowledge required to perform a musculoskeletal injury evaluation. The principles taught in this course will include the following: 1) how to assess the history of an injury, 2) how to perform the observation portion of an evaluation, 3) how to utilize palpation when performing an injury evaluation, 4) how to perform resistive range of motion and manual muscle testing.

Offered: Resident

ATTR 336 Musculoskeletal Injury Assessment Laboratory 1 Credit Hour

Prerequisites: ATTR 330 and ATTR 331 and ATTR 335 (may be taken concurrently)

This course will provide students with the opportunity to practice the ‘hands-on’ skills that are required to perform a musculoskeletal injury evaluation in a laboratory setting. The principles taught in this course will include the following: 1) how to assess the history of an injury, 2) how to perform the observation portion of an evaluation, 3) how to utilize palpation when performing an injury evaluation, 4) how to perform resistive range of motion and muscle testing.

Offered: Resident

ATTR 400 Principles of Therapeutic Exercise and Rehabilitation 3 Credit Hours

Prerequisites: ATTR 310 and ATTR 311 and BIOL 213 and BIOL 214 and BIOL 215 and BIOL 216

In-depth study of theories and principles used to rehabilitate injuries to the physically active, as well as physiological and psychological factors affecting the rehabilitation function.

Offered: Resident

ATTR 402 Practical Applications in Therapeutic Exercise and Rehabilitation 3 Credit Hours

Prerequisites: ATTR 400 and BIOL 213 and BIOL 214 and BIOL 215 and BIOL 216

Lecture and laboratory experiences will include the application, instruction, progression and probable outcomes of the use of therapeutic exercises and rehabilitation techniques commonly used in athletic training.

Offered: Resident

ATTR 404 Medical Aspects of Athletic Training 3 Credit Hours

Prerequisites: (ATTR 325 and ATTR 400)

Recognition and treatment of general medical conditions and disabilities of athletes and others involved in physical activity. Application of pharmacological principles in the treatment of illness, injury, and disease for an athletic population. Includes lecture and laboratory experiences.

Offered: Resident

ATTR 405 Applied Pharmacology in Athletic Training 2 Credit Hours

Prerequisites: ATTR 404

Basic principles of pharmacology, including receptor mechanisms, drug distribution and metabolism, and pharmacokinetics. Lectures and tutorials on the interactions of drugs and biological systems as a basis for rational disease therapy as it relates to the physically active patient.

Offered: Resident

ATTR 406 Theory of Therapeutic Rehabilitation 3 Credit Hours

Prerequisites: ATTR 335 and ATTR 336

In-depth study of theories and principles used to rehabilitate injuries to the physically active, as well as physiological and psychological factors affecting the rehabilitation function.

Offered: Resident

ATTR 410 Administrative Aspects of Athletic Training 3 Credit Hours

Prerequisites: ATTR 321 and ATTR 404

A study of the problems and considerations involved in the successful management of an athletic training program. Areas discussed include: budgeting; facility design; ordering and inventory; and legal liability.

Offered: Resident

ATTR 415 Leadership & Clinical Interactions in Athletic Training 3 Credit Hours

Prerequisites: ATTR 410

This course will be to provide students with leadership skills to prepare them to interact with a wide variety patients across cultures. This course will also help students learn how to utilize their Christian faith to guide their ethical decision making process as it relates to clinical interactions in the Athletic Training Profession.

Offered: Resident

ATTR 420 Clinical Education IV 2 Credit Hours

Prerequisites: ATTR 321

Didactic and psychomotor skill instruction of competencies in Athletic Training. Emphasis will be placed on the application of therapeutic exercise and rehabilitation through clinical scenarios. Will include a clinical education rotation.

Offered: Resident

ATTR 421 Clinical Education V 2 Credit Hours

Prerequisites: ATTR 420

Didactic and psychomotor skill instruction of competencies in Athletic Training. Emphasis will be placed on the application of athletic training administration through clinical scenarios. Will include a clinical education rotation.

Offered: Resident
ATTR 425 Allied Healthcare Evidence-based Research Analysis  
3 Credit Hours

Prerequisites: MATH 201 and EXSC 320

Introduces the research process in allied healthcare with an emphasis on evidence-based medicine. Students will learn to evaluate the quality of available research evidence and interpret statistical data and relevance. Scientific writing experience will be gained in the form of research proposals, literature reviews, case studies, and critical appraisals.

Offered: Resident

ATTR 440 Senior Seminar in Athletic Training  
2 Credit Hours

Prerequisites: ATTR 402 and ATTR 404

A capstone course which will focus on reviewing the acquired knowledge and experiences of the athletic training curriculum. Students will discuss job search and interviewing skills, moral and ethical responsibility, state licensure, continuing education, decision-making accountability and conflict management. The NATA professional code of practice and standards of practice will be reviewed. Preparation for the BOC certification examination will be included.

Offered: Resident

Athletic Training (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Refer to the list of approved general education electives before enrolling in foundational skill requirements
2 MATH 201 Introduction to Probability and Statistics (3 c.h.) is strongly recommended
3 All students must pass the Computer Assessment OR complete applicable INFT course
4 Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived
5 PSYC 101 General Psychology (3 c.h.) is strongly recommended
Program Learning Outcomes
The student will be able to:

1. Demonstrate proficiency in basic knowledge of entry-level exercise science professionals.
2. Communicate effectively in the area of exercise science.
3. Plan, implement, and evaluate exercise science related programming.
4. Evaluate research data and apply research techniques.
5. Integrate the biblical worldview within the field of exercise science.

Therapeutic Science Concentration
The student will be able to synthesize knowledge of clinical skills with therapeutic rehabilitation theory.

Program Application Procedures
Acceptance to Liberty University does not guarantee acceptance into the Exercise Science Program (ESP). Entrance into the ESP can be competitive and students must gain entry into the program via the following process:

Program Acceptance: Students interested in becoming part of the Exercise Science Program may initially declare Exercise Science as their major, but declaring Exercise Science as your major does not imply acceptance into the Exercise Science program. Students interested in becoming part of the Exercise Science Program at Liberty University should apply using instructions in the program Admission & Retention Guidelines document located on the Liberty University Exercise Science webpage once the student has met the requirements for full acceptance listed below.

Full Acceptance: Full acceptance into the Exercise Science program will be based upon the successful completion of all requirements during the program acceptance phase and selection by the Exercise Science admissions committee. Application for acceptance can be made twice per year: by November 15th for spring acceptance and by April 15th for fall acceptance.

Process and Requirements for Full Acceptance
During the students Program Acceptance phase, application for full acceptance to the program can be initiated. Grades will be reviewed at the end of the semester, with final acceptance contingent upon the successful completion of those courses. The student must meet the following criteria and provide the following information/documentation:

- Candidate must be in good academic standing with the University.
- Must show proof of current student membership to the American College of Sports Medicine.
- Must show proof of current First Aid and CPR certification.
- The certification must be maintained throughout the student’s enrollment in the program.

The Exercise Science program prepares students for careers in the health and fitness industry, as well as graduate studies in exercise physiology, physical therapy, occupational therapy, chiropractic, and other health professions.

The Exercise Science program is designed to produce exercise science professionals who will impact the world of sports, fitness, and wellness for our Lord and Savior Jesus Christ. The program will provide the student with the knowledge, skills, and abilities to assess, prescribe exercise for, and monitor clients in a variety of health, wellness, and fitness settings. This program of study provides the student with a thorough immersion into the field of exercise science, by using a combination of classroom, laboratory, practicum, and internship experiences.

The Bachelor of Science degree program in Exercise Science at Liberty University is nationally accredited by the Commission for the Accreditation of Allied Health Education Programs (CAAHEP).
BIOL 215 Human Anatomy and Physiology II (3 c.h.)/BIOL 216 Human Anatomy and Physiology II Lab (1 c.h.), EXSC 101 Introduction to Exercise Science (1 c.h.), and EXSC 310 Physiology of Exercise (3 c.h.) with a grade of ‘C’ or better.

- Completion of the online application.
- Completion of the Exercise Science Student Confidentiality Agreement.
- Completion of an essay in the application on “Why I want to be in the Exercise Science Program.”

Transfer Students
Students transferring to Liberty University who are interested in entering the Exercise Science Program must follow the same process and procedures for entering the Exercise Science Program as outlined in the above section, ‘Program Application Procedures.’ Additionally, students must take all 400 level courses residentially. Courses at the 400 level cannot be transferred into the Exercise Science Program.

Fees and Expenses
In addition to university tuition and fees, students enrolled in the Exercise Science program may incur additional expenses. These expenses include, but are not limited to: American College of Sports Medicine (ACSM) national and regional memberships, ACSM Exercise Physiologist certification exam, NSCA Strength and Conditioning Specialist certification exam, first aid and CPR certifications, transportation costs associated with off-campus practicum, internship, and related experiences; TB (PPD) skin test, cost of medical examination and background check, if required by practicum or internship site.

Program Retention Standards
Once admitted to the program, the student must demonstrate and maintain satisfactory academic progress as defined below.

- **Overall GPA:** Students will maintain a minimum cumulative GPA of 2.50. Students falling below a 2.50 GPA will be placed on probation for one semester. If, after one semester probation, the GPA remains below a 2.50, or falls below a 2.50 in any subsequent semester, the student will be dismissed from the program.

- **GPA in Major:** Students must achieve a “C” or better in all designated major courses (right side of the degree completion plan). A student, with permission of the Program Director, may repeat one major course in which the student failed to achieve the minimum grade of “C”. A second failure to receive a grade of “C” or better in any major course will result in dismissal from the program.

- **Course sequencing:** Students must complete each major course in the order prescribed unless approved by the Program Director.

- **Codes of Conduct:** Satisfactory behavior must be demonstrated, per the University's code of conduct as outlined in the Liberty Way.

- **Guidelines for appeal:** Students may appeal decisions concerning their status in the Exercise Science Program. In order to do so, the student must submit a written appeal to the Program Director within one week of the notification in question. The documentation must include a detailed justification for the appeal. Upon receipt of the appeal, the Exercise Science faculty will meet to review the matter. The student will be advised in writing as to the outcome of that discussion within two weeks.

**Internship**
Exercise Science students undertake an internship as the culminating experience of their degree program. Students may choose from a variety of approved internship sites that provide exceptional opportunities for the student to apply their knowledge, skills, and abilities acquired throughout the Exercise Science program in a professional setting. The internship also provides an opportunity for Exercise Science students to experience the careers that are available to them upon graduation.

- **Prerequisite:** The student has completed all Exercise Science course work and HLTH 333 Exercise and Sports Nutrition (3 c.h.), with a grade of ‘C’ or better; have a minimum overall GPA of 2.50 or better; have achieved a minimum score of 480 on the American College of Sports Medicine’s Exercise Physiologist certification exam or minimum of 60% in both sections of the CSCS exam, and turned in the exam scoring sheet to the Program Director; or consent of the Exercise Science Program Director.

**Programs of Study**
**Delivery Format: Residential Only**

- Exercise Science (B.S.) - Fitness Specialist - Resident (p. 803)
- Exercise Science (B.S.) - Strength & Conditioning Specialist - Resident (p. 804)
- Exercise Science (B.S.) - Therapeutic Science - Resident (p. 805)

**Career Opportunities**
- Cardiopulmonary Rehabilitation Fitness Specialist
- Chiropractor
- Occupational Therapist
- Exercise Physiologist
- Fitness Facility of Wellness Center Owner/Operator
- Personal Trainer
- Physician
- Physician Assistant
- Physical Therapist
- Prosthetics Specialist
- Registered Dietician

**Courses**

**EXSC 101 Introduction to Exercise Science**
1 Credit Hour

This course is an overview of the professions in the field of exercise science. Career opportunities within exercise science and allied health will be investigated. Various aspects of careers, determining requirements for advanced study and learning what coursework would be appropriate for the different career paths.

**Offered:** Resident

**EXSC 299 Internship**
0 Credit Hours

**EXSC 302 Exercise and Sports Injuries**
2 Credit Hours

**Prerequisites:** EXSC 310

This course will examine the most common types of injuries that occur in exercise and sport settings. It will include the causes, treatment and prevention of these injuries. (Formerly KINE 302)

**Offered:** Resident
EXSC 310 Physiology of Exercise  
**Prerequisites:** (BIOL 213 and BIOL 214 and BIOL 215 and BIOL 216) or (BIOL 213 and BIOL 214 and BIOL 215 (may be taken concurrently) and BIOL 216 (may be taken concurrently))

A study of the effects of exercise on the major systems of the human body including the cardiorespiratory, neuro-muscular, glandular and digestive. Other effects influencing human exercise will be examined, including climate, altitude and ergogenic aids. (Formerly KINE 310)

**Offered:** Resident

EXSC 311 Analysis of Human Movement  
**Prerequisites:** EXSC 310

This course is a scientific study of the musculoskeletal anatomy and neuromuscular physiology involved in voluntary movement. The physiological principles applicable to the anatomical structures that produce human movement will be examined. (Formerly KINE 311)

**Offered:** Resident

EXSC 315 Group Exercise Instruction  
**Prerequisites:** EXSC 310

This course will focus on the theoretical knowledge of leadership skills necessary to design, implement, and evaluate safe and effective group exercise group exercise programs. Emphasis will be placed on group leadership and group fitness instruction. Observations within the field will be available as well as opportunities to apply introductory concepts of exercise training through practical application. The course materials will also address the various skill sets necessary for entry employment into the health and fitness industry.

**Offered:** Resident

EXSC 320 Measurement and Evaluation in Health and Kinesiology  
**Prerequisites:** EXSC 310 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This course will consider the basic principles related to measurement and evaluation including the selection, administration and use of tests unique to the field of health and physical education. Special emphasis will be placed on testing procedure. Computer software for statistics will be introduced. (Formerly KINE 320)

**Offered:** Resident

EXSC 321 Practicum  
**Prerequisites:** EXSC 310 or KINE 310

This course is designed for students in the Exercise Science major to gain exposure to various fitness/health settings. The student must choose two of the following areas: strength and conditioning, personal training, or clinical rehabilitation. The student must complete 15 observational hours in each of the two chosen areas, for a total of 30 hours. (Formerly EXSC 421)

**Offered:** Resident

EXSC 340 Essentials of Strength Training and Conditioning  
**Prerequisites:** (KINE 225 or PHED 225) and EXSC 310

This course includes the theories, organization, methods, and techniques involved in the teaching and coaching of strength training, physical conditioning, and personal training. (Formerly KINE 340)

**Registration Restrictions:** Junior status.

**Offered:** Resident

EXSC 345 Applied Strength Training and Conditioning  
**Prerequisites:** KINE 225 and EXSC 310

In Applied Strength Training and Conditioning, students will integrate theory and practice in a course designed to provide lab-based examples of sport-specific conditioning. In-depth coaching techniques will be applied to topics including resistance and power training, speed and agility training, aerobic conditioning, and periodized programming. Students will also conduct original research related to sport performance.

**Offered:** Resident

EXSC 350 Biomechanics  
**Prerequisites:** EXSC 310 and EXSC 351 (may be taken concurrently)

This course provides students with a foundational knowledge of basic mechanical principles and how these can be applied in analyzing movements of the human body. The course uses an integrated balance of qualitative and quantitative examples, applications, and problems designed to illustrate the mechanical principles discussed. (Formerly KINE 350)

**Registration Restrictions:** Junior status.

**Offered:** Resident

EXSC 351 Biomechanics Lab  
**Prerequisites:** (EXSC 350 and EXSC 310)

This lab course provides students with the application of basic mechanical principles in analyzing movements of the human body. The course uses an integrated balance of qualitative and quantitative applications to illustrate the mechanical principles discussed in EXSC 350, Biomechanics.

**Registration Restrictions:** Junior status.

**Offered:** Resident

EXSC 401 Sem Strength & Conditioning  
**Prerequisites:** EXSC 340

EXSC 401 - Seminar in Strength and Conditioning (1 hour) Prerequisites: (EXSC 340 and Senior Status) or instructor permission The Seminar in Strength and Conditioning provides students with a comprehensive overview of the existing scientific literature including strength and power training, speed and agility, and metabolic conditioning. Students will also be exposed to article review, critique, and presentation criteria.

**Offered:** Resident
**EXSC 410 Applied Exercise Physiology** 3 Credit Hours

**Prerequisites:** EXSC 310 and EXSC 320 and (EXSC 411

This course provides the students with practical experience in implementing different methodologies in the measurement of physiological responses to acute and chronic exercise. Emphasis is placed on the application of the ACSM guidelines and appropriate experimental techniques. The usage of equipment in evaluating changes in body composition and various metabolic, cardiovascular, and respiratory adjustments during exercise in different populations will be included. (Formerly KINE 410)

**Registration Restrictions:** Junior status.

**Offered:** Resident

**EXSC 411 Applied Exercise Physiology Lab** 1 Credit Hour

**Prerequisites:** EXSC 310 and EXSC 320 and (EXSC 410

This course is designed for students in the Exercise Science major to gain proficiency in exercise testing and interpretation as it relates to the various physiological systems and components. (Formerly KINE 411)

**Registration Restrictions:** Junior status.

**Offered:** Resident

**EXSC 433 Exercise Prescription for Special Populations** 3 Credit Hours

**Prerequisites:** EXSC 310

This is an advanced course in clinical exercise prescription relative to disease of the cardiovascular, pulmonary, metabolic, musculoskeletal, neuromuscular and immunologic systems. The course also provides a basic understanding of the patho-physiology and exercise responses in populations afflicted with these diseases. (Formerly KINE 433)

**Registration Restrictions:** Junior status.

**Offered:** Resident

**EXSC 440 Program & Period Str & Cond** 3 Credit Hours

**Prerequisites:** EXSC 340

EXSC 440 - Programming and Periodization for Strength and Conditioning (3 hours) Prerequisites: (EXSC 340 and Senior Status) or instructor permission. Programming and Periodization for Strength and Conditioning provides students the opportunity to go deeper into various models of periodization to become comfortable with creating individualized sports performance programs for specific athletes. Students will integrate principles of periodization and programming to develop their own individual training philosophies.

**Offered:** Resident

**EXSC 460 Exercise Testing, Evaluation, and Prescription** 3 Credit Hours

**Prerequisites:** (KINE 310 or EXSC 310) and (KINE 320 or EXSC 320)

This course will consider the use of health and fitness field and laboratory instruments, techniques, procedures and equipment. Special emphasis will be placed on the ability to administer test protocols for evaluating the health-related components of physical fitness. (Formerly KINE 460)

**Registration Restrictions:** Junior status.

**Offered:** Resident

**EXSC 461 Exercise Leadership** 3 Credit Hours

**Prerequisites:** EXSC 310

This course will emphasize the necessary leadership qualities and skills expected for leading exercise activities. The student will develop professional competencies through classroom instruction as well as observational and practical experiences. (Formerly KINE 461)

**Registration Restrictions:** Junior status.

**Offered:** Resident

**EXSC 485 Exercise Physiologist Workshop and Certification** 1 Credit Hour

**Prerequisites:** (EXSC 433 and (EXSC 460 and EXSC 310

This Exercise Physiologist course will provide structured experiences in the classroom, laboratory and exercise arenas to improve the knowledge, skills, and abilities in health-related physical fitness assessment and exercise programming as outlined by the American College of Sports Medicine guidelines. This experience will culminate with the student taking the Exercise Physiologist certification exam, which requires the student to demonstrate the knowledge, skills, and abilities that are needed by an entry-level health/fitness practitioner.

**Registration Restrictions:** Acceptance into EXSC Program.

**Offered:** Resident

**EXSC 486 Strength and Conditioning Specialist Workshop and Certification** 1 Credit Hour

**Prerequisites:** EXSC 433 and (EXSC 460 and EXSC 430

The Strength and Conditioning Specialist Workshop and Certification Course will assist students in preparing for the Certified Strength and Conditioning Specialist (CSCS) credential, available through the National Strength and Conditioning Association (NSCA). The course will focus on building mastery in the major content areas outlined by the NSCA: Exercise science, nutrition, exercise technique, program design, organization and administration, and testing and evaluation.

**Registration Restrictions:** Acceptance into EXSC Program, EXSC 430, EXSC 434, and Senior Status ; OR Instructor Permission.

**Offered:** Resident
EXSC 498 Senior Capstone Project 4 Credit Hours

Prerequisites: HLTH 333

This course examines an overview of various types of research, theory and design of research problems and experiments in Exercise Science subfields, communication of research proposals, evaluation of current research, and review of current literature. The capstone project will be completed by a group of five Exercise Science students, who will be directed by an assigned faculty member from the Exercise Science Program.

Offered: Resident

EXSC 499 Internship in Exercise Science 1-6 Credit Hours

Prerequisites: HLTH 333

This course involves practical work experience in an approved exercise or fitness-related agency, physical or occupational therapy clinic, chiropractic office, or similar setting/ facilitiy supervised by a qualified professional. Selection of the internship site should coincide with academic track selected and intended career path. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. (Formerly KINE 499)

Registration Restrictions: Admission to EXSC major; Senior status; have completed all EXSC coursework and HLTH 333, with a grade of 'C' or better; have a minimum overall GPA of 2.25 or higher; have achieved a minimum score of 480 on ACSM exam, and uploaded exam results sheet to Sharepoint; or consent of the Exercise Science Program Director.

Offered: Resident

Exercise Science (B.S.) - Fitness Specialist - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

**Free Electives**

Choose 11-21 credit hours of free electives: 11-21

Total Hours: 70-85

1. Major Foundational Courses can also fulfill General Education/Core Competency requirements as applicable
2. Minimum grade of "C" is required
3. EXSC 486 Strength and Conditioning Specialist Workshop and Certification (1 c.h.) is strongly recommended

**Additional Requirements**

- First Aid/CPR Certification
- ACSM Exercise Physiologist Exam\(^1\) or NSCA Strength & Conditioning Spec. Exam\(^2\)

1. Must be completed after all EXSC courses, but prior to EXSC 499; minimum score of 480
2. Must be completed after all EXSC courses, but prior to EXSC 499; minimum overall score of 60% in both sections of the exam

*All applicable prerequisites must be met*

**Graduation Requirements**

- **120** Total hours
- **2.5** Overall grade point average
- **30** Hours must be upper-level courses (300-400 level)
- **Grade of C** Minimum required for all upper-level courses in the major
- **50%** Of major and cognate taken through Liberty University
- **30** Hours must be completed through Liberty University

- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

**Exercise Science (B.S.) - Therapeutic Science - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

<sup>1</sup> Courses may also fulfill select general education requirements  
<sup>2</sup> Minimum grade of “C” is required  
<sup>3</sup> Cumulative GPA of 3.5 and faculty approval required  
<sup>4</sup> Choose from the following: BIOL 224 General Biology I (4 c.h.), BIOL 225 General Biology II (4 c.h.), BIOL 303 Microbiology (4 c.h.), CHEM 121 General Chemistry I (4 c.h.), CHEM 122 General Chemistry II (4 c.h.), CHEM 301 Organic Chemistry I (4 c.h.), CHEM 302 Organic Chemistry II (4 c.h.), PHYS 201 General Physics I (4 c.h.), and PHYS 202 General Physics II (4 c.h.)

