PSYCHOLOGY (PSYC)

PSYC 101 General Psychology  3 Credit Hour(s)
Introduction to Psychology as a scientific discipline concerned with the study of behavior. Consideration will be given to such topics as human development, motivation, emotion, perception, learning, personality, intelligence, measurement and applied areas.
Offered: Resident and Online

PSYC 150 Psychology of Relationship Development  3 Credit Hour(s)
Relationships interact with one's identity, attachment style, boundary formation, emotional well-being, and worldview. Therefore, an understanding of relationship development and maintenance are essential to the successful navigation of life. This interactive course reviews healthy relationship concepts and practices in research and Scripture and encourages strategies to adjust potential deficits in developing healthy relationships.
Offered: Resident

PSYC 200 General Psychology  3 Credit Hour(s)
PSYC 210 Developmental Psychology  3 Credit Hour(s)
An overview of the human life span from conception through senescence. Continuity of development as well as critical periods faced by the maturing human will be emphasized using contemporary theories and research as foundation materials.
Offered: Resident and Online

PSYC 221 Psychology of Childhood  3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
A study of child growth and development from birth to puberty. Examination of the basic theories principles and practices of childhood training and education.
Offered: Resident and Online

PSYC 231 Psychology of Adolescence  3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
An investigation of the psychological and environmental factors related to puberty, peer identification and identity conflict in the adolescent. Emphasis will be upon the development of self-identity and the problems faced by the American adolescent.
Offered: Resident and Online

PSYC 235 Psychology of Adulthood  3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
The focus will be on viewing adult development as an integrative, dynamic and continuous process terminated only at death. The whole span of adulthood will be examined, including retirement and old age.
Offered: Resident and Online

PSYC 255 Introduction to Research  3 Credit Hour(s)
Prerequisite: PSYC 200 or PSYC 210 or PSYC 101 or GEED 201
An introduction to psychological research techniques and methodology designed to improve students' understanding of the basic issues in the scientific methods of the social sciences. The goals of the course are: to improve students' understanding of the concepts related to research methodology; to improve the students' ability to communicate ideas about science, including a significant amount of writing; and survey of both quantitative and qualitative research methods.
Offered: Resident and Online

PSYC 299 Internship  0 Credit Hour(s)
Prerequisite: PSYC 255
Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinic settings and through exposure/intern opportunities. Application procedures processed through the Career Center. Must apply semester prior to internship.
Registration Restrictions: Sophomore status, 2.00 GPA, two courses in major, declared major, not more than one CSER behind
Offered: Resident and Online

PSYC 305 Overview of Theory and Treatment of Substance Abuse  3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255
This course includes a thorough examination of the theoretical models of addiction, the introduction to the neurobiology of addiction, the addiction cycle, the evaluation and treatment of addictions, and the trauma that occurs with addictions.
Offered: Resident and Online

PSYC 306 Advanced Theory and Treatment of Substance Abuse  3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210 or SOCI 201) and PSYC 255
Advanced information on the theory and treatment of substance abuse and addiction with both secular and biblical concepts of substance abuse, recovery, and the impact upon family systems and society. An appropriate integration of the sets of materials will focus on the 12-step method of recovery and methods of relapse prevention.
Offered: Resident and Online

PSYC 307 Treatment and Recovery of Addictions  3 Credit Hour(s)
Resident Prerequisite: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255
Online Prerequisite: PSYC 255 and (PSYC 101 or PSYC 210)
This course examines addiction recovery process theory and treatment modes. Students will understand the theoretical basis for treatment by critically assessing treatment outcome research from various approaches and formalize a practical recovery approach plan. Students will explore treatment approaches, gain a working understanding of addictions and begin to develop a practical approach to recovery. The dynamics of addiction recovery will be examined as students consider recovery obstacles for substance and sexual addiction subsets.
Offered: Resident and Online

PSYC 308 Diagnosis and Treatment of Sexual Addiction  3 Credit Hour(s)
Resident Prerequisite: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255
Online Prerequisite: PSYC 255 and (PSYC 101 or PSYC 210)
An examination of the definition, neurobiology, etiology, diagnosis and treatment of sexual addiction. Students will explore, from a biblical worldview, gender issues related to sexual addiction and related topics such as marital affairs, pornography and homosexuality.
Offered: Resident and Online

PSYC 309 Healthy Sexuality  3 Credit Hour(s)
Resident Prerequisite: PSYC 305 and (PSYC 101 or PSYC 210) and PSYC 255
Online Prerequisite: PSYC 255 and (PSYC 101 or PSYC 210)
This course provides a foundational understanding of healthy sexuality based on psychological foundations and a biblical worldview. Special attention is given to the biological foundations of sexual development, sexual enrichment, challenges, brokenness, and controversial issues surrounding healthy sexuality.
Offered: Resident and Online

