

ECONOMICS (ECON)

ECON 110 Survey of Economics 3 Credit Hour(s)

A survey of general economic principles and concepts for non-business majors. Presents an overview of theories and applications in microeconomics and macroeconomics. Market economic system is introduced and comparison with other economic systems are provided.

Offered: Resident and Online

ECON 213 Principles of Microeconomics 3 Credit Hour(s)

Free market thought will be evaluated from the Christian perspective. The supply and demand model is used to analyze microeconomic issues including market structures, government regulations, labor market, financial market, and international trade.

Offered: Resident and Online

ECON 214 Principles of Macroeconomics 3 Credit Hour(s)

The aggregate supply and demand model is used to analyze macroeconomic problems including business cycles, unemployment, and inflation. Government fiscal and monetary policies that may stabilize the economy are introduced and evaluated. The U.S. financial system and the value of U.S. dollar in the foreign exchange market are covered.

Offered: Resident and Online

ECON 350 Classical Economics 3 Credit Hour(s)

This course is open to students who desire to further understand the concepts and tools of economic analysis. Classical Economics will also be investigated from the perspective of the Christian Worldview. Specific topics include examination of the social philosophy of classical economics, classical macroeconomics, classical microeconomics, classical methodology, the classical economists Sismondi and Mill, the mysteries of Marxian economics and finally thoughts on the history of economics.

Offered: Online