All applicable prerequisites must be met

### Additional Requirements

- First Aid/CPR Certification
- ACSM Exercise Physiologist Exam<sup>1</sup> or NSCA Strength & Conditioning Spec. Exam<sup>2</sup>

<sup>1</sup> Must be completed after all EXSC courses, but prior to EXSC 499; minimum score of 480  
<sup>2</sup> Must be completed after all EXSC courses, but prior to EXSC 499; minimum overall score of 60% in both sections of the exam

### Graduation Requirements

- 127 Total hours  
- 2.5 Overall grade point average  
- 31.75 Hours must be upper-level courses (300-400 level)  
- Grade of ‘C’ Minimum required for all upper-level courses in the major  
- 50% Of major and concentration taken through Liberty University  
- 31.75 Hours must be completed through Liberty University  
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date  
- CSER All requirements must be satisfied before a degree will be awarded

### Medical Office Assistant Major (A.A.S.)

#### Purpose

The purpose of the Medical Office Assistant major is to provide formal training for healthcare professionals who hold the Christian worldview to ensure the functions of a medical office operate smoothly on a daily basis.

#### Program Learning Outcomes

The student will be able to:

1. Understand systems and procedures, including legal and ethical aspects in medical office practice.
2. Apply knowledge of insurance, billing, coding, and bookkeeping practices to the medical office setting.
3. Demonstrate knowledge of medical terminology and apply best practices in the prevention and management of infections at the medical office.

#### Program of Study

**Delivery Format: Online Only**

- Medical Office Assistant (A.A.S.) - Online (p. 807)
Career Opportunities

• Clerical and medical billing expert
• Doctor’s office assistant
• Medical clinic receptionist

Courses

AMOA 203 Medical Office Systems and Procedures 3 Credit Hours
Prerequisites: NURS 105

This course prepares students for the administrative tasks relevant to operating and supervising a medical office of health professionals. Students learn to plan and organize work load, set priorities, develop initiative among employees and coordinate multiple tasks within a time sensitive environment. The value of compassionate professionalism when interacting with patients, family members and staff is stressed.

Offered: Online

AMOA 204 Medical Office Insurance 3 Credit Hours
Prerequisites: NURS 105

This course acquaints students with billing protocol concerning the various insurance filing demands of commercial group insurance, Medicare, Medicaid, Workman's compensation claims and other third party billing entities.

Offered: Online

AMOA 206 Medical Office Billing and Bookkeeping 3 Credit Hours
Prerequisites: NURS 105

This course provides students with up-to-date information regarding best practices of patient billing and bookkeeping for a medical office.

Offered: Online

AMOA 207 Medical Office Coding 3 Credit Hours
Prerequisites: NURS 105 and HLTH 211 and HLTH 212

This course trains students in medical procedural and diagnostic coding skills. Emphasis is placed upon the utilization of coding manuals for insurance claim processing.

Offered: Online

AMOA 254 Medical Office Infection Control 3 Credit Hours
Prerequisites: NURS 105 and HLTH 211 and HLTH 212

This course educates the student regarding the seriousness of infection control within the medical office and the role the Medical Office Assistant plays in compliance.

Offered: Online

AMOA 256 Medical Office Ethics and Law 3 Credit Hours
Prerequisites: NURS 105

The student is educated about the general ethical and legal aspects in medicine with an emphasis upon confidentiality, HIPAA, risk management, licensing, contracts and professional liability.

Offered: Online

AMOA 296 Externship 3 Credit Hours

This course is a planned work-based experience that provides students with an opportunity to fine-tune skill sets learned in course work and enhance workplace skills through supervised practical experiences related to their career objectives. This course requires a minimum of 160 clock hours of work.

Registration Restrictions: Consent of externship coordinator, cumulative GPA of 2.0, and completion of major courses.

Offered: Online

Medical Office Assistant (A.A.S.) - Online

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours: 37

Courses may also fulfill select general education requirements.

All applicable prerequisites must be met.

**Graduation Requirements**

- 64 Total hours
- 2.0 Overall grade point average
- Grade of 'C' Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 16 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student's anticipated graduation date

**Physical Education & Health Major (B.S.)**

**Purpose**

The Physical Education and Health degree program is designed to promote the development of a healthy, physically active, Christ-centered lifestyle and prepare its graduates for the teaching profession. This academic program will allow students to acquire the disciplinary knowledge of human movement and the requisite skills and competencies in their respective area of concentration.

Those students completing either of the Health and Physical Education concentrations will be given the knowledge and teaching skills necessary to design and implement developmentally appropriate motor/sport skill learning experiences in school settings.

**Program Learning Outcomes**

The student will be able to:

1. Apply health and physical education curricular content based on sound pedagogical principles and strategies for PreK-12 students.
2. Plan and assess health and physical education lessons.
3. Incorporate diverse learning styles and physical skill levels into lesson plans.
4. Choose, administer, and evaluation assessment instruments to measure cognitive, affective, and psychomotor domains.
5. Demonstrate teaching (communication) skills appropriate to K-12 students in physical education classes.
6. Demonstrate motor/sports skills utilized education curricula.

**Health and Physical Education Concentrations**

These concentrations are designed to prepare students primarily as health and physical education teachers for grades PreK-12. Students may choose whether or not to pursue Virginia teacher licensure. Each is a combination of academic study and practical learning experiences dealing with teaching in both health and physical education instructional settings.

**CPR/First Aid Requirement**

Must show proof of current First Aid and CPR certification

- Must include adult, child, and infant
- Must have a 'hands-on' component
- Must be from one of the following organizations:
  - American Red Cross
  - American Heart Association
  - National Safety Council

**Teacher Licensure**

Teacher preparation and endorsement in health/physical education is available only through the Physical Education and Health Major within the Department of Allied Health Professions and the Teacher Education Department. Those wishing to pursue teaching-related programs should seek information from the Director of Physical Education and Health / Physical Education and the Teacher Licensure Office in the School of Education. Licensure information is also available at http://www.liberty.edu/uguide.

**Programs of Study**

**Delivery Format: Residential Only**

- Physical Education & Health (B.S.), Non-Licensure - Resident (p. 813)
- Physical Education & Health (B.S.), Teacher Licensure - Resident (p. 814)

**Career Opportunities**

- Athletic Administrator
- Coach/Referee
Courses

PHED 101 Physical Fitness 1 Credit Hour
A basic course in fundamentals of personal physical fitness. Emphasis is given to concepts of aerobic exercise, strength and flexibility development. (Formerly KINE 101)
Offered: Resident

PHED 140 Introduction to Athletic Train 2 Credit Hours

PHED 141 Advanced Athletic Training 2 Credit Hours

PHED 170 Equestrian: Horsemanship I 2 Credit Hours
This course will allow the students to learn the fundamental skills in hunt seat, western riding, according to student background or interest. The course will provide one riding lab and one lecture based class per week. (Formerly KINE 170)
Offered: Resident

PHED 200 Basketball/Soccer 1 Credit Hour
These sport/activity courses are designed for Kinesiology majors and minors as well as other interested students. Appropriate teaching techniques and skill competencies for each sport/activity are emphasized. The fundamental skills, relevant strategies, and applicable rules of the sports and/or activities listed will be included. Each sport or activity will provide the student a means for achieving psychomotor, cognitive, and affective development. (Formerly KINE 211)
Registration Restrictions: Physical Education and Health Major or Minor.
Offered: Resident

PHED 201 Track and Field/Flag Football 1 Credit Hour
These sport/activity courses are designed for Kinesiology majors and minors as well as other interested students. Appropriate teaching techniques and skill competencies for each sport/activity are emphasized. The fundamental skills, relevant strategies, and applicable rules of the sports and/or activities listed will be included. Each sport or activity will provide the student a means for achieving psychomotor, cognitive, and affective development. (Formerly KINE 215)
Registration Restrictions: Physical Education and Health Major or Minor.
Offered: Resident

PHED 202 Racquet Sports 1 Credit Hour
These sport/activity courses are designed for Kinesiology majors and minors as well as other interested students. Appropriate teaching techniques and skill competencies for each sport/activity are emphasized. The fundamental skills, relevant strategies, and applicable rules of the sports and/or activities listed will be included. Each sport or activity will provide the student a means for achieving psychomotor, cognitive, and affective development. (Formerly KINE 213)
Registration Restrictions: Physical Education and Health Major or Minor.
Offered: Resident

PHED 203 Tumbling and Rhythmic Activities 1 Credit Hour
This professional activity course is designed primarily for Kinesiology majors as well as other interested students. Teaching techniques as well as personal skill competencies in tumbling and rhythms are emphasized. The basic steps used in fundamental tumbling skills, simple rhythmic activities, and creative activities will be included. (Formerly KINE 214)
Registration Restrictions: Physical Education and Health Major or Minor.
Offered: Resident

PHED 204 Softball/Volleyball 1 Credit Hour
These sport/activity courses are designed for Kinesiology majors and minors as well as other interested students. Appropriate teaching techniques and skill competencies for each sport/activity are emphasized. The fundamental skills, relevant strategies, and applicable rules of the sports and/or activities listed will be included. Each sport or activity will provide the student a means for achieving psychomotor, cognitive, and affective development. (Formerly KINE 210)
Registration Restrictions: Physical Education and Health Major or Minor.
Offered: Resident

PHED 205 Innovative Games 1 Credit Hour
These sport/activity courses are designed for Kinesiology majors and minors as well as other interested students. Appropriate teaching techniques and skill competencies for each sport/activity are emphasized. The fundamental skills, relevant strategies, and applicable rules of the sports and/or activities listed will be included. Each sport or activity will provide the student a means for achieving psychomotor, cognitive, and affective development. (Formerly KINE 212)
Registration Restrictions: Physical Education and Health Major or Minor.
Offered: Resident

PHED 207 History and Foundations of Physical Education 2 Credit Hours
An overview of the physical education teaching profession. Instructional emphasis is on the historical development, philosophical perspectives, curricular programs, and current problems and issues of physical education. (Formerly KINE 207)
Offered: Resident

Instructional emphases will focus on the intermediate strokes of swimming including the front crawl, back crawl, elementary backstroke, sidestroke, breaststroke as well as advanced water safety skills. Additionally, students will participate in a variety of aquatic fitness activities. (Formerly KINE 229)</td>
</tr>
<tr>
<td></td>
<td><strong>Offered:</strong> Resident</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
PHED 230 Lifeguard Training (American Red Cross) 2 Credit Hours
The course is designed to teach emergency water safety skills as well as knowledge and performance of non-swimming and swimming assists, water entries, defenses and escapes, and rescue skills. Successful completion of this course will result in Red Cross Lifeguard Training Certification. (Formerly KINE 230)

Registration Restrictions: Intermediate level swimming competency, current adult CPR certification, and first aid course certification.
Offered: Resident

PHED 231 Water Safety Instructor (American Red Cross) 3 Credit Hours
The course will qualify participants to teach all levels of swimming in progressive swimming courses as well as how to plan, organize and conduct these classes. Health and safety and education methods are emphasized. Successful completion of this course will result in Red Cross Water Safety Instructor Certification. (Formerly KINE 231)

Registration Restrictions: Swimmer level swimming competency and current certificate of American Red Cross Emergency Water Safety or Lifeguard Training Course.
Offered: Resident

PHED 232 Recreational Sports 1 Credit Hour
This course will allow students to develop cognitive, affective, and psychomotor skills for a variety of recreational sports and/or activities. Instructional emphases will focus on the basic skills necessary to participate, rules and scoring (if applicable) and relevant strategies. (Formerly KINE 232)
Offered: Resident

PHED 233 Karate 1 Credit Hour
This course will allow students to develop basic self-defense in using Karate skills. Various kicking and striking techniques will be examined as related to self-defense issues. (Formerly KINE 233)
Offered: Resident

PHED 234 Hapkido 1 Credit Hour
This course will allow students to develop basic self-defense as it relates to the theories and principles of Hapkido. Various kicking and striking techniques will be examined as related to self-defense situations. (Formerly KINE 234)
Offered: Resident

PHED 235 Beginning Running 1 Credit Hour
This course is designed for the beginning runner to acquire knowledge of the physiological, psychological, social and mental hunger as a result of a long-term running program. Instructional emphases will focus on the effect of diet on a runner, different running styles, conditioning programs/strategies, and the positive and negative effects of running. (Formerly KINE 223)
Offered: Resident

PHED 236 Advanced Running 1 Credit Hour
This course will allow committed runners to take their level of fitness, training, and running expertise to a higher level. Requirements will be more substantial than PHED 235. (Formerly KINE 224)
Offered: Resident

PHED 237 Ice Hockey 1 Credit Hour
This course will allow students to develop cognitive, affective, and psychomotor skills for the beginning ice hockey player. Instructional emphases will focus on skating, passing, shooting, defense, playing strategies, and rules. (Formerly KINE 222)
Offered: Resident

PHED 245 PE Observations in Schools 1 Credit Hour
This course is designed to provide exposure to the teaching of physical education in the elementary school setting and adapted physical education for the exceptional child. The student must observe a minimum of twenty hours in an elementary program. (Formerly KINE 245)
Offered: Resident

PHED 270 Equestrian: Horsemanship II 2 Credit Hours
Prerequisites: PHED 170
This course will allow the students to build on the fundamental and intermediate skills and expand knowledge of hunt seat and western riding, according to student background and interest. The course will provide one riding lab and one lecture based class per week. (Formerly KINE 270)
Offered: Resident

PHED 280 Equestrian: Horsemanship III 2 Credit Hours
Prerequisites: PHED 270
This course will allow the students to build on the fundamental and intermediate skills and expand knowledge of hunt seat and western riding, according to student background and interest. The course will provide one riding lab and one lecture based class per week. (Formerly KINE 280)
Offered: Resident

PHED 299 Internship 0 Credit Hours
Practical work experience in an approved exercise or fitness-related agency, physical or occupational therapy clinic, chiropractic office, or similar setting supervised by a qualified professional. Application procedures processed through the Career Center. Must apply semester prior to internship. (formerly KINE 299)
Offered: Resident

PHED 304 Coaching Football 3 Credit Hours

PHED 306 Coaching Basketball 3 Credit Hours
PHED 310 Physiology of Exercise 3 Credit Hours
Prerequisites: BIOL 211 and BIOL 212

PHED 311 Kinesiology 3 Credit Hours
Prerequisites: BIOL 211 and BIOL 212

PHED 314 Officiating in Athletics 2 Credit Hours

PHED 320 Measure & Eval in Hlth and PE 3 Credit Hours

PHED 321 PE Student Aide: Elementary 1 Credit Hour
Prerequisites: PHED 245 and Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5
A sequence of selected practicum experiences designed to involve the student with actual assisting and teaching physical education to elementary school. The student is assigned a minimum of 20 hours of practicum work under the supervision of physical educators in a local elementary school. (Formerly KINE 321) Note: (Offered spring semester)
Offered: Resident

PHED 322 PE Student Aide: Secondary 1 Credit Hour
Prerequisites: PHED 245 and PHED 451 (may be taken concurrently) and Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5
An assigned practicum experience designed to involve the student actual assisting in teaching physical education classes in a middle or secondary school setting. The student must complete 20 hours of practicum work under the supervision of a physical educator in one of the local schools. (Formerly KINE 322) Note: (Offered fall semester)
Offered: Resident

PHED 324 PE Student Aide: Middle or Seco 1 Credit Hour
Prerequisites: PHED 245

PHED 333 Adapted PE 2 Credit Hours

PHED 334 Adapted PE Lab 1 Credit Hour

PHED 335 Adapted Physical Activity 2 Credit Hours
Methods of classification of exceptional students, program planning and teaching of activities appropriate to needs of the handicapped are examined. (Formerly KINE 333)
Registration Restrictions: Junior status.
Offered: Resident

PHED 356 Adapted Physical Activity Lab 1 Credit Hour
Teaching methods of activities appropriate to the needs of exceptional students are examined. Addresses the importance of adapting physical education programs to meet the unique needs of exceptional students. (Formerly KINE 334)
Registration Restrictions: Junior status.
Offered: Resident

PHED 340 Coaching Strength & Weight Tra 3 Credit Hours

PHED 352 Teaching Physical Education in the Elementary School 2 Credit Hours
An introduction to games and play activities which are suitable for elementary-aged students. Activity selection, planning and teaching methods are stressed. This course is designed for the elementary physical education concentration. (Formerly KINE 352)
Registration Restrictions: Junior status.
Offered: Resident

PHED 401 Physical Education Practicum-S 2 Credit Hours

PHED 404 Adm/Org of PE, SMGT, Exer.Sci 3 Credit Hours

PHED 405 Administration and Organization of Physical Education, Exercise and Fitness 3 Credit Hours
A study of the problems and considerations involved in the successful management of physical education programs. Areas considered include program planning, budgeting, facility design and organization, and current organizational trends. (Formerly KINE 405)
Registration Restrictions: Junior status.
Offered: Resident

PHED 435 Seminar for Student Teachers 2 Credit Hours
Prerequisites: EDUC 475 (may be taken concurrently) and EDUC 476 (may be taken concurrently)
Seminar sessions will involve discussion of topics relevant to health and physical education instruction. Students will share experiences from student teaching and gain insights from readings and professionals in the field of education. (Formerly KINE 435)
Registration Restrictions: Admission to Student Teaching.
Offered: Resident
PHED 450 Elementary Physical Education Methods  3 Credit Hours

Prerequisites: PHED 207 and PHED 208 and Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5

This course is designed to provide instruction in the physical education curriculum for elementary school settings. Areas of emphasis include class management, curriculum development, skill progressions, teaching methods and movement activities for grades K-6. (Formerly KINE 450)

Note: (Offered spring semester) Registration Restrictions: Junior status.

Offered: Resident

PHED 451 Secondary Physical Education Methods  3 Credit Hours

Prerequisites: PHED 207 and PHED 208 and Education Teacher Licensure with a score of 5 and Background Check Clearance with a score of 5

The course is designed to provide the student with a thorough understanding of the teaching-learning process in middle and high school settings. The student will learn how to plan and present progressive learning tasks, develop effective teaching skills, analyze and evaluate the instructional process, and design curricular materials. (Formerly KINE 451)

Note: (Offered fall semester) Registration Restrictions: Junior status.

Offered: Resident

PHED 460 Exercise Test/Eval/Perscription  3 Credit Hours

Prerequisites: PHED 310 and PHED 311 and PHED 320

PHED 461 Exercise Leadership  3 Credit Hours

Prerequisites: PHED 460

PHED 495 Independent Study  1-3 Credit Hours

PHED 496 Directed Research in Kinesiology  1-3 Credit Hours

A research-oriented project in an approved topical area or an independently-completed course of study in a specially designed area. Generally available only for Physical Education majors who have unusual and specific program needs. (Formerly KINE 495)

Registration Restrictions: Permission of the Department Chairman, Junior status and a minimum cumulative GPA of 2.50.

Offered: Resident

PHED 497 Special Topics in Kinesiology  1-3 Credit Hours

PHED 497 - Special Topics in Kinesiology (1-3 hours)

PHED 499 Professional Practicum in PE  3 Credit Hours

Prerequisites: PHED 461

Physical Education & Health (B.S.), Non-Licensure - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

- EVAN 101 Evangelism and the Christian Life 3
- Cultural Studies Elective 3

Social & Scientific Inquiry
- Natural Science Elective 3
- Social Science Elective 3

Christianity & Contexts
- BIBL 105 Old Testament Survey 2
- BIBL 110 New Testament Survey 2
- THEO 201 Theology Survey I 2
- THEO 202 Theology Survey II 2

Total Hours 44-47

Additional Requirements
- First Aid/CPR Certification
- Swimming Proficiency
Refer to the list of approved general education electives before enrolling in foundational skill requirements.

All students must pass the Computer Assessment OR complete applicable INFT course.

Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived;

Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived.

Courses may also fulfill select general education requirements.

Minimum grade of ‘C’ is required.

Choose from PHED 216 Field Hockey (1 c.h.)-PHED 240 (c.h.)

Course offered in spring only.

Course offered in fall only.

Respiratory Therapy Major (B.S.)

Purpose

The purpose of this program is to impact the advancement of the profession through leadership in teaching, research and service.

Specifically, equipping graduates for the practice of respiratory therapy.
in a variety of health care setting with a firm biblical foundation to impact the world for Jesus Christ.

Program Learning Outcomes
The student will be able to:

1. Comprehend, apply, and evaluate clinical information relevant to their roles as a registered respiratory therapist (cognitive domain).
2. Perform the technical skills necessary to fulfill their role as a registered respiratory therapist (psychomotor domain).
3. Demonstrate professional behavior consistent with clinical rotation site expectations as a registered respiratory therapist (affective domain).
4. Utilize critical thinking/problem solving skills to develop the best patient treatment for those suffering from cardiopulmonary disease.
5. Integrate the biblical worldview into all aspects of respiratory therapy.

BSRT - Residential Entry to Practice
The Respiratory Therapy Major is designed for students who wish to pursue a career in Respiratory Therapy. The bachelor’s degree-prepared respiratory therapist is a practitioner able to perform patient assessment, develop and monitor respiratory care plans, administer protocols, carry out disease management and rehabilitation, provide patient and family education, and serve as a physician extender to the pulmonologist, anesthesiologist, intensivist, pediatricians, etc. The bachelor’s degree prepared respiratory therapist will perform basic and critical respiratory care therapeutic and diagnostic procedures in the hospital, home, and alternate care sites. The bachelor’s degree respiratory care program also provides a foundation for professional leadership in clinical practice and clinical specialization. Program graduates are eligible to sit for the national board exams for certification as an entry-level respiratory therapist, to become registered as an advanced-level respiratory therapist, and to take specialty examinations in perinatal/ pediatrics and pulmonary function technology.

