

# BIBLE MAJOR (B.S.)

---

## Purpose

The Bachelor of Science in Bible major provides students with foundational training in the field of the Bible. Students to gain the knowledge and skills necessary to interpret each major genre of the Old and New Testaments, as well as those skills needed for teaching in vocational and pastoral ministry. Graduates of this program will learn that the Bible must serve as the foundation for all they do in their daily lives, their vocations, and their ministry roles.

## Program Learning Outcomes

The student will be able to:

- Explain key features of the historical and cultural context of the Bible.
- Apply knowledge of the structure and content of the Bible.
- Apply the principles of biblical interpretation.
