

AVIATION MANAGEMENT MAJOR (B.S.)

Purpose

The purpose of the Bachelor of Science in Aviation Management major is to train men and women who have an interest in aviation without a desire to be a pilot by combining aviation management and business administration coursework.

Program Learning Outcomes

The student will be able to:

- Apply biblical principles within the professional aviation environment.
- Apply written and oral communication skills as they pertain to the aviation industry.
- Promote a healthy organizational safety culture in aviation.
- Mentor others in leadership skills and qualities as it relates to aviation.
- Assimilate the healthy lifestyle required to meet the unique physical and cognitive demands of an aviation career.
- Apply science, technology, and mathematics to aeronautical disciplines.
- Make aviation/aerospace industry decisions that comply with federal aviation regulations.