Selection Process (Entry to Practice)
The Respiratory Therapy program at LU is both competitive and selective. Thus, not every student who applies will be accepted into the RT Program. Students interested in majoring in Respiratory Therapy at LU will go through two application processes following the pre-professional phase of the program. Initial acceptance will occur following the freshman spring semester, while the full acceptance will occur after the sophomore fall semester. When students transfer to LU or change their major, their initial acceptance will be determined by the program director; while full acceptance is determined by the RT Program Admission Committee.

Phases of the RT Program (Entry to Practice)
- Pre-professional (freshman year): Students interested in becoming part of the RT Program at Liberty University should initially enroll in BIOL 203, 213, 214, 215, 216 and PSYC along with available General Studies curriculum requirements.
- Initial Acceptance (summer after freshman year): Applications for initial admission must be submitted by April 15 of the freshman year. The criteria for initial status are outlined in the sections below.
- Full Acceptance (between sophomore fall & spring semesters): Applications for full admission must be submitted by November 15 of the sophomore year. Full acceptance will be based upon the criteria outlined in the sections below.

Application Requirements (Entry to Practice)
Initial Application/Requirements:
1. Students must meet the following criteria and provide the following information:
   - Candidates must be in good academic standing with the University and have a minimum cumulative GPA of 2.0 on a 4.0 scale
   - Complete the provisional application form, including personal statement and experience. http://www.liberty.edu/RTApplication
   - Provide a copy of all collegiate transcripts; unofficial transcripts are accepted from LU
   - Submit a medical history form signed by a physician; the form shall include an endorsement by the physician stating that the student is physically able to meet the requirements of the program (See Essential Functions and Professional Expectations)
   - Meet the Essential Functions for admission into the program
   - Copy of vaccination records, which must include up-to-date, for Rubella, Tetanus, Mumps, Polio, Chicken Pox, and HBV vaccinations

2. All documents are due by April 15 to the RT Program Director
3. Initial acceptance will only occur after final grades for the Freshman spring semester have been confirmed by the Registrar’s office

Full Application/Requirements:
Students will apply for full acceptance into LU’s RT Program during the semester after their initial acceptance. The application deadline will be November 15 of their sophomore year. Students must meet and submit documentation for the following criteria and provide the following information to the RT Program to be considered for acceptance:

1. Anticipated final grade for each of the following courses: BIOL 203, 213, 214, 215, 216 & PSYC 101 along with any General Studies courses completed
   - Full acceptance will only occur after final grades have been confirmed by the registrar’s office
2. Cumulative GPA of 2.5 or higher on a 4.0 scale
3. Verification of AHA Professional Rescuer/BLS CPR (certification must remain current while in RT Program)
4. Completed background check through LU approved background check
5. Successfully complete a personal interview with focused on knowledge of the respiratory therapy field, academic goals, career goals and communication skills
6. Verification of the student’s ability to meet technical standards
   - Copy of vaccination records, which must include Rubella, Tetanus, Mumps, Polio, Chicken Pox, Tuberculosis, and HBV vaccination
7. Verification of HIPAA and/or FERPA training
8. Verification of OSHA/Bloodborne Pathogens Training (annual requirement)
9. Read & signed confidentiality statement (annual requirement)
10. Read & signed RT Program Handbook (annual requirement)

Acceptance Criteria (Entry to Practice)
Initial Acceptance Criteria:
Initial acceptance is based on the student’s GPA. Students with a cumulative GPA lower than 2.0 will not be initially accepted, while
those students with a 2.0 GPA or higher will be allowed to continue the application process. Students not admitted will be notified.

Due to the competitive nature of the program, initial acceptance does not guarantee full acceptance into the program. Additionally, initially-accepted students must meet the Program Retention Standards to remain in the program.

Full Acceptance Criteria:
A criteria/rubric will be utilized to select the top 30 students annually. The rubric is based on individual grades within the major foundational courses, overall GPA and successful interview. At this point, the student may be admitted to the program. Formal declaration of the major, however, cannot occur until ALL university Foundational Courses and INFT requirements have been met.

Accreditation standards limit to the number of students that can be fully accepted for each academic year. The number of students accepted each year is determined by the number of seats available. As such, not all students meeting the above minimum requirements may be accepted. If this is the case, total score will be utilized in determining final acceptance.

RRT to BSRT Online Post-Licensure
The degree advancement RRT to BSRT Post-Licensure program is designed for Registered Respiratory Therapists who have completed an associate degree in respiratory therapy and wish to complete a Bachelor of Science in Respiratory Therapy degree. The RRT to BSRT Post-Licensure pathway is nationally accredited as a degree advancement (DA) program by the Commission on Accreditation of Respiratory Care (CoARC).

Admission (RRT to BSRT)
The RRT to BSRT pathway follows the general admission process of Liberty University Online Admissions.

Application Requirements (RRT to BSRT)
All applicants must complete the University application and provide:

- Proof of having graduated from a CoARC-accredited associate degree program in respiratory therapy;
- Official transcripts demonstrating an overall GPA of 2.0 or higher and no grade lower than a C for any respiratory-related class from their associate’s degree;
- Documentation of having earned the Registered Respiratory Therapist (RRT) credential from the National Board for Respiratory Care (NBRC); and
- A current license or credential to practice respiratory care with in their state of residency, US military, or Veterans Administration.

Acceptance (RRT to BSRT)
Acceptance is based on the student’s acceptance to the University, GPA, and satisfaction of the application requirements. Students with a cumulative GPA lower than 2.0 or those who are not able to successfully satisfy the University or RRT-BSRT application requirements will not be accepted. Students not admitted will be notified.

Accreditation standards limit to the number of students that can be fully accepted for each academic year. The number of students accepted each year is determined by the number of seats available. As such, not all students meeting the above minimum requirements may be accepted.

Program of Study
Delivery Format: Residential Only
- Respiratory Therapy (B.S.) - Resident (p. 819)

Delivery Format: Online Only
- Respiratory Therapy, Post Licensure (B.S.) - Online (p. 820)

Career Opportunities
- Adult Critical Care
- Case Manager
- Clinical Specialist
- Director
- Disease Manager
- Generalist
- Homecare
- Manager
- Neonatal/Pediatrics
- Pulmonary Function Testing
- Pulmonary/Cardiac Rehabilitation
- Researcher
- Sleep Medicine
- Supervisor
- Transport

Courses
RESP 300 Respiratory Health and Disease 3 Credit Hours
The study of normal pulmonary mechanisms, manifestations and treatment of respiratory disease, their clinical course with specific focus on the basis for respiratory therapeutics.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 302 Respiratory Care Equipment and Techniques 4 Credit Hours
Study and clinical application of respiratory care equipment utilized in the hospital setting (3 hour class/1 hour lab).

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 304 Introduction to Respiratory Care 3 Credit Hours
An orientation to the profession, consideration of professional ethics, introduction to basic cardiopulmonary assessment and life support techniques, infections control, medical record, hospital environment and role of the respiratory therapist.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.
RESP 306 Pulmonary Function and Testing 4 Credit Hours
Study of methods, instrumentation, standards and clinical applications of pulmonary function testing, monitoring and blood gas analysis with emphasis on quality assurance.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 308 Artificial Ventilation 3 Credit Hours
Study of various mechanical ventilators and device interfaces (artificial airways and masks), with a major emphasis placed on all aspects of the management of the patient-ventilator system.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 310 Clinical Observation 4 Credit Hours
Clinical observation of respiratory therapy in a variety of environments.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 320 Neonatal Respiratory Care 2 Credit Hours
Theories, procedures and equipment applicable to the delivery of respiratory therapy in neonatal care.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 321 Pediatric Respiratory Care 2 Credit Hours
Theories, procedures and equipment applicable to the delivery of respiratory therapy in pediatric care (outside of the neonatal period).

Prerequisites: RESP 320

RESP 322 Respiratory Care for Special Populations 3 Credit Hours
Theories, procedures and equipment applicable to the delivery of respiratory therapy to special populations such as home care, sleep, community health, rehabilitation and long-term care. Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 324 Respiratory Pharmacology 3 Credit Hours
Introduces the physiologic and pharmacologic basis of cardiopulmonary medications. Preparation, calculation of dosages, mixtures and general principles of pharmacology will be covered followed by an in-depth discussion of bronchoactive drugs, and drug groups related to the cardiopulmonary system such as neuromuscular blocking agents, central nervous system depressants, cardiovascular agents and diuretics. Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

RESP 406 Advanced Ventilatory Support 3 Credit Hours
Advance ventilatory support inclusive of advanced modes (NAVA, APRV, PAV, ASV, etc), high frequency ventilation, extracorporeal CO2 removal and extracorporeal membrane oxygenation.

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 408 Pulmonary Disease Management 3 Credit Hours
Study of etiology, pathophysiology, diagnosis, treatment and prognosis of common pulmonary disease and conditions. Topics include post critical care managements of acute respiratory distress syndrome, obstructive and restrictive pulmonary diseases, neoplastic disease of the lung, disordered breathing, cardiac and cardiovascular disorders, neurologic and neuromuscular disorders and the associated disease management techniques shown to improve quality of life through education of patient (self-management) and of other care providers (care continuity).

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 411 Seminar 3 Credit Hours
Conferences, group discussion and presentation of selected topics.

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 412 Clinical Experiences II 4 Credit Hours
Clinical observations and achievement of competencies related to respiratory care procedures in critical care, neonatal and pediatric areas.

Registration Restrictions: Admission to Respiratory Therapy, Senior status.
RESP 420 Cardiopulmonary Physiology and Monitoring  3 Credit Hours

Study of cardiopulmonary anatomy, physiology and monitoring of functionality. The study includes but not limited to ventilatory mechanics, gas transport, natural and chemical regulation of breathing, circulation, blood flow and pressure, cardiac output and the monitoring of each of these topics.

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 422 Current Issues in Respiratory Care  3 Credit Hours

An analysis of current administrative, legal, regulatory, professional issues and current trends which influence the administration of respiratory therapy.

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 424 Teaching and Learning Respiratory Therapy  3 Credit Hours

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 430 Fundamentals of Respiratory Care Research  3 Credit Hours

Survey of research problems, methods and designs utilized in respiratory care, with emphasis on data collection, analysis and presentation.

Registration Restrictions: Admission to Respiratory Therapy, Senior status.

RESP 432 Respiratory Care Management and Leadership  3 Credit Hours

Study of management principles and problems as they relate to respiratory care and the management of the department, hospital, service organization, and health care programs will be reviewed.

Registration Restrictions: Admission to Respiratory Therapy, Junior/Senior status.

Respiratory Therapy (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

### Total Hours

39-42

---

1. Refer to the list of approved general education electives before enrolling in foundational skill requirements
2. COMS 101 Speech Communication (3 c.h.) is strongly recommended
3. MATH 121 College Algebra (3 c.h.) is strongly recommended
4. Students transferring in 45 or more UG credit hours will have the requirement of RLGN 104 Christian Life and Biblical Worldview (4 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirement of THEO 104 Introduction to Theology Survey (4 c.h.) waived

---

## Graduation Requirements

- 136 Total hours
- 2.0 Overall grade point average
- 34 Hours must be upper-level courses (300-400 level)
- **Grade of ‘C’** Minimum required for all major foundational courses and all upper-level courses in the major
- 50% Of major taken through Liberty University
- 34 Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

---

## Respiratory Therapy: Post Licensure (B.S.) - Online

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.
### Teacher Licensure

Teacher preparation and endorsement in Biology and Chemistry is available through the Department of Biology and Chemistry. Those wishing to pursue teacher-related programs should seek information from the Teacher Licensure Office in the School of Education. Licensure information is also available at [http://www.liberty.edu/uguide](http://www.liberty.edu/uguide).

### Pre-Med Honor Society

**Coordinator: Dr. Mark Blais**

The purpose of the Pre-Med Honor Society is to give recognition to students who have excelled in the biology and chemistry curricula or any other Liberty University major. Members of the Pre-Med honor society are exemplary for their high academic achievement, strong personal characteristics and their deep commitment to helping others.

#### Criteria for Membership

A student must have:

1. Maintained a GPA of at least 3.50 in any major field of study, and
2. A deep interest in becoming medical doctors.

### Programs

- Biochemistry & Molecular Biology Major (B.S.) (p. 829)
- Biology & Chemistry Minors (p. 831)
- Biomedical Sciences Major (B.S.) (p. 832)
- Biopsychology Major (B.S.) (p. 839)
- Biotechnology Major (B.S.) (p. 845)
- Chemistry Major (B.S.) (p. 852)
- Environmental Biology Major (B.S.) (p. 855)
- Forensic Science Major (B.S.) (p. 859)
- General Biology Major (B.S.) (p. 863)
- Zoo & Wildlife Biology Major (B.S.) (p. 870)
- Zoology Major (B.S.) (p. 877)

### Career Opportunities

- Chemical Technician
- Chiropractic School
- Dental School
- Environmental Biology
- Forensic Scientist
- H.S. Biology Teacher
- H.S. Chemistry Teacher
- Junior Toxicologist
- Laboratory Research Assistant
- Medical School
- Medical Technologist
- National Park Ranger
- Osteopathic School
- Pharmacy School
- Physician Assistant
- Veterinary School
Graduate School and Research in:
• Biochemistry
• Biology
• Chemistry
• Ecology
• Genetics
• Marine Biology
• Microbiology
• Molecular Biology
• Neuroscience
• Physiology
• Wildlife Management

Courses

Biology Courses

BIOL 101 Principles of Biology  3 Credit Hours
An examination of the fundamental characteristics common among living things. Emphasis is placed upon studies of the cell, energy, metabolism, reproduction, heredity, ecology, phylogeny and the diversity of life.

BIOL 102 Principles of Human Biology  3 Credit Hours
An examination of structure, function, development and homeostatic interaction in higher organisms with special emphasis on human body systems.

BIOL 103 Principles of Biology Laboratory  1 Credit Hour
Prerequisites: BIOL 101
Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is on plant and animal cell chemistry, composition and function, organismal structure and function, biological diversity and population ecology.

BIOL 104 Principles of Human Biology Laboratory  1 Credit Hour
Prerequisites: BIOL 102
Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is placed on structure and function in higher organisms, development, behavior, parasitism, and the history of life.

BIOL 110 General Biology  4 Credit Hours

BIOL 203 Introductory Microbiology  4 Credit Hours
Prerequisites: HLTH 202 or HLTH 222 or BIOL 212 or (BIOL 215 and BIOL 216)
An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, metabolism, heredity, diversity and taxonomy. The basic concept of genetic engineering, pathogenicity, human disease, and immunology are presented.

Registration Restrictions: Restricted to Family and Consumer Sciences and health-related majors.

BIOL 204 Microbiology for Nursing Professionals  4 Credit Hours
Prerequisites: BIOL 215 and BIOL 216
An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, growth, heredity, diversity, and epidemiology. The basic concepts of pathogenicity, immunology, human disease, and genetic engineering are presented.

Registration Restrictions: Restricted to online students with an RN license pursuing a BSN.

BIOL 213 Human Anatomy and Physiology I  3 Credit Hours
A study of the structure and function of the human body with emphasis on cells, tissues, skin, nerves and special senses, muscle bones, and coordination and control of body movements. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 211 lecture)
Note: May not be used for general education credit except in conjunction with BIOL 215.

BIOL 214 Human Anatomy and Physiology I Lab  1 Credit Hour
Prerequisites: (BIOL 213 or BIOL 313
Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on foundational concepts such as homeostasis, anatomical terminology, the chemistry of living things and the structure and function of cells and tissues. The integumentary, skeletal, muscular and nervous body systems are examined via hands-on exercises and dissection of preserved specimens. (Formerly BIOL 211 Lab)

Offered: Resident

<td></td>
</tr>
<tr>
<td>BIOL 330</td>
<td>Histology</td>
<td>4</td>
<td>BIOL 225 or (BIOL 215 and BIOL 216)&lt;br&gt;Prerequisites: BIOL 225 or (BIOL 215 and BIOL 216)&lt;br&gt;A study of the micro-structure and function of the human body with emphasis on biochemistry, cell physiology, and organismal pathology.</td>
<td></td>
</tr>
<tr>
<td>BIOL 361</td>
<td>Forensic DNA Analysis</td>
<td>3</td>
<td>CJUS 200 or BIOL 225 or CHEM 122&lt;br&gt;Prerequisites: CJUS 200 or BIOL 225 or CHEM 122&lt;br&gt;An introductory course designed to provide the student with an understanding of the general principles and methodologies used in forensic DNA profiling (or typing). Topics covered include the historical development of DNA profiling methods, alternative procedures employed in forensic laboratories, current DNA typing techniques, and the ongoing development of new forensic DNA typing methods. Students will learn to present forensic DNA evidence in a mock trial. The mock trial, complete with a judge, a counsel for the prosecution and for the defense, and a jury, challenges the students both scientifically and legally in a simulated courtroom setting.</td>

</table>

Note: Offered fall semester.
BIOL 371 Vertebrate Paleontology 3 Credit Hours

Prerequisites: BIOL 208 or BIOL 212 or (BIOL 215 and BIOL 216) or BIOL 225

BIOL 371 - Vertebrate Paleontology (3 hours) Prerequisite: BIOL 208 "C" or better; or BIOL 225 "C" or better; or BIOL 215/216 "C" or better. A study of vertebrate paleontology, including its methodology and a survey of major vertebrate fossil groups. Intended for upper-level Biology majors.

Offered: Resident

BIOL 385 Advanced Human Physiology 3 Credit Hours

Prerequisites: BIOL 225

Human physiology is the study of the functions of the body and how it maintains homeostasis. This lecture course examines those functions from a cellular and molecular basis using a systemic approach. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive and endocrine systems. The course will be of use and interest to students intending to go to medical school or other health-related fields.

Offered: Resident

BIOL 399 Laboratory Assisting 0 Credit Hours

BIOL 400 Biology Seminar 1 Credit Hour

Prerequisites: BIOL 310 or BIOL 301

The preparation and presentation of a paper, discussion of presentations, and/or the discussion of articles in the scientific literature. This course can be repeated and up to 4 hours can be applied toward the major. Restricted to Biology majors and minors.

Offered: Resident

BIOL 402 Forensic Science Seminar 1 Credit Hour

Prerequisites: (BIOL 361 or CJUS 340)

Students will be exposed to topical areas in Forensic Science by presentations conducted by expert guest speakers and/or by readings and discussions of the most recent forensic techniques and applications. Seminars will help prepare students to be leaders in the field of forensic science as law enforcement professionals, crime scene investigators, or forensic laboratory specialists. An oral presentation on a research topic by each student required.

Offered: Resident

BIOL 403 Embryology 4 Credit Hours

Prerequisites: BIOL 415

Fundamentals of early development and experimental analysis of development systems and a descriptive and comparative study of organogenesis with emphasis on vertebrates.

Offered: Resident

BIOL 408 Animal Behavior 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the mechanisms and functional significance of animal behavior. Topics include: the role of genes, development, the nervous system, and the endocrine system in the expression of behavior; learning communication, orientation and navigation, and habitat selection; feeding, reproductive, and parenting strategies; mating systems and social behavior. Labs will employ both observational and experimental methods in the lab and in the field.

Offered: Resident

BIOL 410 Environmental Biology 4 Credit Hours

Prerequisites: BIOL 310 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Field and lab methods used by government and industry to assess the impact of a pollutant upon an ecosystem including toxicity testing, in stream evaluations of macro invertebrates and fish, exposure and risk assessment modeling.

Offered: Resident

BIOL 415 Cell Biology 4 Credit Hours

Prerequisites: BIOL 310 and (CHEM 301 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A study of the organization and function of living matter at the cellular level. Special emphasis will be given to the integration of molecular and cellular interactions for the maintenance of life.

Offered: Resident

BIOL 416 Comparative Animal Physiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A comparative study of the differences and similarities in the functional processes of animals belonging to various animal groups in a variety of environmental settings.

Offered: Resident

BIOL 418 Vertebrate Natural History 4 Credit Hours

Prerequisites: BIOL 208 or BIOL 225

A study of the life history of the vertebrates with special emphasis on their taxonomy, life cycles, and ecological relationships. Vertebrates native to central Virginia will receive special attention.

Offered: Resident
BIOL 419 Ornithology 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the study of birds including anatomy, physiology, life cycle, behavior, population biology, ecology, and taxonomy. The emphasis of lab will be on field techniques of identification and study of species native to Virginia.

Offered: Resident

BIOL 420 Immunology 4 Credit Hours

Prerequisites: BIOL 303 and BIOL 301

A comprehensive view of the basic principles of the immune system of living organisms, with particular emphasis on humans. It examines the cells and tissues of the immune system, describes the structure and function of immunoglobulins, and examines their interactions with antigens.

Offered: Resident

BIOL 421 Forensic Entomology 3 Credit Hours

Prerequisites: BIOL 225 or CJUS 330 or CJUS 340

An introductory course designed to explore the use of insects and other arthropods in the field of forensic science as it pertains to the investigations of human and animal deaths and abuse, food and other product contamination, thefts, the illegal drug trade, and unethical entomological practices. The use and presentation of this information from such investigations in court room proceedings will be discussed.

Offered: Resident

BIOL 435 Neurobiology 3 Credit Hours

Prerequisites: BIOL 301 or BIOL 313 or BIOL 385

An investigation of neurons and the nervous system. Topics include action potential, synaptic transmission and neuromodulation; the processing of sensory information in visual and auditory systems, and other senses; sensory integration and motor behaviors; neural mechanism of learning and memory, sleep/wakefulness, and reward and decision-making.

Offered: Resident

BIOL 455 Molecular Techniques 3 Credit Hours

Prerequisites: BIOL 415

This course covers the basic molecular biological techniques involved in the study of DNA, RNA, and proteins. Specific techniques include: PCR; DNA cloning; library screening; proteomics and the use of gene sequence databases; and molecular modeling. (Formerly BCHM 455)

Offered: Resident
**BIOL 499 Internship** 1-6 Credit Hours

**Prerequisites:** (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 211 and BIOL 212)

A directed practical work experience under the supervision of the Biology Faculty Intern Advisor, in the student's area of career interest. Applications are processed through the Biology Department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. This course is pass/fail.