</table>
PSYC 351 Multicultural Counseling and Research Issues 3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255
Mental health counseling should assist students to take their own backgrounds into account before learning about counseling approaches which center around techniques shown to be multiculturally effective. The importance of therapist characteristics will be emphasized. Additionally, research leading to the misunderstanding of minority culture members will be critiqued as the value of objective scientific reporting is recognized to be critical to advancement in the mental health field. Offered: Resident and Online

PSYC 354 Statistics for the Social Sciences 3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 255
Introduction to the descriptive statistics and probability, probability distributions, estimation, tests of hypotheses, and visual displays of data with applications in psychology and the other social sciences. Offered: Resident and Online

PSYC 355 Statistics in Psychology 3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210) and (MATH 115 or MATH 116 or MATH 117 or MATH 121 or MATH 122 or MATH 123 or MATH 125 or MATH 126 or MATH 128 or MATH 130 or MATH 131 or MATH 132 or MATH 200 or MATH 201 or BUSI 230 or MATH 217 or MATH 221 or MATH 231 or MATH 250) and PSYC 354 and PSYC 255
Introduction to statistical methodology in the social sciences, particularly as related to psychological measurement and development of scientific research studies involving quantitative investigation. Offered: Resident and Online

PSYC 356 Introduction to Qualitative Research 3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255
An overview of qualitative research methods and qualitative data analysis. The course introduces the student to the logic and process of qualitative research, to four specific qualitative research methods - phenomenology, ethnography, case study, and grounded theory - and the basics of analyzing qualitative data. Offered: Resident

PSYC 360 Psychology of Wisdom Tradition 3 Credit Hour(s)

PSYC 361 Marriage and Family 3 Credit Hour(s)
Prerequisite: PSYC 255 and (PSYC 101 or PSYC 210)
This course examines the research from the social sciences, showing the benefits of marriage to those married and to society at large, as well as the biblical basis for marriage and family. The course also investigates the research regarding family strength, incorporates instruction relating to preparation for marriage, and offers marital and family enrichment. Offered: Resident

PSYC 365 Psychological Foundations of Learning 3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
A study of human learning, including examination of conditioning, modeling, cognitive development, and high level thought processes. Models of behaviorism, social learning, cognitive development, memory, motivation, and attribution theories will be evaluated. Offered: Resident and Online

PSYC 371 Theories in Counseling and Psychotherapy 3 Credit Hour(s)
Prerequisite: PSYC 341 and PSYC 255 and (PSYC 101 or PSYC 210)
The principal current theoretical approaches to counseling and psychotherapy represented and evaluated. Exploration of techniques and methods in group and individual counseling. Offered: Resident and Online

PSYC 380 Physiological Psychology 3 Credit Hour(s)
Resident Prerequisite: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255 and (RSCH 201 or Inquiry Research with a score of 80 or Research with a score of 80 or Research (prior to 2017-2018) with a score of 80)
Online Prerequisite: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
This course is designed to investigate the most recent findings in the area of physiological psychology. Topics of study will concern basic information about the nervous system, sensory systems, physiological bases of behaviors and the development of learning and memory. Offered: Resident and Online

PSYC 401 History and Systems of Psychology 3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The history of psychology from its beginnings in early philosophical thought to the present. Emphasis is on the last century of developments in the field, the life, and works of historically eminent psychologists. Offered: Resident

PSYC 405 Group Dynamics 3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 210 or PSYC 101 or GEED 201) and PSYC 255
The study of human personality in relationship to other persons, singularly and in groups. The application of the principles of group dynamics to business, industry, public and private life will be examined in theory and demonstrated with exercises. Offered: Resident and Online

PSYC 406 Addictions and the Recovery Process 3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210) and PSYC 255 and PSYC 306
This course provides students knowledge of addictions and the recovery process. Students will learn about dual diagnosis, co-morbid issues, adjunctive treatment and support, addiction and special populations (women, adolescents, same-sex attraction, etc.), codependency, relapse prevention, crisis management and counseling and HIV. Offered: Resident

PSYC 407 Addictions Groups, Ethics and the Community 3 Credit Hour(s)
Prerequisite: PSYC 371 and PSYC 406 and PSYC 255 and (PSYC 101 or PSYC 210)
This course focuses on the issues of group counseling and dynamics, client and community, education and ethics. Students will learn both didactic and psychodynamic group counseling skills. Learning groups will prepare a program of client and community education focused on substance abuse prevention. Students will also learn about ethical issues in substance abuse treatment. Offered: Resident
PSYC 410 Psychology of Religion 3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 210 or PSYC 200 or GEED 201) and PSYC 255
A challenge to examine the role psychology plays in religious beliefs. Students will analyze and evaluate assigned texts and novels comparing aspects of ten religions and how psychological theories coincide with each system.
Offered: Resident