**Registration Restrictions:** 3.00 GPA and Junior or Senior Standing and 21 hours completed in Biology (including 16 hours upper level Biology) and a declared major in the Biology and Chemistry department; not more than one CSER behind.

**Offered:** Resident

### Chemistry Courses

**CHEM 105 Elements of General Chemistry** 4 Credit Hours

A study of the basic areas of general chemistry at an introductory level for the non-science major, including atomic and molecular structure; bonding, stoichiometry, and acids, bases and salts.

**Offered:** Resident

**CHEM 107 Essentials of General and Organic Chemistry** 4 Credit Hours

**Prerequisites:** MATH 110 or MATH 201 or BUSI 230 or ACT Math with a score of 20 or (pre2016 post1995) SAT Math with a score of 550 or SAT Section Math with a score of 570 or MATH 108 or Assessment - Mathematics II with a score of 15 or MATH 121 or MATH 131 or MATH 132 or MATH 126 or Placement Score-Math with a score of 070

A study of the basics of general and organic chemistry at an introductory level, including atomic structure, bonding, acids and bases, organic functional groups and selected organic reactions.

**Offered:** Resident

**CHEM 107L Essentials of General and Organic Chemistry Lab** 0 Credit Hours

**Prerequisites:** CHEM 107 (may be taken concurrently)

**Offered:** Resident

**CHEM 108 Chemistry for Nursing Professionals** 4 Credit Hours

**Prerequisites:** MATH 110 or MATH 201 or BUSI 230 or (pre2016 post1995) SAT Math with a score of 550 or SAT Section Math with a score of 570 or ACT Math with a score of 20

A study of the basics of general and organic chemistry at an introductory level, including atomic structure, bonding, acids and bases, organic functional groups and selected organic reactions, with an emphasis on nursing applications. This course includes an independent hands-on microscale laboratory experience. Restricted to online students with an RN license pursuing a BSN.

**Offered:** Online

**CHEM 121 General Chemistry I** 4 Credit Hours

**Prerequisites:** MATH 121 or MATH 126 or MATH 131 or MATH 132 or ACT Composite with a score of 20 or SAT Section Math with a score of 530 or (pre2016 post1995) SAT Math with a score of 500 or Placement Score-Math with a score of 75

A study of the foundations of chemistry including: stoichiometry; atomic structure; chemical periodicity; covalent and ionic bonding; inorganic nomenclature; chemical reactions including aqueous precipitation, acid-base, and redox; basic thermodynamics in physical and chemical matter changes; electronic structure; molecular structure and polarity; gas laws.

**Offered:** Resident

**CHEM 121L General Chemistry I Lab** 0 Credit Hours

**Prerequisites:** CHEM 121 (may be taken concurrently)

**Offered:** Resident

**CHEM 122 General Chemistry II** 4 Credit Hours

**Prerequisites:** CHEM 121 and CHEM 122L (may be taken concurrently)

A study of chemical topics including: behavior and properties of liquids, colligative properties of solutions; and properties of solids; kinetics; equilibrium; acids, bases, and other aqueous equilibria; entropy and free energy in chemical reactions; electrochemistry; nuclear chemistry; introductory organic and biochemistry.

**Offered:** Resident

**CHEM 122L General Chemistry II Lab** 0 Credit Hours

**Prerequisites:** CHEM 121

**Offered:** Resident

**CHEM 131 Advanced General Chemistry I** 3 Credit Hours

**Prerequisites:** MATH 121 or MATH 125 or MATH 130 or MATH 131 or MATH 132 or MATH 201 or MATH 217 or MATH 1XX or MATH 2XX or MATH 3XX or MATH 4XX or ACT Math with a score of 25 or MATH SECTION SCORE with a score of 580 or Placement Score-Math with a score of 75

An in-depth study of the fundamental principles of chemistry including: stoichiometry; atomic theory, atomic structure, chemical periodicity; nature of covalent and ionic bonding; inorganic nomenclature; chemical reactions including aqueous precipitation, acid-base, and redox; basic thermodynamics in physical and chemical matter changes; electronic structure; molecular structure and polarity; gas laws. Examples are drawn from chemical, biological and materials systems.

**Offered:** Resident
CHEM 132 Advanced General Chemistry II 3 Credit Hours
Prerequisites: CHEM 121 or CHEM 131
An advanced undergraduate study of chemical topics including: behavior and properties of liquids, colligative properties of solutions; and properties of solids; kinetics; equilibrium; acids, bases, and other aqueous equilibria; entropy and free energy in chemical reactions; electrochemistry; nuclear chemistry; introductory organic and biochemistry.
Offered: Resident

CHEM 135 Advanced General Chemistry Lab 1 Credit Hour
Prerequisites: (CHEM 131
Laboratory experiments are drawn from chemical and material systems which reflect the topics of the lecture course which is an in-depth experimental study of the fundamental principles of chemistry including: stoichiometry; atomic theory; atomic structure; chemical periodicity; nature of covalent and ionic bonding; inorganic nomenclature; chemical reactions including aqueous precipitation, acid-base, and redox; basic thermodynamics in physical and chemical matter changes; electronic structure; molecular structure and polarity; gas laws.
Offered: Resident

CHEM 136 Advanced General Chemistry II Lab 1 Credit Hour
Prerequisites: CHEM 121 or CHEM 135
Advanced first year undergraduate laboratory experiments are drawn from chemical and material systems which reflect the topics of the lecture course which is an in-depth experimental study of the fundamental principles of chemistry including: behavior and properties of liquids, colligative properties of solutions; and properties of solids; kinetics; equilibrium; acids, bases, and other aqueous equilibria; entropy and free energy in chemical reactions; electrochemistry; nuclear chemistry; introductory organic and biochemistry.
Offered: Resident

CHEM 301 Organic Chemistry I 4 Credit Hours
Prerequisites: CHEM 122 or (CHEM 132 and CHEM 136)
A study of alkanes, alkenes, and alkynes, including nomenclature; optical activity; stereoisomer chemistry; substitution and elimination reactions; and ring systems.
Offered: Resident

CHEM 301L Organic Chemistry I Lab 0 Credit Hours
Prerequisites: CHEM 121 and CHEM 122
Offered: Resident

CHEM 302 Organic Chemistry II 4 Credit Hours
Prerequisites: CHEM 301
A study of the nomenclature and reactions of alcohols, ethers, epoxides, ketones, aldehydes, esters and acids, aromatic systems; and numerous name reactions in synthesis.
Offered: Resident

CHEM 302L Organic Chemistry II Lab 0 Credit Hours
Prerequisites: CHEM 301
Offered: Resident

CHEM 321 Analytical Chemistry 4 Credit Hours
Prerequisites: CHEM 122
An introduction to analytical chemistry. Evaluation of data, gravimetric and titrimetric analysis, and an introduction to instrumental methods. These include spectrophotometry, chromatography, and potentiometric methods. (Formerly CHEM 221)
Note: Offered spring semester.
Offered: Resident

CHEM 322 Instrumental Analysis 4 Credit Hours
Prerequisites: CHEM 321 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
Theory and practice of instrument-based chemical analyses. The course emphasizes the principles of analytical instruments and their applications in chemical sciences.
Offered: Resident

CHEM 400 Chemistry Seminar 1 Credit Hour
Prerequisites: CHEM 302
The preparation and presentation of a paper, discussion of presentations and/or the discussion of articles in the scientific literature. This course can be repeated, and up to four hours can be applied toward the major. Restricted to Chemistry majors and minors.
Offered: Resident

CHEM 461 Physical Chemistry I 3 Credit Hours
Prerequisites: CHEM 122 and (MATH 126 or MATH 131)
This course is an in-depth study of the properties of real and ideal gases, thermodynamics, kinetics, changes of state, solutions, phase equilibria, chemical equilibria, and electrochemistry.
Offered: Resident
CHEM 462 Physical Chemistry II 3 Credit Hours

Prerequisites: CHEM 461

This course is a study of the foundational principles of quantum mechanics in atoms and molecules, molecular structure, spectroscopy, and statistical mechanics.

Offered: Resident

CHEM 465 Physical Chemistry I Lab 1 Credit Hour

Prerequisites: CHEM 461

This course is an in-depth study of laboratory techniques and the written expression in lab reports that follow the style of papers in chemistry periodicals for the properties of real and ideal gases, thermodynamics, kinetics, changes of state, solutions, phase equilibria, chemical equilibria, and electrochemistry.

Offered: Resident

CHEM 466 Physical Chemistry II Lab 1 Credit Hour

Prerequisites: CHEM 462

This course is a study of the lab skills associated with the foundational principles of quantum mechanics in atoms and molecules, molecular structure, spectroscopy, and statistical mechanics.

Offered: Resident

CHEM 471 Inorganic Chemistry 4 Credit Hours

Prerequisites: CHEM 302

A study of inorganic chemistry, including symmetry, structure, and bonding, as well as a survey of the descriptive chemistry of the elements.

Offered: Resident

CHEM 495 Supervised Research in Chemistry 1-3 Credit Hours

Prerequisite: A minimum of 24 hours of chemistry. Original research carried out under the direct supervision of faculty.

Offered: Resident

CHEM 497 Special Topics in Chemistry 1-3 Credit Hours

CHEM 497- Special Topics in Chemistry (3 to 4 hours)

Offered: Resident

CHEM 499 Internship 1-6 Credit Hours

A directed practical work experience under the supervision of the Chemistry Faculty Intern Advisor, in the student’s area of career interest. Applications are processed through the Chemistry Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: 3.00 GPA and Junior or Senior Standing and 20 hours completed in Chemistry (including 12 hours upper level Chemistry) and a declared major in the Biology and Chemistry department; not more than one CSER behind.

Offered: Resident

## Biochemistry & Molecular Biology Major (B.S.)

### Purpose

The purpose of the Biochemistry and Molecular Biology major is to prepare students for medical and related professional schools, graduate school, and employment in the field of biochemistry.

### Program Learning Outcomes

The student will be able to:

1. Apply standards and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental biochemical and cellular concepts.
4. Conduct, analyze, and summarize biochemical or molecular research.

### Program of Study

#### Delivery Format: Residential Only

- Biochemistry & Molecular Biology (B.S.) - Resident (p. 830)

### Career Opportunities

- Agricultural Biotechnologist
- College Professor/Researcher
- Dentist
- Optometrist
- Pharmacist
- Physician
- Physician's Assistant
- Veterinarian

### Courses

BCHM 450 Medical Biochemistry 3 Credit Hours

Prerequisites: (BIOL 415 or CHEM 302)

This lecture course covers aspects of biochemistry relevant to the practice of medicine. The human body is surveyed as an integrated chemical system with emphasis on the molecular basis of disease and the clinical application of therapies to restore body function. The link between biochemistry and human anatomy and physiology is examined with special emphasis on the gastrointestinal tract and catabolism, the immune response and biochemical endocrinology, blood and hemostasis, lipid metabolism and liver function, and glucose metabolism and muscle contractions.

Offered: Resident
BCHM 451 Biochemistry I 4 Credit Hours

Prerequisites: BIOL 415 or (CHEM 302 and CHEM 321)

Advanced topics in biochemistry. Emphasis is placed on: 1) physical biochemistry including thermodynamics, kinetics, solutions and equilibria; 2) protein structure/function and enzyme kinetics, mechanisms and regulation; and 3) intermediary metabolism and its regulation.

Offered: Resident

BCHM 452 Biochemistry II 4 Credit Hours

Prerequisites: BCHM 451

Continuation of BCHM 451 (Biochemistry I). Emphasis is placed on: 1) membrane physiology, including lipid biosynthesis, membrane transport, excitable membranes, electron transport and oxidative phosphorylation, and photosynthesis; and 2) the flow of biological information, including nucleotide biosynthesis, DNA replication and repair, transcription, and translation.

Offered: Resident

BCHM 455 Biochemical and Molecular Techniques 3 Credit Hours

Prerequisites: BIOL 415

This course covers the basic molecular biological techniques involved in the study of DNA, RNA, and proteins. Specific techniques include: PCR; DNA cloning; library screening; proteomics and the use of gene sequence databases; and molecular modeling.

Offered: Resident

BCHM 495 Directed Research 1-3 Credit Hours

BCHM 495 - Directed Research (1 to 3 hours)

Offered: Resident

BCHM 497 Special Topics in Biochemistry 1-3 Credit Hours

BCHM 497 - Special Topics in Biochemistry (1 to 3 hours)

Offered: Resident

Biochemistry & Molecular Biology (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Information Literacy Elective 3

Technological Solutions & Quantitative Reasoning 1

UNIV 101 University Core Competencies 1

Math Elective MATH 114 or higher 3

Technology Competency 2 0-3

Critical Thinking 1

RLGN 105 Introduction to Biblical Worldview 3 2

RSCH 201 Research 3

Civic & Global Engagement 1

EVAN 101 Evangelism and the Christian Life 3 2

Cultural Studies Elective 3

Social & Scientific Inquiry 1

Natural Science Elective 3

Social Science Elective 3

Christianity & Contexts 1

BIBL 105 Old Testament Survey 2

BIBL 110 New Testament Survey 2

THEO 201 Theology Survey I 3 2

THEO 202 Theology Survey II 3 2

Total Hours 44-47

1 Refer to the list of approved general education electives before enrolling in foundational skill requirements

2 All students must pass the Computer Assessment OR complete applicable INFT course

3 Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived
### Biology Minor - Resident

Completion Requirements
- 20-22 total hours
- 50% of the minor must be taken through Liberty University
- Minimum grade of 'C' required for all upper-level courses in the Minor

Biomedical Sciences Major (B.S.)

Purpose
The purpose of the Biomedical Sciences major is to prepare students for medical and related professional schools, graduate school and employment in the biomedical sciences.

Program Learning Outcomes
The student will be able to:
1. Apply standards and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental biological and physical science concepts.
4. Conduct, analyze, and summarize medical or molecular research.

Programs of Study

Delivery Format: Residential Only
- Biomedical Sciences (B.S.) - Global Studies - Resident (p. 837)
- Biomedical Sciences (B.S.) - Resident (p. 838)

Career Opportunities
- Clinical Research Scientist
- Dentist
- Medical Diagnostics
- Pharmacist
- Pharmaceutical Companies
- Physical Therapist
- Physician
- Physician's Assistant
- Public Health Laboratories
- Research Scientist

Courses

BIOL 101 Principles of Biology 3 Credit Hours
An examination of the fundamental characteristics common among living things. Emphasis is placed upon studies of the cell, energy, metabolism, reproduction, heredity, ecology, phylogeny and the diversity of life.

BIOL 102 Principles of Human Biology 3 Credit Hours
An examination of structure, function, development and homeostatic interaction in higher organisms with special emphasis on human body systems.

BIOL 103 Principles of Biology Laboratory 1 Credit Hour
Prerequisites: BIOL 101
Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is on plant and animal cell chemistry, composition and function, organismal structure and function, biological diversity and population ecology.

BIOL 104 Principles of Human Biology Laboratory 1 Credit Hour
Prerequisites: BIOL 102
Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is placed on structure and function in higher organisms, development, behavior, parasitism, and the history of life.

BIOL 110 General Biology 4 Credit Hours

BIOL 203 Introductory Microbiology 4 Credit Hours
Prerequisites: HLTH 202 or HLTH 222 or BIOL 212 or (BIOL 215 and BIOL 216)
An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, metabolism, heredity, diversity and taxonomy. The basic concept of genetic engineering, pathogenicity, human disease, and immunology are presented.

Registration Restrictions: Restricted to Family and Consumer Sciences and health-related majors.

BIOL 203L Introductory Microbiology Lab 0 Credit Hours
Prerequisites: BIOL 203 (may be taken concurrently)

Offered: Resident
BIOL 204 Microbiology for Nursing Professionals 4 Credit Hours

**Prerequisites:** BIOL 215 and BIOL 216

An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, growth, heredity, diversity, and epidemiology. The basic concepts of pathogenicity, immunology, human disease, and genetic engineering are presented.

**Registration Restrictions:** Restricted to online students with an RN license pursuing a BSN.

BIOL 213 Human Anatomy and Physiology I 3 Credit Hours

A study of the structure and function of the human body with emphasis on cells, tissues, skin, nerves and special senses, muscle bones, and coordination and control of body movements. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 211 lecture)

**Note:** May not be used for general education credit except in conjunction with BIOL 215.

**Offered:** Resident

BIOL 214 Human Anatomy and Physiology I Lab 1 Credit Hour

**Prerequisites:** (BIOL 213 or BIOL 313)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on foundational concepts such as homeostasis, anatomical terminology, the chemistry of living things and the structure and function of cells and tissues. The integumentary, skeletal, muscular and nervous body systems are examined via hands-on exercises and dissection of preserved specimens. (Formerly BIOL 211 Lab)

**Offered:** Resident

BIOL 215 Human Anatomy and Physiology II 3 Credit Hours

**Prerequisites:** BIOL 213

A continuation of BIOL 213. A study of the structure and function of the human body with emphasis on the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 212 Lecture)

**Note:** May not be used for general education credit except in conjunction with BIOL 213.

**Offered:** Resident

BIOL 216 Human Anatomy and Physiology II Lab 1 Credit Hour

**Prerequisites:** BIOL 214 and (BIOL 215 (may be taken concurrently) or BIOL 313 (may be taken concurrently)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on the structure and function (including hands-on clinical analyses) of the cardiovascular, endocrine, lymphatic, respiratory, digestive, urinary and reproductive systems. Exercises include hand-on clinical analyses and dissection of preserved specimens. (Formerly BIOL 212 Lab)

**Offered:** Resident

BIOL 224 General Biology I 4 Credit Hours

**Prerequisites:** Placement Score-Math with a score of 75 or SAT Section Math with a score of 530 or (pre2016 post1995)SAT Math with a score of 500 or ACT Composite with a score of 20 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215

An introduction to the fundamental principles of Biology. Emphasis is placed upon scientific methodology; molecular, cellular and energetic bases of life; major metabolic processes; cellular and organismic reproduction; Mendelian and population genetics; speciation; phylogenetic reconstruction; ecological interactions; and a brief survey of organisms. Restricted to Biology and pre-professional students. (Formerly BIOL 200)

**Offered:** Resident

BIOL 224L General Biology I Lab 0 Credit Hours

**Prerequisites:** (pre2016 post1995)SAT Math with a score of 500 or SAT Section Math with a score of 530 or ACT Composite with a score of 20 or Placement Score-Math with a score of 75 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215 and BIOL 224 (may be taken concurrently)

**Offered:** Resident

BIOL 225 General Biology II 4 Credit Hours

**Prerequisites:** BIOL 224

Survey of the major phyla of the Kingdoms Animalia, and Protista including classification, development, morphology, anatomy, and physiology. Emphasis is placed on mammalian systems including support and movement, circulation and respiration, hormonal and nervous control, homeostasis, digestion, immunity and reproduction. (Formerly BIOL 208)

**Offered:** Resident

BIOL 225L General Biology II Lab 0 Credit Hours

**Prerequisites:** BIOL 224 or BIOL 200 and BIOL 225 (may be taken concurrently)

**Offered:** Resident
BIOL 299 Internship 0 Credit Hours
A directed practical work experience under the supervision of the Chair of Biology, in the student's area of career interest. Application processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

BIOL 301 Genetics 4 Credit Hours
Prerequisites: BIOL 225 and CHEM 122
A study of the principles of heredity with emphasis on inheritance in individuals and populations, chromosomal rearrangements, the chemistry of the gene in DNA structure and replication, transcription, translation, the control of gene expression, mutations and their repair, genetic engineering and epigenetic.

Offered: Resident

BIOL 301L Genetics Lab 0 Credit Hours
Prerequisites: (BIOL 208 and CHEM 122) or (BIOL 225 and CHEM 122) or (BIOL 215 and BIOL 216 and BIOL 224 and CHEM 122)

Offered: Resident

BIOL 303 Microbiology 4 Credit Hours
Prerequisites: BIOL 225 and CHEM 122
An introduction to micro-organisms with emphasis on principles and techniques of culture and identification, life processes, and diversity of micro-organisms.

Offered: Resident

BIOL 305 Parasitology 4 Credit Hours
Prerequisites: BIOL 225
A study of major protozoan, helminth, and insect parasites, dealing with their form, function, life cycle, pathology, epidemiology, classification, geographical distribution, treatment and control.

Offered: Resident

BIOL 307 Plant Physiology 4 Credit Hours
Prerequisites: BIOL 225 and CHEM 301
A study of the biochemical and biophysical processes of plants. Emphasis is given to plant-soil water and mineral relations, nutrient cycling, photosynthesis and carbon metabolism, and plant growth and development.

Offered: Resident

BIOL 310 Ecology 4 Credit Hours
Prerequisites: (BIOL 208 or BIOL 225) and (MATH 201 or MATH 211 or BUSI 230)
An examination of the interrelationships between organisms and biotic and abiotic factors in their environment. The emphasis of the lab is the collection and statistical analysis of quantitative ecological data.
Registration Restrictions: Junior or Senior status

Note: Offered fall semester.

Offered: Resident

BIOL 313 Clinical Human Anatomy 3 Credit Hours
Prerequisites: BIOL 225
This lecture course examines the structures of the human body using both systemic and regional approaches with emphasis on clinical applications and common pathologies. Special attention is placed on gross anatomy that is important in general practice, emergency medicine and surgery while demonstrating anatomy's relationship to physical examination and diagnosis. An overview of the body systems is followed by a special focus on the thoracic, abdominal, pelvic and lower limb regions.

Offered: Resident

BIOL 316 Human Biological Variation 3 Credit Hours
Prerequisites: BIOL 215 or BIOL 313
This course examines the anatomical, genetic, and behavioural characteristics that both unite mankind and distinguish humans from apes and other animals. Biological variation in modern and ancient man will be explored.

Offered: Resident

BIOL 317 Botany 4 Credit Hours
Prerequisites: BIOL 224
A survey of the Fungi, Protista, and Plantae kingdoms with an emphasis on the morphology, physiology, anatomy, taxonomy, ecology, reproduction, and phylogeny of plants. The lab includes collection and analysis of experimental data on plants both in the lab and field. (Formerly BIOL 207)

Offered: Resident

BIOL 320 Introduction to Entomology 4 Credit Hours
Prerequisites: BIOL 208 or BIOL 225 or BIOL 212 or (BIOL 215 and BIOL 216)
An introduction to the study of insects including structure, physiology, life histories, ecology and taxonomy with a special emphasis on those insects of medical and economic importance.

Offered: Resident
BIOL 321 Comparative Anatomy of the Vertebrates 4 Credit Hours

Prerequisites: BIOL 208 or BIOL 212 or BIOL 225 or (BIOL 215 and BIOL 216)

A comparative study of the structure and relationships of vertebrate animals.

Offered: Resident

BIOL 330 Histology 4 Credit Hours

Prerequisites: BIOL 225 or (BIOL 215 and BIOL 216)

A study of the micro-structure and function of the human body with emphasis on biochemistry, cell physiology, and organismal pathology.

Offered: Resident

BIOL 361 Forensic DNA Analysis 3 Credit Hours

Prerequisites: CJUS 200 or BIOL 225 or CHEM 122

An introductory course designed to provide the student with an understanding of the general principles and methodologies used in forensic DNA profiling (or typing). Topics covered include the historical development of DNA profiling methods, alternative procedures employed in forensic laboratories, current DNA typing techniques, and the ongoing development of new forensic DNA typing methods. Students will learn to present forensic DNA evidence in a mock trial. The mock trial, complete with a judge, a counsel for the prosecution and for the defense, and a jury, challenges the students both scientifically and legally in a simulated courtroom setting.

Offered: Resident

BIOL 371 Vertebrate Paleontology 3 Credit Hours

Prerequisites: BIOL 208 or BIOL 212 or (BIOL 215 and BIOL 216) or BIOL 225

BIOL 371 - Vertebrate Paleontology (3 hours) Prerequisite: BIOL 208 "C" or better, or BIOL 225 "C" or better, or BIOL 215/216 "C" or better. A study of vertebrate paleontology, including its methodology and a survey of major vertebrate fossil groups. Intended for upper-level Biology majors.

Offered: Resident

BIOL 385 Advanced Human Physiology 3 Credit Hours

Prerequisites: BIOL 225

Human physiology is the study of the functions of the body and how it maintains homeostasis. This lecture course examines those functions from a cellular and molecular basis using a systemic approach. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive and endocrine systems. The course will be of use and interest to students intending to go to medical school or other health-related fields.

Offered: Resident

BIOL 399 Laboratory Assisting 0 Credit Hours

BIOL 400 Biology Seminar 1 Credit Hour

Prerequisites: BIOL 310 or BIOL 301

The preparation and presentation of a paper, discussion of presentations, and/or the discussion of articles in the scientific literature. This course can be repeated and up to 4 hours can be applied toward the major. Restricted to Biology majors and minors.

Offered: Resident

BIOL 402 Forensic Science Seminar 1 Credit Hour

Prerequisites: (BIOL 361 or CJUS 340

Students will be exposed to topical areas in Forensic Science by presentations conducted by expert guest speakers and/or by readings and discussions of the most recent forensic techniques and applications. Seminars will help prepare students to be leaders in the field of forensic science as law enforcement professionals, crime scene investigators, or forensic laboratory specialists. An oral presentation on a research topic by each student required.

Offered: Resident

BIOL 403 Embryology 4 Credit Hours

Prerequisites: BIOL 415

Fundamentals of early development and experimental analysis of development systems and a descriptive and comparative study of organogenesis with emphasis on vertebrates.

Offered: Resident

BIOL 408 Animal Behavior 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the mechanisms and functional significance of animal behavior. Topics include: the role of genes, development, the nervous system, and the endocrine system in the expression of behavior; learning communication, orientation and navigation, and habitat selection; feeding, reproductive, and parenting strategies; mating systems and social behavior. Labs will employ both observational and experimental methods in the lab and in the field.

Offered: Resident

BIOL 410 Environmental Biology 4 Credit Hours

Prerequisites: BIOL 310 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Field and lab methods used by government and industry to assess the impact of a pollutant upon an ecosystem including toxicity testing, in stream evaluations of macro invertebrates and fish, exposure and risk assessment modeling.

Offered: Resident
BIOL 415 Cell Biology 4 Credit Hours

Prerequisites: BIOL 301 and (CHEM 301 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A study of the organization and function of living matter at the cellular level. Special emphasis will be given to the integration of molecular and cellular interactions for the maintenance of life.

Offered: Resident

BIOL 416 Comparative Animal Physiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A comparative study of the differences and similarities in the functional processes of animals belonging to various animal groups in a variety of environmental settings.

Offered: Resident

BIOL 418 Vertebrate Natural History 4 Credit Hours

Prerequisites: BIOL 208 or BIOL 225

A study of the life history of the vertebrates with special emphasis on their taxonomy, life cycles, and ecological relationships. Vertebrates native to central Virginia will receive special attention.

Offered: Resident

BIOL 419 Ornithology 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the study of birds including anatomy, physiology, life cycle, behavior, population biology, ecology, and taxonomy. The emphasis of lab will be on field techniques of identification and study of species native to Virginia.

Offered: Resident

BIOL 420 Immunology 4 Credit Hours

Prerequisites: BIOL 303 and BIOL 301

A comprehensive view of the basic principles of the immune system of living organisms, with particular emphasis on humans. It examines the cells and tissues of the immune system, describes the structure and function of immunoglobulins, and examines their interactions with antigens.

Offered: Resident

BIOL 421 Forensic Entomology 3 Credit Hours

Prerequisites: BIOL 225 or CJUS 330 or CJUS 340

An introductory course designed to explore the use of insects and other arthropods in the field of forensic science as it pertains to the investigations of human and animal deaths and abuse, food and other product contamination, thefts, the illegal drug trade, and unethical entomological practices. The use and presentation of this information from such investigations in court room proceedings will be discussed.

Offered: Resident

BIOL 435 Neurobiology 3 Credit Hours

Prerequisites: BIOL 301 or BIOL 313 or BIOL 385

An investigation of neurons and the nervous system. Topics include action potential, synaptic transmission and neuromodulation; the processing of sensory information in visual and auditory systems, and other senses; sensory integration and motor behaviors; neural mechanism of learning and memory, sleep/wakefulness, and reward and decision-making.

Offered: Resident

BIOL 455 Molecular Techniques 3 Credit Hours

Prerequisites: BIOL 415

This course covers the basic molecular biological techniques involved in the study of DNA, RNA, and proteins. Specific techniques include: PCR; DNA cloning; library screening; proteomics and the use of gene sequence databases; and molecular modeling. (Formerly BCHM 455)

Offered: Resident

BIOL 462 Forensic DNA Analysis Laboratory 2 Credit Hours

Prerequisites: (BIOL 301 or BIOL 361 or CHEM 321 or CJUS 330 or CJUS 340) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This integrated laboratory course will introduce the student to techniques currently used in forensic DNA FNA profiling crime laboratories. Laboratory activities include extraction and quantification of DNA from biological sources and the use of PCR-based techniques to generate DNA profiles. Additional activities will include solution preparation, sample processing, handling and preservation, recordkeeping (e.g., chain of custody), data interpretation and report generation. Other topics include the historical development of DNA typing methods, alternative procedures employed in laboratories, and the ongoing development of new DNA typing methods. Legal issues associated with quality control, frequency or probability estimates, and admissibility will also be presented.

Offered: Resident
BIOL 465 Trace Evidence 2 Credit Hours

Prerequisites: BIOL 225 or CHEM 122 or CJUS 230

This course will introduce students to the principles and methods used in the analysis of forensic trace and impression evidence. Students will evaluate trace and impression evidence, such as hairs, fibers, soil, glass, paint, firearms, ammunition components, toolmarks, and blood splatter, using various instruments (e.g., forensic comparison microscopes, fourier transform infrared (FTIR) spectroscopy, and gas chromatography/mass spectroscopy) and techniques used in Federal, state and private forensic laboratories. Emphasis will also be placed on chain of custody, reporting results and expert witness testimony.

Offered: Resident

BIOL 495 Special Problems in Biology 1-4 Credit Hours

The preparation of a paper based on library, laboratory, and/or field research of a problem selected after consultation with the biology faculty. Limited to students planning to pursue graduate studies in biology. Only four (4) hours may count toward the biology major.

Registration Restrictions: Sixteen (16) hours of biology and consent of instructor and Department Chairman.

Offered: Resident

BIOL 497 Special Topics in Biology 1-4 Credit Hours

BIOL 497 - Special Topics in Biology (1 to 3 hours)

Offered: Resident

BIOL 499 Internship 1-6 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 211 and BIOL 212)

A directed practical work experience under the supervision of the Biology Faculty Intern Advisor, in the student’s area of career interest. Applications are processed through the Biology Department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. This course is pass/fail.

Registration Restrictions: 3.00 GPA and Junior or Senior Standing and 21 hours completed in Biology (including 16 hours upper level Biology) and a declared major in the Biology and Chemistry department; not more than one CSER behind.

Offered: Resident

Biomedical Sciences (B.S.) - Global Studies - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.
Biomedical Sciences (B.S.) - Resident

**Total Hours: 83-85**

1. Courses may also fulfill select general education requirements
2. Choose a 300-400 level GLST course not already required in the major

### Graduation Requirements

- **120** Total hours
- **2.0** Overall grade point average
- **30** Hours must be upper-level courses (300-400 level)
- **Grade of ‘C’** Minimum required for all upper-level courses in the major
- **50%** Of major and cognate taken through Liberty University

- **30** Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

---

**Biomedical Sciences (B.S.) - Resident**

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

---

### Biopsychology Major (B.S.)

**Purpose**

The purpose of the Biopsychology major is to prepare students for medical school, graduate school, and employment in the cross disciplinary field of biopsychology.

**Program Learning Outcomes**

The student will be able to:

1. Apply standards and principles of safe practice in the laboratory.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental biopsychological concepts.
4. Conduct, analyze, and summarize biopsychological research.

**Program of Study**

**Delivery Format: Residential Only**

- Biopsychology (B.S.) - Resident (p. 844)

**Career Opportunities**

- Biomedical Research Laboratory Technician
- Genetic Counselor
- Neuropsychologist
- Pharmaceutical Research Technician
- Physiological Psychologist
- Physician
- Psychiatrist
- Public Health Analyst
Courses

BIOL 101 Principles of Biology 3 Credit Hours
An examination of the fundamental characteristics common among living things. Emphasis is placed upon studies of the cell, energy, metabolism, reproduction, heredity, ecology, phylogeny and the diversity of life.

BIOL 102 Principles of Human Biology 3 Credit Hours
An examination of structure, function, development and homeostatic interaction in higher organisms with special emphasis on human body systems.

BIOL 103 Principles of Biology Laboratory 1 Credit Hour
Prerequisites: BIOL 101
Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is on plant and animal cell chemistry, composition and function, organismal structure and function, biological diversity and population ecology.

BIOL 104 Principles of Human Biology Laboratory 1 Credit Hour
Prerequisites: BIOL 102
Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is placed on structure and function in higher organisms, development, behavior, parasitism, and the history of life.

BIOL 110 General Biology 4 Credit Hours

BIOL 203 Introductory Microbiology 4 Credit Hours
Prerequisites: HLTH 202 or HLTH 222 or BIOL 212 or (BIOL 215 and BIOL 216)
An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, metabolism, heredity, diversity and taxonomy. The basic concept of genetic engineering, pathogenicity, human disease, and immunology are presented.

Registration Restrictions: Restricted to Family and Consumer Sciences and health-related majors.

Offered: Resident

BIOL 203L Introductory Microbiology Lab 0 Credit Hours
Prerequisites: BIOL 203 (may be taken concurrently)
Offered: Resident

BIOL 204 Microbiology for Nursing Professionals 4 Credit Hours
Prerequisites: BIOL 215 and BIOL 216
An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, growth, heredity, diversity, and epidemiology. The basic concepts of pathogenicity, immunology, human disease, and genetic engineering are presented.

Registration Restrictions: Restricted to online students with an RN license pursuing a BSN.

BIOL 213 Human Anatomy and Physiology I 3 Credit Hours
A study of the structure and function of the human body with emphasis on cells, tissues, skin, nerves and special senses, muscle bones, and coordination and control of body movements. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 211 lecture)

Note: May not be used for general education credit except in conjunction with BIOL 215.

Offered: Resident

BIOL 214 Human Anatomy and Physiology I Lab 1 Credit Hour
Prerequisites: (BIOL 213 or (BIOL 313
Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on foundational concepts such as homeostasis, anatomical terminology, the chemistry of living things and the structure and function of cells and tissues. The integumentary, skeletal, muscular and nervous body systems are examined via hands-on exercises and dissection of preserved specimens. (Formerly BIOL 211 Lab)

Offered: Resident

BIOL 215 Human Anatomy and Physiology II 3 Credit Hours
Prerequisites: BIOL 213
A continuation of BIOL 213. A study of the structure and function of the human body with emphasis on the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 212 Lecture)

Note: May not be used for general education credit except in conjunction with BIOL 213.

Offered: Resident
BIOL 216 Human Anatomy and Physiology II Lab 1 Credit Hour

Prerequisites: BIOL 214 and (BIOL 215 (may be taken concurrently) or BIOL 313 (may be taken concurrently)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on the structure and function (including hands-on clinical analyses) of the cardiovascular, endocrine, lymphatic, respiratory, digestive, urinary and reproductive systems. Exercises include hand-on clinical analyses and dissection of preserved specimens. (Formerly BIOL 212 Lab)

Offered: Resident

BIOL 224 General Biology I 4 Credit Hours

Prerequisites: Placement Score-Math with a score of 75 or SAT Section Math with a score of 530 or (pre2016 post1995) SAT Math with a score of 500 or ACT Composite with a score of 20 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215

An introduction to the fundamental principles of Biology. Emphasis is placed upon scientific methodology; molecular, cellular and energetic bases of life; major metabolic processes; cellular and organismic reproduction; Mendelian and population genetics; speciation; phylogenetic reconstruction; ecological interactions; and a brief survey of organisms. Restricted to Biology and pre-professional students. (Formerly BIOL 200)

Offered: Resident

BIOL 224L General Biology I Lab 0 Credit Hours

Prerequisites: (pre2016 post1995) SAT Math with a score of 530 or (pre2016 post1995) SAT Math with a score of 500 or ACT Composite with a score of 20 or Placement Score-Math with a score of 75 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215 and BIOL 224 (may be taken concurrently)

Offered: Resident

BIOL 225 General Biology II 4 Credit Hours

Prerequisites: BIOL 224

Survey of the major phyla of the Kingdoms Animalia, and Protista including classification, development, morphology, anatomy, and physiology. Emphasis is placed on mammalian systems including support and movement, circulation and respiration, hormonal and nervous control, homeostasis, digestion, immunity, and reproduction. (Formerly BIOL 208)

Offered: Resident

BIOL 225L General Biology II Lab 0 Credit Hours

Prerequisites: BIOL 224 or BIOL 200 and BIOL 225 (may be taken concurrently)

Offered: Resident

BIOL 299 Internship 0 Credit Hours

A directed practical work experience under the supervision of the Chair of Biology, in the student’s area of career interest. Application processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

BIOL 301 Genetics 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122

A study of the principles of heredity with emphasis on inheritance in individuals and populations, chromosomal rearrangements, the chemistry of the gene in DNA structure and replication, transcription, translation, control of gene expression, mutations and their repair, genetic engineering and epigenetic.

Offered: Resident

BIOL 301L Genetics Lab 0 Credit Hours

Prerequisites: (BIOL 208 and CHEM 122) or (BIOL 225 and CHEM 122) or (BIOL 215 and BIOL 216 and BIOL 224 and CHEM 122)

Offered: Resident

BIOL 303 Microbiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122

An introduction to micro-organisms with emphasis on principles and techniques of culture and identification, life processes, and diversity of micro-organisms.

Offered: Resident

BIOL 305 Parasitology 4 Credit Hours

Prerequisites: BIOL 225

A study of major protozoan, helminth, and insect parasites, dealing with their form, function, life cycle, pathology, epidemiology, classification, geographical distribution, treatment and control.

Offered: Resident

BIOL 307 Plant Physiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 301

A study of the biochemical and biophysical processes of plants. Emphasis is given to plant-soil water and mineral relations, nutrient cycling, photosynthesis and carbon metabolism, and plant growth and development.

Offered: Resident
**BIOL 310 Ecology**  
4 Credit Hours  
**Prerequisites:** (BIOL 208 or BIOL 225) and (MATH 201 or MATH 211 or BUSI 230)

An examination of the interrelationships between organisms and biotic and abiotic factors in their environment. The emphasis of the lab is the collection and statistical analysis of quantitative ecological data.  
Registration Restrictions: Junior or Senior status  
**Note:** Offered fall semester.  
**Offered:** Resident

**BIOL 313 Clinical Human Anatomy**  
3 Credit Hours  
**Prerequisites:** BIOL 225

This lecture course examines the structures of the human body using both systemic and regional approaches with emphasis on clinical applications and common pathologies. Special attention is placed on gross anatomy that is important in general practice, emergency medicine and surgery while demonstrating anatomy's relationship to physical examination and diagnosis. An overview of the body systems is followed by a special focus on the thoracic, abdominal, pelvic and lower limb regions.  
**Offered:** Resident

**BIOL 316 Human Biological Variation**  
3 Credit Hours  
**Prerequisites:** BIOL 215 or BIOL 313

This course examines the anatomical, genetic, and behavioural characteristics that both unite mankind and distinguish humans from apes and other animals. Biological variation in modern and ancient man will be explored.  
**Offered:** Resident

**BIOL 317 Botany**  
4 Credit Hours  
**Prerequisites:** BIOL 224

A survey of the Fungi, Protista, and Plantae kingdoms with an emphasis on the morphology, physiology, anatomy, taxonomy, ecology, reproduction, and phylogeny of plants. The lab includes collection and analysis of experimental data on plants both in the lab and field. (Formerly BIOL 207)  
**Offered:** Resident

**BIOL 320 Introduction to Entomology**  
4 Credit Hours  
**Prerequisites:** BIOL 208 or BIOL 225 or BIOL 212 or (BIOL 215 and BIOL 216)

An introduction to the study of insects including structure, physiology, life histories, ecology and taxonomy with a special emphasis on those insects of medical and economic importance.  
**Offered:** Resident

**BIOL 321 Comparative Anatomy of the Vertebrates**  
4 Credit Hours  
**Prerequisites:** BIOL 208 or BIOL 212 or BIOL 225 or (BIOL 215 and BIOL 216)

A comparative study of the structure and relationships of vertebrate animals.  
**Offered:** Resident

**BIOL 330 Histology**  
4 Credit Hours  
**Prerequisites:** BIOL 225 or (BIOL 215 and BIOL 216)

A study of the micro-structure and function of the human body with emphasis on biochemistry, cell physiology, and organismal pathology.  
**Offered:** Resident

**BIOL 351 Forensic DNA Analysis**  
3 Credit Hours  
**Prerequisites:** CJUS 200 or BIOL 225 or CHEM 122

An introductory course designed to provide the student with an understanding of the general principles and methodologies used in forensic DNA profiling (or typing). Topics covered include the historical development of DNA profiling methods, alternative procedures employed in forensic laboratories, current DNA typing techniques, and the ongoing development of new forensic DNA typing methods. Students will learn to present forensic DNA evidence in a mock trial. The mock trial, complete with a judge, a counsel for the prosecution and for the defense, and a jury, challenges the students both scientifically and legally in a simulated courtroom setting.  
**Offered:** Resident

**BIOL 361 Vertebrate Paleontology**  
3 Credit Hours  
**Prerequisites:** BIOL 208 or BIOL 212 or (BIOL 215 and BIOL 216) or BIOL 225

BIOL 371 - Vertebrate Paleontology (3 hours) Prerequisite: BIOL 208 "C" or better; or BIOL 225 "C" or better; or BIOL 215/216 "C" or better. A study of vertebrate paleontology, including its methodology and a survey of major vertebrate fossil groups. Intended for upper-level Biology majors.  
**Offered:** Resident

**BIOL 385 Advanced Human Physiology**  
3 Credit Hours  
**Prerequisites:** BIOL 225

Human physiology is the study of the functions of the body and how it maintains homeostasis. This lecture course examines those functions from a cellular and molecular basis using a systemic approach. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive and endocrine systems. The course will be of use and interest to students intending to go to medical school or other health-related fields.  
**Offered:** Resident

**BIOL 399 Laboratory Assisting**  
0 Credit Hours
BIOL 400 Biology Seminar 1 Credit Hour

Prerequisites: BIOL 310 or BIOL 301

The preparation and presentation of a paper, discussion of presentations, and/or the discussion of articles in the scientific literature. This course can be repeated and up to 4 hours can be applied toward the major. Restricted to Biology majors and minors.

Offered: Resident

BIOL 402 Forensic Science Seminar 1 Credit Hour

Prerequisites: (BIOL 361 or CJUS 340)

Students will be exposed to topical areas in Forensic Science by presentations conducted by expert guest speakers and/or by readings and discussions of the most recent forensic techniques and applications. Seminars will help prepare students to be leaders in the field of forensic science as law enforcement professionals, crime scene investigators, or forensic laboratory specialists. An oral presentation on a research topic by each student required.

Offered: Resident

BIOL 403 Embryology 4 Credit Hours

Prerequisites: BIOL 415

Fundamentals of early development and experimental analysis of development systems and a descriptive and comparative study of organogenesis with emphasis on vertebrates.

Offered: Resident

BIOL 408 Animal Behavior 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the mechanisms and functional significance of animal behavior. Topics include: the role of genes, development, the nervous system, and the endocrine system in the expression of behavior; learning communication, orientation and navigation, and habitat selection; feeding, reproductive, and parenting strategies; mating systems and social behavior. Labs will employ both observational and experimental methods in the lab and in the field.

Offered: Resident

BIOL 410 Environmental Biology 4 Credit Hours

Prerequisites: BIOL 310 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Field and lab methods used by government and industry to assess the impact of a pollutant upon an ecosystem including toxicity testing, in stream evaluations of macro invertebrates and fish, exposure and risk assessment modeling.