PSYC 420 Psychology and Christianity 3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
This course explores the relationship between Christian theology and the science of psychology. Students will focus on philosophical foundations and the major models of conceptualizing the relationship between the two disciplines.
Offered: Resident

PSYC 421 Psychological Measurement 3 Credit Hour(s)
Prerequisite: PSYC 255 and PSYC 255 and (PSYC 101 or PSYC 210)
A study of standardized tests in psychology, counseling and education. Includes personality, aptitude, general ability, achievement and interest tests. Elementary statistics necessary to test usage and interpretation will be a part of the course.
Offered: Resident

PSYC 425 Psychology of Criminal Behavior 3 Credit Hour(s)
Prerequisite: (PSYC 101 and PSYC 341) or (PSYC 210 and PSYC 345) or (PSYC 341 and SOCI 200) or (PSYC 200 and PSYC 341) and PSYC 255
Offered: Resident

PSYC 430 Abnormal Psychology 3 Credit Hour(s)
Prerequisite: PSYC 255 and (PSYC 101 or PSYC 210)
A study of neurotic and psychotic behavior including origin, classification, symptoms and a survey of diagnosis, therapy and prevention.
Offered: Resident

PSYC 440 Experimental Design in Research: Application and Construction 3 Credit Hour(s)
Prerequisite: PSYC 355 and PSYC 255 and (PSYC 101 or PSYC 210)
Acquaints the prospective research experimentalist in the behavioral sciences with a number of the basic principles used in the construction of experimental designs.
Offered: Resident

PSYC 450 Children in Healthcare 3 Credit Hour(s)
Resident Prerequisite: PSYC 255 and (PSYC 101 or PSYC 210)
Online Prerequisite: PSYC 210 and PSYC 221
This course will provide a foundational knowledge of the impact of medical illness/injury on the developmental and psychosocial well being of children, adolescents, and their families within health care. Students will gain an understanding of therapeutic interventions utilized to help reduce the negative impact of illness and increase the child/family’s ability to cope. Core areas discussed include: psycho-education, therapeutic/supportive uses of play and expressive arts, death and dying, the health-care environment, family centered care, developmental stressors, and cultural and spiritual issues.
Note: Successful completion of Children in Healthcare will meet the child life course criteria outlined by the Child Life Council. Students interested in pursuing the Child Life Professional Certification Examination are responsible for meeting with the professor after the completion of the course to complete their verification form.
Offered: Resident

PSYC 460 Counseling Processes and Techniques 3 Credit Hour(s)
Prerequisite: PSYC 341 and PSYC 371 and PSYC 255 and (PSYC 101 or PSYC 210)
Counseling theories, techniques, and practices are presented in an experiential group-practice manner. Students are introduced to a variety of counseling issues and therapeutic techniques at a level commensurate with senior status and entry into the community workplace.
Offered: Resident

PSYC 475 Psychology of Criminal Behavior 3 Credit Hour(s)
Prerequisite: PSYC 341 and (PSYC 101 or PSYC 210) and PSYC 255
An examination of the factors that contribute to criminal behavior, including various psychopathological and sociological aspects.
Offered: Resident

PSYC 495 Directed Research 1-3 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255
PSYC 495 - Directed Research (1 to 3 hours)
Offered: Resident

PSYC 497 Special Topics in Psychology 3 Credit Hour(s)
Prerequisite: (PSYC 200 or PSYC 101 or PSYC 210 or GEED 201) and PSYC 255
An examination and evaluation of moral and ethical concepts and principles as they relate to the field of psychology. A wide range of subjects will be discussed including counseling intervention systems, the exceptional child, vocational development and human development.
Offered: Resident

PSYC 498 Senior Project 3 Credit Hour(s)
Prerequisite: PSYC 355 and PSYC 440
Junior or Senior majors in Psychology will engage in a formal project of research, calling upon their previous courses in statistics and research methods, to produce a detailed project as a written capstone to a Psychology education.
Offered: Resident

PSYC 499 Internship 1-6 Credit Hour(s)
Prerequisite: (PSYC 101 or PSYC 200 or PSYC 210 or GEED 201) and PSYC 255
Selected topics in psychology will be treated at an advanced level. Experience will be acquired in clinical settings and through exposure/inter opportunities. Applications are processed through the department Faculty Intern Advisor. Applicants must apply the semester prior to starting the internship.
Registration Restrictions: 2.00+ overall GPA, Senior or Junior Status, 18 credits of PSYC coursework successfully completed, suitable internship site, and completed Student Internship Agreement (SIA)
Offered: Resident