Offered: Resident

BIOL 415 Cell Biology 4 Credit Hours

Prerequisites: BIOL 301 and (CHEM 301 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A study of the organization and function of living matter at the cellular level. Special emphasis will be given to the integration of molecular and cellular interactions for the maintenance of life.

Offered: Resident

BIOL 416 Comparative Animal Physiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A comparative study of the differences and similarities in the functional processes of animals belonging to various animal groups in a variety of environmental settings.

Offered: Resident

BIOL 418 Vertebrate Natural History 4 Credit Hours

Prerequisites: BIOL 208 or BIOL 225

A study of the life history of the vertebrates with special emphasis on their taxonomy, life cycles, and ecological relationships. Vertebrates native to central Virginia will receive special attention.

Offered: Resident

BIOL 419 Ornithology 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the study of birds including anatomy, physiology, life cycle, behavior, population biology, ecology, and taxonomy. The emphasis of lab will be on field techniques of identification and study of species native to Virginia.

Offered: Resident

BIOL 420 Immunology 4 Credit Hours

Prerequisites: BIOL 303 and BIOL 301

A comprehensive view of the basic principles of the immune system of living organisms, with particular emphasis on humans. It examines the cells and tissues of the immune system, describes the structure and function of immunoglobulins, and examines their interactions with antigens.

Offered: Resident
BIOL 421 Forensic Entomology 3 Credit Hours

Prerequisites: BIOL 225 or CJUS 330 or CJUS 340

An introductory course designed to explore the use of insects and other arthropods in the field of forensic science as it pertains to the investigations of human and animal deaths and abuse, food and other product contamination, thefts, the illegal drug trade, and unethical entomological practices. The use and presentation of this information from such investigations in court room proceedings will be discussed.

Offered: Resident

BIOL 435 Neurobiology 3 Credit Hours

Prerequisites: BIOL 301 or BIOL 313 or BIOL 385

An investigation of neurons and the nervous system. Topics include action potential, synaptic transmission and neuromodulation; the processing of sensory information in visual and auditory systems, and other senses; sensory integration and motor behaviors; neural mechanism of learning and memory, sleep/wakefulness, and reward and decision-making.

Offered: Resident

BIOL 455 Molecular Techniques 3 Credit Hours

Prerequisites: BIOL 415

This course covers the basic molecular biological techniques involved in the study of DNA, RNA, and proteins. Specific techniques include: PCR; DNA cloning; library screening; proteomics and the use of gene sequence databases; and molecular modeling. (Formerly BCHM 455)

Offered: Resident

BIOL 462 Forensic DNA Analysis Laboratory 2 Credit Hours

Prerequisites: (BIOL 301 or BIOL 361 or CHEM 321 or CJUS 330 or CJUS 340) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This integrated laboratory course will introduce the student to techniques currently used in forensic DNA FNA profiling crime laboratories. Laboratory activities include extraction and quantification of DNA from biological sources and the use of PCR-based techniques to generate DNA profiles. Additional activities will include solution preparation, sample processing, handling and preservation, recordkeeping (e.g., chain of custody), data interpretation and report generation. Other topics include the historical development of DNA typing methods, alternative procedures employed in laboratories, and the ongoing development of new DNA typing methods. Legal issues associated with quality control, frequency or probability estimates, and admissibility will also be presented.

Offered: Resident

BIOL 465 Trace Evidence 2 Credit Hours

Prerequisites: BIOL 225 or CHEM 122 or CJUS 230

This course will introduce students to the principles and methods used in the analysis of forensic trace and impression evidence. Students will evaluate trace and impression evidence, such as hairs, fibers, soil, glass, paint, firearms, ammunition components, toolmarks, and blood splatter, using various instruments (e.g., forensic comparison microscopes, fourier transform infrared (FTIR) spectroscopy, and gas chromatography/mass spectroscopy) and techniques used in Federal, state and private forensic laboratories. Emphasis will also be placed on chain of custody, reporting results and expert witness testimony.

Offered: Resident

BIOL 495 Special Problems in Biology 1-4 Credit Hours

The preparation of a paper based on library, laboratory, and/or field research of a problem selected after consultation with the biology faculty. Limited to students planning to pursue graduate studies in biology. Only four (4) hours may count toward the biology major.

Registration Restrictions: Sixteen (16) hours of biology and consent of instructor and Department Chairman.

Offered: Resident

BIOL 497 Special Topics in Biology 1-4 Credit Hours

BIOL 497 - Special Topics in Biology (1 to 3 hours)

Offered: Resident

BIOL 499 Internship 1-6 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 211 and BIOL 212)

A directed practical work experience under the supervision of the Biology Faculty Intern Advisor, in the student’s area of career interest. Applications are processed through the Biology Department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. This course is pass/fail.

Registration Restrictions: 3.00 GPA and Junior or Senior Standing and 21 hours completed in Biology (including 16 hours upper level Biology) and a declared major in the Biology and Chemistry department; not more than one CSER behind.

Offered: Resident

Biopsychology (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Refer to the list of approved general education electives before enrolling in foundational skill requirements
2 All students must pass the Computer Assessment OR complete applicable INFT course
3 Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived
4 PSYC 101 General Psychology (3 c.h.) is strongly recommended

### Graduation Requirements

- **120** Total hours
- **2.0** Overall grade point average
- **30** Hours must be upper-level courses (300-400 level)
- **Grade of 'C'** Minimum required for all upper-level courses in the major
- **50%** Of major taken through Liberty University
- **30** Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

### Biotechnology Major (B.S.)

#### Purpose

The purpose of the Biotechnology major is to prepare students for medical and related professional schools, graduate school, and employment in biotechnology.

#### Program Learning Outcomes

The student will be able to:
1. Apply standards and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental biotechnological concepts.
4. Conduct, analyze, and summarize biochemical or molecular research.

**Program of Study**

**Delivery Format: Residential Only**

- Biotechnology (B.S.) - Resident (p. 851)

**Career Opportunities**

- Biomedical Laboratory Supervisor
- College Professor/Researcher
- Industrial Laboratory Technician
- Laboratory Research Assistant
- Pharmacist
- Physician

**Courses**

**BIOL 101 Principles of Biology** 3 Credit Hours

An examination of the fundamental characteristics common among living things. Emphasis is placed upon studies of the cell, energy, metabolism, reproduction, heredity, ecology, phylogeny and the diversity of life.

**BIOL 102 Principles of Human Biology** 3 Credit Hours

An examination of structure, function, development and homeostatic interaction in higher organisms with special emphasis on human body systems.

**BIOL 103 Principles of Biology Laboratory** 1 Credit Hour

Prerequisites: BIOL 101

Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is on plant and animal cell chemistry, composition and function, organismal structure and function, biological diversity and population ecology.

**BIOL 104 Principles of Human Biology Laboratory** 1 Credit Hour

Prerequisites: BIOL 102

Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is placed on structure and function in higher organisms, development, behavior, parasitism, and the history of life.

**BIOL 110 General Biology** 4 Credit Hours

**BIOL 203 Introductory Microbiology** 4 Credit Hours

Prerequisites: HLTH 202 or HLTH 222 or BIOL 212 or (BIOL 215 and BIOL 216)

An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, metabolism, heredity, diversity and taxonomy. The basic concept of genetic engineering, pathogenicity, human disease, and immunology are presented.

Registration Restrictions: Restricted to Family and Consumer Sciences and health-related majors.

Offered: Resident

**BIOL 203L Introductory Microbiology Lab** 0 Credit Hours

Prerequisites: BIOL 203 (may be taken concurrently)

Offered: Resident

**BIOL 204 Microbiology for Nursing Professionals** 4 Credit Hours

Prerequisites: BIOL 215 and BIOL 216

An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, growth, heredity, diversity, and epidemiology. The basic concepts of pathogenicity, immunology, human disease, and genetic engineering are presented.

Registration Restrictions: Restricted to online students with an RN license pursuing a BSN.

**BIOL 213 Human Anatomy and Physiology I** 3 Credit Hours

A study of the structure and function of the human body with emphasis on cells, tissues, skin, nerves and special senses, muscle bones, and coordination and control of body movements. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 211 lecture)

Note: May not be used for general education credit except in conjunction with BIOL 215.

Offered: Resident

**BIOL 214 Human Anatomy and Physiology I Lab** 1 Credit Hour

Prerequisites: (BIOL 213 or BIOL 313)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on foundational concepts such as homeostasis, anatomical terminology, the chemistry of living things and the structure and function of cells and tissues. The integumentary, skeletal, muscular and nervous body systems are examined via hands-on exercises and dissection of preserved specimens. (Formerly BIOL 211 Lab)

Offered: Resident
BIOL 215 Human Anatomy and Physiology II 3 Credit Hours

Prerequisites: BIOL 213

A continuation of BIOL 213. A study of the structure and function of the human body with emphasis on the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 212 Lecture)

Note: May not be used for general education credit except in conjunction with BIOL 213.

Offered: Resident

BIOL 216 Human Anatomy and Physiology II Lab 1 Credit Hour

Prerequisites: BIOL 214 and (BIOL 215 (may be taken concurrently) or BIOL 313 (may be taken concurrently)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on the structure and function (including hands-on clinical analyses) of the cardiovascular, endocrine, lymphatic, respiratory, digestive, urinary and reproductive systems. Exercises include hand-on clinical analyses and dissection of preserved specimens. (Formerly BIOL 212 Lab)

Offered: Resident

BIOL 224 General Biology I 4 Credit Hours

Prerequisites: Placement Score-Math with a score of 75 or SAT Section Math with a score of 530 or (pre2016 post1995)SAT Math with a score of 500 or ACT Composite with a score of 20 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215

An introduction to the fundamental principles of Biology. Emphasis is placed upon scientific methodology; molecular, cellular and energetic bases of life; major metabolic processes; cellular and organismic reproduction; Mendelian and population genetics; speciation; phylogenetic reconstruction; ecological interactions; and a brief survey of organisms. Restricted to Biology and pre-professional students. (Formerly BIOL 200)

Offered: Resident

BIOL 224L General Biology I Lab 0 Credit Hours

Prerequisites: (pre2016 post1995)SAT Math with a score of 500 or SAT Section Math with a score of 530 or ACT Composite with a score of 20 or Placement Score-Math with a score of 75 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215 and BIOL 224 (may be taken concurrently)

Offered: Resident

BIOL 225 General Biology II 4 Credit Hours

Prerequisites: BIOL 224

Survey of the major phyla of the Kingdoms Animalia, and Protista including classification, development, morphology, anatomy, and physiology Emphasis is placed on mammalian systems including support and movement, circulation and respiration, hormonal and nervous control, homeostasis, digestion, immunity and reproduction. (Formerly BIOL 208)

Offered: Resident

BIOL 225L General Biology II Lab 0 Credit Hours

Prerequisites: BIOL 224 or BIOL 200 and BIOL 225 (may be taken concurrently)

Offered: Resident

BIOL 299 Internship 0 Credit Hours

A directed practical work experience under the supervision of the Chair of Biology, in the student’s area of career interest. Application processed through the Career Center. Must apply semester prior to internship.

Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

BIOL 301 Genetics 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122

A study of the principles of heredity with emphasis on inheritance in individuals and populations, chromosomal rearrangements, the chemistry of the gene in DNA structure and replication, transcription, translation, the control of gene expression, mutations and their repair, genetic engineering and epigenetic.

Offered: Resident

BIOL 301L Genetics Lab 0 Credit Hours

Prerequisites: (BIOL 208 and CHEM 122) or (BIOL 225 and CHEM 122) or (BIOL 215 and BIOL 216 and BIOL 224 and CHEM 122)

Offered: Resident

BIOL 303 Microbiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122

An introduction to micro-organisms with emphasis on principles and techniques of culture and identification, life processes, and diversity of micro-organisms.

Offered: Resident
BIOL 305 Parasitology 4 Credit Hours
Prerequisites: BIOL 225
A study of major protozoan, helminth, and insect parasites, dealing with their form, function, life cycle, pathology, epidemiology, classification, geographical distribution, treatment and control.
Offered: Resident

BIOL 307 Plant Physiology 4 Credit Hours
Prerequisites: BIOL 225 and CHEM 301
A study of the biochemical and biophysical processes of plants. Emphasis is given to plant-soil water and mineral relations, nutrient cycling, photosynthesis and carbon metabolism, and plant growth and development.
Offered: Resident

BIOL 310 Ecology 4 Credit Hours
Prerequisites: (BIOL 208 or BIOL 225) and (MATH 201 or MATH 211 or BUSI 230)
An examination of the interrelationships between organisms and biotic and abiotic factors in their environment. The emphasis of the lab is the collection and statistical analysis of quantitative ecological data. Registration Restrictions: Junior or Senior status
Note: Offered fall semester.
Offered: Resident

BIOL 313 Clinical Human Anatomy 3 Credit Hours
Prerequisites: BIOL 225
This lecture course examines the structures of the human body using both systemic and regional approaches with emphasis on clinical applications and common pathologies. Special attention is placed on gross anatomy that is important in general practice, emergency medicine and surgery while demonstrating anatomy's relationship to physical examination and diagnosis. An overview of the body systems is followed by a special focus on the thoracic, abdominal, pelvic and lower limb regions.
Offered: Resident

BIOL 316 Human Biological Variation 3 Credit Hours
Prerequisites: BIOL 215 or BIOL 313
This course examines the anatomical, genetic, and behavioural characteristics that both unite mankind and distinguish humans from apes and other animals. Biological variation in modern and ancient man will be explored.
Offered: Resident

BIOL 317 Botany 4 Credit Hours
Prerequisites: BIOL 224
A survey of the Fungi, Protista, and Plantae kingdoms with an emphasis on the morphology, physiology, anatomy, taxonomy, ecology, reproduction, and phylogeny of plants. The lab includes collection and analysis of experimental data on plants both in the lab and field. (Formerly BIOL 207)
Offered: Resident

BIOL 320 Introduction to Entomology 4 Credit Hours
Prerequisites: BIOL 208 or BIOL 225 or BIOL 212 or (BIOL 215 and BIOL 216)
An introduction to the study of insects including structure, physiology, life histories, ecology and taxonomy with a special emphasis on those insects of medical and economic importance.
Offered: Resident

BIOL 321 Comparative Anatomy of the Vertebrates 4 Credit Hours
Prerequisites: BIOL 208 or BIOL 212 or BIOL 225 or (BIOL 215 and BIOL 216)
A comparative study of the structure and relationships of vertebrate animals.
Offered: Resident

BIOL 330 Histology 4 Credit Hours
Prerequisites: BIOL 225 or (BIOL 215 and BIOL 216)
A study of the micro-structure and function of the human body with emphasis on biochemistry, cell physiology, and organismal pathology.
Offered: Resident

BIOL 361 Forensic DNA Analysis 3 Credit Hours
Prerequisites: CJUS 200 or BIOL 225 or CHEM 122
An introductory course designed to provide the student with an understanding of the general principles and methodologies used in forensic DNA profiling (or typing). Topics covered include the historical development of DNA profiling methods, alternative procedures employed in forensic laboratories, current DNA typing techniques, and the ongoing development of new forensic DNA typing methods. Students will learn to present forensic DNA evidence in a mock trial. The mock trial, complete with a judge, a counsel for the prosecution and for the defense, and a jury, challenges the students both scientifically and legally in a simulated courtroom setting.
Offered: Resident

Vertebrates native to central Virginia will receive special attention. Offered: Resident</td>
</tr>
</tbody>
</table>
BIOL 419 Ornithology 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the study of birds including anatomy, physiology, life cycle, behavior, population biology, ecology, and taxonomy. The emphasis of lab will be on field techniques of identification and study of species native to Virginia.

Offered: Resident

BIOL 420 Immunology 4 Credit Hours

Prerequisites: BIOL 303 and BIOL 301

A comprehensive view of the basic principles of the immune system of living organisms, with particular emphasis on humans. It examines the cells and tissues of the immune system, describes the structure and function of immunoglobulins, and examines their interactions with antigens.

Offered: Resident

BIOL 421 Forensic Entomology 3 Credit Hours

Prerequisites: BIOL 225 or CJUS 330 or CJUS 340

An introductory course designed to explore the use of insects and other arthropods in the field of forensic science as it pertains to the investigations of human and animal deaths and abuse, food and other product contamination, thefts, the illegal drug trade, and unethical entomological practices. The use and presentation of this information from such investigations in court room proceedings will be discussed.

Offered: Resident

BIOL 435 Neurobiology 3 Credit Hours

Prerequisites: BIOL 301 or BIOL 313 or BIOL 385

An investigation of neurons and the nervous system. Topics include action potential, synaptic transmission and neuromodulation; the processing of sensory information in visual and auditory systems, and other senses; sensory integration and motor behaviors; neural mechanism of learning and memory, sleep/wakefulness, and reward and decision-making.

Offered: Resident

BIOL 455 Molecular Techniques 3 Credit Hours

Prerequisites: BIOL 415

This course covers the basic molecular biological techniques involved in the study of DNA, RNA, and proteins. Specific techniques include: PCR; DNA cloning; library screening; proteomics and the use of gene sequence databases; and molecular modeling. (Formerly BCHM 455)

Offered: Resident

BIOL 462 Forensic DNA Analysis Laboratory 2 Credit Hours

Prerequisites: (BIOL 301 or BIOL 361 or CHEM 321 or CJUS 330 or CJUS 340) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This integrated laboratory course will introduce the student to techniques currently used in forensic DNA FNA profiling crime laboratories. Laboratory activities include extraction and quantification of DNA from biological sources and the use of PCR-based techniques to generate DNA profiles. Additional activities will include solution preparation, sample processing, handling and preservation, recordkeeping (e.g., chain of custody), data interpretation and report generation. Other topics include the historical development of DNA typing methods, alternative procedures employed in laboratories, and the ongoing development of new DNA typing methods. Legal issues associated with quality control, frequency or probability estimates, and admissibility will also be presented.

Offered: Resident

BIOL 465 Trace Evidence 2 Credit Hours

Prerequisites: BIOL 225 or CHEM 122 or CJUS 230

This course will introduce students to the principles and methods used in the analysis of forensic trace and impression evidence. Students will evaluate trace and impression evidence, such as hairs, fibers, soil, glass, paint, firearms, ammunition components, toolmarks, and blood splatter, using various instruments (e.g., forensic comparison microscopes, fourier transform infrared (FTIR) spectroscopy, and gas chromatography/mass spectroscopy) and techniques used in Federal, state and private forensic laboratories. Emphasis will also be placed on chain of custody, reporting results and expert witness testimony.

Offered: Resident

BIOL 495 Special Problems in Biology 1-4 Credit Hours

The preparation of a paper based on library, laboratory, and/or field research of a problem selected after consultation with the biology faculty. Limited to students planning to pursue graduate studies in biology. Only four (4) hours may count toward the biology major.

Registration Restrictions: Sixteen (16) hours of biology and consent of instructor and Department Chairman.

Offered: Resident

BIOL 497 Special Topics in Biology 1-4 Credit Hours

BIOL 497 - Special Topics in Biology (1 to 3 hours)

Offered: Resident
**BIOL 499 Internship**  
1-6 Credit Hours

**Prerequisites:** (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 211 and BIOL 212)

A directed practical work experience under the supervision of the Biology Faculty Intern Advisor, in the student’s area of career interest. Applications are processed through the Biology Department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. This course is pass/fail.

**Registration Restrictions:** 3.00 GPA and Junior or Senior Standing and 21 hours completed in Biology (including 16 hours upper level Biology) and a declared major in the Biology and Chemistry department; not more than one CSER behind.

**Offered:** Resident

**Biotechnology (B.S.) - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Courses may also fulfill select general education requirements

2 Choose from BCHM 452 Biochemistry II (4 c.h.), BIOL 330 Histology (4 c.h.), BIOL 403 Embryology (4 c.h.), or BIOL 420 Immunology (4 c.h.)

All applicable prerequisites must be met
Graduation Requirements
• 120 Total hours
• 2.0 Overall grade point average
• 30 Hours must be upper-level courses (300-400 level)
• Grade of 'C' Minimum required for all upper-level courses in the major
• 50% Of major taken through Liberty University
• 30 Hours must be completed through Liberty University
• Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
• CSER All requirements must be satisfied before a degree will be awarded

Chemistry Major (B.S.)

Purpose
The purpose of the Chemistry major is to prepare students for graduate school and employment in chemistry.

Program Learning Outcomes
The student will be able to:

1. Apply standards and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the physical sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental chemical concepts.
4. Conduct, analyze, and summarize chemical research.

Program of Study
Delivery Format: Residential Only
• Chemistry (B.S.) - Resident (p. 854)

Career Opportunities
• Analytical Chemist
• Chemical Laboratory Technician
• Chemical/Pharmaceutical Laboratory Supervisor
• Chemistry Teacher
• Computational/Theoretical Chemist
• Cosmetic Scientist
• Dietary Scientist
• Environmental Scientist
• Forensic Chemist/Scientist
• Government Chemist
• Laboratory Analyst
• Physician
• Principal Researcher in Chemistry
• Production Chemist
• Quality Assurance Representative
• Regulatory Agent
• Research Assistant
• Scientific Author
• Toxicologist

Courses

CHEM 105 Elements of General Chemistry
4 Credit Hours
A study of the basic areas of general chemistry at an introductory level for the non-science major, including atomic and molecular structure; bonding, stoichiometry; and acids, bases and salts.
Offered: Resident

CHEM 107 Essentials of General and Organic Chemistry
4 Credit Hours
Prerequisites: MATH 110 or MATH 201 or BUSI 230 or ACT Math with a score of 20 or (pre2016 post1995)SAT Math with a score of 550 or SAT Section Math with a score of 570 or MATH 108 or Assessment - Mathematics II with a score of 15 or MATH 121 or MATH 131 or MATH 132 or MATH 126 or Placement Score-Math with a score of 070
A study of the basics of general and organic chemistry at an introductory level, including atomic structure, bonding, acids and bases, organic functional groups and selected organic reactions.
Offered: Resident

CHEM 107L Essentials of General and Organic Chemistry Lab
0 Credit Hours
Prerequisites: CHEM 107 (may be taken concurrently)
Offered: Resident

CHEM 108 Chemistry for Nursing Professionals
4 Credit Hours
Prerequisites: MATH 110 or MATH 201 or BUSI 230 or (pre2016 post1995)SAT Math with a score of 550 or SAT Section Math with a score of 570 or ACT Math with a score of 20
A study of the basics of general and organic chemistry at an introductory level, including atomic structure, bonding, acids and bases, organic functional groups and selected organic reactions, with an emphasis on nursing applications. This course includes an independent hands-on microscale laboratory experience. Restricted to online students with an RN license pursuing a BSN.
Offered: Online

CHEM 121 General Chemistry I
4 Credit Hours
Prerequisites: MATH 121 or MATH 126 or MATH 131 or MATH 132 or ACT Composite with a score of 20 or SAT Section Math with a score of 530 or (pre2016 post1995)SAT Math with a score of 500 or Placement Score-Math with a score of 75
A study of the foundations of chemistry including: stoichiometry; atomic structure; chemical periodicity; covalent and ionic bonding; inorganic nomenclature; chemical reactions including aqueous precipitation, acid-base, and redox; basic thermodynamics in physical and chemical matter changes; electronic structure; molecular structure and polarity; gas laws.
Offered: Resident
CHEM 121L General Chemistry I Lab 0 Credit Hours
Prerequisites: CHEM 121 (may be taken concurrently)
Offered: Resident

CHEM 122 General Chemistry II 4 Credit Hours
Prerequisites: CHEM 121 and CHEM 122L (may be taken concurrently)
A study of chemical topics including: behavior and properties of liquids, colligative properties of solutions; and properties of solids; kinetics; equilibrium; acids, bases, and other aqueous equilibria; entropy and free energy in chemical reactions; electrochemistry; nuclear chemistry; introductory organic and biochemistry.
Offered: Resident

CHEM 122L General Chemistry II Lab 0 Credit Hours
Prerequisites: CHEM 121
Offered: Resident

CHEM 131 Advanced General Chemistry I 3 Credit Hours
Prerequisites: MATH 121 or MATH 125 or MATH 130 or MATH 131 or MATH 132 or MATH 217 or MATH 11X or MATH 21X or MATH 4XX or MATH 4XX or ACT Math with a score of 25 or MATH SECTION SCORE with a score of 580 or Placement Score-Math with a score of 75
An in-depth study of the fundamental principles of chemistry including: stoichiometry; atomic theory; atomic structure; chemical periodicity; nature of covalent and ionic bonding; inorganic nomenclature; chemical reactions including aqueous precipitation, acid-base, and redox; basic thermodynamics in physical and chemical matter changes; electronic structure; molecular structure and polarity; gas laws. Examples are drawn from chemical, biological and materials systems.
Offered: Resident

CHEM 132 Advanced General Chemistry II 3 Credit Hours
Prerequisites: CHEM 121 or CHEM 131
An advanced undergraduate study of chemical topics including: behavior and properties of liquids, colligative properties of solutions; and properties of solids; kinetics; equilibrium; acids, bases and other aqueous equilibria; entropy and free energy in chemical reactions; electrochemistry; nuclear chemistry; introductory organic and biochemistry.
Offered: Resident

CHEM 135 Advanced General Chemistry Lab 1 Credit Hour
Prerequisites: (CHEM 131)
Laboratory experiments are drawn from chemical and material systems which reflect the topics of the lecture course which is an in-depth experimental study of the fundamental principles of chemistry including: stoichiometry; atomic theory; atomic structure; chemical periodicity; nature of covalent and ionic bonding; inorganic nomenclature; chemical reactions including aqueous precipitation, acid-base, and redox; basic thermodynamics in physical and chemical matter changes; electronic structure; molecular structure and polarity; gas laws.
Offered: Resident

CHEM 136 Advanced General Chemistry II Lab 1 Credit Hour
Prerequisites: CHEM 121 or CHEM 135
Advanced first year undergraduate laboratory experiments are drawn from chemical and material systems which reflect the topics of the lecture course which is an in-depth experimental study of the fundamental principles of chemistry including: behavior and properties of liquids, colligative properties of solutions; and properties of solids; kinetics; equilibrium; acids, bases, and other aqueous equilibria; entropy and free energy in chemical reactions; electrochemistry; nuclear chemistry; introductory organic and biochemistry.
Offered: Resident

CHEM 301 Organic Chemistry I 4 Credit Hours
Prerequisites: CHEM 122 or (CHEM 132 and CHEM 136)
A study of alkanes, alkenes, and alkynes, including nomenclature; optical activity; stereochemistry; substitution and elimination reactions; and ring systems.
Offered: Resident

CHEM 301L Organic Chemistry I Lab 0 Credit Hours
Prerequisites: CHEM 121 and CHEM 122
Offered: Resident

CHEM 302 Organic Chemistry II 4 Credit Hours
Prerequisites: CHEM 301
A study of the nomenclature and reactions of alcohols, ethers, epoxides, ketones, aldehydes, esters and acids, aromatic systems; and numerous name reactions in synthesis.
Offered: Resident

CHEM 302L Organic Chemistry II Lab 0 Credit Hours
Prerequisites: CHEM 301
Offered: Resident
CHEM 321 Analytical Chemistry  
**Prerequisites:** CHEM 122  
An introduction to analytical chemistry. Evaluation of data, gravimetric and titrimetric analysis, and an introduction to instrumental methods. These include spectrophotometry, chromatography, and potentiometric methods. (Formerly CHEM 221)  
**Note:** Offered spring semester.  
**Offered:** Resident

CHEM 322 Instrumental Analysis  
**Prerequisites:** CHEM 321 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)  
Theory and practice of instrument-based chemical analyses. The course emphasizes the principles of analytical instruments and their applications in chemical sciences.  
**Offered:** Resident

CHEM 400 Chemistry Seminar  
**Prerequisites:** CHEM 302  
The preparation and presentation of a paper, discussion of presentations and/or the discussion of articles in the scientific literature. This course can be repeated, and up to four hours can be applied toward the major. Restricted to Chemistry majors and minors.  
**Offered:** Resident

CHEM 461 Physical Chemistry I  
**Prerequisites:** CHEM 122 and (MATH 126 or MATH 131)  
This course is an in-depth study of the properties of real and ideal gases, thermodynamics, kinetics, changes of state, solutions, phase equilibria, chemical equilibria, and electrochemistry.  
**Offered:** Resident

CHEM 462 Physical Chemistry II  
**Prerequisites:** CHEM 461  
This course is a study of the foundational principles of quantum mechanics in atoms and molecules, molecular structure, spectroscopy, and statistical mechanics.  
**Offered:** Resident

CHEM 465 Physical Chemistry I Lab  
**Prerequisites:** CHEM 461  
This course is an in-depth study of laboratory techniques and the written expression in lab reports that follow the style of papers in chemistry periodicals for the properties of real and ideal gases, thermodynamics, kinetics, changes of state, solutions, phase equilibria, chemical equilibria, and electrochemistry.  
**Offered:** Resident

CHEM 466 Physical Chemistry II Lab  
**Prerequisites:** CHEM 462  
This course is a study of the lab skills associated with the foundational principles of quantum mechanics in atoms and molecules, molecular structure, spectroscopy, and statistical mechanics.  
**Offered:** Resident

CHEM 471 Inorganic Chemistry  
**Prerequisites:** CHEM 302  
A study of inorganic chemistry, including symmetry, structure, and bonding, as well as a survey of the descriptive chemistry of the elements.  
**Offered:** Resident

CHEM 495 Supervised Research in Chemistry  
**Prerequisite:** A minimum of 24 hours of chemistry. Original research carried out under the direct supervision of faculty.  
**Offered:** Resident

CHEM 497 Special Topics in Chemistry  
**CHEM 497- Special Topics in Chemistry (3 to 4 hours)**  
**Offered:** Resident

CHEM 499 Internship  
**Offered:** Resident

---

**Chemistry (B.S.) - Resident**

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

BIBL 110 | New Testament Survey | 2
THEO 201 | Theology Survey I | 3
THEO 202 | Theology Survey II | 3
**Total Hours** | 44-47

1. Refer to the list of approved general education electives before enrolling in foundational skill requirements
2. All students must pass the Computer Assessment OR complete applicable INFT course
3. Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived

### Free Electives

Choose 0-10 credit hours of free electives

**Total Hours** | 73-85

1. Courses may also fulfill select general education requirements
2. MATH 131 Calculus and Analytic Geometry I (4 c.h.), MATH 211 Introduction to Statistical Analysis (3 c.h.), PHYS 231 University Physics I (4 c.h.) and PHYS 232 University Physics II (4 c.h.) are strongly recommended

### Graduation Requirements

- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- **Grade of 'C'** Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- **CSER** All requirements must be satisfied before a degree will be awarded

### Environmental Biology Major (B.S.)

**Purpose**

The purpose of the Environmental Biology major is to prepare students for graduate school and employment in the environmental sciences.

**Program Learning Outcomes**

The student will be able to:

1. Apply standards and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental environmental concepts.
4. Conduct, analyze, and summarize environmental research.
Programs of Study

Delivery Format: Residential Only

- Environmental Biology (B.S.) - Resident (p. 856)
- Environmental Biology (B.S.), Teacher Licensure - Resident (p. 857)

Career Opportunities

- College Professor/Researcher
- Environmental Health Worker
- Environmental Field Technician
- Environmental Lawyer
- High School Biology Teacher
- Middle School Biology Teacher

Courses

**ENVR 215 Principles of Environmental Science** 3 Credit Hours

**Prerequisites:** ACT Composite with a score of 20 or (pre2016 post1995) SAT Math with a score of 530 or SAT Section Math with a score of 530 or MATH 115

This course surveys the principle components of ecosystems and the structure and dynamics of populations and communities. These principles are then integrated and applied to environmental issues including: biological and sociological impacts of human population growth; use and management of natural resources; sources and regulation of pollution; and biological and economic aspects of conservation.

**Offered:** Resident

**ENVR 220 Physical Geology** 3 Credit Hours

An introduction to the materials and processes of the geosphere. Topics include: minerals; rocks; and geological resources; surficial features and processes; natural hazards; plate tectonics; fossils; hydrology; and soils.

**Offered:** Resident

**ENVR 221 Physical Geology Laboratory** 1 Credit Hour

A hands-on investigation of geological materials, features, and processes. Emphasis is placed on techniques to identify rock and mineral samples, utilize topographic and geologic maps, identify and interpret geological structures, and measure rates in geological settings (e.g., plate motion, erosion, and water flow). Includes local field trip(s).

**Offered:** Resident

**ENVR 320 Environment and Sustainability** 3 Credit Hours

**Prerequisites:** BIOL 101 or PHSC 210 or BIOL 225

This course surveys the major components of ecosystems and the structure and dynamics of populations and communities. These components are then integrated and applied from a sustainability perspective to environmental issues including human population growth, land, water and air resource management and use, conservation of biodiversity and energy sources and use.

**ENVR 330 Energy Resources and Efficiencies** 3 Credit Hours

**Prerequisites:** BIOL 225 or ENVR 320 or BIOL 101 or PHSC 210

An analysis of the various sources of energy (both fossil and renewable) utilized by modern societies, including the means by which these sources are acquired, produced, distributed, and consumed. Includes a survey of methods by which user-end efficiencies and/or alternatives can reduce the amount of energy consumed.

**ENVR 350 Environmental Science and Policy** 3 Credit Hours

**Prerequisites:** BIOL 101 or BIOL 225 or ENVR 320 or PHSC 210

This course will investigate the scientific and policy-based aspects of several controversial environmental issues as well as their impacts on businesses and private citizens. It will present multiple perspectives for each issue and will take a debate-style format that stimulates student interest and develops critical thinking skills. Readings and discussions will focus on the interplay between scientific results and the policies proceeding from them including the appropriateness of such policies.

**ENVR 370 Geographic Information Systems (GIS)** 3 Credit Hours

This course is designed to provide practical experience in spatial database design and analysis using Geographical Information System (GIS) as applied primarily to the environmental sciences. Topics include: the history of GIS; GIS data structures and sources of data; GIS tools; software applications; and resources. Exercises include: spatial data display and query; map generation; and simple spatial analysis using ArcGIS software.

Environmental Biology (B.S.) - Resident

**Important:** This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

Total Hours: 77-88

---

1. Refer to the list of approved general education electives before enrolling in foundational skill requirements
2. All students must pass the Computer Assessment OR complete applicable INFT course
3. Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived.

---

### Graduation Requirements

- **142 Total hours**
- **2.0 Overall grade point average**
- **35.5 Hours must be upper-level courses (300-400 level)**
- **Grade of 'C' Minimum required for all upper-level courses in the major**
- **50% Of major taken through Liberty University**
- **35.5 Hours must be completed through Liberty University**
- **Grad App** Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date

---

### Notes

- Refer to [www.liberty.edu/uguide](http://www.liberty.edu/uguide) for licensure information. 3.0 GPA required for Teacher Licensure
- All applicable prerequisites must be met
• CSER All requirements must be satisfied before a degree will be awarded

Forensic Science Major (B.S.)

Purpose
The purpose of the Forensic Science major is to prepare students for careers in federal, state and private forensic laboratories through a strong emphasis in biology, chemistry and criminal justice.

Program Learning Outcomes
The student will be able to:

1. Apply standard and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental forensic science concepts.
4. Conduct, analyze, and summarize forensic science research.

Program of Study
Delivery Format: Residential Only
• Forensic Science (B.S.) - Resident (p. 862)

Career Opportunities
• Criminal Investigator
• Criminalist
• Evidence Technician
• Forensic Chemist/Toxicologist
• Forensic Consultant
• Forensic DNA Analyst
• Forensic Entomologist
• Forensic Examiner
• Forensic Quality Assurance Specialist
• Forensic Scientist
• Microbiologist
• Serologist
• Trace Evidence Technician

Courses

CJUS 200 Introduction to Criminal Justice 3 Credit Hours
An introductory course covering an overview of the whole criminal justice system in America, including discussion of law enforcement generally, the court systems, correctional organizations, the history of law enforcement in the U.S. and some other nations, and the ethics and philosophy of criminal justice generally.

CJUS 210 Criminology 3 Credit Hours

CJUS 230 Criminal Justice Research and Writing 3 Credit Hours
This course is an introductory course to research in the social sciences, both in traditional and online venues. It covers plagiarism, APA formatting, case briefing, academic writing, formal reporting, and memoranda. A major research paper is required.

CJUS 299 Internship 0 Credit Hours
Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.

Offered: Resident

CJUS 300 Administration of Justice Organizations 3 Credit Hours
Prerequisites: (CJUS 200 and CJUS 230)

This course is designed to familiarize the student with the theoretical and practical management perspectives embraced by the American criminal justice system. This will include nature of criminal justice organizations, individual and group behavior within those organizations, processes inherent in those organizations, and areas of criminal justice reform from a Christian perspective.

Offered: Resident and Online

CJUS 300 Administration of Justice Organizations 3 Credit Hours

CJUS 310 Juvenile Justice 3 Credit Hours
Prerequisites: (CJUS 200 and CJUS 230) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This course is designed to provide an in-depth study of the juvenile justice system in the United States. The student will study the general principles of juvenile delinquency, overview of the juvenile criminal justice system, theories of delinquency, and other issues dealing with juveniles in the justice system.

Offered: Resident and Online

CJUS 320 Corrections 3 Credit Hours
Prerequisites: (CJUS 200 and CJUS 230)

This course is designed to familiarize the student with the criminal correctional system in the United States. The student will review the history of corrections and procedural, statutory, and case law of American correction.

CJUS 321 Juvenile Corrections 3 Credit Hours
Prerequisites: (CJUS 200 and CJUS 230)

Examines the extent to which juvenile correctional interventions are used. Provides an in-depth analysis of various correctional responses to juvenile offenders including diversion, community-based, and residential programs.
CJUS 322 Community Based Corrections 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
This course introduces the student to the new philosophies within corrections to establish successful rehabilitation programs in the community and outside of traditional prison settings. Students will analyze different programs that are being implemented nationally to include electronic monitoring, boot camps, and restorative justice programs.

CJUS 323 Delinquency and Crime Prevention 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
Explores various strategies for prevention of adult and juvenile crime with particular attention to the theoretical and empirical bases for these approaches. Students will develop a crime prevention plan.

CJUS 324 Legal and Ethical Issues in Juvenile Justice 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
An overview of legal issues and court decisions related to juvenile justice. An analysis of the various ethical issues surrounding juvenile justice contexts and practices.

CJUS 330 Judicial Process 3 Credit Hours
Prerequisites: (CJUS 200 and CJUS 230)
This course is designed to increase the understanding of the criminal judicial process in the United States. It includes a study of the functioning of courts, judges, lawyers and law enforcement agencies, including judicial decision-making and the impact of court decisions on the American Republic.

CJUS 340 Criminology 3 Credit Hours
Prerequisites: (CJUS 200 and CJUS 230)
This course is designed to examine theories regarding the nature and cause of criminal behavior and society’s response. It approaches crime from a philosophical, psychological, and sociological perspective. Most importantly, this course strives to integrate a theological, perspective to crime and punishment. (Formerly CJUS 210).

CJUS 350 Criminal Justice Ethics 3 Credit Hours
Prerequisites: CJUS 230 and CJUS 200
This course is designed to build upon the biblical foundations students should have developed from other courses (such as BIBL 105/110 and THEO 200/201) and enhance foundational ethical considerations into more developed and practical notions of right behavior within the realm of criminal justice praxis.

CJUS 360 Introduction to Forensics 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
An introductory overview of forensics and how it is applied to the justice system by law enforcement agencies. This course demonstrates the importance of documenting physical evidence and identifying various kinds of evidence such as: fingerprints, trace, tool marks, DNA, etc.

CJUS 361 Crime Scene Photography 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
Students will learn and apply principles of photography in digital format. Within the field of forensic science, the use and understanding of photography is essential. The course will focus on the areas of aerial, underwater, and macro photography as used to document and present criminal investigations. Students must have access to a digital camera that has aperture settings (example: Sony P200) and a tripod.

CJUS 362 Crime Scene Management 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
This course will address critical thinking, resource management, supervision, and investigative failures in criminal investigations. A detailed explanation of how to effectively manage a forensics investigation and how to preserve and present evidence will be covered.

CJUS 363 Computer and Cyber Forensics 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
The course will focus on the role of computer forensics and the methods used in the investigation of computer crimes. The course explains the need for proper investigation and illustrates the process of locating, handling, and processing computer evidence.

CJUS 380 Introduction to Homeland Security 3 Credit Hours
Prerequisites: CJUS 200 and CJUS 230
An introduction to the public and private sector dimension of the broad range theoretical and practical aspects of homeland security and emergency management, including: origins of natural and terrorist-caused disasters; local, state, and federal emergency management planning and operations; health infrastructure capabilities, public communication strategies; business community concerns; ethical, legal, and constitutional questions; as well as the social and psychological dimensions of disasters. NRF, NIMS, ICS, IC, and UC will be examined. Further, national and association standards found in agencies and documents such as Presidential Directives, NFPA 1600, IAEM, and IACP will be examined.
CJUS 381 Incident Command System/Emergency Planning and Incident Management 3 Credit Hours

Prerequisites: CJUS 200 and CJUS 230 and CJUS 380

An introduction to the basic tasks of emergency preparedness and disaster mitigation, including planning, response, and recovery. Special emphasis will be placed on command arrangements, coordination, and budgetary issues among emergency responders (law enforcement, firefighters, transportation, public works, and health care system officials), and within and between federal, state, and local governments.

CJUS 382 Critical Infrastructure Protection 3 Credit Hours

Prerequisites: CJUS 200 and CJUS 230 and CJUS 380

Identification, prioritization, and protection of critical infrastructure including agriculture, cyber and information technology, telecommunications, chemical, transportation, energy, water, medical, emergency services, and postal and shipping. Impact on personal safety, structural integrity and security, and economic performance.

CJUS 383 Behavioral Dimensions of Disaster 3 Credit Hours

Prerequisites: CJUS 200 and CJUS 230 and CJUS 380

This course focuses on the sociological, psychological, and physiological human responses to natural and human-made disasters. Students will examine normal and abnormal psychological reactions, the recovery process, and principles of mental health care for victims and responders of disasters. Differences between natural and human-made disasters are examined and factors that mitigate post-traumatic effects are reviewed. Response of the public and individuals to disaster-related issues including: disaster warning, evacuations, relations, civil unrest, loss of family and property, and recovery activities are examined. Sociological and psychological aspects of Weapons of Mass Destruction (WMD) disasters are also considered. Students develop an awareness of the effect of human influence and behavior on disaster response and recovery.

CJUS 400 Criminal Law 3 Credit Hours

Prerequisites: (CJUS 200 and CJUS 230) or (GOVT 200 and GOVT 346)

This course is designed to provide an overview of the legal elements that apply to criminal law, procedure, and evidence, including proof, intent, conspiracy, classifications of crimes and related punishments, culpable mental states, defenses, rules of evidence (including the exclusionary rule), and rights and procedures in the gathering of evidence.

CJUS 405 Interview and Interrogation 3 Credit Hours

Prerequisites: CJUS 200 and CJUS 230

CJUS 405 - Interview and Interrogation (3 hours) Prerequisites: CJUS 200 and 230; Upper Division Standing. This class is an advanced exploration of the mechanics of interview and interrogation. The class instruction will focus on behavior symptom analysis, interviewer characteristics and interview environment, interviewing protocol, factual analysis, evaluating the alibi, the Behavioral Analysis Interview, and the Reid Nine Steps of Interrogation. (Note: Extra costs above tuition and fees apply.)

CJUS 410 Constitutional Criminal Procedure 3 Credit Hours

Prerequisites: (CJUS 230 and CJUS 200) or (GOVT 200 and GOVT 346)

This course is designed to study the constitutional provisions and Supreme Court decisions affecting law enforcement procedure, including due process of law generally, arrest, charges, right to counsel, search and seizure, identification, bail, trial and post-trial proceedings, and post-conviction appeals. The course also investigates civil liability for acts of law enforcement personnel.

CJUS 420 Criminal Investigations I 3 Credit Hours

Prerequisites: (CJUS 200 and CJUS 230)

This course will address the constitutional requirements for conducting criminal investigations, essential techniques for processing a crime scene, and methodology for collecting evidence via subpoenas and interviews.

Note: Offered fall semester.

CJUS 421 Criminal Investigations II 3 Credit Hours

Prerequisites: (CJUS 230 and CJUS 420) or (GOVT 346 and CJUS 420)

This course will apply the concepts addressed in CJUS 420 to specific crimes, including arson, rape, robbery, and murder. Additionally, the course examines the practices and procedures associated with the management of complex criminal investigations.

Note: Offered spring semester only.

Offered: Resident

CJUS 422 Forensics Colloquium 1 Credit Hour

Prerequisites: CJUS 230 and CJUS 200

This course is a collection of practically oriented lectures, demonstrations, and short films specifically tailored to students interested in the application of scientific processes in identifying, locating, apprehending, and prosecuting criminal offenders. It will draw on practitioners within the various fields of the forensic science, police, prosecutors, and defense attorneys. This course is elective. Criminal Justice majors should consider enrolling for three semesters.

Offered: Resident

CJUS 440 Criminal Investigations 3 Credit Hours

Prerequisites: (CJUS 200 and CJUS 230) or (CJUS 200 and GOVT 346)
CJUS 450 Comparative Criminal Justice Field Study 3 Credit Hours

Prerequisites: (CJUS 200 and CJUS 230) or (CJUS 200 and GOVT 346)

This course is a predominantly on-site investigation into the institutions, processes, and practices of criminal justice in various foreign countries. It seeks to examine the historical development of criminal justice, the cross-cultural and economic impact of international crime, and competing notions of justice, crime, and punishment. This course is offered annually or bi-annually, as needed.

Note: Summer term only.

Offered: Resident

CJUS 497 Special Topics 3 Credit Hours

Prerequisites: (CJUS 200 and CJUS 230) or (CJUS 200 and GOVT 346) or (CJUS 200 and GOVT 346)

CJUS 497 - Special Topics (3 hours) Prerequisite CJUS 200 & 230.

Offered: Resident

CJUS 499 Criminal Justice Internship 1-6 Credit Hours

Prerequisites: CJUS 230

Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.

Registration Restrictions: Junior or senior status and required GPA.

Offered: Resident

Forensic Science (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1. Courses may also fulfill select general education requirements
2. Choose a minimum of 7 credit hours from the following courses:
   - BCHM 451 Biochemistry I (4 c.h.), BCHM 452 Biochemistry II (4 c.h.),
   - BIOL 316 Human Biological Variation (3 c.h.), BIOL 455 Molecular Techniques (3 c.h.), BIOL 495 Special Problems in Biology (1-4 c.h.),
   - CHEM 322 Instrumental Analysis (4 c.h.), CHEM 461 Physical Chemistry I (3 c.h.) and CHEM 462 Physical Chemistry II (3 c.h.),
   - CHEM 465 Physical Chemistry I Lab (1 c.h.) and CHEM 466 Physical Chemistry II Lab (1 c.h.), or CHEM 471 Inorganic Chemistry (4 c.h.)

All applicable prerequisites must be met

**Graduation Requirements**

- 120 Total hours
- 2.0 Overall grade point average
- 30 Hours must be upper-level courses (300-400 level)
- Grade of ‘C’ Minimum required for all upper-level courses in the major
- 50% Of major taken through Liberty University
- 30 Hours must be completed through Liberty University
- Grad App Submission of Degree Completion Application must be completed within the last semester of a student’s anticipated graduation date
- CSER All requirements must be satisfied before a degree will be awarded

**General Biology Major (B.S.)**

**Purpose**

The purpose of the Biology major is to prepare students for medical and related professional schools, graduate school, and employment in the biological sciences or in teaching.

**Program Learning Outcomes**

The student will be able to:

1. Apply standards and principles of safe practice in the laboratory or field environment.
2. Understand ethical issues in the life sciences in light of a biblical/Christian worldview.
3. Demonstrate knowledge of fundamental biological concepts.
4. Conduct, analyze, and summarize biological research.

**Programs of Study**

**Delivery Format: Residential Only**

- General Biology (B.S.) - Resident (p. 868)
- General Biology (B.S.), Teacher Licensure - Resident (p. 869)

**Career Opportunities**

- Agricultural Biotechnologist
- Biomedical Laboratory Supervisor
- Environmental Scientist
- High School Biology Teacher
- Middle School Science Teacher
- Veterinarian

**Courses**

**BIOL 101 Principles of Biology** 3 Credit Hours

An examination of the fundamental characteristics common among living things. Emphasis is placed upon studies of the cell, energy, metabolism, reproduction, heredity, ecology, phylogeny and the diversity of life.

**BIOL 102 Principles of Human Biology** 3 Credit Hours

An examination of structure, function, development and homeostatic interaction in higher organisms with special emphasis on human body systems.

**BIOL 103 Principles of Biology Laboratory** 1 Credit Hour

Prerequisites: BIOL 101

Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is on plant and animal cell chemistry, composition and function, organismal structure and function, biological diversity and population ecology.

**BIOL 104 Principles of Human Biology Laboratory** 1 Credit Hour

Prerequisites: BIOL 102

Laboratory exercises selected to demonstrate basic biological concepts. Emphasis is placed on structure and function in higher organisms, development, behavior, parasitism, and the history of life.

**Offered:** Resident

**BIOL 110 General Biology** 4 Credit Hours
BIOL 203 Introductory Microbiology 4 Credit Hours

**Prerequisites:** HLTH 202 or HLTH 222 or BIOL 212 or (BIOL 215 and BIOL 216)

An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, metabolism, heredity, diversity and taxonomy. The basic concept of genetic engineering, pathogenicity, human disease, and immunology are presented.

**Registration Restrictions:** Restricted to Family and Consumer Sciences and health-related majors.

**Offered:** Resident

BIOL 203L Introductory Microbiology Lab 0 Credit Hours

**Prerequisites:** BIOL 203 (may be taken concurrently)

**Offered:** Resident

BIOL 204 Microbiology for Nursing Professionals 4 Credit Hours

**Prerequisites:** BIOL 215 and BIOL 216

An examination of the fundamental principles of microscopic organisms. Microorganisms are examined with regard to cell structure, growth, heredity, diversity, and epidemiology. The basic concepts of pathogenicity, immunology, human disease, and genetic engineering are presented.

**Registration Restrictions:** Restricted to online students with an RN license pursuing a BSN.

BIOL 213 Human Anatomy and Physiology I 3 Credit Hours

A study of the structure and function of the human body with emphasis on cells, tissues, skin, nerves and special senses, muscle, bones, and coordination and control of body movements. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 211 lecture)

**Note:** May not be used for general education credit except in conjunction with BIOL 215.

**Offered:** Resident

BIOL 214 Human Anatomy and Physiology I Lab 1 Credit Hour

**Prerequisites:** (BIOL 213 or BIOL 313)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on foundational concepts such as homeostasis, anatomical terminology, the chemistry of living things and the structure and function of cells and tissues. The integumentary, skeletal, muscular and nervous body systems are examined via hands-on exercises and dissection of preserved specimens. (Formerly BIOL 211 Lab)

**Offered:** Resident

BIOL 215 Human Anatomy and Physiology II 3 Credit Hours

**Prerequisites:** BIOL 213

A continuation of BIOL 213. A study of the structure and function of the human body with emphasis on the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems. Concepts in physiology, including the maintenance of homeostasis, will be discussed. (Formerly BIOL 212 Lecture)

**Note:** May not be used for general education credit except in conjunction with BIOL 213.

**Offered:** Resident

BIOL 216 Human Anatomy and Physiology II Lab 1 Credit Hour

**Prerequisites:** BIOL 214 and (BIOL 215 (may be taken concurrently) or BIOL 313 (may be taken concurrently)

Laboratory exercises selected to demonstrate principles of human anatomy and physiology. Emphasis is placed on the structure and function (including hands-on clinical analyses) of the cardiovascular, endocrine, lymphatic, respiratory, digestive, urinary and reproductive systems. Exercises include hand-on clinical analyses and dissection of preserved specimens. ( Formerly BIOL 212 Lab)

**Offered:** Resident

BIOL 224 General Biology I 4 Credit Hours

**Prerequisites:** Placement Score-Math with a score of 75 or SAT Section Math with a score of 530 or (pre2016 post1995) SAT Math with a score of 500 or ACT Composite with a score of 20 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215

An introduction to the fundamental principles of Biology. Emphasis is placed upon scientific methodology; molecular, cellular and energetic bases of life; major metabolic processes; cellular and organismic reproduction; Mendelian and population genetics; speciation; phylogenetic reconstruction; ecological interactions; and a brief survey of organisms. Restricted to Biology and pre-professional students. (Formerly BIOL 200)

**Offered:** Resident

BIOL 224L General Biology I Lab 0 Credit Hours

**Prerequisites:** (pre2016 post1995)SAT Math with a score of 500 or SAT Section Math with a score of 530 or ACT Composite with a score of 20 or Placement Score-Math with a score of 75 or MATH 121 or MATH 122 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 201 or MATH 2XX or (BIOL 101 and BIOL 103) or BIOL 215 and BIOL 224 (may be taken concurrently)

**Offered:** Resident
BIOL 225 General Biology II 4 Credit Hours

Prerequisites: BIOL 224
Survey of the major phyla of the Kingdoms Animalia, and Protista including classification, development, morphology, anatomy, and physiology. Emphasis is placed on mammalian systems including support and movement, circulation and respiration, hormonal and nervous control, homeostasis, digestion, immunity and reproduction. (Formerly BIOL 208)
Offered: Resident

BIOL 225L General Biology II Lab 0 Credit Hours

Prerequisites: BIOL 224 or BIOL 200 and BIOL 225 (may be taken concurrently)
Offered: Resident

BIOL 299 Internship 0 Credit Hours
A directed practical work experience under the supervision of the Chair of Biology, in the student’s area of career interest. Application processed through the Career Center. Must apply semester prior to internship.
Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind.
Offered: Resident

BIOL 301 Genetics 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122
A study of the principles of heredity with emphasis on inheritance in individuals and populations, chromosomal rearrangements, the chemistry of the gene in DNA structure and replication, transcription, translation, the control of gene expression, mutations and their repair, genetic engineering and epigenetic.
Offered: Resident

BIOL 301L Genetics Lab 0 Credit Hours

Prerequisites: (BIOL 208 and CHEM 122) or (BIOL 225 and CHEM 122) or (BIOL 215 and BIOL 216 and BIOL 224 and CHEM 122)
Offered: Resident

BIOL 303 Microbiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122
An introduction to micro-organisms with emphasis on principles and techniques of culture and identification, life processes, and diversity of micro-organisms.
Offered: Resident

BIOL 305 Parasitology 4 Credit Hours

Prerequisites: BIOL 225
A study of major protozoan, helminth, and insect parasites, dealing with their form, function, life cycle, pathology, epidemiology, classification, geographical distribution, treatment and control.
Offered: Resident

BIOL 307 Plant Physiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 301
A study of the biochemical and biophysical processes of plants. Emphasis is given to plant-soil water and mineral relations, nutrient cycling, photosynthesis and carbon metabolism, and plant growth and development.
Offered: Resident

BIOL 310 Ecology 4 Credit Hours

Prerequisites: (BIOL 208 or BIOL 225) and (MATH 201 or MATH 211 or BUSI 230)
An examination of the interrelationships between organisms and biotic and abiotic factors in their environment. The emphasis of the lab is the collection and statistical analysis of quantitative ecological data. Registration Restrictions: Junior or Senior status
Note: Offered fall semester.
Offered: Resident

BIOL 313 Clinical Human Anatomy 3 Credit Hours

Prerequisites: BIOL 225
This lecture course examines the structures of the human body using both systemic and regional approaches with emphasis on clinical applications and common pathologies. Special attention is placed on gross anatomy that is important in general practice, emergency medicine and surgery while demonstrating anatomy’s relationship to physical examination and diagnosis. An overview of the body systems is followed by a special focus on the thoracic, abdominal, pelvic and lower limb regions.
Offered: Resident

BIOL 316 Human Biological Variation 3 Credit Hours

Prerequisites: BIOL 215 or BIOL 313
This course examines the anatomical, genetic, and behavioural characteristics that both unite mankind and distinguish humans from apes and other animals. Biological variation in modern and ancient man will be explored.
Offered: Resident
BIOL 317 Botany 4 Credit Hours
Prerequisites: BIOL 224
A survey of the Fungi, Protista, and Plantae kingdoms with an emphasis on the morphology, physiology, anatomy, taxonomy, ecology, reproduction, and phylogeny of plants. The lab includes collection and analysis of experimental data on plants both in the lab and field. (Formerly BIOL 207)
Offered: Resident

BIOL 320 Introduction to Entomology 4 Credit Hours
Prerequisites: BIOL 208 or BIOL 225 or BIOL 212 or (BIOL 215 and BIOL 216)
An introduction to the study of insects including structure, physiology, life histories, ecology and taxonomy with a special emphasis on those insects of medical and economic importance.
Offered: Resident

BIOL 321 Comparative Anatomy of the Vertebrates 4 Credit Hours
Prerequisites: BIOL 208 or BIOL 212 or BIOL 225 or (BIOL 215 and BIOL 216)
A comparative study of the structure and relationships of vertebrate animals.
Offered: Resident

BIOL 330 Histology 4 Credit Hours
Prerequisites: BIOL 225 or (BIOL 215 and BIOL 216)
A study of the micro-structure and function of the human body with emphasis on biochemistry, cell physiology, and organismal pathology.
Offered: Resident

BIOL 361 Forensic DNA Analysis 3 Credit Hours
Prerequisites: CJUS 200 or BIOL 225 or CHEM 122
An introductory course designed to provide the student with an understanding of the general principles and methodologies used in forensic DNA profiling (or typing). Topics covered include the historical development of DNA profiling methods, alternative procedures employed in forensic laboratories, current DNA typing techniques, and the ongoing development of new forensic DNA typing methods. Students will learn to present forensic DNA evidence in a mock trial. The mock trial, complete with a judge, a counsel for the prosecution and for the defense, and a jury, challenges the students both scientifically and legally in a simulated courtroom setting.
Offered: Resident

BIOL 371 Vertebrate Paleontology 3 Credit Hours
Prerequisites: BIOL 208 or BIOL 212 or (BIOL 215 and BIOL 216) or BIOL 225
BIOL 371 - Vertebrate Paleontology (3 hours) Prerequisite: BIOL 208 "C" or better, or BIOL 225 "C" or better, or BIOL 215/216 "C" or better. A study of vertebrate paleontology, including its methodology and a survey of major vertebrate fossil groups. Intended for upper-level Biology majors.
Offered: Resident

BIOL 385 Advanced Human Physiology 3 Credit Hours
Prerequisites: BIOL 225
Human physiology is the study of the functions of the body and how it maintains homeostasis. This lecture course examines those functions from a cellular and molecular basis using a systemic approach. Special attention is placed on medically vital systems including the nervous, cardiovascular, respiratory, digestive and endocrine systems. The course will be of use and interest to students intending to go to medical school or other health-related fields.
Offered: Resident

BIOL 399 Laboratory Assisting 0 Credit Hours

BIOL 400 Biology Seminar 1 Credit Hour
Prerequisites: BIOL 310 or BIOL 301
The preparation and presentation of a paper, discussion of presentations, and/or the discussion of articles in the scientific literature. This course can be repeated and up to 4 hours can be applied toward the major. Restricted to Biology majors and minors.
Offered: Resident

BIOL 402 Forensic Science Seminar 1 Credit Hour
Prerequisites: (BIOL 361 or CJUS 340
Students will be exposed to topical areas in Forensic Science by presentations conducted by expert guest speakers and/or by readings and discussions of the most recent forensic techniques and applications. Seminars will help prepare students to be leaders in the field of forensic science as law enforcement professionals, crime scene investigators, or forensic laboratory specialists. An oral presentation on a research topic by each student required.
Offered: Resident

BIOL 403 Embryology 4 Credit Hours
Prerequisites: BIOL 415
Fundamentals of early development and experimental analysis of development systems and a descriptive and comparative study of organogenesis with emphasis on vertebrates.
Offered: Resident
BIOL 408 Animal Behavior 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the mechanisms and functional significance of animal behavior. Topics include: the role of genes, development, the nervous system, and the endocrine system in the expression of behavior; learning communication, orientation and navigation, and habitat selection; feeding, reproductive, and parenting strategies; mating systems and social behavior. Labs will employ both observational and experimental methods in the lab and in the field.

Offered: Resident

BIOL 410 Environmental Biology 4 Credit Hours

Prerequisites: BIOL 310 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

Field and lab methods used by government and industry to assess the impact of a pollutant upon an ecosystem including toxicity testing, in stream evaluations of macro invertebrates and fish, exposure and risk assessment modeling.

Offered: Resident

BIOL 415 Cell Biology 4 Credit Hours

Prerequisites: BIOL 301 and (CHEM 301 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A study of the organization and function of living matter at the cellular level. Special emphasis will be given to the integration of molecular and cellular interactions for the maintenance of life.

Offered: Resident

BIOL 416 Comparative Animal Physiology 4 Credit Hours

Prerequisites: BIOL 225 and CHEM 122 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

A comparative study of the differences and similarities in the functional processes of animals belonging to various animal groups in a variety of environmental settings.

Offered: Resident

BIOL 418 Vertebrate Natural History 4 Credit Hours

Prerequisites: BIOL 208 or BIOL 225

A study of the life history of the vertebrates with special emphasis on their taxonomy, life cycles, and ecological relationships. Vertebrates native to central Virginia will receive special attention.

Offered: Resident

BIOL 419 Ornithology 4 Credit Hours

Prerequisites: BIOL 225

An introduction to the study of birds including anatomy, physiology, life cycle, behavior, population biology, ecology, and taxonomy. The emphasis of lab will be on field techniques of identification and study of species native to Virginia.

Offered: Resident

BIOL 420 Immunology 4 Credit Hours

Prerequisites: BIOL 303 and BIOL 301

A comprehensive view of the basic principles of the immune system of living organisms, with particular emphasis on humans. It examines the cells and tissues of the immune system, describes the structure and function of immunoglobulins, and examines their interactions with antigens.

Offered: Resident

BIOL 421 Forensic Entomology 3 Credit Hours

Prerequisites: BIOL 225 or CJUS 330 or CJUS 340

An introductory course designed to explore the use of insects and other arthropods in the field of forensic science as it pertains to the investigations of human and animal deaths and abuse, food and other product contamination, thefts, the illegal drug trade, and unethical entomological practices. The use and presentation of this information from such investigations in court room proceedings will be discussed.

Offered: Resident

BIOL 435 Neurobiology 3 Credit Hours

Prerequisites: BIOL 301 or BIOL 313 or BIOL 385

An investigation of neurons and the nervous system. Topics include action potential, synaptic transmission and neuromodulation; the processing of sensory information in visual and auditory systems, and other senses; sensory integration and motor behaviors; neural mechanism of learning and memory, sleep/wakefulness, and reward and decision-making.

Offered: Resident

BIOL 455 Molecular Techniques 3 Credit Hours

Prerequisites: BIOL 415

This course covers the basic molecular biological techniques involved in the study of DNA, RNA, and proteins. Specific techniques include: PCR; DNA cloning; library screening; proteomics and the use of gene sequence databases; and molecular modeling. (Formerly BCHM 455)

Offered: Resident
BIOL 462 Forensic DNA Analysis Laboratory 2 Credit Hours

Prerequisites: (BIOL 301 or BIOL 361 or CHEM 321 or CJUS 330 or CJUS 340) and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)

This integrated laboratory course will introduce the student to techniques currently used in forensic DNA FNA profiling crime laboratories. Laboratory activities include extraction and quantification of DNA from biological sources and the use of PCR-based techniques to generate DNA profiles. Additional activities will include solution preparation, sample processing, handling and preservation, recordkeeping (e.g., chain of custody), data interpretation and report generation. Other topics include the historical development of DNA typing methods, alternative procedures employed in laboratories, and the ongoing development of new DNA typing methods. Legal issues associated with quality control, frequency or probability estimates, and admissibility will also be presented.

Offered: Resident

BIOL 465 Trace Evidence 2 Credit Hours

Prerequisites: BIOL 225 or CHEM 122 or CJUS 230

This course will introduce students to the principles and methods used in the analysis of forensic trace and impression evidence. Students will evaluate trace and impression evidence, such as hairs, fibers, soil, glass, paint, firearms, ammunition components, toolmarks, and blood splatter, using various instruments (e.g., forensic comparison microscopes, fourier transform infrared (FTIR) spectroscopy, and gas chromatography/mass spectroscopy) and techniques used in Federal, state and private forensic laboratories. Emphasis will also be placed on chain of custody, reporting results and expert witness testimony.

Offered: Resident

BIOL 495 Special Problems in Biology 1-4 Credit Hours

The preparation of a paper based on library, laboratory, and/or field research of a problem selected after consultation with the biology faculty. Limited to students planning to pursue graduate studies in biology. Only four (4) hours may count toward the biology major.

Registration Restrictions: Sixteen (16) hours of biology and consent of instructor and Department Chairman.

Offered: Resident

BIOL 497 Special Topics in Biology 1-4 Credit Hours

BIOL 497 - Special Topics in Biology (1 to 3 hours)

Offered: Resident

BIOL 499 Internship 1-6 Credit Hours

Prerequisites: (BIOL 200 and BIOL 207 and BIOL 208) or (BIOL 200 and BIOL 211 and BIOL 212)

A directed practical work experience under the supervision of the Biology Faculty Intern Advisor, in the student’s area of career interest. Applications are processed through the Biology Department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship. This course is pass/fail.

Registration Restrictions: 3.00 GPA and Junior or Senior Standing and 21 hours completed in Biology (including 16 hours upper level Biology) and a declared major in the Biology and Chemistry department; not more than one CSER behind.

Offered: Resident

General Biology (B.S.) - Resident

Important: This degree plan is effective for those starting this degree program in fall 2019 through summer 2020. This degree plan will remain in effect for students who do not break enrollment or who do not change degree programs, concentrations, or cognates.

1 Refer to the list of approved general education electives before enrolling in foundational skill requirements
All students must pass the Computer Assessment OR complete applicable INFT course

Students transferring in 45 or more UG credit hours will have the requirements of RLGN 105 Introduction to Biblical Worldview (2 c.h.) and EVAN 101 Evangelism and the Christian Life (2 c.h.) waived; Students transferring in 60 or more UG credit hours will also have the requirements of THEO 201 Theology Survey I (2 c.h.) and THEO 202 Theology Survey II (2 c.h.) waived.
